Possession Voyage

Hurry up Usopp! We need make sure we get everything we need

We've only bought new outfits for you Nami
We should get some general supplies as well

Hmm... No need I'm sure the others have already bought that stuff

Uhhh... This happens everytime we get to a new town

Screw that pirate crew... They didn't let me join because I look weak

Just because my Ghost-Ghost fruit is not very suited for actual combat... I hope their ship gets sunk

Wait
a moment...
Maybe I can
use my power
to become
a pirate
anyway

If I can't join a famous crew as myself... Then why don't I just become someone who is already in a famous crew!

There should be a few crews docked here right now just need to find the perfect host
Huh... Wait... Is that who I think it is...

I'm heading back to the ship... I'll see you once you're done with your shopping Nami

Thanks Usopp... Make sure you place my bags in my room

Okay! Now lets go buy the last few things I need

Now where was that nice jewelry store I saw ealier

I think
it was in
this direction

She hasn't notice me yet... I can't believe I found one of the straw hats in this town

Hmm... I can't see the shop anywhere... I must have taken a wrong turn

I need to get just a little bit closer... I just have to touch her body

Perfect!
Now to take this
body for myself

Ehhh...
it felt like
something cold
just touched
my back!

Ahhh... What is going on... My back is soo cold

It's like something cold is entering my back

Arghh...
My head...
I can't think straight...
My mind is going blank...

Almost completely inside her body just a little more and this body will be mine

Arghh....
What is
happening...
I can't move
my body

I... I...
Can't...
Fight... Back...
my body
won't
respond...

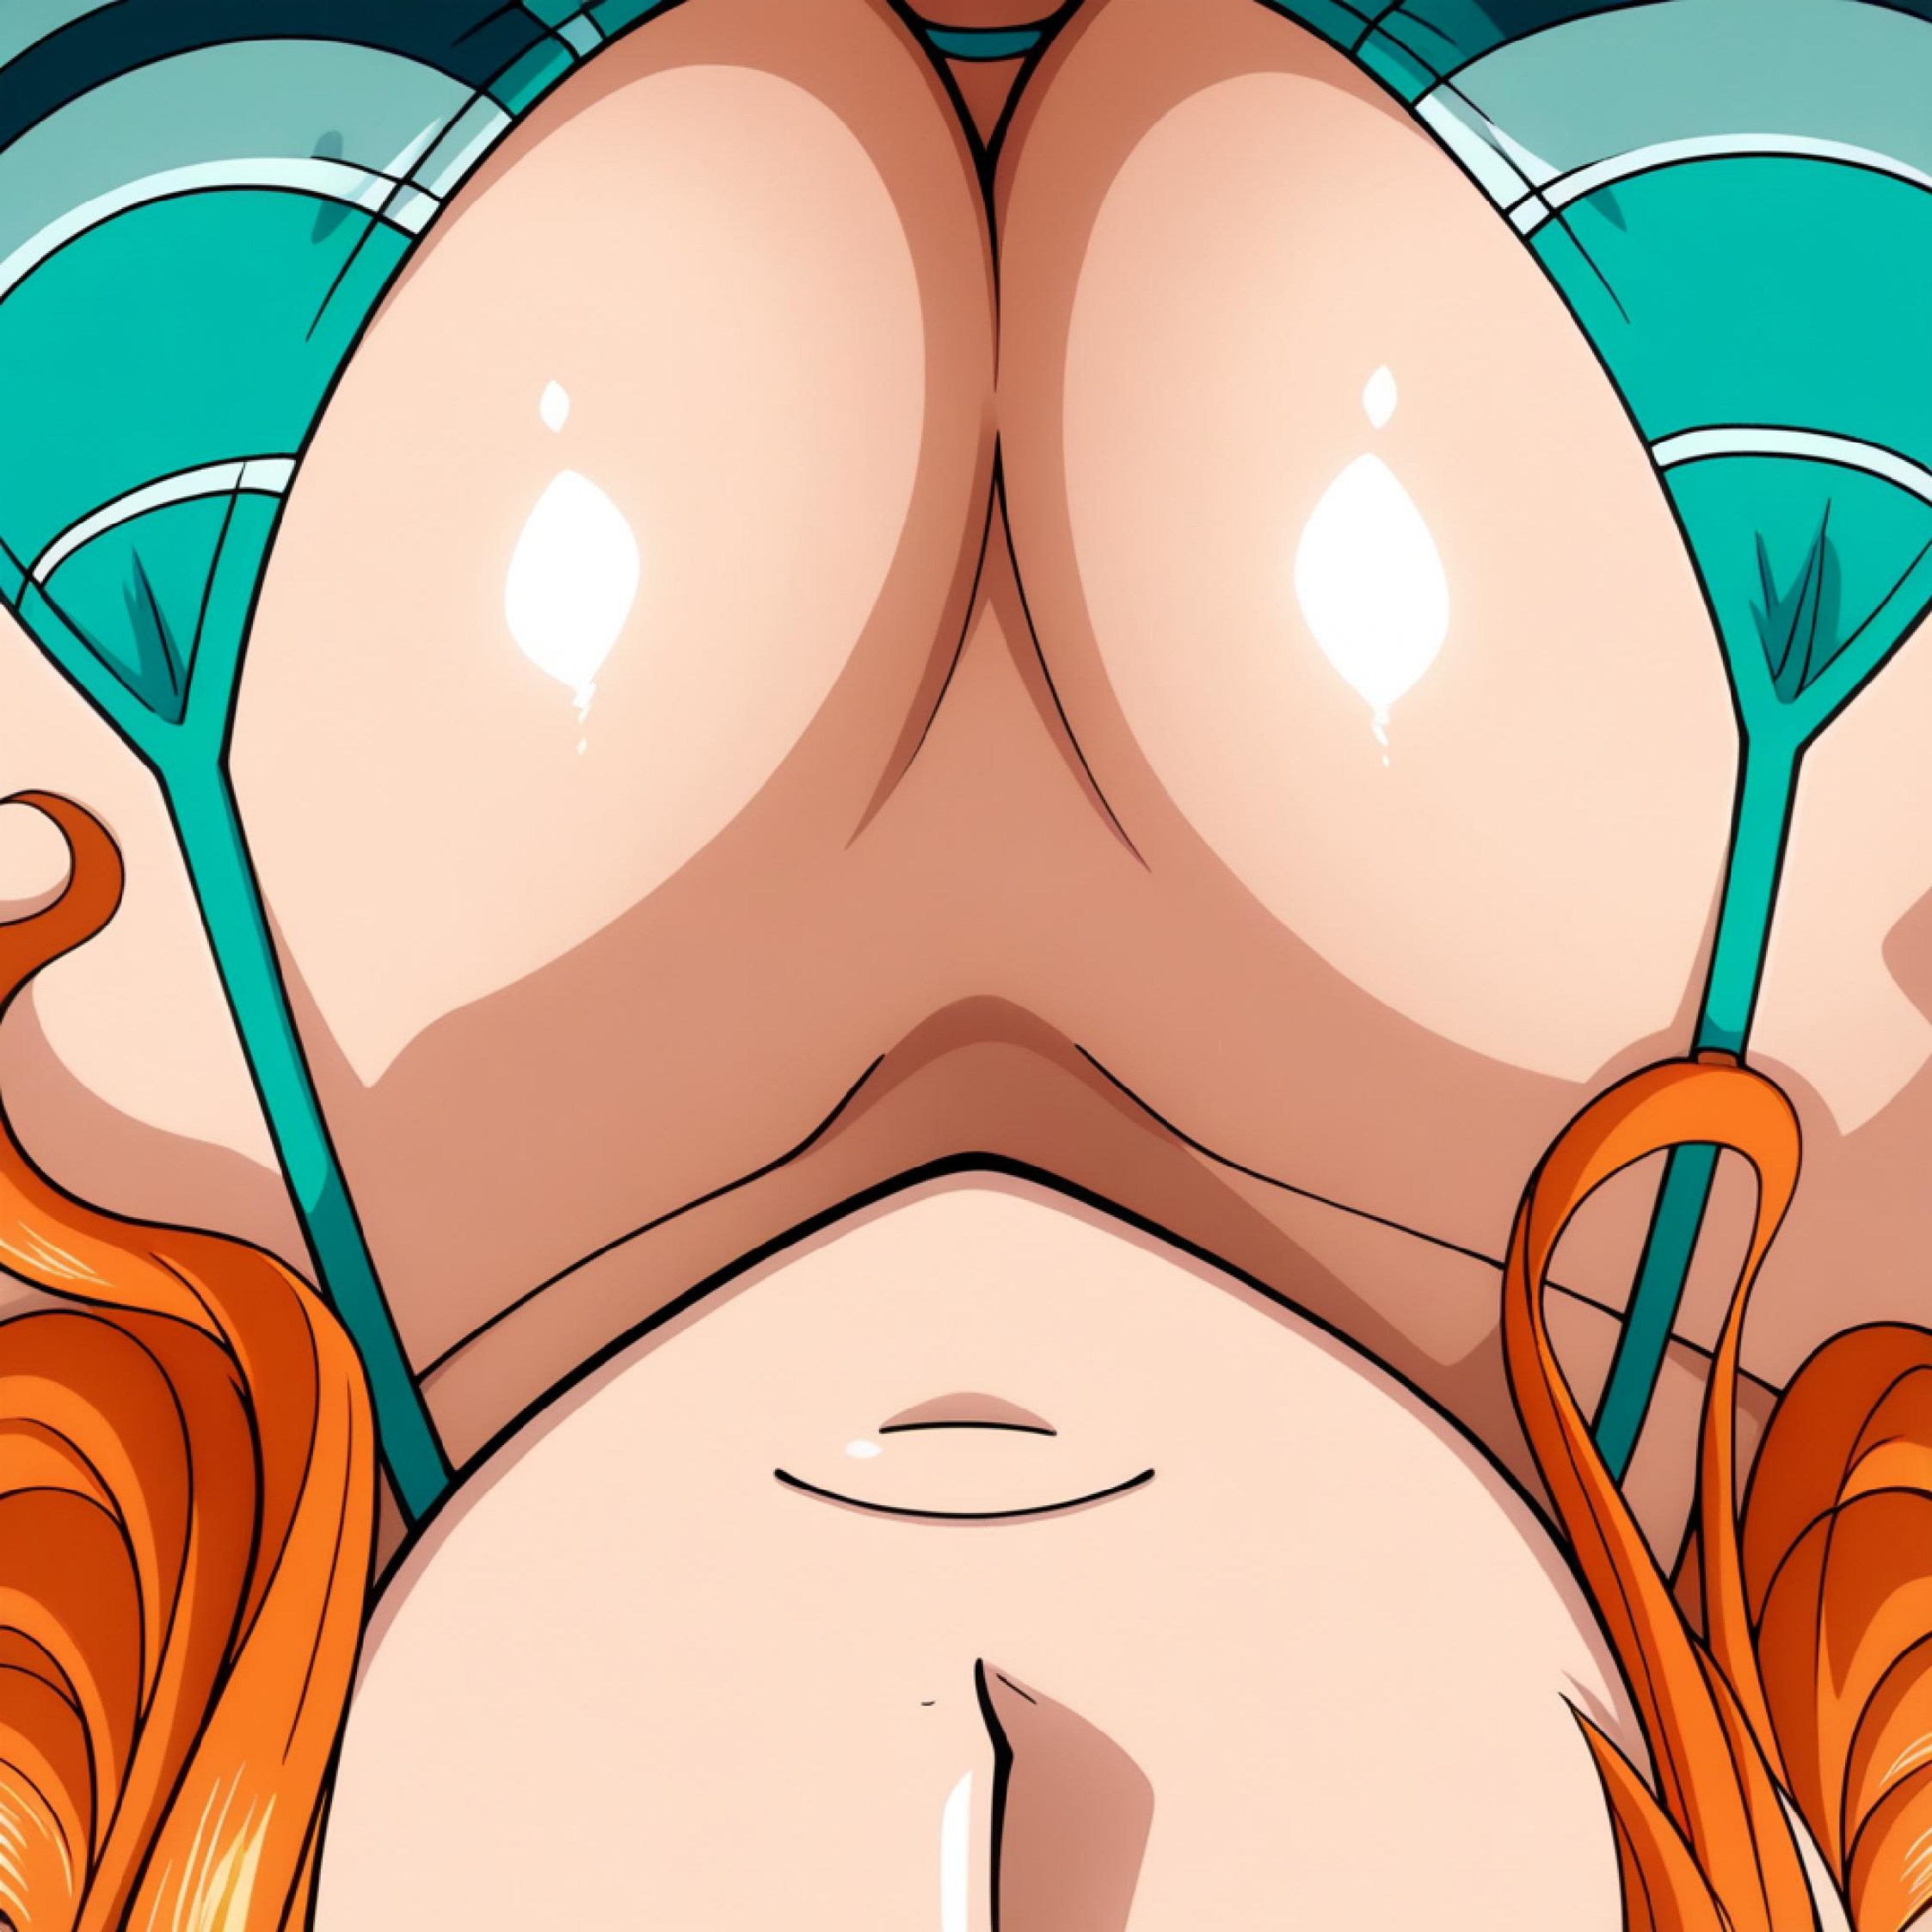

...Huh!
I..I did it...
These hands!
They're hers

I actually possessed Nami from the straw hat pirates

Finally I'm a real pirate... And one from a famous crew

I can't wait to start sailing the seas as a true pirate using this new body of mine

Lets start by getting to the straw hats ship first

Ehhh...
Wooah!
I feel like
I'm getting
dragged
down

Her huge tits are soo heavy... They are making me fall forward

Arghh...
That hurt...

How the hell does she walk around whilst carrying these things on her chest?

Forget about being a pirate I can't even walk 10 steps without falling

It would take too long to learn how to walk in this body

Not to mention that the other straw hats would notice something is up

There has to be a way for me to get used to this body fast

Hold on!
Can't I just dig
through her brain
and look at all
of her memories
to find what
I need to
know

Arghh...
Lets try and see if we can find some useful info

Raised by a woman called Bellmere... Held captive by a pirate called Arlong...

Trained at Weatheria for 2 years... Met back up with the other members at Sabaody Archipelago

I think I got all the info I need

Now that I've looked through most of her memories... Lets try moving this body again

This body feels more natural to me now

I guess all of those memories really helped me get a good grip on how to move around in this body

It's finally time for me to enjoy the life of Nami

And that of course includes playing with these things all I want

Thanks to Nami's memories I now know exactly how to handle these huge tits of hers

I can't wait to play with these once I'm back on the Thousand Sunny

Also
can't forget
about
this wondeful
ass I now
have

For now lets be patient and head back... So I can have some private time with my new body

The other straw hats should be easy to fool thanks to Nami's memories

According to her memories her room is right down this hallway

So this is Nami's room... Well I guess it's My room now

Woah!
This bed
is soo soft!

Since I'm now alone and by myself lets have some fun

Firstly...
Lets take off this top...
So I can see these tits in all their full glory

WOAH!
Take a look
at these
huge tits!

These tits really are heavy... But also pretty soft

Woah! They bounce soo much now that they are free

Now lets
get everything
off before
we really
get started

What a great ass... This body is truely perfect

Just need to get these off... Then I can explore my new body fully

Time to see what this body really has to offer....

I can't believe I'm about to masturbate in a female body

Ahhh...
Uhh....
What is this sensation?

Mhmm...
This... Feels
soo good...
Mhhmm...

Ahhhh...
Mhmm...
I think...
I'm getting
close to...

CUMMING!

OMG!
That... was
so intense...
But it's the
best pleasure
I've ever
felt

If masturbating felt that good I wonder what sex would feel like in this body?

Now that
I'm Nami
I'm sure Sanji
would be
at my beg
and call
