A female character with blonde hair, wearing a white and blue futuristic suit with a glowing blue circular element on her waist, is standing on a platform made of white, rectangular blocks. She is holding a black handheld device to her ear with her right hand and has her left arm raised. The background shows a dark, rocky landscape.

Okay, Reed. I just need to  
conduct a few more tests and  
then I have to meet up with the  
girls after

Ah ha! Ho ho! Having what  
you call a 'girls night?' Well say  
hi to the ladies for me!

Something like that. I'll need some privacy though, Reed. I can't focus with you constantly breathing down my neck!

Affirmative, Susan. We'll talk more once you're done. Happy testing!

**CLACK!**

Okay dear! I'll speak to you  
as soon as I'm done.  
Love you!

Hello my beautiful skinsuits.  
Your owner has returned. Just had  
to run a few errands with that fool  
Reed Richards.

"Smartest man alive?" HA!  
Bumbling troglodyte is more like it.  
That fool is so wrapped up in  
his own world...

...That it's never occurred  
to him that his own wife has  
been killed and replaced! And  
not just Susan...

All these women. These judgmental, carefree simpletons all tossed me aside like trash when I lost my powers

Yet they were too stupid to realize that my intelligence is my greatest strength!

But they didn't care. If I'm not smashing things, then to them I am useless!

Isn't that right, Illyana? You and your girlfriend Wanda have made this all possible for me.

I might not have my own powers... No. But now, I have all of yours!

And you, Ororo, the so called goddess. So self-righteous, so condescending. It's great to see you humbled

Why the long face, Ororo? If I'm being honest, you're one of my favorite skins to wear!

Hrm. The depletion tool still need some more time I see. Your skinsuit is still fresh with your own organic vaginal juices.

I had a great time with Wolverine, curing his loneliness with your skin. Even with his sense of smell, he never suspected that you were merely just a suit

Mmmm. How about I help myself to a small sample of what he had last night!

Absolutely delicious. Like  
sweet nectar. Perhaps you really  
are a 'goddess' as you like  
to say

Now for you, Psylocke. My Japanese beauty. I gotta hand it to you, you almost caught me

With your telepathy, you saw the last moments of each of my skin victims

But the truth was just too much for you to handle, wasn't it?  
Your powers were your own undoing!

**TELEPATHIC POWERS  
STABILIZED. SKINSUIT READY  
FOR USE.**

I will thoroughly enjoy wearing your skin. With your beautiful thighs

Too bad you never gave me a chance when you were still breathing

**FWUMP**

I've been wearing the skins of these women for so long, I almost forgot what my own felt like

I don't know how Susan put up with that nitwit Reed all the time. Even just two days was more than enough for me!

**PLOP!**

Now for my next skin. My next body. A much quieter and solitary life, wouldn't you say?

*But before I become a ninja... I guess I must pay my respects to you, my dear Wanda. Who made this all possible*

When science and magic combine... The only limit is the imagination! And I do have quite the imagination.

**Two months ago...**

*I am sorry it keeps failing, Bruce. But if I continue using my chaos magic on you, you will surely perish!*

You think I care?! You can warp reality, yet you can't fix my loss of powers? My loss of the Hulk??

Your power stems from The One Below All. Perhaps this is his will. It is too dangerous, even for me.

I don't care if the spell kills me! Without the Hulk, I might as well be dead! I see how the team looks at me! How they laugh at how useless I am now!

Be that as it may, your blood will not be on my hands. I refuse to cast any further Chaos magic on you. I say this as a dear friend and trusted ally.

So that's it??  
You're done?

That is it. And my word is final.

Now tell me, Bruce. Who is this that you have in the tube? I have never seen her before... Is she alive?

She's... I guess you can consider her another failure of mine.

When I was trying to find solutions of my own, I found another universe. She is from there.

Her equipment gives her the ability to time travel. I brought her here, hoping that it would restore my gamma cells to a previous state, allowing me to Hulk out again

Alas, it didn't work. But I couldn't just allow a potential solution to walk out the door. So I killed her. It was quick. It was painless.

My machines are running tests on her equipment to see if there's a way to get it to work this time

Killed her? Bruce... what have you done? This is not who you are! Have you really gotten so desperate to become Hulk again that you forgot your own morality?

This is terrifying! This poor woman! She's just a test subject to you? I- I have to tell the others.

You won't be saying anything to anyone, witch. She failed to help me, just as you have. Now you only have one purpose to me.

**BEEP!**

Bruce!! What are you--

Shhh... Take a deep breath, Wanda. I've already immunized myself to these gasses. Now I did come up with a final solution. But I'll need your skin for it
