

Once we realised that the combination lock was a decoy, we quickly swapped the forgery you gave us with the envelope

We got dressed and returned the keys

The prince and the housekeeper will wake up and be suspicious we left, but with seemingly nothing missing there wont be any trouble

Very good, lets have a look inside

It's empty!

GUARDS!

We didn't steal the pictures

I would send for my Inquisitor but he's busy with your friend

The envelope was sealed before I opened it, and if the Prince had seen them I would know by now

We're being manipulated, someone is playing games

I will give you one more chance to prove yourselves, I need you to visit 'The Artisan' they live in the old observatory at the edge of town

Didn't get a chance, I knew the envelope was empty

Can you believe the Queen thought we'd taken the pictures?

How?

As soon as we took it from the safe, I could tell by its weight it contained nothing.

Lets hope this isn't another fools errand before the Queen runs out of second chances

Are you "The Artisan"?

Yes, did the Queen send you?

Yes, I've been working on a cam-bot and the prototype was stolen a few days ago

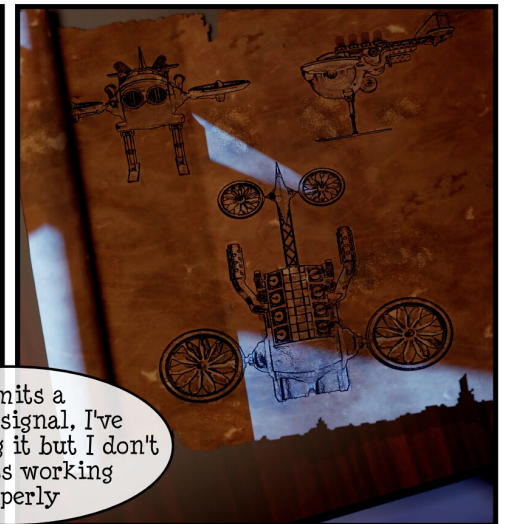

She said you might have a lead on how pictures were taken in secret in the palace

A what?

Here take a seat I'll show you

I crafted a small robotic flying camera

It emits a tracking signal, I've tried tracing it but I don't think its working properly

It keeps telling me it's located in different places, one time it was in the middle of a river another it was in the city Furnace

Hmm, I have a theory. Do you have a map?

Sure, its in the next room

In four hours it will be here

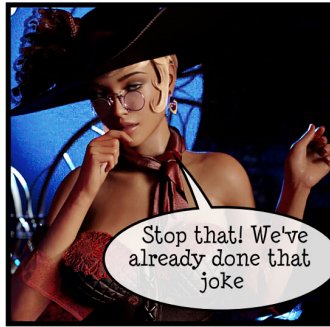

How do you know?

The only place it could be is on the airship 'Korsan', its why your getting confusing locations

We'll sneak aboard when it next docks

####!!!!

Sorry, I've had to wear ear-protectors, she wont stop talking, I think my experiment was too successful

ERIC!!!!

Have you tried asking her to stop?

Err...

Yumi can you stop talking?

Yes sensei

Well now I feel a fool

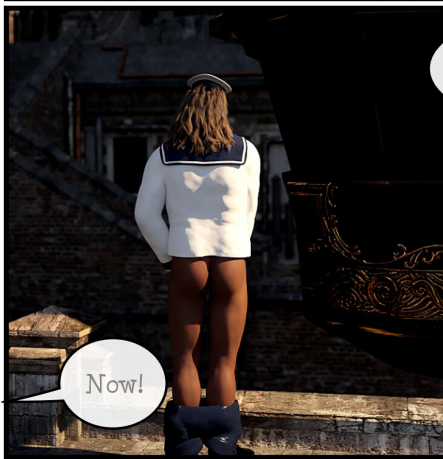

Queen's sent for you and Yumi, best get her some clothes

How we gonna get past that guy?

We wait for an opportunity

Now!

Careful the grounds uneven

Ahhh!!

BOB?!

Leave him be, you've teased him enough

Took you long enough to show up

Before I explain allow me to return this!

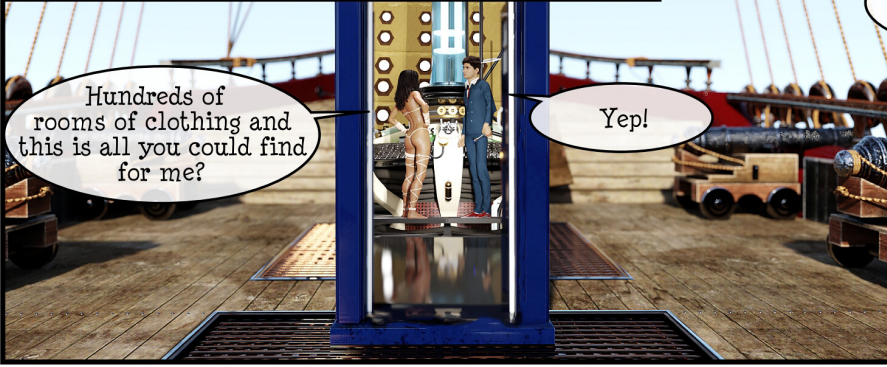

My cambot!

I was travelling through space and time when I detected an anomaly

It turned out to be Captain Anna out of time. After a few adventures together I returned her to her ship.

A FEW DAYS/OVER A CENTURY AGO (I have a headache)

Hundreds of rooms of clothing and this is all you could find for me?

Yep!

You're lucky I like you

I've detected another anomaly. It appears that there is another time machine near here

It will probably be near the island where we found Tawny and Bersch

Good to see you're back, even better to see your front

Say that again and you lose your tongue

Let the crew know I'm back we have work to do

Something is odd, Time travel is not invented for hundreds of years, and Tawny was not executed

I need to fix the time-line, I'll be back soon

I don't know why you want to risk so much for those two

Change your clothes then, you're going to stick out with that outfit

I first visited a few days after I rescued Anna.

Change my clothing! Why would I do that?

QUEEN'S MARRIAGE IN TROUBLE?

LOCAL INVENTOR REVEALS CAMBOT

TAWNY EXECUTED

READ ALL ABOUT IT!

One newspaper please. I'm afraid I don't have any money

Fine gentleman such as yourself, we could always come to an arrangement

I like this arrangement

Have you seen where I put my clothing?

She's gone along with my stuff

At least she left a newspaper

Perhaps a new suit is in order

The newspaper gave me all the information I needed

Hmm, I'm going to need some help

Your back

Have you recovered the P.E.N.I.S.?

We're bringing it on-board now

Fantastic, you're free to help me in the future

I won't leave my crew again

Hmm, I have an idea

We loaded the P.E.N.I.S. and the crew onto my ship

Steady men, today we start a new adventure

Welcome to the future

I'm afraid we have arrived a little early

How early?

three years, my ship took damage transporting another time machine, we wont be able to travel through time until it self repairs

How long will that take?

Not long fifty years or so

Can it still travel the seas?

Oh yes, no problem

Then I have an idea!

We headed to an island in the West Indies, we were going to need money

We hid this here for our retirement, do you think its enough?

This is enough to last several lifetimes

He sure loves the sound of his own voice. Wanna get out of here?

Absolutely!

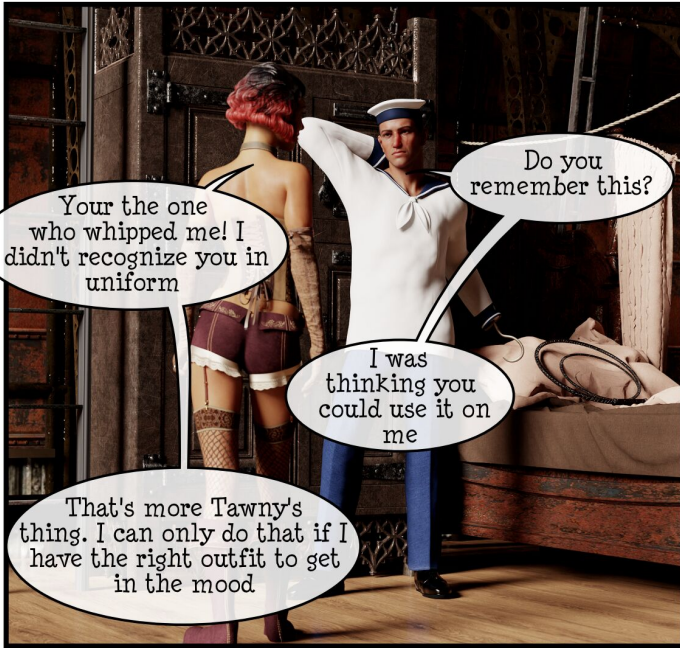

Hold on, where did Berserh go?

I volunteer!

I'll go look for her, I'll need someone to show me around

Your the one who whipped me! I didn't recognize you in uniform

Do you remember this?

I was thinking you could use it on me

That's more Tawny's thing. I can only do that if I have the right outfit to get in the mood

I have just the thing

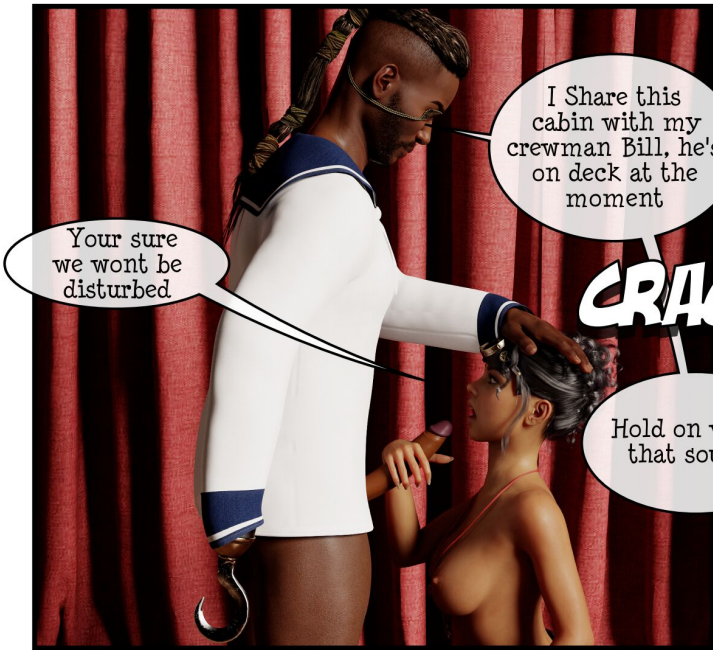

Oh that will do nicely!

A CHANGE OF CLOTHING LATER

Mmmph!

This is going to hurt you a lot more than its going to hurt me

Your sure we wont be disturbed.

I Share this cabin with my crewman Bill, he's on deck at the moment

CRACK

Hold on what's that sound?

Bill?

Hi!

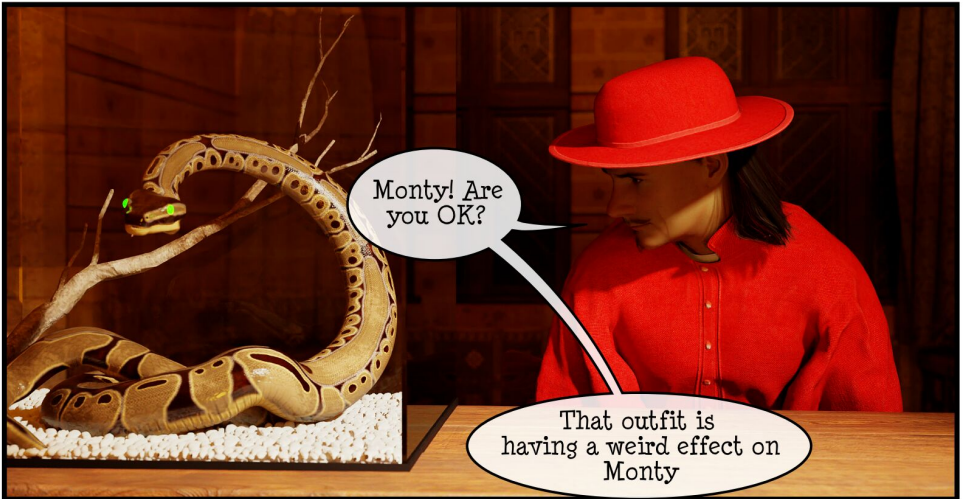

Do you have another of those outfits?

What?!

This is fun!

We appear to be on our own, shall I continue?

Let me guess, you took pictures of the Queen then fake blackmailed her to prevent my death and get us out of prison

Thanks for the wild goose-chase

The goose-chase was my idea, I didn't want things to be too easy

I have an idea how we can make things up to you

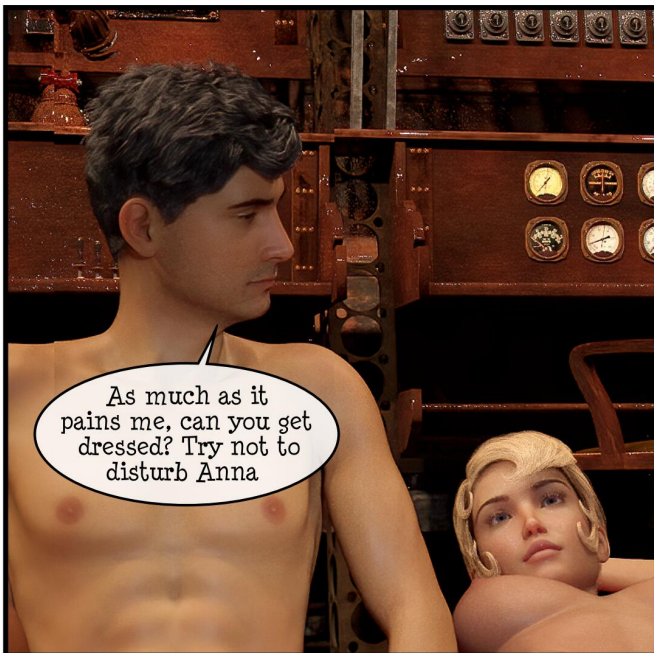

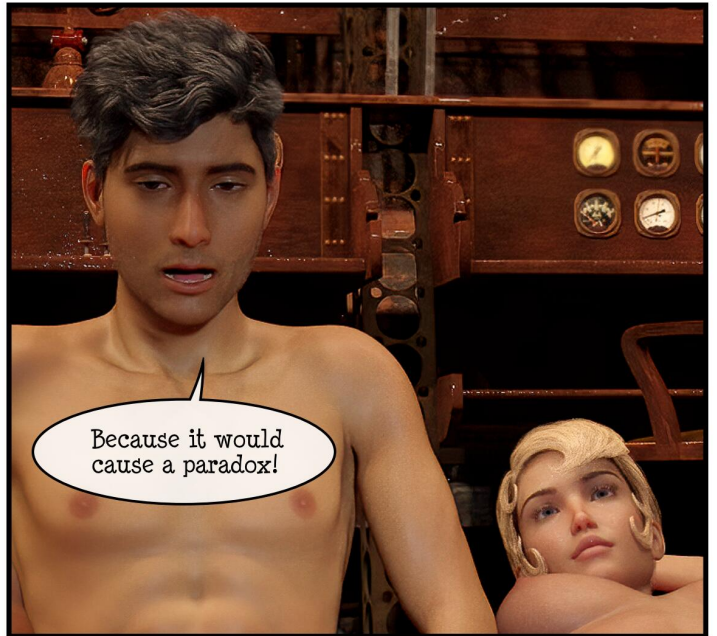

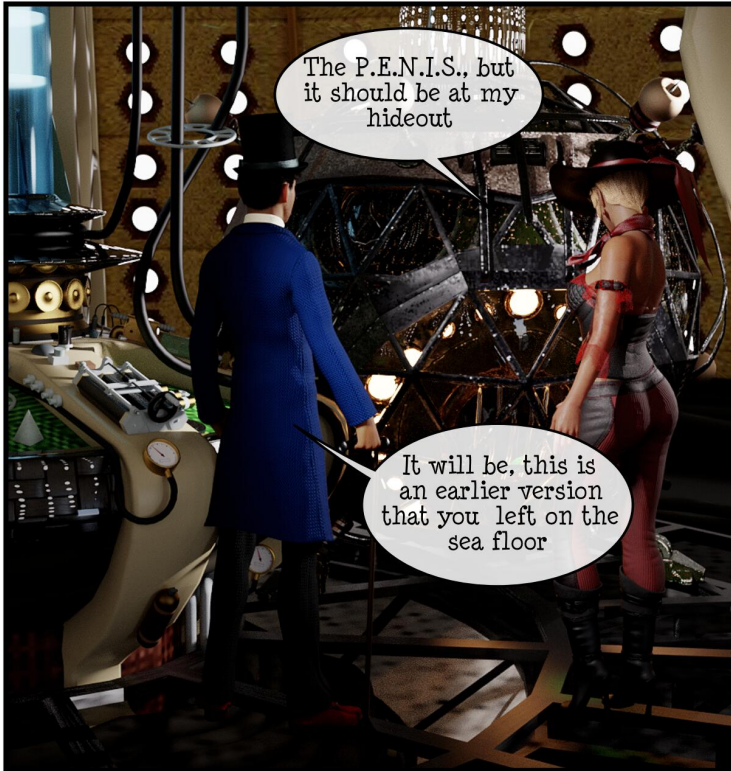

How did he fit this thing in his trousers?

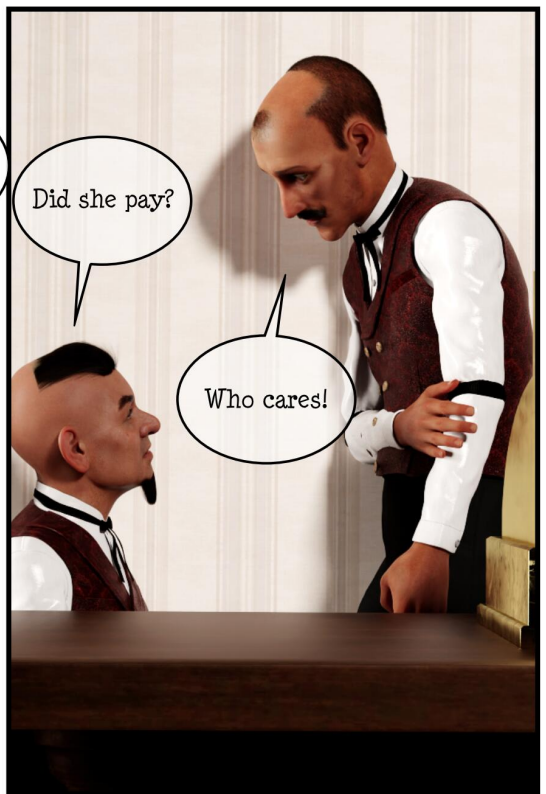

He says they are bigger on the inside

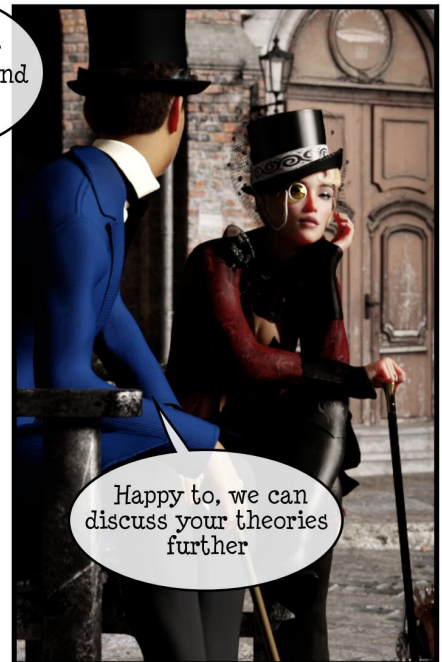

I'm sure I've forgotten something

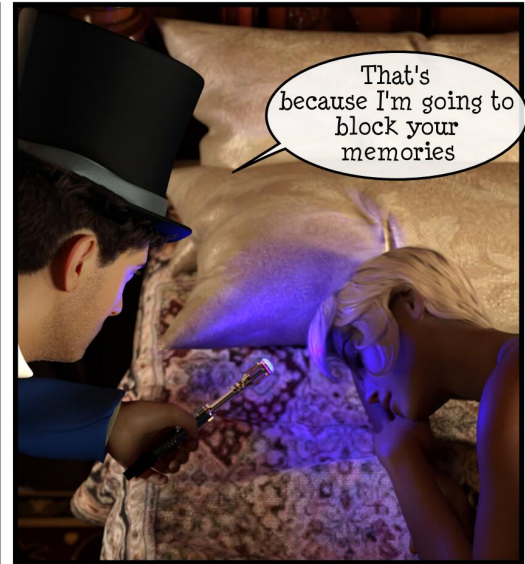

She looks so peaceful, did I give you the time you needed?

More than enough, I still have a couple of things to do though

It's weird I remember meeting you, but not a Nun

That's because I'm going to block your memories

And now to unblock them

When you said we'd met it all fell into place, I gave you the secret of Time Travel

I remember now, this was the day I woke up to find my calculations on the chalkboard had been altered

I put it down to a fortunate accident made when I was sleepy, but it was you!

I'll explain further when we're all together

Shouldn't I get my old outfit back?

I don't think one outfit is going to affect the timeline

I've said it once, I'll say it again, That outfit doesn't suit you Jerry

Your just jealous Ben, I look soooooood!!!

TWO YEARS AGO

Do you want to explain before I have the guards take you away

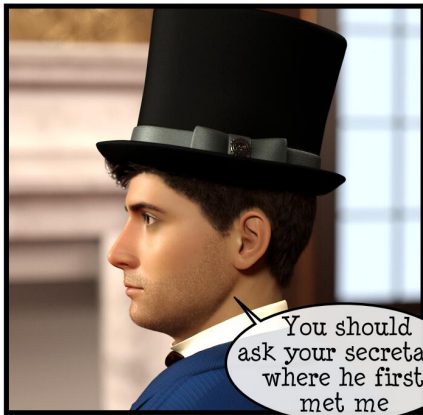

Before I do so, Tawny has done all you have asked, is she free?

Of course I am a Queen of my word, Tawny and her companions are pardoned

Now explain yourself

You should ask your secretary where he first met me

We've met? Oh wait I remember you bought a Lordship

What relevance is that?

Lords are entitled to a trial before being imprisoned or executed

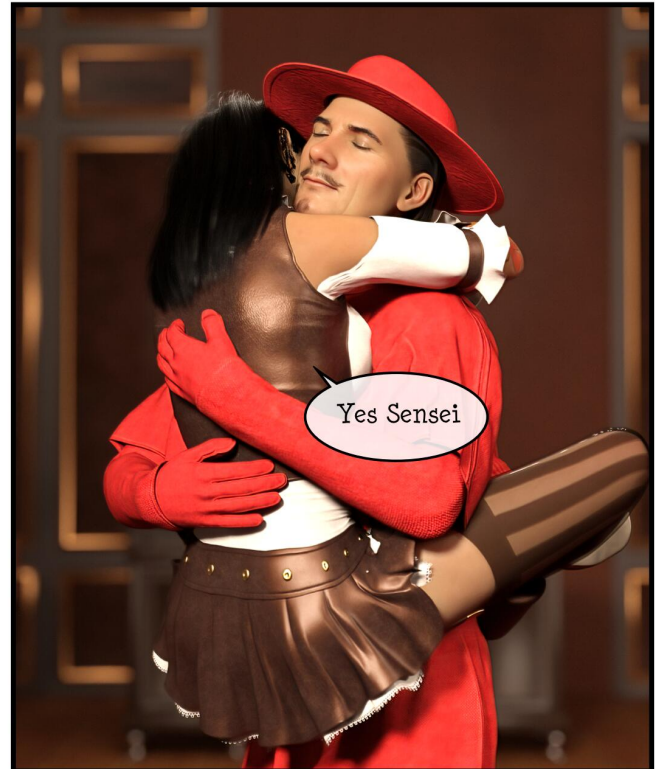

And the photos would become evidence where my husband could easily obtain copies

You have outmanoeuvred me Sir, well played. Pray you do do not cross me again!

While it may not feel it now, you will look back on this day as a good one

SEVERAL DAYS AGO

I have it right here!

I have some letters for the Queen, I'm supposed to get a package

Ooo it's such a big package

Yes, I think the Queen needs to see this

Anything interesting?

I wonder who sent it?

You tipped off the Queen!

I was there when you got arrested

In my time-line it had already happened, I had to make sure things played out the same, to ensure everyone was safe

If you want to keep your eyeballs don't tell Berseh

TWO WEEKS LATER

I do!

I guess this is the end?

Spoilers! But there are a lot more adventures for Berserh and Tawny ahead.
