

ONLINE AMAZONS

(amysconquest.com)

Christa and Annie were two fun-loving and carefree teenage girls who had been friends for most of their young lives. Having met at the age of 5 during their first gymnastics lesson (their first of many sporting activities for them both to come), they grew very close to one another over a short period of time, and before too long they became the best of friends. Their playful attitudes were one and the same, as were their confident, outgoing personalities and incredibly cute (to attractive, to beautiful as they aged) young faces. They were like two peas in a pod, two girls so similar to one another, whose initial meeting and growing bond seemed destined to happen, especially considering the location of where in fact they first met.

It was easy to see that the field of gymnastics, and sports in general, was something these girls truly craved, as so responsive to such activities did their own young bodies become, that each of them couldn't help but experiment with just about every physical sport they could get their hands on. From track, to softball, to field hockey, to soccer, to even their recent attempts at karate. All of these events included more than the usual teenage girl share of weight training to boot, all of which helped turn both of these beautiful young girls into lusciously fit and muscularly firm hardbodies. This, coupled with their teen-aged bodies growing in its own natural ways, gave them both physiques that were not only well beyond their young years, but much stronger than what one would expect from a pair of gorgeous High School girls.

Adding their extremely outgoing personalities to their own growing and changing bodies (in more ways than one) and it wasn't surprising Christa and Annie took the course that they did in their teenage years, roughly 1 month ago, something which would effect both of their lives for many years to come. You see, in today's high tech and modern day and age, the ability to use your own personal computer (and who doesn't have one in their homes today) to upload yourself, doing anything and everything, showing it off to the world is near commonplace. Such sites as Viewtube (and their countless counterparts) are filled with not only professionally shot video clips and impressive visuals, but those from your average, everyday man or woman, boy or girl, as well. Though in this case, and I know the world would agree, it could safely be said that these two incredible young girls were anything but "average".

Using Annie's PC for their initial attempt, they one day decided to get in on the easily downloadable Viewtube craze, and created an account for themselves, complete with an opening video for the whole world to see. While their first such sessions were anything but legendary, simply shooting these two very attractive young girls, being young girls, fooling around and goofing off, dancing and playing, having a ball in front of their digital camera, the responses they received from those watching their first few clips began to set them off in another direction, a very specific direction. Replies such as "My God, you girls are HOT!" and "Damn, what I wouldn't do to be at Your slumber parties" and "More talking, more giggling, more skin, More Everything!" really got these two young beauties creative juices flowing, as well as the growing excitement of wanting to try even harder to impress their growing number of loyal fans. If "more" is what these viewers wanted, than that's just what they were going to get.

As such, their next set of videos showed off these girls obviously amazing physical assets, shaped and sculpted to perfection from a lifetime of various sporting events, as they displayed with the utmost pride and enjoyment their highly trained bodies in a series of short, revealing outfits. From tank tops, to jean shorts, to their sporting uniforms, to even little girl underwear during their many late-night sleepover video sessions. This led to even greater responses from those watching their video clips, all of them crying out with praise and admiration of these two super fit, extremely athletic looking teens, all of them calling out for More! Of course, "More" from their clearly aroused audience, meant Less of any covering across Christa and Annie unreal physiques, which showed off not only more of their young, smooth, tanned skin, but also the large amounts of incredibly athletic, expertly trained, supremely fit muscular shape that lie underneath. From that point on, with each and every new video they fan-base cried out for more of one very specific thing, something both of these girls had an abundance of, More Female Muscle.

"Wow, look at your abs, flex them Hard for me! Rub them down for me!", "Holy, I knew you girls were Hot, but you've got legs that look like you can crush a watermelon.....care to try them on my head?" and "You girls look as hard as stone, are your Tits as muscle packed as the rest of your bodies?" were just a few of the Many replies sent from their massive amount of loyal (albeit lecherous) fans, whose number was growing by leaps and bounds, especially with the revelation of their super fit and muscle packed young physiques. It was becoming increasingly clear to them both that Viewtube held as many lovers of sexy, female muscle than it did of hot, young girls playfully dancing around.....so what better way to capture as much attention as possible, than to incorporate them both into their videos.

As if that wasn't enough, bouncing their voluptuously hard bodies across the screens of PCs around the world, all mixed with more than their share of girlish giggles, girlishly fun attitudes, and generous amounts of muscle flexes, did wonders in getting not only their truly addicted viewers all hot and bothered, but before long did the same exact thing to them as well. As such, it only a matter of time before these two young Amazon girls started taking their incredibly erotic uploads to the next level, as far as the Viewtube rules would allow them to, and that meant for plenty of ultra sexy, incredibly hot, sensuously flexing, amazingly arousing teenage girl fun.

While neither of them would classify one another as lesbians (as they were more than into guys as well, both of them having High School Senior boyfriends at this time), that didn't stop their own sexual experimentation on one another's bodies, which always got them both so hot and bothered that such streaming video clips always ended with these two super athletic girls kissing, licking and sucking on each others clearly turned-on faces. The sounds of their lust-filled kisses smacking and popping, as their eyes closed and began fluttering with untold arousal, not to mention their high pitched girlish moans and groans of pleasure and constantly probing and groping hands across their partners super fit bodies (especially their muscle packed breasts), quickly became a Huge hit among their many loyal fans, who now seemed to be legion among this online community.

And so Annie and Christa were having the times of their young lives, "playing around" on the computer while their growing sensual attraction towards one another continued with each and every video shot (which was near daily, so loyal to their fans and so eager to continue their experimenting fun that they were) They simply couldn't get enough of performing for their very captivated audience, and before long they too became as addicted to creating such amazingly erotic and sexual videos as they fan-base was to watch them. Always trying to think of new and different ways to tease and please their growing number of online watchers, these two young girls searched the very site they had been using for the past month for further hints or tips on how they could top their already mind-blowingly Hot and Sexy displays.....what they found send them on a path that would augment their Viewtube performances to even greater heights.

VIEWTUBE VIDEO – Sexy Hardbodies Surprise

"Hi guys, it's me Annie...."

"....and me, Christa. Your two favorite Viewtube teenage muscle girls...."

".....and do we have a surprise for You" the two girls spoke out in unison, smiling wide grins across their attractive young face, as they bounced around in their seats anxiously getting ready for their next performance. Annie's beautiful face was framed with long, shoulder length red hair, just as Christa's long black mane was pulled back into a sexy ponytail. The only article of clothing currently seen on either of them was a very tight, body hugging, form fitting baby doll T-Shirt, that had its neckline cut away to reveal even more of their thick, luscious, rippling cleavage.

"So, we see that some of you out there just cant get enough of our "little" babies here, and would like to see some more, eh?" playfully spoke out Annie in a girlish tone, as she bit her lower lip with excitement, cupping her ample breasts in her hands as she did.

"Maybe you naughty boys out there wish you were here with us, so you could feel our breasts, just like Annie is.....just like I am" cooed out Christa, as she raised her own hands up and began tweaking and twisting her clearly growing nipples.

"Mmmmmm, yeah, that feels sooooo good" sexily breathed out Annie, her eyes now closed, her hips gyrating up and down on her chair, as this young teenage girl was obviously getting more and more aroused at her own bodies pleasurable treatment. Christa was quickly following suit, as her own expertly placed fingers and sensual touches were sending erotic shivers throughout her entire body.

Then they both turned to one another, licking their lips with the utmost arousal, as they removed their own pleasing hands from their voluptuously firm chests, and placed them on one another's. Their reactions were near instant, as a loud series of erotic moans and groans were immediately heard from both of these young girls mouths, as they again closed their eyes, fully trusting in their partners touches and tickles of delight, and drinking in every ounce of sexual enjoyment out of it. They could easily have just spent the rest of their time on this newest Viewtube video doing just this, and it would not only be extremely pleasurable for them, but easily as much as for their assortment of loyal viewers out there. Though as promised, they had something special planned here and now, and so they were forced to cease their ultra pleasing touches and sensual gropes, and continue with their originally thought out plan.....for now, anyway.

"Yesssssss, I bet you all wish you could be here with us. Touching us, pleasing us, letting your hands roam all over our big, firm, young chests, Mmmmmmmmm" cooed Christa, tilting her head to the side with a seductive glare to their PC's camera. "Maybe you wish you could be trapped in between these beefy breasts of ours, while we smother you out Nighty Nights? Hee hee"

"Ooooooooh, now wouldn't that be fun" added in Annie, as she turned her head as well, blowing a kiss to the screen as she did. "Oh, but be careful boys, while you may like our big, full breasts, you may not like what's inside them nearly as much....." she cooed, as she turned her entire body to the PC, Christa following suit, as they both placed their arms straight out in front of them, each of them biting their lower lips with arousal, as they began to hit what would soon become a staple in any and all of their future online videos.

Pump, Pump, Pump went their full and meaty breasts, as the two young girls didn't move a single muscle, other than the flexing of their thick and muscle packed pecs, which caused their lusciously stacked chested to dance and move about with each and every flex. Their eyes were fixed on their nearby camera, staring into its lens with a strong, seductive glare, while their lower lips were being sensuously bitten by their own quivering mouths.

"Mmmmmmm, you love it when a girl bounces her muscular pecs like this, don't you?" Annie playfully asked into the camera, as she continued to flex and move her own young, firm and perfectly shaped breasts up and down, back and forth, to and fro.

"Oooooooh, I know they do Baby. We know you guys love young girls with big, round, firm breasts....." she erotically spoke, as her chest bounced and danced with each and every pump of their muscles, ".....but we know what else you like, what do ya say honey?" Christa cooed over to her partner in crime, as she raised her hands up to her T-shirts extremely low cut neckline, watching as Annie gave off a sexy wink, a wide smile and did the same herself.

Then, with a slow, sensual display of their powerfully athletic young bodies, the both began to rip their nearly bursting shirts clean off their bodies, revealing their teenage forms in all of their muscle packed glory from the waist up, with only a soft, frilly pair of lace bras visible to cover their massively muscular breasts. Their amazing shape and incredible curves clearly showed off their many years of athletic training and sporting events, especially their weight training which seemed to accompany them all, as not only were they both showing more than obvious signs of muscular cuts and definition throughout their solidly built frames, but they also had very impressive size to go along with it. Annie and Christa loved to push their bodies as far as they could, so they routinely trained with heavy weights in any and all of their exercises. So much so that they could, and did, out-lift all of the boys in their school weight room, all of them being several years their senior in age (2 of them being their very own boyfriends).

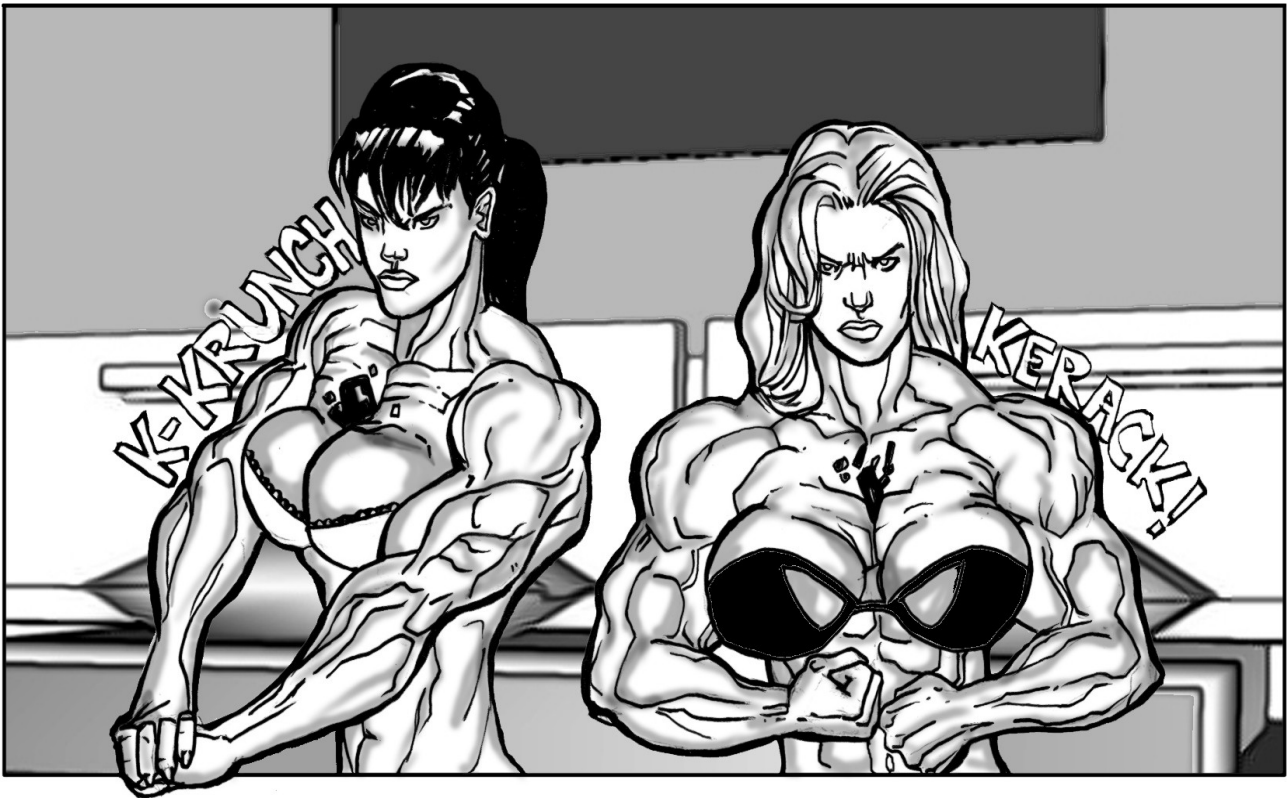

"Ooooooooh yeah, I bet you've all got a good view of these thick, meaty breasts now, eh boys?" chirped out Christa in an extremely cute and girlish tone.

"I think with this much muscle on them Baby, we need to call them by their correct name. PECS!" Annie giggled out erotically, as both of these teenage hardbodies continued to play with and tickle their still pulsating chest muscles, which seemed to be thickening and hardening with each and every sensuously muscular flex.

"Still think you'd like to see more of our babies?" Christa cooed into the nearby camera, biting her lower lip with arousal as she did. "I hope we haven't scared you little boys away with all of this thick, hard, solid mmmmmmmuscle?" she continued in an amazingly sexy voice, moving her hands all over her upper body, tickling her rippling stomach, flowing over her muscularly capped shoulders, cupping her massively hard chest, as she turning her head slightly to her Sister In Muscle to watch her do the same.

"Mmmmmm, that's right Baby, because as Hot as these muscular chests are making you all, and as much as you'd die to be nuzzled inside these thick, beefy breasts of ours....." Annie followed up, as they both reached off camera to pull their hands back seconds later, each of them holding a cell phone within their tender, though powerful, grasp. ".....you'd better watch out, as they can also be not so nice when we want them to be. Hee hee hee" The two musclegirls giggled aloud, as they each seductively traced these phones up their rippling hard and clearly ridged stomachs, moving them up their super fit bodies even higher to their final resting place, snugly tight inside their all enveloping meaty muscle tits.

"Kevin, and I KNOW you're watching this, I found your cell phone at my house the other day. You know the one you lost, the one you so stupidly left Active, the one whose Call Archive was set to Tara Smith's phone number, which you happened to call every night for the past 3 weeks! Grrrrrrr!" Annie furiously growled out, as her muscle packed chest seemed to expand even more, fully encasing this entrapped electronic device within its mighty, muscle prison.

“And Stephen, yep, you guessed it, this is your phone, Honey” cooed Christa in a soft, yet threatening manner. “And guess who called before I could return it to you? That’s right, Melanie Brown, that skank from Biology class.....only she wasn’t calling for homework tips, no she wanted to know if your date for tomorrow night was still on.....the same night you canceled plans with me because of a “family outing”. Grrrrrr!!” Just as before, this was also followed with a growing and thickening of this teenagers muscle chest around its engulfed phone, and just as with Christa’s, it was now completely covered in hard, rippling muscle, totally gone from view.

In fact, so engulfing were their thick pecs around this outclassed devices that if one hadn’t seen them sexily place them in there in the first place, you wouldn’t even know they were there at all – until the Crackling sounded. Until the Snapping and Breaking and Crunching sounds that emerged from their perfectly shaped, amazingly powerful breasts were heard, signaling the end of their one time boyfriend’s prized cell phones, not to mention the end of their current relationships, and as soon as these young Amazons could help it, the end of their bones being unbroken as well.

“We’ll be seeing you soon boys, and when we do.....”

“What we just did to your phones will seem like a dream compared.....”

“To what we do to YOU!” they both roared out in unison, using their muscular chests to destroy the objects within their steely grasp.

This amazingly sexy threat by these two incredibly beautiful young hardbodies was followed by a series of loud, girlish roars from them both, as their pecs gave a few final crushes on their target items, which emitted a few final cracklings of life, before they released their all powerful hold and sexily removed this now demolished device from deep within their ultra tight cleavage.

“As for the rest of you, let that be a lesson to never cheat on a girl who’s stronger than you, a girl with strong, sexy muscles” sexily spoke Christa.

“Or she might just have to break up with you - the Hard Way!” erotically growled Annie. “Now, we hope you enjoyed our little.....”

BANG!

“What the heck is going on here!!” yelled out a boy’s voice from behind, as an older, taller young man could be seen bursting into their room, rudely interrupting the conclusion of their latest super sexy Viewtube clip.

“Ted!!” both girls yelled out in unison, easily recognizing this intruder as Christa’s 19 year old brother, Ted. Unfortunately, this sudden surprise caused both of these young girls to jump up, with one of them clicking on the END button on their nearby computer, concluding their clip before its time. “Look what you made us do!!” they yelled out in anger.

“Don’t give me that, I know what you guys are doing, and you’re both So Busted! I couldn’t believe it when Dave told me the other day that you two were spending all of your “in your room, girl time” making Rated X videos for the internet. HA, Mom and Dad are gonna love this Christa, and I don’t imagine your parents taking it any easier on you Annie” he spoke out with a wide grin, almost as if he was taking pleasure in the thoughts of these two girls getting in very severe trouble. “I caught you both red handed, and now I’m gonna.....”

"Shut Up!" both Annie and Christa yelled out in anger and frustration, interrupting Ted as he had done to them just seconds before. They then did a very odd thing to this older, taller (though visibly thinner) boy before them, they turned to one another and smiled. Each of them knowing what must now be done, each of them grateful for the fact their both of their parents were spending the night out together, leaving them alone in the perfect setting for what they had planned next.

"Do you have any idea what you've done?!" Christa yelled out at her older brother, as she and Annie began to make their way over to him, who in turn, was backing up, now clearly intimidated by these two young Amazons, whose very exposed bodies were clearly bulging and throbbing with steel hard, rock solid, muscle.

"You ruined our best video clip Ever!" scolded Annie, a look of venom in her young eyes, as she and Christa now began to flex and further harden and expand their own muscular forms. Their lats and back now appeared so wide that it looked like it was about to burst their lacy bras off any second, something that wasn't helped by their now pulsating pecs, which were already pushed to their limits from their previous physical display. Their thighs even at rest were clearly firm and thick with strong young muscles, though now the striations and cuts shown upon its ultra shapely frames was more than anything Ted had ever seen on either of them before. Even their always impressive and visible 6 pack abs now seemed to burst forth with additional muscular strength and hardness, making this foolish young man wonder if even his strongest punches would have a chance against such natural armor plating. Lastly their glutes, while Ted couldn't see these perfect pairings of bowling ball shaped lusciousness from his side, he could hear the slight tearings of these girls tiny little baby girl panties, which were being pushed beyond their limits by the growing expanse of such voluptuously thick and muscle packed bottoms.

Ted would now have given anything to have taken a different course of action this night, even if it was a Peeping Tom attempt on these two super hot supergirls (as even his own sister looked just too Sexy to be ignored) let alone her childhood best friend, whom he had always had "a thing" for. Though unfortunately for him, he had only one course of action now, and that was to play the part of the older, superior brother, the man in charge when their parents weren't around, and try to intimidate them back as they were obviously doing to him.

"I don't care about your stupid videos, which you shouldn't even be making as it is! Who do you think you are that you can raise your voices like that to me!" Ted yelled out at these two approaching young athletes, as they stopped just shy of his own visibly threatened form. "Now, I'm going to go back downstairs and wait for our parents to come home, then I'm going to tell them about their daughters and their internet porn antics, and there's not a thing either of you can do to stop me!" he barked out, as he planted one of his hands on each of these teenage girls upper chests, giving them a hard push backwards, causing them to fall onto Christa nearby bed.....or so he had it planned out in his mind anyway.

He did indeed threaten these two girls with exposure of their sexy online fun, just as he did forcefully place his hands on their physically firm chests, but that is where his plan came to an end, as so steel hard were Annie and Christa's athletically trained physiques that neither of them moved an inch from Ted's pitiful little attempt to do so. In fact, so easy was it to resist his pushing, that they decided to do something else that they knew would throw him for a loop. Flex, Flex Flex went their thick, meaty muscle tits, just below his still pressing hands, which caused him to jump back in surprise and shock, not to mention a certain part of his body to jump up with untold lust and arousal.

"Nothing we can do to stop you, eh big boy?" Annie cooed out sexily, flexing her body even more with rock solid muscle.

"Something tells me we've just found our next Viewtube angle, eh Baby?" Christa cooed as she made her way closer to her older brother yet again, sandwiching his body to the nearby wall of her own room with her thick, beefy pecs.

"You took the words right out of my mouth, Sweets" Annie breathed sexily, as she too made her way forward, entrapping Ted's taller, though vastly weaker, form against the hardness of the wall behind him. As these two teenage Amazons kept on pushing, his chest and lungs were being squeezed to its breaking point, which easily caused any air he had within to be forcefully pushed out, leaving him weaker and more drained by the second. This continued until he was reaching the edge of unconsciousness, something he had no chance at all to resist, as just these younger girls breasts were harder and stronger than any and every muscle he had in his entire body.

Though so eager were they to try out their new idea, that they didn't want to wait for his return to the land of the living after their forced Nighty Nights, so Annie and Christa slowly moved their bodies away from Ted's soon to be crushed form, causing him to fall like a heap to the floor, holding himself up barely by on his hands and knees, cowering at the feet of this pairing of lusciously shaped, teenage hardbodies.

"Sexy Hardbodies Surprise – Take 2" the two teenage musclegirls giggled out to one another, as they bounced up and down with excitement at what was to come. Acting out exactly as any other anxious young teenage girl would do, though what had just become abundantly clear to the nearly unconscious Ted beneath them was that young teens like Christa and Annie were very few and incredibly far between.....or so he hoped.

VIEWTUBE VIDEO – Sexy Hardbodies Surprise 2

“Hi guys, we’re back, did you miss us?” Annie playfully giggled out with a wide grin on her beautiful young face. “As I’m sure you can tell by the title, and our very familiar outfits, or lack thereof anyway, this is just a few minutes after the very unexpected and unwanted interruption of our previous clip” she continued, taking up the full screen at this time, her shoulders, back and thickly muscled chest (still contained in a soft looking lace bra) all in clear view. “You see, it appears that my girl’s older brother, who we shall call Jerk-Off, barged in here to try and shut us down. He tried to bully us, threatening to tell our parents about all of these oh so enjoyable video clips you guys just Love. That made us both very sad.....” she cooed in a little girl’s voice, complete with full pouting lips and sad eyes. “.....but then we realized we have these....” Annie spoke, flexing her incredibly hard and shapely upper body full of muscle, causing biceps to thicken and her pecs to bounce and move completely on their own, “.....so we thought wed show him the error of his ways, teach him it’s not very nice to bully your little sister and her best friend, especially when they’re both hardbodied teenage Amazon girls. Hee hee hee”

Just then, Annie blew a playful kiss to the camera, and removed herself from her close up view, which revealed her partner in crime Christa several feet in the background, surrounded by all of the décor her room contained, exposing her own rock solid, steel hard and shapely physique to the world, as like Annie herself, she was only wearing a light lace bra and matching panties. What made this reveal so special this day was what she had on her wide, muscle capped shoulders and broad back.....or more specifically, Who.

“Hi boys, did ya miss me?” she out a soft young voice from this newly revealed musclegirl, as she stood in the not to distant area of her own room, her body’s athletically trained, tanned, tight and toned frame in perfect view of the camera, which was now being manned by fellow Amazon Annie, as they often did when they were alternating between shots, making sure to get the best angles and more erotic close ups of their fun little video sessions. “I’m sure you did, but don’t worry, were not going anywhere soon, now are we Jerk-Off?” she teasingly threatened, as she expanded her thick shoulders, pulling down on the backwards held form of her older brother, and giving off a wide smile as he was screaming in pain by this teenage supergirls expertly positioned Back Breaker hold.

"Careful girl, you know I don't want him too damaged for what I have in store for him next" teased an off camera female voice, followed by another series of girlish giggles, as Annie zoomed in their online digital camera across Christa's powerful young frame, capturing every inch of steel hard muscle, and every tear coming from her brother's pain-wracked face.

"Don't worry Babe, after all those years of athletics building this body of mine Hard and Strong, something I'm sure you can relate to, I know how to control every single inch of this sexy, muscle packed physique of mine.....speaking of which" she cooed out, as her beefy muscular chest started to bounce and dance around, all the while she continued to hold her brother helpless across her strong, wide back.

"Ahhhhhhhhh! Please! Please let me down, Arrrggghhhhh!! I won't, I won't tell anyone anything, just please.....Ahhhhhhhhh!!" screamed out Ted, as he was being bent backwards over the back and shoulders of his 2 years younger sister, who was doing so with such ease that he may as well have been a towel draped over her power packed physique.

"Oh stop being such a big baby you, I'm barely even putting any pressure on.....you wanna see what bodies like ours can do with a little pressure, do ya?" Christa spoke out in a teasing voice, as she gestured to her behind the scenes partner. Annie then popped into view, holding a recently retrieved rock melon, which she gleefully placed inside Christa's own thick and shapely thighs, bouncing like an excited schoolgirl off screen as she finished.

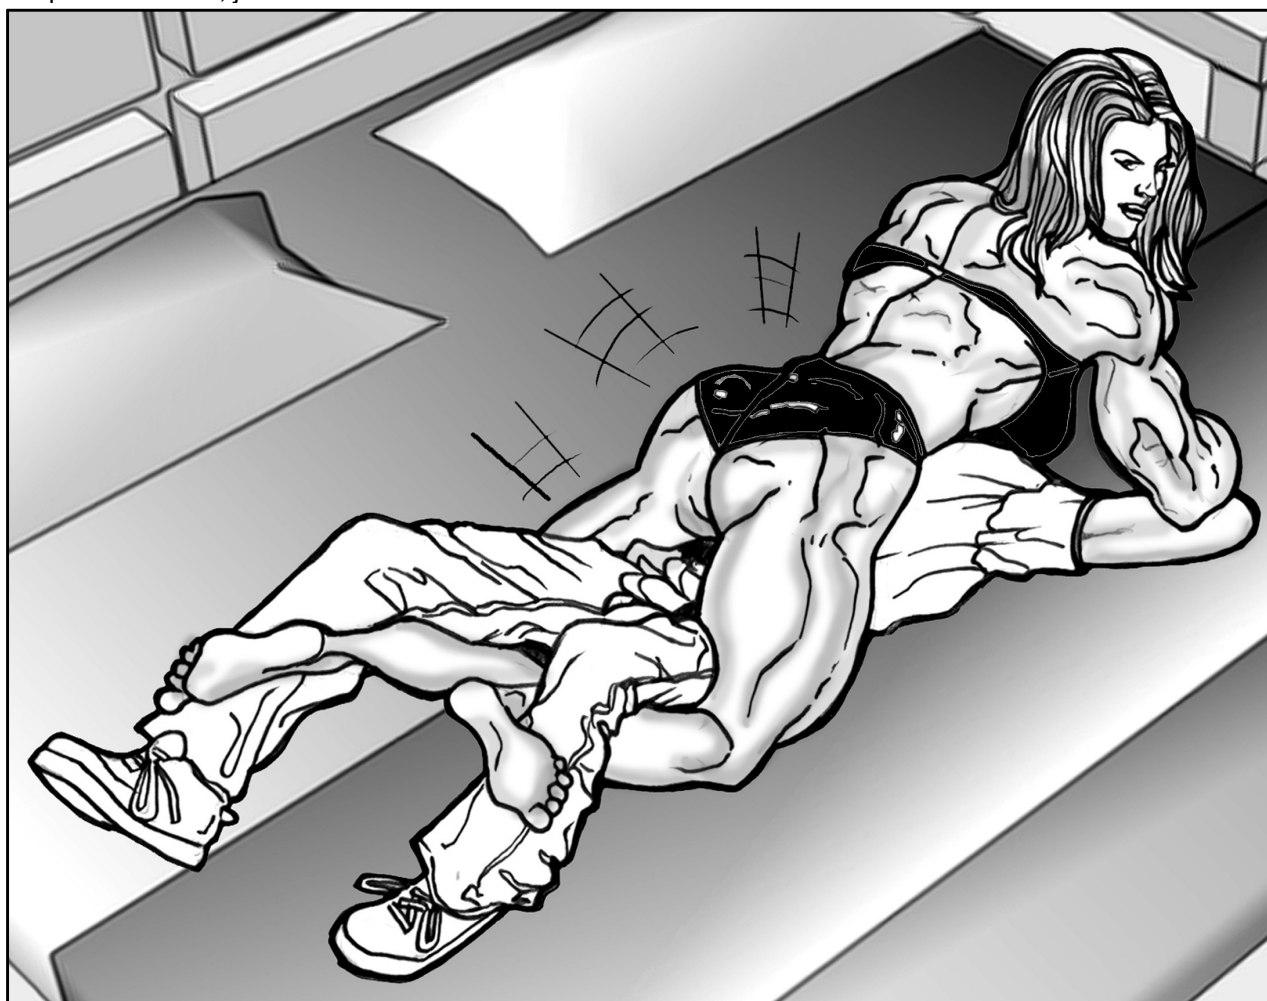

Christa stood powerfully in full view, her brother helplessly held across her shoulders, an ultra durable melon trapped within her thighs, a look of enjoyment and arousal over this young supergirls face, as Annie's voice softly spoke out from off camera in words that would blow the minds of anyone who would soon be watching - with the exception of one, Kevin Anderson, Annie's soon to be ex, who would watch this video for the first and final time later that night, with the only emotions flowing through his teenage body more than lust, being complete and total Fear.

"You see that rock melon Kevie? That's about the size and hardness of your head, with as much empty space inside as your skull as well. Mmmmmmm, I know you love it when I wrap my tight, toned legs around you, holding you tight, cuddling with you for as long as you wanted.....well, let's see what you can look forward to from my sexy thighs Now!" Annie scolded, as Christa began powering down on her legs, squeezing them together, causing their unreal firmness to move closer and closer to each other, which created near immediate and very visible affects to the once proud melon enveloped within. Crack, Crunch, Snap, Sploosh came the sounds from this nearly rock hard fruit, as this teenage Amazon's legs showed little mercy to its hardness, smashing its form to pieces within her thighs (from a standing position no less), showing all of her viewers (especially Kevin, her brother Ted, and her own soon to be ex Stephen) the true power of her silky smooth, yet steel hard legs.

"Oooooooh, now that didn't end too well for the rock melon, now did it Kevin?" spoke out Annie from behind the camera, who was relishing in this latest and easily greatest of their Viewtube streaming videos. "And if you think just because I wasn't up there doing it, if you think that my thighs don't have that same level of power.....Mmmmmmm, well, think again!" she angrily spoke out, as she came back around in front of the camera (Christa graciously moving away to allow her best friend all the space she required), as the young red-headed muscle beauty began hitting powerfully posed leg shots, as if to further show Kevin exactly what he was in for, and how afraid of her he should really be. Once firm and shapely legs swiftly turned into pillars of stone and steel, each of them containing more than enough strength to give a world of pain to anyone she wished, while sexy and lusciously curved enough to make anyone want wrapped around them all the same.

After another few seconds of the most erotic/intimidating legs flexes one could hope to see, complete with stern glares from Annie's glowing green eyes, Ted's body came flying from off screen, giving a little yelp from his terrified mouth, as he landed on the full, spacious bed just behind Annie's threatening muscle shots.

"He's all yours babe, just don't do anything permanent, you save that up for Kevin, and the rest is all up to you" came the girlishly teasing voice of Christa from behind the scenes, as it was now her turn to man her computers camera, just as it was for her fellow Amazons to have her fun on screen.

With the ferocity of a jungle cat, Annie pounced on top of Ted's overpowered form, straddling him from above on her friends soft and frilly bed. Her hands grasping his around his wrists, holding him tight and stretching him out far away from his body. While her legs powerfully wrapped around his own, entwining his entire body around hers from above, in a perfectly executed, and amazingly sexual looking, Grapevine Hold.

"You see this Kevin? You remember this hold, because I'm gonna do it to you all night long when I see you next, and unlike poor Jerk-Off here, I'm not going to be holding anything back with You!!" she growled out, as she began to pour on the pressure of her vastly superior female form, causing Ted to yell out in pain and agony yet again, Christa's expert camera handling getting all of the best shots for their clip. "You remember this hold, don't you? You know how much pleasure I could bring you in this same hold, when I was holding back, when I didn't let loose with my body's hard, sexy muscles. Mmmmmmm, you just wait til later and you're really gonna see what sex with a Teenage Amazon Girl is like, Grrrrrrrrrr!" Annie roared, causing her body to harden even more, and causing her best friend's older brother to yell out yet again.

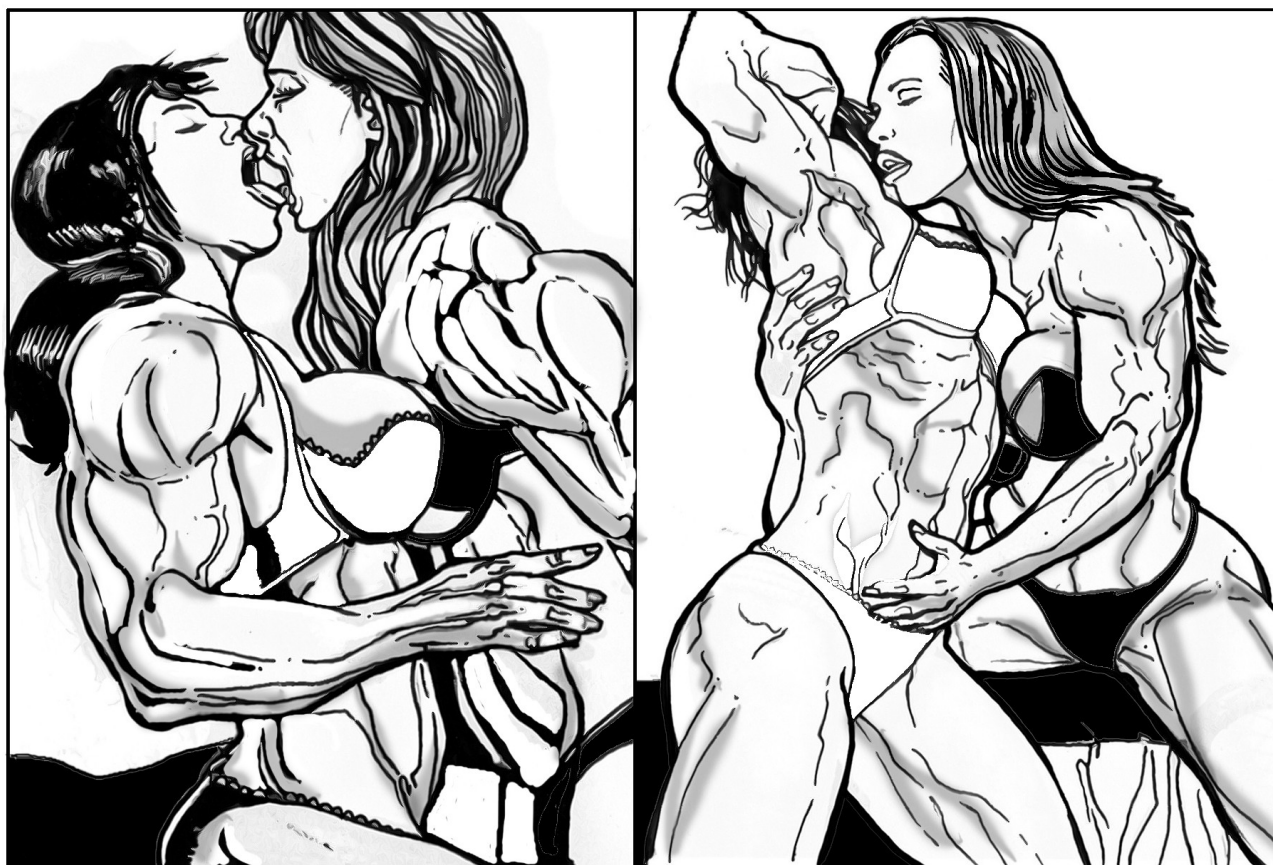

Her body looked as perfectly shaped, silky smooth, and femininely curved (yet extremely muscle packed) as any that you could imagine, as her lusciously rounded glutes kept rising and falling, crashing down on this man's already stretched and bent out form time and again; harder and faster with each passing second, which caused her thick and voluptuously muscular form to expand to even greater heights (something that didn't bode well for her tight pair of lacy panties, which continued to rip and tear under the strain of her poundingly hard hip slams)

"Looks like Kevin's in for some sad times ahead, isn't that right Stevie? Well, if you think you're feeling sorry for Kevin now, you just wait til you see what I have in store for You!" growled out the sexy young voice of Christa from off camera, which was followed by her soft, sultry motionings moving on screen yet again. Though she was blocking most of what was happening on the bed behind her, the harsh slappings of flesh to flesh, the young feminine grunts and roars, and the whimpers and beggings of a boy several years her senior, could more than tell the tale of what was happening nonetheless.

"Though I think I'm gonna be a bit different, and maybe get these babies into the mix for Our fun time, eh?" she sexily made out, as she hit a very powerful looking Double Biceps shot, which flared and hardened her arms, chest, shoulders and lats to incredibly impressive levels. "Or maybe, I could use these babies on ya? Have a little back-door foreplay with that skinny little stick of yours deep inside my big, round muscle butt, while I pump, pump, pump it clean off your body. Smoosh it to pulp inside these bowling ball glutes of mine" she cooed, as she turned around to gave the camera an excellent shot of her lusciously hard butt, using her muscle control yet again to cause them to bounce and flex and move all on their own, showing off not only her full body's control, but the amazing shape and incredible hardness of her ultra firm ass.

"Or maybe, you'd like a little more chest action? Maybe you'd like to get a bit closer to these big, luscious pecs of mine? Lord knows your cell phone couldn't get enough, I wonder how you'd feel if I gave the same treatment to your head.....both of them. Hee hee" she sexily teased, as she turned back around, crossing her arms in front of her already pumped up muscle tits, causing even more rippling muscle to appear on their thick, wide frames, before she exerted her amazing muscle control again by making them move, this time alternatingly like a set of powerful pec pistons from the well-oiled machine that was Christa's physique.

She continued this mighty muscle display for several more seconds, the sounds of Annie grunting and growling along with Ted moaning and groaning behind her clearly being heard the entire time. Annie, noticing that her outclassed victim was nearly hip-thrusted into unconsciousness, something she didn't want to happen just yet as she had something special planned for that here, bounced off the bed with an expert gymnastics skill and agility, landing perfectly on her feet right next to Christa's powerfully posing form. She then joined in with her Amazon "sisters" muscled packed show, as the two teenage hardbodied super athletes spent the next minute or so flexing, pumping, expanding and hardening their already clearly muscular physiques to truly amazing levels. Their posing was done with incredibly slow and erotic movements, showing off their amazing levels of grace and flexibility, most of the time switching from pose to pose with sensual style and soft fluidity. Though those movements were the only things that were soft when talking about these girl's frames, as their young bodies now looked like sculpted marble, femininely shaped stone, and were probably just as strong.

It wasn't long before their poses began to involve erotic interaction with one another, each of them moving their muscle hardened and perfectly shaped forms from one side of their partners to the other, softly touching and tenderly caressing each others super sexy physiques as they passed by. Whether it be a series of soft kisses all across Annie's wide back, or some sensual licks over Christa's now 8 pack abs, to sexual gropes, arousing touches, and sensual ticklings of each others rock solid bodies, it was clear as day that they were both getting more and more turned on as this latest video clip went on. Ending (as they videos often did) with their tight, toned, steel firm bodies wrapped around one another, accompanied by the sounds of lip popping kisses and soft and sensual licks on one another's lips.

Though this time they had a third member of their group to join in on their fun, and while it might not have been the kind of threesome their internet fans would have hoped for (being yet another teenage, muscular shaped Amazon girl), Annie and Christa were more than sure they could make it just as entertaining for them (aka sexual and arousing) nonetheless.

So without any further words, Christa went over to her bed where her utterly defeated brother still lay, his strength slowly returning to him during the few minutes Annie had mercifully decided to leave him be, as she effortlessly picked him up in her now baseball sized arms, and carried him over to her fellow muscle packed beauty. Once there, Annie then moved even closer to them both, wrapping her arms around her partner's strong and shapely frame, while Christa did the same to her's, effectively locking Ted in a prison made of silky smooth, super hard female muscle.

Their twin Amazon bodies continued to pulse and pump with muscle, so much so that Ted's form was almost completely covered from view, as only his bruised head could be seen poking out from these all encompassing walls of muscle that held him tight and immobile. While Christa and Annie could think of nearly limitless things they could do to him in this position, from the lustfully sexual to the crushingly bone-snapping, it was what they wanted to do to one another that was all they cared about now.

Almost immediately their erotically charged moans and groans were clearly heard, as their muscular bodies continued to rub, and stroke and grind into each other with unreal erotic passion. Thighs raising up and down against thighs, hands softly touching and teasing biceps, shoulders and rippling wide backs, fingers teasingly rubbing against firm, round gluteal muscles, while thick hard pecs continued to squeeze in against one another – unfortunately for Ted, with his own inferior body trapped inside them.

“Mmmmmmm, your back and shoulders feel so good, Baby. I just love how hard and thick and muscular they are. All those little bumps and bulges of muscle. Mmmmmmm, that so turns me on” Christa sexily made out, as she sensually caressed her best friend's super fit body. Reaching completely around her older brother's visibly crushed form, ignoring his whimpering moans of pain as his much weaker form was being squeezed between these two gorgeous young musclegirls.

“Ooooooooh yeah, and I so love feeling your hard, shapely legs and rock hard butt, Sweetie” Annie replied back with an equally erotic, yet girlish, tone, as she moved her fingers all over her partner's athletically built legs and perfectly rounded glutes. Her lips being licked by her own probing tongue, as she continued to sexily rub down Christa's steel hard physique, just as she was having done to her own. “And don't get me started on that rippling hard waist of yours” she cooed, as she alternated her touches from thighs, to butt, to abs.

“Oooooooooooooo, your touches feel so good on my body, Baby. How do mine feel around these big, baseball-sized guns of yours?” she sensuously asked, moving Annie's bulging arms up higher, coaxing her into hitting another double biceps shot, which was followed by yet another series of erotically moving fingertips trailing every inch of their very impressive size and unreal hardness.

“Not to mention your sexy hard biceps, Sweets. Bring them closer for a few little licks” Annie breathed out softly, as she stretched her head closer to her best friends now flexing arms, as she began kissing and licking its steel hardness, causing Christa to give off a series of sensual moans. “Awwwww, it's a shame we cant rub down our favorite bodyparts though” she then girlishly chirped out in a mockingly disappointed tone, as she flexed her pecs big and wide, causing Ted to yelp out in pain from their rock solid expansion on his outclassed body.

“I know, it's too bad we have something in our way, blocking our big, full chests from touching one another. Ooooooooh, yeah.....stopping our erect nipples from brushing against our thick, muscle tits!” Christa passionately growled, as she too made her chest big and muscle packed, both of these young Amazons smiling to one another, as her brother gave out yet another cry of pec smothering pain.

“Well, I suppose we could get rid of him for a bit, then it's just you and me, Babe.....Oh, and our many fans watching at home, of course” Annie chirped out.

“Of course. Hee hee hee. Well, what do ya think guys? Think it's time for us to have some fun time alone.....ALL of us?” Christa sexily cooed, turning her beautiful teenage face to the camera, giving a seductive little wink as she did.

“Oh, I don't think they would mind.....and neither would poor little Jerk-Off here, isn't that right?” Annie breathed out, as she hardened up her engulfing chest one more time, before thrusting her left pec into Ted's face, causing it to be knocked back as if he was struck from a normal man's fist. Of course with Christa on the other side of her Sister In Muscle, that was exactly where Ted's face was flung towards.....that was until she herself did the same exact thing with her own thick and solidly muscled chest, using her more than ample right pec to smack him in the face, again feeling as if he was being forcefully punched by someone his own age, over having been struck by a single breast from a girl 2 years his junior.

Smack! Crack! Smash! Thud! went the sounds in this room for nearly a fully minute, which consisted of two of the most amazing sets of female breasts Ted had ever seen, mercilessly slamming his face around like a rubber ball with their steel hard roundness. The only sounds more prominent than the whackings of his head, were his own Ooofs and Owwws, and beyond that were the sounds of laughter and giggles from two of the strongest teenage girls around.

“You gonna bother us again when were in this room alone?” threateningly spoke Annie, followed by yet another Slamming of her thick, beefy pecs into Ted's battered and beaten face.

“No....Please No.....just.....”

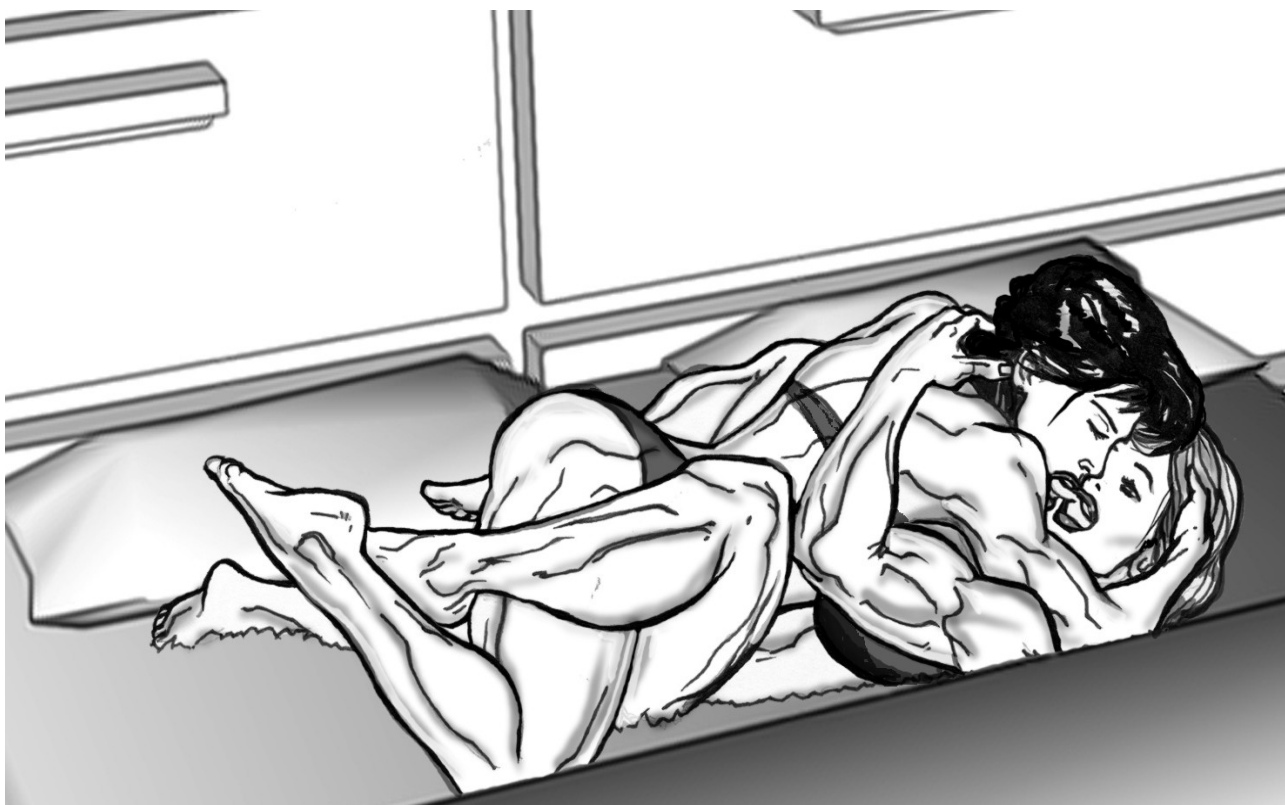

“You gonna tell Mom and Dad about what were doing up here?” Christa swiftly added with her own intimidating words, turning her upper body (and her meaty, muscular chest with it) into her brother's head with another hard Smash!

“No.....Never.....I'll never.....”

"You'd better not, Or Else!" the two teenage supergirls roared out in unison, as they clasped their mighty hands on each others backs and shoulders, pushing their chests even further into one another's muscle packed forms, now completely enveloping Ted's head in a wall of solid, muscular breast flesh. At this point in time his entire body was now completely covered from view, surrounded by Annie and Christa's bulgingly hard and shapely frames, who roared out in girlish laughter at their amazingly dominating, and incredibly erotic, handling of this older boy, who from this day forward would be their more than willing slave.

Another few seconds of this extremely arousing treatment, thrilled at knowing that their entire Viewtube audience would give anything if they could have been him, Ted's barely moving body was now completely still, which caused the two young Amazons to slowly separate from one another, dropping his over-matched form to the floor for the second time this night.....a feeling he would be getting more than used to in the coming years ahead.

Without another word, Annie and Christa savagely dived into one another with incredible amounts of passion. Their levels of lust and arousal well beyond their ability to control, as Annie tossed her closest friend and fellow musclegirl onto the nearby bed, which was followed by her own form flipping on top of her, pinning her down to continue their muscle charged and highly erotic foreplay, complete with long sexy licks, soft passionate kisses, and nearly endless amounts of sexual moaning, all while feeling every inch of each others silky smooth, athletically tight, supremely hard young bodies.

In the end, this pairing of barely teenage Amazon girls created a classic video clip of muscle erotica that garnered more fan attention and cheering replies than nearly any other in Viewtube history.....that was until it was deleted from this popular streaming video site for being "Too Much", an action that caused a huge outcry among their intensely loyal fans, which at that point turned on this site like an angry mob.

Of course this video clip banning angered Annie and Christa to no end, spending the next few days wishing they could get their hands on those Viewtube moderators so they could show them first hand the error of their interfering ways (something Ted was forced to play a substitute for instead). Though as time went on they realized an even better way to strike out at those who had so “unfairly” censored their hard earned clip, by starting their very own Muscle Girl Website, Teen Buff Babes. So, due to the gracious help of Christa's very computer-literate brother, these young supergirls quickly created a place where there were no limitations to what they could do, nothing holding them or their sexy hard muscles back, no rules stopping them from showing off anything and everything they wished (and then some) for all of their massive amounts of adoring, lust filled, muscle loving fans – as well as their all too foolishly cheating boyfriends, whose harsh beatings were captured by these enraged teenage girls played as the first videos on their new, musclegirl site.....though that is a tale for another time.
