

## ROAD HEAD GIVING MOM

"So papa bear." Spoke a middle-aged mom to her husband in the family garage, "Do you think we'll make it to Florida by tomorrow if we leave the house soon?"

"I don't know honey." Said the man of the house to his wife, "Do you know were Junior is at though?"

"I'm not sure dear." She answered as Diamond finished packing lunches for the long car trip for a family vacation to the Gulf Coast of America, "I took care of his morning woody after I woke up this morning and haven't seen him since. I hope he still isn't sleeping. I might need to relieve him again papa bear."

In a certain household there lived some family members who practiced a thing called skinship. Through unlikely events told elsewhere Diamond, a busty mother of two, had somehow convinced her husband to allow her teen of age to treat her self-diagnosed nymphomaniac urges with his consenting cock whenever he was not around to please her himself. It didn't bother the dad at all as long as he didn't see what they did. As long as the lucky teenager stayed out of his mom's ass he had his father's blessing to beat up his mom's cunt with his erection because the

dad of the family said once: 'I already made kids honey so I'm done using that pussy'. It seemed unbelievable but that was how Junior, the luckiest teenager on the planet, got an all access pussy pass with his busty white stay at home mother.

"Wake up! Wake up! Wake up!" Said Diamond loudly after going into her teenager's bedroom to sling open his curtains in the morning, "How are you still sleeping mister after I woke you up with a sloppy blowjob earlier? You know today is our vacation day and you're still sleeping kiddo."

"Whoa mom." Groaned Junior as he awoke, "I'm sorry, I'll get up, I didn't mean to fall asleep again after you slobbered on my morning wood."

Diamond had mature and wise looking crows feet eyes with a happy, yet annoyed, expression as she looked at her teen still lying half-naked in his bed while she was already fully dressed in her comfortable road trip gear. She wore a hat with her straw blonde going out the back in a pony-tail. She wore sneakers, a light skirt, and a halter top with a long-sleeved shirt tied around her waist. Junior could make out the attractive shape of his mom's body in his room as he looked to the time to see he had overslept by hours.

"Crap," he said, "I need to pack or dad is going to be pissed."

"No time sugar bear." Said Diamond coldly, "You need to get some clothes on right now and brush your teeth and be in the car in five minutes. I'm sure you can wear your dad's clothes I packed. Now let's go."

"Did you ask dad about us getting a room together mom?" Asked Junior boldly, "I mean, at least a place for us to be intimate since he's okay with our... you know..."

Junior was nearly ashamed to say it out loud. Despite the fact he and his mom had been getting together intimately multiple times nearly everyday he still felt bad about fucking his mom for some reason even with his dad's verbal blessing under one condition: he could never fuck his mom's deep asshole.

'That asshole belongs to me'. The teenager remembered his dad saying once after he was given his all access pussy pass with his mom at home. Maybe he felt guilty.

"Why do I keep having to remind you young man?" Said Diamond as she threw her child some clothes off his floor as he rolled out of bed, "Your dad does not care what we do as long as

your ding dong doesn't go inside my bottom muffin. Now make your bed."

"Haven't we done anal like two or three times before by now though mom?" Asked Junior guiltily.

"Those were special one-off occasions your dad doesn't need to know about child." Said Diamond to her son, "Out of the hundreds of other times we've done it I think a little brown-eye action once and awhile isn't enough to ruin your all access pussy pass at home. Just make sure to never tell your dad. Alright, kiddo?"

\*\*\*\*

Downstairs in the household garage the family members were gathered. The SUV was packed with gear as Junior got in the backseat while his mom and dad sat up front. He had a backpack of underwear and socks with a book and nothing else. In a moment they were heading down the road towards a wide and bustling interstate with traffic driving by and Junior trying to read while overhearing his parents speak about their planned road trip and vacation to the southern most tip of Florida in summer. They had a long drive to go and there would be many stops along the way.

"Why again did we choose not fly?" Asked the man of the house to his wife after the second hour on the road passed, "We're wasting vacation time just going there and back dear. We could have flown and saved a lot of time you know."

"I like road trips though honey." Said Diamond before turning her attention towards the backseat to look at her legally aged teen reading, she stroked his leg to get his attention, "Besides, if we were flying I wouldn't be able to give our son all the special attention he's grown accustomed to ever since we started doing you know what at home papa bear."

"Honey, are you sure you want to do that right now?" Said the man of the house as he looked through the rear-view mirror to see his wife stroking her son's legs below his knees before pushing her hands up to his inner thighs through his shorts. "I know I said I don't care about what you do when I'm not looking but there are other cars on road going by us."

"Relax papa bear." Cooed Diamond as she poked her finger tips at her teen's cock through his boxers to probe for any hardness, a sensation which forced Junior to look up from his book to see his mom looking back and winking at him while his dad looked ahead and drove.

"The windows are tinted, right?" Asked Junior as he felt awkward at first about feeling his mom stroke his manhood through his boxers in the backseat of the car, "I mean, mom does have legitimate nymphomania, right? If she needs dick I'm happy to--"

"I could always give you some road-head if you want honey--" Interrupted Diamond.

"No way!" Said the man of the house as he interrupted his wife's offer, "You suck on me way too hard nowadays honey. I would crash the car if you tried any funny business now."

"I need to feel something inside me though honey!" Complained Diamond, "It's been over two hours and you know how my stomach feels if I don't feel penetration. I only sat up front because I thought you wanted to receive road-head honey on the road. After all, you're doing all the driving to Florida."

"Junior, please take care of your mom for me." Said the dad of the family, "I'll just turn on the radio so I don't hear you two fooling around and apparently your mom is having another of one of her hot and heavy episodes. Help me out son."

"What do you mean dad?" Asked Junior dumbly as he felt his heart begin to hammer in chest with blood flowing to his manhood as his mom's small fingers continued to go up and down his growing outline within his boxers, "I mean, mom could come in the backseat if you're saying it's okay for us to fool around."

"Now, that's a good idea!" Said Diamond loudly before immediately lowering her passenger seat to allow herself more room to squeeze through to the backseat of the SUV.

The ordeal caused a commotion in the car mid-traffic. It was uncomfortable for the dad of the family to not be distracted by his wife's voluptuous figure maneuvering through the big vehicle as they zipped down the hallway. He lost sight of his right side and had to swerve to avoid an incoming driver on the road which raised the father's anger suddenly. When he turned the whole SUV lurched and Diamond fell with a giggle straight over her son's body with her hands immediately reaching for his buttoned shorts to disrobe his bottom half. Junior's head was leaned back against the door of the car as he pressed his arms against the seat and the driver seat while his dad swerved and cursed.

"That mother fucker!" He shouted angrily, "He almost ran us off the road! Honey! Why didn't you just ask me to pull

over! I would have stopped. That was dangerous what you did!"

"We're okay papa bear." Said Diamond nonchalantly as she began squirming her busty figure up over her child's lap in the privacy of the tinted backseat of the car, "Besides this was faster and easier. As soon as I touched our boy he got hard for his mommy and we don't waste boners in this family if I can help it. After all, it's a mother's duty to drain her boy's blue balls in a skinship practicing family."

"Did you remember to take your birth control medication with you honey?" Asked Dick as he drove with his eyes straight ahead, he turned on some music to muffle the sounds of his wife pulling at their son's zippered shorts, "You know I don't want any more children in this family so it's important that if you continue your vaginal stretching exercises with our son you need to keep taking your medicine--"

"I've been taking my birth control medication faithfully ever since our son was born so don't you worry about our skinship about to happen back here papa bear. Mama bear promises not to get pregnant once I start using my warm and wet cooter to start pulling sticky baby-makers outta our boy's blue balls back here in a few minutes papa bear." Interrupted Diamond suddenly, she had had enough with her husband lecturing

her about her birth control when he did not believe in her birth control's efficacy despite all the evidence to the contrary, "And yes I made sure to bring my birth control prescription with me papa bear. Like I would ever risk the chance of accidentally conceiving a baby with our son after he fills up my warm pussy with his hot baby batter soon."

Junior was tenting heavily in his boxers by that moment as he felt his mom's hands reach for his hole to fish out his erection to wave around in the backseat of the SUV. Meanwhile, his heart hammered in his chest from the sensation of being stroked by his mom's small white hands in the backseat of the big family car. As this happened the dad of the family drove on a road with other drivers and cars going by them who had no idea that in the backseat of a particular family's large vehicle a voluptuous mother and her grown teenager were about to get it on like raw-dogging animals.

"You know dad." Said Junior boldly, "I think mom would have gotten pregnant by now if her birth control didn't work. I mean, we've been doing it a lot and I've been finishing inside her pussy frequently--"

Diamond put her fingers over her son's lips to stop him from speaking. She knew her husband well enough by now to know

where this conversation was soon going and would rather skip to the good part of fucking her son in the backseat of the SUV car on their vacation. They had twelve hour drive to their destination in Florida and the mother of two secretly hoped to spend most of it indulging in her fantasy of voyeuristic sex as they drove down the highway in the family's spacious and privately tinted vehicle.

"Now, now young man." Interrupted Diamond with her finger still placed over her child's lip as she used her other to stroke his hardening erection, "You don't want to get your dad started about his paranoia about my birth control do you. Wouldn't you rather--"

"Son, believe me when I say I'm done using your mom's pussy." Interrupted Dick suddenly much to the chagrin of his wife as she rolled her eyes, "Like I told you both. I got enough use out of your mom's cunt after she gave birth to you. I'm an anal man now and--"

Diamond was still rolling her eyes around her skull from hearing her husband go on about his beliefs about her birth control and the dangers of conceiving. Although there was a very small chance for the mother to become pregnant while on her birth control there was still a small chance that a sperm could

sneak past her defenses to impregnate her womb. It was this possibility which terrified the dad of the family from never approaching his wife's vagina unless he were shielded by several layers of protection including condoms, spermicide, and his wife's birth control and only if it was a special occasion.

"Mom told me one time that you two only practice vaginal penetration when it's a special occasion like your anniversary." Spoke Junior much to the chagrin of his mom as she continued to stroke him to hardness in the backseat of the family SUV, she slapped his thigh and put a finger up to her lips to pantomime her displeasure with him speaking.

"I don't like hearing you two speaking so much when I'm trying to get our big boy ready to fuck in the backseat papa-bear." Said Diamond in her complaining mom-tone, "Every time you two speak he gets a little bit softer in my hands which means we can't fuck."

"Sorry honey." Said the dad of the family, "I thought our son and I were just sharing a moment while you got him ready. We can talk later. You two have fun while I drive."

Junior still wanted to know why his dad was so okay with his him and wife bare-backing behind his back, literally in some

cases. The lucky teen of age had unloaded what felt like gallons of his pubescent cum inside his mom's hallowed breeding chamber so far since their strange mother/son relationship began in the name of skinship. However as soon as the hung teenager felt the hot sensation of his mom's wet mouth closing over his bell to swallow him through her gullet like a magic trick all his questions and concerns went away. Meanwhile, as a radio played, the hot mom hummed a cute motherly tune in her throat as she began deepthroating her child's rubbery cock in and out of her mouth until he grew hard as diamonds.

"Oh god, mom." Sighed the lucky teen, "I keep forgetting how hard you always suck."

Diamond looked straight up to her child leaning back against the car door as she offered him wide eyed parental eye contact while slurping up and down his boner. In the backseat of the family SUV there could be heard the sound of the road going beneath them and the sound of loud and wet slurping juxtaposed next to car music as a son were sucked. Junior shivered in his spot in the backseat and stroked his mom's straw-blonde hair while feeling her mouth swallow his meaty erection and scrub at his glans with her mature tongue. When her cheeks reached her son's hairy base she would suck in with all her power to form a tight seal between her child's erection

and her lips so she feel him throb inside her mouth as he squirmed. She loved the look on her grown child's face each time she throated his long teenage erection.

"Your mom's blowjobs almost hurt, don't they son?" Asked the dad as he drove.

Junior said nothing as he concentrated on not shooting his wad too quickly under the powerful sucking action of his mom's hot mouth wrapped around his erection. Her thin lips went back and forth over his skin as she stared up with her green country eyes with the look of lusty love only a nymphomaniac mother could offer. Meanwhile, as the mom sucked she reached down through her panties to probe two fingers through her pussy. Each time the mother sucked on her son's erection she felt her middle moisten as she fingered herself. When she felt her teenager's cock throb for the first time in her mouth she sucked hard with her cheeks and thin lips drawing close until she released her teen's thick and hardened cock from her mouth with a dramatic wet popping sound. The lewd noise echoed in the cabin of the family car next to radio pop music as Diamond continued to hum a cute mom tone in her throat while admiring her boy's massive erection with his glistening skin held near enough her face to feel his radiating heat as she stroked him gently with two twirling fists to maintain his erection with an

un-motherly smirk on her face.

"Mommy gives her baby boy the best blowies nowadays papa-bear." Cooed the mother towards the two most important men in her life as she stroked her teen's erection, "I swear, if I kept blowing our boy any longer back here he was going to blow for sure."

"Is that right Junior?" Asked the dad of the family, "Were you close at all?"

Junior just nodded his head speechlessly as he tried to collect his breath. Meanwhile his massive teenage erection was slimy looking with his mom's clear saliva as she adjusted her blouse to split open her buttons to allow her busty white cleavage to spill out for her teen to view. Meanwhile, with the sun coming through the window the two in the backseat were beginning to sweat as Diamond tugged at her teen's shorts to yank them off. Soon, Junior was seated in the backseat of the family SUV with his back leaning against the door in his shirt, shoes, and boxers with his nymphomaniac mom giving him 'fuck-me' eyes as she removed her bra and panties from under her skirt. She threw the panties in her son's face when they were off and the teen smelled the potent aroma of his mom's wet cunt on his face.

"Alright papa-bear." Cooed the hot mom to her husband driving as she looked straight into her teenager's eyes with a look of naughty intent on her face, "Why don't you give our son and I some privacy while I ride out his first woody of the car ride, okay? After all, it's a mother's duty to drain her boy's balls whenever his pecker gets this hard and excited to poke through his mommy's no no puss puss."

Dick looked in the rear view mirror of the family SUV to see his son removing his wife's panties from his face before throwing them on the floor of the car. He saw the tip of his teenage erection in the mirror while his wife licked her lips and tied her hair back into a ponytail before descending upon his teenager's erection. In a moment he heard the loud slurping noise of Diamond working over their teen's cock with the passionate fury only a bonafide nymphomaniac mom could make as she throated her child. He adjusted the music in the car before turning his attention back to road while wishing he had headphones so he would not hear his wife and son about to fuck like raw-dogging animals in the backseat of the car.

"I love how hard my baby boy gets for his mommy." Spoke Diamond with her tongue scrubbing against the veins and hot surfaces of her teenager's erection, "You ready to fuck your

mommy's cunt now buster?"

Diamond was still looking straight up to her child's stunned expression with her parental gaze as she suckled on his knob from bell to root with her expert mouth. Meanwhile she fingered her cunt in preparation of mounting her teenager's erection which filled the cabin of the car with the gross slicking and gushing sounds of the mother fingering herself. Dick looked in the backseat one more time to check on his family to see his wife slurping like a maniac against their teenager's cock as Junior tilted his head in intense pleasure. Before they would begin fucking during their family road trip the dad had one more thing to say to his son before devoting his full attention to the long drive on the way to Florida.

"You know it's not one-hundred safe to cum inside your mom's pussy, right son?" Said the dad as he looked to his family in the backseat through the car's rear-view mirror, "That being said, I know you trust your mom's birth control more than I do but you should still think about where you shoot your stuff in case something unexpected happens."

"Like pregnancy?" Said the teen dreamily as he fantasized about blasting a wad so potent with his seed that it would surely conquer his mother's birth control medication to

fertilize her eggs, "I'm sure making a baby with mom wouldn't be the worst thing in the world. After all if her birth control fails for some reason and she gets pregnant at least the kid would look like you dad."

Diamond looked up to her son as he spoke and smiled inwardly from the dark fantasy of conceiving with her child despite her husband's wishes. Although she would never get off her birth control to become pregnant with her teen the thought of his semen defeating her medication to successfully inseminate her eggs made her womb more wet and squishy sounding then ever as she fingered her cunt while slurping and sucking on her child's pink erection. Meanwhile they listened as the dad of the family gave them both a lecture on the dangers of unplanned pregnancy and his preference to not have another child in the family.

"All I'm saying is that you two should consider being more careful when you have sex." Added Dick at the end of his fatherly speech, "I know your mom is on birth control but that doesn't mean you should always finish inside her pussy just because you can. If she's blowing--"

"Well dad," Interrupted Junior, "if you're really that paranoid about mom and I accidentally making a baby we could

always talk about giving me anal privileges at home."

"Are you kidding me Junior?" Said the dad incredulously, "I've seen your dick son. I don't want you stretching out your mom's beautiful little bleached asshole out. That hole is mine! Stay outta there!"

Meanwhile, the hot mother continued to slurp on her teenager's cock in the backseat of the car until she finally stopped after being fed up with her son and husband speaking too often. Each time her teen spoke she felt him soften ever so slightly in her mouth forcing her to suck harder in order to draw more blood to her son's growing erection. Although he was hard enough for penetration with his current stiffness the mom preferred to have her child at his maximum hardness before squatting her cunt over her son's cock for one of her epic bareback giddy up rides. For ten cock slurping minutes the blonde mom's head bobbed up and down over her teenager's stiff erection in the backseat of the moving family car. With each twirl of her tongue made around her teen's sensitive bell she would giggle a little before throating her teen. This happened again and again with Junior's erection near to blowing his seed but when he throbbed for the first time within his mother's warm mouth she stopped suddenly and smiled from knowing her son's throbbing was the signal she needed to mount him with her hairy

looking and moistened muffin.

"I think it's time to get this fucker snuggled in some mommy pussy now buster." Spoke Diamond with her cute mom-tone as she rose to her knees in the backseat to lift up the front of her skirt and expose her glistening hairy mound to her ogling teenager's eyes.

"I reckon you're hard enough to punch at mommy's bottom by now kiddo." Added Diamond while gently reaching forward to stroke at her teenager's bell glazed with her saliva while testing the moistness between her legs, "After all, it takes a strong teenage erection just like this to reach for mommy's tootsie roll center just the way mommy likes it young man until you're ready to dump a load in me again."

In a moment Junior watched as his mom instructed him to sit in the middle cushion of the backseat. Diamond reached for her teen's trousers and forced them down to his ankles before helping him sit up from his headrest and move his bare ass over to the middle cushion of the large leather backseat in the moving family SUV. As he got up from his laying position he watched as his mom waited on the far end of the backseat before unceremoniously moving herself to straddle her teenager's naked lap with his erection throbbing and poking against her hairy

muff. In the backseat of the window tinted family vehicle no one else on the road would ever know a mother of two was about to ride on her son's erection until his white guts exploded upwards and inwards within her purple womb to paint her uterine walls sticky white with cum.

Diamond lifted up the front of her skirt after seating herself to expose the full glory of her magnificent golden bush. In the sunlight creeping through the darkened windows Junior could see a hairy pubic mound the size of his hand crowning his mother's labial gates pressing into the underside of his shaft. The mom was straddling against her teen's sac to nuzzle against her butthole as she stroked her child's erection lightly with her small hands whilst holding up directly in front of her uncovered mound. The hot mom awed at her son's size while her lower lips melted with her excited fluids to feel the erection throbbing in her hands thundering through her cunt in just a moment as soon as she were ready to mount her boy properly. With her busty figure fully kneeling with her ankles dangling over the backseat edge the mom began slapping her teenager's erection against her belly lewdly to test her son's hardness.

"Goodness child, you get so hard for mommy's no no cooter nowadays." cooed Diamond adoringly as she continued to slap her teen's prick against her belly like a wooden oar striking water,

"I hope someone has a big load ready for his mom. I think someone needs to get fucked by their mommy's warm pussy in a second buster. Whaddya say? Ready for another giddy-up ride in the backseat of the car while your dad drives?"

Meanwhile, Diamond never stopped lewdly slapping her teenager's long erection against her belly while admiring his length as she gently stroked him. His length reached a few inches above her belly button and where his bulbous tip landed she put a finger over the spot to illustrate just far her teenager's erection reached through her breeding tubes. His girth was thick and almost as thick as a soda can as she demonstrated. His penile textures were rich with big veins and throbbed mightily in the mom's hand as she continued to slap her teen's wet erection against her belly with loud sounds of a hardened male surface striking her softer feminine skin. When Diamond felt she had teased her teen enough she finally lifted her hairy muff up off her son's lap. She watched as her son's jaw dropped when his eyes drifted down.

"Mom!" Said the lucky son of age in surprise, "Your pussy looks dripping wet right now!"

Junior looked down to see a clear line of slime going down his mom's hairy pink lips to dangle between her legs and trail

down her thighs. With her skirt lifted up he was able to clearly see his mom's lower lips below her hairy mound in the shape of a drooling slit. Without hesitation he reached forward to touch his finger tips against his mom's labial gates to feel just how wet the pussy which birthed him became from the sight of his prick. Her clear fluids continued to run as the mom allowed her teen to slick his fingers against her breeding fluids soon to be glazed over the massive teen erection pointed up at her, ready to be mounted. Diamond stroked her fingers through her teen's hair as he probed her entrance and hummed a cute mom-tune in her throat while waiting for the perfect time to mount and milk her son.

"That's because your mommy's pussy is super extra squishy for you right now young man." Explained Diamond as she felt herself being loudly split open by her teen's fingers, "Now, now sugar bear. We got plenty of time for you to feel your mommy's warm pussy with your fingers but right now we gotta get this stiff boner snuggled someplace warm and naughty until mommy is done milking out your balls completely. After all, it's a mother's duty to make her teen's boners soft with sex to make him behave well at home."

"I would never go soft around you mom when your cunt looks hairy good mom. I still can't believe that I actually to get

fuck my mom at home everyday." Said Junior in awe as he worked his hands up his pale mom's beautiful body with her hairy bush tickling the underside of his pointed tip aching to penetrate through the dripping pink motherly folds hovering so close to him he could feel his mother's heat.

"Watch your language young man." Scolded Diamond quickly before quickly slapping her teen's erection in punishment, "I told you earlier. No swearing is allowed unless you're in pain or plunged deep in one of your mommy's no no holes and I don't see you poking through your mommy's puss puss just yet young man."

Junior winced from statement and sensation of his erection being slapped. His length swung around and was grasped quickly in his mother's mature hands so she could point him straight up and lift her hips to the zenith of her height before gently placing her teen's bulbous tip against her pink labial lips. There was hot and clear looking fluid already gushing out of the teenager's erect tip as his breeding fluids began to mix with his white mom's drooling and hairy looking mound where he skin darkened considerably around her slit. He could feel his tip being pressed like a hot mouth were about to swallow him as Diamond adjusted herself on her new stance with both her feet planted next to her teenager's trembling thighs like pylons

supporting her weight. Meanwhile the lusty white mom began to hum a cute mom-tone in her throat while gently stroking her teen's bulbous tip through labial lips to feel him scorch at her gates.

"I still can't believe papa-bear doesn't care if I fuck our boy silly everyday." Cooed Diamond to her teenager with one hand stroking through his hair and the other directing his tip towards her loins as she slowly lowered her hips over her teen to welcome her teen's cock through her cunt like a weapon being slowly sheathed, "I think it's because he's afraid of mommy's toughened twat gobbling up his cock over and over again like I do because of my nymphomania. Good thing I have you to stretch me out though buster."

Junior grunted loudly with a teenage scream erupting from his lungs as he felt his whole length being swallowed between the purple walls of his mom's mature cunt going down on him. Diamond continued to hum her cute mom tune in her throat while cooing and awing encouragements at her teen as she descended her muff upon all nine-meaty inches of him. She fell down with excruciatingly slowness and would lift herself up again with a wet aching noise coming out of her wet lower lips every few inches before coming down again. The hot busty mother was beginning to moan now as she felt her teen's prick scourging

against her vaginal halls like a throbbing tube steak of epic proportions. She was careful in lowering herself to make stretching out her cunt more pleasurable as the size-queen obsessed mom had to bite her lower lip to squelch an incredible moan growing in her lungs. When her pale face turned red suddenly the mom moaned.

"That's mommy's good boy." She cooed with her muff finally touching bottom, "That's mommy's good boy with a meaty fucker ready to kiss mommy's tootsie roll center over and over again." She clenched her kegel muscles firmly and said, "After all, only good boys get to punch the back of their mommy's pussies."

"It feels so fucking good mom." Moaned Junior as he reached up to grip at his mom's ass as she gyrated her weight over his lap to stir his fuck-stick through her depths with her bulbous clitoral bulb raking against his lap, "I still can't believe dad doesn't want to fuck this pussy up anymore. It's amazing."

"Well it's a good thing we are in agreement about who likes mommy's pussy still." Diamond cooed.

"And we do it raw too." Moaned Junior in disbelief, "Cumming inside you feels so amazing mom."

"That's because mommy's warm pussy is always ready to become a cum-guzzler for her boy at home, sugar bear." Said Diamond as she began to finally bounce her hips up and down lewdly, "Now how about we get this first creampie outta the way quickly so we can get you harder for the real riding session I got planned for you on this road trip sweetie." Diamond's hairy muff was gobbling up and down over her teenager's stiff prick as she humped her butt up and down quickly with meaty sounds of their skins striking together while the ripples going through the mom's cunt began to make her moan in pleasure for her first vaginal climax about to happen. In the family sized vehicle going down the road the man of the house ignored his son and wife fucking with some earplugs in his ears and the radio playing. "Now giddy up butter cup!"

Diamond clutched at her teen's head tightly and forced him to suckle against one of her massive teats and moaned from the sensation of her areola being sucked on hard with her son's teeth edging into her skin as he nursed like he were a babe once more. Her white motherly hips continued to clip-clop quickly over her teenager's massive erection as his meaty size fed her cunt thick ripples to make her pleasurable surfaces go wild inside. The feeling of her mound being stretched alongside the lewd wet noise of their genitals mashing together in the shape

of a hot act of passionate sex and bonding made Diamond moan loudly.

"God damn this teen boner mother fucker!" Mewled Diamond loudly while bouncing her muff at a blistering pace to feel herself being stretched over and over again, "It's so big baby! God damn this fucking boner young man! You're punching mommy's cervix right now! You're stretching mommy out sweetie!"

It sounded like Diamond was complaining about her teenager's size but the pair knew what the hot mother really desired to feel as she continued to clap her weight over and over again into her teen's lap as she rode her son with a fury only a mother in heat could have. Sweat was collecting over the mother's hips, back and forehead as she laid into her teenager's lap while continuing to shout obscenities while feeling her teenager's thick dick scourge her vaginal halls. The size of his massive teen prick fit her velvet sleeve perfectly once she were accustomed to his size. Her vaginal folds licked against his veins and felt him throb hotly in her mound as she fucked her teenager in her vicious riding cow girl position.

"I'm think I'm about to cummiiinnnggg--" Junior groaned hotly as he continued to nurse, his loins were boiling and his mom's pussy was a hot looking wet mess seen below her busty

white cleavage jiggling and bouncing over him with fast up and down strokes, soon the pair knew what would happen as the sight of a mother's hairy cunt continued to move at a blistering speed as he felt his member throb and pang suddenly.

Ribbons of hot teen shot upwards into the motherly muff bouncing over the teenager's erect lap in the backseat of the family SUV. Junior groaned loudly from the feeling of his spunk being pulled out of his full teenage balls by his hot mom's clutching birthing chamber moving at a blistering pace up and down over his lap as she mewled loudly through her climax. Her taint bounced into her teen's ball-sac with loud and strident strokes as she forced her teenager's diamond-like erection to pierce through her hairy mound like a battering ram once he throbbed inside her. His hardened teen bell at the tip of his meaty prick punched against the mother's bottom as the hot and busty mom continued to buck and grind her hairy muff over her ejaculating teen. Each time she dropped her weight before lifting it up she would feel him twitch and throb in her womb in signal of his climax mixing with hers in the form of a forbidden creampie.

She would feel her vaginal walls being pushed apart at their maximum as the mom moaned loudly in cabin of the car from the powerful orgasm rippling through her cunt. The heat and

hardness experienced within the mother's mature womb whenever her son climaxed inside her cunt had no comparison. With the dad of the family firmly committed to anal sex only it was now up to one lucky teenager to fulfill his mom's need for hot bareback vaginal sex whenever her urges occurred. Diamond's feminine body was sweating heavily as she fell into the feeling of her depths being plundered by her teen's hard stiffness twitching along his whole length while he spasmed inside her blistering-fast moving pussy to unload his pungent genetic matter. Each cord landed against the mom's kissing cervix as the pair groaned out loud in the car.

"That's it sugar bear." Said Diamond in her hot breath as her forehead broke out from sweat while bucking and grinding her hips quickly up and down in the backseat of the car, "Fill mommy's pussy up baby, let mommy's hungry pussy gobble up all your sperm-babies kiddo, shoot it all out like good baby boy!"

Junior's eyes rolled up into the back of his skull as he felt his whole length being gobbled by his mom's hairy muff slapping against his erect lap lewdly in the backseat. As his cords of genetic material shot while his mom road him he could hear her furious cunt gripping against his glans with a hard kegel grip which scored against his sneezing cock. While his white ribbons flew inside his mom's purple sleeve to inseminate her

depths he could hear his mom feeding him sweet parental encouragements as she continued to buck and grind her hairy mound to force her teenager's ejaculating erection to release inside her. It all went inside the mom's lower purple lips until she felt her teen's erection ebb in its throbbing and soften ever so slightly. In response she smashed her naked hips downward and forced her son to switch teats by turning her busty chest to audibly pop her right-most areola out from her son's suckling mouth in place of her other fresh nipple. Then she clenched her teen's cock hard with her muscles to lock her boy inside.

"I think someone just sneezed a mother lode of hot spunk up inside his mommy's warm and cum-hungry cooter." Cooed Diamond adoringly to her teen as she stroked her fingers through his hair while awing in the sensation of his suckling as he softened inside her hairy and sore feeling mound, "How was your first creampie of the family road trip mister?"

"That was the best feeling ever mom." Said Junior in awe after shooting what felt like an unlimited amount of sperm through his mom's riding fuck-sleeve, he looked down to see his mom's purple looking lips still wrapped around him at the base with her bulging and flared clitoral bulb concealed in his thick pubic fur, through their hair he saw white foam from their mixed

fluids which made him rock hard all over again, "I am so lucky to have such a cool mom like you who's willing to teach me so much about sex."

"Not just sex sugar bear," cooed Diamond adoringly from feeling her teenager re-harden within her, "bareback giddy-up sex. Now, thank your daddy for your all access pussy pass young man because we talked about it one night and we think it's time your all access pass turns into exclusive rights. Dad gets my ass and you get some family friendly puss-puss to handle all your erections at home mister, sound good?"

"Hold up, are you serious?" said Junior breathlessly as he felt his his cock being ridden all over again with his balls bouncing against his mom's asshole alongside the sound and sensation of his mom's golden muff bouncing into his lap in a sunbeam coming in through the family SUV's tinted windows, "Are you telling me I'm going to be the only one allowed at home to beat up this pussy whenever I want mom?"

"That's right sugar bear." Said the mellifluously voiced mother as her hairy cunt clapped noisily into her son's erect lap with thick and meaty sounding wet noises, it was a crescendo of loud fucking noises as mother and son grunted in unison from each hard bounce to mom made to swallow her teen's cock through

her piston motion moving hips, "You are going to be in charge of rinsing out your mommy's pipes with lots of spunk this summer young man. Your dad's pecker is retiring to brown-town and yours is graduating to mommy's pink pussy palace to handle all the beatings your boners can muster for me mister."

Junior's jaw dropped in his mouth from the statement as his mom flipped out both her tits from her blouse to allow her busty frame to spill over for her son to suckle. Meanwhile her hairy looking cunt continued to mash up and down over her teen's lap with his thick and hot erection sending hot ripples through her cunt to coax her nerves to orgasm. It was hard work to feel her teenager's long erection to fuck through her cunt in this position from all the effort to raise her hips almost nine inches up into the air before slamming her weight back down with dramatic sounding claps from their skins slapping together but it was worth it. Diamond's breathing was growing heavy and ragged as she bounced her muff.

"Are you serious mom?" Asked Junior in half disbelief.

"That's right sugar bear." Said Diamond, "Exclusive pussy privileges from now on."

"Dad, is mom lying."

"Huh, what." Said Dick in surprise, "Sorry, I was day dreaming while driving but what your mom said was right son. I'm done fucking up that pussy. Just stay out of her ass."

While the dad of the family sped down the highway in the window-tinted family vehicle he observed the road to see they were alone as they zoomed along to Florida for their family vacation. He tilted the rear-view mirror downward to make sure their agreement was kept and witnessed his son's ball-sac bouncing harmlessly against his wife's taint and anus while his cock plundered through her purple pussy gripping lewdly against his son's girth and long length. He put the mirror back up after being happy to see his son staying out of his wife's ass. To drown out the noise of his wife and son fucking in the backseat he turned up the radio. The sound of pop music filled the cabin of the car to join the meaty clapping happening from the sounds of a nymphomaniac mother having bareback sex with her son in the car.

"Cocks hit so much differently when they're naked and exposed to all my textures inside mommy's cooter young man." Cooed the mom as she reached down to split her labial lips lewdly apart to expose her pink inner flesh as she continued to dramatically move her hairy muff up and down over her teenager's

erection thundering through cunt to strike at her bottom with a satisfying punching sensation made against the mother's cervical gates. "Mommy can't stand the sensation of latex young man, just ask your dad--"

"That's right son." Added Dick quickly.

"You can only get mommy's pussy if you promise to keep it strictly bareback young man." Said Diamond adoringly to her child as she rode him with her white hips moving in a blur to force her teenager's erection to plunder her cunt like a stroking machine, "That means you have to promise to never develop a fear of mommy's pussy gobbling up all your sperm-babies sweetie. After so many years I guess your dad got afraid of my nymphomania when it comes to hot vaginal penetration like what we're doing right now buster."

"I think I can handle all the boner milking sessions you can throw at me mom." Grunted Junior heavily with his sac bouncing into the groove of his mom's bleached asshole while his length rammed through her pink sleeve to scourge against her vaginal walls like a battering ram made to permanently stretch open her cunt.

"Are you sure young man?" Asked Diamond in her cute and

rhetorical tone, "It's going to become a new household chore for your to start beating your mommy's pussy up more often at home. It's going to be mean laying pipe more regularly to beat back my nymphomania. You gotta stay hard for mommy's pussy even after you feel like you have no semen left. You'll have to start eating better so you can make more batter."

"Batter?" Asked Junior breathlessly as he felt his mom's rich-feeling pussy going up and down against his hot teen prick scourging against her vaginal walls to stretch her wide open, "Are you serious about be getting exclusive rights to fill up this cunt mom? Do I really get to be the only one to fill you up?"

"That's right sugar bear." Mewled the hotter than life mom as she kept her feet planted against her grown son's thighs with her hips making lewd up and down motions to stroke her teen's length through her, "From now on mommy's baby boy gets premium pussy privileges at home which means all your batter is mine."

"What do you mean by batter?" Asked Junior stupidly while he saw the incredible sight of his mom's bouncing hot and fast into his erect lap, with each bounce the hairy muffed mom made the air within her skirt would parachute and her ass would be exposed for her husband to see whenever he tilted the rear-view

mirror to make sure his son's cock stayed out of his wife's bleached asshole, "Dad doesn't care at all?"

"Your baby--batter is just another word for your semen honey." She answered, "Now, enough questions sugar bear. It's time to milk out your baby batter out the only way mommy know how. Now giddy up!" Diamond spoke while reaching behind her back as she rode to stroke her teenager's full feeling sac.

"As long as your ball-sac keeps bouncing harmlessly against your mom's butthole I'm fine with you taking care of that pussy for me son." Added Dick flatly as he drove on the road and adjusted the radio, "I'm serious about you staying out of your mom's ass though. I don't want you stretching her out there."

The statement sounded incredulous for Junior to hear but he was not about to argue as he felt his mom's soft body through her blouse to feel her sweaty skin move against his hands. He grabbed at his mom's bouncing white breasts to suckle on a teat with all his suction strength against the amazing sensation of his teen bell striking to smash against his mom's bottom like a cervix punching device. He could feel his mom's orgasm about to release over his wet cock as their lewd wet noise grew louder and louder with their breeding fluids stirring in the backseat of the car. Diamond's white teeth were exposed as her breath

turned ragged from the effort her hips poured into laying into her son with fat smacks of fleshy sound.

"God damn teen boner mother fucker!" Cursed Diamond loudly as she grimaced and continued on humping into her child's erection with the speed and grace only a nymphomaniac mother in heat could make, "I'm fucking clenching this fucking erection with all the strength I got and it's still not sneezing, god damn teen boner mother fucker, it keeps getting harder inside my pussy and I'm gonna I ride it out buster!"

Diamond's continued to curse out lewdly with insensible speak as her hairy golden muff laid into her teenager's thick erection with the blistering fury only a possessed creature addicted to sex and inseminations could make. Her purple womb was being hollowed out by her teenager's stiff erection probing through her whole channel and with his purple bulb striking hard against her cervical gates like a clenched fist the mom mewled louder then ever from the first hot orgasm rippling through her mound. Her inner muscles spasmed hard around her teenager's prick when she planted her hips suddenly with clear fluid gushing out from the seal formed around the mom's lower lip wrapped around her teenager's cock like a vice. More clear fluid gushed out from the pressure wrapped around the lucky son's prick as he felt his mom's inner muscles contract and

squeeze around his throbbing erection from the sensation of her climax.

Diamond was squatting awkwardly over her teenager's erection with her breath heaving and her voice mewling and awing from each small gush of clear fluid which came out from the white mother's cunt cloying around her teenager's erection with his whole length submerged through her breeding chamber to throb. His hot surfaces pressed against her vaginal folds with his whole girth stretching apart her pussy as Diamond apologized quickly for stopping her bucking motions after climaxing suddenly over her teen's erection. Junior could still feel his mom's pussy twitching and spasming around his cock and admired the mess they made. Clear fluid covered his lap and in between his thick pubic fur he could see his mom's bulging clitoral bulb twitching and moving from the hard climax still stirring through the hot mom's mound.

"Sorry there sugar bear." Panted Diamond with her face near to her son's ear, "I think mommy came by accident and you know how much I prefer to feel you poking deep whenever I feel good down there."

"It's no problem mom." Said Junior as he watched his mom wipe a finger against his belly to collect some of her fluid

gathered on his belly with a manicured fingertip before adding,  
"Did you just squirt?"

"I think someone made their mommy squirt." Confirmed  
Diamond with a giggle "Shame on you buster for making mommy cum  
all over your big boy cock before I could milk you out. Now I  
need to ride you again!"

The tone in Diamond's voice was almost annoyed but she was  
still smiling with her brow glistening in the light of the  
backseat as she felt her teenager's stiff erection throb  
deliciously in her hairy cunt. The stay at home mother could  
not believe how well made her teenager's prick felt for her  
mature pussy. His size and shape stretched perfectly against  
her edges to the exact point she needed for his vein-filled cock  
to strike against each of her pleasurable nerves from her A-spot  
and G-spot to her hardened cervix. Before the hot mom stopped  
fucking her teenager's meaty rod being forced up her cunt to  
punch at her cervix she grunted heavily from the sensation of  
her hardened and purple bottom being hammered like a nail inside  
her dark depths was the best feeling in the world and she was  
eager to resume stroking her boy out.

Diamond rested on her laurels a moment and flexed her  
vaginal muscles cloying around her son's cock with her strong

kegel muscles to test her teen's hardness. Despite all their lewd activities that day which revolved around yanking out as much teen semen as the mother could manage out of her boys balls Diamond was impressed with her teenager's stamina. She had lost count of the many times she had welcomed his warm seed through her forbidden channel in the practice of their skinship and happier then ever to have a virile young cock around the house to thoroughly beat against her pussy walls with all her teen's spunk. It was a fantastic feeling for the mother of two to know she had reliable dick to take care of all her nymphomaniac urges. To the busty mom, nothing beat the sensation of her vaginal walls being stretched wide apart by her teenager's stiff and long cock until he throbbed inside to blast his hot ejaculate against her purple cervical gates like sticky white egg seeking missiles to mix with her breeding fluids.

"Alright sugar bear." Spoke Diamond before unceremoniously resuming her riding stance with her hairy muff resuming it's steady clip-clopping motion over her teen's cock plunging through her cunt with sexual wet noises, "I think it's time for mommy to make you cum now so buckle up for an epic giddy up buttercup."

Diamond continued to beat her golden muff against her teen's naked lapping for eight ball bouncing minutes until she

felt his iron-sided cock reach the zenith of its hardness which signaled an impending release. Junior was breathing heavily with his hands holding onto to his bucking mom's hips for dear life as she rose nearly nine-inches off his erection before slamming down with all her weight and fury to mash his bulbous and throbbing tip against the hardened bottom of her cervix. Each deep plunge downward made the hot white mom grunt in pleasure from the sensation of being bottomed out by her teen's long erection. Despite blasting an earlier cumshot through her purple tubes just moments ago the teenager's stiffness was still rock hard as the mom planted her feet firmly in order to milk out her child's boner completely. She clutched his forehead while her boy suckled hard against her teats and clenched her kegel muscles tightly as she worked with the passionate fury only a nymphomaniac mother could offer to her teenager's boner.

"I'm--" Junior began before Diamond interrupted him by mashing his face into her bosom.

"Shoot that wad straight up mommy's warm pussy young man." Grunted Diamond into her teen's ear while redoubling her efforts to milk out her teenager's hairy sac completely within her purple pussy, "Blast that fucking load straight up mommy's pussy young man, mommy's pussy is hungry for all your cum buster."

Junior's head thrashed in his seat and his breathing heaved while the lava-like sensation of his spunk ejecting out from his piss-hole forced him to spasm his muscles from his white guts leaving him. Ribbons of his pungent teen sperm was forced towards the back of the mom's clutching womb as she held him deeply within her squeezing mound from root to tip as her teen sneezed his load while gyrating her hips deeply to stir her teenager's thick fuck-stick through her cunt as he climaxed. She felt his stiff erection twitch and throb with intense heat and hardness as he continued to suckle against her teats with all his suction strength to cope with the intense sensation of being clenched as he came. Diamond was feeling her teenager's squirm beneath her as she felt her prick continue to throb and twitch intensely within her motherly cunt as he unloaded his strong teen sperm far through the mom's hairy muff. As Junior continued to grunt and feel his hot ejaculate leaving him he suckled hard while feeling his mom continue to gyrate her hairy mound into his erect lap while his balls emptied themselves with milky spurts of his sticky seed.

"That's mommy's good boy." Coed Diamond adoringly with her fingers going through her teen's hair while gently rocking her hips back and forth in motion with the teen's spasms ejaculating his hot white load through her cunt to stain her purple vaginal walls white with this thick and sticky and sperm,

"Let mommy's warm fuck-pocket gobble up all your sperm-babies kiddo, from now you don't need to be shy or scared to come to mommy to borrow her warm pussy to take care of your stubborn boners mister, sound good?"

By then the smell of the mother's earlier clear vaginal fluids gushed around her teen's lap began to fill the cabin of the vehicle with the thick aroma of their fluids mixing and frothing together in a mess. Despite shooting two straight ejaculations through his busty white mother's fallopian tubes the teen's hardness remained. The strong muscular grip cloying around his erection with Diamond's mature kegel-trained muscles gripping her boy tightly alongside her heavy breathing and encouragements was all it took to keep the young teen of age hard within his mom's inner chamber for one more climatic insemination.

"Alright young man." Said the dad of the family suddenly after being quiet for so long, "You shot your shot, now I think it's time for your mom to join me up front."

Meanwhile Junior was delirious in his orgasmic afterglow after shooting a huge pubescent wad of his teen spunk up into the dark center of his mom's clutching and cloying womb. Diamond dug her head into her teenager's shoulder as she

gathered her breath after riding her teen's erection in the backseat of the family SUV speeding down the highway. The sound of radio pop music and traffic joined the heavy breathing the mom made as she cooed into her child's ear while stroking his hair while seated over his lap. His ram rod was snuggled deep into the mother's hairy pussy as she waited for it to soften before releasing her hold over her grown child's massive nine-inch erection growing to a rubbery hardness in her deep pussy.

"How was that young man?" Asked Diamond dreamily to her child while ignoring her husband in the front seat, "I betcha you didn't know your mom could ride dick like that while riding in a car."

"That was the best mom." Said Junior with his knees spread wide as he sat with his mom's big-titted and voluptuous figure seated over him like a hat for his prick, "I'm pretty sure I won't have blue balls for a week after what you did. Thanks a lot for--"

"Thanks a lot for what sugar bear?" Interrupted Diamond as she used her lower muscles to grip at her teen's rubbery tip still prodding through her folds, "If you were about to thank me for draining your woody during our road trip there's no reason to thank me kiddo." She cooed in her sweet mom tone while

jiggling her seated muff and titties in her teen's face. "After all, it's a mother's duty to use her deep feeling pussy to drain out her boy's balls at home so he can focus on school and behave at home nowadays."

Junior had lost count of the times he had felt his boner getting beaten up inside his mom's warm pussy every time she insisted on riding his stiffness until he shot his load. As he felt his member throb against his mom's clutching cunt surrounding his cock he winced from each grip his mom made within her mound with her strong kegel muscles kneading him like ready dough in her love oven. His prick was still poking through nine-inches of his mom's deep pussy after depositing what felt like a pint-sized amount of potent of teen jism and now his glans were super sensitive. Meanwhile the nymphomaniac mother looked down adoringly on her son as she congratulated him on his first time having sex while in a car.

"I never thought we'd ever end up doing it in the backseat." Said the mom as she prepared herself to dismount from her child. "I bet someone thinks road trips with the family aren't so boring anymore especially with a mom like me to take care of your urges."

"Sex with you is the best mom." Said Junior as he suckled

on his mom's teat pulled out from her blouse, meanwhile he could feel his thick mom adjust her skirt while moving her hips, "I don't think I'll ever get a girlfriend if you keep treating my dick this way."

"Aw, thanks sugar bear." Cooed Diamond as she lifted herself slightly for the first time, a gap appeared in between their skins before she fell down again to spear herself, "Anytime you get a stubborn erection like you did earlier all you have to do is ask for mommy's to take care of you and you can borrow any of her holes to milk your woody out. You don't have to feel scared or shy because as long as you stay outta mommy's bleached asshole your dad is okay with us fooling around because of my nymphomania and his phobia."

"Phobia?" Asked Junior, before wishing he didn't say anything, "Oh, you mean because he doesn't want to have kids anymore."

In Junior's mind he wondered why his dad did not care about all the bareback vaginal sex him and his mom had been having at home and now in the car. It made sense to believe his skepticism about modern birth control. Perhaps the benefits of opening their marriage outweighed the burden of his dad having to put up with his wife's nymphomania alone. Meanwhile the dad

of the family seemed to ignore their conversation as he continued to drive. Junior was still resting inside his mom's clutching womb as she continued to knead his prick with her mature cunt muscles and the mom's kegel muscles were powerful.

"Feel like shooting another shot soon sugar bear?" Asked Diamond to her son with a cocked eye-brow, "After all, you have your daddy's permission to fuck your mommy's pussy."

"I feel like just came buckets inside you though." Complained Junior, "And you're still squeezing me!"

"Careful son." Said the dad as he drove, "This is why I gave up on your mom's pussy all those years ago. I know just how hungry she can get down there and now it's on you to accept your new responsibility."

"That's right sugar bear." Cooed the hot mom in her child's ear as she forced him to switch teats, "It's your responsibility to beat and fill up your mommy's warm pussy from now on mister."

"You mean to say," began Junior, "I get exclusive access to your pussy mom?"

"Well, what else do you think would happen young man?"

Asked Diamond, "You heard your dad, if he's too afraid of planting an accidental baby-maker in me you can still plant your sperm inside mommy's muff and my birth control will keep your goo from sticking to my eggs while your dad gets only my ass at home."

"And don't forget while we're on vacation honey." Said the dad nonchalantly.

Meanwhile the hung teenager was still feeling himself reaching far through his mother's purple womb with his far-reaching teen prick pointing straight up. Diamond straddled her teenager on the backseat of the family SUV and adjusted her skirt and blouse some as she gathered her breath and relaxed into the feeling of her child's cock softening inside her womb as she kneaded his flesh with her strong and mature kegel muscles. Each little grimace she witnessed going across her son's face made the mom giggle loudly as she kept on pressing her vaginal muscles into her boy's loins to force him to harden. Ribbons of genetic matter was shot up into her cunt just a moment ago and once again earlier and despite the incredibly intense orgasm which rippled through Diamond's cunt as she rode her son the mom was still horny.

"How much longer until we get to our hotel papa bear?"

Asked Diamond to her husband as the cabin of the vehicle began to reek with the potent aroma of sex, "I think I'm just getting warmed up back here and might need a bed to rock our boy's world in a minute."

"I think we have a couple hours left on the road honey."

Said the dad as he cracked open his window to air out the stench of sex wafting in the vehicle, "Did you two finish already? It smells like sex in here."

"What did you think papa-bear?" Said Diamond

sarcastically, "Didn't you hear us back here? I got creamed for sure in my pussy by our boy again. I made sure his gooey stuff shot straight up my pussy and nowhere else."

"How's your ass honey?" Asked the dad, "Junior isn't trying any funny business is he?"

"Other than his balls getting the chance to bounce against my butthole there isn't any penetration happening inside my bleached anus honey, don't you worry papa-bear." She said.

Junior's knees were trembling beneath his mom's saddled figure as she continued to mount her child's freshly milked

prick through her cunt like it shot out cash and owed her money. The teenagers ball-sac sat nuzzled against the groove of his mom's butthole as she continued to saddle him with her taint nuzzling into her boy's pubic hairs while his meaty cock still speared through her velveteen and heavenly feeling sleeve made for his penetrating shape. The lucky teenager had lost count of the many times him and his mom had consummated. They called their new family tradition 'skinship' and it seemed it was getting lewder. Each gooey insemination the teen shot through his mom's cunt seemed better than the last.

"Alright, young man--" Mewled Diamond before he was interrupted.

"No more mom." Pleaded the teen briefly before feeling the punishing pressure within his mom's vaginal walls grip him tightly to encourage his erection to perform, "Alright, fine one more but can I please be on top this time?"

"You don't like your mommy's special giddy-up hugs all over your cock young man?" Cooed the white mom lovingly as she settled her muff deeply with her feet still planted firmly next to her teen, "I thought you loved it whenever mommy milked out your woodies the way I do because I love to ride--"

"I know how much you love to ride me mom." Interrupted Junior, "I was just hoping we could try one last position before you seriously give me a break. I've lost count of the times I've shot so far."

"I counted three shots inside my cooter so far today young man." Spoke the mom with her hands held proudly on her hips while jiggling her hips, "I think this might be the first time you ever cum this much inside your mommy's hole mister. I knew you would enjoy your exclusive access pussy pass with mommy."

Junior was sensitive around the corona of his teenage cock but his resolve to plunder his mother's deep pussy in the missionary position of the moving family vehicle was enough to summon one more erection out of him. His glans had smeared his mother's vaginal halls thickly with his pubescent seed over their prior moments of fucking in the family sized SUV and outside the mother's pink and puffed up labial lips was a gross sight of bubbly white semen and vaginal fluids. It looked like a foaming wet mouth grabbing at his cock as Diamond cloyed him tightly with her mature vaginal muscles to promote her teen's hardness. In the sexual stench of the car the dad of the family was forced to crack open the windows to air out the car. In the new noise of the air rushing into the car Diamond began to bounce again but Junior was quick to stop his mom.

"No more cow-girl mom." Huffed the teenager as he grabbed at his mom's back before pivoting their bodies to fall together, "I need to be on top this time so I can see those milk bags jiggle for me."

Diamond giggled at the aggressive and absurdness of her teenager as he took control without ever disconnecting from her hallowed purple sleeve still clutching at all nine meaty inches of her teen son. His hardness pressed against her vaginal halls tightly and with their pubic hair mashed together their middle parts felt colder and wet from all their spent sexual juices so far. The mother's clear squirting fluid was still covering over her teen's lap and stomach and after churning so many inseminations inside the white mom's tight purple cunt a copious amount of breeding fluids had foamed around the area they both looked at while a sunbeam went across their conjoined sexes as the family drove down the road. Junior was sore all over his teen prick but his hips were fresh for thrusting into the still panting body of his mom whose face and neck had grown beet red from her earlier effort and her brow was glistening in sweat.

"Alright mom," said the teen aggressively, "let's do this."

Diamond was still angling her voluptuous body carefully on

the backseat of the family SUV as they went down the highway at high speeds with her legs spreading wide for her son to enter. Junior's heart was hammering in chest with his meaty teen prick bouncing between his mom's raised thighs like a baseball bat swinging around in a batting cage as he prepared to re-enter the place which birthed him. His mom's milky white skin practically looked radioactive-white in the sunlight pouring into the car as she adjusted her big body to lie down comfortably below her erect and mouth-drooling teenager. As she moved her thighs with one leg draping over the backseat headrest and the other draping for the floor she sighed heavily with anticipation before reaching down to stretch out white and creamy cunt. When her lower lips parted there was the gross sound of something wet being split open as the mom exposed her purple looking pussy being spread open like a white wallet with her hands.

"I like the confidence mommy's pussy has been giving you lately kiddo." Purred the hot mom as she felt her teen's pink and bulbous tip lance against her folds with a sunbeam going across their bodies where their hairy sexes met and mixed their fluids together, "I think someone is starting to really understand skinship," she sighed before mewling loudly against the chorus of a pop song from the sensation of being penetrated repeatedly, "after all, your mommy loves a good pussy beating," Diamond added with a reddening face and awing breath from the

feeling of being stretched open within her golden looking pubic mound, "and judging by your pecker's hardness right now kiddo I think someone is extra hard for his--"

"Mom!" Groaned Junior loudly, with an almost involuntary sound after plunging himself completely, "Stop! You're squeezing me too hard! I can't pull out!"

"Mommy can't help it kiddo." Cooed Diamond adoringly as she held her teenager's thick erection throbbing against her vaginal walls with her kegel muscles gripping him hard, "Every time this fucker gets poked in my pussy when I'm lying down I clench down hard and can't help it honey!"

"Can't you relax your cunt muscles a little bit." Breathed Junior heavily, "I'd love to try to fuck you right now but let's remember what you did to me just a minute ago mom."

"Aw, poor baby." Cooed Diamond with fake sympathy, "Is someone's teen prick getting too beat up inside their mommy's toughened pink twat? I thought someone loved pounding their mother's deep pussy."

"I do love your pussy mom." Grunted Junior as he rested his palms against his mom's spread open thighs to carefully

extract himself at a slow pace, "Your sleeve grips me a little too tight though, like right now, I'm still super sensitive from the last time."

"Don't say I didn't warn you about your mother's cunt." Said the dad of the family as he continued to drive, "I told you your mom's pussy was a cum-hungry beast. I remember when--"

Junior was not paying attention to his dad speak as he was mesmerized by the gross sight and loud sound of his long teenage erection leaving his mom's hairy looking cunt. His thick erection was smeared with his mom's clear vaginal fluids mixed with his prior white loads. A thick white deposit of his semen was clinging against his mom's clitoral bulb as Diamond continued to spread her lewd pussy lips between her legs as her son pulled out of her cunt. His length reached far through the softly moaning mom's breeding chamber with a rubbery hardness which became ever harder as more blood returned to the teen's erection. It took an agonizing amount of time to fully extract himself from his mother's purple clutching cunt but when the teen managed to slip all but the bell of his shaft from the pussy which birthed him he breathed deep and out and clenched his thighs together to force all the blood he could to his erection before plunging into the hot depths of mom's womb in one swift motion. It was like pushing into a hot meat vice as

Junior felt his teen prick scourge against his mom's cum-smearred vaginal walls like a pussy stretching device. His palms pressed his white mom's hips wide apart until he touched his tip into the spongy bottom of his mother's darkened and bruised cervix while feeling her vaginal muscles cloying against him tightly.

"Oh baby that fucker reaches mommy's tootsie roll center just right sweetie." Mewled Diamond loudly

"I can't believe how grippy your pussy looks from up here mom." Said Junior as he looked down to the sight of his massive erection spearing in and out of his mom's cunt from above with her lewd pink lips cloying at him tightly they undulated in motion against his quickening in and out strokes into his mom.

"God damn teen boner mother fucker! That pussy poker reaches deep buster!" Mewled Diamond in half a shriek as she looked through the valley of her cleavage to witness her lower lips extending outward a half-inch whenever her teen pulled out before feeling her lips being slammed in when he plunged again, her teen of age was landing mature hammer strokes into her cunt from above and was sending fat ripples through her cunt which made the mom moan in pleasure from her next deep orgasm near to erupting from out of her cunt like her first pleasurable squirting orgasm, "Fuck that mommy pussy up buster! Fuck ike

you mean to fuck your mother's cunt up with your sticky baby batter you motherfucking big-dicked child of mine!"

Sweat dripped off of Junior's chin as he laid into his mother's warm pussy cloying beneath him with all of his energy. The feeling of his mom's warm pussy gripping around his cock as he plunged through her hot sleeve made his erection turn to a diamond-like hardness. With Diamond's small white hands reaching down to spread open her pussy as her son speared through her breeding tubes they both could see the mother's inner purple pussy flesh undulating and gripping against each of her teen's thick and meaty fuck strokes. The teen slammed himself down with all his weight to bounce his ball-sac against his mom's butthole as he felt his bell strike against his mother's hardened cervical bottom. With each punch he delivered against his mom's spongy cervix he heard her softly grunt and mewl.

"Get dat mommy pussy baby." Grunted Diamond heavily, "Beat up dat mommy pussy baby!"

There was the incredibly loud and gross sounding noise of their fluids mixing and frothing together in the backseat of the moving family-sized SUV as Junior laid himself into his mother's middle at a blistering pace. The thick pubescent load deposited

into his mom's cunt during their riding positions before switching to their missionary was smearing all over their skins and clinging to their entangling pubic hairs as Junior mercilessly fucked his mother's missionary-positioned cunt below him. With each of his deep and long strokes he made through his clutching mother's cloying breeding chamber the pair heard and saw more rivulets of the teen's prior load being scooped out of the mother's cunt. Each time Junior saw the rim of his bulb emerge from his mom's hot depths he witnessed another globule of his prior load emerge on his corona before rolling out and spilling over them. The juxtaposition of his mom spreading open her wet sounding cunt to expose all her purple flesh against the rest of the frothing white happening in and around the mom's golden hairy pubic valley was an incredibly hot sight for the pair to witness as they fucked loudly.

"I can't believe how good that looks mom." Cried Junior as he felt his loins begin to boil for release with each deep plunge he managed through his mother's clutching cunt, "I've never seen you so wet before. I've never been hard and I just came inside you."

"That's because mommy's pussy is the best thing to handle your erections sweetheart." Grunted Diamond lewdly as she continued to feel her teen's bulbous tip strike against her

bottom, "After all, only genuine mommy pussy can make a prick this hard honey. It's like you were made for stretching me out buster."

Dick adjusted the rear view mirror of the family car to quickly check on his wife and son fooling around in the backseat. Once he witnessed his son's long prick plunging in and out of his wife's spread open cunt he was content with knowing they were obeying his rules. He adjusted the radio to another station as he listened to them fucking wildly in the backseat of the car while rolling down his window several inches to help air out the stink of their bareback sex and heavy breathing happening behind him. Meanwhile, there were still many hours left in the family road trip while the dad of the family wondered who would quit first in the backseat given his teen's virility and his wife's nymphomania.

"I don't think you understand just how much mommy needed this young man." Mewled Diamond loudly as she looked down through the valley of her cleavage to see her teen's massive teen prick plunging in and out of her hairy mound to stretch her walls far apart with his fast moving hips and mercilessly hard cock.

"Keep going young man! Beat up dat mommy pussy!"

Encouraged the mom as she reached with her hands to stretch her labial folds apart as far as she could to expose all of her purple inner flesh and frothing white mess stirring around her cunt as her teen's dick continued to plunder her depths with hard and fast strokes while his palms pressing into her ivory thighs to spread her wide open.

Junior could not take his eyes off where their sexes met as his mom's voluptuous breasts pulled from her blouse continued to jiggle and bounce after each resounding clap his hips made against his mom's hairy muff. The sound of their skins striking together each time the teen hollowed out his mom's purple cunt with his meaty cock was louder than the radio pop song playing in the car. As he felt his mom's cloying pussy walls continue to wrap around him with her inner muscles spasming around his heat and hardness the lucky teen of age began to feel his loins begin to boil with the tingly sensation of his final release.

"I think I'm about to--" Junior said before instantly feeling his mom's legs and warm arms wrap around him like a spider from below, immediately he was trapped into his mother's embrace as soon as he felt his first hot white rope flow out of his piss hole straight into his mom's clutching purple depths.

"Let mommy's pink pussy milk this one out buster." Mewled

Diamond from below while rocking her hips upwards over and over again to reveal only an inch or two of her teen's cock out of her cunt as she milked his throbbing erection deeply in her twitching purple cunt, each stiff jerk her teen made in her arms as she held him and milked him from below into her mound was another sign he was ejaculating as he nearly whimpered into her bosom from the sensation of his cock juice being yanked out of him by her technique.

"Oh god it feels so good mom." Moaned Junior deeply.

Hot ribbons of his teen jism went up into the mother's clutching cunt with each upward rocking motion the mom made to continuously jerk seven or eight inches of her heaving teen's erection through her cunt while only exposing a small portion of his skin to the air as she gyrated her hips upward with mature grace. It was hard for Diamond not to giggle from hearing her teen's cute sounds as he climaxed into her mound but she giggled anyways with her busty white breasts being smothered into his face. She held up a teat for him to suckle but his eyes were closed and squinting as she milked out her teen's sac completely into her bucking mound from below working hard to slam her cunt upwards into the heaving erection of her long dicked teen. A huge pubescent load of teen semen was being deposited and his twitches were powerful with intent until the seizing within her

cunt stopped and the mom released her spider grip suddenly to feel her child lying powerlessly over her with his spent cock still plunged into her hairy mound with his face smothered in her breasts.

"How was that buster?" Asked Diamond as she stroked her teen's hair, "Did you like the way mommy moved her hips from below to milk your dick out the way I like? You sure shot a lot judging by the twitches mommy counted you making in my mommy pussy. If I wasn't on birth control that would have been a baby-maker for sure young man, good thing I'm on the pill though so your loads just bounce off my tubes."

Junior was breathless and bewildered as he recalled the earlier days of when his mom and him committed to their incest without his dad's knowledge or approval then. He came inside his mother purple depths countless time by now it felt and it was always an earth shattering experience to void himself into the place which birthed him. No longer did Diamond refer to her mound as her 'no no puss puss' in front of her teen and he was grateful beyond belief to be given exclusive access to plunder his mother's secret cooter with his hormonal teenage prick because his dad honestly did not care. In a moment there would come a time when the pair would finally disconnect and in the ignorance of their blissful afterglow a huge load of pubescent

spunk would eventually flow out of the mother's cunt to permanently stain the seats in the family SUV still driving down the road as they sped on in their voyeuristic fantasy. They would wish they had brought napkins on the family road trip when their journey began and nothing would ever match the lewd sight of what looked like a pint-sized amount of teen cum leaving the mom's hallowed channel whenever her teen disconnected. Before these images would happen however Junior would fall asleep on his mother's cool bosom while connected into her mound with his teen prick finally softening after his final insemination.

"Thanks for letting me cum inside you mom." Said Junior before feeling himself drift off to sleep.

"It's no problem sugar bear." Said Diamond, "Mommy's cooter is always open for business to take a deposit outta your balls so you never have to be shy to ask your mommy to milk a load outta you kiddo."

Meanwhile, Dick, the dad of the family was too distracted on the road and cracked open his window more to air out the stench of his wife and son's sexual act in the backseat of the car. As long as his son stayed out of his wife's ass he had no problem with him tearing up his wife's pussy. Their family road trip was only hours long by now and Florida was a long ways away

and suddenly the dad would wish he brought headphones because he knew his nymphomaniac wife would likely be banging their child's massive dick the whole drive to Florida and as long as Junior's teen sac only bounced against his wife's bleached asshole with no penetration happening they had his blessing to practice their skinship at home and abroad.

THE END.
