# PLACEBO

BY. POWERDASHC

106 PAGES.

Daniel was getting old, but for the most part he felt like he was still in good shape and healthy. Today he had a Dr. appointment with Dr. Lee for his routinely check up. He was joined by his daughter Sarah and Grand-daughter Katie.

During his ride in the elevator he noticed something different.. Sarah was taller than him! Daniel thought, “I swear she’s taller than me now! Or maybe I'm shrinking!”

Daniel was starting to panic, although it wasn't uncommon for people of his age to experience slight shrinkage. Daniel was starting to get a bit worked up the more he thought about it.

Daniel now paranoid began to blurt out, “Sarah i think there’s a problem I'm shrinking! last i remember i was taller than you! I think when we get off the elevator we ask to see the Dr. immediately!”

Sarah in the middle of an important text replied, “Dad relax! you’re not shrinking thats just ridiculous I’m just wearing heels!”

Katie Just laughed , “Haha oh my god grandpa are you having one of those old people moments?”

Daniel looked down and realized Sarah was right.. She was in fact wearing heels. They were at least 6 inches high, explaining the height difference.

“I mean to be honest the heels I'm wearing today are a bit on the tall side.” said Sarah.
“Yeah no kidding you gave me panic attack!” replied Daniel.
Katie decided to chime in teasing her grandpa by saying, “I don't know grandpa maybe you are shrinking? What if you become the size of a doll? Then i could keep you in my doll house! That would be so cool!”
“Quit teasing your grandpa honey you're going to get him all worked up again!” said Sarah Scolding Katie.

Daniel felt embarrassed about the little “episode” he just had in the elevator and continued to walk with Sarah and Katie to the waiting room.
5

The three arrived at the front counter and were greeted by the receptionist. She instructed Daniel to check in and fill out some paper work on the counter.

Daniel filled out the paper work and began to wait. For some reason today the Dr.'s office was very slow. The three began to grow  bored as they waited.

"Gosh i wonder what's taking so long?" Said Sarah growing impatient.

"Not sure but I'm beginning to get drowsy.." Responded Daniel.

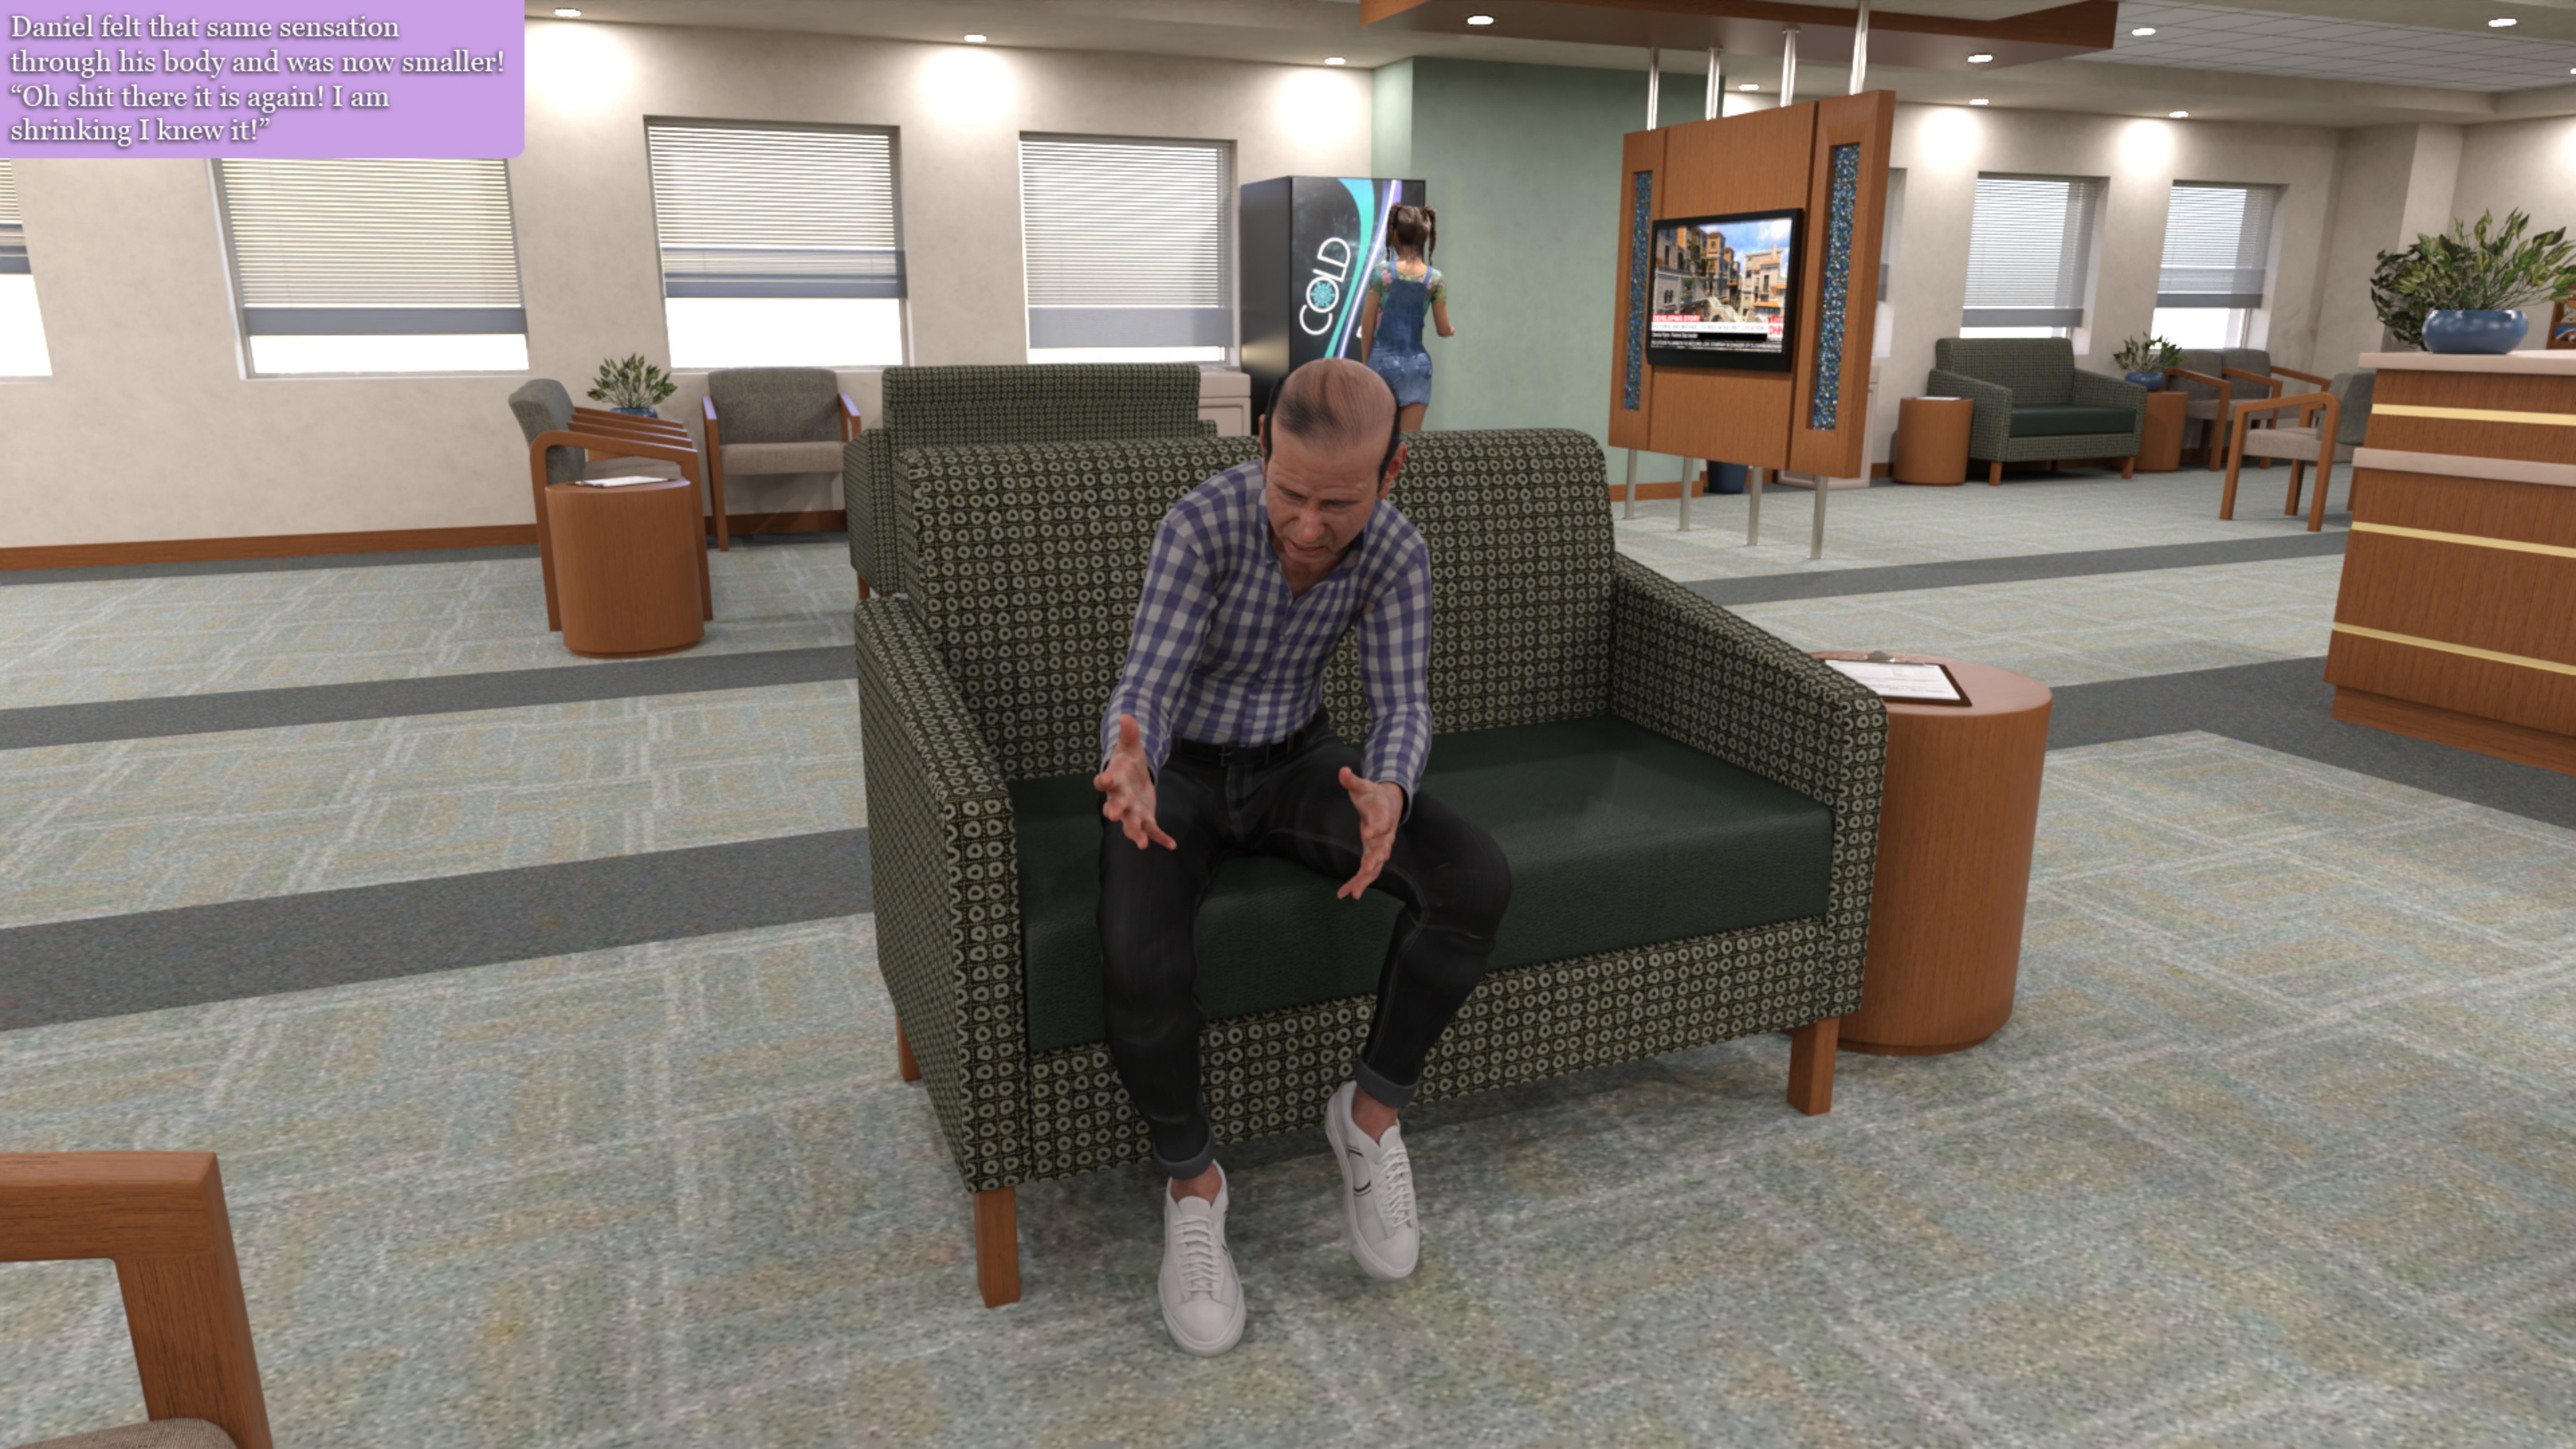

Before he knew it Daniel fell into a deep sleep...
COLD
DRINKS

In an instant Daniel sprung up feeling a weird sensation through his body. After the feeling shortly went away and everything was fine Daniel began to shrug it off thinking he was imagining things.
COLD
DRINKS

“Hey Grandpa I'm going to get a soda from the vending machine do you want anything?” Asked Katie.
Daniel didn’t even pay attention to what Katie just asked as he was to busy wondering why his grand-daughter now looked so tall.
“Huh? wait Katie something wrong why do you look taller all of a sudden?”

Daniel stood up quickly and realized Katie was now almost as tall as him. “Katie have you always been this tall? you’re almost the same height as me!”
Katie just laughed. “Grandpa what are you talking about I'm the same height i was when we walked in! Plus I'm at that age where I'm starting to get taller! So did you want anything from the vending machine or not?”
Daniel just sighed saying, “Umm yea sure just get me a diet soda sweetheart..”

“Was she really almost as tall as me when we walked in?” Daniel thought to himself. He started to think that maybe he was right and he was in fact shrinking.
And then it hit him....

Daniel felt that same sensation through his body and was now smaller! “Oh shit there it is again! I am shrinking I knew it!”
COLD

Daniel Began to alert Sarah of the situation being very hysterical.
“Sarah I need you to listen to me! We need to tell the woman at the front desk I need to see the doctor immediately! I was right earlier I am shrinking! Just now I felt this weird sensation through my body and now I'm smaller!”

Sarah just sighed and replied, “Dad could you please not make a scene right now, You’re fine I’m sure they’ll get you in soon!”

Daniel was now in disbelief. Why was nobody believing him? To him it should’ve been obvious he was about 5’10 when he came in now he guessed he was about 4 feet tall!
“What the hell is going on....”
He thought.

After Daniel was done trying to tell Sarah about what was happening Katie approached.
“Hey grandpa there wasn’t any diet soda’s left in the vending machine did you want anything else?”
“No no its fine i think i just need some water..” replied Daniel.

Daniel stood up and begin walking to the water fountain. As he started to walk he looked over his shoulder realizing Katie was now taller than him and then panicked even more.

Daniel started walking faster and started thinking to himself.
“Why does nobody realize I’m shrinking? It should be completely obvious! Even Katie’s taller than me now! What the hell is going on..”

Then Daniel began to shrink some more..

When Daniel got to the water fountain he realized he was now too short to use the adult sized fountain.
“What the hell... This is starting to get worse and worse by the minute!”

A woman and a little girl walked out of the bathroom while Daniel was trying to get water. The little girl took notice of Daniel and began to point and laugh at him.
“Mommy look its a midget! He’s so small even I'm taller than him!”
“I'm not a midget I’m shrinking! could you two please help me!”
The woman just stood there in shock since she had just felt embarrassed about her daughter pointing and laughing at Daniel.
WOMEN

The woman just ignored Daniel's plea for help and grabbed her daughters hand while scolding her.
"Honey don't laugh and point at people it's rude! and don't talk to strangers what if he's a weirdo and tried to steal you?"
"Haha Mommy he wouldn't steal me! He's way too tiny I could just squish him."
Daniel wanted to say something back to the tall woman who's legs were taller than he was, but decided there was no use.

After walking back to his family Daniel was greeted by his now towering grand-daughter Katie who had to bend over just to talk to him.
“Hey Grandpa did you get lost you were gone for a long time!”

“Katie! when i went to get water you were only a little taller than me now you tower over me! I was only gone for like 10 minutes!”

Katie responded laughing, “Haha Grandpa what are you talking about? I mean i know I'm growing but you’ve always been that small!”

“Ugh what’s the use..” Daniel thought

Daniel just wanted and answer as to why nobody noticed him shrinking was this a bad dream or something? or maybe he really had been this small all this time?
COLD
DRINKS

And then the shrinking returned...
COLD
DRINKS

“What the hell it’s happening again!!” Shouted Daniel.
He then Added, “Why is nobody noticing this besides me!”

Sarah quickly stood up and approached Daniel shouting.
“Dad! you need to stop! you sound so ridiculous right now! If you were really shrinking I’m pretty sure we would all notice, also your clothes wouldn’t still be the same size!”
“Bu-”
“But nothing! You were just born smaller than everyone else and there;s nothing wrong with that! now just sit down and relax!”

After all the shouting the nurse called out to Daniel.
"Excuse me sir could you come here for a second!"

Daniel quickly rushed to the front desk which he could hardly see over at this point. “Miss please! please tell me the Dr. is ready to see me!”

“Awe you’re so cute!” she responded then told Daniel, “So Dr. Lee is out for the rest of the day but Dr. Hart can see you very shortly! Is that okay?”

“Yea sure anything to get me in ASAP!” Responded Daniel.

Before Daniel walked back to the chairs he decided to ask the nurse a question. “Really quickly miss do you think you could tell me how tall was i when i walked in here?”
“Umm hard to tell really maybe about 3 feet tall? The same size you are right now haha! why do you ask?” She responded.

Daniel didn't Even bother explaining why to the nurse he just turned around and started walking back to the chairs. He started thinking to himself, “What if I’m not actually shrinking and I really have always been this small?”

Then Daniel started to shrink again,
but this time he didn't even realize it...

“Have i really always been like this?”

Shortly after waiting by the couch a woman walked out calling out, “Hello! for Daniel? The Dr. is ready to see you now!”

“Awe! oh my gosh you’re so cute!” stated the nurse.
“Just follow me sir and ill take you to Dr. Hart’s office!”
“Yea okay sure.” Daniel replied.
DEVELOPING STORY
VICTORIA AND MICHAEL TO WED IN SECRET LOCATION

“Daniel followed the nurse but couldn't help but notice how tall she was compared to him. Daniel was about the size of a three year old and only came up the young womans knee. She might’ve been around 5’10 or so but standing next to him Daniel could swear she looked 15 feet tall.
GOAL
LEISURE

When Daniel arrived to the Dr.'s office the nurse asked Daniel if he needed any help getting onto the examination bed. Daniel declined the offer saying, "No no its fine i can get up there on my own! I think..."
THE MUSCULAR SYSTEM
THE SKULL

“Oh no its okay I insist!” said the nurse reaching down to pick up the toddler sized Daniel.

Daniel was embarrased by the fact the young woman could pick him up like nothing but decided to just say, “Thank you.” While she set him down.
“No problem hun!” replied the nurse.
THE SKULL

“Okay the Dr. will see you shortly!” said the nurse as she smiled and walked away.
THE SKULL

“Hmm I hope this Dr. Hart is as good as Dr. Lee.” Daniel thought to himself.

Then the weird tingling sensation returned but more aggressive than before...

Before Daniel knew it he had shrunk almost half the size he was before!
“Damnit its happening again!” He yellled!

Daniel quickly got off his ass and began to run towards the foot of the bed. He planned an escape to get back to the waiting room before he got too small. Which was not the best idea...

Without hesitation Daniel decided to jump and hope the impact didn't hurt.

Due to Daniel's small size his mass was small enough causing his knees and ankles to hardly feel the impact.

Daniel then scaled down the foot rest
for an easy way to get down.

Daniel then began to make a break for it running as fast as he could. In hope he could find his family before it was too late and shrunk to nothing.

Unfortunatly Daniel was headed for the door right when the Dr. arrived. The worst part was she had no idea Daniel was on the floor right in front of him right in her path.
“Oh shit she doesn’t see me! I need to get out of the way before she steps on me!” Daniel said freaking out.

Fortunately for Daniel Dr. Harts shoe didn't land directly on top of him, However it did kick him sending him flying in pain to the floor.

“Oops looks like I almost stepped on my patient.” Said Dr. Hart very calmly
“Hey uhh I was laying on the bed and fell off and ended up here on the floor!” said Daniel nervously lying about how he ended up on the floor.

“Interesting… here let me get a better look at you.” Said Dr. Hart reaching down grabbing Daniel.
“Please be careful!” shouted Daniel.

“So want to tell me why you were on the floor? where i easily could have stepped on you! You weren't trying to escape from here we’re you?” Scolded Dr. Hart.
“No mam! I was just scared! Nobody around me is realizing I’m slowly shrinking and i just panicked I’m sorry!”

"So you were lying to me when you told me you fell of the bed?" Dr. Hart said as she began to squeeze Daniel tighter in her grip.

"Ouch! that hurts stop!" Screamed Daniel.

Dr. Hart just began to laugh at Daniels screams of pain.

“So you think you're shrinking? I think I should be able to help with that.” Said Dr. Hart as she tossed Daniel bag onto the bed like a doll.
THE MUSCULAR SYSTEM

“Hey why did you just squeeze me and throw me like that!” yelled Daniel.
“And yes I’m shrinking but nobody else besides me seems to notice! it’s driving me insane!” Daniel added.

“Oh shit it’s happening right now! I can feel myself shrinking!” screamed Daniel.

Daniel was now about 5 inches tall. He had just shrunk right in front of the Dr.'s eyes but in the back of his head he feared that even then she'd still not realize it.
"Please Dr. tell me you just saw that!" Cried Daniel

“Haha wow! look at how tiny you just got! You’re not even as big as the heel of my shoe! how cute!” Teased Dr. Hart
Daniel didn’t even care that the Dr. Hart was laughing. He was just so relieved that someone else besides him knew he was shrinking.
“Yes! somebody besides me finally realizes! Can you please help me?” pleaded Daniel.
THE SKULL

"Of course I can help you little guy! I know just the thing to fix this!" Dr. Hart said as she reached down to pick up Daniel's little body.
THE SKULL

Dr. Hart placed Daniel on the counter.
“Ouch! That kinda hurt! This counter top isn’t as soft as the bed you know!” shouted Daniel.
SANITIZE

"Whoops my bad!" chuckled Dr Hart. "I'll be right back just need to grab something really quick!"

“I hope this crazy Dr. knows what she’s doing!” Daniel thought to himself.
HAND
SANITIZE

Dr. Hart returned with a huge syringe and her lab coat removed. She began to laugh and tell Daniel, “Alight are you ready little guy this won’t hurt a bit!”
Daniel was frozen in fear.
“Is she really going to inject me with that? That’ll go straight through me!”

“Alright hold still little man!” Dr. Hart laughed as she pressed Daniel’s body down with just one finger while injecting him with the syringe.

Contrary to what Dr. Hale had told him the injection did in fact hurt. As a matter of fact not only did it hurt it as the worst pain he had ever felt. It was like a giant sword impaled his ass, and all Daniel could do was lay there and scream.

“Okay all done!” Dr Hart said to Daniel after giving him a giant sized injection.
“Okay so now what? when should I expect to start growing back to normal?”

“Whoa wait what the hell why cant I move my body!” Yelled Daniel panicking.
“Does this mean its working?”

“What the fuck? Noo I'm shrinking again! I thought you said this would work! Why can’t I move my body still either whats going on!” Daniel screamed in confusion wondering what was going on.

“Haha oh my god I can’t believe you fell for that! I was never going to stop the shrinking! As a matter of fact I’m the one making you shrink! I’m a witch, Ive been the one casting a spell making everyone around you think you’ve always been the size they see you as! Every time you stress out it causes you to shrink even smaller! You’re probably wondering why I picked you, well it’s because you just happened to be the first person i saw walk into the building. It’s nothing personal I just have a slight kink for shrinking down men like you and turning them into my own personal play things!”

Daniel was in so much shock after what the Dr. had just told him all he could mutter were the words, “W- wha- what?”
Dr. Hart just laughed and picked Daniel’s limp body of the counter telling him, “Oh shut up little bug just come here.”

After picking up Daniel's body she dropped it into one of her empty jars she had on the counter.

Dr. Hart then began to walk away laughing manically saying,
“Don’t go anywhere tiny man I’ll be right back I’m just going to go change into something a little more comfortable!”

Daniel just laid there on his stomach completely helpless.
“Oh god what is going to happen to me? What is she planning on doing with me?”

After a few minutes Dr. Hart returned completely nude. “Well do you like what you see little man?” she said as her giant naked body towered over the glass jar. Daniel’s jaw just dropped he just stared up at her like a giant goddess. He had nothing to say he just laid there scared for his life but also aroused.

Dr. Hart picked up the glass jar smiling telling Daniel, “Alright I’m ready to have some fun with you!”

Daniel just continued to lay on his stomach looking up and drooling.

Dr. Hart poured the jar onto her hand causing Daniel to fly onto her hand like a tiny rag-doll

“Miss please! I think you’re very beautiful, but please stop this I won’t tell anybody what happened if you return me back to normal I swear!” Pleaded Daniel.

Shortly after begging for mercy Daniel began to shrink even smaller. He was now barely over an inch tall!

Dr. Hart started laughing at Daniels begging and crying. “As if I'd just let you go! You’re my toy now! If i were you I'd try and watch the stress too, you wouldn't want to shrink too small now would you? Then how would I be able to keep you as my plaything?”

“Okay no more talking I want to play with you!” Said Dr. Hart dropping Daniel on to her breasts laughing.

Daniel bounced off Dr. Harts boobs and fell right in between into her cleavage.
“Haha don’t worry little guy I'll catch you!” she said smiling squishing Daniel in between her breasts.

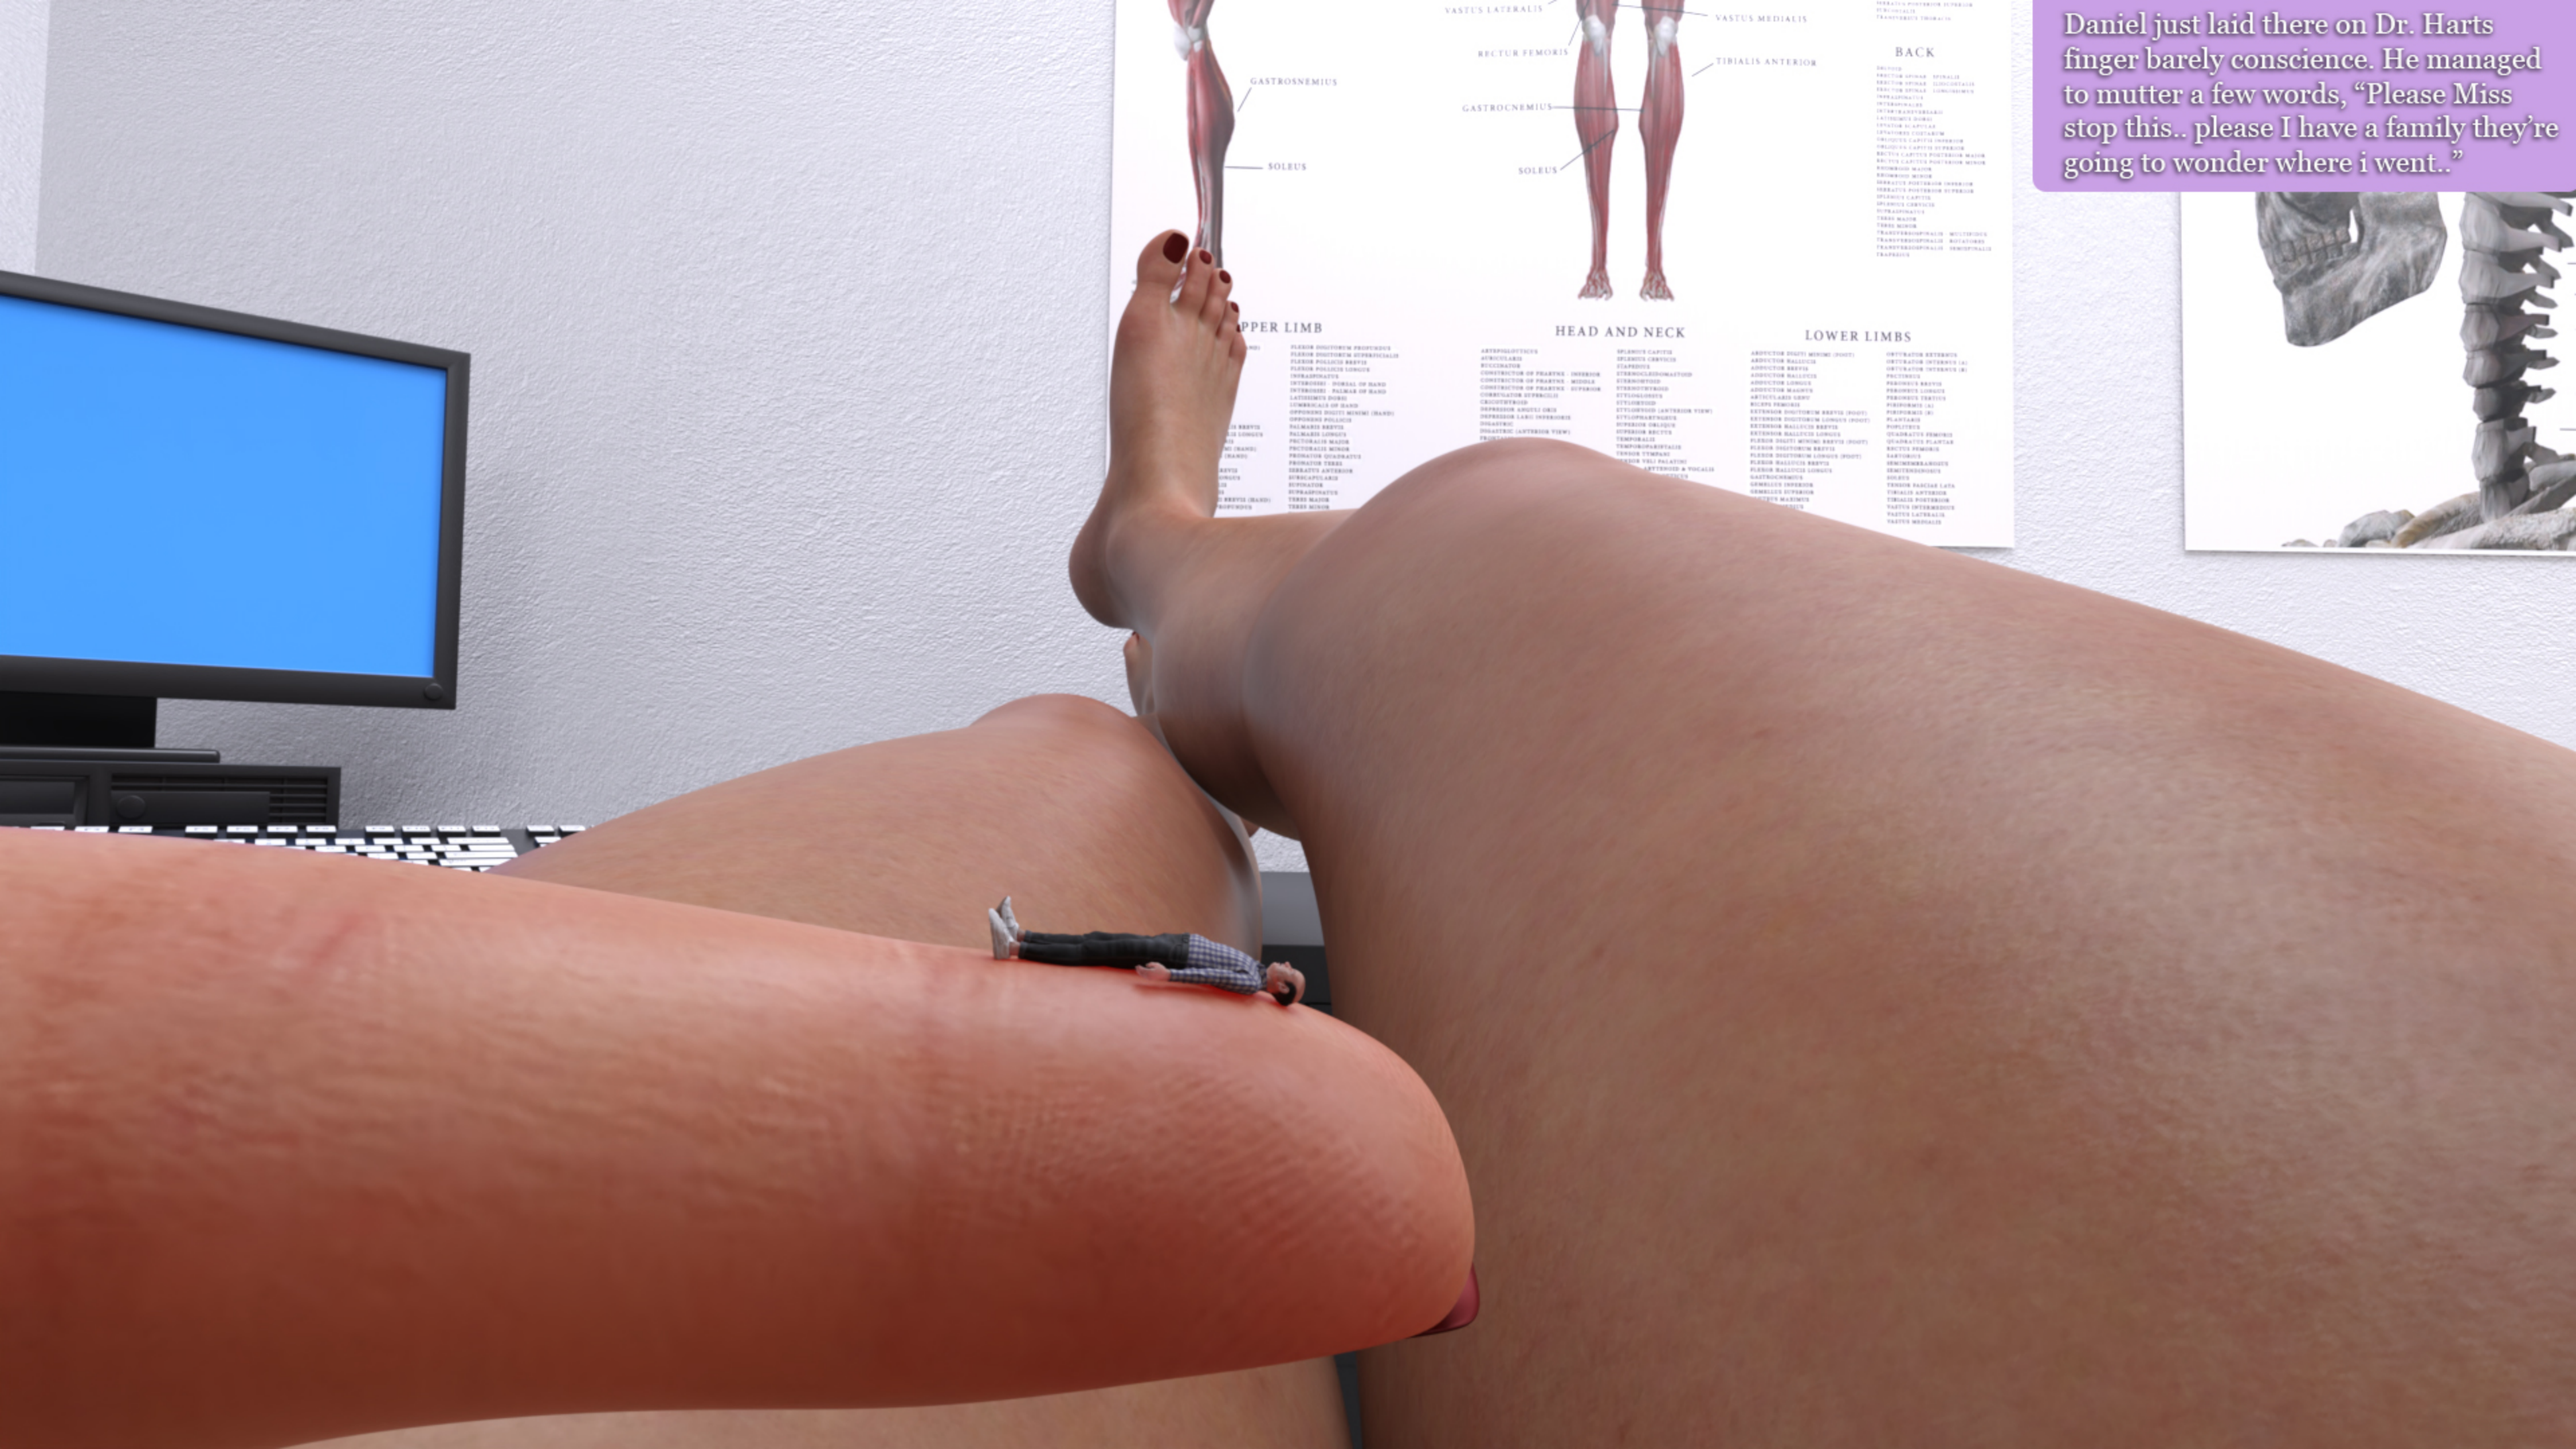

Dr. Hart then spread her breasts apart causing Daniel to fall again. Unfortunately Daniel still had no control of his body so just screamed unable to brace himself for impact.

While Daniel fell his level of stress began to rise. Resulting in the sensation in his body to return...

Daniel shrunk down to about half an inch tall roughly the size of a bug.

Luckily for Daniel Dr. Hart's belly button depth was just enough for him to fit inside and squishy enough to not cause him any serious pain.

“Come here little bug I’m just getting started with you!” She said sticking her finger in her navel fishing Daniel out of there.

Daniel just laid there on Dr. Harts finger barely conscience. He managed to mutter a few words, “Please Miss stop this.. please I have a family they’re going to wonder where i went..”

Daniel's pleas we're useless since he was too small for Dr. Hart to hear. She then started to stick Daniel in between her toes.
"Looks like you're already tired out! I got an idea why don't I stick you in between my toes. They're really fragrant after having them inside those tight heels I've been wearing all day! That should wake you right up!"

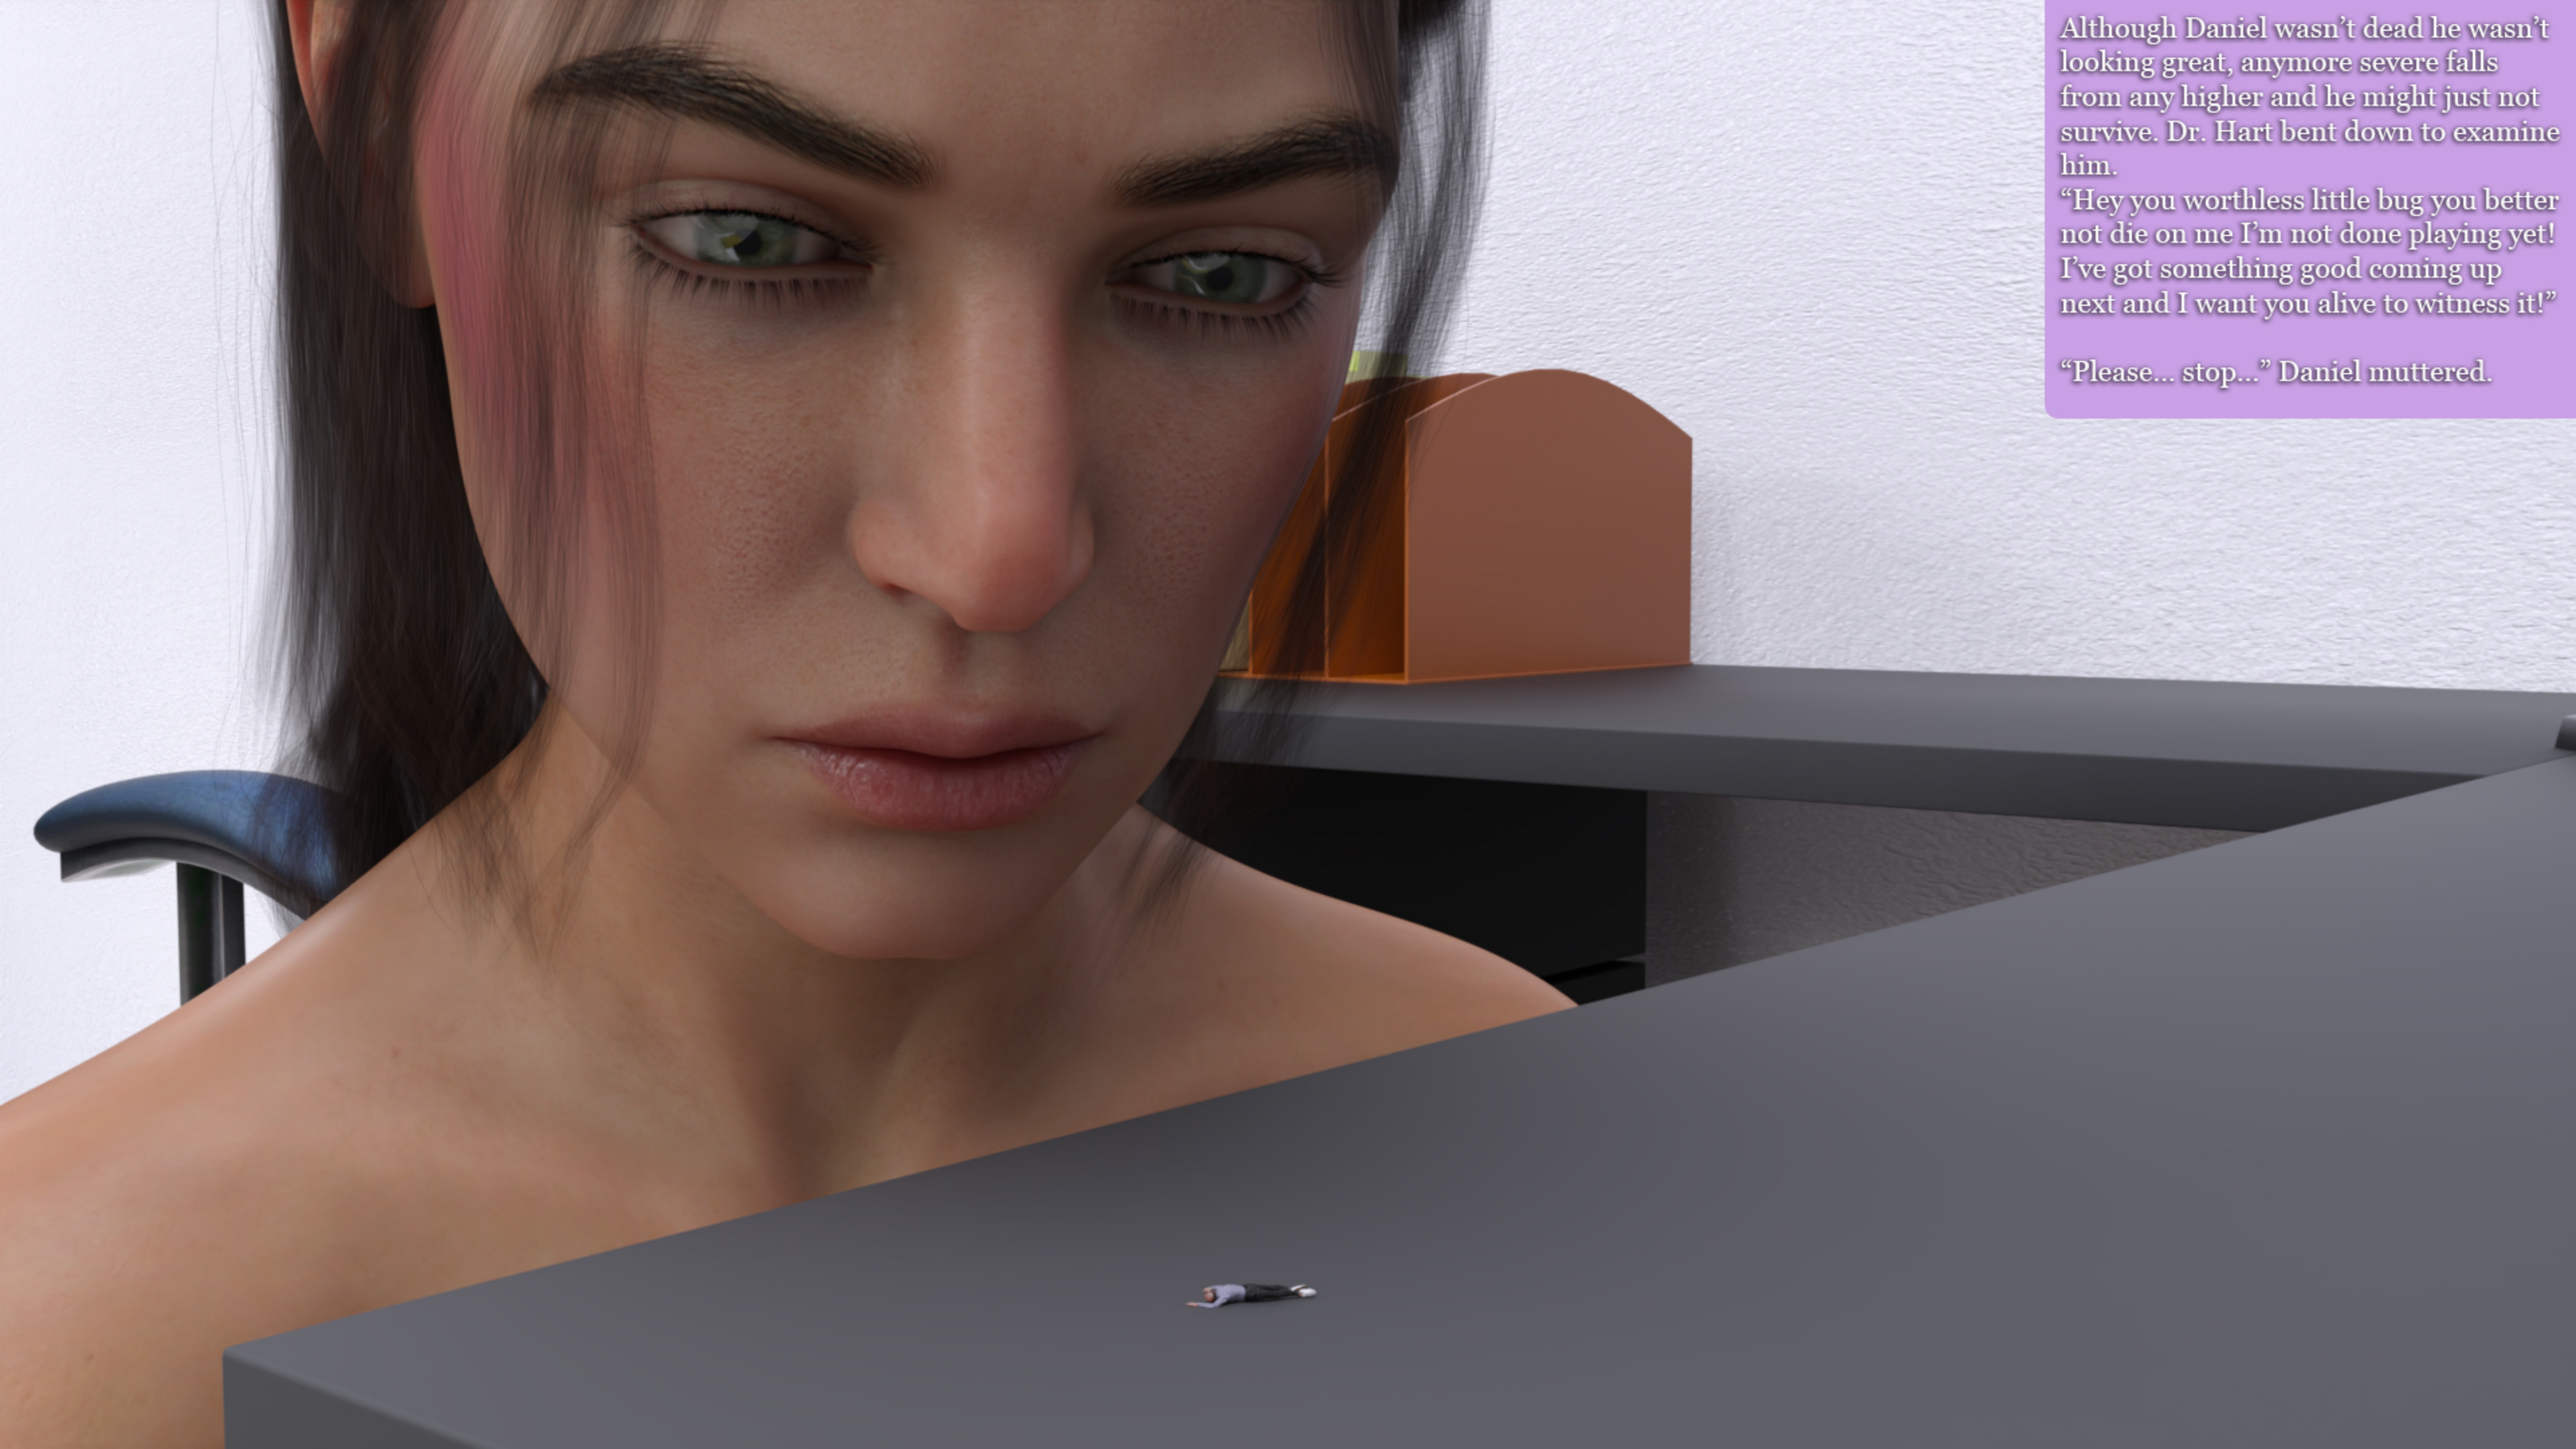

Dr. Hale squeezed and crushed Daniel in between her big toe and second. The pain he felt was unbearable, not to mention the strong odor coming from in between her toes. Daniel let out a series of cries, “Ouch! Please stop! You’re crushing me! Please miss stop this you’re going to kill me!”
But it was no use Daniel was too small to be heard. Even if she had heard him the odds of her stopping her slim to none.

After becoming bored of playing with tiny Daniel she decided it was time to move on to the next part of her plan. “Okay Bug that’s enough foreplay for now I think its time to move on to something a little more fun!”

Dr. Hart then proceeded to release her grip around Daniel's body from between her toes. The fall in reality was only about 5 inches, but to Daniel it was equivalent to falling off a three story building.

Daniel hit the counter top pretty hard. If he had fallen that high normal size he'd have been a big red splat dead on the ground. luckily for him he was just in a great amount of pain. He tilted his head up to look and see his surrounding but was eclipsed by Dr. Hart's ocean liner sized foot.

Although Daniel wasn't dead he wasn't looking great, anymore severe falls from any higher and he might just not survive. Dr. Hart bent down to examine him.
"Hey you worthless little bug you better not die on me I'm not done playing yet! I've got something good coming up next and I want you alive to witness it!"

"Please... stop..." Daniel muttered.

Then Daniel shrunk again...
“Haha at least I know you’re conscious and can hear me! Awe does that make you nervous? If i were you I’d stop stressing you’re already the size of an ant now!” Teased Dr. Hart.

Finally Daniel decided to give up his screaming and pleading for Dr. Hart to stop.
“Fine I give up! Do whatever you want with me! I’m done trying I just want all of this to be over!” Daniel cried

Dr. Hart saw Daniel's mouth moving but again she couldn't hear him. She just laughed and responded to him saying, "Shut up little shit I can't hear you, but hold still I'm going to pick you up now. I wouldn't move if I were you it would be too easy to chop you in half with these tweezers."

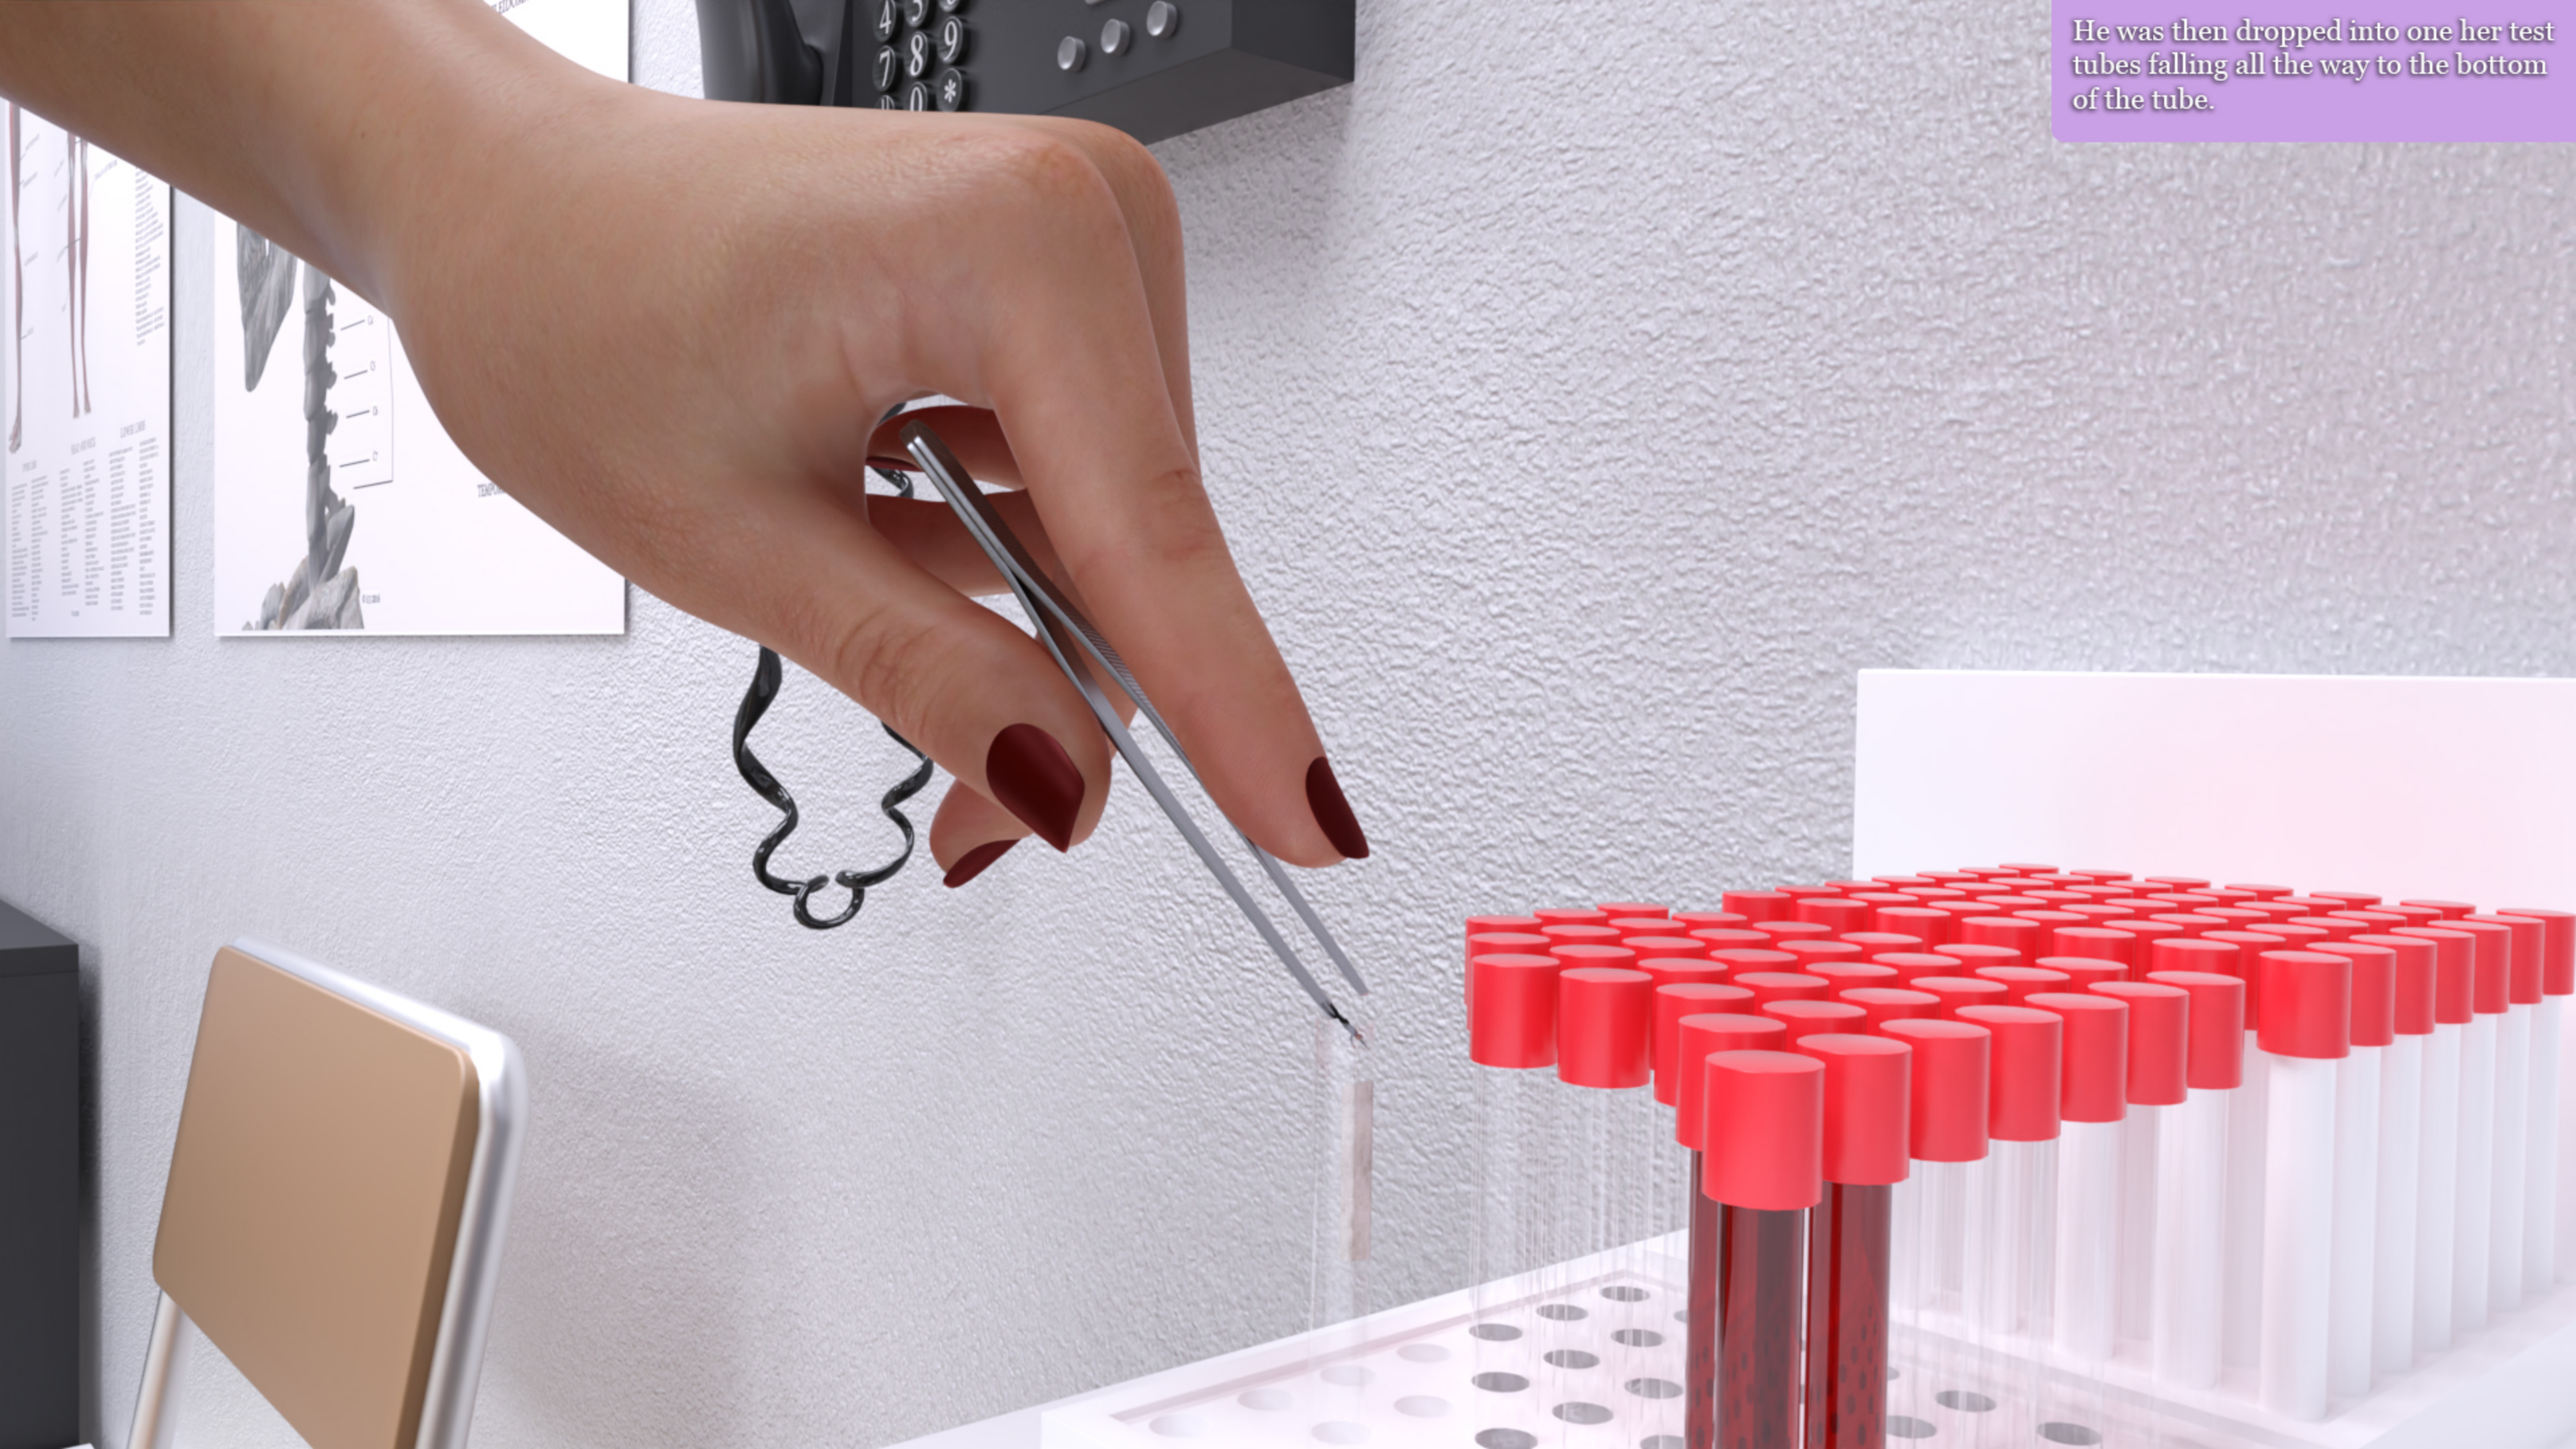

Dr. Hart was able to gently get Daniel on her tweezers. She held him right up to her face examining him.
“Wow you are really tiny now! I was going to use you as a human dildo but now I don't know if you can be of any use to me being so small!”

"Maybe I should just swallow you whole and be done with you?" Dr. Hart teased.

"Mmm actually no I don't want to do that then the fun would be over! To be honest all of this torturing you has made me wet beyond belief, and I still plan on using you as my fuck toy!"

Daniel had no say in the matter and knew anything he said would go unheard. So he just decided it would be best to just nod his head and agree. He simply told her the words, "Okay goddess..." And just like that he was finally broken.

He was then dropped into one her test tubes falling all the way to the bottom of the tube.

Dr. Hart then propped herself up onto the examination bed dangling the tiny jar with Daniel inside smiling at him. “Alright hope you’re ready my microscopic little man!” she told him.

They way Daniel had fell into the tube and the vigorous movements of being rattled around in the jar had caused Daniel's body to fold like a pretzel and break in many places, but somehow he was still alive. He couldn't even talk or move his mouth anymore at this point he was practically in a vegetative state.
"Awe looks like I killed him! Oopsie sorry little guy!" She laughed.

“Well I’m already too far into my plan to stop now! In you go!” Said Dr. Hart as she began sliding the glass tube inside of her vagina.

Finally Dr. Hart had inserted the glass tube all of the way inside her. She let out a huge moan and began to play with her clitoris. “Oh fuck yes!” She yelled out squeezing the tube with the inside of her vagina. Dr. Hart then began to speed up the motion of her fingers going faster and faster! Until the glass that was being squeezed inside her vagina was so deep the pressure and suction caused Daniel’s body to be crushed and explode like a grape...
And then all Daniel saw was darkness...

Daniel then woke up screaming in the waiting room of the hospital where he had fallen asleep at earlier.

“Oh my goodness thank god that was all just a dream!” Daniel cheered.
“That all felt so real! I can’t believe it I really thought I was actually shrinking and that evil which killed me!”
For Daniel everything seemed to have turned out okay. He was safe and sound!

The only thing that was odd was...
Where was everybody? Katie? Sarah?
not even the nurses were there...
Why was Daniel the only person in the building?
THE END
