

My After School Mom

It was a bright and sunny day after a typical day at school for an atypical teen of age when Junior stepped through the front door of his family house to hear the sweet sounds of his stay at home mom. He did not see his dad's car in the driveway and after making sure his father was really gone from the house he sought his mom's noise. In another room her voluptuously shaped body appeared with her big hips and busty chest moving in the afternoon light while she folded laundry in the room. Her matronly middle-aged assets could be seen turned away from Junior as he rushed to meet his beloved mom.

Diamond was reaching for her hair bun dawning the top of her head to remove a hair clip holding back her big mane of golden hair in a tight knot as she sensed her son rushing for her. Straw blonde hair flowed down the mom's back and could be seen falling over her shoulders when an excited teen of age with a full erection already sprouting through the open zipper of his school uniform was running to meet the hot sight of the mom dressed in a traditional white apron wrapped around her waist with her big white apron cleaving through her bust down the middle. It went down the mother's belly to cover her muff, but was not enough to cover over the golden-haired mom's recently shaved sex looking like an invitation with how moist she already

appeared between her ivory legs.

"Hey there sugar bear," cooed the sweet and mellifluous voice of the tall and ghostly white looking mom, "your dad will be home soon so you know what that means for our skinship kiddo."

"Does that mean we only have time for a quickie than mom?"

"Only if you feel like dumping a quick load or two or three in me before your dad gets home to stop us from practicing our skinship kiddo." Diamond cooed in her soft voice before adding, "Otherwise your dad might get upset about the noises we make whenever I let you shoot balls deep in my love oven. After all, he likes a quiet household and you know how much I love being loud at home."

With his heart beating in his chest Junior stumbled for the words to say as his dick hardened from the sight of his favorite woman on earth turning around in the family den to open her arms to embrace him. Diamond stood taller than her son by nearly a head as she felt him smother his head between her boobs. She hugged him as he began suckling on one of her teats through her apron while she stroked her son's hair with one hand while reaching below his belt with the other. By then the pair had

been practicing their skinship so often that giving her teenage son of age a motherly handjob with her manicured hands was now a regular household greeting whenever he came home. Diamond would wince in her place and feel her labial lips moisten whenever she felt her teenager's teeth press into her nipple before lancing his tongue across her areola like an over eager virgin. After their bodies collided in the family den the mother and son pair would begin to walk their bodies to the nearest piece of family sized furniture as a mother continued to stroke her suckling son with his head buried far into the shape of her busty cleavage.

"Are you ready to practice some skinship now buster?" She asked in her sweet mom-tone voice, "After all, while a daddy is away a mother and son can play and your mommy did promise to take care of your boners when we're alone at home and judging by my boy's hardness I imagine school was extra hard today, huh pal?"

"It's been a long day ever since I left home this morning mom." Spoke Junior as he threw off his backpack before removing his shirt to show off his taut teen shaped chest in the room as his mom ushered him in the direction of a nearby couch with his long and throbbing teenage prick being towed in her grasp.

"I can hardly believe you lasted all day at school like

this sweetie." Diamond sweetly cooed as she held her teen's throbbing erection between her palm and fingers to whisk him away, then she said, "You're absolutely swelling to go back in your mommy's sweet cunt, aren't you sweetie? Your balls must be aching pal."

It took all of Junior's willpower to stop himself from groping his cock throughout the day but he obeyed his mother's commands to not touch his erection until he came home. It was a new rule in their relationship. Ever since it became obvious that he and his mom would likely never stop the 'fluid' nature of their 'skinship' at home the lucky teen of age soon discovered his mom had a huge fetish for being deeply inseminated by his long cock. By then in their forbidden family relationship the mother and son pair had lost count of the encounters they enjoyed. It was too hard to track given the frequency of their 'bonding' at home coupled with the necessity for secrecy which meant no evidence left behind after their incest, even while at home. The only thing to be left behind was used or dented furniture and perhaps a couple wadded up tissues used to clean up their spilled fluids whenever the loving mother and hung son practiced bareback skinship at home.

"Are we really about to have sex again mom?" Asked the lucky son of age as he were led to a large couch near them.

"Now remember what mommy said earlier buster." Diamond sweetly cooed in her cutesy mom-tone voice as she ignored her son's question before directing her teen to unbuckle his belt and remove his pants first before instructing him to sit on the couch, "I want you to keep your big boner pointed straight up for momma's hot box to bounce on your lap soon. Sound like fun kiddo?"

"I can't believe I'm so lucky to have a mom like you." Junior said as he obeyed his mother's commands to disrobe and lie down.

Diamond licked her lips before kneeling her voluptuous figure over to suckle on the bell of her teenager's knob pointing straight up in the air. She did not throat him, but rather swirled her tongue with quick tornado motions before depositing a thick globule of her milky white motherly saliva before removing her thin lips. In the background of the room soft music could be heard with all the curtains drawn to conceal their incest. By then it was a regular occurrence for the lucky son of age to receive a blowjob from his mom after school to relieve his loins however Junior heart still hammered in his chest each time he felt his mom's mouth go around his teenage bell. Meanwhile her soft manicured hands would grope his ten

inch long shaft to stroke him while the other hand went between her thighs to finger herself.

"Remember, we gotta get you nice and lubed up before I plunge you in me buster." Cooed the mom sweetly, "After all, older pussies like mine need to get wet first and it isn't every day that a boy like you gets to plow his stressful boners through your mommy's toughened purple twat at home. Aren't you so lucky to have such a nympho mommy willing to take all of your stubborn hot loads in my tight no no twat right where nature intended?" Diamond took her time in swirling her tongue around her son's bulbous tip as she continued to deposit her milky white saliva over him while fingering herself before audibly popping her lips off her son's cock to say, "Your mommy has been waiting all day for this kiddo so I hope you don't mind if I take some time in getting myself extra wet while I suck on you before I ride."

"No rush mom." Junior moaned as he felt the heavenly feeling of his mom's long and elegant tongue scrubbing around his bell like a tornado while hot saliva rolled out of her mouth to tumble down his erection, "Suck on my cock for as long as you want mom."

"Only if you say please buster." Diamond said after

popping her lips off her teen's erection to speak quickly before she added, "Do you wanna a blowjob finish or a creampie ride today?"

"How about a little bit of anal?" Asked Junior sheepishly despite knowing the answer.

"Mommy made a promise to your daddy to not do anal though sweetie." Diamond said, "Do you really need your mommy's asshole gripping over your pecker to ejaculate? Are you tired of pussy?"

"Of course not mom." Said Junior in defeat, "I just thought for once you might agree to it. Pussy is nice but anal is too."

"I know we did anal a few times in the past sweetheart," explained the consoling mom with her hand jerking her teenager's throbbing and hot erection, "I just want you to finally understand that those were really special occasions sweet-pea."

"I know mom but--"

"Listen sweetheart," interrupted Diamond with her white manicured hands going up and down against her son's glistening

sounding ten inch erection in the private family den, "It's not every day a boy your age gets special pussy pass privileges at home with your bonafide nymphomaniac mommy but your dad gave us his blessing to practice our bareback skinship if we kept it strictly out of my ass. He even hates when you hot dog my buns."

"Dad isn't here though mom," asked Junior, "what if we did anal only once a month when he goes on his long work trips, that way your anus can have time to tighten up again after I'm done--"

"No means no sweetheart." interrupted the mom in disappointment as she continued to stroke her teenager's erection before leaning over her big ivory frame while removing her white apron around her figure to reveal her immaculate and bald looking pussy in the shape of a clean innie slit, Diamond then leaned back up after making sure to deposit another big globule of milky white saliva over her teenager's erect tip before asking in her lecturing motherly tone, "Now, do you wanna cream your mommy in her hot cunt or not sweetheart? I hope you're not growing tired of beating up your mommy's toughened twat just like your father did at home buster. Do you still like my wet blowies at least?"

Diamond had never sounded so disappointed when she smiled after asking her battery of lewd questions. Junior didn't know it but his mom was actually a little heartbroken to learn that pussy wasn't enough to satisfy her teenager's fantasies and wondered what would happen after realizing her son might become anally addicted to her bleached asshole just like his father. She would have to think of that question later however because her panging ovaries demanded action and riding her son was her favorite activity at home because of how good it felt. To be nearly halved with her teenager's erection splitting her vaginal hallway like a wedge going through purple clay was an earth shattering experience for the insatiable mother. Her husband only pleased her asshole and her son was the only real dick she could rely on so there was panic in the mom's eyes as she imagined the worst.

"I love everything mom." Junior said, "Forget what I said."

When Junior nodded his head Diamond took that as a sign that her son understood. Of course it was impossible for a near freshly minted eighteen year old to become anally addicted. Diamond's over worked husband went years through the beginning of their marriage before retiring to her brown town and Junior, the mom's wildest boy toy fantasy come true, was just beginning

to plow her soft pink cunt on a daily basis after school at home. They still had plenty of time before anything like a crisis of a potential dead bedroom event from ever happening between the fluid bonding mother and son pair at home when they would start their favorite part of the day at home together while alone. When Diamond noticed the hungry looking expression in her son's eyes while he nodded his head before pointing at her sopping cunt where a trail of adult slime could be seen trailing all anxiety went away from her instantly and she forgot to worry at all.

"Now how about we get you sleeved instead of talking butter-cup. After all, a big boner like this needs attention and mommy did promise to milk her big boy's dick until he creams my puffy pink pie full of jizz after school." Junior's head swooned as Diamond giggled a bit and laughed before adding, "I just hope you think mama's pussy is good enough for your semen because mommy wants it there all the time, so if you start feeling the urge to start unloading you are more than welcome to dump as much you want, as deep as you want, inside mama's love oven since daddy agreed to let you start borrowing my cunt to relieve your urges."

Diamond took her white apron and threw in her teenager's face to cover his face to hide her sprint out of the room. Her

naked white figure could be seen jumbling towards a doorway as Junior took off his mom's warm apron to watch his mom's fat white ass disappear out of sight. He chased after her with his erection gripped in one hand to keep it from knocking against furniture as skinship games began to happen in the skinship practicing home. Diamond teased her son as she rushed upstairs with her big and bald looking mound being visible in the light as Junior rounded the corner to see his mom standing there halfway up the stairs with her mound pressed against the railing and two fingers betwixt her lower lips to expose her dark purple inner sleeve like a lewd invitation to be fucked and filled with fresh spunk once again.

"If you wanna shoot your load in some tight no no mommy pussy sweetheart you gotta be upstairs in thirty seconds or less buster, or else! If you're late one second it's blowies today only!"

"You wouldn't dare mom." Said Junior as he already started racing while his mom was already gone and counting the seconds as he bounded up the stairs with big leaps, "I'm coming to you mom!"

"I'm counting the seconds in my head sweetheart, so you better hurry!" Diamond shouted down the long hallway with her

voice echoing, "I hope you get here in time!"

Junior was bewildered a moment from the awkwardly echoing noise of his mother's voice joined with the sight of all the open doors. It seemed like a game his mom had setup to delay her teen child in her silly game but it was over before it barely started.

"Alright, you have ten seconds to go buster." Said the hot mom as she locked her eyes with her son before pointing him to lie down on his twin sized mattress to get into his groove shape on the mattress from all the pounding sessions so far from the mom pounding her naked midsection against her teenager's erection like her son's dick shot out cash and owed her years of rent money. Junior wasted no time in rushing over with his dick in tow after removing his underwear.

"Move that ass right now mister. You still got eight seconds to be in position for a bareback giddy up ride or your pussy pass privileges with your hot mommy ends right now."

"Yes ma'am!" Was all Junior said before he laid down in his mattress in just his school shoes and socks as he got into his less than subtle bodily shaped groove in his bed.

"I can't wait to feel you shooting your semen across your mommy's sugared pussy walls in just a few minutes sweetheart so I hope your balls are ready to be drained inside my hot-pink mommy twat soon." Diamond cooed to her teen son softly as he pointed himself like a trained animal in preparation to consummate their forbidden fluid bonding ritual in the parent's favorite position.

"I still can't believe this is really happening mom." Junior moaned as the lucky son of age looked over the lovely shape of his nymph mom getting in bed with him. He had to shake his head to remind himself this was reality before feeling his mom slap her lips playfully across her son's erection before glazing his member in a sheen of her clear and hot saliva. Then he felt hot lower lips lance across the bell of his cock after his mom moved up and over his erection to make her bald slit slide against his tip. It was like a lovely kiss beginning to suck on his bell as Junior felt his mom's breeding chamber pressing her pink gates against the end of his throbbing erection aching to be taken in.

"Well believe it pal," cooed Diamond, "your mom is a nympho."

"Please tell me you're not about to tease me until the last

moment mom." Moaned Junior out loud in waiting agony as clear vaginal fluids from a purple cunt ran down him.

"What else do you think is going to happen buster. Your long pussy poker is pointed straight up against your mommy's pussy lips while I open up to take you inside me and you really think I'd prefer to tease you instead of using you to beat up my mommy pussy while I work to pull out your semen with my twat young man? Shame on you for thinking your mommy would ever tease you." Diamond cooed in her mellifluous mom-tone voice while lancing her son's erection through her waiting vaginal lips with his tip scorching through her gates before promising out loud, "After all, mommy promised to milk your seed out in my mommy-cunt and that's exactly what I'm going to do to my boy so don't worry."

Junior was too stunned to speak as he watched his mom's completely bald mound poise itself to squat over him like a hungry wet mouth opening up between her naked and squatting legs. Her innie looking slit parted and there was the wet sound of labial lips parting against a throbbing teenage erection as Diamond waited to wet herself before taking her son to the hilt. Their breathing was heavy and in the teenager's bedroom there was only the sound of their airs being exchange and the lewd sound of their sexes wetting against each other as

they kissed with only the noise of quiet cool air coming into the room upstairs. Below his mom's hanging cleavage Junior looked to his mom's ankles sunk inches into his mattress as her pussy hovered above his tip. His heart hammered in his chest with eight hours of spunk ready and excited to be taken away from him in his favorite way possible at home, by feeling it being pulled from him by his mom's bald cunt. Junior began to breathe heavily and gripped his mom's ankles in their squatting positions to give her encouragement and support, in a moment he knew his mom would begin her ride as he waited.

"Aw, is someone too excited to say something?" Cooed the sweet mom as she landed her teenager's prick against her lower gates to stroke her labial lips with wet sounding back and forth motions through her moistening sex, then she said, "Now hush little sugar bear and don't say a word," she started in her cutest mom-tone lullaby voice, "momma's wet box is about to swallow your pecker whole, and if you wanna squirt some spunk inside mommy's pussy hole than momma's little sugar bear needs to look inside his mommy's cooter below, so look in my no no hole." Diamond's motherly expression beamed as she smiled to her son whilst splitting her lower lips wide apart to reveal her pink guts and ridges within her pussy, she smirked with an un-motherly expression before saying, "Now are we ready to practice skinship in this bed until your mama is done milking out your

teen cream with my pussy or not young man? Don't you want to find out how many times you can creampie me before your dad gets home soon?"

"You make me feel so happy to come home everyday mom." Junior moaned as his mother continued to stroke the tip of her teenager's erection through her vaginal folds to tease his hardness to a diamond like texture as he leaked, "Thank you for riding me the way you do at home. Sorry I keep asking for anal."

"Anytime sugar bear," Diamond chirped, "You're officially mama's special boy which means you get extra special boy treatment like morning blowjobs for your morning wood. So what do you say? Ready to shoot your next shot deep inside mommy's hot pussy hole again?" She rolled the 'oh' sound in her 'hole' word as Junior watched his big-titted mom flick the tip of her pink tongue through her white teeth with her pussy lips grinding against his hard pink tip like a lewd kiss. "I'm feelin' a little romantic slugger which means I'm in the mood for a long ride over my young man's boner until your dad gets home later."

Diamond's busty chest swayed with her freckled bosom hanging like delicious fruit for Junior to suckle on as she kept on cleaving her cleft of womanhood against her teen's engorged

bell in preparation of plunging him through her purple tubes as a grand gesture before their skinship climaxed into something hard sounding with lewdly quick sounding smacks of skin striking skin. Diamond then lowered herself towards her son on the bed with her blonde face drawing near him with a wicked smile before cooing, "Ready to feel mommy pussy going up and down over you for a bareback giddy up until I make you squirt your buckets inside me kiddo?"

Junior felt himself harden to a harder than hard stiffness as he nodded his head in excitement.

"Your mama is gonna make you forget about her asshole with her tighter than tight mommy pussy now sweetie. Just you wait." Diamond whispered with her moist voice which clicked into her son's ear before her wet tongue began tracing itself near his earlobes while her hand gripped his erection at his base. "Now lay back and relax young man. After we're done mama is gonna change your bedsheets into fresh ones so lie down for me and get ready to let mommy do what I do best." Diamond steadied herself on her feet which squatted her hips almost a foot above her teen. "When mama starts riding your cock through me don't be shy about shooting up inside mommy's wet muffin young man. You know how much I like it when there's fresh baby batter inside me to make our sexy time noises extra sloppy sounding when I get

going."

With his eyes pointed down to witness what was about to happen this is what Junior saw through his mind's eye:

Mom moved her shaved looking cunt to slice the tip of my prick through her matronly gates with back and forth strokes to drag my bell through her hanging pink labial lips. My meaty tip became coated in mom's vaginal fluids. I almost slipped inside as she hovered above me in her cow-girl riding squatting stance with her cellulite rich thighs planted next to me in my bed in each indentation where her feet always rested whenever she rode. In my bedroom I saw the ceiling while lying in my twin sized bed with my voluptuous mom about to squat fuck my teenage erection into oblivion until my white guts sprayed out across her vaginal walls. I love how wicked it is to feel my ejaculation being gobbled by mom's bald cunt whenever we practice skinship at home.

Meanwhile mom kept on teasing me, which I hated and loved.

"Get ready for an epic bareback giddy up mister." Cooed the sweet mother in her cute mommy-tone voice as she continued to glide herself across her son's member to coat him with her fluids, "I'm sorry it's taking so long before you feel mommy's

toughened mommy twat pop a squat on that fat teen cock you got between your legs just throbbing to be inside me again but this is necessary! You're simply too dry for me to take you in one squat buster, if I slid you in before getting you lubed up with mommy's dripping pussy juices you might literally tear up mommy's mature pussy."

Mom explained to me in careful words with her mom-tone voice about the perils of older pussies being too dry after they've been soaking in the tub all day. The bath-time shaving moment in my parent's bedroom before I went to school was a recent memory and I had no idea older pussies needed so much care without accidentally causing a painful tear along her inner pink sleeve. My cock was being covered by mom's hot pussy juices before she briefly dismounted to spit a glob of saliva over my erection with a hot sensation striking my piss-hole before feeling mom mount me once again. She slid me in after another minute of stroking my tip through her labial gates before she spoke the words I ached to hear ever since I had to leave home that morning for school.

"Time to giddy up sweetheart!" Diamond sweetly spoke in her cute mom-tone voice, "Giddy up! Giddy up! Giddy up baby! It's time to show your mommy just how much you love her pussy buster!"

Mom's perfectly bald cunt lowered itself in one clean motion with a delicious sounding meaty clap that echoed. My hard teen cock slid right inside her wet sleeve with muscular memory releasing itself against my girth with tight motherly pussy walls contracting themselves like a vice against my initial grand entrance. Mom's hot voice whimpered from the sensation of being entered as I felt my erection find mom's bottom through a stroke. A guttural noise erupted out of her throat when mom performed her epic grand gesture to swallow the entirety of my long erection from tip to root in one pass with a disgusting smacking noise of her thighs landing into mine. When I felt my teen bulb touch mom's bottom I could feel my prick hitting a hardened wall inside her. As soon as she was bottomed out completely we locked our eyes and I groaned loudly from the powerful kegel strength muscles within mom's motherly cunt cloying around me as we met.

Before Junior could say a word his mom was already steaming her hips into his lap with her lovingly liquid sounding strokes. Her fat love handles rippled from the effort as she squatted all of her weight to pummel her teenager's dick through her purple tubes the way natured intended. Junior looked down to witness the entirety of his vein rich prick going in and out of his mom's up and down moving middle. It was wicked to see the naked

cunt which birthed him into the world in agony now giving him full service pleasure as Diamond continued to pummel his lap with her bald looking muff going up and down quickly to milk his loins while his ball sac slapped against her bleached looking asshole like a beanbag. There was no doubt in Junior's mind he was being milked as he came. He had inseminated his mom's piston-pumping hips so many times before by that point in their relationship that it now was a common thing to creampie his mom's white cunt daily after school.

"Doesn't that look good sweetie?" Moaned Diamond as she squat fucked her mound up and down with loud sounding strident strokes, she reached down to split her matronly gates to show off her pink guts being beaten back by her teen's throbbing cock being fed through her immaculate cunt, "Good thing your dad gave us permission to practice our skinship at home sweetheart," she moaned as she bounced, "I know someone must be so excited to have an all access pussy pass at home. Isn't that right sweetheart? Tell mommy how much you love her lap riding sessions at home."

Junior just nodded his head. He was too mesmerized by the sight of his mom's cunt sleeve rippling against his thick teenage cock with her labial lips cloying against him like a sucking fish face in his small twin sized bed at home.

"I want to hear my boy admit to his mother how much he loves his pussy pass at home." Diamond roared before furiously bouncing her muff down with such wicked sounding strokes that anyone else at home would have heard their bodies slapping together, "Now tell mommy how much you love spunking me in the pussy or else!"

"It's all I think about mom when I leave home for school every day." Moaned Junior as he felt his teenage member being fed in and out of his mother's bald cunt gripping more tightly against his glans to draw out his seed, "If I had nothing else to do with my life but pound your pussy that's what I would do mom."

"Aw, that's cute sweetheart." Said Diamond, "I want my boy to grow up with lots of visionary dreams though so consider mommy's pussy a side piece and not a main course. Any woman worth her salt would love to marry you just for your dong alone."

Junior just nodded his head from understanding while the breathing of his mom bouncing herself above him grew ragged with her cunt gobbling over his meaty erection. The sounds of their skins slapping together filled the teenager's bedroom as the

pair looked to where their sexes met to witness their genitals going in and out of each other with the lewd sweet sounding noises of their fluids mixing together. It sounded like wet hot sex in the bedroom as mother and son approached climax. With her piston squatting hips going in full force the mother gripped her teenager's bedsheets beneath him and began to really pile on the effort to draw out his teen semen. With cervix smashing strokes she hammered herself down and this is what Junior saw and heard:

"Just look at that butter cup!" Cooed the sweetly voiced mom, "You're absolutely going all the way through my mommy pussy. Good thing only we know about us. Otherwise there might come a day when these special skinship sessions of ours have to stop."

"Why would that mean we would have to stop mom." Junior said before adding, "Not that I would ever do anything to ruin our skinship at home but do you think dad will ever want to go back to using your pussy like he used to?"

"I know you would never do anything of the sort buster and I'm positive your dad only likes butt sex with me now." Cooed the bouncing mom sweetly, "Remember it's not every day that a boy and his mommy get to practice bareback skinship at home and

especially with me your dad is grateful for the help young man."

Meanwhile, as they talked, Junior's eyes saw more to witness:

I felt mom's luscious looking bareback riding looking clit bouncing against my base as her labial lips gobbled up and down my shaft with the tip of my cock ramming the back of her pussy to bottom her out. My hardened teen bell would land into something like a hardened end while mom would grunt like a grizzly bear from the sensation of her cervical gates being knocked back by my ten inch hardened dong. It felt like a wet sounding dream as I saw my mom's hairless looking cunt bouncing over me. Her lovely vaginal halls cloyed against me tightly as I craned my neck to see every hot inch of myself disappearing within the birthing mound which made me as I thanked my lucky stars for being alive. Soon, I felt it, the sudden tingle before the gush of my release.

"Excuse me! Sweetie!" Chirped the mom mid-gallop whilst snapping her fingers in front of her son to get his attention, "I'm talking to you mister. Did you hear a word I was saying? You better not be creaming inside my cooter before I'm done lecturing you young man. I'm not done talking to you about the way I expect you to churn my no no mommy pussy at home buster-

bear." Meanwhile it was absurd what Diamond was saying as she knew her son was beginning to climax from the way his hardness throbbed with a maddening hardness against her cervix each time the mom clapped her bald muff with a passion of a devoted mother in heat and in need of her son's seed to mockingly breed her birthing chamber. She gripped her coital walls and prepared to milk her son's loins with her steady hip humping pace going: THRUP--THRUP--THRUP within the teenager's bedroom with such loudness it echoed while Diamond then said, "You better stay hard until mommy finishes too pal!"

Meanwhile, through his mom's lecturing Junior's first thought through the start of his climax was this: "I'm so sorry mom. I tried lasting longer! I couldn't hold back my nut any longer!"

"I'm about to cum." Junior said to his mom.

"Mommy knows sweet-pea." Diamond said nonchalantly.

THRUP--THRUP--THRUP--THRUP--THRUP

Diamond's hips continued with hard and fast striking motions while completely oblivious to her son's climax until the last moment when she felt his ten inch erection beginning to

twitch and throb and pulse through her clutching channel while riding him with her loudly clapping mature cunt. The mom sped her hips up with the seal around her coital ring and her teen's hardness beginning to froth with white foam while beginning to sound even wetter and more gross in the teen's room.

SHLURP--SHLURP--SHLURP--SHLURP--SHLURP!

Wet and disgusting was the sound while a grown son of age jerked his heaving cock straight up into his mom's bouncing cunt. His ears popped like he was in an airplane from the sensation of his hot pubescent semen being gobbled up like it was a hot mess only his mother knew how to handle with her bald cunt. It felt like hot bolts of lava shooting through his piss-hole as Junior's teen semen was mercilessly pulled out of him by his mom's married mound clip-clopping her bald cunt over him in his bedroom while his genetic matter continued to shoot up through her pussy.

SCHLICK-SCHLICK--SCHLICK--SCHLICK--SCHLICK--SCHLICK!

Junior's jaw dropped in his mouth while his eyes rolled up in his skull. The loud sounds of their skins slapping together in bed sounded louder than ever while his ears continued to pop from the sensation of his loins being voided into his mom's hot

mound clutching him tightly as he ejaculated. Ribbons of spunk was pulled out of him to coil against a mother's cervix as she raced against her son's biology to stir her own precious orgasm from her depths before he softened. It was too little too late however as Diamond accepted what happened with comfort in knowing that teenagers her son's legal age had amazingly short refractory periods with little loss in enthusiasm.

SLURP--SLURPP-SLURRPP-SLURRPP-SLURRPP-SLURRPP-SLURRPP!

"Mommy absolutely loves the cute look on your face buster whenever I make you cum!" Diamond mewled loudly in her cute mommy-tone voice whilst slipping her teenager's heaving erection deep within herself before dropping her weight repeatedly on her ankles to take him completely, "Time to take the rest straight to the pussy butter-cup! Now blow it straight to the pussy buster-bear!"

"It's coming out mom!" Moaned Junior while ribbons of his teen spunk was pulled out of him.

STHRUP--STHRUP--SSTHRUP--SSTHRRUP--SSTHRRUUPP--SSTHRRUUPP!

Diamond never stopped while she felt some ropes of her teen's jism still pulsating out of his piss-hole as his eyes

rolled up in his head while unable to speak during his climax. He only groaned loudly from his mom's hot mommy-milking effort going full steam on drawing out every hot white rope she could as she loudly clapped her cunt with a grunting fury while bouncing her heart shaped ass against her teenager's lap with his hairy ball sac bouncing lewdly against her puckering bleached asshole. Only her teenager's jism was allowed to inseminate the birth-control protected mom at home. Ever since a story told elsewhere the man of the house retired to his wife's brown-town after giving his son 'exclusive' pussy pass privileges with his wife. Being married to a nymphomaniac woman was not as easy as it was apparently for the dad of the family as Junior quickly began to learn after discovering how insatiable his mom was at home after school.

"I'm so happy to do this with you every day mom at home!" Was all Junior would say at last.

"Shoot that baby-batter deep butter cup!" Cooed the hot mom as she often spoke while drawing her midsection to absorb her teenager's erection into the back of her purple cunt with his bell throbbing against the groove of her cervix, "I want another load before you dad gets home mister!"

Junior sat up on his elbows to grab at his mom's hanging

bosom to grasp a melon sized jewel of flesh before suckling like a babe. Within the deep indentation of his body frame in his twin sized mattress his mom's piston pumping hips coaxed out his hot ropes which totaled in the dozens. His balls were being drained. Rope after rope of white hot sperm was pulled out of him into the nymph mother's mound as she rode her boy hard and fast in her favorite saddle position in her son's bed. With her bareback riding position the mother mewled out sweet encouragements to congratulate her son for emptying his balls inside her. For the first time in his life Junior was feeling the sensation of a woman, the woman who loved him the most, trying her absolute best to milk the semen out of his nut sac. His teenage hormones and small refractory period made the lucky son of age the perfect 'adult toy' for the married nymphomaniac mother living at home.

"Good job butter cup." Panted Diamond as she planted herself with a final and climatic sounding 'C-C-CLAP-P-P!' sound while the clit of her cunt flared like a pink bulb mashing and gyrating into her son's coarse pubic hair to welcome his stubborn ejaculation deeply, "I think you really planted a huge load inside mommy's cooter this afternoon. Round two in a minute?"

"I'm pretty sure if your pussy wasn't in the way to take

that load I just planted my cock I would've shot my cum against the top of your skull mom." Said the incredulous teenager in his orgasmic afterglow, then he said, "I don't think I ever came that hard before in my life mom."

"That's because you were ridden hard and fast by genuine mommy pussy buster and I gripped you good." Cooed the sweetly voiced mom as she kneaded her kegel muscles across her son's softened glans, "Do you think you'll be ready to plant another fat load in my pussy soon? I hope so."

"I'll be ready in a minute mom." Said the teen as he winced each time his mom's inner muscles clenched across his recently drained sensitive skin, "I want anal though. Can we mom, please?"

"I'll think about it later sweetie-pie," cooed the mom in her mellifluous voice, "your mommy is having too much fun softening up your boners in this position though. You know riding is my favorite thing to do at home and nothing beats riding my young man's big dick until you bust in my mommy twat and we both know round one never counts for me because of how fast you cum after school."

Diamond winked and then clenched her muscular sleeve

casually to test the softness of her teenager's erection cooling in her cunt. Without his hot blood coursing through his erection there was a short refractory period before he would be ready again. The mom flicked her tongue through her lips and bent forward to allow her son to continue suckling on her bosom as she moaned from the feeling of his tongue lancing across her nipples before switching back and forth again. In the perfect indentions of their shapes in the mattress the mom carefully lowered herself over her son to force him to lie back. She needed to rest a moment after riding her boy's big boner so hard and fast earlier through her now freshly used and inseminated vaginal sleeve. She panted as she rested.

The sounds of Diamond's heavenly sounding contented breathing filled Junior's ears as he thanked his lucky stars for his mom's incredibly talented riding skills as he smothered by her breasts. Junior knew his mom liked to rest after their skinship in bed by laying over him until his erection re-hardened inside her cunt (as he often quickly did at home) for 'the next load' of the day. It was the dream life for the home grown teenager and nymph mom as they bonded their fluids all day together typically this way after school and through the night until the man of the home returned. All they did and wanted to do was join their fluids and Junior loved fucking his mom more than anything in the world. He was addicted to the pleasures of

bareback pussy and family skinship.

"I wonder what the inside of your pussy looks like right now mom." Asked Junior.

"I'll be happy to show you after load number two butter-cup." Diamond spoke nonchalantly.

"Does that mean we can try doggy?" Junior asked, "You know that we can try another position--"

"No doggy yet mister." Interrupted Diamond in her cute mom tone voice, "You know how much your mom loves our bareback giddy up rides in the afternoon. The sun is still up and you want to get out of the saddle before I get to feel my toes curl from orgasm? I thought mommy raised you better!"

Truth be told, Junior had no way of knowing whether or not his mom was lying or not but believed her anyways. His pride felt stung and in a second-wave of hot-blooded emotions he felt his erection return as blood rushed into his prick in the shape of his long ten inch teen dong re-inflating in the pink sheathe still clutching around him from tip to root. Diamond giggled sweetly and gripped her vaginal muscles against her teenager's returning erection in approval. The mom did in fact climax all

over her teenager's cock but knew what to say to make her son re-hardened faster than normal. After a year of skinship she was learning her teen's 'buttons' so to speak.

"I think it's cute how quickly you go hard for mommy after just creaming inside me mister." Diamond cooed before adding, "I just yanked the mother lode outta you with my cunt and you're swollen so soon already. If your mommy wasn't such a cum slut for your hot semen I'd be upset."

Diamond flipped her blonde hair back before adjusting her planted feet as she straddled her teenager's hip with his hardening erection beginning to throb inside her once more making the mom audibly gasp from the feeling of her freshly bruised pussy walls being met with the same resistance she welcomed into herself just a moment ago when the mom mounted her son to milk his white goo out. As the mom adjusted her weight over her son's body fresh from her rest after their most recent internal insemination at home a gurgling sound coming from the mom's labial lips wrapped around her son's cock where their sexes joined together was heard. There was a noticeable amount of foamy white stuff near the clitoral bulb of the mom around their seal. During the mom's adjusting movements she was forced to clench her kegel muscles to hold her straddled position over her son's returning erection causing semen to be squirted lewdly

out of her hairless cunt around the seal her coital lips formed around her son's softened member. Junior looked down to where their genitals joined after his mom towered above him while she straddled him with her bosom hanging and her insides clenching to squeeze out all the air from her filled up cunt in the form of thin white bubbles gurgling out near where the mom's clitoral hood touched against her son's pubic hair around his thick cock.

"That's so fucking hot looking right now mom." Junior said in admiration of his thin white cum bubbles coming out from the vaginal sheathe still plunged over him, "Thanks for fucking me mom."

"Watch your language mister!" Diamond scolded before playfully slapping her son across the face, "Just because you're plunged in some no no mommy pussy at home doesn't mean you get to curse around your parents."

In the moment of their fluid bonding conversation in their post orgasmic bliss the mom and son began to recall all the family memories before their skinship began at home. There seemed to be a flood of awkward moments of the teen accidentally walking in on his mom while she was naked in the room after Junior began to hit puberty that he only then realized were moments to groom him to become attracted to his mom's body.

Whether he liked it or not, it was not an accident his mom and him began to practice what she called 'skinship' after one fateful day when Junior poked Diamond's pussy full of his semen. For a stay at home mom it was the culmination of years of 'accidental' exposures and offers to bathe or swim or be with her son to feel his loins for the first erection of his life. As they both locked eyes the pair began to reminisce about old memories they shared in the family house while a lusty mom waited for her teenage son's hardening cock to throb once more in her cunt.

"If I was thirteen again I would have reacted way differently when I felt you grab my erection during that movie with the whole family in the room that one night." Junior said to his mom as they reminisced, "I don't think you ever tried that again after what I did with everyone in the room."

"You practically screamed like a little girl when I grabbed your ding dong through your sweatpants. When I saw you were watching the kissing scene happening I knew I had my chance." Diamond said, "I was so afraid your sister and dad was going to see us when you yelled out though. I just wanted to see if you got hard at your age. You were just starting to go through puberty and I wanted to make sure my boy was developing properly down there like a good mother should."

"Well, I remember you doing it whenever that sex scene came on while I was already touching myself. I didn't know what you were trying to do when you grabbed me so I freaked out and ran."

"That's a darn shame sugar bear." Consoled the sweet mom as she rose up on her haunches to put her weight on her feet with her muff still stuffed, "If you just kept silent that night mommy's hands could've been practicing skinship years earlier before you got legally old enough for us to fool around at home."

"Are you about to get on top of my cock mom?" Asked Junior to his middle-aged mom as he saw his voluptuous body resume her riding stance, "I don't understand why you love to ride so much though."

"Well buster, your boner is abusive to your mother's older pussy in any other position buster-bear." Diamond said nonchalantly as she squatted with her feet planted in their home-made mattress indentions made over time, "When mommy rides you it allows me to angle your pecker to poke where I need you to poke inside me and go deep when I need you to go deep when I orgasm."

Diamond went on to explain how her son's erection throbbed inside her cunt sleeve whenever he shot his semen inside her vaginal depths. The throbbing pressure of her teen son releasing his genetic matter through her pink sleeve always made her coital walls grip and contract in pleasure she explained. The mom would feel her teenager's bulbous tip pulse and throb against the back of her pink cervical gates with each hot white genetic cord he shot out through her vaginal depths. It took over a year of adjustment but for a certain mom and son pair at home their incest they called 'skinship' was the new norm in the otherwise normal family where a nympho mom at home and a horny son of age frequently exchanged their breeding fluids to keep happy with the dad of the family's blessing under two conditions: no anal penetration or baby-making sex allowed.

After blasting so many thick cords of his spunk through his mother's channel the teenager at home quickly learned his nympho mom was a creature of habit when it came to taking on his dick. The stay at home mom preferred to ride. No doubt it was because of the ten long inches of erect meat Junior had to offer which Diamond took to the root each time with the feeling of her son reaching past her belly button through her birthing chamber. Her body would always quickly redden whenever she began her hard squatting fuck motions which slapped her coital ring against her son's base with sickening loud claps of skin striking skin. It

started as dry clapping at first until the wet sounds of gross fluids being made joined the applause their bodies made together whenever the mom rode her teenager's erect lap at home every day in his bed. Each time Diamond felt her teen about to climax she would quicken her strokes to feel her teenager's bulbous tip pulse against her cervical gates. She would begin to feed her son encouragements to coax his loins, encouragements like: 'let mommy milk you out pal!' and 'come to mama young man!' and 'mommy loves her big boy!'; and whenever the mom felt her teenager's bulbous tip throb against her cervical gates she would clench her vaginal muscles with all her strength against her son's throbbing textures whilst striking her bald muff quickly up and down with furious kegel gripping strokes because only this sensation made Diamond climax anymore.

Truth be told, little feet shaped indentions were forming in the two places Diamond preferred to plant her feet the most whenever she mounted her son on his twin sized bed in his small bedroom. The frequency of their encounters reached a point in the bedroom of the lucky teen of age that if his walls could speak they would tell tales of spunk being shot through a mother's purple tubes on a frequent enough basis to redefine the word 'mother-fucker' in the dictionary. The two feet dimples on the mattress were deep enough to be noticeable and they did not go away whenever Diamond dismounted. Instead they grew a little

deeper each time. Meanwhile, the mom stayed planted on her spot with her cunt still sheathing the entire length of her son's cock as she hummed a cute lullaby tone in her throat while waiting for her boy to re-harden through his short teenage refractory period.

"I think that's enough of mommy lecturing for now sugar bear." Said the mom finally, "All my talking is making you hard again. I can feel you hardening in my cunt for another round sweetie."

"Are you going to start riding me again soon mom?" Asked the bold teen with blood returning to his sheathed erection.

"Well, you are hardening inside your mommy's sweet pussy young man which means my special boy must want to pound some no no pussy full of semen again, am I right?" Diamond said slyly followed by a motherly smirk, "How about another bareback giddy up ride after you're done being sensitive?"

Junior just nodded his head stupidly with blood returning to his manhood before hearing his mom giggle at him before throwing her hair back and readjusting her weight on her squatting haunches with her bosom and teats hanging in full view of her lucky son. For a moment the thought of asking his mom to

hit her cunt from the back entered Junior's mind before the desire to ask for what he really wanted, the chance to try doggy with his mom, escaped him with the sensation of tight cloying motherly vaginal walls gripping him. It felt like a velvet vice wrapped around his cock as the mom clenched her kegel muscles. Meanwhile, a thin string of bubbly white fluids could be seen escaping around the vaginal seal still wrapped around a particular hung teenager's massive pussy stretching cock.

"You're so cute when you're excited for another of mommy's patented bareback giddy-up hugs over your stubborn erections, you know that?" Said the mom to tease her teen before saying, "How about we take a look at your first mess though. I want to see a fat load drip outta my cunt before I consider milking out your hot white guts once more with my toughened mommy twat mister."

Junior just nodded in his spot as he watched his mom squat her muff to smother her full weight over his naked lap before making motions to rise up from his spent cock. Diamond cooed sweet encouragements to her teenager as she carefully lifted up her middle. Her bald looking cleft of womanhood could be seen slowly leaving every meaty inch her son possessed as the hot mom rose off her son's lap with her sumo squatting hips. The bed below them creaked as the freshly relieved teenager witnessed

his mom's hips lift off his cock. Junior's manhood flopped out of his mother's cunt to land across his belly with a slapping wet noise before the skinship practicing mother and son pair saw a mess of hot looking breeding fluids gurgling out of the mother's pink depths.

"Goodness buster-bear." Cooed the mom as she fingered herself to grossly stir her son's semen inside herself, "You should be ashamed for rinsing me out with your cum like this kiddo."

The pair could see thick globules of teen semen tumbling out of the mother's pink slit in the shape of white dripping icicles as Diamond scooped herself out. Her bald looking pussy lips were split apart by the mother's fingers scooping in and out of herself to gather all of her teen's precious white spunk to the edge of her lower lips. It was disgusting sounding work but the hot mother enjoyed the feeling of her son's semen rubbing against her vaginal walls as she clenched her muscles to help evacuate her cunt of her son's semen. There was a brief sound of gross bubbles being burped out from a gaping motherly cunt before the sight of a large load of semen appeared like a pearl at the mom's pink gates before falling out in a continuous white tentacle to fall over a spent son's tilting cock before falling over in the shape of a stringy looking icicle of semen.

"You sure shot a big load of your baby batter up your mommy's tough cooter just now buster, for shame. Do you feel better after pumping some more cum up your mommy's cunt again pal?"

"I feel great mom." Said Junior as he loved the sight of semen falling out of his mom.

"You know how much mommy loves pulling out her boy's thick semen at home young man," cooed the mother sweetly as she continued to finger her son's semen from out of her gooey lips before adding, "After your baby batter is all out of your mommy's cunt I'll ride you again, okay kiddo?"

Junior laid back in his bed and crossed his hands behind his head as he thanked his lucky stars to be born. If anyone had ever told him when he was much younger that he would grow up one day to be fucking his mom he would have thought it beyond gross but after going balls deep through his mom so many times he loved her willing holes. Truth be told, he never felt more attached to his mother in all his life then after unloading his genetic fluids far into the dark place which birthed him into the world. He closed his eyes and recalled a flood of random memories from each occasion his hornier than horny mom came into

his room to ride him hard and fast until he creamed his white guts up in her cunt over so many different occasions which led to the two deeply shaped feet indentions in the form of Diamond's soles and toes and foot arches on his small twin mattress.

"Just sit back and relax and get hard for mommy soon mister." Cooed Diamond as the mom casually squatted to rest as she caught her breath while feeling the cool air against her glistening brow, the mother's breasts rose and fell with her breasts completely spilled over her sides as she rested, "Mommy just needs to clean herself out before I do another giddy up," she said with her sultry stare locking with the stunned look of her son as his eyes looked straight down to lock on the sight of his semen tumbling out, "can you get hard soon for your mommy kiddo?"

Meanwhile, Junior could hear the gross sounds of his spunk being scooped from his mother's cunt filling his bedroom. As the stay at home mom finished cleaning up her pussy to allow her son a fresh looking place to reseed the lucky son of age day dreamed about all the times his mom rode him in his bedroom to the point that his twin sized mattress had permanent indentions from where Diamond frequently planted her feet like stirrups in a saddle before mounting her son from above. The first couple

times he was ridden he recalled grabbing desperately at his mother's rippling Texas-sized ass because he could barely withstand her weight smashing his manhood as deep as it could go through the mom's warm and motherly feeling pussy. She always spoke lewdly as she sunk her weight down after sensing her son's ejaculation to take his hot ropes far and deep inside her cunt each time she rode. Ever since her husband gave her permission more or less to 'bond' with their son daily Diamond never missed a day of riding her son with Junior recalling in recent memory just yesterday with his insatiable stay at home mom when she said in his bed while on top:

"Shoot a big boy load straight up your mommy's tight pussy sugar bear. Straight inside mommy's velvet pocket sweetie! Shoot deep inside mama sweetie! Deep-deep-deep!" The hung teen of age recalled his mom cooing those words to him in his bed as she ground her bald mound around his heaving cock that morning to help him get out of bed for school on time, "Give mommy a fat load buster before you go!" She moaned, "Mommy wants you to rinse her cunt out with seed mister, ya hear?!" She moaned whilst holding his head and hair in the son's memory before she bounced up and down like a cow-girl bucking in a saddle. The mom milked every square inch of her son's cock as he ejaculated. When the twitches in his spewing cock began to lengthen the voluptuous mom began to squat fuck her son hard and fast once

again. Junior shot wad after wad of what felt like gallons of sperm deep through his mother's clapping coital rings to coat her cervical gates with his seed--

"Goodness buster-rabbit!" Said Diamond in mock anger as she interrupted her son's daydream in his bed with her curling fingers still scooping to remove her teen's semen from her cunt, "You sure filled up mommy's cooter full this time buster, now you're in trouble, you simply shot too much semen in me kiddo. What would your dad do if he knew you were creaming so much in me at home?"

"Can you blame me mom?" Said Junior, "I'm naked in bed with my hot stay at home mom. The only thing I wish I could do was tell all my friends at school just how much I love banging my mom."

"Oh, shush buster." Cooed the sweet voice of Diamond, "I know you're buttering me up with compliments on the chance that I'll say yes to practicing anal but you're staying put mister."

"But mom!" Complained Junior in annoyance, "I just want to try hitting your pussy from the back just once. Please mom!"

"Maybe later butter-cup." Cooed the mom with her cute mom-

tone voice as she adjusted her stance in the two deep feet indentions on the lucky son's bed, "After all, you know how much your mommy loves our special bareback giddy up hugs in your bed at home. I reckon we'll have to buy you a new mattress before I pummel you through to the floor from my toughened mommy twat bouncing up and down on your cock judging by these stirrup spots my feet are making in your bed young man."

Junior was speechless from looking at the creamy white looking sight between his mother's legs in the light of his bedroom. His white genetic material could be seen tumbling out of his mom's hairless cunt in waves as Diamond finished cleaning out her son's semen from her married cunt with hot wet scooping sounds from her fingers swiping across her inner walls with squishy wet noises. Her lower labial lips were frothing like a foaming wet mouth from all the fresh ejaculate recently shot inside the mother's married cunt which made the hung teen's head swim from the sight of all his hot white spunk falling out of his mom's hairless gates. The feeling of dumping his genetic matter inside the place of his birth was more than anything a horny teenager at home could have wanted as Junior watched the sight of his semen oozing and flowing out from his mom's bald snatch.

"But mom!" Junior whined, "I just want to try doggy with

you once before dad comes home!"

Diamond was incredulous with a look on her face which meant trouble later for her son. It was an expression that instantly made Junior stop his complaining as the mom suddenly took pity on him. Who was she to deny her son the experience of trying out her voluptuous figure from behind just once. Even though she preferred to bump and grind her muff with up and down motions who was she to deny her son the viewing pleasure of her heart shaped derriere being taken by her teenager from behind. Although the mom was intimidated by what ten inches of her son's shaft would feel like inside her while mounting her from the back she decided what better reward to gift her son for his amazing stamina than to allow him the chance to see her cheeks clap from behind.

"Fine, mommy gives up." Diamond relented, "I'll let you try hitting my backside buster, but no anal, understand! If your dad came home to see you balls deep in my bottom muffin instead of my mommy cunt he would be furious at us for breaking his rules when we practice skinship at home."

"Great mom!" Said the teenager in a more commanding tone to his mom than ever before in his life, "Now if you don't mind have you ever heard of the 'face down ass up' position mom?"

"Face down, ass up?" Asked Diamond with her purple slit still draining on her son's lap, "Is that what you cool young kids call doggy style nowadays?"

"It is mom, but it's more specific than just doggy." Junior Said with his eyes glued upon the oozing white pubescent mess tumbling out from the place of his birth as his mom finished cleaning his cum from out of herself.

"And what could that be young man?" Diamond said with her elbows jutting out on her son's bed after placing her hands on her hips in question, "My eyes are up here by the way mister."

It was hard for Junior to look away from the amazing size of his thick load still draining out of his mom from the place of his birth. He could see purple looking vaginal flesh and his cum. His cock throbbed from the sight while his imagination raced with the realization that his ultimate fantasy of turning his mom into his personal cum slut was coming true. Diamond was a nymphomaniac living at home and to the voluptuously shaped mom nothing beat riding her boy. The way she could angle his tip to strike at her cervical gates just perfectly was everything the mom ever wanted to keep her painful pangs of unrequited arousal at bay without having to resort to the degradation of

masturbation alone.

"Sorry mom." Junior said in distraction, "It's just really hard to look away from there."

"No worries kiddo," Diamond cooed, "mommy knows your loads are always hard to look away from."

After so much dramatic and disgusting sounding motions it seemed the mom was finally done with cleaning out her cunt as best as she could with just her manicured fingers. Standing more erect than ever in his spot Junior watched as his mom unceremoniously swung her leg off his lap. She left while throwing her long straw blonde hair over her shoulders. A trail of creamy looking seed could be seen gliding down her inner thighs as Junior watched his mom spin around. The bald looking pussy lips still glazed with hot incest seed at home disappeared as Diamond sat on her haunches before kneeling with her legs closed and arms folded over her knees on her teen's bed. Diamond smiled and with her arms pressing her breasts together to squeeze them she began to speak.

"So buster bear, you sure you want to start trying out your mommy with my back turned?"

"Absolutely mom." Said Junior, "I love the way you ride me but--"

"But excuses buster." Diamond interrupted, "Then why are you asking me to give up my favorite position young man? Are you tired of watching my big titties bounce when mommy gets on top pal?"

"Not at all mom." Junior replied.

"Then is it the way my little tummy fat tightens up into a ball when I ride?" Asked the mom.

"No mom," Junior said, "I actually think the big dimple below your belly button is super cute."

"Aw, thanks buster." Diamond said before beginning to shake her chest in front of her son to make the bouncing sight of her bosom more appealing, "Are you sure you don't prefer seeing your mama's big milk jugs bouncing on your lap though kiddo? I don't want my young man seeing his mommy's brown eye winking at him while he hits his mommy's behind and getting any ideas mister."

"I promise I won't ask for anal if you just let me see your

ass shake from the back mom."

"Are you sure buster bear?" Asked Diamond in her best teasing mom voice, "I don't want our regular riding skinship sessions in your bed becoming raw-time doggy style sessions buster."

"I won't ask for anything else today mom." Said Junior with his mom still bouncing her chest up and down with hands to mimic moving her breasts bouncing as if she was mounted over him.

"Come on kiddo." Cooed the mom while bouncing her breasts, "You know mommy prefers to ride."

When a moment passed with the breast juggling mom unable to convince her son to change his mind about wanting to experience her body in a new position in his twin bed she sighed in defeat.

"Alright kiddo, if you really need to see your mommy's booty shake I guess we can try doggy."

"Seriously mom?" Asked Junior in excitement, "Nothing would make me happier than to finally try a new position in my bed for once, not that I don't love it when you climb on top of

me."

"Sugar bear, I'm ashamed." Diamond cooed in offense, "You really are getting tired of my giddy up hugs over your pesky boners in your bed."

"Can you blame me mom?" Junior said while pointing to the two foot indentions next to him in his bed which sank three inches deep into his twin sized mattress, "We're ruining my bed."

"No such thing sugar bear." Diamond cooed in her mellifluous voice, "Your bed is just getting broken in butter cup, once my feet can touch your box spring below this we'll get you a new one."

The cratering sight of two foot indentions were obvious in the twin sized bed. Junior was still lying down and reaching through the two favorite spots his mom liked to plant her feet. He could feel several metal springs beginning to break out of his bed. They were covered by his fitted sheet and when he pressed harder the indentions went even deeper towards the floor. Junior felt like he could nearly touch the box spring of his bed when he reached his hands through before finally sitting up with his ten inch teen dong limping forward to point at his

mom sitting nearby next to him. Her breasts were still shaking together to knock together with light skin slapping sounds as Diamond tried to entice her son to lay back down one more time with her bouncing bust.

"Are you sure you don't want to see these milk bags shaking one more time?" Diamond asked, "I promise to gobble your boner without squeezing my kegel muscles if you think I'm too tight."

"I'm sure mom." Said Junior as he went over to his mom to suckle one more time at both her teats while grabbing big handfuls of her tit flesh as his mom giggled and held him close.

"Fine sugar bear." The mom cooed, "We can try doggy if that's what you really want buster."

Junior was over the moon when he saw his mom roll off from her feet and knees to position herself to face towards the door of his room. Her creamy white naked ass presented itself with her immaculate cunt still looking like a glazed white pastry from all the semen dumped inside her purple holster so far that afternoon at home by the lucky hung son of age who loved his mom. Diamond turned her head to look back with straw blonde hair hanging down her back and shoulders. Her manicured hands could not be seen behind her back as they reached for the end of

the bed to grab at a piece of wooden bed furniture to prop herself up. She was on her knees on the mattress with her feet pointed back with her naked ass shining in the light of the room.

"Come and get it buster." Diamond said in her best mommy voice.

"Hold on mom, use this pillow to hold your face in." Said the teen as he reached for a pillow behind him to give to his mom who took it without knowing what she should do with it.

"What's the pillow for pal?"

"It's for the position I want to try mom."

"You mean the fact clown mace scooter position buster-bear?" Asked Diamond in confusion.

"You mean 'face down ass up' mom." Said Junior while holding back a laugh, "The pillow is for your face to lay on while I pound your butt from behind, I mean your 'pussy' from behind."

Diamond said nothing a moment as she pursed her lips

together in thought. She did not like the idea of being in such a submissive position to her son. She liked being able to look back to observe her son and all his expressions he normally showed when plunged through her motherly cunt. After a few seconds she accepted the offering and placed it beneath her hanging chest but did not lay her head down while still pointing her naked rear with her cum covered slit still facing her son. Junior got up from his spot on his bed and was on his knees and walking himself towards her big behind while stroking his cock back and forth which his mom could see and hear in her position. The mom gasped a muted sound when she felt her teenager lancing his bulbous tip against her gates to place himself lightly against her leaking cunt but without ever pushing to enter.

"Is something wrong pal?" Asked the mom, "You're welcome to poke your thick dick through my married pussy whenever you're ready young man. Don't be shy. We've done this before, remember."

"Yes, but we've never done doggy in my bed until just now though mom." Said Junior before adding, "By the way, I was serious about the position mom. If you want your boy's big dick you better do what I tell you so I can really enjoy the sight of your big butt shaking when I plant."

"Fine!" Sighed the mom in defeat, "I better not hear this becoming a frequent request at home though young man. I'm only allowing you to hit my soft pussy this way because I love you."

"I know mom." Said Junior as he watched his mom get into the position he wanted to see her in.

"I don't want you getting any ideas about poking your thick dick through my anal-pussy too mister." The mom said with a wagging finger going behind her back to warn her son, "I mean it buster. If I feel your pecker even graze against my bottom muffin I'm telling your dad."

"I promise I won't fuck your tight little asshole mom." Said Junior, "Dad can have that hole."

"Young man!" Said Diamond in anger and shock, "Don't curse around me, understood? I don't want you speaking any dirty words around me unless you're in pain or balls deep, understood?"

"Got it mom." Said Junior, "You don't have to tell me to stay out your ass by the way mom. I know how serious the rules are at home with dad still living here. I would be a fool to risk my skinship privileges at home over your bleached butthole

when I got your soft pussy all to myself."

"Now be careful honey." Lectured the mom as she agreed to the absurd request to position her mom-bod in the 'face down ass up' position to appease her son, "I know you're excited to hit my tight mommy pussy from the back but don't forget nothing mucks up mature cunts like semen and you've already shot a few wads in me after you got home from school mister. I tried my best to clean your stuff out but we both know how your teen semen loves to stick against my sugar walls no matter how long mommy spends trying to scoop out your hot stuff with my fingers just like I did."

"I'll be careful mom." Said the son breathlessly with no intention of holding back any of his reserves after finally being given the chance to plow his mom with her backside in view.

"You promise to not go balls deep in my cooter in one strike if I let you ride my behind?" Asked Diamond in her concerned parental tone, "You know I prefer to ride but I do love my son."

"Does that mean we'll really try this position I've wanted now mom?" Junior asked in excitement, "Thank you so much! I've

always wanted to see your ass shake from behind!"

"Only if you promise to treat my cooter nicely kiddo."

Answered the mom, "You know the reason I like to ride your ding dong so much is because of your big size down there buster."

"Are you saying I'm even bigger than dad mom?" Asked Junior.

"All I'm saying is you got a few inches on papa-bear kiddo and those few inches really stretch out the spot between my legs whenever I ride and I'm afraid you might cause a tear inside me if you lose control of your thrusts mister. Do you promise to be careful if we try doggy pal?"

"I promise not to tear your pussy up mom." Junior said in excitement, "I'll thrust slowly."

"You promise to not put a tear in my cooter buster?"

Diamond asked, "After all, my muffin is still a little mucked up by your last few loads kiddo and you know sticky semen makes bad lube."

"I promise to go slowly until you get wet enough for me to go full steam ahead in my bed mom."

"Well you better hurry up buster because I think we both know your dad will be home soon." Diamond explained with her cheek bone pressing into the pillow on the bed with her thick ass pointed towards her son in his small bedroom while her head pointed towards a wide open door, "After all, it's no secret in the family that your mommy loves to ride and your dad might get suspicious if he sees you reaming me from behind when he walks by your door after he gets home."

"Relax mom." Junior said, "I promise to be quick once I think your pussy is wet enough."

"I'm serious buster." Said the mom in a scolding tone of voice, "If you put a tear in your mommy because you become too greedy while pumping me from behind I will be very upset with you."

Junior could feel his heart hammer in his chest as he watched his mom get adjusted in her position. The bedsheets beneath them wrinkled after the mom spun around on her spot to face plant her body in the spot her son pointed her to lay. A sunbeam striking her made Junior feel like his mom was the sex goddess of his wildest dreams as she positioned her voluptuous body for him with her ass raised high in the air while her mop

of straw blonde hair could be seen on his mattress. The small twin sized bed could barely support both figures as Junior moved from his spot on his bed to position himself to enter his mom's purple looking creamy cunt from behind in the sunlight. Her face was turned away from him as he heard a cute mom-tune humming sound grow louder as he approached the sight of two mature fingers reaching back between a pair of legs to split a recently inseminated cunt wide open with gross squishing noises to welcome his throbbing prick. When Junior felt the first vaginal ring of mature mommy-pussy engulf the bell of his cock from tip to rim before inserting another inch of his shaft the mom and son pair moaned in unison in bed.

"Don't worry mom." Said Junior with his bulbous tip breaking through, "I promise to go slow."

"Alright sweetie, but-- OOOUGH" The mom began before feeling her delicate folds being pierced.

Diamond was interrupted mid-sentence by the next meaty inch of a long teenage cock penetrating through her labial lips from behind. She groaned deeply into the pillow on the twin bed. A sound like a wet kiss or wet skin sliding could be heard in the small bedroom as Junior fed the first few inches of himself slowly through the place of his birth while the mom moaned

softly against his excruciatingly slow initial stroke. With her head faced down against a pillow the mom felt her son grab two thick handfuls of her naked ass as he slowly inserted himself through her hallowed birthing sleeve before feeling his long erection reach even further through her bent over figure. He edged the first few inches of himself slowly through her channel as he began to feed his last few inches with slow back and forth strokes in search of his mom's dark center as she moaned. Their middle sections soon met as Junior bottomed out his mom with a groan.

"I can't believe I've never seen your pussy in this light until now mom." Junior said while watching his hairy pubic middle reach the naked taint of his mom below her bleached butthole, "I can see all your little textures gripping me differently. Your pussy definitely hits different."

"Well, don't get used to it kiddo." Diamond moaned while feeling heavy breaths falling against her asshole, "I don't like how you can just look at my butthole whenever you want though."

"So what if I like looking at your star shaped butthole mom?" Junior asked, "Dad only cares if we practice anal. He said nothing about letting me getting a look at it every now and then."

"I just would prefer if you did not look at all butter-cup." Diamond said, "After all, you might start getting ideas about your mommy's closed off butthole if you look at it too long."

"How could I ever get tired of looking at your pussy lips grabbing me though mom?" Junior said, "I think this might be our first time practicing doggy in my bed since we started skinship."

"Just make sure you remember who my butthole belongs to mister." Said Diamond with her blonde head faced down with her big ass pointed to her teenager like a bent over animal in heat, "Your dad was serious when he says we can practice skinship only if we obey his rules at home you know."

"Why do you think dad only likes to beat up your butthole mom?" Asked Junior incredulously while slowly picking up steam while stretching apart the cunt which raised him, "Do you think he is secretly gay or something or did you squeeze him too hard one day with your pussy muscles?"

"They're called kegel-- UGH-OOF!-- muscles sweetheart." Answered the mom while feeling almost the whole length of her

teenage son reaching through her dark center towards her cervical gates, "Goodness buster bear, go slow kiddo, your old load in me is making it hard for me to let you in so please go slower before you start hammer stroking your ding dong through my cunt-- UGH--"

During their banter in the small bedroom there was the disgusting wet sound of their sexes slipping against each other. Junior smiled from the idea of soon being in total control of how he wanted to treat the woman who raised him while in her vulnerable position as he pumped with deeper strokes until his balls began to slap into the clitoral bulb of his mom. Her clutching cunt cloyed against him lewdly with her pussy lips undulating beneath his slow strokes as a certain nymphomaniac mom began to whimper from her son reaching far and deep through her cunt. Diamond had her ivory arms reaching back to desperately grab at her son's wrists and hands clutching against her rich matronly ass beginning to clap against her son's harder strokes.

"I don't think I'm ever going to get tired of looking at this mom." Junior said with 'this' referring to the rippling sight of his mom's cellulite rich ass shaking from his strokes while her star shaped brown eye winked at him lewdly, "I think we might have to try this more often mom."

The sound of the front door opening did not find the mother and son pair while they bonded. Their skinship continued as the noise of the man of the house entering the home filled the first floor before footsteps could be heard going up the stairs which were completely ignored. Loud sounds of skins slapping against skin could be heard echoing throughout the family house as the moaning noises of a mother being taken by her son from behind grew louder as the dad ascended the stairs. Meanwhile, the guttural noises of a mother's cunt being bottomed out grew louder as the dad of the family approached his son's open bedroom door.

"Honey!" Said the loud voice of the dad of the family, "I'm home early from work!"

"Oh, shoot butter cup." Complained Diamond, "I hear your dad so he must be home early. Do you think you're good to stop butter cup or do you need to dump another load to keep your boner down?"

"I would be able to dump a load right now if I had a--" Junior began before he was interrupted.

"Don't ask for anal." Said the mom with a scolding face

from knowing what her son was going to ask for, "From here on out I want you to stop asking for my tushy today, okay mister, your dad would be furious if he found out I let you try my butt. Just be grateful you get to try doggy."

"Did someone say anal?" Asked the dad of the family just as he appeared in the open doorway.

"Hey there papa-bear-- UGH-- Junior and I are just trying a little doggy today-- OOF-- Easy kiddo!"

"You two better not be trying anal sex over there." Said the concerned dad, "I like coming home to see you two practicing vaginal sex only as we agreed. It's part of the reason why I like it when your mom rides you on top all the time son. Are you two following my rules at home?"

"I promise we're only practicing vaginal sex-- OOF-- over here papa-bear." Answered the mom while the gross sounds of her son slapping his thighs against her rear continued to fill the room, "We're just trying doggy right because spoiled-- OOF-- sport here asked me to get off of his lap-- OOF-- for once."

"Well you know how much I like walking by to make sure nothing is going in your ass honey."

"I promise we're only practicing-- OOF-- vaginal sex right now-- OOF-- papa-bear." Said the mom in annoyance.

"Then why don't you spin around so I can make sure nothing against my rules is happening."

"We can't spin around," said the mom, "because our boy is currently balls deep-- OOF-- papa-bear."

Meanwhile, as his parents bickered Junior focused on the heart shaped look of his mom's ass rippling back and forth against his strokes. His meaty ten inch rod went in and out of his mom's undulating pussy lips at a blistering pace as he decided to take maximum advantage of his one chance to bareback his mom's cunt from behind despite his parents arguing in his room at the time. Hot wet gross fluids coated the young teenager's cock as he went through his mom's channel to send cute 'oof-oof-oof' noises through her throat during the middle of each of her sentences out loud. With his sac beginning to tingle against the sight of his thick shaft undulating the same pussy lips which pushed him out into the world as a babe he began to thrust even harder and faster.

"For once I think I would like to come home without hearing

you two always doing skwingsip." Said Dick, "I think you might be spoiling our son with too much pussy access frankly honey."

"May I remind you-- OOF-- who's idea it was to grant our son-- OOF-- exclusive pussy pass privileges at home because a certain someone-- OOF-- got addicted to my bleached little asshole."

"Junior what do you think?" Asked the dad, "Have you always followed my two rules at home with your mom? I know you two would never try to have a baby on purpose but have you ever done anal with your mom at home whenever I didn't know?"

"I'm cumming mom!" Groaned Junior as he felt the first spurt of his seed beginning to leave him.

Junior took his grip off his mom's jiggling ass momentarily to grab both her hands wrapped around his wrists. He pulled against her arched back and pushed himself as far as he could go with the first lava-like sensation of his liquid hot genetic material leaving him. Hot white bolts of teen spunk began spurting far through a mother's clutching cunt as they moaned together. The feeling of voiding his pungent teen semen deep inside the woman who birthed him gave Junior the shivers as he felt his knees buckle from the sensation of emptying his heavy

young balls completely. The mature motherly cunt took all of the seed her son had to offer after he thrust himself hard and deep before holding himself there to feel the first jolting sensation of his epic climax. Meanwhile a cuckolded dad would watch speechlessly from the doorway of his son's room after realizing his words were falling on deaf ears after repeating his question.

"That's it buster bear!" Encouraged Diamond with her cutest mom-tone voice as she felt her teen son's thick dick twitching far through her cunt to ejaculate into the back of her sleeve, "Bury dat nut inside your mommy's warm puss puss sugar bear! Don't mind your dad standing there! We'll show him a sticky vaginal creampie after this just to prove to him we would never do anal!"

The thick white cellulite in the mother's thick ass scrunched up into ugly rows of doughy flesh after Junior planted himself forward as deep as he could. The lewd star shape of his mom's bleached asshole disappeared in the lucky teenager's pubic hair as he planted his hot load deep. The angle allowed Junior to stretch his mom's vaginal textures in a shape that stroked against his glans as he began to milk himself an inch at a time through his mom's cunt to prolong his orgasm. His whole body shook as he voided his loins completely. He held onto his mom's

forearms with her manicured grip clutching his elbows as he dumped his cum. With his little back and forth thrusts the scrunched up textures of his mom's cottage cheese textured ass cheeks began to ripple back and forth as he pumped his mom's cunt full of his cum. With her cloying cunt climaxing in unison with his own the lucky son of age used every gripping surface within his mom to milk out his load. Cords of teen jism rocketed out of his piss-hole. Big white ropes landed against a mother's cervical gates as she held onto her son ramming her with his final heaving thrusts from behind.

Ropes of teen jism shot and coiled into the back of a mother's clutching sleeve as her back arched with the feeling of her dark birthing chamber being filled to capacity with fresh semen. With each hot-white cord landed against the mom's cervix to stick against their bodies would quake together in unison as Junior emptied himself completely into his mom while he held her in her spot. Her hanging bosom would jiggle in front of her husband as the cuckolded dad waited for his wife and son to finish their skinship. He eagerly waited to know if they were truly following his rules or not. After putting up with their ridiculous new relationship development earlier that year he always took solace in the fact that his wife preferred to ride their son exclusively. Whenever he would come home he would visit his son's room to witness his sac harmlessly bouncing

against his wife's prized white tushy hole whenever his mom rode him to keep his 'pesky boners' down' as she often explained. The frequency of his wife riding their son was enough to make the dad suspicious that something like anal shenanigans was happening when he could not see their genitals colliding together in the teenager's bedroom.

"Are you two done?" Asked the cuckolded dad.

"That's it sugar bear." Cooed the mom over her shoulder with her arms still held, "Dump that load straight to the pussy just like mommy taught you young man so we can show your daddy."

Junior did as he was instructed and planted his final ropes and cords as deep as they could go into the clutching white cunt of his nymphomaniac mom. His head swam after his final white rope was spent. With his ten inch erection sunk through to the hilt he finally felt himself soften within the clutching place of his conception. He waited a moment but did not stay long before beginning to pull out. Even though his dad at home gave him permission to beat his semen into his wife he always felt embarrassed whenever he found him connected at the hip with his mom at home. Especially now in his voided feeling state while still balls deep in his mom so he pulled out.

"Hear that papa-bear." Said Diamond to her husband, "I think our big boy is pulling out."

"Should I get a towel mom?" Asked Junior before it was too late.

"For what sugar bear?" Asked the mom when a big hulking load of teen semen fell out of her slit onto her teenager's twin sized bedsheets on his bed, "Oh shoot, look at that mess buster."

A trail of thick semen fell out of the mom in the shape of a thick icicle. It trailed a moment before the sound of Diamond squeezing her kegel muscles could be heard emptying herself. A hot gooey sight of clear white genetic material could be seen oozing out between the mom's legs by her husband from the open door of the room. She spun herself off the bed quickly to stand up while facing her husband at the doorway. She stood with her arms at her hips and allowed her hairless cunt to drain in observance of the man of the house. She spread her mature labial lips apart to expose her inner pink flesh where a trail of hot white semen could be seen rolling out. Then she spun around to show off her rear before bending forward dramatically. She reached her manicured fingers back to grip her ass cheeks before spreading them apart to show off her asshole.

"Take a look at my puckering butthole honey," Diamond said while lewdly clenching her anus to make it pucker in and out, "it's dry as a bone on the inside of my anus which means all of our boy's semen is inside my twat just as we agreed."

"Sorry for doubting you honey." The dad of the family said, "I guess I'll come back later."

"Yes you should papa-bear." Said the mom, "I can't believe you think I would ever let our son practice anal in the family when we agreed to keep it strictly vaginal like we agreed."

"Can you ever forgive me honey." Said Dick.

"It's okay papa-bear, you're just paranoid." Diamond explained with her pink inseminated cunt on full display for her husband to still observe from the doorway, "It's all in the pussy like we agreed and it will stay there so you don't have to ever worry about our big boy wearing out my asshole."

The man of the house watched in indifference as rivulets spunk drained from his wife's cunt with her figure was still bent over. The only thing Dick cared about was his wife's prized tushy which looked untouched despite the copious amount

of teen semen draining out of her cunt from below as she spun around to spread her labial lips with a pair fingers above a cupped hand. A small pool of semen could be seen collected in the mom's manicured hand before reaching for a nearby tissue to wipe up at the hot mess left behind around her entrance before dropping the tissue on the fresh wad of spunk on the floor to clean it up.

"Oh darn sugar bear. I think we'll have to do laundry today because of your bedsheets."

Junior was still sitting back on his bed in the blissful afterglow of his orgasm and did not notice his mom pointing at his sticky white semen collected on the spot where he pulled out at. She frowned and made a mental note to always use a towel next time the paired mother and son decided to practice doggy once again in his bedroom. Despite all this however it was the small feet indentions on the teenager's bed that the dad of the family noticed next when he looked to where his wife's hand pointed. Junior immediately pulled a blankets over his lap to hide her flaccid cock from his dad and when he did the cratering sight of two deep feet indentions could be seen.

"Alright," said the dad of the family, "I think that's enough of you two practicing skinship for today. I can see your

mother is starting to wear out your bed which is exactly what I feared would happen when you two started practicing your skinship at home. You're breaking furniture."

"How about we just get our big boy a new mattress for his birthday coming up soon instead of traditional presents?" Said the mom, "I think we're wearing his bed out from all our skinship."

"Do you always have to ride him though honey?" Asked the cucked dad, "Part of the reason I gave up your pussy in favor of your asshole is because I know how much you like riding."

"There is nothing wrong with the way I prefer to treat my nymphomania at home when I have access to perfectly good dick honey." Said the mom in retort.

"I just think--" Dick began.

"I just think it's funny you're always paranoid about us practicing anal at home papa bear when we both know our son getting involved in our marriage has been the best thing to ever happen to us in our bedroom. You know I have nymphomania and I know you prefer my tushy nowadays more than anything else. If our son isn't going to fuck me in the pussy then who will at

home?"

"You're right honey." Said the dad in defeat. "How about this, as an apology for doubting you two how about you take your little shindig over to the master bedroom while I go out to buy a new bed for Junior."

"I think that's a lovely idea papa-bear." Said the mom while still naked in front of her husband before turning to address her son, "What do you think sugar bear? Ready to bring the party to your mommy's bedroom so you can bone some more semen inside my twat?"

Junior was dumbfounded but what more could he do but nod his head eagerly up and down. He got up from his bed with his blanket still wrapped around himself before following his mom out the door of his room. Before he left his dad was already inside the room and inspecting his mattress briefly before flipping it over. The lucky hung son of age did not turn around to see what his dad was doing with his old mattress as he followed his voluptuous mom out the room."

"Goodness honey! You practically punched two feet shaped holes through our son's bed. He must sleep terribly at night." Dick said behind Junior's shoulder, "It's a wonder he never said

anything."

"Not that I don't do much sleeping with mom at home." Said Junior under his breath.

"Thanks for agreeing to get sonny here a new bed papa bear." Said Diamond to her husband while reaching through the toga style blanket wrapped around her son's shoulders to lead him forward down the family hallway towards her bedroom with his ten inch cock in tow.

"Just make sure you keep taking your mom from behind on the bed son." Said Dick to his wife and son as they disappeared behind a doorway, "I know the damage her riding can do from experience and I cannot tell you how much money we have spent on mattresses before you were born."

"Don't worry dad." Said Junior, "I think I can get mom in the doggy position one more time if she lets me. I'm hoping it will become our next favorite position considering she loves to ride."

"Alright kiddo, get on the bed so mommy can start bouncing her booty on this pesky boner of yours while your daddy goes out to get you a new mattress for us to practice our boom-boom

making skills like mothers and sons ought to do at home but shouldn't."

"Yes ma'am!" Said Junior before closing the door behind him with his heart hammering in his chest with the knowledge that he would likely have the rest of the day to plunder his mom's coveted breeding chamber with all the spunk he could muster while he waited for his dad to buy him a new mattress. He dreamed of spending the night in his parents' bed as his mom positioned herself with legs spread.

"Cum to mama." Diamond cooed to her boy.

THE END.
