My Feminization Part 8
The Perfect Sissybitch

…I found Anal on the Web. "Her" profile provided such a detailed description of "herself" I knew it was the opportunity to finally meet my match.

Since then, we've learned so much about how wonderful dominance and submission can be in a meaningful and loving relationship. I know exactly which buttons to push to make her instantly subservient (and dripping with excitement).

By working through some ups and downs over the months with a lot of sincere communication, I've made her my thing, my slut, my maid. And she has accepted me as her Mistress and owner.

She is nothing without me and I am nothing without her…
