

You know I've applied for many jobs, but no one will hire me without experience. If you could help me find a job, that would be perfect.

Andrew, we've been roommates for 3 months now, and I'm the only one paying rent. You need to find a job as soon as possible.

I have an idea, but I'm not sure if you'll like it. One of my friends is looking for a model for their new clothing collection.

What do you mean I have to pose in women's clothing? Couldn't they find a female model for the job?

They still haven't found anyone because it involves long hours of work, although it pays well. Whether you want to or not, you have to accept the offer because otherwise, I won't let you stay in the apartment if you don't pay your share of the rent this month.

Go to bed early tonight because starting tomorrow, we'll begin preparing for the meeting with my friend to make a good impression.

Next Day

Do I really need to wear these pants? They're too small.

Of course, you'll get used to the clothes you'll be wearing from now on. Stop with the comments and start exercising; you need to lose quite a bit of weight.

Next Day

I feel like my body is burning, but at least it will be worth it for the amount of money I'll receive.

Next Day

I admit these clothes are much more comfortable, but do I really have to wear them?

Yes, I took them. I understand I need to lose weight, but I haven't eaten anything except salad all day, and I'm hungry.

Stop resisting and do as I say, it's for your own good. Did you take the vitamins I left on the table? You need to take two each day.

Two Weeks Later

I've lost a lot of weight. How much more do I need to lose before I can start working?

Yes, but my body has changed a lot, and it will be very difficult for me to get back to how I was before.

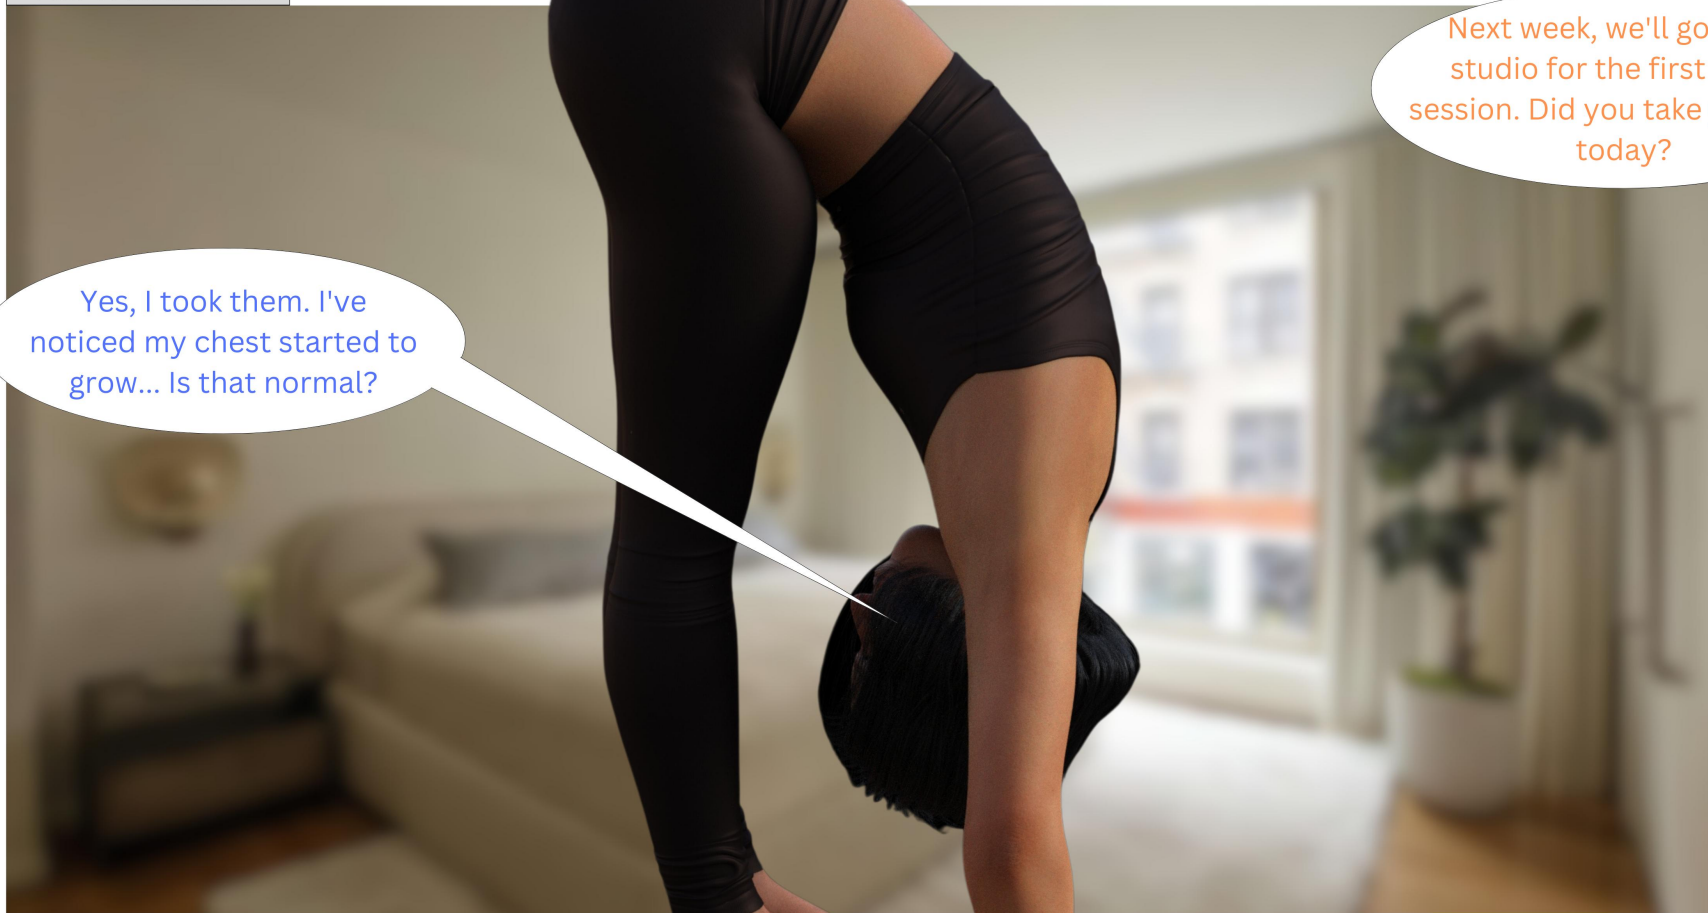

You turned out well, but we still have some work to do. Surely you don't want anyone to recognize you when the photos are published.

Two Weeks Later

Yes, I took them. I've noticed my chest started to grow... Is that normal?

Next week, we'll go to the studio for the first photo session. Did you take your pills today?

3 Weeks Later

Hello, my name is Silvia. I've heard a lot about you, and I believe you'll greatly benefit the company's promotion due to your desire to become a woman. However, before the photo shoot, I'd like to make some adjustments to your hair.

3 Weeks Later

Wow, I look much more feminine now!!

Now let's try on some lingerie to see how it fits on you.

3 Weeks Later

I still look like a man dressed in women's clothing. Are you sure I'm ready?

Yes, you're right. I'll have to start a more drastic programme for faster changes, but for now, let's try a bit of makeup.

3 Weeks Later

OMG!! It makes a big difference, even my nails are painted.

Come back in two weeks I'll prepare a surprise for you, and maybe then we can start the photo shoot. Stick to the schedule I'll give you.

One Month Later

Why do I have to be undressed? What surprise do you have for me?

Wow, you've changed since last time. I brought you a prosthetic to hide your little penis.

One Month Later

Wow, it looks so realistic.
Can I take it off after the
photos?

I mean... you can try,
but the glue usually lasts for at
least 2 weeks. Now, let's try
some outfits and do the
photoshoot.

One Month Later

One Month Later

This one suits you well.
Let's try some poses.

One Month Later

I hope after this photo session to go to the doctor to see what's happening with my body so I can return to normal.

Two Weeks After Photoshoot

Thank you very much for the opportunity and for the money, but I need a doctor to examine my body.

I will offer to pay for any procedure needed because I am the one who pushed you so hard for these photos.

Two Weeks After Photoshoot

At last, after so much time, I can return to my body after Silvia talks to the doctor. Still, I might miss the feeling of clothes that hug my curvy body.

At least now you have the money to pay your share of the rent, but be aware it won't last long. You'll still need to find a job.

After Surgery

What happened to my body? Why do I have bandages on my face, and why are my breasts much larger!?!?

What happened to my voice? Why can't I speak normally?

Surprise! I thought to fulfill your wish all the way and pay for all the necessary surgeries.

I even replaced your prosthetic vagina with a real one. Don't worry, you don't need to pay me anything, but you need to be my model for my next photoshoot.

Two Weeks After Surgery

But I already look very different. What more can you do to make me look even more different?

First, I need to take you to a salon for a drastic makeover. All the guys will be checking you out.

gigle

You'll see, trust me.

Two Weeks After Surgery

I can't believe I'm the girl in the mirror, I've changed so much in the last 2 months... I can't say I dislike it, but somehow I want to go back to my old life but I don't know how.

Two Weeks After Surgery

I'm not sure if I'm ready for that yet. Maybe it's best to wait and see what I do with my life.

You look great, girl. We should go out to a club one evening, maybe that way you can find someone to test out your new body with.

3 Weeks After Surgery

3 Weeks After Surgery

Is this outfit suitable for the club? I hope I'm not showing too much skin!

Andreea, you look like you were born in the club, you're every guy's dream in the club. Now hurry up, Silvia is waiting for you downstairs.

3 Weeks After Surgery

Oh my gosh! Why do the guys
in the club seem attractive to
me???

It's normal, girl.
Look, that guy is coming
towards you. Have fun!

3 Weeks After Surgery

Babe, your perfect, come to my place to show how I can make you feel.

Show me how it feels to have you inside me!

1 Year After Surgery

I like my life now; I work as a model at Silvia's new company, and I no longer worry about money. For a few months now, I haven't been paying rent. I bought my own apartment where I live with my boyfriend Jack, whom I met last year at the club. I am forever indebted to Silvia for the hospital mix-up and for the job she offered me.
