

My Horny Holiday Mom

"Honey! It's so nice to see you again! How have you been? Wait, where's your young daughter this year? I don't see her with the rest of your family?"

"She decided to spend Christmas with her new boyfriend so it must be serious." Said Diane to her mom in the entryway of her old childhood home as she stomped her feet to shake the snow from her shoulders.

"Well the little thing is in college now." Said he grandma as looked to her grandson, "Is this my little Daniel?! My, my pumpkin you have grown so much since I last saw you young man. Have you been good for Santa this year? Your mother says you've been taking care of her back home so you must've been good."

"Um, sure grandma. I keep my room clean and stuff I guess."

"Daniel does more than just 'stuff' mom." Diane said as she tried to impress her mom, "He recently started doing well in school this year believe it or not. His grades have improved so much he just may graduate high school at the end of this year. He'll be leaving the nest soon which means it'll be time to have

another baby soon I guess."

"Is that true young man? Are you finally doing well in school to make your mom and dad proud? I have heard all about how well you have been doing in school lately you know."

Daniel just blushed and nodded his head at his grandma looking at him warmly. Little did his grandma know that back at home he practiced a thing called skinship with his mom. If only she knew the number of practice baby-makers he blasted through his mom's cuntal tubes ever since they started exchanging their breeding fluids. He was sure his grandma would not approve and just wanted to leave the room so he could endure the rest of the weekend in private. They would be there for the weekend until the Christmas weekend was over.

"Goodness, he's still so shy but I'm sure he takes care of his mommy at home."

"Junior takes care of his mom in ways you can't even imagine mom." Said Diane.

Meanwhile, across the room, Daniel watched his dad bring in the rest of their luggage. Grandpa helped bring in more luggage bags inside the home towards the stairs. Once inside the dad of

the visiting family reached forward to shake his inlaws' hands. They would be staying until the weekend was over after Christmas. It was Christmas Eve with two more days remaining until they left and Daniel was already aching for his mother's intimate touch to relieve the full load filling his loins. After the hours long plane flight the son of age was already horny again for his mom despite feeling her suck the white ghost out of him that morning. It would be hard to hide his desire for his mom from his grandparents.

"How was the flight Richard?" Asked the grandpa, "How is everything with work?"

"Work is good. The flight was okay. Now, I'm ready to relax until we fly back."

"Come now, why don't I help the men with the bags they brought in for us." Said Diane as she instructed her son to grab the family's luggage.

Daniel tried to grab all the bags but could not hold all the luggage by himself. When his mom saw him struggling she came over in her cleavage filled sweater and panty-hose stockings underneath her short holiday skirt to help him. She grabbed the last bag and was the first between them to step on

the stairs with her black high-heeled foot. Her feet clicked up the wooden staircase as she gestured for her son to follow her upstairs.

"I'm going to take our stuff upstairs to the guest bedroom." The mom declared to the room, "Daniel is going to come with me. Me-maw, do you mind waiting until we come down?"

"Christmas is still getting started darling, go put away your things and I'll meet you in the kitchen with Richard and your old papa. Take your time to get settled." The eldest mother said.

"Come on sweetie, let's go." Diane said to her son as went up, "I think someone needs to take a load off upstairs. Grandpa and grandma can handle your dad while we go unpack."

"What do you mean mom?" Said Daniel in excitement, "What about dad and everyone?"

"I'm sure your grandparents can keep papa-bear distracted while we go upstairs."

"What are we going to do upstairs mom? It's not what I think, is it?" Asked Daniel with a quivering voice.

"What do you think young man? Mommy is going to fuck you in my old bed until I get a load in my cunny. Papa-bear may not give me a baby in my love oven but my baby-bear can."

"What?! R-really mom?" Said Daniel in disbelief.

"I'm serious buster bear. Now let's go so mommy can start fucking you with her no no hole upstairs. Your dad won't even know we left so you could dump a load in my pussy so I could get my Christmas wish."

"What do you want for Christmas mom?" Asked Daniel as the pair ascended the stairs.

"I want a fat creampie in my pussy so I can make you a new baby sister or brother young man. We can do this together as long as you're not squeamish about it." Said Diane.

Daniel could feel his jaw drop in his mouth as he reached up to grab his mom's hand after they rounded the corner on the second floor of the home. She grabbed his arm and began to lead him forward towards the old family style staircase. Mother and son walked by ancient family pictures and heirlooms hung on the wall as they giggled in anticipation of their forbidden

consummation in a mother's old childhood bed.

"Are you sure it's okay for us to do it here mom?" Asked Daniel.

"I am sure we will be fine as long as we're quick about it."

"What if dad or your parents walk in on us mom?"

"Trust me darling, I know my family. Your father will be fine with my parents. Remember our discussion during the plane ride when you promised to be ready when mommy started her ovulation cycle? Well I didn't tell you my ovulation cycle starts tonight."

Daniel gulped and almost wanted to stop his mom out of fear of being caught. There was nothing he could do to stop himself however. The promise of getting his dick wet in genuine pussy after being deprived for so long was too much to pass up. As they ascended the stairs he ogled at her voluptuous figure. Her hourglass frame swung in front of him with her meaty ass cheeks bouncing beneath her skirt. Out of bravery he reached forward as he was led upstairs by his arm. With his free hand he began to lift up his mom's skirt. What he saw almost made his breath

stop and caused his mom to stop suddenly.

"See anything you like young man?" Said Diane spoke as she bent to wink her bleached and crinkled anus before widening her stance and reaching between her thigh gap to spread and show off her gaping pussy.

"Mom! You're not wearing any panties!" Said Daniel in surprise.

"I took them off in the car young man if you want to know when I took them off."

"You said we had to wait until later though, I was expecting later tonight when everyone went to sleep. Not as soon as we got here."

It was token resistance at best. As soon as mother and son were alone together in a forgotten childhood bedroom their hands flew all over each other. Diane felt her son grab her by the waist before burying his face into her busty cleavage. Her dress fell by her feet until the mother stood naked in her birthday suit. She grabbed her son by his bulge in his pants. She traced her manicured fingers along his throbbing length and instructed her son to remove his pants. Hey obeyed until he

stood fully erect as he was lead to the bed. Ancient steel bedsprings creaked loudly as a mother laid on her back before spreading her legs wide. Purple looking labial guts split open with a wet kissing sound. Ribs of pleated vaginal flesh glistened in the light as the sound of a belt buckle being fumbled with filled the room.

It took little encouraging for a son to follow after the sight of two splayed open labial lips looking at him. Purple depths and pleated ridges drooled like an overflowing mouth gaping at him in anticipation. A pair of white manicured fingers reached down to spread apart her inner chamber until a meaty bell pressed into her cuntal core once freed. Daniel wasted no time in drilling the place of his conception with his steely eyed prick after pressing his bulb into the entrance of his mother's cunt. There was no hesitation in sinking himself to the hilt until their pubic hair entangled with the feeling of his bulb pressing into the hardened back wall of his mother's bottom depths as she mewled sharply.

"There you go sweetie. Get that squishy mommy pussy until you're ready to dump a fat load into me like a good boy for Santa. Mommy Claus says shoot inside!" Diane encouraged as the mom laid back while her pink pussy was gently pummeled from above by her hung son.

Daniel laid his meaty pipe into the same pink pussy which birthed him as his mom fed him sweet encouragements. Diane freed her bosom from her sweater. Her voluptuous breasts began to shake violently from the strokes her son delivered as he fucked her on the bed. His strokes began to become more confident as he thrust far and deep into the hole he came out of with cervix striking strokes. Cute grunting noises would erupt out of his mom each time he bottomed her out. Her buttery sounding hole undulated around his thickness as the hung son thrust through his mom. His ball sac beat against a crinkled asshole as a mother moaned out loud in her old childhood bedroom. For minutes he laid into the place of his birth with his cock as his heavy big balls beat against an asshole beginning to pucker in climax into the shape lips kissing against two balls beating rhythmically into them.

Daniel grunted aggressively as he began to feel loins begin to boil. He clenched his loins to withhold his load as he continued to pound the buttery sounding hole he came out of when he was born. The pussy plunging teen of age was determined to make his mother climax first in her bed. Pink and meaty sounding pussy lips cloyed against his thrusting cock. Wet slick sounding noises filled the room. Squishing noises joined the sounds of skins slapping together as Daniel beat his meat

through his mother's sloppy sounding cunt. Each time the hung son of age reached through the pleated textures within his mom he was thrilled each time he heard cute grunting noises escape out of his mom as she moaned and encouraged him to fuck up and fill up her fallopian tubes with his hot-white teenage spunk.

"Beat it up baby! --OOF!" The mom mewled out loud as she reached up to clutch at her son's flanks to draw him in, "Get it buster! Beat that pussy up like you mean it! Fuck it up buster! Make your mother preggers butter-cup! Pump a baby into me sugar bear! Mommy wants a brand new baby for Christmas cuddle-bear, now give your mommy that baby-syrup!"

Daniel plundered the place of his birth with a passion. He attacked his mom from within her squishy pink guts from all sorts of different angles to find just the right spots which made his mom mewl the most. Cute little grunting noises escaped the laying mother as she held her arms below her busty bosom to keep them from shaking violently as her velvet vaginal pleats were ironed back by the feeling of steely eyed teenage cock. A purple bulb of throbbing meat punched against a motherly pelvic floor. A mom's cervix puckered in and out in anticipation of the liquid hot load brewing in a young son's ball sac slapping against his moaning mother's puckering asshole with hot SLAP-SLAP-SLAP noises. Her clutching cunt coiled tightly around the

cock exploring her depths as her sloppy sounding cunt tightened even more to make her vaginal grip tight than tight and hungry to accept a hot load to flood into her purple cunt.

"GUGH!" Diane moaned out sharply as the mother held back her moans of pleasure for as long as she could until she felt her favorite place within her cuntal chamber being repeatedly probed, her son had found the spot she loved the most to feel touched with his steely eyed prick punching into the bottom of her cunt through her pelvic floor, "GOODNESS BUSTER BEAR! OOF!-- GET MOMMY'S SPECIAL PLACE BUSTER! BEAT IT UP BABY! FILL YOUR MOTHER UP WITH ALL YOUR CUM!"

Daniel plundered his mom from above with cervix punching strokes while his ball sac slapped repeatedly into his mewling mother's crinkled anus. As the minutes passed and a hung son continued to churn the buttery sounding depths of his mom he began to lose control of his loins. In moments he felt the lava like rush of hot jism rushing up his shaft until his load squirted out of his piss slit to paint the depths of his mom with his potent white seed. He thrust balls deep to ejaculate his first rope as deep as he could reach. Daniel sent fat bolts of teenage jism down the same hole which birthed him as he fucked his mom with a fury. He laid into her mound at a blistering pace and fed his length through her depths as he

planted his seed. A fat and milky-white deposit of pubescent teen spunk met the deep marital depths of a mother spreading her legs with her big bosom shaking violently as she was pumped full from above by her son.

"I'm cumming mom!" Grunted Daniel mid-orgasm while his fat ropes of jism were launched inside his mom into the puckering lips of a cervix twitching to gobble up his every rope.

"Shoot that spunk out for your mommy cuddle-bear!" Diane cooed sweetly in her motherly tone as she reached to wrap her legs and arms around her son like a harness to draw him in and guide his hot-white baby-batter straight down her semen swallowing pussy, "Dump it buster!"

Daniel shivered in his skin as he shot a liquid hot creampie straight into the same pussy which birthed him. He thrust himself deep and allowed only an inch or two of himself to slip out of his mother's clutching cunt as he came. He used nearly the whole length of her purple vagina to milk out his white cords as he thrust. With each stroke he delivered as he climaxed with his mom he could feel his bell tip strike a hardened surface. He would strike his tip against the back wall he felt within his mom with all his weight to force cute grunting noises out of his mom as he came deep inside her

depths. The feeling of sending fat ropes of his jism into his mom as her face cringed and her cunt clutched tightly around him was a dream come true for a lucky son. As he launched his final ropes of jism into the place of his birth he planted himself deep with his emptied balls pressing firmly into a puckering asshole twitching from a powerful vaginal orgasm within her body.

"That's it baby, shoot it straight to the pussy-- OOF!" Grunted Diane as the mom was plundered and filled.

Mother and son lost count of the amount of times a teenage cock flexed and heaved inside the clutches of motherly cunt. When it was over Daniel kept himself plunged deep with his ball sac nuzzled snugly against his mom's taint and anus as he laid over her body and caught his breath with his sweaty head smothered between two big bosoms cooling his face. They breathed contently with Diane telling her son to stay sunk to the hilt until he softened within her cunt to help his seed reach her ovaries. When he softened, Daniel pulled out. A wet popping sound like a bulb leaving a wet socket entered their ears. Mom and soon looked at each other briefly before a hard and noisy sounding gurgling sound interrupted their moment. Diane giggled as she saw her son look down to the source of the noise. Hot spurts of pubescent spunk gurgled out of her cunt

from a trapped air bubble squeezing out between her pink vaginal curtains. Big creamy white bubbles flowed out in gurgling rivulets of fresh spunk as the mom giggled out loud.

"Thanks for the fat creampie right in the baby-maker young man, mommy appreciates it." Diane cooed as she kept her legs spread and hips tilted back to help the semen stay in her cunt.

"No problem mom." Said Daniel as he caught his breath as he admired his creamy white spunk pooling within his mother's gaped vaginal depths filled to the brim with his steamy jism, "I just hope dad isn't looking for us right now. What if he walked in while we were doing it mom?"

"Well, as much as mommy would like to have a bit of pillow talk about now, I think it's time to go now mister. Your daddy must be wondering where we're at right now and we don't want him knowing we snuck away from the family so I could take a fat load up my cunny before Christmas to help get me preggers pal. You know how he gets when we take our skinship outside the house."

Daniel handed his mom a wad of clean tissues so she could clean the creamy white mess left behind around her labial lips, taint, and bleached asshole. She hummed a cute tune in her throat as she mopped herself up around her thighs and pubic

hairs. When she was done swabbing out the pubescent mess left behind by her stud teenage son she lifted the semen soaked wad up to her face to inspect the mess up close to her face. The stunning mom admired the thick white looking ejaculate smeared across the tissues in her palm like fresh hot-white glaze. For the stay at home mother there was nothing ever like seeing her son's liquid satisfaction.

"Too bad, I think these little spermies would've made good babies young man." Diane commented as the mom inspected her son's fresh white ejaculated smeared across the tissue paper in her hand, "Normally I would've laid right there with my legs held back over my head to help all your semen soak into my eggs but I'm afraid we don't have that luxury because your father may seriously be looking for us now that you mention it."

"Do you think you're gonna get pregnant after this mom?"
Asked Daniel

"We can only hope young man and if not we can always try again your daddy isn't paying attention."

Daniel was speechless as he watched his mom get up from her old childhood bed. She stood and bent over to grab at her skirt on the floor and as she bent he saw a big white wad of his

pubescent semen leave her cunt. A long rope of spunk could be seen growing briefly into a hanging icicle until it snapped to make a mess on the floor. When she stood up she put her adult panties on first and turned to face her son to show off a dark wet spot appearing around her covered mound before reaching for her skirt. She stood there holding them on her hands and looked to her son with a frown on her face from the sight of an obvious erection.

"Goodness buster bear, why do you have a pesky boner after dumping a fresh wad in my love oven." Diane said in her motherly toned voice as she dropped her skirt and pointed towards her bed, "Forget going downstairs right now butter-cup. We have to take care of that pesky boner first so mommy is gonna milk you out with a bareback giddy up ride through my toughened mommy-twat one more time before we go. Understood? Now lay down on mommy's old bed sweetheart."

Daniel could not help but rearden once he saw a wrecking back of spunk form outside the same pussy lips which birthed him. He looked at the dark spot between his mother's mound as she removed her panties. A bridge of fresh spunk formed between the seat of her panty and her cunt as she got into her old childhood bed. Bed springs creaked as a mother straddled her naked son. The big titted mother squatted on feet and walked

her weight until her hairy muff landed into the crease of her son's big balls. She grabbed his shaft with her hand and struck his hardened meat against her belly to test his hardness. The cellulite on her belly rippled like water being struck by a wooden oar as the mother slapped her teenager's erect meat against her body.

"Nice and stiff, just the way mommy likes em." Diane cooed in her a motherly toned voice.

Daniel watched in awe as his busty mom prepared to mount his pointed erection. Her honey pot rose and drooled out a rope of his prior load as she squatted until her labial lips split apart from above. A string of cum fell out of her honeyed hole until it draped over the tip of his prick before running down his shaft to be chased by a pair of warm cuntal lips taking him inside. Soft vaginal ridges were pushed apart by the steely eyed textured of ten inches of hard and throbbing teenage cock being swallowed. A soft mewling noise escaped a mother's mouth as she watched the cute expression on her son's face as she took his length inside her mound with the intention of milking out one more stubborn load out of her son the only way she knew how.

"Giddy up! Giddy up! Giddy up butter-cup!" Cooed Diane sweetly in her cute mom toned voice as she started clapping her

meaty white and bald looking cunt up and down over her son's throbbing erection to beat back his hardness with all her vaginal gripping might, "Give mommy a fat load buster! Shoot it straight up the pussy! Give mommy a fat load! Mommy wants a baby!"

Daniel looked up with his arms back behind his head to watch his busty mom bouncing over his cock with her huge bosom shaking violently up and down as she bounced her liquid hot muff into his trembling erection. He felt soft vaginal pleats rubbing against his every rich vein texture and hard surface as his mom used his cock to spear her cunt. His blue balls beat rhythmically against a bleached anus smacking into his sac while a wet motherly gobbled up and down his erection to force his loins to boil and release his white-hot teenage ejaculate. Diane rode like a cow-girl in heat as her nostrils flared and breath grew ragged as she bounced herself to let all ten meaty inches of her son's cock explore her cunt with up and down strokes.

"Come to mama!" Diane roared as the mother continued to clip-clop her cunt over her son.

Daniel grunted out loud and felt his eyes roll back into his skull as his nuts tightened and coiled until his first rope

of pubescent spunk was pulled out of him by his mom bucking up and down across his lap. Her big meaty white breasts shook violently in front of him as he viewed between her jiggling cleavage to see the pink labial mouth of his mother's cunt crease continuing to gobble and chew and chew on his cum-spewing cock as she milked him. His vision blurred and a mother moaned loud encouragements. Huge cords of teenage jism were yanked out of a trembling son as his balls emptied themselves into the place of his conception. If there was a way to view inside Diane's purple guts as she continued to ride her son they would have seen fat bolts of hot-white semen gushing out of a bulbous head to spray against a puckering cervix.

"Let it all out for mommy buster! Shoot it straight up the pussy!" Diane encouraged in her endearing tone, "Mommy wants a fat load in my cunny young man! Give mama-bear a fat load!"

Daniel was speechless as he groaned out loud and thrashed his head back and forth from the lava-like sensation of his genetic matter being yanked and pulled out of him by his mother's clutching cunt chewing on his cum-spewing cock like a mouth sucking on a popsicle. He looked down between her bouncing cleavage and could see her meaty white clam lips continue to suckle and chew on his spewing nob to force every drop of his jism to shoot deep within her pussy. He could feel

his long erection trembling as his breeding fluids were voided out of him by real mommy cunt. He could see the whole front of his mom as her body rode on top of him as he came within her pink guts with rope after rope of sticky semen until his orgasm began to ebb and his ejaculation slowed enough for a loving mother to sense the crest of her son's orgasm so she sunk her hips all the way down.

"Shoot it all the way inside mommy's pussy cuddle-bear." Cooed the sweet mother as she leaned forward with her whole mound sheathing the entire length of her son until his textured ball sac nuzzled softly against her bleached and crinkled asshole. "Give mommy a big boy load for good luck buster, your new baby brother or sister is gonna depend on this wad sticking against my ovaries this time you know."

Diane giggled as she hugged her son closely with their bellies pressing together while they remained entangled together with ten inches of meaty teenage cock cooling to a rubbery hardness inside a freshly inseminated motherly cunt. She had her knees straddling her son as she held him close with his face pressed into her bosom as he suckled on her breasts as if he was babe once again. She cooed a soft loving sound, like a hum, as she brought her son back down to earth after welcoming a mother lode of incestuous teenage semen inside her warm and bruised

feeling pussy. Her back glistened with sweat as she gyrated her weight slowly to jerk the entire length of her son through her chamber to draw out any remaining cords of semen he had left in his balls. The mom reached back and clutched her son's ball sac to test the fullness of their heavy weight, for the first time since they began they felt light, empty, and shriveled.

"I think someone is finally getting soft enough to leave their mommy's pussy." She said.

Diane dismounted and as soon as the bell tip of her son's rubbery dick slipped out of the throat of her cunt a huge wad of pubescent spunk barreled out of her slit to drain out of her like a white icicle. She cupped her fingers over her coral slit to stop the spillage but gooey white genetic matter leaked around her fingers and palm clamped down of her muff like a plug trying to stop a leak. She gestured towards the tissues near her son. A river of spunk flowed from her cunt in steam rivulets and hot bubbles as she pointed for her son to look at his mess.

"Honey," she said, "be a dear for mommy and give me some more tissues so I don't get any of your sticky white cum on my old childhood bedsheets. We don't want your grandparents to know the reason why we came up here after all. If they see a mess they might put two and two together and realize we're

bumping uglies.."

"What do you think about dad right now?" Asked Daniel as he looked at the time.

"I'm sure he's alright. Your daddy has always loved my family. I'm just worried about my parents."

Daniel chuckled at the thought of his mom being worried about her parents discovering their incest. He wondered if they would approve what his mom called 'skinship' between them. He handed his mom a couple loose tissues and watched as she expertly cupped her muff with her other hand to capture his draining semen in a wad of white tissue paper before any had a chance to leak onto the bed. She then fell onto her back and had her legs spread wide as she mopped up the creamy white mess left between her thighs as she hummed a cute motherly tune in her throat while performing the chore. After cleaning up her son's sticky white messes left behind in her ribbed vaginal chamber over so many months and years at home she discovered the best way to clean up his messes was while on her back. She could clean herself and could sense if any cooling semen leaked down her taint and asshole so she could catch it with a waiting tissue or palm before any had a chance to leak onto the bed.

"Goodness buster bear, I keep forgetting how sticky your stubborn loads are whenever I let you creampie my cunny more than once in a single round of skinship. Shame on you for dumping so much! What if your daddy and grandparents walked in right now and saw the load you put in me?"

She showed off a huge jelly-white looking mess on the tissue on her hand. It was a heap of teenage jism. It clung against the tissue-paper like a heaping pile of white snot. Daniel watched as his mom folded the tissue before using the wad to wipe around her coral looking purple slit. A thin film of bubbles gently gurgled out of the cunt which pushed him out into the world as he watched his mom clean herself as she hummed and scolded him for the size of his sticky white mess left behind in her married pussy. Daniel was awestruck each time he watched his mom clean herself this way. After dumping so many loads in her cunt he had learned how careful his mom when it came to cleaning up the evidence of their incest when it mattered.

"Heavens to betsy buster, you sure planted a fat load in me this time. Mommy may need another wad of tissues to get your mess completely cleaned out of me before we get out of here. I hope my me-maw and my pa-paw are keeping your daddy distracted so he's not wondering what we've been doing all this time."

Luckily, they were not missed and when their Christmas trip was over they went back home.

ONE WEEK LATER...

In the light of a new year a mother stood by the doorway of a family home waving her husband away on his way to work one morning. She rubbed her belly where the softest of baby bumps could be seen.

"Bye honey! Have a good day at work!" The mom said as she patted her stomach at the door.

"I'll see you later after work honey." Said the dad proudly, "Take care of our new baby!"

"Of course honey, you know I always do whenever we have kids in the family." Diane said.

When Diane closed the door behind her she looked towards her son standing behind her.

"Come on baby, mommy is pregnant horny which means I need my pussy beaten up and loaded with cum." The family mom said flatly in a tone of voice which indicated it had become routine.

Diane took her son by the hand and began to lead him upstairs to her bedroom. She closed the door behind her. Daniel watched as his mom locked the door and peaked through the window to make sure his dad was really gone as she told him what she wanted to do that day.

"Are you sure having sex with me won't hurt the baby mom?"
Asked Daniel innocently.

"Trust me baby, if there was anyway your big ding dong could hurt the baby in me, your mommy would not agree to do this with you. I just want to practice a little skinship while I'm in the mood to be fucked."

Daniel loved the way his mom cursed in her hormonal pregnancy induced arousal. It had been weeks since he planted his seed inside her unprotected womb during the family Christmas trip to his grandparents' house and already he was seeing a glow in her face and a look in her eye which seemed more eager and lustful. Despite the noticeable bump on her belly and the positive pregnancy test he knew about it seemed his mom was more insatiable than ever, not that Daniel minded as he followed after his pregnant to her bed to bean his ball sac against her crinkled butthole until came his sticky white guts and baby-

batter inside her cunt all over again.

He hesitated as he was about to spear his prick through her slit below her bulging belly.

"What's the matter daddy-o? Afraid of putting a little extra layer of baby-batter over your new baby sibling growing in mommy's belly? I promise your ding-dong won't hurt the baby."

Diane patted her gently bulging belly softly and held up her mammary bosom to show off their heavier weight. Before becoming pregnant Diane was already the epitome of the word *busty*, but after getting knocked up by her son. Now her gigantic bosom was practically ridiculous looking from the way her bigger breasts busted out of all her old bras and shirts. Despite feeling guilty about re-fertilizing the egg about to become his new brother or sister Daniel was about to do it anyways. He was addicted to pussy and his mother was a bonafide MILF. If he was only going to get once chance in his life to experience pregnant sex with his mom he was going to take it and dump as many loads as possible into her pregnant pussy while he could.

THE END.
