

## My Wood Riding Mom

Diane was washing dishes over a steaming hot sink in the morning summer heat with her boy and husband nearby eating breakfast together at the family kitchen table. Her big white bosom was glistening with sweat as she hummed a mommy tune to keep her mind from the fact that her pussy was still practically filled to the brim by her boy's seed. The hot white mom leaned over the steaming water and prepared for what was about to happen every other Sunday like clockwork, marital consummation with her husband. She looked over to admire the sight of the two most important men in her life eating together with her son doing a good job of keeping their incest a secret it seemed. The hot white mother never planned on becoming her boy's buxom boner draining dream mom one day suddenly but she were okay with it so long as they kept it a secret which her boy agreed to she surmised judging by their normal demeanor at the table.

"So young man," spoke the dad, "do you have any plans for the day? Leaving the house I hope, it's a beautiful day outside this summer."

"I don't know if I feel like leaving the house today, dad." Spoke Daniel over his bowl of cereal, "I kind of feel like staying inside today. Mom said she'd help me with my math

homework due tomorrow, you know, school's important and I've been struggling in school. Ever since she started tutoring me in my room over the weekends my school grades have improved way beyond passing."

"I think you and your mom have been spending too much time together lately." Spoke the dad flatly.

"What do you mean?" Daniel spoke while looking nervously towards his mom who was now looking there way with an alarmed look on her face. "I mean, do you think it's a bad thing we study in my room I mean? We can study in the den where you see us."

"Daniel, honey!" Diane spoke quickly.

"Hold on honey." Interrupted the man of the house, "Don't interrupt the boy and I don't care where you two study at frankly. I think it's good you're finally doing well in high school Daniel. I just wish it didn't take so long considering you'll be graduating soon and entering the real world. I really wish you two had decided upon doing your little late night study group sessions a lot earlier frankly. It's good you two are finally getting along so well. I remember when Daniel used to give you a lot of lip for just about anything. Nowadays it

seems like Daniel will drop just about anything to make his mom happy and that makes me happy."

Despite the irony in the father's statement his words seemed completely innocent. He did not know about his wife and son's incest it seemed. There was a lull in the room air on a sunny day in the otherwise normal family household. It was still early in the morning and because it were summer Daniel had no school bus to catch, a fact which seemed to elude Daniel's father until that very moment. He was rarely home during the mornings himself. As a professional engineer by trade and workaholic by habit Dick was the breadwinner of the family who only occasionally fucked his own wife when time and energy permitted. In a moment Daniel quickly caught the look from his dad as he began to address him.

"So what are you up to this morning Daniel?" he asked, "Normally you'd still be sleeping. What's got you so excited?"

"Oh, no reason," deflected Daniel, "I just felt like getting up early today I guess."

Diane was still humming busily at work over the kitchen sink as she eavesdropped on the conversation and quickly shot a knowing look towards her son. Daniel caught the look from the

corner of his eye and turned to face his mom behind his dad sitting across from him. A finger covered in white soap went to her lips in the motion of keeping their secret a secret. Unknown to the man of the house, the real reason why Daniel was awake so early in the day was because Diane had given him a hot motherly blowjob to start her day off. Daniel still recalled his mom's hot words after sucking him dry twice in a row in his bedroom upstairs. *"Thanks for the snack sugar bear, now come downstairs for breakfast, your dad is home today so we gotta plan our special snuggle sessions around him, don't you worry though because mommy has a plan."* And Diane promptly swallowed her son's pearly white load down her throat for Daniel to see before pecking him on the cheek as she left her son's room in her cute pink bath robe still adorning the hot mom scrubbing away at the sink.

"How about you go out to movies for a matinee today Daniel." Spoke his dad. "I'll give you the car too."

"What's the rush?" Spoke Daniel.

"Oh, no reason." He said, as the man of the house looked his wife up and down as she hummed away. Daniel knew immediately why his dad wanted him out of the house now.

"Honey!" Hollered Diane suddenly which drew the attention of both the men in the room. "I'm done with the dishes so I'm about to run upstairs so you know what that means. Leave the kid alone, I know he just wants to play video games today."

"You got it babe." Said Dick before commanding Daniel to go to his bedroom to play computer games for the day, "Daniel you can do whatever you want today in your bedroom or wherever as long as you leave your mom and I alone for the day."

"You got it dad." Spoke Daniel with a little confusion, "I don't know what the fuss is but, oh-h!" It suddenly dawned on Daniel that it was possible his parents had planned on consummating their marriage later in the day during Dick's atypical day off work. Daniel played video games for almost an hour upstairs before he heard his mom's voice call him from down the hallway.

"Daniel! Can you come here!" Hollered Diane.

"What is it mom?" Spoke Daniel after bolting to his parent's bedroom.

"Don't be shocked by what you're about to see son." Spoke Dick, "But your mom has an idea to help spice up our marriage.

It sounds stupid but can you get a towel out of the bathroom."

"Sure thing." Spoke Daniel after bursting through the door to see his parents mid-coitus on the bed. "Are you sure I shouldn't come back though? And why a towel?"

"You're fine Daniel unless you feel uncomfortable." Spoke Diane with assurance, "I just asked your dad to consider a new idea in the bedroom I read about in a magazine. Can you please go get a towel from out the bathroom and we'll explain everything."

Daniel did as he was told and returned.

"Now you can keep your clothes on but all we need you to do honey is wave that towel over your dad and I."

Daniel approached his parent's bed awkwardly and caught his parents looking at him innocently. He was a little confused and he began waving the towel like he were shaking a rug.

"Higher honey." Spoke Diane as she looked up at him from the missionary position. Daniel looked only briefly before looking away quickly in case his dad noticed but he knew his mom's cunt was completely shaved. "Just like that baby,"

cooed Diane, "make some air to hit mommy's skin, it's supposed to make goosebumps to make our sex more enjoyable for your mom. We think it's okay for you to watch as long as you're comfortable standing there waving that towel."

Daniel didn't look away as he watched his parents maneuver on the bed. In a moment Diane was on all fours with her husband positioning himself behind her. Daniel couldn't see the area of penetration as he waved the towel but he could hear everything they were saying. A few seconds passed before Diane made a loud and surprised scream in the bedroom.

"Don't go for my ass you pervert." Diane pouted, "Not until I'm warmed up and warned at least."

"Sorry honey," spoke Dick, "You know I like anal. I thought you were warmed up already with Daniel waving the towel behind us."

"Am I waving this thing correctly?" Daniel asked innocently.

"You're doing fine Daniel." Spoke Dick, "Ask your mom though since it was her idea."

"Can I ask him Dick?" Spoke Diane to her husband.

"Up to you?" He said.

"Ask what?" Said Daniel in confusion.

"Would you like to practice safe sex with your mommy?"

"What?" Daniel said dumbfounded.

"You heard me young man," Cooped Diane, "would you like to borrow your mommy's holes to take care of your boners in a responsible way?"

"Are you serious?" Asked Daniel.

"Only if you're serious about learning about safe sex this way with your mom." Spoke Dick, "We had a discussion and she convinced me this would be the best way to raise our son. As long as some rules are laid down, and we'll get to that, but only if you're okay with it."

"I'm okay with it." Spoke Daniel in excitement, "When can we start?"

"Do you wanna do anal now or later honey?" Asked Diane, "I promise to make it worth your while if we save anal for after dinner when I'm ready honey."

"Fine with me." Spoke Dick before dismounting from the bed.

"Alright kiddo," commanded Diane, "if you're down to bang your mom get your clothes off and get in bed."

"Will he need a condom?" Asked Dick.

"I'm on birth control Dick," spoke Diane with rolling eyes as she watched her son undress, "I don't think there's no need to worry about incest babies being made in this house. This is all about teaching our boy about safe sex and we both know that abstinence stuff doesn't work."

"I'm talking about the principle of safe sex." Added Dick.

"We'll be fine." Diane assured him, "If we have the technology to keep a baby out of my tummy I don't see an issue with Daniel relieving his balls inside me if he wants."

"Why don't we ask him?" Asked Dick before turning the

attention of the room towards Daniel standing naked in front of them, his manhood at half-mast, "Are you okay with what you're mom is asking son?"

"With what?" Daniel spoke, "I was barely paying attention while I got undressed."

"Do you want to use condoms Daniel?" Asked Dick, "I got some if you need them."

"Of course you don't need to use any condoms if you don't want to though son." Coed Diane with her legs still spread eagle and her bald muff exposed in the morning light for everyone to see, "Mommy's cooter is perfectly fine with feeling you shoot inside if you trust modern medicine to keep your baby outta me. I promise you though, from experience, we can raw dog it without consequences and sex feels a million times better when there's absolutely no separation involved between two people being intimate together."

"Whatever is fine with you." Spoke Daniel.

"Now quit asking him questions or you'll scare him." Spoke Diane to Dick as she beckoned her boy to the bed, "Do you have any idea how long it's been since I've felt a hot load being

shot down my pussy."

"Well honey," spoke Dick defensively, "I know you expect us to 'fuck like rabbits all weekend' but I hardly consider last night a long time."

"It's okay Dick." Cooed Diane, "I got someone here who's willing to fill me up. Why don't you wave the towel for us, pretty please."

Daniel approached on his knees and was harder than diamonds as he pointed his member towards the matronly slit from whence he came. The lucky teen was eager to paint his hot mom's uterine tubes white with seed despite his towel waving dad behind him. Diane made her slippery looking hole even more appealing by using her hands to spread herself open. Daniel poked the soft vaginal surface of Diane's labia before feeling small feet wrapping themselves around the small of his back to draw him in.

"Don't be shy sugar bear." Cooed Diane lovingly, "Mama's coochie won't bite but she may drain your balls if you're okay giving your mommy's muffin a fat creampie for her love oven to keep warm."

Daniel winced from the hot statement and felt his blood rise as he poked his enormous teenage cock forward before finally plunging himself within his mom's warm motherly pussy. Diane moaned loudly as she cooed sweet encouragements to her child to continue.

"Sink your meat deep son." Diane cooed, "Mama's pussy wants to hold her boy deep before he blows his load down my warm wet tubes in a few minutes."

"You're really okay with letting me finish inside you mom?" Daniel asked as he began to thrust with his mom's encouragements juxtaposed against the air hitting his ass from the towel being waved behind him. "Are you sure?"

"Only if you're okay with pleasing your mama where it counts son." Moaned Diane loudly, "Your mommy-fucker is hitting all the right places now young man. Mommy can really feel you stretching her out down there. Are you sure this is the first time you've gotten hard for your mama's warm puss-puss young man?"

"It's my first time thinking I'd be okay with having sex with my mom." Answered Daniel.

"Well mister," cooed Diane whilst wrapping her son's waist tightly around her thighs as he worked his cock in and out of her mound with faked amateurism, "I think if it's okay with your dad you and I can do this more often. What do you think honey?"

"I'd be okay with it as long as dad is cool with it."

"I'm surprised he's stayed hard inside of you so far honey." Answered Dick as he waved the towel, "I suppose if you need Daniel to help you have an orgasm I don't see a problem as long as it doesn't interfere with our marriage."

"Perfect!" shouted Diane, "So it's settled then, Daniel is officially mommy's new little fuck toy in the house whenever you're not available honey."

"What about?" Began Daniel.

"Shut up and fuck mommy's holes sonny." Spat Diane.

"Don't worry Daniel," began Dick after catching his son to look back to him in disbelief, "your mom has always been into nasty talk so you may as well learn to accept it if you plan on banging my wife whenever I'm not around."

Daniel drilled his mom deep as she laid their with her legs spread wide and her mound completely exposed to the teenager's raging hormones. The lucky son looked down and saw the glint of his mom's warm pussy juices coating his cock each time he pulled and pushed himself deep within the cunt which birthed him. Diane moaned loudly with her blonde hair beginning to stand in stark contrast to the mother's reddening face from the feeling of her cunt muscles being rippled by hardened cock thundering in and out of her hairless mound.

"Faster!" commanded Diane as Daniel's dad waved the towel frantically behind them, "Pound mommy's cooter faster Daniel! Harder! Fuck mommy's no no pussy like you mean it young man!"

With each thrust Daniel delivered into his mother's hot cunt he began to feel the semen in his balls boil for release. Wet sloppy noises of motherly vagina being speared by her teenage son's hardened cock filled the room. Daniel slammed his mom hard against the mattress as she moaned. Dainty feet and hands held on for dear life by wrapping themselves around Daniel as he fucked his mom's pussy until it was too much to handle and the first jet of his potent sperm rocketed from his sac and straight for Diane's hot womb.

"Go deep sugar bear!" Moaned Diane, "Mommy wants to feel

your baby batter shooting deep like you mean it sonny!"

Hot ejaculate erupted from the lucky teen's cock as Daniel did as he was told and plunged his member deep into the moist wet flesh trapped between his mom's open white legs. Ropes of sperm gushed forth from his penis and was devoured by the tight pink fuck pocket being offered by the hot mom in the room. Diane moaned loudly and her face was red from screaming with pleasure as she felt her son painting the inside of her uterine tubes white with his potent white seed. Diane locked her heels behind the small of her son's back as he came deep within her clutches. She could feel his cock thundering up and down her cunt as his member hardened to its maximum before finally softening in signal of their creampie consummation. When it was over the hot mother kept her legs wrapped tight as she combed her fingers through her son's hair as she waited for him to soften inside.

"You did good baby boy." Diane cooed to Daniel, "See honey, now that's how you wave a towel."

"Did he finish inside you?" Asked Dick.

"What do you think dear?" Answered Diane, "Where else would a virile boy like Daniel leave his sticky white messes?"

If you ask me this is far more sanitary then letting him relieve himself in his socks and bedsheets. We should really think about letting this become a regular thing. Father and son working together to make the woman of the house happy."

"Hmm, I don't know about that." Retorted Dick, "Are you sure it wouldn't be considered cheating?"

"Nonsense," answered Diane, "I don't think so considering it's staying in the family. If you and B.J. ever explored skinship I wouldn't be opposed."

"You know B.J. is at college." Interrupted Daniel before catching his mom glaring at him.

"What's skinship?" Added Dick, both men seemed confuse.

"Everybody relax." Spoke Diane quickly, "What I meant to say is that since we did this once I don't see why it can't happen again."

"Well that really depends honey." said Dick in a tone which made Daniel's stomach drop, "You haven't asked the one person in the room whom this effects the most."

"Mom said it was okay!" Explained Daniel after thinking their prior incestuous engagement was about to be brought up.

"Hush baby child!" Scolded Diane with a wagging finger after clenching her cunt muscles tightly around Daniel's softening member to keep his attention, "Let your dad finish."

"What I was saying," spoke Dick, "was that if Daniel is okay with this and I'm not home to please the misses I don't see a reason why this can't stop."

"Did you hear that honey?" Exclaimed Diane, "We just got permission to fool around whenever your dad isn't home. So guess what that means?"

"What?" asked Daniel dumbly.

"You're gonna love staying home a lot more often kiddo." Said Diane with a wink. "You might never want to leave for college like your sister did.

"How can you tell?" Asked Daniel with a chuckle.

"Because you're getting harder in mommy's muffin sweet-pea." Spoke Diane nonchalantly after flicking her bean back to

reveal a big white globule of sperm being pushed out by Daniel's hardening member, "Ever since you came inside mama's hot puss-puss mister you've stayed hard which tells me that you're still in the mood for more fun in bed."

"What about dad?" Asked Daniel stupidly. "Are you sure it's okay with him if we keep doing this if he's not away."

"As long as you two don't try anal I don't have a problem with it." Answered Dick in a matter of fact tone.

"Why can't me and my boy decide to try anal if we want?" Diane asked defensively.

"Because pussy is one thing but anal is different." Joked Dick, "Technically that ass is still mine until one of us kicks the bucket. Until then I don't see a problem with using our son to satisfy your nymphomaniac urges if I'm away."

"I don't think I'd be okay with just banging our boy while your away though." Spoke Diane, "How about while you're home he doesn't get access to my asshole but he's allowed to bareback his mommy's love muffin whenever you're not using it."

"Your love oven?" Interrupted Daniel.

"Mommy's hoohaw down there baby," cooed Diane as they were still connected with their genitals pushed deep together, "the place where you just made your sticky big boy mess buster because your body told you to creampie mommy's pussy."

"Well I was going to suggest condoms." Spoke Dick in thought, "I suppose if your ass stays mine I don't see a big problem with Daniel practicing safe sex with you on the pill. Are you sure he isn't a little freaked out about having sex with you though? I feel kind of bad for roping him into our marriage suddenly. A child his age shouldn't be fucking his mom and he certainly shouldn't be enjoying it as much as he did but I must be wrong judging by the way you two went at it. Are you sure you two haven't done this before?"

"I promise this is our first time." Spoke Daniel before feeling his mom's cunt muscles tighten around him in scolding.

"Didn't I hear you say that as long as we don't try anal you don't mind if I fuck my boy's brains out?"

"Only if he doesn't mind." Answered Dick, "And I don't care as long as it doesn't involve butt sex. I got enough use out of that pussy with the kids we made. I'm more of an anal

man nowadays."

"Does that sound like something that would be good for you baby boy?" Cooed Diane. "Would you like to fuck your mommy's pussy whenever you need to take care of your stubborn boners instead of doing it alone?"

"As long as dad doesn't care." Answered Daniel mid-stroke.

"I'm going to make myself a sandwich," spoke Dick, "are you two going to be alright while I'm away? Do I need to keep waving this towel?"

"You're fine to leave." Spoke Diane, "Why don't you come back after our little slugger here fills his mommy up with a few more loads before we get anally involved this afternoon honey."

"Sounds good to me honey." Spoke Dick before quickly disappearing.

"Is he really okay with this?" Asked Daniel whilst plunged within the warm center of his mom's mound.

"You heard him young man." chirped Diane quickly before extracting herself from her son's penetrating cock, "As long as

we stay away from anal he doesn't have a problem with our skinship relationship. I can't imagine he'd ever want to join us and I know him pretty well by now that we only have sex about once a week despite all my pestering over the years. Now that you're in the picture now sweetie it'll change our sex life and marriage for the better, I'm sure."

"Ummm, mom." Hummed Daniel in stunned disbelief from the awesome white mess oozing out from Diane's matronly slit, "I think you're leaking a little bit down there. I know how much you hate it whenever we leave a mess on the bed."

"Naughty boy for looking at your mother's cooter," cooed Diane as she swiped a palm down to her pubic mound to scoop at the sticky white incest semen now smeared across her inner thighs, "it's a shame your daddy likes your mommy's pussy baby-skin smooth whenever he's in the mood sugar bear. My favorite part of sex was always the feeling of a man's healthy load getting all tangled up and sticky in mama's fur down there when it's full grown."

"You're such a pervert mom." Groaned Daniel as he watched his mom play with his fresh load leaking from her loins in erotic fascination, "I always thought your favorite place was inside you. The first fifty times we had sex I swear you only

let me finish in your pussy before you gave me my first  
blowjo--"

"Quit yer complaining and be happy you got a hot mommy you  
get to bone at home sonny." Interrupted Diane with a playful  
foot jabbed in her son's face as he rested on his laurels like a  
priest kneeling in front of his sex idol. "After all, it takes  
a lot of genetic luck and courage and horniness if a young man  
like yourself ever expects to discover the magic of raw skinship  
with their mothers."

"I consider myself very lucky." Spoke Daniel.

"I would hope so kiddo." Cooed Diane, "Especially for all  
the naughty no no pussy pounding you did behind your father's  
back before he found out about us."

"If I didn't know any better I'd think you planned for this  
to happen mom."

"So what if I did," Diane shrugged whilst slicking her  
fingers in and out of her slit to make masturbating sounds that  
sounded like semen being pulled through a wet lip-smacking  
mouth, "mommy has urges and this was the convenient solution for  
my craving for dick that your dad couldn't fulfill as he got

older. Do you want to talk about it or do you want to move onto the main event before your dad comes back upstairs expecting his wife's ass to be ready for our weekly anal?"

"That's kinda gross." Spoke Daniel, "You let him put his dick in your ass?"

"Oh it feels great sweetie," cooed Diane whilst motioning her to lie next to her, "not that you'll ever find out under this roof but I'm sure mommy's other holes can make your sticky white stuff spurt out if you still want me to take care of your boners with a little skinship practice."

"Admit it mom," Spoke Daniel as he got into position, "skinship is just another word for sex."

"Sugar bear!" Cooed Diane in surprise, "I'm surprised you've learned so little so far. Surely spending time back in your mommy's warm pussy has taught you more than just lust young man."

"Like what?" Asked Daniel, after he spoke he watched as Diane quickly rolled her body on top of his to bring her towering white figure above him on the mattress. "Teach me mama."

"Well young man," spoke Diane as she touched herself while fondling her child's junk below her, "skinship means climaxing together ultimately. Sex can be bad and maybe not everyone is pleased by it, there's no intimacy. Within skinship we take the most intimate relationship there can be, the one between a mother and her son, and we amplify it a hundredfold with unlimited raw sex until our climaxes occur together and we form a stronger bond from the free fluid exchange between us."

"It still doesn't explain your obvious creampie fetish though." Spoke Daniel as he felt himself getting hard whilst being fondled by his busty stay-at-home goddess of mom straddling him like a patient cow-girl talking to her favorite riding bull. "I swear we've had sex hundreds of times and I can count the number of times you've made me finish in your mouth on my hands I think."

"Mommy likes the feeling of a deep insemination." Spoke Diane nonchalantly as she rose her hips to glide her slit up and across her boy's stiffening manhood, "How do you think we made you before I got hooked on the pill. After your daddy shot a load in me eighteen years past and here we are about to do the dirty deed where mommy is about to do what she does best with her cooter mister which is gobbling up semen and pulling out

sperm as deep as I can feel it. I'm also a bit of a size queen but don't repeat that to your dad. Now do you wanna talk more or do you want your mommy's cooter to make you feel good again kiddo?"

"How did I ever get lucky enough to have a mom like you mom." Spoke Daniel in affirmation.

"I'm what you call a DTF MILF." Cooed Diane as she spelled what she meant, "That means 'down to fuck' and 'mother I'd like to fuck' for you kids nowadays, am I right?"

"Sounds right to me mom." Answered Daniel.

"Shush now and lets get your wiener tucked in someplace tight and wet." Diane hovered her hips above Daniel's tip with her feet planted and her twat poised in a sumo stance to swallow her son's member as she waited, "Don't be shy about creaming your mama's twat young man," cooed the hot freckled mother as she got into her favorite riding position, "you've gotten permission from your daddy to stain mama's vaginal walls white while he's not looking." As Diane spoke and moved her squatting hips into position the hot white mother positioned her pear shaped derriere to sheathe her son's rock hard boner completely through her motherly cunt until his teenage seed flowed once

again. "Mama's bout to ride another creampie outta ya young man." cooed Diane as she displayed and spread her pink twat with her fingers to coax a big drip of Daniel's pubescent cum deposited there minutes earlier to flow forth like thick white syrup until a string of spunk fell over the son's excited erection like a white flag signaling the hung son's inevitable sexual defeat by his hot cougar mom. "When you bust let your mommy know so we can make sure you bust deep like we've been doing. Just pretend mama's warm pussy is your girlfriend's or something while I milk your pecker once again sugar bear."

"I don't think I'll need to use my imagination mom." Spoke Daniel in excitement as he watched his mom's hairless cunt poke and prod his hardened tip against her pink gates which were still glazed white by the lucky son's seed from before, "This is super hot right now."

"I think that answer deserves a giddy up young man." Cooed Diane with pride in her face.

"What does that mean?" Daniel asked before suddenly feeling and seeing the entirety of his length disappear through the hot friction of his hot mother's cunt like a magician's disappearing act.

"Giddy up cowboy!" Moaned Diane as the filthy mom bounced her pear shaped ass up and down over her son's slippery cock to make thick clapping sounds of skin striking against skin as the hot mother rode her son's boner hard like she owed it money. "Good boy," cooed Diane mid-gallop and with heated effort in her voice, "staying hard for mommy just means you still got some thick white creamy seed just waiting to be pulled out of your wiener where it belongs in this house mister. Inside mommy's safe pussy."

Daniel panted quickly with his loins reaching its boiling point as Diane rode him fiercely in the master bedroom. He reached up and cupped a hanging tit in his face to suckle at Diane's soft breasts as she galloped her naked hairless mound into his lap like a wild animal in heat. Daniel looked into the vanity mirror on the opposite side of his parent's bedroom and was mesmerized by the sight of his mom's pear-shaped booty bouncing up and down his stiff rod like she were trying to conquer a pogo-stick with just the friction generated between her thighs. Wet meaty sounds of flesh clapping against flesh filled the sunlit bedroom as Diane moaned ever louder from the intense pleasure rippling through her loins. She could sense her boy was near to climaxing and the hot mom was ready to time her next eardrum numbing orgasm with her lucky son and participating mother fucker straddled and trapped between

Diane's bucking white legs going up and down in a fury.

"Let me know when you're about to pop sweetheart so mommy can take you all the way in kiddo." Panted Diane quickly, "I don't want any of your baby-batter leaking out and making a mess in the bed once we're done so get ready to feel me drop my hips on top of you once your cream starts coming out mister."

"I'm creaming!" Moaned Daniel as he felt the first jet of fresh hot semen erupting from his loins and head straight for Diane's dark incestuous depths. "It's coming!"

"Come to mama!" Moaned Diane fiercely before dropping her weight completely to swallow the entirety of her son's sneezing shaft deep within her mound like she promised. The hot mom's cunt muscles enjoyed the sensation of her boy's member jolting and twitching against her insides as she felt Daniel shooting ropes of his hot teen spunk against her warm and welcoming vaginal walls. Near the end of it Diane bounced her hips a few more times to test the stiffness remaining in her son's seizing wood. When it was over the hot mom felt satisfied from making Daniel void his loins once more into her matronly womb as she remained straddled over her child like a busty cow-girl resting atop her freshly broken stallion. She breathed heavily with her glistening skin covering her busty body while Daniel remained

suckling at his mom's teat a moment before finally popping his mouth off her nipples with a grin on the teenager's face as he looked his mother in the eye. Diane was breathing heavily with flared nostrils as she enjoyed the feeling of Daniel's softening member growing softer inside her womb. After awhile the hot mom said, "Feel better buster?"

"Of course mom." Spoke Daniel while relaxed, "I always feel better after sex with you."

"Thank you for watching your language this time honey," cooed Diane affectionately, "I don't want any more f-bombs in this bed unless one of us is nailing the other. Mommy doesn't like cursing during pillow-talk."

"Pillow-talk?" Asked Daniel.

"Talking after we practice skinship baby." Spoke Diane, "It's mommy's special way of putting your boners at ease after your spunk comes out from having sex."

"Well what do you wanna talk about before dad comes back mom?" Asked Daniel in the relief of his freshly voided loins.

"Mommy is proud of your ability to keep our secret buster,"

cooed Diane as she stroked her son's cock after dismounting, "You used to be so hard for his mommy's warm pussy but now it's soft. Did someone lose a butt-load of their big boy sperm just a minute ago? I bet it felt real good to shoot your white stuff someplace warm, sticky, and family friendly if you know what I mean. I bet it feels even better knowing we don't have to tip-toe around your dad anymore."

As Diane spoke she stroked her boy's long boner with both hands and spiraled her small motherly hands up and down her teenage son's shaft to see if it would harden from her words. The hot mother locked eyes with her son as she stroked and cooed sweet encouragements to her child in order to extend their session further. The blonde mom licked her lips and stared at her son lying next to her on the bed before rising to sit on her haunches like a Japanese geisha wife preparing to mount her son's hardening manhood like a new favorite house chore. As Daniel hardened Diane was eager to feel her boy's manhood thundering through her cunt canal once more as she ogled his meat like an animal in heat. The nymphomaniac mother then looked down before quickly applying a sloppy amount of saliva on top of her son's head before giving it a wet kiss with a smack of her plump lips and looking towards her son with her sparkling eyes.

"Feel like busting a fresh wad of semen up some sweet no no pussy once again young man?" Cooed Diane with her cutest mommy-tone voice.

"I think I'm all done for now." Spoke Daniel sheepishly.

"No worries kiddo." Cooed Diane as she slapped her son's flaccid cock against her pouted lips, "In a few moments this sucker will be excited to shoot a load deep down mama's warm cooter all over again."

"Speaking of your pussy mom," began Daniel in thought, "you made it sound like dad hasn't been tapping that place lately. What's up?"

"It's nothing sweet-pea." Spoke Diane, "It's like your dad said. I need to be filled full too frequently for his tastes and honestly I think he's relieved you'll be helping to pick up the slack."

"And the anal?"

"We all got our kinks in this family sonny." Chirped Diane quickly, "Your dad likes mommy's asshole while your mommy enjoys the feeling of semen shooting inside her pussy."

"And why is that you think?" Asked Daniel.

"I'm not sure," said Diane softly, "it must be a mommy thing I guess."

"I don't think many moms let their sons bang them." Spoke Daniel, "Especially not the way you have."

"You never know." Cooed Diane, "I'm sure there are lots of moms out there who explore skinship the way we do. Now, they may not be as insatiable as your mother but skinship is still skinship in my opinion. I don't see any other way for a family to get as bonded as we are right now from all the fucking we've been doing around the house kiddo. I'm pretty sure you could've came in my brain that last time I rode you if mama's warm pussy wasn't in the way to gobble up all your warm baby-batter instead."

"Cut it out mom." Spoke Daniel, "You're gonna get me hard again and I'm not ready just yet."

Upon hearing this the hot white mom clapped her hands together which made her voluptuous breasts jiggle on the mattress in front of her son to see. Diane was smiling from ear

to ear before spreading her legs to expose the hot white mess freshly planted in her by Daniel just moments ago. With her long legs kept wide enough apart so that her ankles touched the mattress sheets the busty white mom moved to place a palm near her pubic mound to pull her clitoral hood up as far as it could go to reveal the softened and creamy white vaginal flesh just beneath. A huge pubescent drop of semen began to unroll from out of the hot mother's cunt before Diane clapped a palm against her mound and slammed her legs together like a trap. Diane rolled over and pointed her big white ass towards her boy briefly before spinning around to sit on her naked haunches like a happy dog in heat. The blonde mother beamed her eyes with a huge mischievous smile on her face towards her son.

"Sorry for interrupting your peep show young man." Cooed Diane affectionately, "I saw your load about to drip out and we simply can't waste seed in this house if we're going to be learning about safe sex under this roof. What kind of example would it set after all to see your wad dripping out my cunt like I'm some kind of high school whore."

"I don't think any girls in my high school are as hot as you mom." Spoke Daniel.

"Do you think you're ready to have sex with those other

girls in your class?" Asked Diane.

"As long as we use a condom I guess."

"Very good baby." Cooed Diane in her cute home-tone voice, "Remember, mommy's squishy pussy can be your safe place to make your white messes as long as you keep this our little secret young man. As far as you know those other girls could be dirty so it's best to use a rubber condom if you're ever with someone else other than me."

"You got it mom." Daniel added as he felt a pair of small hands return to his member to gently work his shaft and balls. "Mind if I take a nap before the next round? I don't think dad is coming back."

"Go ahead baby." Cooed Diane, "Get some sleep while mommy sucks you a little bit. Is that okay?"

Daniel had no time to respond before instantly feeling the warmth of Diane's wet mouth engulfing his cock to suck him like a candied wet lollipop. Hot cheeks and a swirling wet tongue wrapped around his manhood while mild sucking sounds filled the parental bedroom. Diane took her son quickly down her throat and enjoyed how his soft hardness went down easily as the hot

mom sucked like she were nursing. Meanwhile, the pair could hear the unmistakable sound of a pair of fingers working themselves in and out of Diane's bald and creamed muff; she fingered herself to the thought of suckling her boy to sleep with his seed spread across her vaginal walls. The vintage era mom wondered if the pearly white mess caught in her snatch would be given an award if caught on camera.

"See you later kiddo." Coed Diane to Daniel as he drifted off to sleep.

THE END.
