

Self-Isolating with Mom

by rmdexter

Chapter 1

"Do you miss Jimmy?"

"Of course, I miss Jimmy."

"I bet you really miss sucking his cock."

"MOM! DID YOU HEAR WHAT HE JUST SAID TO ME?"

Sonya looked at her two kids, once again totally exasperated by their behavior. They'd been at each other a lot more often than usual, but this time her son had gone too far. "Seth, go to your room...NOW!"

"Mom, she's just such a self-righteous bit —"

"NOW!!!"

Seth got up from the table, shoving his chair noisily across the tile floor. "Fuck that. I'm going over to Lizzy's."

"No, you're not! You're not to see your girlfriend until this is over. We've talked about this so many times now." Sonya looked at both of her teenagers. "I know you're both frustrated by this whole thing, we all are, but you know we have to self-isolate during this pandemic." She paused, seeing the irritation on both of her children's faces. "I don't

want to have to go through this again, with either of you." She gave Dani a withering gaze as well. "If you want to be treated like adults, then start acting like adults."

"Fuck this..." Seth muttered as he stormed out of the kitchen.

"And watch your language, young man," Sonya called after him as he disappeared down the hallway.

"Mom, you've got to do something about him," Dani said. "He's such a jerk."

Sonya shook her head, feeling totally at a loss, like she felt most of the time these days. "I know, I know, but you have to go easy on your brother. We're all having a hard time with this. We've talked about this, sweetheart. You know it's going to be a tough go for all of us." Sonya felt her heart break as a single tear slipped out of the corner of Dani's eye and ran down her cheek, quickly followed by another.

"Mom, this isn't fair. Why can't things be like they used to be? I hate this, I just hate it." Without waiting for any kind of reply from her mother, Dani gathered up her lunch dishes, stuffed them into the dishwasher, and strode out of the room. She slammed her bedroom door, putting an end to a conversation that had been happening far too often lately.

"This isn't fair..." Those same thoughts had gone through Sonya's head a million times in the last few weeks, and she knew things weren't

going to end soon. The pandemic and ensuing stay-at-home protocols had hit everybody quickly. In the first week she'd allowed her oldest, Seth, to see his girlfriend, Lizzy, while Dani had been able to spend time with Jimmy, her boyfriend for the last number of months. But as they quickly got flooded with more information about the risks involved and how best to self-isolate, she cut Lizzy and Jimmy out of the equation after that first week. Their parents were in total agreement, even though all the teenagers complained to no end, stating time after time the typical teenager mantra, "It's not fair! It's not fair!"

This pandemic isn't fair to anyone, Sonya thought to herself, again for the umpteenth time. But her heart really went out to her two kids. Seth was 19, and having his second go round at his senior year of high school. He'd been unsure of what he wanted to take at university, so he'd chosen to do a 'victory lap', taking some additional courses and trying to bring up his marks in calculus and English. After much consideration, he'd set his mind on engineering, and the marks from his previous year just hadn't been good enough.

Sonya was glad he'd made the decision to do the extra year. She knew her son, and she knew he hadn't been mature enough to go off to school just yet. This past year had seen him thrive and become responsible in both his studies, and his general demeanor, making her proud of the young man he was turning into. He was also filling out physically as well. He'd already reached a height of an inch over six feet, but this past year had seen his chest and shoulders broaden and fill out attractively to match his height. The extra hours he'd spent lifting weights with his friends at the school gym hadn't hurt either. To Sonya, she could see that her boy was definitely turning into a man, in more ways than one.

Being just a year younger at 18, Dani was in her senior year as well. Good grades had never been a problem for Dani. She was a whiz when it came to computers and technology, but she'd surprised her mother by saying she wanted to pursue a career in criminology after finishing high school. She said she was even entertaining the idea of becoming a private investigator, which made her brother laugh, while Sonya had been hard-pressed to keep a straight face herself. But full props to her daughter, who always achieved whatever she set her mind on. Dani's grades were outstanding, and it looked like she was even primed to receive a soccer scholarship from the local university, but with the pandemic, all sports had been shut down, and Sonya wondered forlornly if that potential scholarship money was now only a pipe dream.

Soccer kept her daughter in great shape, her thighs firm and muscular. The problem for Dani though was that for any sport, her sizable breasts always created a problem. Sonya had to get the girl specially-made sports bras just to keep those babies compressed enough to be under control when she played, but not painful. Any of the ones sold in the stores were just too small. Her daughter was currently wearing a 32DD bra, but Sonya knew her daughter would be out of that soon.

Sonya understood the girl's predicament—her daughter had inherited that hefty set of fun bags from her. At 44 years of age, Sonya herself now wore a 34F, having left the 'Double-D' zone herself years ago, just when she was about Dani's age. All around, Dani was just a younger version of her mother. Both had honey-blond hair, were about 5'-4" tall, and stoutly-built, with plenty of curves where they counted. They weren't scrawny things by any means, but had just the right amount of meat on their bones, with maybe a little too much in the boob and bum area. Sonya knew that extra bit of padding was definitely not a problem

as far as men and boys were concerned. Sonya had seen the way men looked at her daughter, and she'd seen the way boys looked at her. She could see from the looks in their eyes and flushed faces that there was a lot of salivating going on as those males eyed up her and her daughter's lush curvy bodies, and she was willing to bet there were a lot of cocks that got yanked good and hard when those guys got home.

As she finished cleaning up the lunch dishes, Sonya thought about Seth's comment to his sister. He usually kept a civil tongue in his head and it was rare when either one of them swore around her. It was an obvious sign of the level of frustration they were feeling. Both of them were on edge, all the time, and she didn't know what to do about it.

Sonya knew the main reason for that frustration; both of her kids had been having sex for a while now. She could easily tell from their behavior when they'd come home from a Friday night date, or when they'd had their respective girlfriends or boyfriends over to watch some TV. She'd been that age once herself, and she knew how kids that age took advantage of any opportunity to have sex when they could.

Geez, when she was 18, Sonya had sucked off so many guys from her high school that she'd lost count by the time she got through most of the football team until all that was left were the reserves relegated to playing on the special teams. But those boys were so sweet and appreciative, she sucked all of them off too. The players felt that having her suck them off helped to relieve any tension they were feeling, allowing them to play to the best of their abilities. Then word got around to the coaches, who were quick to make use of her oral talents as well. With Sonya officially on the roster as the team's "student trainer", the team played with a relaxed care-free attitude that had then

mowing down every team in their division. It worked so well that they actually won the state championship in her senior year. Sonya had accompanied the team on championship weekend, swallowing a load from each of the guys on the bus on the way to the state capitol, including a thick creamy mouthful from the bus driver. She'd ended up spending nearly the whole weekend in her hotel room on her knees, swallowing so many loads she barely needed to eat.

At least Dani was much more selective than her. She was sure Dani had been true blue to Jimmy, a trait she knew her daughter hadn't inherited from her. But the one thing both kids seemed to have in common with her these days was that level of frustration they were all feeling. Sonya knew that, for all of them, it was from that lack of sex.

Sonya herself was almost crawling out of her skin, she needed cock so bad. She'd had no trouble keeping that ongoing craving of hers satisfied until this pandemic hit. She'd been employed as an administrative assistant to a successful financial analyst for the last two years. She'd been happy to land the job after her husband had left her for a younger model, literally a younger fashion model and, to top it all off, a male model to boot. Sonya knew deep down that it was coming, that her husband had been hiding that part of his life for years. She felt good that he had finally come out of the closet and come clean about it, even if it was hard on the kids at first. But they'd come around, and both of them were happy that their father and mother got along.

Yes, Sonya's job with the small financial office had been perfect. She could tell her boss had taken a shine to her during the interview, and she knew it had something to do with the tight-fitting business suit she'd worn. The skirt portion of the navy suit ended high on her full

thighs, and her sky-high black pumps made her toned legs look great. The body-hugging sleeveless white turtleneck she wore beneath the suit jacket helped too. The clingy fabric showed off those tremendous tits of hers as the stretchy material molded itself to her considerable attributes. She'd barely shaken her boss's hand when they first met before his eyes dropped to her chest, and continued to stray in that direction for much of her interview. He called the next day to offer her the job, telling her that the salary for the job had just been re-evaluated, with the dollar figure presented to her substantially higher than had been advertised. She accepted the offer immediately.

In less than a week, she'd seduced her boss. He was married, but that kind of thing didn't bother Sonya. At this point in her life, she wasn't looking for a life partner. Her husband had just left her for another man, and raising her kids was her priority. But, she wanted cock, and lots of it. And her boss eagerly provided her with just what she needed, no questions asked. They quickly got into a routine that satisfied both of them. Sonya would suck him off first thing in the morning, quenching her daily thirst for cum, and then he'd usually fuck her somewhere in the middle of the day. They'd end the day with her sucking another load out of him, giving her the protein appetizer she needed before going home to join her kids for dinner every day.

But then the pandemic had hit and, like all other businesses that weren't considered essential services, they'd been forced to close up shop, lockdown, and work from home. Sonya was still doing that, but she was badly missing the daily dose of cock she'd been used to for two years now. She was missing it bad. Her boss was at home with his wife and kids, so there was no chance on getting any cock there. She'd gone back to an old friend, pulling "The Annihilator" out of the bottom drawer of her dresser and putting it to use daily over the past number

of weeks. She'd gone through one set of batteries on her vibrator in just the last week alone. She had a case on order from Amazon, having no idea how long this lockdown was going to last and wanting to make sure she didn't run out of juice again.

With those thoughts running through her head and that tingly itch way up between her legs nagging at her, she strode out into the backyard and stood next to the pool. She wanted some fresh air, needed to clear her head. Dressed in a white denim miniskirt and a tight-fitting pink tank top, Sonya turned her pretty face up to the sun and let the warming rays calm her. She tipped her head further back, causing her huge tits to thrust upwards, sunlight finding the upper swells of her huge tits like a magnet. She basked in the comforting glow as the rays warmed her body, making her believe that this nightmare was going to end, that they all weren't going to die tomorrow. Mother Nature was letting them know she was still the boss, but the comfort of the brilliant sunlight shining down on her lush body let Sonya know that things were going to be all right in the end. They all just had to be patient a little while longer. She took a few deep breaths to calm herself, feeling her breasts swell up as she filled her lungs, the blessed warmth of the sun feeling exquisite on her skin.

"What the heck was that?" she thought to herself as she quickly dropped her head down and pivoted her eyes towards the far corner of the house. She'd heard a noise from that direction, where the walkway ran along the side of the house from the back patio to the driveway, where a gate kept the yard secure and private. That gate was part of a high board-on-board fence between their house and the neighbour's. The sound she'd heard seemed to be like some kind of moan or grunt, but it had definitely sounded more like a human than some kind of animal. And it definitely sounded like it came from that area right next

to her house, not from the other side of the fence in the Henderson's backyard.

With her curiosity piqued, Sonya quietly made her way towards the corner of the house, staying close to the brick wall as she padded quietly across the flagstone walkway. As she got closer to the corner, she heard another low groaning sound coming from around the corner. And there was no mistaking it, it was definitely a human sound. Now wondering if someone was lying beside her house injured, maybe some kind of strung-out junkie or homeless person, Sonya got close to the wall, and then tentatively peered around the corner.

"What the fuck?" she thought to herself as she took in the bizarre spectacle before her. Partway down the wall at the side of the house was Lizzy, her son's girlfriend, standing on a plastic step-stool. It was the same step-stool that Seth had asked her about over a week ago. He'd said he needed to change a lightbulb at the top of his closet, and needed the step-stool to reach. She'd retrieved it for him from the garage and, she just realized now, the little bastard hadn't put it back.

As Sonya looked at Lizzy standing on that stool, it didn't take her long to figure out why he hadn't brought it back. Dressed in what looked like running gear, latex shorts and a tight t-shirt, Lizzy was standing on the little stool facing the house. The stool brought her face to the perfect height where her son's bedroom window was. Lizzy's long blonde hair was pulled back in a tight ponytail and, currently, that ponytail was flipping rhythmically from side to side. The reason for that was because her head was bobbing back and forth on Sonya's son's cock, which was projecting through the partially-opened window!

Lizzy was sucking off her son, right there in broad daylight. Like she knew from past experience, teenagers will find a way to have sex, no matter the circumstances. And here was evidence of that right before her eyes. Ignoring the risks that scientists had warned of, Seth and Lizzy had conspired to do this, to stop 'social distancing' and set aside everything they knew they shouldn't. Their sex drive had just been too strong, and was not to be denied.

Sonya was just about to stride around the corner and give the girl a piece of her mind, and give her son a blast too. But as she was about to step forward, Lizzy drew back off the cock that had been fucking her face.

"Oh my God, Seth, I love your cock so much. It's so fucking big and tastes so good."

The girl had spoken quietly, but Sonya was able to make out every word. From the side, she could see that Lizzy's face was flushed with excitement, her youthful skin glistening with a fine sheen of perspiration.

It was then that Sonya got a good look at her son's cock—and what a cock it was! The window was only open about a foot, and showed his body from the top of his thighs to his midsection, the rest of him hidden from view. She'd not seen his cock since he was a little boy, but it was obvious he was far from being "little" any longer. She had seen and sucked off a lot of cocks in her time, but Sonya had never seen one as big as his. The veiny slab of muscle seemed to project through the window opening like a thrusting spear, a long arrow-straight lance as thick as her forearm. He'd been circumcised as a baby, and the head of

that huge baby-maker was magnificent. It was as big as an apple, and nearly the same color, the enormous crimson crown engorged with her son's hot teenage blood. It was glistening lewdly with Lizzy's spit, with a shiny pearl of precum drooling from the wet red eye at the tip. Sonya gazed in awe at the thick rope-like coronal ridge that separated the giant flared head from the steely shaft, her mind swirling as she thought about how that broad ridge would feel tearing deep into her needy mature cunt, and wondering how a tiny thing like Lizzy had been able to take it, to take a cock so fucking huge.

Sonya shook herself, trying to get those thoughts out of her head. Had she really thought about getting her hands on her own son's cock, had she actually thought what it would feel like to fuck him?

"Get your mouth back on it," Sonya heard her son say, his voice coming through the partially opened window. The girl leaned closer to the window, her hands gripping the brick sill, her mouth open wide. Sonya watched as her son plugged his dripping prick right back into his girlfriend's eagerly-waiting mouth. He started flexing his hips, leveraging that enormous cock back and forth between the girl's sucking lips.

"Oh fuck, yeah," Sonya heard her son speak again. "Suck it, suck it good and I'll give you a nice big mouthful of medicine."

Sonya knew she should step forward and confront the two of them, putting a stop to this. But she found herself rooted to where she was standing, unable to move, or to look away from the lewd spectacle happening right before her eyes. She noticed her own heart was beating rapidly, her body flushed with arousal. Her own mouth was salivating as she watched the young girl slide her pouty lips back and forth over

her son's turgid member. She could see that Lizzy was using a lot of spit, just like she herself always did. Sonya had always done that, her love of sucking cock taking over every time she got a chance to take one into her mouth. Huge wads of saliva just seemed to appear as she enthusiastically went about her favorite hobby. She knew the boys and men she'd sucked off loved it nice and sloppy like that. Not only did they say that it felt fantastic, but they said it also showed how much she loved what she was doing, and how eager she was to get their cum. Sonya couldn't deny that they were right about that.

Sonya could see that Lizzy was showing that same level of enthusiasm that she always had as she sucked Seth's horse-like cock. The girl's head was bobbing rhythmically back and forth, tendrils of silvery goo dangling from the underside of her son's cock and dropping to the ground. Lizzy was giving off soft moans of pleasure as she sucked, her lips pursed well-forward as she worshipped that magnificent cock. But Sonya could see that Lizzy was only able to take about five inches of that monstrous prick into her mouth, which she could see was barely half of the incredible length. Sonya shivered as she thought about how long that huge cock might actually be, and the lurid thought of actually throwing a tape measure on that beauty ran through her head. She knew that she was quite an accomplished sword swallower, but she knew she'd never had one that big in her throat before. She found herself gazing at Lizzy with envy, wondering if she'd be able to take all of that gorgeous stallion-like cock deep into her mouth, of swallowing the whole throbbing prick until that enormous flared knob was right down her throat. As she looked at Lizzy's mouth only getting partway down that thrusting veiny shaft, she felt her pussy give a twinge of excitement at the thought of having her own mouth on that perfect cock, of sucking on it for hours on end. She couldn't help herself as she reached down and slid her hand up under her short skirt. She slid her

fingertips beneath the leg opening of her panties, finding her mound already dripping wet with her flowing juices.

"That's it, Lizzy," she heard Seth say. "Just a little more and you'll get that nice big reward you want."

The young girl seemed to redouble her efforts, her head bobbing vigorously back and forth, her ovalled mouth a frothy mess. Sonya's fingers slid deep into her gooey trench, at the same time as she rolled her thumb over her throbbing clit.

"OH FUCK,YEAH," Seth gasped out. "HERE YOU GO...SUCK IT. SUCK IT ALL OUT!"

Sonya watched as her son bucked his hips forward, almost knocking Lizzy off her perch. She saw the girl's cheeks puff out and knew her son was filling her mouth. Lizzy made a lewdly erotic swallowing sound, and then Sonya watched as thick creamy gobs of cum eeked out from the corners of Lizzy's stretched lips and started to slide down her chin in brilliant white rivulets.

"GET IT," Seth called out. "GET ALL OF THAT SHIT THAT YOU LOVE SO MUCH!"

Sonya found the crudeness of her son's words exciting. As she watched Lizzy swallow again and then another big gob oozed forth from the corner of the girl's mouth, Sonya came. Her fingers had been busy in her sloshy cunt, and seeing that massive amount of cum that her son

was feeding to the girl had sent Sonya over the edge. She started quivering and twitching as she leaned against the wall of the house, a deliciously intense orgasm wracking her mature body with exquisite tremors of ecstasy. And still, as wave after wave of delicious pleasure coursed through her body, she could see Lizzy swallowing as her son kept shooting. "Jesus, how much cum has he got inside those balls of his?" Sonya thought as her fingers strummed her fiery clit as her climax continued.

As her orgasm finally started to dwindle, she noticed that her son's climax had ended as well. Lizzy finally backed off his spewing prick, her lips pursed forward as she sucked the final drops out of the oozing tip. Still, Sonya could see that her son's huge cock was pointing skyward, the thrusting lance still rock hard.

"Let's go for two in a row," she heard Seth say as he wrapped his hand around his enormous prick and drew the slimy head all over Lizzy's face. "I know swallowing one load is never enough for you and I've got another one all ready to feed you."

Partly recovered from her orgasm, Sonya had seen enough. She whipped her sticky hand out of her panties and hurriedly smoothed down her little denim skirt. She shook her head and put a stern expression on her face as she stepped around the corner of the house, just as Lizzy leaned forward to take Seth's cock into her mouth once more.

"LIZZY, WHAT ARE YOU DOING?" Sonya's harsh voice made Lizzy instinctively turn in her direction. The girl had terror in her eyes as she looked at Sonya. Without a word being spoken, Lizzy jumped off the

step stool and took off towards the front of the house. Within seconds the gate had slammed closed behind her as her pounding footsteps disappeared down the driveway. The window slid shut in a hurry, the sound causing Sonya to look in that direction. She was just in time to see her son pull his drapes shut, but not before she saw the look of anger in his eyes.

With her heart still beating like a runaway train, Sonya took a few deep breaths to calm herself. She turned on her heel and slowly made her way back around the house and towards the patio doors. There was one image that she couldn't get out of her mind. It was Lizzy's face as she'd turned and looked directly into her eyes. The girl's gaze in that first instant had been glassy with wanton lust, the vision of pure rapture. But it had been her wet open mouth that had drawn Sonya's attention. The girl's soft lips looked puffy and wet from handling her son's enormous cock, reminding Sonya of a look she'd seen in the mirror many times before. But most of all, it was Lizzy's lower face that had sent Sonya's mind reeling. The girl's chin and cheeks were a total mess, glistening sinfully with a shimmering coating of semen and saliva. And her son's cum, his thick creamy cum. Sonya could see that the wads and ribbons of jizz coating Lizzy's face and dangling off her chin were brilliant white in color. She knew that spunk had to be just chock full of sperm, and that it must taste wonderful.

Sonya made her way slowly into the house, thinking about what Seth had said just there at the end, "Let's go for two in a row." When she'd heard him say that, it had sent a tingling jolt right to her weeping cunt. She smiled to herself...if her son wanted to go for "two in a row", she knew a much better spot for that second load to end up than inside that inexperienced young girl's mouth. Yes, a much better spot...

Chapter 2

Seth was pissed. Really pissed. But at the same time, he felt guilty as hell. He knew his mother only had their best interests at heart when she'd put the hammer down because of the pandemic, but fuck, what was a guy supposed to do when he had so many loads that he needed to get rid of? And a girlfriend like Lizzy who was only too eager to help him with his problem?

So, starting about a week ago, they'd devised this little scheme to help them both out. She'd tell her parents that she was going out for a run — like a lot of people were doing with all the gyms closed these days — and she'd come by his place, sneak through the gate, and suck him off through the window. The fence was high enough to give them the privacy they needed, and all he had to do was pass that plastic step-stool out to her through the window. It put her at just the right height, her hot wet mouth lining up with his hard prick perfectly. And yes, it gave them both what they wanted. He needed to get off, and Lizzy loved sucking cock. And since he'd started letting her suck his big dick, she'd become quite the cum connoisseur as well. She loved the stuff, and was happy to take as much as he could give her. Seth thought it would have been nice if she'd been able to take more than about half of his huge cock into her mouth, but he was used to that by now. He'd had a number of girls try to go further, but most of them were too scared to do much more than just try. At least Lizzy sucked like a two-dollar whore, enthusiastically servicing his cock whenever he wanted. Yes, he loved how eager she was every time he waved his big fuck-stick in front of her face. She couldn't wait to get her lips on his dong and suck out a creamy load.

Lizzy wasn't such a bad fuck either. When he did slide it into that tight little love pocket of hers, again, like when she sucked his prick, she could only take about half, and even then, he was so thick that she was afraid he was going to tear her in two. That was pretty much the same with any of the other girls he'd fucked, or at least TRIED to fuck. Most of them became so scared when they saw the size of his dick that they clamped their legs together like a bank vault slamming shut, spinning the combination so that there was no way he could get inside to make that money shot. Most of those girls would usually end giving him some head, licking and sucking just the tip of his cock, afraid he'd tear their mouths open if they went for more. Unfortunately, a handjob was standard for what he ended up with from most of them, but at least he got off.

But Lizzy had been different. So willing, so enthusiastic, so fucking hungry to service his cock. And besides her unbridled desire to worship his prick and swallow his cum, one other thing that he liked about her was that, with her blonde hair, pretty face, and halfway decent-sized tits, she reminded him of his mother and sister. Like all boys his age, Seth constantly fantasized about having sex with his mother, or his sister. Both of them were so fucking hot that he could barely contain himself when he was around them. If he had a dollar for every load he'd pumped out thinking about his sexy mom, he knew he'd be able to order a Ferrari with all that cash. And the number of loads he'd shot picturing what he'd do with his gorgeous sister wasn't far behind. Maybe with that money, he'd be able to buy a Hummer, which is exactly what he'd like to get from either of them, a nice wet hummer. Yes, he often thought about pouring load after load of thick creamy cum down their throats. He'd often look at their mouths as they ate their meals at the dinner table, thinking about having either pair of sweet lips, or both at the same time, wrapped around his dick.

And of course, when Seth had those thoughts about his mother and sister when Lizzy was blowing him, she was none the wiser. Like the load that he'd just shot into her mouth moments ago. When he'd gone off, pasting her tonsils with a massive load, he'd been fantasizing about fucking his mother doggie style, while at the same time his sister Dani was lying on her back beneath them, licking her mother's dripping cunt while she waited to suck out the massive load from her mother's clutching mature twat after he'd filled it with a torrent of spunk. That's the image he'd had in his mind when he'd blown that load into Lizzy's hot sucking mouth, the same kind of fantasies he'd had about his mother and sister every time Lizzy sucked him off.

Yes, jacking off or getting sucked off when he was thinking about those two hotties in his house was nothing new for Seth. And he knew that any guy his age who told you he never thought about fucking his own mother or sister was full of shit. Fuck, even if your sis or mom was uglier than sin, the taboo factor was still enough to make any teenage guy yank his dick thinking about it. But, fortunately, Seth didn't have that problem. His mother and sister were definitely permanent actors in the smoke show, they were that fucking hot. He'd seen many times the way his friends looked at both his mother and his sister, and he knew they all jerked off thinking about his mom and sis just as much as he did. And why not, the two were gorgeous, with pretty faces worthy of Hollywood, and sets of tits you wanted to lie down and die on.

Seth had even taken his lust for his mother and sister further than most people would have ever dared to. He knew both his mother and sister were heavy sleepers, so he'd taken advantage of that fact on numerous occasions. He'd often sneak into their rooms while they were asleep,

and then pull out his pecker. As they slept peacefully, he'd move closer, looking at their pretty faces illuminated by silvery shafts of moonlight. He always made sure to slip a condom on his surging prick before he started to slowly, methodically, jerk off while he watched them. Of course, it was always nice when they'd move around in their sleep and the covers would slide partly off their lush curvy bodies.

His sister had followed their mother's example and always slept in sexy nightwear. No pyjamas, old-lady nightgowns, or baggy t-shirts for either of them. No, they always wore colorful silky or satiny chemises. The smooth cool material always looked incredible on them, the shiny fabric showing every delicious curve, like the tiny triangular cups that fought to contain their mammoth breasts. Seth would stand next to their beds and stroke his huge cock, doing his best to keep quiet and his movements to a minimum as he pumped his throbbing prick with a smooth fluid motion. He'd eventually come, thinking about pumping that load out onto their faces, onto their huge tits, or onto what he knew had to be their succulent pussies hidden beneath delicate lace panties.

With the condom receptacle filled to the point of overflowing, Seth would return quietly to his room. He was always careful when he removed the condom, setting it carefully into a coffee mug he kept on his desk.

His mother and sister had been surprised when, a number of months back, he'd offered to take on the daily role of getting breakfast prepared for the family. They both thought it was incredibly sweet. Neither noticed the additional protein that Seth prepared for them daily, like in his sister's yogurt, or the specialized additive he'd put in his mother's cup of coffee along with the usual cream and sugar. Or maybe in the

cream cheese he'd put on her bagel for her. He'd watch as they feasted on their breakfast treats, a smile on his face. He'd look at both of them and think how perfect it would be to have either one, or both, as his personal cock-socket. "A boy can dream, can't he?" pretty much became his personal mantra.

Since he'd started dating Lizzy, he'd been able to use her hot young mouth as a depository for his lurid teenage fantasies, dumping load after load into that spunk receptacle as he'd laid back with his eyes closed, thinking about all the nasty things he could do with those two gorgeous women living within just a few feet of him. And Lizzy would drink it all down every time, with no idea that those taboo fantasies were running through her boyfriend's head.

But the pandemic had thrown Seth's ideal world into the middle of a shit-storm, the likes of which nobody had ever seen before. He'd had to go back to jerking off, pulling up the Photoshopped pictures he had of his mom and sis on his computer. Sure, he'd pump out six or seven loads a day, but it just wasn't the same as filling Lizzy's belly with all that cum. So, when he'd laid out his devious plan to Lizzy for her to suck him off through the window, she'd been all for it. Fuck, why wouldn't she? She missed sucking his cock and swallowing his cum as much as he did. And now, for the past week, they'd had these clandestine rendezvous pretty much every day. She'd come over when Seth texted her, and wait for him to pass the step stool to her through the window. And then she'd start sucking, sucking that beautiful cock until he gave her what she needed, a healthy dose of the medicine that cured all her ills.

"Now that whole thing's totally fucked up too," Seth thought to himself as he paced back and forth in his room. His mother had caught them, and he knew there was no sense in him trying to deny what her eyes had clearly seen. Lizzy had run off, and he knew his mother would be in to give him shit soon enough. He knew that all he could do was come clean, throw himself on the mercy of the court and hope for the best.

Those thoughts were going through his head as he paced back and forth in his room, dressed in a t-shirt and a pair of sweat shorts that he'd worn when he knew Lizzy was coming over. He could just push the shorts down and whip out his dick, without all the encumbrances of wearing a pair of underwear and jeans. Once his mom had interrupted their little escapade and Lizzy had raced off, Seth had slammed the window shut and quickly drawn the blinds before hauling his shorts back up.

He looked up at the sound of a knock on his door. That had to be his mother, as he'd expected. He'd actually thought she'd be banging on his door long before now, and was surprised that it had taken her this long. And the sound of the knock was confusing on its own. It wasn't the abrupt rap that he'd been expecting, and it wasn't a tentative knock either. Somewhere in the middle, like he'd expect in a normal situation. Maybe his mom was just being careful not to alert Dani that something was going on.

"Yes?" he called out.

"Seth, can I speak with you for a minute?"

His mother's voice was calm and even. Like her knock, it definitely was not what he'd expected. It made him think that maybe he was right, maybe she was just trying to make sure Dani wasn't clueing in to anything. For better or worse, he figured he'd better get this over with. "Uh, sure. Come in."

His mother came into his room and closed the door behind her. She turned to face him, her hands on her hips. "We need to talk," she said.

Again, Seth was thrown by the tone of her voice. He'd expected anger, but what he was hearing was concern, and something else thrown in there that he couldn't readily identify. Was he hearing a note of curiosity? He'd been prepping himself for this conversation over the last few minutes, ready to get his back up and argue with her, but her tone had changed his frame of mind in a hurry. Not to mention the way she looked.

They'd just finished lunch a short time ago, but as she stood there before him, she looked different than she had just a little while ago. It looked like she'd put on lipstick. Her full lips were definitely shining with a rich red gloss, the sight of which wasn't lost on his needy teenage pecker. And her eyes looked different, more sultry, more alluring. She'd definitely put on some eye shadow and mascara too. Her normally long lashes looked stunning, highlighting the ocean blue of her eyes. She'd fluffed up her hair as well. Her golden tresses looked a little wilder, and incredibly sexy. Her flowing blonde locks framed her pretty face attractively as she looked him in the eye. She looked gorgeous, and she didn't look angry, for which Seth was thankful.

"Uh...talk? Okay," he finally responded as he continued to watch his mother, his eyes flicking down, like they often did, to that spectacular rack of hers. Her set of tits looked fantastic in her tight pink tank top, her cleavage looking deep enough for him to dive right into.

"Why don't we sit on your bed to talk," Sonya said, nodding towards her son's bed. "I don't think Dani needs to hear this." She'd noticed where her son's eyes had strayed to. She'd purposely stood with her hands on her hips, her elbows drawn back. She knew there was no way any male could look away from the thrusting shelf of her breasts when she did that. And, as usual, Seth's eyes had quickly gone to her tits, just as she'd hoped.

Sonya stepped over as Seth took a spot on the side of the bed, towards the top. She turned and leaned forwards slightly as she swung her curvy backside into place and sat a short distance away from him, her lush round bum settling onto his mattress. She'd made sure that he caught a good view down inside her top when she sat down, his eyes going to her tits like iron filings to a magnet.

"Seth, you know how many times we've talked already about the importance of self-isolating during this pandemic."

"I know, Mom," Seth responded as he nodded. "I'm sorry about you saw. It's just so hard not being able to see Lizzy like this."

"I bet IT'S hard," Sonya thought to herself, glancing down at her son's package filling the front of his shorts. She couldn't get the image of that enormous cock that she'd seen poking through the open window out

of her head and, there it was, mere inches away from her, with just a thin piece of fabric shielding it from her eyes. She felt her fingertips itching to get her hands on it, and she could feel her mouth actually salivating as she thought about taking that beautiful member into her mouth. And after seeing the kind of load he was capable of shooting, it made it even more difficult for her to concentrate on what she wanted to say. She could only think about what it would feel like to have that massive load splash across her tongue, and then feel it slide luxuriously down her throat. "Fuck, I need cock bad," she thought.

"Seth, you can't be doing that," Sonya continued. "You can't be seeing Lizzy like that. Not only were you having sex almost right out there in public, but you're putting all of us at risk, and her too."

Seth knew his mother was right, he'd known all along that what they were doing was foolish. He felt bad for disappointing her, especially now with the way she was speaking to him about it. Her voice was full of caring and compassion, not the anger he'd expected. This just made it worse, and he felt guilty as hell about it. "I'm sorry, Mom. I promise it won't happen again." He looked over at her as he said it and, as he did, she seemed to sit up a bit straighter and take a deep breath. There was no way he could control himself, his eyes zoomed in on her rising chest, those voluminous mounds of flesh making her tight top strain to the point that he thought the taut fabric was going to tear. As he looked at those mouth-watering tits, the next words came out of his mouth without him even thinking about it. "It's just that sometimes I get these urges that I...that I..." He finally realized what he was saying, and let his words die out there in the air.

Sonya nodded and reached out to pat her son's arm tenderly, the simple gesture making her big boobs wobble enticingly. "I understand, Seth. Really I do. I know that teenage boys have these urges, and that they are so strong that they can't be denied sometimes." Sonya absolutely knew about teenage boys. She'd swallowed more paste in her high school days than they make at a glue factory. "You're just going to have to find some other way to release those feelings you have." She paused as she nodded from his groin to his hand. "I think you know what I mean."

Seth felt sheepish as he clearly understood what she was saying. But all he could think about was Lizzy's mouth, and how amazing it felt to go off inside it instead of jacking off, to have her eagerly suck out every last drop of his spunk. "I know, Mom, but it...it's just not the same as with Lizzy. You must remember what it was like, being my age?"

Again, Sonya knew exactly what he meant. And she didn't have to be his age to have those same feelings. She'd been feeding from, and fucked by, her boss's cock nearly every day for the past two years. These last number of weeks, she'd felt like a dying woman crawling across the desert, searching for an oasis of cum. And after having seen the way her son fed that load to Lizzy, she knew that oasis she was looking for was right there beneath her son's shorts. "I understand, Seth. I knew that you and Lizzy were having sex, and I understand what it must feel like to have that abruptly taken away from you. But you can't continue seeing her like that, you just can't."

Seth hung his head. Sonya waited for almost a full minute before speaking again. Yes, things were going exactly as she'd planned. She been careful to work the conversation like she was tossing out a lure,

and now it was time to reel in a big one, only he was the one with the rod, not her. "Look, Seth, I know this situation is difficult for all of us. For you, for Dani, for me, and for Lizzy too. Hopefully things will get back to normal, but nobody knows when. You never know, they're saying we could be in this situation for a long time." She paused again, letting her words sink in. "I've been giving it some serious thought and, if that's the case, if we're stuck here on our own, it might be best if we tried to do what we can for each other. To make sure we stay safe." She paused again, noticing the curious look on his face as he took in what she was saying. "Maybe, just for a little while, until it's okay to see Lizzy again, I can help you with your problem."

Seth's head snapped up. Had he actually heard his mother correctly? Did she just say she could help him with his problem? If she did, and he was sure he'd heard her correctly, what the hell did that mean? As he glanced down at that huge set of tits of hers, he just had to ask. "What? What do you mean, Mom?"

"I know it won't be the same as what you were doing with Lizzy, but maybe I could give you a hand, if you know what I mean." Sonya held up her hand, and as Seth looked at it, she curled her fingers partway, as if she was about to grip a big cock.

Seth gulped. There was no mistaking what his mother was suggesting, and there was no denying the fact that his cock was rapidly stiffening beneath his shorts. "You mean...you mean..." he stammered, unable to even get the words out.

"I heard you say to Lizzy that you wanted to go for two in a row. By the look at that bulge in your pants, it looks like you still feel that way.

Why don't I help you out with that right now and you see if you think it's a good idea or not?"

Seth couldn't believe his ears. Was his mother really offering to give him a handjob? And whether or not he thought it was a good idea or not? Fuck...there was no chance of that being a bad idea. No fucking way! "Mom, are you...are you serious?"

"Of course, sweetheart," Sonya said as she reached past him and grabbed one of the pillows off his bed. "It's not good for a boy your age to get all backed up. Let's see what I can do to help you get rid of a little of that nasty stuff."

Seth watched, totally spellbound, as his mother tossed the pillow on the floor at the side of the bed and then slid to her knees on it, facing him. "Why don't you slip your shorts off and Mommy'll see what she can do to help you out?"

Seth was beside himself with excitement. His scorchingly-hot mother was actually on her knees at the side of his bed, asking him to take out his cock! He'd only dreamed of such a thing and, now, here she was, those huge tits of hers right before him, her angelic face turned up to him with a naughty glint in her eye. Not wanting to risk losing this once-in-a-lifetime chance, he quickly shucked off his shorts and tossed them to the side. He shifted over until he was perched on the bed right in front of her. Wearing just his t-shirt, he spread his muscular legs as he leaned back, supporting himself on straightened arms as his stiffening and unconfined cock started rising, the enflamed mushroom head pointing skyward.

"Oh my goodness, you definitely aren't a LITTLE boy any more, are you?" Sonya couldn't believe the size of the rearing cock thrusting upward before her. It was literally throbbing, flexing back and forth with each powerful beat of his heart as it continued to grow, the flared helmet puffing up and getting angrier-looking as it rose higher and higher.

"And you are definitely ready for two in a row, aren't you?" Sonya said as she gazed hungrily between her son's powerful spread thighs. Like the main mast on one of those old sailing ships, her son's enormous prick thrust skyward, the thick veiny shaft throbbing as hot teenage blood pulsed through it. The engorged cockhead was a thing of beauty, as big as a lemon, but the colour of a shiny red apple. She had to get closer. Drawn in like a moth to a flame, she rose up on her knees and leaned in, her hands sliding up and along his strong thighs. She could feel the corded muscle beneath her fingertips, and the sensation was making her pussy weep.

His balls were hanging nice and heavy between his spread legs, the two big orbs looking nice and full of sperm as they lay encased in his silky sack. Sonya knew those two beauties had what she wanted, a nice big load of creamy boy cum. It had been a long time since she'd tasted cum from one so young, and she found herself salivating at the thought of it. She couldn't help it as her tongue instinctively slid out and wet her lips as she moved closer.

Seth was looking down as his mother leaned in between his thighs. "Fuck, she is so fucking HOT!" he thought to himself as he watched her lick her lips. Her red lipstick glistened even more and her half-closed

eyes were glassy with arousal. He knew in that instant that his mother was doing this just as much for her own benefit as for his, and that was perfectly fine with him. He'd dreamed so many times about being in a situation like this with his mother and now it was happening and, by that hungry look in her eyes, it was clear she wanted it just as much as he did.

Sonya slid her hands higher, her fingertips tracing lightly over his smooth warm sack before she reached the base of his thrusting cock. She was almost gasping with arousal, trying to catch her breath. She couldn't believe how thick her son's cock was, and how fucking powerful it looked, thrusting straight up, the enormous crimson crown absolutely engorged and throbbing. She'd seen a lot of cocks in her time, but none had taken her breath away like this one. She'd stroked a lot of cocks, but none had her fingers itching like crazy. She'd sucked a lot of cocks, but none had her salivating like a mad woman. She'd fucked a lot of cocks, definitely more than her share, but none had her steaming love canal seeping with hot cunt-honey like this beautiful cock was.

Sonya found her hands almost shaking as she let her fingers circle the mighty shaft, the incendiary heat coming off the mighty shaft almost scorching the palm of her hand. Fuck, it was hot, and so incredibly hard, while at the same time as soft as a rose petal. She closed her fingers around the throbbing monster, or at least she tried to. His surging prick was just too big around. Her fingers could only get partway around it, her fingertips coming nowhere near to meeting up with the palm of her hand. She gave it a gentle squeeze, causing a deep guttural groan to issue from her son's throat. And then she stroked slowly upwards.

"Fuck me," Sonya gasped under her breath as her circling hand moved higher up, her hand moving smoothly with the outer sheath of her son's rigid shaft. She felt the skin move over the pronounced coronal ridge, and her heart skipped a beat, picturing how that thick purple rope would feel tearing deep into her needy snatch. Her hand moved higher up on the sensitive glans, and then she started reversing direction, feeling the pulsing blood within the raging prick throb beneath her fingers. When she got back to the bottom, she started up again. This time she noticed the red eye at the tip start to glisten, a pearl of cock-sap seeping forward.

"Ohhnnn..." It was her that groaned as she saw that delicious morsel of fluid. It had been weeks now since she'd sucked a cock, and she could barely control herself. The shiny drop of fluid grew as her stroking hand slid higher. She looked at the amount of cockshaft left beneath her hand, amazed at how long the thick meaty shaft was. She brought her other hand forward, the fingers of that one circling the girthy lance as well. As she looked at her two hands wrapped around the mighty cock, she felt her pussy give a needy twinge as more of her juices seeped into her panties.

"So big, so fucking big," she muttered as she started pumping more vigorously, now adding a twisting corkscrew motion to her stroking grasp.

"Oh fuck, Mom, your hands feel so good," Seth gasped out as he looked down between his spread thighs. His mother's face was flushed, her skin glistening with a fine sheen of perspiration. Her hooded eyes were dreamy-looking, as if she was in a trance. They never left his thrusting erection as she pumped her hands rhythmically up and down, her gaze

steady on the seeping tip as more and more precum oozed forth and started to distend downward in a lewdly exciting strand. As she watched that glittering jewel swing provocatively from side to side as it grew, he saw her tongue slip out and wet her lips once more.

Sonya couldn't control herself any more. She needed to taste that cock so bad. "I...I just...I just have to..."

Seth's mother's words died on her lips as she leaned forward and extended her tongue, sliding it right beneath that shiny pearl of cocksap. His mother let out a warm moan as she brought her tongue closer to his cock, letting that glistening web of fluid gather on her tongue.

"She's not really going to..." Seth's mind was on fire as he watched his mother's open mouth get closer and closer to his enflamed cockhead. Her tongue followed the shiny bead of precum right up to the wet red eye, and then she funnelled the pointed tip of her tongue into the seeping opening. He watched as she pursed her lips forward and touched then to his pebbly glans in a searing kiss, sucking gently as she pulled more of the slimy fluid into her mouth.

"Mmmm..." Seth and his mother both gave off a gentle moan at the same time, both of them luxuriating in the wonderful sensation of her mouth coming in contact with his stallion-like cock. This was something Seth had dreamed of for so long, his gorgeous mother sucking his cock, and now, unbelievably, it was happening. And now she was starting to move further down on his thrusting erection, her soft red lips following the flared contours of his engorged knob. He couldn't believe it, but his mother looked even sexier than in his most

vivid fantasies, her hooded eyes glassy and filled with desire, and her mouth...her fucking gorgeous red lips and hot wet mouth...fuck... They felt like liquid velvet against his sensitive glans as more of his cock disappeared between her lips. He felt her tongue swirl over the pebbly tissues of his cockhead, bathing it with hot spit.

"Oh fuck," he groaned out loud as her stretched lips slipped over the broad coronal ridge, locking the massive cockhead inside her sucking mouth. He felt her cheeks cave in as she started to suck, enveloping his throbbing pecker in a hot buttery sheath. He gasped again as she started to drive her head forward, inch after inch of thick teenage cock disappearing into her face. He'd thought Lizzy was a fantastic cocksucker, but he could tell that she wasn't even in the same league as his mother, and she was just getting started!

Sonya was in heaven as she took in every scintillating inch of her son's gorgeous body with her mouth halfway down his throbbing erection. His balls were huge, and she knew they were just loaded with cum. She could almost taste it as she looked at the massive orbs nestled in his silky sack. His abdomen was cleanly shaven, and it made his throbbing member look even bigger. She couldn't believe how enormous her son's cock was, and how incredibly hard. It felt like a shaft of steel in her hands and mouth, with the outer sheath as soft as velvet. She never ceased to be amazed by the way those two diverse sensations could exist in one beautiful piece of equipment, but her son's immense cock was a prime example of that bizarre dichotomy that always astounded her.

She'd started off thinking maybe she'd just be satisfied to give him a handjob. But once that glorious wand was out in the open, she couldn't

look at it without salivating. It was throbbing menacingly as it pointed straight up, like a heat-seeking missile all primed and ready to launch, which she knew it was. She knew from seeing what he'd fed to Lizzy that he had another batch of thick teenage cum ready to fire. Now, all he needed to find was a hot target to fire that missile into. She knew the perfect one. It was then that she'd opened her mouth and moved closer to that fiery warhead. There was no stopping her, she wanted to feel that immense cock in her mouth more than anything she'd wanted in her entire life.

The taste of that dewy drop of precum hitting her tongue was like magic, setting her on fire. And when she finally slipped her lips over the big flared crown, she could feel herself creaming like crazy. She almost swooned as the engorged cockhead filled her mouth, the tip oozing a steady stream of silky cocksap onto her tongue. But she knew she had to have more cock, more of that magnificent man muscle sliding deeper into her mouth. Sonya swirled her tongue over the pebbly surface of his glans and then pushed a big wad of spit to the front of her mouth, forcing it out delicately around her stretched lips to lubricate the way further down the thrusting shaft.

"Oh fuck," Seth groaned like a wounded animal as he watched his mother's mouth slide forward on his throbbing erection. He'd pictured this in his fantasies so many times, having her gorgeous mother's soft red lips wrapped around his cock, and now it was actually happening. The wickedly sinful act of his mother sucking his cock had all of his senses screaming with intense arousal. As he watched her pursed lips move erotically down his shaft, he was more turned on than he'd been in his entire life. Even though he'd just gone off in Lizzy's mouth, he could feel another load of semen rushing up the throbbing shaft of his cock already. He wanted the blissful sensation of feeling his mother's

hot sucking mouth to last forever, or even for just a few minutes more, but there was just no way to deny that load of cum that was already on its way.

"OH FUCK, MOM. I'M GONNA...I'M GONNA COME!" Seth warned as he started to go off.

Sonya was torn. In the worst way, she wanted to get a full mouthful of her son's thick rich cum. But she'd just seen the size of the load that her son had fed to Lizzy, and she wanted to actually see it, to see that horse-cock shoot that incredible load. She knew that she'd be feeding from this magnificent cock many times in the future—fuck, there was no way she was going to give up this huge tonsil tickler once she'd seen it and gotten her mouth on it—and so, she quickly backed off, her wet mouth open and gasping as she pulled off his twitching prick, a nasty web of saliva bridging her bottom lip and his surging cockhead.

Seth was surprised at first when his mother pulled her mouth off his cock, but there was no stopping him at this point. His cock was fully primed, the trigger had been pulled, and he was going to give her a face-full of spunk. Her face was flushed with excitement, her eyes locked on the yawning red eye at the tip of his twitching cock. He saw the wet opening get cloudy for just a split-second before a thick ribbon of cum rifled forward. The brilliant white ribbon hit her full on her face, starting at her chin and running up the full height of her face and into her lustrous blonde hair. A second thick strand jettisoned forth, hitting her on the cheek forcefully and spreading out over one side of her face. Another volley spewed forth, this one hitting her on the forehead before she directed it to her other cheek. He felt her keep pumping his surging pecker with one hand while her other one cradled his spunk-

filled balls, her fingers massaging them gently. He could tell she was trying to coax as much cum out of him as she could, and from the way his cock kept spitting at her face, that throbbing third leg of his was doing it best to give her what she wanted.

"So much cum," Sonya gasped out as she felt the wads and ribbons of her son's potent teenage cum rain down on her face. It was so thick and so heavy, that she knew that baby batter was just loaded with sperm. Enough to populate a whole fucking country. And it felt so illicitly wicked as he plastered her face with it, gobs and ropes of the stuff smacking onto her skin and clinging there lewdly. She rolled those massive balls in her hands as she pumped that cunt wrecker, the tip spewing out rope after rope of delicious teenage seed. She'd become so aroused by sucking her son's cock that she felt herself come as she basked in the silky white shower her son was giving her. Her lush mature body was twitching as paroxysms of delight rolled over her in one delicious wave after another. Her cunt was gushing like crazy and, even with her panties on, she could feel streams of emulsion running down the insides of her thighs.

"OH FUCK...MOM...THAT IS SO FUCKING GOOD..." Seth groaned as he totally unloaded, flooding his mother's face with so much cum that it looked like someone had thrown a whole bucket of the stuff on her. The tingling sensations of his climax finally dwindled, but his mother's skilled hands kept working even as they slowed, pumping out the last dewy drops of semen which she flicked right into her open mouth.

Both of them sat back, their chests heaving as they recovered from their mutual orgasms. Sonya kept her hand circled around her son's still-

hard cock, her other one gently rolling those huge nuts of his with her fingers.

Seth could only stare at his mother, never having seen her look so sexy in his whole life. Her face was a total mess, nearly every square inch covered with cum. She looked up at him all steamy-eyed, her spunk-covered face a mask of lust. But what she said next had his resurgent libido sparking like crazy.

"Feed it to me, baby. Use your cock to feed Mommy all of that nice hot cum."

Just listening to what she said had Seth almost firing off another load right there on the spot. Fuck, his mother was so fucking hot, he couldn't believe it. As he reached forward, she withdrew her own hand from his still-twitching cock, allowing him to wrap his hand around it in a warm loving corridor. He directed the enflamed knob at her face, pressing the tip into a massive wad of cum dangling off her cheek. He pressed the flared crown against her warm skin and then dragged it sideways, snowplowing the thick white paste towards her eagerly-awaiting mouth. Her lips were open and wet, and she welcomed his cum-coated cockhead enthusiastically, wrapping her lips around it before her tongue swirled over the glazed surface, sucking off all of that delicious boy-juice.

Seth smiled to himself as he pulled his cock out of her sucking mouth and moved it to the other side of her face, gathering up another huge wad of pearly goo. For the next five minutes or so he kept feeding her, shoving as much of his glistening jizz into her mouth as he could with the blunt head of his cock.

Sonya swallowed it all. It was incredibly thick, and tasted so manly and wonderful. She knew she was already addicted to her son's cum, even after just tasting it for the first time. Every time she swallowed she gave off a blissful purr of contentment. Every ribbon and gob that slithered luxuriously down her throat just seemed to whet her appetite for more. She loved cum, and here was an endless supply, right here in her own home. She knew this was just the first of many loads of her son's cum that would warm her belly for years to come.

"I think you got it all, Mom," Seth said as he looked down at his mother's shiny face as he drew the seeping cockhead all over her soft mature skin. His cock was still hard, which didn't surprise him. He was usually able to get off three times in a row before having to take any kind of a break, and having his mother kneeling between his legs definitely helped to keep his purple-headed soldier standing at attention.

"Oh my god, Seth, your cum tastes wonderful. And such a huge load." Sonya let her hands slide back and forth over his powerful thighs, his stallion-like cock still rearing up majestically as he rubbed the hot tip all over her face. She gave a soft moan as she pressed her cheek against the apple-sized knob, loving the feel of it on her skin. "Do you always shoot that much?"

"Pretty much," Seth said as he took a long slow stroke up the shaft with his hand. A pearly drop oozed from the very tip, and he drew it across her pouty bottom lip. He smiled at how quick she was to slip her tongue out and lick it off. "But even for me, that was a big load. It's

because of you, Mom. With you working on my cock, I could shoot like that all day long."

Sonya felt dizzy as she listened to what Seth had just said. He was young, still just 19, and from all the cocks she'd sucked while she was in high school, she knew that boys that age had a tremendous amount of stamina but...all day long?

"Really? What do you mean when you say all day long?"

Seth shrugged, but kept dragging his burgeoning cockhead back and forth across her face, teasing her. He could see that twinkle in her warm blue eyes as she pushed her face back against him, mewling like a little kitten. "I know my cock, Mom. As long as somebody keeps sucking on it, it'll stay hard. And with you being the one doing the sucking, I don't think I'm going to have any trouble staying hard for hours on end."

"Hard for hours on end! Fuck yes..." Sonya thought to herself as she looked at the beautiful cock throbbing right before her eyes. She could only stare at his rigid prick as he kept rubbing it against her. It was hard to believe, but the evidence was right there, his cock was still brick hard. She'd had it in her hands, she'd had it in her mouth. She wanted to have it between her lips a lot more, but right now, her other lips were just dripping with need. She knew exactly where she wanted to feel that cunt-stretcher next. "I see," she said, looking at her son with a provocatively sexy look in her eye. "You asked Lizzy if she was ready to go for two in a row. Now, how about you and Mommy try and go for three in a row?"

"Anytime, Mom. Anytime."

"Well, let me tell you sweetheart, I'm feeling kind of flushed and hot right now. Why don't you use that big thermometer of yours and take Mommy's temperature?" She paused as she saw the excitement spark in her son's eyes. "Yes, but to make sure we get an accurate reading, you're going to have to take my temperature nice and deep. What do you think, baby, can you do that for me? Can you put that big thermometer of yours deep inside Mommy to see how hot she is?"

Chapter 3

Dani was stunned. She couldn't believe what she'd just seen. She was sitting in front of her computer, her mouth gaping open. She'd just witnessed her mother sucking her brother's cock, and then taking a monster facial!

Watching what was happening in her brother's room was nothing new to Dani. Being the techie that she was, her brother had come to her months ago, asking if she could help him set up a webcam on his computer. It wasn't so much asking her to 'help him', but to flat out have her do it for him. Her brother was useless when it came to anything like that, where she'd been a whiz with computers, technology, and any kind of gadget since she'd been little.

Spotting her opportunity, Dani had agreed to install the webcam for him. He was hanging around when she started working on it, but she'd shushed him out of the room, telling him he was bothering her by looking over her shoulder, and if he wanted it done, to piss off and leave her be until she told him the job was complete. Seth had reluctantly agreed, finally leaving her on her own, just as she'd planned.

Not only had she set up the webcam, but she'd also installed some hidden software that let her readily access anything on his computer remotely from her own, including the webcam. Dani was happy with the current position of his desk and computer relative to the rest of the room. With the webcam placed on top of his monitor, it covered not just the area right in front of it, but his bed, which was located directly

beyond. It also covered a fair portion of the rest of his room, including his window.

So, for months now, Dani had been spying on her brother, and not just him, but she was able to access every file he had on his computer, including all the Photoshopped pictures he had of her mother, and her. He thought he'd been clever, giving the files names like "English Essays", or "History Lecture Notes", but Dani'd seen through all that within seconds of gaining access. And there before her were those pictures he'd created, of her and her mother in sexy lingerie, bikinis, miniskirts, whatever.

Most people would have labelled her brother as a perv, but Dani loved what she was seeing. Not only did she think she and her mother looked great in the outfits her brother dressed them in, but it gave her the opportunity to watch her big brother jackoff when he was looking at those pictures. And when she thought of him as her big brother, she really meant BIG brother. She'd gasped the first time she saw him jerking on that fuck-stick of his. It was enormous! Almost as big as her forearm. She'd only seen a cock that big on porno sites, and most of those were the usual horse dongs that black guys had. But here was her brother, her handsome BIG brother, with one of the biggest cocks she could imagine.

She'd link in to his webcam with the built-in microphone any time she wanted and watch him work that huge prick, which usually ended up being many times a day. She'd observe and listen in as he and Lizzy each played with themselves over Skype, which usually ended up with him spraying jizz all over his keyboard.

Dani loved it, loved it all. She loved every lurid act she saw, every nasty word she heard, every intricately edited photograph of her and her mother he created, and loved it every time her brother would pull out that magnificent cock of his and pump out a load. She'd sit at her computer and watch and listen, her hand always busy between her legs. Her fingers would be sliding in and out of her juicy pussy, or diddling with her sensitive clit. She knew her brother was capable of coming many times in a day, but she easily had him beat in the numbers department. It was common for her to get off three or four times in the time he jerked off one load.

She couldn't look at her brother anymore without getting aroused. He was so good-looking, and the way his body had filled out over the last year or so had turned him into a real stud. Her girlfriends at school all mooned over him, and the rumor was that her sweet big brother had the biggest cock going. That had piqued her curiosity, and when Seth had asked her to help with the webcam, she'd jumped at the chance, knowing that might be the only way to get a look at what he was packing. And it had worked out perfectly.

Dani found it funny when her brother would sneak into her room some nights. Her door gave a little squeak every time it was opened and, even though her brother did it as slowly and quietly as he could, it still alerted her that he was coming in. She'd lie as still as she could, giving off soft sputtering breaths as if she was sleeping. But through slitted eyes, she'd watch him approach the bed, and then slip a condom over his cock before he started to beat off. She knew exactly what he was doing. Sometimes she could even smell it, the warm masculine smell of a hard cock in all its glory. She'd often make a soft moan as she rolled over 'in her sleep', causing the covers to slide off her curvy body, giving him a better view of her big tits or full thighs. Dani would let her legs

drift apart as she slept, exposing her creamy thighs right up to her panty-covered cockpit. She'd do whatever she could to add to whatever fantasy was swirling around in that perverted brain of his.

It was then that her brother would usually let out a low groan, and she knew he was filling that condom. She'd noticed that after he started making breakfast for the family that her usual pot of yogurt tasted a bit different. As soon as she'd started dating Jimmy and started sucking him off, it was easy for her to identify that peculiar taste in her yogurt. Cum. Her brother's cum. And she loved it. It was so much thicker and tastier than Jimmy's. After breakfast, she'd often need to disappear back into her room and rub one off before school. Yes, Dani loved her breakfast treats, loved her brother's cum so much more than Jimmy's.

Jimmy. Yeah...Jimmy. Dani had never been able to summon the nerve to say or do anything to seduce her brother, although she would have eagerly done anything he wanted if he decided to make the first move. But Jimmy had asked her out, and he was sweet enough, so she said yes. After seeing the size of her brother's cock, she was anxious to see others, wondering if they were all that big, and Jimmy was only too eager to help her with that, even if he had no idea of her ulterior motive the first time she undid his pants. Dani was noticeably disappointed when she got her first glimpse of Jimmy's dick in his car. Even when fully erect, it was only about half the size of her brother's, but she figured it was better than nothing.

She came around to the idea that she could maybe justify dating Jimmy by using his cock to practice on, to practice cocksucking. Even if she couldn't have her brother's beautiful cock to play with, she might as well get some experience just in the off chance that...well, just in case.

Dani was still a virgin, even at 18. She knew Jimmy wanted to fuck her, and she'd been toying with the idea of letting him be the first, but she hadn't been able to actually go through with it because of her...well, just in case there was the chance to let somebody else bust her cherry, somebody she loved and cared for so much more.

Her brother had been right earlier today when he'd asked her if she missed sucking Jimmy's cock. Although she feigned being outraged, her brother had been bang on when he'd said that. She'd missed having Jimmy's cock in her mouth and shooting a hot load down her throat, dreaming every time that it was her brother's cock she was feeding from. God, how she did miss that blissful sensation when that throbbing cock filled her mouth with a sizzling batch of cum. Yes, her brother had been right as rain when he'd made that comment, as rude as it was. She knew she could have come back at him and told her mother that Lizzy had been blowing him through the window for the last couple of weeks, but she knew that would spoil her own fun too, so she kept her mouth shut.

Yes, she'd been happy to see Seth and Lizzy work out their little scheme. The webcam gave her a great view of the window, and she'd watch Seth flex his strong buttocks back and forth as he fed Lizzy his cock. It was typical for Lizzy to suck off her brother twice in a row, her face usually a sticky mess of cum by the time they were done. Dani loved the lurid sounds that the mic picked up, of Seth calling Lizzy names and telling her to swallow his load, which the young girl willingly did, her nasty gulping sounds making Dani's pussy weep with envy. And all the time, Dani would be in her own room, eyes glued to the computer, her hand between her legs. Dani's fingers would be so busy working over her sopping cunt that they'd come out

dripping and wrinkled as prunes by the time she was done playing with herself.

And she'd been watching just a short time ago when Seth had been face-fucking Lizzy through the window. Dani's long middle finger had been busy strumming her clit as she'd watched Lizzy suck, wishing it was her mouth on her brother's meat popsicle. Yes, Dani knew she'd suck on that beauty like a cool summer treat, until it splashed her tonsils with a nice dose of creamy fluid.

But when she'd heard her mother's voice come through the built-in microphone, her hand had drawn back from between her legs as fast as Lizzy's mouth had pulled off her brother's dripping cock. She'd watched as Lizzy bolted and Seth had slammed the window closed and pulled the drapes together.

Dani knew everything was fucked now. If not for both of them, for her brother for sure. But she'd been surprised—no—she'd been fucking shocked by what she'd just seen from her mother. Rather than give Seth a blast, her mother had gone into Seth's room and things had been completely different than Dani had expected.

She noticed right away that her mother had dolled herself up a bit, putting on some fresh lipstick and makeup, and fluffing up her beautiful blond hair. And then she'd spoken to Seth in a calm comforting voice. Not what Dani had expected at all. And at the end of their conversation, Dani's mind had been blown when she'd heard her mother say she was going to "help Seth with his problem". Dani's heart had been racing as she'd watched, totally aghast, as her mother

dropped to the floor and proceeded to suck off her own son, Dani's brother.

Watching as if hypnotized, Dani's hand had subconsciously slipped back between her legs, her fingers sliding down inside her panties as she watched her mother start to suck on that cock like a porn star—no—even better than a porn star. Dani had seen enough porn to know how most of those girls faked it, faked the interest in the act they were performing. But there was none of that with her mother. Her mother was like a hungry dog with a bone. Once she got that tasty big bone in her mouth, she was slobbering over it and working it like crazy, and you could tell that she'd fight anybody who tried to take it away from her.

Dani could see how excited her brother was. Fuck, who wouldn't be. Her mother was gorgeous, and so smoking hot that anybody who came within a foot of her risked being scorched. Dani's girlfriends all told her that, and she saw the way her brother's friends looked at her mother. It wasn't hard to tell that those boys would have loved to pass her around like a fuck doll. And with that body and huge tits, Dani couldn't blame them. She was just glad she'd inherited her mother's looks and curvy body. They were basically the same height and build, with her mom having a little more weight where it mattered, in her tits and her round curvy bum. But she was 44 and Dani was only 18. Every time Dani looked at her mother, she prayed that she'd look that good when she was her mother's age.

One benefit of being the same size was that Dani and her mom were able to wear each other's clothes. They even wore the same size shoes. Dani's mom had a lot of beautiful clothes, with some really sexy stuff

mixed in there. She had tons of expensive lingerie, in every color imaginable, with a shoe-rack full of sky-high heels to match. Dani loved trying some of the things on, and was thrilled every time she looked at herself in the mirror. Yes, her mother set an example that Dani aspired to every day.

And now, her mother had sucked her brother off, just like Dani had dreamed of for so long now. Dani had watched enviously as her mother had worked that cock. The young girl's fingers were sliding deep into her juicy snatch as she watched, a lewd sucking sound coming from between her legs as her fingertips rubbed feverishly over the soft folds of flesh on the roof of her vagina. It hadn't taken her brother long to come under his mother's artful cocksucking, and when he started to shoot that lovely white seed all over her mother's face, Dani came like a runaway freight train.

Her young body shook with paroxysms of intense delight as she watched her brother paint her mother's face. She twitched and convulsed as her eyes remained glued to the screen, her fingers pistoning in and out of her sloppy cunt. She'd heard her mother groan, and then saw her body quiver through an orgasm as well, the sinful illicitness of the whole scenario making Dani's climax even more intense.

Like she'd seen him do many times in the past, her brother had stayed hard after he'd blown that massive load on her mother's face. She could see her mother's eyes sparking with delight as she realized that her son was ready to go again, and Dani heard what they'd said, and knew that her mother was going to fuck him. She was actually going to fuck her own son!

With her heart racing with excitement, Dani sat closer to the screen, one hand moving up from her soggy cunt to toy with her throbbing clit, while she slipped her other hand beneath her t-shirt and groped her breast, sliding her fingers right inside her satiny bra cup to tweak her stiff nipple. "Yes, this show is going to be amazing," she said to herself as she watched her mother get up off her knees.

*

Seth couldn't believe his luck. He'd thought he was going to be in deep shit after having been caught feeding Lizzy a load, but things had turned out the total opposite. His sexy mother had just sucked a load out of him, and now she was actually going to fuck him. He could see that look in her eyes, the hunger in them, hunger for a big hard cock. He could see how flushed with arousal she was, fuck, she was almost glowing with excitement. He knew that, for her, this had quickly gone from her just wanting to "help him with his problem", to being more about her getting the pleasure she wanted as well. Yes, he could definitely see how much she needed it, how much she needed his hard cock inside her. And he had just the thing for her.

Sonya stood at the side of her son's bed and shimmied out of her little skirt, kicking it to the side as it fell to the floor. She crossed her arms and peeled off her pink tank top, pulling it up over her head and tossing it aside as well.

Seth gulped as he looked at his voluptuous mother, standing just inches away, clad only in a matching pink bra and panty set. "Fuck, those tits

are unbelievable," he thought to himself as his gaze zeroed in on those magnificent spheres. Her bra was substantially underwired. Fuck, it had to be, just to support the weight of those two beauties. But it was delicately feminine at the same time. Made of pink satin and lace, it pushed her two boobs together and up in a brilliant display of engineering, yet still looked so intimately feminine at the same time. His gaze dropped down to her midsection, taking in the curvy shape of her hourglass figure. She had a nicely-defined narrow waist, accentuated even more by the huge rack of tits above it, and the wide flare of her mature hips below. Her tiny pink panties were cut wickedly high on her hips, making her toned legs look long and so fucking sexy. Seth gulped as he looked at his mother's amazing body, surprised that it looked better in person than in all those images he'd had of her when he'd jacked off all those thousands of times. He felt his resurgent cock give another lurch as he looked at her, wanting to get his hands on that perfect body of hers.

"It looks like part of you approves," Sonya said as she noticed Seth's towering prick throb and twitch as his eyes raked over her.

"Jesus, Mom, you're so beautiful," Seth said as his hand subconsciously went to his surging member and started slowly stroking it, as if this was his own personal porn movie happening right before his eyes.

"Don't get that load off too fast, sweetheart," Sonya said as she pushed down on the waistband of her panties, her wide hips shifting from side to side as she lowered them to the floor. She kicked them aside as well, and then put her hands behind her back.

"No, Mom," Seth said as he put one hand out, the palm facing her, stopping what she was doing. "Can you leave your bra on for me? Your boobs look amazing in it. Please, leave it on, for a little while anyway."

Sonya smiled. It looked like her son had inherited her love of lingerie. She knew all men loved sexy lingerie, and obviously her son was no exception. She had a ton of the stuff, and if things worked out as she hoped, her son would be seeing her in a lot of it from now on. "Of course, dear, whatever you'd like, just as long as I can get that big cock of yours inside me."

"You can have as much as you want, Mom." Seth shifted back on the bed, his pulsing erection pointing skyward as he lay back.

"Mmm, I think I'm going to like this," Sonya purred as she crawled onto her son's bed, moving towards him on her hands and knees. She could see his throbbing dick was ready for a good hard riding, the big flared head red and angry looking, calling out to her like a beacon. She swung her leg over his body, her hands on either side of his chest as she positioned herself, her dripping cunt poised just above his pulsing cockhead. She reached down between her legs with one hand, steering the hot crown between her slippery pussylips, rubbing it all around those slick labial gates. The broad head was hot as a branding iron and, as she felt the intense heat flow from her son's body into hers, she sat down slightly. She could feel her slippery petals of flesh stretching outward as the helmet-like knob moved further into her, the soft tissues of her lips forming lovingly around the blunt-headed knob. She eased herself further down, feeling that massive cockhead starting to stretch her like she'd never been stretched before. When the flared crown was finally inside her, she drew her hand from between her legs and put it

back beside her son's muscular chest. With the big knob safely inside her, she was ready to ride, but she knew she wanted to take her time. His cock was just so big, that she knew she'd have to go slow and get used to it just to have a chance to make every last inch fit inside her. She glanced down between their joined bodies, amazed at the length of the veiny shaft that she was eager to feel tearing deep into her needy pussy. Sonya looked back at her son, her eyes hooded with excitement as she thought about how good it was going to feel having that monstrous prick assault the depths of her cunt.

"Just give Mommy a minute or two," she cooed as she seductively rolled her hips. "I just need to get used to the size of this beauty."

Sonya leaned forward and kissed her son, like she'd never kissed him before. Her full lips pressed against his, her mouth open and waiting. When she felt his mouth open in kind, she slid her tongue between his parted lips, his tongue pressing back against hers as they kissed deeply.

"Mmm..." Both of them moaned as they surrendered themselves to the rapturous intimacy, mother and son experiencing illicit sensations that most people can only dream of. Sonya sucked gently on Seth's tongue, luring him into her own mouth, where she rolled her tongue all around his as he explored the hot tissues lining her cheeks, the cheeks that had been pressed against his cock when she'd been sucking him off just minutes ago.

Sonya finally drew back, both of them breathless and panting, wanting more of each other. "Okay, baby," she said as she put both hands on his broad muscular chest and settled her wide hips into just the position

she wanted, "let's see if Mommy can get all of that big hard cock inside her."

And with that, she started to lower herself. The first few inches went in smoothly, the girthy fuckstick stretching her insides with excruciating pleasure. Sonya thought it was funny that the first time her vagina had been stretched like this was because of Seth as well. He'd been her first child, and when he came out, it was all of him that stretched her birth canal. Now, it was just one part of him that was doing the same thing, but that one part was working its magic, making her feel luxuriously full of big hard cock. Yes, this huge cock of her son's was filling her up, really filling her up, in every way possible. She quickly glanced down, noticing that she'd only take about half of the incredible length inside her gripping snatch. But she had no intention of stopping there. No way, there was no way she was going to stop until she had every rigid inch buried deep inside her itchy cunt.

Seth was content to let his mother set the pace. From the times he'd been with a few of those girls who actually let him get anywhere close to fucking them, he knew they were all aware of his size, and what his cock might do to them. Most had backed off long before this point, and he had to give his mother points for the way she was taking him. Yes, he could feel the longing in her, in every quivering movement and hip roll as she ground herself slowly downwards on his thrusting pole. Where the other girls only had a look of fear on their faces—if they ever got this far—his mother had a different look in her eyes. He could tell that for his mother it was a challenge, a lustful desire to show that she could take his big cock, to slide her hot wet snatch right down over his throbbing erection until her slick pussylips pressed flush up against his shaven groin.

He looked down at the same time she did, noticing she still had about half the length of his cock to go. But fuck, her pussy felt amazing. So hot and juicy, so fucking hot that it felt like his prick would come out blistered from the heat as the searing coital walls gripped his stiff member. He let his eyes look upward, taking in the fantastic sight of her heavy mounds hanging right over his chest, the massive breasts looking gorgeous as her sexy pink bra kept them teasingly encased. Her cleavage was deep as a canyon, and mysteriously dark. The soft pillows of flesh were all but spilling over the top edge of the lacy bra cups, but he was happy he'd asked her to leave her bra on. He loved the way her tits looked in that gorgeous bra. He knew already, from the way his mother was acting, that this wasn't going to be the only time they'd do this. No, he could tell by the look of rapturous hunger in her eyes that she wanted more of his cock, a lot more. And what kind of son would he be to deny something she needed so badly? Yes, there'd be plenty of time to both see, and get his hands on, those mouthwatering tits of hers another time.

"Oh god, baby, you are so big," Sonya moaned as she rolled her hips, testing the immense girth of the cunt-wrecker stretching her dripping trench.

"Too big for you, Mom?" Seth asked, keeping still but flexing his prick inside her.

His little movement caused her to close her eyes as she savoured the delicious sensation. "Mmm, it's just right...just right." With that, Sonya pushed herself down on the rigid bollard thrusting upward from between her son's legs. That's what it felt like to her, as hard as a solid pillar of concrete, but covered with a layer of whisperingly soft rose

petals. She forced more of his tremendous cock into her, the hot tissues inside her covering the invading cockhead with a million little kisses as it moved deeper, and deeper still. She paused when she'd hit the point of the biggest cock she'd had inside her before, a football player in college. But when she looked down between her legs, there were still two inches of thick hard cock separating her body from her son's.

"Do you think you can take it all, Mom?" Seth asked as he too looked at the gap between them. No one he'd fucked had come anywhere close to taking this much, and he couldn't believe how good it felt.

Sonya felt a shiver of delight run down her spine as she wriggled about, her pussy fuller than it had ever been. She'd been getting hotter and hotter as he'd been going deeper, his monstrous erection setting fire to nerve endings that had never been touched before. And fuck, did it feel good. But she knew that there was no way she could stop now, it just felt too wonderful, as if it had been ordained by some higher power that she was made to take her son's cock, every single inch of it. She had to have it...or die trying. She looked down into her son's eyes, her face a mask of rapture, her skin glowing with a fine sheen of perspiration. "Oh yeah, baby," she said breathlessly, "Mommy's gonna take every last inch, and then I'm gonna ride you like you've never been ridden."

With that, Sonya took a deep breath, pushed herself up as she rose a few inches higher on Seth's stallion-like cock, and then slammed herself down, intent on taking the rest of his thrusting prick inside her. The tight tissues inside her reluctantly parted, the clutching coital walls coating his driving cock with hot oily juices, allowing that massive cock full access to her steaming depths.

"OH FUCK!" Seth wailed as he felt his shaven midsection press up against his mother's, the blunt head of his cock bumping up against the gates of her womb.

"OH GODDDDDDD...OH YESSSSSSSSSS..." Sonya hissed as an electrifying climax shot through her. She had it all, every fucking inch inside her, and when she felt that huge glans press up against something inside her, it sent her right over the edge. She was twitching and shaking as if she was having a fit, her lush curvy body almost convulsing as paroxysms of delight washed over her one after the other. Her son's cock had stretched her and filled her pussy like never before, and she loved the feel of every hard inch as she wriggled about, wave upon wave of orgasmic bliss shooting from the depths of her over-stuffed cunt all the way to her fingertips. Fuck, it even felt like the tips of her hair and eyelashes were tingling. Her climax was that intense.

"SO GOOOOOODDD...SO FUCKING GOOOOOODDD..." Sonya continued to moan as she surrendered herself to her spine-tingling release.

Seth flexed his hips upward, wanting his mother to get as much pleasure from this climax as possible. He felt a warmth spread over the connection between their joined bodies, and he knew she was a gusher, spraying her warm cunt-honey all over him. She was leaning over him, her head hanging down as she swayed from side to side, her boobs wobbling inside her gorgeous bra as they hung over his body. Seth thought that she'd never looked more beautiful in her life. Her orgasm went on for a long time, until, finally, she sat back with her hands on

his muscular chest. She shook her head, her blond hair flashing wildly about her pretty face. She looked down, her eyes glassy and dreamy-looking, a soft smile playing at the corners of her lips.

"Oh god, baby, that was unbelievable," Sonya said as she slowly rolled her hips, sighing deeply at the wondrous feelings that enormous prong was causing inside her.

"You feel fantastic, Mom," Seth said as he ran his hands up the front of her body, his hands cupping her massive breasts. Fuck, they are so big, Seth thought as he let his fingers spread out over the smooth satin of her bra cups, each big tit more than one hand could contain.

"You feel pretty fantastic yourself, lover," Sonya replied as she worked the muscles inside her, gripping down on his thrusting erection.

"Oh fuck, Mom, your pussy is incredible." Seth couldn't help but flex upward, wanting more of his mother's talented mature cunt.

"I don't think I've ever come that hard...ever," Sonya said as she slowly pushed herself up on his rising staff, the thick shaft and his smooth abdomen glistening with her warm juices. "I think I want another one." She paused as she stopped, with just the lemon-sized cockhead trapped between her stretched pussylips. She glanced down at their connected bodies for a second before looking back at her son, her eyes swimming with wanton desire. "How about you, baby, do you want to come inside Mommy?"

Without waiting for a reply, Sonya slammed herself downwards, driving every last inch back inside her hot dripping cunt. Her soft mound made a nasty slapping sound as she smashed her loins into her son's. She didn't stop as she flexed upward again, retreating almost to the tip once more.

"YESSSS..." It was Seth that hissed this time as his mother really started to ride. She was bucking like a bronco as she bounced and thrashed about on his throbbing stanchion. Seth couldn't believe how agile and aggressive she was as she worked his cock, sitting right down in the saddle one minute, and then bouncing up and down like a jack-in-the-box the next. It was only another minute or so before she shrieked with delight as another orgasm shot through her. She was quivering and twitching as the tingling sensations coursed over her, but she kept riding, bouncing and wriggling about as though she was impaled on an electrified cattle prod.

Seth thought it was a good thing he'd already come twice, or he'd have gone off himself by now. He used all his willpower to suppress the urges inside him, wanting to give his mother as much pleasure as possible. She came a third time, and then a fourth. He loved it, and he knew where he had inherited that wondrous trait of his own, being able to come a number of times before having to re-charge the battery. And for women, it could only get better. Already, his mother had come more times than any girl he'd been with...and they were only getting started.

Seth waited until she regained her breath after her fourth climax, her body pressed hotly against his as she drew in ragged breaths of air, her cunt absolutely stuffed with rock-hard teenage cock.

"Oh fuck, baby, you feel so good inside Mommy," Sonya purred as she leaned forward and gave Seth a searing kiss. Her tongue slid into his mouth and they kissed rapturously, lost in blissful euphoria. She finally pulled back, nipping at his bottom lip teasingly. She looked deeply into his eyes from just inches away, and then salaciously rolled her hips, using his monstrous erection to stir her insides like a batch of wet cement.

"Oh Seth, your cock feels so incredible. It's so big," she paused as she gave another slow provocative roll of her hips, "and so fucking hard. We've got to do this more often. A lot more often."

Those words were magic to Seth's ears. He'd dreamed all his life of his mother saying something like that to him, and now, she had. It gave him a jolt of confidence that surprised even him. "I think you can have as much of my cock as you want, Mom, anytime you want." He reached forward and put his hands around her waist, gripping her tightly. "Starting right now." With that, Seth rolled her over onto her back, keeping himself buried to the hilt inside her.

*

Dani couldn't believe what she'd been seeing on her computer. Her mother had just fucked her brother, her mother's own son! And now they were going to go for more, only this time with Seth on top.

Dani's fingers had been busy inside her cunt the whole time, bringing herself to one climax after another until the point that now, her fingertips were wrinkled from being soaked in pussy juice for so long.

As she'd watched her mother come time and time again, she knew she'd inherited the same sensitivity in her loins that her mother possessed.

And man, she couldn't believe how sexy her mother was. She had always known her mother was beautiful, and had a body that men, and boys, drooled over, for which Dani was grateful to have inherited many of her mother's generous attributes. But geez, seeing her in action was something else. Her mother had ridden Seth's cock like a wild thing, thrashing every which way and bouncing up and down like it was her last wish before going to the electric chair, which is what it seemed like when she came, her whole body twitching and convulsing spasmodically as that huge stake between her brother's legs sent electric jolts pulsing to every nerve ending of her mother's lush body.

Dani had felt her mouth water as she watched her mother's tits quiver and wobble beneath her sexy bra, the enormous orbs barely contained by the sexy garment. But Christ, Seth had been right to make her leave her bra on, for now anyway, her mother's tits looked incredible as she spasmed and shook through one orgasm after another.

And watching her mother's big round ass shake had drawn Dani's young eyes too. It was like watching two beach balls bounce around as her mother flipped and ground her heart-shaped bum up and down, over and over, as she'd ridden Seth feverishly. Dani had clearly heard the sound of the bed squeaking in protest as her mother had bucked up and down like a cowgirl.

Her mother's face had been a mask of lust the whole time. Her eyes were glassy and dreamy-looking, hooded in bliss. Her skin was positively glowing, with both a fine sheen of perspiration from their

exertions and from something else, an indefinable quality that Dani thought of as pure rapture. Yes, her mother was glowing with sheer pleasure, and Dani was envious.

Not jealous, but envious. She wanted what her mother was getting, a good solid fucking from her hunky big brother, but she didn't feel jealous about it, she didn't want that pleasure taken away from her mother, but she did wish it was her that was experiencing that enormous teenage cock. She'd loved the way that her mother had been able to take every last inch of that enormous prong inside her, totally filling up that mature cunt of hers. Dani had gasped the first time her mother had slid all the way down, Seth's cock totally disappearing from view. Her mother's eyes had closed in blissful triumph, and Dani's probing fingers had made her come on the spot at the same time her mother came as Seth's huge cock bottomed out inside her. Dani's hips had shifted restlessly from side to side on her chair as she'd thought about what it would feel like to have every hard inch of her brother's monstrous cock plundering her virgin pussy, stretching her cunt like it was stretching her mother's. Would she be able to take it? Could she take every hard thick inch? Her pussy was creaming like crazy all over her thrusting fingers as she thought about it, thought about that beautiful big cock rearranging her insides.

Through her computer, she'd watched her brother fuck, or should she say, 'try to fuck', Lizzy a few times. But the poor girl could only take less than half of her brother's huge cock, and most of the times it would end up with Seth getting frustrated, pull his cock out, and finish off inside Lizzy's mouth. Dani knew inside that she could do better, that she could take more of that big powerful cock than Lizzy could, but could she take as much as her mother? She knew she wanted to, she wanted to try to, but for now, it looked like her brother was intent on

going for more. As her fingers started slowly toying with her throbbing clit, Dani sat up and leaned in closer to the screen, not wanting to miss a thing.

*

Sonya gasped as her son took control and rolled their connected bodies, leaving her on her back beneath him. She couldn't believe how strong he was, how easily and yet gracefully he'd positioned her on her back just as he wanted. There was no clumsiness, no fumbling, just a sure confident movement as he levered her over while keeping his big hard prick inside her. And now, he was leaning over her, the look in his eyes letting her know that he was in control now, and he was going to do whatever he wanted with her.

Sonya had always gotten what she'd wanted sexually, having the looks and body that no man could deny. But what she really loved, what really got her pussy creaming, was to be taken by a true alpha, a big-cocked male who took control and used her like the slut she knew she was in the depths of her soul. She'd only met a few of those in her lifetime, and each time, it had been the best sex she'd ever had. But none of those, not a single one, came close to the cock size and physical prowess of her son. Maybe it was the age difference too that was making it more exciting for her, maybe it just the size and power of his enormous cock, she wasn't sure. But the one thing she was sure of was that the fact that it was her son, her own flesh and blood, that had her cunt gushing like she'd just struck oil. The hot juices were seeping out of her coital walls like crazy as she thought about her son taking control and fucking her, fucking her like a savage.

She'd felt a change in her son, a change in his attitude, at who was running the show here. She'd come into his room knowing what she'd wanted, and now, she knew the tide had turned. It was now all about giving him what he wanted, letting him use her however he wished, making sure that beautiful cock of his was serviced as much and as often as he wanted, as much as he needed. And Sonya loved it that way, loved that he would use her to satisfy his own perverse pleasure. The sinful illicitness of what they were doing just made it even more exciting. She couldn't wait for more.

Sonya felt a wave of emotion roll over her and, as her son looked down at her, she knew she'd never loved him more. In this short time they'd been making love, she knew things had changed. She'd fallen in love with his cock, in love with him, as a man, as her lover. She knew that she was his now to do with as he pleased, and not just his mother, but his plaything, his cock-slave, his slut.

Sonya was lost in love for her son as he leaned over her and looked into her eyes, the fire burning inside him just as much as inside her. She looked up at his handsome face and spoke, overwhelmed by the emotions she was feeling. "Seth, I think—"

Her words were cut short as he dropped his mouth to hers, pressing his lips against hers in a rapturous, hungry kiss. His mouth was deliciously hot and moist as his tongue rolled against hers, probing deep into her hot oral cavity. With his body pressed so close to hers, she got of waft of his pure masculine scent, the alluring fragrance feathering its way deep into her senses, enflaming her desire for her son even more. She wanted nothing more in the world than to be taken by him, to be whatever he wanted her to be, to be fucked by him until

she couldn't take it anymore, to let him do whatever he wanted to. To be his cum dump, his willing receptacle for his lust-driven desires.

Seth finally drew his mouth back from hers, leaving both of them breathless. He looked into her eyes once more, seeing that lustful yearning that he'd only dreamed of. "I'm going to fuck you now, Mom," Seth said as he provocatively rolled his hips, causing her to give off a deep animalistic groan. "I'm going to fuck you deep and hard, and I'm going to make you scream with this." He hunched forward slightly, grinding his pelvis into hers, rubbing the flared knob up against her cervix.

Sonya's eyes closed as she surrendered herself to the pleasure, the intense pleasure her son's magnificent cock was causing inside her. Her pussy was completely stuffed, and felt electrified, so sensitive that any movement would cause her to crash through one orgasm after another. She was in heaven. "I love you, Seth. Do...do whatever you want. Fuck me as hard as you want, as deep as you can get. I'll do anything, just don't take that beautiful cock away from me. Don't think about Lizzy anymore, Mommy can take care of you much better from now on."

Seth smiled inside. This was going better than he had ever imagined. "I'm going to need a lot of taking care of," he said as he provocatively rolled his hips again, causing her broad flared hips to shift restlessly on the mattress.

"That's okay, sweetie," Sonya gasped out, wanting to feel that rigid scimitar of flesh cutting its way deep into her. "Mommy'll take care of you as much as you want, any time you want. You won't need Lizzy anymore."

Her words boosted Seth's confidence even more. "I'm going to need to feed you a lot of cum too, Mom. Are you willing to swallow as much as I can give you?" Seth continued to roll his hips, pressing the sensitive glans of his cock all over the hot oily tissues deep inside her.

"Oh god, yes," Sonya hissed back, her body flushed with desire, flushed with the need to be fucked good and hard by her very own son. He was teasing her, and she was almost losing control, she needed that cock so badly. "Please, don't waste any more on that silly young girl. I'll suck you all night long if you like and swallow as much cum as you want to give me, anywhere, anytime."

Her answer was even better than Seth expected, and he could see by the way she was twisting and turning as she writhed against him that she wanted his cock bad...real bad. "And you know I'm going to want all three of your holes. If that's a problem, let me know right now."

Sonya was on fire, and her son could use any of her three holes anytime he wanted. Just the thought of taking that enormous cock up her bum almost made her swoon with arousal. She was his, and she'd willingly do anything for him, for that gorgeous huge cock of his. "No baby, you can use any hole of mine you want, whenever you want."

Sonya could only stare, totally entranced, as Seth, with a lewd smile on his face and his cock still buried inside her, pushed himself upward into a kneeling position between her spread thighs. She looked down, her inner thighs glistening with her juices. He reached down and grasped each of her slender ankles in his hands, and then raised her

legs straight up in the air, her toes pointing at the ceiling. Sonya gasped as he slowly spread his arms out to each side, spreading her open like a wishbone. Finally, he stopped, his hands holding her legs spread far out to each side, her body in just the position he wanted for a good, hard, deep fucking.

"You came pretty good when you were on top, Mom," Seth said as he looked down at her, shifting his knees slightly to get into the exact position he wanted. "Let's see if we can give you a few more this way."

He flexed his hips back, drawing his thick cock almost all the way out of her clutching twat. Her pink labia clung to his withdrawing member in a tight ring, reluctant to let it go. Seth had no thought of disappointing her. There was no way he was going to pull out of that hot tight cunt of hers. With just the big flared knob caught between those shiny wet petals, he levered his hips forward, driving every single inch deep into his mother's gripping snatch.

"YESSSSSSS!" Sonya hissed through gritted teeth as she felt that monstrous cock fill up her needy socket. The broad head stretched her insides deliciously as it tore deep into her, the headboard bumping noisily into the wall as Seth hammered her into the bed.

Oh fuck, yeah, Seth said to himself as he luxuriated in the sensation of feeling his cock finally buried balls deep into a woman. And the fact that that woman was his mother just made it all that much better. He watched as she gripped the sheets tightly in each fist, her head tipped back and her eyes closed in rapture as he quickly withdrew once more. With his hands holding her legs spread wide open in an inviting V, he slammed his turgid prick into her again, the broad flared head rubbing

sensually over her tight coital walls, causing her to squirm like a writhing snake.

"FUUCGGGKKGGKK..." Sonya mumbled loudly as she came again, her pelvis twisting every which way as her son's huge cock had her convulsing and shaking like crazy. Her fists pulled at the sheets as he kept fucking her, his hands holding her spread legs wide open.

"OH FUCK...NOT AGAIN!" she groaned loudly as she came again a minute or two after that. She couldn't believe what her son's monstrous prick was doing to her. It was like he was turning her inside out with pleasure, her body flexing and shaking as wave after wave of euphoric bliss crashed through her.

Seth could see the muscles twitching on the insides of his mother's spread thighs, her soft skin twitching in spasms as he jackhammered his cock as deep into her with each stroke as he could. For the first time, his cock was totally enveloped by steaming hot pussy flesh, and he wanted more, knew he had to have more. And from the way his mother kept coming, he knew she wanted it to. From that wanton look of desire on her face, he could see that his mother was loving it just as much as he was, if not more. Yes, she loved cock all right, his cock. He'd only thought this was possible in his fantasies, like when Lizzy was sucking him off. But here was his mother, her hot mature cunt working his cock like a wild thing, the talented muscles inside her milking his skewering rod for all it was worth. Yes, his mother definitely loved his cock, and he was going to make sure she got plenty of it from now on. He knew this was just the start of a new relationship between the two of them, one that was going to last for a very long time.

"JESUS FUCK..." Sonya bellowed as another climax ripped through her, her body covered with sweat. "SO BIG...SO FUCKING BIG..."

Watching his mother twitch and gyrate through another orgasm was all Seth could take. He felt his bloated balls release their prize as those telltale sensations began in his midsection. He drew back until the huge mushroom crown almost came free, and then slammed his hips forward, just as the first rush of semen sped up the shaft of his cock.

"FUCK MOM...I'M GONNA COME!"

"YESSSSS..." Sonya hissed as she felt her son drive her deep into the mattress, his thrusting erection crucifying her as he kept her legs spread far out to each side. His body slammed into hers, making a nasty wet slapping sound as he bottomed out inside her, impaling himself balls deep as he started to go off.

"AAAAHHHHH..." Sonya gasped as she felt the first hard pulse of cum rocket against her cervix, the illicit sensation triggering another climax that started deep inside her gripping cunt and blossomed like an atomic bomb to every nerve ending of her body. Her head was flopping from side to side like a ragdoll as she came, her whole body shaking like she'd been hit by a taser. She wanted to scream so badly that she had to grab a pillow and bite onto the corner to stop her shrieks of ecstasy from being heard all over the neighborhood.

"UHH....UHH...UHH..." Seth moaned loudly as he kept his spitting prick buried inside his mother, basting her insides like a Christmas turkey. His spewing cock kept shooting, wad after wad of thick teenage

cum rifling into the depths of her sucking cunt as he totally unloaded. He'd already come twice, once in Lizzy's mouth and once after his mother had just sucked him, but this load was something else. His mother's pussy was working him like crazy as they both came at the same time, the muscles inside her sending a rippling massage along the full length of his huge cock as she tried to coax as much of his potent swimmers out of him as she could.

"SO HOT," Seth groaned as he flexed back slightly and then powered the head all way back into her depths, more spunk rifling from his spitting cockhead as he flooded her depths. Torrents of cum spewed into her, so much that some was forced out back along the sides of his cock, white rivulets of boy-cum squelching out around the circle of her stretched labia and running down onto the sheets.

They both came for a long time, the intense sensations of their mutual climaxed having overwhelmed them. Seth finally released his mother's ankles, her legs dropping to mattress on either side of him. They were both breathing deeply and Seth watched his mother's tremendous chest rise and fall provocatively as they started to recover. Yes, I'll be fucking those tits soon enough, he thought as he looked at her stiff nipples casting teasing shadows on the front of the straining bra cups. He looked past those spectacular tits to her face, her skin flushed and glowing. Her lips were wet and parted as she drew in deep breaths of air, her eyes closed in blissful contentment as she regained her breath. Those parted wet lips drew his attention, and he knew just what he wanted.

Seth slowly levered his hips backward, pulling his half-hard peter out of his mother's gripping channel. It came out with a nasty wet sucking

sound, which was music to Seth's ears. He thought there wasn't a sexier sound on earth. He looked down at his bobbing prick, glistening lewdly with a mixture of his mother's fragrant cunt-honey and silvery ribbons of his own seed. He looked further at the gaping curtains of her labia, the shiny pink flesh looking puffy and swollen from the abuse he'd just given it. As Seth watched, a slimy trail of milky cum oozed forth from between the slick lips and started to run downwards. Now that they'd gotten started, and he'd seen that hungry look in her eyes, he knew there would be a lot more of that happening before he was done with his mother today. He looked back up towards her face, seeing her looking back at him expectantly with those glassy eyes of hers.

"I've got some more for you, Mom," Seth said as he threw his leg over her body. He moved upward on his knees until he was straddling her chest, his sticky dick hanging lewdly over her face. "Here you go. Open up and suck this clean for me."

Seth hefted his spent cock and dropped it right between her parted lips. With a devilish glint in her eye, his mother willingly opened her mouth wider, pulling his gooey cockhead deeper into her mouth. Her tongue slid forth hungrily as it rolled over the glans, drawing a large creamy gob of pearly cum back into her mouth. Seth helped her, pulling his cock out of her mouth and moving it back and forth and from side to side along her perfect lips as she licked and sucked up every warm ribbon and milky gob that she could. She cleaned him from head to root before he dropped the seeping tip right between those soft red lips once more, letting her draw out the last creamy morsels.

Temporarily satisfied, he swung his leg off her body and lay down beside her, slipping his arm beneath her shoulders and pulling her against his side. He was happy to see that she willingly complied, giving off a kittenish moan as she snuggled up against him, both of them languishing in blissful splendour. He felt her fingers trace slowly over his muscular midsection, and with her head nestled into his shoulder, he knew she was looking at his cock, which was currently lying dormant on his abdomen.

Sonya looked down at that incredible cock, which now looked like an enormous snake sleeping. But she knew that it would eventually awake, rise up, and lull its victim into a false sense of security before striking with venomous fury, forcing its victim to surrender to its power and magnificence. Sonya had already come more times than she could count on that beautiful cock, and she couldn't wait for more.

"Mom, I have to say, you're pretty damn good at that," Seth said softly as he stroked his mother's side, his fingertips rubbing softly over the cool satin of her bra.

"You're pretty good at that yourself," Sonya cooed back, her talon-like nails scratching teasingly over the smooth firm skin of his abs.

"Like we said a few minutes ago, I'm going to want a lot more of that from now on, a lot more."

"But you have to promise not to see Lizzy anymore. It's safer for all of us."

Seth smiled to himself, thinking about how incredible it had felt to have every last inch of his cock inside someone, for the first time ever. There was no way he was going to stop now. "I don't think that's going to be a problem anymore."

"That's good, sweetheart."

The two of them were quiet for a minute or so, both lost in their thoughts. "You know what is going to be a problem though," Seth finally said.

"What?"

"Dani. What are we going to do about Dani?"

"Geez, you're right," Sonya said, the reality of their predicament finally hitting her.

Seth wanted to test the waters on something, to see what his mother would say. But first, he threw out another comment to make sure he was reading her right. "Maybe we should stop. You know, walk away and forget this ever happened."

Sonya's head snapped up and she looked her son in the eye, a look of anxiousness in her eyes. "I...I don't think I can do that. I...don't want to do that. It was just so good, so right. Don't you think so?"

Seth had the answer he wanted, so he continued. "I think so too, and I want to fuck you every day from now on, Mom, for hours on end. But with Dani around all the time, I don't see how we can do it...unless..." Seth specifically left his words swinging in the air.

"Unless what?"

Seth shrugged as he cupped one of his mother's big tits and gave it a gentle squeeze. "Unless we ask her to join us."

Sonya couldn't help but smile as her son looked at her with a nasty twinkle in his eye, one she knew she'd seen in her own eyes over the years. "Well, you are a nasty one, aren't you?" She tilted her head up and gave him a quick kiss before continuing. "You really want to fuck your own sister?"

After what had just happened, Seth didn't think there was any harm in being totally honest. "I've wanted to fuck both of you for years. And now, now that we're locked up together, can you think of a better opportunity? And like you said, Mom, it's important that we stay safe. You don't want Dani sneaking off to suck Jimmy's cock, do you?""

Sonya gave her son a playful smile as she took his hand and slid it right inside her bra, his fingers quickly finding her rubbery nipple. "You're right about that." Her own hand slid down, her slender fingertips toying with the base of his cock as she slipped her hand around the heavy salami. "Your sister is a sexy little thing, isn't she?"

"She definitely is, just like you, Mom."

"And there's no doubt you've got enough here for both of us," Sonya said as she hefted his substantial log in her hand. "How big is it anyway?"

"It's 10³/₄", almost 11" on a good day."

"Jesus!" Sonya gasped out, her eyes opening wide. "Now wonder I just came about a million times."

"If Dani agrees, it will make things so much easier for everyone, especially you and me. Once it's out in the open, you and I can fuck anywhere and anytime we want."

Sonya looked down at the dormant monster in her grasp, thinking what Seth had just said sounded just about perfect. "Do you think she might want to do this? What about the way she feels about Jimmy?"

Seth shook his head. "Like I said at breakfast, I know she's sucking Jimmy's cock, but I don't think she's crazy about him. But I do think she's curious, although I can tell that Jimmy's not THE guy for her. She doesn't let him get that close."

"But they are having sex, aren't they?"

Again, Seth shrugged. "I don't know for sure. Maybe, maybe not. I just know she's not knocked out by the guy. Seriously, if you talk to her, I know you should be able to convince her, or at least get her to consider it. She looks up to you, Mom, and I know she wants to make you happy. Dani's always been like that."

Sonya looked away for a second, her mind reeling as a million thoughts pinballed through it. "But what will I say, how would I bring it up?"

"Maybe just be honest. Mom, you always say, 'Honesty's the best policy.'" What do we have to lose? Jesus, we're in the middle of this pandemic and we're lucky to be alive. What better time to be totally honest than right now?"

Sonya couldn't disagree with what Seth was saying. She nodded as she pushed herself up, but not before leaning forward and giving her son another hungry rapturous kiss.

"Okay, baby, I'll go and talk to her right now." She glanced down at her son's half-hard prick, lying in wait across his thigh. She couldn't help but sigh dreamily as she picked up her little skirt and started shimmying it up over her broad hips. "The sooner the better, right?"

"I'd say so," Seth said as he leered at her, his eyes making it clear that he wanted more. He reached over and grabbed her panties. "Do you want these?"

Sonya shook her head as she gave him a nasty smile. "They're already soaked. You can do what you want with them until I come back."

Seth instantly brought the damp panties to his nose, breathing deep as he drew in his mother's intoxicating scent.

"You are a nasty little fucker, aren't you?" Sonya said as she reached for her top.

"Little fucker?" Seth said playfully as he nodded towards his groin, his long heavy cock already starting to stiffen once more as he breathed in his mother's delectable fragrance.

"Jesus, look at that thing," Sonya said as she straightened out her clothes, her fingers already itching to get back to her son's cock. "I guess 'little' was a bad choice to describe that monster of yours." She could see it twitching and growing as more blood poured into it. "Does that thing ever go soft?"

"Not when I think about you, Mom. And if your lips are on it, it'll stay hard as long as you keep sucking on it."

Sonya shivered, thinking about getting her lips wrapped around that gorgeous cock for hours on end, drinking a gallon of cum from those spunk-filled balls of his. She didn't know who wanted it more, her or her son. She shook herself out of her daydream, forcing her eyes away from his rising prick. "Jesus, sweetie, just try to keep that thing under control until I get back. And don't jerk off. I don't want you to waste

another drop." With a regretful sigh she smoothed out her hair and turned towards the door.

"Good luck, Mom," Seth said. "And just remember..." Sonya turned with her hand on the doorknob as her son spoke. He had her soaked panties wrapped around his tumescent prick, slowly stroking it towards her. "This will be waiting for you when you get back, and if you bring Dani, maybe you can give her a few lessons. After all, you're supposed to be home-schooling us, aren't you?"

Sonya she felt herself start to salivate again as she looked at her boy's tremendous cock. Shaking her head to bring herself back to reality, she turned and pulled the door open, knowing she had to get out before she jumped back onto the bed and started sucking that beauty right away.

Dani was in shock. She'd come many more times during this last part of the fuck session between her mother and her brother, and now...fuck...they'd just talked about asking her to join them!

What the fuck was happening?! And now, her mother was already on her way to talk to her. Dani pulled her gooey hand out from between her legs, put her computer into sleep mode, and hurried into the bathroom. She washed her hands and straightened herself up, looking at herself in the mirror, wondering, is this really going to happen? Is my mother really going to ask me to join the two of them? But most of all, she had one thing running crazily through her brain...is my hunky brother really going to bust my cherry?

Chapter 4

Sonya leaned against the wall outside her son's bedroom, trying to compose herself. On one hand, she couldn't believe what had just happened. On the other hand, she couldn't wait for more. Her son had been such a wonderful lover, and that cock of his, that fucking huge cock of his, unbelievable. She almost groaned as she thought about it, and her hand automatically went to her stomach, where she rubbed gently, thinking about how amazing it had felt to have that enormous slab of muscle filling her cunt.

And now, they had to figure out how to continue, and what to do about Dani. Sonya knew Seth was right. There was no way with the three of them, like everyone else, locked down in their own home during this pandemic, that she and Seth would be able to secretively carry on fucking each other. And now that she'd experienced her son's amazing cock, she knew in her heart there was no way she could give that up, no way she could turn back and forget it ever happened.

But how to deal with Dani? The more she thought about it, the more she knew Seth was right about that too. She had to be totally honest with her daughter. Both her kids were over 18, basically grownups. They knew the predicament they were all in, that the whole world was in, and they had to stay safe and take care of each other. And if fucking happened to be the one of the ways they needed to take care of each other, then so be it.

She'd always preached to her kids about the importance of honesty, and if she didn't practice that herself, how hollow were her words when

it came to believing what she'd always told them? No, she had to be honest with Dani about this, however awkward and embarrassing that might be. She owed her daughter that much. Besides, there was no way to sugar-coat the fact that she'd just fucked her well-hung son, and wanted to fuck him a lot more. No, Dani needed to know the truth. Sonya just hoped she'd understand, and not hate her, or Seth.

Taking a deep breath and gathering herself, she stepped down the hallway towards her daughter's room. As she walked, she felt her son's massive load sloshing around inside her and, just as she tapped at her daughter's door, she felt a warm stream of emulsion start to run down the inside of her thigh.

"Come in." Having already knocked, there was nothing Sonya could do about that damp feeling on her leg. She just knew she had to sit down as soon as possible to try and keep the rest of that pearly goodness trapped inside her.

Sonya opened the door to see Dani propped up against the headboard of her bed, a stack of pillows behind her. Her knees were drawn up, a textbook open on her lap. Her daughter was wearing a white t-shirt with the name and logo of one of her soccer teams on it, with a flouncy little yellow skirt covering her curvy bum. With her knees drawn up like that, Sonya had a clear view up between her daughter's thighs to her white panties.

As usual, Sonya was taken by how much her daughter looked like her when she was that age. Both were blessed with curves that didn't seem to quit, their sizable breasts and curvy bums and thighs giving them both bodies that looked like they were made for one thing: fucking.

"What's up, Mom? Is something wrong?" Dani asked as Sonya stepped into the room, conscious of the slippery feeling between her legs and the damp trickle slowly running down the inside of her thigh.

"No, everything's fine, sweetheart. I just want to talk to you about something. Is it okay if I sit down?"

"Sure," Dani replied as she shifted over slightly, making room as her mother perched on the side of her bed. "What is it, Mom? You're not feeling sick, are you?"

Sonya shook her head. They'd all had those thoughts every day after the pandemic had hit. What would happen if one of them became sick? That was a nightmare she hoped they'd never have to face. They knew they had to keep safe, and Sonya knew Dani understood that. She just hoped that with that mind set, Dani might be more receptive to what she was going to say. "No, honey, I'm fine. It's just that I've been thinking about a lot of things, and how difficult and unfair this situation is for all of us. That comment Seth made to you was uncalled for, but it really set me to thinking, to thinking even more about how difficult so many things in our lives are for all of us." Sonya paused as she looked at her daughter, who simply nodded, knowing there was more coming. "Dani, I think it's best if we, and by 'we' I mean all three of us, are totally honest with each other. Do you agree?"

Dani shrugged her shoulders and gave her mother a little smile. "Sure, Mom. It's the best policy, right?"

Sonya smiled back. "Yes, sweetheart, it is. Now, with that in mind, I want to talk to you about a few things. First off, was Seth right in what he said to you?" Sonya saw Dani hesitate. "And like I said, we need to be totally honest with each other, so please speak frankly. I'm not here to judge you or worry about any swear words or anything like that. We just have to help each other as much as we can in a time like this. Was Seth right about you missing having sex with Jimmy?"

Dani flushed a bit. "Since we're being totally honest, I'm actually not having sex with Jimmy, as the former president would define sex anyway."

Sonya, somewhat surprised, nodded. "Have you ever, I mean...are you a uh..."

"No, I've never had sex with anybody yet, so in answer to the second part of your question, yes, I am still a virgin."

"Oh, honey, that's so sweet. But you and Jimmy are doing something, aren't you?"

"Yes, much like that same former president did."

Sonya slowly nodded. "So, like Seth said then in that comment he made to you, oral sex. Do you miss it?"

Dani paused for a second. "Again, to be honest, yes, I do."

Sonya nodded again. "I've just talked to Seth about the same kind of thing, about him and Lizzy." Sonya paused, wondering how truthful to actually be. She decided that with the drastic possibilities of this pandemic hovering over them day in and day out, for who knows how long, she needed to be 100% honest with her daughter. "Actually, sweetheart, just a little while ago I caught Seth and Lizzy, kind of together."

"Kind of together?" Dani obviously knew exactly what she'd seen on her computer, but she didn't want her mother to know that she'd been spying. Besides, she wanted to see what her mother would say, to see how honest she'd be.

"Yes, I went out in the backyard to get some fresh air and..." After that, Sonya told Dani exactly what she'd seen. When she was finished with her story about seeing Lizzy sucking off Seth through the window, she continued. "It made me realize how difficult this is for Seth, for all of us. Look, you kids are all grown up now, and have needs, sexual needs. I understand, look, I was your age once myself, and I know how difficult it is to suppress those needs." Sonya knew that more than most, having sucked off nearly half of her high school graduating class, and numerous members of the faculty as well. It was like she could never get enough cum to swallow in those days, and she still had that intense craving now.

"So I decided to just talk to Seth about what I'd seen, to try to understand how difficult this was for him, and what he needed. We started talking and..." And with that, Sonya let it all out, talking explicitly about what had happened with her son, right down to him

blowing a load all over her face, and then fucking her within an inch of her life.

Dani sat back, totally mesmerized as she listened to her mother, her heart beating rapidly as she once again experienced what she'd witnessed vicariously on her computer. But now, by sitting and listening as the older woman vividly described the entire incident, Dani felt herself getting aroused all over again. She had to give her mother credit, she didn't lie about anything. Her mother had been brutally honest in talking about every lurid detail, including her numerous wickedly colorful descriptions of her brother's substantial endowment.

"I thought you deserved to know," Sonya continued. "We're in this together, so I didn't want there to be any secrets between any of us, not the way things are now." She paused as Dani nodded her agreement. "You don't hate me for what I did, do you? I couldn't bear it if you did. I'm sorry if I've disappointed you."

Now Dani felt bad. Her mother was pouring her heart out to her, and Dani felt guilty for having spied on the two of them while they were doing it. "No, Mom, I don't hate you. I love you so much, and Seth too. I could never hate either of you. And since you've been so honest with me, I'll be just as honest with you." Dani waited as her mother looked up at her, her misty eyes showing the relief she was feeling. "I...I think what you and Seth did sounds pretty hot, actually."

"You do?"

"You're a beautiful woman, Mom, a very sexy woman. Everybody I know says that. You deserve to be happy, and if it made you happy to be with Seth, well, at least we're all being safe, right?"

Sonya felt a wave of anxiety wash out of her. "Yes, sweetheart, it did make me very happy. So much so that I want it to continue, and Seth does too. And yes, you are right, if the three of us want to keep doing this kind of thing, it's safest for all of us if we just keep what we're doing amongst us three."

Dani's eyebrows arched up as she looked at her mother. "We're doing? The three of us?"

Sonya gave her daughter a gentle smile. "Yes, the three of us. You said yourself you miss what you and Jimmy were doing, so I'm here to ask you if you'd like to satisfy those feelings."

"Satisfy...?" Dani tilted her head as she let her word dangle in the air.

"Yes, Seth and I would like it if you would join us. You can get from Seth what you had with Jimmy. And sweetheart, you'd feel, we'd all feel, much safer with you doing that with your brother than with Jimmy."

"And Seth said he's okay with that?" Dani couldn't keep the excitement out of her voice.

Sonya was almost beaming now, having seen the arousal written all over her daughter's face. She could see Dani's curiosity would have her coming around to their way of thinking in no time. "Yes, absolutely. And let me tell you, your big brother is a wonderful, caring lover. I promise you that you won't be disappointed."

Dani couldn't keep the impish grin off her face. "Oh, Mom, that sounds so hot. I can't believe this is really happening. All of my girlfriends think Seth is a real hunk and, again, to be honest, I think so too."

Sonya nodded her head up and down vigorously. "He's more than just a hunk, sweetie. Like I said, your brother is a phenomenal lover, and his cock...his cock is..." Sonya couldn't find the right words, not sure if she'd already said too much. Besides that, she didn't want to scare her daughter.

"His cock is what?" Dani asked quickly, wanting to hear what her mother had to say. "Is it big? Jimmy's is about this big." She held her hands up with her fingertips about five inches apart.

Sonya let out a big sigh as she shook her head and held up her own hands, the distance between them making Dani's eyes open wide. "It's at least twice as long as that, and really thick. And he really knows how to use it."

Even though Dani had seen her brother's cock many times on her computer screen, she still gasped out loud, knowing she'd soon be seeing it, in the flesh, so to speak. "Wow! Is it really that big?"

"It's huge," Sonya said. "And he comes buckets when he shoots."

"Jeez, Mom. That is so hot. I can't believe this is really happening."

Sonya slowly nodded. "So, you're willing to join us? To join your brother and me and keep our little secret amongst ourselves?"

Dani nodded instantly. "Yes, Mom. But do you think I'd do okay. Like I said, I'm not very experienced at all, but I want to make both of you happy. Do you think you could help me with that? I'm willing to do whatever you two want me to do?"

Sonya was pleased at her daughter's response. She'd been feeling a sense of something from Dani. She wasn't sure, but it had felt that the girl was giving off a bit of a submissive vibe. But now, with Dani's choice of words, and saying that she was "willing to do whatever you two want me to do", that clinched it in Sonya's mind. She just wanted make sure she'd been reading Dani correctly. "I think you're going to be just fine, sweetheart. And if you do as we say, and we teach you, you'll definitely be way better than fine."

"Do you really think so, Mom? You two will show me what to do?"

Sonya nodded. "We will, sweetheart. I know Seth will be happy to as well. Sometimes things we ask you to do might come as a surprise, but I'm sure you'll enjoy all of it in the end."

"What kind of things?"

"I think you'll find out that both Seth and I are highly sexual, and we both require a lot of, shall we say, satisfying? We'll ask you to help take care of us that way, and we'll teach you what we both like, and what you can do for us. We might speak to you a little harshly at times, but you'll understand that better when you're a little more experienced. Like I said, you might be a bit surprised, but doing what we ask of you will make us love you even more." Sonya paused as Dani took in what she was saying. "Do you think you can do that, sweetheart? Do you think you can do whatever we ask you to do?"

Dani could feel her face flushing, but she nodded eagerly. "I can, Mom. I'll do my best to make both of you pleased with me. Just tell me what to do and I'll try to make you proud." Dani loved the idea of her mother and brother being in charge, of teaching her, of telling her what to do to please them. There was something about the idea of being under their control that made the whole thing even more exciting.

Sonya nodded her approval. "That's a good girl. Don't worry, we'll take good care of you, just like you're going to take good care of us."

"Oh, thank you, Mom," Dani gushed. "When do we start? I have to say, just talking about it has gotten me excited."

Sonya smiled broadly. She felt like Atlas had lifted the weight of the world off her shoulders. "Well, how about right now? I don't think Seth would have any objection."

Dani looked nervously down at the old t-shirt and flouncy skirt she was wearing. It was good for sitting in her room and fingering herself, but it sure wasn't very sexy. "But what will I wear? I can't wear something like this."

"Don't worry about that," Sonya said as she got up from the bed. "Just come with me. I've got plenty of things for you to wear. We'll pick out something that's just right. Something that your brother will really like."

Dani followed her mother down the hall and into the master bedroom. The young girl smiled as she glanced down and spotted a gleaming trail running slowly down the inside of her mother's thigh. "Mom, what's that running down your leg?" Dani knew exactly what it was, but she wondered what her mother would say.

"Remember when I said your brother shoots buckets when he comes," Sonya said as she closed the bedroom door as her daughter walked past her into the room. "Well, that's just some of his cum seeping out of me. He really filled me up."

"Wow, really?!" Dani purposely gasped out, looking down at that shiny rivulet of silvery jizz making its way slowly down the inside of her mother's thigh.

"Yes. I couldn't believe how much he pumped into me. And like I said, he'd already come twice already just before that, once into Lizzy's mouth and once all over my face." A lurid thought came into Sonya's mind. "Your brother's cum tastes so good too. You said that you liked having oral sex with—screw it, sweetheart—since we said we'd be honest about all this with each other, let's start by doing away with socially acceptable pleasantries, okay?"

"Uh...?" Dani just looked at her mother, unsure of what she meant.

Sonya looked her daughter in the eye as she spoke, a quirky smile on her face. "What I mean is, quite blatantly, you said you like sucking Jimmy's cock, right? There, isn't that easier than saying something like 'oral sex' all the time?"

Dani gave a little laugh, finally clueing in to what her mother was talking about. "I guess so. And you're right, I do like SUCKING JIMMY OFF." The young girl purposely gave her final words some emphasis, which both mother and daughter chuckled at.

"There, that's better," Sonya continued. "And do you like swallowing his cum?"

"Yes, I do," Dani replied with a nod, thinking about all those times she'd welcomed getting Jimmy's load, yet every time he came in her mouth, she'd been dreaming that it was her brother feeding her his cum.

"Well, if you liked swallowing Jimmy's cum, you're going to LOVE swallowing your brother's. It's so nice and thick, and there's so much of it." Sonya watched her daughter gulp as Dani's face flushed with excitement. At the same time, she couldn't help but notice the young girl look down at the shiny stream of emulsion on her leg, the slimy trail almost reaching her knee by this point. Her daughter looked mesmerized by the glistening rivulet, and that same nasty thought ran through Sonya's mind again. With Dani's eyes focussed on her leg, Sonya reached down and stuck her fingertip into the bottom of the pearly trickle. She slowly ran her fingertip upward, gathering up some of the slimy goo until a sizable gob was clinging to her fingertip. She brought it up towards her face, the shimmering wad of cum glistening lewdly on the end of her finger. She held it close to her face and inhaled deeply, closing her eyes in blissful contentment as the pure masculine smell of her son's semen settled into her senses.

"Mmm, and it smells incredible too," Sonya said as she opened her eyes. Dani was looking at her, speechless, her cute little mouth open as she gasped breathlessly, clearly excited, her eyes focussed on the shimmering gob of jizz on her mother's fingertip. Sonya slowly extended her cum-covered finger towards her daughter. "Here, sweetheart, would you like to smell it?"

Unable to even speak, Dani nodded, as if hypnotized by the shiny jewel on the end of her mother's finger.

Sonya took a step forward and teasingly waved her finger beneath her daughter's nose. She was happy to see the young girl breath deep, the magical allure of her brother's most private scent filtering into her senses and onto her taste buds. Dani's eyes were half-closed as she

breathed deep for a second time as the warm masculine fragrance fired her libido even more, the illicit scent making her young pussy weep with excitement. She let out a soft purr, which made Sonya smile. "Do you want to taste it, sweetheart? Do you want to see what your brother's cum tastes like?"

Dani, her flushed face glowing, nodded slightly as she instinctively opened her mouth, her full lips parted and waiting.

Sonya felt her own heart racing as she looked at her sweet young daughter eagerly waiting for that first taste of her brother's succulent cum. From the hungry look of anticipation on Dani's face, Sonya was sure the girl would love it just as much as she did. She hoped so, since she had a lot more of Seth's cum in her mature cunt that she wanted to feed her. She slipped her gooey finger between Dani's red lips, smiling inside even more as the girl closed those soft pouty lips around her slender digit and started sucking. "That's it. That's a good girl. See how good it tastes?"

Dani was in heaven. She was finally tasting Seth's cum, after all this time of watching him via that webcam, of seeing Lizzy take many loads down her throat, and always wishing it was her, her that was swallowing his potent teenage seed. And now, she was licking it off her mother's finger. The thought of how all that had happened in just the last little while had her mind spinning. It was all so illicitly exciting to watch her mother and brother together. Watching what the two of them did onscreen was far more stimulating than any porno movie she'd ever seen. Both of them were just so hot and sexy that it had taken her breath away.

She knew her mother was a beautiful sexy woman, but when she saw her in action, Dani had been in awe. Her mother had worked Seth's cock better than any porn star she had ever seen. The thing that made what she was doing so hot was her mother's level of enthusiasm. It was totally clear by the look on her mature face and in everything she did how much she wanted that cock. Her eagerness knew no bounds as she worked on servicing that cock any way she could, worshipping it, fucking and sucking it like she'd been born to do nothing else. Just by watching her mother's pleasure level rising on that screen, Dani had gotten just as hot, her fingers plunging mercilessly in and out of her dripping cunt. When Seth had flipped his mother over and fucked her savagely, Dani thought that she'd come just as many times as her mother had while her brother was pounding that huge prick balls-deep into her juicy mature cunt. And then her mother had come into her room and asked her to join them. Dani couldn't think of anything she'd rather do.

Dani rolled her tongue all over her mother's sticky finger, gathering up her brother's precious seed and letting it settle on her taste buds. She heard herself moan with delight as she tasted that succulent cum for the first time. Her lips instinctively closed around her mother's slender finger and she sucked, as if she was sucking on a little cock, wanting more of that delicious juice that the finger had to offer.

Sonya smiled to herself, thrilled by the way her daughter's lips were pulling on her finger, the young girl's tongue swirling over her probing digit as she licked up every tasty morsel. Dani's lips and tongue felt good, and they made Sonya's perverted mind wonder where else they would feel just as good. Since she and Seth had decided to ask Dani to join them, she wondered how far the girl was willing to go. With her cunt full of Seth's cum, this was the perfect time to find out.

"It looks like you like the taste of that, sweetheart," Sonya said softly. "Would you like some more?"

"Yes, please," Dani responded as she finally pulled her mouth off her mother's finger, her lips open as she gasped with excitement.

Sonya knew now was the time when she'd see what Dani was willing to do to be with them. She turned and sat on the edge of her bed. She pulled her little skirt up to the top of her thighs and then leaned back, supporting herself on straightened arms behind her. She started to slowly roll her thighs open to each side. She glanced up at Dani, whose blue eyes opened wide. They were locked on Sonya's spreading thighs, the young girl's big tits rising and falling rapidly, evidence of her arousal.

"Like I said, your brother really filled me up. Look, sweetie." Sonya continued to spread her legs further apart, the hem of her short skirt rising higher and higher. Soon, her bare shaven pussy came into view, a glistening white pearl of her son's cum shimmering between her shiny pussy-lips. Sonya pushed down slightly with the muscles inside her, causing another warm gob to slither forth and start sliding downwards towards her tight bumhole. "Look at that. There's so much I can barely keep it inside me. If you want to taste some more of your brother's cum, go ahead, sweetheart. Kneel there and lick it up. It's still nice and warm for you."

As if hypnotized by the luridly erotic sight, Dani slowly dropped to her knees between her mother's spread legs. She could smell it now, not

just her brother's cum, but her mother's warm cunt-honey as well. The combination of the two erotic scents was like an intoxicating drug as it washed over her, pulling her closer to her mother's messy cunt. Dani couldn't take her eyes off her mother's flushed mound, her brother's brilliant white cum drooling sluggishly from the slippery hole. Overcome with excitement, Dani extended her tongue and speared it into the gooey mass seeping from between her mother's shiny petals of flesh.

"Mmm..." The sinfully illicit sensation of her brother's thick cum tickling her taste buds had caused her to instinctively moan. At the same time, she closed her eyes in blissful contentment, enjoying the luxuriousness of tasting more of her brother's milky semen, something she'd been dreaming of forever. As her mother had said, it was deliciously warm from being in her mother's pussy. That initial gob settling on her tongue had Dani instantly craving more, so she slowly dragged her tongue upwards as she flattened it out, using her tongue like a paddle to scoop up as much of her brother's delicious seed as she could.

"That's a good girl," Sonya said as she looked down. She loved the feel of her daughter's soft young tongue pressing against her skin, and just the thought of the illicit act the young girl was performing on her had Sonya's mature pussy creaming again already. She could feel that tell-tale nasty itch deep inside her needy cunt getting worse as Dani pressed the flat of her soft tongue against her mound and slid it higher. The wad of spunk seeping out of her was growing in size on the girl's tongue, becoming a small milky pool.

Dani licked further upwards before she finally drew her tongue back into her mouth, her tongue totally coated with warm white paste. She moved the heavy gob all around in her mouth, savoring the intensely masculine flavor, loving the thick texture of her brother's sperm-laden semen. Jesus, it's as thick as pudding, Dani thought to herself as she let the big wad move back and forth within her mouth. She felt like she wanted to savor it forever, but she wanted to swallow it even more, to take some of her brother into her very being. She swallowed, loving the feel of the warm thick cream sliding like silk down her throat and into her belly. She couldn't help but let off a contented purr, "Mmm..."

Sonya smiled to herself as she listened to her daughter mew like a little kitten with a bowl of warm cream, which was almost exactly what she was getting. Sonya had loved the feel of her daughter's soft young tongue on her flesh, and wanted more of it. Her pussy was already juicing at the thought of it. She'd just experience one taboo act in what she'd done with her son, so why not go for more, she thought. Her young daughter seemed ripe for the taking, and who better than she and her horse-cocked son to teach the willing young thing all the wonderful pleasures that sex had to offer. There is nothing wrong with a little girl on girl either, is there, even if it is girl on woman? The thought of the illicit possibilities of what she could do with Dani excited Sonya even more. "Do you like that, sweetheart?"

"Yes," Dani replied breathlessly, her face flushed. "Seth's cum is so much thicker than Jimmy's. And it just tastes so much better too. And just the thought of whose cum it is makes it taste really...really..."

"Exciting?" Sonya suggested, having seen the hungry look in her daughter's eyes.

"Yes! That's it exactly."

Sonya shifted her hips restlessly from side to side, at the same time pushing down with the muscles inside her. She saw Dani's eyes go immediately to the wet gap between her slippery labial gates as more white cum oozed forth. "There's lots more in there for you if want it. Like I said, your brother really filled me up. Go ahead, sweetheart, put your lips right on there and suck it all out. It's all yours."

Dani was thrilled beyond belief at being able to get more of her brother's precious seed into her mouth. She couldn't believe how much more she enjoyed it compared to Jimmy's. It was like Jimmy's cum had belonged to a little boy, dribbly and watery, while Seth's belonged to a man, a real man, a real man with a huge cock capable of producing a man-size load that was thick and creamy, chock full of sperm to give it that succulent masculine flavor. Even after just this initial taste, Dani thought she could live on the stuff, and she definitely wanted as much of her brother's delicious jizz as she could get.

The young girl moved forward once more, this time pressing her whole mouth against her mother's pouting mound. Her mother's soft skin felt sinfully warm against her face, even through the slick coating of her mother's slippery juices that had coated the flushed mons. Dani slid her tongue into the new pearl of cum that had seeped forth, letting the shiny gob settle on the tip of her tongue.

"There's tons more in there, sweetie. Press your tongue in a bit further so you can get it."

Her mother's words encouraged Dani to be bolder. She feathered the tip of her tongue right into the middle of the silvery gob, at the same time extending her tongue tip forward, right up between her mother's soft petals of flesh.

"Yes, that's the way. That's my good girl." Sonya almost swooned as her daughter's tongue started to enter her, the girl's probing tongue tip already pressing against the hot inner walls of her cunt. Her son's pronounced coronal ridge had torn back and forth savagely over those tissues as he'd been fucking her, and she knew her daughter's soft warm tongue would feel good against that ravaged flesh. "That's it. Just like that. There's lots of your brother's cum in there. Go deeper and get as much as you can."

Eager to please, Dani did as her mother asked. She fed her tongue deeper between those sinfully soft folds of flesh, her mouth awash with her brother's thick creamy goodness. She pressed her lips into a seal against her mother's mound and sucked, drawing more of that potent seed into her mouth. Dani swallowed, loving the feeling once more of that succulent nectar sliding like liquid silk down her throat. She gave a warm contented moan, happy to finally feed on her brother's succulent cum. Wanting more, she let her tongue probe further into her mother's slippery sweetness.

"Oh yeah, that's it, get that tongue nice and deep, sweetie. There's more of your brother's cum way up inside there. Suck good and hard to get it out," Sonya gasped out as she felt her daughter's tongue rise higher inside her steaming box. Fuck, her tongue is incredible, Sonya thought as she rolled her hips, wanting to feel Dani's tongue tickle every square

inch inside her. Dani was making wet slobbery noises now as she licked her mother's pussy, sucking at the same time to draw out more of her brother's warm semen.

"Yeah, just keep doing that," Sonya said breathlessly as she looked down at the sordid scene between her lewdly-spread thighs. Her daughter's face was pressed flush up against her pussy, the girl's blond hair streaming down her back as she wiggled her face back and forth, lancing her tongue as deep into Sonya's cum-filled trench as she could get it. And fuck, does it feel wonderful, Sonya thought as she rolled her wide hips from side to side on the edge of the bed. "Get as much of that cum as you can. Suck it out. Get your tongue way up inside there. I'm sure there's more. You're making Mommy feel really good, sweetheart. Just keep doing what you're doing and I'll tell you when to stop."

This went on like this for the next ten minutes or so as Dani kept licking and sucking, making sweet oral love to her mother's pussy. And each minute, Sonya's pleasure level rose higher and higher as her daughter's enthusiastically-working mouth had her climbing the walls.

Dani was both shocked and intensely excited by what she was feeling. She'd never seriously thought about doing anything like this with another female, with 'seriously' being the key word. Sure, she'd wondered what it would be like to be with another girl, to feel a big set of tits in her hands, to see how different it felt from her own. She'd even thought of her mother like that, knowing that her mother's breasts were even bigger than hers, and wondering how those mammoth jugs would feel in her hands. And to feel, and taste, another girl's pussy, even her own mother's, and what that would be like? She'd licked her own pussy juice off her hands almost every time since she'd started masturbating,

loving the taste. And she'd always wondered deep in her heart what another female's pussy would taste like. What about the pussy of a mature, experienced woman, like her mother. How different from her own would it be?

The idea of doing that had come into her head more than once on some of those hot restless nights, but she'd chocked it up to typical teenage curiosity, nothing more. But now, Jesus, she was licking and sucking her mother's pussy like it was her last meal on earth, and she was loving every second of it. Tasting her mother's warm juices and feeling her tongue pressing against the slick tissues inside her mother had set the flames of her libido soaring higher and higher by the second. She knew that because it was her mother that she was licking that it made it all the more exciting. The purely taboo illicitness of performing such an act was making Dani cream like crazy. She could tell her panties were absolutely soaked, and her pussy was in need of a good rubbing, even after all those times she'd just come while watching her mother and her brother fuck like rabbits.

But right now, it wasn't about her. Dani knew instinctively that bringing her mother as much pleasure as she could was the most important thing. She wanted to please her, to make her know that she was worthy of being allowed to join them. She rolled her tongue in a slow tantalizing circle as deep inside her mother as she could get it, making the older woman squirm with delight. She was absolutely loving the effect her lips and tongue were having on her mother, and she wanted her to know it. Dani pulled back for a second, and gasped out breathlessly, "Oh Mom, you taste so good. Your pussy is so pretty. I love it." As soon as she finished speaking, she pressed her face against her mother's warm mound once more, her tongue spearing deep inside the older woman's gaping twat.

Sonya had been leaning back on her straightened arms, surrendering herself to the luxurious sensations her daughter's lips and tongue were bringing her. When Dani spoke, she looked down, the sight of Dani's sticky, messy face turning her on even more. She could see the look of wanton lust in Dani's eyes. The young girl seemed to be just glowing with excitement, which aroused Sonya even more. As soon as the girl thrust her tongue back inside her and pressed it against the sensitive folds of flesh on the roof of her vagina, right on that trigger spot, Sonya lost it.

"OH FUCK, DANI...YES...YES...RIGHT THERE...RIGHT FUCKING THERE!" Sonya tipped back her head and closed her eyes as a cunt-wrenching orgasm shot through her. Her mouth was open and she was breathing raggedly as she came, her massive tits jiggling and wobbling beneath her tight sweater. Her hips were twitching and she was bucking her pelvis up against her daughter's face as paroxysms of pleasure coursed through her. Her whole body was tingling like crazy, as if she was being shot through with an electric current. And still, her daughter kept working her young tongue deep inside her, the pointed tip rubbing salaciously over the gushing walls of her cunt.

Dani's tongue was awash with her mother's juicy discharge, and she was being splattered as her mother came like a tsunami, warm cunt-honey gushing out all over Dani's pretty face. It turned Dani on to know she was making her mother come, and she felt a small orgasm start deep in her own pussy, the delicious sensations making her squirm and soak her own panties even more. But still, she kept licking and sucking on her mother's throbbing pussy, lapping up the older woman's succulent nectar as it flowed out of her and right onto Dani's welcoming tongue.

Sonya was in heaven. Her daughter's tongue kept rubbing over that trigger spot inside her, making her twitch and quiver again and again, her whole body jerking from the waves of exquisite pleasure flowing through it. She felt like she came for a minute or two before the delightful sensations started to wane. She was breathing rapidly, and her big tits were heaving up and down as she fought to regain her breath and started to come down from her orgasmic high. She could see that Dani had cued in to her sensitivity. Her daughter was still nursing at her seeping twat, but she wasn't going at it as intensely as she was just moments ago, which was perfect, absolutely perfect, as far as Sonya was concerned. Her steaming pussy was too sensitive right now, but she knew what her body was like, and she knew she'd be ready to go again in just a minute or two.

"Oh, sweetie, that was wonderful," Sonya said as she slowly rolled her hips against her daughter's gently working mouth, letting the girl know to keep licking at her flushed pussy. "I can't believe how hard you made me come. You didn't mind, did you?"

Dani shook her head as she pulled back slightly and looked up at her mother, her face a shiny wet mess. "No, Mom. I really...I really liked doing that for you. Did I...did I do okay?"

Sonya gave her daughter an appreciatively devilish wink. "Oh, baby, you did better than okay. That beautiful mouth of yours is incredible."

"Really? Do you really think so?" Dani asked, beaming under her mother's words of praise.

"Of God, yes. You were fantastic. Have you done that to another girl before?"

Dani was quick to shake her head. "Never. But it just seemed...it just seemed so right with you."

Sonya smiled inside as she saw the look of flushed arousal, coupled with a small degree of guilt, on her daughter's face. "Well, you certainly showed me how good you are at doing that. I would have thought you'd been doing that with one of your friends for years the way that tongue of yours seemed to know just where to go."

"No, I never did it, but I liked it with you, Mom." Dani paused for a second, unsure if she should ask what she so badly wanted to. Her mother had asked her to join her and Seth, so she figured she had nothing to lose. "Do you...do you think I could do that again sometime?"

Sonya gave her daughter another sinfully illicit wink as she nodded. "Oh yes, baby, you can do that to Mommy as often as you like. Actually, I think I'm going to insist on it. With your brother, I think all three of us are going to be busy helping each other out, and there will be times when your brother needs to rest. That will be just one of the times that you and Mommy can have more fun like this."

Dani felt a wave of relief come over her, accompanied by a tingle of excitement as she purposely let her eyes drift down to her mother's

spectacular set of tits. "Do you think I could suck on your boobs sometime too?"

"I think you'll get to do that as much as you want too. Mommy's boobs are very sensitive, and I can come sometimes by just having them sucked on."

"Me too!" Dani replied, clearly excited.

"Did Jimmy do that for you?"

"No," Dani said as she slowly shook her head. "I...I did it myself."

Sonya nodded in acknowledgement. With her daughter having breasts almost as big as hers, she knew exactly what it felt like to hold one of your boobs up to your own mouth and suck on one of those big rubbery nipples. "I know exactly what you mean, sweetie. I do that too, but there's nothing like having someone else's mouth on your boobs, especially when they know what they're doing." Sonya paused for a second as she reached forward and slowly traced one fingernail all around her daughter's soft wet lips. "And from the way you just used this pretty little mouth of yours on my pussy, I can tell you'll do just as good a job on my boobs."

Dani smiled and her gooey face got flushed again as her mother's fingertip slid teasingly over her pouty lips.

"Here, sweetheart, suck on my finger again. That felt so good when you did that before, and I'm sure Seth is going to be using that mouth a lot once we get started." Sonya inserted her finger into her daughter's mouth. The young girl quickly closed her lips around the invading digit. Sonya watched Dani's eyes close in blissful contentment as she started to suck, her tongue rolling all around the slender finger that Sonya was now sliding back and forth, like a tiny cock fucking that sweet young mouth. "Oh yeah, you are definitely very good at that. Seth is going to love having that pretty little mouth of yours sucking his cock."

Sonya could feel herself getting aroused again already as she worked her finger in and out of Dani's avidly-sucking mouth. Like she herself was, she could tell how enthusiastic the girl was to be doing this, to service her mother in whatever way she wanted. Sonya knew Seth would love having Dani join them. The way she was sucking on her finger, and had worshipped her pussy, Sonya knew that Dani was eager to learn, eager to serve, which would be perfect for her and Seth. Whatever Dani may be lacking in experience, Sonya knew the girl would make up for with enthusiasm. There was one other thing she wanted to see how her daughter would react to. Based on the way the girl was sucking and licking at her finger, she had no doubt the girl would be just as eager to do what she was about to ask of her.

"Sweetie, I think a little of your brother's cum leaked out of me and ran down near my bum hole. Do you think you could clean that up for me?" Sonya pulled her finger out of Dani's sucking mouth and leaned back on her straightened arms once more, pivoting her hips upward at the same time.

Dani glanced down as her mother tilted her hips up. She could see the warm crease come into view, glistening with more of the combined juices from the ardent fucking she'd just seen her brother give her mother. She even spotted a silvery pearl of her brother's cum, nestled right up against her mother's rosy little pucker. Like a moth to a flame, Dani was drawn in. Without a word, she lowered her mouth and pursed her lips forward, pressing them gently against her mother's shiny backside. She slid her tongue forward, feeling the delicious warmth of that creamy gob of semen settle on her tongue. "Mmm..." Once again, she purred like a little kitten.

Sonya smiled to herself, pleased with the way her daughter had taken to her suggestion. She had chosen her words specifically, "Do you think you could clean that up for me?" It left it open for her daughter to grab a tissue or facecloth and clean her up with that. But no, Dani had reacted just as she'd hoped, choosing to use that talented young mouth of hers to do the job instead. Yes, Sonya thought, things are going to work out perfectly with Dani. I'm gonna work that sweet tongue of hers until it's numb.

Dani feathered the tip of her tongue right against her mother's tight little hole. It was sinfully warm against her tongue, and the slimy feeling of her brother's cum on her tongue had her hungrier for more. She drew the pearly wad of jizz back into her mouth and swallowed, and then went back into the steamy crevice, her tongue tracing slow teasing circles around the puckered starfish.

"Oh, that feels so good, sweetheart," Sonya said as she lewdly rolled her hips against her daughter's face, letting the girl use her tongue to explore her most private of holes. "You know, I might let your brother

fuck me in the ass later. Would you be okay cleaning me up afterwards if I let him do that?"

Dani sat back, aghast. From all those times she'd watched her brother on her computer, and seen how huge that cock of his was, she couldn't imagine anyone taking that monster into their bum. There was no way, it would split you in two. But she couldn't let on to her mother that she actually knew how big Seth's cock was. Maybe someday she'd let the cat out of the bag, but not right now. "Really, Mom? You'd do that? If Seth's cock is as big as you said, do you really think it would fit?"

Sonya got a dreamy look on her face, her eyes half-closed as she blissfully thought about taking every thick inch of that massive cock into her backside. She loved anal sex, and she'd had a few sizable dicks in her ass when she was in college, but nothing anywhere near the size of her son's. She looked at the idea of taking every inch of that huge powerful cock of his into her steamy chute as a worthy challenge. "Yes, your brother's cock is definitely huge. The biggest I've ever seen. Will it fit? Well, I definitely want to try, that's for sure. If I can do it, and your brother comes inside me, are you willing to suck out every drop of that creamy cum of his?"

Dani flushed with excitement once more. "Oh God, yes!"

"C'mere, sweetie," Sonya said as she got up from the bed and helped her daughter to her feet. "Just lie down in the middle of the bed for a minute. Just thinking about having that sweet mouth of yours in my bum has me all revved up again. I can feel my pussy dripping again already. I want to ride your face and have you make me come one more time before we get you ready to see your brother."

Eager to do anything her mother wanted, Dani was quick to scramble onto the bed and roll onto her back. She couldn't wait to have her mother use her mouth again. There was something so wickedly exciting about it that Dani felt like she was on fire, unable to control what she was feeling, and incredibly aroused by all of it.

"Just move up a little further, sweetheart. I want to hold onto the headboard while I'm riding that pretty face of yours," Sonya said as she clambered onto the bed. Dani immediately pushed herself upwards, letting her head rest a short distance below the headboard. She was happy when her mother smiled down and nodded to her that she was positioned exactly where she wanted her. "That's my good girl. That's perfect." Sonya reached down and brushed Dani's soft blond hair back from her face, making sure there'd be no interference between her needy twat and that gorgeous mouth of her daughter's. Satisfied, she swung her leg over the young girl, straddling her. With her spread knees pressing into the mattress on either side of Dani's face, and her short skirt stretched taut across her full thighs, Sonya sat right down in the saddle, her skirt covering her daughter's face. But she could feel the girl doing what she wanted already.

"That's it, get your tongue way up inside there again," Sonya said as she reached forward and grasped the headboard in both hands. She felt her daughter's tongue do just as she'd asked, the girl sending it as far up between her slippery labial gates as she could get it.

"Oh fuck, yes...that's it, nice and deep." Sonya smiled as she heard Dani purr contentedly. It was even better when she felt her daughter's hands come up and settle on her wide mature hips, pulling her pussy down

even harder against her working mouth. Sonya had no intention of denying the girl, so she ground her seeping cunt right down on Dani's working lips and tongue, pressing her slimy mound against the girl's upturned face.

"Mmm..." Dani moaned again, more intensely this time. Sonya rewarded the girl by rolling her hips provocatively, making sure the girl was using her talented young mouth on every square inch of her pussy.

"That's it, suck Mommy's cunt. Suck it real good, sweetie, and Mommy'll give you a nice big mouthful of her honey as a reward."

Sonya could feel Dani redouble her efforts, her lips and tongue working their magic on the older woman's steamy little box. Sonya tipped her head back and closed her eyes in pure rapture as her daughter feathered her tongue deep inside her.

For the next ten minutes, the room was resonating with the moans and groans of both women as Sonya rode her daughter's face, accompanied by the nasty alluring sounds of Dani's wet licking and sucking. With her hands gripping the headboard, Sonya rolled her hips and ground her flushed mound forcefully down on Dani's face as she felt her pleasure level climbing. Jesus, she's good at that, so fucking good at that, Sonya thought as Dani changed things up by tipping her mouth up and wrapping her lips around the fiery tip of Sonya's throbbing clit. Sonya groaned deep in her throat as she surrendered to her daughter's oral mastery, provocatively rolling her hips in a slow tantalizing circle as Dani worshipped her clit. The girl flicked her tongue across the

sensitive spire one more time, and that was all it took to send Sonya sailing over the cliff.

"OH FUCK...YESSSSSSSSSS!" she hissed loudly as she started to come. She tipped her hips forward and rolled her cunt back and forth across Dani's face as the girl held on, her lips wrapped tightly around her mother's tingling clit. Dani could feel her mother gushing all over her face, literally spraying her with warm cunt-honey.

"JESUS...SO GOOD...SO FUCKING GOOD..." Sonya moaned loudly as she held onto the headboard tightly, rocking her hips back and forth as the luxurious sensations of a tingling orgasm rolled through her body in euphoric waves. Dani kept working her over, her magical tongue and soft lips circling and sucking teasingly on Sonya's pulsing button as her climax had her quivering and shaking like crazy. Sonya could feel herself flooding the girl's face, but she kept riding, rolling her hips and grinding her dripping cunt right down on Dani's working mouth.

Finally, the blissfully delightful sensations started to diminish, so Sonya slowed the rocking motion of her wide motherly hips. She finally came to a complete standstill, raising herself up slightly in order to give Dani more air. Still, the girl wouldn't let her go completely, her tongue sliding teasingly, slowly, along the enticing groove of Sonya's dripping slot. Sonya stayed there as she recovered, her pounding heart slowing as the tingling sensations in her midsection slowly ebbed away. Finally, she drew her leg back over her daughter and kneeled beside her.

"Jesus, Dani, your face is a mess." Sonya was right about that. Dani's face was flushed a vivid pink from being under her mother's skirt and hot mature mound for so long, but she looked blissfully happy. Her

skin was coated with a shiny coating of Sonya's warm discharge, some of it even matting Dani's lustrous blond locks. Sonya watched as the girl subconsciously slid her tongue out from between her lips and rolled it in a circle around her lips, lapping up as much of the fragrant womanly nectar as she could.

"Here, let me help you with that, sweetheart," Sonya said as she leaned down and started licking her daughter's glistening cheek. She drew her tongue slowly over her daughter's soft shiny skin, gathering up as much of her own sweet juices as she could. She could see Dani waiting breathlessly as she licked her face, and then she looked into her daughter's eyes, seeing the pure desire in those warm blue orbs as she lowered her mouth to her daughter's. She pressed her lips to Dani's, finding them soft and inviting. She slid her tongue gently into her daughter's welcoming mouth, feeling Dani roll her tongue around hers.

"Mmm..." Both of them moaned in pleasure as they kissed passionately, Dani eagerly accepting her role as her mother's plaything to do with as she wished, and for Sonya, it was a sinfully illicit connection with her daughter that she would never have anticipated happening. But it was happening, and both women were overwhelmed by the emotions they were feeling, and didn't want it to stop.

Sonya finally drew her mouth back from Dani's, both of them gasping hotly. Sonya gave her daughter a naughty wink as she went back and licked her face again, gathering up more of her warm juices. They kissed again, immersing themselves in each other rapturously as their mouths worked together like they'd been kissing their whole lives. Sonya did it again and again, running her warm tongue over the soft

skin of her daughter's face until all that was left was a shiny coating of her drying saliva.

"Did you like that, sweetheart? Did you like licking Mommy's pussy and having Mommy kiss you?"

Dani felt her heart swell, loving her mother now more than ever. "I loved it, Mom. Every minute of it."

"I did too, baby girl. We're going to be doing a lot of that from now on," Sonya said as she leaned forward and gave her daughter one more tender kiss, finally pulling back with a playful nip at the girl's full bottom lip. She gave Dani a lascivious smile as she slid her hand up the front of the girl's t-shirt and beneath her breast, her slender fingers cupping the huge mound. She squeezed gently, causing Dani to give off a soft moan. "Now, are you ready to see that big beautiful cock of your brother's?"

Chapter 5

Dani was beside herself with excitement at the thought of getting fucked by her brother. She's seen that big cock of his in action on her computer screen, and couldn't believe that she was really going to have it inside her, to have him be her first. It was her dream come true. "Gosh, Mom, if it feels as good as you say, I can't wait."

Sonya knowingly nodded her head as she continued to maul Dani's substantial breasts. "Oh, it feels as good as I say. You won't believe how amazing that huge cock will make you feel when it's all the way inside you, and I do want Seth to put every last inch inside that pretty little pussy of yours."

"Do you...do you think I can take it all?" Dani asked, remembering how she'd seen that he could only get about half it into Lizzy's tight little cunt, and Dani wasn't much bigger than her.

"Trust me, sweetie," Sonya answered, "you're built just like me, and I could take it. I'm not kidding you, it's going to be hard at first, literally hard." They both chuckled at that. "But seriously, once you relax and let him inside you, let me tell you, the feeling is like nothing you could ever imagine. It's the closest thing to heaven on earth you're ever going to find."

Dani could only stare at her mother, seeing the look of awe and wanton desire in her mother's eyes. "Wow, Mom...I never..."

"Oh, you will soon enough, baby girl. And don't worry, I'll be right there to make sure you're okay, and Seth will be careful and never hurt you. We both love you too much to let anything bad happen to you."

Dani felt her heart swell with emotion. "I love you too, Mom. I'm so happy about all of this."

"Speaking about not letting anything happen to you, I want to make one thing clear; when your brother's fucking you, I don't want him to come inside you. The last thing we need is for you to get pregnant."

Dani's head was buzzing at the thought of that. "Gosh, no."

"I'll call our doctor tomorrow. I know she's just doing phone consultations right now, but I'm sure we can get her to put you on the pill." Sonya looked at her daughter, who nodded in agreement. Once again, she was reminded of how much Dani looked like her when she was that age, and how she had felt after she'd lost her virginity and discovered the wonders of sex, and how she'd wanted to experience those wondrous delights every day. "I'm sure once Seth gets started fucking you, neither one of you is going to want to stop. And I want you to feel safe, to let him dump as many loads into you as he can and not worry about it."

"Do you think Seth will be okay with what you said, with not coming inside me? Won't that be hard for him to do, to stop like that?"

Sonya gave her daughter a broad smile. "Don't worry about your brother, sweetheart. He's a big boy, a really BIG boy, and when he's fucking you, you're gonna come so many times that your body will be numb by the time he's ready to blow his load. But like I said, don't worry, I'll make sure he has somewhere hot and wet to put that beautiful cock of his when he's ready to come."

Dani flushed again, her mother's words arousing her even more, especially the image of herself coming so many times that her body was 'numb'. Just the thought of it made her shiver.

"Is that okay with you, Dani? Having your brother pull out after he's fucked you nearly into a coma?"

Sonya saw her daughter almost gasp as she listened to what she said. Dani noticeably gulped before giving her mother a gentle nod of her head.

Once Dani had readily agreed, Sonya took a good look at the girl's messy face and matted hair and decided they both needed a shower. They were just getting up when her cell phone rang. She picked it up from her bedside table, after first noticing the call was from Seth. "It's your brother," she said to Dani before answering the call and hitting the 'SPEAKER' button. She sat on the edge of the bed with Dani next to her.

"What's up, sweetheart?"

"I'm just wondering how things are going in your talk with Dani. You've been gone a long time. Is everything okay?"

"Everything's fine." Sonya gave Dani a conspiratorial wink to indicate that she wasn't letting on to Seth that Dani could hear what they were talking about.

"What did she say? Do you think she's going to go for it?"

"Well, we've had a very good talk so far." Sitting side by side, Sonya reached over and took Dani's hand. She brought it across her body and slid Dani's fingertips inside the scooped neck of her tank top. Dani was quick to figure out what her mother wanted. She slid her hand right down inside her mother's jam-packed bra, feeling the exquisite softness of her mother's breasts as her fingers slid down and beneath the underside of one massive mound.

"How did she react when you told her? Did you tell her about us?"

"Yes, like we talked about, I decided to be totally honest. At this point, there's no need to hide anything from each other. This pandemic has turned everyone's world upside down. Obviously, she was a bit surprised at first, but I think she understood that we, and by that I mean all three of us, need to help each other get the satisfaction we need. Once I'd told her everything that had happened between us, and the way we feel about needing to stay safe and help each other, she got it, especially when I told her we'd like for her to join us."

"So she agreed?"

Sonya could hear the excitement in Seth's voice. "She did."

"That's great! Do you think she's going to be able to handle everything okay?"

Sonya reached up with her own hand on the outside of her top and squeezed Dani's hand, letting the girl know she wanted her to continue groping her. "Oh, I think she's going to be able to handle things just fine." Sonya gave Dani a little wink as the girl squeezed her breast, and then slid her hand over to cup its partner. "I think she knows that she's going to have her hands full with the two of us, but she seems eager to learn new things."

"That's fantastic. So, she didn't learn much with Jimmy? Did she say what it was like having sex with him?"

Sonya and Dani exchanged sly glances before Sonya replied. "Well, it's interesting that you asked that. You might be interested to know that your pretty little sister is still a virgin."

There was a noticeable pause as Seth took in this unexpected revelation. "Really?! I thought she and Jimmy...I just thought..."

"Well, they were doing something, but just not that."

Seth asked the question that he absolutely needed to know the answer to. "Does she want to stay a virgin?"

Sonya looked at Dani, who vigorously shook her head, which made her mother smile broadly. "No, absolutely not. She told me she wants her big brother to be her first."

"Oh fuck, yes!"

Dani could barely suppress a giggle as she continued to squeeze and heft her mother's massive tits, her hand buried deep inside her mother's bra.

"If I was her," Sonya continued, "I can't think of anybody I'd rather lose my virginity to. There's just one thing I want you to be clear on before you fuck your sister."

"What's that?"

"Until I can get ahold of the doctor and get her on the pill, I don't want you to come inside her."

"Sure, I get that. She's so sexy though, it's going to be tough to stop."

Sonya looked over at Dani, both of them smiling at Seth referring to his little sister as sexy, which was so unlike the way they usually talked about each other.

"I know it will be, sweetheart, but, for now, I still want you to fuck her with everything you've got. I want you to try and control yourself and make her come a number of times with that big beautiful cock inside her before you have to pull out."

There was a brief pause on the other end before Seth gave a little chuckle. "That's okay, Mom. Since we're being totally honest with each other, I'll tell you, something I've always dreamed of doing was fucking Dani until she passed out, but then moving over and fucking you, making you come a few times before I finally finish in you. I've thought about that a lot—fuck Dani, finish in you, fuck Dani, finish in you. I could do that all night long. Just the thought of that makes me so hot, I can't tell you how many times I've jerked off with that image in my head."

A twisted little smile came over Sonya's face as she looked over at Dani, whose mouth was gaping open after listening to what her brother said. "You are a nasty little boy, aren't you?" Sonya said.

"I think you know that I'm not so little anymore, Mom. And when it comes to being nasty, I have the feeling I know whose side of the family I take after when it comes to that kind of thing."

Sonya couldn't help but grin after Seth said that. She knew he'd hit the nail right on the head. Both of her kids were just like her. "I can't deny that. But I think we can definitely make that dream of yours come true. You can get that big gun of yours all primed and loaded by fucking Dani, but I can't wait for you to pull the trigger inside me."

"Fuck me..." Seth couldn't keep the excitement out of his voice. "When do we get started?"

Sonya looked over at Dani, the girl's eyes showing that she wanted things to get underway just as much as Seth did. But Sonya had another thought, knowing how memorable losing one's virginity was. It was a once in a lifetime experience that no one ever forgot, and she wanted to make it special for her daughter. Sonya knew exactly what would make it unique and unforgettable, for all of them. "Just keep your pants on, Mister. Not so fast."

"Mom, you know very well that I'm not wearing any pants. And you seemed to like that just fine a little while ago."

"Well, put some underwear or something on for a few minutes and keep that anaconda of yours under wraps for a little while." Dani looked disappointed, wanting to get her hands on her brother's huge cock as soon as possible. Sonya held up a finger and gave her a knowing wink. "Seth, I want to make this a night to remember for your sister, and for all of us. It's not every day a girl loses her virginity you know. I want to make it special for her. Make it a night she looks back on and remembers fondly."

"Okay, I get that. What do you have in mind?"

"Well, we all know that your prom night's been cancelled because of the pandemic."

"Yes...?"

Sonya could see Dani looking curiously at her too, wondering where her mother was going with this. "Well, we'd already bought your new suit and Dani's prom dress before all this happened. I even bought a new dress to wear that night myself. I was thinking we'd all get dressed up in our new clothes and have our own prom night, right here at home."

Dani was smiling from ear to ear now. Sonya knew the girl had fallen in love with the prom dress she'd selected, and had tried it on numerous times, saddened by the fact that the night she'd been waiting four years for had been cancelled. Sonya knew the girl would jump at the chance to wear her fancy dress, even if it was just at home. And what better time to lose your virginity than on 'Prom Night'. Things just might work out perfectly, Sonya thought.

"You know, Mom, I think you've got something there. That's a great idea," Seth replied, the tone of his voice showing his approval. Dani was nodding in agreement as well, her face absolutely beaming.

"Good. We're going to need a little while getting ready, so why don't you take a nap. I want you to have as much energy as possible later on." Sonya gave Dani a naughty wink which made the young girl blush.

"That sounds like a plan."

"Great. And then we'll order something to be delivered for dinner. Is Chinese okay?" Dani was already nodding, even as she continued to grope her mother's heavy breasts.

"That would be perfect," Seth said.

"Okay. You get some rest, make sure that beautiful cock of yours is energized and ready to go later on."

Seth was quick to respond, "Don't worry, Mom, with you and Dani, I'll be ready to fuck both of you all night long."

Sonya could see Dani almost swoon as she listened to her brother's words, her eyes getting all dreamy as the thought of being fucked relentlessly by her brother had her creaming her panties. "Mmm, that sounds wonderful, sweetheart. Let's just hope you can keep up with us." Sonya accompanied this by flicking Dani another lascivious wink.

"That sounds like a challenge I'm more than willing to take."

"Okay, take that nap, tiger. I'll call you on your cell a little later. This is gonna take us a bit of time to get all ready for you. But I don't think you'll be disappointed."

"I can't wait."

"Okay, sweetie. Bye for now." Sonya hit the END button and put down her phone.

"Mom, am I really going to get to wear my prom dress?" Dani couldn't keep the excitement out of her voice.

"You are, dear. And won't it be nice to see your brother all dressed up in his new suit? A man always looks good in a suit and, based on the size of your brother's cock, he's definitely all man now."

Dani gave a little giggle. "Yes, all my friends think Seth is a real hunk, and I do too."

"C'mon then, sweetheart," Sonya said as she reluctantly pulled her daughter's hand out of her top. "Let's take a shower and get ready. I don't think your brother will be happy if we keep him waiting too long."

"Okay," Dani replied as she stood up and started to walk away, sad to have her hand taken away from feeling her mother's huge tits, but excited at what the rest of the day might have in store for her. She turned and started to walk away.

"Where are you going?"

Her mother's words stopped Dani in her tracks. She looked at her mother, clearly perplexed. "I was going to the bathroom in my room to take a shower."

"Don't you dare," Sonya replied as she blatantly let her eyes run up and down her daughter's curvy form. "You're going to take a shower with me." She paused as she saw the excitement in Dani's eyes as her words registered. Sonya peeled off her top and tossed it onto the bed, noticing Dani's eyes go immediately to her bra-encased breasts, the mounds of soft flesh almost spilling over the front of the big curvy cups. The girl looked mesmerized by the bountiful display, and her tongue even came out and wet her full pouty lips. "I see you like that idea."

Dani could only stare as her mother stood before her and continued with her personal little strip-tease, wriggling her wide mature hips teasingly from side to side as she shimmied out of her skirt, kicking it aside as well. Her mother's face was a mask of lust as she reached behind her and started to undo her bra. The motion of drawing her arms back caused her huge breasts to swell forwards even more. Dani knew that if that bra had some kind of 'automatic release button' to undo the necessary multiple hooks at the back, the garment was under so much strain that it would have gone flying across the room if that button had been pressed. As it was, Dani gasped when her mother undid her bra and drew it away from her body, her enormous breasts settling slightly down and outwards to cover the full breadth of her chest.

Dani couldn't help but gasp as she got her first unhindered look at her mother's spectacular set. Her breasts were massive, nicely rounded and heavy--looking. The skin was smooth and creamy as milk, and her

areolae and nipples were a gorgeous rosy pink, and scaled perfectly to match the sizeable breasts on which they sat, not too small, and not too big, just right. Dani was amazed by the way that, even with their tremendous size, they still sat high on her mother's chest. They had only ended up a touch lower as they settled naturally into place once they'd been released from the restricting confines of her mother's heavily-wired bra. And now they pointed directly at Dani, with her mother's cleavage a dark inviting crevice between the two massive orbs, as deep and mysterious as an unexplored canyon. Dani's gaze was diverted to the matching nipples, which seemed to swell outward right before her eyes, the rubbery buds stiffening in the open air like little bullets. The young girl found her mouth salivating as she looked at the swollen pebbles, calling out to her like two spring cherries. Dani found her heart beating rapidly, overcome with excitement as she looked at her mother's big beautiful breasts. They were, in a word, 'PERFECT', Dani thought.

"Mom, your...your boobs are...are...they're so beautiful," Dani stammered, almost breathless with excitement as she stared at her mother's enormous breasts.

Sonya turned slowly from side to side, making her boobs wobble provocatively. "Would you like to wash them in the shower for me?"

Dani felt numb with excitement and couldn't even answer. She vigorously nodded her head up and down as she fought to swallow the lump in her throat.

"All right, baby. You can wash them to your heart's content." Sonya took Dani's hand and led her into the large en-suite bathroom. As Dani

removed her clothes, Sonya leaned into the glass-walled shower stall and got the water going. By the time Dani was done, the air within the glass enclosure was already getting steamy. Sonya reached out and took Dani's hand again, drawing the young girl into the stall with her. They stepped beneath the shower head, steaming pellets of water pounding down on them. Sonya pulled her daughter close, their faces almost touching.

"That's it, sweetheart, give Mommy a kiss." With her arms wrapped around the young girl, Sonya pulled her daughter even closer, mashing their oversized breasts together. She brought her mouth down to Dani's, finding the girl's mouth open and waiting. She kissed Dani passionately, her lips pressed firmly against her daughter's, her tongue exploring inside Dani's hot wet mouth. She kissed the girl for a long time, feeling her respond, Dani's body almost going limp in Sonya's arms. Sonya finally drew back, leaving the girl gasping and breathless, Dani's mouth gaping open as she stared at her mother with glassy eyes.

"That was a beautiful kiss," Sonya said as she reached over and took a large bar of lemon-scented soap from one of the nooks in the shower wall. She passed the soap to Dani before putting a squirt of shampoo onto her own hands. "I think you know what to do with that." Sonya gave her daughter a naughty wink and then turned around, her back to the pelting spray. She closed her eyes and tipped her head back, letting the shower rain down upon her head. She raised her hands, running her fingers through her streaming locks, rubbing the shampoo into her hair.

Dani quickly lathered up her hands as she watched her mother. When her mother raised her hands to her head, it made her huge breasts rise

up on her chest, the perfect orbs being offered up for Dani's attention. The young girl wasn't going to miss this chance. As her mother continued to wash her hair with her eyes closed, Dani set the soap back in its place and stepped forward, her hands a frothy mess of soapy bubbles. She reached forward and slid her hands up the front of her mother's midsection until her hands cupped those massive breasts, her fingers spread out wide to hold each of the enormous tits. She started moving her slippery hands all over the huge mounds, loving the feel of the soft warm flesh beneath her soapy hands.

"Mmm, that's the way," her mother purred, her eyes remaining closed as she continued to wash her hair, her head tipped back against the pounding spray.

With the marble-lined shower stall filling with steam, Dani was overcome with excitement at the lurid scene. She'd never expected the day to go like this, but here she was, in her mother's oversized glass shower, the moist air enveloping them in a blissfully illicit heat that made it all the more sexy. Dani got bolder, rubbing and caressing her mother's big tits with her frothy hands. She squeezed, rubbed, and hefted the beautiful breasts, amazed at the incredible weight of them. Her mother continued to purr with contentment as Dani worked her over, her slippery hands moving teasingly over every square inch of her mother's broad full chest.

Sonya finally tipped her head forwards and looked at Dani with hooded eyes, her own mouth open as she drew in breaths of the steamy air. "Dani, that feels so good, but you've got Mommy all worked up again. Why don't you keep one hand on my boobs while you slide the other one down and take care of me? I'm sure you know what I mean."

Dani nodded as she quickly re-lathered her hands. For some reason, she loved having her mother tell her what to do. She was in awe of her mother's raw sexuality, finding her mother's blatant craving to her have own sexual desires satisfied incredibly exciting. Dani could feel her own pussy dripping just by being asked to service her mother.

Sonya moved slightly to the side and leaned against the shower wall as Dani moved in on her once more, her frothy hands moving back to her glistening mature body. The girl did as she was asked, one soapy hand groping her breasts while her other hand slid down over Sonya's abdomen before her frothy fingers slid into the silky folds of her slippery mound. Dani seemed to know just what to do, her fingertips tracing teasingly all over and around Sonya's tingling clit. "Oh yeah, that's it, baby, you're making Mommy feel real good."

Dani kept working her over for a couple of minutes, her fingers performing their magic, making Sonya's body sing with arousal.

"Put a couple of fingers inside me, Dani. You've got me close by working on my clit, but I want to come with your fingers way up inside me."

Dani did as she was asked, sliding the first two fingers of her hand into her mother's velvety love-pocket. She started sawing them back and forth, her fingers rubbing provocatively over the sensitive folds of flesh on the roof of her mother's vagina. She accompanied that by rolling the tip of her thumb over the rubbery nodule of her mother's sensitive clit,

causing the woman to press herself back hard against the shower wall, her body thrumming with intense pleasure.

"Oh Jesus...that's it...that's perfect. So good...so fucking good," Sonya moaned as she gasped breathlessly, her massive breasts heaving with excitement beneath Dani's groping fingers. "I'M GONNA...I'M GONNA...OH FUCK...YESSSSSSSS!"

Sonya came like a champion, her head flopping from side to side as paroxysms of delight coursed through her twitching body. She let it all go, her body pressed hard against the shower wall as jolt after jolt of tingling delight shot to every tingling nerve ending. But still, her daughter kept rubbing her fingers over those hot tissues inside her, driving her crazy.

Dani could feel her mother gushing, her hand sprayed with her mother's warm cunt juices as the older woman climaxed. Dani watched her mother gasp, over and over, staring in wonder as the body beneath her fingers quivered and twitched like a live wire. She kept going, mauling her mother's tits with her soapy hand, rolling her stiff nipples between her thumb and forefinger as the thumb on her other hand played over her mother's buzzing clit like a plucked violin string. Finally, after nearly a minute of shaking and twitching, her mother reached down and clutched Dani's hand, willing her to stop. "That was beautiful, baby, but through all this, you haven't come yet, have you?"

Dani continued to gently stroke her mother's tits, her frothy hands sliding smoothly over the soft wet flesh. "I just had a little one when I was using my mouth on you earlier, Mom, but that's okay. I love making you happy. You don't have to worry about me."

Sonya smiled inwardly, knowing that with that submissive attitude, she and Seth would be able to put Dani to good use whenever they wanted. And if Seth was anything like she was, Sonya knew they'd both be using the girl's talents over and over. Yes, Dani would be Seth's hungry cum bucket and her willing little honey bee, drinking the warm nectar from her cunt anytime she wanted. But still, Dani had been such an eager and obedient sweet thing when it came to licking her pussy and making her feel good, that Sonya wanted the girl to experience some of that degree of pleasure as well. "That's nice, sweetie, but Mommy wants to make you feel good too."

Sonya moved away from the wall and pushed Dani into the spot she'd been, the water from the shower head now pounding down on the front of Dani's curvy young body. The stinging pellets were raining down on the girl's big tits, with glistening rivulets streaming down over those full young mounds and over the rest of her lush curves before swirling snake-like down the drain. Sonya looked at Dani's bountiful breasts, a smile coming over her face. It was almost like looking in a mirror. She'd been that size once, a nice full double-D. From helping the girl purchase some bras lately, she knew Dani was almost ready to move up to the next bigger size. Yes, her daughter was going to be as big as she was in no time. But right now, Sonya wanted to get her hands on those exquisite beauties.

"Your boobs are beautiful too, sweetie. So full, so nice and round," Sonya said as she lathered up her hands. She put the soap down and moved in on Dani, lowering her lips to her daughter's open mouth at the same time as she filled her slippery hands with the young girl's breasts. She kissed Dani passionately as she squeezed and caressed the slick mounds of flesh. She could feel Dani respond, her young body

twisting and writhing beneath Sonya's working hands, her nipples already stiff and throbbing. With one hand mauling the girl's breasts, Sonya slid her other hand down over Dani's smooth flat stomach, all the way down until her fingertips found the girl's juicy slit.

"Jesus, she's absolutely soaked," Sonya thought to herself as her fingers explored the hot folds of flesh at the gates to her daughter's dripping gash, "and it's not just from the shower." No, the girl's cunt was dripping like crazy. As much as Sonya wanted to slide her fingers deep into that drooling little honey-pot, she didn't want to risk tearing the girl's hymen. She definitely wanted her son's big cock to take the responsibility for shredding that taut drumhead. Yes, she wanted to be front and centre when Seth busted Dani's cherry. Sonya knew it was going to be an epic experience for all of them, especially Dani.

But right now, she wanted to get Dani off. She could see the girl trembling with arousal, needing it more than she admitted. So Sonya went to work on the protruding bud of Dani's clit, sliding her soapy fingers all around and over the fiery nodule.

"Oh fuck..." Dani groaned as she leaned back against the marble wall. Her eyes were closed in blissful contentment as she surrendered herself to her mother's skilful manipulations. She could tell that her mother was calling on her experience to know just where to touch her, and how much pressure to use at the exact right time. Dani could feel her mother working her clit like an artist, strumming and plucking with those slender mature fingers to give her as much pleasure as possible. It only took a minute or two and then when her mother rolled the sensitive button between her thumb and forefinger and gave it a little squeeze, Dani crashed.

"OH FUCKKKK...YESSSS..." Dani felt the tingling sensation start at the base of her clit and shoot through her entire body, blossoming out to every nerve ending like an atomic bomb. Her head was flipping from side to side as she climaxed, her mother's hands driving her crazy. The euphoric feeling was so intense that Dani felt like she might collapse. Her mother must have sensed it too because she moved closer and pressed Dani up against the wall, holding her in place. Those talented older fingers kept delicately strumming her clit perfectly, causing wave after wave of delight to course through her time and time again. Finally, Dani gave a big shiver as her orgasm started to wane. Her mother leaned in and kissed her deeply, hotly, her tongue sliding tenderly all around the inside of Dani's willing mouth. They kissed for a long time before the older woman pulled back, nipping teasingly at Dani's bottom lip once more.

"Oh, Mom, that was incredible," Dani gasped out as she looked at her mother through glassy eyes.

"That's just an example of the fun we're all going to have together," Sonya replied as she gave her daughter's boobs one more squeeze. "Now, let's finish getting washed up. I don't think your brother is going to wait forever."

Dani felt dizzy with desire as she thought about her brother, and what that huge cock of his was going to do to her. She felt her hands itching and her mouth salivating as she thought about what that big thick cock would feel like, in her hands, in her mouth, and in her tight young pussy. Her brother wasn't the only one who wasn't going to wait forever...

Chapter 6

Sonya and Dani took turns beneath the shower, washing their hair and bodies. They helped each other, letting the other person run their soapy hands over their glistening skin, each one getting aroused once more beneath the other's intimate touch. Sonya reluctantly put an end to that, pushing Dani beneath the pelting spray from the shower head in order for the young girl to rinse off. She had something in mind and wanted her daughter to finish first. "Get yourself dried off and I'll be right behind you," she said as Dani moved out of the way and Sonya took her place beneath the shower head. She tipped her head back, relishing in the blissful sensation of the hot water raining down on her.

When she was done, looking through the glass walls of the shower, she saw that Dani had almost finished drying herself. Sonya shut off the water and opened the door, the whole room steamy from their lengthy shower. "Sweetheart, can you grab one of those clean towels for Mommy, please."

Dani compliantly reached over to the shelf her mother had been pointing to and grabbed one of the folded towels. She held it out towards her mother. Sonya shook her head and looked her daughter in the eye with an authoritative look on her face. "No, dear, I want you to dry me. I think we're going to be doing this a lot from now on and I want you to get used to the idea that your place is to ensure that Seth and I are pleased first. And that might include something as simple as this, drying me off when I get out of the shower." She paused and gave Dani a stern look as she saw a look of surprise on the girl's face. "You do want to be with Seth and me, right?"

Dani felt herself flush, but she instantly nodded her head up and down. "Yes, Mom, I do. I really want to be with the two of you. Please forgive me. I'm just...I'm just not very experienced with all of this."

Sonya had sensed submissive tendencies in her daughter's behaviour since they'd started this, combined with an intense curiosity and craving to learn. She and Dani had already talked about this and, much to Sonya's delight, the girl had agreed to be their little playtoy. She could tell that, like her, Seth had a bit of a dominant side to him, as witnessed by the way he spoke to Lizzy when she'd been sucking him off through the window. Sonya knew neither of them would do anything to hurt Dani in any way, physically or mentally, but if the girl had that submissive side to her and was willing to be their plaything, to do with as they wished, where was the harm in that, as long as they all got what they wanted at the end of the day. So now, she was giving Dani a little test to see how the girl would respond. And her answer, asking Sonya to forgive her for her lack of experience was just what Sonya had hoped for, based on the talk they'd had previously.

"That's fine, sweetheart," Sonya said as she pulled her daughter close and gave her a tender kiss on the lips. "Don't worry, Seth and I will show you what to do. We'll take good care of you. Now, like I said, why don't we start with you drying me off."

The look of anxiety that was on Dani's face a moment ago was replaced by a broad smile as she nodded happily to her mother. She opened up the big fluffy towel and started rubbing it gently over her mother's glistening body. Sonya held her arms up as Dani ran the towel over her upper body and back, and then stepped slightly to each side as Dani

kneeled down to dry her legs and backside. Once she came around to the front, Dani seemed to spend a little extra time drying Sonya's tits, which made the older woman smile to herself.

"Mom, your breasts are so beautiful, and so big," Dani said in a soft whisper as she finished drying the heavy mounds, her eyes locked in on the mouth-watering tits.

"Yours'll be that big soon enough, sweetheart. Yours are just like mine were when I was your age." Sonya pulled on her plush white robe that had been hanging on the back of the door, wrapping it around her curvy body. Next to it was a short sky-blue robe made of satin with an intricate pattern on it, almost kimono-like. She handed it to Dani. "Here, put this on, sweetie."

"I can just keep my towel wrapped around me and go to my room if you like, Mom. It's just a few steps down the hall."

Sonya shook her head. "No, you'll just stay in here with me for a little while until we're ready for you to put your prom dress on. I'll do your hair and makeup for you, okay?"

Dani felt herself beaming. She'd never been very good at that kind of thing and envied her mother's ability when it came to making herself look beautiful. Her mother's hair and makeup always looked perfect for whatever occasion her mother had planned, whether it be for dinner out at a fancy restaurant, a business meeting, or just attending one of Dani's soccer games. Whatever it was, her mother always knew to put on just the right amount of makeup for that occasion. And her hair,

geez, her mother's silky blond hair always looked like she'd just stepped out of a commercial. Dani was thrilled that her mother would be helping her with both her makeup, and her hair, especially on this very special 'Prom Night'.

Sonya sat Dani in the chair in front of her makeup table and set to work. She worked her blow dryer, curling iron, combs and brushes like a pro, making her daughter's cascading blond locks look gorgeous by the time she was done. Shiny wavy curls kissed the girl's shoulders and framed her pretty face attractively. Dani couldn't keep the smile off her face as she looked at herself in the mirror.

"I think you like that," Sonya said as she stood behind her daughter and looked down at her work.

"Oh, Mom, it's so beautiful. I love it. Thank you so much."

"I'm glad. Now you scoot out of there for a couple of minutes while I do my hair, and then we'll do your makeup."

Clad in the silky robe, Dani sat on the edge of the bed and watched as her mother took her place in front of the mirror and started working on her hair.

"You know, I really envy you, Dani."

This really caught Dani by surprise. Her mother was so beautiful and sexy, she couldn't imagine why her mother would say such a thing. "Envy me? Why?"

"Having Seth as your first. I know it's going to be a wonderful experience for you. Like I said, your brother is a wonderful, and caring, lover. You can't ask for more than that for your first."

Dani nodded her agreement to that. She'd always wanted it to be Seth, but she'd never really believed it would ever happen. How many times had she fallen asleep after fingering herself to climax after climax, fantasizing about her hunky brother pounding her deep into the mattress with that huge cock of his. And now, it looked like it was really going to happen. Maybe some good things were going to happen because of this pandemic after all. But there was something about the way her mother spoke about Seth being her first that piqued her curiosity. "I know you're right, Mom, and I can't wait." Dani paused for a second, unsure if she should ask what she was thinking. But, everything else had been thrown on the table today, so she decided to just go for it. "Who was your first, Mom?"

Sonya stopped what she was doing for a second, her eye catching her daughter's in the mirror. Just as Dani had been thinking moments ago, Sonya remembered how they'd agreed to be totally truthful with each other going forward. And although she'd been caught off guard by Dani's question, she realized she had to stick to that policy. "My first was someone you knew very well, and loved very much," Sonya replied.

"Daddy?"

Sonya gave a little laugh as she shook her head. "No, YOUR father wasn't my first. But it was someone you loved almost as much."

Dani was quick to pick up on her mother's emphasis of the word 'YOUR' in her response. Dani knew immediately what her mother was inferring by doing that. "You mean...do you mean...Grandpa?"

Dani could only gasp as her mother gave her a sly smile as she nodded. "Really, Grandpa was your first? Your own father?"

"Yes, God rest his soul." There was a brief moment of silence as the two of them thought about the man, a father to one, a grandfather to the other. Sonya's parents lived in a different city, about two hours away. Four years previously, Grandpa Jack and Grandma Carole had gone out for a nice dinner to celebrate their anniversary. He died later that night, a major heart attack taking him in his sleep. A lot of tears were shed in Sonya's house over the next few days, by Dani just as much as her mother.

Dani took a deep breath after thinking about that fateful night and pulled herself together. "I still miss Grandpa terribly."

"I do too, sweetie, I do too." Sonya gave her daughter an understanding smile. "But, like we've talked about before, your grandfather was the kind of man who'd want us to carry on, to live life to its fullest, not to dwell on his death, no matter how hard it was on all of us."

"I know, he was so full of life, and that's one of the things I loved about him most." Dani saw her mother nod in agreement. "But really, I can't believe that Grandpa was your first. How...how did it happen?"

Sonya paused for a few seconds, all of those memories flooding back. "Well, sweetheart," she started, "like you, I waited until I was 18 as well. I just never found anybody that I loved or trusted that much to be my first." Sonya shrugged as she looked at her daughter and smiled. "Yes, I guess we're more alike than either of us thought."

Dani smiled back, happy to be sharing this intimate moment with her mother.

"Anyway, it actually occurred on my 18th birthday. I was excited because my birthday fell on a Saturday that year, so I wouldn't be in school that day. Looking back on it now, and knowing what happened in the end, I'm sure my mother was in on the whole thing."

"Grandma? She knew about it?"

Sonya gave a bit of a shrug. "She never let on or spoke of it, to me anyway, but I'm sure she knew, and I'm sure she approved. On that day, that Saturday, she had to go out of town for a few days to visit her sister. I forget the reason why now, but whatever it was, she gave me a present first thing Saturday morning before she left. It was that silver bracelet that I still wear to this day. So, she gave me that present, kissed me and wished me a happy birthday, promised that my father had a special day planned for me, and then off she went.

"My father and I were left on our own. He said since my 18th was such a special birthday, the day was going to be mine, and he was going to pamper me, starting off with a shopping trip. I was thrilled. I loved my daddy more than anything and, here we were, the two of us having the whole day together, and shopping at that! He took me to the mall and pulled me into a high-class lady's store. I had never shopped at a store like that and loved the glamorous gowns and sexy dresses. He said he was taking me out to a fancy French restaurant for dinner and I needed an appropriate dress. He ended up buying me four minidresses, each one sexier than the one before. And then we went to the shoe store, and for the first time, I got high heels. I couldn't believe how grown up I felt traipsing back and forth in the store as my father looked on, a proud smile on his face.

"He said that in order to complete the outfits, I'd need to get some new 'underthings', as he called them. A lingerie store in the mall had everything I needed to complement my new dresses, but he didn't stop there. He told me that now that I was 18, I needed some items to show what a grown up woman I was. With the shop assistant's help, I came out of there with bags of stuff, from bras and panties to corsets and garter belts, a couple of tiny new bikinis, and everything in between. I was positively glowing with excitement at everything my father had bought for me.

"We raced home and I went to my room, laying everything out on my bed. I stood there, just basking in happiness as I looked at all those beautiful things he'd bought for me. I'd never loved my father more than at that moment. It was a beautiful summer day and he said we should spend some time out at the pool, and that it would give me a chance to try out my new bikinis. I chose a gorgeous royal blue one that

seemed to be nothing more than a few small triangles of material. While your grandfather relaxed in a lounge with a magazine, I gave him a little fashion show when I came out. He told me how beautiful I looked and, from behind his sunglasses, I could see him stealing surreptitious glances at me. I was so happy that he thought I looked pretty that I turned and stretched, giving him a good look. I could see him staring at this point. At that time, I had boobs as big as yours, and I could tell he liked the way they looked in that bikini, which barely covered them. "Why don't you go and try on the other one," he said after a little while. "See if it fits as good as that one." So off I went and came back a few minutes later, this time wearing the white one that he'd picked out in the store and insisted I try on. I could see his jaw drop when I stood in front of him in that one. "Oh my, you look incredible, Sonya. Simply stunning."

"Once again I was thrilled at how happy he was, and how happy I was. We spent the afternoon lounging around the pool, and then it was time to get ready for our dinner out. I was torn between which dress to wear. I finally decided on one that was hot pink in color with matching strappy sandals with sky-high heels that I just loved. I'd also got a pink bra and panty set to go with the dress.

"I took my time getting ready, making sure my hair and makeup were perfect. I wanted my daddy to be proud to have me on his arm. When I met him in the living room, I could see that he was pleased with the transformation of his little girl into a grown up woman.

"Sonya, you are absolutely gorgeous," he said as he came up and gave me a tender kiss on my cheek. "You're going to put every other woman to shame in that restaurant tonight." I couldn't believe how happy and

overcome with emotion I was to hear those words of praise from him. He looked very handsome as well, all decked out in a gorgeous navy suit and beautiful silk tie.

"We went to the restaurant and it was a magical experience. I'd never been to such a fancy restaurant in my whole life. My father had arranged for a romantic table off to one side. He even let me have a glass of champagne to celebrate the occasion. Even though I was only 18, nobody in the restaurant even questioned it. I guess because I looked so much older all dolled up like that. It was the first time I had champagne and I remember giggling as the bubbles tickled my nose. I wanted a second glass, but my father put the hammer down on that idea. A single glass would be good enough my first time, he told me.

"I felt so special the way my father and all the restaurant staff catered to me. We took our time and I loved every minute of it. Finally, after a decadent crème brulee for dessert, our evening out ended.

"Feeling blissfully content and just a wee bit tipsy, we went home. He slipped off his suit jacket and suggested that we have a little dance to celebrate my birthday. He put on a slow song that he knew was one of my favorites, and then pulled me close as we moved and swayed across the living room floor. I felt like I was in heaven, encompassed in the arms of this man who I loved more than anything on earth. His body felt warm and comforting as he held me close, and I felt at peace with the world, and happier than I ever could have imagined."

Dani looked up as her mother paused. The older woman had a dreamy look in her eyes as she looked back at her daughter.

"Dani, here, put this in your hair," Sonya said as she stood up, grabbed a big loose-fitting scrunchie off her dressing table, and handed it to Dani.

"You want me to put my hair back in this? After you just finished doing it?"

Sonya nodded. "Yes, that won't mess your hair up very much and, don't worry, it'll only take me a minute or two to fix it again afterwards."

"Afterwards?"

"Yes, telling this story about your grandfather has me just dripping again. While I tell you the rest of the story, I want you to use that pretty little mouth of yours on me again. And I don't want your hair getting in the way while you're doing it."

Dani could tell by the tone of her mother's voice that this wasn't a topic for discussion. Dani didn't mind one bit. At the mention of being able to worship her mother's pussy again, she'd felt her own love pocket give a little twinge. Dani whipped her hair up and anchored the scrunchie in place, pulling every strand of hair back and away from her face.

"That's good, that's perfect," Sonya said as she took her daughter's hand and led her over to a corner of the room she used as a reading area. She turned around and plopped herself down into a big leather recliner,

one she used when she wanted some peace and quiet in the house. Sonya undid the folds of her plush white robe and pulled it open, exposing her massive breasts and the front of her body. She leaned back in the chair and then drew up her legs. Letting her thighs roll open, she lifted her legs up and draped them lewdly over the arms of the chair, totally exposing her shaven pussy to Dani's lustful gaze. She reached down with one talon-like red fingernail and traced it teasingly between the glistening petals of flesh marking the entrance to her pussy, making Dani's heart start to beat rapidly in her chest as she looked at the sinfully alluring sight.

Without another word needing to be spoken, Dani dropped to her knees and leaned in close, breathing in the intoxicating scent of her mother's warm musky fragrance. Dani shivered with excitement as she felt her mouth start to salivate. She moved closer, sliding the tip of her tongue into the bottom of that inviting groove and sliding it slowly upwards, feeling the warm nectar gather on her tongue.

"Oh yeah, baby, that's it. Just take your time. Go nice and slow," Sonya said as she wriggled her backside slightly, settling deeper into the chair as her daughter started to service her.

"Now, where was I? Oh yes, your grandfather was dancing with me, telling me how beautiful I was, and how proud he was of the grown up woman I had become. I was overwhelmed with emotion at his kind words. I tilted my head up to his and gave him a kiss to thank him for all he'd done for me that day. The next thing I knew, he was kissing me back, but not like a father normally kisses his daughter. He was kissing me like lovers would kiss, like I'd seen him kiss my mother many times.

"I remembered seeing the look on my mother's face sometimes when he'd kiss her like that, how she'd be almost glowing. It was no secret that my parents had a good sex life. Geez, it was a small house and I couldn't help but hear the sounds of lovemaking coming from their room. And it happened more often than I would have expected from people their age. I remember hearing my mother's moans and groans like it was yesterday. And they'd go on for hours on end, their bed squeaking and thumping as my father fucked her over and over, with little respites of quiet in between. Sometimes I'd hear her scream and squeal out loud when she climaxed, and I was a bit jealous, knowing it was my father who was making her feel that way.

"And now my father was kissing me like he kissed my mother, and I was kissing him back. I remember his warm tongue pressing against mine, and how I felt dizzy with excitement, and how I wanted more. As he kissed me again, his big hand moved down over my dress and cupped my breast, making my heart pound. He became bolder, kissing me harder as he fondled my chest, making me gasp breathlessly. The next thing I knew, he was lifting me onto the dining table, plunking my backside on the edge as he moved between my legs. I remember leaning back, my mind swirling, my chest heaving as I fought for air. I was so excited, I could barely breathe.

"You are so beautiful, Sonya, so much like your mother when she was younger," my father said as I felt his hands move to my legs, his long fingers pushing my thighs to each side. I could only watch as he pushed my short dress higher, exposing my panties to his view. I remember that you could see that my panties were soaked, so wet with my girly juices to be almost translucent. He ran one hand slowly, teasingly, up my thigh before his fingertips started toying with the leg opening of my panties.

"Let's see how much honey you've got in this hot little hive of yours," I remember him saying as he slid his finger beneath the edge of my panties and across my dripping pussy-lips. I gasped and my body flexed involuntarily as he started exploring with his fingers, his touch making me burn with desire. I could tell he really knew what he was doing as he toyed with me. He brought his other hand forward and pulled my panties right off, totally exposing my youthful mound. He pushed my legs back and up even more, making me lean further back on my arms, my pretty pink dress bunched up around my waist. He set to work on my steaming pussy with both hands, his fingers like those of an artist, stroking, probing, driving me absolutely crazy. And then I felt him touch my clit."

Sonya paused for a second and reached down, taking Dani's head in her hands and pulling her closer, pressing her face flush up against her seeping loins. Sonya shifted herself slightly, her legs still draped brazenly over the arms of the chair. She wriggled Dani's head slightly from side to side, making the girl's tongue rise higher up inside her, the girl's talented tongue tip rubbing deliciously over her dripping coital walls. "Oh fuck, yeah...that's it, Dani, keep licking me just like that. Nice and slow...that's perfect. Mommy's gonna give you a nice mouthful of cream soon enough."

Dani was in heaven. Not only was she thrilled to be servicing her mother's beautiful pussy again, but she was being swept away by the illicit incestuous story her mother was narrating. Dani had always thought of her grandfather as a handsome, loving man, but she had no idea, no idea at all that he had been her mother's first lover. As she thought about how handsome he was, how sophisticated and worldly, she could picture it though, and she could tell from her mother's tone

of voice that it had been a wonderful experience. She couldn't wait to hear more.

"Anyway, when my father touched my clit, I thought I was gonna lose it right there. I looked up at him, and saw only comfort and caring in his warm loving eyes. He nodded to me and gave me a gentle smile. "Let it go, baby, let it go for Daddy," he said. Those words and his skilful toying fingers were all it took. I came like a freight train. My body shook and convulsed like I was having a fit. He kept working me over, his fingers and hands doing things to me that I never thought possible. I could feel myself spraying my juices all over him, but he just kept going, those fingers teasing me mercilessly. I was just coming down from my first climax when he touched me somewhere just inside my opening that had me squirming all over again. I came for a second time, and I gushed all over him again. I felt like I never wanted my climax to end. It was absolutely delicious to have my father make me come this way. My pussy was spasming and twitching like crazy as those magical fingers continued to do deliciously terrible things to me. But those luxurious sensations eventually waned, and when I started to recover, my father picked me up in his arms and carried me to my room. I slumped my head against his shoulder as he carried me, feeling overwhelmed by my orgasms, but excited to know he wasn't done with me yet.

"Like a new bride, I was thrilled when he carried me over the threshold of my room and placed me delicately on my bed. I lay there, breathless, as he took off his clothes. My father had always been in good shape and I was impressed by his taut muscular physique as he peeled off his shirt, exposing his firm masculine chest. I watched with anticipation as he undid his trousers and slid them off along with his shoes and socks.

He stood before me in only his underwear, a pair of boxer shorts that I could see were seriously tented out at the front.

"Take your dress off, baby. I want to see you in some of that new lingerie we bought you today," he said. I stood next to the bed and undid the zipper on my dress, peeling it down off my body and stepping out of it. I went to take off my shoes but he stopped me, telling me to leave them on. He came up to me and kissed me again, making me swoon with arousal as he pulled me against his naked body. He deftly unhooked my bra and pulled me closer, mashing my breasts against his muscular chest. I loved the smell of him, the pure masculinity of his very being.

"Lie down, sweetheart," he said as I slid onto my bed, feeling strange to be wearing the sexy pair of high heels and nothing else. With my head propped up on some pillows, I watched him slip his hands into the waistband of his boxer shorts and push them down, leaving him totally naked. I gasped out loud as I saw his rearing prick for the first time. Although I was a virgin, I knew this cock of my father's had to be bigger than most. The thick veiny shaft was pulsing, the massive head engorged and throbbing, with a glistening bead of precum drooling from the very tip. I knew what was coming and I was filled with both dread and excitement as he crawled onto the bed, that massive appendage pointed straight at me.

"Open your legs for me, sweetheart," I remember him saying as he moved over me. I eagerly complied, wanting to please my father in any way I could. He reached down between us and brought the broad flared head of his cock to my dripping pussy, rubbing the hot wet tip against me. He wriggled it between the slick lips, and I heard him gasp

as he settled the flared knob between those slippery petals. He leaned over me and I looked up at him with frightened eyes. Instinctively, I brought my hands up and circled them around his neck, drawing him down to me.

"You're going to be all right, baby. Daddy would never hurt you. Trust me when I say that you're going to love this...that we're both going to love this," he whispered as he looked at me with those warm comforting eyes of his. I could feel myself tearing up, but it wasn't from fear, it was from love, a deep unconditional love that I had for this wonderful man who cared so much for me, cared so much that he made this a such a wonderful night for me."

Sonya continued to run her fingers through Dani's hair as the girl slurped and licked at her seeping twat, sucking out what seemed like an endless supply of cunt-honey.

"He kissed me after that, passionately, tenderly. I knew everything was going to be all right, just like he said. I felt him start to flex forward, pushing himself into me. I felt my insides being stretched like never before, and then he stopped. I knew he'd bumped up against my hymen, but I wriggled my bum from side to side, wanting him to know that I wanted him inside me more than anything.

"Please, Daddy, take me now," I said to him as I pulled him close and kissed him again, totally surrendering myself to him.

"I felt him shift back just slightly, and then he powered forward, forcing himself against me. I felt a terrible stretching and straining inside for a

brief instant, and then my hymen tore through, letting him go deeper. I remember gasping out loud at the intense pain, but that pain seems like a blurred memory now after I think about the exquisite pain of blissful ecstasy that followed almost immediately.

"There, that wasn't so bad, was it?" my father asked as he stayed still for a minute or so, letting me get accustomed to having something so big and hard inside me. With a tear or two streaming down my cheek, I smiled back at him, letting him know I was okay. As he kissed my tears away, it soon started to feel really good, so I shifted my bum from side to side once more, which caused both of us to moan.

"Oh God, Daddy, it feels so nice, so wonderfully nice. It's so thick, and so hard. Please, let me feel the rest of it," I said to him.

"Anything for my little girl," he replied, and then he started to press himself further into me. He moved slowly, but firmly, mercilessly forcing inch after inch of hard mature cock into my shredded pussy as I lay there and gasped for air. I felt my pleasure level rising with each inch that he fed into me, and when I felt his groin press flush up against mine with the broad flared head as far up inside me as it could go, I came.

"That's my girl, that's the way. Let it go," he said as I thrashed about beneath him, grinding my throbbing loins up against his. I couldn't believe how incredible it felt, and I remember thinking if this was what fucking was all about, I wanted to do a lot more of it.

"My father kept still, his turgid prick buried all the way inside me as I twitched and convulsed beneath him for what seemed like a full minute or more. When my initial orgasm finally dwindled, he started really fucking me. He'd alternate between long-dicking me, pulling his sizable cock almost all the way, with short hard thrusts, both of which stoked the fires burning inside me in no time flat. I came a second time, and then a third, before he drove that beautiful mature cock deep into me and flooded my insides with a torrent of cum. To this day, I still remember that I could actually feel it pulsing into me, jet after jet of my father's cum pasting my insides.

"When it was over, he stayed over me with me still holding him close, my arms locked around his neck and my ankles crossed over his backside. In that moment, I never wanted to let him go. It was pure heaven."

Sonya stopped talking and pulled Dani's face higher, sliding the girl's face up her slippery groove until those soft young lips found her clit. Dani instinctively latched on and started sucking, like she was sucking on a nipple.

"OH FUCK...YES...RIGHT THERE...RIGHT FUCKING THERE...OH FUCCKGGGGG..." Sonya mumbled incoherently as she started to come. She held Dani closer as the girl's lips and tongue throttled her sensitive clit, making her climb the walls as she climaxed. She could feel herself gushing, spraying her daughter's face with her warm juices. But Dani kept sucking and licking, making her tingling release go on and on. She thought it was starting to ebb away, but Dani's tongue swirled mercilessly over the fiery nodule at the top of her slit, making her come for a second time in a row. It was just like her father fucking

her for that first time, when he made her come over and over. Sonya rolled her hips against Dani's mouth, surrendering herself to the same kind of blissful sensations as she came for a second, and then a third time.

When the last tingling sensation ebbed away like an evening tide, Dani finally slowed down, but kept her mouth pressed against her mother's warm flesh, tenderly licking at the older woman's drooling cooze.

"Oh Dani, that was amazing. It felt so good," Sonya said as she ran her fingers gently through her daughter's hair. "I'm telling you right now, I'm going to be using that pretty mouth of yours a lot more from now on."

Dani felt her heart swell under her mother's words of praise. She was just as anxious as her mother was to continue this new-found relationship. She knew she'd be happy to worship her mother's pussy all day long, if that's what her mother wanted. But right now, she wanted to hear more, more about her grandfather and her mother that first night. She reluctantly pulled her mouth back from her mother's steaming cunt, her face a glistening mess of her mother's juices. "Mom, what happened between you and Grandpa after that?"

"Just keep licking me nice and slow and I'll tell you, sweetheart." Sonya waited until Dani moved closer once more, her tongue running slowly up the inside of Sonya's widely-spread thighs, licking up the warm rivulets of emulsion. "There, that's my girl, that's perfect. Since we're being totally honest with each other, Dani, there's no harm in you knowing all of this stuff about your grandfather and me.

"After that first time, we kissed, and we talked, and we kissed some more as we lay there together in my bed. Then my father started to teach me a lot of things. He taught me how a man likes his cock sucked, when to kiss it, when to lick it, when to suck it, and how to use your hands. He taught me how a man loves to have a woman swallow his cum, and I loved it from the first time he poured a load down my throat that night.

"We fucked in every room of the house that weekend. I can't even begin to think of how many times I came with his cock inside me, or with him dousing me with his cum when he sprayed it all over my face or tits. I loved every bit of it, every nasty incestuous act he made me do. 'Made me' is not a very accurate phrase to use since I was a more than willing partner.

"There was something about the way he taught me, something about the way he spoke to me, that I knew it wasn't about me replacing my mother. No, I could tell he loved her dearly, and it was more about teaching me all of the beautiful pleasures that sex had to offer as opposed to hurting her. Somehow I sensed that that was what it was all about, helping me to discover the pleasures of life.

"Like I said, I'm sure my mother was in on the whole thing. I had confided to her a short time before my birthday that I was still a virgin, and I think she talked to my father and they planned the whole thing together, for which I am eternally grateful. When she returned after the weekend, she was full of smiles as she listened to me and my father tell her what a wonderful time we'd had shopping and going out for dinner on my birthday. We never talked about the fact that we almost passed

out from having sex almost continuously for the rest of the weekend, but I think she knew.

"We carried on with our life as normal, but my father and I had sex nearly every chance we got. My mother seemed to be intentionally out of the house a lot more than she had been, often telling us almost to the minute how long she'd be gone for. Whether it was playing cards at a friend's house, or going to visit her sister, or whatever, we took advantage of every moment we had together. Whenever she left the house, it was usually only a minute or two later before I had my lips wrapped around my father's cock. I must have swallowed gallons of cum from your grandfather's cock over the years, and I loved every last drop.

"You know all those times when he would come into town on business and stay at that hotel?" With her tongue still laving softly over her mother's warm mound, Dani thought back, remembering how whenever her grandfather would come to town on business, he'd always stay in a hotel instead of with them. She thought it a bit strange, especially since whenever he and Grandma came together to visit, they'd always stay in their guest room. Dani flicked her eyes up to her mother's and nodded, her tongue never leaving that succulent pussy for an instant. "He did that so he and I could have time together in the hotel. I'd go there and I'd suck his cock and he'd fuck me like crazy whenever he was in town. I know what you're thinking, what about your dad. By that time, your father had confided in me that he was gay, and was sexually active with other men. We decided, for a while, to make the best of it for you guys and stay together. Your father knew I needed sex, but he had no idea when I went out on those nights that I was fucking your grandfather and swallowing load after load of his cum.

"I guess you should know that the night your grandfather died, it didn't happen exactly as you were told. We told you that he died peacefully in his sleep, but it wasn't exactly like that. My mother told me that after they'd been out for dinner, they went home and made love, and then for a second time. She said your grandfather wanted to go again for a third time after that. Grandma told me she was feeling a little sore so she used her mouth on him. Apparently right after he came in her mouth and she swallowed, she felt him lurch as the heart attack hit. She said it was over within seconds. He was lying there dead, and she could still taste his cum in her mouth. It was very sad but, knowing my father, I'm sure it was the way he wanted to go out, with a smile on his face, so to speak."

"Mom, that's terrible," Dani said. "How did Grandma ever get over it?"

"I think when she told me what had happened, it helped to relieve her anxiety and guilt about the whole thing. I told her it wasn't her fault. The doctors even said that he had an underlying condition that nobody ever knew about. They said it was only a matter of time. Also, like I said, she knew what a strong sex drive your grandfather had, and it seemed to her like karma that he died doing what he loved most, filling a woman's mouth with cum. If it had to happen, I was sorry it didn't happen a week later."

"What do you mean?"

"Your grandfather was supposed to attend a trade show in Las Vegas the following week after when he actually died. We'd made all the

arrangements that I was going to meet him there and stay with him at Caesar's Palace."

"I remember you were supposed to be going away to Las Vegas at that time, but I thought you were going with Janice."

"That's what I had to tell you, of course," Sonya replied, knowing that Dani was referring to the ruse she'd made up that included her best friend, who was great at keeping secrets. "I couldn't very well tell you and your father that I was going to be spending four days straight sucking your grandfather's cock and letting him fuck me silly. I had even bought a whole bunch of new lingerie to take with me. Your grandfather loved sexy lingerie. I couldn't wait to let him see me in all the pretty things I'd bought. He loved to have me keep them on when he fucked me, telling me how pretty I looked and how hard I made him. Trust me, Dani, every man loves seeing a woman in beautiful lingerie. I'm sure your brother is like that too, and we're going to give him quite a show."

"But I...I don't really have more than a couple of things, like that new bra and panty set you got me to go with my prom dress."

"Don't worry, sweetheart. I have a ton of things of my own that will fit you perfectly." Sonya reached down and cupped her big breasts, hefting them and letting her thumbs roll over the nipples as she presented them to Dani. "I wasn't always this big, and I couldn't bear to throw out any of those pretty things I had from when I was your size. You're going to love them."

Dani couldn't keep the smile off her face as she thought about wearing some sexy lingerie, just like in the Photoshopped pictures her brother had of her on his computer. "Oh Mom, that's so nice of you. Thank you so much." Dani quickly brought her mouth back to her mother's seeping cunt, thanking her by dragging the flat of her tongue over her mother's dripping gash.

Sonya looked down at her daughter, loving the feel of her daughter's soft warm tongue on her flesh. "Just talking about all of that, and remembering how wonderful it was to have your grandfather's cock inside me has me ready to go again. Put your mouth back on there and give Mommy one more good one, and then we'd better get ready for your brother."

As Sonya settled back in the seat, she reached forward and pulled her legs even further back over the arms of the chair, opening up her shiny pussy even more for Dani's mouth. Dani leaned forward on her knees and slithered her tongue way up inside her mother's ripe peach, her tongue swirling all over those seeping coital walls.

Ten minutes later, Sonya exploded again, another flood of nectar washing over Dani's already-sticky face. Sonya let the girl clean her up before she finally lifted her legs off the arms of the chair and lowered them to the floor. She stood up on wobbly legs and drew her robe around her curvy body.

"Come on, sweetie, let's finish getting you ready for your brother. Your grandfather's cock was plenty big, but it was nothing compared to your brother's. This night is going to be so special for you that you'll never want it to end, and I think Seth and I can help make that come true."

Sonya paused and gave her daughter a naughty wink. "I think when Seth's done with you, you won't be able to walk right for a week, but you'll never have felt better in your entire life."

Chapter 7

Seth was surprised that he'd actually been able to drop off to sleep. After he got off the phone with his mother, he closed his blinds and tried to let the darkness envelop him. Even though he was anxious for what the rest of the day might hold, he fell into a peaceful slumber, his dreams full of thoughts of plugging his cock into his mother's and sister's hot tight cunts and sucking mouths.

Almost an hour and a half later, he woke up, feeling groggy from sleeping more soundly than he would have anticipated. He chocked it up to the blissful contentment he was feeling from dumping two loads onto, and into, his sexy mom.

Rousing himself, he pulled on his boxers and made his way to kitchen. He grabbed himself a snack and scooped a Red Bull out of the fridge. He'd never had a problem with his endurance and stamina when it came to filling Lizzy's mouth with cum, being able to get it up and come time after time. But, "What the hell," he thought, "a Red Bull or two couldn't hurt. If Mom is anything like she showed me earlier, which I'm sure she is, I think I'm going to have a busy night."

Feeling somewhat content after his snack and drink, he figured he'd better get ready for 'Prom Night'. It had been a while since he'd talked to his mother and, although he knew how long women take to get ready for these types of things, he hoped he wouldn't have to wait much longer. At the end of the day, he knew he'd be taking his sister's cherry, and the thought of that was making his cock stiffen already.

Seth ran the shower and did a thorough job, following that up with a close shave. He took care to comb his hair and brush his teeth, wanting nothing to go wrong, just like he would for a real date. Just as he was finished, he heard his phone ping, signalling a text. He picked it up and saw the message was from his mother.

"30 min more, see you in the living room" was all it said.

"Great, only a half hour left to wait," Seth thought as he put down the phone. Getting dressed, he slipped into a nice pair of white fitted boxers, the stretchy material forming around his substantial package attractively. He went to his closet and pulled out the suit bag with his new clothes. He pulled on the crisp white shirt his mother had picked out, and followed that up with the trim-fitting pants of his new navy suit. A pair of tan leather shoes complemented the suit perfectly, as did the stylish silk tie with a geometric pattern that his mother had picked out as well. Looking at himself in the mirror after tying his tie, Seth gave himself a rakish wink as he slipped the suit jacket over his shoulders and into place.

"Not bad, not bad at all, you sexy bastard," he said out loud as he smiled at the elegant young man looking back at him from the mirror. His mother had been right about the suit, it looked great, as did the whole ensemble she'd picked out for him. Seth hadn't seen the new dresses his mother and sister had gotten for themselves. They'd done that on some shopping trips months ago on their own. He was anxious to see how they'd look.

He strode to the kitchen and grabbed himself a second Red Bull from the fridge. Popping the lid, he took a good pull on it, downing half the can in one shot before setting it on the granite-topped kitchen island.

"My, my, don't you look handsome."

His mother's voice made Seth turn. She was standing a short distance away, leaning provocatively against the wall at the opening to the hallway that led to the rest of the house. Seth gulped as he looked at his mother, feeling his heart skip a beat as his eyes raked over her. "Wow, she's so fucking gorgeous," he thought to himself as he took in every succulent detail.

She was wearing a red dress that fit her like a second skin, the stretchy material following every delicious curve and flowing contour of her shapely hourglass figure. It had a deep plunging neckline that left a sizable portion of her large breasts exposed, and a hem that ended halfway down her full creamy thighs. As usual, his eyes were immediately drawn to her sumptuous bustline. The narrow straps over her shoulders were stretched taut, straining under the substantial weight they were carrying. The tight dress, and whatever kind of power bra she had on underneath it, had those mammoth breasts of hers swelling up and almost threatening to bust free of the dress. Seth had never seen her cleavage look so long and so sinfully deep. He knew he'd be sliding his cock into that inviting valley soon enough.

The deeply-scooped neckline exposed an abundance of tit-flesh, and Seth figured the V-shaped top edge of the dress was barely covering his mother's nipple area, there was that much skin exposed. Seth found himself literally salivating as he hungrily eyed up those tremendous

breasts that were all but spilling free. He had to force himself to look down further, wanting to take in everything at once, but having trouble drawing his eyes from those spectacular tits. Finally, he shook his head, breaking himself out of the trance-like state those mouth-watering breasts had over him.

As his gaze moved lower, due to that imposing set of guns, he could see that the brilliant fire-engine red material of the dress was casting an imposing shadow on her midsection. The clingy material adhered tightly to the projecting shelf of her tits and then nipped in teasingly to follow the enticing curve of her narrow waist, the deep shadows emphasizing even more the substantial size of those voluminous tits above. His eyes followed the tight red dress as it flowed out over her wide womanly hips and then smoothed in as it molded itself to the enticing line of her shapely legs. He gulped as he looked at the front of her right thigh. The dress had a wickedly teasing slit in it, about five inches long and rising from the hem of the dress to a point just south of the equator. As she leaned provocatively against the opening in the wall, with that leg angled slightly, that sexy slit drew his eye like a magnet, his eyes feasting on the soft smooth skin of the creamy thigh visible beneath the slit. The inverted-V shape of the slit was like a teasing arrow, pointing upwards towards the hot mature pussy Seth knew was lying in wait just a few inches above the seductively high hem of her dress.

His eyes scanned downwards, taking in the alluring sight of her shapely tanned legs, which were bare, and looked incredible with the shoes she was wearing. Those shoes made Seth take a sharp inward breath, his cock giving a noticeable twitch as he looked at the tantalizingly sexy shoes. They were pointy-toed slingbacks, a style of shoe that he absolutely loved. Like the dress, they were brilliant red in

color, with dangerous-looking pointy toes and rapier-like 5" stiletto heels. They were definitely 'come-fuck-me' shoes, and Seth wanted to do exactly that as a pulsation of blood had his stiffening cock pushing against the front of his fitted boxers.

He forced himself to look back up over her exquisite form, his eyes finally coming to rest on her pretty face. She'd put on makeup for a special occasion, her eye shadow a mix of magenta and bronze that looked fantastic with the ocean blue of her eyes. She'd applied some mascara, which made her already-long lashes look even more seductive than usual. And her lips, her gorgeous full lips. "Fuck me, just look at those," Seth said to himself as he could only stare at his mother's inviting mouth. Her lips were painted in a glossy coating that was just as boldly red as her dress, and he could see that it had a 'wet-look' shine to it that just seemed to be begging for a cock to part those soft luscious pillows. He couldn't help but picture those lips wrapped around his cock, glistening wetly as he sawed his cock back and forth between those bright red cushions of pleasure.

Her lustrous blond hair had been brushed to a gleaming shine, the soft flowing curls framing her pretty face like an angel's halo. A glittering diamond earring dangled from each ear and shimmered beneath her canopy of golden blond hair. She'd matched the earrings with a silver necklace with three matching diamond stones dropping down to the top of her cleavage. Seth let his eyes take in the whole ensemble, and thought his mother had never looked more beautiful. She looked glamorous, sophisticated, and sexier than any movie star he'd ever seen.

"Mom, you look...you look absolutely stunning. That dress, your shoes, that jewelry...everything. I love it."

"You don't look so bad yourself, sweetheart. I'm so glad we picked out that suit for you. You look so handsome, I'm kind of glad we're not at the real prom, otherwise your sister and I would have to fight off all the other girls, and I'm sure their mothers as well."

"The way you look, Mom, I don't think you'd have to worry about that at all. I can tell you right now that none of those girls, or women, could even compare to you. With that dress you're wearing, it wouldn't be a fair fight at all."

Seth didn't know that Sonya had an ulterior motive in mind when she'd picked out that dress. After she and Dani had gone out months ago and found a prom dress that Dani was happy with, Sonya decided that she'd get something new for the special occasion as well. It wasn't very often that a mother had two of her children officially graduating on the same day, along with all their friends who they'd grown up with over the years.

Those thoughts had gone through Sonya's head while she'd been shopping for just the right dress. Thinking about her children's friends reminded her of how so many of Seth's friends had grown up to be handsome young men. She hadn't been oblivious to the way they'd all looked at her over the years. She found it charming, and wickedly exciting. It reminded her of her senior year in high school, after her father had taken her virginity. Once he'd taught her to experience the joys of sex, there was no stopping her. Not only had she become the football team's cock-sucking mascot but, by the time she graduated,

she'd ended up fucking and sucking off nearly half of the graduating class and nearly all of the male staff, including the principal. She was called down to the principal's office more than any other student. But while the other students thought she was being given a lecture, she was usually on her knees, the principal's long thick cock buried in her throat. She'd go back to class smacking her lips, the fresh taste of cum lingering on her taste buds.

Sonya had thought back on those times, and how much she loved being the little cum queen for all those young boys on the football team and in her classes. She remembered the stamina and endurance of those boys, and how her mouth and pussy were just buzzing after they'd taken turns using her. When she was shopping for dresses that day, she felt her pussy creaming just thinking about it. As she pawed through one dress after another, it dawned on her that she had a chance to experience that kind of pleasure again. Seth's friends were all over 18 now, so that wouldn't be a problem. And from the way those boys all looked at her, she knew they just needed a little prompting to get things started. The right dress would be just the thing to get those hormones of theirs raging. And so, when she saw the red dress, she knew it would be perfect.

The prom celebration had been slated to be held in one of the convention rooms of a major hotel in town. Sonya's plan had been to rent rooms in the hotel as a special prom night gift for her two kids. They could get dressed there, go to all the festivities and after-prom parties, and not have to worry about getting home if they ended up a little tipsy. She had planned on renting a room for herself as well. She knew that a few coyly placed glances or winks at Seth's friends would get things started easily enough. And once she got a couple of them into her hotel room at the same time, word would spread like wildfire,

or, word would spread "like her legs", Sonya thought to herself as she paid for the dress, a smile on her face.

Yes, she'd planned on fucking nearly all of Seth and Dani's graduating class that night, having missed getting teenage cock on a regular basis like she had in high school. She couldn't help but picture taking on three of them at time, the virile young boys making her airtight, a sizeable teenage cock plugged into each of her three holes. Along with that, while those three were making use of her willing holes, she pictured a number of other boys kneeling naked on the hotel room bed next to them, jerking off all over her at the same time. And then they'd take turns at her, with new boys coming into the room again and again. She thought of how wonderful that would be if it went on all night long, all those young boys drowning her with gallons of teenage cum. She'd give those boys a night to remember for the rest of their lives, that's for sure.

Alas, when the pandemic hit and everyone's life ended up in turmoil, her nasty little plan quickly came to an end. Within a month, Prom Night had been officially cancelled by the school board, leaving her two kids, and Sonya, depressed about the whole thing.

"Well," she thought to herself, "it looks like this red dress is going to come in handy after all. Seth loves it, and I'm sure that big beautiful cock of his loves it too."

"Thank you, sweetheart. I'm so glad you like the dress, and that I've actually got a chance to wear it. I'm so sorry that your special night was cancelled. I know how depressed Dani was about the whole thing. But I'm sure we can think of a few things we can do for her to make it a

wonderful night just the same. Don't you think so?" Sonya finished speaking and gave a little twirl, giving Seth the full view.

"Fuck me," Seth muttered to himself as he looked at his mother's exquisite form. Her full curvy heart-shaped bum looked incredible in the dress, the clingy material flowing like liquid silk over the soft curves of her backside. He couldn't see a single panty-line anywhere and knew she was either wearing a tiny thong, or nothing at all. If he was to bet on it, he'd bet that there was nothing but a bare pussy under there. And when she moved, that provocative slit over her one thigh drew his eye again, the teasing glimpses of the smooth skin of her upper thigh sending another pulsation of blood to his stiffening cock. She'd turned slowly, giving him an amazing view of those massive tits in profile, looking over her shoulder at him with a naughty glint in her eye that promised of more exciting things to come.

But she had mentioned Dani, and what they could do for her tonight. "Yeah, Mom," Seth said as he let his eyes roam blatantly over her gorgeous body, "I think we're going to have an amazing time tonight. We'll make sure Dani has a lot of fun but, I'll tell you right now, I can't wait to get my cock back inside you again."

Sonya felt the same as she looked at her son, wanting to drop to her knees and wrap her lips around that all-day-sucker of his and never stop, but she used all her willpower to push those feelings away. "Just be patient a little while longer there, tiger. Remember, this is going to be a special night for your sister too. But don't worry, from now on, you'll get to fuck Mommy as much as you want, any time you want."

"So Dani's really going to let me take her virginity?"

Sonya nodded, a broad smile on her face. "Oh yeah. I can tell she's been thinking about it for a long time. She can't wait."

Seth's couldn't keep the smile off his own face. "That's great. And since she looks like a younger version of you, I'm sure she'll be just as hot, even if she isn't as experienced."

"That's the perfect thing about her. She's very eager and willing to learn, and I have the feeling that we can both teach her a lot of things." Sonya gave Seth a coy look. "I've already started."

Seth cocked an eyebrow. "What? Already started?"

Sonya slowly strode over and stood in front of him as she reached up and straightened the knot on his tie. "Yes, we had a nice time together when we were getting ready. Like I said, she's very eager to learn. You might even say hungry." She accompanied her last statement by giving him a playful nip on his bottom lip.

Between the sensual tease of his mother's perfume wafting into his senses and reading between the lines of what she was saying, Seth felt himself reeling. "You mean...you mean..."

"Yes," Sonya replied with a smirk. "Your sister certainly knows how to use the pretty little mouth of hers. I think you're going to be very pleased with her."

"Oh man," Seth gasped under his breath as he realized what his mother was saying, what must have happened for her to say that about Dani. "So she...you and her..." Again, Seth found the words he was searching for hard to come by.

"Yes, my pussy was just buzzing after she used those lips and tongue of hers on it," Sonya said as she smoothed her hands down over the front of his chest before leaning in and whispering into his ear, "but not nearly as much as when you were pounding that gorgeous cock into me." Sonya stood back, but not before raking her teeth over Seth's earlobe, which made him shiver with excitement.

"Jesus, Mom, th—" Seth started to say.

"Mom, I think I'm ready." His words were interrupted by Dani's tentative voice coming from down the hallway.

"All right, dear. Come on in and let's see how you look." Sonya turned and said quietly to Seth, "Are you ready to see how your prom date looks?"

Struck dumb by what he'd just heard about his mother and Dani, Seth could only nod. He took a deep breath to try and pull himself together, but all that went away in a hurry when his sister stepped into the room.

"Wow!" was the first word that came to mind when he saw her. He knew his sister was pretty, and had a terrific body—fuck, he'd jerked

off to her enough times to know that—but he never knew she could look this sexy and glamorous. The dress she was wearing was beautiful, absolutely gorgeous, and Seth thought it suited her perfectly. It was a stunningly vivid navy blue color, but it was hard to describe since the dress was made up of multiple layers of different material, with some being lacy while other's beneath were of shiny satin, giving the dress an iridescent quality that caught the light in fascinating ways as she moved.

Like with his mother, Seth's eyes were first drawn to his sister's sumptuous chest, where her dress fit nice and tight. The top part of the sleeveless high-collared dress, from her shoulders to her waist, was tightfitting, with the whole bodice portion covered with intricate lace. Beneath the delicate brocade covering, he could see shiny blue satin that formed from her waist up to her breasts only, with the upper part of her chest and shoulders naked beneath the intricate lace. The edges of the lace at her neck and arm openings were bejewelled with small glittering rhinestones sewn here and there into the fabric, making the dress look extremely feminine and pretty. He could see that there were no bra straps going over her shoulders beneath the pretty lace. She either had to be wearing a strapless bra, or the dress had reinforced bra cups built right in. Even through the sexy lace of the brocade, he could see the generous swells of his sister's breasts, her cleavage almost as deep and dark as her mother's.

As she stepped into the room, Seth could only stare at those big tits, the lace and shiny blue satin covering them shifting mysteriously as the light caught it in a million different ways at once. Like her mother as well, the prominent thrust of her gorgeous breasts was casting a distinct shadow on her stomach, emphasizing how big those tits really were.

Seth allowed his gaze to drift down. The waist portion of the dress was made of the semitransparent blue lace as well, with no material underneath an area about three inches wide right at her waist. The defined lacy area was littered with the tiny rhinestones as well, drawing your attention to her slender waist and emphasizing her pronounced hourglass figure. Seth caught glimpses of his sister's tanned skin that he knew covered her toned abs. He'd seen her in her soccer and training gear enough times to know how taut and firm that stomach was. And the dress fit nice and tight right there, showing what fantastic shape she was in.

Things changed abruptly with the dress below that. The shiny satin material went out in a distinct flounce once it went over her hips. He could see fold upon fold of the shiny fabric as the bottom part of the dress went about halfway down her thighs, with more of the delicate lace in another layer over the numerous layers of satin. The design of the bottom part of the dress was in drastic contrast to the top, making it almost look like she was wearing an old-fashioned crinoline beneath the dress, giving it that playful, 'flounced' look. But unlike those old-fashioned dresses that spread out wide to the floor, this was definitely a mini, the bottom edge of the flouncy part ending teasingly high on his sister's strong toned thighs.

Seth's eyes scanned downwards over her bare legs, past her dimpled knees and trim ankles. Her feet were clad in strappy silver high heels, with dagger-like heels that were as high as the ones his mother was wearing. A single silver strap crossed Dani's delicate feet just above her toes, while a second silver strap circled her ankle to secure the shoe in place. They were incredibly sexy, especially since Seth had never seen

Dani wear anything like that before. Her toenails and fingernails were painted a gorgeous bright navy as well, matching her dress perfectly.

He drew his gaze back up to her face, and he could see that his mother had helped her with her hair and makeup. Dani looked incredible. So different than he'd ever seen her. Her long blond hair framed her lovely features in flowing curls that kissed her shoulders. His mother had pinned certain parts of her hair back and up, causing occasional tendrils of wispy gold to lick tenderly at her neck. Her eye makeup was beautiful. Very sophisticated, very glamorous, and very sensual. The smoky pink and bronzy tones made Dani's bright blue eyes jump, and made Seth's cock noticeably pulse as he looked into those deep blue orbs and smiled. He couldn't keep himself from smiling even more as he looked at her pretty mouth, her full lips a brilliant gash of red, her lipstick shining to him in greeting, as if they knew they'd be kissing his big cock soon enough.

Seth thought Dani looked perfect. From her gorgeous face to her sexy shoes, he'd never seen her look so stunning. The dress itself was a beautiful combination of sexiness, carefree playfulness, sophistication, and pure fun, just pure fun—all the fun that a young girl deserved on 'Prom Night'.

"Dani, you look fantastic. Really, absolutely fantastic," Seth said once he'd taken a deep breath to calm himself. He could see his sister blushing under his words of praise. It was rare, if ever, that they talked to each other with anything other than sarcasm or derision. He felt good saying what he had, and his sister deserved to hear how beautiful she looked.

"Thank you, Seth," Dani replied. "You look great too. That suit makes you look very grown up and handsome."

"Well," Sonya said, "I've already ordered the food just before I came out, so it should be here shortly. I also want to give each of you something to mark this special occasion." She stepped over and picked up two small packages she'd put in the drawer of a side table. She handed one to Dani and one to Seth.

"What's this all about?" Seth asked, testing the weight of the small box in his hand.

"Just a little graduation present for each of you. Go ahead, open them." With no further coaxing, Sonya watched as her two children opened their gifts.

"Mom, this is great. It's just the one I wanted," Seth said, a big smile on his face as he held up his new watch.

"Yeah, it didn't hurt that you left that ad in the magazine open for me to see every day or two," Sonya replied as she gave her son a quick peck on the cheek.

"Oh, Mom, this is so beautiful." Sonya and Seth looked over as Dani took a shiny piece of jewelry out of a long slender box.

"Here, honey, let me help you with that," Sonya said as she stepped over to Dani who handed her the glittering prize.

Seth couldn't quite figure out what it was until his mother stepped behind Dani and brought her hands forward and around to Dani's front. She lifted her hands up and started fastening something around Dani's neck as Seth slipped his new watch around his wrist. It only took a few seconds of skilful manipulation before Sonya stepped away as Dani turned to face both of them.

"Wow. Dani, that looks so beautiful on you," Seth said, his mouth gaping open as he looked at the wide rhinestone choker circling Dani's slender neck, a couple of inches above the lace collar of her dress. The shiny choker, with probably over a hundred little stones, picked up the small glittering jewels sewn onto Dani's dress perfectly. And with her hair pulled somewhat back from her face, and with those wispy tendrils of hair licking at her neck, Seth thought the choker looked sexy as anything on her. He felt his prick give another pulsing surge as he looked at how incredibly glamorous and cock-hardeningly sexy that simple piece of jewelry looked on his sister.

"He's right, Dani. It looks perfect with your dress. I hope you like it."

"I love it, Mom, I really love it," Dani said, a big smile on her face as her fingers went to her neck to touch the glittering stones.

"I'm so glad. You've both worked hard this year and you deserve it. It's too bad your prom night was cancelled, but we'll do our best to make this a night to remember for both of you. With that in mind, Dani, since

Seth is basically your date for our special 'Prom Night', let's pretend he's just come over and picked you up, and you want to thank him for asking you to the prom by giving him a kiss."

"Oh, okay."

Seth could see that Dani was a bit nervous, which was the last thing he wanted, especially since he knew he'd be taking her virginity later on. He wanted things to go smoothly, and for her to be really into it. Sensing her timidity, Seth stepped over and stood in front of her. He reached down and tenderly put his hands on her shoulders, feeling the cool smoothness of her skin beneath his fingers. He looked into her eyes, seeing the shyness there, the trepidation, but the curiosity of her desire as well. He gave her a quick nod and a knowing smile, letting her know with that little look that everything was all right, that she was safe, they he would never hurt her.

As he lowered his face towards hers, she looked up at him, her eyes slowly closing as his mouth came closer to hers, his soft lips finally pressing against her waiting mouth. Dani thought she almost might faint, she was so overcome with emotion as her brother's mouth pressed against hers. She felt the tip of his tongue teasing at her lips, and she eagerly let her lips slip open, allowing him inside. His soft tongue slithered into her mouth, pressing warmly against her own, causing her to whimper with arousal.

Seth was thrilled. He was worried his sister would be afraid, tentative, and clumsy with their first kiss. But Dani surprised him, her beautiful lips pressed warmly against his as she opened her mouth, letting him explore the hot wet depths of her mouth with his tongue. They kissed

passionately and, when he drew his tongue back, she surprised him by following, giving a soft purr as she let her own tongue be drawn back into his mouth.

Seth remembered his mother saying only moments ago how wonderful Dani's 'pretty little mouth' was and, now, he was finding out first hand. They finally parted, both of them breathless as they stepped back, wondering if they'd overstepped the boundaries of what their mother had in mind for them.

"Well, that was one hot kiss," Sonya said, a naughty smile on her face, "but it's 'Prom Night', guys. That kiss needs to be even more special. Here, Dani, let me show you."

Dani took a step back and Sonya came closer, stepping into Seth's waiting arms. She brought her hands up and circled his neck romantically, pulling his face down to hers. Dani watched as Seth kissed his mother, his lips pressing hotly against hers, both of them with their eyes closed in blissful contentment as they surrendered themselves to the pleasures of a lover's kiss. They kissed for a long time and then Sonya pulled her mouth away from her son's, leaving him gasping.

"Dani, you need to show your date how much you care about making him feel good, make him happy it was you he asked to the prom."

Dani watched as her mother took Seth's hand and placed it on her breast before moving in closer for another hot kiss. She saw Seth squeeze and heft her mother's massive tit as their lips pressed hotly

together, their tongues duelling inside her mother's mouth. She saw her mother's hand slide down the front of Seth's body until she reached his groin. Her mother's fingers closed around the sizable appendage beneath her brother's pants, her groping hand causing him to moan deep in his throat.

"There, now didn't that seem like more fun?" Sonya asked as she quickly stepped back and straightened her dress, leaving her son standing there wondering what kind of lust-filled truck had just run over him. Sonya tapped Dani on the arm. "Go ahead, your turn."

Already excited by their first kiss, Dani was eager for more. She moved back into Seth's arms and did as her mother had done, circling her arms around Seth's neck like she'd seen in so many romantic movies, her face turned up to his.

Seth, his cock already surging with need, didn't hesitate as he lowered his mouth and planted one on his little sister, running his tongue into her willing mouth as he kissed her hard and deep, sensing that was what she wanted. At the same time, he ran his hand up the front of her dress, feeling the delicate lace beneath the palm of his hand as he cupped those sumptuous tits of hers for the first time.

"Fuck, they're big," Seth thought as he gently squeezed the voluminous orbs. "Not as big as Mom's, but pretty goddamn big."

It was then he felt Dani's hand trace down the front of his chest. She was kissing him back feverishly, her tongue enthusiastically duelling with his as he held her close. Her fingers moved lower, right over his

package, and then she paused as she found it, the solid slab of man-muscle beneath his pants. She gave a little gasp as her fingers encountered the thick column of meat, and then they traced inquisitively along the entire length, as if measuring it. He could feel her heart pounding in her chest beneath his mauling hand as he groped her, her fingers now curling around the substantial girth of his prick, molding itself to the hard fleshy cylinder lying just beyond her grasp.

"That's better, Dani," Sonya said. "See, didn't I tell you that would be more fun? Now, to really thank your date for asking you to the prom, you might want to get on your knees and suck him off. That way, you can take a load out of him right now, help him take the edge off so you two can have a nice relaxing evening together. Otherwise, with the way you look in that dress, it'll be like he's walking around with a loaded gun in his pocket."

Eager to do as her mother said, but even more anxious to actually see her brother's cock for the first time, Dani did as her mother suggested, she dropped to her knees in front of Seth, her face mere inches from his bulging groin.

"Because you're also in a hurry to get to the prom, just take his dick out through his fly to suck it, don't take his pants right off. You don't want your parents to come out from watching TV and catch you sucking off your date in the foyer."

Seth smiled at the scenario his mother had described, thinking that would be the perfect way to start a date for the prom. He'd been sure that he'd be taking Lizzy to the prom, but having their own little Prom

Night at home, with his scorchingly hot sister as his date, was even better.

With her heart beating rapidly with excitement, Dani nodded after listening to her mother's instructions. Not hesitating for a second, she reached up to Seth's waistband and quickly found the tab of his zipper. She drew it down, the raspy metallic sound like music to her ears.

"Well, she is an eager one, isn't she, Mom?" Seth said as he glanced over at his mother, smiling like the cat that ate the canary.

"Oh, she's eager all right," Sonya said with a nod as she stepped closer and stood next to Seth. "You'll soon find out how good she is with that sweet mouth of hers too. Like I said, I think we're both going to be using it a lot from now on."

Dani was thrilled as she heard them talk, glad that her brother seemed pleased by her enthusiasm, and happy that her mother seemed to promise that there'd be many more of these illicitly exciting encounters to come. She reached her hand up and slid her slender fingers into the opening of Seth's fly, feeling the stiff bulge beneath his underwear. With his help, she pulled down on the waistband of his underwear until she saw the thick root of his prick. Reaching up with her other hand, she wrapped her fingers around it and drew the swollen rod out through his fly. As the engorged head came free, it unfurled and throttled in her direction, spewing drops of precum onto Dani's upturned face.

"Holy fuck!" Dani thought, seeing her brother's enormous prick in real life for the first time. From all those times she'd spied on him, she knew his cock was huge, but that hadn't been enough to prepare her for seeing it throbbing in all its glory, mere inches from her face. She'd been happy with Jimmy's cock, but it looked like a toy cap-gun compared to this cannon. It was so big, and so hard, and so fucking powerful-looking that it took Dani's breath away. The thick veiny shaft was pulsing, pumping hot teenage blood to the enflamed knob. The broad flared head was engorged and throbbing, the crimson crown calling out for something hot and wet to sink into. She could see why her mother had gone crazy over it. Dani was feeling the same after mere seconds of looking at the gorgeous cunt-splitter. Her pussy was creaming like mad, her panties soaked with her flowing juices.

"There it is, sweetheart," Sonya said as she stepped closer and snuggled up to Seth, her arm going around his back as his circled over her shoulder and pulled her close to his side. "That's the cock that's going to take your virginity, that's going to make you scream with pleasure again and again. Once you've had that cock inside you, you'll never be the same but, trust me, you'll never want to stop."

Dani felt dizzy as she listened to her mother's words and looked at her brother's cock. Her mouth was salivating like crazy, and she was afraid she was going to start drooling all over herself.

"Here, sweetheart," her mother said as Dani watched the older woman reach down and wrap her hand around the base of Seth's cock. She pointed the drooling tip right at Dani's face. "Wrap your lips around your brother's beautiful cock and suck it. Suck it until he gives you a nice creamy reward."

Flushed with excitement, Dani leaned forward and opened her mouth wide. Seeing her jaw drop, her mother moved her hand and plugged the head of Seth's cock between her parted lips. It was sinfully hot as the pebbly glans pressed against her soft lips. Dani instinctively feathered her tongue forward, delving it right into the centre of the wet tip. Her taste buds came alive as the slimy cock-sap gathered on her tongue.

"Mmm," she moaned as her eyes closed and she pressed her lips forward, wanting more.

"That's it, that's a good girl," Sonya said as she gave Seth a lascivious wink. They both watched as Dani leaned forward, her lips stretching out wide to accommodate her brother's treacherous girth. Her lips finally slipped fully over the broad mushroom head, trapping it inside her mouth. Dani instantly pushed a big wad of saliva to the front of her mouth, bathing the massive head with a warm coating of spit.

"Oh fuck, yeah," Seth groaned as his sister's tongue rolled deliciously over his enflamed cockhead. His mother had been right — Dani's mouth was something special all right. He could tell already, and she'd barely started. It was only a second or two later that he felt her move forward once more, taking more of his turgid prick into her mouth.

"That's it, suck it, suck it like a good little sister," Sonya encouraged as she snuggled closer to Seth. With her hand still wrapped around the root of her son's cock, she started to slowly pump it back and forth, jacking it off into her daughter's mouth as Dani sucked.

Seth couldn't believe what was happening. This was better than any dream he'd ever had. Both his mother and sister were dressed to the nines, looking gorgeous in their new dresses and, now, his mother was jerking his cock as his sister sucked it. "Fucking unbelievable," he thought. Wondering if he'd ever have a chance like this again, Seth reached over with his free hand and brought it up along his mother's flat stomach, his cupped hand finally reaching the underside of one enormous tit.

"Mmm, that feels nice, sweetheart," Sonya whispered as she looked up at him for a second, her blue eyes sparking with excitement. "Why don't you reach right inside the top of my dress and take them out. They're yours to play with as much as you want."

"Oh fuck...yes!" Seth thought as he didn't waste a second. He slid his fingers right down inside his mother's tight top and even snigger bra. It took an effort, but he pulled one massive tit up and out of the confining bra cup. He let it go, watching as it settled nicely on the outside of her dress. He did the same with its partner, taking out her other breast until it sat next to the first one, her spectacular tits spreading out over the full breadth of her chest.

"Jesus, they're massive!" Seth said to himself as he reached over and filled his hand with the jutting orbs, letting his fingers explore the delightful wonders of her enormous tits. Her skin was soft as rose petals, while her nipples quickly became hard as bullets as he rolled them between his thumb and forefinger.

"Mmm, that's good," Sonya said as she gave him a naughty wink and rested her head on his shoulder, her sensuous perfume firing his flaming libido even more. She tipped her head forward and looked down at her daughter, the girl's pursed lips moving lewdly up and down her brother's thrusting erection. "That's it, Dani, keep sucking, see how much you can take while I jack him off right into your mouth."

Seth's attention was drawn back to his sister. He watched as she kept bobbing back and forth, taking more of his cock into her avidly-sucking mouth each time. He could see gobs of spit dangling off the underside of his throbbing prick as she worked it like a pro. Her cheeks caved in to envelop his cock in a hot buttery sheath, at the same time as her tongue rolled teasingly all around his veiny shaft and bloated cockhead.

"That's my girl, keep sucking, keep sucking your brother with that slutty mouth of yours."

Seth got even more excited when his mother kept pumping his surging prick, the fingers of her circling hand bumping into Dani's sucking lips on nearly every stroke.

Dani was just as turned on as her brother when her mother talked about her like that. She was loving sucking her brother's cock, loved it more than anything in her whole life. She felt like she could do this forever, her lips wrapped around his big hard cock, slurping up a river of precum as it kept oozing into her mouth. Her pussy was on fire, and she was tempted to shove her hand under her dress and get herself off, but she knew her mother was directing this little scenario, and she didn't want to disappoint her in any way. Redoubling her efforts, Dani

drove her head forward once more, using a massive wad of spit to lubricate the way.

"Oh fuck, Mom, she's incredible," Seth hissed. "I don't think I can take too much more."

"That's fine, sweetheart," Sonya said as she turned her head and spoke to him quietly. "Just let me know when you're about to come."

Seth nodded as he dropped his eyes to Dani's bobbing head, her blond hair flailing sensually back and forth as she sucked like a wild thing. He squeezed his mother's huge tits, feeling the mounds of soft flesh ooze out between his fingers, her hard nipples almost looking up at him, as if begging to be sucked. That was it for Seth. Having finally gotten the chance to feel and caress those enormous tits he'd jerked off to for all those years was all it took. He felt those telltale contractions start in his midsection as semen started to speed up the shaft of his cock.

"Okay, Mom," he gasped out in a hurried whisper. "I'm gonna come...I'm gonna come."

Dani felt her brother's cock seem to puff up even more as her mother's hand kept pumping back and forth, precum continuing to sluice across her tongue and setting her taste buds on fire.

"That's it, Dani. Keep sucking...keep sucking..." Sonya said, feeling the pulsing start beneath her stroking hand. At the last instant, she pulled Seth's cock out of Dani's sucking mouth, leaving the girl gasping, her

lips pursed forward like a fish out of water. Sonya pointed the tip of Seth's raging prick right at Dani's face, just as the first thick rope of cum jettisoned forth.

"Aaah!" Dani gasped as the streaking ribbon of semen caught her full on the face. A second volley rifled forth, her mother directing that one downwards, spraying a thick white stream of spunk all over the front of her dress. This was followed by a third, and then a fourth massive shot, her mother alternating between pasting Dani's face and the front of her chest with a river of white.

Seth could barely stand, his mother's stroking hand working magically as it pumped out a torrent of cum all over his sister. Seth totally unloaded, flooding his sister with more thick white semen than he thought possible. He'd never been so aroused, so fucking excited in his entire life as he was right now. He hadn't expected his mother to pull his spewing prick out of his sister's mouth, but watching his load spray all over her had Seth's balls churning out even more. He kept coming, and his mother kept pumping, wad after wad and rope after rope of viscous white spunk pelting his sister's pretty face and thrusting chest. Seth was shaking and his cock kept spitting, dousing her with a massive load of jizz. As the tingling sensations of his intense climax finally started to dwindle, he glanced down and saw that his sister's face and the front of her dress were both a total mess, her face and the top part of her dress almost totally obliterated beneath a layer of cum.

Dani hadn't expected that either, but when that first blast hit her full on the face, her brother's warm white cum hitting her skin, she felt herself come. Her pussy had started twitching like crazy and she could barely keep still as she gushed into her panties. And to her shock, her mother

had started spraying cum all over her new dress, wads and strands of thick white seed raining down on her pretty dress. It seemed to go on forever, but Dani loved it as those ribbons and gobs of sizzling spunk continued to pelt her face and chest, coating her with a glistening layer of her brother's gooey semen. She'd been surprised, but she found it wickedly exciting at the same time, as if this was proof of how sexy and beautiful her dress was, and how much her big brother liked seeing her in it.

"Dani, you look so beautiful with your brother's cum all over you like that," Sonya said as she looked down at her daughter, her hand now moving slowly over the length of her son's spent cock, flicking the final drops of spunk onto the front of Dani's dress. Her son had shot a huge load, with gobs of the stuff dangling off Dani's pretty face lewdly, thick strands swaying back and forth as they hung off her chin. The front of her dress was almost covered with a coating of glistening white cum, shimmery ribbons and wads of pearly seed clinging nastily to the lacy blue fabric.

"But Mom," Dani said as she looked down at herself, "what about...what about my dress?"

"Don't worry about your dress, honey," Sonya said dismissively. "We can have it dry cleaned. That's what prom dresses are for. Trust me, dry cleaners are used to seeing dresses that look like that the day after prom."

Sonya thought back on the little black minidress that she'd worn on her prom night. Yes, it had been a real mess the next day. Of course, the eight guys from the football team she'd been with that night, plus the

coach and the school principal, had something to do with that, not to mention the two loads her father had pumped out all over her when she got home. Yes, she was sure the dry cleaner must have gone through a gallon of those cleaning chemicals to get all the cum stains out of that dress.

"Besides," Sonya continued, "you look so pretty and sexy like that, with all of that cum all over your face and dress. It's as if that's what you were meant to do, to be your big brother's personal cocksucker. What do you think, sweetie? Do you think that's what you'd like to be from now on?"

Dani felt herself flush, but she couldn't deny what she was feeling, and that her mother was absolutely right. Dani had never felt more excited, more alive, than when she had her brother's cock in her mouth. She felt complete, as if she'd found something she'd been searching for her whole life, and the results of what she'd longed for all these years was right there for them all to see, a glistening white coating of her brother's thick creamy cum all over her. "Yes," Dani admitted, lowering her head shyly.

"What's that, sweetheart?" Sonya asked, pretending she hadn't heard Dani clearly. "What is it you'd like to be?"

"My...my brother's personal cocksucker," Dani replied as she dropped her eyes, her bit of movement causing a dangling strand of semen to drop off her chin and land on the spot where her right nipple was thrusting out against the front of her tight dress.

"Do you think you can help your sister with that? Help her be your personal cocksucker?" Sonya asked Seth as she stepped back and, with difficulty, stuffed her boobs back into her bra and dress.

"Definitely," Seth replied as he did likewise, tucking his semi-hard dick into his underwear and zipping up. "Dani can suck my cock any time she wants, anywhere she wants. I'll make sure I fill that belly of hers with cum every day."

Dani felt herself blush again, this time more from excitement than from embarrassment. Her mind was racing, wondering what her life was going to be like from now on. She thought about what Seth had just said, that he'd feed her his cum every day. She couldn't think of anything she wanted more. Her pussy was dripping like crazy just thinking about it, and wondering what they had in store for her next. She couldn't wait...

Chapter 8

The sound of the doorbell caused them all to turn in that direction. "Who's that?" Seth asked. Sonya waved her hand towards the door as she looked at the clock on the wall. "That'll be the Chinese food I ordered. I already paid for it online so the guy's just dropping it off. With all the social distancing stuff, they just drop it on the porch." She turned to her daughter, who was still on her knees, her face and chest shimmering with cum. "Dani, why don't you go and get it?"

"Me?" Dani asked, shocked that her mother would ask her to do such a thing when she was in such a state.

"Yes. If you answer the door with all that cum on your face, it'll certainly give that delivery guy quite a story to tell."

"Do it, Dani," Seth encouraged. "Step out of your comfort zone for a few seconds. Think how nasty and exciting it will be for the guy to see you like that. I guarantee you he'll be jacking off thinking about you the second he gets home, or geez, when I'm looking at you with all that cum all over you, I bet that guy might not even last that long."

"Really, you think so?" Dani asked, eyebrows arching up.

"Oh fuck, yeah," Seth replied with a shake of his head. "Looking at you like that, dripping with jizz, he'll be hard as a rock in seconds."

"Go on, sweetheart, go and do it," Sonya coaxed, "before the food gets cold."

Dani couldn't deny what Seth had said, that it was something so unlike her, but she did find the thought of it wickedly exciting, especially when Seth talked about the guy jerking off thinking about her. The thought of that excited her even more. Making her decision, she rose to her feet and went to the front door, feeling the dangling strands of cum sway back and forth lewdly as they hung off her chin. She peered through the sidelight and saw the delivery guy standing about ten feet away on the walkway, looking down at his phone. She glanced down, spotting two paper bags stacked side by side on the porch. It was obvious he was waiting for somebody to come out to take them in before driving away. Dani glanced both ways down the street, making sure no one else was around. Bucking up her courage, she opened the door and stepped outside.

"Your food's just right—" the guy started to say as he looked up from his phone and pointed towards the two bags. He stopped in midsentence, his eyes opening wide, his hand pointing forward, as he took in the sight of the pretty young girl in the fancy dress. It wasn't the dress that had turned him into a living statue—although the stacked young thing looked absolutely gorgeous in the tight-fitting dress—but it was the glistening wads and strands of cum hanging off her face and pasted all over her dress that caught his eye and rendered him immobile. He couldn't take his eyes off her as she stepped out onto the porch, the sun hitting those silvery gobs of jizz and making them shine depravedly.

"Thank you, thank you so much," Dani said as she took a couple of steps forward and grabbed the two bags. With a final smile in his direction, she turned on her sky-high heels and strode back into the house, closing the door behind her.

The guy stood there stunned, wondering if he could really believe his eyes. His stiffening cock told him that it was true, that the girl in the sexy blue dress really did have cum all over her. "And fuck, there was so much of it," he thought to himself. "What the fuck were they doing, filming a bukkake movie in there?" The thought of a movie made the guy realize he'd been standing there with his phone in his hand. He looked down at it, and realized he'd been shocked to the point that he was incapable of any rational thought. He should have thought to point his phone in her direction and take at least a picture, if not a video. Fuck, what amazing whacking material that would have been. But he'd stood there stupefied, unable to move, until it was too late. But he knew he'd always have that mental picture of her, of the pretty blond girl with cum all over her face and chest, the mental picture that was already causing his cock to throb like crazy. Nobody could take that memory away from him. He shook himself out of his trancelike state and looked down at his phone, sad that he'd missed his chance.

"Dani, come over here," Seth said as Dani put the two bags down on the kitchen island. Seth and her mother were standing behind window sheers looking out, safely hidden from view from the outside, but capable of seeing everything that had happened. Dani stepped over until she stood beside them and looked out. The young guy was still standing where he'd been the whole time, a dazed look on his face. She saw him shake his head, almost like he was slapping himself in the face. He then looked down at his phone before reaching down to grope

himself. With a quick glance up and down the street, he rushed to his car parked in their driveway.

"Look at that, just like I said, he's not even waiting until he gets home," Seth said as they all turned their eyes to the car. The guy had barely been in the car ten seconds before they started to see his shoulder flexing rhythmically. They watched him tip his head back and close his eyes, his mind bringing up the image of that cum-covered beauty he'd seen just moments ago. His shoulder started flexing more vigorously, and then, within just a minute or so, they saw pearly gobs of whiteness splat against the inside of the windshield, gob after gob of silvery paste hitting the glass and slithering nastily downwards.

"Oh my God, he really just came thinking about me?" Dani asked, her eyes opening wide at the lewd sight taking place right before her.

"Fuck, yeah," Seth said. "You look fucking hot like that, Dani. I'd probably be doing the same if I was that guy. And I'm sure he's going to get off another five or six times tonight thinking about you too."

"Wow," Dani said softly as they watched the guy start his car and drive away, not even waiting to wipe the milky wads of cum off his windshield.

"C'mon, seeing that guy spray that window made me hungry," Sonya said. "Let's eat. Dani, just leave that cum on your face for now. You look so pretty like that."

Sonya had ordered all of their favorites and the three of them loaded up their plates. Dani got drinks for all of them, including another Red Bull for Seth. When they went to take their usual spots at the dining room table, Sonya stopped them. She always sat at the end of the rectangular table, with Seth to her left and Dani to her right. "Seth, sit beside your sister today'," Sonya said, "just like you would if you went to a restaurant on prom night with a group of your friends."

With a shrug, Seth took his seat next to Dani. The three of them dug in, laughing and talking as they enjoyed the Chinese food. When they were done and Dani had cleared the plates away, Seth tossed a bunch of fortune cookies from one of the bags onto the table. "You pick first, Dani."

Dani hovered her hand over a couple of different ones before finally making her choice. "We all open them at the same time, right?"

"That's right. Mom, you're next."

"I've had my eye on this one right here," Sonya said, spearing her hand forward without hesitation and grabbing one from the pile.

"Okay, let's see...let's see," Seth said as he held his fingertips over the few that were left. "Which one's lucky...which one's lucky? This one right here." Having made his decision, he snatched one up and held it close. "Now, everybody open them and we'll read them in the same order."

They all peeled off the wrappers and broke the cookies open, revealing the fortune inside.

"Dani, you're first."

"Okay. It says...oh, I think I've got yours, Seth. It says, 'You're ugly and your mother dresses you funny.'"

"Very funny. That's only about the one millionth time I've heard that joke. What does it really say?"

"All right, you big poop," Dani said before turning back to the tiny slip of paper in her hand. "It says, 'You will bring others happiness'."

"Well, based on what's been happening so far today, I'd say that's pretty accurate," Sonya said as they all chuckled.

"Okay, Mom, what about yours?" Dani asked.

"Let's see, let's see...mine says, 'Now is the time to pursue that new love interest'." Sonya couldn't help but look Seth in the eye when she finished reading. Dani couldn't help notice the way the two of them looked at each other.

"That one seems pretty bang on too, wouldn't you say?" Seth said, a knowing smile on his face.

"I'd have to agree with that," Sonya said, giving Seth a lascivious wink.

"Your turn now, Seth," Dani said as she turned towards her brother.

"All right, hopefully it's something good." Seth peered at the piece of paper in his hand. "If you look in the right places, you can find good offerings'." Seth turned and let his eyes roam over his sister first, and then his mother, blatantly taking in every lush curve and enticing valley. "I must be looking in the right places, because there seems to be plenty of good offerings right here at this table."

Dani blushed while Sonya gave her son a coy smile. "Seth, why don't you slide your hand underneath your sister's dress and see what kind of offering she has under there for you?" Seth's fortune had given Sonya something to use to put the next part of her plan into effect. There'd been a specific reason she'd ask Seth to sit next to his sister, and having him finger her was exactly what Sonya had had in mind when she'd asked him to do that. She wanted to watch the girl squirm while her brother used his fingers to get her off right there at the table, with Sonya getting a front row view.

"That's an excellent idea," Seth replied as he turned slightly in his seat and placed the palm of his right hand just above Dani's right knee.

"Pull your chair back a little bit, Dani, so we can all see," Sonya instructed as she pulled her own chair closer to the corner of the table on the other side of her daughter.

Dani did as she was told, pushing her chair back a good foot or so from the table. Feeling somewhat anxious, she reached down and gripped the sides of her seat as Seth turned even more to face her, his hand now sliding slowly up her thigh.

"Let your legs open for your prom date, Dani," Sonya said in a soft lulling tone. "Let him know you're his to do with as he pleases."

Mesmerized by her mother's warm, coaxing voice, Dani sat back in her chair and let her legs drift apart, the space between her full muscular thighs getting wider. Seth took this for what it was, a willing invitation, and slid his hand higher, his fingers starting to disappear beneath the lacy hem of his sister's fancy dress.

"That's it. That's my good girl," Sonya said, her voice a warm purr as she reached down as well, resting her hand on the inside of Dani's other thigh. "Here, let me help you." With that, Sonya gently pushed on the inside of Dani's leg, forcing her thighs to spread even further apart. "There, that wasn't so hard, was it? Just a little more, sweetheart. Open yourself right up for him."

With Seth's hand pulling gently on one thigh, and her mother's hand on the other, they soon had Dani's legs splayed wide open, the gap between her widening thighs causing her short dress to rise up higher on her hips, the crotch of her navy satin panties now visible, the front panel fitting snugly over the enticing pout of her little peach.

"Very nice, very pretty," Seth said as he looked between his sister's legs, his eyes taking in the sodden crotch of her panties, the sexy little piece of satin soaked and stained with her juices. He could smell her now, her scent like a warm musky rose. Perfect.

Dani felt like she was in a trance, unable to move as both her mother and brother sat on either side of her and stroked her thighs. They were drawing their fingertips teasingly over her sensitive skin, making her shiver with excitement as their hands moved higher and higher, getting closer and closer to her steaming pussy. She could feel her tits rising and falling with each ragged, excited breath she took.

"Seth, why don't you slip your fingers inside our little honey bee's panties and see how hot her hive is?" Sonya said as she looked past her daughter's heaving chest to her son.

"I just might have to do that," Seth replied as he slid his fingers higher, the tips toying with the lacy leg opening of Dani's panties. Just as he was at that point, Sonya pulled a touch harder on the inside of Dani's other leg, causing her splayed loins to open up an inch or two more.

"Yes, that's the way," Seth said as he slid his fingers beneath the elastic edge of her panties, his fingertips moving teasingly over her slippery groove. She was hot as a pistol, and absolutely soaking wet. He slowly ran his fingertips up and down along her gooey trench, finally brushing against the pronounced tip of her fiery clit.

"AAAHH!" Dani gasped as she took a quick intake of breath. Seth continued to work his fingers all around her dripping mound, probing,

rubbing, and teasing. His fingers were driving her absolutely crazy as she felt herself getting hotter by the second. With the back of his hand brushing against the sodden gusset of her panties, he slid a fingertip just inside the slick petals of her peach and spun it slowly in a teasing circle. At the same time, he rolled his thumb over the stiff button of her sensitive clit, sending more tingling sensations right to her lust-addled brain. She let out a low moan as she gripped the seat of her chair tightly, his toying fingers setting her whole body on fire.

"Here, it's time we cleaned some of that precious cum off your face, sweetheart," Dani heard her mother say. In a daze, she looked over as her mother leaned in close, and then she felt her mother's tongue pressing against her face, the soft sponginess feeling luxurious as her mother moved her tongue over Dani's sticky skin. After a few cum-gathering licks, her mother brought her mouth to Dani's. Dani eagerly opened her lips as her mother pressed her mouth to hers, the older woman's tongue entering her mouth and depositing a load of semen onto Dani's waiting tongue. Dani tasted her brother's jizz once more, the unique flavor making her taste buds tingle. Her mother moved back to her face and licked up some more of that creamy seed, bringing her mouth back to Dani's and feeding her like a mother bird feeds its baby. Her mother then surprised her by leaning down and running her tongue over the front of Dani's dress, gathering more gobs of cum and sucking out some that had already started to soak into the lacy fabric. With her mouth full once more, her mother brought her mouth to hers and fed her more of her brother's succulent jizz. It was so thick and brilliantly white that Dani knew it had to be chock full of sperm, and it tasted delicious. Between Seth fingering her and overwhelmed by the lewd act of her mother feeding her Seth's cum off her face and dress, Dani exploded, a nerve-wracking climax making her whole body shake like she was having a fit.

"That a girl, Dani," Seth said as his fingers kept toying with her gushing twat. "Let 'er buck."

Dani needed no encouragement, her body thrashing about restlessly as she gripped the sides of her seat in a death grip. With her legs spread widely apart, she kept coming, exquisite paroxysms of pleasure crashing through her curvy young body in wave after blissful wave. As Dani gasped and trembled, through hooded eyes she saw her mother and Seth share a smile as Seth kept working on her, his hand still inside her panties as his thumb continued to roll teasingly over her throbbing clit, his fingers busy at the entrance of her gushing snatch. She felt one fingertip press firmly on the folds of flesh just inside on the roof of her vagina, finding that trigger spot inside her.

"OH FUCKKKK..." Dani hissed as she climaxed for a second time, this cunt-wrenching release following right on the heels of the last one.

Seth loved seeing his sister come, especially while he was fingering her. The muscles on the insides of her full thighs were quivering like plucked guitar strings, evidence of her powerful orgasm. He loved both his mother's and his sister's thighs. They were nice and full, and strong. For him that was a sign that those muscles they had would go right up into their juicy cunts, making them able to really do a number on a cock. He'd already felt that with his mother's talented pussy, and he was sure his sister would be able to grip his cock and work it just as well. He couldn't wait to get his cock deep inside her, and feel those powerful soccer-playing thighs wrapped around his back.

"Well, I think she really liked that," Sonya commented when Dani started to come down from her orgasmic high.

"She's a gusher, Mom, just like you," Seth said as he drew his fingers from beneath his sister's panties and held his glistening hand up.

"Let her lick them off," Sonya said as she nodded towards Dani, who continued to sit there, her legs spread widely apart, her big tits heaving as she fought to recover from her climax.

With a lewd smile on his face, Seth brought his hand to Dani's mouth. His little sister eagerly parted her lips, letting him slip his fingers inside. She closed her lips around his gooey digits, her tongue swirling over the surface as she gathered up her own sticky juices.

"Jesus, you're right, Mom, her mouth is fantastic," Seth said as he slid his fingers back and forth between Dani's pouty lips, remembering how wonderful it had felt to have his cock between those soft warm pillows just a short time ago.

"Lean forward, sweetie," Sonya said as she put a hand on Dani's shoulder. Dani instantly complied, her lips and tongue still working to clean Seth's glistening hand. She felt her mother slide the zipper on the back of her dress all the way down to her lower back, and then the older woman's hands reached up and started to pull the top part of her dress forward over her shoulders. Her mother pushed the other side off her other shoulder, and then drew the tight-fitting lacy bodice portion of the dress down, exposing Dani's massive breasts, gorgeously encased in a navy blue lace and satin strapless bra.

"Oh man, they're beautiful," Seth mumbled under his breath as his eyes locked in on his sister's big tits, the heavily structured bra pushing them together and up magnificently.

"Why don't you play with those while I have a little fun with her?" Sonya said as she shifted her chair closer to Dani.

"That sounds perfect," Seth replied as he drew his hand out of Dani's sucking mouth. He pushed his sister back slightly, until she was sitting against the back of the chair once more, the top part of her dress sitting in a puddle around her trim waist. Seth reached forward and ran his hands over her straining bra, loving the feel of those huge breasts beneath his fingertips.

While Seth was busy mauling Dani's breasts, Sonya slid her fingers up Dani's left thigh, just as Seth had done on her right thigh. With her fingers rubbing in teasingly slow circles over Dani's warm flesh, Sonya kept moving her hand higher and higher, until she slid her fingertips beneath the other leg opening of Dani's panties, her painted nails scratching teasingly over her daughter's slippery mound.

"Aaaahhh..." Dani gasped. She could only watch, totally enthralled and spellbound, as her mother and brother worked on her with their hands, making her squirm and gasp in delight. Seth had now undone the clasp at the front of her bra, totally exposing her breasts. She'd watched his eyes open wide as they settled on her chest, spreading out wondrously once they were freed from the confining structure. He was running his hands all over the voluminous mounds, making her wince and

whimper with excitement when he rolled her stiffening nipples between his thumb and forefinger.

Down below, her mother's mature hands had her pleasure level rising once more. While Seth's fingers had done a wonderful job of pleasuring her, her mother's skilful experienced touch was at another level entirely. Being a woman, she knew exactly where, and with how much pressure, to touch Dani to bring her the utmost pleasure. She now moved her teasing fingers from Dani's greasy slot up to her fiery clit, her fingertips circling provocatively all around the sensitive nodule.

Dani looked down at what they were doing to her through glassy, lust-filled eyes. Her brother was leaning forward now, dragging his soft warm tongue across the surface of her breasts until he latched on to one rubbery nipple, rolling his tongue all around the sensitive bud before nipping at it playfully. Between her mother's teasing fingers and Seth's soft warm mouth, Dani couldn't take it anymore, crashing right over the edge into blissful euphoria.

"OH MY GODDDD..." she gasped out as another jangling climax started at the base of her clit and blossomed throughout her body to every tingling nerve ending. As she shook and spasmed, the two of them were relentless, Seth sucking on her nipples while her mother strummed her clit mercilessly.

"FUCK YES...FUCK YES..." Dani gasped out, her fingers white as she gripped hard on the sides of her seat. She'd never come this hard in her life, and it was beautiful. She could feel those delicious spasms all the way down to her pussy, and she knew she was spraying her mother's hand just like she'd done to Seth. And still, they kept at her, licking,

sucking, and stroking as she twitched and convulsed beneath their skilful manipulations. They kept working on her, making her twitch and shake until she couldn't stand it anymore, her body almost numb with pleasure. Finally, she collapsed back in her chair, her chest heaving up and down as she fought for air, feeling like she might pass out, but feeling blissfully content.

"Jesus, Mom, you were right. She's fucking hot all right. I'm hard as a rock," Seth said as he sat back and wiped his mouth, looking over at his mother hungrily.

"Fuck yes," Sonya replied, her voice husky as she withdrew her gooey hand from inside Dani's soaked panties. She stood up and stepped over to the side of the table where the two of them were sitting and sat on the edge, right in front of Seth. She put her hands on the edge of the table and shifted back slightly before leaning back on straightened arms. She slowly started to draw her legs up and apart, the hem of her short dress getting higher and higher. "Stand up, sweetheart. I need you to wishbone Mommy right here. I loved it when you did that before."

Seth needed no encouragement and sprang out of his chair, whipping off his suit jacket and undoing his pants in record time. He kicked off his pants and underwear within seconds, standing before his mother in his shoes and socks, complete with shirt and tie. But he didn't care, and neither did his mother, both of them surging with arousal, as evidenced by Seth's stallion-like cock thrusting skyward from between his shirttails.

While Dani had no idea what "wishboning" was, Seth certainly knew, and it didn't take Dani long to figure it out as Seth reached down and wrapped his hands around her mother's trim ankles, lifting her feet high up and spreading her legs far out to each side, her stiletto heels pointing up to the corners of the ceiling. Dani gasped as she looked at the extreme V-shape Seth had put her mother in, but she knew it would be a perfect position for a good, hard fuck.

Seth, flushed with arousal and with his cock hard enough to cut glass, looked down between his mother's widely spread legs, the tight hem of her dress now pushed up into her lap. He'd been right. She hadn't even been wearing a thong. Her shaven pussy shone up at him as he held her legs far apart, her whole mound awash with warm cunt-honey.

"But this time, I want you to fuck me in the ass," Sonya said as she tilted her hips up even more, letting Seth know exactly where she wanted that huge cock of his.

"Mom, are you sure, do you think you can take—"

"Yes, baby, I want to try. I even lubed up back there before I got dressed."

Just the thought of that got Seth even hotter. Tipping his mother back slightly, he pushed her legs out even wider, allowing her little pink rosebud to come into view. He could see the tight starfish and the area all around it glistening, and he knew this was the lubrication she'd been talking about, not just her pussy-juice leaking down from above. And

that hole, that beautiful pink hole looked so enticing, so nasty, that Seth couldn't control himself. He'd always dreamt of burying his cock in his mother's round curvy ass, and now he was getting the chance. "Oh fuck, so beautiful."

Dani had a ringside seat as she watched Seth angle his hips downward, nestling the broad flared head of his cock between her mother's bum-cheeks, the seeping tip kissing her tight pink hole. Seth wriggled his hips slightly, forcing the tip harder against the little pucker, and then he started to flex forward.

"Oh my God..." Dani could only gasp as she watched the enormous crown start to move inside her mother. The ring was stretching out around the big mushroom head as Seth forced himself inside. Dani would have sworn her mother was going to tear, but that tight circle of flesh kept expanding, sinfully accepting the engorged monster inside.

"Of fuck, yesssss..." Dani heard her mother his gasp as the enflamed knob popped fully past the constricting ring, the tightly-stretched sphincter locking down on the veiny shaft to trap the lemon-sized cockhead inside. Seth started to slowly flex back and forth, working his way in, inch by inch. Dani could see his cock glistening lewdly every time he drew back, those shiny juices making the whole thing look even hotter.

"Stop there for a second," Sonya said once Seth had worked about seven inches inside her tight chute. She liked getting fucked in the ass, but this was as deep as she'd ever taken before, and she knew her son still had about four inches left to go. She already felt full to the point of bursting, her anal ring stretched to the point of tearing, but she had no

intention of stopping. She knew her body, and she knew once she every hard thick inch of that beautiful cock inside her, she would love it.

"Are you okay, Mom?" Seth asked, the concern obvious in his voice.

"Oh, I'm fine, baby. You're really filling me up, aren't you? But it feels good, really good. Let me just get used to it for a few seconds, and then I want to feel every inch of that beautiful cock inside me."

Seth nodded, relieved he wasn't going to have to stop. His mother's ass just felt so fucking good, he couldn't believe it, and he definitely wanted more. "Okay, Mom, just let me know when you're ready. Your ass is so hot and tight, I can stay hard like this all night long." Seth accompanied his statement by teasingly rolling his hips, stirring his mother's insides like a batch of wet cement.

"Ohnnn..." Sonya groaned, her head tipping back as she relinquished herself to the tingling sensations deep inside her rectum. "Oh fuck, it feels so good. So big...so fucking big..." She rotated her hips back and forth, the hot walls of her chute gripping Seth's turgid prick possessively. "Okay, baby, I'm ready now. Give Mommy the rest of it. Don't stop until you've got every inch buried inside me."

Seth set himself, his feet spaced a bit wider apart. He leaned forward slightly, pushing his mother's legs up and back even further, almost folding her in two. "Here you go, Mom, every inch is going up into those steaming guts of yours."

Dani watched as Seth levered himself backwards for a second and flexed forward. Inch after inch of his tree-trunk-like shaft disappeared into her mother's tightly-stretched hole. Dani wouldn't have believed it if she hadn't seen it with her own eyes, but Seth finally made it all the way, his shaven groin pressed up tight to his mother's flushed mound.

"OH FUCK...YES...I'M COMING...I'M COMING..." Sonya wailed as her son's cock bottomed out inside her clutching hole, filling her up like she'd never been filled before. She started thrashing about like a wildcat, her massive tits wobbling enticingly inside her dress as orgasmic tremors shot through her body. Seth kept her legs pinned back almost to her shoulders, but that didn't stop her from twitching and shaking as those luxurious sensations coursed through her. Her head was flipping from side to side like a ragdoll with the intensity of her orgasm, her pussy gushing out creamy nectar all over the front of Seth's shirt.

"Wow!" Dani thought as she watched the lurid scenario going on right before her eyes. Her mother was coming like she'd been zapped with a current of electricity, and Seth was holding on with his cock impaled as far into her as possible, looking like he was enjoying the ride. Her mother was coming so hard that her thrashing movements had the table almost bouncing. Finally, her mother's jolting tremors dwindled and she lay back on the table, those big tits heaving as she drew in deep breaths of cool air.

"Oh baby," Sonya said in a whispery voice, "your cock is so fucking big, and it feels so good inside me like that, so fucking good. Fuck me now, sweetheart, fuck me."

Dani saw Seth give his head a shake and roll his shoulders, setting himself for what he knew was coming. "You wanted to get fucked in the ass, Mom, well, get ready for it, 'cause I'm gonna fuck you good and hard."

He drew back until just the bloated crimson crown was inside that tight little ring, and then drove his hips forward, pounding every last inch into her.

"YESSSSSS..." Dani heard her mother let out a loud hiss as Seth started to mercilessly fuck her ass, the table rocking and shifting as he drove his thrusting erection into her gripping ass time and time again.

"OH FUCK...NOT AGAIN!" her mother screamed as she came for a second time, her hands reaching down to grip the edge of the table as Seth hammered away, sending his massive cockhead into the depths of her steaming bowels. Dani could see that he was relentless, driving that hard fleshy stake into her gripping rectum like a madman. She could see that he wasn't going to stop until he'd given that ass everything he had, before pouring himself into her.

"OH MY GOD..." her mother screamed. "SO BIG...SO FUCKING BIG...YESSSSSS..." Her mother came again, spasming and convulsing on her back as Seth continued to bury himself in that tight pink hole with every jackhammering thrust.

Seth couldn't believe how hot and tight his mother's ass was, and how much she was loving him pounding it into her. He called on all his willpower to try and suppress his orgasm, but when she came for a

third time and used the muscles inside her hot tight chute to grip down on him, he couldn't take any more. As he felt the first rush of semen speed up the shaft of his cock, he drew back once more, and then slammed it into her with everything he had, sending his engorged cockhead as far into her steaming guts as he could.

"FUCK MOM...I'M GONNA COME!" he groaned out loud as he gripped her ankles tightly, holding on as a powerful climax overwhelmed him.

"YESSSSS..." Sonya wailed, another orgasm emanating from deep inside her clutching rectum and zinging to every pulsing nerve ending.

Seth could feel himself shooting, pasting his mother's insides with a huge load. Shot after shot spewed into her as he kept himself pressed against her curvy backside, the hot flesh of her mound pressed against his midsection. He couldn't count the number of times his cock twitched and spat, but he knew he'd never forget this one, the first time he'd fucked someone in the ass. And the most perfect thing about it — it was his mother. After coming a few times already, he couldn't believe the size of the load he was flooding her bowels with, but his cock kept bucking and spitting until he had nothing left.

"Fuck Mom," he said as they started to both come down from their mutual orgasms, "that was incredible. Your ass is so hot and tight, I love it."

"I loved it too, baby," Sonya said as she reached up, put her hands around her son's neck, and pulled him down for a kiss.

Dani watched as the two of them kissed like the lovers they'd become. Like before, she wasn't jealous of her mother, just envious. When they finally broke the kiss, with their flushed faces smiling at each other, Seth leaned back and let his mother's legs down for the first time since they'd started. Dani thought it looked incredibly sexy as her mother's stiletto-heeled shoes draped over the edge of the table, her shapely legs splayed wide apart, with Seth still buried inside her clutching ass. He finally drew back, his spent prick sliding out of his mother's bum in a slippery rush. Dani could see that it was glistening erotically as he took a step back, his dick covered with a shimmering coating of her mother's anal juices and strands of his own milky cum.

"Dani, get down there and clean your brother's cock for him," Dani heard her mother say, a commanding tone to her voice. With everything that had happened today, Dani didn't hesitate, wanting to experience everything her mother had in mind for her. She knew some people would have been disgusted by what her mother had just asked her to do, but Dani found the idea of licking her brother's cock clean, especially after he'd just fucked his mother in the ass, to be wickedly exciting.

With her bare breasts still free of her bra, Dani instantly dropped to her knees in front of her brother. With a smile on his face, Seth lifted his sticky cock and dropped the gooey head right into her mouth.

"Mmm..." Dani purred like a kitten as she closed her eyes in rapture and let her tongue roll over the pebbly glans, drawing the combined juices back into her mouth. She went about her duties slavishly, running her tongue up and down his heavy spent prick feverishly,

licking and sucking all of those succulent juices into her mouth. She swallowed a number of times, loving the feel as those gobs and strands of cum mixed with her mother's juices slithered silkily down her throat.

Seth looked down at his sister. "Fuck, her mouth is almost as good as Mom's," he thought to himself as she dragged her mouth up the full length of his cock, a ribbon of spunk gathering on her tongue. He knew if she kept working on him for much longer, she'd have him up and ready to again in no time, she was that good.

"C'mere, honey," Dani heard her mother say when her brother's whole midsection was squeaky clean. "Remember what I told you before that I'd want you to do?"

As Dani turned, her mother drew her legs up once more, her dagger-like heels perched on the edge of the table as she let her thighs roll open to each side. She watched as her mother leaned back and tipped her hips up, letting Dani have a perfect view of her winking bumhole. That hole now had a silvery trickle running out of it, an enticing rivulet of her brother's milky seed that had already run down and started to form a puddle on the table.

Dani thought it was the most exciting thing she'd ever seen. "Ohhhnn..." She let out a hungry moan as she dove between her mother's legs, lapping up the milky pool of jizz off the table before pressing her lips against her mother's seeping hole.

"That's it, that's my good girl," Dani heard her mother say as she started licking and sucking. She had her face pressed far up inside her mother's

crevice, the sinfully hot skin of those soft bum cheeks feeling luxurious as they pressed against the sides of her face. Dani sent the tip of her tongue forward, running it all around the hot little hole, gathering up all the cum that had already leaked out of her. She then pressed the tip right against the tight orifice, wanting more of what she knew was waiting for her inside.

"That's it," Sonya said as she looked up at Seth and smiled as she relaxed and eased open her tight pink hole. "Get in there, Dani. Get your tongue way up inside me and suck out every drop. It's all for you."

Dani did exactly that, worshipping her mother's seeping rectum with everything she had. She licked, probed, sucked, and kissed, drawing out every drop of her brother's succulent cum that she could. She felt like she could have stayed there forever, taking care of that delicate little hole, but her mother had other ideas.

"That's good, Dani, but that sweet mouth of yours has me ready to come again. Put those pretty lips on my clit until I tell you to stop."

Dani eagerly moved higher, sliding her tongue up along her mother's creamy groove, letting more of her mother's warm honey gather on her tongue. She swallowed, and then kissed her mother's stiff clit tenderly before slipping her lips right over the little cock-like protrusion. Then she started to suck, bobbing her head like she was sucking her brother's big cock, her tongue swirling all over the fiery button. She felt her mother's hands slide into her hair and pull her closer, pressing her face even harder against her flushed mound.

"OH FUCK, SHE'S SO GOOD," Sonya groaned out loud before climaxing again, making a total mess of Dani's face once more.

Dani kept her lips and tongue busy, wanting to give her mother as much pleasure as possible. Her mother kept gripping her head, moving Dani's working mouth all over her flesh, making Dani lick up all of her seeping juices as her orgasm waned. Dani eagerly complied, her soft warm tongue sliding tenderly over her mother's sensitive flesh.

"Mmm...that was nice. Thank you, sweetheart, that's enough, for now anyway," Sonya said as she finally pulled Dani's head back from between her widely-spread legs. It made her smile as her daughter looked at her lovingly, her face a shiny mess.

Dani felt almost delirious with contentment, having witnessed and been part of something more erotic than she'd ever imagined. She didn't know how the day could get any better, until her mother spoke once more.

"Well, baby, I think it's time. Are you ready to let that big brother of yours bust your cherry?"

Chapter 9

Seth had been banished to his room while his mother took Dani into hers. She'd promised to let him know when he could come back. They were going to change out of their dresses and into something which his mother called 'more appropriate' for what the rest of the night had in store. Seth couldn't wait to see what she had in mind. From all those times he'd gone through his mother's drawers when he'd been left in the house alone, he knew she had a ton of sexy lingerie—many of which he'd pressed against his face when he'd jacked off—and he could only imagine what she was going to pick out of that plethora of goodies for this special occasion.

His mother told him to grab another shower. He knew she wanted to make the night when Dani lost her virginity special for her and he had no intention of screwing that up in any way. He'd asked his mother what she wanted HIM to wear. Her answer had been short and to the point, "As little as possible," she'd said, glancing down at his crotch as she gave him a naughty smile. So, here Seth stood, under the shower with the stinging pellets beating down on him, muttering to himself over and over, "You lucky bastard...you lucky fucking bastard..."

Any of his friends—fuck, any red-blooded male on the face of the earth—would have jumped at the chance to be with either his mother or his sister and, now, here he was, getting to fuck both. "Maybe this pandemic does have a silver lining after all," he thought to himself. Just the thought of what had already happened had his dick on the rise once more. He quickly washed it, but not before giving it a few slow teasing strokes. He knew he could have whipped off another load in no time thinking about either of them but, with the real thing awaiting him just

a short distance down the hall, Seth spun the shower dial to COLD and shivered through the rest of it as he rinsed off, his rising prick behaving itself.

Freshly scrubbed, Seth sprawled out on his bed naked and checked his phone. "Fuck," he said under his breath. There were nine text messages from Lizzy. The gist of each one was about what had happened after his mother had caught them. After the first few, they took on a concerned tone, which became almost frantic in the last couple of messages, wondering why he wasn't responding to her.

Lizzy had been a good girlfriend to him—if you consider sucking your cock while you fantasize about your mother and sister a positive quality that you look for in a girlfriend. And Lizzy had been wonderful at that, even if she could only take about half of his cock into her mouth. No, he'd had no complaints. She'd eagerly swallowed every load, and enthusiastically went for more. She had no problem taking three or four loads in a row without asking for anything in return, although most of the time he'd finger her or lick her twat until she was climbing the walls.

Seth scanned through the messages one more time, with a somewhat heavy heart. He didn't want to be a real dick to Lizzy, but after what had happened today—which he deemed to be the start of the sinfully illicit fulfillment of all his incestuous dreams—he knew he couldn't turn back. He couldn't go back to Lizzy after experiencing the cock-hardening pleasures his sister and mother had to offer. Just thinking about his mother, and what it had felt like to have her experienced mouth working on him, and then fucking her with every inch of his big hard cock...fuck...his prick was starting to stiffen again already as he

just lay there thinking about her, like it had done so many times over the years.

And now he was going to experience the same exquisite delights with Dani, who was basically a younger version of his gorgeous, sexy mother. It was sad to say, but Lizzy had to take a back seat to those two. Seth knew that was the truth, and whether he was a fucking sick perv for wanting to have sex with his sister and mother, well, at this point, he was beyond all hope of redemption, and there was no way his rising cock would allow him to deny what his heart truly wanted.

Seth knew he had to call Lizzy. There was no way around it, and he wasn't going to be an asshole and leave her twisting in the wind, wondering why he wasn't getting back to her, or break it off by sending a text. How cowardly was that? No, she deserved a call, even if there was no way he could tell her the full truth. The illicit incestuous acts that had already taken place in this house today, and all those to come, would be their little secret. Seth smiled to himself, thinking that from now on, things at home were going to be like going to Las Vegas: "What happens in this house, stays in this house."

He went to his list of contacts and hit Lizzy's name. She answered after the first ring.

"Seth, I was so worried when I didn't hear back from you. Are you okay?"

"Yeah, I'm fine. Sorry I took so long getting back to you. My mother and I had a really long talk and I had to think about everything we talked about."

"What did she say? She looked pretty angry."

"I think she was at first, but then she calmed down and we had a really good talk. Knowing what she'd seen us doing, I found it hard talking to her." Seth couldn't keep the smile off his face after saying that last sentence.

"I'm so embarrassed. I can't believe she caught us."

"The good thing is, she understands what it's like for us. And not just for us, for everybody."

"So, in the end, she wasn't really all that mad?" Seth could hear the ray of hope in her voice.

"No, don't mistake what I said—she was plenty mad at me. It wasn't so much what she saw us doing that made her angry, but that I had lied to her, that I'd gone behind her back when she'd trusted me. When she put it to me like that, I felt awful, just awful."

"Oh Seth, I'm so sorry."

"Yeah, it really hit me when she talked like that. We talked some more, and ended up getting a few things straight between us." Seth paused, thinking about how they'd gotten his big cock nice and straight between them. "And so, like I said, I did a lot of thinking, Lizzy, and I have to let you know that we can't keep doing that."

"What? You mean...?"

"Yes, we were being stupid. This virus isn't something to joke about. You know, it might not hit either of us too bad if we got it, but if I passed it on to someone older, like my mom, or even my grandmother, I couldn't live with myself." Seth paused, thinking about his pretty grandmother, who his own mother had taken after with her looks and charm. As Dani was just a younger version of his mother, the same could be said of his grandmother and her daughter, his mother. The apple wasn't falling far from the tree with any of those three women, all three of them possessing the looks and bodies that made men weak with desire.

"So we...we have to stop?" Seth could hear the tears now coming through the phone.

"I'm afraid so. It's the safest thing for everyone if we just don't see each other until this thing is over. I'm really sorry, Lizzy, but I've made my decision, and that's the way it has to be."

"But...but what are you gonna do about...you know? You know you have to get off a number of times a day. Maybe we can find some other

way that I can help you with that. Maybe we can connect over the internet and at least watch each other get off."

Seth hadn't thought of that possibility when he'd called her. He knew he had to come up with something, even if it was a lie, which he hadn't really done during the entire conversation so far. "I just can't do that, Lizzy. It'll be too hard for me, being able to see you, to see that pretty mouth of yours, but to know at the same time I can't feel it on my cock. I'm sorry, we're just going to have to quit—cold turkey, as they say."

"Okay, okay. I get it. Thank you for saying that. Maybe after this is all over, and things kind of get back to normal, we can see each other again?"

Seth thought about what she'd just said, "when things get back to normal." Fuck, how long was that going to be, if ever. "We'll see, Lizzy, we'll see. Look, I'm sorry, but I've gotta go. We're going to do a family thing together tonight."

"What, like watch a movie?"

Seth smiled to himself, thinking about the night ahead. "Yeah, something like that. Okay, I've gotta go. And Lizzy, until things change, it's probably best if you don't even text me either, okay?"

There was a pause and he felt bad as he heard her crying on the other end. "Okay, okay. Goodbye Seth."

He pushed the END button and put his phone down. She was a nice girl, and it was too bad he had to end things that way. He felt like telling her to hit on her brother, who was home from college because of the pandemic. He was sure a frat boy like that would certainly be happy to pump a few loads down his pretty sister's throat. But how the hell do you bring up something like that? He really hoped she'd be happy, but he just knew it wasn't going to be with him.

Already, as soon as he'd finished the call, his thoughts had gone back to his mother and sister. Subconsciously, his hand had strayed down to his limber cock, idly stroking it as he pictured the two women, and what the night ahead was going to be like. It was only a few seconds later when his phone pinged, indicating an incoming text. It was from his mother:

"We're ready. Come over any time and, like I said, wear as little as possible."

"If that's what she wants, that's what she's gonna get," Seth said to himself as he tossed his phone aside, sprang up from his bed and padded down the hallway, his long heavy cock hanging majestically between his legs.

The double doors to the master bedroom were closed, so Seth opened one door and tentatively stepped inside. The drapes were closed and one of the bedside table lamps had been turned on. He saw that his mother had put out a number of votive candles strategically placed around the room. The warm radiance of the light and the flickering from the candles cast a warm amber glow over the whole room. He caught a whiff of their perfume, the sensual fragrance teasing his senses

as he breathed it in. He could see that his mother had pulled down the covers on her four-poster bed, getting it ready for the action that was about to take place, a set of rich crimson-colored sheets covering the mattress.

But what really caught Seth's eye and made his heart skip a beat were the two occupants of the room. His mother stood at the foot of the bed, one hand wrapped around the tall post at the corner of the canopy-covered bed in a teasingly sexy pose. One knee was slightly bent as she looked at him, giving him a provocatively suggestive look that had him squirming within seconds. She'd redone her makeup, her eyes made up in darker smokier tones that looked sinfully erotic, and her lustrous blond locks were fluffed up wildly as they framed her lovely features. She had a new layer of lipstick on those gorgeous full lips, another vivid shade of blood red. He couldn't help but picture those pouty lips of hers pursed forward, providing a perfect target for his throbbing cock. Yes, his mother had a mouth he could picture face-fucking all night long.

Seth finally allowed his eyes to drift downward, which wasn't a hardship by any means. As expected, she was dressed in devastatingly sexy lingerie, with every wickedly provocative garment being jet black in color. His eyes immediately set on her huge mouth-watering breasts, which were breathtakingly displayed in a lacy open-cup bustier. The bra portion was more like a shelf, with the supporting cups ending just below her openly-displayed nipples, the dark pink bullets already stiff and pointing at him suggestively. The black shoulder straps of the bustier came up from around the sides of her breasts and then up, before they disappeared over her shoulders, the ribbon-like straps taut as bridge cables. He knew that bustier and the partial bra cups must have had some serious reinforcing in order to be able to support the

heavy load of those massive breasts, and still push them together and up spectacularly.

Seth's eyes tracked lower as the black satin and lace bustier followed the enticing curves of her shapely hourglass figure. He was so glad that his mother took care of herself, eating well and working out regularly, making good use of their basement gym during the pandemic. The bustier ended at her waist with a few lacy scallops that looked wickedly sexy. When the bustier ended at her slender nipped-in waist, there were a few inches of her tanned stomach on display, a glittering stone winking out at him from her navel, the twinkling stone drawing his eye to her toned abs like a hypnotist's watch.

Allowing his eyes to drift lower, Seth saw that she was wearing lacy French-cut panties, the dainty panties cut wickedly high on her broad flared hips, with made her legs look a mile long, and devastatingly sexy. The sheer black thigh-high stockings she was wearing had something to do with that too. The broad lacy band at the top of each stocking gripped her upper thigh suggestively, mere inches below the narrow strip where her lacy panties disappeared between her thighs.

Seth felt his eyes being drawn downward, following the enticing line of her shapely legs, down past her full creamy thighs, taking in the cute shape of her dimpled knees, over her muscular calves, past her trim ankles until they came to rest on her stunningly sexy shoes. They were black stilettos, with pointy toe caps, and a single black leather band that circled her slender ankle sensually. The sky-high heels made her toned legs look beguilingly sexy, and the shoes alone made Seth gulp, his heart-rate soaring as he took in the whole gorgeous ensemble. His

mother looked more beautiful and sexier than in any outfit he'd Photoshopped her into. He couldn't have asked for anything more.

Seth's attention was drawn to the bed as Dani moved slightly. Beyond his mother standing at the foot of the bed, his sister was reclining on her side on the crimson sheets, her head propped up on her hand. Seth felt his heart flutter as he looked at her, never imagining that his sweet little sister, the competitive soccer fanatic, could look so beautiful, and so cock-hardeningly sexy.

Where his mother had been dressed all in black, Dani was dressed all in white, brilliant virginal white. He knew his mother had done this on purpose and, as Seth took in Dani's exquisite form, he was so glad she had. His sister was wearing a full merry widow corset, complete with garter belt and stockings. The corset itself was made up of numerous structured panels of shiny white satin, with lace trim running up and down along the divisions between the vertical panels. The big curving bra cups were totally covered with an intricate layer of the delicate white lace, making the corset look intimately feminine and pretty, as well as spellbindingly sexy.

Even lying on her side, Seth could see that Dani's breasts looked incredible, the corset making those big tits of hers look even bigger than they were, the structured cups pushing them together to make her cleavage look a mile long and as deep and dark as midnight. She had on a pair of skimpy white lace panties which, like the ones her mother was wearing, were cut sinfully high on her hips, emphasizing the teasingly erotic shape of her curvy hourglass figure. Ribbon-like garters extended down to her thighs, where they bit teasingly into the intricate

broad lacy bands of white nylons, the stockings so sheer that they seemed like mere whispers of silk against the tanned skin of her legs.

Dani had one leg cocked suggestively over the other as she lay on her side, allowing Seth's gaze to move fluidly over her reclining form. His eyes drifted down past the lacy stocking tops and over those teasingly sheer stockings, along his sister's muscular legs to her slender feet, which were clad in white pumps, with pointy toes that could kick the eyes out of a snake, and rapier-like high heels that were already making his cock start to stand up and take notice.

Taking a deep breath to steady himself, Seth let his gaze roam back up over her lush curvy body to her face. Her pretty young face looked absolutely gorgeous. Her eye shadow was done up slightly more exotic too, but still with those soft magenta and bronzy tones that brought out her youthful allure. Her eyelashes had been touched up with mascara, making her sultry blue eyes jump from beneath the bold dark lashes.

And her mouth, her beautiful full mouth and pouty lips. Dani's lips were covered with a shiny coating of cherry-red gloss that glistened teasingly in the flickering light from the candles. Seth thought it was a perfect color for a mouth that was just made for sucking cock, which is what he planned on having his sister do a lot of from now on.

Her hair looked just as beautiful, framing her lovely features attractively. It had been pinned up and curled slightly again, but this time with more of those wispy tendrils and dangling soft golden curls hanging loose about her regal neck, making her hair look even more wild and sexy than it had earlier. Around her slender neck, she still wore her graduation present, the glittering rhinestone choker her

mother had given her. "God, that choker is so hot," Seth thought. It looked bewitchingly sexy, making her look like a seductive enchantress, a confident woman who knew how sexy she looked, and could make any man's fantasy come true.

Seth knew this was the look his mother wanted him to see, the look she wanted Dani to have on this special night, the night where her daughter was going to lose her virginity, and not to just anyone, but to her loving big brother.

"I think he approves of what we're wearing, or at least part of him does."

His mother's voice broke Seth out of the trancelike state he'd found himself in as he'd stared at the two of them. He was standing there almost stupefied. He'd never seen such a dizzying display of pulchritude in his whole life as when he looked at the two stunningly beautiful women before him, his mother and his sister. Coming out of his illicitly exciting daydream, he saw both of them looking over at him, broad smiles on their faces. He looked down to see that his cock was already stiffening, the bloated head getting bigger by the second as the veiny shaft lengthened and rose from between his legs.

"Isn't that a thing of beauty, Dani?" Sonya said as the two women watched Seth's huge cock continue to grow, the lengthening shaft bobbing with each beat of his powerful heart as it got harder and harder. Now it was their turn to stare as if hypnotised, both of them on the verge of drooling as they watched the enormous cockhead rise higher and higher, until that beautiful cock was like a soldier standing at attention, the engorged head at full salute.

"Doesn't Dani look pretty dressed all in white like that?" Sonya said, once it was clear Seth was back with the living.

"She looks incredible!" Seth answered, feeling himself sweating with excitement already.

"I thought some bridal lingerie would be the perfect thing for the night my sweet girl loses her virginity. Good thing I'd put mine away. And it's so nice my boobs were the same size as Dani's when I got married."

"That's the outfit you wore on your wedding night?"

"Everything, right down to the shoes. It was only worn once. What a shame. I think the choker is a nice touch though, don't you?"

"I love it," Seth replied, his eyes raking blatantly over his sister's gorgeous ensemble. "And she looks fabulous in the whole outfit. At least we'll get some good use out of it tonight."

"That cock of yours seems to think so too," Sonya said as she took a couple of steps forward and stood next to Dani. "Why don't you come over here and give your sister something nice and juicy to suck on." She turned to her daughter. "Dani, get up on your hands and knees and show your brother how much you want to be his little cocksucker."

Dani eagerly scrambled to her hands and knees and faced the side of the bed as Seth approached, his thrusting erection leading the way like a heat-seeking missile, and Dani's hot wet mouth was just the target it was headed for. Sonya reached out and wrapped her hand around her son's turgid prick as Dani willfully opened her mouth. Without a second's thought, Sonya plugged the dripping cockhead between her daughter's shiny red lips. Dani felt her jaw spread wide as Seth flexed forward, sliding more of the long thick cock into her mouth. Dani started sucking, making nasty wet sounds as her lips and tongue went to work.

"That's the way, suck your brother's big cock," Sonya encouraged as she snuggled up to Seth once more. As Seth reached up and started toying with her exposed nipples, Sonya slid her hand down to the root of the thrusting shaft and started to drag her long red fingernails over the shaven flesh all around the base of his cock.

"Oh fuck, Mom, that feels amazing," Seth said through gritted teeth as he surrendered himself to the two women working on him. They kept this up for a few minutes, Dani avidly sucking his drooling cock, a river of precum sluicing out onto her tongue and sliding luxuriously down her throat, at the same time as his mother kept those talon-like nails of hers busy, tracing and scratching at the sensitive skin at the base of his thrusting erection.

"Dani's not taking as much of your cock as I'd hoped," Sonya said. "Let's try something else." With her directing, she got the two of them into place. Seth was now on his back in the middle of the king-size bed, with Dani on her knees next to him. "That's it. Now Dani, swing your leg over Seth's head and face the bottom of the bed."

Dani did as she was told, her panty-covered pussy hovering right over Seth's face. On her hands and knees, Seth's rigid prick was pointing up at about a forty-five degree angle towards her, the angry crimson crown mere inches from her mouth. Dani looked at the dripping tip longingly, her mouth salivating as she watched a shiny strand of cocksap ooze forward and hang down almost to Seth's stomach.

"That's good," Sonya said. "Get your mouth back on that big cock and lick that up, Dani. You don't want to waste any of those sweet juices your brother has for you."

Dani enthusiastically dove forward, stabbing her tongue into the glistening web of fluid, the warm liquid pooling on her tongue. She brought her mouth upward, and then slid the big flared head right back into her mouth. "Mmm..." she let out a low moan as she closed her eyes and savoured the wonderful feeling of having her brother's cock in her mouth once more. At this point, she needed no further instruction as she started rocking back and forth, driving more of his surging prick deeper into her mouth.

Sonya watched as Dani managed to get just over half of Seth's cock into her mouth. She wanted the girl to take more, to take it all, and that's why she'd asked them to assume this position. "That's good, Dani, but to show your brother how much you really love him, you've got to be able to take all of that beautiful cock of his down your throat."

Sonya saw her daughter pause, her eyes opening wide as she kept slowly bobbing her head, not wanting to let go of the treasure she had

in her mouth, but wondering if she'd heard her mother correctly. How was she ever going to take all of the monstrous cock down her throat?

Sonya could almost read her mind. "You don't need to be scared, Dani, Seth and I would never do anything to hurt you. But trust me, if you do as I say, you'll have all of that huge cock down your throat in no time, and you'll love every second of it." Sonya paused, waiting for her daughter to relax. It took only a few seconds for Dani to nod, her mouth still filled with her brother's rigid member.

"That's good," Sonya said as she slid onto the bed and sat next to the two of them, her nylon-clad legs tucked beneath her, the whispery sound of her nylons moving over the sheets sounding erotic as sin. "Now, this time, when you rock forward, really concentrate on relaxing the opening to your throat. Take a deep breath before you do, and just concentrate. Once you let that cockhead inside, I know you'll love it. It's a feeling you have to experience to believe."

With her mother's encouragement, Dani did as she was asked. The first time she tried it, she gagged once the bloated head hit the back of her mouth. Feeling embarrassed, the competitive streak in her — the one she used as inspiration to drive her to do her best in every soccer game she played in — came to the fore, allowing her to concentrate and do as she'd been told. The second time, she concentrated on controlling her gag reflex, letting her throat open to allow the massive cockhead inside.

"That's it...that's the way. Now you're doing it. This is the perfect position for your brother to facefuck you with every inch of that cock of his," Sonya said, her voice filled with praise as Dani took another inch the first time, and then another inch the next. Within a minute she

had it all, her head moving rhythmically back and forth, her face absolutely full of hard teenage cock.

"HOLY FUCK!" Seth thought to himself as he felt the last few inches of his cock slide into Dani's hot gripping throat. It felt incredible, almost as good as when his mother had taken his entire length into her mouth. He looked up, seeing the crotch of his sister's panties right above his face. The entire front panel was stained, absolutely soaked and almost translucent from her flowing juices. And her alluring young scent was scintillating, the warm fragrance of pure innocence making Seth even hotter.

"Seth," his mother's voice made him glance in her direction. "Reach from underneath her and take Dani's head in your hands. That way you can really work her head up and down on your cock just the way you want."

"Oh fuck, yeah," Seth mumbled under his breath as he did as his mother asked. With Dani's arms on either side of his body near his hips, he reached up on the insides of her arms and circled his hands behind her head, his fingers slipping into her soft golden hair and gripping her head firmly at the back of her neck. She was still bobbing her head forward and backward, moving smoothly like a metronome. It didn't take him long to get in sync with her, his hands keeping her head moving just as fast, or just as slow, as he liked. He held her down for an extra second or two, her lips mashed around the base of his cock. She seemed to know instantly what to do as she instinctively swallowed, the muscles lining her throat sending a rippling massage along the full length of his buried cock.

"So hot...so fucking hot," he groaned out loud as he drew her back and drove her head forward, getting into a luxurious rhythm once more. He started to flex his hips upward, the two of them working with machinelike clockwork as he drove the entire length of his rigid piston back and forth in her mouth with each vigorous thrust of his flexing hips.

Sonya smiled to herself as she watched her children work together, Seth's hips bucking up and down at the same time as he pounded Dani's eagerly-sucking mouth back and forth on his thrusting rod. "That's good, that's the way. Really give it to her," Sonya encouraged as she leaned over and let her fingers trace over the silky skin of Seth's sack, the nails of one hand scratching teasingly once more over the velvety-soft skin while her other hand cradled and massaged his sperm-filled balls. Dani's flowing spit had oozed out all over him, making her moving fingers feel teasingly erotic as she toyed with her son's big heavy nuts, her sharp nails raking over his sensitive skin.

Once he felt his mother's talented fingers working on him, Seth couldn't take it any longer. Within just a minute or so of feeling those teasing fingers against his skin, he felt that first tingle as semen started to speed up the shaft of his cock. "I'M GONNA COME, MOM. WHAT DO YOU WANT ME TO DO?" Seth gasped out loudly, his hands still pounding Dani's head up and down on his surging cock.

"Do whatever you want to do, sweetheart. Shoot it right down her throat if you like," Sonya answered as she tugged gently on Seth's spit-slick bag, drawing it tight before she dragged her sharp nails teasingly over the tightly-stretched skin.

With his hands still locked around the back of her neck, Seth kept driving Dani's head up and down the full length of his cock, even as he started to go off. He could feel by the way that she was working with him that she was into it as much as he was. "GLMPHHH," he heard her groan as he pumped a huge rope of cum all the way down her throat. He felt that first rope of spunk shoot out of him like a rifle, and it felt like he was spewing it right into her welcoming belly. The two of them kept working together as he kept coming, with some of the shots filling her mouth when she was leaning further back, with just the spewing cockhead in her mouth as his hips flexed back. The stuff was leaking out of the corners of her mouth, but Dani kept sucking like a thirsty man who finds an oasis, eagerly sucking up and drinking down as much of her brother's cum as she could.

Dani couldn't believe how turned on she was. She'd been shocked she'd been able to take the full length of brother's monstrous cock all the way down her throat. But the feeling of illicit accomplishment combined with the pure physical delight of having her throat absolutely filled with hard cock had her head spinning with excitement. Feeling the way Seth had reacted when her lips had pressed up against his flesh had inspired to work even harder, to make him feel as good as she could. And when he'd taken her head in his hands and started pumping it up and down on his flexing cock, she'd become dizzy with excitement, loving being under his total control, wanting nothing more than to have him use her in any way he wished, to use her as a willing receptacle for his lust-driven desires.

And then, when he'd started to go off, she felt her own pussy spasm and twitch as a little orgasm shot through her. The first shot or two had gone right down her throat and into her stomach, but as he pumped her head back and forth as he'd continued to come, some of those

pulsing shots had emptied right out onto her tongue, letting her taste his release, the warm ribbons of semen sluicing across her tongue deliciously.

"That was nice, wasn't it," Sonya said in that soft lulling voice of hers once Seth had finally stopped driving Dani's head up and down on his spitting cock. Dani's mouth came off her brother's prick nastily, a big gob of saliva and cum dropping from between her parted lips onto the underside of her brother's thick cock.

"Remember, Dani, don't let any of that go to waste," Sonya said.

Dani had no intention of doing such a thing. She swooped down and dragged her tongue across her brother's spent member, licking up that silvery ribbon and then going for more, getting every sloppy drop of cum into her mouth that she could.

"Mmm, your mouth looks so pretty doing that, sweetheart. Why don't you get over on your back? Mommy wants to ride that face of yours for a few minutes."

Seth shifted out of the way and Dani took his place, lying on her back in the middle of the bed. Sonya whipped her panties off over her thigh-high stockings and high heels before straddling her daughter's face. "There, that's better," she said as she spread her knees out and lowered herself, dropping her gooey snatch right onto Dani's face.

"C'mere, baby," Sonya said to Seth, who was watching the two of them in earnest. "Come and give Mommy a kiss."

Seth got to his knees and straddled Dani's midsection. He kissed his mother rapturously, both of them feeling the love and desire they had for each other in that soft wet kiss. He felt his mother's hand go to his limber dick, idly stroking it as his tongue duelled with hers. Their mouths finally parted, both of them gasping breathlessly.

"Here, sweetheart, suck on these for a little while," Sonya said as she cupped her breasts and held them towards her son, the open-cup bra allowing her big nipples to point right at him.

Seth eagerly lowered his mouth and rolled his tongue over the mammoth set of tits, his tongue sliding over the velvety-soft skin before latching on to one of her stiff nipples. It came alive in his mouth, getting harder and bigger as he tugged on it with his lips and tongue.

"Oh yeah, that's my boy, that feels so nice," Sonya encouraged as she slid her fingers into his hair and pulled his mouth harder against his massive breasts.

They kept at this for the next ten minutes or so, with Sonya climaxing twice in Dani's mouth while Seth worshipped her breasts. Feeling his mother shake and listening to her moan in ecstasy had Seth starting to get aroused again already. It wasn't lost on his mother, who reached beneath him and stroked his swollen prick.

"Nice to see you're on the rise again," Sonya said coyly as she lifted herself up and swung her leg off Dani's reclining form. She looked down at her daughter. "Dani, put a bunch of those pillows behind you and sit back against the headboard."

With her face still a sticky mess of cunt juice, Dani did as she was asked, stacking some of the pillows against the headboard and taking her place as her mother asked, sitting almost straight up. Seth thought his sister looked incredible. She looked so fucking sexy in the bridal lingerie, with her big tits almost spilling over the jam-packed bra cups. And that choker, that sexy rhinestone choker. Just looking at that scintillating piece of jewelry was causing his prick to stiffen up even more.

"That's good. That's my girl." Sonya turned to her son. "Seth, fuck her face for a few minutes. I want you good and hard before you fuck her."

"Jesus," Seth thought, "this is like being in the best porno movie ever, with my mother as the director!" He didn't hesitate for a second, whipping his leg over Dani as he reached up and grabbed onto the headboard. He looked down to see Dani eagerly open her mouth as he leaned in closer, plugging his rising cock right into her waiting mouth. She started to whimper and purr as he started to lever his hips back and forth, at the same time she caved her cheeks in to give him a hot buttery sheath to fuck.

"Oh fuck, yes," Seth hissed as he felt his prick getting harder by the second. He could feel it extending right to the back of her mouth. He knew with her sitting up like this that was far as he could get with his bloated cockhead, but that was fine, her lips and tongue were working

their magic already. He gripped the headboard tight as he flexed back and forth, the room echoing with the illicit sounds of the headboard beating a steady tattoo against the wall.

A few minutes later, he heard and felt Dani let out a high-pitched squeal, even with his turgid cock filling her mouth. She was squirming all over the place and her eyes were closed tightly. Seth looked over his shoulder to see his mother on her knees between Dani's spread legs, her mouth pressed tightly against Dani's pussy. Dani's tiny lace panties were on the floor next to the bed, tossed aside by his mother in order to get at Dani's precious little treasure box. Seth turned his attention back to the front as he kept working his hips, driving his cock in and out of Dani's mouth relentlessly. Her chin and lower face were dripping with saliva, shiny drops of the stuff glistening on the upper swells of her big breasts.

Seth felt her come for a second time. A glance back saw his mother wiggle her face against Dani's steaming honey pot, and Seth knew his mother's talented mature tongue was making Dani come hard for a second time.

"Okay, Seth, I think she's ready," Seth heard his mother say after Dani's quivering tremors had abated.

"You mean...?" he asked as he nodded towards his steely prick, dripping with Dani's spit as he continued to ram it back and forth between his little sister's stretched jaws.

"Yes, it's time to show her what a big hard cock feels like as it tears deep inside you." Sonya paused as she looked down at her daughter, enticingly dressed in Sonya's own bridal lingerie. "Yes, it's time to take your baby sister's precious little cherry."

With his hands still gripping the headboard, Seth looked down at his sister, seeing the eager look in her eyes as she glanced up at him, her mouth stretched wide by his long thick cock, her lips wrapped tightly around the pulsing shaft. "Yes," he thought, "this is going to be a night to remember for all of us..."

Chapter 10

"Yes, she's absolutely soaked, good and ready to take that big cock of yours," Sonya said as she moved to the side. "Just remember, Seth..."

"I know, Mom. Don't worry, I won't come inside her." He smiled as he let his eyes rake down over his mother's gorgeous body. "But like I said, I want to finish inside you, so just make sure that hot pussy of yours is ready for me when Dani's had enough."

"I don't think you need to worry about that, sweetheart. I think Mommy is always going to be ready for that big cock of yours," Sonya said as she reached out and ran her hand over her son's firm buttocks.

Seth pulled his raging prick out of his sister's mouth with an audible 'POP!' and moved further down on the bed, taking his spot between Dani's widely-spread legs. He reached forward and grabbed Dani's hips, pulling her down from her sitting position until her flushed pussy was right in the middle of the bed, perfect for her first fuck. Seth looked down at his little sister, seeing both the fear and the longing in her eyes.

He leaned over her, his eyes locked on hers as he got closer, until their faces were just inches apart. "I love you, Dani. I'd never hurt you, ever." He paused as he saw her get misty-eyed as she nodded back at him. "Are you sure you want to do this? If not, it's okay, I'll stop right now."

Dani shook her head. "No, please Seth, I want you to do it. I want you to be my first." It was her turn to pause as Seth gave her a warm calming smile. She reached up and slid her arms around his neck, pulling him closer. "I love you so much, Seth," she whispered into his ear. "I've always wanted you to be my first, for as long as I can remember."

The emotion of the moment overwhelmed Seth just as much as Dani. He gazed down into her gorgeous blue eyes and was overcome with love for his beautiful younger sister. He lowered his mouth to hers and they kissed. They kissed tenderly, then passionately, then with pure desire, like the lovers they were about to become.

"Are you ready?" Seth asked as he finally drew back from the kiss, both of them anxious to experience the pleasures that awaited them.

"Yes," Dani replied, her hips shifting about restlessly, her pussy itching with need like crazy.

"Don't worry, I'll go nice and slow." Seth rolled his hips slightly, bringing the engorged crimson crown to her slick petals of flesh, nestling the broad sensitive glans between her slippery labial gates. "It'll hurt a bit at first, but I want to give you every last inch, to have my cock totally fill you up, to feel myself all the way inside you, until we become one."

Her brother's words had Dani soaring with excitement. And the feeling of his massive cockhead pressed against the opening of her pussy had her reeling with anticipation. The tip of his cock was hot as sin, making her feel like she was about to be branded, to be marked as her brother's

plaything to do with as he wished. In her heart, she knew there was nothing she wanted more. With her arms still locked around her brother's neck and, with her high heels dragging sinfully over the sheets, Dani drew her knees further up and opened her legs even more as she nodded to him, letting him know she was ready.

Seth kept his eyes locked on hers as he started to press forward, feeling her tight young pussy start to stretch as he made his way inside. The hot slick lips of her cunt were gripping him tightly, circling the massive knob lovingly as he made his way forward, the broad flared head starting to disappear inside her. Seth tried to flex further forward, and then stopped, with only about half of his cockhead inside her. He'd come up against her hymen, the taut membrane barring his way. Both he and his mother had been careful when they'd been fingering her, not wanting to break that tight little membrane until this moment.

Dani was gasping, and he saw the fear in her eyes as he stayed still, both of them pausing as they thought about what was about to happen. But he saw the longing in her warm blue eyes at the same time, the anticipation of what was to come. Would she want him to stop? Would she want him to continue? Less than thirty seconds later, he had his answer...

"Do it, Seth. Do it," she gasped out as she readied herself.

Seth drew back just a touch and then, with his eyes locked on hers, he slowly flexed forward. He could feel the tightness against the tip of his cock, it felt so tight that he thought it was going to tear the skin right off the head of his cock, but he was not to be denied. He took a deep breath and gave a little hunch, and then felt the hymen give way as the

broad flared knob speared through, shredding the flimsy membrane as it made its way deeper into her sister's clutching channel.

"OWWWWWWW!" Dani gasped out as she felt her insides being torn, the pain overwhelming her. Her legs shot straight out and her nails raked over his shoulders as the instantaneous agonizing shock zinged through her like a bolt of lightning. Her chest was heaving as she gasped against the stinging sensation deep between her legs. But the intenseness of the torment barely lasted more than a few seconds as Seth stopped, letting her recover. As he stayed still with that massive cockhead now fully inside her, the circular ring of her pussy-lips gripping him just beyond the thick coronal ridge, Dani felt that initial terrifying jolt of pain ebb away. It was already starting to be replaced by an exquisite sensation of delight, a feeling she'd never had before, a feeling of having her vagina stretched and filled by a cock for the very first time. And not just any cock—a huge hard cock bigger than she had ever imagined—her brother's cock.

"Are you okay?" Dani heard Seth ask, his voice dripping with concern.

"Yes," Dani whispered back, her eyes glistening. "Yes, I'm fine now." She wriggled her hips ever so slightly, signalling to her brother that she was ready for more.

Seth was ready. He set himself over her and started pressing forwards, sliding inch after inch into her hot gripping cunt. He'd never felt anything so hot, so tight, so fucking perfect. He could feel her tight coital walls wrapped like a fist around his driving prick, but he could feel them releasing their juices at the same time, bathing the path to her depths with warm oily emissions.

"Oh fuck...so tight...so fucking tight," Seth groaned as he went deeper.

Dani felt like she was about to explode. She was being filled by her brother's gigantic cock and she was dizzy with the exquisite sensations coursing through her. It definitely was painful, but with it was a deliciously excruciating pain that had the depths of her pussy burning with arousal, and the feeling that she wanted more, a lot more.

Seth glanced down and saw that he now had most of his cock inside his sister, with only about three inches left to go. But fuck, she was so damn tight, he didn't know if he'd be able to make it all the way in.

Dani felt her brother hesitate, and knew he was worried he was hurting her. She took a deep breath, then pressed her high heels deep into the mattress, set herself, and flexed her hips upwards.

"OH FUCK...YESSSSSS!" It was Seth that hissed that out as he felt the gripping sheath of Dani's youthful cunt finally yield, her hot oily juices bathing his thrusting erection as she bucked her hips up against him. The driving spear of flesh slid all the way into her depths as she flexed upwards, the broad flared head bumping up against the gates of her womb just as his shaven groin pressed flush up against hers.

"MY GODDDDDDDDD!" Dani shrieked as a spine-tingling climax shot through her like a bomb going off. She was convulsing and twitching like she was having a fit, quivering and spasming as wave after exquisite wave of blissful euphoria shot through her young body.

Seth held on tight, his rigid prick totally impaled inside his hot little sister, her backside writhing like a twister as he kept her nailed to the bed. She came for a long time, squealing and twitching like she'd been zapped by a taser. Her hot young body thrashed about as her hands pulled at the sheets in a death grip, the luxurious sensations of an intense orgasm overwhelming her as she spasmed and shook for over a minute. Finally, those tingling sensations within Dani slowly diminished, leaving her thrumming like a plucked guitar string, waiting for the musician to play another song.

"I think you liked that," Seth said as he smiled down at her before giving her a warm, tender kiss.

"Oh Seth, I've never felt anything like it. You're so big, and so hard. I love it. I feel so full down there, and that feeling when I came, it was like I was seeing stars."

"Well, would you like to see a few more then?" Seth asked as he teasingly rolled his hips.

"Oh God, yes!" Dani emphasized her response by reaching up and pulling Seth down for a kiss. She pressed her lips hard against his and thrust her tongue into his mouth, as if willing him to do the same to her cunt with his cock.

Seth didn't deny her for an instant. He drew all the way back and then slid his long hard cock into her in one slow merciless stroke.

"Ohnnnnnn..." Dani groaned as he bottomed out inside her again, and then for a third time.

Seth got into a smooth rhythm, his hips working like a machine as he fucked his sister good and deep, the broad head of his cock rubbing salaciously along the dripping walls of her hot tight cunt. Soon Dani was working with him, using those strong muscles in her legs as she flexed her hips upward in time with his downward thrusts, their combined efforts making both of their firm young bodies sing with pleasure.

A few minutes later, Dani came for a second time, thrashing about like a ragdoll as she flopped all over the bed, with Seth hanging on as he all but crucified her by driving the hard fleshy stake between his legs to the utmost depths of her hot young pussy, nailing her deep into the mattress with thrust after thrust.

And then Dani wrapped her ankles around his buttocks, flexing her whole body against him as he kept pounding her, resulting in a third and then a fourth orgasm for her, the last one leaving her sweating and gasping like a runner at the finish line. She dropped her legs down to her sides again as she threw her arms out and grasped the sheets as Seth kept hammering every hard inch into the depths of her cunt.

"YES...YES...YESSSSSS..." Dani hissed out loud as she climaxed one more time, her head flipping from side to side as the exquisite sensations of a deep vaginal orgasm tore through her.

"Anytime you're ready, tiger."

His mother's words made Seth pause and look over his shoulder. What he saw almost made him come on the spot. His mother was standing at the foot of the bed, leaning forwards, her arms wrapped around one of the towering corner posts. She had taken off her open-front bustier and, in leaning forward, her massive breasts hung pendulously beneath her, her nipples as big as thimbles. Her feet were spaced well apart, the long inverted 'V' of her spread legs looked breathtaking with the shapely alabaster columns made even more sexy by her sheer thigh-high stockings. His eyes were drawn down the full length of her stunning legs to those devilishly sexy high heels, making her legs look incredibly long and enticingly sexy. As Seth looked back at her, he saw his mother lean just a touch forward, hugging the post of the bed against her shoulder. At the same time, she arched her back, the full curve of her big round bum opening up to him in invitation.

"Oh fuck," Seth muttered under his breath. With Dani just starting to recover from her last orgasm, Seth leaned down and gave her a quick kiss on the lips before leaning back and withdrawing. His long hard cock came out of the socket of her dripping pussy with a nasty wet sucking sound, which to Seth was just about the sexiest thing he'd ever heard.

He didn't have to be told what to do. He scrambled off the bed and got behind his mother. As he stepped up behind her, she leaned even further forward, letting him see the tempting groove of her dripping slot. With his cock hard enough to cut steel, Seth stepped up and plugged it right into her, driving every last inch into her hot mature cunt in one vigorous stroke.

"Aaaahhh...that's it...that's the cock I need," Sonya gasped out as she hugged the towering bedpost tight to her shoulder. As Seth immediately started to pound that stiff piece of man-muscle into her drooling pussy, Sonya flexed and rolled her talented hips back at him, both of them working together as they fucked like they'd been doing it their whole lives, which is what Sonya pictured for them going forwards.

Seth could see those voluminous tits of hers swaying seductively beneath her as they fucked. He leaned forwards and slid his arms around her body and down, cupping those mammoth spheres in his hands and squeezing. They more than filled his hands, the acres of billowy flesh making his hands seem small by comparison. "Fuck, they're so big, and so fucking heavy," Seth said to himself as he hefted and tested the weight of those beauties, the stiff nipples all but poking holes in the palms of his hands.

At the same time, Seth couldn't believe how wet and juicy his mother's pussy was. Her warm slippery cunt-honey was all but running out of her. He could feel her slippery discharge coating his bag and even running down his legs. Just the thought of her creaming like that had his temperature level rising to the point he thought he was going to blow the top off the thermometer.

Seth had been close to coming while he'd been fucking Dani, using all his willpower to suppress his urges while she'd been climaxing time and time again. But when he saw his mother in that sultry pose as she stood at the foot of the bed leaning over, her nylon-clad legs parted and her big round bum turned up in invitation, he'd almost lost it, and

when he'd buried himself in that steaming box of hers from behind, and filled his hands with those spectacular tits, that was all it took. He could feel his mother starting to quiver and knew she was getting close too. He managed to hold off until he felt she was almost there, and then he let himself go.

"YESSSSSS..." His mother let out a loud gasp and came at the same time as he did, just as Seth throttled his cock all the way up inside her before flooding the depths of her pussy with his potent seed, absolutely pouring himself into her. He was holding onto her to prevent himself from falling, his legs barely able to hold him as those delightful tingling sensations coursed through him like wildfire. He could feel his cock keep spitting, dumping torrents of spunk into his mother's clutching canal. Even as she shook and gasped through her own climax, he could feel those talented muscles inside her mature cunt gripping him in a titillating massage, the hot coital walls drawing as much cum out of him as she could.

When they were finally done, he felt his mother move as she looked over her shoulder. "That was amazing, Seth, but I want to give your sister a nice warm treat."

Seth knew exactly what she wanted to do, so he took a step back, his cock coming out of her in a slippery rush. She instantly scrambled onto the sheets and, facing the bottom of the bed, she slung her leg over Dani's face, who'd been lying there watching them as she recovered from own orgasms. "There you go, baby girl, a nice big load of your brother's cum for you," Sonya said as she looked down between her legs, her cum-filled pussy poised right over Dani's face.

Seth watched as his mother pressed down. As a long slimy ribbon of cum started to drool forth from between her slippery lips, Dani eagerly opened her mouth, letting the milky treasure slither right into her open mouth and onto her waiting tongue. A second strand of semen followed that one, and then a third. At that point, his mother dropped her gooey snatch onto Dani's face, wriggling her backside as she sat right down in the saddle. Seth knew from the glassy look in his mother's eyes that Dani already had her tongue working deep inside her cum-filled snatch.

"C'mere, baby," his mother said to him as she nodded to the spot in front of her between Dani's spread legs. "Now it's my turn to clean up that beautiful cock of yours for you."

Seth scrambled onto the bed and took his place between Dani's nylon-clad thighs. With Dani still sucking noisily at her gooey twat, his mother leaned forwards and started licking his spent cock, lapping up the combined juices of her and his sister, as well as the silvery ribbons of cum still clinging to his tumescent prick. Her talented tongue felt glorious as she licked and sucked. Seth couldn't help himself as he slid his hands forward and filled them with her huge tits once more. Once she had him cleaned up, she slid her soft pouty lips over the pebbly glans and started sucking, taking more and more of his cock into her mouth as she rocked back and forth, grinding her flushed mound all over her daughter's face at the same time.

Under his mother's skilful manipulation and talented tongue, it didn't take long for her to have Seth hard and ready for action once more. When he was ready, his mother orchestrated the next scenario. She stayed on her hands and knees but faced the other way on the bed, with

Dani lying beneath her. As Seth shuttled his long hard cock in and out of her doggie-style, Dani lay beneath them on her back, her eager young tongue working on the juncture of their combined bodies.

Seth's mother insisted that Seth stop fucking her every so often, pulling his cock all the way out and angling it lower, sliding it all the way down Dani's silky throat for a few strokes before driving it back into his mother's needy cunt.

*

They kept it up like this for the rest of the night, Seth fucking both of them in more positions than he could imagine, including sliding his oiled-up prick between both sets of stupendous tits one after the other, finally blowing that load all over their faces as they kneeled side by side next to the bed.

It was late at night before Seth finally dropped off to sleep, blissfully content but totally exhausted. He'd lost track of how many times he'd come today, but he knew he needed to recharge his batteries. The last thing he remembered before he drifted off to sleep was seeing Dani on her back beside him, with his mother leaning over her, Dani's hands caressing his mother's big heavy tits as she sucked enthusiastically at one of those big stiff nipples.

Seth was roused from dreamland in the middle of the night by a delicious warm feeling. Through sleepy eyes, he saw his mother sleeping beside him before he looked down. There was Dani, bobbing up and down on his fully erect cock. She must have been doing it for

some time, because less than a minute later, he flooded her mouth with a big dose of spunk, hearing her swallow and gargle nastily as that load splashed over her tonsils. He drifted off again immediately.

The next time he woke up, he saw the early morning light drifting in lazily around the edges of the curtains. He heard a girlish giggle and saw his mother and Dani disappear hand in hand into the en-suite bathroom. Seconds later, the lulling sound of the shower running easily coaxed him back to sleep. He woke up some time later, feeling groggy but happier than he'd felt in his whole life. There was no sound coming from the bathroom, and not a soul in the room other than him.

Figuring a bit of modesty might be appropriate for the morning, he padded down the hallway to his bedroom and donned a pair of his loose flannel boxers and a comfortable old t-shirt. He made his way quietly towards the kitchen, the alluring scent of freshly-brewed coffee making him come alive. He rounded the corner to see his mother sitting at the table, her fluffy white robe wrapped around her. She had a steaming cup of coffee on the table in front of her, her fingers circling the cup. She was leaning back slightly in her chair, her hair still damp and glistening from the shower. Her eyes were closed, as if she'd dropped off to sleep. Seth saw a second coffee cup on the table, and two plates with toast crumbs, but no Dani. "Maybe she's gone to her room," he thought.

"Good morning, Mom," he said softly as he walked over to the cupboard and grabbed himself a mug. He grabbed the pot from the coffee maker and poured himself a cup as his mother opened her eyes and looked over at him.

"Good morning, baby. Sleep well?"

"Like a log," he replied as he walked over towards her. "Where's Dani?"

His mother nodded forwards. "Under the table. She asked if she could have a little snack after breakfast. She's already made me come once, and now she's working on a second one."

From the angle that Seth had come into the room, he hadn't been able to see beneath the table. But now, as he took a step closer, he could see that his mother's legs were spread apart with the tails of her long white robe draped to the sides. He could see Dani's blond hair and the sides of her face between his mother's thighs, her mouth working busily on the older woman's pussy.

"Here, baby, sit here and give Mommy a kiss for a second," Sonya said to him as she nodded to the spot next to her.

Seth pulled the chair from Dani's usual spot and sat down. He leaned over and gave his mother a warm passionate kiss. As she mewed her approval, he automatically slid his hand inside the folds of her robe and started to fondle her breasts, his thumb and forefinger teasingly toying with her nipples.

"Mmm, now that's the way to start the day," Sonya purred as she rolled her hips against Dani's working mouth. "When she's done with me, we'll have her suck a load out of you. How does that sound?"

"Perfect," Seth replied before moving in for another kiss, his hand caressing those mammoth tits once more.

When Dani had finished with her mother, she turned her attention to Seth. As Sonya made her son some bacon and eggs, his sister was busy beneath the table, taking that full morning load for her breakfast.

*

It was three hours later before they saw each other again. With the pandemic shutting down the schools, Sonya insisted the kids put in the required number of hours every day that the school board had set out. Knowing they'd be too much of a distraction for each other, she'd sent them to their rooms, with the promise that they'd have a 'sex education' class later in the day, with her as the teacher. Reluctantly, they both went to their rooms, knowing the sooner they got their daily work over with, the better, both of them keen to find out what their mother had in store for them next.

Sonya kept busy as well. She had her own work to do for the investment firm. With them in their rooms, she set up as usual at the dining room table, her laptop open, doing her best to try and concentrate on the work before her, but failing miserable. She forced herself to take her mind off Seth and Dani, as hard as it was. She knew the work she had to do wouldn't get done on its own. And so, like the kids, she powered through it, wanting to get it over with as quickly as she could.

It was late morning when, with a smile on her face and a nagging itch between her legs, Sonya shut it down, closing her laptop and putting it to the side. She went to each of the kid's rooms and told them to put their bathing suits on. She told them that since they'd been working so hard, they deserved a break and a little reward. She'd ordered pizza and they were going to have a little picnic out by the pool. It didn't take long for Seth and Dani to shut down their computers and put their books away, eager to see what their mother wanted to do next.

The pizza arrived just as they all finished getting ready. It was Sonya that answered the door this time, giving the pizza delivery guy an eyeful of her generous charms as she opened the door, dressed only in her white bikini. Like with Dani the day before, this young man was struck dumb by the shocking sight before him, of the sexiest MILF he'd ever seen, with a gorgeous face and a huge set of tits just barely contained by her tiny bikini. The three of them watched through the window as he too couldn't contain himself, barely backing out of the driveway before he had to pull to the curb and jerk off a load.

They feasted on the pizza as they sat around the patio table next to the pool, eyeing up each other hungrily. Seth thought the two of them looked incredible. Dani wore a gorgeous yellow bikini that brought out the gold in her lustrous blond hair. The tiny yellow triangles of the bikini emphasized her substantial curves, which had Seth's prick on the rise just sitting across the table from her.

His mother looked even more stunning. The brilliant white of her bikini stood out in bold contrast to her smooth tanned skin. The top barely covered her enormous tits, the soft cups not even making an effort to hide her pronounced nipples. The bottoms rode extremely low on her

hips, exposing her flat stomach and the glittering jewel she wore in her navel. Tiny bows adorned the points on her wide mature hips where the bikini bottom fastened. To Seth, those two little bows just seemed to be crying out for his fingers to reach out and pluck them open, exposing the glorious pleasuregroove lying beneath.

With lunch over, Sonya retired to one of the loungers. She grabbed a magazine and donned her sunglasses while the two kids dove into the water, splashing and chasing each other back and forth in the pool as they often did.

After a little while, Sonya noticed an unusual quiet, not what she was used to at all from those two kids of hers. Lowering her magazine and peering over the top of her sunglasses, she saw Seth sitting on the edge of the far side of the pool, facing towards her. He was leaning back slightly, his arms straight behind him, his eyes looking right at her, a sly smile on his face. His swim trunks were on the pool deck next to him. Still in the pool and with her back towards Sonya, Dani was between Seth's spread thighs, her head bobbing up and down. "That looks like fun, sweetheart," Sonya said to her son as she kept her eyes locked on Seth's, at the same time spreading her legs to give him a perfect view up into her cockpit, where she saw his eyes eagerly went. "Send her over here we're you're done with her. I could do with a little of that too."

Sonya emphasized what she'd said by taking her sunglasses off and tossing her magazine aside, and then sliding the red-tipped fingernails of one hand down over her body, stopping to give her breasts a warm squeeze before going lower. She traced the tip of her middle finger

teasingly over her tanned midsection before sliding her whole hand inside her bikini bottom.

Seth watched her hand start to move beneath that tiny white piece of material, her sexy blue eyes locked on his as her hand moved teasingly, looking like a little animal burrowing away under there. Just watching the lurid act had Seth going off in his sister's mouth in no time. He sent volley after volley into Dani's sucking mouth, watching her gobble up and swallow as much as she could, and then licking his cock clean of the milky gobs that had eeked out of the corners of her mouth.

Seth helped Dani out of the pool and the two of them made their way over to their mother. "May I?" Seth asked as he reached down and toyed with one of the little bows at his mother's hips.

"Be my guest," Sonya replied, giving him an approving smile.

Seth plucked each of the little bows open while Dani got to her knees at the foot of her mother's lounge. Seth peeled the front panel of the bikini bottom down, exposing his mother's warm pink mound, the whole thing glistening already with her flowing juices.

As Dani dove right in and started feasting on her mother's juicy snatch, Seth pulled up a chair and sat next to his mother. At her prompting, he reached over, sliding his hand right inside one of the sinfully soft cups of her bikini top, finding her nipple stiff as a bullet.

"You know, Mom, I was thinking," he said as his mother sat back and let her two kids have their way with her. "You know how they say you can have up to five people in your 'bubble'?"

"Yes," Sonya replied as she reached down and ran her fingers through Dani's hair, moving her daughter's mouth up just a touch so the girl's lips were now working on her clit.

"Well," Seth continued, "I was thinking maybe we should ask Grandma to come and be in our bubble."

Sonya couldn't help but smile. It certainly wasn't hard to figure out her son's ulterior motive for making such a suggestion. Sonya's mother, Carole, even at her age, still had a stunning figure. It was her that Sonya had taken after when it came to her physical attributes. Her mother's breasts and big curvy bum were just like Sonya's, and maybe just a bit bigger. But her mother wasn't fat by any means, just a beautiful older woman who could definitely be described as 'curvilicious'. Yes, Seth definitely had a personal reason in mind when it came to making such a suggestion. But then again, he was her son, and she was quickly finding out he was more like her than she'd ever thought.

"So, how did you come up with that idea?" Sonya asked teasingly, interested to see what Seth would have to say.

"Well, Grandma's all on her own, and she's been retired like forever, so she doesn't have to go to work or anything. Our spare room is sitting right there empty, and it's not like we're going to have any visitors anytime soon." Seth paused as his mother nodded. Yes, nobody would

be coming to stay with the pandemic roaring across the nation. "And, being all by herself, Grandma must get lonely, don't you think?"

"And you could be good company for her, is that what you're thinking?" Sonya could barely keep the knowing smile off her face.

"We all could be. I think it would be good for her to have other people around. People who love her."

"Or people who want to fuck her, her well-hung grandson in particular," Sonya thought to herself as she finally gave Seth the smile he'd been waiting for. "Hmm, maybe you've got something there. You're right, I'm sure Grandma does get lonely. She's been on her own since Grandpa died." She paused as she saw Seth's eyes light up with excitement. "The trouble is, I know Grandma has a bigger lingerie collection than I do. Maybe you can clean out some space in your drawers and she can move in with you."

Seth knew his mother could see right through him at this point, but he smiled back at her and played right along. "I'll do whatever I have to do to make all of the women in this family happy," he said with an innocent shrug of his shoulders, "even if it means sharing my bed with Grandma."

"I bet you would," Sonya said, a big smile on her face as she winked at her son. "Now, stand up and show that big cock of yours to me. If you can jerk off and spray that load all over my face and tits within five minutes, I'll call Grandma tonight."

Seth was on his feet with his hand wrapped around his cock in a warm loving corridor within seconds. With Dani enthusiastically servicing her juicy cunt, and Seth stroking his cock towards her, Sonya reached down and drew one of her massive breasts out of her bikini, lifting it to her mouth and wrapping her lips around the stiff nipple. As she did, she looked up and gave her son a sultry look that he felt right down to his balls.

With visions of his gorgeous grandmother and her gigantic tits dancing through his head, Seth only needed three of the allotted five minutes to give his mother what she wanted, a massive load of sizzling teenage cum sprayed all over her face and tits.

"I guess I'll be making that call to Grandma after all," Sonya said as she wickedly ran her tongue all around her cum-spackled lips, dragging as much of her son's thick creamy semen into her mouth as she could.

Seth took a step back, his mind spinning with lurid thoughts as he wondered how things would be with his sexy grandmother thrown into the mix...but that's another story...
