

My Baby Making Mom

By Divina Demure

Scenario: Leave them both at home! Let a mother mount her son in his bed and ride him!

In the bright light of the early morning Diamond rolled out of her bed to greet the day. The busy mother stood tall as she reached for her favorite pink bathrobe to wrap around her figure. She checked the window for her husband's car and saw an empty spot which meant he was at work. When she left her bedroom she walked down the hallway until she stood at the open door of her son's bedroom. She entered without knocking and saw him lying in bed with his bedsheets tenting in anticipation. Just hours ago the pair had a conversation during their nightly 'tuck in' rituals, Diamond wanted a new baby in the family and her son would be the sperm donor to help her conceive. They agreed if the man of the house was gone they would begin their baby-making sex as soon as possible.

"Looks like someone is excited." Spoke Diamond to her son as she saw him remove his blanket from his lap to show off his morning erection, "Feel like shooting another baby-maker into your mama today young man?"

“Are you sure mom?” Asked Junior in his excited voice, "I only want to do this if you want to do this."

“Mommy is extra sure sweetie.” Cooed Diamond as she closed and locked the door behind her before approaching her son as she disrobed from her pink bathrobe which fell to the floor in a pink heap, then she added, “You’ll need lots of energy for all the sex we’re gonna be having though mister so no video games today. After we start bumping our ugly bits together in your warm bed I don’t want you wandering away from between my legs once we get your pecker snuggled deep because

mama-bear needs all your semen in my ovulating cunt today, okay.”

“What about dad?” Junior asked as he watched his mom approach him before standing next to him in his bed with her figure silhouetted.

“He’s on board with it since he had a vasectomy on his gonads years back.” Answered Diamond, “We want another baby Junior and if it’s alright with you maybe you can help your mommy out if you catch my drift.”

“Does this means you’re not birth control mom?” Asked Junior.

“Not since last month.” Answered Diamond flatly.

“Last month?” Asked Junior in confusion, “Does that mean we’ve been boning without protection these past few weeks and you didn’t tell me.”

“You can relax young man.” cooed Diamond as stood next to her son while naked in the morning light, “There’s only a small chance you got your mommy pregnant. It takes a while for a woman’s ovulation cycle to reset after quitting those pregnancy pills. After peeing on a strip this morning though I can guarantee you that your mommy’s warm love oven is one-hundred percent ready to make a baby with just a little bit of your cum if you’re still willing and able to shoot wads inside me sugar bear.”

Junior looked and he resisted the urge to touch himself in front of his mom. His eyes could not help but devour her whole figure with her fair skin and her freckled spots adorning her mature body like cheetah skin across her voluptuous body. Diamond smiled inwardly as she watched her son's eyes devour her body from her covered cunt to her freckled bosom as her eyes rested on her hips with her stance spread apart to show off her thigh gap.

"Goodness buster bear, you're so hard already even after we spent all night having skinship." Diamond observed as she teased her son by spreading her stance another foot apart before reaching down towards her panties to show off her drooling and ovulating love oven briefly before adding, "I reckon someone

is ready for another round of bareback cow girl sex in their bed judging by that big pussy buster I see looking at me."

"Well, I can't help it whenever you're around mom. I mean, just look at you." Junior said in awe of his busty and voluptuous mother in his room.

Diamond stood tall in the morning light of her son's bedroom. Her pink bath robe laid on the floor in a heap around her ankles as she stood in nothing but a pair of white socks and big old panties. Her massive bosoms hung off her body with her doughy bags of tit-flesh drooping gently. Her pink teats stuck out like gumdrops and contrasted against her fair white freckled skin like the red lips on her mouth. When she stepped forward to meet her son in his bed her mature skin wrinkled gently with her bosom jiggling in a sunbeam. The seat of her old panties swung like a hammock between her thigh gap to expose her mound briefly with each step. After being removed so many times before in her son's bedroom each time she met him the elastic in the old undergarment was wearing out with hardly anything left to hold it up. They looked like genuine granny panties which Junior had grown to love over the many times he fucked his mom in his bed.

Old bedsprings creaked as Diamond joined her legal teen in his cozy twin-sized bed. Junior peeled back his bed covers and sat up with cock out as he watched his mom saddle his lap like a cow-girl preparing to mount her bucking

bronco to break him in herself. Throbbing and hard teenage cock soared upward into the air as the lucky son of age felt the lips of hot and hairy motherly cunt land against the crease on his aching blue balls. He felt a hand grab his erect meat at the base as a loving mother fed her son sweet encouragements in preparation of their consummation as she gently jerked him while grinding her snatch into his big balls.

"Mommy thinks you're a very brave boy for offering your semen to my cunny young man," Diamond said, "I thought I was never going to get another baby in the family after your father had his vasectomy until you came along in the family. Now, how about we get your pussy pleaser nice and buttered up before we slip you inside my twat box so I can ride you."

"Aren't you wet enough already mom." Junior asked as he felt cooling fluids beginning to go down his taint as his mom straddled his lap with her coarse pubic hair scratching against the underside of his cock.

"There is nothing wrong with a little extra lubrication young man." Diamond said, "Now sit back and let me get you ready for my pussy. Now, don't you dare bust in my mouth when we both know your load belongs inside your mommy's pussy buster!"

Diamond took her son's meat and began to beat it against her belly. Junior watched as his fat fuck-stick was slapped against his mother's stomach to ripple her skin. His throbbing knob soared up in the air with his piss slit leaving kissing wet trails of pre-ejaculate across his mom's soft skin. Her mound drug up and down against his ball sac with the fur of her pubic mound brushing against the underside of her legal teenage son's enormous morning erection. Meanwhile, Diamond continued to rock her mound up and down into the crease of her son's big ball sac to help moisten her gates in preparation of penetration. After so many days of skinship both knew what would soon happen in the bed between them.

"Now how about we start your day with a nice sloppy blowjob before mommy gets on top for a giddy-up buttercup." Facial cooed out loud.

Diamond moved her muff away from her son and slid her straddling body down his thighs until her face came at eye level with a meaty ten-inch erection soaring in the air. She smacked her lips together and admired the size of her son with the length of him resting against her forearm. He reached from the tip of her elbow to the beginning of her wrist with a thickness to match. The voluptuous mother was always impressed whenever she saw the throbbing size of her son whenever they consummated their relationship to mix together their breeding fluids. One thing was for certain, her son certainly didn't get his size from his father.

"I still can't believe how much bigger you are than your father buster-bear."
Diamond complimented as the mom began to draw her face closer to her son until her mouth pressed into his bulb to kiss his drooling slit with her puckering lips, "If there was a way to turn back time so we could've started practicing our skinship right after you hit puberty--"

"Mom!" Junior complained as he squirmed his body beneath the hot kisses his mom fed his prick from base to tip, "You know how much I hate it when you talk about what you do to me when I was still in junior high."

"What's the matter baby? Does my special big boy get embarrassed when he hears how his mommy wishes I was there to guide you through puberty with my twat box at your disposal instead of your imagination and hands? More than likely I would've only offered you blowjobs instead of my squishy pussy. Oral sex isn't real sex after all."

"Oh yeah, what kind of blowjobs mom?" Junior said in arousal as he imagined all the times he came back home after school to rush up into his bedroom to jerk off in front of his phone, "Did you ever imagine blowing me after I got home from school when I was younger?"

"Oh, all the time butter-cup." Said Diamond with her thin lips smacking apart to show off her twirling tongue, she added, "It's a shame you missed out then but it doesn't mean we can start pretending now."

"What do you mean mom?" Junior said dumbly.

"Well, how about you just lay back and let me show you?" Diamond responded as she knelt her head down.

She kissed his bulb at first. Junior twitched in his spot when he felt a tongue rake through his piss slit to lick up all his pre cum drooling from his prick with a loud slurping noise before a pair of lips locked onto him. Junior twitched in his spot when hot cheeks and a scrubbing tongue descended upon him from his bulb to his base. After taking her son to the root of his cock Diamond gagged with saliva coming out of her mouth before coming up again to twirl her tongue around her son at his tip briefly before going back down again. A lucky son of age watched as his mother's thin lips began to speed up with her cheeks sucking tightly. Big noisy sucking sounds of air entered the mother's mouth as she slurped on her son in his bed like his cock was a cold popsicle on a hot summer day.

Diamond slapped her lips up and down in a fury with her mouth and gullet gagging violently upon the stiff teenage cock drilling down her throat. With each

descent her nose and lips disappeared into coarse pubic fur before emerging once again to reveal the slimy sight of a saliva soaked cock being deep throated. She pulled air through her mouth to make hot suction noises as she drew her cheeks close with her eyes held wide open as the mother gagged on her son's cock in his bedroom. Her eyes watered heavily with tears streaming down her cheeks as she scrubbed her tongue along the underside of his shaft to tickle his glans. Whenever her mouth appeared around the crown of her son's cock she would stay a moment to swirl her tongue around his drooling prick to scoop up every drop of his precious pre-cum down her throat.

Junior looked down and loved the way his mom looked as she throated his cock down her gullet with a passion. Her lips smacked greedily on his prick with her horse-sucking face drawing her cheeks together tightly to make her mouth feel just like her hot pussy between her thighs. Her eyes watered up as she worked with whore like lust to bring her son to the edge of climax with her hot sucking mouth performing fellatio on him. Her thin mouth wrapped around his cock like a vice with her coiled lips looking like grippy pussy lips cloying on his thickness in the morning light of his bedroom. His body twitched and moaned as he laid. The soothing sensation of a hot motherly mouth going up and down his erection was enough to make his loins boil for release. To keep from shooting his load too soon Junior clenched his buttocks whenever a twinge of nerve endings erupted in his loins which made his balls pang for release.

"That's it baby-bear, lay right there and let mommy suck on your fuck stick to get you nice and hard for my twat box ready to milk a load outta ya." Diamond cooed lovingly as she took a moment to breathe for air and catch her breath as she stroked her son, "You ready for the real thing now butter-cup? I think your pussy buster looks nice and ready for some bonafide mommy-cunt right about now, whaddya say?"

Diamond lifted her hairy mound ten inches up into the air with the coarseness of her pubic hair brushing against the underside of her son's cock. Her creamy cuntal lips glided up after her scratching hair until the entrance of her ribbed pussy went atop the drooling bulb of her son to sit there like a hat and stay. Before slamming her hips down to meet her son at the root Diamond enjoyed the sensation of her son throbbing in anticipation to penetrate through her coital depths until his semen gushed inside her pussy. Each time Junior tried to thrust himself upwards to enter his mother through her coital depths he was parried away with her vaginal lips moving away from him just before penetration happened. It looked like his mom was moving a joystick with just the grip of her cuntal lips as she expertly avoided each of her son's movements.

"Alright, enough teasing now sugar bear." Diamond cooed lovingly as she began to lower her weight with the sensation of her son slowly entering her depths with a long and gross squishing sound. Soft coital lips were split apart with both mother and son beginning to moan in unison as their genitals came

together. Ribbed walls of vaginal pussy yielded against throbbing teenage cock as Diamond lowered herself until the pubic mat of her hair crowning above her pussy in a square patch of golden hair entangled into the coarse pubic hair of her son below her cunt. In a moment she was seated with her cuntal lips pressed around the base of her son with her crinkled asshole fully pressed into the crease of her son's sac like a pair of pressed together lips. "How does that feel mister?"

Junior was speechless as his jaw dropped from the sensation of hot coital rings wrapping around his cock. Strong kegel muscles kneaded against his cock as he was plunged in soft mommy pussy from tip to root. The hung son of age squirmed in his spot as vice-like rings of coital flesh clamped around his trembling cock like an anaconda wrapped around its prey preparing to choke the life out of it. In moments mother and son both knew what would soon happen once their bodies began clapping together. Out of all the sexual positions the stay at home mom adored the most with her son, her favorite was whenever she was on top so she could feel the bulb of her son strike at her deepest depths whenever she bounced her body like a whore in heat. Nothing came to the sensation of her cervix being punched until ropes of jism shot into her coital chamber.

"Alright sugar bear, looks like you're snuggled nice and deep." Diamond spoke as she planted her heels until she sat in the sumo-squatting stance with her thick thighs spread wide while the lips of her cunt kissed into the pubic hair of

her son's lap with all ten meaty inches of him submerged through her purple tubes, then she asked, "Do you wanna know what mommy always says whenever I get you in this position young man?"

"What mom?" Junior asked even though he already knew the answer.

"Giddy up!" Diamond cooed as she lifted her weight until nine inches of her son's cock revealed itself from her cunt with the rim of his bulbous head emerging briefly from her cuntal lips before the mother slammed her weight back down again, she began to clap her mound into her son and cried out in pleasure as her tempo increased, "Giddy up! Giddy up!"

Junior watched his mom's facial expressions cringe after each time she impaled herself on his cock. Their laps clapped together loudly in the morning light as Diamond fed her son through her cunt with long up and down strokes through her quickly clapping cunt in her effort to void her son of his morning load. Her mouth jerked into a frown as her eyes fluttered from the sensation of an incestuous orgasm going through her. The lucky son of age grimaced in turn when the vice-like sensation of his mother's riding cunt turned into the feeling of a clutching, white-knuckle, fist rubbing against his glans as he was jerked through his mother's sleeve. Wet sucking noises escaped their bodies as their middles clapped together as a son watched his mom ride atop his cock in clear orgasmic bliss as she bucked her cunt up and down with her orgasmic face.

Her tongue wagged out as her meaty cunt clip-clopped up and down. Diamond looked up into the air dreamily as she pile drove her cunt up and down with long loving strokes to punch at her G-spot at just the right angle. Her coital depths were being churned as she rode her son in a passion with her ass cheeks furiously beating against her teenager's lap as he fought with all his strength to keep from climaxing too soon. Several times he felt his ropes of spunk about to be pulled out of him but each time he clenched the muscles in his taint harshly to keep from cumming too soon until his mom was satisfied with his cock.

"That's a good boy for mommy! --OOF!" Diamond encouraged as she locked her wide hips with her feet planted firmly in her son's twin-sized mattress with her rich ass cheeks and big boobs jiggling violently.

"For what mom? UGH!" Junior said with his asshole clenching with all his strength to resist the vice-like sensation of bonafide mommy pussy rubbing against his steely-eyed prick with all ten inches of him being swallowed inside his mom's pussy, with each strike his bulbous head made against the back of his mother's chamber they grunted in unison.

"You know what, butter-cup --OOF! For withholding your load until your mommy -OOF! CUMS MISTER!" She cried out the last part in earnest.

When Junior saw his mom's face cringe in pleasure her tongue wagged out lewdly with her big doughy white tits bouncing violently in front of him with her hips working like a machine to impale his cock through her sleeve. Soft motherly cuntal flesh rubbed along his massive dong with his ball sac cleaving apart two butt cheeks until he could no longer stop himself from unloading his spunk. His ball sac twinged and he grunted out loud with a guttural sounding noise like an animal crying out in pain. Hot-white rivulets of baby-batter began to gush out of him to enter his cow-girl riding mom's mound continuing to clap into him with a fury.

"That's it baby, shoot it all up mommy's pussy." Diamond moaned out loud from the familiar sensation of her son twitching and throbbing along his whole length as he began to ejaculate within her cunt. She fed her son sweet encouragements as she worked her cunt up and down with the same strokes as before but with her kegel muscles clenching and releasing at the right moments to milk her son's cock juice into her purple pleated depths.

"How do you know I'm cumming mom?" Asked Junior with his worst poker face as his vision narrowed and his ball sac shriveled up tightly.

"C'mon young man, we've been doing this over a year now. I think I know when my son is blowing his morning load through my tubes. Your father never throbbed this hard even during his prime so trust me when I say that mommy

always knows when her big boy is shooting his baby syrup up my pussy at home."

It was true, mother and son had been practicing a thing called skinship at home for well over a year now. Each had lost count of the number of baby-making wads which had been shot inside the mother's depth. Coital walls not meant to be inseminated by their offspring had swallowed so many hot-white loads it was a mystery how her pleated ridges remained purple and pink without becoming stained white as snow. After so much practice the mature mother knew the range of strokes it took through her milking cunt to force her son to shoot his baby-making material upwards and outwards through her bouncing mound. Diamond knew she was at her son's limit as his face winced beneath the clutching pressure of her vaginal walls gripping against his throbbing cock as she clenched him with all her might. Her meaty mound slapped into him quickly like a wet sucking mouth until she felt the subtle pulse and throb of a teenage cock beginning to ejaculate through her mommy milking mound.

"Ugh!" Junior grunted as he felt his genetic ropes leaving him like hot bolts of lava leaving his cock.

"That's it baby," Diamond encouraged as she continued clamping her cunt muscles as she rode, "Give mommy all your baby-batter for your new baby sibling young man. Mama-bear needs a fat load for her love oven."

Fat ropes of hot-white teenage ejaculate gushed against pleated vaginal depths as mother and son grunted in mutual orgasm. Junior felt his mom clench her pussy muscles like a vice around his heaving erection to force up every hot cord he had in his balls. Semen and clear vaginal juices mixed together. Kris's vision narrowed as he came within purple depths not touched with his semen since he was tucked into bed by his mom the night prior. Like a beautiful repeat of the best day of his life, a lucky mother fucker enjoyed the feeling of inseminating a hot motherly mound working harder than hard to drain him of his baby syrup completely.

"That's it sugar bear, shoot it straight up the pussy just like mommy taught ya." Diamond cooed in her adoring motherly tone as she clenched her kegel muscles with all her might as she sleeved and re-sleeved her son's ejaculating and throbbing erection through her vice-like cunt with a fiery passion as her nostrils flared, she continued to bounce her ass up and down as she felt her son climax through her cunt before adding, "I love the way your face always looks whenever mommy makes you shoot through my tubes butter-cup, now giddy up and give up your load for your mommy so we can start your day in my bed next young man."

Junior was too stupid for words as he came buckets of his hot-white jism into the clutching grip of his mom. Her immaculate cunt gobbled up every white

cord of baby-batter his cock shot out with her grippy cuntal lips working their way up and down quickly and hotly to gobble up the semen flooding in her pussy. The lucky mother fucker was addicted to the feeling of his mother bouncing on his meaty knob until his white ropes left him to inseminate the place of his conception. Judging by the cringing looks on his mom's face whenever he felt his meaty bulb strike into her hardened back wall Diamond was climaxing as well. Hot motherly depths gobbled up every cord of genetic white materials as legions of sperm flooded across unprotected vaginal ridges and ribs to seek out her eggs and ovaries to fertilize with his seed.

"That's it butter-cup, shoot up the pussy." Diamond spoke adoringly as she dropped her hips and began to gyrate her mound downward with all her weight pressed into her son's lap as she straddled him.

Feminine heels planted themselves firmly into the mattress while kegel muscles clamped down tightly. Diamond's hairy mound squatted firmly into her son's lap with all ten meaty inches of his erection submerged through her purple pussy as his final ropes shot out of him to spray against the place of his birth. Hot-white cords of baby-batter clung against ribbed vaginal walls as a mother knelt forward to allow her son to suckle as he launched his final globs of baby-making goo into her depths. A puckering cervix scooped up every spurt of baby-batter touching her bottom depths like it was a mouth slurping up a creamy white dessert.

When it was over Diamond sat atop her son proudly with his once throbbing erection sticking into her cunt like a rubbery toy after ejaculating what felt like a gallon baby-making goo straight into her baby-making room.

"That's it baby boy shoot it all up the pussy like a good boy. You did so good for mommy mister." Diamond said to her son after sensing her son was through with his ejaculation through her bruised feeling pussy.

Freshly beaten pussy lined the entire length of a mother's clutching cunt as she felt her son soften inside. His rubbery tip pressed gently against her cervix which still puckered back and forth to scoop up every drop of spunk sprayed against the back wall of her cunt. Diamond squatted on her son with her heels dug into the mattress next to his legs and smiled at him warmly with her big breasts glistening with a sheen of sweat. She clenched her coital muscles tightly to test for any remaining stiffness in her son and felt only rubbery resistance. When she saw her son wince from the strong sensation of her kegel muscles squeezing his cock Diamond giggled from the face she saw go across the face of her son.

"So, how was that young man?" Diamond asked, "It sure felt like you shot a mother lode of spunk up my cunt."

She jiggled her weight and leaned forward with her big doughy breasts pressing into her son's face as he lay. Her chest rested on his face as she lifted her cuntal lips off her son until his length left her slit. When his bulb slipped free from her coital grip she felt his rubbery head lance through her pubic hairs before grazing against the dimple between her belly button and cunt to land against his stomach. A big load of sticky came rushing out of gaping purple depths as Diamond drained briefly before landing her cunt back down against the rubbery stiffness of her son to seal against her creamy-looking cunt like a log sealing a river.

"Amazing, as always mom." Junior responded in his blissful afterglow after ejaculating inside his mom.

"I hope this baby-maker is the one that gets me preggers young man. With any luck this should do it."

"Does this mean we won't be having any more baby-making sex today mom?" Junior asked as he suckled on his mother's breasts as if he was a babe once more.

"Are you kidding me young man, we don't stop having baby-making sex in this family until there's a noticeable bump on my belly." Diamond giggled as she straddled her son with her oozing slit leaking rivulets of spunk across the

underside of her son's flaccid shaft and ball sac before adding, "With any luck however the millions of sperm rushing towards my eggs right now will turn into your brand new sibling in a couple months."

As they exchanged pillow talk in the small twin-sized bed Junior thanked his lucky stars to be born alive to his nymphomaniac mom with her massive mammary titties dwarfing the size of his head and her semen swallowing cunt and occasional anal hole readily available to take care of all of his hormonal urges. After dumping so many loads through his mom during their relationship ever since they began exploring skinship together Junior had grown desensitized to the taboo nature of frequently using his mom's honeyed holes to find relief. It felt stupid to have to deal with his frequent blue balls alone when he had safe and family-friendly pussy to handle all of his urges. He had no need for a girlfriend when he had his mom. One thing was for certain, pulling out would never be encouraged at home during their baby-making sex.

THE END.
