

Mom's Morning Ride

By Klrxo

Alex loved watching his mom's 38 double-h cup tits bounce while she rode his cock. He only knew they were that huge because he used to sneak into her laundry hamper and read the tags on her beautiful embroidered bras.

"I sure am glad dad took Sydney to the park this morning," Alex confessed, watching her fatty melons ripple delightfully as they leaped up and down.

Megan gazed down at her boy over the ballooning swell of her twin mounds. "Why's that? So you can fuck his wife and watch her tits bounce around like crazy?" she teased.

"You got it!"

"Maybe I should divorce him. Then we could fuck like this any time we wanted," Megan suggested.

"Seriously?"

The brunette mother giggled. "No, I can't divorce your father. He works hard so I can stay home and ride your fat cock like this all day," she reminded him.

"True."

"Besides, it's more fun to know I'm cheating on him," she said with a shivering thrill. "To know our own son's fucking me better than he is, behind his back."

Alex's cock was glistening with sweet cuntal nectar as it pounded stiffly through the ribbed lining of his mom's most private place. The head of her fertile womb kissed his tender knob on every plunge, becoming wet and slimy with his leaking pre-cum.

"I'm ovulating today," Megan said, with cute huffing breath from her bouncing rhythm. "Which means if you cum inside my pussy today, you're probably gonna get me pregnant."

"Should I put a condom on?" Alex asked.

"Ugh...no! Don't even say that nasty c-word!" Megan said in disgust. "No boy of mine is wearing a condom...ever! It's nothing but bareback pussy for my handsome baby boy. Flesh on flesh."

"If you say so," Alex gasped excitedly, making his dick flex in the oily grip of his mom's cunt. He was glad his mom was so anti-condom. The pink tissue lining her vagina was hot and snug and slippery, swathing the tender slab of his cock in experienced mommy-pussy.

Megan's bare pubis beat against her son's cock-base, the rounded fleshy dome of her clitoral hood jiggling with every strike. "SMACK! SMACK! SMACK! SMACK! SMACK! SMACK!"

"We need your boner unsheathed, because you wanna give me a baby, don't you, honey?" she asked. "Every boy wants to get his mom big n preggers with their horny cock."

"I wouldn't mind," her son responded, watching her jutting knockers heave up and down. The thick rubbery nipples protruding from the wide rings of her areola looked so thick and suckable.

"Mm, make my belly big and round, and my tits so huge and milk-swollen that I could smother your entire fucking head between them," she passionately exclaimed.

Alex gulped excitedly. "Yes please," he muttered.

"Would you like that, honey?" Megan asked, grinding their pubis's together. "Would you like mommy to get so pregnant and hormonal that she just wants to fuck you all day long?"

"God yes!" the boy gasped, his dick twitching with excitement. His mom acknowledged the twitch with a cuntal squeeze.

"I'll let you experience the pleasure that a mom's pregnant pussy can give you, while you nurse at my nipples."

"Oh damn, mom...that sounds so hot!"

Megan brought her naked tits down against her boy, mashing them against his lean

chest like soft warm bread-dough as she gazed lustfully with her beautiful hazel eyes. "My engorged nipples will leak all over us...making our bodies nice n slippery while we fuck," she said lustfully, her thick rounded mommy-ass still bobbing steadily up and down.

"Ohh!" her boy gasped, shuddering in arousal.

She kissed him sensually with her pink bee stung lips. "I can sandwich our baby's fetus between us, so we can feel it move around while I ride your boner."

"That sounds amazing!"

"Does it, baby? We'll have to get rid of your wimp-dicked father every chance we get, so you can fuck his pregnant wife straight up the pussy," the pretty brunette said.

"And make her cum and cum!" the boy added excitedly.

"Mm, that's my baby," she said, kissing his lips sensually. "You know how much I like to squirt my hot mommy-juice all over your big pink love-muscle, don't you?"

"Yeah I do!" the boy answered, humping his hips from the mattress, spearing his cock in as deep as it could go.

"Ohh, you animal!" she cried out, fucking him with eager vigor, stretching the back wall of her cunt with his fat bell tip. "No wonder the girls at your school are lining up to fuck you."

"Yes," the boy gasped, a bit surprised to hear that his mom knew about his sexual popularity.

"Your mom used to be like one of those hot girls at school you know?" she said, tightening her inner muscles. "Fucking all that jock dick with her hot cheerleader pussy."

"Oh wow!" the boy sighed, delighted at the thought of it.

"That's why you don't need all those sluts now, honey. You've got hot cheerleader mommy-pussy to beat your dick into," she panted.

Alex craned his head up, making his face sink wonderfully in the soft gaping canyon

between his mom's boobs. "That's right. There's only one girl I wanna fuck," he said, his voice muffled by pounds of squishy tit-meat.

A lewd wet CLAPPING sound filled the room as their humping genitals beat together.

"Then fuck her then!" the mother shouted, pumping with everything she had. "Fuck your baby into me!"

Alex grasped onto her, mashing their wildly humping bodies together.

"Mmmnnfff!" the boy groaned in delight, with his face masked in the spongy fatty flesh of his mom's huge tit.

Her hot juicy vagina felt exquisite plunging up and down his steely prick from balls to tip. Megan flexed her strong cuntal muscles in a kegel grip around him, making her pink ribbed lining milk her boy's dong with skillful friction.

"OH GOD, I'M GONNA CUM ON YOUR COCK!!" she grunted out, feeling her climax swell.

The mother's urethral slit bulged out from the top of her cock-stuffed cuntal vestibule, blasting hot girl-cum around her boy's pistoning erection. Her beautiful heavy-titted body shuddered atop her teen as a mind-blowing orgasm surged through her like an electric current.

"FUCK, MOM!!" her teen whimpered, feeling his dick tingle and his prostate swell.

"AHHH!!" his voice trembled, as ball-juice blasted like hot lava from the slit of his cunt-smothered meatus.

"AHHH!" he groaned again into her jiggling pocket of tit-meat, trembling beneath his hot mother as he filled her birthing tube with rich potent blasts of boy cum.

For several dreamy minutes they bucked and writhed, moaning and shaking as if sharing one tremendous orgasm.

Megan finally lifted her head from her son's shoulder. "Kiss me, baby," she cooed, meeting his lips with hers.

Her long thick tongue squirmed into his mouth and their lickers lashed together like pink snake-tails.

"Mm, you always make mommy cum so hard," she whispered breathlessly between smooches.

"You make me cum hard also," he said.

"Mmm, and such a big creamy load too," she said, feeling his spunk slosh around inside her sex chamber as she kissed him a few more times. "Mommy loves big creamy loads. The kind that can make her belly big and round...and her titties swell with milk."

"I hope that happens," her son said.

"Well, your dick IS still hard," she pointed out, gripping it with her semen-plastered cunt tube. "Wanna fuck again, just to be sure we plant as much baby-making seed as possible?"

"If I have to," the boy joked.

His mom giggled and suddenly rolled them over, so her boy was on top of her, with his boner still wedged deeply in her vagina. She scissored her legs back in a wide V, with her dainty bare feet pointed back towards the headboard.

"Damn, mom...I never knew you could spread your legs back that far!" the wide-eyed teen exclaimed, looking up the backs of her silky spread-eagled legs.

"Cook, clean and fuck, honey. It's what we mom's do...and we're VERY good at all three," she said.

"Super awesome!"

"Now," she said, reaching up and stroking his cheek tenderly, "why don't you pump a 'super-awesome' baby inside me, so you have a pregnant mom to fuck."

"Yes ma'am!" the teen said, setting his hips in motion.
