## CHAPTER FIVE

"I think I might be able to arrange that," her grandfather said as he pushed himself out of the chair and stood up. He took Zoey's hand and helped her to her feet. Once she was standing, he surprised her as he pulled her close and lowered his mouth to hers, giving her a deep passionate kiss as his immense body enveloped hers.

"Ohhnnn," Zoey groaned with pleasure as she eagerly returned the kiss, swooning with delight as her grandfather pulled her against him, her breasts mashing against his powerful chest. He kissed her for a long time, making Zoey feel feverish with arousal. He slid one hand up the front of her body and cupped her breast, his thumb flicking over the stiff bud of her nipple as he hefted the sizable orb.

At the same time, Zoey instinctively reached for his midsection, her libido firing like crazy as she found his immense cock still hard as a rock. "Mmmnnn..." she moaned deep in her throat as he kept kissing her, her hand starting to stroke slowly back and forth along the full length of his thrusting erection, still amazed at how long that stallion-like cock was.

As she kept stroking his cock, she felt his hand leave her breast and slide down her body, his fingers slipping beneath the bottom edge of the chemise and over the front of her panties. All of sudden, he tensed up.

"What are these?" her grandfather said as she felt his fingers toying with the leg opening of her panties.

"Wha...I...I don't...?" Zoey stammered, not sure what was going on.

"These panties weren't part of what was laid out for to wear, were they?"

"N...no," Zoey said, her voice taking on an apologetic tone. "I...I just had them on when I was wearing that yellow dress earlier."

"That's fine this time, sweetheart, but from now on, only wear what's laid out for you. All right?" her grandfather gave her a tender smile now as she felt him reach around and start to pull her panties down.

"Okay, I'm sorry. I...I didn't know."

"That's fine, my dear. I understand," he said as he took her panties off right over her high heels and tossed them aside. He stood back up and gently took her face in his hands and kissed her tenderly. Zoey loved the show of affection and, at that moment, it felt like exactly what she needed. They were both smiling softly as he drew back and looked into her eyes.

"I love you, Zoey. I only want to make you happy. And trust me, while you're here, I'll make sure you get exactly what you need."

Zoey felt her heart swell with emotion as he kissed her tenderly on the forehead. "I love you, Grandpa, and I'll do whatever I can to make you happy too." She glanced down at his throbbing horse-cock, thrusting up almost as high as her breasts. She gulped, the thought of trying to take that monster inside her young body both exciting, and terrifying. "Or at least I'll do my best."

"I'm sure you'll do just fine. You're built just like your mother, and if she can take it, I'm sure you can too. Now, kiss me once more."

Feeling more loved than ever, Zoey threw herself at her grandfather with abandon, pressing her lips to his as her arms flew up around his neck, holding him close. Her tongue was eager and willing as she feathered it into his mouth, their kiss making her even hotter with longing.

"Yes, I think you definitely need another dose of medicine," her grandfather said as he finally broke the kiss, leaving Zoey gasping and breathless. He led her over to the bed. "Now, what did I say earlier? When you want to get fucked, I expect you to be on your back on this bed with your legs spread-eagled. So, get on your back and get those legs in the air. I want to make sure this dose of medicine does the job better, so I'm going to give it to you internally."

With her heart beating like crazy and her body flushed with arousal, Zoey pulled down the covers, exposing the burgundy sheets beneath. She clambered onto the bed and rolled onto her back. With her grandfather's eyes locked on her reclining form, and his cock thrusting up before him, she drew her knees back, the dagger-like heels of her pumps dragging erotically across the sheets. She looked up at him as she slowly let her knees drift open to each side, the bottom of chemise sliding higher and higher on her spread thighs.

"Oh yes, very nice," her grandfather said as he clambered onto the bed, his eyes feasting on the sight of her juicy pussy, her pouting pink labia shining with her juices. "I love that you keep it shaved like that, it reminds me of the sweet little girl who used to love to visit and feed those baby goats all those years ago. But now, let me check and see how much that little girl has grown up."

With her head propped up on the pillows, Zoey watched as her grandfather moved in closer between her spread thighs as his hand reached out for her. He toyed with the outside of her glistening peach first, his big fingers sliding teasingly over her slippery mound, his index circling provocatively around the erect spire of her clit but purposely not touching it, which was making Zoey want to scream with need.

"Nice and wet, I like that," her grandfather said as he slid his middle finger between her slick petals and deeper inside her.

Zoey was gasping as he slid his finger along the roof of her vagina until he had it buried to the third knuckle. She couldn't believe it; his finger was bigger than many of the cocks she'd had inside her!

"Nice and tight, and hot as a furnace," he said as he started to slide his finger back and forth. "Let's see if we can stoke that furnace and make it even hotter."

Zoey felt helpless as he really started to work on her with his fingers, but she wouldn't have changed a second of it. As he slid his long thick finger in and out, he started to slowly spin the tip of it in a circle, his finger pressing deliciously on the trigger points inside her. Zoey had already

been so turned on by their hot kisses, and sucking his cock before that, that she felt the mercury rising in a flash as her pleasure level escalated.

"Oh god, Grandpa, that feels so good," she groaned out as she closed her eyes and surrendered herself to the pleasure he was bringing her. Her backside was shifting about restlessly on the sheets as he brought his other hand to her slippery mound, wetting his fingers with her juices. With the finger of one hand sawing in and out of her dripping cunt, he started to toy with her pulsating clit, his slick thumb and forefinger coming together on the erect bud.

"OH FUCK...SO GOOD...SO FUCKING...AAAAAHHH!" Zoey gasped loudly as she started to come. With her high heels digging into the mattress, she thrust her hips upward, working with him as his long thick finger rubbed back and forth inside her. She was gripping the sheets tightly as her body twisted this way and that, her climax starting deep in her needy twat and blossoming to every tingling nerve ending.

"That's a good girl, come hard for your old Grandpa," her grandfather said as he kept toying with her, his fingers feeling incredible to Zoey as he kept working on her.

Finally, the delightful tingling sensations started to ebb away and Zoey felt her body collapse back into the bed, her clenched fingers letting go of the sheets. She looked up at her grandfather through glassy eyes, feeling blissfully content.

"I think my little granddaughter liked that," her grandfather said, his fingers still moving gently over her sopping mound.

"Oh Grandpa, I loved it. That was wonderful," Zoey cooed, feeling totally at peace with the world.

"Well, since you liked it so much, let's just see if we can give you another one for good luck."

Before Zoey could say a word, he was back at her, his fingers starting to work their magic once again. As soon as he started, Zoey literally became putty in his hands, her body molding to his wishes as he had her revved up again in no time. It only took a couple of minutes before his talented experienced fingers had her climbing the walls, her body thrashing about like a ragdoll as he made her come once more. When she finally came down from this one and was able to slowly open her eyes, she saw him reach down and grasp her ankles in his hands.

"I think you're ready for this now," he said as she saw him nod to his midsection.

Zoey's eyes followed his, her gaze alighting on the angry crimson crown of his throbbing erection, the immense cannon thrusting over her young body. With her heart pounding with anticipation, she watched as his big hands lifted her legs right up and then spread her wide open, her high heels pointing at the corners of the ceiling, just like she'd seen him do with her mother.

"You steer," he said commandingly.

She remembered the same command from her Uncle Ted when he'd fucked her on the back of the ATV, and it wasn't hard to figure out who he'd learned it from. Zoey did as he asked, reached out and circling her little hand around his cock, the pulsing lance as hot as a poker. It was throbbing so hard that it was difficult to pull it down, but she gripped it harder and brought the engorged cockhead to her dewy flower, rubbing the massive knob between her dripping labia. She felt him immediately take over, flexing his hips slightly forward, nestling the broad flared head a bit further

inside, just enough to allow her to let go. She quickly reached out to each side, clenching the sheets in her fists once more in anticipation of what she knew was coming.

"Oh yeah, such a hot little cunt," her grandfather said as he started rocking his hips, forcing his cockhead to start stretching her open.

Zoey quickly glanced down to see the pink lips of her pussy tightly circling the invader, stretched taut by the immense girth of his rigid fuckstick. Every time he rocked back, she could see the thick shaft glistening with her juices, and then he'd flex forward, giving her a bit more each time. She started to breathe heavier as he kept going, the long, flared head now fully inside, her labia adhering tightly to smooth shaft beyond the crown.

"Feels like I'm gonna have to open you up a bit more," her grandfather said as he continued to sit on his haunches between her spread thighs, but leaned slightly forward as he pushed her legs further back towards her shoulders, tilting her hips up for what Zoey knew would be his forthcoming assault. Holding her legs spread wide apart and back, he levered his hips more forcefully now, powering his massive cock into her hot young cunt with one slow merciless thrust.

"OH FUCK..." Zoey gasped out as she felt her pussy being stretched and filled like never before, his cock straining against her tight coital walls. "SO BIG...SO FUCKING BIG..."

"Don't worry, I know you can take it," her grandfather said confidently as he kept going, his broad hips continuing to move consistently forward as he proceeded to fill her up.

Zoey wasn't so sure about his opinion, worried that pretty soon she'd be split in two, his cock was just that fucking huge. The pain was definitely there, but she could already sense the feeling of tremendous pleasure this cock was capable of giving her. She could feel the delightfully intense sensations building right there already, right there deep inside her, if she could just take it, take every last hard beautiful inch. After watching what her grandfather had done to her mother, Zoey knew how badly she wanted it, wanted all of it so bad she could almost taste it.

After another minute or so, he slowed to a stop, and Zoey could tell that he had reached the point of the biggest cock she'd ever taken inside her, the way beyond that tight and unyielding; virgin territory.

"Just try and relax while you get used to it," her grandfather said as kept buried inside her to that point, the further depths of his granddaughter's tight young cunt barred to him, but Zoey could tell from the knowing look in his eye that this wasn't the first time he'd had a woman have trouble taking a cock the size of his, and there was no way he was going to stop.

"I know it's pretty big to fit into that sweet little hole of yours, but how is it feeling so far?" he asked as he rolled his hips salaciously, making her eyes roll back in her head as he forcefully stirred her insides.

"It...it feels incredible," Zoey said with a groan as she looked down between her spread legs, a good four inches of thick cock still outside her.

"Maybe a kiss'll help loosen things up," her grandfather said as he loosened his grip on her ankles and lowered her feet to the bed, her high heels digging into the mattress with her knees still spread wide apart.

With a devilish smile on his face, Zoey's grandfather leaned right down over her in the push-up position, his powerful chest pressing against her heaving tits as he lowered his mouth to hers. Zoey reached up, her fingers gripping his broad shoulders as she opened her mouth and willingly accepted the passionate kiss. He was an incredible kisser, and Zoey felt herself swooning as their mouths entwined and his big body lovingly enveloped hers.

"Maybe these need some attention too," he said as he lifted up slightly and smiled down at her as his big hand ran up the front of her body, his long fingers doing their best to cup one of her huge breasts, but even a hand the size of his was not up to the task when it came to tits as massive as hers. Zoey felt him push the material of the soft chemise cup to the side, exposing her breast to his view.

"Beautiful," her grandfather said as he ran his fingers over the velvety-soft skin of the big round globe, his thumb rubbing teasingly over her nipple. They'd already been throbbing with arousal, but Zoey could feel them get even stiffer. It felt even better when he leaned down and took that puffy bud into his mouth, his thick tongue rolling over the rubbery button as he bathed it with his spit. Zoey gasped at the sensation, and a minute later he'd done the same to its partner, both of her voluminous breasts spreading across the full breadth of her chest. As his teasing mouth moved provocatively from one to the other, he rolled his hips once more, making sure she knew this was only the preview of the main attraction soon to come.

"Oh god, that feels so goodddd..." Zoey cooed as her head tipped back into the pillow, arching her back up as his lips and tongue devoured her heavy round breasts, her nipples tingling with delight.

"You have gorgeous breasts, Zoey," her grandfather said as he gave each nipple one more delicate suck before leaning back, "but I'm going to fuck you now, and you're going to take every last inch. I can tell that you're ready."

Zoey didn't know how, but she trusted his experience as he raised himself up on his strong arms and looked down at her, his penetrating dark eyes looking right into hers. "Now, just relax and let me in, sweet thing. Think about how good this is going to feel once you're totally filled up with thick hard cock."

His words made Zoey almost come right there on the spot, but as he started to flex forward once more, she grabbed hold of his shoulders and held on for dear life as he forced himself into her. With his eyes locked on hers, she felt the tight tissues way up inside her start to yield, oily juices from the tight folds of flesh deep inside her bathing his battering ram of a cock, inviting him to go deeper.

"Yes, that's it...that's the way," her grandfather said as they both looked down between them at their connected bodies.

Zoey's eyes opened wide and her clutching fingers dug into her grandfather's shoulders as she watched those last four inches disappear from view, one inch at a time until she felt his midsection press up against her flushed mound, at the same time as the blunt head of his cock kissed the gates of her womb. The incredible sensation of being filled like never before, and just knowing she'd taken every exquisite inch of that enormous cock, was enough to send Zoey tumbling over the edge, a mind-numbing climax starting deep in tightly-stretched cunt and blossoming like a nuclear bomb to every tingling nerve ending of her body.

"OH FUCCGGGGKKK!!!" Zoey moaned loudly as she went off, her body gyrating and convulsing like she was having a fit. Her body was thrumming and she was gasping like a runner at the finish line,

her big tits heaving up and down as her climax rolled over her in powerful waves. Her eyes were closed tight and she twitched and shook, wave after wave of intense pleasure racking her young body. She came for a long time as her grandfather kept himself buried full length inside her, that horse-cock of his stretching and filling her clutching canal. The blissfully shattering sensations slowly started to dwindle, and Zoey was able to look up at her grandfather, her eyes glassy with pure contentment as she slowly recovered.

"Did you like that?" her grandfather asked as he rolled his broad hips, the head of his cock rubbing provocatively against the hot folds of flesh inside her virgin depths, giving Zoey a delightful sensation she'd never felt before.

"Ohhhn Grandpa, that feels so good. I absolutely love having you inside me like this. I've never come so hard in my life. I just feel so full, and so...so alive," Zoey replied, pulling his face down to hers and kissing him gratefully.

"Would you like a few more like that one?" he asked as he drew back a few inches and then slowly pressed it all the way into her again.

"Oh fuck...yes please..." Zoey said with a groan as she instinctively flexed her hips up to meet him, grinding herself against the rock-hard pillar buried inside her.

"Well, since you've been such a good little girl, I'll see what I can do."

Zoey slid her arms behind her grandfather's neck and held on as he drew all the way back, a nasty wet sucking sound coming from their connected bodies as more and more of his cock came into view. She looked down to see the veiny shaft glistening with her juices, and then, with just the enflamed knob still inside, he reversed direction and hammered that huge cock into her, giving her all of it in one powerful thrust.

"OH FUCK YESSSS!" she hissed loudly as her eyes closed against the savage intrusion, but she felt her body responding instantly once that incredible cock had touched ground zero once more.

Her grandfather started to get into a steady rhythm, fucking her good and hard, just the way Zoey liked it. He was alternating long-dicking her with a series of rapid short thrusts, all but destroying that hot young cunt of hers. But Zoey loved it, loved every exquisite cunt-tingling second of it. As he drove his body up and down on top of her, she planted her feet firmly on the bed and, with her high heels digging erotically into the mattress, she flexed her hips upwards, meeting him thrust for thrust, wanting to make him feel as good as he was making her feel.

"Oh yeah, that's my girl," he said between thrusts as he kept pumping her deep, the rope-like coronal ridge around the edge of his cockhead making Zoey's body sing with delight as he drove it savagely back and forth over the clutching folds of flesh inside her.

"OH MY GOD...I'M GONNA...I'M GONNA...AAAAHHHH..." Zoey shrieked as another orgasm tore through her. Paroxysms of pure pleasure shot through her spasming young body as she exploded, wondering why she wasn't coming apart in a million pieces, the sensations were that intense.

But still her grandfather kept pumping, feeding inch after thick hard inch into her gripping cunt as she babbled and shook like an epileptic. Zoey came again, reaching out and clasping the sheets in a death grip as she wailed through another climax. After this one, she brought her feet back up and locked them over his muscular bum. She flexed her hips up and down like a bucking bronco,

impaling herself on that magnificent skewer, using the muscles inside her talented young cunt to grip and massage her grandfather's stallion-like cock.

"Get ready, baby girl, gonna fill you up," her grandfather said as he looked down at her.

Zoey could see the wanton lust in his eyes as he took a deep breath and savagely thrust into her again and again, the bed squeaking and groaning and protesting with every pounding thrust. Zoey could tell he was close, and she rolled her hips provocatively, letting him know she was equal to the task as she ground her steaming cunt up against him.

"Oh fuck, yeah, you are a hot one, aren't you?" her grandfather said with a knowing smile as he drew back and slammed his hips forward harder than he ever had before.

As his body slapped into hers, Zoey was sure the bed was about to give out beneath them. But it held true, and he drew back once more.

"OH FUCK YEAH...TAKE IT!" he roared as he thrust forward just as hard, the blunt head of his cock bumping with a loving kiss against the opening of her cervix as he started to go off.

Zoey could feel him coming, his cum shooting out of him so powerfully that it almost felt like he was filling up the depths of her vagina, the tissues inside her stretching to receive the massive load like he'd fill up a condom. Zoey's pleasure level had been rising right along with him, and when she felt that first wave of semen spew into her, Zoey came right along with him, her nails digging into his shoulders and her legs locked around his backside, pulling his body closer to hers as they shared the rapturous pleasures of a mutual orgasm.

Zoey could feel her grandfather's cock throbbing and pulsing inside her, spewing rope after sizzling rope of sperm-laden semen inside her, totally filling her up. Her big tits were heaving as she tried to catch her breath, the big round orbs mashed against his thick chest as he pressed against her. Zoey's body was covered with a fine sheen of perspiration as she laid there, a smile of pure contentment on her face as she felt her grandfather pour everything he had into her, his thick milky seed already backed up and leaking out of her. With his cock still buried to the hilt, she could feel the slimy discharge seeping out of her and running down her backside. It felt to her like he must have shot a pint of the stuff into her. Finally, the pulsings slowed, and she held him tight, her clenched fingers relaxing their grip on his shoulders as she looked up into his eyes, knowing he could see the love she had for him in her gaze.

"So, I guess you liked getting that dose of medicine too," her grandfather said as he leaned down and gave her a tender kiss on the tip of her nose.

"Oh god, Grandpa, I...I've never been fucked like that before. I thought I was gonna pass out once or twice there."

"I'm glad, sweetheart, and don't worry, I'll take good care of you. Now, you said a few minutes ago you still weren't feeling all that well. I think I know what to do to help with that."

Zoey lay there as her grandfather backed out of her, that lewd wet sucking sound accompanying his cock as he pulled it right out, a huge gush of cum jetting out of her like a dam giving way. She saw him reach between her legs, trying in a vain attempt to catch what he could in his hand before it spilled onto the sheets in a cloudy mess.

"Here," he said as he clambered up next to her face and sat back on his haunches, bringing his cum-coated hand forward.

Zoey knew exactly what to do and eagerly leaned forwards, her lips and tongue searching out the milky puddle in the palm of his hand.

"SLLPPP!" she pursed her lips forward and pressed them into the warm puddle of cum, her mouth making a nasty slurping sound like someone sucking up a strand of spaghetti.

"That's a good girl, get it all," her grandfather said as he nodded towards his cummy hand.

Zoey didn't need the encouragement, there was no way she was going to let any of his warm seed go to waste. She licked his hand clean, and then turned to his cock, the long heavy pole glistening with her warm juices and strands of his silvery spunk.

"Get all of that medicine inside you too. We don't want to have to tell your mother you got sick on the first day now, do we?" her grandfather asked teasingly as he took her head in his hands and brought it to his cock.

"Mmm," Zoey purred like a kitten as she lapped at his tumescent cock. With his big hands cupping her head and guiding her, she licked the lance from top to bottom, gathering in the sticky wads and ribbons of jizz, her stomach feeling bloated from all the cum he'd given her tonight.

"You know, Zoey, you still seem a little hot and flushed," her grandfather said, a serious tone in his voice as he placed the flat of his palm on her forehead. "Yes, it doesn't feel quite right. I think it would be a good idea if I took your temperature. But for an accurate reading, I think I need to do it anally. It's a good thing I just happen to have my thermometer right here." He took her head and brought her mouth to the tip of his cock, his huge member still standing at about half-mast straight out in front of him. "Do you think you'd like to help get it ready for me?"

"Oh god, yes," Zoey said with a low moan as she swooped down on his cock, her mouth opening wide as she took the big puffy head into her mouth.

"Oh yeah, that's it," her grandfather said as he started to pull her head back and forth, helping her work his stiffening cock deeper into her mouth. Zoey pushed another wad of saliva to the front of her mouth, her lips and tongue worshipping his rising member. "Just keep doing that. Get that thermometer good and hard so I can take your temperature nice and deep."

Zoey loved the way he took control, sitting there on his haunches as he steadily pulled her mouth however he wanted, flexing his hips up slightly as he slid his thickening cock in and out of her stretched lips. Zoey felt totally at ease with the way he was using her, using her mouth and face like he was jerking off, moving her whole head back and forth like a pumping hand. His prick quickly stiffened, the magnificent member getting longer and thicker until it became as hard as a steel pipe once more, and as big as one. Zoey was amazed at the endurance and stamina of this man. Not even the high school boys she'd fucked got this hard the third time around.

"There, that's perfect, time for the doctor to take your temperature. Turn over on your hands and knees."

With her heart beating wildly in anticipation, Zoey did as he asked, taking her place in the middle of the bed. She was still wearing the chemise and high heels, but with her breasts pulled free by his

groping hands earlier, the heavy orbs swung down pendulously beneath her, the stiff buds of her nipples almost reaching the sheets.

"We'll just need a little of this first," her grandfather said and Zoey watched as he reached over and opened the drawer in the nightstand next to him, one she hadn't had a chance to look in yet. He drew out a purple plastic bottle, and Zoey caught a glimpse of the name 'Astroglide' on the side as he held it up and squirted a generous amount onto his hand. He set the bottle down and started to smear the sticky lube all over his turgid cock, Zoey's eyes sparking as she watched it glisten menacingly, the dark engorged crown looking like it was about to burst into flames.

"Yes, we better make sure you don't have a fever," her grandfather said as he moved behind her and Zoey felt the fingers of his gooey hand slide over her puckered hole.

"Aaaah," she gasped as he pressed his slick fingertip against her little rosebud. Zoey knew what was coming and knew she had to concentrate on relaxing, or she'd be in the hospital faster than she could imagine. She loved anal sex, she always had, but she'd never had a cock anywhere close to the size of this one in her bum before. But she knew she wanted to try, try to take every last inch in her hot little hole. If her mother could do it, she could do it too, she thought. She leaned down slightly, the angle of her arched back opening up her backside to him even more. Taking a deep breath, she concentrated on relaxing her clenched little starfish as she rolled her hips backwards, pressing herself back against his probing finger.

"That's it, that's my girl. I can feel you opening right up for me."

Her grandfather accompanied his words by running the tip of her finger all around the shiny pink ring, and then pressed right in the middle of it. When that happened, Zoey took a deep breath and let it out slowly, relaxing that restricting muscle as best as she could.

"Oh yeah, that's the way. Just like sliding a hot knife through butter," her grandfather said, his words dripping with praise as his finger slid all the way into her.

Zoey felt proud of herself, but knew this was just the beginning. She concentrated on her breathing as her grandfather started to slowly saw his finger back and forth, and then he started to slowly spin it in a teasing circle at the same time.

"Ohhhnnnn..." Zoey moaned with pleasure as he touched some of those magical points inside her. If it felt this good with just his finger, she couldn't wait to feel the real thing. It quickly became obvious her grandfather had no intention of waiting either.

"You're definitely ready," he said as he slid his finger out of her. Zoey saw him reach down and rub his greasy fingers on the already-stained sheets. "Just relax now as Grandpa takes your temperature. The last thing I want is for my sweet little granddaughter to get sick."

Zoey felt the blunt greasy head of his cock nestling up against her rosehole as he flexed forward, making sure the tip was locked on target. His hands went to her wide hips next, and then she felt it start.

"Aaahh..." she gasped as the big mushroom head pushed forcefully against the constricting ring. Zoey was quick to catch her breath, slowly breathing out to steady herself as she concentrated on relaxing. Her efforts were worth it as she felt her sphincter stretch and stretch until the massive head popped right inside, her clutching hole locking down on the rigid shaft.

"Oh fuck, that is a tight little ass you've got there, isn't it?" her grandfather commented as he stayed still for a second, letting her get used to the invader.

Zoey couldn't believe how much he'd stretched her open, but it was a luxuriously good feeling too, knowing she'd gotten past the worst part and was still alive to talk about it. Feeling bolder, and wanting to let her grandfather know how much she wanted this, she lowered her upper body towards the bed as she arched her back even more, pushing her big round bum back against him as she did so.

"Oh my, you do want it, don't you?" her grandfather commented slyly as he met her movement, rolling his hips provocatively as he started to churn her insides like a batch of wet cement.

"I do, Grandpa, I really do. Please, fill...fill me up with it," Zoey groaned as she felt him start to push forwards, his long thick cock stretching her hot little chute like it had never been stretched before.

"I think I can do that for you, get you nice and full," her grandfather said as he kept going, his hands keeping a good firm grip on her hips as he slid his cock into her in one slow torturous stroke.

"OH FUCK...OH FUCK...OH FUCK..." Zoey was gasping with each inch he fed into her, and then found she'd dropped her head right down on the bed, her face turned sideways as she bit into a corner of one of the pillows. But she kept her big bum arched up, offering herself up to his ongoing assault.

"That's a good girl...just a little more...just a little...aah...yes...there we are," Zoey heard her grandfather say as his flat midsection bumped up snugly against her curvy bum, every inch of that huge cock sheathed inside her furnace-like rectum.

Just like when he'd bottomed out in her pussy the first time, when his immense cock finally stopped so far up inside her that she thought she could taste it, Zoey came. "OH FUCK...SO...SO BIG!" she cried out as the intense sensations had her spasming and thrashing about like a wildcat. She was clutching the sheets for all she was worth and biting down on the pillow as she came, wave after wave of euphoric delight crashing through her again and again. Her grandfather held his cock there, buried to the hilt as Zoey rode out her climax, finally coming back to planet Earth after a minute or two.

"I guess you liked that too," her grandfather said as he started to slide his cock back and forth, fucking her ass with only the furthest inch or two.

"Oh Grandpa," Zoey said as she looked back over her shoulder at her grandfather, her eyes half-closed and dreamy with post-orgasmic bliss. "I can't believe how full you make me feel. It feels just wonderful. I love it. I love that big hard cock of yours, Grandpa, please don't ever take it away from me." Zoey knew she was babbling, and found it hard to believe that what she was saying even made sense.

"Don't worry, darling, you can have as much of this cock as you want from now on...starting now."

Zoey felt him grip her hips even harder as he drew back, the flared head of his cock pulling temporarily on her tight little ring, and then he reversed his movement, giving it to her good and hard, just the way she liked. "OH FUCK YESSSSS!" Zoey hissed as he really started to hammer her, absolutely pile-driving it into her as he slammed her deep into the sheets.

Zoey had never experienced anything so savagely erotic and exciting in her life. It felt like grandfather was intent on destroying her ass, but she loved it, flexing her bum back against him as

he pumped and pumped, sending every hard thick inch way up into her steaming bowels. Zoey came for a second time, and then a third, her mouth drooling onto the sheets as she clutched at the pillow beneath her, her eyes clenched tight as the incredible sensations rocked her body.

"Oh fuck, yeah, gonna fill up that hot ass of yours, little girl," she heard her grandfather say as he reared back and hammered her, his midsection slapping up against her curvy bum with a resounding slap that echoed across the room.

His thrust was so powerful that Zoey couldn't take it. She felt her legs slip out from under her as she was driven right down into the bed. But her grandfather didn't stop, riding right along with her as he just kept pumping and pumping, his iron bar of a cock slamming balls-deep into her with every thrust. Zoey could feel her breasts being crushed beneath her, ample swells of tit-flesh being mashed out on each side of her prone body.

"OH FUCK...TAKE IT...TAKE IT ALL!" her grandfather wailed as he drove it into her one last time, his body slamming down on hers as his cock started to spit.

Zoey felt rope after rope spewing into her guts as he totally pasted her, a torrent of cum spurting into her bowels. She came again, the sensations too intense as she gasped and cried out, her body quivering and shaking as her grandfather collapsed on top of her, their connected bodies becoming one as they rode out their orgasms. Her whole body was just buzzing, and she muttered and drooled into the pillow as she kept coming, the tingling sensations shooting through her over and over before finally ebbing away, leaving her feeling numb and breathless, her grandfather's big powerful body pressing down on hers.

They stayed like that for quite some time, both of them breathing raggedly as their heart rates slowed. Zoey could feel her grandfather's heart beating against hers through her back, and she'd never felt closer to anyone in her entire life. She thought it was one of those magical moments that a person would remember forever. She thought this whole night had been like that, and she never wanted it to end.

"Well, I have to say," her grandfather said as he kissed the back of her neck and whispered tenderly into her ear, "that was just about the hottest ass I've experienced in my entire life."

"Even hotter than Mom's?" Zoey asked, giving her grandfather a playful look as she glanced up at him.

"I think the proper thing to say is that they're equally hot," he replied with a wink as he ran his big hand down her side and softly caressed one curvy bum cheek. "How does that sound?"

"Sounds fine to me, Grandpa, as long as you promise to let me try to be as good as Mom again."

"Oh, that's a promise I don't think I'm gonna have any trouble keeping," her grandfather said as he pushed himself up and moved backwards, his spent cock coming out of her in a slippery rush.

Zoey could barely move, knowing she'd been fucked in both holes within an inch of her life and thought like she was close to slipping into a coma, that's how thoroughly fucked she felt.

"Only one more thing to take care of," her grandfather said and Zoey felt him move up near the top of the bed. Through half-closed eyes, she saw him reach for the digital alarm clock sitting on the bedside table.

"There we go," he said as he put the clock back in place. "All set to go off fifteen minutes before everybody else."

"Wha...why?" Zoey was barely able to speak, her words mumbled as she didn't even have the strength to lift her head off the pillow.

"Because starting tomorrow," her grandfather continued, "you're going to get up every morning, come into my bedroom and wake me up by sucking me off. That's how we're going to start every day while you're here."

"Wha...I...I..." Zoey stammered out, her mind buzzing with what she was hearing.

"You'll get used to it quick enough," her grandfather said as he got up and started to gather up his clothes. "When you come, just wear what you're wearing on the night before, like that chemise you're wearing right now. And don't forget the high heels. I'll expect you to be wearing those as well. And a fresh coat of lipstick, of course."

"What about...what about Grandma Rose? Will she be sleeping in her sewing room?" Zoey asked, finally able to raise her head slightly.

Her grandfather shook his head. "Don't worry about your grandmother. It'll be fine. Now, have a good sleep, sweetheart, and I'll see you in the morning." He leaned forward and gave her a tender kiss on her forehead, like any loving grandparent would do to their grandchild. With that, he turned and walked out, his clothes and boots tucked under his arm.

Overwhelmed by being fucked beyond her wildest dreams, and thinking about sucking off her grandfather first thing in the morning, Zoey felt totally frazzled, fuck drunk, and unable to even move. She could only lay there, her legs spread wide apart, her backside exposed with the chemise gathered up around the small of her back. She could feel her grandfather's massive load start to leak out of her, and remembered seeing her mother in this same position last night, a glorious river of thick white cum oozing out of her mother's bumhole.

And tomorrow morning, while everyone else was still asleep, she'd be sucking her grandfather's incredible member, worshipping that rock-hard god of a cock that she knew she was already addicted to. Within seconds, Zoey fell asleep, her dreams full of watching rocket ships blast off, all the while sipping on a frothy banana milkshake...
