

Hey there come  
in come in

Well what won't  
you do for your  
best friend

You have no Idea  
how long and  
hard it was to  
convince her

I'm so happy  
you're here  
Especially you Zoe

Maybe next time she will come up with something instead of relying on me to do all the work

I can't wait see what you've done with her character

You could tell me  
some thing and i  
would prep something  
for us to dress up

Um hi

Umm it's just  
a hat maybe  
next time

So now that we're all here shall we begin

So you said that we don't need to bring all the stuff like dices but i don't see any

Same i can help you bring them

There's no need we have all already prepared

Yeah it's kinda weird

I think we should tell them how we gonna play

So me and Liz were working on it for a while and it's not your traditional game

Yes and we know than some of you have some powers and so does Luna and we made this hole word for all of us

Wait what

I don't think talking will  
be same as seeing so let  
the game begin

Ooo i think i know what she will do now

Um where are we Liz

BEHOLD MORTALS  
AND BOW BEFOR ME

YEAH THATS  
WHAT I'M  
TALKINGABOUT

Ok so let's start with  
you Lizz and i think  
they will het the  
rest as we go

So girls  
observe and  
listen k?

K i'm ready  
do it

A large 3D character with purple hair, glasses, and a glowing pink hand is the central focus. She is wearing a grey patterned top and a black choker with antlers. A small red dragon is perched on her head. In the foreground, three smaller characters are seen from behind: one with red hair in a black top and camouflage pants, one with pink hair in a black top and pink pants, and one with blonde hair in a white top and black pants. A small purple character is also visible in the background.

So now i'm my druid character and as you see we will not only roleplay but become our characters

And don't worry when we start playing you will all gain all memoris and skills of our characters so now it's Amy and Amber's round

Oh my GOD you  
look so good in this

Well my girlfriend is a  
specialist on a letter  
so i pick up few  
things

UM what about Zoe

And last Zoe god you and just "make it cool" character description but i think i made some thing perfect for you

So you're a barbarian  
than has tied  
backstory to Lizz's  
backstory

Yeah i look cool  
and thanks

I think we're ready

So you begin your adventure at ... an inn after learning about job posted by Mis Lia an apprentice of this town mage Lady Meriele Galanodel

Wow that is something and all those memories just flooding my mind

Yeah it's like possessing but i'm kinda still me

So they will help you get into  
yours characters especially  
you Zoe let's try to forget for a  
moment ourselves and  
become the fantasy us i will  
start to get you into this ok?

So you two are here as well for the ghost job offer

I don't know girl has her need and i love a bit of thrill how about you

I will leave them for a moment god i feel so anxious hell i even like i wanted as this character

You're pretty big yourself and i don't mean only height

I know me and Zoe the big one are new in here and we're broke

What's you doing sneaking off like that skinny lady

Just bring me some mead on the way back

I i just i'm going to innkeeper ask few questions

What can i get  
you love

Oh i'm not sure she can be  
here in a moment or few  
hours or even a day i sent  
for her my friend so when  
he comes he will tell you  
whats she told him

One mead and i want  
to ask when the lady  
that posted the job  
offer will come

Oh that's new she's here already so go join your friends and she will tell you all you need

Welcom Lady Lia  
i'm suprosed that  
you came so fast

They are right  
there at the table

So where are they

Hello i'm Lia and i work for Mistress Meriele so which of you are mages

Oh and about payment it's the same as on post and you will be doing a favour my my Mistress

So what we  
gonna  
exactly go for

It's me

I'm not sure all i know that  
we sent few people there  
and none came back so if  
you don't have any other  
questions follow me
