

Mom, Monica and I arrived at the apartment around 4 in the afternoon, my father had to stay to finish some reports from work and would not arrive until Sunday morning, we were going to spend the week at our apartment in the Spanish Levante region.

When we arrived mom organized everything, Monica my sister was 18 years old and she just wanted to have fun so I had to help my mother, around that time we always used to go to that apartment, it was on the beachfront and my father had bought it more than 15 years ago, the area at that time was very cheap but nowadays it had been revalued and the apartment was then worth about 4 times more than what it cost my father.

My mother's name was Irene and she liked to visit there at the beginning of September because even though it is summer season there are less people, besides as my mother is a housewife and does not work, the only one who has to adapt the dates to his work is my father who works as a lawyer.

It took us less than half an hour to organize everything and then we went to eat at a restaurant nearby, when we returned as we were tired from the trip we took a nap.

It must have been 6:30 when I felt someone yelling at me and putting something in my mouth, I did not realize what was happening until I got to the living room, there were my sister and my mother dressed in bikinis, I remembered that when I went to my bedroom the 2 of them were lying in the pool sunbathing.

Next to them there were 4 other men, when the one who carried me in his arms threw me on the sofa next to my family I could see that he was a black man of impressive dimensions.

"This is the last boss, there is no one else in the house anymore."

"You guys are a bunch of assholes, I told you to look for an empty apartment, we've been planning it for a month and it turns out that there couldn't be more people in this fucking apartment, the only thing missing is a fucking dog."

"Sorry boss, this place has been empty for months, they just happened to be on vacation right now".

"It's all right, it's all right, there's nothing to be done, we have to stay here until Monday, so it doesn't matter, we'll have to resign ourselves".

My sister and my mother were also gagged and whimpered incessantly, they were very scared and why deny it, so was I, the one who seemed to be the boss was a rather strong guy and not very tall but with eyes that would freeze the heart of the devil himself, he was the one who addressed my mother.

"Listen carefully ma'am and nothing will happen to you, my boys have been in charge of locking all the doors and windows and cutting the telephone line, there is no way out, we have to stay here until Monday, you don't have to know more but I will tell you that we must be hidden here until this blows over, behave yourselves and all this will be nothing more than a simple anecdote, if on the contrary you don't obey my boys or me I will have to get angry".

This last thing he said taking his hand to his belt where he had a large caliber pistol, then they untied us, the 3 of us were aware of the situation, they were 5 so the confrontation was unthinkable, they were also armed, asking for help did not seem an option, being on the beachfront people passed nearby in large groups, but they made such a ruckus that no one would hear us. The best thing was to try to remain calm, it did not seem that they wanted to harm us and when they found us there they must have been as surprised as we were.

The boss, nicknamed "Turk" by his coworkers, turned on the TV and turned on the news, we didn't know what he was doing until the news came on and we ended up more terrified than we already were.

"Apparently there were 5 men who acted in the robbery of the central bank taking the lives of two security guards and a policeman who tried to stop them in their flight, the loot has been more than 3 million euros and the police are looking for them desperately because they believe they will try to leave the country as soon as possible, they are armed and very dangerous, the only 2 criminals identified so far are Joaquin Reyes alias the Turk and Mohamed Raim known as the Bear".

The photos left no doubt, the bank robbers were the men who were in our apartment.

"Well guys, you heard the man, they're looking for us so we're not leaving here until Charlie comes for us."

"Boss, at least we can take a dip in the pool, right?"

"You're like children, do whatever you want, but don't draw too much attention to yourselves".

The 4 men except the boss undressed completely and got into the pool, the Turk asked my mother and sister to go for a swim too, mom refused but one look from the Turk was enough to make her change her mind.

But the Turk considered that it was not fair that his buddies were naked and my mother and sister were not, so he undressed himself leaving a dick of considerable size in sight, then he put my mother and sister together and from behind untied the top of their bikinis letting them fall to the floor and their tits exposed for all to see. The two covered themselves with their hands, whimpering, but soon the Turk pulled at their remaining bikinis until my mother and sister found themselves with their bikini bottoms around their ankles and had to use another hand to cover their pussies.

Like the men, I could also see how both of their pussies were completely shaved and although the age difference between my sister and my mother was noticeable, it was very clear that they were of the same blood.

The Turk shouted at me that I could stay dressed if I wanted to and of course that's what I did, then he turned to my sister and my mother.

He forced them to drop their arms around their waists and show their bodies in all their splendor, their well-shaped legs, their firm breasts, larger ones on my mother than those of my sister, and finally their most intimate part, free of all hair, something

that didn't surprise me in my sister but did in my mother, whom I didn't know was so modern. The situation disgusted me the humiliated faces of my mother and sister as they stood naked and gawked by those men were evident but I could not help but marvel at the incredible body my own sister possessed.

After a few hours my mother and my sister no longer made an effort to cover up and displayed themselves naked without any modesty, this was approved by the Turk who said that until they left, everyone would go around the house naked because it was a feeling of freedom that he loved and so it was, my mother and my sister did not dress again and neither did the men.

At about 9 the Turk ordered my mother to prepare some dinner, some macaroni would be enough, at 10, they came out of the kitchen naked and carrying two bowls of macaroni, I had been in charge of setting the table and the Turk asked me to sit with them at the table in the living room, I obeyed.

Mama served the plates and when they were about to sit down, the Turk stopped them.

"No ma'am, you and your daughter can't eat macaroni, that's something too vulgar for ladies like you, you have a special dish, meat on a stick and you have it under the table, you can eat until you're full and also for dessert you will have sweetened milk."

The cronies laughed at their boss's humor and my heart froze, I knew what that meant and so did my mother, she cried and begged them to at least leave my sister alone, but the Turk said nothing, he simply took the gun he had in his belt and pointed it

at my head, my mother understood perfectly and together with my sister they knelt down and got under the table.

To my shame the table in the living room was made of glass and you could see perfectly the bottom of the table, mom cried and begged to at least let me go to the room to not see what they had to do, but the pig of the Turk said it was rude to leave the table when the rest had not finished so until they had dined on their meat kebab, no one could leave.

I had to witness the total humiliation and degradation of seeing my mother and my sister being forced to suck the cocks of those savages. Mom approached the Turk's cock, grabbed it with both hands, and shoved into her mouth as much as she could, licking the mass of flesh of his glans, swirling her tongue as she sucked it. It was quite a spectacle, and meanwhile, my sister attended to the member of the man closest to the Turk; he was the oldest of them all, and they called him 'grandpa.

My mother sucked the Turk's cock the best she knew how, she put as much as she could in her mouth and then took it out again and licked the glans, she went down his shaft slowly with her tongue and licked his balls, she even stopped to kiss them, my mother was aware of the danger we were in and that she had to be complacent with those men.

My sister acted in the same way, sucking Grandpa's cock, I would almost say gluttonously, his somewhat smaller size made it possible for my sister to position herself to better deepthroat his cock down to the root, that's what she was doing when Grandpa started to pant.

"Fuck boss, the kid sucks so good, I'm cumming, I'm cumming in her mouth, ahhhh"

And so it was, grabbing my sister's head against his cock, Grandpa unloaded his balls into my sister's mouth who, with tears in her eyes, had no other choice but to swallow it all.

The Turk was still enjoying my mother's blowjob and congratulated my sister while telling her to keep eating another cock while he gave our mother the milk she craved so much. Mom did not have to wait long as he let himself cum in my mother's mouth, but unlike Grandpa, he did not hold my mother's head, he simply said to her:
"If you don't swallow all my cum I will be angry, madam."

Mom obeyed and swallowed all the cum with a face of disgust that I had never seen before. My sister continued with the other cocks and received two more cum shots in her mouth which went straight to her stomach, the last cock, the Bear's was for mom.

The man's cock was monstrous and lived up to its nickname, it must have measured more than 23 cm and was as big as my mother's wrist, mom grabbed the cock of that huge black man and started the familiar movement with the two fingers with which she was holding his cock.

Then he took her hand and showed her how he wanted her to wrap it with her whole palm, mom resumed the jerking motion while the Bear pointed his cock at my mother's mouth and managed to insert the glans between her half-open lips.

Mom began to suck frantically as if she wanted it all to end as soon as possible, she sucked the cock as best she knew and tried to shove it all the way down her throat ,which was impossible, she licked the man's glans with a passion and sucked that cock completely and at such a speed that it didn't take the Bear even 2 minutes to empty his balls in my mother's mouth, She already knew what she had to do and opening her mouth and grabbing the Bear's cock she pointed it so that all the semen went straight down her throat, the amount was abundant and Mom swallowed it all until she almost choked.

When mom and my sister came out from under the table they had semen on their faces and the Turk offered to clean their faces with a napkin, then he told them that they had behaved very well and that we could go to sleep, the 3 of us went to my parents' room and the Turk locked the door from the outside.

I didn't even look at my sister or my mother's face, I was disgusted by what I had seen, although at least I had hope that they hadn't been violated.

The next morning the Turk got us up for breakfast, it was 11 am and I had a juice, and like the night before, those bastards had a special breakfast for my mother and my sister, they sat them on the floor and gave them a bowl of cereal for each one, It occurred to my foolish sister to say that they had no milk and the Turk laughed out loud.

"That's right, what a silly thing to do, guys, start pouring milk in the ladies' cereal."

2 cocks for each bowl, the men began to shake their cocks vigorously to the disgusted faces of my mother and sister and soon filled the bowls of cereal with semen.

"There's your milk miss, now don't leave any in the bowl and you'll grow up healthy and strong."

I watched with tremendous disgust as my mother took a spoonful of cereal and how on them there was a dribble of cum, my mother almost without looking took the spoonful to her mouth and chewed the cereal with semen at full speed, the men did not let them waste anything and my sister almost vomited when she swallowed the fifth spoonful of cereal bathed in semen.

This time it didn't stop there, the Turk sat on the couch next to me and told my mother to crawl over to him, then he picked her up and sat her on top of him, I knew what was coming and so did his partners, so they didn't miss a beat when the Turk aimed his cock at mom's pussy and let her drop to insert it all the way in.

"Now giddy up, ma'am."

I had my mother at my side while the Turk began to fuck her with rhythmic upward thrusts of his hips. The Turk continued his movements for a couple more minutes, his cock alternately disappearing then revealing itself as he forcefully fucked my mother's pussy. She kept her eyes closed, resigning herself to be fucked, accepting the desires of that man. Then he grabbed my mother's impressive breasts with his hands, and while exhaling a continuous moan, his body began to shiver.

"Ohhh, I'm cumming, ma'am, I'm going to fill you up."

When mom stood up, a small trail of semen was dripping from her pussy down her right leg, embarrassed, mom tried to cover it with her hands.

The Turk, trying to be gentle, laid my mother down on the floor and began to eat her pussy, the treatment my mother was receiving made her aroused for the first time since those men invaded our home, the Turk's tongue ran up and down the slit of my mother's pussy, until I watched as she, still trying hard not to show any sign of arousal, suffered a couple contractions of pleasure before he abandoned his work. When he stood up he gave way to the youngest of the group, a 25 year old guy who knelt down next to my mother and lifted her legs, spreading them apart, and lay down on top of her, inserting his thick cock into her pussy, which was undoubtedly still wet from the Turk's saliva.

As soon as he started pumping inside my mother, the young man was caressing her tits with both hands while trying to kiss her on the mouth, mom must have realized that kissing that man while he was fucking her would increase her humiliation and refused to which the young man responded by inserting his spear deeper into my mother's pussy.

It didn't take long for the young man to cum inside my mother.

Then it was the turn of Grandpa and The Imp, the latter so nicknamed because even though he must have been over 40

years old, he barely reached my shoulder, these two decided to enjoy my sister first so they put her in the center of the room on all fours and while The Imp penetrated her pussy, Grandpa was content to fuck her mouth.

My poor sister was imprisoned between two cocks and her moans of disgust were evident although there was nothing she could do to avoid fucking or eating as many cocks as those men wanted, they were very eager and changed position so that Grandpa could also enjoy my sister's tight pussy, in 10 minutes it was all over but while Grandpa came inside my sister, the Imp heeded my mother's pleas not to cum inside her so as not to get her pregnant and decided to cum on my sister's face, whom he forbade to clean herself and had to make the food together with my mother with her face full of cum.

The humiliations endured were increasing and I thought we would not get out of here alive.

During lunch they left my mother and my sister alone, surely because they no longer had a load in their balls to fill the mouths of my mother or my sister, during the afternoon they entertained themselves playing with them but without forcing them to do anything, as they had to go naked all day just as they limited themselves to slapping them in the ass as they passed, to touch their tits or to disturb them while they rested, like my sister who woke up from her nap and realized that she had Bear's balls in her mouth because the pig was rubbing his cock on her forehead.

They also let them have dinner in peace but by then they were already in the mood for war and they sat my mother and sister on the sofa to watch a movie, the young man sat next to my

mother and started masturbating, after 5 minutes and still masturbating with one of his hands, He grabbed my mother's head with the other and pulled her to him, until her face was only inches from his manhood. Mom briefly observed the drooling cock of that boy who accelerated his movements and for a few seconds it seemed that he was going to finish jerking off on my mother's face, but suddenly he stopped, brought the tip of his cock to Mama's lips and gently rubbed it through them.

The young man grabbed my mother by the hips and sat her on top of him, it didn't take him long to position himself and introduce the entirety of his cock inside of her, moving slowly, then he directed his kisses to my mother's tits that were moving up and down to the rhythm of the fucking that the young man was giving to my mother. Before cumming, he laid her on the floor and he got on top and took his cock and positioned himself between my mother's tits.

He grabbed them with both hands, hid his member between them and moving up and down he began to treat himself to a titfuck with my mother's tits, when he got tired, and seeing that his climax was approaching, he brought his cock close to my mother's mouth and with a few taps he forced her to open. I saw how my mother looked at him angrily not wanting to obey, but several more hard blows on her lips convinced her that it was stupid to refuse, especially after what she had already had to endure at the hands of those guys. When mom opened her mouth, the boy pushed more than half of his member in, then he leaned over her and with his hip movements put his cock in and out of my mother's mouth.

After several minutes of face fucking my mother, the young man told her,

"Come on lady, open your mouth wide I'm going to cum in it and I'm going to leave your face full of hot milk."

A hoarse scream accompanied the beginning of his ejaculation that, despite his announcement, caught mom by surprise, and so as soon as she felt the sperm in her mouth she began to swallow as fast as she could, once he had finished he cleaned his cock rubbing it on my mother's face which was left smeared with cum.

Then she sat down on the sofa and with a face full of cum she had to watch as the Bear was about to do the same with my sister, it was my own sister who took the Bear's cock and very gently peeled back his foreskin, she pulled the Bear's cock forward, forcing him to approach and finally sit on a chair because the man's height was such that standing the height of his cock did not match my kneeling sister's mouth.

My sister approached that huge cock until it was at the height of her mouth and then with a new, slight pull she brought it to her lips. When she swallowed the glans in her mouth the man closed his eyes, but when she put most of the dick in her mouth and, this time began to suck his cock in earnest, that huge black man began to sweat, she was sucking it for a while until she began to rhythmically move her lips up and down the trunk of his thick cock and made the skin of his cock ripple to the same rhythm.

There came a time when the intensity of the act was such that my sister, sensing what would happen, tried to push him away by placing her hands on the chest of the man who was already

out of his mind. My sister's attempt was futile and the Bear's exclamations of pleasure flooded the room until his body began to suffer the spasms that we had already seen before and that announced his imminent cumshot.

My sister realized that the Bear was going to flood her mouth with sperm and tried to get away from the massive cock but this time she had no escape and began to receive the man's ejaculation in her mouth.

The only ones left were The Imp and Grandpa who decided to forego the mouths of the women of my family and focus on their pussies. Mom as she tried the first time she had to suck their cocks, asked Grandpa again to go to the bedroom so I did not have to watch how they raped my mother but he refused and began to fuck her on all fours like a dog on the living room carpet, He loved to humiliate my mother that way, he told my sister to go and get on all fours next to my mother, that she was next, but there was no time, after 5 minutes of pounding my mother's pussy he came inside unable to stop himself.

The Imp laughed at him and took the opportunity to occupy the unused hole that was my mother's pussy, which was soaked with Grandpa's semen, but in response to my mother's sobs, grabbed my mother and my sister and took them to the bedroom so that I could not see or hear anything, although I could clearly hear how that man continued once again to fuck my mother and my sister, who received a new dose of cock that night.

Although I was getting more and more repulsed, the truth is that it had become something normal to see my sister and my mother walking around the house naked and having some cock in their

pussies or in their mouths, at least not being able to see it calmed me down a little.

When The Imp finished it was already late, he told us to go to sleep, that tomorrow would be the end of the party because the plan was that at midnight on Sunday they could leave.

The next morning we had a normal breakfast, well, I had a normal breakfast since my mother and sister got a new bowl of cereal and semen, and at about 11:00 a.m. the robbers were in the mood for more fun.

The "Bear" was sitting on the sofa watching TV when he called my mother over, she approached him looking at his cock and leaning her body with the clear intention of putting it in her mouth because she must have imagined what that guy wanted once again, but he got up and lifted her up too, he put both his hands on my mother's ass and pulled her towards him. His hands roamed over mom's buttocks and opened her ass cheeks leaving my mother's asshole for all to see.

The Bear once again put my mother on all fours, right in front of me, and began to lick her ass over and over again, I imagined what was coming and a pang went through my heart, after everything I had seen, the humiliations that my mother and my sister had suffered, I now had to see how those dirty bastards fucked my poor mother up the ass. The Bear pointed his totally stiff cock at my mother's ass, the black man's cock began to penetrate my mother's asshole little by little, when my mother noticed where the bear was trying to penetrate her, she turned

her head and told him that not that way, that she was a virgin in the ass, but the Bear ignored her and continued to do his thing.

The black man managed, with much effort, to introduce a good part of his cock in my mother's anus and moved slowly, he was ramming little by little until his assaults were becoming stronger and longer, meanwhile my sister was on her knees on the floor taking care of the cocks of the other 4, when a saliva covered cock came out of her mouth another one took its place, my sister was in the midst of swallowing cock after cock when we heard a voice.

"Family, I'm here."

That voice paralyzed us all, of course, it was my father, I had completely forgotten that he was to arrive on Sunday morning amidst everything that had happened to mother and my sister, of course neither the Turk nor his men knew anything about my father so when he entered he found his son sitting on a chair, his daughter naked, with two cocks in her mouth and two in each hand, his wife was about 3 meters away from him, lying on the ground like a bitch with a huge black man hammering hard on her ass, subjecting her to a sodomization that although she tried to deny it, her gasps made us know she was starting to enjoy.

My father was too stunned to speak, the Turk advanced on him and hit him with the butt of his gun, the doors and windows had been locked of course, but he did not expect that someone with a key would arrive.

The Turk tied him to a chair, my mother and my sister had begun to cry and try to go to dad, but the Bear did not stop

penetrating my mother's ass even for a moment, dad was explained the situation but unlike me, he was tied and gagged, I guess they had a different deal with me since they had sized me up figured that I would never dare to face 5 men like them even if they fucked my mother's ass in front of me as they were doing at that moment. The Turk asked me if someone else would come and I said no, then he went back to my sister as if nothing happened and put his cock in her mouth.

"Don't worry gentleman, the women in your family know how to be hospitable."

Mom's moans told us that she was starting to enjoy the cock in her ass and that made The Bear increase the force with which he was drilling her.

When Bear's orgasm seemed imminent, and maybe my mother's as well, the Turk approached them, again with his cock in full erection and after pulling it out of my sister's mouth he told the Bear to leave his place.

Bear removed his penis out of my mother's ass and lay down on the floor where he ordered her to ride him, Mom lowered herself on top of Bear without looking at my father or me and his penis quickly disappeared inside her pussy. She didn't have time to begin her ride before the Turk surprised her by thrusting his way into her asshole that Bear had left so wide open.

The Turk pushed and thrust his cock without much trouble, taking control of the fuck with energetic thrusts. Sandwiched between the two men and fucked hard by both, mom no longer protested the roughness of the guys, surrendering to the pleasure

that the movements of their cocks produced in her two holes. Panting, the Bear came inside my mother's pussy just as the Turk also exploded inside mom's ass, they both pulled out and collapsed on the couch leaving mom sweaty and full of cum in the middle of the living room.

Meanwhile, the Imp and Grandpa had already cum in my sister's mouth and only the young guy was left to unload but he preferred to do it in another hole, he turned my sister around and made her look at our father, grabbed her breasts and penetrated her ass with one thrust, when his cock was completely buried in my sister's ass she gave a scream that must have broken my father's heart, then the boy started a furious thrusting that my sister bravely endured in her ass, looking at my father with tears in her eyes as if asking for forgiveness

The young man intensified his onslaught and as he had already received a blowjob from my sister he didn't hold it long and filled my sister's ass with his semen between screams and gasps.

Later, we all ate, all except my father, who remained gagged, the Turk ignored my mother's request to take my father to another room, it was clear that if he did not care that I saw how my mother and my sister were fucked, it would not be a problem for him if my father saw it too. The Turk was a man without morals, a real pig and he enjoyed humiliating us all, forcing my mother and sister to do every depraved sexual act and forcing us to watch everything. Although, it must also be said that while I am sure that he would not have hesitated to kill us, he did not beat any of us.

After the meal I only thought about midnight arriving soon and these guys being long gone, but it was clear that they still wanted to enjoy my mother and sister's body a little more, after subjecting them to numerous fucks in those 3 days, they still wanted more.

But 9:00 p.m. arrived and since the meal they hadn't touched my mother or my sister, I thought that maybe they didn't feel like it anymore, but until 12:00 came they still had time and they were going to take advantage of it.

The Turk sat down on the couch again and said,

"Well, in 3 hours everything will be over, you have behaved quite well but there is something that has not sat well with me, even though we have fucked and fucked you with passion, you do not seem to have enjoyed it and that leaves a certain bad taste in my mouth, I want you to show us, until we leave, how much fun you had with us, until we leave, let your husband and son know that we have treated you very well, I want you to fuck us, of your own volition, or I will not be happy and I will have to take action".

It was very clear what that pig intended. He wanted my sister and my mother to fuck them, not just let themselves be fucked, but for them to seek out the 5 cocks that had been in all their holes during those 3 days. Neither my mother nor my sister had the strength to refuse or protest anymore, so they once again surrendered to the Turk's requests. The Turk was in front of me with his legs slightly apart, showing off his stiff member like a mast. Mom stood by his side and began kissing him on the mouth, caressing his chest with one hand. The Turk's hand began to caress my mother's ass with his palms, his fingers

descending to find her sex and starting to probe inside it. Mom let out a sigh of pleasure when that man's fingers sank into her pussy. I honestly couldn't tell if the sigh was fake or not.

My sister hadn't wasted any time and had the Imp's member halfway into her mouth. From behind, The Bear, the giant black man, was penetrating her pussy inch by inch, stretching her vulva. When I looked back at mom, she was desperately riding the Turk's cock, from behind The Imp had taken advantage to give her a good anal pounding.

I wanted to close my eyes, but the Turk asked my mother to tell us how much she was enjoying it. Mom said nothing until the Turk asked her again, this time with a very different tone of voice. Mom had to submit once again and began to scream. 'You're fucking me so good, don't stop.' She was squatting over the Turk, constantly moving up and down on his cock, trying to sink it as deep into her as possible while the Imp had his cock buried deep in mom's ass.

The Turk didn't take long to cum and left my mother aside, I could see her body shake as she continued to receive the thrusts of the Imp up her ass. The Turk got up and approached my sister, who was still occupied with the young Guy, the Bear, and also the Grandpa who was fucking her ass, she had 3 cocks inside her, one for each hole. The Turk asked the Bear to go with my mother, and while the Guy started hammering my sister's pussy, the Turk rubbed his cock on her face.

As soon as the Bear reached mom, she grabbed the guy's cock and rubbed it all over her face, then started sucking it as she had done before and then guided the Bear down on the floor.

Mom got on top of him, taking control, facing me and leaning back, supporting her hands on the floor, so I had no choice but to watch as she proceeded to fuck him. 'Oh Bear,' she moaned. She held his cock with one hand and rested it at the entrance of her vagina, opening her lips like a pink butterfly. She lowered her ample ass and the thick head disappeared into her pussy.

I had to watch as his big cock slowly penetrated my mother's interior, dilating her vagina as it passed through. Mom screamed, 'What a cock you have, darling, it's wonderful, come on, fuck me. Hard.'

The sick truth is I didn't know if my mother was just pretending, to keep those guys happy, or if she was really enjoying all of it after so much sex.

The black guy thrust his hips upwards, pushing his cock in as deep as it would go, only his balls didn't breach my mother's dilated pussy. My mom let out a scream of pain, I imagine because it went in further than she thought, she stayed still for a while, panting, looking at my father and me, enduring the pressure that the huge cock had against her invaded pussy. When she recovered, she encouraged the man to resume his vulgar work and without stopping to look at us, she let herself be fucked in front of us, screaming like crazy every time she came.

I don't know how long the black guy fucked her, but it was a long time, when he yelled that he was cumming, she grabbed his cock herself and put it to her pussy again, shaking it with her hand. The Bear shot two jets of cum, with such good aim, that they crashed into my mother's face, she, stuck it back in her pussy and yelled at him to flood her, which that guy did happily.

She was given no time to recover, the other 3 men who had been fucking my sister, began to fuck my mother anew, one in the ass, the other two seeing how dilated her pussy was, decided to put it in at the same time...

Mom screamed like crazy as she felt 2 cocks in her pussy that entered so hard that they must have jostled in her insides for dominant position, while the other cock was drilling her asshole. The Bear already recovered and proceeded to fuck my sister, who's pussy was already being worked over by the Turk. When they were about to finish, the men exited my mother and sister's holes and gathered the two of them together on the floor. Then they took one of the glasses that my father used for whiskey from the living room cabinet and gave it to my mother. Without needing be told, my mother and sister joined their heads together and those men began to violently jerk their hard cocks in their directions. The first to cum was Grandpa, 3 squirts that hit my mother's face and 1 that went straight into her mouth. Then the Imp came with only 2 squirts that ended up on my sister's forehead. The young Guy was the most abundant with 4 squirts, 3 of which hit my mother in the face and 1 of which hit my sister. The Bear and the Turk both came at the same time, filling my mother's and my sister's face with semen. Then the Turk told my sister to lick my mother's face and vice versa to leave their bellies full of semen, they obeyed and hungrily devoured all they could. Then the Turk looked at the "trophy" that my mother was holding, it was filled to the brim from the overwhelming amount that had not been swallowed, he didn't need to say anything. Mother took the cum shot glass to her slightly parted lips, let it linger there for a moment as she seemed to glance in

the direction of me and my father. Then she began to drink and as she began to drink deeply she turned to my sister and began to kiss her passionately, they were enamored there with each other, for a brief moment, mouth to mouth, sharing the fruits of their labor. They had both worked so hard milking those 5 vulgar cocks.

At the same time, an insistent beeping sounded, it was a horn, the Turk ordered everyone to get dressed. 'Come on guys it's getting late, thank you very much for everything gentlemen and you ladies have been very good to us, thank you very much.' As he was leaving he threw us an envelope, inside was 50,000 euros and a note saying that my mother and sister had been the best whores they had ever known and as such they should be rewarded. We never said any of this to anyone, nor did we report it, out of shame, but even today, a year later, I can't help but think that my sister and my mother were not very reluctant to do everything those guys demanded of them.
