

QUEEN'S MOVE

A BERSEH AND TAWNY
STEAMPUNK ADVENTURE

What have we here?

These are the ones who stole your diamond.

I acted alone!

What do you say?

I stand with Tawny

And the others? Do they not speak?

We had to gag em, right little tigresses these two. All teeth and claw.

I see!

OMPFH!

We await your verdict
Your Majesty

Very well

How these two fit into all this is unclear, they shall face further interrogation. And get them some clothes

Berseh knew of the theft but did not inform the authorities, she will be imprisoned indefinitely

There is only one verdict I can give for treason. Tawny will face execution on the morrow

Take them away!

This was not how I thought I would spend my last night on earth!

What would you like to do?

Take your trousers off and I'll show you!

Have you seen the size of that thing!

Hold on I'll get my microscope and have...

Oh mama!!!!

I'm going to need help with this one

THE MORROW

Let go before the others awake

For what its worth I'm sorry this is happening

I have no regrets

Whats that sound?

Damn pipes!

This doesn't look like the playboy mansion

Hold on, scantily dressed women in a dungeon. It could be Hugh's place

Can you help me?

Hmmm I am reading you as an anomaly

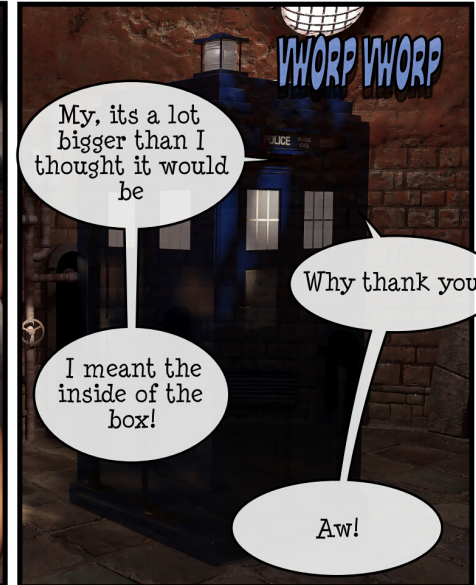

Though I would need a good excuse to get involved

Does removing my clothing help?

Never let it be said I refused a Lady help. Lets get you home. Along-y

My, its a lot bigger than I thought it would be

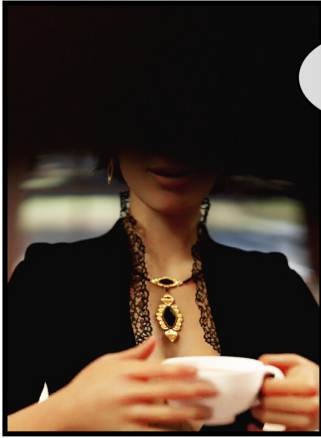

I meant the inside of the box!

Why thank you!

Aw!

1721AD

Tea?

Why am I still alive?

In a moment. That will be all Johnson, on your way out please send in our other guest

Yes Your Majesty

Good man that

HUGE COCK

SPLUTTER

I didn't think the tea was that bad

To business, I have need of your skills, serve me well and you earn your freedom

That's the carrot, what's the stick?

Should you fail you will be executed

and so will your friend Berseh

Then no deal, I won't risk Berseh's life

Too late, I already agreed

That's settled then

You rang your Majesty

TINKLE

Fetch some clothing, lets get these two something better than rags

A CHANGE OF CLOTHING LATER

Now that's out of the way we can discuss what I want from you

Before that, what's going to happen to Yumi and the Captain?

Oh they're quite safe I have my best men looking after them

She somehow escaped, even though all the doors remained locked, and none of the guards saw anything

You lost one?

Let's hope she turns up before the Queen finds out. I will question this one until then, open the cell door

It just occurred to me that in all these years I've never seen you do anything religious, why do you wear those robes?

Because no-one expects it

Careful she's a fighter.

Hello child, I'm Inquisitor Eric

KICK

PUNCH

You have skill, I have a few tricks myself

Where did you learn that?

I travelled the far east in my youth, I picked up a few things

Child I'm not your enemy. No harm will befall you. Please come with me

Yes sensei

Welcome to the Inquisitor sanctum, do not be afraid child its merely my pet python

This is what I am eager to show you, I've worked on this for years

I call it "The Comfy Chair" We shall have to get you out of those rags so your fully relaxed.

Yes sensei

Not exactly what I meant, but as long as your happy. Please take a seat.

I shall feed you soon Monty

For years we have tried torturing people to get at the truth, it simply does not work

So I reasoned if pain isn't the answer then pleasure might be. How does it feel?

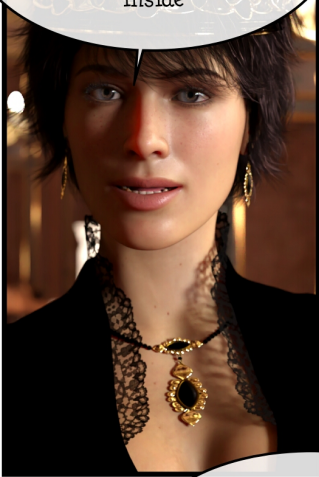

ZZZZZ

Hm mm...perhaps I made it too comfortable Monty, never mind when she wakes we'll try something else

There was a note saying that copies have been sent to my husband in an identical envelope. I need you to steal it before he sees what's inside

The Prince mainly resides at his embassy, his correspondence is locked in a safe awaiting his return from a diplomatic mission

Our marriage has not been a happy one, but it has been necessary to maintain peace between our nation and his. Should he see those pictures it would be the proof he wants to get a divorce, this will plunge our countries into war

The embassy is heavily guarded at night, so you must make your attempt during the day

If we are to wait till the morrow I have a request I would like to make

You don't say

You don't say

You don't say

You don't say

What did she request?

She didn't say

Ha, most amusing! Come I will show you what she suggested

I hope your well rested, I have something else to show you

Yes sensei

This was previously used as a torture device, as you can see I have changed it slightly

Yes sensei

Where's she gone?

How did you manage to move so fast?

And you managed to manacle yourself as well. How...

...Never mind, I'll turn it on

YES SENSEI!

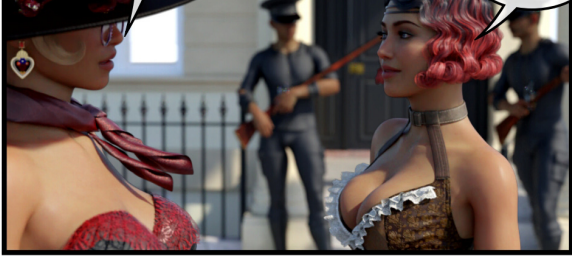

Almost there Monty, It just needs something more

THE EMBASSY

Can you distract the guards so I can sneak in?

I'll try

Oh dear I appear to have fallen, whatever will I do?

SNEAK

Now to find the Prince's room and crack that safe

Do you need help miss?

Oh your very kind

Stop bothering the new maid

We were just helping her up

I'll bet. Come with me young lady

I didn't think the agency would send another maid after the number we've gone through

Good timing as well

I'm not..never mind

How so?

Trickier than I thought this may take some time

The Prince has cut his mission short, he's due back any minute now

Housekeeper! I'm back, draw me a bath I need a wash and a change of clothes, I'll be in my room
