Help me Onii-chan, I'm stuck!

Layla - the tallest
human in history

Uhm...

Ben „onii-chan”
Irrelevant self insert

Help! I can't move,
I'm stuck!

Yeah,
I can tell.

Just...how?

Just push or something!

I was still able to fit through
here yesterday, I swear! It's not me!

Ah yes, the house
shrank, of course...

Wait, no! That is not what I meant!
Of course I'm growing but I'm not fat!

Mhm... and the fridge is empty
again for no reason whatsoever.

Anyway... I'll try.

Thank you.

**Just one of her muscles
is more massive than me...**

**If she can't get out by
herself then I doubt
I can move her an inch**

Layla, I'm going to push
you now so work with me!

HNG

HRGH

WAIT HOLD ON! YOU ARE...

I'm stuck too!
mpgh

AH- BEN!

YOU IDIOT!

mppf

oooh~

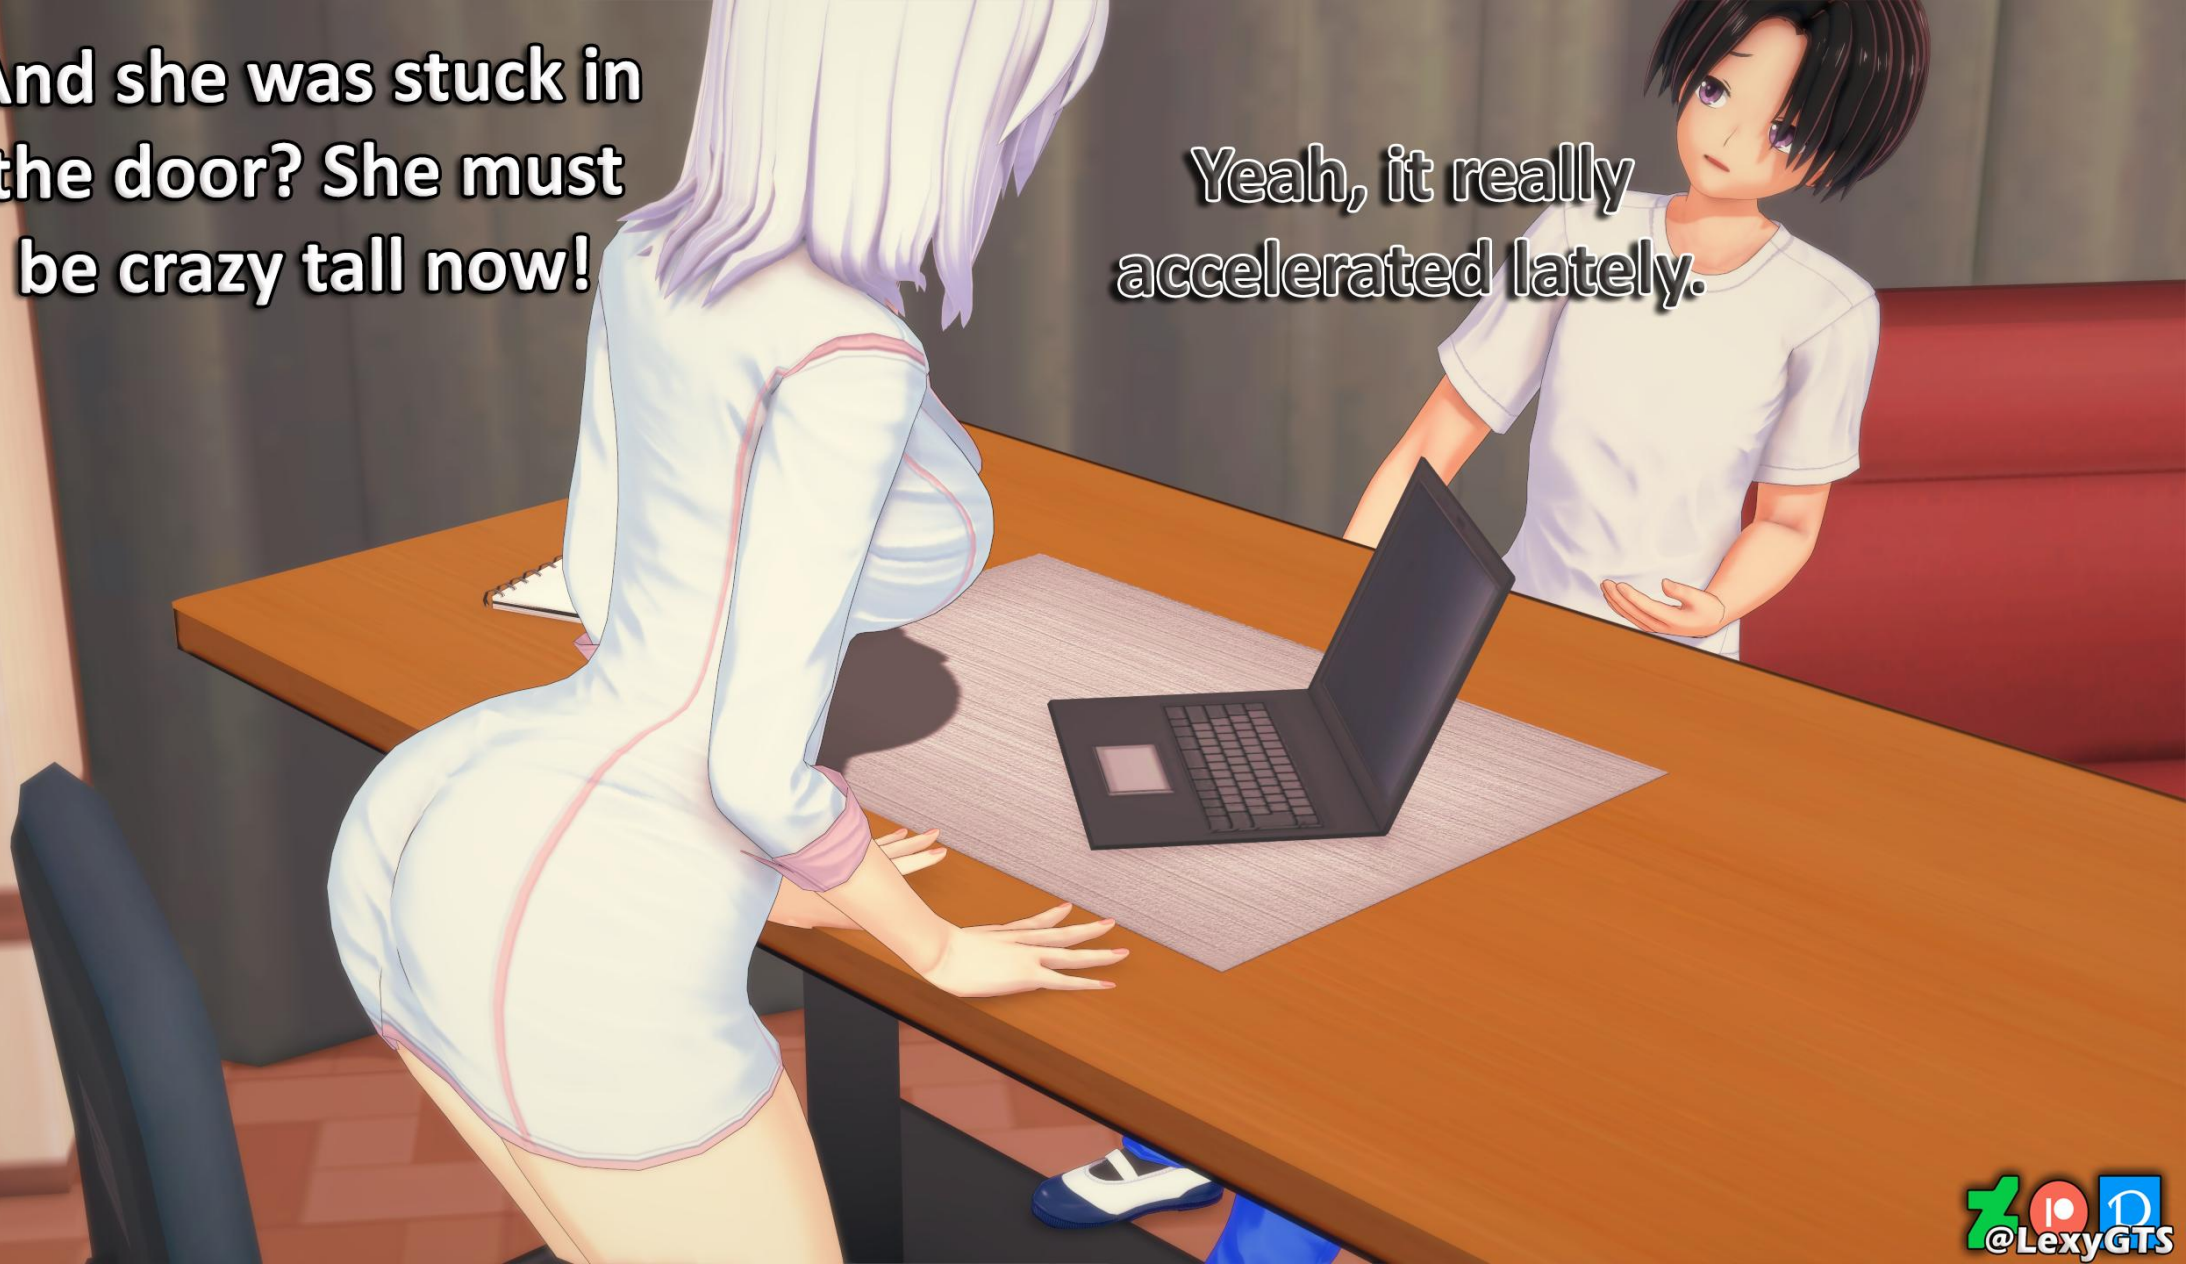

Dr. Arielle Glossner
Layla's Doctor

Hold up are you for real?
So you got stuck in her...

Mhm.

**And she was stuck in
the door? She must
be crazy tall now!**

**Yeah, it really
accelerated lately.**

I just wonder why?
Was there anything
unusual lately?

Maybe a change
in behaviour?

Hm, her sex drive has gone
up through the roof and so
did her hunger lately.

Before those past few months she wasn't interested in anything for a few weeks.

I even thought she finally
stopped growing until she
completely flipped that again.

She definitely went
past the 4 meter mark.
(4m is about 13ft)

Wow, over 4 meters. Do you
know by how much?

Nope...

...but we could measure her.
She is currently waiting outside.

SAY NO MORE!

Hey, what are
you starring at?

Have you never seen
a tall woman before?

Oh, I'm v-very s-sorry.
I d-didn't mean to...

Hmm?

Ah, I h-have to g-go now.

Sorry!

Am I really that intimidating?

**Mh, I just hope Ben
is back soon.**

Yeah, so that is my theory
on her growth doc.

It's interesting.

The data might
back it up.

Oh, hello Dr. Glossner!

Wow, you
weren't kidding...

My god you have
grown so much Layla!

Aw, did I?

Even after all
these years...

...you still manage to
surprise me.

Hehe, what can I say?

Uhm, can you stand up
for me please?

Of course.

I'm eager for some
new numbers aswell.

So, what do you think doc?

Wow...

I'm at a loss
for words here

Your knees are almost
at my eye level now.

You shouldn't get too
attached to them.

I am still
growing
after all!

I hope the tape you brought is long enough!

Tape? No, I've learned
from last time.

**I'll be using a laser
this time instead.**

I just hope the old
spot still works fine.

Welp, does it still work?

Nope, not even one bit!

**Unless you only want
me to measure your ass.**

We could try an upper
floor balcony instead.

Hm, I think I have
a better idea instead.

?

What is on
your mind?

Just hold still for a second.

Wooah!

There you go!

This is insane!

It's nothing. Can
you measure now?

Yeah... let me try.

Can you move me
up a bit more?

Like so?

Yeah.

beep

Welp, congratulations!
You are 4.38 meters tall.

New Height:
438cm
(14'4")

WOW

Almost 4 and a half...

Next goal is
5 meters then!
