

Thank you for applying for this job. Before hiring you, we would like you to carefully read this contract and sign it.

I don't even need to read it. For the amount of money offered, I agree to anything!

Next day

The contract clearly states that this position is only offered to female employees, and after signing the contract, the employee must work with us for one year or they will end up in court with very little chance of winning the case.

What do you mean I have to wear this to work in this position after the promotion offered!?

Two Months Later

It's hard to believe what I've gotten myself into. I feel stuck in this situation, and I don't know how I could get out of it. I'll try not to change too much in a year so I can go back to my life, although I'm not sure how I'll manage that because the boss is making me take hormones or else she'll contact the authorities.

3 Months Later

Even though my masculine features are still visible, I can say that I look quite attractive. Maybe it wouldn't hurt to try to look as good as possible, at least until the end of the year, so as not to give the impression that I am a man dressed in women's clothes.

6 Months Later

OMG, my body looks so good in these leather pants. thanks to yoga sessions. I've also increased my daily dose of estrogen. Next month, I'll make my first big purchase since I got this salary. I'm going to schedule a breast augmentation surgery.

10 Months Later

I can't believe how good I look after just 10 months. Although I want to go back to my old life, it would be very hard for me to give up everything I have now, especially my new breasts. So, I'll take the next step and go through with the final surgery.

One Year Later

I have bought this lingerie with the last paycheck I received. I hope I will be able to continue signing for this company to work for them. Now, after so much work, I feel like I need to relax a bit.
giggle

One Year Later
