

## **MY SECRETLY ATTACHED MOM**

It was late in the evening inside one ordinary looking suburban home where certain family members practiced a thing called 'skinship' in open secret around the man of the house. Junior was legally aged and playing games in his room when he heard quick knocking coming from his wooden bedroom door. He turned in his desk chair with his mic-headset attached to glimpse his mom's pink robed figure standing there with a sultry looking gaze. Diamond was tall with a blonde hair bun grazing against the top of her teenager's door frame. Ever since the pair began bumping uglies in their home the teen had noticed he grew harder whenever he saw his mom walk by in the home no matter if his other family members were near or not, a fact which did not escape his mom. Diamond had crippling nymphomania before becoming intimate with her son and ever since his teenage erections became involved in treating her urges things had never been the same at home. Ever since one strange day when her teenager's long cock pierced through her folds by mistake in the kitchen the two had been more or less connected at the hip whenever they were alone in the house. On this particular evening however the man of the house and the elder daughter were home as they congregated downstairs with Diamond leaving to fetch her son upstairs and maybe sneak in a moment of forbidden skin on skin contact and friction.

"So buster," Cooed the mellifluous voice of Diamond into her teenager's bedroom as he sat at his desk next to his bed, "you excited for tonight's movie buster?"

"I would be mom." Complained Junior as he focused on his computer, "But B.J's visiting from college for the weekend so you know what that means."

"Why don't you like your sister sweet-pea?" Asked the mom sincerely as she entered her hung teen's small bedroom to sit on his twin size bed like a parent about to teach their child a life lesson, "You two used to get along when you were kids but after your dad and I put you in separate bedrooms after you two hit puberty it was like you two drifted apart suddenly and started hating each other for some reason. Why is that?"

"I don't want to talk about it." Said Junior while looking to his freckled mom's mature face next to him after pausing his game, "Let's just say I hate her for embarrassing me."

"You don't have to talk about it if you don't want to kiddo but mommy does want to make you feel better." Cooed the crow-eyed mom sweetly as she moved to stroke her concerned child's back out of sympathy, "Would a nice blowie while you finish your

video game put your nerves at ease buster? I might even swallow your seed if you manage to turn that frown upside down but I need you downstairs before the family movie in an hour regardless."

"A quick blowjob might make me feel better." Said Junior as he began swiveling himself in his chair to point his crotch towards his mom, "Are you sure we have time though? Is it safe?"

"Don't you worry sugar bear." Cooed Diamond in her cute mom tone. "Momma has a plan to suck you soft in secret without papa bear or your sister finding out about us."

Diamond's giant cleavage bounced in her fluffy pink bathrobe when she rose from her child's small bed to close and lock his door before bouncing her body back to his chair. She fell on her knees in front of him and pulled out her breasts from beneath her bath robe to jiggle them lightly before quickly reaching for her boy's crotch to yank down his zipper and fish out his teen erection with her manicured hands digging around in Junior's sweatpants. She fished around inside dramatically to cup at his balls before pulling his cock out to meet the cooler bedroom air. The lusty mother smacked her thin lips in anticipation and slapped her child's erection against her cheeks

before lewdly smothering him in kisses from root to tip.

"Don't mind me sugar bear," cooed Diamond in her mellifluous tone behind an un-motherly smirk, "go ahead and play your game sweet-pea. Your mommy is really good at giving head you know. I won't stop until I'm done yanking out all your sticky baby batter with my mouth butter-cup. I can make my mouth feel like a nice warm wet pussy squeezing and nursing on your erection while you play. I'll pull out all your yummy cum so my baby can concentrate on his game and movie downstairs later tonight."

Lately the busty middle-aged mom had completely dedicated herself to being a full-time stay at home mom with her legal teen's hung erections always ready and nearby to put out her nymphomaniac urges when the physical need arose. They were coming up on the six-month mark of their taboo relationship and so far the nuclear family had saved a small fortune on adult toy battery replacements and purchased niche porn the lusty mother consumed to self-medicate her nymphomania whenever her husband was away or unable to satisfy her needs. Now she had all the reliable dick she needed with her young man of the house down the hallway who only needed some food, shelter, and skin on skin love to always keep her inner nerves satisfied.

Diamond especially loved the quick-recovering stamina of her hung teen boy's far reaching erection whenever he poked through her forbidden mound to fill her breeding chamber. Meanwhile her husband didn't seem to mind if they practiced their safe family sex experiment as long as they did their dirty deed in secret and stuck exclusively to vaginal or oral intercourse with his wife's hot ass belonging exclusively to him. These were the rules recently established in the home where typically a mother, father, and son lived together but on this night a certain visiting pale-ghosted daughter complicated matters at home. There was an unspoken agreement among everyone that if B.J. found out her mom and little brother were boning she might go crazy or insane so it was agreed to keep her in the dark. She had been visiting from college for the weekend which meant Junior and Diamond had to work extra hard to maintain their platonic charade if they wanted to keep their secret in the family. Who knows how B.J. would actually react if she were to discover her brother and mother became intimately involved after she left for college upstate. No one in the family wanted to find out.

Meanwhile Junior found it harder to concentrate at his desk with his hardened teen cock banging at the back of his mom's throat like a gag toy as she sheathed him like a magic sword trick down her white gullet with her gross slurping noises

echoing in the teen's bedroom. Her motherly tongue scrubbed at every surface and vein her boy owned in her best effort to distract her child at his video game with all her blowjob experience and talent she possessed. His smooth skin throbbed in her mouth and down her throat as he bobbed. She made gurgling noises with her lips and blew hot wet air into her son's hairy base whenever she throated him deeply to make his lap messy with hot saliva and clear precum as the hung teen groaned.

"I think someone missed having their mommy's mouth pulling out all his yummy cum this way." Coed Diamond with her wide eyes staring up as her pony-tailed head bopped, "Mommy has been spoiling you with her no no holes since the year started though so I guess it's to be expected by now."

The hot mom's green country eyes looked up to her hung teen's cute facial expressions as she felt him squirming beneath her tongue scrubbing tutelage. She cupped his balls and scrubbed her tongue along the corona of her teen's bell to distract him from his game. Junior could barely contain himself as he had to sit back and surrender beneath his hot blowing mom's mouth bringing his loins to a boil. Since his elder sister was visiting home for the time being their usual 'skinship lessons' had hit a new low point. It was much harder

to practice safe family sex the way they were accustomed because they never knew where B.J. was around the house. However, the other family members in the house were safely downstairs this time as the busty blonde mom used all her effort and strength to pull at her son's loins with her horse-sucking mouth and green country eyes staring back.

Diamond blinked like a cat looking back as she suckled on her boy's cock. Her green emerald eyes stayed wide open in the yellow desk light as she sucked noisily with the goal of draining her teen child's blue balls empty. Junior put his microphone headset aside to stroke at his mom's heavily-sucking face with his hands gathering her hair to pull it back behind her head like a doll. She choked on his size with loud struggling effort but never minded the sound with the computer's loud game music covering their hot incestuous noise. As the hot mom slurped on her boy's knob she offered her encouragements and apologies for not being able to take care of her motherly skinship duties lately within the family household.

"It's just been so hard knowing where your sister is all the time lately while she's visiting from college sweet-pea." Cooed Diamond in apology as she rested with her teen's bulbous tip slapping against her cheek, chin and breasts. She loosened her sash to allow her fluffy pink bath robe to open. Her

freckled breasts spilled out for her son to see her big round areolas and pointed soft pink nipples. Her pink saucers curved around her hanging bosoms with her tips pointing out like booby eyes. Junior took a handful of his mother's tit-flesh as she rested with his glossy looking manhood still slapping against her chin and tits as Diamond single stroked him through a fast moving fist with her mature arm fat jiggling in motion. It sounded like a lotion rich handjob being performed between the incest practicing mother/son pair as Diamond continued to stroke her child's long erection as she cleared her throat.

"You know your sister can never know about us young man." Lectured Diamond with a wagging finger as she pumped her teen's hard and throbbing erection, "Your dad may be another story but B.J. wouldn't understand our open skinship relationship. She wouldn't understand our family tradition."

"I understand mom," Junior responded as his mom's head aimed to swallow his cock once again with her thin lips peeling back in a servile and submissive smile, "she'd probably call the police and let them know you were abusing me or something if she found out."

"I know, right?" Diamond cooed with her breath hitting her boy's cock, "I see why they made incest illegal but the only

thing getting abused in this house are my boy's consenting big boners and you haven't complained about the pussy-beatings I've been giving you at home so far, right buster?

Diamond kissed her son's tip before taking him against the back of her throat with her hands jerking her boy's shaft into her mouth. Her expert gullet swallowed her teenager's erection until she felt him harden like a garden hose with his pungent teen seed close to erupting inside her hot motherly mouth. The lusty white mother slurped noisily when she felt her boy's member throb in her mouth while his thighs squirmed. She used her strength to keep him sitting as she sucked her boy's long boner with her furious looking horse-sucking mouth and southern looking eyes staring straight back. It had been over a day since the stay at home mom had satisfied her teen's urges and was eager to please him by sucking out his seed.

"I'm not complaining mom." Groaned Junior as his loins reached their boiling point, "This sure beats having blue balls."

"It sure beats masturbating alone, doesn't it kiddo?" Cooed Diamond in her cute mom-tone before latching her lips again.

"Heck yeah, mom." Responded Junior before asking, "Why do you think so few families practice skinship?"

"Skinship is an old country idea sugar bear." Explained the busty ivory mother behind her crooked crow's feet eyes, "It's been called many things but under this roof it means making sure these balls stay empty in exchange for keeping your mama's nymphomania pangs at bay young man."

While under his mom's assault Junior suddenly felt his teen semen gush when his mom's thin mouth latched on again and swallowed him to the hilt. She kept her lips locked around his base with her eyes looking up through the fur of her son's pubic fur as his hot teen seed shot down her motherly slurping mouth with his member throbbing against her throat. There was choking and gurgling sounds. Diamond always struggled to contain her teen's momentous ejaculations and today was no different especially after over twenty-four hours of pent-up teen jism following months of daily sexual encounters. Things would go back to normal once B.J. left back for college but Junior didn't mind too much after his balls were drained once more.

If the lucky teen could have heard his mom's thoughts as his spunk went down her gullet he would have heard this: *"my baby's cream tastes so good! His face when he cum is so cute!*

*I can't believe I'm getting off while sucking on his cock!"*

Meanwhile Junior's heaving teen rod continued to unload his genetic material down Facials' gurgling mouth moving up and down again in a gross fury. Her blonde-pony tail jerked like a whip as the mom locked herself into swallowing her son's heaving load by taking him by the hips and pulling him close with her wrapping arms to force her teen's cock and part of his sac in her mouth. His genetic matter came as Junior shivered in his chair with his hot mom holding his crotch tightly against her face as her nose breathed hot airs into his taint and hairy base while his load shot down his mom's gagging thin-lipped mouth and sucking face.

Meanwhile, downstairs in the house the rest of the family stirred.

"Diamond! Honey!" Hollered the man of the house from below, "We're starting the movie! Get Junior and get down here!"

"Come on mom, suck it out of me!" Said Junior hotly as he felt nervous suddenly, "You know B.J. will be here any second!"

BANG BANG BANG!!!

"Hey, quit beating off in there and come downstairs bro."  
Said B.J. from beyond the door with her hand jiggling the knob,  
"I know why your door is locked. I'm going to tell mom if you  
don't stop watching porn on your computer and get out."

Meanwhile the wide eyed mom maintained her parental eye  
contact as she lifted her chin off her son's emptied balls to  
glide his shaft up through her white gullet until the edge of  
his tip met the lips of her mouth. She scrubbed her tongue  
against her son's piss-hole while his hot-white load flowed.  
She flicked her sword-tipped tongue against the crease between  
her teen's bell and shaft before swirling it around with rim  
jobbing tongue motions. Junior squirmed beneath as his seed  
continued to flow, hot rivulets of his sperm were being  
swallowed into Diamond's mouth as her motherly eyes met his  
while he panicked against B.J. banging on his door while his  
spunk flowed out in hot jets of approval and teen release.

"Yummy, honey pie," purred the hot mom with her lips  
smacking against Junior's knob, "tastes like teen semen if you  
ask me."

"Be quiet mom!" Hissed Junior, "She'll hear you!"

KNOCK KNOCK KNOCK!!!

"Is mom in there with you?" She shouted beyond the locked door, "Mom! Junior is soiling his bedsheets again!"

Diamond didn't respond as she quietly slurped at the remainder of her boy's heaving cock with his genetic matter crusting over her lips and chin. A pool of it sat in her mouth as she smiled lewdly with it drenching over her flicking tongue and teeth. She breathed through nose when she giggled to keep her boy's teen spunk from drifting into her nasal passages. With her wide mouth open in the shape of an 'O' the mom used her small hands to grasp at her boy's choking wood with her thumbs pressing against the underside of his tip to coax out his last drops into her mouth. Her gullet took all of it expertly as the lucky teen looked back and nodded in gratification before leaning back in his chair in excited relief.

"Mom isn't here!" Junior shouted through the safety of his locked door. "Give me a minute, I'll be down."

"Quit beating off in there! I'm telling mom your watching porn later! I know what you're doing in there, don't lie, it uses up the internet!"

The teen yawned in disinterest while safe in his room with

his mom's quiet blonde head pecking her lips against his cock with her wide eyes looking back like a succubus with her cum-covered lips going up and down over him with tender kisses. They sounded soft in Junior's ears as he listened through the door. B.J. and him always argued. He was disinterested in his sibling. Junior was more in love with his mom than anyone else in the world as she suckled on his boner like a nursing babe. She kept pumping his cock to coax out his white drops into her mouth. A pile of white teen semen could be seen in the mother's pouted thin lips. Diamond smiled and continued displaying her handiwork while deciding if she would spit or swallow her teen's hot load. She pointed to a nearby rubbish basket and gestured. Junior grabbed it along with a box of tissues and handed them over.

"Bleugh!" Diamond gagged out with a heaping amount of saliva and teen spunk pouring out of her mouth into her hands, "Hand mommy a napkin sweet-pea. Your sister will leave in a second."

Junior heard socks running down the family hallway as his dimpled smiling mom wiped her mouth and spit out the rest of his load into her tissue. The lucky teen gripped the bottom of his shaft and jerked himself in the hotness of the domestic sight. It looked like a melted pearl in Diamond's hand as she tilted

her palm until it poured out like battered egg-whites into the waste basket. It fell over a heap of used tissues and disappeared like hot butter over pancakes. She then wiped a tissue on her hand to clean up her son's mess before adding it to the heap of used up white tissues.

"Hopefully this will be the last time you get so backed up while your sister is visiting because mommy sure sucked a lot of cum out of you just now kiddo." She cooed to her child before standing up and closing her bathrobe, "Feel better after getting your balls drained by my mouth buster?"

"I kind of wish you swallowed my load mom." Complained Junior before regretting his words, "I mean, I'm happy you still blew me, thank you because I don't want you to think I'm complaining. I just want you to know what I like you doing to me mom, that's all."

"Mommy can't swallow your baby-batter in her mouth when your sister and dad are home sweet-pea. You know how swishing your stuff in my mouth makes my teeth all gummy and gross looking. They would know something is wrong."

"Why do you have to swish my load?" Asked Junior while looking up at his towering Amazonian sized mom, "Just swallow it

and you're teeth won't look cruddy."

"Young man," scolded Diamond with a wagging finger as she tied her sash to cinch her robe before turning her big ass around, "Swishing is what makes swallowing worth doing. Now get cleaned up and be downstairs in a minute buster. Don't bother changing either."

Junior just nodded his head as he saw his hot mom approach his door and unlock the knob. She left before turning back around to peak her motherly bun around the door to chirp a bit of parental wisdom. She spoke with her finger pointing.

"Mommy might give you a handy during the family movie if you don't get in a fight with your sister tonight in the den so don't misbehave later or else mister. Mommy has a plan so don't you worry about us getting caught by your dad or sister, okay?"

She left before her re-hardening teen could reply.

Junior was stunned as he turned off the lights in his room before making sure there were no dirty tissues on the floor. Mom may have been putting on a brave face with B.J. in the house but the teen knew his visiting college sister well enough that she would take any chance to snoop around his room for evidence

of behavior she could tattle on. The last thing he wanted was for B.J. to discover his cum-covered tissue rags on the floor and bed so he grabbed at everything and threw them away. When he went to leave his room and turn off his lights he looked to his waste basket and noted how it looked full of white rubbish. If she were going to snoop and shame him for wasting tissue papers she would first have to go wrist deep in his waste basket of used cum rags which he doubted his elder sister would go through the trouble of collecting before finally leaving his room.

\*\*\*

Downstairs in the family den Junior could hear his dad and sister talking. He found his mom sitting alone on one of the two couches in the room when he entered in the same clothes in the hopes that his mom was telling the truth in giving him a handjob as she promised if he did not fight with his sister. His cock and balls bounced in his sweat pants as Junior caught his mom looking up from her spot on the couch while dressed in her fluffy pink bath robe and modest white cotton underwear beneath. He would always grow harder in his loins whenever he saw his busty mom dressed in her signature fluffy pink bath robe. As he walked through the family den to find a place to sit he could make out the shape of his mom's meaty looking

cameltoe as she pretended to be too distracted with knitting a project blanket. Normally Junior wouldn't be so cautious about stealing a look of his mom's naughty bits but B.J. was home and who knew how long she would remain distracted with her conversation with the man of the house.

"Princess, you should really consider transferring to the community college nearby." Pleaded Dick, the breadwinner of the family, "It would make me so happy."

"I told you daddy. I like my college. You should visit me if you want to spend more time with me you know." B.J. responded in her princess tone. "Don't you want your daughter to be happy daddy?"

Who knows the real reason why B.J. chose that particular weekend of all weekends to finally visit home from college. She studied over eight hours away by car and had decided to visit home after a spontaneous episode of being home sick it seemed. It had been a long time since the core group of the nuclear family had been gathered together under the same roof. Meanwhile it seemed a planned family night movie was about to happen and Junior had missed the opportunity to vote on the movie. An action flick about some guy wielding a ton of guns and explosives was about to play. Meanwhile Junior was still

deciding on where to sit in the room with the obvious preferred choice of sitting next to his handjob promising mother but he wondered how he would sit there so they could practice their incest in secret without drawing suspicion from the rest of the nearby family.

"I'm chilly honey," cooed Diamond to her boy as if reading her teenager's mind, "can you please get mommy a blanket from the linen closet."

"Darling!" Pleaded the dad during the movie trailers, "How many times can I ask you to stop referring to yourself as 'mommy' around our boy. You embarrass him with your baby talk. You already wear that pink bathrobe all the time which embarrasses me."

"Nonsense papa bear." Responded Diamond in her soothing mom tone as Junior left the room, "Our boy knows I'm only playing. He's not embarrassed by his mommy."

Junior took a nanosecond to fish out the largest blanket he could find from the linen closet before returning to the family den. The room was dark in the theater setting when he handed his mom the blanket she requested. Meanwhile there was no where else to sit in the family den. Dick and B.J. were lounging

together innocently on one sofa while Diamond's body lounged horizontally over the other long couch.

"Where should I sit?" Asked Junior dumbly.

"Sit on the floor you homo." Chirped B.J. in an annoyed tone, "Quiet, the movie is starting.

Junior felt his face flush with anger from his sister's remark but decided to keep his cool if he wanted to get the handjob his mom promised.

"Come here kiddo." Diamond cooed to her child with her hand patting the space in front of her reclined body, "There's enough space on this couch for two if you're not shy about snuggling up next to your momma."

Meanwhile the hot mom was reclined on the long sofa with the blanket covering her body opened up by her extended hand to make space for her child to lay in front of her body. Her legally aged teenager stood there dumbly at first for a moment while unsure if it was really about to be this easy to hookup with his mom in the den while the rest of the family was so near. Her pink bathrobe was cinched closed but the teen knew how easy it would be to open within the privacy of the large

blanket he brought. Beneath Diamond's signature pink bathrobe was all the doughy tit flesh and matronly pussy he craved as he felt his heart begin to hammer in his chest while blood began pooling in his ears and face.

"Are you sure it's okay if I sit next to you mom?" Junior asked through his reddening in arousal.

"Sure, sugar bear. Why not? I'm still your mother after all." Diamond cooed with her hand still tapping the spot she had prepared next to her, "Come take a load off next to your mommy young man. There's no room for you on the other couch anyways."

"Shut up and take a seat!" B.J. chirped loudly to the room in annoyance, "The trailers are on!"

"Son, please just take a seat." Spoke the man of the house, "It won't kill you to share a couch with your mom over there. Just do as she says. Now hush everyone! The movie is about to play soon!"

Junior's teenage heart was hammering in his chest as he looked to the empty place prepared for him in front of his mom. She laid lengthwise along the wide couch with the large blanket

he brought still draped up by her supporting arm as her other hand continued to pat a place for her son to lay. The lucky teen saw his mom looking at him with come hither eyes as he nervously bounced his attention between his dad and sister to make sure they did not notice how red his face was becoming in anticipation of their family movie about to start. Earlier in his bedroom the busty mom of the house had promised to give her hung teen a handjob during the family movie if he did not get in an argument with his elder sister and so far he had held his end of the bargain despite her rudeness.

"Come lie down sugar bear, don't mind your sister." Cooed the mom luridly to her child still standing in the dark family den, "Mommy won't bite your head off but I might..."

In the dark looking family den only Junior noticed his hot mom stroking off her manicured hand in the air to demonstrate what she would do to her child in a moment if given the chance. She licked her lips and made kissing faces in silence at her child while the rest of the family became captured by the explosive movie intro playing on the wall mounted television. Junior knew all about his mom's naughty charms as she displayed her jacking-off hand in the cavity of space she had ready for her teen to lay. He knew after he laid the odds of his Amazonian sized mom fishing for his cock within his sweatpants

to stroke his white guts out while the family movie played was over a hundred percent. He knew his mom too well by that point as she continued to look at him with her tongue poking out and lusty eyes looking up.

Junior's young heart was racing in his chest with his teen prick already hardening in his sweatpants when he finally laid next to his mom in the family den. Once he were leaning back into his mom's doughy body on the couch he felt a gust of air as she threw the blanket he fetched earlier over them. He felt cozy in the cocoon of motherly warmth that his hot mom had made while her soft body pressed into his back as he reclined further back into his mom's soft bosom to get more comfortable.

Meanwhile Diamond wasted little time in wrapping her parental arms around her teenager's waist to pull him close so that she were spooning him tightly in the privacy of their shared blanket in the darkened family den. Rather than fishing his manhood out immediately however the controlling mother wrapped her arms around her boy's waist before probing her fingers against the outline of her teen's erection as the cinematic movie played.

"So how was your first semester at college angel?" Spoke the man of the house to his daughter as the screen blackened after the opening scene.

It was so dark Junior could barely see the rest of the family in the room. His dad and elder sister were out of his vision unless he craned his neck to see their direction as he lay comfortably next to his mom's warm Amazonian body beneath their shared blanket in the den. When Junior felt a hand glide across his inner thighs he almost jumped out of his skin. No one but them noticed the slow moving motion taking place over Junior's thighs and lap as he laid and enjoyed the feeling of his mom's small hands stroking him fondly with her hands bulging against their shared blanket in the family den. Diamond's motherly hands deftly reached for her boy's inner thigh until her fingers started stroking his erection through his sweatpants.

"You think you can make your mama's warm hands extra sticky white tonight young man?" Diamond cooed into her child's ear as she glided her palms over his bulbous tip tenting in his sweatpants, "Maybe during tonight's action movie I can hammer my fists over your man-sized boner to milk your cum out quickly. Wouldn't that be fun sweetie? Don't you want to get wrung out by mommy's hands without anyone finding out?"

She pressed his tip down to slap his manhood against her teen's inner thighs and cooed sweet loving encouragements into her child's ear as he got comfortable leaning back into her

bosom with her motherly arms wrapped around him so. With one hand anchoring his base and balls the other stroked the outline of a teenage erection through cotton sweatpants the mother bought for her teen especially for their incest. Tonight would be the first time she would attempt to milk out her boy's seed while the daughter of the family was home but the hot mother thought with her husband distracting her on the other couch she could easily get away with feeling her teenager's big boner throb in her hands until his hot semen flowed out to ruin their shared blanket.

Meanwhile her teen boy began to squirm beneath her motherly strokes as Diamond dug her lava-like tongue into her child's ear canal to probe his other erogenous zones. She wormed her tongue as deep as she could poke her tongue and wriggled it around until Junior whimpered audibly beneath her probing and preparatory strokes over her teenager's covered package. The hotter than life mother loved how hung and large her teenager had grown in his size 'down there' since he was a babe. His once peanut sized member had morphed into a nine-inch pussy poker with the girth of a D-cell battery powered flashlight. She hugged her boy tightly into her bosom and smothered her child's whimpering into her doughy bosom as she held his cock head down against his thigh with one motherly hand while using the other to stroke her finger-tips up and down her boy's length

slowly as the movie in the family den played.

"I've seen this movie before sugar bear." Diamond hissed into her boy's ear, "Mama bear knows you want to be whipped out and stroked out right now but we don't want the rest of the family knowing I'm beating your meat in the living room so we have to wait until the action starts before I start loudly stroking you with mommy's patent-pending twirling double-fist combo young man."

The mom's hot breath poured into her child's ear as she held him tightly in her mama-bear hug while worming her tongue deeply into his tasty ear canal as she felt his huge size growing and throbbing beneath her un-motherly preparatory strokes. Meanwhile Junior quickly surrendered to his posing mom's ear-probing tongue as he reached down to hook his thumbs in his sweatpants to pull them down. Before he could unhook the elastic band of his sweatpants to free his erection however Diamond halted her child's actions by grabbing his hands. With her manicured fingers gripping his hands she stopped her stroking to hold her boy's hands down and stop them.

"Not yet sugar bear." She hissed quietly into his ear, "Momma's not hearing gunfire yet which means I can't stroke your knob with your mommy's warm hands too loudly and that wouldn't

be fun, would it?"

Meanwhile Junior was far too distracted by his mom's words and promises to care about the gun play dialogue being played on screen. He felt his hands being moved to his belly by his mom's hands before feeling her motherly hands touch his teenage erection once again through his sweatpants. His length throbbed beneath her pressing finger tips as she pinched and poked his meat with her trailing finger tips and grazing finger nails. Junior wished he could just turn around and mash his face in his mother's doughy boobs before piercing his dick through her cunt over and over again until his gooey white guts shot out into the purple place of his conception but he was trapped where he laid.

"I wish we could stick this poker in a real hole right now honey." Coed Diamond in her mellifluous motherly tone in between poking her tongue into her boy's ear canal once again to make him squirm and to taste his bitter flavors, "This is the best mommy can do with your dad and sister sitting so close to us though, good thing we got this blanket to cover up our skinship on the couch. Good job buster, this blanket is going to be perfect for giving my baby's man-sized dick a good and long wank tonight."

As movie dialogue played there was audible chatter from the

father and daughter of the family. They were mumbling nearby and it was hard to hear what they were saying in between the growing movie action and the distracting sensation of Diamond digging her claws into her boy's loins like a cougar in heat. It seemed like they were arguing until suddenly there was a loud fake sounding cough in the room followed by the deft noise of a zipper being ripped open. In the dark no one could hear B.J. say, "Time to blow..." Diamond and Junior were far too distracted with their own personal entertainment to notice what was happening so close to them but the tension in the room felt palpable as both parties each thought they were the only one doing naughty and forbidden things in the family den.

There was the burly moan of the father of the family groaning before leaning his head back on the couch to knock his head against the wall of the family den. The noise echoed with the movie dialogue as the unmistakable sound of something being slurped on filled the den as Junior nor Diamond cared because they couldn't distinguish the wet noise from the water scenes playing on the wall-mounted television. The daughter of the family was nicknamed 'B.J.' by the family for a reason as she sought to show her favorite man in the world just how much she missed performing fellatio on his fatherly cock with her secret head. Father and daughter both thought the other two were lying innocently nearby as well while the wet action noise on screen

concealed the liquid sounding stealthy blowjob B.J. kept giving her obliging dad like a casting pornstar actress performing at home.

Meanwhile Diamond and Junior remained oblivious to the naughty action happening on the other couch in the family den as a certain busty mother began to stroke out her child's hardened erection freed from his sweatpants with her small motherly hands going back and forth across him like a dick stroking machine. The action sounds of the movie playing muffled the noise of Diamond's hammering and twirling fists going back and forth across her boy's boner as his body cringed against her bosom while she held him tightly with her wrapping arms as they laid on the couch together with their big shared blanket ballooning in front of Junior's erection with each pump she made. It was absurd to see for the skinship practicing pair looking down to the real action happening on their couch in the family den at night. His tip tented against the blanket with each downward stroke the mom made before her pumping fists punched against the blanket again in fast sideways hammer strokes with the lucky teen wrapped by his Amazonian mom's arms.

Beneath the hotter growing blanket from their fiction Diamond peeled her child's foreskin back and forth across like an extra sleeve. His hardness was rubbery at first but under

the nymphomaniac mother's guidance he hardened to diamond hardness quickly. Meanwhile the couch began to shake as the teenager shivered from the pleasurable sensation of being trapped in his mom's hugging embrace with his white mom's penis-pleasing hands groping him vigorously as the movie played with the noise of action scenes muffling the soft sounds of their incest.

"Don't think about anything else other than mommy's special hugging arms milking your baby-batter out right now mister." The hotter than life mom spoke in her boy's ear as she cooed other naughty parental encouragements while stroking her palms against her teen's erection.

The mother of the family was hissing hotly into her child's ear in a whisper as she continued to grip and stroke her palms and fingers into her son's throbbing manhood gripped betwixt her interlaced thumbs and fingers hammering back and forth over the lucky teenager's hot prick in sync with the movie action. She took a second trip down the waistband of her kid's sweatpants before returning her grip to stroke out her child's genetic guts. Diamond hugged her boy close when she felt his smoother than velvet erection throb and bulge beneath her strokes because it meant he was close to relieving himself soon. As the hotter than life mother continued to milk her child's concealed boner

beneath their blanket in the family den she would worm her tongue into her boy's ear to provoke a squirming response when it was time for his liquid release to shoot out in an ejaculation from her stroking motherly guidance.

"I'm happy you kept these sweat pants on honey." Growled Diamond in her son's ear as her husband and daughter were distracted, "Mommy is going to have such an easy time giving you a good handjob in these."

"That sounds awesome mom." Groaned Junior as he relaxed into feeling his mom's small hands stroke his engorged erection freed from his sweatpants in the family den, "I hope this movie is a long one tonight."

"Me too sugar bear." Cooed the mom into her child's ear as they laid together on the couch, "Good thing you got the biggest blanket we own because mommy plans on pulling out lots of sticky cum from your man-sized dick tonight young man." She cooed before worming her tongue back into her boy's ear to make him squirm briefly, "I hope you're ready for mama bear to milk your white cock juice out with her paws buster. Now get ready!"

Junior felt like he was being spooned on the couch as his mom wrapped her arms around him with her hands beginning to beat

against his crotch once more during a car chase scene. The roar of engines and gunfire was perfect noise to conceal the fresh sounding hammer strokes Diamond made into her child's throbbing erection with his smooth hardness bulging and growing harder beneath her death-grip strokes. She could feel Junior trembling in her bosom as his body tensed into a fetal position with Diamond's motherly grip and strokes relentlessly working over her teen boy's erection like a merciless milking maiden.

"Just pretend that's momma's warm pussy stroking you out sonny." Purred Diamond into her shivering child's ear, "Just pretend this is mommy's warm pussy gripping against your big-boy cock right now. Mommy's hands can still stroke you until your guts shoot out even if its not my pussy."

Diamond hissed in her son's ears as her tight fists continued to hammer back and forth over him on the couch. Junior tried to imagine it was his mom's warm and squishy motherly mound going back and forth over him but it was too hard and absurd to imagine with the dry grip of his mom's tight fists working him over like she was stuffing a big sausage or trying to milk a stubborn cow udder. Her breathing grew heavy. With his sensitive teen tip grazing against the blanket Junior felt his tip being covered by his mom's waiting palm with every upstroke. Her strokes collected his pre-ejaculate to form lube

in her grip as her dry strokes became slightly slicker and grosser sounding as she squeezed with the love only a nymphomaniac mother could give to her consenting teen of age.

"Is my big baby ready to blow soon." She hissed hotly, "Momma's gonna stroke your white guts out tonight mister."

If anyone else had been standing in the room or if there had been a camera recording somewhere someone would have seen an immaculate Amazonian stay at home mom looking downward with her nose plunged in her teen's thick hair on his head as she stroked him furiously beneath a blanket. The large blanket tented beneath Junior's pointing boner going outward as they laid side to side. The material draped over their shoulders as Junior shivered while looking down to see his mom's hammer-stroking fists beating against the fabric, going in and out like a piston action machine or a boxer's glove punching out against the dark comforter. The action was mostly silent amid the movie action noise but the sensation was far from being ignorable. The luckiest teen in history began to feel his sac tingle as he tapped his mom's hands to signal his load about to heave.

"You can relax now baby," the mom whispered lowly, "let mommy's soft hands stroke your sticky jism out so we don't ruin your sweat pants tonight. Don't worry about the blanket. I can

always wash out your cum stains later kiddo but we only have one movie."

It seemed absurd but so hot to the lucky stay at home teen as he felt his quivering body being hugged tightly into his busty mom's bosom, her breasts felt doughy-soft against the back of his head as he felt helplessly trapped in his parent's embrace. As the movie played on-screen the nymphomaniac mom hammered her fists back and forth across her son with loud strident slapping strokes while cinematic explosions muffled their incest. She thrust her teen's long boner through her gripping fists as she furiously worked him over beneath the blanket to draw his precious spunk out before the loud action scene ended. With the clock ticking Junior and Diamond were pretending to watch the movie as the ninja-jerking mother thundered her fists back and forth across her son's meaty cock under the blanket with steady strokes. When Junior looked at his lap in the strobing light of room he saw fast strokes happening over him beneath their shared blanket as his mom pumped him beneath the covers. If anyone had turned on the lights at that moment they would have seen Diamond's hands going berserk over her boy's lap in her effort to coax out his white guts with a fury.

SMACK SMACK SMACK!

FBI OPEN UP!

"Come to momma!" Diamond hissed in her boy's ear as she stroked him through her swift fists beneath the family blanket. "Come on my big-dicked baby, its time for you to blow your white guts out for momma before the family movie ends."

If the sounds of loud gunfire and movie explosions didn't rock the family den in cinematic noise at that moment anyone else in the room, especially the man of the house or the daughter of the family, would have been able to hear Diamond giving her teen's stiff erection a good and long double-fisted handjob in the dark and concealing family den in the otherwise normal suburban house. The mom's fists glided back and forth across her teen with the palms of her hands swiping over her child's bulbous leaking tip to collect his wet arousal seeping from his cock to serve as lubricant. Their dry fapping noise became wetter. However only mother and son could distinguish their fapping noises from the cinematic audio being played in the room. Their lewd act beneath their blanket was muffled in the liquid action on screen of a submarine diving in an emergency. The other members of the family seemed quiet and caught up in the movie as Diamond wormed her tongue in her child's ear as she continued to stroke him with her dick-milking

hammer-fists as she cooed naughty things into her boy's ear to encourage his orgasm, things like: 'Doncha worry about ruining the blanket with your baby batter kiddo. Mommy can always wash out your cum stains later but she may never be able to stroke you out like this again sweetie.'

It seemed like the lucky teen was living in an absurd kind of porno heaven as he shivered in his spot nuzzled against his busty mom's body with his loins aching to boil for release. His genetic matter felt sore in his sac and urged to flow out of his cock in a strong ejaculation beneath his mom's motherly guiding strokes as he felt squeezed around his waists, shoulders, and cock in a mama-bear hug. Meanwhile it seemed the other family members nearby had no idea that Diamond's hot un-motherly guidance was concealed by the sounds of explosions and things being broken on screen during a typical family movie night where a certain mother and son practiced open incest in secret.

"I love how my baby gets rock hard for his mommy." Hissed Diamond softly into her boy's ear with his engorged member throbbing ever harder from her twirling fists, "I think someone is about to shoot lots of nut-butter in a second. Don't worry, mommy's gonna wring this one out on the house."

THAT MOTHER FUCKER!

As scripted dialogue happened Diamond continued to pump her hands to stroke her child's pointed cock through her grip with deft and silent motions. Meanwhile it felt like Junior's teenage boner kept throbbing ever harder as she continued to milk her boy's boner with her motherly hands. The movie scene with all the concealing noise was ending however and the mother was getting concerned her boy's seed would not flow in time for their incest to be concealed by the action-packed movie moment about to end. She would have to up the pleasure over her son's boner if she wanted to milk his seed out in time she realized. She tapped her boy's groin after releasing him. Junior stopped his squirming and turned to face his mom looking down on him on the sofa. She motioned for him to sit up.

"Sit up for mommy baby." Whispered the mellifluous motherly voice of Diamond, "Mommy needs to suck your sperm out if we want to get done before this part of the movie ends."

Junior sat up and faced away from his dad and sister. Diamond adjusted her body on the sofa and quickly adjusted her pink bathrobe before moving her lips towards her boy's pointed boner in the dark. Within the blanket the mom's head was covered when she plunged her teenager's strong erection through her mouth with a grand entrance down her throat. When his tip

hit the back of her mouth she stifled a gag before forcing her son's cock to curve down her wet motherly throat like a sexy magic trick. She scrubbed his glans with her tongue and flicked the pink top part of her tongue against her son when she bottomed. She came back up and twirled her tongue around like a tornado around the teenage bell of her son's massive cock before plunging again to repeat again and again quickly like a cock sucking enchantress.

Diamond pulled the blanket completely over her head to cover the wet noises she made. She suckled her boy's long boner like a babe on its mother's nipple and ached to void him. She spread her teenager's legs to angle her mommy-milking mouth lower. She accepted him totally down her white gullet with enough room to squeeze the skin of her son's sac partly between her thin lips. She sucked air through her teeth and squeezed her tongue and cheeks tightly in her mouth to make cum-sucking pressure possible in the white suburban mom's coyly sucking mouth. Her lower mound felt on fire so Diamond rubbed her bulging clitoral bulb through her panties with her hand. Eventually the mother felt it, the first liquid pang of her teen ejaculating his pungent white seed upwards into her mouth as his lap jolted and squirmed beneath her dick-sucking assault.

In the furious moment Junior's vision narrowed as he voided

his loins into his hot mom's sucking mouth beneath the blanket. There was loud gunfire and explosions on the television but only they could hear the loud slurping noises Diamond made as she gulped her boy's throbbing boner down her gullet with practiced ease. Junior couldn't see his mom's face or lips and only felt her big head quivering like a leaf above his lap as she took his long twitching cock to the hilt through her motherly mouth to swallow his thick cords of teen semen. Junior shook in his seat and nearly blacked out from the feeling of being drained by his hot mom's expert technique and constant tongue scrubbing as she swallowed his load.

Through the hallucination of his orgasm he thought he witnessed something lewd suddenly. B.J's black goth head suddenly rose up from Dad's lap on the couch. Her thin lips were sucked in with her eyes narrowing as if her mouth had just accepted something sour. She tried to force a smile while beaming at the man of the house with his head leaned back on the couch to knock against the wall behind him. Junior couldn't see his face but he could see his elder sister's in the dark TV light of the family den for a moment to witness seconds of their activity as his genetic matter continued to tumble forward into his mom's nursing mouth going over him with intense motherly effort to milk out his orgasm completely.

B.J. swished her mouth in the dark. Faintly, Junior could hear the sounds of fluids being mixed in a toothy mouth. His pale thin sister's cheeks puffed out widely to allow more air into her mouth for a more dramatic swishing sound akin to using mouthwash. She blew white bubbles to loose the air and slurped in the mess made over her mouth quickly before swishing loudly again. Who knew how actually loud the wet-sounding noise actually was for the father daughter pair enjoying their time together on the couch during a family movie. It lasted seconds through Junior's orgasm until the bright light from the movie shifted and the room plunged back into darkness once again. Did Junior's bratty sis perform swallowing-fellatio on the man of the house? He would forget what he saw in his orgasmic afterglow.

"My baby's teen spunk tastes so delicious." Whispered Mom's head beneath the electric blanket as she smacked her lips and slurped her boy's remaining mess under their shared cover. "Safe to come out?"

"It's safe mom." Junior sighed out loud heavily, the room was pitch black once again with only the light on the television visible.

B.J. hissed at the pair to be quiet with a 'psst' as

Diamond removed herself from her lap as quietly as she could. The sounds of action had concealed the wet unsheathing sound of releasing her teen's cock from her throat after swallowing his semen like a pro cock ninja. There was a little bridge of saliva connecting the mom's thin lips to her boy's rubbery tip but she quickly wiped it away with her hand and an ill-timed slurp. Nobody seemed to notice during the movie and the noise was ignored as if someone had sneezed or coughed. After Diamond were done wiping her chin she sat up and leaned back into her son's shoulder while folding the blanket back over their laps. Meanwhile Junior was too stupefied in his orgasmic afterglow to care about his wet feeling cock softening beneath the blanket.

"How much longer is the movie?" Asked B.J. to the rest of the room.

"It's still has another hour left." Answered Diamond.

"This movie is too long." B.J. complained, "I think I want to go to sleep."

"If you're sleepy princess maybe you'd like to sleep upstairs." Said the man of the house.

"I would sleep upstairs if you didn't turn my bedroom into

an office daddy."

"I told you there's a guest bedroom downstairs now pumpkin. You can have lots of privacy there versus having your old bedroom. Now you can make as much noise as you want."

Junior thought what his dad said sounded strange but paid no particular attention to it. He was too caught up in the feeling of his sensitive tip grazing against the underside of the blanket as Diamond adjusted it over them. His member was softened but still standing at half-mast in potent teen arousal despite his loins being emptied just a moment ago. After a moment it seemed like Diamond noticed as the mother moved her hands down to inspect her teen's manhood mildly tenting beneath their shared blanket. His heat was cooler and his hardness was more rubbery than hard. In a few minutes he would be reloaded as she grinned. The mother plotted to take her teen's boner through her muff near the rest of the family.

Thirty more minutes of movie plot played before an uptick in explosions and gunfire signaled the voluptuous pink-robed mother to make her move and direct her son to lay again.

"It's getting cold." The smirking mom complained in the dark room, "Why don't you come snuggle up against mommy once

again sugar bear."

Junior did as he was told and slithered back down beneath the blanket with his hotter than life mom with the back of his head nuzzled into her bosom once again. He rested a second before he felt tapping on his shoulder. He looked up into his mom's gorgeous white face with her green country eyes shimmering in the movie light as she looked down on him. She motioned for him to turn over silently. She grabbed her teen's hips and directed him to spin beneath the blanket as she pulled at the waistband of his sweatpants to place the hooped elastic below her lucky son's buttocks and balls. She lifted the blanket with her arm to make a pocket of air for her teen's meaty rod to swing through as he turned around.

"Scooch back some sugar bear." The hot feeling mom instructed on the couch as she laid with her teenager's throbbing boner lying flattened along her belly with his bell bulging and throbbing hotly against her cooler skin.

"You gotta make some space for mommy to move your pecker out kiddo." The hot mom cooed in her hot voice as she used a finger to unhook the seat of her cotton white panties from her mound, "We can't get you snuggled if you won't stop pressing your dong into my belly buster, if you wanna fuck your mommy in

her squishy wet pussy you need to move back a little before you can sink--"

Junior wasted no time in obeying his mother's calm commands beneath their shared blanket before extracting his hips until nine or so inches of clearance were between his erect waist and his mom's lower waiting lips. In the dim light of the bright cinematic feature happening behind him he thrust his way forward to lance his teen prick against soft pussy curtains which quickly parted as he surged. He grunted deeply within his chest as he stifled a groan from leaving his throat as he planted himself as fully as he could go into his mom's purple cunt on the couch. When he touched her bottom depths with his teen prick his whole body shivered and electricity shot through his loins while the hotter than life mother had to stifle her own moaning into the thick hair of her child's head as the teen buried his face between his mom's voluptuous breasts before pumping his excited hips quickly with an uninterrupted passion.

"Now that's how you're supposed to reach for your mommy's squishy tootsie roll center sweetie." Grunted the white mom in response, "Get dat pussy young man! Mommy will let you know when the action scenes are about to end so you better use this opportunity to get your nut while you can!"

Junior didn't need anymore encouragement from his willing and hot nymphomaniac mother as his biology urged him to keep plundering his mom's purple tubes with his massive teen prick. With her motherly thighs closed as they laid her lower lips felt more cloying than ever as the teen pumped his thick erection in and out of the wet matronly gap between his mom's thick ivory legs. The mother had her arms wrapped around her child's body with her manicured finger nails grabbing at her boy's ass meat to force him to drive ever harder into her cunt in encouragement of their incest as Diamond stifled her moaning face into her boy's head smothered in her boobs. Her tight motherly walls yielded to her boy's plunging cock.

*"Oh god it feels so good to be back inside my mom's warm pussy!"* The teenager thought to himself as he sought his mom's dark depths with long sideways strokes, *"I'm going to bust a nut for sure if she keeps closing her knees like that! She's never been this tight before in her pussy! Mommy's warm pussy is the best! I love my mommy's all access pussy pass at home!"*

"That's it baby, get dat mommy pussy." Diamond cooed into her boy's thick hair below her chin, "Keep fucking up mommy's pussy and remember our rule about pulling out."

"I know mom." Grunted the teenager to his mom with his

face deeply buried between his mom's cool torpedo breasts with his nine-inch monster cock plowing through his mom's cunt.

"So are you going to pull out?"

"Of course not, mom."

"That's mommy's good boy." Cooed Diamond with her knees and thighs pressed tightly together to offer as much friction as possible to her teen's probing cock reaching through her dark vaginal chamber to reach far above her belly-button until he pressed against her cervical depths with his gorgeous pink tip before going back out again. "I can tell someone is getting real horny about fucking their mommy's cooter next to his dad and sister in the room. I had no idea mommy's little boy was such a pervert until now."

Junior's teen glans scored against his mom's hallowed vaginal halls as each mewled and whimpered into the other's body and hair. Junior dug his head forward into the cleavage of his mom's big breasts as he beat his hips back and forth to hammer his cock as far as he could reach through his mom's clutching wet baby-making womb. With each furious sideways stroke he made through his mom's pleasurable pussy the teen felt like blowing his load. If not for the loud movie action sounds

happening around them the wet sounding smacks of flesh the teen made each time he plunged his cock through his mom's cunt would have sounded too lewd to ignore. Meanwhile he felt himself being wrapped by Diamond's motherly arms as he thundered his cock back and forth into his lying mom. With one motherly arm clutching his head and a leg wrapped around him he pumped until his breath grew heavy and his body shuddered in orgasmic white release all of a sudden as he continued plunging himself back and forth in a passionate release.

"That's mommy's good boy." Diamond cooed hotly into her boy's crown, "Fuck up mommy's pussy like a good boy should! Fill dat pussy up with your thick baby batter mister or else!"

Junior grunted heavily when his first thick rope of teen spunk ejected from his piss-hole. It shot out like a cord and struck against his mom's uterine lining as he plunged and re-plunged himself to the hilt with this mom's wrapping arms and legs drawing him close to force his teenage wad to shoot as far as it could reach through the mom's clutching purple womb. Diamond mewled in ecstasy as her vaginal walls cloyed and twitched against her boy's throbbing boner in the sensation of his orgasm flowing and painting her pink lining white as snow. Her vaginal sleeve was rippled soft by her teenager's pumping strokes just a second ago and now as he sank his meat and

sneezed his seed his throbbing member poked her nerves in just the right way to stir a deep climax within her motherly mound. The mother had to cover her mouth to stifle from moaning as her inner muscles contracted and fought against her teenager's throbbing boner as she welcomed his precious and warm teen spunk into her dark and enchanting womb.

*"It feels so fucking good to shoot my stuff inside a real pussy. Why didn't I let my mom blow me when I was a kid instead of freaking out and getting out of the bath like I did all those years ago?! I could have been pounding pussy when I was thirteen instead of beating off like a dweeb!"*

Diamond mewled a low noise into her son's hair to stifle the noise of her orgasm from escaping her lungs too loudly in the family den. It felt too good to have her long teenager's erection probing through her hot middle and the feeling of them climaxing together was exquisite. The mother wished she could witness the pubescent teen load being pumped into her cunt at that moment but knew she would have to save the sight for later. Meanwhile all nine-meaty inches of a lucky son's teen cock probed through Diamond's tight matronly breeding chamber to plant a sticky white seed of incest right against the clutching mother's cervix. The teen's bulb pulsed with release as his cords shot his genetic matter inside the mother's uterine tubes

with sticky ease. Loads of semen tumbled inside the mother's squishy pussy when the heavy-breathing teen shot his last white rope.

"Feel better now that you shot a fresh load inside mommy's warm family friendly pussy?" Whispered Diamond hotly into her child's ear on the couch as the movie finished, "You came just in time buster. If you took any longer to shoot your wad inside mommy's pink cooter I'm sure daddy and your sister would have heard us bumping our ugly bits together just now until your guts shot out."

Junior sat relieved in his loins and gathered in his breath. His face was still smothered in between his mom's massive Amazonian breasts when he leaned back with his middle still pressing forward with his teenage cock reaching forward deep inside his mom's immaculate pussy. He could see white and clear fluids surrounding their hairs with his softened pink cock still piercing through Diamond's vaginal pink folds with her labial garters wrapped around him like a lewd pink mouth. The thin lipped mom smiled inwardly and stroked at her boy's hair as she felt him soften inside her purple womb as the movie credits rolled.

"Now pretend to be asleep sugar bear." She whispered in a

serious tone as the family den lights turned on suddenly, "Now is not safe to pull out. The movie just ended. Just pretend you're asleep and mommy's gonna cover your body and head with this blanket you got us."

Diamond was glad she didn't wring her child's initial ejaculate out all over the inner lining of their blanket now. It was a good idea to switch up her stealth handjob into a stealth blowjob. The oral creampie she had ingested was delicious and the feeling of swallowing so close to her daughter and husband was stunning in its strong emotions. If she had milked out his load with her hands as planned they probably would not have had sex as they did on the couch. It was always a good sensation for the nymphomaniac mother to have her aching vagina filled frequently before the pangs caught on around her bowels in annoying and painful muscular cramps. Thanks to her teenager's strong and frequent erections the stay at home mother had saved a small fortune on adult toys and battery replacements to take care of her urges whenever her husband was not available.

Meanwhile the man of the house finally yawned and stretched his arms up. Junior's vision was caught in his mother's cool feeling bosom and was unable to view outside the blanket covering his body and head but knew the ceiling lights were on.

The movie was over it seemed. Credit music was playing and it sounded like the father and daughter of the family were the only ones stirring in their spots as they rose while Diamond remained nonchalantly lying on the sofa with the blanket carefully placed to make it look like she was just lying and Junior was just sleeping while his softened and milked out teen dick remained pierced through her vaginal folds like a probe. She smiled inwardly with her arms above the blanket and rest of her lower body covered. Diamond smiled but Junior couldn't see as he laid still and listened to his parents speaking.

"How's our boy doing?" Asked the man of the house while unaware his son had just inseminated his wife next to him.

*"Feeling his loads shooting inside is just incredible for me honey."* The Amazonian mother would have sighed if she were able to be honest, *"I wish we could talk about having you two swap bedrooms for a weekend sometime so my pussy can get a real beating!"*

"He's doing fine papa bear." Said Diamond to her husband with her hand draped over her forehead, "He fell asleep during the movie so I covered him up. I'll wake him up in a second and come up upstairs when I'm ready."

"I'm surprised he fell asleep." Added Dick as he got up with his daughter. "I guess he must have thought the movie was too boring."

"Come on daddy!" B.J. clicked quietly in her dad's ear, "I want to show you what I've been working to help you sleep tonight."

Diamond could not hear her daughter speak to her husband as she lounged in her blissful orgasmic afterglow with her son's ejaculated teen ram-rod still spearing through her softened cunt like a souvenir of their recent incest. She ached to pull him out slowly and close the seat of her panties in time to prevent his semen and her sexual fluids from draining onto the couch and was nervous for the first time about her incestuous relationship with her son being discovered by her daughter. The stay at home mother had no idea how her daughter would react to finding out that her little brother and mom were exploring a thing called 'skinship' together to treat her self-diagnosed nymphomania with her teen boy's ready and willing erections at home with the aid of contraception. The hotter than life mother did not want to find out how her spinner bodied daughter would react to finding out about them and vowed to keep their real relationship a secret from the elder daughter of the family until she could be trusted.

"Well I'm going to bed." Dick said after whispering something in his daughter's ear out of earshot and vision from his wife (if only he knew she was secretly inseminated!), "I'm feeling really tired tonight so don't worry about joining me if you want."

"Alright daddy!" Chirped the pale-ghosted daughter quickly, "I'll meet you upstairs!"

"On second thought..." began Dick, "Are you sure Junior is asleep?"

Diamond nodded as Junior listened.

"Well, would it be alright if B.J. slept in our bed tonight? You know she needs her daddy if she came back home for no reason."

"Where would I sleep?" Asked Diamond while wishing she had covered her child's ears suddenly.

"You can sleep with Junior, our son." Said the cuckolded dad, "He seems to like knowing where his next orgasm comes from, he really behaves now, he listens to everything I say because

he's afraid I'll cancel his miss axis pushy pass."

"You mean 'all access pussy pass' dear." Corrected Diamond with a giggle, "Okay, I'll see you later papa bear, good night."

When his dad left Junior pretended he did not just hear the innuendo he had heard. Instead he concentrated on his mom's warm pussy still wrapped around his teen prick as he hardened inside her mound once more with an aching to seed her cunt all over again. The lucky stay at home teen had no idea why he was so aroused by his thick white mom's heavenly milking guts despite knowing their incest was wrong but the feeling of blowing his white teen ejaculate inside genuine mommy-pussy belonging to the one woman on the planet who loved him the most was too good to pass up. He could ignore the strangeness of his taboo relationship with his nymphomaniac mom at home if it meant shooting his genetic matter in places a million times more pleasing than by his own hand alone in his room. In a moment he heard his dad leave the room and ascend the family stairs with hurried steps.

"Sorry for the awkward conversation you overheard there sugar bear." Diamond cooed to her boy as they laid side to side, "You weren't supposed to hear that your daddy and sister are considering practicing skinship like us. I was supposed to

help keep that a secret but it looks like mommy screwed the pooch on that one buster. Just pretend like you don't know about them sugar bear and you can fuck up your mommy's sweet pink pussy one more time if you think it will make you feel better about finding out this family is practicing open skinship in secret young man."

"You got it mom." Junior grunted in his mom's bosom as she relieved the blanket from his head, "All I care about is this pussy." He grunted as she felt her child lean back to look where their sexes met before heaving his hip forward to thrust his rubbery cock into her womb like a cervix seeking missile rocketing through her purple depths, "All I care about is making you feel good down here and hearing your cute moans when we fuck."

"That's mommy's good boy." Diamond cooed as she completely whipped off the blanket in the family den so the pair could see their awesomely nasty sexes cleaving together, in and out, with gross wet mucous-like sounds from their fluids being exchanged, "Keep fucking up that mommy cunt just right and I just might hop off my birth control and take a real baby-maker from you kiddo to make a point to your dad." She winked with an un-motherly smirk as she jiggled her breasts in joy to arouse her child's erection to a greater hardness as he thrust, "One of these days

at least, but for now we can at least get back to practicing our safe baby-making sex while your sister is home like nothing changed sugar bear."

THE END.
