

MY HIP HUMMING MOM

Diamond was mad as hell when she found crusted semen stains on her son's bedsheets. To the middle aged nymphomaniac mother nothing was more hated than wasted seed within the normal looking suburban home where certain family members practiced an old country tradition called 'skinship' in open secret with each other out of view of the man of the house. Meanwhile the angry cougar mom was more than a little upset that her hung teen of age had decided to relieve himself without consulting with her honeyed holes as per their agreement reached months ago by mistake. Ever since that fateful day downstairs in the family kitchen when Junior poked through her vaginal entrance with his monster prick things had never been the same for the nymphomaniac stay at home mother.

At first she thought her son's teenage woods would have kept her urges at bay once their forbidden relationship began. Unfortunately however being frequently inseminated by her legal teenager's hormonal urges had only agitated her nymphomania further after treating it briefly. Ever since her son had started laying pipe around the house in open secret near the man of the house it was like her body had acclimated to the drug known as her teen's friction and needed more contact with it to relax. She needed more skin on skin contact with her consenting

child to feel normal in her crazed mind at home. The Amazonian sized mother nearly had to stoop her head below her son's door frame as she left with his sheets in her arms to clean them. Meanwhile she made a mental note to have a chat with her son later about wasting seed under her roof when when he had all of her naughty holes on the table for him to choose from.

"Junior! Honey!" The hot mom called through the empty sounding home, "Did you have an accident this morning? I found some semen in your bed sheets this morning! Is there something you want to tell me young man?! Answer me!"

Diamond stood over six feet tall with a mop of blonde hair on her immaculate head. Her busty body was ivory in color and freckled with sparse dark spots all over from years of exposing her skin to the sun in the past. Now the mature middle-aged mother preferred to stay indoors with her hung teen son during the summers to practice what they liked to call skinship in the family. Whenever Diamond fluid bonded with her child she always encouraged him to call their incest 'skinship' in order to paint their consensual incest in a different color. She was afraid if she used the word incest during their sex that her boy might suddenly grow a conscious about railing her against every piece of furniture in the house suddenly. Thankfully however that day had not passed but the mom was concerned when she heard no reply

in the large two-story home to her question to her son. She knew he was home and was annoyed when he did not answer right away.

"Junior!" Diamond called loudly, "Junior honey! Your mommy is calling your name! I want to know why I found spunk in your sheets this morning when I promised to take care of your morning woodies if you needed! Hello?!"

Diamond was nearly at the family laundry room when she failed to hear any reply at all from her stay at home teen. She wondered where he was suddenly when she searched and found him playing a game on his laptop in the family den. He was distracted with the laptop on his stomach as he laid on the large family futon with a pair of headphones connected to his laptop while his hands worked the keyboard and mouse. The gross teen's bedsheets were already spinning in the family's washing machine which Diamond regretted doing so soon once she finally found her child in the large family house.

"Young man!" She called from within the room, "You didn't hear me?"

The scolding motherly tone of the angry mom's voice suddenly jolted the teen to attention. He looked up in

bewilderment and saw his mom standing there near the entrance of the room with her hands stuck on her hips and face frowning while wearing her hot summer house chore clothes. The air conditioner was broken in the home so she wore a fluffy white nylon sweat band over her forehead to absorb her sweat and thigh warmers covering her calves to catch any moisture running down her legs. She wore basketball shorts and a black halter top as well. Her hair was tied in a motherly bun by a clip as she stared down her child with both arms rested on her hips.

In the natural light of the den she looked like a stunning Amazonian sized goddess or priestess of motherhood meant for worship to the lucky stay at home teen as he suddenly felt he were being lectured. He wished he was not playing an online game suddenly. Diamond came at the worst time to bother her child in Junior's opinion but there was no way for him to communicate that even if his mom cared about his online game. There was no way for him to pause the action as he looked up in surprise and wondered what the problem was as Diamond scolded him as she got closer and louder.

"Young man, pause that stupid game and get the junk outta your ears. Mommy was calling you earlier in the house about your nasty bedsheets. Did you hear me calling?"

"Hey mom!" Junior said aloud desperately, "Can we talk about this later. I'm playing an online game with my friends and--"

Suddenly, out of Junior's headset came the cracked teen voice of one of the neighborhood boys Junior knew.

"Is your mom shaming you for beating off in the bedsheets dude!" Said the static-laced voice, "That's so gross!"

Only Junior could hear his friends jeer him but he panicked from all of his friends hearing his mom lecturing him in her naughty tone as he desperately tried to find a safe place within his game to adjust his sound settings. He thought of unplugging his microphone but that would mean the laptop would use its built in speakers and microphone which would not have helped. He was desperately trying to control his characters for a competition and was progressing through the bracket with his team when Diamond came during a difficult game. They were several points behind and Junior needed to concentrate while his hot mom scolded him from the doorway.

"I don't give a hoot if you're playing an online video game with your friends young man." Scolded the emerald eyed mom as she approached her teen child on the large family futon, "What

did we talk about when we started our skinship lessons buster? We don't waste seed in this house mister, if you need to shoot your wad you're supposed to ask me for help. Let mommy milk you."

"La-la-la-la!" Spoke Junior into his microphone as he fumbled for a way to mute his mom's voice from being heard, "I don't know what my mom is talking about guys. She's crazy."

"Young man I'm talking to you. Pay attention to your mommy when I'm lecturing you or I'm taking away your pussy pass privileges for today Junior."

Meanwhile Diamond didn't seem to care or know that her voice was carrying through to an online lobby of many of Junior's friends from high school. He tried desperately to find a way to mute his microphone while his friends began to heckle him over his headset.

"Dude! It totally sounds like your mom is upset about you beating off in your bed. What kind of relationship do you two have at home?"

"I know, right." Said another voice, "I think I just heard her say pussy pass privileges. Am I right?"

Meanwhile Junior kept singing nonsense into his microphone to muffle his mom's complaining tone which made her anger even more furious. It took almost a minute but Junior finally remembered his headset had a switch which he flipped. In a moment his microphone became silent as he continued focusing on his video game with his busty Amazonian sized mom towering above him with her thick body and motherly face looking full of parental anger and forbidden lust. It was hard to give his mom his full attention as she stood there angrily with her cameltoe and pointed nipples looking prominent in her outfit but he was competing in a prize tournament. Over a thousand dollars was at stake along with a trip to Las Vegas for an e-sports tournament and although the lucky and hung teen loved his mom's 'pussy pass privileges' very much he had the rest of summer to bone her brains out to his delight but only one chance to go on an epic trip with his friends to out of state.

"Young man." Scolded the blonde looking mother, "I am talking to you about your nasty masturbation habits. I found evidence of your semen crusted in your bedsheets this morning. What do you have to say for yourself young man? Are you tired of mommy's holes relieving you?"

Diamond had both her hands on her hips as she jutted her

wide hips to the side in annoyance. She didn't want to make her child afraid of her wrath for wasting his good feeling seed on selfish solo masturbation when she had high-stress nymphomania but she didn't want to be ignored either. She felt disrespected and upset that her teen son was more interested in playing his video game than getting his brains fucked out because in a certain point of their relationship it was agreed upon that all Junior had to do to dump his load into his mom's hot pussy was to simply ask or nod and she would bend over to accept his seed through her purple tubes no matter what she was doing in the house. For the first several weeks after summer began this was a common occurrence in the skinship exploring household. Behind her husband's back Diamond had used all three of her pleasurable orifices to pull at her teen's loins for all the spunk he was willing and able to make and she loved it. Her raging nymphomania would have driven her crazy if not for her son's strong erections this particular summer. On this particular summer the man of the house was away for the month on a trip so the two had the whole house to themselves to practice their incest however they wanted. Diamond had yet to lay with her son yet that week and was feeling her nymphomania flare with the urge to feel filled and stretched until her resolve crumbled and she suddenly descended on her knees to fish out her son's cock from his pants.

"Time to see if mommy's voice still makes you hard young man. I want to know why you masturbated this morning without me and don't you lie to me because mommy always knows when her boy lies."

Junior didn't have time to explain to his mom that the reason he didn't wait for her to arrive to take care of his morning wood as she usually did once their hot summer began was because he was nervous about his online video game competition. He felt more comfortable relieving himself quickly than going through the marathon milking and blowing sensations that his hot mom had spoiled him with ever since they began their forbidden incestuous relationship. The teen was grateful for his special pussy priveleges with his voluptuous Amazonian sized mom and had even started referring to their incest as 'skinship' much to his mother's delight. He tried to ignore to his mon's worming hands tugging his pant zipper as he focused on his laptop sitting on his chest but it was hard to ignore the sensation of his erect cock being flicked up into the cold air before a parental kissing mouth fell upon it like a pink skin flute. Behind the action of the laptop screen the teen found it incredibly hard to concentrate while his hardened teenage knob was slurped on and scrubbed against by his mom's mature tongue as she hummed a cute mom-tone out loud.

"It's okay baby." Mom cooed in her soft voice as she suckled on her boy's boner from top to bottom, "Mommy knows mistakes happen but that doesn't mean it's okay to waste precious teen seed in this house young man. Your dad is going to be gone all this month sweetie which means its up to you to treat mommy's nympho urges. If I don't get stretched at least once a day it feels painful in my stomach so its extra important to take care of your mommy this summer sweetheart. Understand? I need you."

"Sorry mom." Junior said sympathetically as he wondered if she appreciated hearing the real reason why he relieved himself instead of conserving himself until they could intimate together as was custom in household, "I promise it won't happen again. I was just in a rush to cum I think. I couldn't wait for you to wake up."

"Nonsense sugar bear." Diamond hummed with her lips wrapped tightly around her child's thick cock, "You need to start sleeping in mommy's bed this summer young man while your dad is away so this doesn't happen again."

Junior liked the sound of that idea and didn't know why he didn't think of it earlier. Summer was halfway done until his final year of high school and the legal-aged teenager could have

been spending the first half of his summer balls deep in his mom's cunt every morning instead of waiting for her to arrive at his door like a fool. he lucky teen had no way of knowing his mom's hardcore nymphomania was legit or not but he knew one thing for sure: cumming with her while connected was way better than beating off alone. Although he would never admit it to his friends he was a proud mother fucker and beyond happy to have such a hot mom willing to milk out his cock with everything she had from her tits, mouth, and hands to her bleached anus and bottomless cum-hungry mommy-twat. The teen felt lucky to be born to such an open-minded mom willing to take care of his blue balls at the drop of a hat but had no idea how to communicate to her that he had other interests that didn't involve constantly plowing her guts white. However this complaint was so small within Junior he could hardly complain as he lost more and more interest in his online video game as his mom slurped on his hardened pink knob with her puckering thin lips and bell scrubbing tongue working him over like a knob polishing Swedish masseuse.

Meanwhile Junior was beginning to lose control of his video game character as he peered over his laptop to his mom nursing her thin lips upon his hardened erection. Her horse-sucking face looked downward as she knelt over the futon to suck on her boy's boner like it was her duty. She could forgive him for

wasting his seed in his bedroom earlier and bought his excuse however that did not exempt her hardened nymphomaniac ovaries from expecting her vagina to be stretched like a Pavlov dog response. Ever since the man of the house left for his summer business trip the busty mom and easily excited teen had been bumping their uglies together frequently almost everyday. If Diamond didn't experience the feeling of being bottomed out at least once every thirty-six hours her insides cramped painfully. The only thing that cured her nympho-pangs was hard cock, preferably her teen son's forearm sized erection if available, and since her husband was away and Junior was willing it seemed perfectly natural for the busty mother to treat herself to her teen boy's frequent hormonal erections since he wasn't busy with school anymore. She already hated he had a part-time job but agreed to let him earn some money for his girlfriend. Even though Junior still had to maintain having a girlfriend for appearances at school there was no doubt in the son's mind that he preferred staying at home with his mom who would always put out without a doubt versus his more prudish girlfriend.

"So young man." Purred the country-eyed mom as she caught her boy looking up at her sucking mouth from over his laptop screen, "I don't think we can easily forgive you wasting your seed earlier in this house mister liar-liar pants on fire. I know you beat off this morning so you could play games with your

friends and your mommy is disgusted you'd rather play games than bounce around all day in my bed doing you know what to soften this up."

Junior was almost too stunned for words as he looked down and winced from the sensation of being thoroughly scrubbed by his hot mom's un-motherly scrubbing tongue. Her little pink muscle wormed itself over and around his rim and dug into the crease between his bell and shaft to touch at his most sensitive glans until his eyes rolled in his head. When she felt his smooth teen cock throb in her mouth she would clamp her heroic sucking lips down with his meaty rod stuck down her gullet to absorb his nutritious load down her throat in case he were to blow his wad early. She had no idea exactly what made her teen boy shoot his pubescent cum early but knew it involved plenty of wet skin on skin contact with his boner with as much as eye contact as she could muster. His size fit snugly in her mouth with her tongue covering her bottom teeth to make a sled for her son's cock to slide over. She made deep gurgling noises in her throat for her own amusement as she sucked and deep throated her distracted teenager's boner in the afternoon den light. Suddenly it struck the busty white mom that she had forgotten to draw the curtains in the family den. It seemed like an anti-climatic ending as the hot mom ended her awesome display of fellatio with an unceremonious loud pop of her lips off her son's cock like a

champagne cork before closing the distance to the den's windows to draw the curtains. She prayed the neighbors didn't see her deepthroating her child so passionately in the den. It would be a hard sight to explain during the next get together with the other neighborhood moms and families.

"That was embarrassing." Spoke Diamond as she held her hand to cover her mouth, "Mommy is starting to get sloppy with playing with your boners. I've never forgotten to draw the curtain downstairs until today. How about we steer this skinship lesson upstairs young man so momma can properly drain you someplace private."

"That sounds great mom." Said Junior while lying on the futon, "Really, but, I'm trying to play this video game with my friends. We're in a contest to win a ton of money."

"I swear child," quipped Diamond in an annoyed tone conveying her displeasure with her blowjob failing to rouse her teenager to get up, "these video games your generation keeps playing are going to ruin this family. Wouldn't you rather do something fun and real like poking your fuck stick inside some warm no no pussy? *Please, mommy's horny and I need to be stretched out right now.*"

When Junior heard his mom speak in that tone of hers he looked up from his laptop to see his mom standing near the shaded curtains with her white panties pulled up high to extenuate the crevice running through her middle. The last time he and her had been intimate was a week ago. Diamond had never gone longer than twenty-four hours without banging her child since their strange skinship began and the teen realized then that he was in uncharted waters. He had never seen his mom at this level of desperate arousal before. It seemed as if her voluptuous body oozed with potent lust and steadfast determination to get off, somehow, with her hung teenager upstairs in bed. That would require him putting down his video game however and although Diamond realized she could conscript her child to beat down her nymphomania with his enlisted cock she understood that voluntary dick made for better sex over rape. All she could do to get what she wanted was to arouse her child as best as she could and lure him away from his video game to spend the rest of the day poking his way through her vaginal folds like a proper stud. Diamond hoped her desperate sounding tone at the end of her last statement would not go unnoticed by Junior and it didn't as he finally looked up from his game.

"Hold up guys. Someone else needs to stand in for me next game. My mom needs to get fuc--" Junior panicked from almost giving away his secret incest game with his mom to his friends,

"I mean she needs me upstairs for something so gimme ten minutes."

"You should ask for at least thirty minutes young man." Spoke Diamond flatly with her fingers peeling apart her crotch fabric to reveal her unshaved middle and pink vaginal lips. "Mommy needs your help cleaning out her pipes in the bathroom too and that might take a little longer than usual"

"Sorry guys but I gotta go! My mom is yelling at me and saying she'll ground me and take away the car if I don't listen to her right now." Junior was making up excuses to get away from his game now as he tried to get away as elegantly as he could without obviously screwing over his teammates, "Listen, you can get Sully to sit in for me. He's almost as good as me. I'll be back in an like an hour, tops, promise."

Junior's microphone blew up from harsh speaking that only Junior could hear as he set down his headset and prepared to close his laptop.

"Dude I swear your mom sucks! Doesn't she know we could win a ton of cash if we win! We need you man!"

"Dude! Sully is an asshole! I know he's good but he

sucks! Stay!"

"Sorry about your mom dude. I wish you had a cool one like mine."

Meanwhile Junior ignored all the jeering as he waited for his spot to swapped and he closed the laptop to look up to his mom from his spot. While sitting on the futon she looked taller than usual with her tall Amazonian height and busty body standing over six feet off the ground. Diamond was not a short woman and was taller than her legal aged teen by a full head. She had a big mouth and an insatiable appetite for young dick. The only thing hungrier than the mom's mouth for her teen's semen was her cum-hungry twat and bleached asshole even though they had once sworn to the man of the house that no anal play was happening between the pair at home. Sometimes it was hard to manage in the heat of the moment and although Diamond felt a little guilty about allowing her child's boner to slip through her anal sphincter despite her husband's instructions she liked the feeling of her buttohole getting ironed out more. The way her son's far reaching boner reached those extra few inches her husband's toolkit couldn't reach was worth the risk in the mother's eyes.

"Stay put tiger." Cooed the mom affectionately as she

resumed to her kneeling position next to her teen child lying on the futon, "You can go ahead and finish up your game while mommy finishes sucking you off but before I start slurping make sure put that microphone on mute unless you want your friends learning about us at home."

"I swear you're the best mom ever in history." Junior said as he looked over his laptop screen to wince in pleasure from his hot mom's lancing tongue licking his thick shaft and big bulb with her wide eyes staring back like an unflinching cat. His mom was sucking him off.

"Are you sure you don't want me to stop mom?" He asked while the intense fellatio distracted him from his game.

"What kind of mom would I be to ask my son to stop playing with his friends so he can help treat my nymphomania?" Cooed Diamond affectionately with her lips smacking at her boy's bell before swallowing his tip to bang at the back of her throat like a meat battering ram, "Finish your game sweetie. Surely your mommy can still suck you off while you play. I'm just here to pass the time until your dad gets home from work sweetie pie. I thought I would challenge myself with breaking your concentration with just my mouth."

It took no time at all until Junior felt his balls tingle his and his genetic matter gush out in a fountain. Without skipping a beat he felt his mom's mouth slam down to the hilt of his heaving cock as cord after cord of genetic matter shot down his mom's tight gullet while she gurgled lightly against his throbbing erection unleashing his pungent teen load down her motherly throat. Meanwhile Diamond smiled inwardly and felt her loins moisten to a peak from the feeling and taste of her son's liquid satisfaction going down her mouth like a meal. She swallowed without complaint and maintained her wide eyed motherly eye contact as her horse-sucking mouth worked with the love and grace only a bonafide nymphomaniac mom could orally offer to her son at home.

Diamond popped her mouth off her teenager's long pointed cock with an audible popping sound made off her lips. She swirled her tongue around in her open jaw to show it going round and round in her mouth. Junior could see his mom's tonsils as she gaped her mouth to display her gullet proudly. There was no doubt in either incest-practicing person's mind that the mother's throat had swallowed countless wads of her teen's spunk over the course of the year. She got off on blowing her child and loved the feeling of his smooth skin in her mouth until his pungent jism tumbled down her throat.

"Thanks for swallowing my load mom." Junior said as he felt his loins soften, "I just wish you gave me a warning though earlier because I think my friends almost heard you saying naughty things."

"I should really be punishing you with a spanking right now mister." Cooed Diamond in her cute mom-tone as she slurped and sucked at her teen's still hard erection, "You wasted seed this morning when you know you have an all access pussy pass at home. What's the matter sport? Is mommy's warm love oven wrapping too tight around you?" Meanwhile her tongue continued to scrub at her boy's savory glans as her lips wrapped themselves around his bell with her tongue helping to sled his length going down her throat before popping him back out again, "I think I should spank this fat teen dick with my toughened mommy twat to teach you a lesson in respect to our relationship young man. Sound fair to you?"

Junior was still competing on his video game as he felt his mom's voluptuous body move off her knees on the floor to join her son on the futon. Her Amazonian sized body leaned over to pull at a pin at the furniture to make the fall down and turn the futon into a bed. Diamond wasted no time in joining her son on the futon as her added weight and movement made the laptop wobble on his chest. The hot mom sat on her son's thighs to

trap him in place with the weight of her ass as she unceremoniously gripped at her boy's waistband to remove his shorts and boxers while humming a cute chore-tune.

"Let's air your big puppy out mister." Diamond cooed to her boy as she instructed him to lift his ass so she could pull his shorts and underwear off easily. "There we go, let mommy get a good look at you mister, we need to make sure your boner is growing up strong and healthy so you can keep punching at mommy's cervix buster."

"You think my friends would freak out if they could hear you right now?" Asked Junior as he double checked to make sure his mic were muted, "They know what you sound like mom. They've been here before. If they heard you talking like that they might--"

"They might get jealous you get to fuck your mommy?" Diamond interrupted in her cute mom-tone, "I would be jealous too if was horny all the time but unable to bang someone at home when I needed release. Too bad skinship is so rare and taboo these days otherwise I might talk with the other neighborhood moms about introducing their son's to the pleasures and benefits of skinship."

"Yeah, like that would go well." Said Junior sarcastically as he felt his mom's palms beginning to glide over his erect manhood behind his laptop screen obscuring his vision, "Can you imagine what that conversation would actually go like? It's best if we keep this our secret mom."

"Of course kiddo," cooed Diamond as she unbuttoned her bra within her fluffy pink bathrobe to allow her heavy breasts to fall gently, "like mommy would ever risk losing her new favorite fuck toy to protective services. The government might go crazy to learn that there's a mom out like me there addicted to treating her nymphomania with her son's home made and boners."

Meanwhile Junior looked up from his computer screen to witness his mom's G-cup sized melons dangling in the shadowy family den. Then she removed her sash next and allowed her fluffy pink robe to generously part open. Her freckled ivory bust could clearly be seen in the curtained room. Some cellulite covered her belly and scrunched up into a dimple above her pubic mound whenever she sat on her laurels. The teen's rubbery hardness was gripped between two motherly hands before Diamond slapped her boy's manhood against her belly fat lewdly like a wooden oar slapping water.

"Are you sure that microphone is off sugar bear?" Cooed

Diamond in her mellifluous motherly tone as she continued to smack her teen's wood against her belly lewdly, "I don't want your friends hearing me diddling my son on the couch. After I giddy up on your wiener I don't want to hear stories later about your friends knowing how you got a cool mom that's down to milk you like this."

As Diamond looked down to spit a globule of saliva over her teen's tip before striking his member in her hands she admired how length reached a few inches past her belly button. His long pink shaft poked at least nine-inches above his groin with his bulbous pink tip crowning his eighteen-year old erection. The hot mom marveled at her boy's baby-smooth skin covering his shaft and bell and how the skin tone of his hairy sac matched the color of his shaft to make his length appear even longer. Beneath her cotton white panties she could feel herself growing more moist as she straddled her son's thighs and played with his boner while his boxers and shorts remained scrunched up at his ankles.

"I bet all my friends would love to have a hot mom like you." Complimented Junior as he made his decision during his turn-based strategy game with his friends, "I'd unplug my headset so the mic wasn't attached but then all my friends would hear us talking. They freaked out earlier before I muted

myself."

"What did they freak out about?" Asked Diamond as she began twirling her fists around her boy's member to encourage her him to grow harder, "Did they hear me scolding you earlier for wasting your nut in your bedsheets instead of letting mommy relieve you with her no no holes like we agreed young man?"

"They almost heard something like that." Said Junior honestly, "I muted it just in time though so we're good to go if you don't mind."

"Not as long as you don't mind mommy trying to pull out your cum with her mouth sweetheart." Diamond cooed lovingly in her mama bear tone as she continued to beat her son's meat against her belly like a baseball bat as she stroked him, "You almost ready to get ridden sonny? I want you ready when I start doing my giddy up motions on your lap until your boner softens inside me."

"You got time to get on top of me now mom." Spoke Junior from behind his laptop screen as he felt his teen meat being pressed by the spongy texture of his mom's cotton covered mound, "I'm waiting for my turn in the video game right now."

"Very well sugar bear." Cooed the mellifluous voice of the world's hottest mom as Diamond clicked her teeth together while unsaddling the seat of her cotton panties to reveal her lower pink lips and glorious bush. Her blonde looking mound was full looking even in the shade of the family den. The lucky teen felt the underside of his shaft grazing through coarse pubic hairs when he looked behind his laptop screen for the first time with blood pumping in his ears and erection in preparation of his favorite part when his Amazonian mother mounted him.

"Let's get this teenage erection snuggled some place it doesn't belong until your load blows out sweetheart, how does that sound?" Diamond was cooing in her cute mommy tone voice as her soft feminine parts continued to mash against the underside of her son's shaft to moisten her gates before eventually mounting him completely, "Let's just make this big mommy fucker of yours gets nice and hard for your cougar mom's toughened twat first before I allow you to poke inside me. After all, a big teen boy needs a long strong boner like yours sugar bear if you want to punch against your mommy's tootsie roll center like a good boy for me."

Diamond had lately devoted herself to long sessions of extended foreplay with her son's boner slapping against her belly, thighs, and lower pink lips before actually allowing him

to pierce through her folds. The lucky teen boy had been so well trained to inseminate the hot mom's forbidden love canal by this point that the lustful mother had learned to stimulate herself near to orgasm from foreplay alone before mounting to milk out her boy's seed join her climax. Although Diamond prided herself on her ability to yank out her boy's hot teen loads within seconds with her muff throughout the house there were times it was so quick that she only got off one or two times.

"Hold on mom." Junior said as he struggled to control the laptop from rocking in his chest making it difficult for him to control the touch pad mouse, "You're making it hard for me to play my game when you go back and forth over me like that, can't you just mount me and go up and down quickly like you usually do when we're alone?"

"Is mommy's special boy complaining about his mommy using his stiff teen woody to pleasure her pink peach before I let you let you pump your thing through my cooter until your load blows?" Diamond cooed with her fat white ass going back forth over her son's throbbing erection gliding through her pink gates like sausage in a hot dog bun.

"Not at all mom." Apologized Junior as his ears throbbed

red and the weight of his mom's fat white ass continued to press into him with her knees mounting him and her muff grinding on top, "It's just making it hard for me to play my game when you move that way, no worries though."

Junior almost closed the lid to his laptop computer when a hand prevented him from closing the screen. Diamond grasped at her boy's laptop on his belly before using it for leverage to slip her boy's erection within her motherly folds. The weight of the white mother lifted off her son's laying lap in the extended family futon and with her knees planted by her son's hips and her tiny feet laying over his shins she rose her mount skyward to direct the tip of her teen's cock to probe at her pink matronly gates. The hot mom slipped her boy's boner within and felt his throbbing teenage heat scorch against her vaginal walls as she lowered herself with her lower lips seeking to kiss her boy's hairy base. The pair audibly groaned aloud in the suddenly small feeling family den. Outside the normal looking home if anybody were standing outside they would have never known that a hot mother and hung son were about to buck like broncos once again in the privacy of their curtained family den.

"You keep playing your game sugar bear." Cooed Diamond in her mellifluous mom-tone voice, "Mommy wants to play a game where I try to make you blow load after load inside me while you

play with your friends. Call it virtual voyeurism but I think it's hot to hear you talk with your friends while playing your video game while you get ridden out in the den. Sound fun and fair?"

"Sounds like a different way to play my game." Spoke Junior as he tried his best to focus on his game despite his throbbing red ears and his stiff teen cock being squeezed against tight motherly pussy walls gripping and gliding over him like a knob polishing machine in Diamond's mound. The hot mom moaned aloud with a thick white vein soon throbbing on her forehead as she sought better ground beneath her bouncing weight as her tempo increased from soft slow kissing to steady fast clapping only genitals going in and out each other could make. It sounded wet and lewd while the busty white mom bounced her muff.

"Momma's gonna make her boy blow his load for momma!"

Diamond sang dramatically in the sound-proof family den with her hairy muff slapping against her son's erection scorching through her middle like a pussy plunging device, *"Mommy's gonna make her boy blow for his mommy! Mommy's gonna milk him out!"*

Meanwhile it was becoming increasingly difficult to concentrate on his game with the sensation of his hot mom's

mature white hips bouncing up and down over his erection behind his laptop screen. Her loud cooing and lewd singing along with the sensation of her tight vaginal walls rolling against his glans with his loins near to boiling for release was enough to make him forget all about what was happening on his computer screen despite the pleading of his online friends.

"Junior, it's your turn!" Spoke someone over the headset so loudly that even Diamond could hear, "Make a move! Your time is almost up dude! Dude, are you there!? The team needs you right now! Dude?!"

The distracted teen didn't respond as he felt his eyes begin to roll back higher into his skull with the sensation of his giant erection being milked within the warmth of his mom's clutching vaginal embrace. Tight pussy walls gripped against him and went up and down at a fast milking pace with the hot mother cooing her sweet encouragements while making her hips go up and down over her teen's erection. The pear-shaped vista of Diamond's dumpster truck sized ass squatting up and down with her teen's horse-cock sized erection plowing through her depths would have been a lost sight forever if Junior didn't suddenly remember to turn on his web camera. On his laptop screen he suddenly saw his mom's cunt fucking him like a clam attacking a white hot dog.

Junior wished he could share what he was recording on his laptop screen with his flipped camera but decided against it in favor of recording it for future use. Even though he sometimes masturbated alone despite his all access pussy pass with his mom because of his stress at school he thought his mom would at least appreciate that he only masturbated to the stolen footage he had of them fooling around, however telling his mom that he was sometimes secretly recording their clandestine 'skinship' sessions for 'science' when he dreamed of one day opening an opening website about their incestuous relationship was an obviously terrible idea. For now Junior decided to keep all evidence he recorded of their relationship for himself.

"I think your friends are calling your name kiddo." Cooed Diamond as she humped up and down, "Is something wrong? You look distracted. I think someone is liking mommy's pussy spanking punishment too much. Giddy up!"

Meanwhile the laptop's flipped camera caught the sight of Diamond's busty white body going up and down over her teenager's long boner. It was hard to view her hairy muff in the shaded family den but in the pixels there was the undeniable sight of a hot mother mounting and fucking her child with the silhouette of his strong erection being seen disappearing into Diamond's mound

as she sat each time. Her G-cup sized busty tits jiggled in her splayed open pink bathrobe as she seemed to worship at her bouncing knees with her lower jaw visible in the top of the laptop screen gawking in pleasure from being pierced. A stiff teen erection scoring against the hot mom's vaginal walls for a moment was all it took for her to be relieved from her nymphomaniac pangs of desire as jolts of electricity shot through her silken hall in pleasure. To be stroked inwardly by her boy's long and throbbing teenage cock which felt fitted especially for the hot mom was an incredible feeling which felt like a blessing beyond belief for the nymphomaniac mom.

"Gosh darn, big boner teen fucker, damn you mother fucker! How are you getting so big and hard down there?!" Spat out Diamond aggressively with her teen's erection shooting pangs of orgasmic ripples through her hallowed pink halls as her hips kept on squatting, "Are you getting bigger down there kiddo because you're starting to really stretch mommy's pussy out mister!"

Meanwhile as Junior watched his mom's blonde muff humping over his dick on his laptop screen only the sight of her jaw was caught on camera when she descended. Her thick looking hips came down in steady beats with soft clapping noises coming from their laps as Diamond's cunt gobbled at her son's boner as she

sat up and down in her saddle like lap dance. Whenever her Amazonian figure rose to the zenith of her arc Junior caught the sight of his mom's blonde motherly bun crowning over the top of his laptop screen with her nose coming into view with her eyes looking down at him for a second before sitting back down. The hot mom panted in her breath and tried to hold in her groaning noises as she felt her teenager's member scorching and pushing apart her tender vaginal walls like a hot knife through butter.

"That's mommy's good boy." Cooed Diamond to her child with her hands reaching forward to grab at her child's t-shirt like a pair of make shift stirrup grips. She held them in her grasp with a white-knuckle grip as her hairy looking muff continued to plunder itself furiously over Junior's massive teen erection with sickly wet kissing noises in the dark family den. Through the grainy image of the old laptop's inverted camera Junior caught and recorded the sight of his mom adjusting her stance into a sumo squatting position with her white knuckles grasping at a big knot of his t-shirt. She got off her knees and rested on her feet with the balls heels of her foot sole digging into the futon next to her child's lower thigh. She grunted like an animal from the effort of switching positions.

"Time to milk you out buster." Diamond cooed in her cute mommy tone before slamming her tight box downward with all off

her weight to swallow her boy's boner through her love channel like a magic trick, "Mommy wants an extra fat load for her pink twat young man so don't hold back when you make your mess."

With the hot mom's ivory squatting legs in position more light poured in between her thighs to perfectly silhouette the hung teenager's long erection piercing hotly through her hairy middle slit. There were squishy sounding noises as Diamond grunted as she humped her squatting hips in enthusiasm. Each time the white mom lowered her hips a shadow put the laptop camera in darkness but each time she rose more light poured through to show the lewd sight of Junior's hot mom squatting up and down over his teen prick with her moaning voice and white knuckle grip clutching his shirt on center of the screen.

Behind the squatting mom's white knuckle grip was her pink bushy pussy bouncing up and down with lewd smacks of sound whenever their hips met. Diamond slapped her muff down with a fury against her son's erect lap as she squatted her thighs up and down to coax her teen's strong boner through her womb at a sickening pace in the family den. Meanwhile the bouncing buxom mom had no idea her son was viewing her motherly cunt going up and down over him with her gripping fists getting in the way of the camera viewing her cunt most of the time. She gripped her boy's shirt hems like it were a stirrup saddle as she bucked her

mound up and down with meaty smacks of sound from their genitals striking together.

"That's mommy's good boy." Diamond hummed in her cute mom-tone, "You sit right there and enjoy your video game buster while your momma milks your seed out with her squishy puss puss young man."

Junior could see the bottom jaw of his mom's mouth smiling on camera whenever she descended on his lap with a hearty smack as she moaned each time. Even though her white knuckle grip clawing at his shirt was in the way of where their sexes met and entangled together the sound of their sex left little the imagination of their sexual act.

"Mommy's warm pussy is all yours today if you want buster." Cooed the hotter than life mom as she panted and moaned while ramming her son's erection repeatedly through her pink vaginal sleeve, "Mommy promises to pull out all your sticky cum with her warm muffin if you can last ten more strokes mister."

Meanwhile Junior could hardly stand the sensation of getting fucked by his mom on the family futon. Her tight motherly walls cloyed against his teen glans as her vaginal sleeve gobbled at his manhood with steady up and down strokes.

Her little feet were planted square against her son's thighs as her squatting hips worked in a fury with her saddle-grip hands still clutching at her boy's shirt. As she rode the hot busty white mom moaned a guttural noise in her throat as an orgasm rippled through her dark love channel from her son's teen prick thundering through her matronly gates. Her parental sound of pleasure turned the teen on even more as he felt his seed begin to rise for his hot load ready to blow into his mom's gut.

"I think I'm close to shooting soon, mom." Groaned Junior as he felt his ejaculation approaching his mom's cunt bouncing over him without a furious passion, "Are you going to ride it out of me again?"

"You mean your load young man?" Cooed Diamond in her hot mellifluous voice as she squat fucked her son hard in the family futon, "Why would I let you spill your seed anywhere but in mommy's pussy mister?"

Diamond giggled as she redoubled her effort to keep pumping her pink muff up and over her son's large teen erection. His long length reached far through the mother's depths each time she descended and touched at her cervical center with his hardened tip like a baby's clenched fist. The feeling of her cervix getting kissed by her groaning teen's long tipped

erection as he fiddled with his laptop in front of the hot mom sent electric shocks of pleasure coursing through Diamond's loins as she bucked and groaned with her son's horse-sized cock going in and out of her wet muff at a sickening speed of sound.

"Don't be shy about pumping your baby batter up mommy's warm love oven kiddo." Diamond cooed as she continued squat fucking her muff into her son's trembling shaft. "Mommy wouldn't be milking you right now with her warm no no pussy if she didn't expect your muscles to suddenly give up against my pussy beating down on you over and over again like this kiddo so go ahead and shoot your load whenever you're ready."

Junior wished his mom's clenched fists weren't in the way of his hidden laptop camera so he could record the hot sight of her muff bouncing up and down over his lap. Instead his camera only caught the sight of Diamond's squatting ivory white thighs and jostling big breasts along with the occasional sight of her thin lipped mouth smiling at the top of the screen whenever she descended. The noise filling the family den was disgusting with loud moaning and wet kissing sounds although their mouths never met. Their genitals continued to collide together until Junior finally felt the first jet of his hot spunk surging forth like a tidal for his mom's dark depths. Cords of teen jism gushed forward while the hot mom sensed her son's climax and dropped

her hips to welcome it completely through her deep and purple tubes.

"Time to snuggle up this creamy mess from my favorite boy someplace nice, safe and warm!" Cooed Diamond in her cute mom-tone voice with all nine-inches of her teen's boner piercing through her vaginal folds like a battering ram, "Squirt it out buster!"

Diamond rocked her hips back and forth to stir her teen's fuck-stick through her depths while his orgasm coated her insides in his sticky genetic matter. The hot mom's womb had swallowed countless loads of her teen's baby-batter before and each wad absorbed by the mother's warm mound made their bond even stronger in her mind she believed. Fluid bonding was the best way for a mother and son to explore their relationship and the fat mess shooting between her tender folds was another sign of her teen's approval.

"That's it baby, keep filling up mommy's pussy with a fat teen load young man." Cooed Diamond in a guttural tone with her inner vaginal muscles clenching tightly in pleasure. "Just let mommy's warm cooter milk it outta you mister, don't be shy about letting yourself blow inside momma's pink no no twat."

If there had been a way to view the awesome white eruption occurring inside of Diamond's seated motherly mound it would have shown ropes of Junior's teen spunk leaving his piss-hole to splash deep into his mom. His bell fit snugly against her bottom depths as she spread her knees wide to allow all her weight to settle onto her teen's heaving boner to accept his genetic matter the only way a nymphomaniac mother should, deep through her purple breeding tubes. Her uterine lining was sprayed in hot semen as the hotter than life mom mewled in pleasure with her lips closed and teeth smiling as she felt her boy's boner twitch and throb inside her. Each twitch meant another fat rope of hot jism was shooting into her womb. Although the middle-aged mom knew it was taboo to treat her nymphomania with her teen's urges she could not deny how good it felt for herself whenever her world was rocked by his hard teen cock and judging by her boy's silly facial expressions every time she brought him to orgasm he seemed to like it too.

"Uggggggghhhhhhhhhhh! Mom-m-m-m!" The cum sneezing teen groaned in intense pleasure within the family den, his noise echoed off the private walls as his hot neighborhood mom milked him into her bucking cunt as she moaned against the sensation of his thick cock throbbing his seed inside her womb.

Rope after rope of white-hot teen ejaculate shot upwards.

Three, four, five. The cords kept coming and the mom began humping to coax out every hot white rope her teen were worth. Six, seven eight. The way her child squirmed beneath her squat fucking hips while his seed rocketed upwards into her womb as she fucked his brains out was enough to make the mom's heart melt as she welcomed his heaving teen boner through her forbidden mommy-mound. Diamond's eyes rolled up into her skull as her smiling white mouth fell agape from the sensation of her teen boy's throbbing man-sized cock pulsing his genetic material deep within her guts as she sat snugly with her mound gyrating deeply with two or three inches of her son's nine-inch cock slipping in and out of her as she gyrated. Her gyrating hips held her kid's sneezing teen boner deep within her cunt as his ejaculation continued to flow.

"I am counting several ropes of spunk right now kiddo." Purred Diamond as she stroked her boy's hair while sitting on his lap like a saddled horse as his seed flowed upwards, "You're still twitching and I'm feeling at least a dozen twitches, or sneezes, of your teen spunk shooting right up in your sweet mommy's toughened twat right now mister."

As Diamond sat with her bald feeling mound gyrating back and forth through the coarse pubic hair of her teen's ejecting cock her lower mouth could be seen on the laptop screen as her

white knuckle grip continued to block the hidden camera from viewing her forbidden cunt sitting square on Junior's naked lap. Suddenly her fists let go when the hot mom shot up from her knees and ankles and resume her squatting stance. She squatted spread eagle and kept her palms on her knees as she milked her muff up and down in view of the lucky teen's laptop camera recording everything. His mom's trimmed looking muff was squatting on his heaving teen boner with the cleavage of her sex cloying at his throbbing teen erection as he shot his last ropes. When it was over Diamond groaned a low guttural noise before settling herself again to hold her boy's spent cock until he softened.

"I think someone likes it when their mommy milks out his woodies the way I do for you young man." Cooed Diamond as she sat with her knees spread wide and muff pressed deep while panting over her child's softening lap, "You shot a lot of baby batter into momma's cunt just now and thanks to mommy's milking hips you shot a ton. I bet someone feels really good right now about fucking up their mommy's pussy."

"Thanks a lot mom." Said the lucky teenager in his grateful tone of voice, "You always know how to make me feel better."

"No problem sugar bear." Cooed Mom affectionately in her low mellifluous voice, "I just wished you consulted me this morning before you masturbated in your sheets this morning young man. We talked about how we don't waste seed under this roof young man. As far as I'm concerned you still owe mommy another load in her hot love oven mister if you're in the mood to lay down more pipe for me at home later."

The Amazonian sized mom towered over her child as she sat upright on his lap with his teen ram rod piercing through her tender folds as he softened. She patted on a spot a few inches above her belly button with her knees spread eagle and her weight resting on her heels and toes in the family den.

"You shot right there sugar bear." Said the hot mom in her mellifluous lower tone voice, "If mommy wasn't on birth control right now there's no doubt I'd be pregnant soon after what you did. You coated my cervix with your sticky baby batter for sure! Good job buster, mommy is proud of you and I came too."

Junior felt like his mom was almost congratulating him as she switched to patting at her trimmed looking mound. His laptop camera recorded all of it as she slowly rose her hips to lift herself up. The teen held his breath and paused his video game to concentrate on witnessing the awesome sight of his mom's

hot muff revealing inch after meaty inch of his wide teenage cock sliding out of his mom's pussy on the futon. Diamond slid him out with her knees spread while cooing her sweet motherly encouragements and congratulations.

"--after all, it's not everyday that a mommy and son agree to help each other deal with our biological urges like we do at home kiddo."

The teen son's cock slid out wetly and fell from his mom's pink matronly gates with an audible plop followed by a white flow of thick teen semen. His genetic matter flowed and fell over the underside of his shaft and spent sac as Diamond hovered above her son to shovel out his hot load in mock disgust. Two fingers began gliding in and out of herself to scoop out her son's insemination with fake frustration.

"Shucks sugar bear," cooed Diamond in her cute mom-tone, "it sure looks like you really filled up your mommy on this one mister. Mommy's pussy looks completely creamed right now from all your hot spunk."

Even though Junior had just ejected his teen load the hot sight of his genetic material flowing out from his mom's raised cunt on his laptop screen as he recorded was enough to make him

harden again. His manhood twitched on his belly as blood began to flow back into his member until he were standing half erect once again. Diamond half-squatted to let herself drain when she noticed her teen's growing size.

"My, my sugar bear." Cooed the hot mom on camera as she were unaware she was being recorded, "I think someone is getting hard playing video games over there. Want mommy to do another giddy up buster? After all, mommy did promise to milk out her boy's stubborn boners with her toughened mommy twat until they you feel soft and this boner still looks hard despite all the cum I just pulled outta you."

As Diamond spoke her spunk filled twat began to lower itself towards her teen's rubbery tip. She reached down and pumped her boy's wet looking pole before slapping his length against her thighs and lower pink lips. The teen's prior load flowed from out of the mom's raw looking mound to drape over the boy's growing erection as his mom hummed a cute tune while pumping her child's boner with both hands to prepare him for another round through her shameless purple tubes. Hot cum and juices rolled down her hands.

"It's okay baby." Cooed Diamond in her cute mom tone with her eyes looking down and mouth visible on screen, "It's

perfectly natural for boys your age to be aroused by their mothers. Don't you worry though because mommy promises to milk your dick out if you want, all you have to do is ask for a giddy up and I'll sit on it again until your white guts shoot out against the inside walls of my pussy."

Junior was speechless as he continued to view his prior white load leak out from his mom's raised lower lips like a drooling mouth. It fell over his teen bell and draped over like glazing until it looked like he were wearing half a white hat on his bulb. Diamond was humming a cute mommy tone in her throat as she gathered her voluptuous freckled breasts on screen to lick both nipples in her mouth on screen while using her other hand to split her glazed lower lips to display her creamy looking depths. Meanwhile Junior thanked his lucky stars for the hot incest material he was collecting on camera for him to enjoy earlier.

"Do you mind doing reverse cow-girl this time mom?" Junior asked as he pretended to still be interested on his video game, "it feels a little different when you ride me facing the other direction."

"What's that sugar bear?" Cooed Diamond in her kind mellifluous voice, "You wanna see momma's brown-eye winking at

you while I use my no no cooter to wring out your sticky white guts inside your mommy's warm cum-hungry twat once again? Is that right? I don't mind if you just ask. After all, it's my duty."

Meanwhile Diamond continued to display her impressive looking muff on camera. Her purple depths could be seen through her pink labial lips as creamy white rivulets of fresh teen semen poured out. The evidence of their incest would be completely caught on camera if the hot mom lowered herself anymore. Only her jaw could be seen talking on camera as she cooed with the rest of her head obscured. Junior almost reconsidered broadcasting the lewd act to his friends to prove he was not a virgin but decided against it. Meanwhile Diamond continued to shovel out her son's sperm until she was satisfied. Her son's lap looked gross with specks of thick cum on his lap and teen belled manhood as his mom spun around like a top. After she rotated she straddled her son's stomach.

"Once we're done here we need to go take a shower upstairs young man." Diamond cooed in her cute mom tone over her shoulder, "Now lets get rid of this fluffy pink robe so you can view mom's brown-eye winking at you when I giddy up on your ding-dong in a second sweetie." She said as she disrobed her signature pink robe and tossed it on the ground. "There we go,

now I can feel more of my baby's skin on my soft body before I bounce my hips to pull out *all* your baby-batter one more time inside my mommy-cooter young man, sound good to you buster?"

Junior was speechless as he recorded his mom freckled backside.

"I swear, a mother's work is never done in this family, I wring my boy out once inside my pussy a second ago and he's ready again so soon. This must mean you really like your mom's cunt."

By then there was the smell of heavy sex in the room which the perverted teen could record for his viewing pleasure later. There were mature creases covering his mom's backside as she rose herself on her shins to lift her naked ass up and over her teen's growing erection before saddling his lap below. The view of his mom's backside on his laptop screen then morphed into the view of two sharp dimples of her ass. He looked up and saw his mom's freckled shoulder blades moving back and forth beneath her skin as she prepared herself to mount his boner while humming a cute mom-tune which echoed in the den. Nothing felt better to the at home nymphomaniac mom than treating her urges with her teen's boners and she thanked her lucky stars everyday for the opportunity to milk out her child whenever the man of the house

wasn't home. She was lucky her boy was not freaked out about banging her mommy twat so many times which she feared would happen but based on all the evidence so far it seemed that each was fully committed to the pleasures of their consensual incest. Diamond's blonde pony-tail spun around to face her teen from behind.

"You ready for mommy to wring this fucker out inside her cooter once again young man?" She cooed over her shoulder in her deep mellifluous tone of naughty intent, "I promise to pull all your sticky cum out this time buster. I'm sorry for failing to completely wring out your cum last time sweetie. Can you ever forgive mommy and promise to stop blowing your precious cum in your sheets?"

Her motherly tight fists could not be seen but they were twirling up and down over her son's shaft until he throbbed in her hands. The hot mom growled aggressively as she continued to look over her shoulder with an eye brow raised. She rubbed his bell with her little fingers and squeezed at his base to before smacking his tip against her palm to test his hardness before mounting him.

"When mommy mounts you this time kiddo I want you to imagine all your hot teen cum gushing out inside mommy's womb

when you sneeze okay?" Cooed Diamond in her cutest mom tone as she looked back with a wink. "No holding back okay. Imagine releasing all your seed because mommy says so buster."

"Sneeze?" asked Junior when he already knew the answer.

"When you blow your load after mommy does her giddy up on your naked lap, of course." Cooed Diamond cutely over her shoulder as she slid up to rake her boy's tip at the pink gates of her matronly mound.

Junior could feel his mom pull his trousers completely off his legs as she leaned forward to put them around his ankles. He kicked his feet in the air to help as Diamond jerked the garment down around her boy's feet. She hunched over and Junior felt a wet globule of saliva drop on his teenage bell as his hot freckled mom continued to hum her cute mom tone as she prepared him to pierce through her tender motherly folds for yet another round of hot incest. Their fluid bond was strong by now as Diamond prepared to mount her son after lubing him up with her saliva.

"Give me a minute baby." Cooed Diamond over her shoulder, "You just shot a load inside momma's cooter a minute ago so it's gonna take a minute of saliva soaking to get you slippery enough

to slip through momma's tight box again. Believe it or not, cum makes a terrible lubricant for older pussies like mine so it's important to get you all lubed before I slip you back inside mommy's warm no no hole again."

Diamond continued to feed her child more naughty encouragements and cutesy names like: mister, buster, kiddo, and buttercup as she prepared his cock with as much saliva as she could muster. She spat everything she had from her mouth into her teen's prick as she used her motherly hands to direct the moisture and lubed her boy's boner to pierce through her loins one more time in the name of skinship. She looked like a working mother with a heated sweaty brow as she stroked her child's erection with her twirling fists while still collecting her breath from the heavy effort she made to milk her child earlier. She was amazed at her legally aged teenager's stamina but committed herself to taking care of her pubescent erections and ejaculations if it meant saving money on tissues and laundry detergent. The amazing treatment of her teen's frequent and hard erections on the mother's hardcore nymphomania was just an added bonus in the busty mother's mind as she prepared her son with a few more saliva filled strokes.

"There we go butter cup." Cooed Diamond over her shoulder after spitting one more globule of saliva over her teen's prick

until her mouth felt dry, "I think you're all lubed up again and ready to go through mommy's pussy one more time. Now who's ready for some skinship in the family while papa bear isn't home? Once I feel you get hard again I promise to ride another white load outta you buster until you're soft."

Skinship was an old country idea born in the lusty mind of Diamond one fateful day when her legally aged teen and her became intimately involved by accident more or less. Ever since the two began bumping uglies they used the term skinship to refer to their incest whenever they could. Skinship meant becoming fluid bonded and the benefits of fucking her boy's brains out seemed obvious to the middle-aged stay at home mother once their strange relationship began. Almost immediately after their first intimate day of fluid bonding their genetic matter in the family kitchen followed shortly after their next DNA exchange in the mother's parental bed it seemed Junior's attitude and behavior at school and home improved dramatically. Fucking became the new parental gold standard for raising the legally aged teenager in the household.

"Alright sugar," cooed Diamond over her shoulder in her cute mom tone, "enough teasing, I think it's time for your mommy to do another one of her patented epic bareback giddy up hugs all over this big boy dick of yours until mommy is done pulling

out all your hot cum with my cunt this time. Got it?"

Diamond's wide and white ass hovered over her teenager's nine-inch erection on the futon as she teased his tip at her glazed labial gates. Little bits of the teenager's prior load flowed out from his mom's purple looking cunt on the laptop screen when Junior had the wicked idea to broadcast his mom fucking him to all his friends on his video game. He logged into the app they were using to communicate and made sure to keep the volume on mute as he streamed the image of his mom's cellulite filled ass hovering nakedly over his erection. Junior aimed his camera to avoid his mom's face and to focus only on the area showing their sexes about to join. In a millisecond he was already getting messages over his microphone.

'Who is streaming porn to everyone right now.' Someone said, 'Someone link it so I can watch too.'

Junior began typing at his laptop in response with his keyboard clacking as Diamond began to finally lower herself ever so slowly over her teenager's erection like a diving swan. Her squatted figure moved itself down over every meaty inch of her teenager's erection while the teenager and mom groaned in unison from their genitals pressing together until eventually the white mom's ass struck bottom. Diamond held her child deeply a moment

to feel his length reaching straight through her depths to press against her cervix.

"I love how your tip throbs against mommy's bottom." Cooed Diamond over her shoulder, "If I didn't know any better I'd guess someone loves getting hard inside their mommy's warm and wet cooter."

"That goes without saying mom." Said Junior to his mom with his microphone muted and his fingers flying across his keyboard as the broadcast of their incest to his friends began, "I think you can start bouncing up and down now mom. My laptop is about to die and--" Suddenly the teen shut his mouth in fear of accidentally confessing what he was doing, "I mean, I just want to creampie your pussy before my game finishes mom so you can start."

Diamond's small white hands could be seen reaching back on camera to stretch out her cheeks and to expose her puffed out looking bleach asshole for all of Junior's friends to see on his private stream. Meanwhile the video game was continuing with the whole performance of the team suffering because of the porno stream happening. Meanwhile Junior's friends began asking him for the video link.

'This is a live stream.' Junior typed on his computer.

'No way, I know your girlfriend and that is not her ass.'
Responded someone.

'Me and her broke up.' Typed Junior, 'This is just some
mom in the neighborhood.'

'No fucking way.' Everyone responded, 'Who?'

Junior just ignored their questions as he fell into the pleasurable feeling of his stiff erection being smothered by his mom's warm pussy. After settling herself completely for just a second the hot mom began going to work over her teenager's erection. Diamond slapped her hairy looking cunt up and down at a blistering pace with gross wet kissing sounds filling the family den from the mother fucking her boy's boner in a fury. Her passionate enthusiasm for milking out her boy's semen was palpable as her Texas sized ass bounced up and down at a blistering pace. The ferocious looking mother's ass moved in a blur on the teenager's laptop screen as her cooter pounded his long teen cock through her chamber with her thick squatting ivory thighs air-squatting in a fury. The mother's dark looking brown eye winked at her child's broadcasting camera as she hummed in her throat and encouraged her child's seed to rise up

and give up for release as the cellulite in her creased mature ass clapped and jiggled.

"Keep doing that mom." Groaned Junior as he reached forward in view of his laptop camera to smack his mom's rippling ass smacking loudly up and down over his erection, "I'm going to cream inside your pussy for sure if you keep going like that! It feels so good!"

"That's because mommy's warm pussy is clinching down on your dick while I'm milking you properly right now out kiddo." Grunted Diamond over her shoulder as her blonde pony-tail and cellulite-thick ass bounced and rippled on camera, "I don't think I can keep doing this forever, but for my baby's load I promise to keep going until you're ready to shoot out all your sperm kiddo."

Meanwhile there was the incredibly thick and white creamy mess appearing between their sexes as the hot white mom continued to bounce her ass up and down at a blistering pace. If the teenager's microphone had been recording and broadcasting audio and not only the visual sight of his mom's big ass bouncing like a maniac over his cock there would be no doubt that the teenager's friends would discover the truth about him and his mom. In Junior's mind however, his friends would never

guess the truth about him and his mom and so they would have to believe that he was actually fucking another mother in his neighborhood.

'Dude, her pussy looks tight and grippy!' Commented Junior's friend in the chat room.

'She's creamy as fuck! Look at that pussy grip! I'm jealous!' Someone said.

'Yo! For real who's mom is that? Is that really you dude? You lucky mother fucker..'

Junior just ignored the questions and concentrated on aiming his camera at the amazing sight of his mom's purple cunt going up and down over his cock with her brown-eye winking at him with smears of semen and clear vaginal fluids glazing over the dark center of her bleached asshole as bounced. Diamond hummed a cute mom tune in her throat as she found her rhythm in bouncing her hairy muff up and down over her teenager's thick erection with her feet firmly planted and her hands reaching down to support her weight on her boy's shins. The nymphomaniac mom began bouncing her bombshell shaped white ass like her teenager's erection shot out money and owed her cum-hungry muff money in the form of a sexual favor. She could feel her loins

tighten against the sensation of her teenager's thick erection beating back her walls as she plunged herself up and down quickly. A climax began to stir within the middle-aged mom's loins as her sweat brow contorted and she suddenly hunched over to squat her rump up and down like a four-legged animal trying to beat back a snake into the ground with loud lap on lap slapping strokes.

Diamond's up and down strokes over her teenager's stick cock went at a blistering pace on screen. The bonafide nymphomaniac mom moved so fast that her rump blurred on screen. If Junior had the microphone running his online friends would have heard the lewd wet smacking noises their middles made each time his mom slammed her oatmeal-like ass with the ferocity only a mother in love in milking out her teenager's erections could muster. She felt him reaching far up her channel each time she bounced. When his hardness raked against her vaginal lining to kiss against her hardened cervix like a soft punch she moaned loudly. There was heat and pressure building up in the middle-aged mom's loins as her squatting figure worked like a maniac to soften her teen's loins with the friction contained in her clutching purple womb.

"Goodness gracious you're getting bigger below the waist everyday kiddo!" Moaned the mom loudly in her wailing voice, "I

can feel you reaching way up inside mommy's pussy right now."

The hot mom said with her motherly pony-tail bouncing with her body out of camera shot as Junior focused on the hard squat fucking motions his mom made as he witnessed what looked like an incredible orgasm beginning to ripple through her loins. "I can feel my pussy clenching from your far reaching cock sweetie."

She mewled over her shoulder, "You're spearing right through mommy's muff to poke at her tootsie-roll center sugar bear. It's like you were made to fit in my mommy pussy."

The sight of their collective breeding fluids smearing together on camera for everyone to see while Junior felt his loins begin to boil for his release was enough to send the whole chat room into a frenzy. Nobody could believe the sight of the woman fucking Junior's cock at an otherworldly pace, like a person possessed to milking out cock, the mom bounced. Each time she came down the room sounded like loud sex with loud clapping sounds being made each time their middle parts collided. Diamond began to moan louder than ever from the sensation of working through her son's toughening erection in search for his umpteenth load of the afternoon. With her orgasm approaching with her son's ever hardening manhood she worked her hips into a frenzy of motions. Her purple cunt gripped her teen tightly until eventually they began to climax together. A floodgate withstanding a heap of genetic matter made to

inseminate a certain nymphomaniac mom's mound was broken and a teenager experienced the sensation of relieving his loins inside the womb which made him while a hotter than life mom bounced on her son's toughening erection to ride out the waves of ecstasy pulsating within her mound. She could feel her inner muscles clinch harder beyond her control as she orgasmed all over her teenager's stiff erection heaving his genetic load into her purple breeding chamber as Diamond continued to bounce up and down with several loud and strident skin slapping strokes until she slammed her muff down completely against her son's final orgasmic heaves.

There was a loud climatic sounds of their skins slapping together as they melted. Diamond was leaned over now with her puckered up and bleached looking asshole winking in the camera from the earth-shattering orgasm still rippling through her cunt as her hairy muff sat atop her son's bent erection as he softened inside her hot pink vagina like a stocking-stuffer. He wore his mom's hairy muff proudly on his laptop screen as he reached forward in camera shot to poke at his base to keep his manhood from slinging out of his mom's warm sleeve without blood to support his erection. Only he could hear his mom's breathing gathering in the room as she panted loudly from the effort of milking out her son's erection the way she did with her fast moving, piston-pumping, ivory hips. There was no doubt in

either person's mind on the futon that the consenting mother and son had committed the ultimate taboo and would do it again soon.

"That felt great mom." Said Junior as he admired the sight of his mom's creamy looking brown-eye still winking at him on camera, "Did you cum on my dick?"

"Mommy came really, really hard all over your big dick sweet-pea." Said Diamond over her shoulder as she rose up her shoulders with her hairy muff and ass still planted firmly over her teenager's lap, "You were striking right against mommy's G-spot when I came. Did you squirt out all your baby-batter inside my pussy like I told you to young man? After all, it's disrespectful to want to hold back your spunk when you have a mommy like me around willing to drain your balls out like any good mommy should do for their teen boys at home. Your improved grades is evidence skinship works and I'm sure your dad would approve."

Diamond jiggled her cellulite filled ass on camera without any knowledge she had just been streamed live to several people online while Junior finished his video game and close his streaming software. He was near to closing the streaming software until he saw his mom's mature ass begin to rise off his cock. Although the teenager had no intention of confessing to

his online friends that he was a bonafide mother fucker he thought they would appreciate the sight of his mess left behind in his mom's hot twat just to show them he had truly inseminated a real life pussy. They had no reason to expect it was his mom's honeyed hole he had just filled and every reason to believe his lie that a neighborhood mom took his load.

"You ready to take a look at your handiwork now young man?" Cooed Diamond over her shoulder as she looked over her shoulder while unaware that her riding antics had been completely recorded by her teenager's flipped laptop camera, "I better see a huge fucking load of spunk pouring outta my muffin when I lift off your lap young man. Mommy worked really hard to make this fucker sneeze all your white guts out inside my cunt and I expect to be rewarded with a fat baby-maker of jism pouring outta me, or else."

Junior was speechless as he winced from the sensation of his mom's lifting her vaginal sleeve slowly up off his large teenage cock like an elegant mature stripper dismounting off a client. As her creamy oatmeal like ass lifted the teenager viewed hot white looking rivulets of his sperm leaking out from the tight purple sleeve wrapping around his erection. Diamond's bleached asshole winked at him with creamy white globs of genetic matter smearing around her hairy pubic furs and thin

taint. The hot stay at home mom had to lift herself nine inches up in the air before she felt the bell of her teenager's slip from her motherly pussy like a tool ejecting from a socketed hole. Her hand reached back to grasp at her son's base when she slipped him out to prevent his cock from falling to his belly. Then, the ugly and lewd sight of Junior's hot ejaculation could be seen by the teenager and his friends to be running out of the hot mom's cunt like an avalanche of thick and creamy looking spunk.

"Now that looks like a bonafide mother lode of spunk pouring outta my cunt right now buster." Cooed Diamond adoringly over her shoulder to her son, "Feel naughty kiddo for filling up your mommy with so much of your cum? After all, it's not everyday that a mommy and her hung big-dicked baby-boy gets to practice skinship all day at home. Especially bareback skinship thanks to modern birth control."

Junior was in his blissful orgasmic afterglow after unloading a huge amount of teen spunk into the woman which birthed him. Her warm motherly pussy had wrapped around him quickly and tightly and as he was pushed tightly by her cloying vaginal walls he had unloaded the biggest nut of his life straight up his mom's cervix. He loved how nearly every time he came inside his mom's pink and purple depths that she would

nuzzle him deeply, instead of riding his cock, to feel his hot load strike against her cervix like a battering ram of approval and affection made of semen. It was like she was addicted to taking him deeply.

"Thanks for making mommy feel good sugar bear." Diamond spoked over her shoulder, "Did you enjoy your mommy's patented bareback giddy up? I felt you sneeze out a lot of spunk and judging by the mess draining outta me at the moment I think someone shot a whole bunch of baby-batter straight up his mommy's puss-puss. Am I wrong?"

Diamond reached back and stroked at her son's erection at the belly to test his softness while his fat load continued to drain out of her cunt to run down her teenager's cock in thick rivulets. If there was a hotter sight on earth Junior nor Diamond knew it as the mother admired her handiwork after milking out what looked like the biggest teen load of Junior's life. The voluptuous mother smiled over her shoulder with her knees lifted completely up as she continued to drain and blow out bubbles of cum from her mound as she clenched in her guts to squeeze out her boy's thick sperm from out of her depths for dramatic effect.

'Holy shit! That's a huge amount of semen coming out of

that hairy pussy right now!'

Junior was reading the gaming chat room explode with his friends talking about the sight they were witnessing as he prepared to close the stream of his mom and him secretly banging in the house since they were done. As long as he kept the camera focused exclusively on their sexual parts the teenager was sure none of his real life friends would recognize the furniture. Diamond's bleached asshole puckered over and over for the camera to view the mother clenching her inner vaginal muscles to continue to squeeze out her son's fresh white load with big bubbles of air joining the leaking sight of spunk leaving her hairy mound.

'I told you guys.' Junior typed at his computer, 'It's a neighborhood mom I met.'

'No fucking way.' Said someone, 'No mom is that hot looking in your neighborhood dude.'

Junior gave a thumbs up and a wave in front of his camera to close out that conversation. Diamond rested on her knees while hovering above her son's flat cock on his belly as she reached inside her mound to scoop at the remaining thick mess lining her inner sleeve. His load was sticky and thick as she

scooped with two fingers to flick out her teenager's semen like it were a happy house chore as she hung a happy sounding mom-tune in her throat while doing so. The hot nymphomaniac stay at home mother was never more proud of herself than after she was able to soften her boy's erections with her honeyed motherly holes. Despite her self-diagnosed nymphomania at home the stay at home mom was impressed with her son's ability to keep up with her urges in ways her husband could never at their age and happy then ever.

'Only Junior's mom is that hot.' Someone typed, 'Who is it for real?'

'Alright guys.' Typed Junior, 'I gotta go.'

'Wait! What's the video link! I know that isn't actually your cock dude and no way are you raw fucking pussy right now, no pussy is that good looking.'

'I can't believe how hairy looking that snatch is. Is that really your cum she's scooping out of herself right now? I'm jealous dude. Who's mom is that, for real?'

Junior did not respond as he closed his laptop screen after the last bit of his sperm glided out of his mom's cunt like a

leaking sieve before a gooey mess remained to cling in the mom's golden pubic furs like a souvenir. When he saw his mom stop scooping at his mess caught between her inner pussy walls the teen knew his mom was about to dismount. As soon as she stirred from his lap on the futon he made sure his laptop was no longer recording to see his mom turn around while on top of him to lean down to peck him on the lips.

"Feel better now that mommy milked a fatty outta you buster?" She asked in her mellifluous female voice, "I worked really hard to make your pecker soft and it looks soft right now. I bet it felt really good to blow your white guts in mommy's warm pussy kiddo."

"Cumming inside your pussy is always the best mom." Said Junior as he sighed with the feeling of his drained balls being stroked by his mom's small hands as she put him to rest, "Whenever we have sex I know it's annoying when I stay hard after I finish the first time but I always like how you don't give up and--"

"Shush now sugar bear." Scolded Diamond lightly with a wagging finger, "Your invincible big boy boners are a blessing for your mommy baby. I have nymphomania, which I've told your dad many times before. And it's completely natural for a boy to

be attracted to his mom's body at home. It's only natural for us to help each other and I've never met a man able to get so hard so quickly after every milking I do. Mommy is proud of our skinship so far kiddo."

"I guess that means I just really like having sex with you mom." Said Junior.

"I guess so sugar bear." Cooed Diamond as she reached for a tissue to wipe at her son's breeding fluids decorating her inner thighs and pubic hairs, "I can't blame you though since you're such a virile young man still. After all it's not everyday a mommy and son get to practice skinship at home with your daddy's blessing. Ever since we started fooling around my nymphomania has never been better. I no longer get painful around my ovaries without your dad around to please me and with your dick it's easy for me to to get sore down there just the way I like it."

"Is that a big dick joke mom?" Asked Junior playfully as he felt his big-titted mom begin to dismount off his body on the futon, as she got up he saw a thick white creamy mess trail from his body to his mom's inner thighs as she rose, "And are you sure it's okay for me to pump so much of my semen in your pussy? I know you're on birth control mom but there must be a limit to

how much spunk those pills of yours can withstand."

"Mommy is confident that her medicine can stop a billion baby-makers from fertilizing my eggs young man." Said Diamond flatly as she reached down with a tissue to wipe at her son's remaining globules of spunk before adjusting her panties to cover her hairy mound with its soft looking cotton fabric.

"I think we could at least try another hole though sometime mom." Said Junior boldly, "Maybe not inside your mouth or pussy but maybe your..."

"Young man, I hope you're not implying you want to fuck your mommy's ass." Interrupted Diamond, "You know your dad gave us his blessing to fool around when he's not home on the condition I keep you outta my ass. That means vaginal and oral sex only!"

Diamond's big titted voluptuous figure towered over her teen son laying shortless on the futon with her freckled skin still looking red from the intense effort she poured into milking out her son's umpteenth load with her dick riding hips. Although the busty white mom loved being on top to feel her teen's diamond like tip strike against her cervix like a battering ram she had to admit to herself that milking out her

son's erection was getting harder everyday. It was almost as if he was building stamina against her hardened mommy-twat muscles which inspired the mother to work harder each time she got atop her son.

"Maybe you could ask dad for permission to try it." Said Junior boldly.

"Mommy will think about it young man." Spoke Diamond after a moment, "It might be a few weeks but if you promise to be satisfied with mommy's mouth and pussy I think we can continued our little experiment at home where you get to frequently beat your boners against your mommy's deep pussy until you feel okay to dump your load. After all, ever since mommy started draining your balls often at home your dad and I have noticed a big improvement in your grades buster. Good job, maybe I can reward you with my asshole later."

"Thanks mom." Spoke Junior as she watched his mom pick up her pink bathrobe off the ground and adjust the crotch of her panties to cover her hairy mound while a damp spot began to appear around her labial gates, "Your pussy is still the best by the way. I'm sorry I came in my sheets this morning but honestly it was because I had a wet dream."

"Wet dreams huh?" Asked Diamond, "Wet dreams about your mommy's warm hungry holes?"

"You know it mom." Said Junior, "I didn't meant to cum in my sheets and make you--"

"There's no need to apologize sugar bear." Interrupted Diamond, "Mommy is sorry earlier for getting angry about you wasting seed. I thought you were masturbating alone instead of coming to me to help you take a load off the only way I know how but--" The hot mom interrupted her train of thought suddenly, "You know, that's not important. It's actually my fault you had a wet dream mister because you should not be having them if you are experiencing completely empty balls. This might need a little extra skinship at night to fix."

"What do you mean mom?" Asked Junior with his ears reddening and heart quickening from the thought that his mom would possibly offer him her honeyed ass that night, "Are you--"

"I am going to ask your dad to trade places with you tonight." Said Diamond flatly with her arms on her hips and pony-tailed head cocked to the side, "I'm going to tell him I'm going to sleep in your bedroom tonight to make sure your dick stays nuzzled in my pussy from when you go to sleep until you

wake up. That way, if my hung baby boy ever has another nocturnal emission his precious load will go where it belongs, in mommy's cunt."

Diamond poked at the dark looking spot on her covered mound which had grown darker and wider from all the fluids leaking out from the mom's cunt as she walked around the room. She patted at the spot proudly as if it were the center of her power. Ever since the hot stay at home mom had started getting her brains fucked out by her teenager's willings erection she had never felt better at herself and was determined to see how good she could feel. With her son's willing and large erections at home to experiment with the hot mom felt like she would help her son finally graduate high school with her sexual guidance while also keeping her nymphomaniac pangs at bay with several daily injections of teen spunk and jism.

"Alright, see you later kiddo." Spoke Diamond to her speechless son, "I'll knock on your door tonight to milk you out again if you want. Just leave your door unlocked and--"

"Honey!" Hollered the man of the house suddenly which surprised the mom and son.

"Shoot! Your dad is home." Said Diamond, "He might want

to fuck and my pussy is still full of your spunk mister. I'll have to clean myself just in case. I know today isn't Sunday when we usually do anal but when he comes early from work, and it sounds like he's home early, he sometimes wants to get intimate and plow--"

"I don't need to know all the details mom." Interrupted Junior, "Why don't you go say hi to dad and remember what I asked for. I'm going to go play more video games with my friends. Thanks for milking out my cock the way you did. You know I always love your blowjobs and pussy-kisses on my knob."

"Pussy-kisses?" Mused Diamond to her teen in the room, "I like that, I'm going to start calling what I do to your peckers 'mommy's special pussy-kisses', sound good?"

"Sounds good to me mom." Said Junior as he pulled a blanket to cover his flaccid middle, "Will I see you tonight to take care of this." He said whilst pointing at his covered lap, "It's soft now thanks to you but you know how I get at night for more--"

"I'll ask your father dear." Spoke Diamond in her cutest mom-tone as she was about to leave, "Who knows what will happen tonight but depending on his mood it might be late when I'm able

to sneak into your room to tuck you into bed so to speak with my naughty bits. Do you mind waiting?"

"I don't mind waiting mom."

"You promise not to touch yourself?" She asked.

"Honey!" Hollered an older male voice in the house, "Where are you? Say something."

"I promise not to get hard until your back in my room tonight." Answered Junior.

"That's mommy's good boy." Cooed Diamond to her child before hollering back to her husband, "I'll come find you honey. One moment. I'm just talking with our son."

After the hot stay at home mom left her son, the lucky teen of age living at home crossed his hands behind his head and looked up at his ceiling to thank his lucky stars for having such cool parents and an even cooler mom. Never in a million years did the teenager expect his life to take such a dramatic turn at home to fill in for his dad to fuck his mom's cunt full of his cream because the old man was too anxious to do it without obscene amounts of contraception. His mom got what she

wanted which was vaginal pleasure to treat her nymphomania. Junior got what he wanted which was frequent pussy access. And the man of the house got what he wanted in the form of more time to concentrate on the favorite part of his hot wife, her bleached and tighter than life asshole in her crack. As he drifted off to sleep, he slept easy in the fact that in hours his mom would return to him at night in his bedroom to take care of his next erection which would surely happen.

THE END.
