"MMMMMM" I am 18 today! My mind raced to embrace the excitement of the promised life changes mom and dad had hinted at over the last 6 months. My curiosity was causing my mind to swirl on multiple tracts as to what it all meant. My machinations on mom and dad had frustratingly had no effect at ferreting out what it all was about.

My family was very easy going. I was always very open with mom about sexual matters, and she with me.

I didn't mind the openness, actually. No one ever did anything that would be considered inappropriate with a minor. Dad carried himself with a calm, sensual assurance that just seemed to attract women. I was impressed. He wasn't running around chasing pussy, but he wasn't lacking in prospects in that department by any means. I was a bit surprised that he kept himself for mom with all the women obviously interested in him, but I loved him for it. I always assumed that mom's body was the reason for his fidelity as she was a smoking hot woman in her own right.

Sex was not a taboo topic in our family and mom or dad would openly discuss it when I had questions, but they rarely volunteered anything beyond my curiosity.

So, to say what was about to happen on my birthday was going to be both a shock and an excitingly new life for me would be like comparing a tricycle with a Mercedes sedan.

I jumped up and took a nice warm shower to start the day. My excitement was fever pitched and I decided to take the edge off by masturbating on the shower seat with the variable spray nozzle on the shower head. The long tube connecting it to the wall was longer than most I had seen, and it never occurred to me that was intentional. I just knew it was very much appreciated. The pulsing jets of the shower head on my pussy lips, clit, and nipples was about the cleanest and most relaxing sex a girl could ask for.

After pulsing the water on my hard nipples I slowly worked the nozzles between my thighs, slowly opening them as the heat of the moment (and my visions of dad's cock came to mind. The water was pulsing softly on my sex and I just relaxed into the moment, letting it do all the work as it softly cleaned and stimulated me.

My climax was surprisingly strong this morning. Probably from thinking about the day ahead...but it was a nice warm release.

To say I was surprised when I walked into the kitchen and smelled the sausages and eggs and toast all ready for the family breakfast is a supreme understatement. I came down in a tight white T-Shirt that let my areolas shine through (I was hoping daddy couldn't keep his eyes off them when I wore it today with no bra...and I didn't think mom would mind when I teased him) along with some very short cut-offs that barely...I mean barely covered my vaginal lips. The cheeks of my ass were mostly bare under it, too.

I thought I had dressed to kill this morning.

But I was woefully over dressed! Mom sat at the glass top kitchen table without a stitch of clothing. And dad sat at the head of the table without clothes on as well. I stood there in a bit of shock as this was very unusual. I mean, we had really never seen one another nude at one time or another even by accident. But to be openly nude? What made it even more, damn...exciting, was dad had morning wood!

Even though I had just masturbated to the fantasy of my father's cock, I felt the heat rise in my pussy and I felt my nipples begin to want to pierce the fabric of my top.

I recovered quickly and decided not to make a big deal about it and sat down to eat. Making sure I left my thighs open for dad to get glimpses of my outer lips. I confess, I was enjoying the view of his cock. But what surprised me, with the sexual tension in the air during breakfast this morning, was my fascination with mom. She had huge breasts that seemed to almost defy gravity, which of course I already knew. Her large nipples, however, were obviously as excited as mine. But: her pussy was completely bare, slightly open, and obviously wet. I could smell the sex in the air.

"Baby? I asked how are you enjoying your breakfast?" I realized mom had been asking me as she watched me eat while staring at both her and dad's sexes with an open mouth.

"Oh! I blushed, the food is great mom! Thank you! But I must admit, the show is, well, very distracting...but in a nice way!"

Dad piped in, "Well, honey you know we have always been open about sex with you, and now that you are 18 we wanted to let down all the walls and explain a few things about our neighborhood that have been kept from you until today."

My mind suddenly expanded, overwhelmed with making connections. I decided to let dad take the lead rather than make possibly embarrassing assumptions, "Umm, OK dad. What am I missing?"

"Come sit on my lap baby and let me explain."

Mouth drop. He said this in front of mom! And he has a raging hard on and no clothes on. No way his cock isn't coming in direct contact with my pussy!

Mom chimed in just as my mind came back from the intense feelings I was having about the situation, "Dear, everyone knows little girls want to be sexually active with their daddies. It's normal and I think you really need this. She stood up from the table, her pussy lips just rising above the glass top, and walked over to me and kissed me deeply on the lips. "It's okay dear. I enjoyed sex with my father, too. Your dad and I have been looking forward to today for some time. You have both our full support and heartfelt love. Just go with what we all know you want, baby."

I was just given permission by my mother to have sex with dad, while mom was in the room, at the breakfast table. And...my body was thrumming with excitement even though my mind was going a bit numb.

Mom helped me to stand, "Baby, you really are wearing too many clothes, though." Mom lifted off my T-shirt, being very deliberate to suck on my nipples as they were exposed. Then she unbuttoned my shorts and slid them off my hips, following them down to my ankles as I stepped out of them.

I kept my pussy closely shaved for hygienic reasons. Plus, I enjoyed using my dildo on my shaved pussy and not being bothered with pulling any hair down there. But now mom and dad were

looking at it and both were licking their lips. To say my clit was pounding would be a Captain Obvious statement.

Dad backed up his chair and mom sat me on dad's lap facing him and straddling his cock. Dad had slipped forward a bit and his cock fit neatly between my lips. Whether it was wet from my juices or his precum, or a combination of the two I didn't know and didn't care. It electrified my sex and I almost came then and there.

"Mmmmm baby, Your wet sex feels good against my cock like that. Is it OK if I slide it up and down a little bit?"

"Oh yes, please! Please daddy, I have wanted this for so long."

Mom pulled on my nipples and kissed me deeply, "You are such a good girl. Be good for your father, show him how much you love him, baby."

"Th-Thank you mom. I love you both so much."

The underside of dad's cock was sliding deliciously along my throbbing clit and as I looked into my father's eyes my orgasm face showed him how much I was enjoying it as I came. It was quick, intense, wet, and I loved my dad so much.

"That's it baby, give yourself a good time. Live the fantasy to its fullest. Happy birthday baby."

My chest was heaving, my nipples aching, my thighs trembling, and my mind was putting everything to memory. After my breathing settled just a bit dad said, "Baby, there is another kind of orgasm you may never have had. Let me slip just the head in and rub it against your G-spot. If it makes you pee, don't worry, it is expected and is really just you ejaculating. Trust me on this, okay?"

"Okay daddy."

Mom gently rubbed my back, "Oh baby, that type of climax is just so intense, I coat your father's balls every time he does that to me." He loves it when you rinse his balls like that. Just let go and let it happen baby, it's wonderful."

Oh my goodness! Did mom and dad just tell me it was OK to pee on dad's balls as I came? Unnhha, his head slipped into my cunnie and began rubbing the top of my vagina just under my clit....Oh, it felt so different, so warm, so tingly, so good!

I clung to my daddy for dear life as his cock rubbed up and down my G-spot. The feeling like I had to pee slowly built up and my sex warmed up all the way up my spine. I gave into the experience and soon I was lost in a sea of hot flashes as my whole body began to react to dad's skillful use of his cock head.

"My goodness Leesie, Suzie's pussy is so smooth inside. The feeling is incredible."

Soon I began to shiver; the heat built up to an overwhelming wave and then...Oh my goodness! My whole body tensed in wave after wave, my bladder lost all control, I washed daddy's cock and balls in a torrent of cum. I almost blacked out from the whole body intensity. I rested my head against daddy's neck and managed to whisper, "Oh daddy, that was wonderful! I love you so much!"

Mom was behind me, reaching around and playing with my tits as daddy now slipped fully into my absolutely soaked pussy in one, slow, heated stroke all the way to the tip of my uterus. Now baby,

there is one last type I want you to experience for our first time. This is a uterus climax where the head of my cock rubs your uterus until you cum. This one is almost a religious experience, but it takes time and you have to be patient.

"What about you daddy? How can you last that long?"

"I have a cream I used to help me, baby, I can go a while yet. You just give yourself to the moment. If you have any strong feelings, talk through them as this climax gets very emotionally intense."

Nodding, enjoying the deep penetration, I moved slowly so daddy's head made slow circles around the tip of my uterus, "Yes daddy, I will."

Mom kissed me deeply and held her nipple to my lips. I latched on and felt like I was being fed and cared for and deeply loved. Helpless to resist. Not wanting to stop. After about 20 minutes nothing was happening and I began to feel frustrated.

As I promised, I told dad about it and he coached me through it, having me focus more intensely on my uterus and thrusting my pelvic floor towards his cock. About the time I fully let go it happened.

It started real slow, a deep warming that made a direct connection to my nipples and my brain. The sensations deepened and spread, my whole body began to react and my mind was alive, and tingling. But still it was slow, building stronger and stronger until my mind and my tummy were on fire and electrical pulses seemed to move through my erogenous zones.

Finally the wave crested and I had a whole body climax that was so strong I had difficulty breathing. After a full two minutes I kept cumming, one climax after another without pause. Daddy had to coach me to breathe. After another couple of seconds I began to faint just as I felt my loving daddy fill my cunnie with his hot cum, making the climax even more intense...and I blacked out.

I woke a moment later laying flat on my back on the table with my knees separated and able to see my mother sucking on daddy's cock, cleaning his and my cum from his cock and balls. "WOW!" I said and mom immediately moved to the side of the table and got on, straddling my face and lowering her pussy to my lips.

Daddy lifted my knees and started rimming my pussy, licking up our cum as it leaked out of my cunnie. But mom's pussy was divine. She tasted of strawberries and her clit was large, engorged, and begging to be licked and sucked. I made love to my mother's pussy and it surprised me how erotic it was.

Mom must have really enjoyed the show because she soon came, announcing to dad and me that she was cumming. I latched my lips around her minor lips, stuck my tongue deep into her, and sucked her cunnie's juices as she climaxed. It just seemed so natural, so special. My mind realized mom and dad had set me up for this for quite a few years, but instead of feeling abused, I felt loved and adored and protected.

Mom lifted up and got off the table and dad helped me up. "Honey, let's all clean up in the pool, we can enjoy a good skinny dip as we talk about our wonderful neighbors.

Dad cradled me in his strong arms as mom led us outside and into the pool. Mom's massive breasts floated so invitingly I began to massage them in the warm water of the enclosed, Roman style,

heated pool. Dad was standing behind me, arms wrapped around me and massaging my tummy and breasts from behind. His flaccid cock resting between my ass cheeks.

Mom began with, "Well, Suzie, I wonder if you are aware of what a free use household is?"

"Isn't that when anyone in the house can have sex any way they want it with anyone in the house without even having to ask permission?"

Dad whispered, "In a nutshell, yes, baby. One always has the option to say no; but that soon becomes an issue that needs addressing if no happens all the time as it basically defeats the idea of a free use household."

Mom chimed in as I played with massaging her breasts, "Well, baby, our neighborhood is actually a free use neighborhood. Anyone aged 18 or over who stays in the neighborhood agrees to being an active participant in our community's free use agreement."

My hands paused on mom's breasts: "You mean, I could walk right over to Harry's house next door and ask to be fucked by him?"

Well, no baby, he is still 17 and will be leaving soon for college, so he won't be available. But, if you wanted to go over and have sex with Barbara or her husband all you need to do is go visit them when Harry isn't there and just take off your clothes and...well, yes...fuck their brains out."

"What about Jim and Mary across the street?"

"Yes baby." Dad said. You know we usually leave the house for a party every weekend? Well, those parties are orgies held at the respective houses each Saturday evening. Everyone brings a pot luck dish and we eat and fuck whomever we wish."

"I will say that your father really loves Mary's pussy and Harry's father loves to cum all over my tits as your dad fucks him in the ass. They both lick his jism off my tits afterwards. There are no taboos and no boundaries but if someone declines it is always respected."

Mom pulled gently on my nipples, "Do you think you would enjoy that lifestyle, baby?"

"It sounds like it could be a lot of fun! I am willing to try it out, but I know I cannot replace my daddy's cock or your sweet pussy mommy."

"No baby, it is more a healthy sex club among friends. We will go and introduce you tomorrow during the next party."

Well, after cleaning up, dad went to work and mom started cleaning the house. She suggested I pick a neighbor and go visit, see for myself what a free use neighborhood had to offer.

Since I knew Harry was at school I decided to go see Barbara. I knocked at the door and she opened it, dressed in a nice summer dress, as was I. It was obvious neither of us had bras on.

"Oh hi Suzie! What's on your mind?"

"I turned 18 today! Mom and dad introduced me to family sex and suggested I go see what a free use neighborhood had to offer! My first thought was to come over and see if you wanted to enjoy some pool time with me? But, I confess, I didn't bring a bathing suit."

"Well that's Wonderful Suzie! So I take it your parents, ahem, filled you in?"

"Lol, well, dad did most of the 'filling' but I did some exploring on my own. Seems mom loves having her little girl suck her clit as she cums on the kitchen table."

"Mmmmmm, and she has such wonderful tits, too. I know hubby loves to cum on them."

"Yes, mom told me he likes to do that when daddy is fucking him in the ass?"

"Oh yes dear. He loves that. I must say, I enjoy him ass fucking me as well. He has the perfect cock for it." She winks and takes my hand, let's go skinny dipping!"

Barbara grabbed a rubber cock and some waterproof lube on the way outside and set them on the side of the pool. She then walked behind me and slipped the straps of my dress off my shoulders, running her hands down and across my breasts and over my tummy, letting my dress fall to the deck. The breeze against my bare nipples and pussy felt so carefree. After tasting mom's pussy I wanted more, this was a side of my sexuality I had never explored before and I wanted to have Barbara cum on my face. I turned around and slipped her straps off, helping the fabric over her breasts and nipples, suckling on each as they were exposed.

The backs of my fingers brushed along her pubic region and it was scary smooth. "How do you keep your sex so smooth, Barbara?"

"Oh Suzie, I had laser hair removal. Slick as a whistle all the time and no maintenance."

"Can I see?"

"Oh sure honey!" and she sat in a padded chair with her arms between her knees, holding them up and open for me. I took another pad from a chair and knelt between her thighs, softly touching her very smooth sex.

"Mmmmm! You look good enough to eat!"

"Oh baby, if you are hungry, please snack away!"

I leaned in and softly kissed her outer lips. They were so soft and smooth. I ran my tongue up and down the edges of them and also tickled the edges of her inner lips. Barbara had a perfect pussy. The inner lips protruded ever so slightly; but when parted they revealed a long clit sheathed in pink skin. I kissed it and felt it swell to my lips as Barbara moaned encouragement.

I couldn't believe it. Just walk into someone's house and ask for sex. No big deal, and no hang-ups. Just pure sexual pleasure. I wrapped my lips around her clit and began to lip fuck her clit as if it was a penis. Soon she was wet and moaning for me to make her cum. I slipped two fingers into her quim and began rubbing that spot daddy showed me earlier as I fuck/sucked her clit. Barbara was soon rolling her hips and whimpering, begging me not to stop.

Soon, Barbara came hard and she sprayed her cum all over my face and chest. "My goodness girl! Where have you been all my life!" was all she could get out between gasps for air.

I decided I quite liked the taste of the rainbow.

I jumped into the pool to clean off and Barbara got in when she could walk again. Soon she had my thighs around her head as my shoulders rested on the top step. She held my cheeks apart, letting

the cool water wash over my sphincter which was very thrilling. Then she slowly slipped her well lubed dildo into my ass.

She delicately spread my lips and licked out my cunnie as if she was a Butterfly eating nectar from a flower as her dildo continued to plunder my ass. Soft, gentle licks right at the entrance to my womanhood with soft stabs now and again against the base of my clit. It was very unhurried and made my sexual tension slowly grow over an extended time. After what seemed like an hour I finally came. I came hard enough that my tits were jiggling and my tummy contracting hard as I expressed my cum into her waiting mouth.

Barbara then pulled me into a body hug and we kissed and rubbed each other for a while. "Suzie, you feel free to come over anytime you like. I cannot offer Harry as it would violate community rules, but You can have either Bill or me anytime you need. Okay?"

"Oh thank you so much. But please promise me one thing? Promise me, when Harry is introduced to the community that I get to have him first?"

"Oh baby, when that time comes, we will be sure to have your whole family over and you can have your way with him. I promise."

I hugged Barbara again before we got out and dried off, laying in the sun for a while to warm back up. But, sadly, I eventually needed to dress and leave as Harry would be back home soon.

Upon returning home, mom had finished cleaning for the day and was sitting naked on a towel on the couch watching some porn on TV, having made some sandwiches for both of us just in case I returned. I was famished and dove in after grabbing a towel and slipping out of my clothes. I sat next to mom and she asked, "Welcome back Suzie, where did you go for your first tryst today?"

"I went next door to see Barbara. Sucking your pussy was so erotic I wanted to try another woman to see if I enjoy sapphic sex for real or if it was just because you were my mother."

"And?"

"Yeah, I am an official swinger. I just want to try anal to see how that is, but man or woman? Yeah, I'm all for it."

"Oh honey, that is so wonderful to hear! You really should let your father take your ass for the first time. He really knows what he is doing back there and you are sure to become an instant fan."

"Yes, I heard Barbara say her husband really enjoyed daddy buggering him as he fucked her."

"Giggles, yes, they both enjoy themselves and both of us wives on a regular basis. I am sure you will as well. I wonder if you would like Bill to come over and slip inside your pussy as your father takes your ass? Your first DP needs to be special. What do you think?"

"Oh mother, do you think he would?"

"Baby, he would love to. I will call Barbara and set it up for 5 o'clock when they both get home. Both men like to have some sex to unwind after a hard day at work."

The porn was a mother/daughter scene where they were going 69 and I reached over and played with mom's pussy as I watched. Mom played with mine as well. We didn't try to make each other cum. It was more just sharing and caring...but it did keep our pussies moist.

Well, when I heard daddy's car drive up my pussy just gushed, I had to tamp dry my outer lips to keep from having it run down my thighs. I skipped down the stairs naked as a jaybird and met daddy at the door. We hugged and kissed and he played with my tits as I undressed him while he was still standing in the foyer.

Dad just smiled and after he was starkers I gave the tip of his cock a quick peck. "Ahh, Suzie, mom tells me you want to experience a DP with me in your ass and Bill in your pussy?"

"Oh yes daddy! Please? Is Bill on his way?"

Just then the door knocked and Dad let Bill into the house. I noted Bill took a longing look at dad's hard cock before he looked me up and down. "Bill, may I call you Bill? I thought it would be okay since you're about to fuck me."

"Bill is just fine, Suzie. And happy birthday! I hope you had a wonderful day!"

Dad went to get his special cream as I helped Bill undress, "Oh yes! It has been wonderful! Daddy fucked me every way from Sunday, except anal, and I ate out mom's pussy and then went over and Barbara and I had some wonderful sex as well!"

Dad returned with the special cream, "Suzie, please come over here (he sat on the couch on top of a towel) and bend over so I can apply this cream. It will relax your sphincter muscles and make your ass as slippery as your wet pussy is. Bill, you are going to love Suzie's pussy, it is as smooth a pussy as I have ever fucked."

I bent over and daddy applied the special lube around the exterior of my sphincter before slipping a lubed finger inside and lubing my ass up as far as he could reach with his fingers.

Almost immediately I felt my anus relax and I straddled dad as I directed his cock into my now very open and very relaxed bowels. Nnnhhh, daddy filled me up. He was sliding without friction and there was no pain at all. I slid all the way down to his balls then rested my thighs on the outsides of daddy's knees, making my pussy lips spread wide for Bill.

Bill took one look and saw how wet I was. He knelt between our legs and slipped his cock into me in one, slow, slick thrust. "Oh my goodness," was all I could say. Both men were bottomed out inside me and I could feel their cocks pressing against one another inside me, and I was so full!

I was speechless. Daddy and Bill coordinated their thrusts, sometimes going in together and sometimes alternating...but the sensual overload was always there. My body started tingling from the very first strokes and I was having mini orgasms in fast succession, some from my ass and some from my pussy with both happening together several times.

I held onto Bill's neck as they thrust inside of me, barely able to focus on his face as my perpetual climaxes wracked my body. I moaned, I cried, I gasped for air, and my two beautiful men just kept up their rhythm. Mom came in and began to suck my nipples and I cried out as the orgasms just jumped up exponentially in strength.

Bill came first and sprayed his cum deep inside my pussy. He then moved down and literally began sucking his cum out of my pussy as dad continued to thrust. My climaxes never stopped. Eventually daddy came and sprayed his hot cum inside my bowels. By that time my body was just shaking uncontrollably. Mom gave me some orange juice to drink which I downed all at once.

Daddy was still inside me but slipped out and put in a butt plug to hold in his cum as I was fully dilated and relaxed. I sat between mom and dad, trying to recover while Bill sat in the high backed chair opposite.

Dad asked, "So Bill, is her pussy the slickest you have ever fucked or what?"

"Damn James, there is no comparison. I couldn't hold back it felt so good. Thank you so much Suzie for including me this afternoon. I loved it!"

"I--I never stopped cumming from the first stroke to the last. I am still feeling aftershocks. Thank you Daddy, thank you Bill. That was the best sex I have had today. I am definitely able to climax from an ass fuck, daddy. Thank you so much, both of you, for making it special."

It was at that time that I heard mom's rabbit vibrator. She was sitting spread wide, fucking herself with it. Bill moved to her side and fed her his still cum soaked cock from both his sperm and my juices while dad had me move so he could slap and suck mom's tits. She came hard soon after.

Mom had ordered Chinese food from the local restaurant and it was delivered just as Bill was leaving for the evening. Mom had on a summer dress that really didn't hide anything and paid the very distracted delivery man. We three ate and enjoyed talking about each other's day.

Feeling completely wasted from the wonderful day, I went to my room and took a warm shower, gently pulling out the butt plug and cleaning it and myself before flopping onto the bed and sleeping off the day's activities.

As it just so happened, the party that Saturday was at Jim and Mary's home. Mom brought some nice cream cheese and sausage stuffed Jalapeno peppers that were pickled in dill and halved before seeding and stuffing along with a corn salad made with white shoepeg corn, Hellman's mayonnaise, minced onion, minced fresh jalapeno, fresh minced garlic, pimiento, sea salt, and fresh ground black pepper (she made both early in the morning and let them sit in the fridge for the flavors to meld during the day so they would be ready for the party).

Everyone walked over to their house, almost as if choreographed so that each arriving family (only children 18 or over were allowed) could be properly greeted without anyone having to wait to enter.

When mom, dad, and I arrived we entered the foyer and mom and I handed our dishes to none other than Barbara and Bill as Jim and Mary greeted us, took our clothes and folded them neatly on a set of shelves before we formally greeted each other with sucking of nipples, fondling of balls, and exchanged pleasantries.

Jim had a very long, somewhat thin cock with a very overly thick mushroomed head that promised to be quite a unique feeling while Mary seemed to follow in the vein of laser hair removal. Her inner lips hung well below her outer lips and were a very fetching light pink with darker edges.

When we passed through the rear doors to the foyer we walked into an orgy going in full swing. Sex everywhere, moans, cries, climaxing...it was glorious. Mom had a youngish man from down the street walk up to her and planted a soul searing kiss right down her throat as he began to manhandle her breasts.

Rather than back him off, mom grabbed his cock and started pumping, asking him where he wanted to put his man meat. Dad saw a young couple who had moved into the neighborhood about 6 months ago and walked over, kissing them both deeply as they double teamed him. I was just about to find a soda when another male neighbor walked up to me and asked if I might be interested in sharing with him.

My pussy was fluttering and my mind a bit overwhelmed with all the open sex; but I knew why I was there and I smiled as I nodded, "Sure! I kind of like sex outside in the fresh air, though, is that okay um_____?"

"Jim, just call me Jim."

Jim was easily in his late 40's, with graying hair, deeply intelligent and kind eyes, and was in decent shape for a man of his age. His cock was semi erect and looked to be about 5 or 6 inches long but I swear it was as thick as my wrist. We walked hand in hand out the back sliding glass door to a pool area.

There were a few other couplings there but it was much quieter overall than the bustling sexual frenzy in the main house. We walked over to the juice bar (I learned no alcohol or drugs were allowed before or during these get-togethers for obvious reasons). I asked for a grape slush and Jim asked for a 7-up on the rocks.

I leaned into Jim's chest and kissed him. He began kissing down my neck, spending some time below my ear...and my pussy and nipples lit up like the fourth of July.

"Mmmm that feels nice!"

"Do you feel it on your clit and nipples Suzie?"

"Oh, yes. But how did you know my name?"

"Well, your mother informed me you had just turned 18 yesterday and that this would be your first party. She asked me to help make you feel welcome and included. Well, actually, I, um, well, I asked. I have a thing for young women in their late teens to early 20's you see. I find them quite intoxicating."

I smiled, "Do you prefer the power difference? I understand that can be very arousing for some men."

"Actually, I just like the patina of innocence. I am all about informed consent and am not a pedophile, but I do enjoy the effervescence of a younger woman. Does that cause you concern?"

"Absolutely not! My daddy just yesterday, introduced me to his cock and I loved it, also Mr. Walker and dad gave me my first DP last night. I have found I am very much into older men." I reached down and cupped his hairless balls in the palm of my hand and very gently massaged them. I swigged my drink and set it down on the bar as I kneeled in front of him, "Let me get this boy all wet, hot, and bothered and see if we can make it fit inside my pussy."

I peeled back his foreskin and licked his cock. It was a slightly salty, earthy flavor and I stretched my mouth to suck him in down to his balls. As he started to swell I knew I could not hold him in my mouth without biting so I let it slide out as I sucked and licked at the Y under his cock head as well as nibbled the ridge as I lathed it with my saliva and pumped it with both my hands (he was too thick for one to reach around the shaft).

I stood and sat on a bar stool with my back to the padded edge and opened my thighs in invitation. My pussy was slick, wet, and in heat as he lay the head of his cock at the opening to my cunt. To Jim's credit, or more likely experience, he very very slowly began to open my pussy with his cock with what could only be described as micro thrusts. "Oh Jim, that pace is just perfect. Take your time and stretch my pussy around your cock, baby."

Jim continued his slow penetration and soon the head of his cock had slipped inside. Wow he was thick! My cunt was throbbing around his cock head and it felt delicious as he continued to stretch my pussy. Jim had his arms under my knees past his elbows and his hands were playing with my breasts as he rocked his cock deeper and deeper inside me. I was gasping for air, my pussy and clit was being abused by this massively thick cock.

It was wonderful.

I looked into Jim's eyes and whispered, "Oh honey, take my pussy, feel how soft and smooth your cock glides inside me. You are so thick my clit feels like you are rubbing it from the inside and I won't last long before I cum for you honey. Do you like my velvet cunt wrapped around your manhood?"

"Gnnnh, your pussy is just as velvety smooth as your father said it was! I love your pussy, Suzie. Please, cum for me. Let me see your cum face as I enjoy your body."

He was all the way inside me, not real deep; but oh was he filling my pussy up, stretching it wide with his magnificent cock. My clit was throbbing, my nipples hard as nails as he took me. I began to whimper as my climax began to rise up in me. This was different from my clit being massaged, this climax was building more slowly and was warming up my whole pussy.

I grabbed the hair on the back of Jim's head and held him tight in my grip as I crested, my mouth open, eyes locked on his, my brow creased as I grunted through my orgasm like a rutting bear. Jim reacted to my pulsing pussy walls and came, filling my cunt with warmth, his heat and throbbing cock extending my own orgasm. When I came to, Jim pulled out and our combined cum ran down my thighs as I stood on the freshly mowed grass.

Suddenly I heard applause from over half a dozen people, all congratulating me and coming in to hug me as they played with my nipples or patted my cum soaked pussy lips. Jim produced a warm wet micro-weave towel and cleaned me up as I stood with my knees parted. He escorted me back into the house and the kitchen where we made some plates and sat outside on a picnic table. Mom and dad soon joined and we talked about how much fun we had already had.

Dad piped up, "Suzie, would you like some of that muscle relaxer? I have been asked if you might be up for a foursome with three men each filling a hole? I believe it is referred to as being 'plugged up'?"

"Oh dad! Only if you are the one in my ass! Who wants to be in my pussy?"

"Well honey, Bill and Jim, our host, wanted to take you anally and vaginally, would it be okay if I took you orally?"

"Okay! I can do that, where would be a good place?"

"Well, on the couch. Jim can lay with his head just short of the armrest and enter your ass while Bill can straddle his legs and get between yours to fuck your pussy and I can lean over the edge of the

couch as you suck me."

My nipples started to harden, "Who will be watching us?"

Mom spoke up, "Everyone will baby, us wives will be massaging balls and nipples as most everyone will be watching you get fully vetted into our sex club."

"Mmmm, so this is a right of passage type of thing then?"

"Only if you want sweetheart," Dad said, "It is consensual or it doesn't fly."

I smiled and raised my eyebrow, "Let's fly!"

I bent over the table to let dad spread his magic cream around and inside my ass while mom and Jim cleaned the table. Dad, Mom, and I walked in to expectant faces as most of the sex seemed to pause and room was made for us on the couch." Jim laid down on the couch with his legs together and his cock standing high and well lubed. Mom spread my cheeks as I lowered myself onto his cock, right down to his balls in one slow but persistent move. My, he felt good back there! I lay back and put my head to the side and Bill saddled up to my still gaping pussy and slid balls deep into me.

My groin started its mini climaxes even before they started moving and I was panting as daddy slipped his cock into my mouth.

Then my world went white as everyone began to move. I came hard immediately, and kept climaxing without a break as all three men plugged me tight. I lost all sense of anything but those three cocks. I felt lips on my nipples but I could not respond more than I was, my body bucking and writhing, moaning around daddy's cock. I know it was so intense I was crying and had to have daddy pull out as I jacked him off several times so I could breathe and cry some more from the pleasure.

Bill came first, his cock throbbing in my pussy as his warm cum wrapped around the insides of my pussy. He immediately pulled out and Barbara began sucking his cum from my pussy. My climaxes didn't even slow down and Barbara was having a difficult time staying latched onto my pussy as I met Jim's thrusts in my ass. Jim soon creamed me back there and when he began to soften Barbara let him slip out and she immediately slipped a butt plug in my ass until it firmed up again.

With two of the three done, I could finally concentrate on my dad and I gave him a blowjob that had every cock in the house hard before I was through. When he came I deepthroated him and had his seed spew right down my throat and into my tummy.

Mary was cupping dad's balls as another woman I had not met was sucking his nipples.

When it was finished I was greeted with another round of applause and all the men with hard cocks from the show grabbed a woman and started fucking them without preamble. Mary took me to her bedroom and lay me down on her bed and we had some slow paced sapphic sex. She was tender and loving and people would step in and watch us play but no one engaged with us. It was sweet.

Mary's pussy smelled of lavender and her juices flowed easily as I licked her pussy and clit. We were in a 69 for what seemed like over an hour as we felt no rush to cum. Her style was easy going and very, very feminine. I loved it.

After we had both cum more times than I could count, mom came in and said it was getting late and I could stay or come back home with them. I was exhausted and kissed my goodbyes as we left with our empty food trays and bowls. Mom's food, along with her tits and pussy, were a big hit. We all showered together and dad helped to take out my butt plug and we all washed up and went to bed.

Harry was off at medical school and I was enjoying some afternoon sex with Barbara when the phone rang. Barbara collapsed onto the floor with the news that her husband and my lover was dead. I just held her close, letting her cry herself out...I cried with her.

I held her hand as she called Harry who was on the speaker so I could hear. I shook my head no when he said he was coming home immediately and Barbara had her wits about her enough to understand why. I could tell Harry was as devastated as his mother and I were.

For a month, Barbara and Harry grieved for Bill's death. The community fell in behind them both and several of the men were lawyers who hounded the driver and the company whose truck he was driving and they got a good out of court settlement for them.

Then, one day we got a phone call from Barbara, inviting us over for dinner as an introduction for Harry of the community's sex club and open community orientation. When I heard the news my pussy just began to flow without provocation. I had wanted to have sex with Harry so badly I was almost cumming just thinking about it.

Mom told me the afternoon before the dinner party that Barbara had asked me to be sexually assertive with Harry to break the ice and I happily agreed. We all bathed and mom and I dressed very provocatively, see through sun dresses with plunging necklines and nothing on underneath. Because of her huge bust, mom did tie a small ribbon around her waist, which accentuated her figure even more. I just wanted to get fucked as quickly as possible so I didn't add anything but a pair of shoes.

When we arrived, poor Harry was so nervous. As he undressed me I told him I was fucking him right after the introductions were over and he seemed to relax a little. But his poor cock looked like it could crack concrete. When he had finished the welcome with dad I wasted no time at all and took him to the couch where I bent over the arm and spread my cheeks for him. I was so turned on that I came on his cock just as the head entered my sopping wet cuntie.

Harry's cock was a little larger than his father's but it was hard as steel and very warm. He plunged into my pussy hard and fast, so aroused we were that there was no need for a slow start and we both knew it. Harry came right after, maybe only 4 thrusts? I didn't care, we were going to have a great evening together. I think what put him over the top so fast was mom's sucking Barbara's pussy on the chair and me sucking on dad's cock as Harry took my pussy. I thought it was cute.

We cleaned up, Harry and mom putting on a show in the shower, and I sat on Harry's lap and fed him from my breasts. It was kinky but fun and I think everyone enjoyed the antics. I know Harry did as his cock poked up between my pussy lips.

When dad suggested a sex chain with him fucking Harry's ass as he fucked mom who ate me out as I ate out Barbara on the table I feared Harry might balk. To his credit, he was willing to try and dang was it a hot sexual encounter.

After we cleaned up Barbara brought out a game of twister. I had never played the game before but it was so much fun! We had asses to faces, pussies and cocks so open and close. Between spins we took time to lick or caress any sex that was exposed to us. I came with mom, Barbara, dad and Harry as they all played with me between spins. I got pinned once under mom's breasts and had a field day watching and licking Harry's cock as it slipped between her breasts.

After the game we ladies made sure dad and Harry got some release as they had been teased mercilessly. I was hopeful that Harry would take his dad's place and meet his mom's needs as well as be a meaningful member of the club. I loved my mom and dad. I loved Barbara and the other members of the neighborhood...but I was quickly falling deeply in love with Harry.

The only question is would Barbara let us.
