

## **MOM'S HELPFULNESS – PART 3**

**By Klrxo**

**“Alden, can I come in?” Anthony asked as he tapped on his son's door.**

**“Alden??”**

**Anthony’s son finally answered, sounding a bit out of breath. “Yeah, dad...you can, umm...come in!”**

**Anthony peeked in Alden's bedroom, looking over at his biological son laying in bed under the covers, with both broken arms propped up. Last night, Alden had stayed with his father and stepmom, since his parents had joint custody. “Have you seen Darci? I left for work, but had to come back to the house because I forgot to ask her about something.”**

**The boy gulped nervously. “No...I um, haven't seen her yet this morning,” he replied, hoping he didn’t have any of his stepmom's pink lipstick smeared on his face.**

**“Alright. Maybe she went next door to borrow something. When you see her, have her give me a call, alright?”**

**“Sure thing, dad.”**

**As soon as the door closed, the fluffy comforter moved and Darci, his redheaded stepmom peeked out. She grinned down at her stepson naughtily, gazing at him with her piercing green eyes. “Fuck..that was close!” she whispered, then quickly locked lips with him for a fiery French kiss, while rubbing her huge naked tits all over his bare chest.**

**The teenager squirmed in delight. With two broken arms, he was completely at her mercy. For nearly a half-hour his stepmother had been in his bedroom, under the blankets, showering his young body with affection. She wore only a skimpy pair of black panties to prevent him from sliding inside her overheated cunt, but this didn’t stop them from engaging in a heated dry-fuck. Although ‘dry’ probably wasn’t the most accurate word to describe it. Darci's panties were soaking wet! Grinding against Alden's big rigid love-muscle had REALLY got**

her juices flowing, and the pre-ejaculatory slime that oozed from the teen's excited piss-slit made their sticky crotches wrestle in a heated swamp of genital flesh.

**"God, I'm kicking myself!" Darci gasped. "You don't know how bad I wanna rip my panties off and fuck that big, teenage cock of yours all morning!"**

As she slid up slightly, kissing the side of his neck, Alden found his face smothered in squishy tit-cleavage. He turned it slightly so he could kiss the huge inner slope of her breast. **"Why don't you then?"** he curiously asked. Alden was certainly ready to ram his rod up inside her and make her cry out in ecstasy.

**"Because I promised your mom that SHE could fuck you first, that's why."**

**"Oh, well...why did you do that?"**

**"She IS your biological mother, Alden, and I'm just your stepmom. She should get to enjoy your big teenage cock inside her before I do."**

**"I hope it's soon. I'm super-horny right now!"** Alden confessed, thrusting his cunt-smothered dick upward, squashing it between the puffy, panty-shrouded flanges of Darci's cunt. Even through the fabric, the slit of her vulva felt so hot against the meat of his naked boner. Using her wide mommy-hips, Darci pushed him back down to the bed, then did a wonderful glide up and back along the rigid stalk of his prick.

**"She's on her way over, BUT...not to fuck you just yet. We're both taking you for your check-up at the doctor's office. In fact, we should probably start getting ready."**

**"Damn...I forgot that was today,"** the teen scowled.

**"Yeah, it has been a week since we brought you home from the hospital, kiddo."**

**"Considering I broke both my arms, it HAS been a pretty fun week,"** the boy admitted.

**"Why's that...because you've been getting blown and stroked off from your mom and I so much?"** Darci giggled.

**"Bingo!"**

**“Well...we couldn't just let your balls turn all blue, now could we? We moms know how much you boys like to yank on your cocks,” she teased, pushing her cunt down on his stiff prick. “So it would be cruel of us not to help you.”**

**“It feels so much better when you guys do it,” Alden confessed. “There's a part of me that's hoping my arms NEVER heal.”**

**“And which part might that be?” Darci asked teasingly, even though she knew the answer.**

**“The part that’s been getting all the amazing attention!”**

**“Oh, ” she sighed, then smothered his boner with the puffy lips of her snatch, “that part? Well, it's been kind of a thrill for us too...in case you haven't noticed.”**

**“Is the sex bad between you and my dad?” Alden asked.**

**“No...it's fine, but he's certainly not YOU,” Darci answered.**

**“Meaning what?”**

**“Meaning he's not as young and hot as you. Not to mention no where near as incredibly endowed as you are! You know...the kinds of things that get us moms all hot and horny.”**

**They suddenly heard a voice from the doorway. “I figured that's where I find you two when I got here,” Kat stated as she stepped in the room on four-inch stiletto heels.**

**“We were just getting up,” Darci replied, slipping out of bed, “AND don't worry...we didn’t fuck. See...I'm still wearing panties.”**

**“Yeah, I can see that, and it looks like a pack of wild dogs has been drooling all over them,” Kat pointed out in amusement.**

**Darci laughed as she headed towards the door; her fat tits bobbling with each step and her meaty ass undulating beneath her panty-clad ass. “More like an hours-worth of teenage pre-cum smearing all over them,” she remarked.**

**Kat sat at the edge of her boy's bed, reached beneath the blanket and grasped his rigid cock. “Any pre-cum left for mom?” she teased.**

**"I'm sure there is," he sighed, feeling her give him a nice, slow stroke beneath the blanket.**

**"Mmm, good. A boy's pre-jizz is a mother's delicacy."**

**"Why's that?" Alden asked, his heart racing fast.**

**She stared down into his eyes seductively. "Well, first of all, it's nice and slippery. It'll be wonderful lubricant once your dreamy dick is finally hammering through my pussy."**

**"Yes...I can't argue with that," Alden gasped, feeling his mom's hand give his gooey glans a tight stroke.**

**"And second...," Kat whispered, bringing her hand out from beneath the blanket, then swiping a gob of Alden's pre-drool off her finger with her tongue, "...it just tastes SO fucking yummy!"**

**"Wow...that was hot, mom!" the boy exclaimed.**

**"Well...too bad you have an appointment this morning or I would show you something even hotter."**

**"Like what?"**

**She stared into his eyes intently through her parted curtain of dark hair. "Like your mom stripping naked, crawling on top of you and fucking like a whore, until I've completely emptied those young tanks, that's what."**

**"Damn! Do I have to go to this appointment?" Alden asked.**

**"Yes...you do, baby. Besides, your appointment is with Doctor Chase. She has big titties, remember? You've drooled over them since you were a little boy."**

**"I've been drooling over YOURS since I was a little boy too."**

**Kat giggled and thrust her tits out, making them balloon beneath her blouse.**

**"Well...aren't you glad you're a big boy now and get to do more than drool over them?"**

**"I wish I was doing more than drooling over them now," Alden confessed, staring at his mom's bosom.**

**“Well, after your appointment, maybe your step mommy and I will bring you back here, smother you with our big, squishy boobs, while we drain you dry. How's that sound?”**

**“Drain me how?”**

**“With our mouths...or our assholes maybe,” she teased.**

**“Can I fuck your pussy today?” Alden asked.**

**“You know mommy has every intention of using her cunt on you, but I want our first time to be when we're alone, and we can REALLY fuck each other's asses off. Don't worry, baby...mom will make sure you're well taken care of in the meantime. Now, let's get you up and dressed.”**

**The three of them drove to the clinic, where Alden had a follow up appointment with his family doctor. “Alden, how have your arms been feeling since I saw you last?” Doctor Chase, a middle-aged dirty-blonde asked. She studied his casts, while sitting right in front of him on her desk chair.**

**“Not bad. They get itchy sometimes, but I'm getting used to it?”**

**“Any pain at all?”**

**“No, not much.”**

**“Your mom and step mom have been giving you regular sponge baths, correct?” the doctor asked, glancing at Kat and Darci as they sat to each side of the teen.**

**“Yes,” he replied, staring at the doctor's ample cleavage.**

**“He was shy about it at first, but things have gotten better now, right sweetie?” Kat asked her son.**

**“Uh-huh.”**

**“What about masturbation? How have you been managing that?” Doctor Chase asked.**

**Alden hesitated a moment, exchanging an awkward look with his mom.**

Kat saved the day, answering for her boy. "We've been...um, helping out a little with that too."

Darci chimed in. "Yeah, since that's a regular part of a boy's routine, and we certainly didn't wanna see Alden suffer from not being able to relieve himself."

The doctor nodded, using her stethoscope to check the boy's heart. "That's good to hear. It's very common for a mother, or stepmother to help in these types of situations and there are a variety of ways she can do that. My concern, however, is that a boy may not be getting the same level of release as before, which can cause significant testicular swelling," she explained. "Alden, how many times were you ejaculating in a day, before you broke your arms?"

"Usually four to five times," he timidly replied.

"And how many times a day has it been, since then?" Doctor Chase asked, looking at the mothers.

"I would say at least three ejaculations a day, since the accident," Darci replied.

"That sounds about right," Kat agreed. "Three...sometimes four times a day."

"Well, that is less than what he was getting BEFORE the accident. I'd like to do a physical examination to make sure there are no signs of swelling. Alden, if your moms wouldn't mind helping you get undressed, I'd like you to lay up on the examination table for me, so I can have a look at you," the doctor instructed.

"Alright," the boy answered, then stood up. Kat and Darci stripped the boy down to his birthday suit, while the doctor prepped the table. Both moms smiled at him teasingly, acknowledging the fact that he was completely erect.

"Lay right up here on the table, Alden, and rest your arms at your sides," Doctor Chase directed, her eyes widening at the sight of his stiff appendage.

Once the boy did as she asked the doctor raises some stirrups into place. "Now, Alden, you'll need to bring your knees back and rest your feet into these stirrups, so I can do a full testicular exam," she requested.

"Is there anything we can do to help?" Kat asked as her and Darci stood by awkwardly.

**“Let me have a look at his balls first and then I'll let you know,” Doctor Chase replied, then put on her glasses and sat in her chair at the edge of the table, so she could examine the boy's nuts. “Hmm, I AM seeing some mild swelling here.”**

**The two moms stepped over in concern, so they could see what the doctor was referring to. “Is it bad?” Kat asked.**

**Doctor Chase pointed to an area of the boy's bulging, hairless nuts. “That faint bluish color there, around the testes. That's a sign of something called epididymal hypertension, which is also known as ‘blue balls.’”**

**“I thought a boy only got ‘blue balls’ if he’s gone DAYS without an orgasm?” Kat asked.**

**“That may be true for some, but in Alden’s case, where his genitals have been accustomed to ejaculating so frequently, it may only take a day for there to be some visible swelling.”**

**“That could be my fault then,” Darci admitted. “I did suck him off last night, around midnight, but Alden and I also some fooling around this morning, and I should have made sure he got off before his appointment.”**

**“Alden, do you have any pain or discomfort around your testicles?” Doctor Chase asked him.**

**“No...not really.”**

**“Even so...I think a strong ejaculation, here in my office today would do you some good. Since your mom and stepmom have already been assisting you that way, I'll have them help me, so we can make sure you’re relieved as intensely as possible.”**

**“What would you like us to do?” Alden's beautiful, dark-haired mother asked the doctor.**

**“First, we'll need to provide proper visual stimulation to assist Alden in maintaining arousal, so why don't we start by getting undressed,” the doctor suggested.**

**“Naked?” Kat asked, making sure she heard the doctor correctly.**

**“Yes...unless that's a problem?”**

**“No-no...not at all. I just wanted to make sure that’s what you meant.”**

**“Yes. Female nudity is the easiest way to keep a boy aroused.”**

**Alden watched with wide-eyed delight as the three moms slipped off their outfits. Their huge tits bobbed heavily as they sprung free of their bras. Just like those of his mom and stepmom, Doctor Chase's breasts were capped by wide dusky-pink areolas with turgid nipples. As Alden's mom had teased him about earlier, the boy had spend years gawking over the doctor's breasts, imagining what they'd look like with nothing covering them. Now, here they were, in all their naked glory. It was like a childhood fantasy come true!**

**“Get that tongue back in your mouth, mister!” Kat joked, making the two other moms giggle.**

**Doctor Chase stared at the teenager’s erect penis. “It looks as though healthy blood flow isn’t an issue. Alden, did you know that almost half of your penis is hidden inside your body?”**

**“Really?” the boy asked, exchanging a surprised look with his mom.**

**“That’s right. If you press down on your perineum when you’re erect, you’d be able to feel the concealed part of your penis. So, technically, you’re actually double the size you think you are.”**

**“Oh boy...double as huge! Where would we even put the rest of it?” Darci joked, making the other women laugh.**

**The fascinated teen watched them step out of their heels and peel their dainty panties off. All three pussies were shaved clean and had well-pronounced vulvar lips that converged to form dark cuntal fissures. The lucky boy licked his lips, wishing he could smash his big, stiff prick through each one of them, especially his mom's pussy, which he'd secretly desired for years.**

**“Can I um...ask you guys to do something?” Alden bravely inquired. “Something that would, um...help with the ‘visual stimulation’ part that you were talking about.”**

**“What’s that, Alden?” the doctor asked, raising an eyebrow curiously.**

**“Can you guys stand together, turn around and bend over?”**

The three women looked at each other and snickered. "I suppose we could do that," the doctor answered.

Alden watched intently as they followed his request, standing hip to hip with their backs to him so he could admire their luscious bubble butts. They bent over, causing their huge knockers to hang down heavily. Alden gulped excitedly, staring at not only their rounded ass-flesh, but the thick outer lips of their hairless vulvas that flanked their cunt-slits. The way their buns were slightly spread allowed him to even get a peek at the rings of their buttoles.

"How's that, Alden?" Doctor Chase asked, peering back at him.. "Is that what you wanted?"

"Yes!" he answered, while imagining that he was fucking each one of them from behind.

"Any other requests?"

"Well, um..."

"What's on your mind, honey?" Kat asked as the three women stepped over to him, their fatty mammaries careening on their chests from their immense weight.

"Never mind," Alden stated, afraid to ask for what he was thinking, for fear that they think he was a complete pervert.

Doctor Chase put her hand on his chest reassuringly, looking down at him over the swell of her jutting melons. "Alden, if there's something that would make you aroused and make the ejaculation that we're about to give you stronger, don't hesitate to ask. The worst we can say is no," the doctor urged.

"Would it be ok if I, um...sucked on you?" he bravely inquired.

"Sucked on my breasts?"

"Yes," the boy responded, staring at her fat jugs. They loomed over him teasingly.

**Kat giggled, looking at the doctor. “I think it's something he's been fantasizing about for a long time, doctor,” she explained.**

**“Is that so?” Doctor Chase asked, winking down at the aroused teen. “Well then...I suppose a little breast sucking wouldn't be out of the question.”**

**Alden's heart raced wildly as she lowered one of her dangling tits to his face, letting him latch on.**

**“I'm curious, Kat...was Alden breastfed as an infant?” the doctor asked as she watched the boy get to work.**

**“Yes...all my children were.”**

**“Well, that would explain his strong desire to suckle. When a mother breastfeeds her boy, a special bond is formed, and the experience is forever ingrained into a boy's mind, attracting him to women with larger breasts.”**

**Alden whimpered as nearly his entire face was smothered in warm, spongy tit-flesh. His lips were sealed around the fringe of Doctor Chase's wide areola, his cheeks suctioning her swollen nipple deep into his mouth.**

**Darci smiled as she watched her stepson suck. “His obsession with sucking big tits is certainly something he's shown us over the past week,” she confirmed.**

**After letting the teen gorge himself on her breast for a few minutes, Doctor Chase tugged her nipple from his mouth. “There now, sweet boy...is there anything else we can do to get you worked up for a strong ejaculation?” she asked.**

**Alden turned his head, staring at the Doctor's shaved pussy, which was only a foot away from his ogling eyes. He could see her fleshy prepuce protruding from her labials folds. “Could I, um...taste you guys?” he boldly asked.**

**“Taste our vaginas you mean?” Doctor Chase asked.**

**“Yeah.”**

**The doctor looked at the mothers and smiled. “What do you moms think?” she asked. “Should we give him something good to smell and taste before we work him off?”**

**“Whatever you think might help him I’m willing to go along with, doctor,” Kat answered.**

**“Same here,” Darci added. “We’re both fully committed to helping Alden through this tough time in any way we can.”**

**A few minutes later, Alden was peeking from his mom's crotch, staring straight up her torso as she straddled his face on the examination table. His tongue dug through her fragrant labial folds, lapping up the fuck-oil that oozed from her honeyed hole. He chewed at her grape-sized nubbin with his lips, while she gently rocked her pelvis in ecstasy. He couldn't imagine a better view. From his vantage point he could stare straight up her bare pubis and trim belly, allowing**

a clear view her mammoth tits and their rounded undersides as they jostled to her every movement.

By the time his mom's cunt lifted off him, half his face was coated in pussy-juice. He licked some from his lips, watching his stepmom's jugs dangle as she crawled over the top of him to take her turn. When her knees rested astride his head, Alden's tongue played against the fat ridges of Darci's cunt lips. He pressed his face against the musky flesh of her pudenda, then dove his tongue deep inside her cunt-hole. Her hot flavorful walls quivered and sucked at his licker as if trying to draw it deeper inside. The teen couldn't wait to bury his big rigid boner deep inside that tight little fuck-hole, right down to his cock-root.

Doctor Chase was next on board. Alden laved at her fleshy cunt like a salivating dog. Like his mom, the doctor had an extraordinary large clitoris. He sucked it into his mouth and battered the fat, glandular bulb with his tongue. He loved looking up her sexy body, while eating her out; watching her fat tits reel back and forth on her chest.

"How was that, Alden?" Doctor Chase asked, rising off of him. "Are you ready for us to work you to orgasm now?"

"Yes...that was awesome, thanks!" the teen answered, his face still glistening with juices.

"Kat, if you wouldn't mind taking charge of the penile masturbation, Darci and I will work together to do an oral massage of his scrotum," the Doctor directed, making the boy's heart about race out of his chest.

"No problem. I think he's gotten quite used to my handjobs over the past week, right, sweetie?"

"Yep!" Alden anxiously nodded.

"There's heated lubrication there on the side-table," Doctor Chase stated. "I'll be using a little on my finger also, since I'd like to massage Alden's prostate, while Darci and I are sucking his balls."

Alden watched his mom squirt some lube on her hand, then smile down at him warmly as she stood beside the table with her big breasts ballooning out

obscenely. He shuddered in delight as all three women went to work on him at once.

Darci and Doctor Chase leaned over, sucking one of his fat testicles into their mouths. The feel of their warm saliva and squirming tongues made the boy gasp in pleasure.

Kat wrapped her fist tightly around her son's erection, although it didn't even come close to going all the way around, especially near the base. Then, she stroked it's meaty length up and down, from knob to root. Her slippery fist made a lewd creamy sound as it worked the length of his jutting stalk.

"Does that feel good, baby?" she sweetly asked, her giant milkers jiggling with her every stroke.

"Yes!" he gasped.

Alden's nut popped from Doctor Chase's lips. "Kat, be sure to pay particular attention to the bulb of your son's penis. That area near his testicles that feels slightly spongier. Massage it in an upward motion, like you're trying to coax a stubborn load out of him," she coached.

"Got it!" the mother nodded.

The doctor brought her lips back down near Darci's. The stepmom was still nursing on one of his tender balls, the ring of her lips closed tightly around the loose skin of his sack. "Darci, let's gently pull his balls downward, away from his body, doing this in a rhythmic motion, each time Kat pumps her fist up his shaft. This will pull on his spermatic cord and stimulate his testicles."

The doctor gobbled up his nut again and together they did as she suggested, tugging rhythmically at Alden's scrotum. While doing this, they scrubbed the oval-shaped meat of his nuts with their lickers, focusing on what they knew were the most sensitive parts. Darci and Doctor Chase's lips nearly touched, while closed tightly around the skin of the teen's nut sack, their mouths stuffed with ball-meat.

Alden looked down and watched his mom's pretty hand glide up and down his boner. She stroked with skill, doing a perfect corkscrew motion, gliding her thumb wetly over the stretched band of his frenulum and over his glans.

**“Ahhh!” he sighed, enjoying the exquisite friction. She had given him numerous handjob over the past week, but each one seemed equally as exciting.**

**Even though Kat had seen her boy's prick plenty of times by now and even felt it buried deep in her ass a few times, she couldn't get over how big and muscular it was. She squeezed hard on his stalk, compressing her hand around the three blood-engorged columns that comprised his penile shaft. She felt the smooth muscle beneath the skin contract, making his knob mushroom wonderfully. Her eyes widened at the sight of the two ligaments at the root of his prick bulging and straining as they sustained the force of her vigorous cock-milking.**

**“Ohh, your dick is REALLY liking that, isn't it, honey?” she cooed, staring down into eyes over her big, bobbling boobies.**

**“Yes!” Alden hissed. He watched his beautiful mother lean over and whip her long, thick tongue all over his bell tip, wetting it with her saliva, while beating the bottom half of his stalk. He felt the doctor's index finger slip into his ass and begin massaging his prostate with the “come hither” motion. “Ohh, damn!” the boy groaned, his cock and balls tingling exquisitely.**

**After several delightful minutes of this, Doctor Chase wrapped the fingers of her free hand around the loose skin beneath his balls tightly. This made Alden's nuts bugle out lewdly. “Let's lick his scrotal raphe!” the doctor breathlessly suggested to Darci. Their long mommy-tongues touched repeatedly as they whipped down the seam between his testis, where the labia majora had once fused together when he was just a fetus inside Kat's womb. “GODDAMN!” the boy jerked, never feeling anything else like it.**

**They bathed his perineum with sloppy kisses, then worked their way back up. When the women reached his ballooning scrotum, they scraped their teeth around his gonads gingerly, then nibbled at the loose skin of his ball-bag, making the boy squirm in delight. Doctor Chase continued the tireless fingering of his asshole, massaging his prostate.**

**“Oh, mom...I'm gonna cum real soon!” the boy whimpered, having never been worked over so thoroughly. He watched his mom's fist fly up and down his steely pecker. Alden loved how it felt like a tight, wet pussy pummeling his horny dick right down to the root and back up.**

**“Just grunt and groan into mommy's cleavage, baby!” Kat urged, then dropped her heavy tits down around his grimacing face, while continuing to reach back and stroke him vigorously.**

**“HHMMFF!!” the teen grumbled, shivering with pleasure; his voice muffled by pounds of quivering tit-meat.**

**Darci and Doctor Chase felt the boy's nuts pull closer to his body, but they used wet suction to pull them back out, stretching the cord of his vas deferens. Alden's balls swelled within their mouths, their darting tongues setting off nerve endings that added to the divine pleasure being given to his penis.**

**“AHHH, SHIT!” Alden groaned into his mom's squishy tit-canyon, his back arching in delight as he hosed out the longest, fattest cum-rope of his life. It jetted upward, four-feet into the air, like some sort of slimy, pearly-white geyser, then splattered down onto Kat's back. More jets of creamy ball-jizz followed in rapid succession as his dick and balls got the royal work over. The action didn't stop for several minutes...not until the busty moms knew they had drained every drop from his young nuts.**

**When they were dressed again, Doctor Chase wrote down a prescription, handed it to Kat while giving Matt a serious look. “Five to six orgasms daily, Alden...until your casts come off,” she instructed, then shared a naughty smile with the boy's mother. “Doctors orders!”**

**“I think we can manage that,” Kat replied.**

**“I think so too,” Darci added, her stiff nipples clearly showing through her blouse.**
