

失控

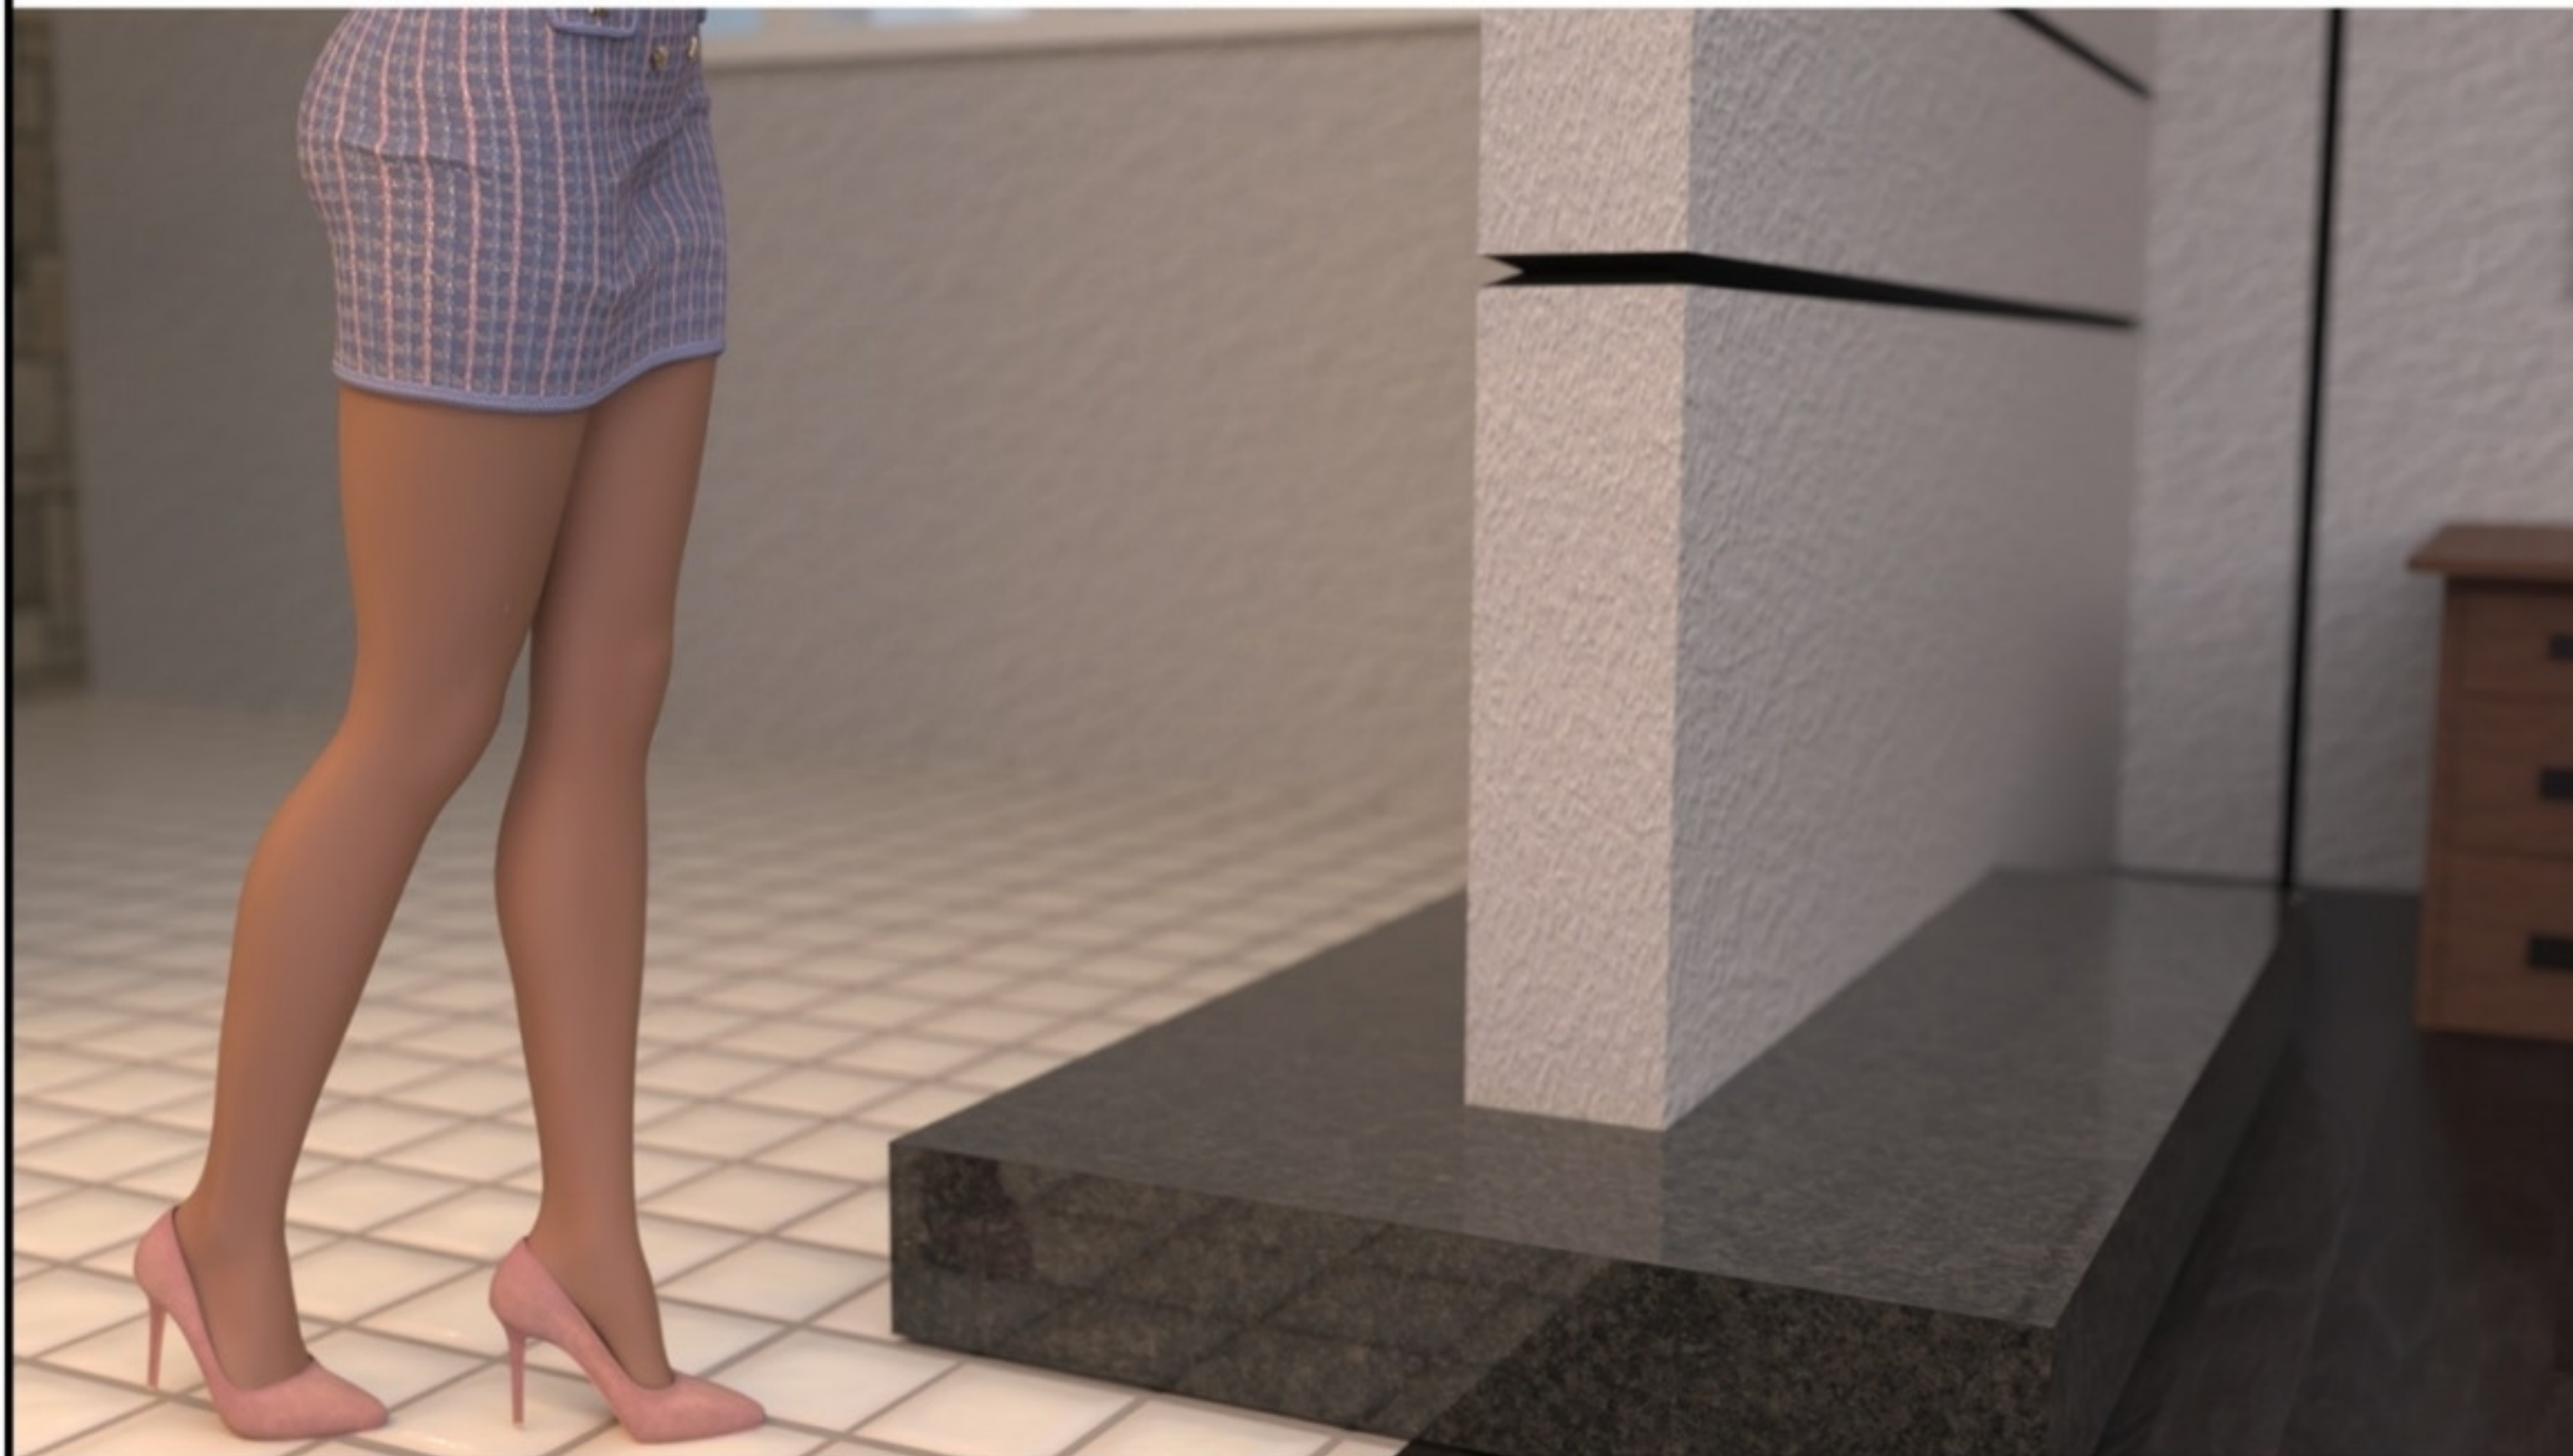

-下-

This story is entirely fictional and all characters in it are adults.

After a while, in Su Wan's room...

Phew, I'm so exhausted, my feet hurt from walking.

I didn't expect that my mother would actually agree to become me and let me live vicariously.

Now that I can look at my mother's face,
I've been playing for a while, hehe

And I was alone at home for a few days, so I finally felt no more psychological pressure.

It seems that after being rescued for a while, I will be the hostess of this room.

妈...妈妈...

Looking at her in the mirror like
this still makes me feel a little
embarrassed...

Only then did I realize that my movements inside my mother's body looked so inconsistent.

If you stay with your dad for such a long time, you will definitely be discovered, so you have to get used to it quickly.

What can I do to be more like my mother...

You must put yourself into your mother's state of mind first.
In this case, let's start by imitating your mother's daily life.

A 3D rendered scene of a modern living room. In the foreground, the lower half of a person is visible, wearing grey leggings with black side stripes and white socks with black stripes at the top. They are standing on a polished wooden floor. A light-colored rectangular rug is on the floor to the left. In the background, there is a black refrigerator, a wooden side table with a white vase, a yellow sofa, and a white sofa. A video game controller is on the white sofa. Two speech bubbles are present: one from the left containing text about a mother's yoga routine, and one from the person's legs saying 'Me too...let's try it'.

I remember my mother said that she would do yoga every afternoon when she was alone at home to exercise.

Me too...let's try it

Um - Mom's body gets tired easily, but that's understandable, she is middle-aged after all.

Speaking of which, if I keep doing this, wouldn't it mean that from now on I will become a middle-aged woman...

But it doesn't matter, my mother's figure has been maintained so well. She has been the talkative mom of her classmates since she was a child. It's good to be able to keep it like this.

Okay, Su Wan, you are now a mature woman. You have to exercise well to stay in shape, otherwise you will lose your sense of style if you are very handsome.

Yoga is an indispensable item in your future life, learn to do it quickly.

Damn it, why would someone come here at this time? It can't be my mother's best friend...

A 3D rendered scene in a warm, indoor setting. On the right, a person wearing a grey hoodie is seated on a bright yellow, curved chair. Their hands are resting on their lap. On the left, another person's arm and hand are visible, holding a red and silver beverage can. A white speech bubble with a black border points from the can towards the seated person. The background is softly blurred, showing a wooden table and a lamp. The overall lighting is warm and ambient.

Come on, Xiaowei, let's have some drinks first.

(I was scared to death. Who was I thinking? It turned out to be Viagra...but why did he come?)

*Psychological activities in brackets

So what's the matter with Xiaowei's visit today? You must not be here to see your aunt, right?

Aunt Su, do you know where the small print went? Ever since he said he was going home, he has not returned to school, and he has not responded to messages on his mobile phone. In the past two weeks, he has been absent from class and I have been helping him find teachers, but I was still a little worried so I decided to come over and have a look.

(Damn it, I was so caught up in this sudden incident that I forgot to ask for leave from the school. Later, when I have time, I have to act like a mother and make up an excuse to the school.)

(But before Viagra arrived, he actually not only helped me sign in for the course, but also came to see me. As expected, it had to be you, my good buddy.)

forest green

Ah, Xiao Zi got a very serious flu after he came back last time. Yizhen was hospitalized. My aunt was also a little busy during this time and forgot to tell the school.

I'm really sorry for making you worry~

Really...original...it turns out to be like this...

Xiaowei? Are you talking to Aunt Xin?

Ahem...Aunt Su...of course I'm listening...

Lin Luzi

(Oh no, my mother's mature and sexy body combined with this yoga suit seems to be the perfect match for Viagra's sexual paralysis. I remember Viagra said that he likes mature women who are older than him.)

(Speaking of which, I actually thought the way he looked at his book just now was a bit cute... Could it be that I was affected by my mother's health?)

(Okay Viagra, since you care about me so much, I will also give you some benefits.)

forest green

Well...Aunt Su, since the fine print is fine, ,
I'll leave first without disturbing you...

Don't be lazy, Xiaowei, you came here specifically for Xiaoyu's business. Auntie hasn't thanked you properly yet, so how can I let you go?

|Come and tell Auntie what reward you want. ◦

Ah, Aunt Su, what kind of reward is this?
(Woah, what kind of development is this?)

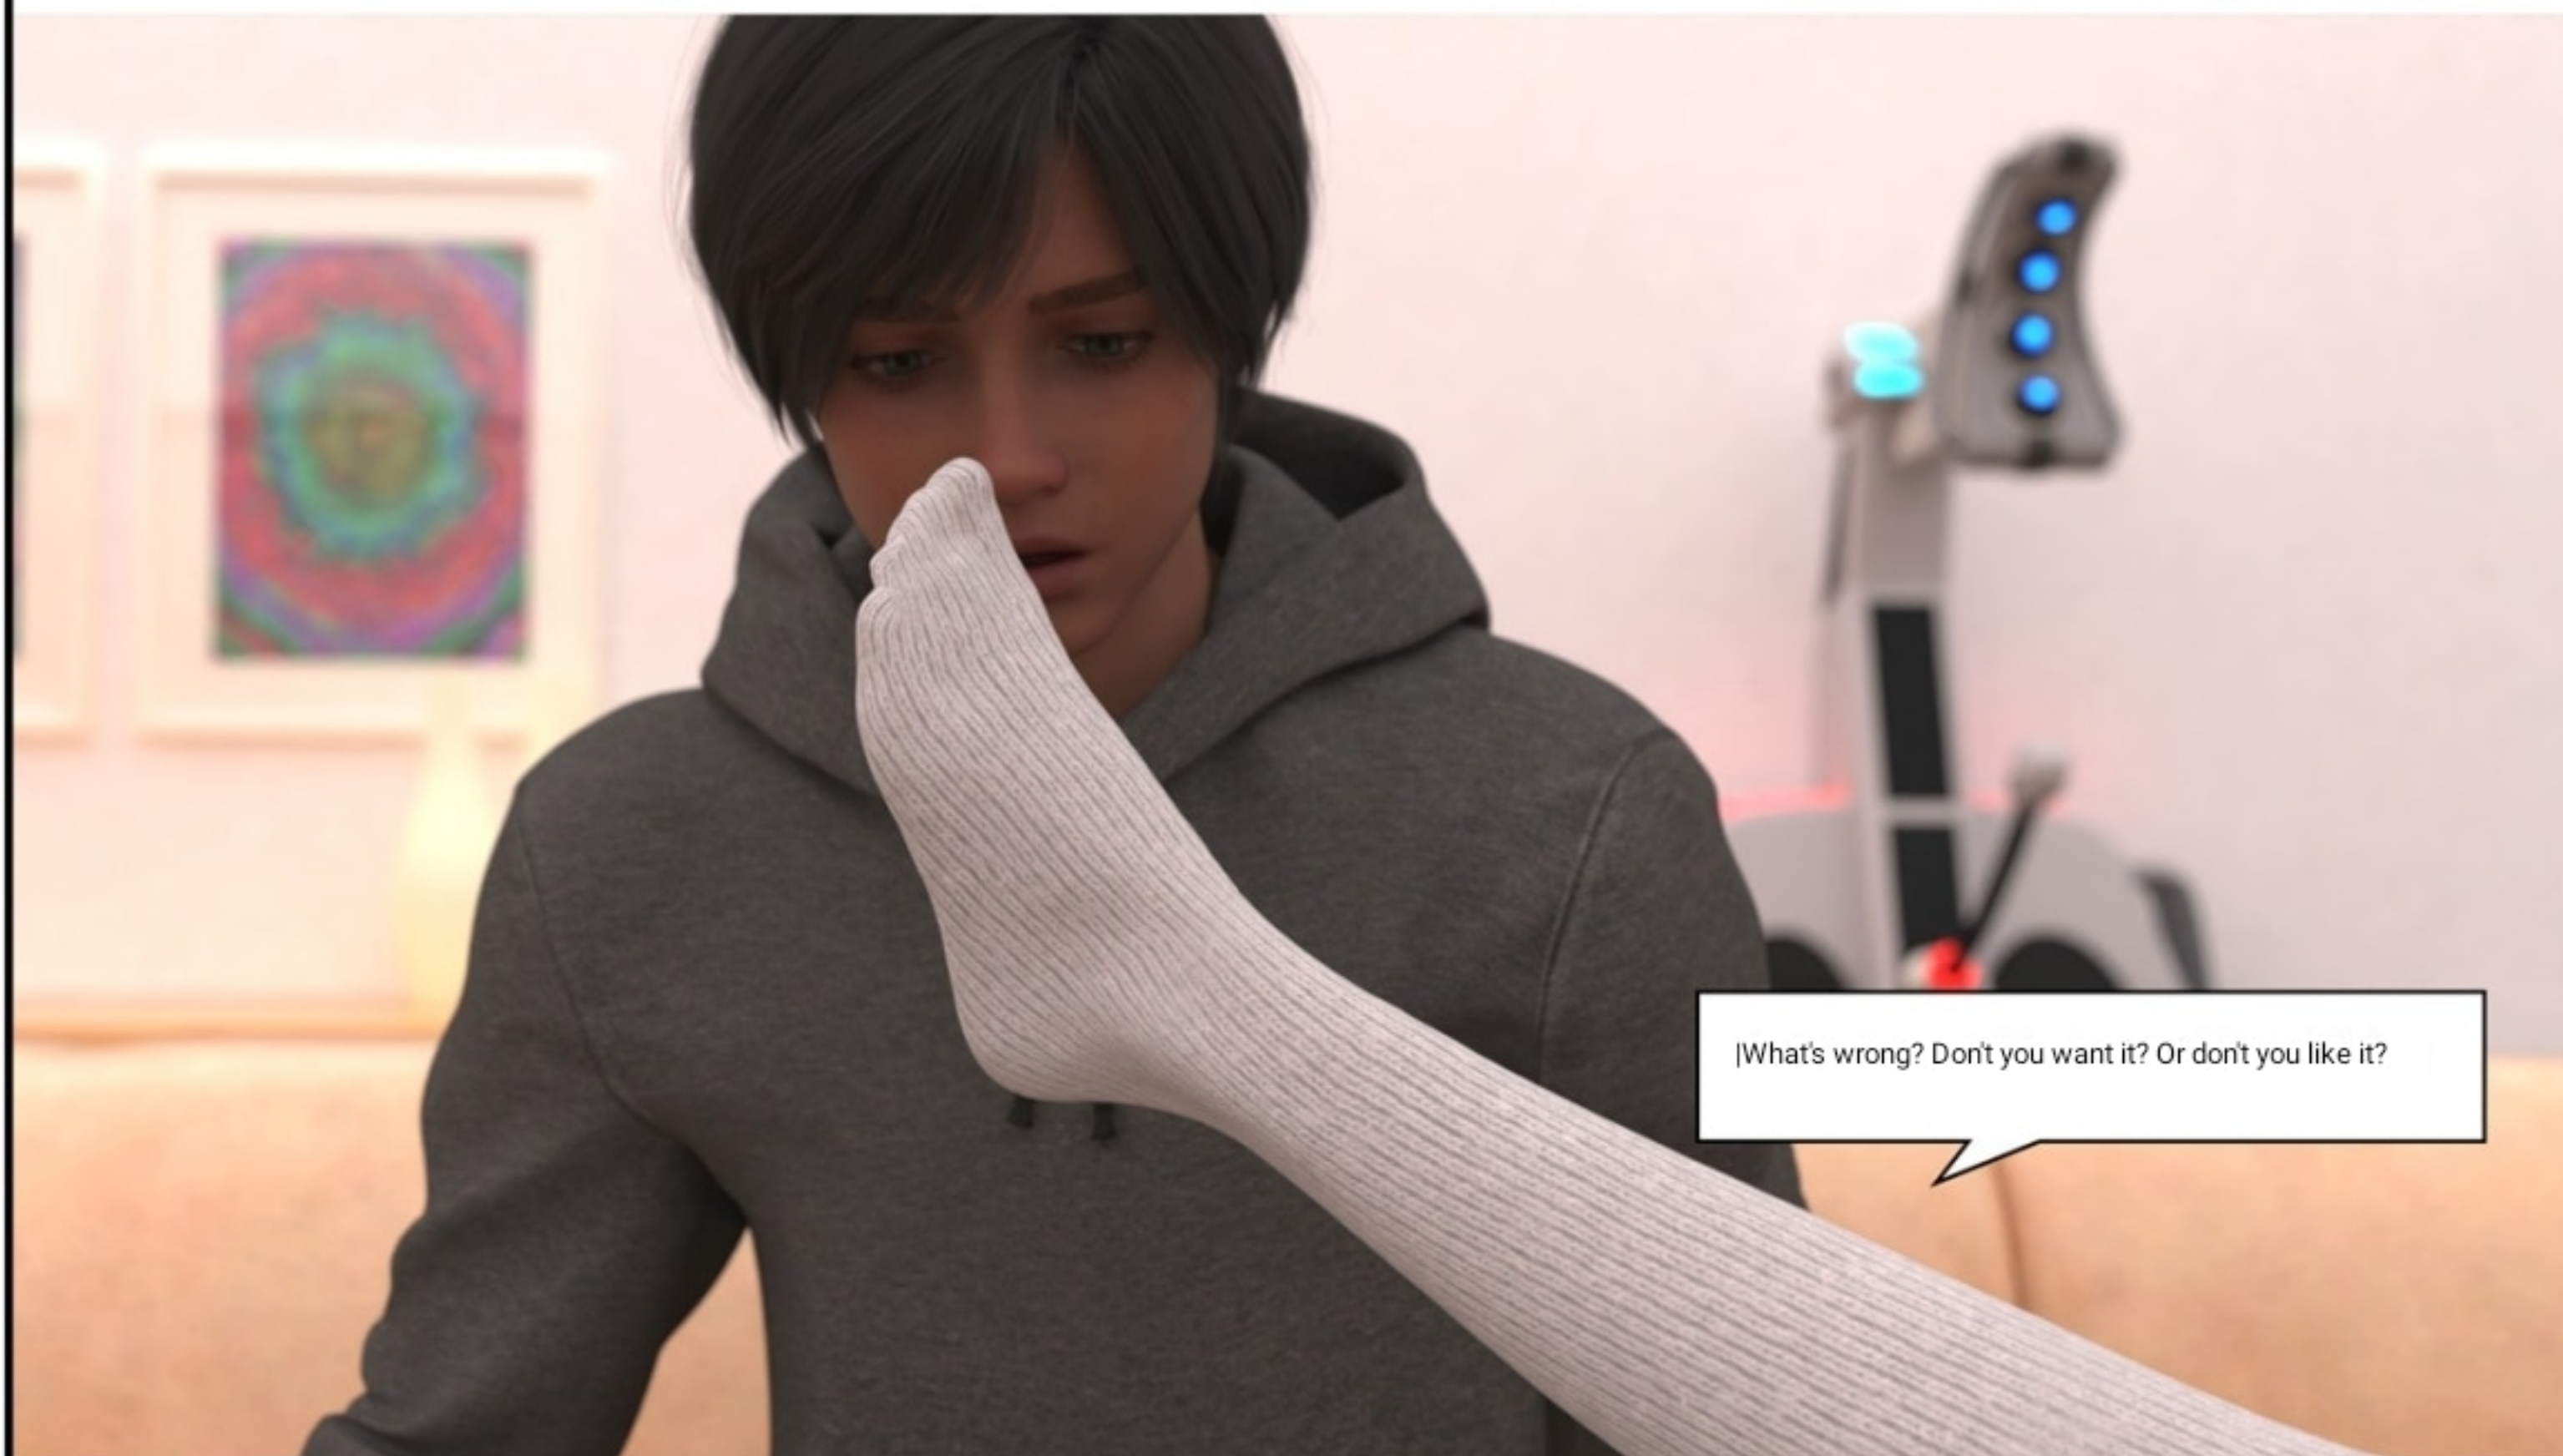

Lin Luzi

|Kobayashi
Midoriko

Well, did you just peek at your aunt's white socks and want to smell them? Your aunt just sweated a lot while doing yoga in them.

|What's wrong? Don't you want it? Or don't you like it?

Think, think big! Aunt Su,
your feet are so cute.

This is just an appetizer
(Come on, Viagra, let me
fulfill all your sexual
fantasies at once today.)

The forest is
green

In fact, Xiaozi's father was on a business trip during this period, and Xiaoyu was not here either. Auntie was alone at home, feeling lonely~

Xiaowei, can you stay
with your aunt tonight?

Have you... stayed the night?
But...of course you can, Aunt Su!

small harvest
green

That's great. Auntie just did yoga
and sweated all over. I'll wait for
Auntie to take a bath first~

Sua Shao, what are you doing?

When taking a shower, of course you have to take off your clothes -

How about it? Are your aunt's breasts well maintained? Are they beautiful? Not worse than those of young girls, right?

Of course, auntie said that I will reward you well today~

It's so beautiful, Aunt Su He, I...can I touch it?

Ah - Xiaowei, please be gentle, aunt's breasts are not silicone toys, they will hurt~

(Oh, it feels so good to be rubbed by Viagra)

Ah, Xiaowei, why did you lick your lips?

Hmm - Xiaowei, aunt's nipples are so itchy~

(It's broken, Viagra can't seem to stop...)

Ah~ be gentle, Xiaowei, bite gently

(It's become so warm down there...it's so itchy,
I really want to be penetrated by Viagra's
cock...)

(But if he later finds out that I lied to him, he won't be angry...I'd better tell him the truth...)

Xiaowei... No... Viagra, please stop... I have something to tell you...

Damn it, small print?! You...: What kind of lazy situation is this?

Sorry, Viagra... I just wanted to joke with you...

It's a long story, but my mother and I have been doing some very interesting things during this period, and we may have to switch bodies for a while.

This green

So your current body is the same as your mother's?

Yes, the body is transplanted from my mother's clone, but the face is transformed using this mask.

Viagra, are you sure you want to continue? I am Zhang Xiaoyu, don't you need me to put on a mask?

It's too late, brother, I don't care what you do here and there!

Is it cool?

It feels so good, Viagra, your
vagina is so thick and deep~

Didn't you like to compare the size with me the most? Now tell me whose meat is bigger?

Ah - Viagra, your penis is the biggest - ah -

You are really coquettish. You play a woman in one way and you almost deceived me just now.

Ah-didn't I just act like that-

Really? Do you really want to do it with me?

Well - as soon as you entered the door, the body of this mature woman started to get excited, and the water started flowing down there.

You have really become like a lonely young woman.

Well, after entering the house, she becomes Su Wan, a lonely young woman. When my husband and children are not at home, Xiaowei, you have to come and satisfy me.

Zhang, I can't stand it. It's so exciting, I'm going to cum.

Well, Xiaowei, please take care of me quickly.

"Don't go back to school this weekend, just go
to my house and we can still play games."

Good idea bro

But can you always wear
your mother's mask?

Of course it's okay

In the laboratory

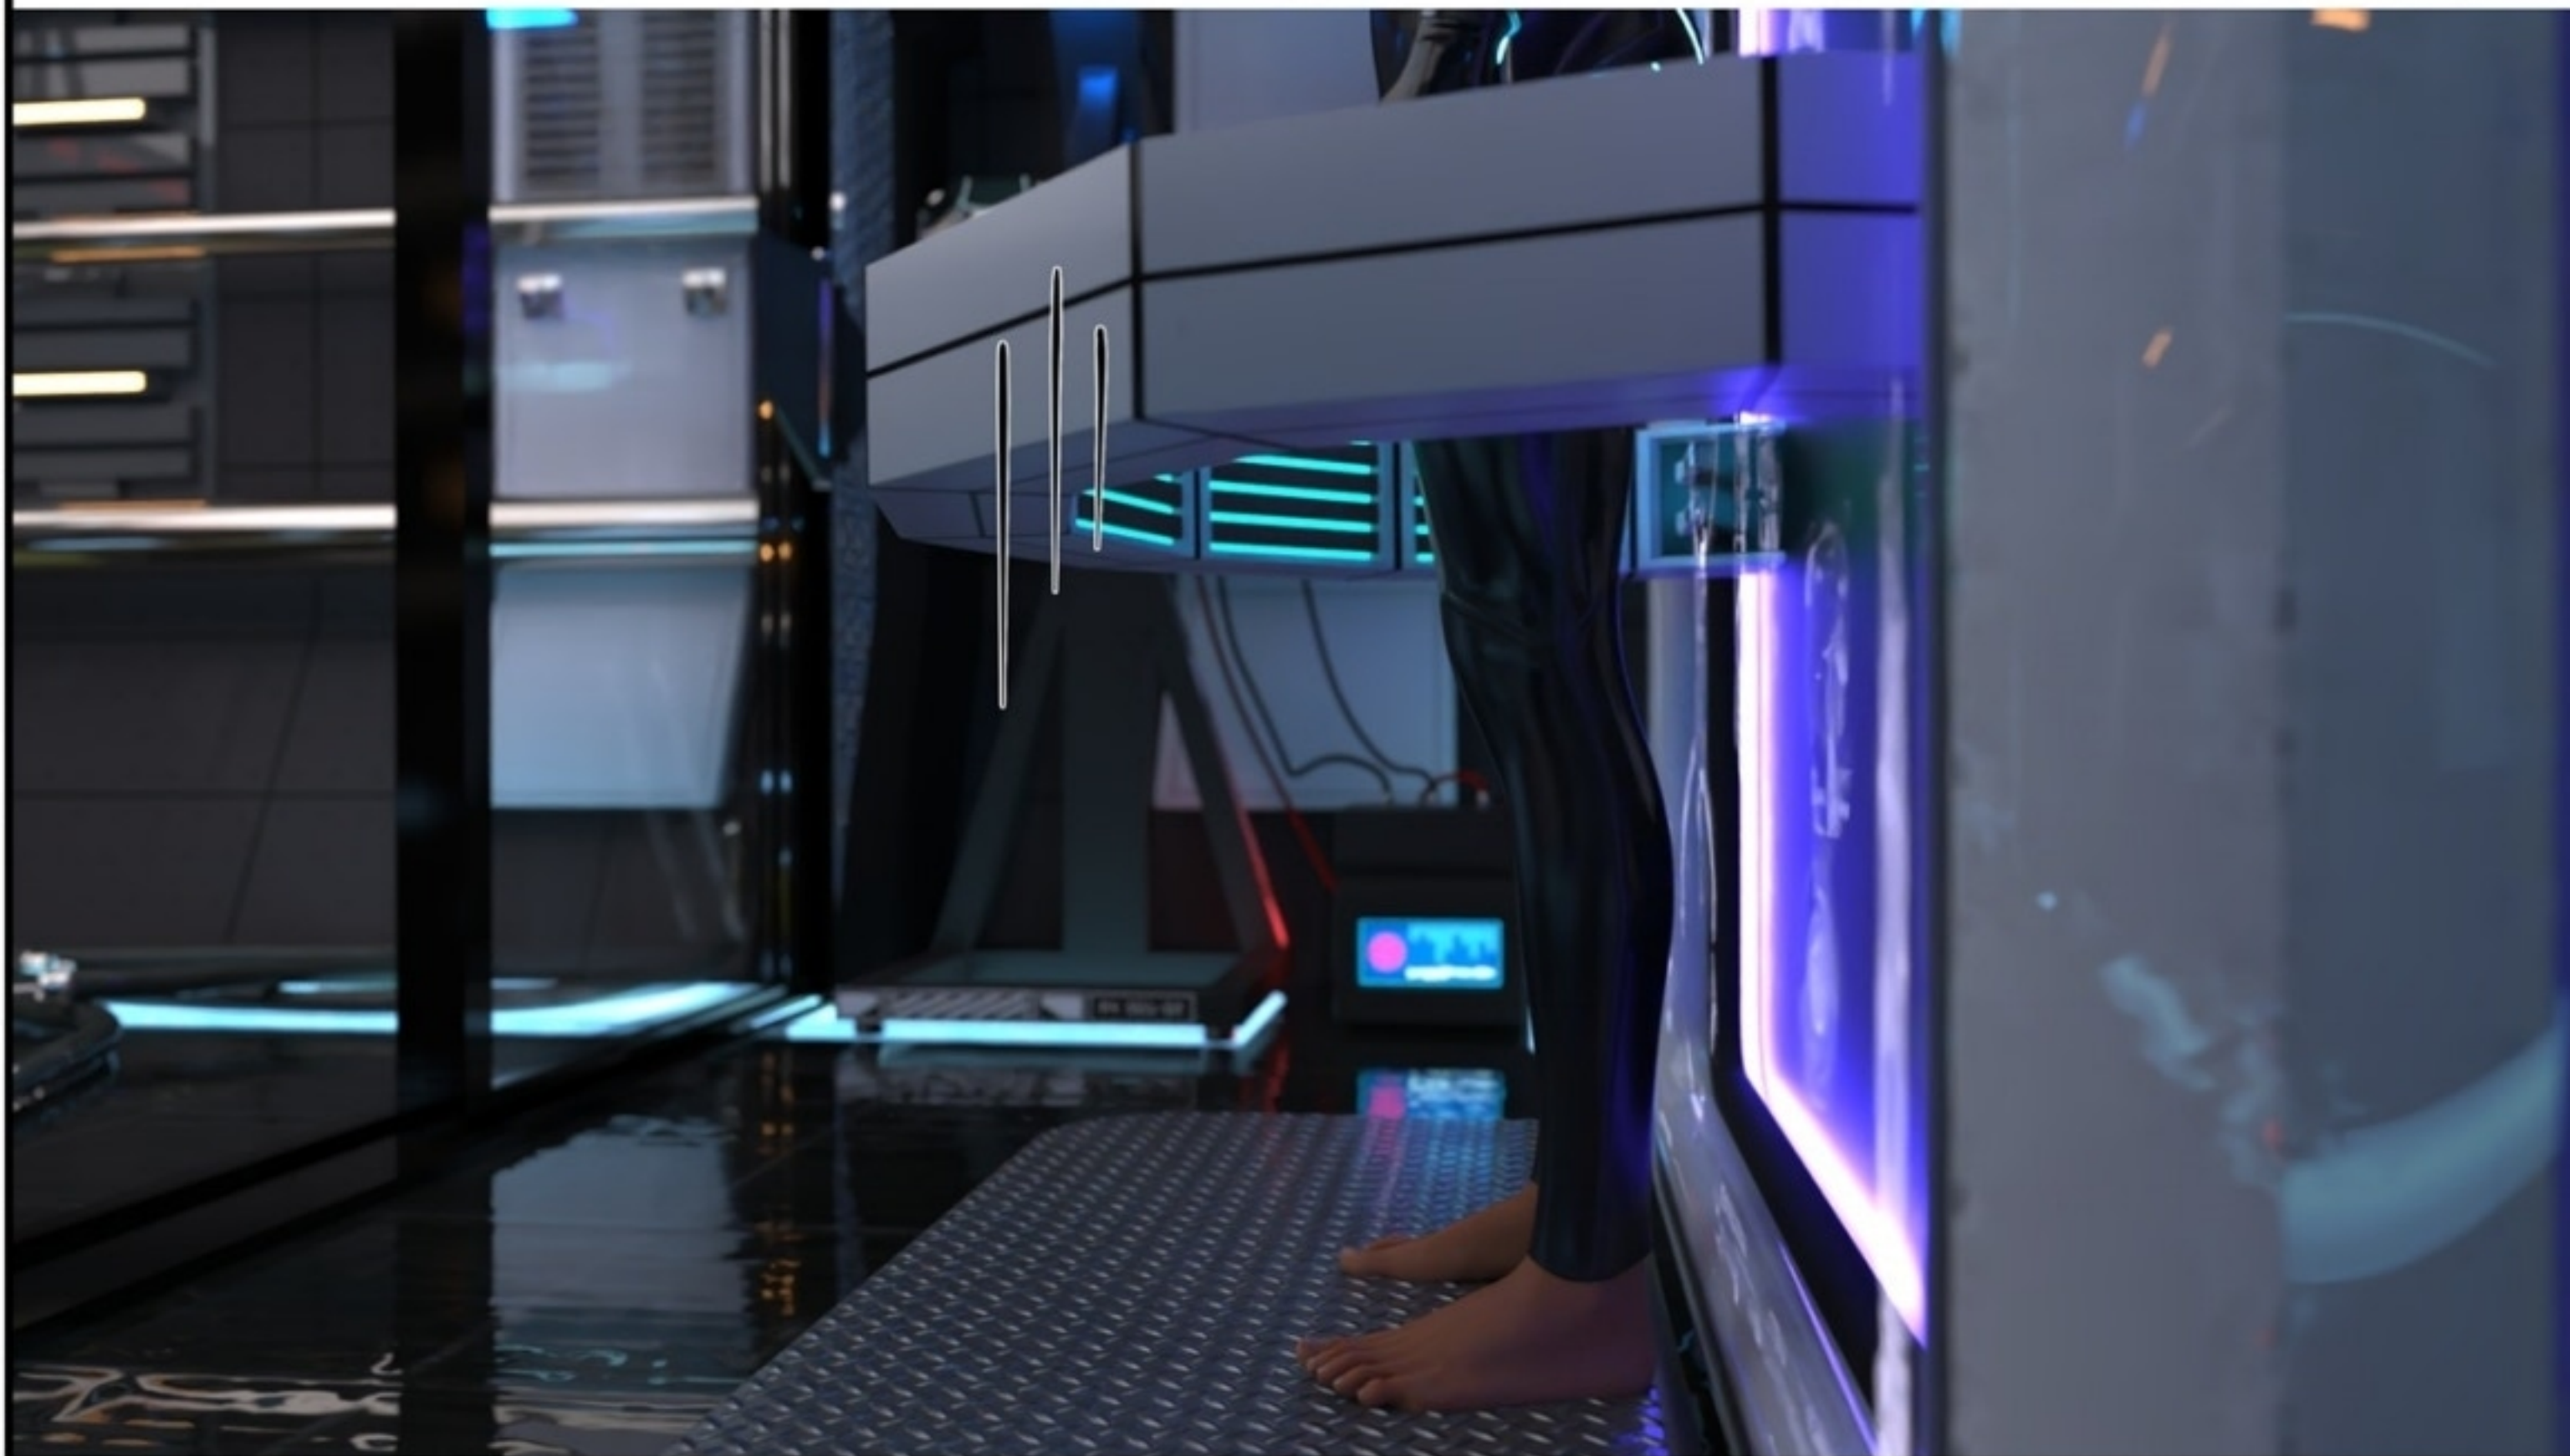

Lin Luzi

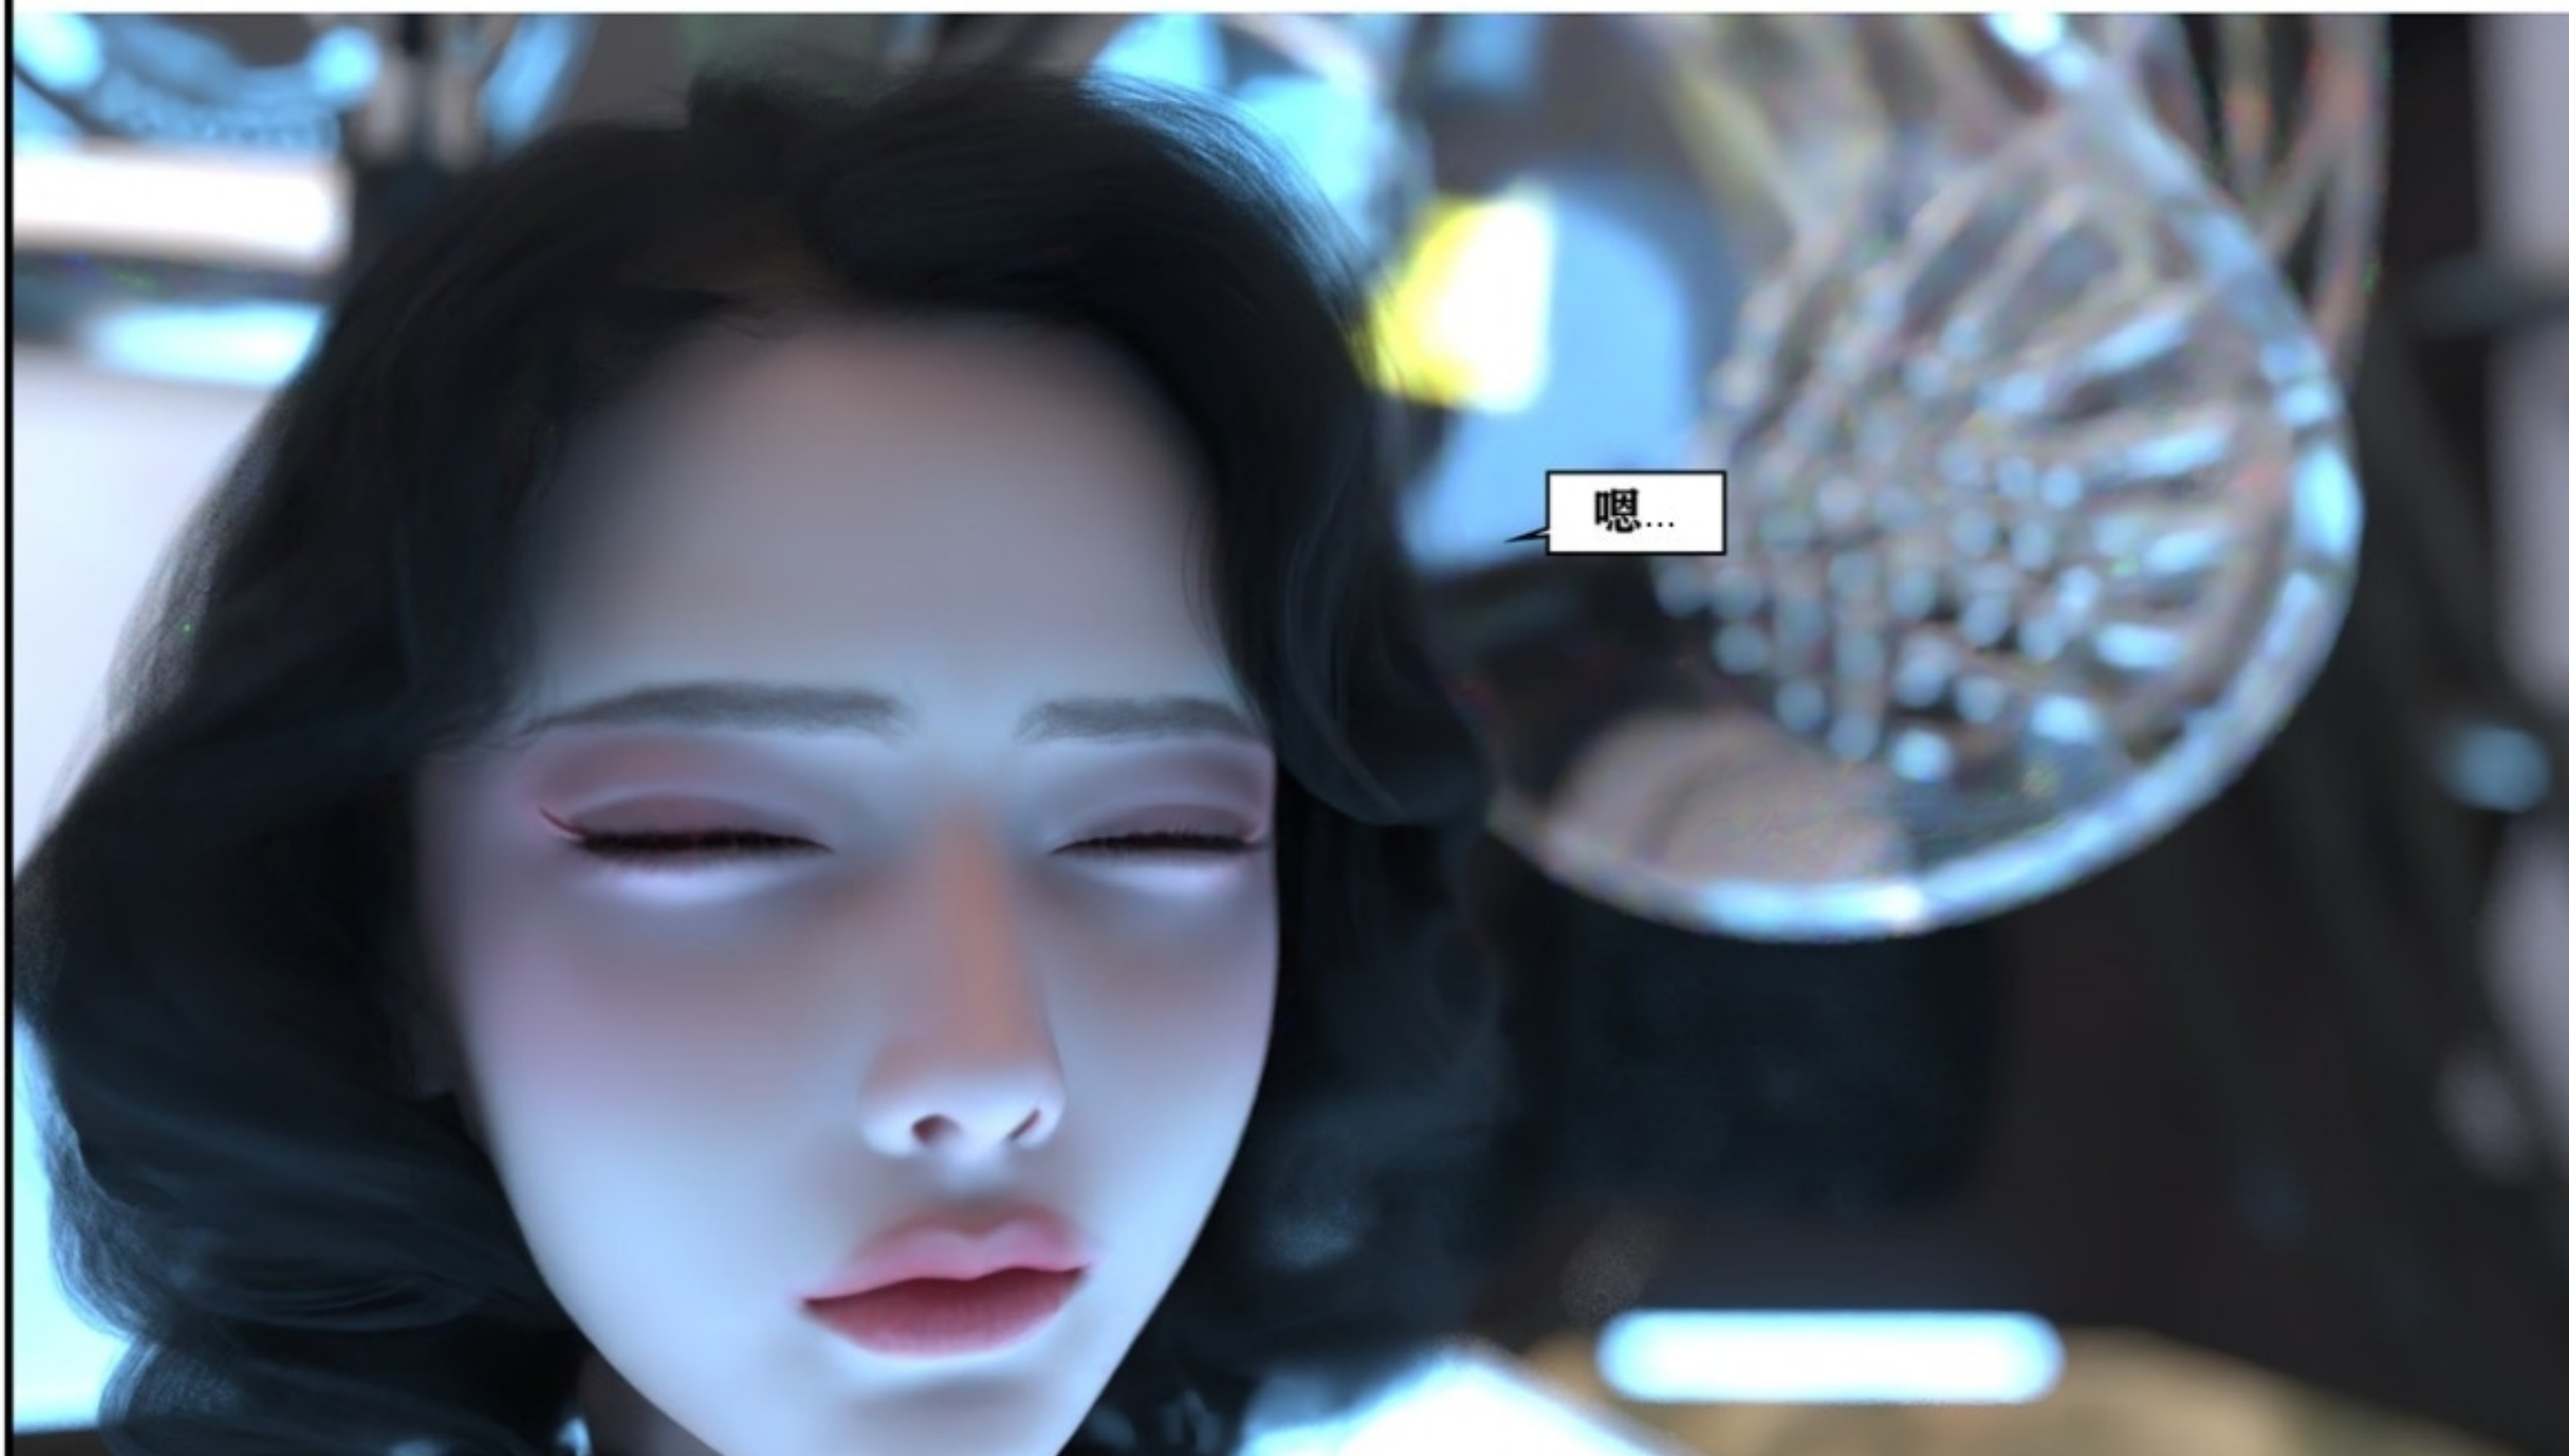

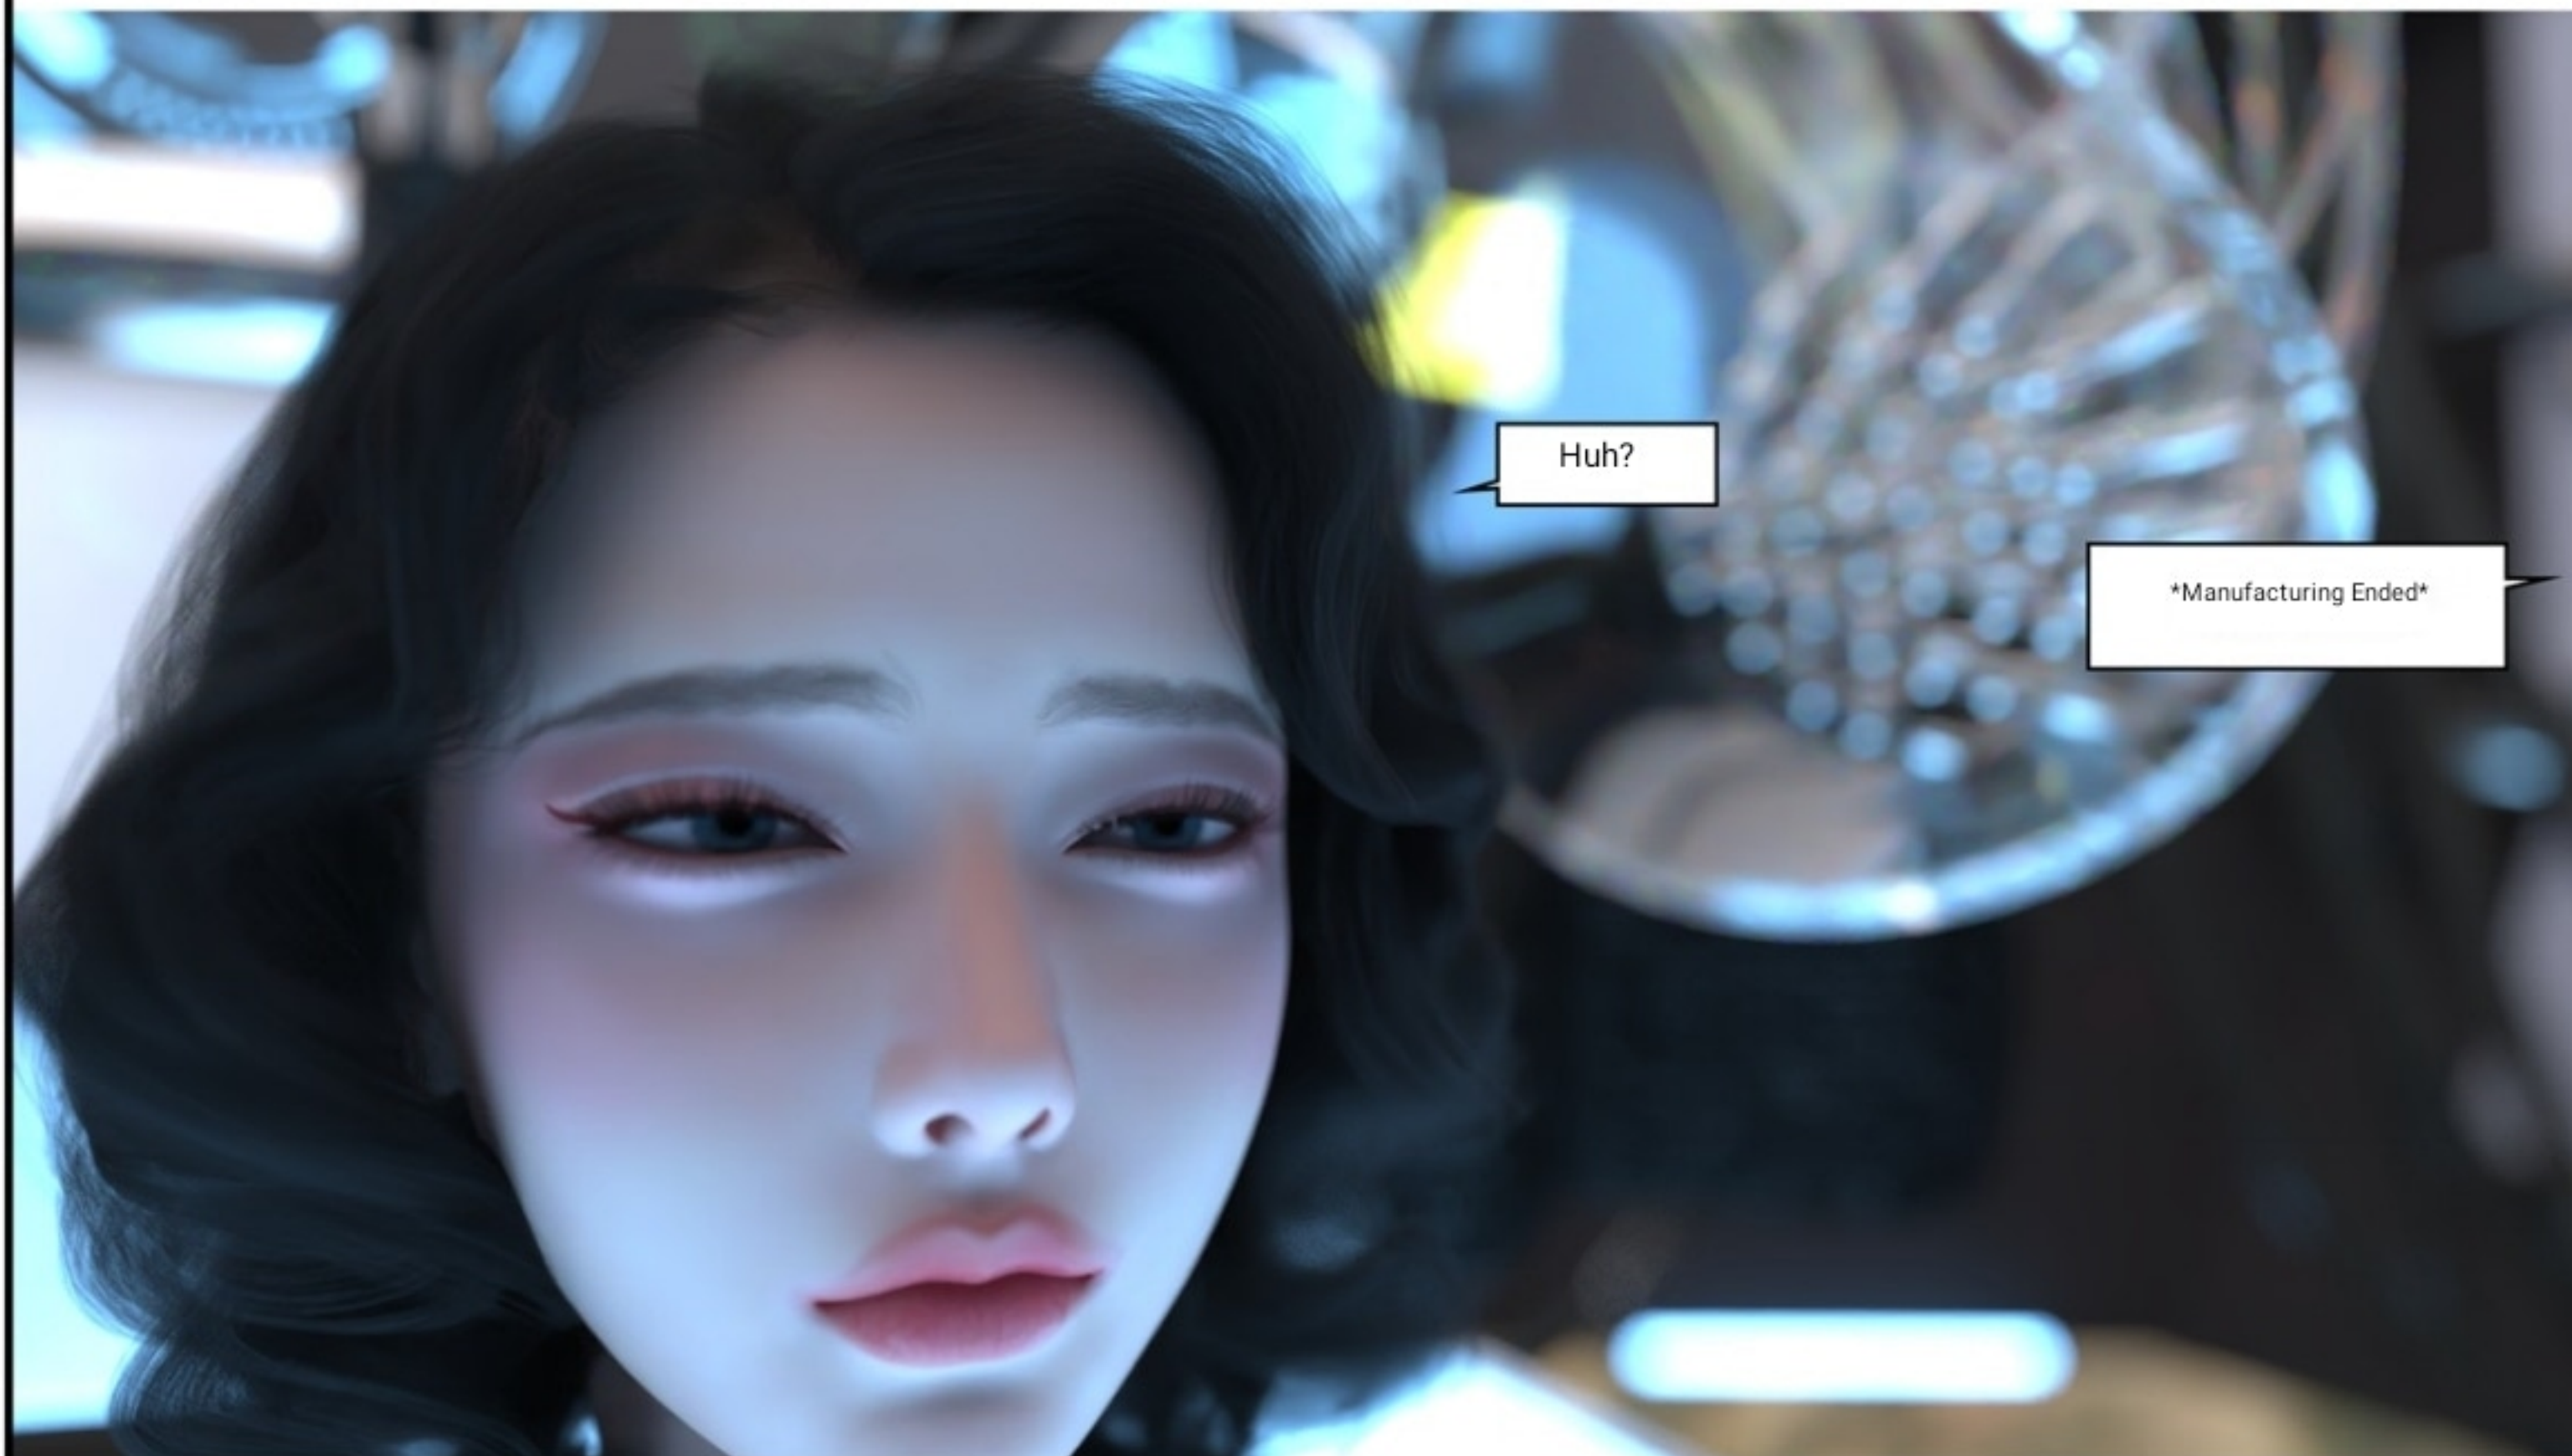

Biological data has been perfectly matched, and the technology for simulating human body sleep has become more and more mature. It seems that large-scale mass production will be achieved soon.

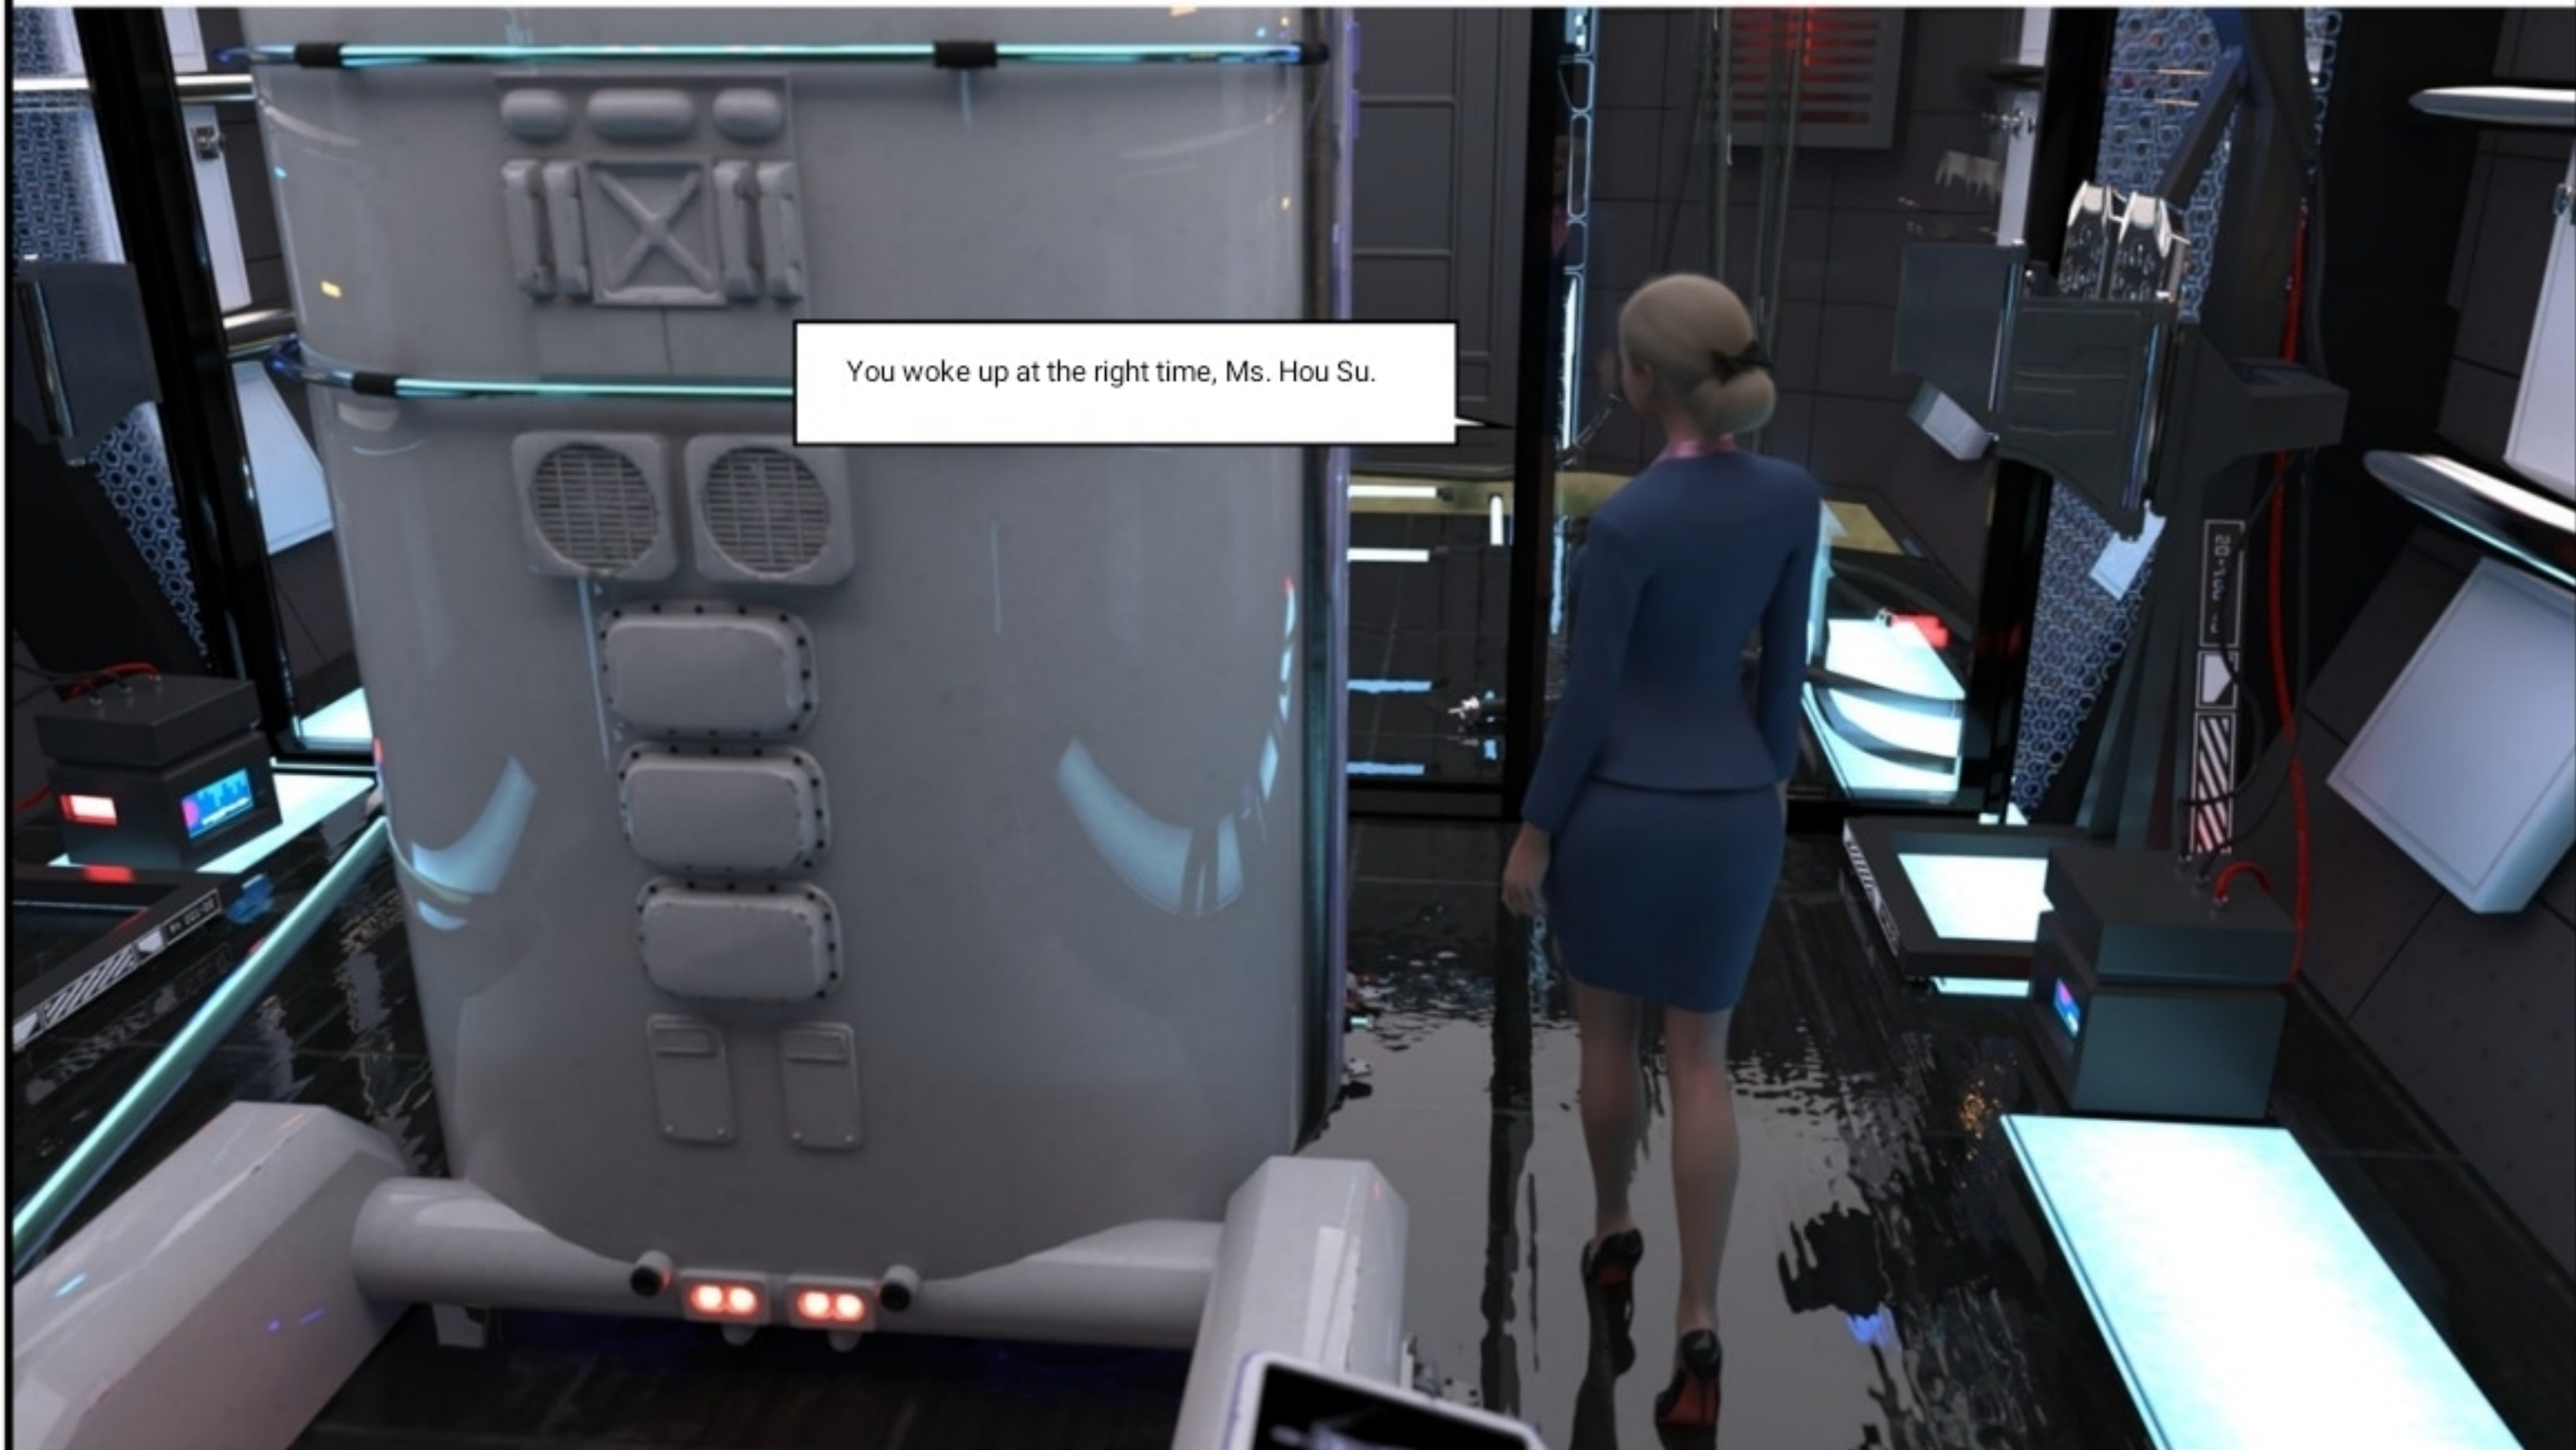

Huh?

Manufacturing Ended

This. This is...!?

The production of the simulated biological internal body has just been completed....

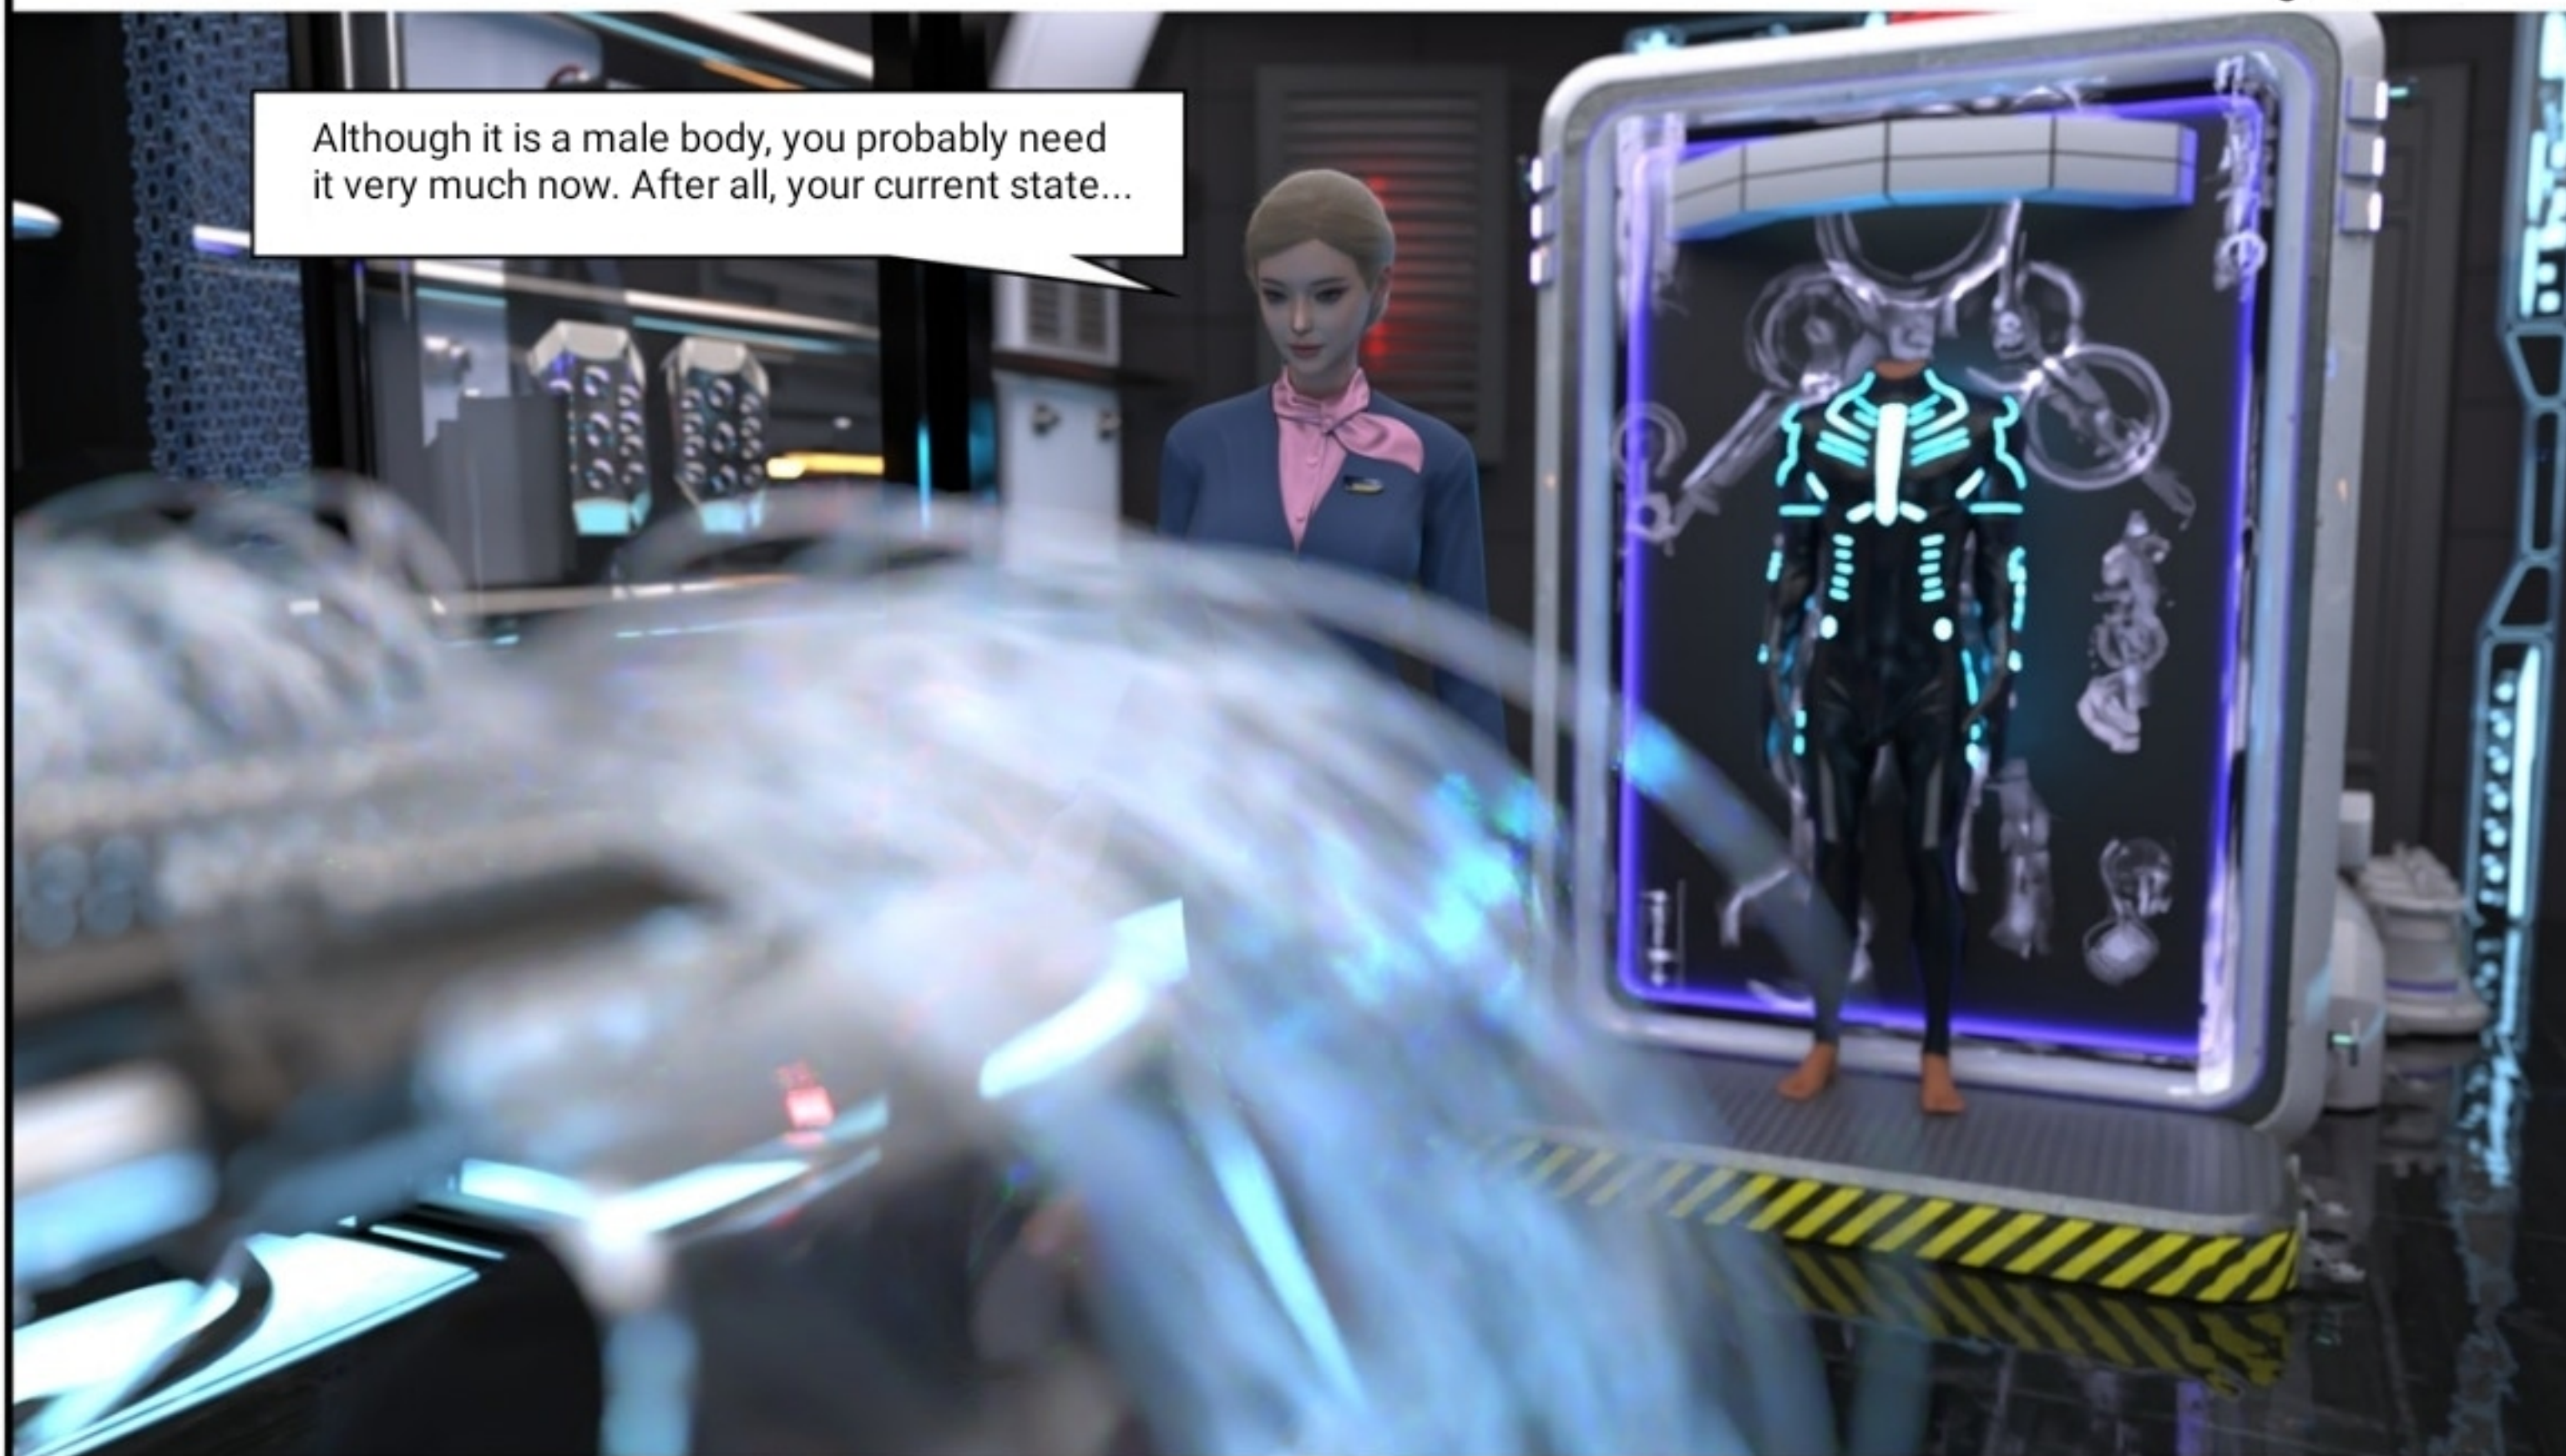

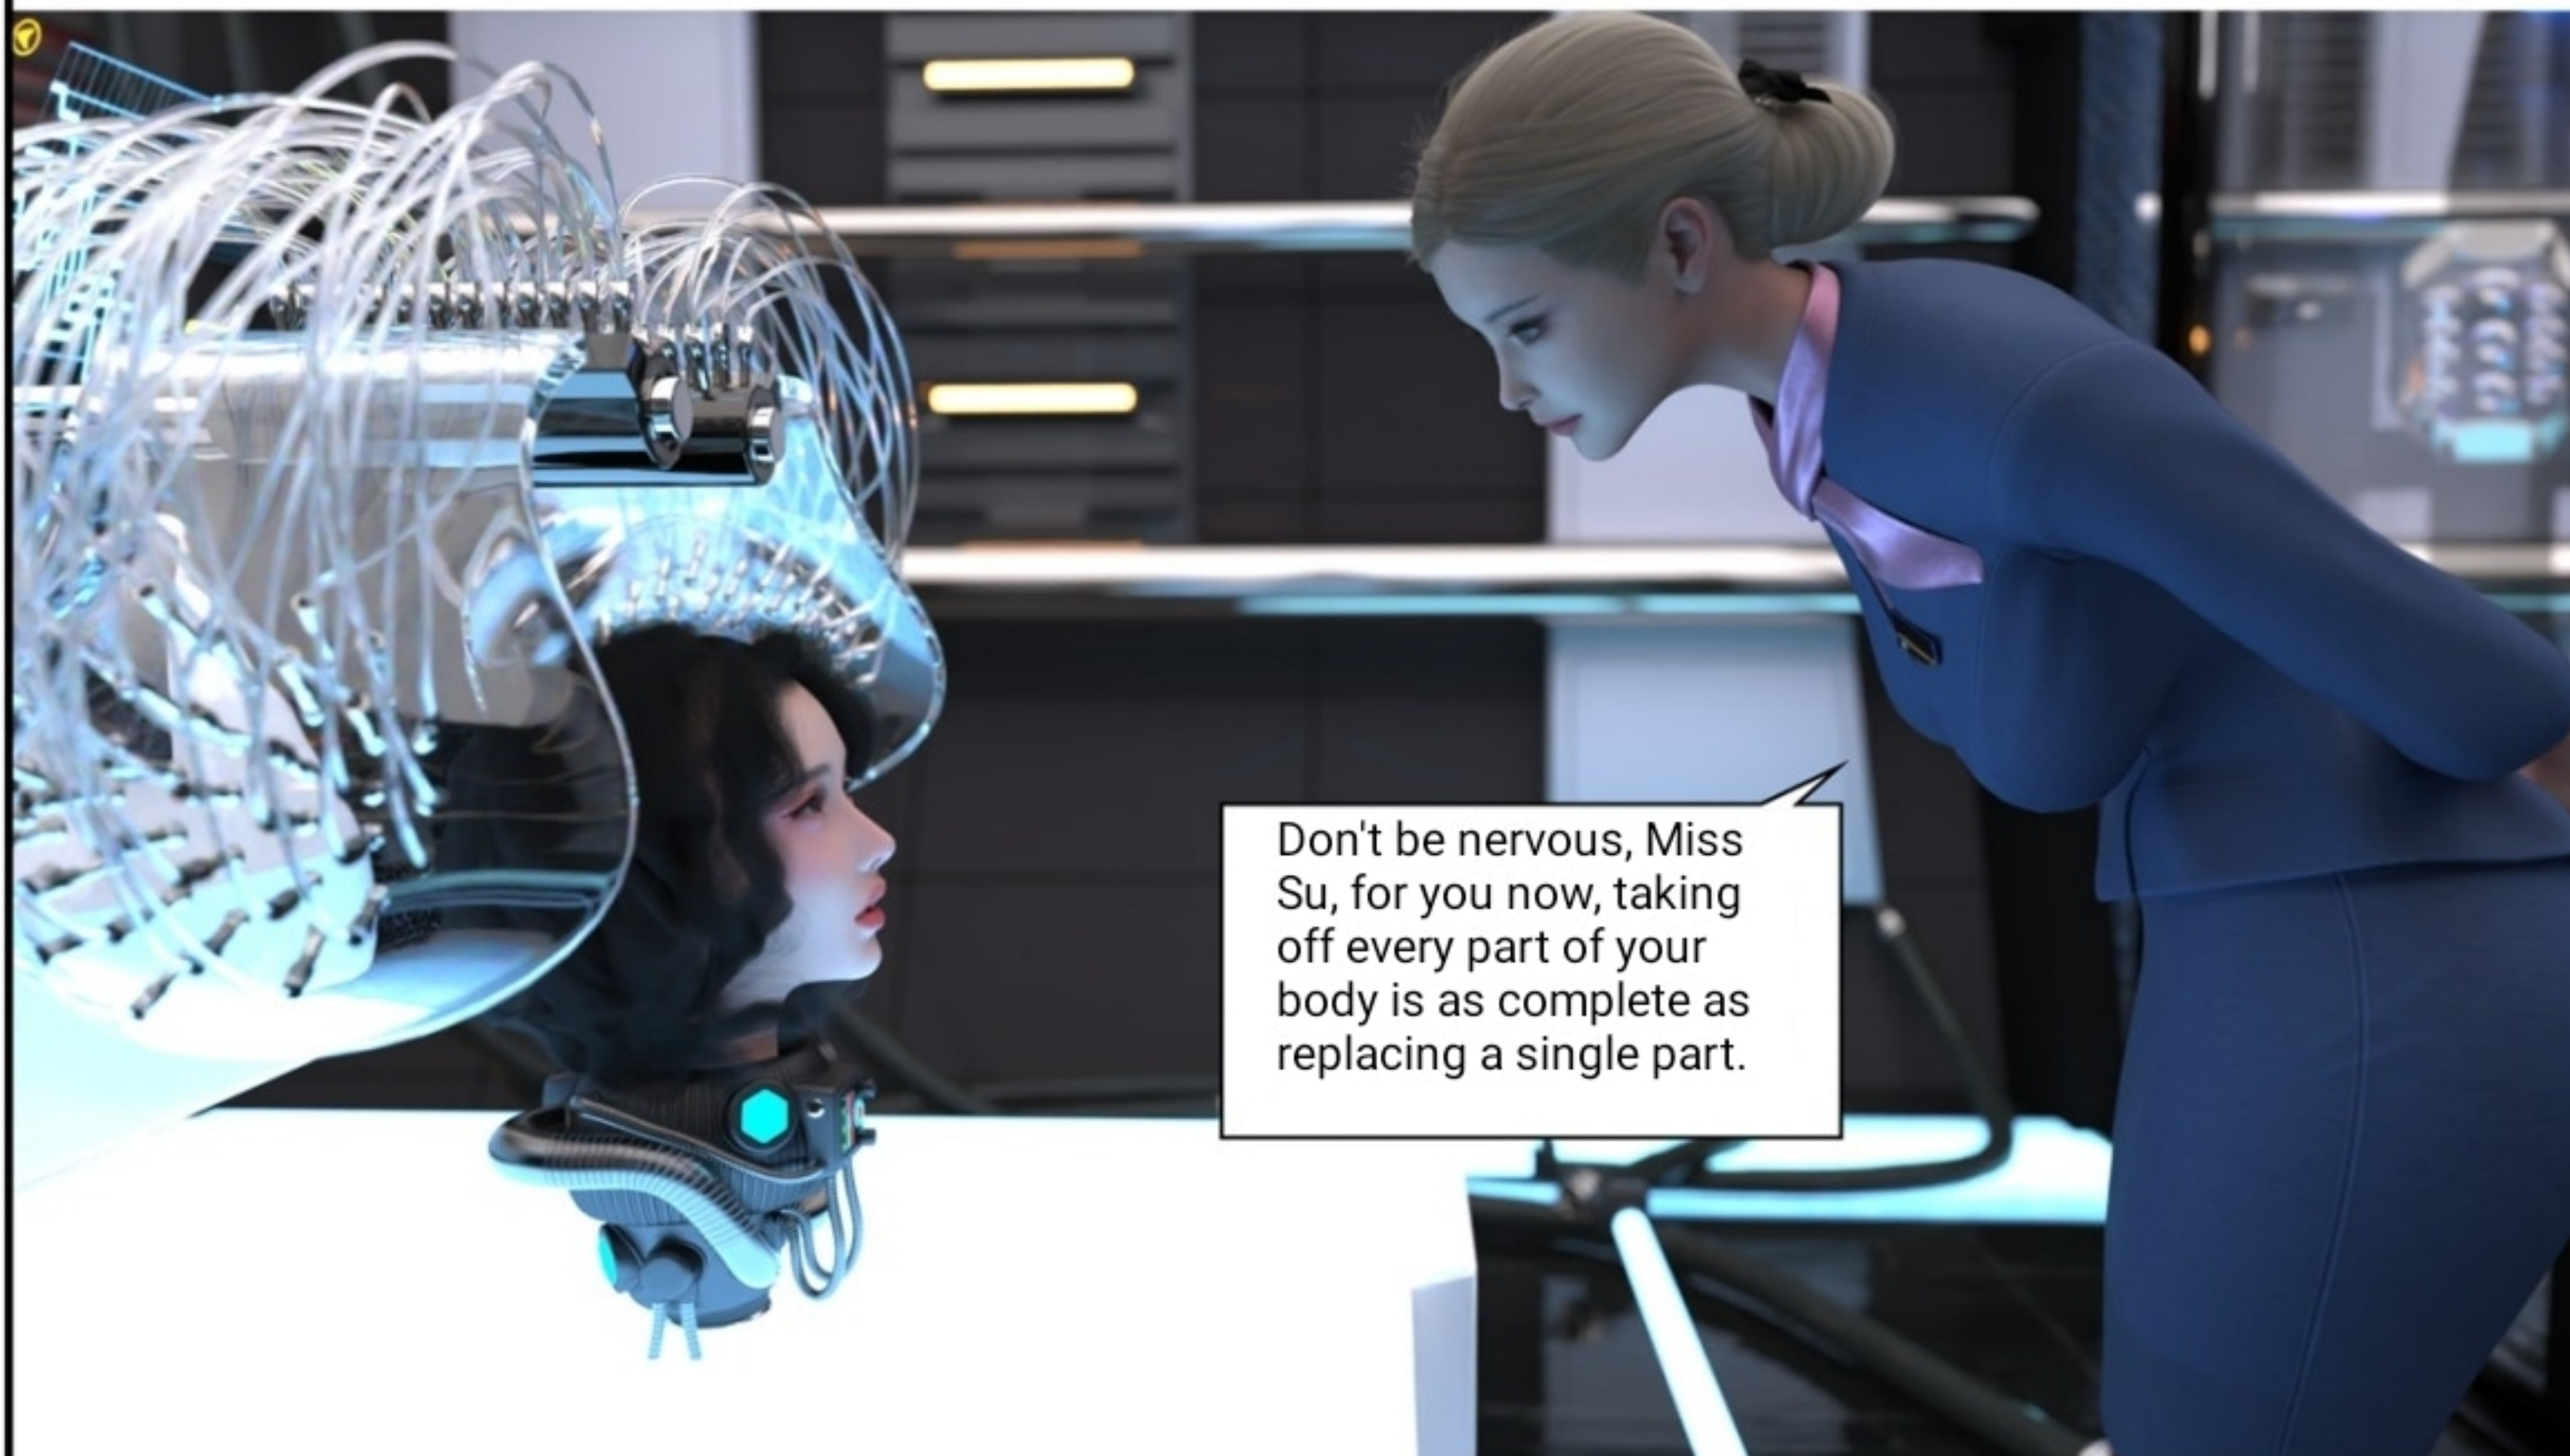

As before, we have perfectly replicated your son's body one to one.

Xiaolin is
green

Although it is a male body, you probably need
it very much now. After all, your current state...

Ahhhh! Where is my body?

Don't be nervous, Miss Su, for you now, taking off every part of your body is as complete as replacing a single part.

Besides, we block the source of your pain signal, so you won't be in pain either.

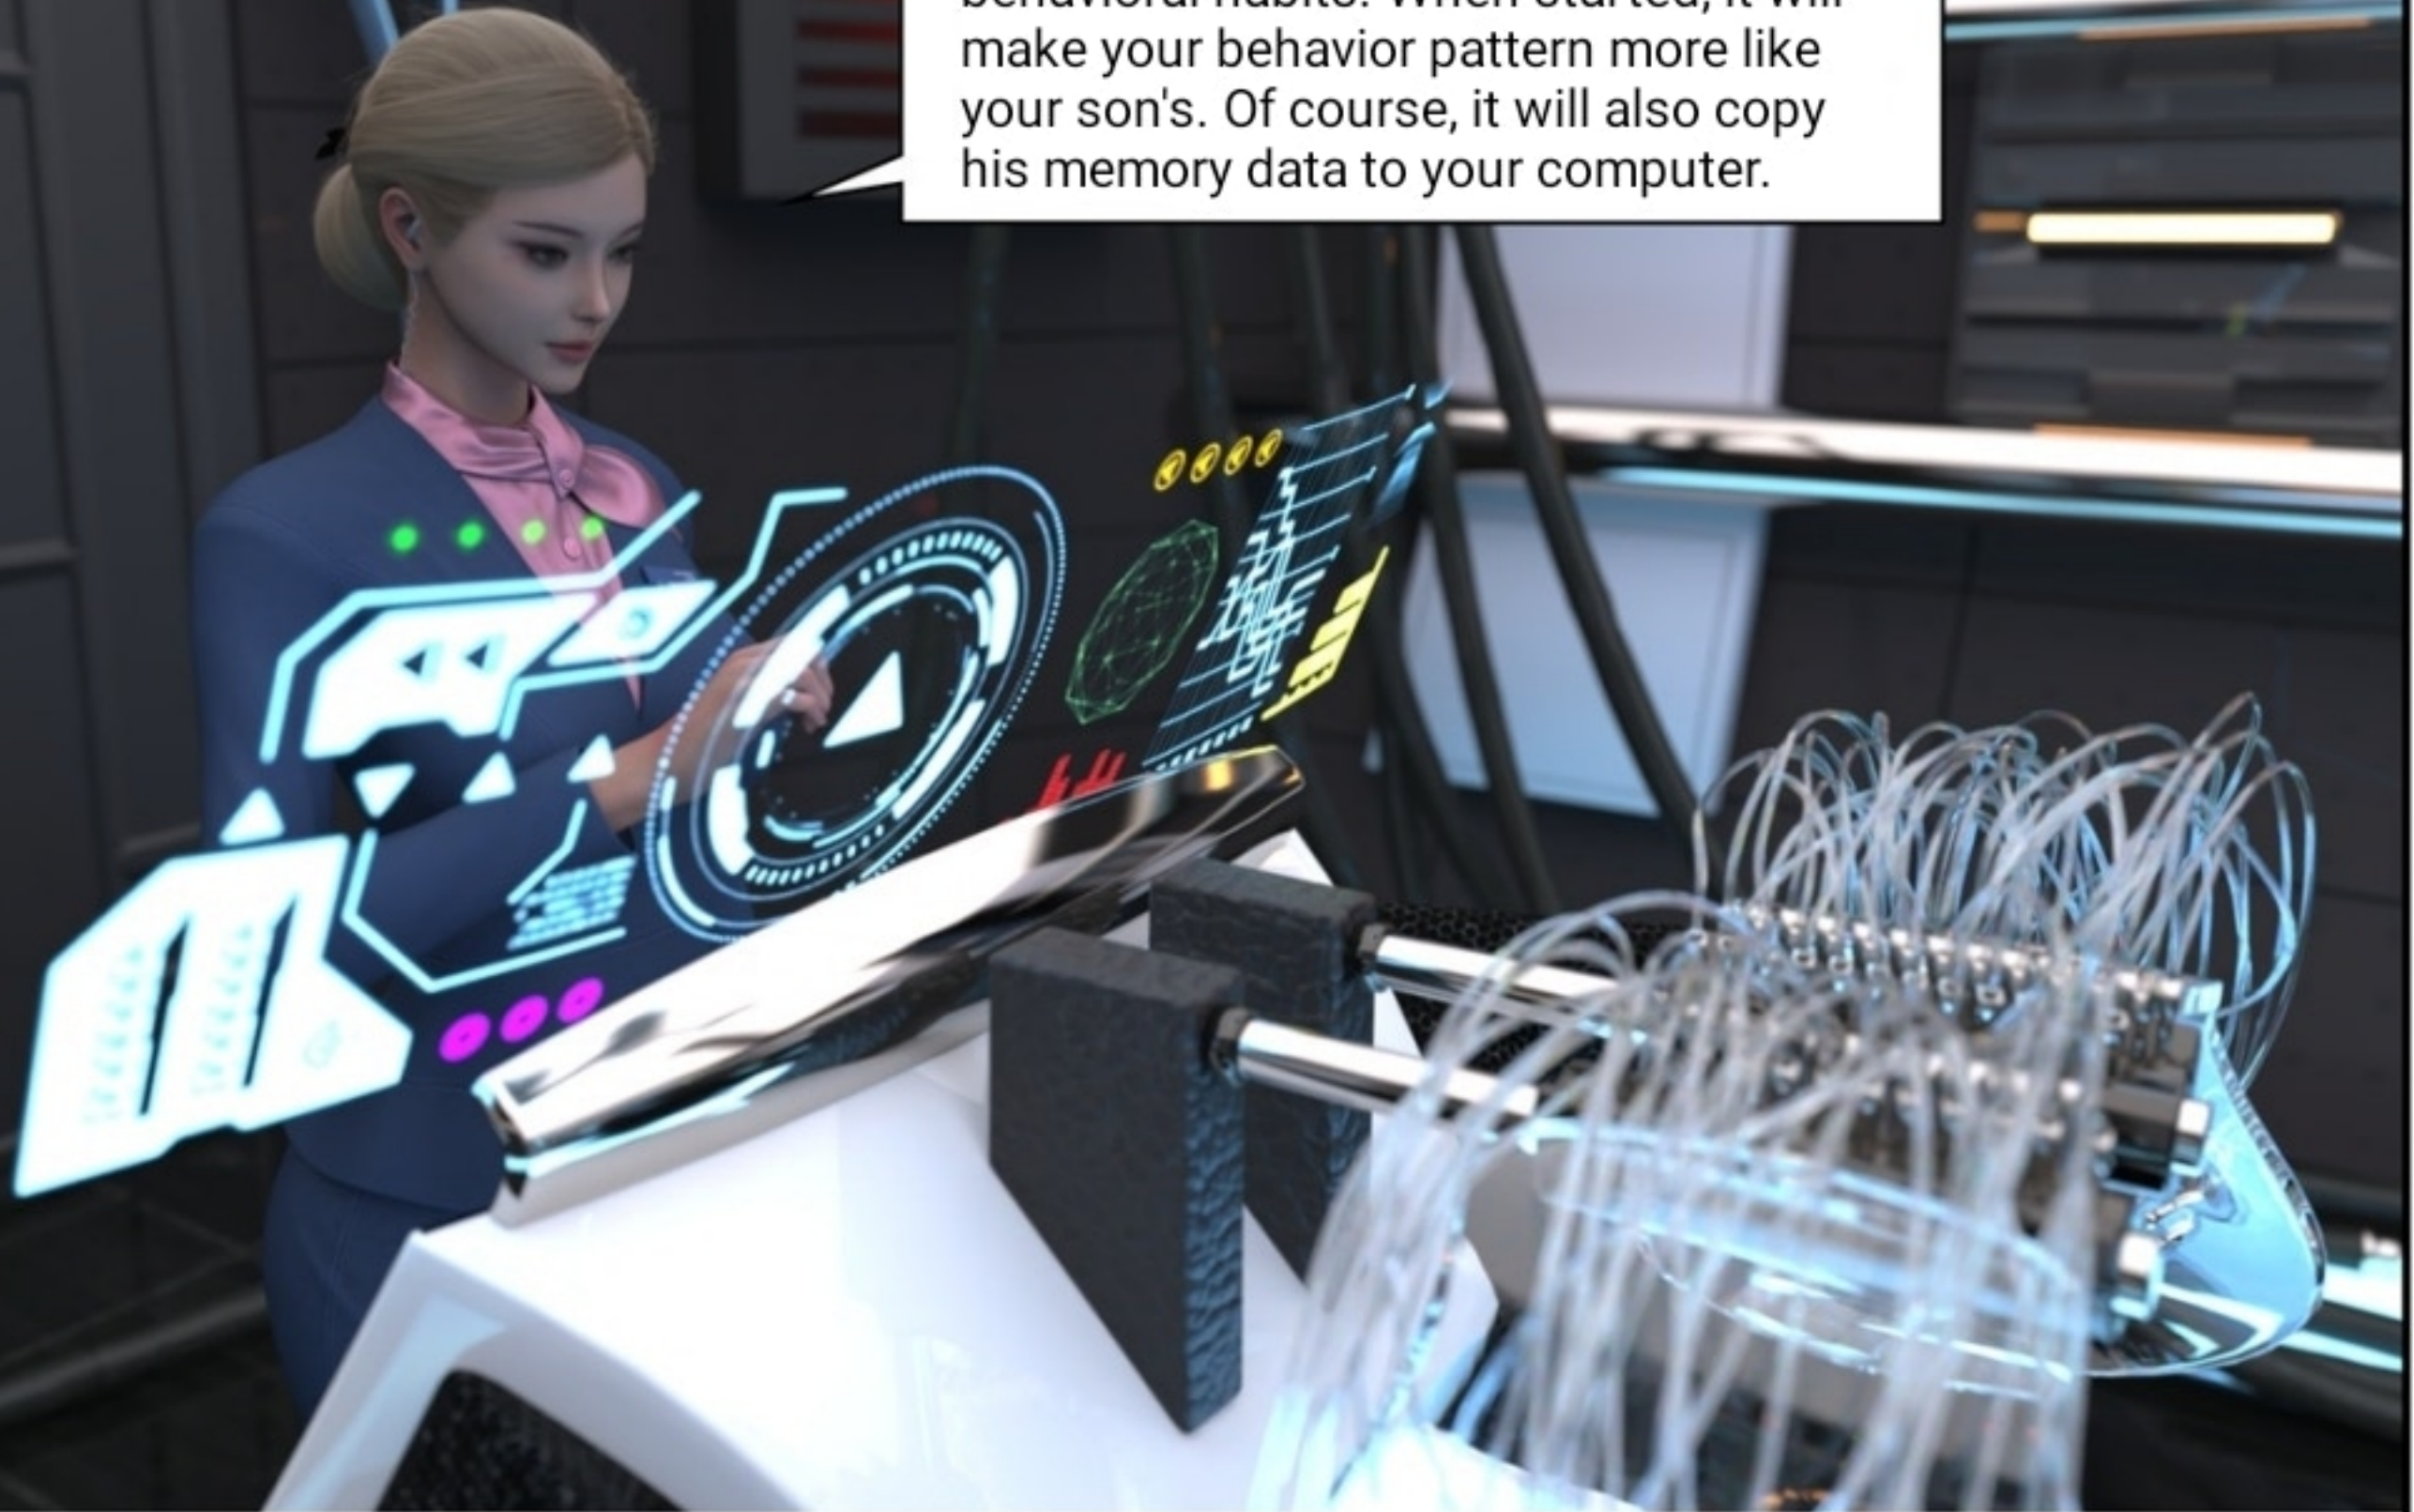

Your new body will be installed immediately.

But before that, I still need to transfer some necessary data to you.

What necessary data?

While you are sleeping, I created a program based on Zhang Xiaozhi's behavioral habits. When started, it will make your behavior pattern more like your son's. Of course, it will also copy his memory data to your computer.

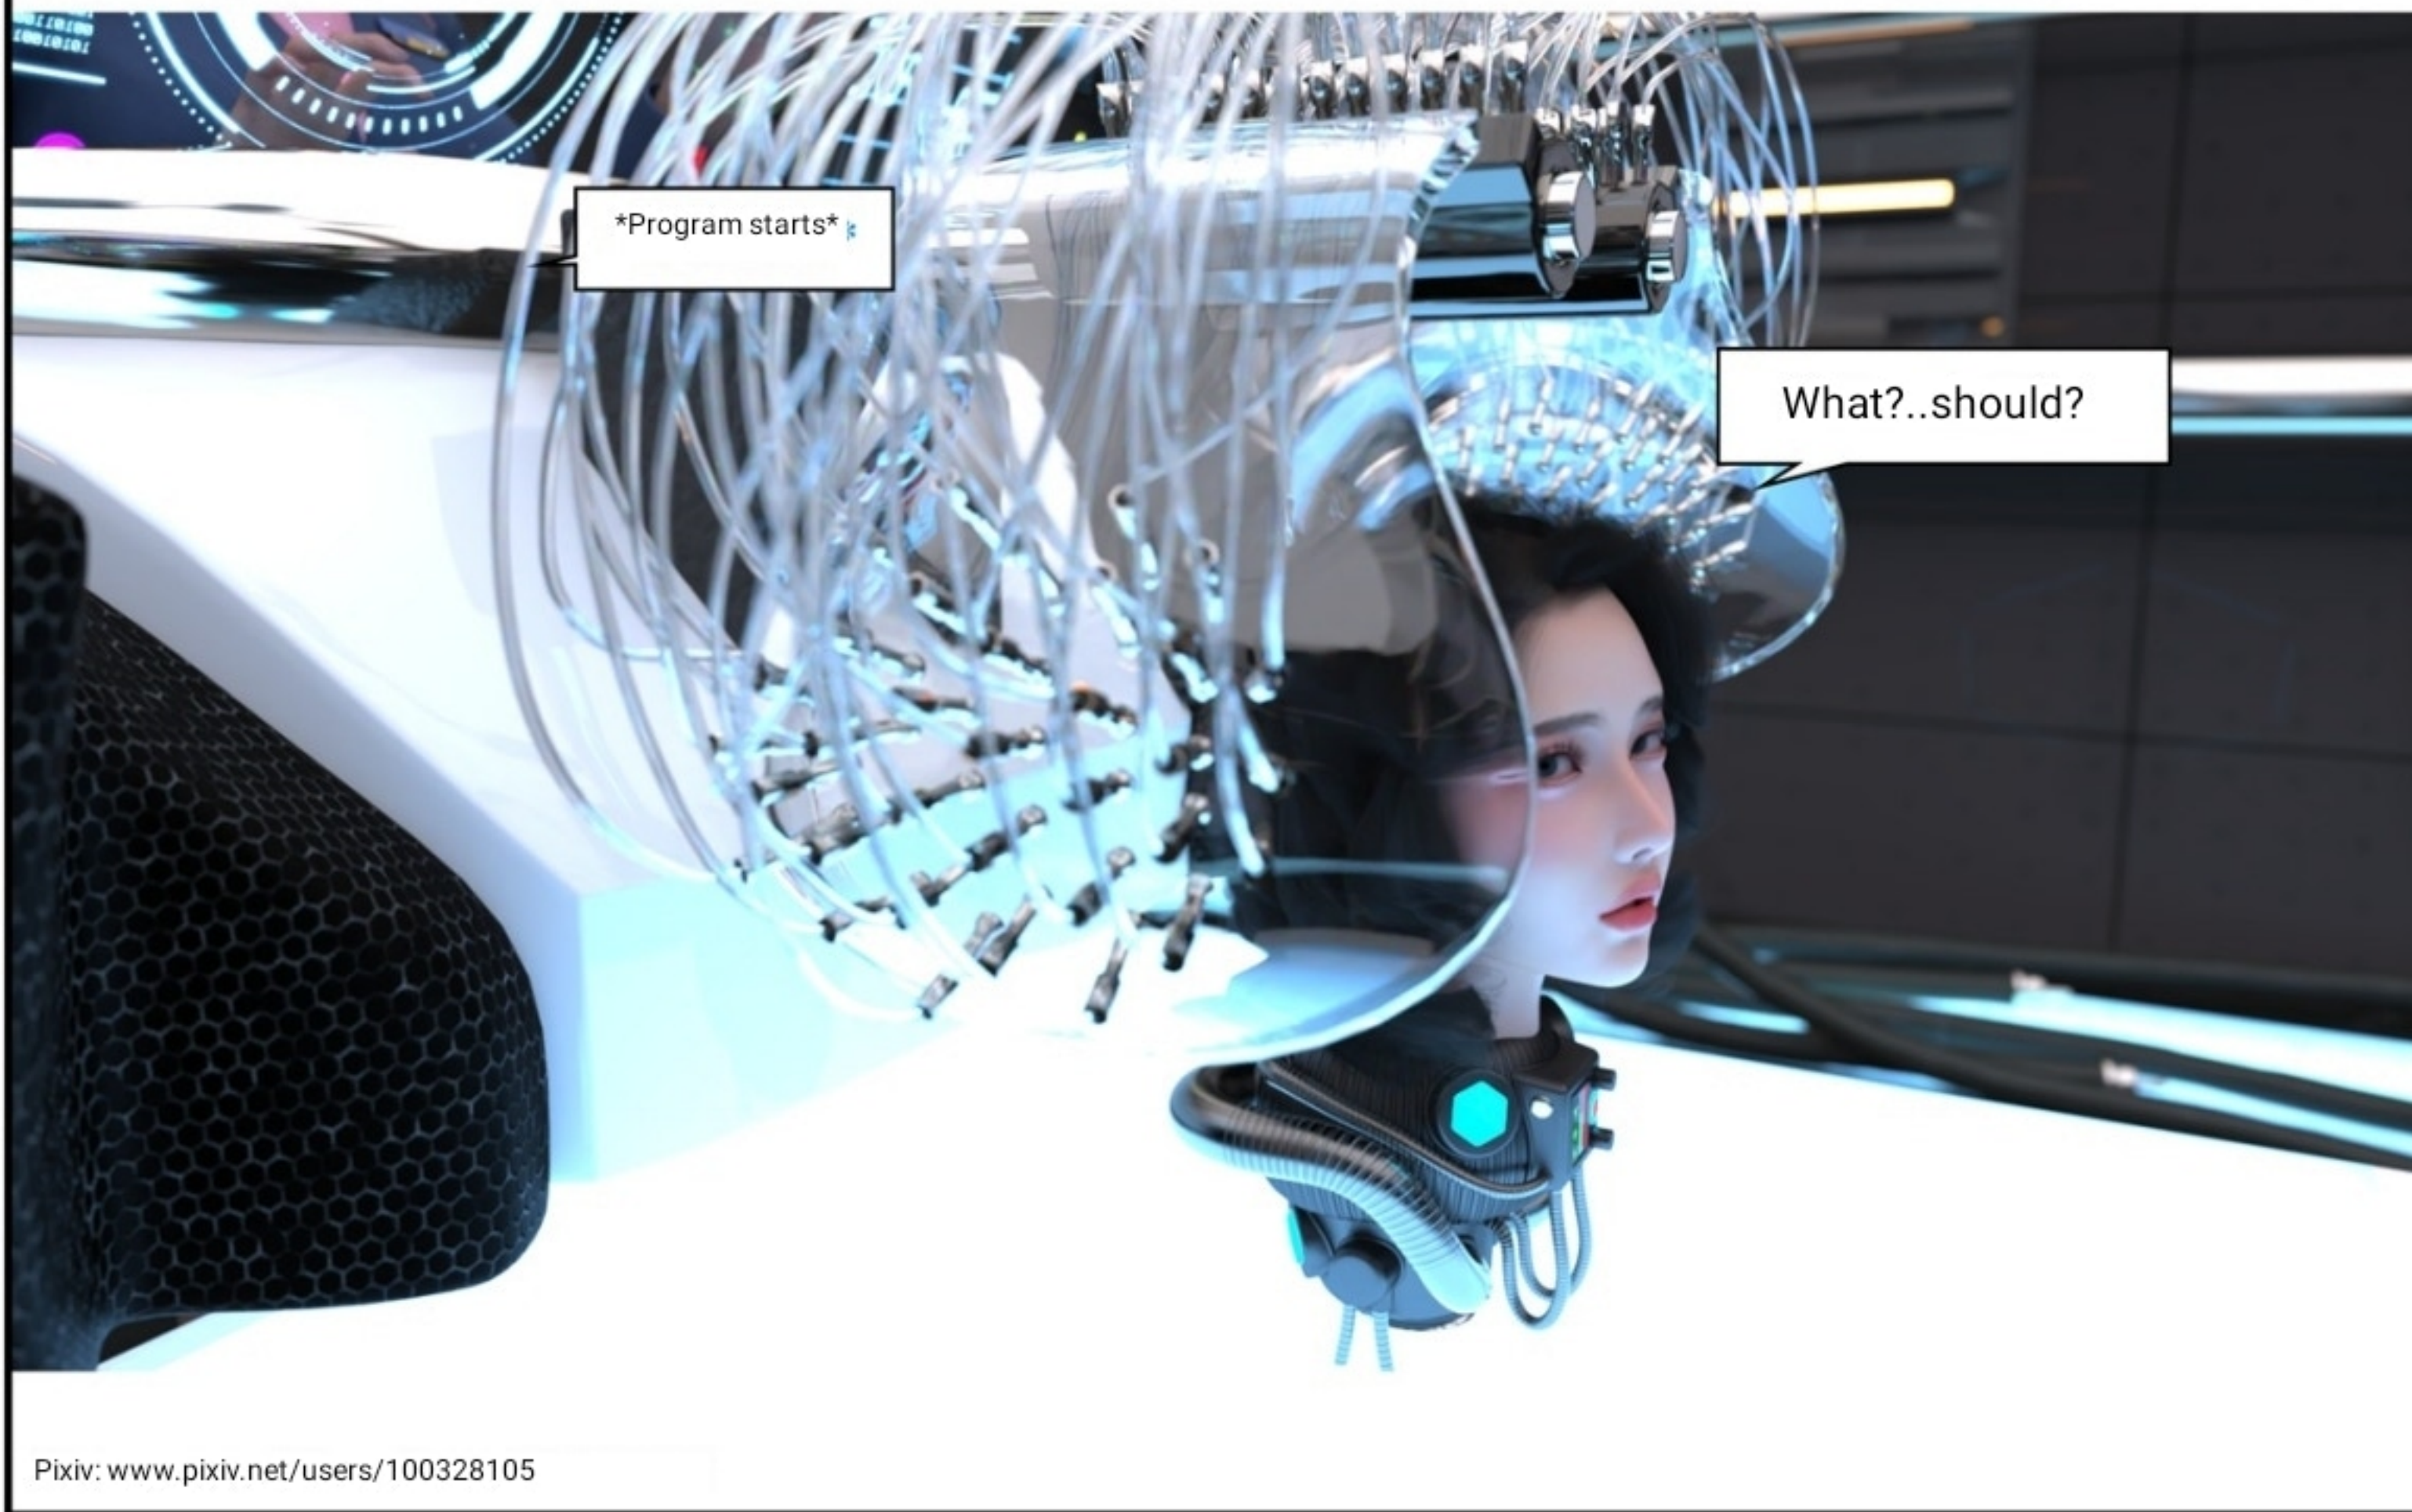

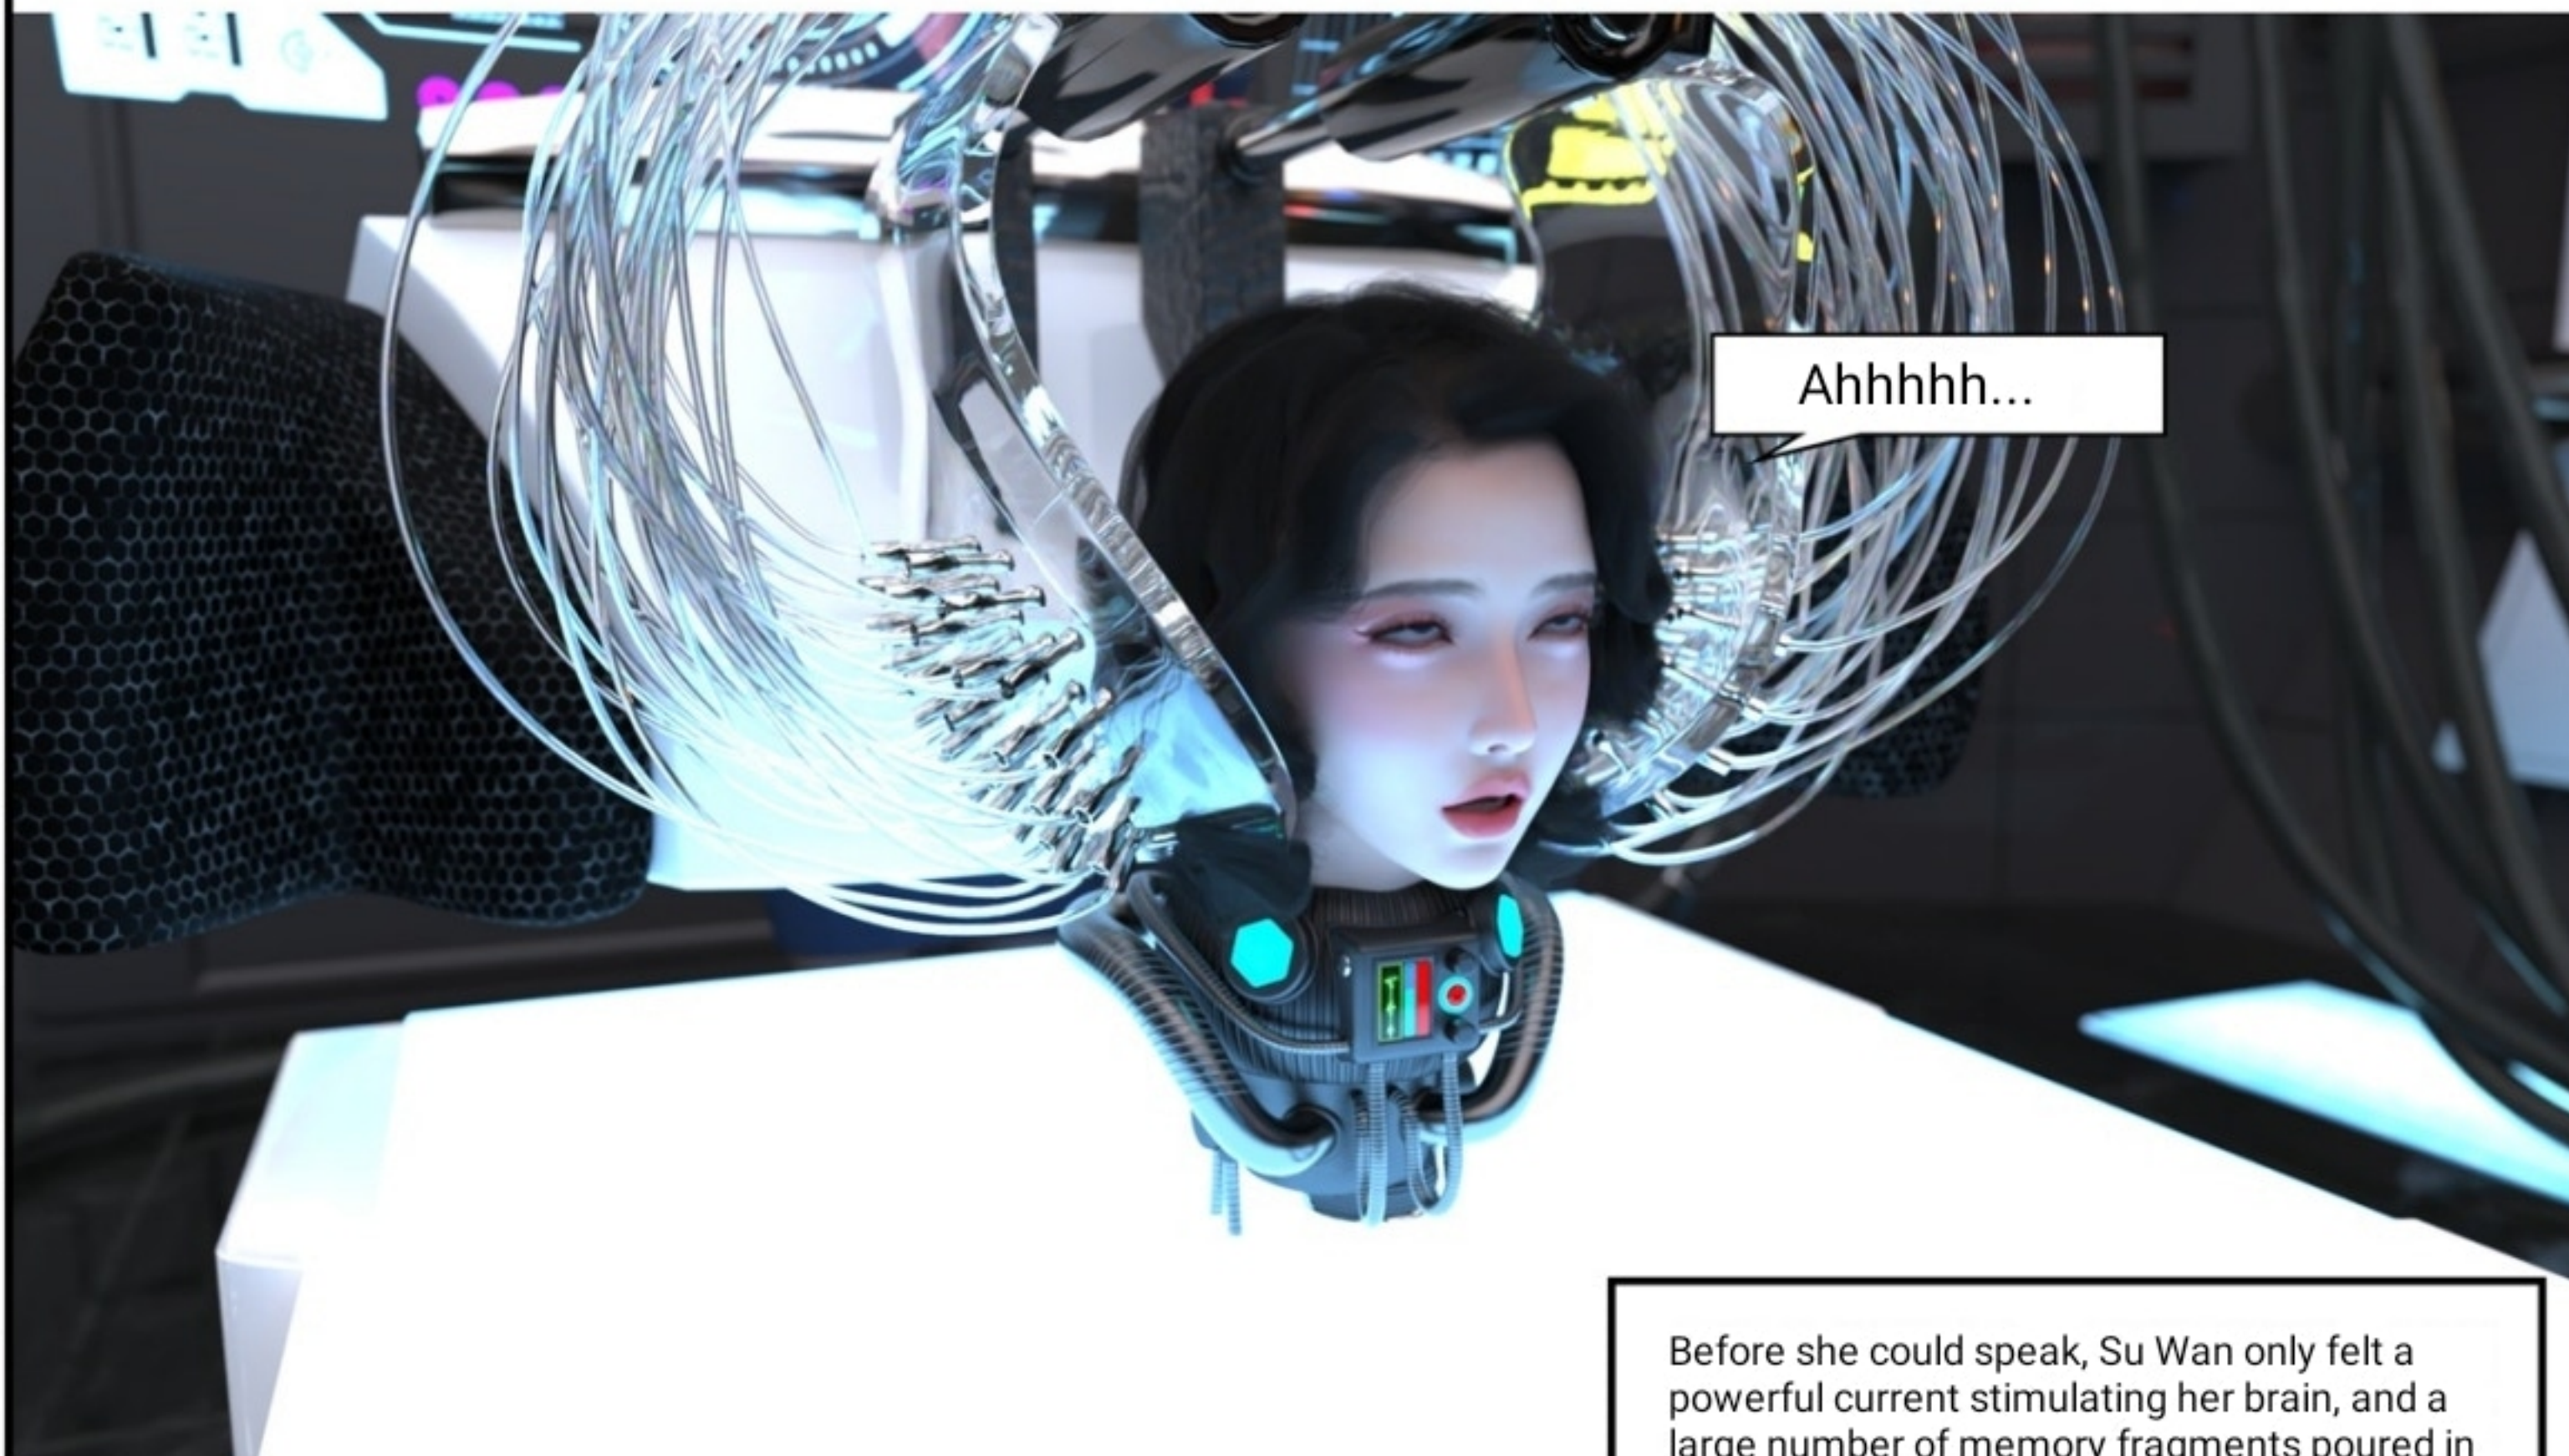

What? In that case, can I still know who I am?

Judging from our research, memory
does affect a person's consciousness...

However, we have not deleted your past memories, so... it should not cause errors.

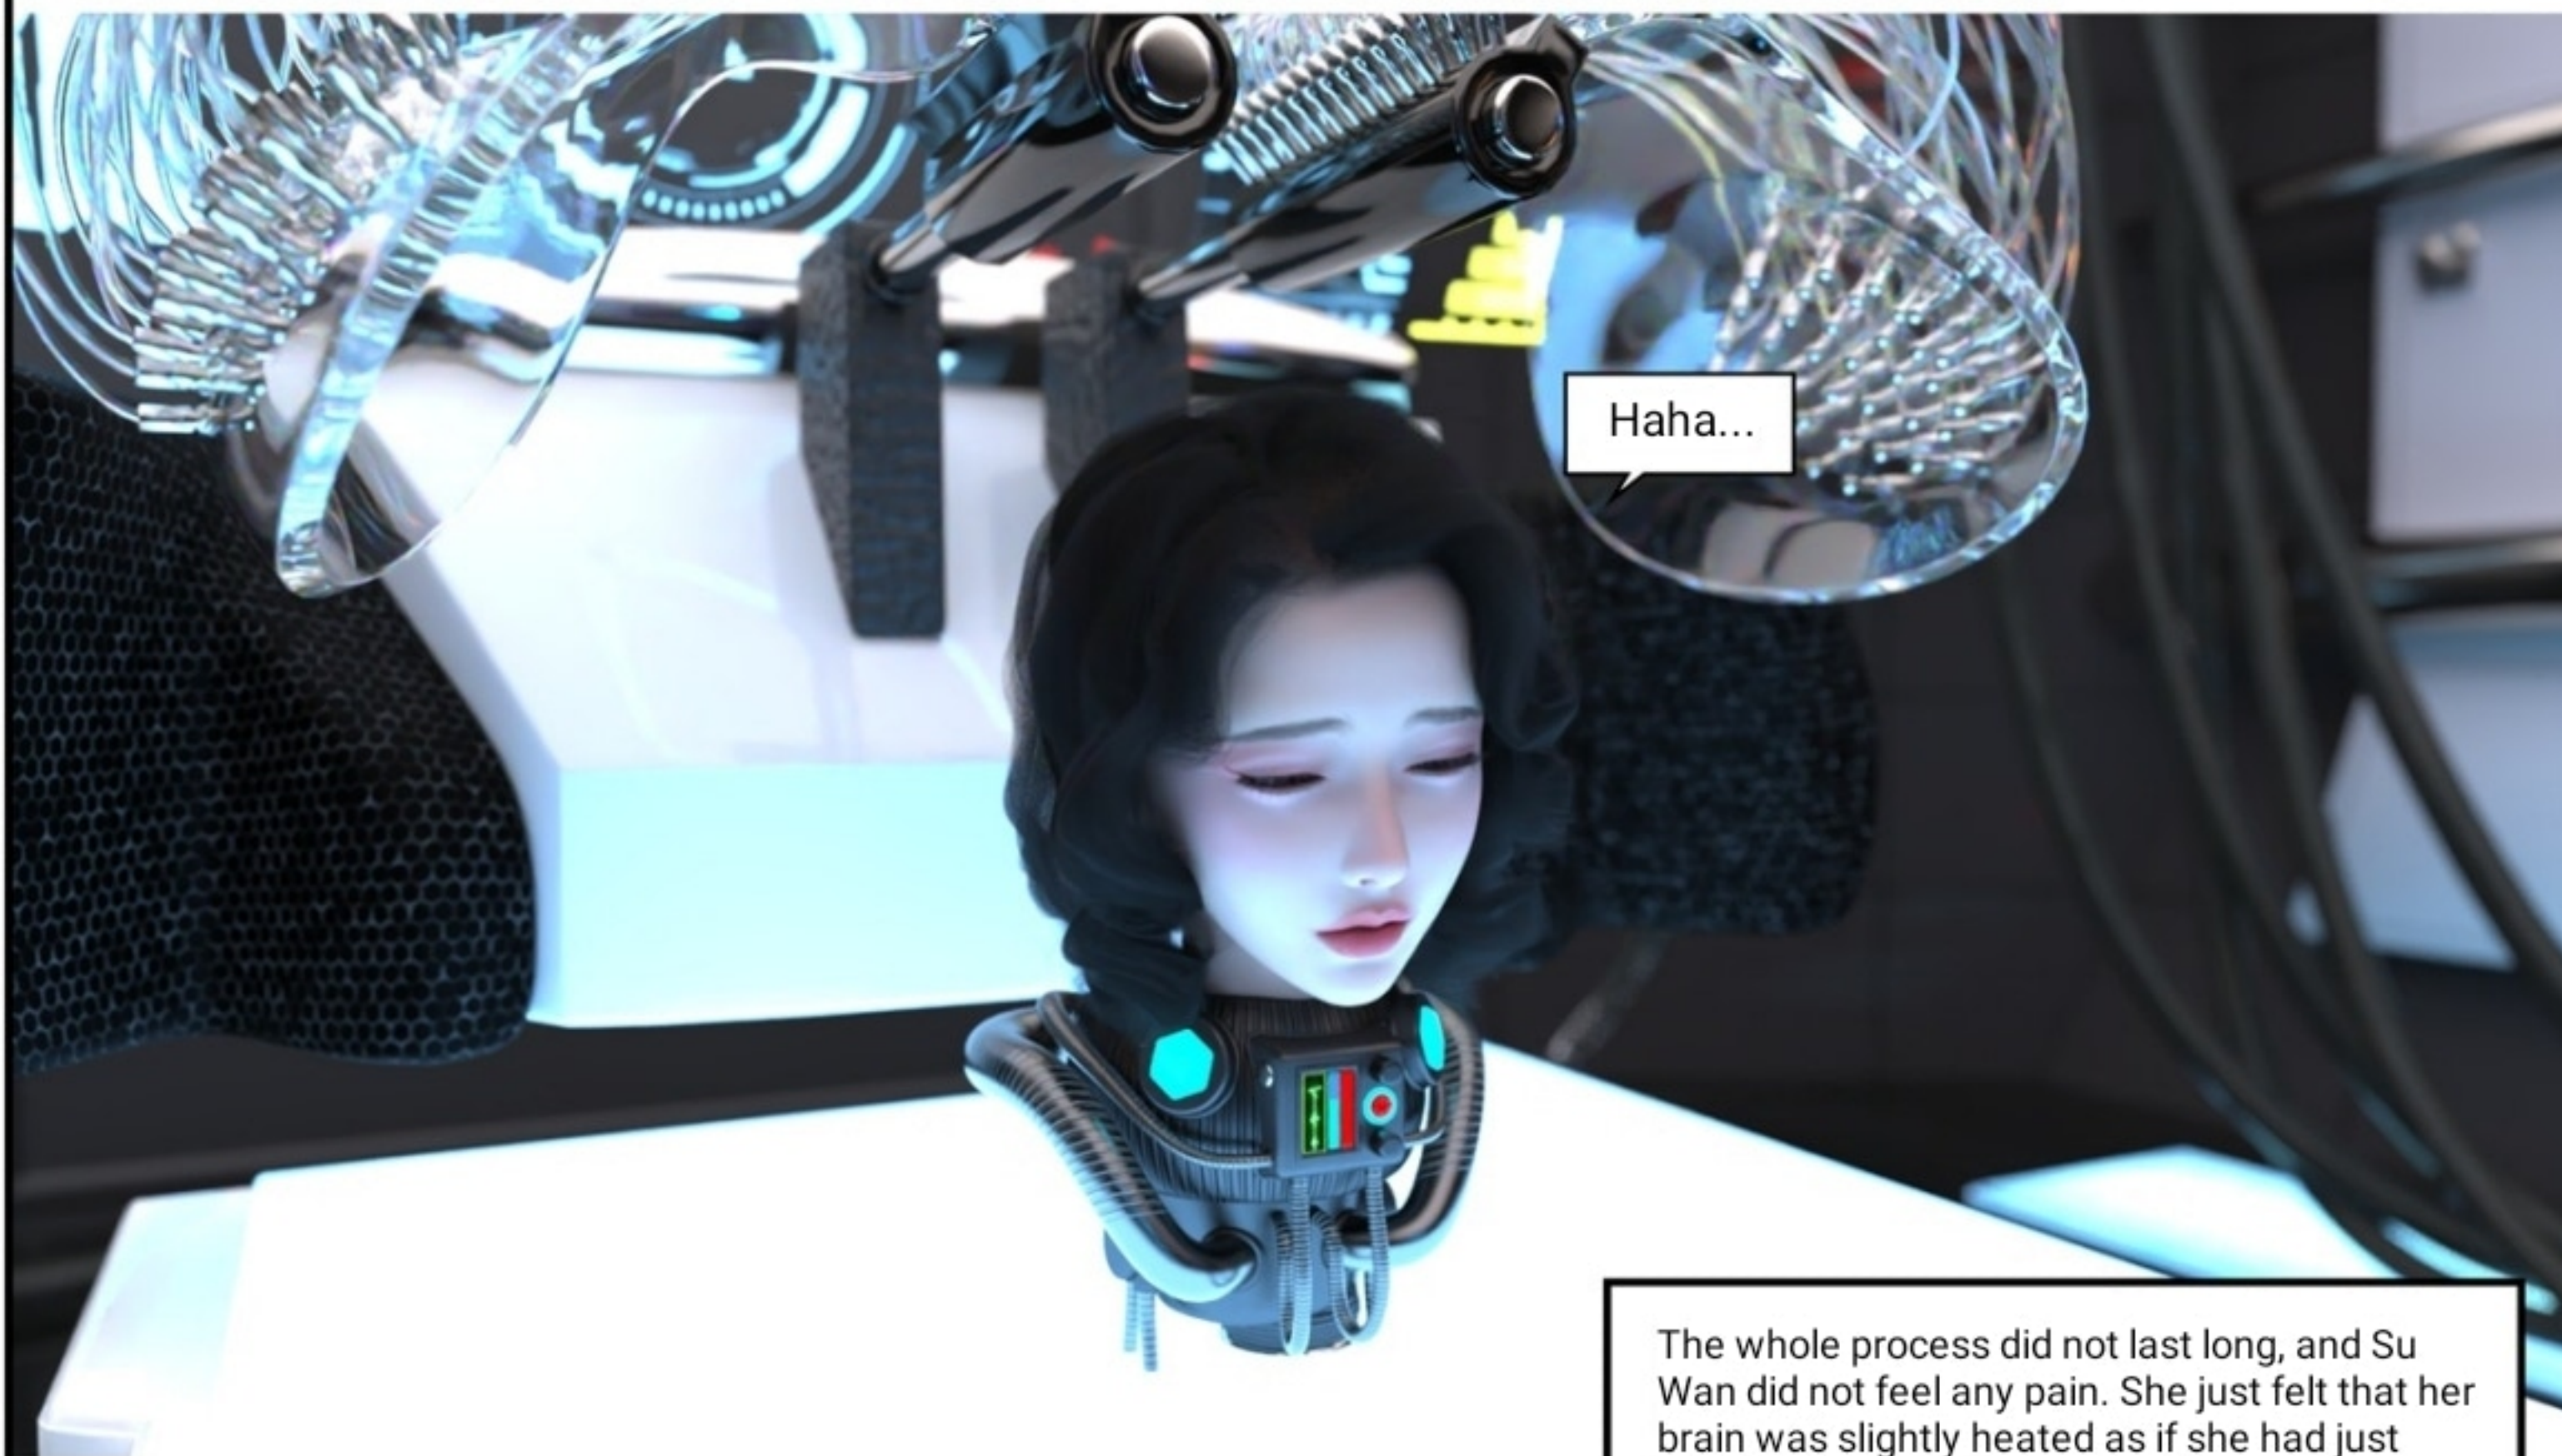

Ahhhhh...

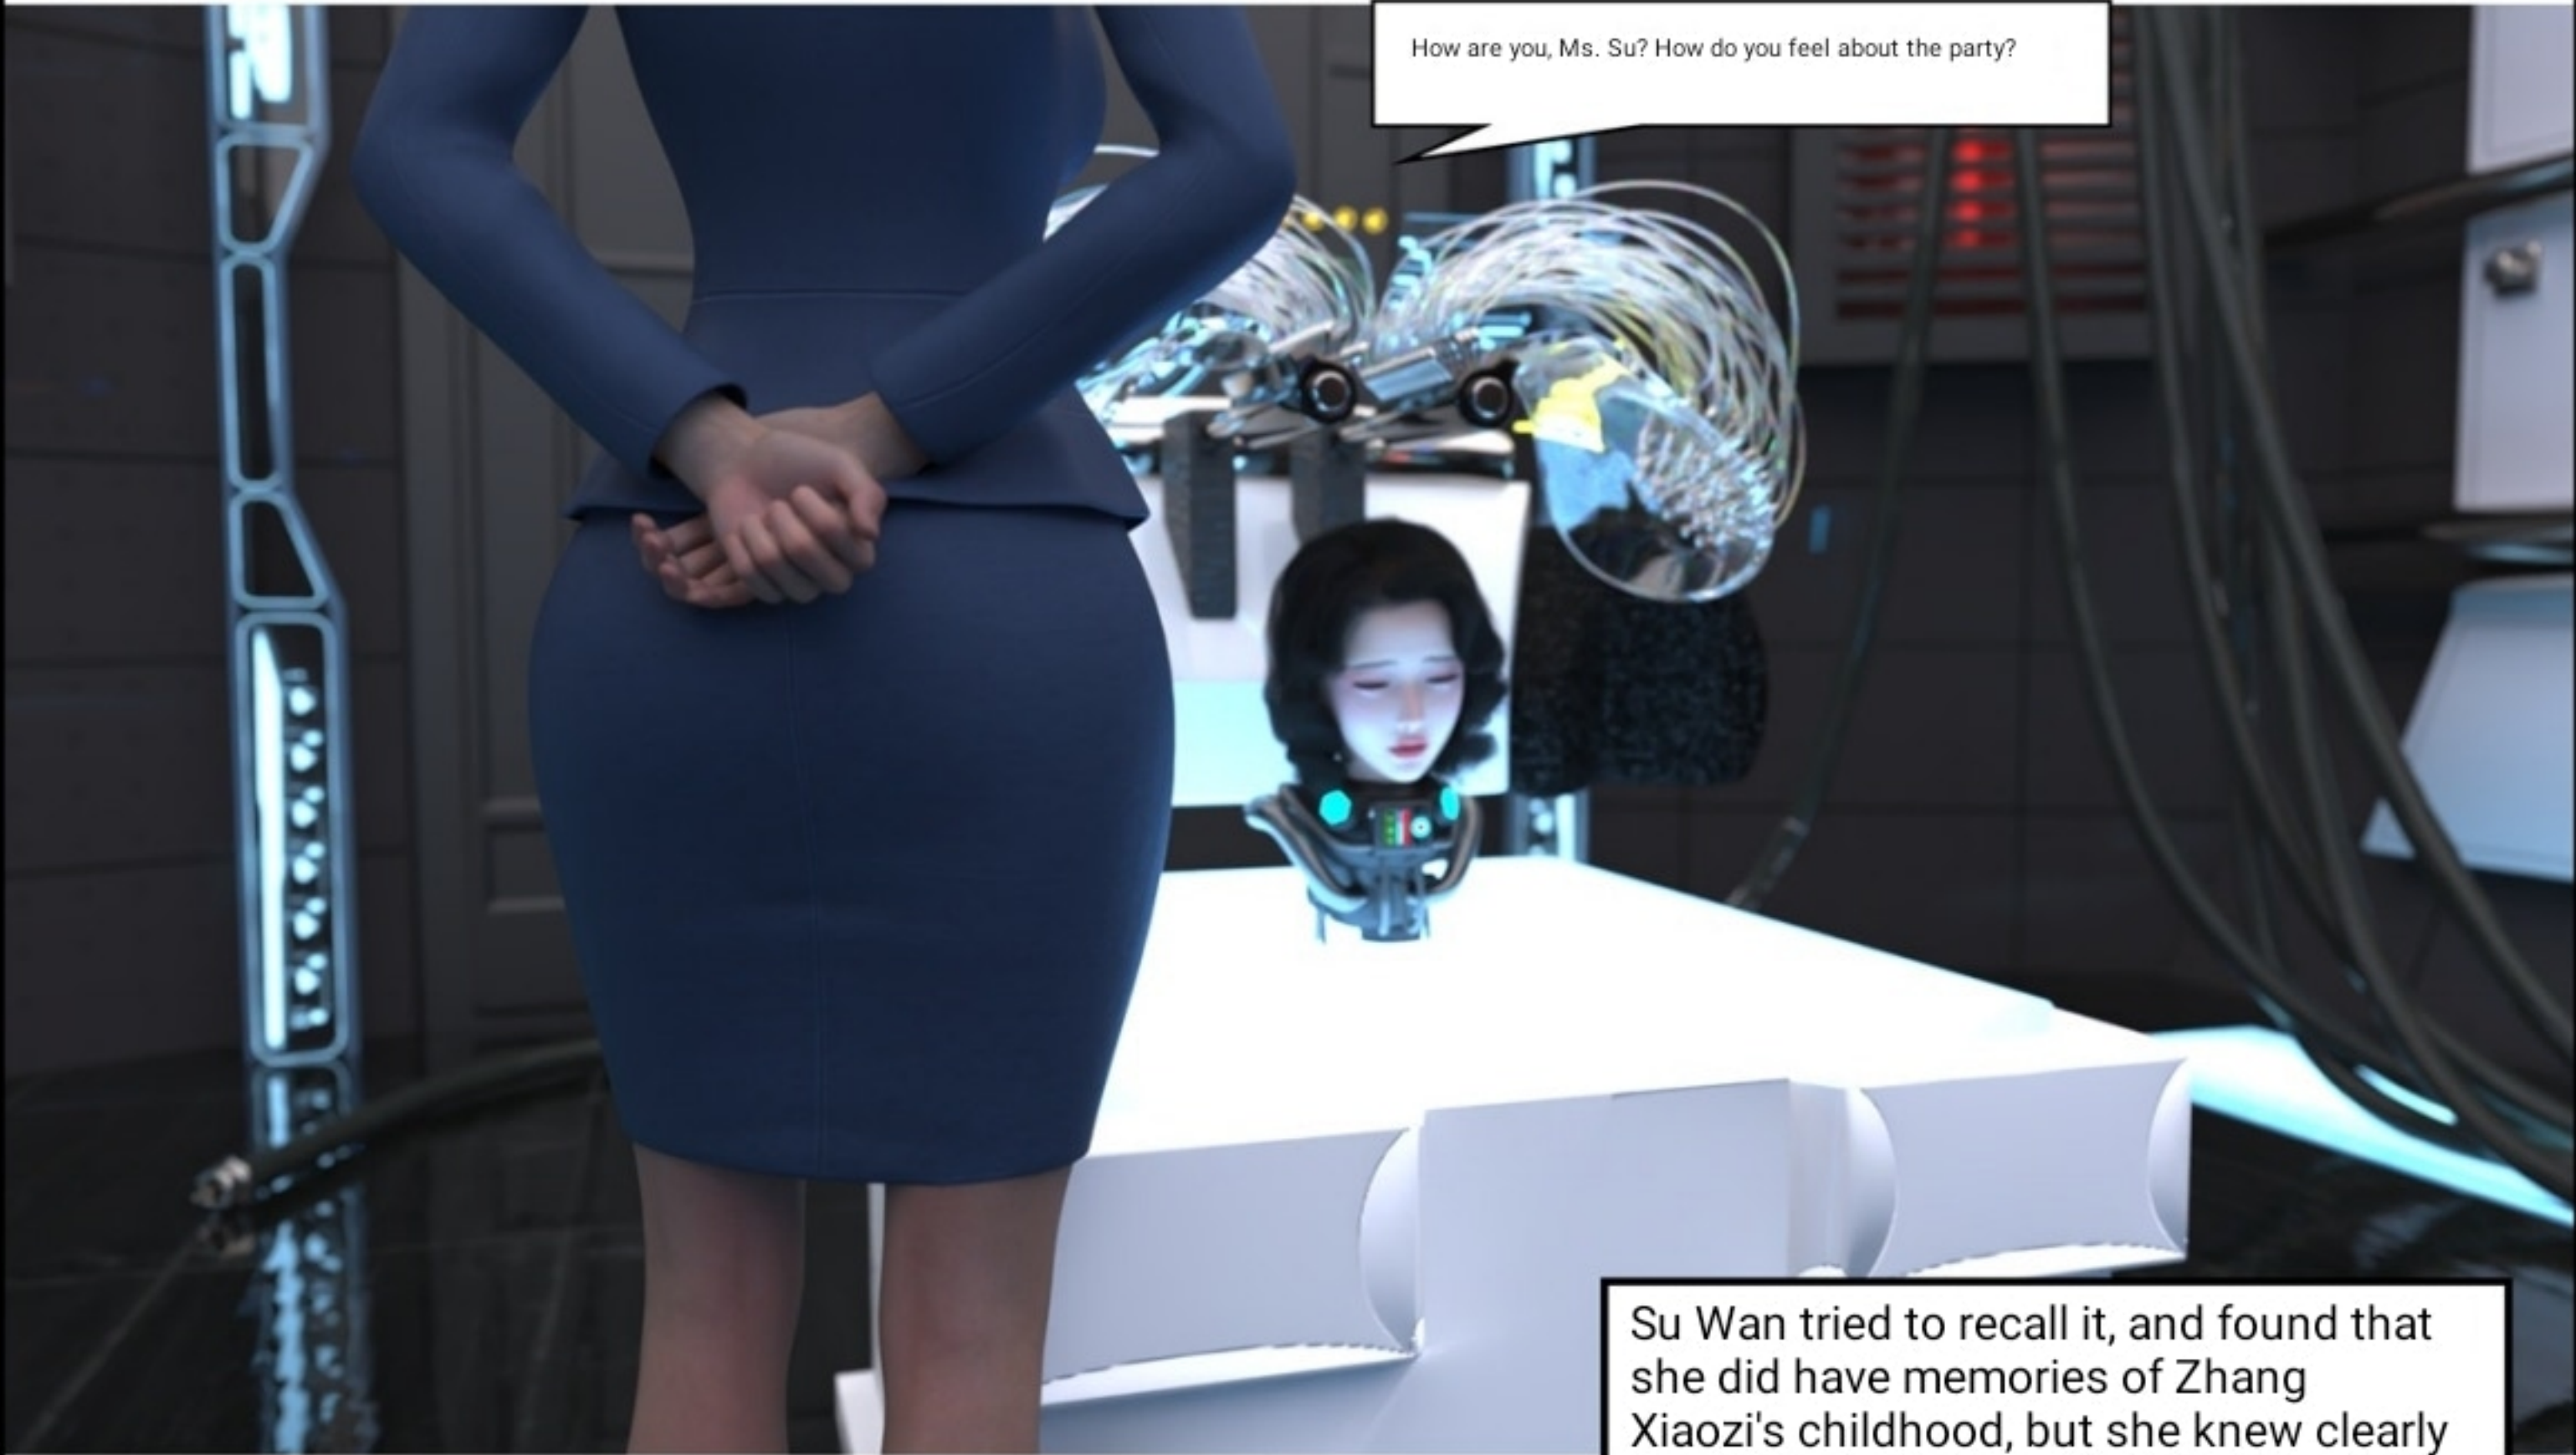

Before she could speak, Su Wan only felt a powerful current stimulating her brain, and a large number of memory fragments poured in crazily at the same time.

End of data entry

The whole process did not last long, and Su Wan did not feel any pain. She just felt that her brain was slightly heated as if she had just experienced a brainstorm.

A woman in a blue dress stands with her hands clasped behind her back, looking down at a small robot head on a table. The robot head has a transparent dome and glowing blue lights. The background is a futuristic laboratory with various cables and equipment.

How are you, Ms. Su? How do you feel about the party?

Su Wan tried to recall it, and found that she did have memories of Zhang Xiaozi's childhood, but she knew clearly that those memories were not hers.

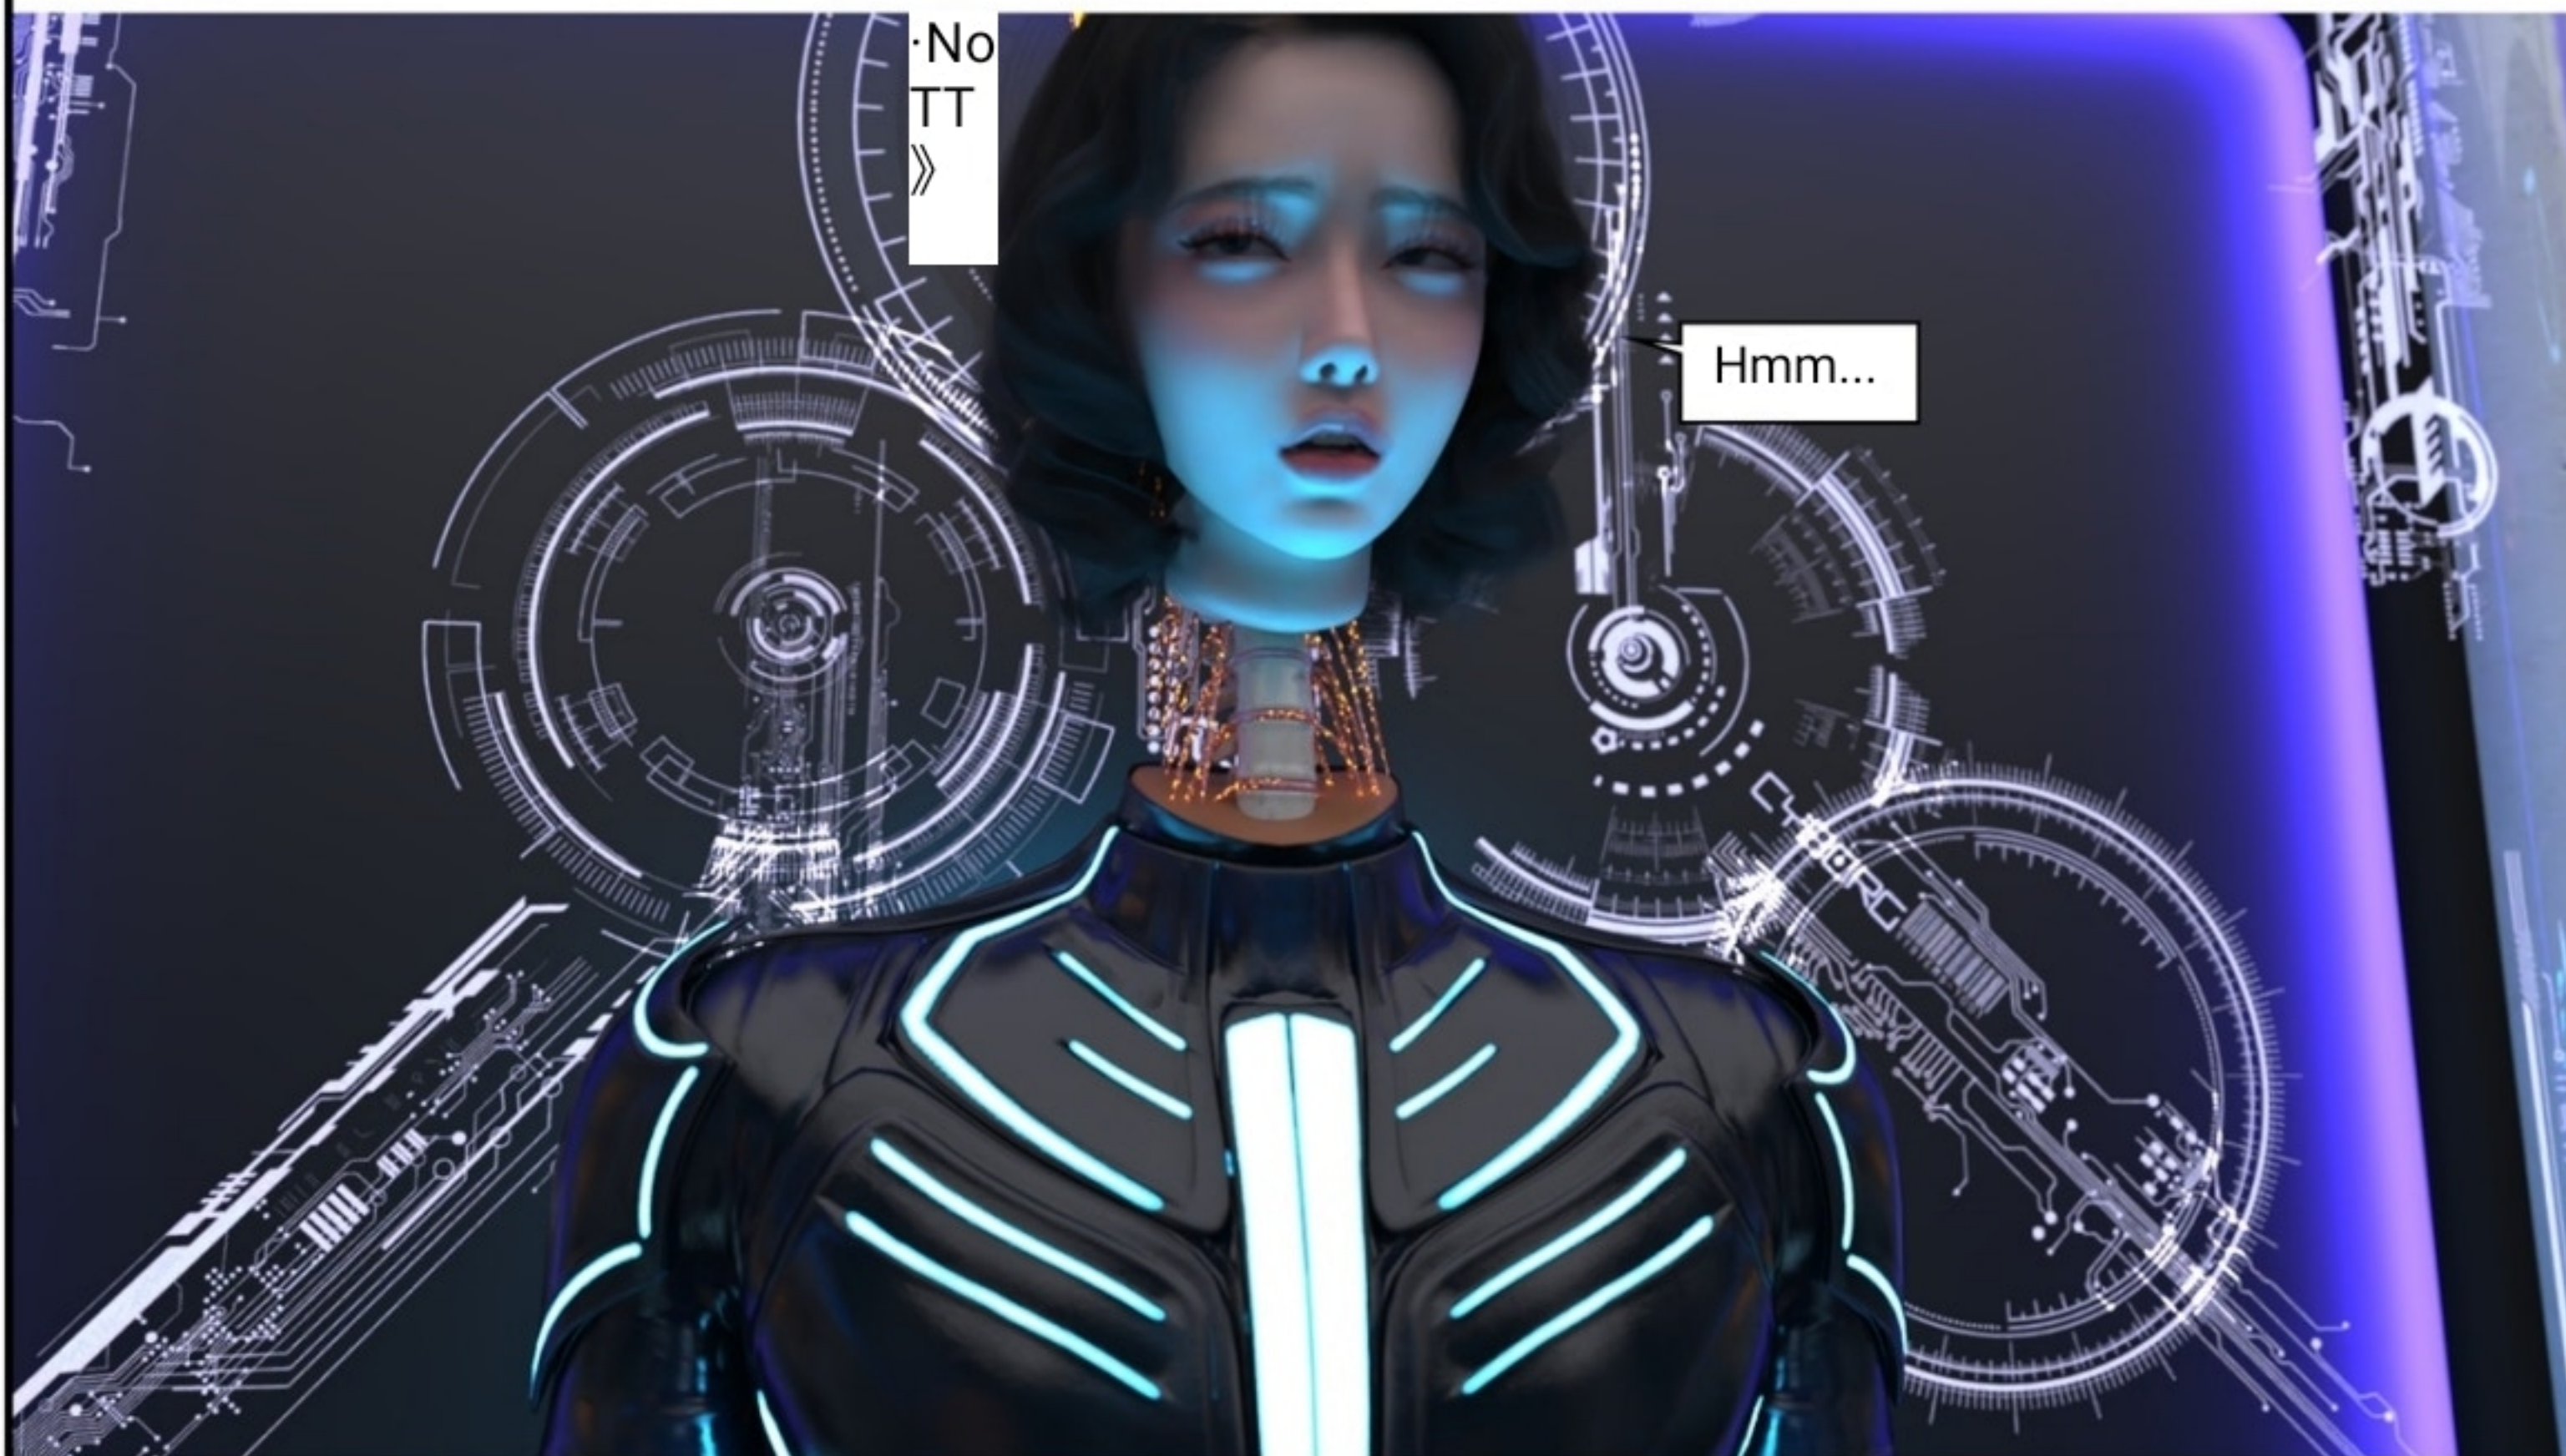

Very good, these memories will only provide you with some information when you need it, and will not affect your independent personality.

Then the next step is the change in your body.

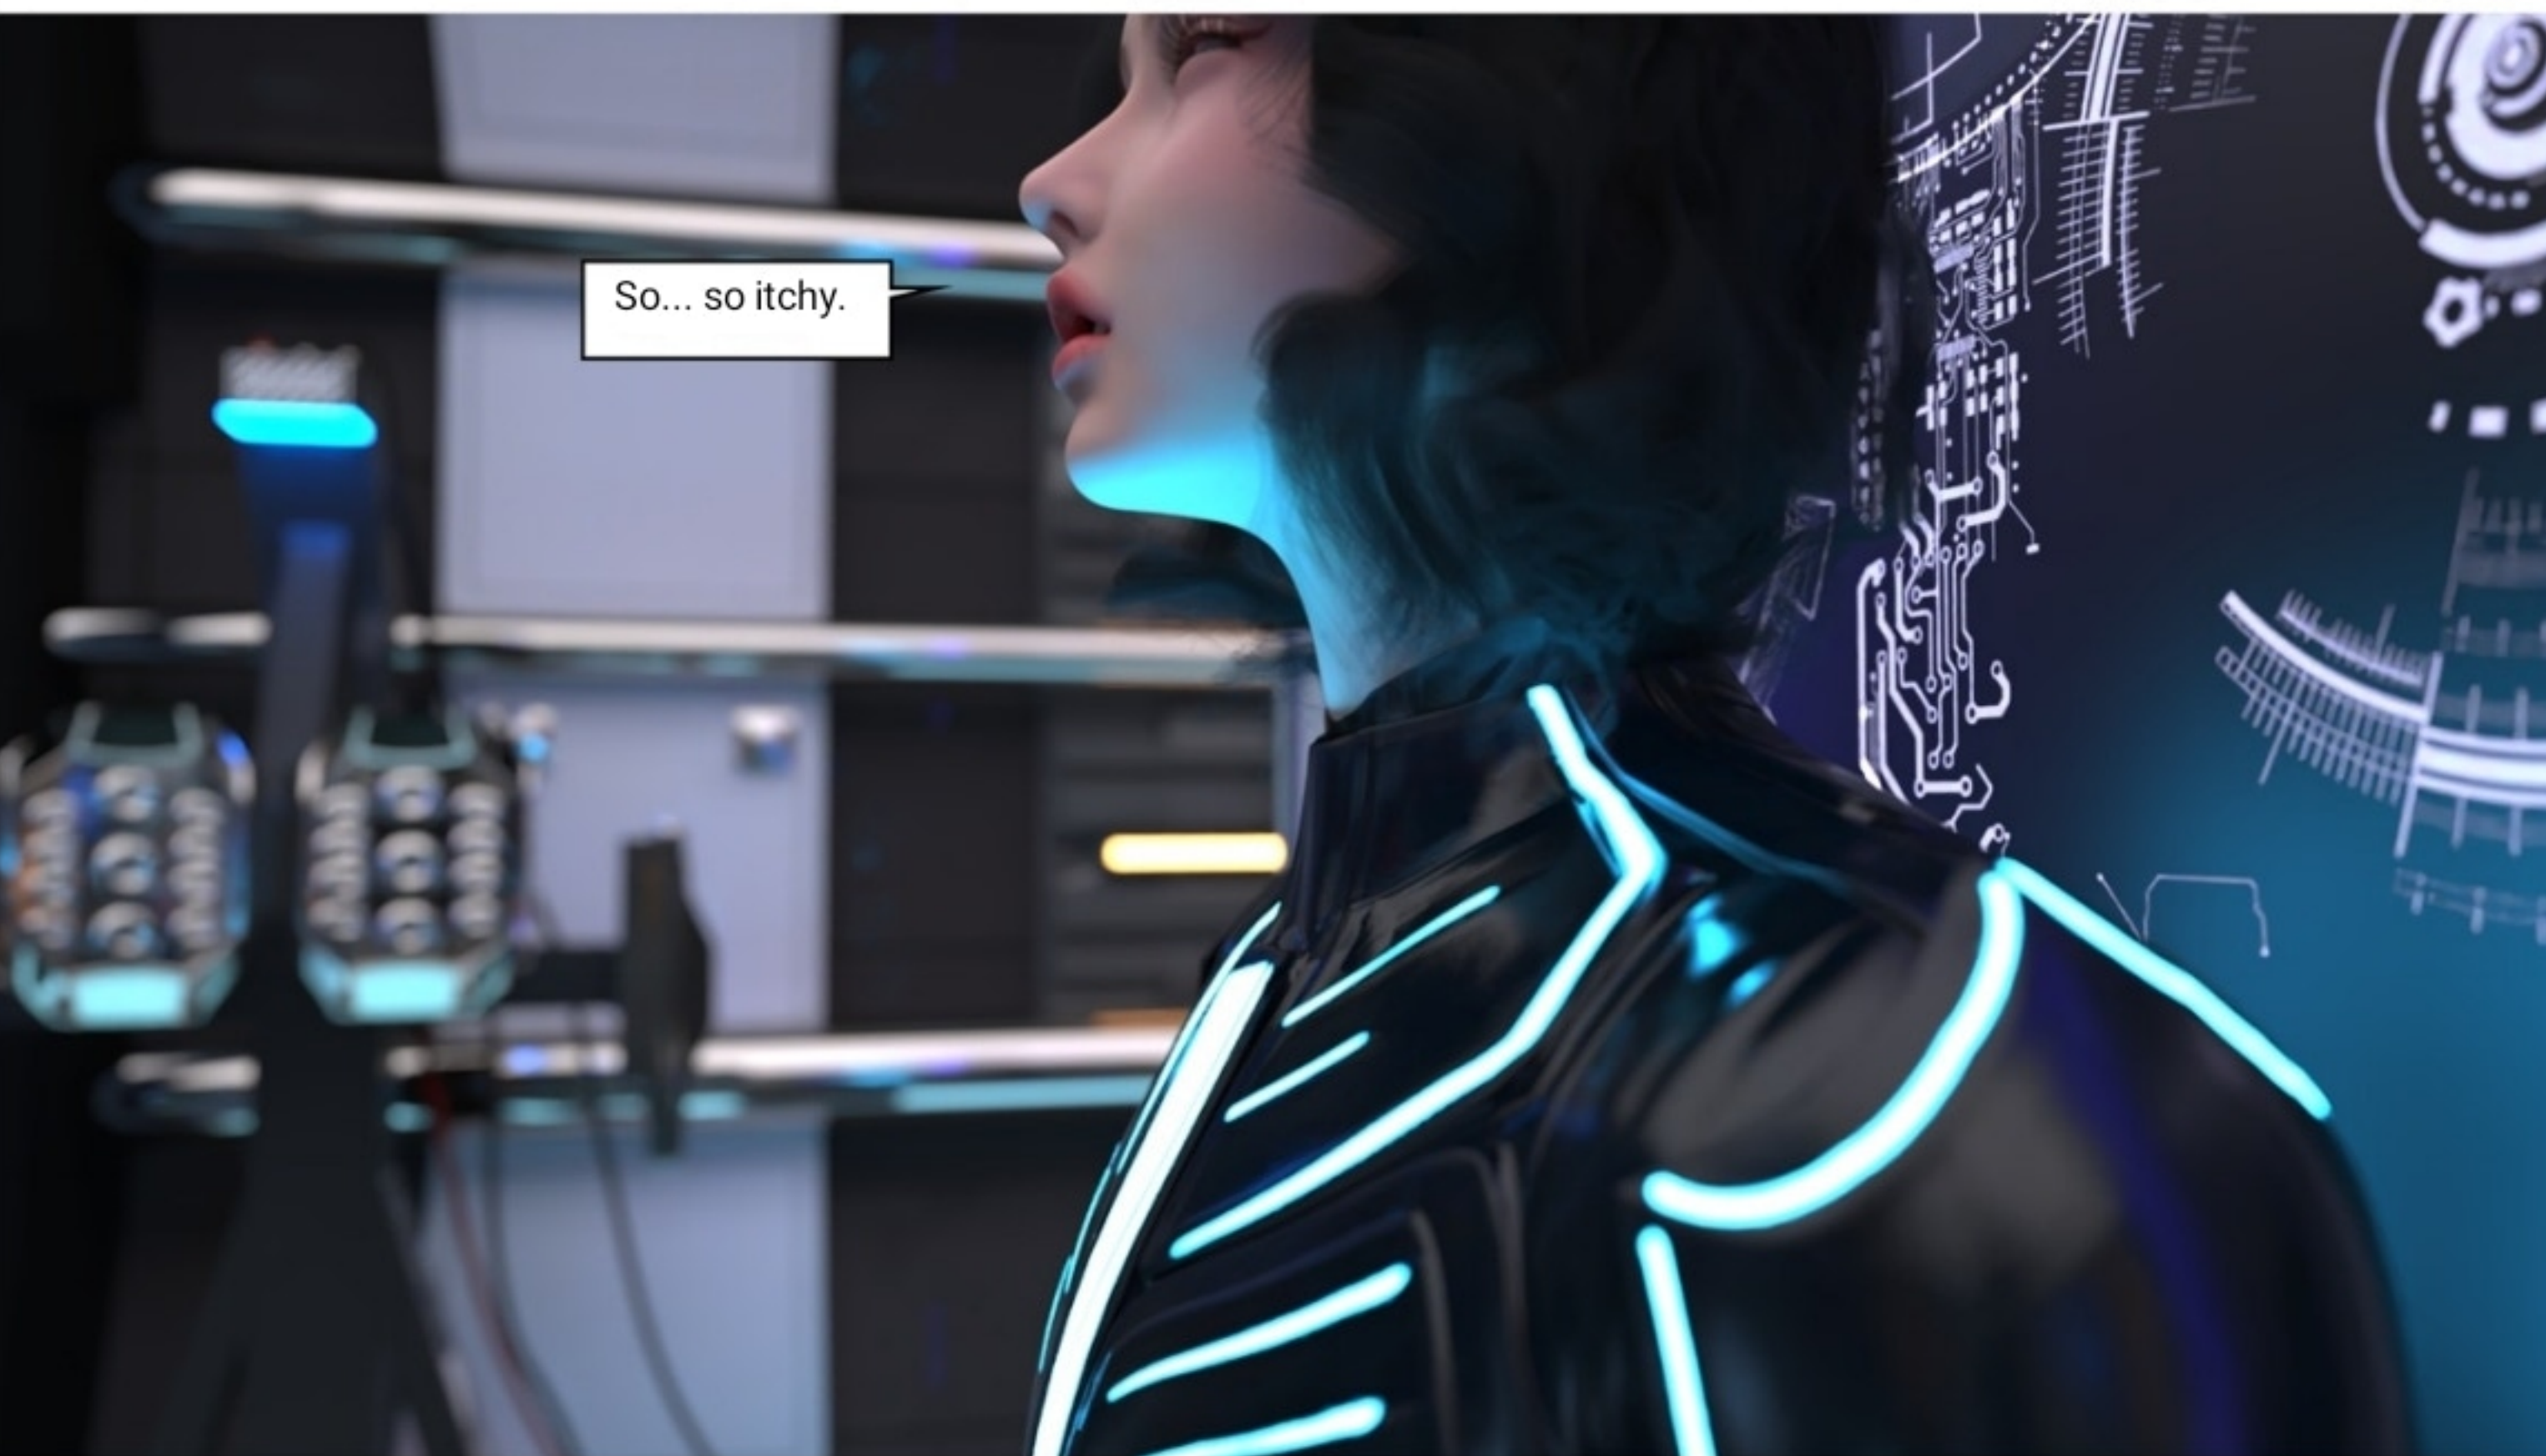

·No
TT
»

Hmm...

So... so itchy.

This...is the end?
My body has become like small print?

But why can't I move?

The artificial nerve connection
usually requires some
extra-maxillary breathing...

But, maybe we can pass
— A little extra stimulation to speed up the process.

Reina, what are you going to do...

|Collect
green seeds

The best way to speed up fusion is to stimulate your new || body, and the best way to stimulate the male flesh is to stimulate.

A futuristic scene set in a dark, industrial environment with blue and purple lighting. In the background, a woman with short dark hair wears a black, form-fitting suit with glowing white and blue lines. She is surrounded by floating, translucent blue digital overlays that resemble circuitry or data patterns. In the foreground, the back of a person's head and shoulders are visible; they are wearing a purple spaghetti-strap top. The overall atmosphere is high-tech and mysterious.

Sexual... sexual stimulation?

Su Wan didn't know why, she had obviously never had any desire for other women's bodies, but now, when Ling Nai took off her clothes and Wai Kui stood in front of her, her eyes were half attracted by a magnet, fixed on Ling Na's breasts.

How about it, you see a woman's body now and it feels completely different from how it felt before, right?

Collect green
seeds

Oh my god.. I'm... erect?

Only then did Su Wan realize that her new sexual organs had become erect in an exaggerated state just after she had taken a look at those breasts. Her lower body had set up an exaggerated tent with the tights.

Harvest green
seeds

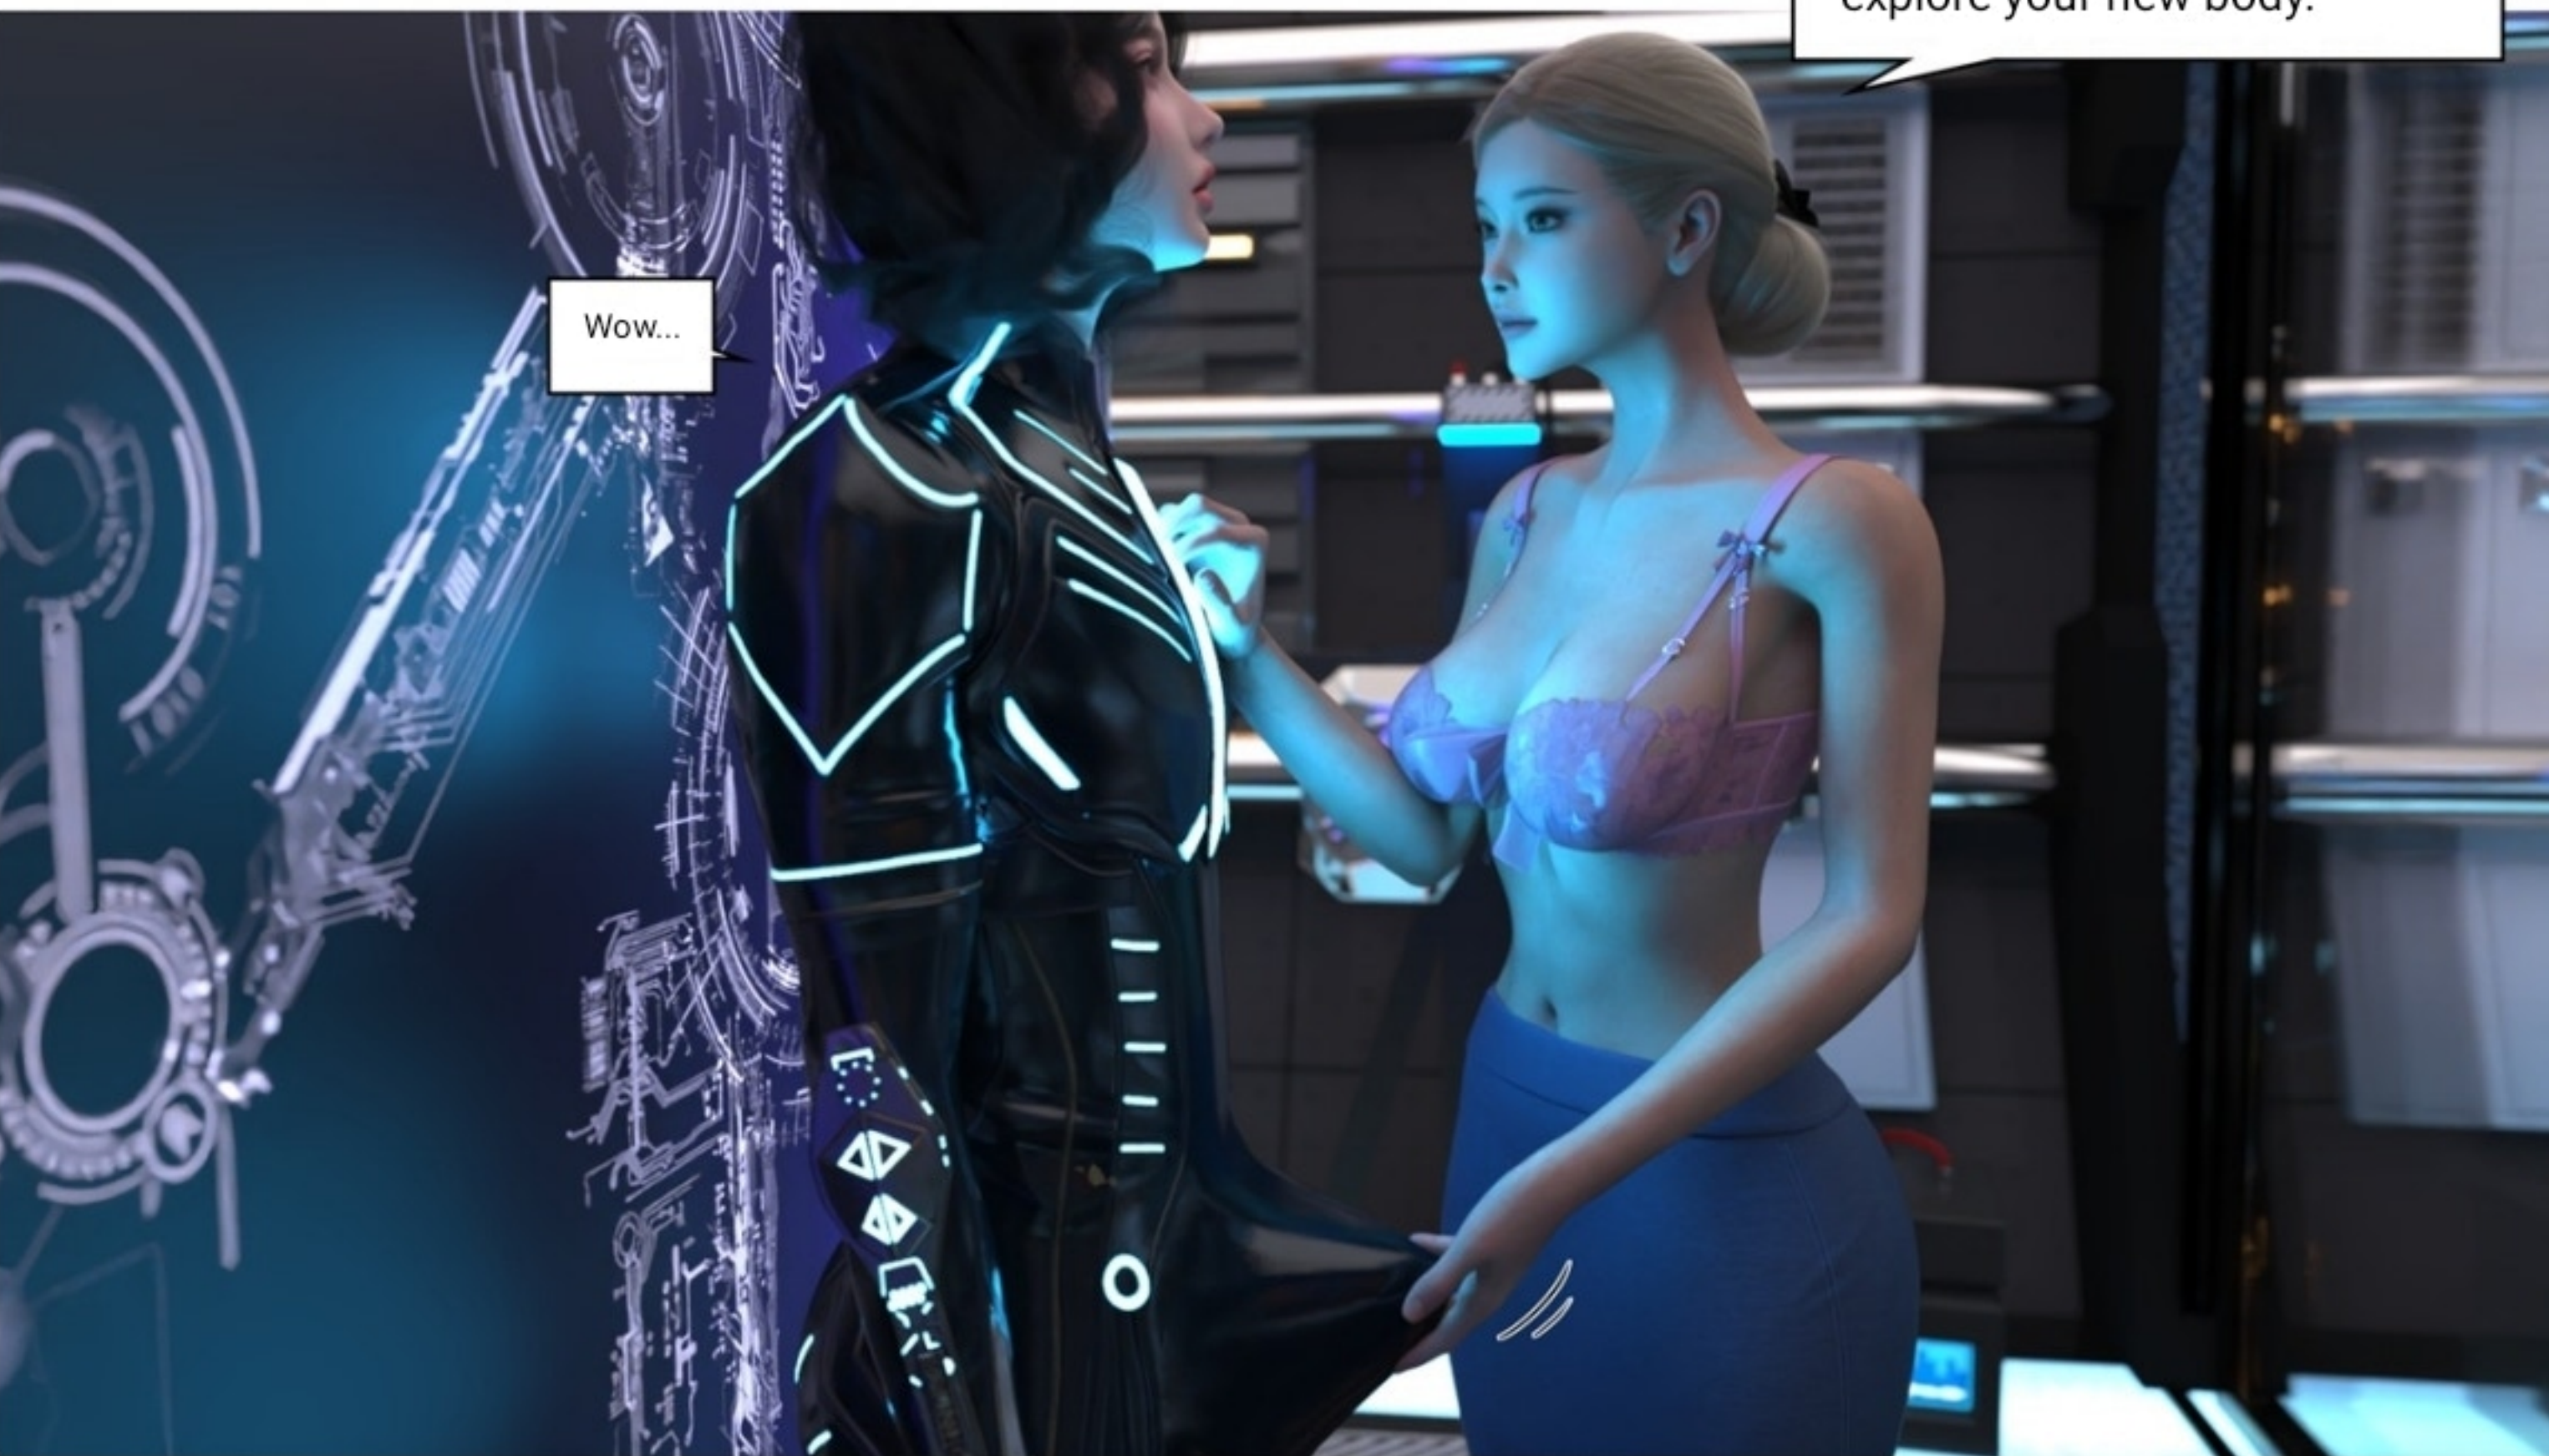

This is a good thing, Ms. Su, it means that the meridian circuit has been stopped. |Bi Kuan, your son has a young college body. It is normal to have such a reaction when seeing a woman naked.

little green

So next, let me take you to explore your new body.

Wow...

With the help of Ling Xi, the protective clothing was gradually removed, and Su Wan saw her new body for the first time.

|Lin Luzi

|I didn't expect... Xiaozi's body has become so masculine...I have always treated him as a child.

009
0000

And it seems that he has been able to exercise.
The lines in his muscles are really bright...

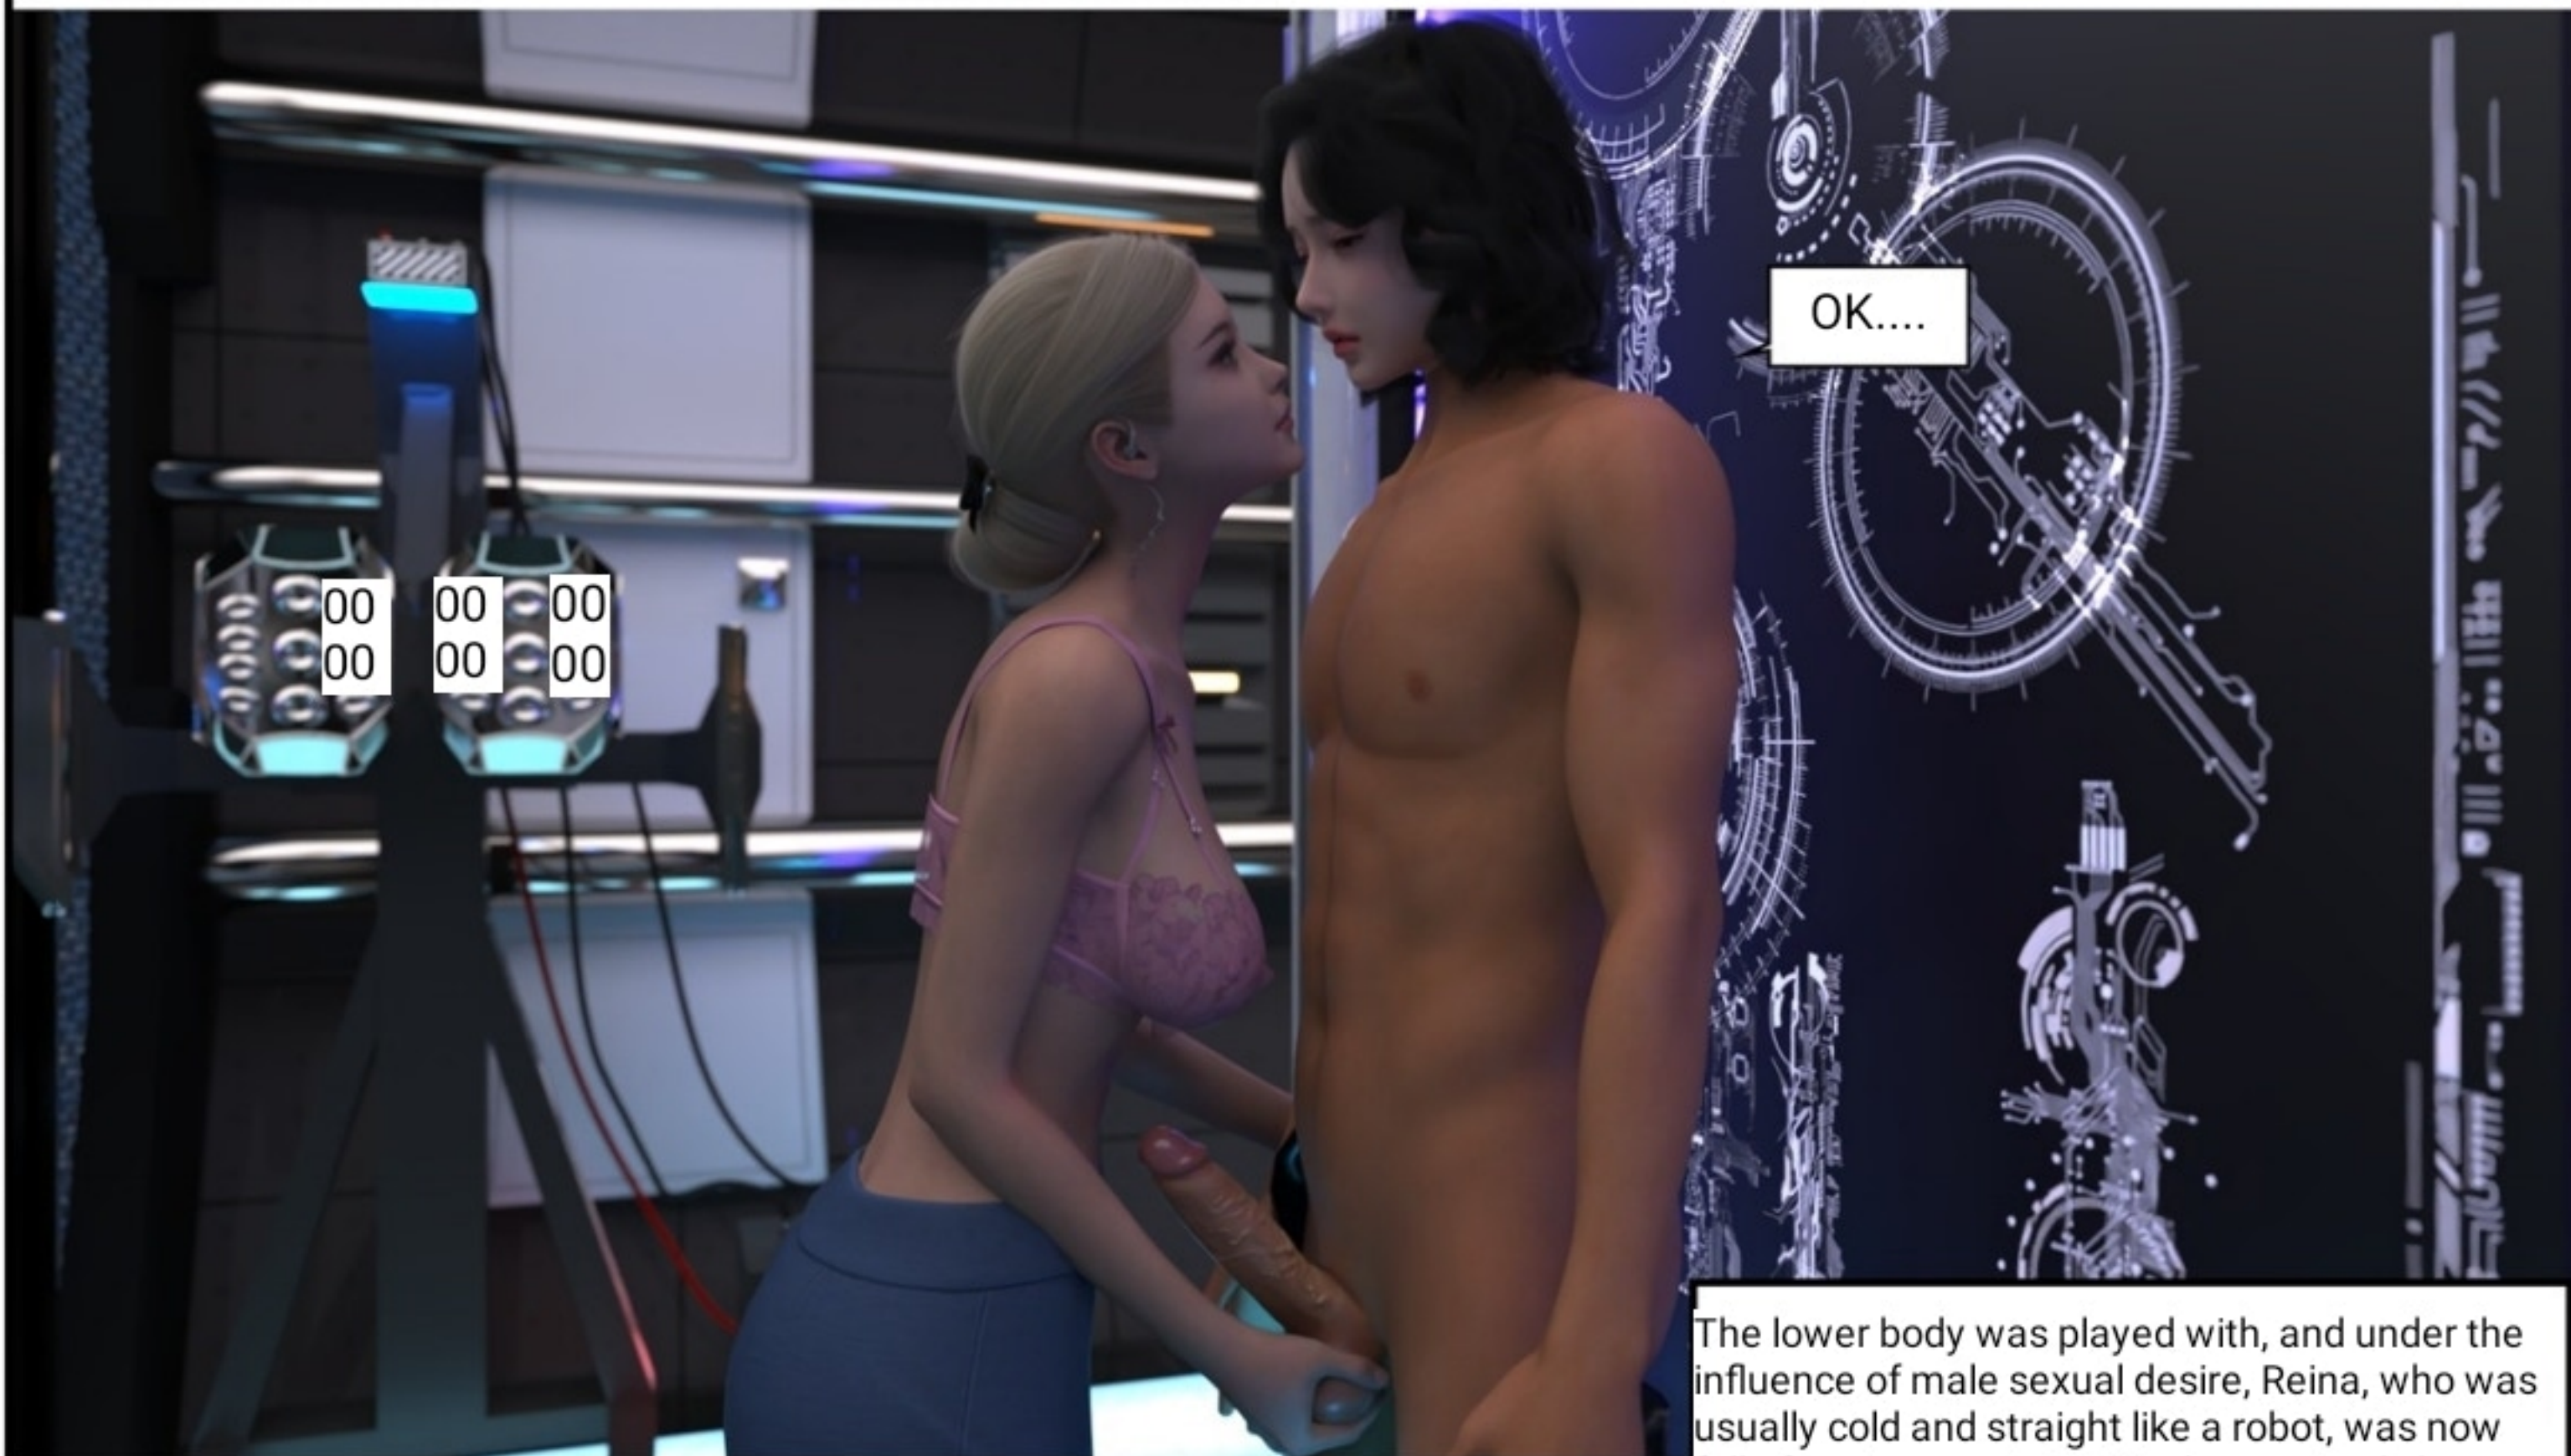

It's so addictive-

Ah, Reina, I can feel your
lips on my breasts

Ms. Su, your cock is as hard as an iron rod. Do you want me to help you become a complete man?

OK....

The lower body was played with, and under the influence of male sexual desire, Reina, who was usually cold and straight like a robot, was now full of excitement in Su Wan's eyes, and she answered almost without any hesitation.

Ahhhhhh~

||...I can move?

|Sizi

It seems that neural fusion has been completed...

I said surname stimulation is the best way to increase the fusion of long pants

Thank you.. Thank you, Lingxi

You have now become a brave person.

Do you feel any discomfort?

After putting on her clothes, Reina regained her professional coolness that she had always maintained.

There are still many differences between men's and women's bodies, and it's normal that you won't get used to them for a while.

1 However, I believe that with the help of auxiliary programs, you will soon get used to it, and even your actions will be like a drinking boy.

f30♦e
3

Hopefully...

Speaking of which, I just thought...
you were going to have sex with me...

Bi
g
a0
00

From your tone, it sounds like you are a little disappointed?

Not just... I was touched by you just now,,
and all I could think about was...all...

No...it doesn't have to be
so straightforward...I just...

Okay...that's exactly what I thought just now...

Although she still wanted to quibble, she just slightly recalled the feeling just now, and there was a sense of tightness in her lower body again. Under the tight clothes, she knew that there was no point in quibbling.

Ms. Su, after all, this is a company, and it was my working time just now. I can't do anything too extreme, but...

You are so sexy and have a male body, of course I wouldn't mind having sex with you. I believe we will definitely do it again in the near future.

teach green

Jing lie down, Miss Su.

This... machine is used for thousands of things...

It is usually used to modify and adjust the appearance of the robot's face. Your current appearance does not match your current body, so some adjustments are needed.

Is there anything I need to do?

Of course not, after the procedure starts, the strong acid that the device will secrete will eat away your current artificial skin, and then make a new one based on your son's appearance.

There.

What? Corrode my face? Then
am I not ruining the guest?

It won't hurt...

Of course not, we haven't restored your pain-sensing circuit yet.

Although Su Wan has gradually accepted the fact that she has become a robot, as the cold machine approaches, she still feels a little uneasy. If her face changes, will she still be Su Wan?

But before she had time to think about it, the machine was already covering her face.

Viagra, why are you touching again...

Although Zhang Xiaozi and Liu Wei's original intention was to play games freely and happily at home without anyone in charge, just like before. However, things backfired. Once the two of them sat on the same sofa, they had no intention of focusing on the game.

Ben Midoriko

I don't want to play the game yet, I'm going to fight the boss soon.

No matter what game you play, it will never be as fun as you are now.

Tsk, aren't you also
Wen Shu like this?

Xing still doesn't blame
you for rubbing your dick
all the time.

Well - filled up again

It's so comfortable, Viagra, it's going to kill me.

(Ah-a woman's body is so great, I don't want to change it back again-)

Within a few days, at Liu Wei's request, Zhang Xiaozi's tone and movements more deliberately imitated his mother Su Wan. Gradually, he completely fell into the role of Su Wan, a lonely young woman who secretly eats her son's classmates behind her husband's back.

| Lin Luzi

Aunt Su, you look great in this sailor suit...

I can't help Aunt Su

So cute, Aunt Su, she looks younger than my female classmates

Hate it, Xiaowei, just say something to make Auntie happy.

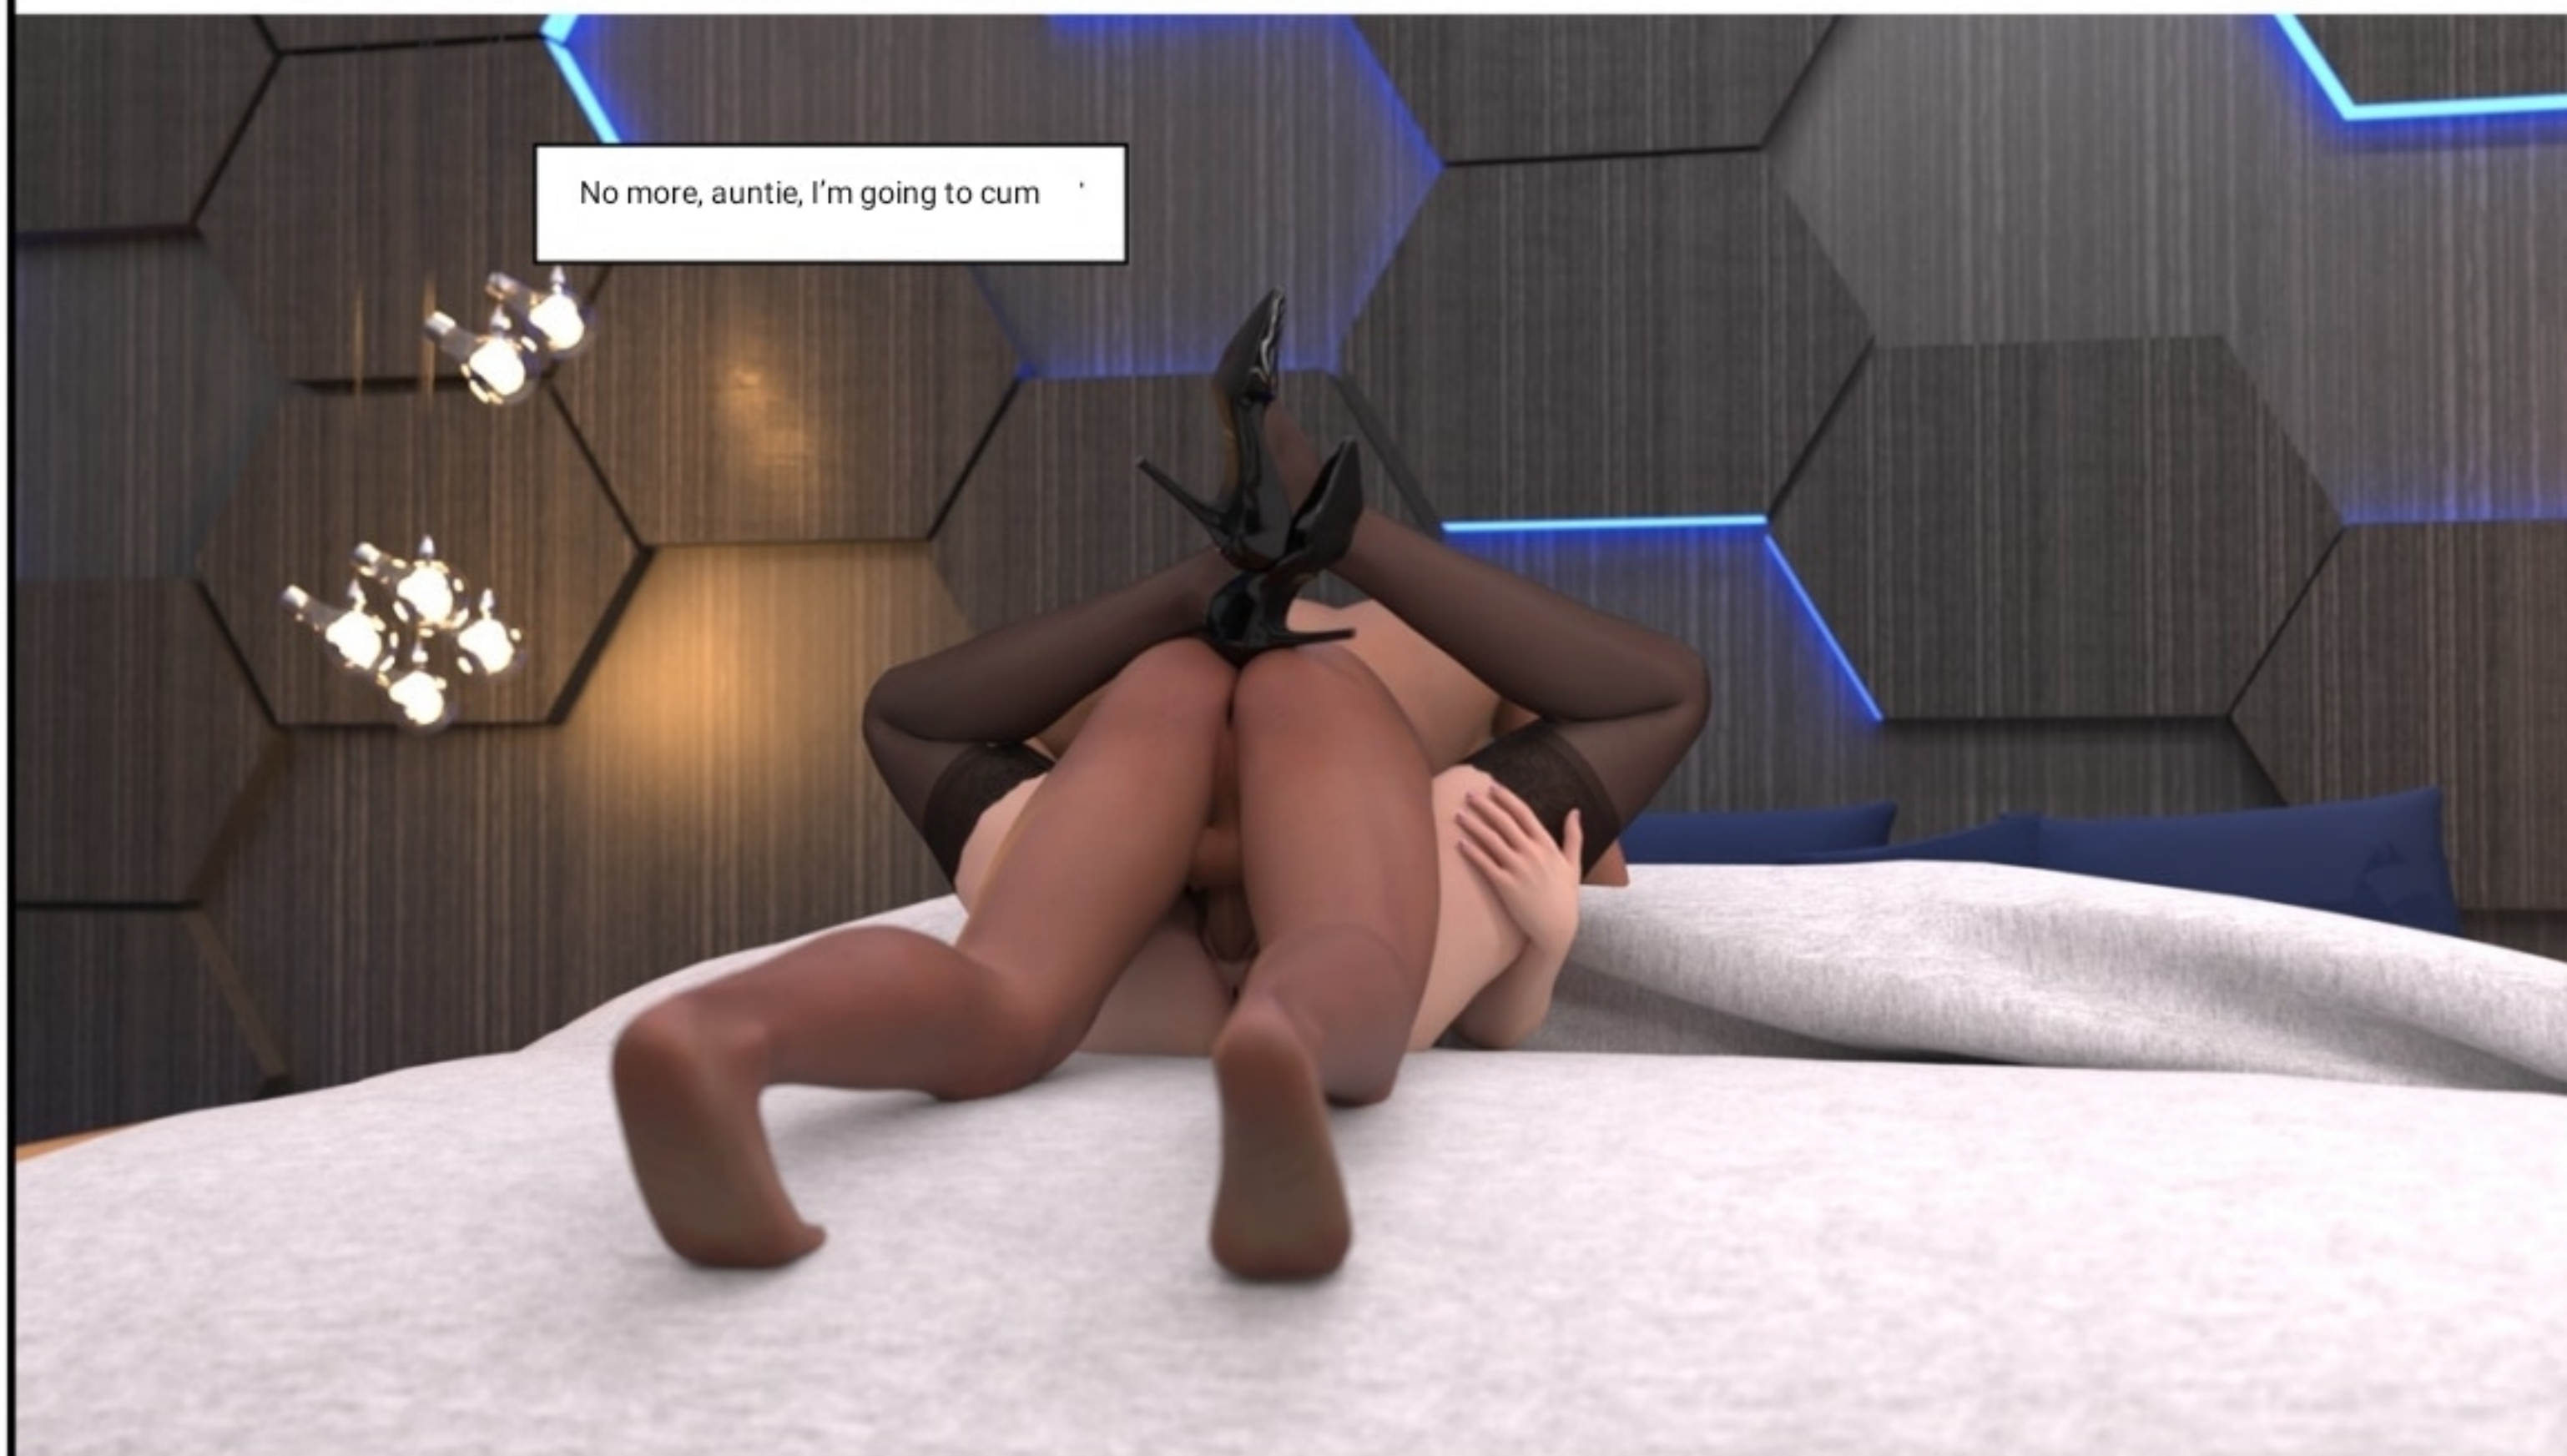

If you didn't want to see it, Auntie
wouldn't wear such shameful clothes~

Hehe, Auntie Jing loves...

Ah, don't use so much force, little rascal~

No more, auntie, I'm going to cum

I want to ejaculate, call mom to listen.

妈妈..

Lin Luzi

Look, it scares you, of course not, o

I called the company you mentioned before and said, "My mother... No, the renovation of Xiaozi has been completed. I'll pick up Xiaozi in two days."

Hehe, you are quite into the drama.

Of course, especially after Xiao Zi comes back in the future, | I have to play the role of his mother even better.

|Ben Luzi

You can pretend you don't know anything,
just get along well with my son, Xiaowei~

Of course it's no problem, Aunt Su-

Auntie is really a good boy. Let's go. Now you have entered the Xianqing time. Auntie, go downstairs and play games with you.

All procedures are over, Miss Su. Maybe I should call you Mr. Zhang Xiaozhi.

Has my face become
completely golden and
looks like small print?

It's not just your face, haven't you noticed? Your voice is also the same as that of your son Zhang Xiaoyu.

Yao, indeed...

Not only is it an external attack,
but now even the semen you
ejaculate has the same genetic
information as your son...

Can this...can this be done?

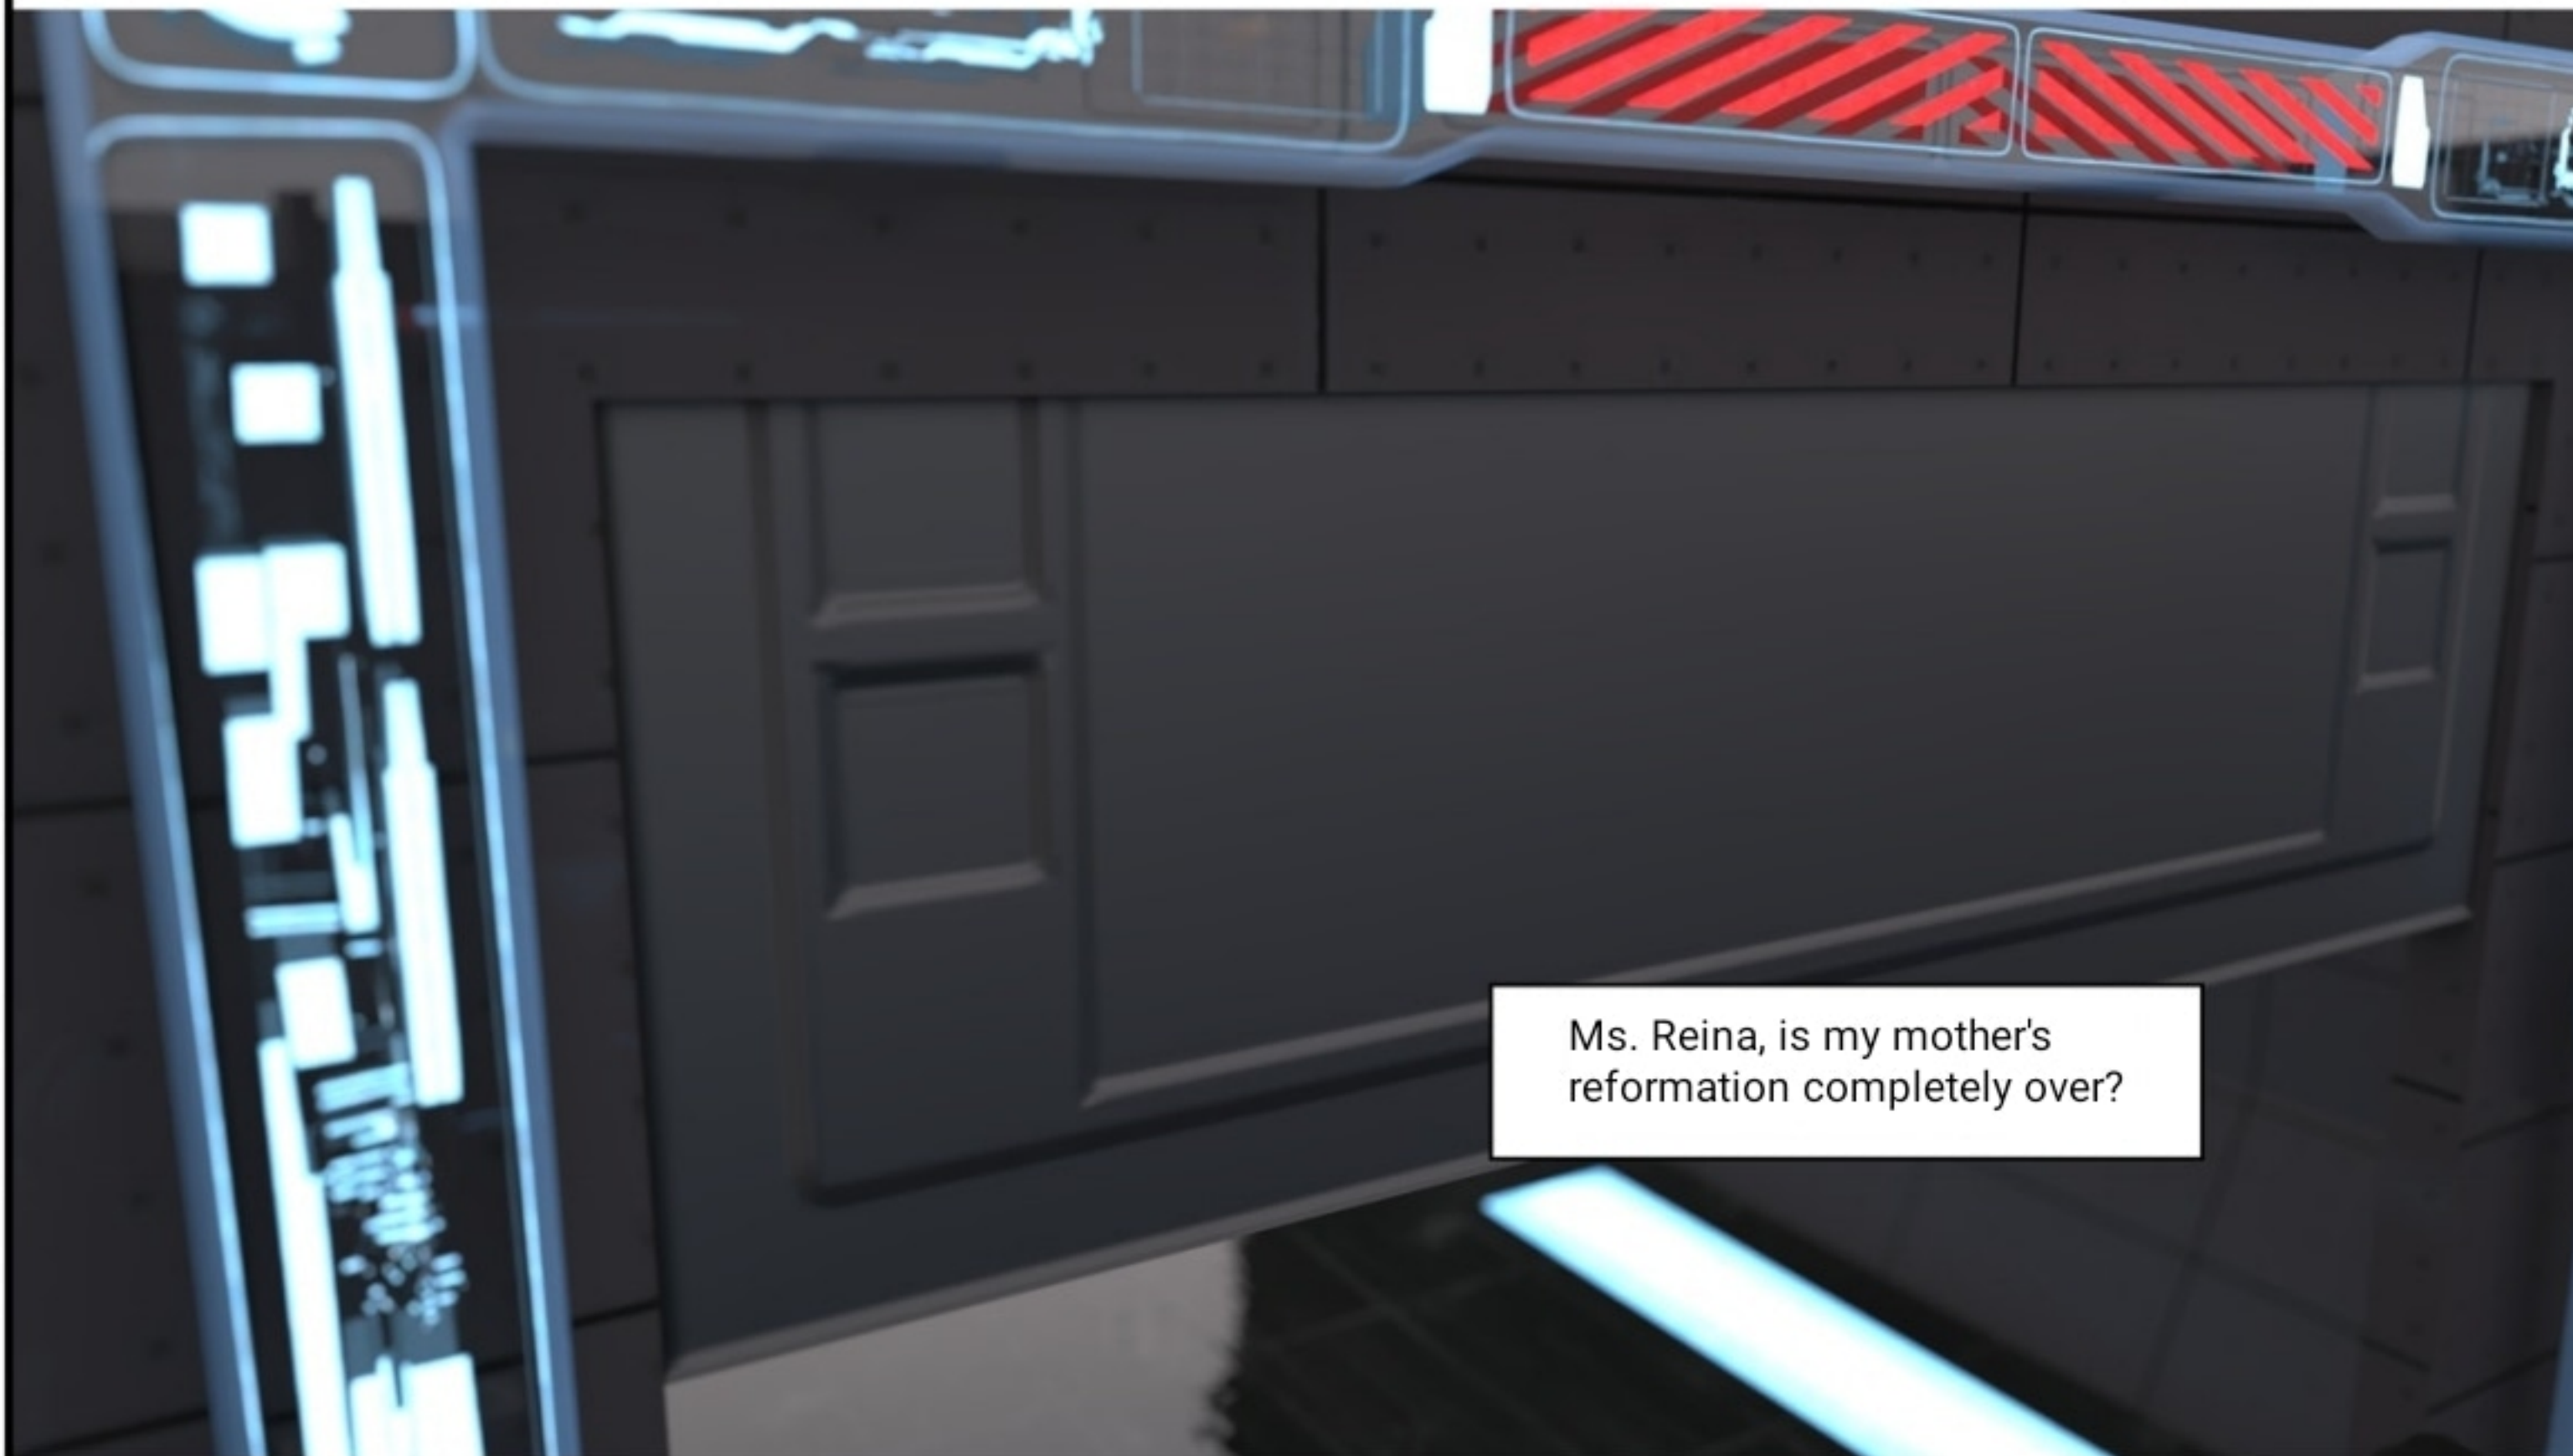

Miss Takahashi, there is a lady named Su outside the door who said she has an appointment. Do you want her to come in?

Yes, let her in.

Just now when you were in a coma, we already informed your... mother that she has arrived. Please wait a moment.

Ms. Reina, is my mother's
reformation completely over?

Mom?! You smell exactly like me.

| Small print... What do you look like in this outfit? |
Does your mother usually wear clothes like this?

And what's the matter
with your hair color?
Have you dyed your
hair?

F
の
mn

Although she criticized Qing Zhang Xiaozi for subverting her image, from the moment Zhang Xiaoyu entered the door, Su Wan found that her eyes wandered to Zhang Xiaozi's beautiful legs with black stockings. The big breasts and wide buttocks that I once took for granted now hit my eyeballs all the time, and the tightness in my lower body became more obvious due to stimulation.

Yeah...sorry mom, I just...

Although Su Wan also knew that from her current position, she was indeed her son, but she was still a little hard to accept that she was suddenly pushed back.

Mom, I was just kidding, don't be angry...

But mom, your actions now
are more feminine, right? It
makes me look so sissy...

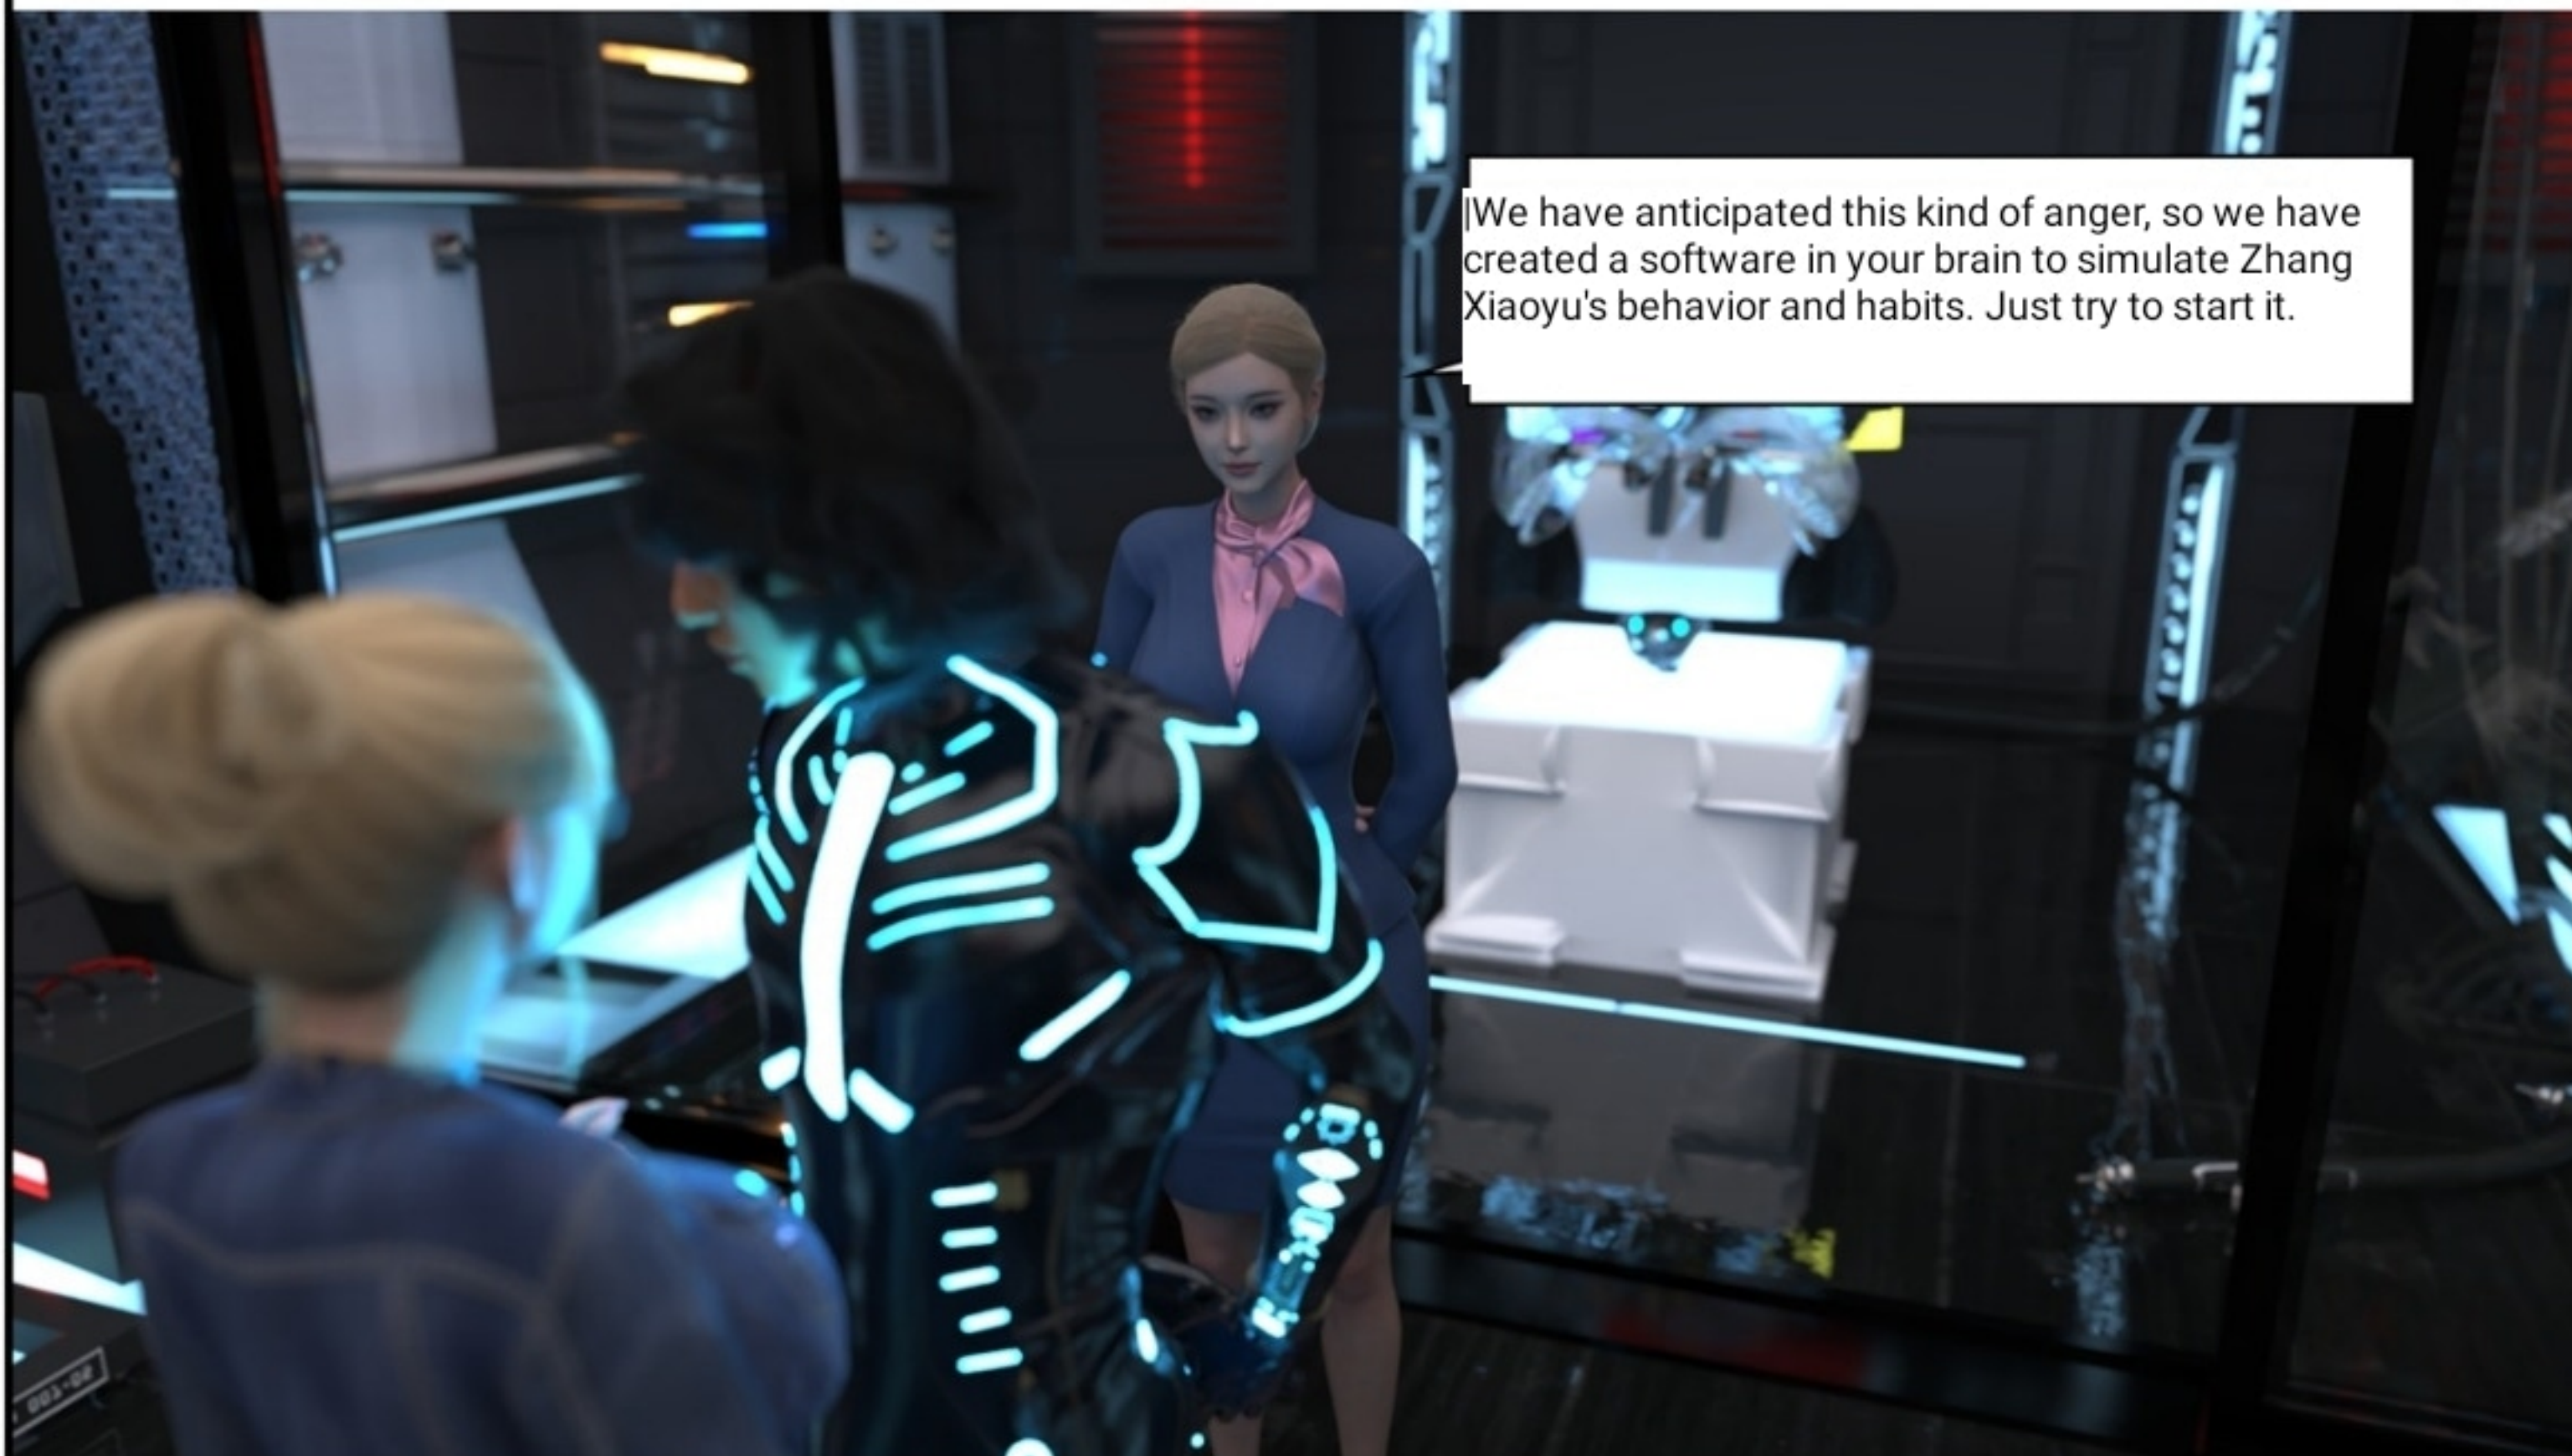

Is there...is there any?

If you were with my classmates, you would definitely be called weird. Can't you act more like a boy?

But...but I don't know what to do...to be more like Yongsheng.

We have anticipated this kind of anger, so we have created a software in your brain to simulate Zhang Xiaoyu's behavior and habits. Just try to start it.

Well...

They are still thoughtful.
Mom, please try it quickly.

With the modification of the program, Su Wan's elegant female movements gradually became full of the nobility and family flamboyance unique to male college students.

Xiang Lai, you two are still very satisfied with the result this time. If you have no other questions, you two can go home like this.

I wish you, mother and son, a happy life, and feel free to contact me if you have any questions.

Thanks to you, mother and son, I have gained a lot of valuable data.

Several months have passed since then, and both Zhang Xiaozi and Su Wan have gradually become familiar with their current bodies and new identities.

For Zhang Xiaozi, compared to the novelty at the beginning, although he was still full of expectations for the pleasure of a woman's body, he was already a little tired of his daily life and couldn't bear to look at the movement of his now plump breasts and fat buttocks.

Um... Although I still feel good, these two babies are really troublesome. How did my mother manage to carry such a big baby every day and still move freely.

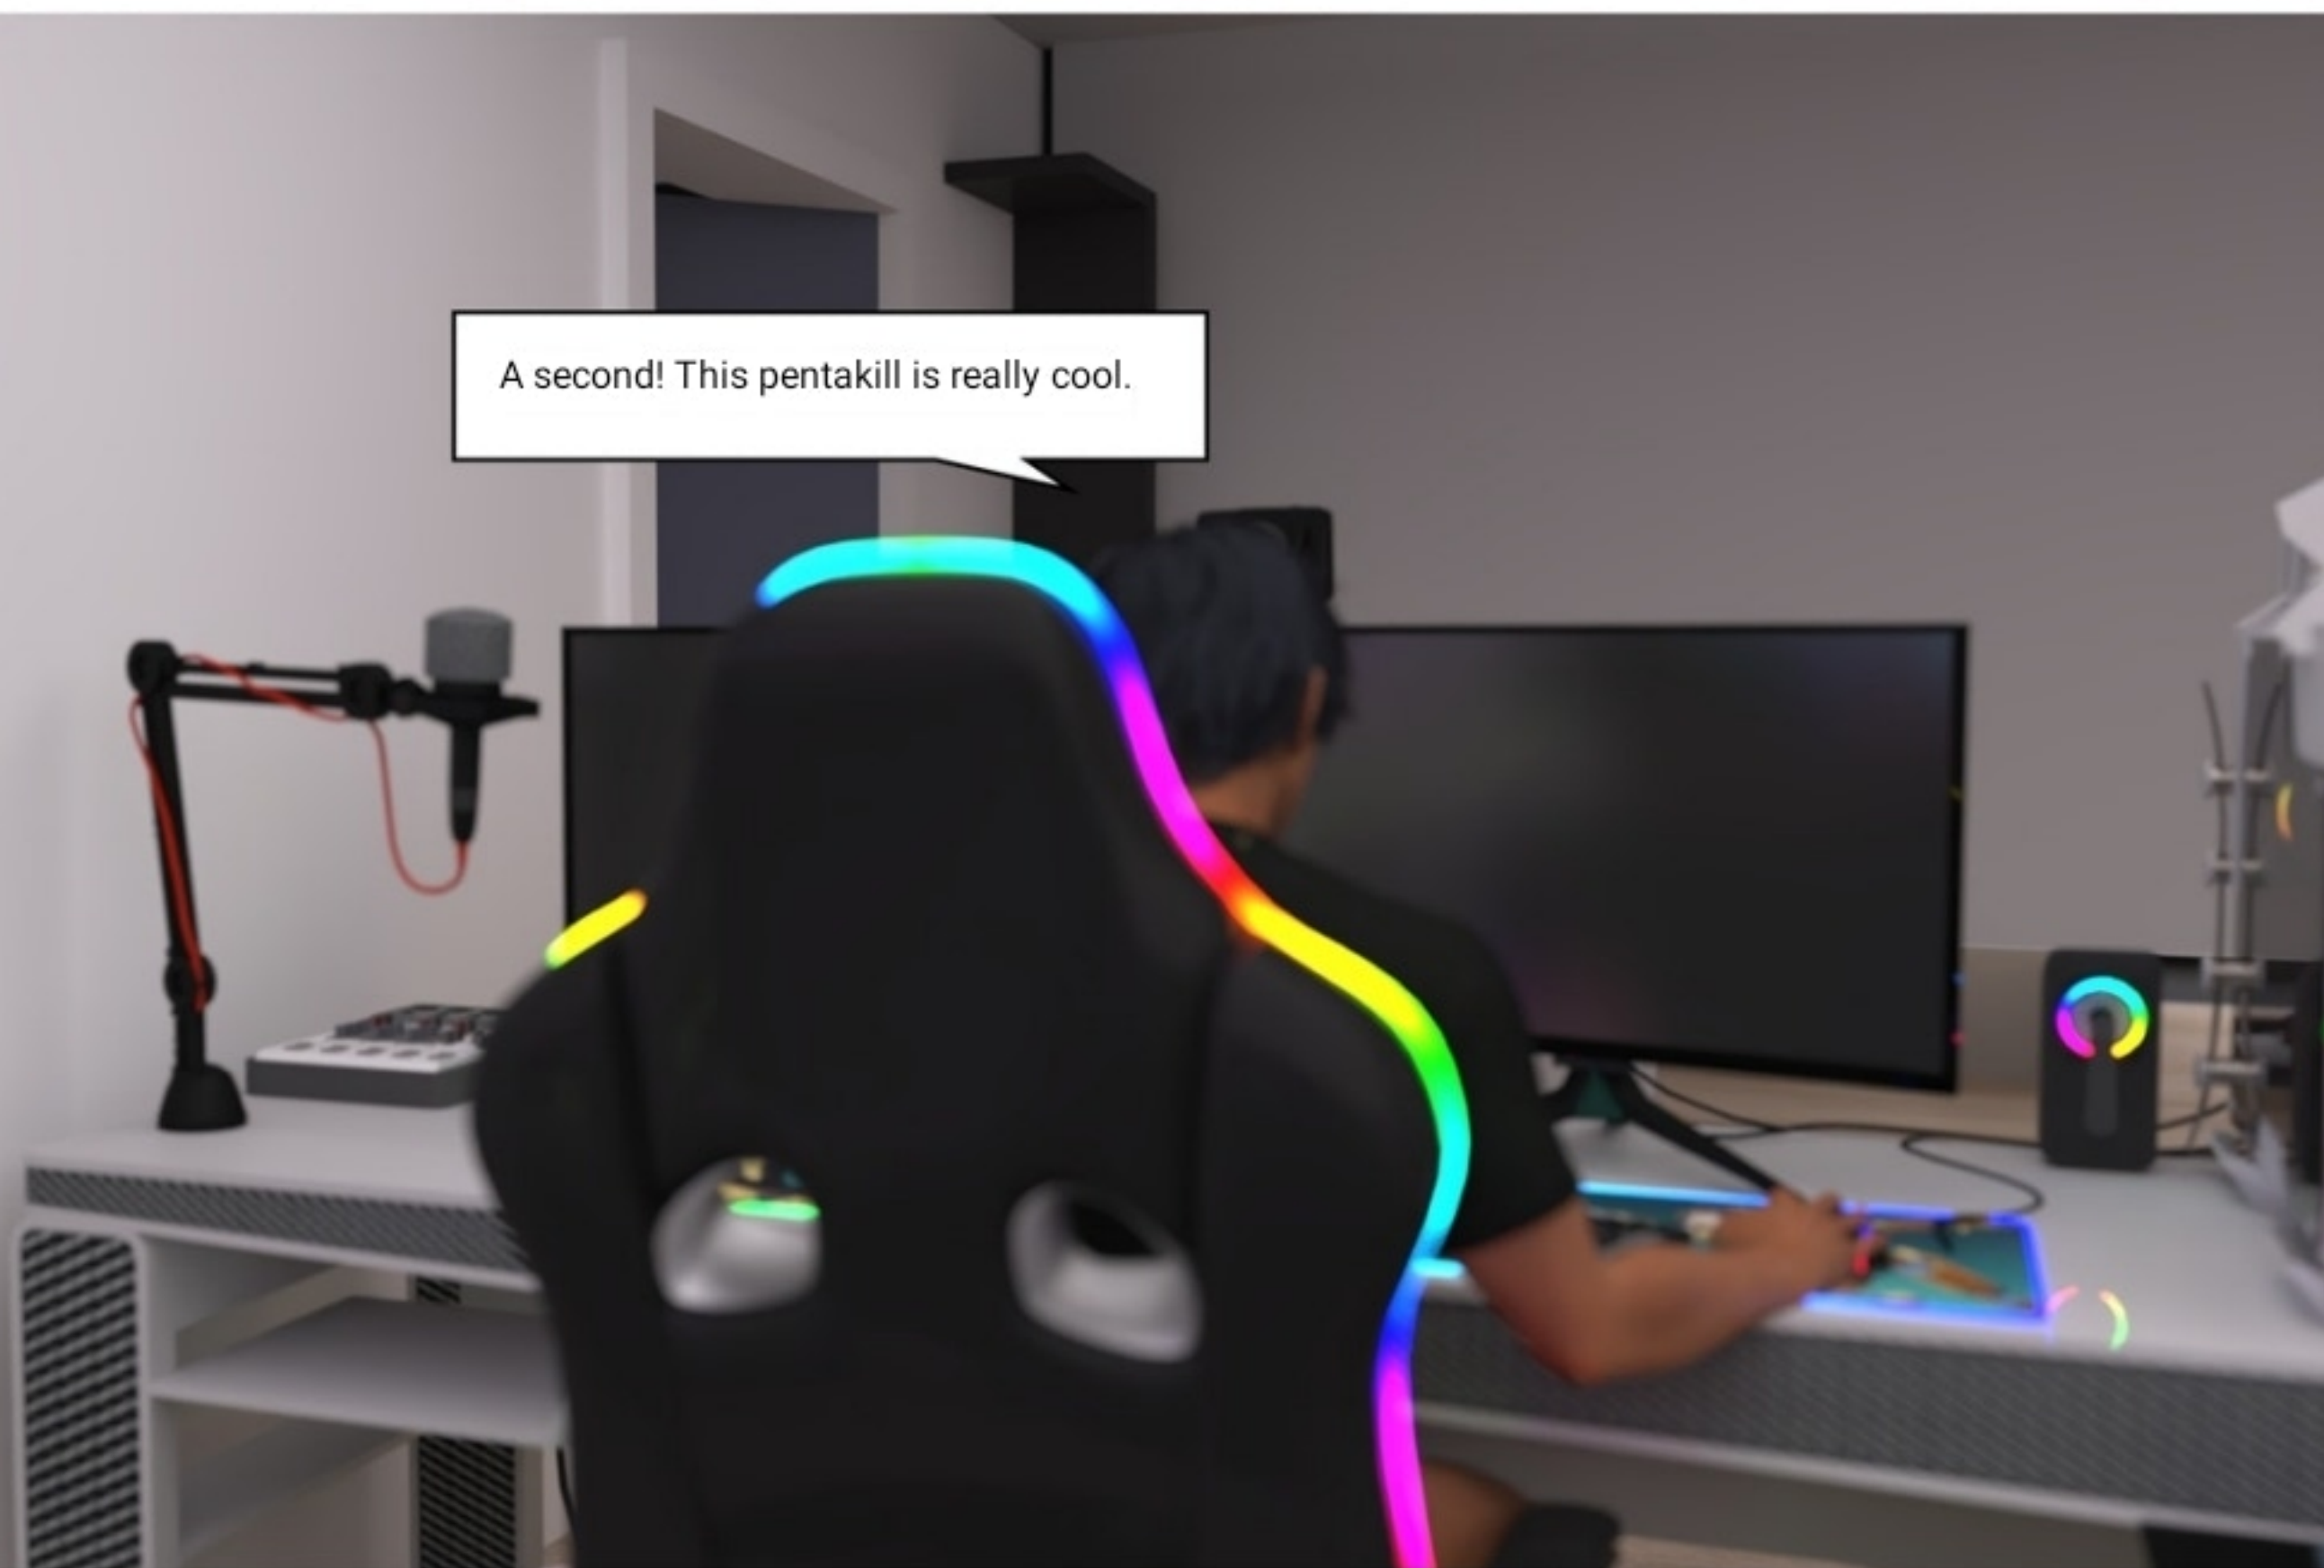

What's even more desperate is that as a housewife, he still has to shoulder the responsibilities of housework every day. Sometimes he didn't know who he was doing this for, maybe it was for his mother...or Qing said it was for his current son.

For Su Wan, the program not only made her movements and tone exactly the same as Zhang Xiaozi's, she even gradually fell in love with Zhang Xiaozi's interests and hobbies that she could not understand before.

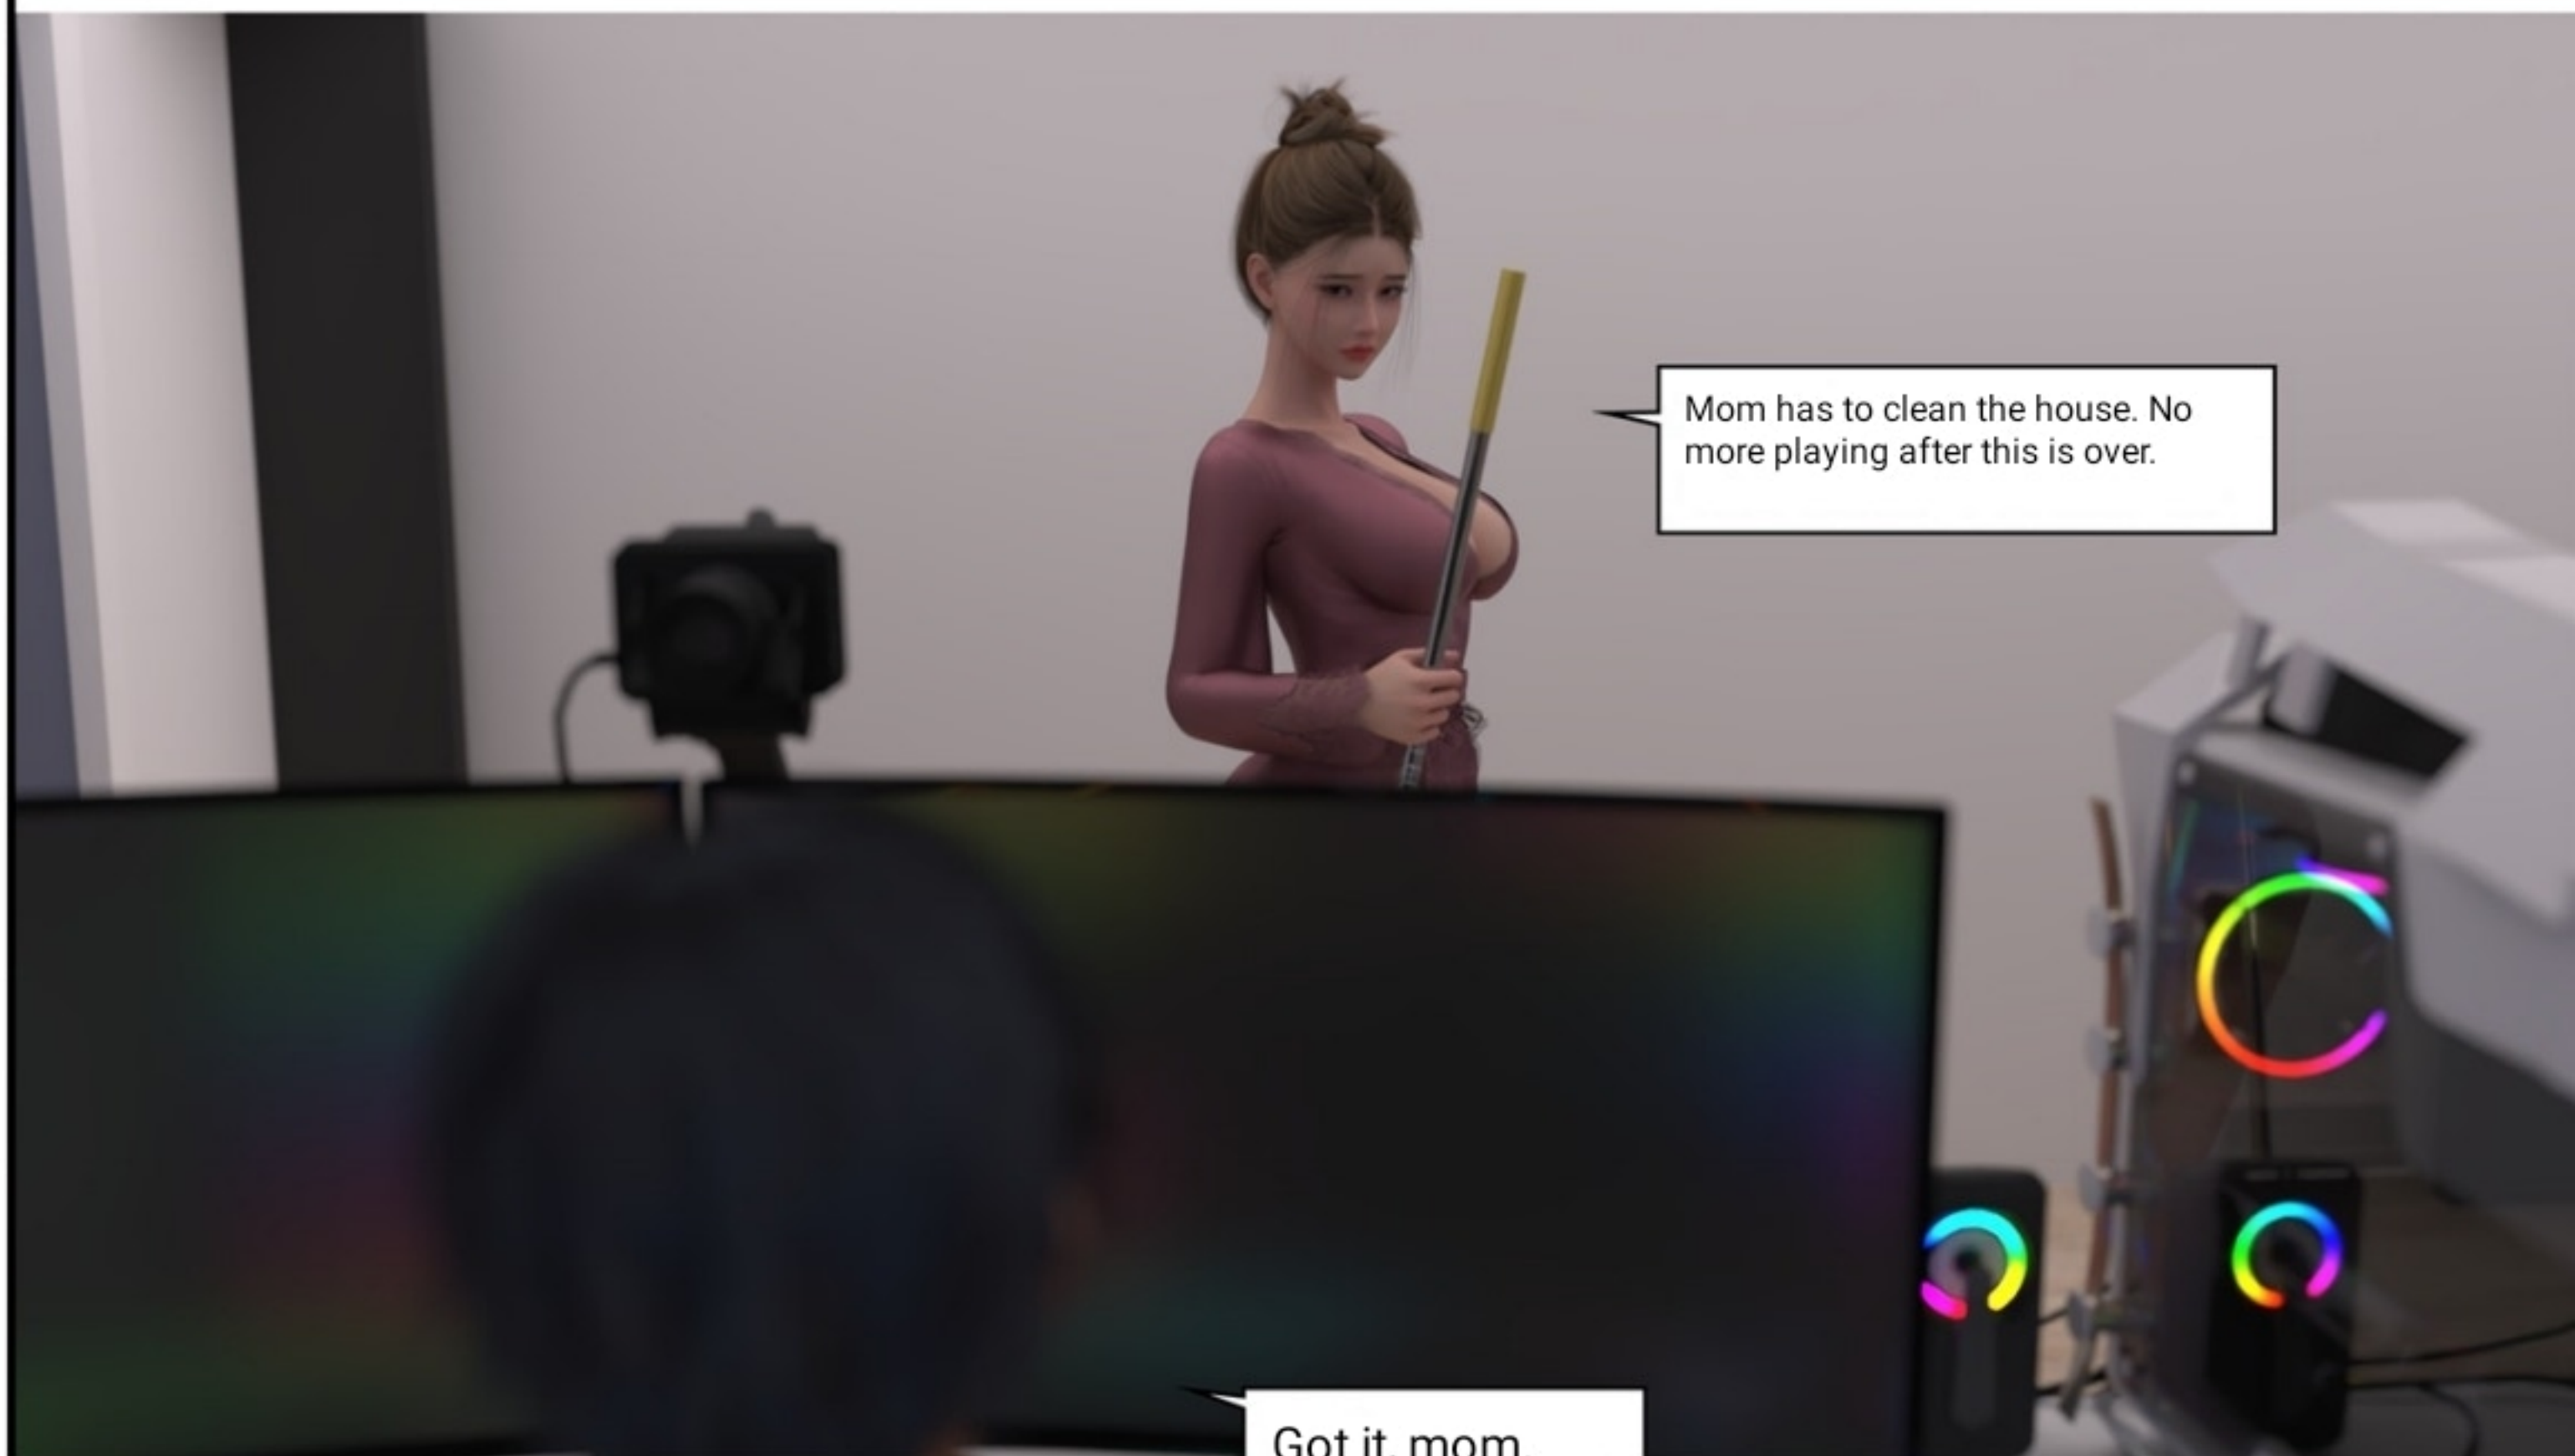

A second! This pentakill is really cool.

forest green

妈...妈妈...

Zhang Xiaozhi! Why are you still playing games? You haven't played long enough this week.

But every time Su Wan had to listen to herself like a real son listens to his mother, Zhang Xiaozi felt that everything was worth it.

(Xiaoyu's ass is so sexy, it smells so good
that my dick gets hard, I really want to
masturbate)

(She must have been peeking again just now.
She has become as lustful as a male college
student)

Lin Luzi

Like every Yong college student with strong sexual desire, watching porn every night has become an indispensable part of Su Wan's life. In the past, when watching pornographic films, she would only pay attention to whether the male coach was handsome or not, but now she fantasizes about inserting his cock into the female lead's pussy.

(Oh, this girl's black stockings and high heels are too sexy. I really want to lick her feet and fuck her cunt hard)

(I can't, I'm going to cum just thinking about it)

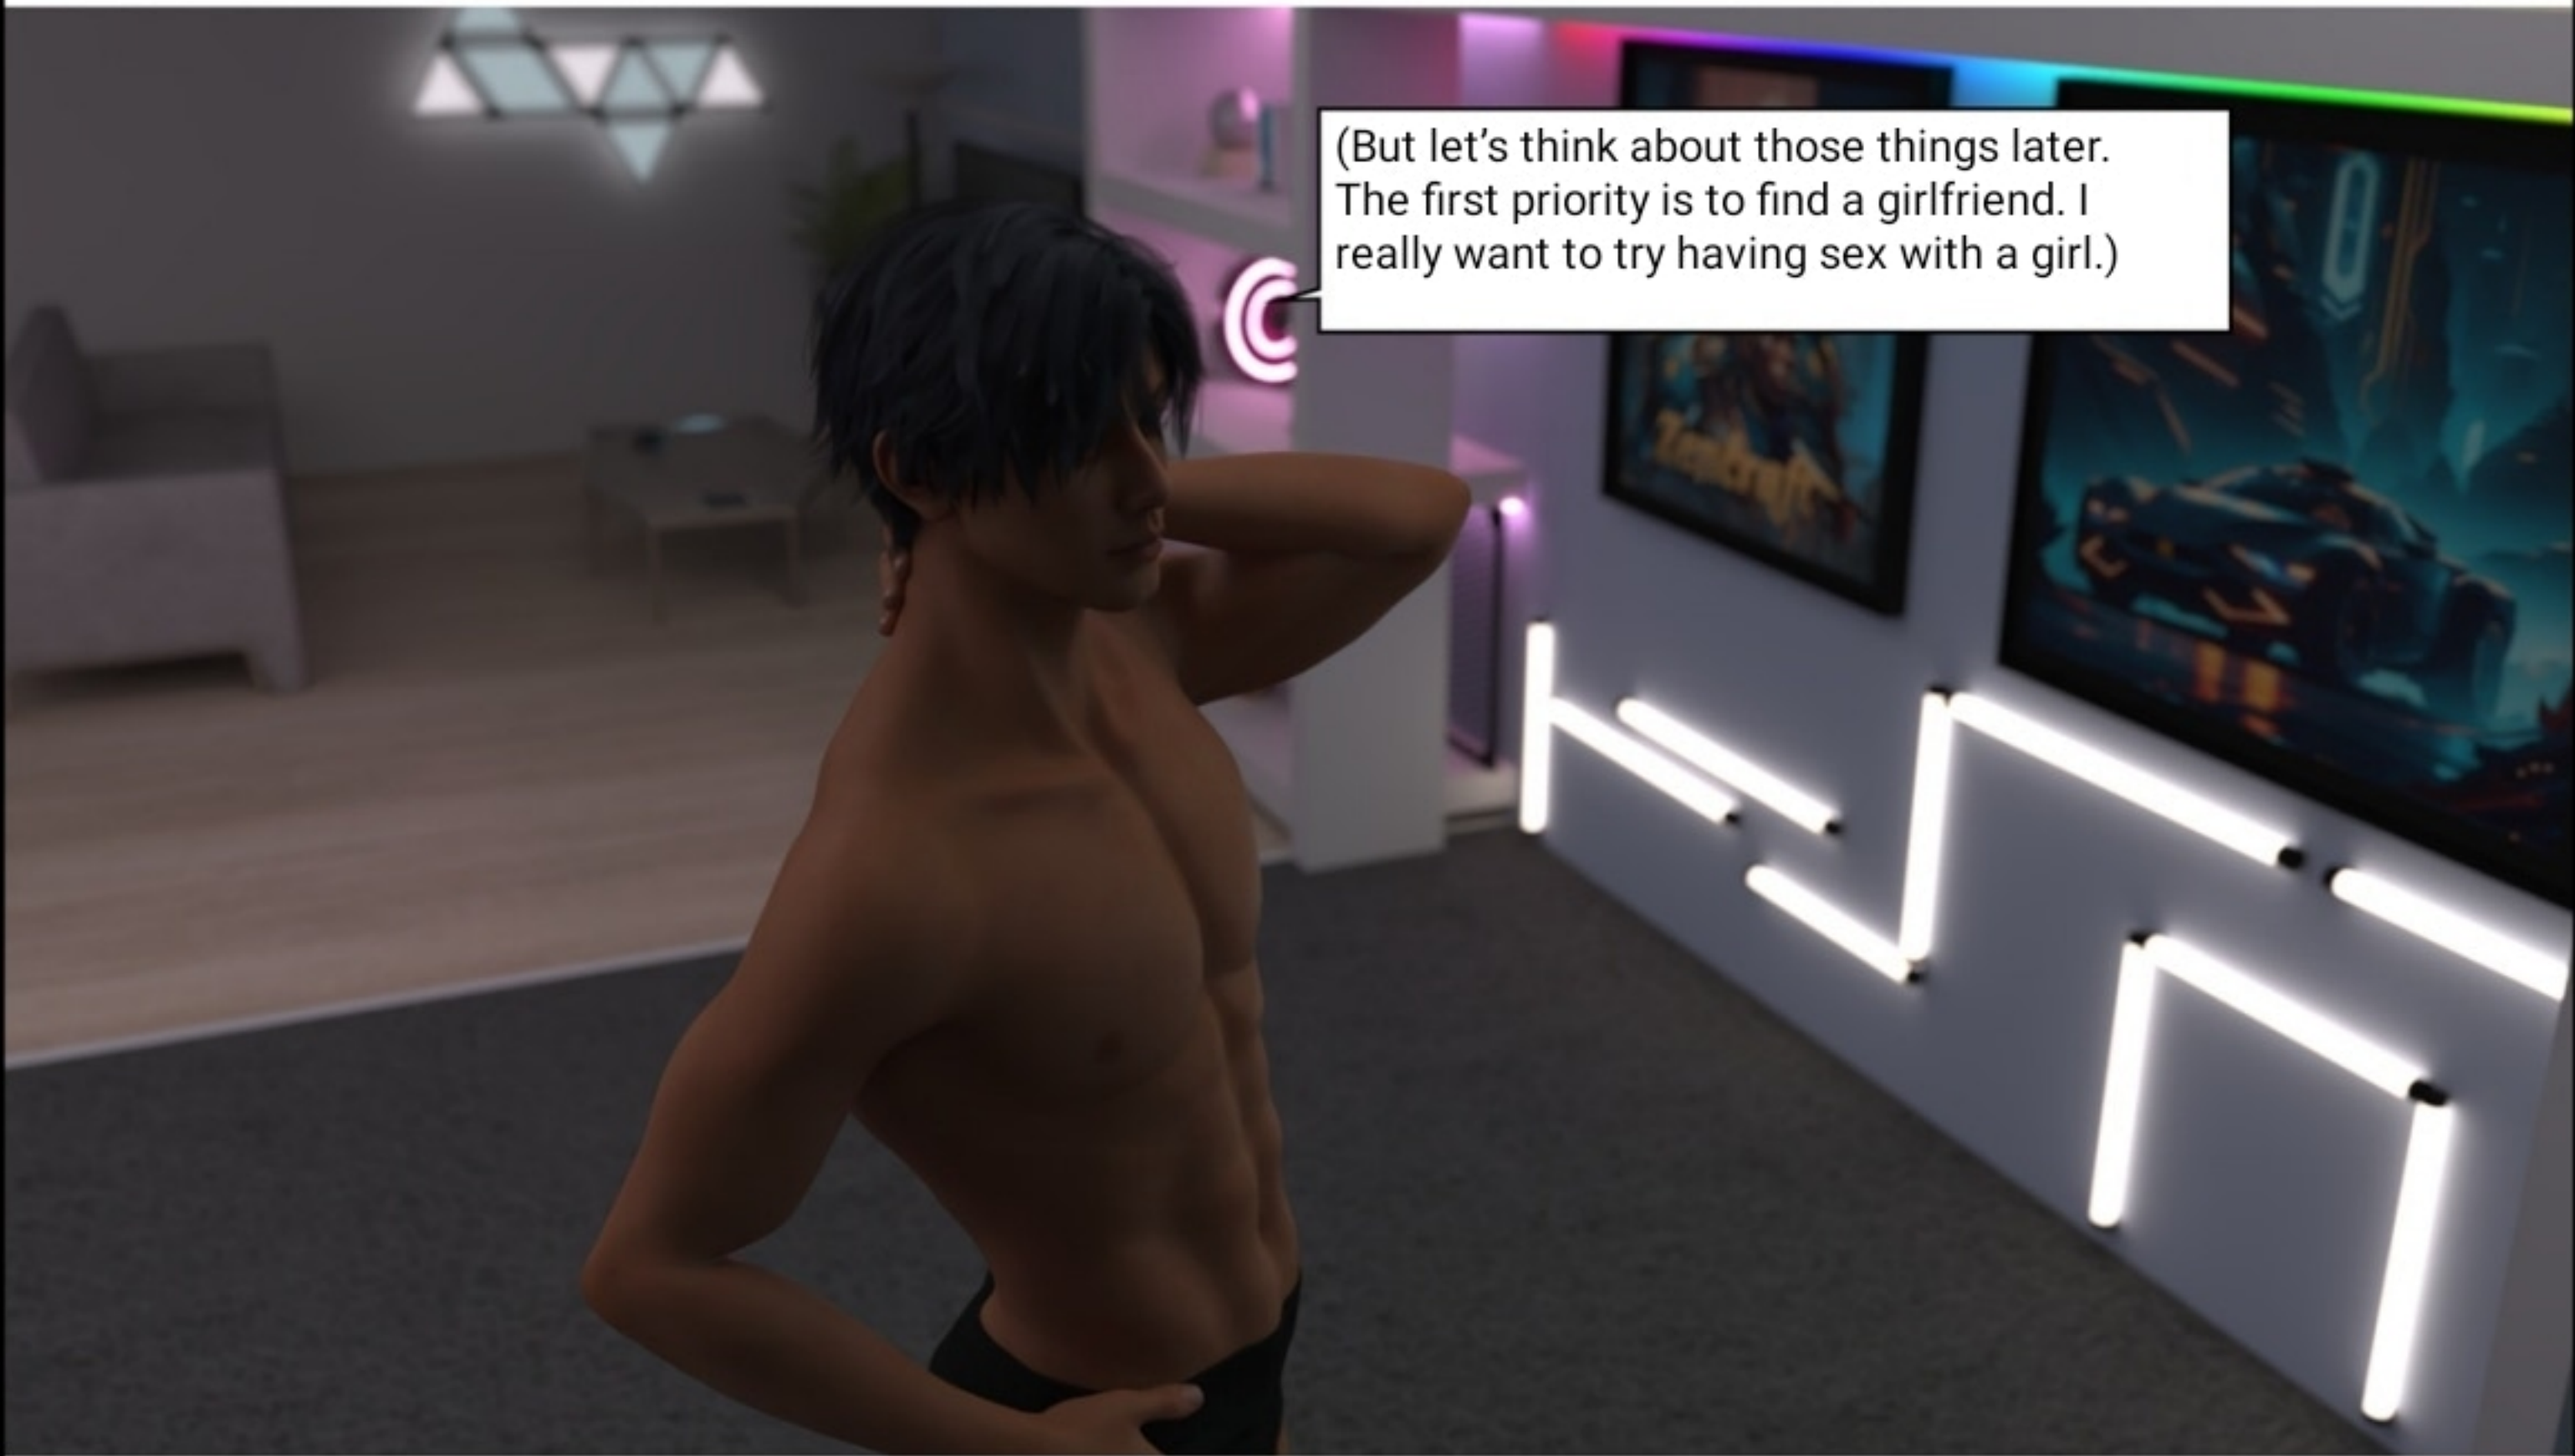

(No, my dick is so hard
and feels so good)

(Going to cum!!!!)

(And my past memories seem to be getting blurry, I almost forgot that I am Su Wan...)

(But let's think about those things later.
The first priority is to find a girlfriend. I
really want to try having sex with a girl.)

However, what Su Wan doesn't know is that in addition to the program that restricts movement and language, her brain also starts a brainwashing program every night when she is resting, gradually diluting her memory of being Su Wan.

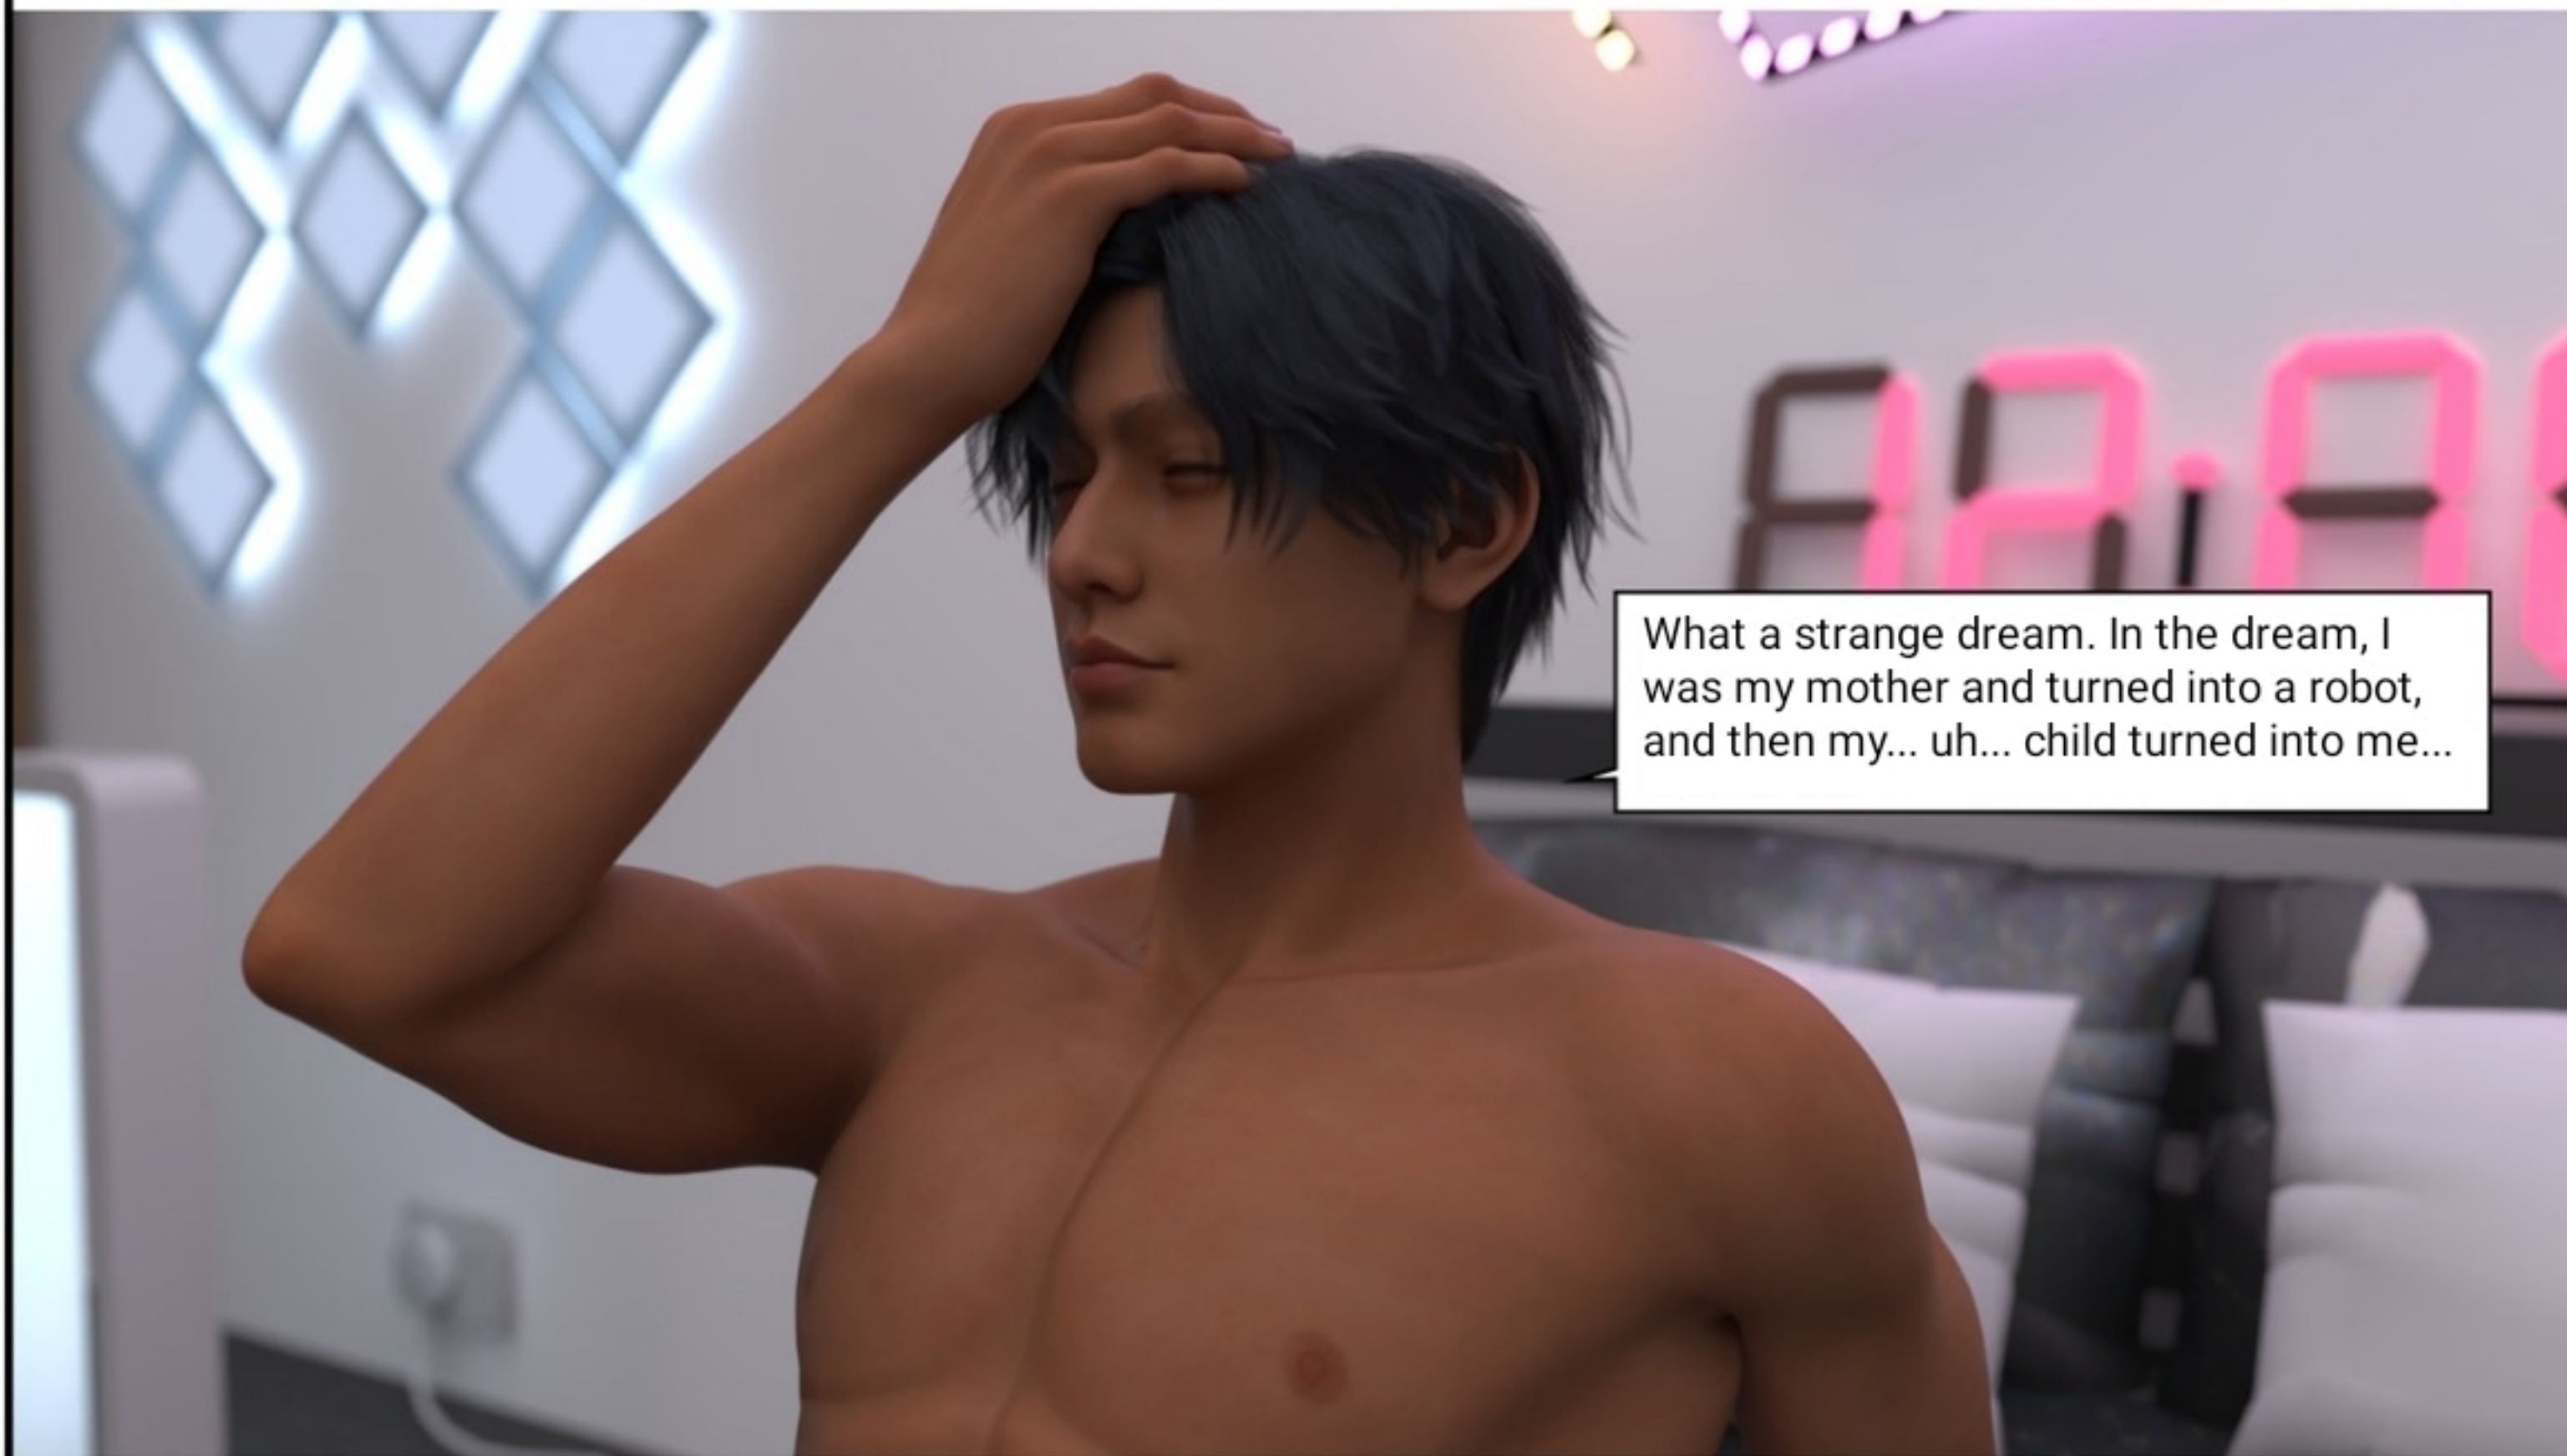

*System circulation, my name is
Zhang Xiaozi, I am Su Wan's son...

After being brainwashed day after day,
her cognition was finally completely
modified.

A 3D rendered image of a person's back and shoulder, showing smooth skin and realistic lighting. The person is lying down on a dark, patterned surface. In the background, there is a wooden door and a bright, glowing light source. A speech bubble is positioned near the person's shoulder.

Why do I keep having the same dream lately...

What a strange dream. In the dream, I was my mother and turned into a robot, and then my... uh... child turned into me...

|But this dream is quite
exciting... |In this case.

Eba

That's right, when I wake up in the morning and stroke my morning erection, my good boy behaves more and more like a normal Yongsheng.

At this time, as a mother, I should go in sweetly, scold her sternly, and then catch her panicked and shy expression.

After all, I am her mother now. She cannot lose her temper with me and must do what I say.

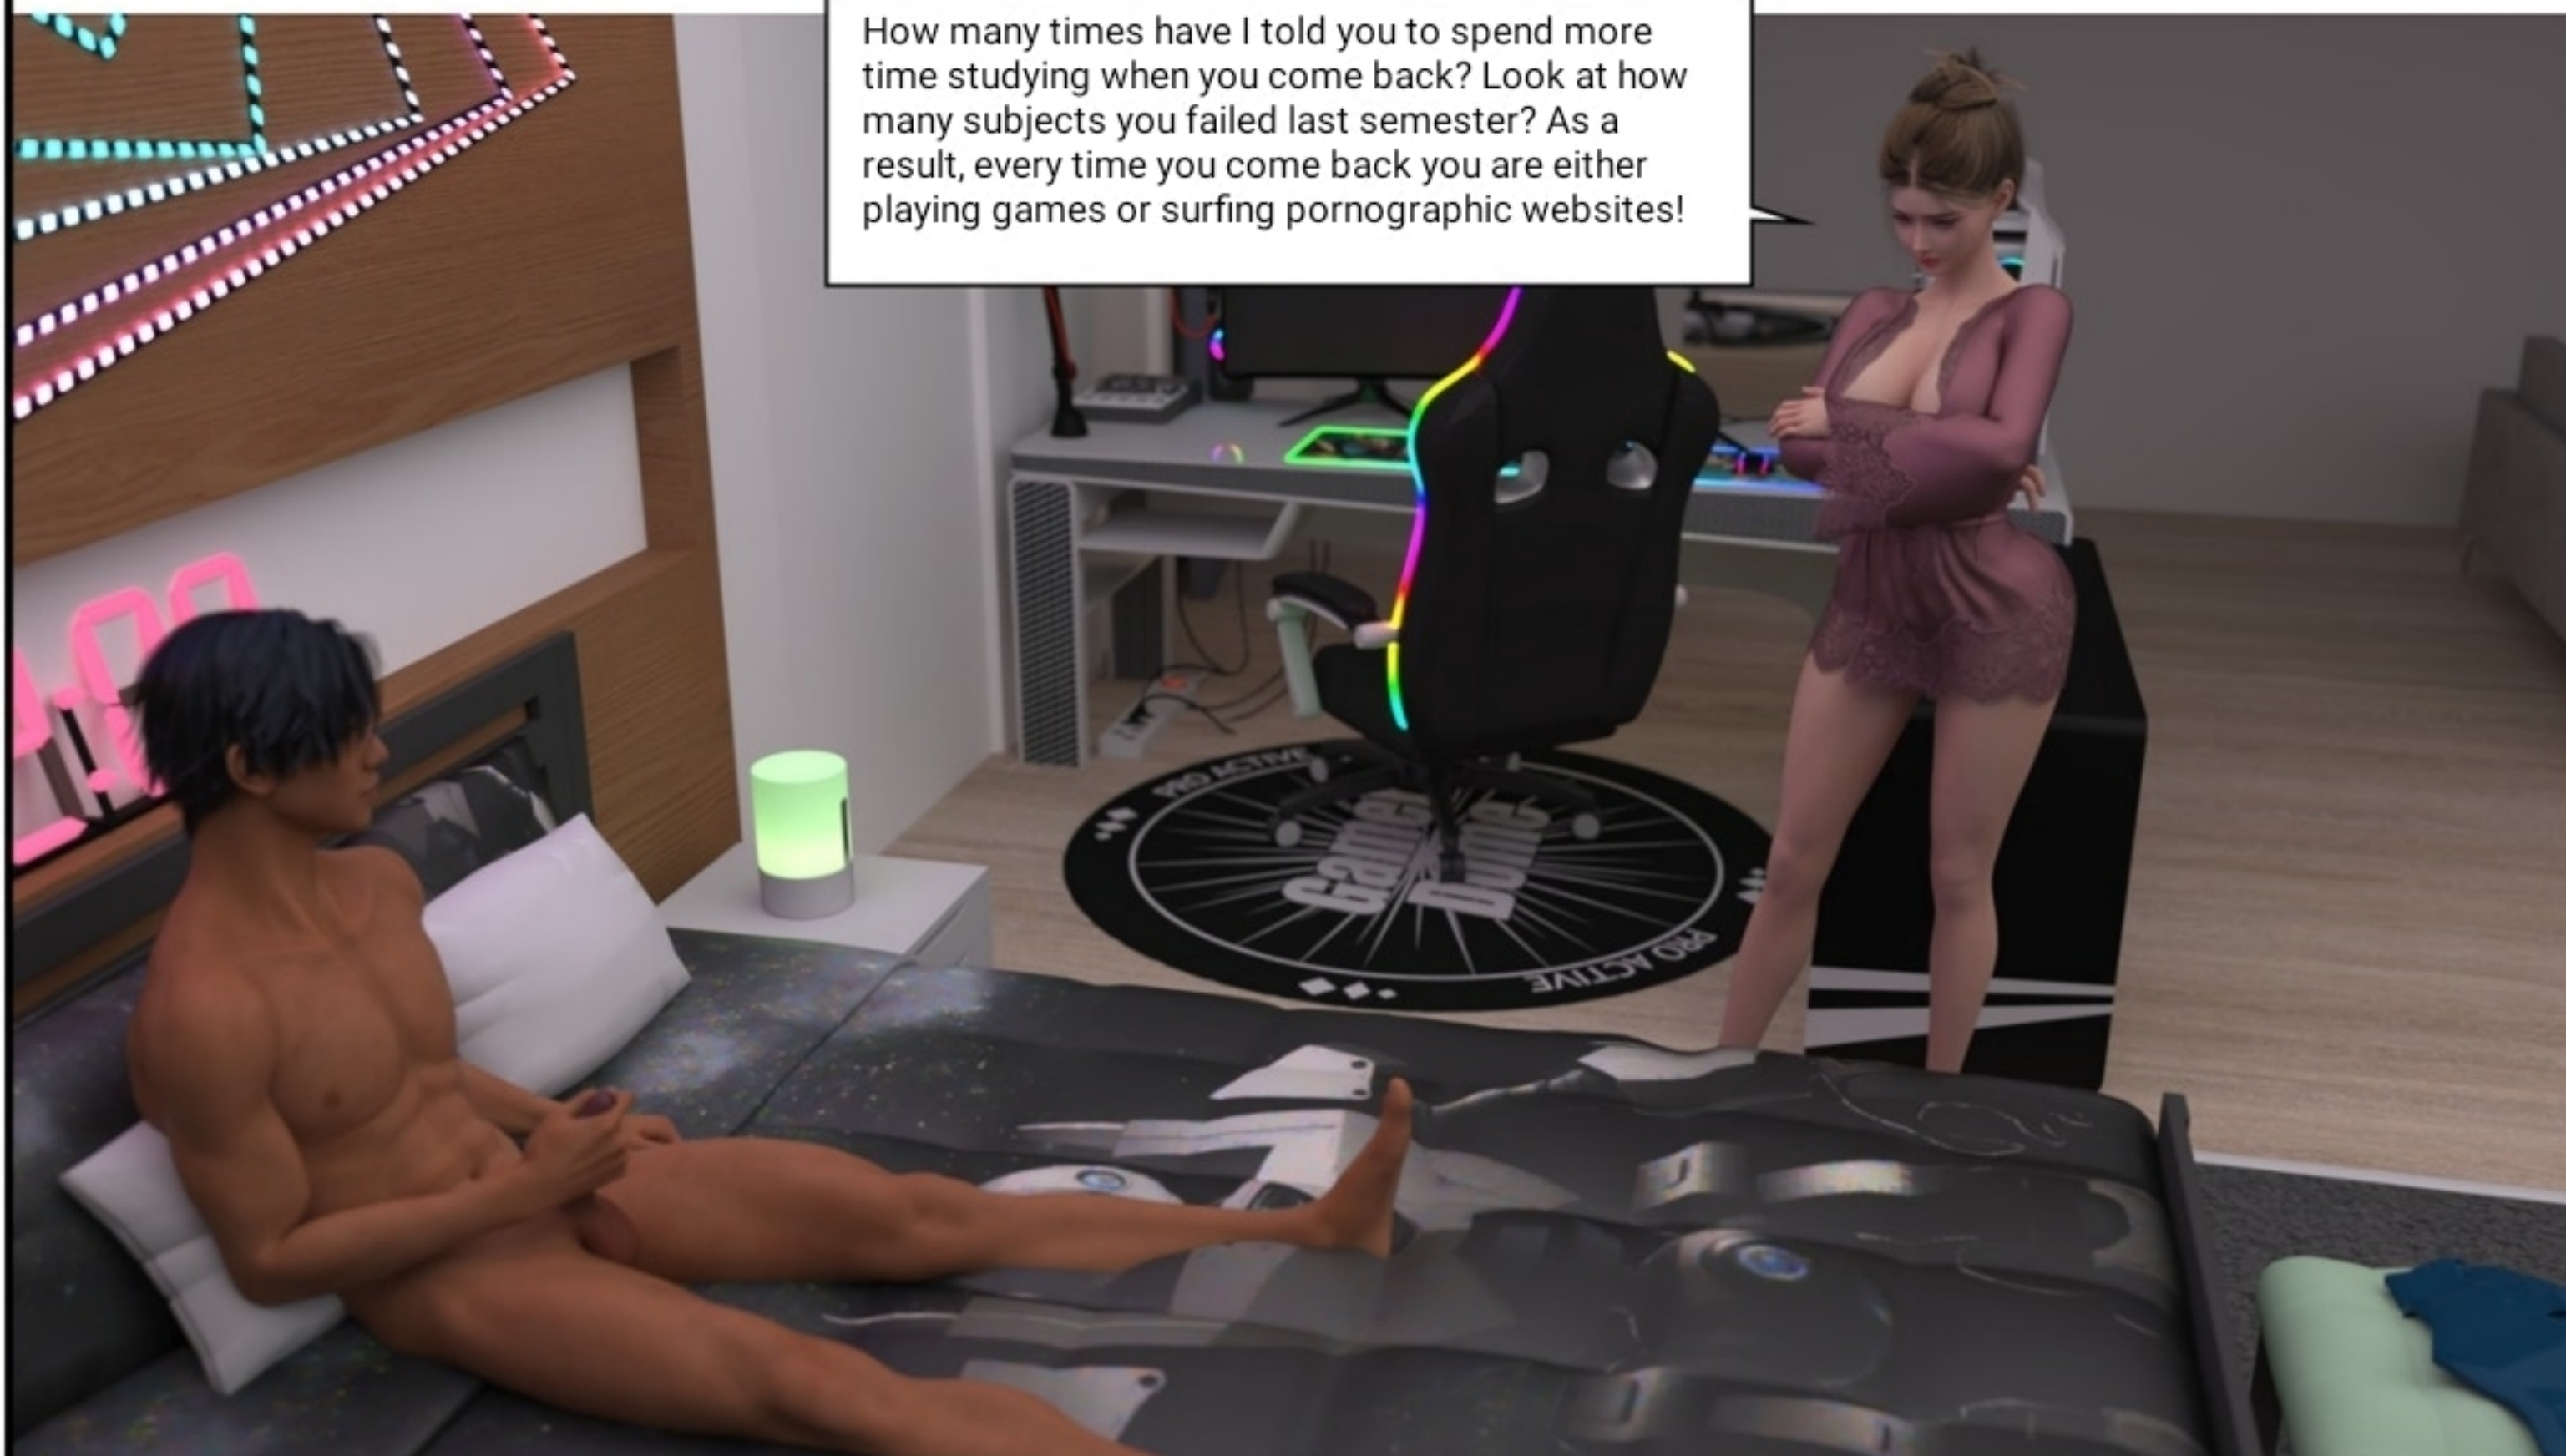

Xiaoyu! Are you looking at pornographic websites again?

Mom? Why didn't you knock on the door?
Listen to me...it's not what you think...

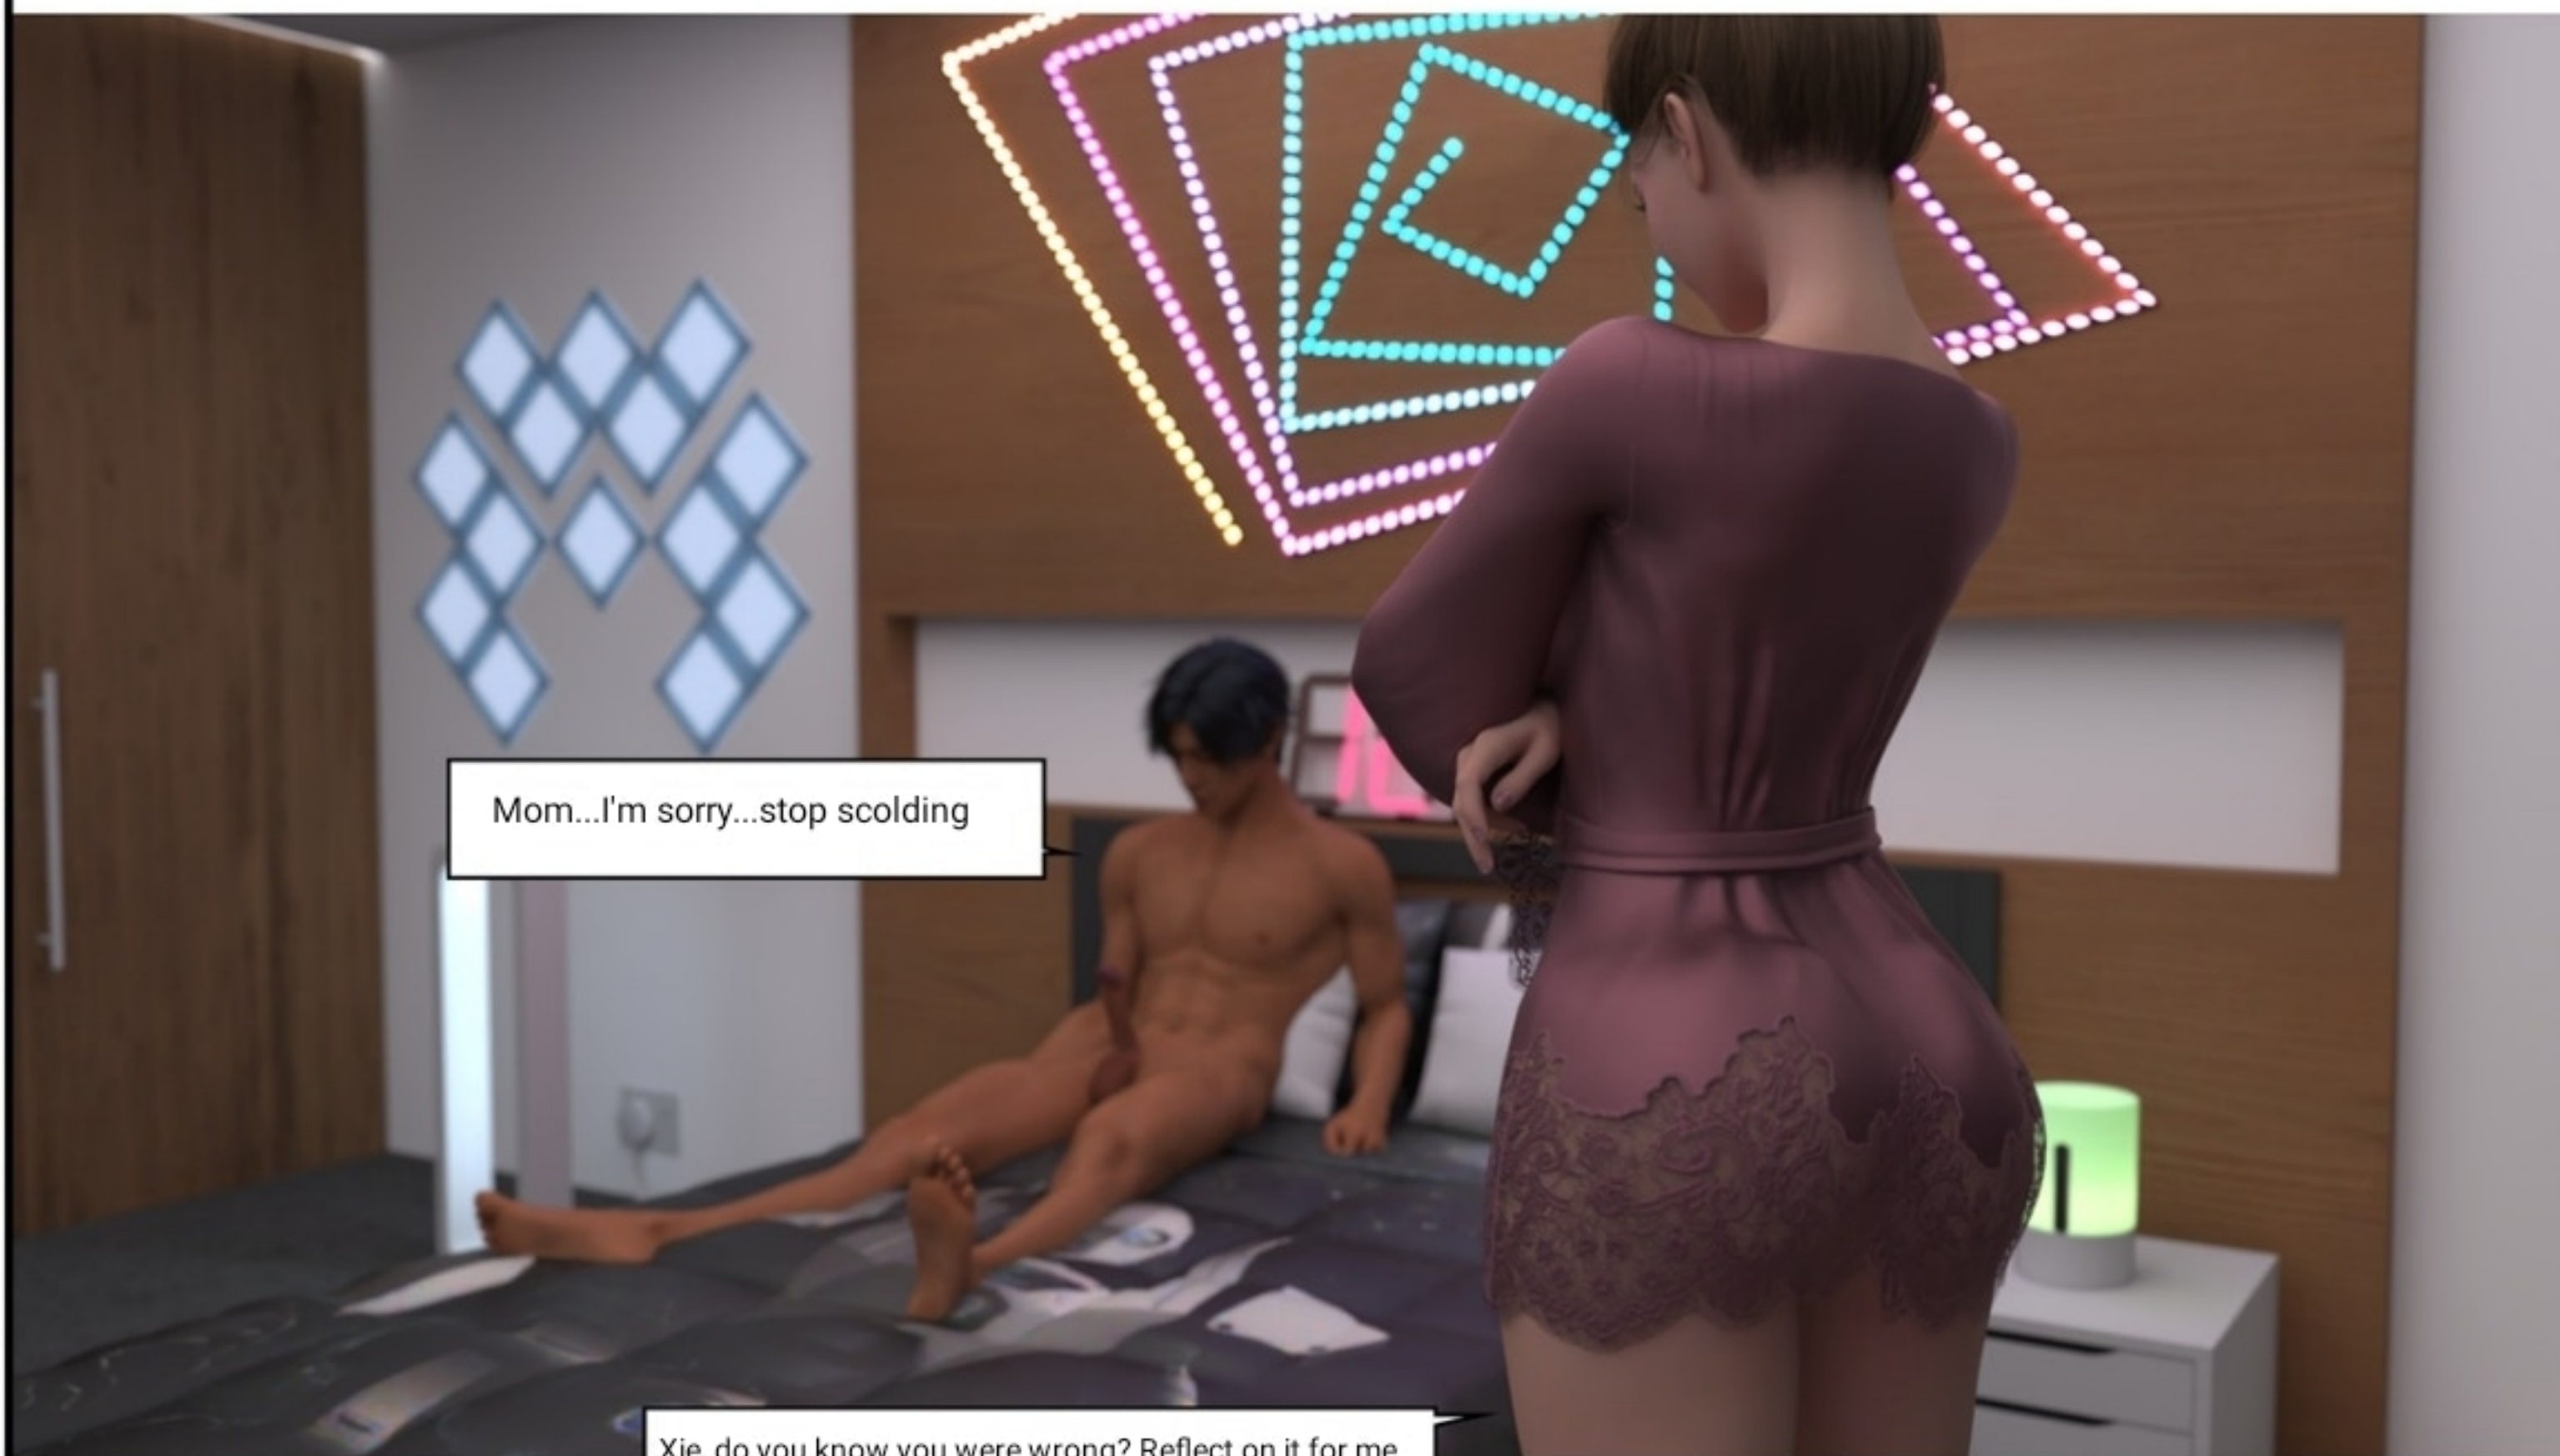

You really disappoint mom!

How many times have I told you to spend more time studying when you come back? Look at how many subjects you failed last semester? As a result, every time you come back you are either playing games or surfing pornographic websites!

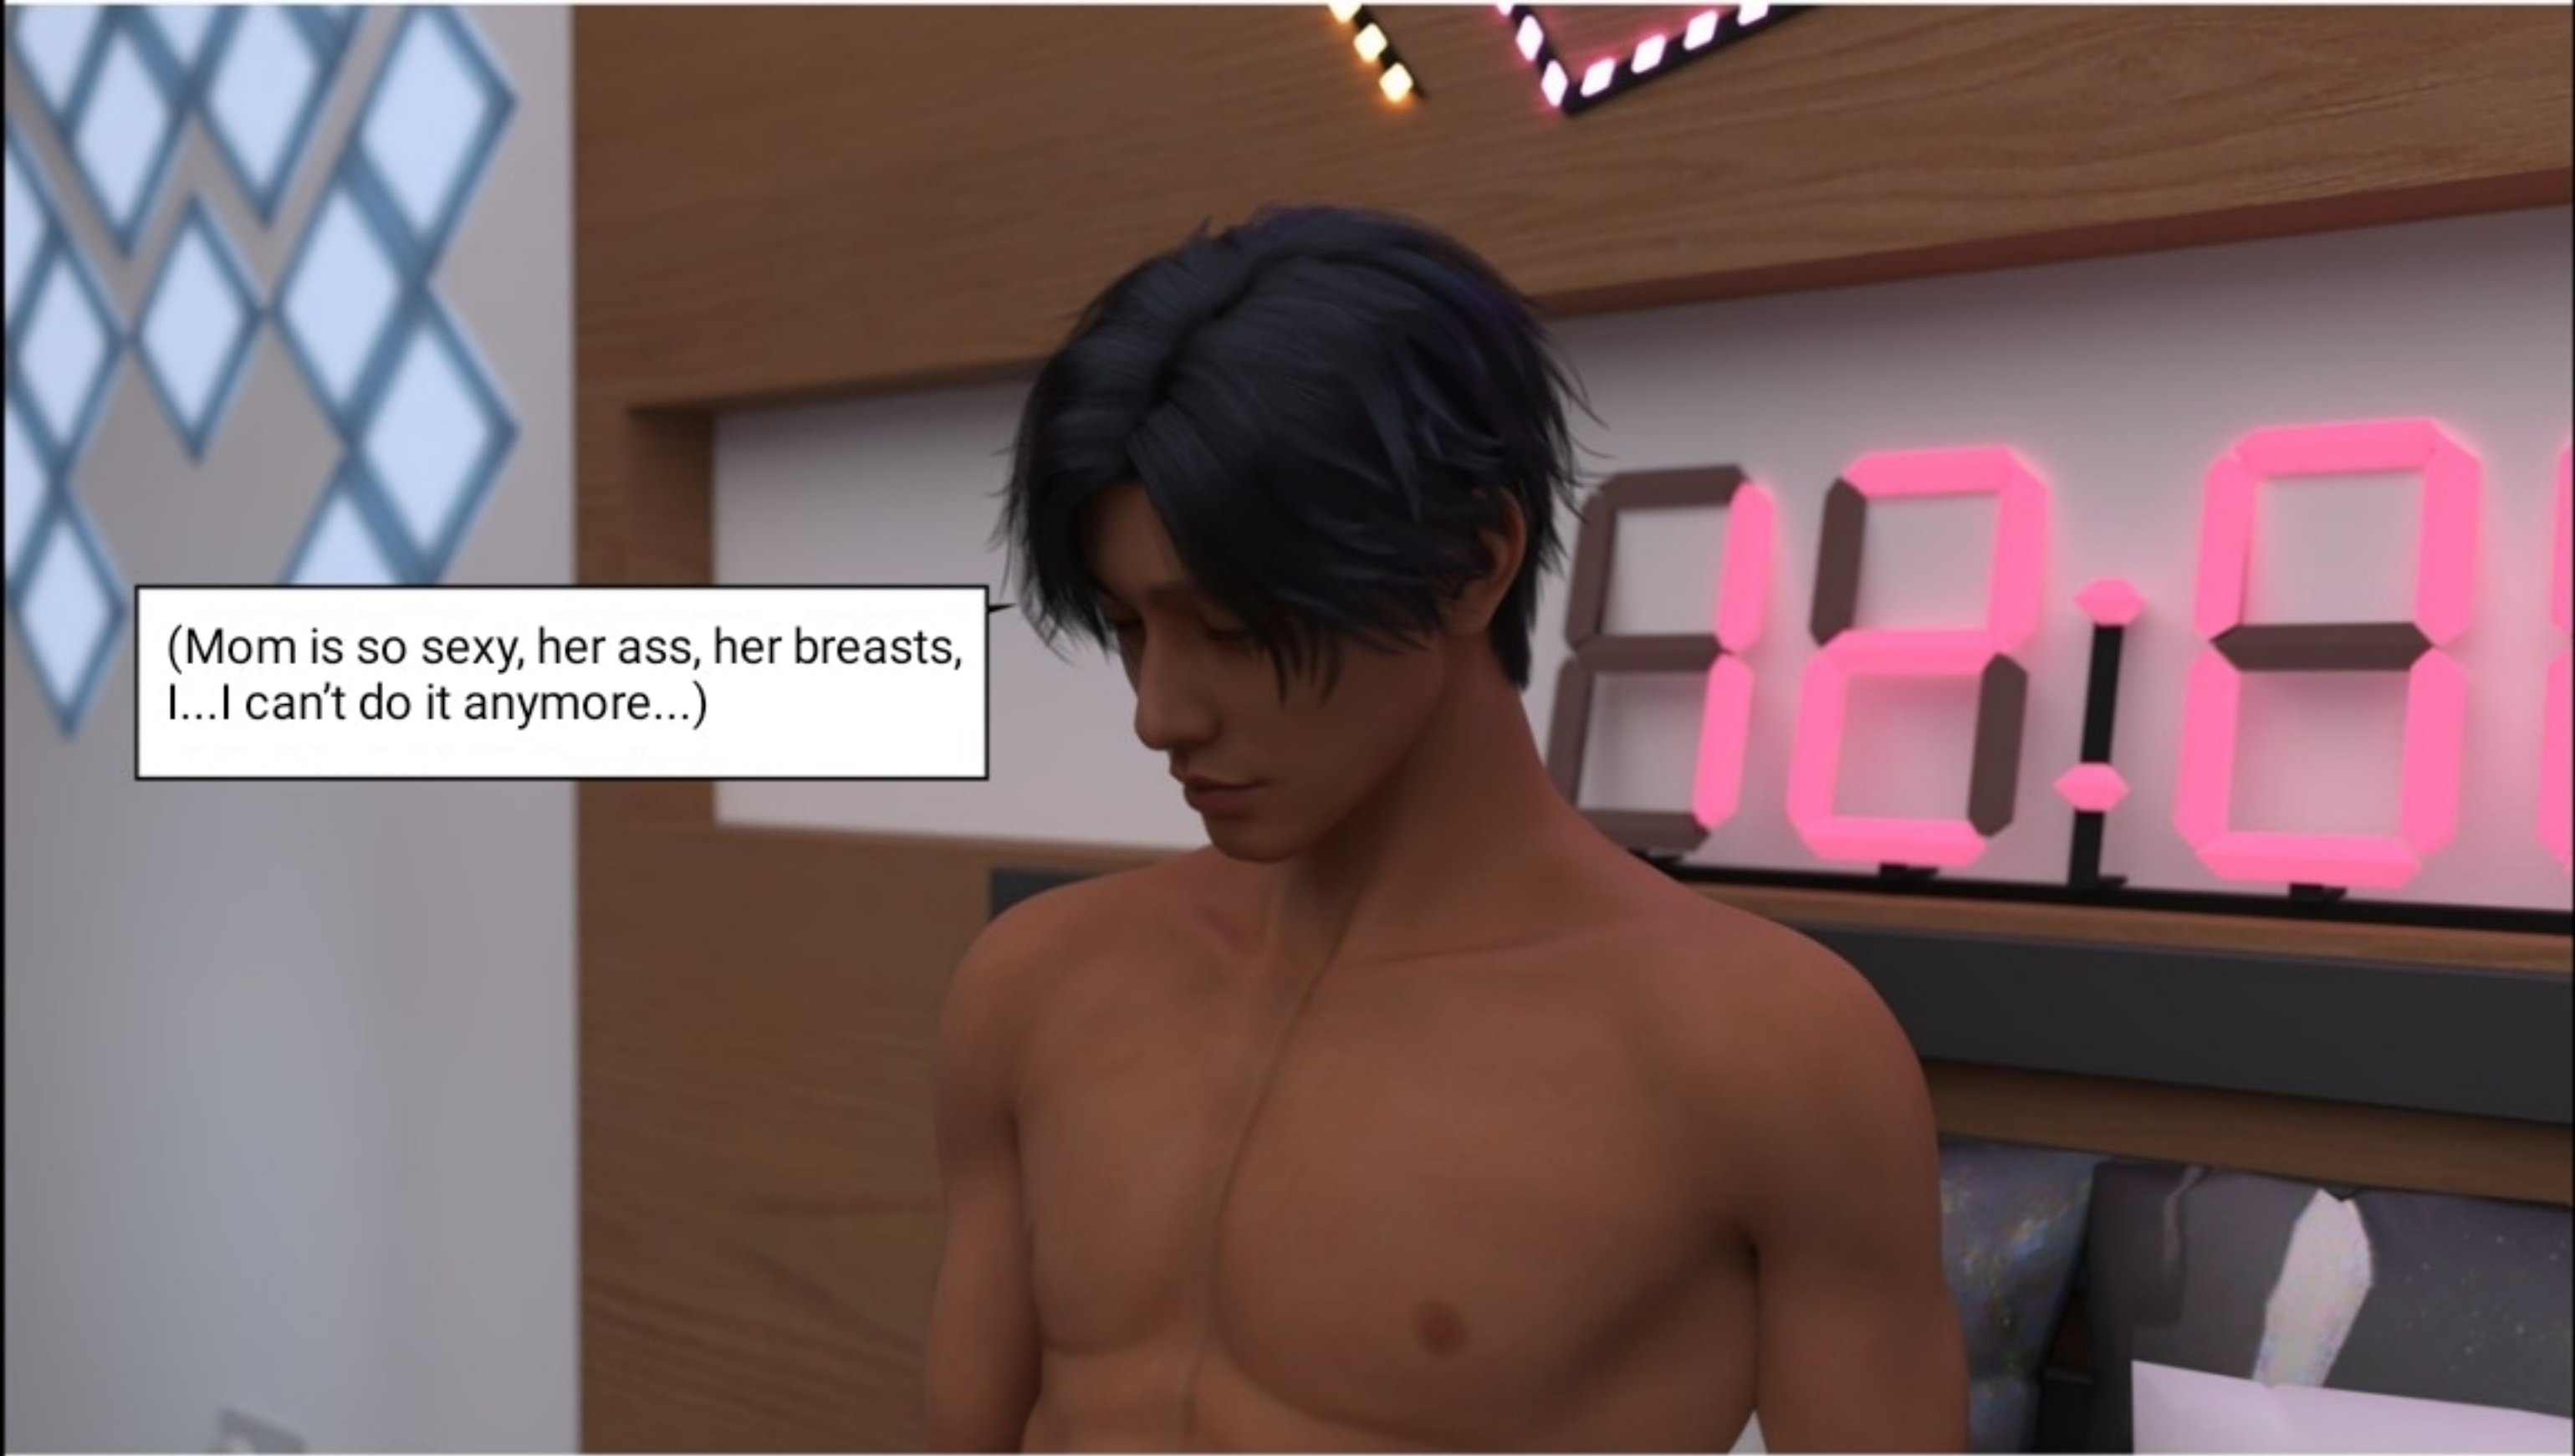

Mom spent so much money to send you to study, and you obviously promised her! But as soon as you let go, you become so disobedient!

(I don't know why, but catching my mother like this and hitting her makes me feel so good, I feel like my pussy is already oozing with water)

Mom...I'm sorry...stop scolding

Xie, do you know you were wrong? Reflect on it for me

(Mom is so sexy, her ass, her breasts,
I...I can't do it anymore...)

Ah, ah, I'm sorry... Oyster mother...

Small print. You...

(I didn't expect that my mother could ejaculate like this)

Damn...lost again...

Give up, buddy, you can't
beat me in this game.

Okay, you two,
play time is over.

Small print, mommy is going to pick up your daddy now, and you won't have time to eat out with him later.

Xiaowei, you are going out with your aunt now, and your aunt will take you back to school by the way.

A 3D rendered character, possibly a young man, is shown in profile from the chest up. He is wearing a dark grey hooded sweatshirt. His face is partially visible, showing his nose and mouth. A white speech bubble with a black outline is positioned to the left of his head, containing the text "Oh, okay auntie." The background is a soft, out-of-focus indoor setting with warm, orange-toned lighting, suggesting a living room with a sofa.

Oh, okay auntie.

Hum hum hum, study, learn shit

Well, Xiaowei sent me a video.

A man with dark, wavy hair is lying on his side on a light-colored, tufted sofa. He is wearing a black long-sleeved shirt and black shorts. He is holding a black smartphone in his right hand and looking at the screen. His left hand is resting on his head. The background is a blurred indoor setting with warm lighting.

Dude, look at this riding pussy,
does it look like your mother?

Ah? Let me taste it.

forest green

Baby, what are you waiting for~

i00328105

Lying down? It really seems so sexy...

I have to masturbate now.

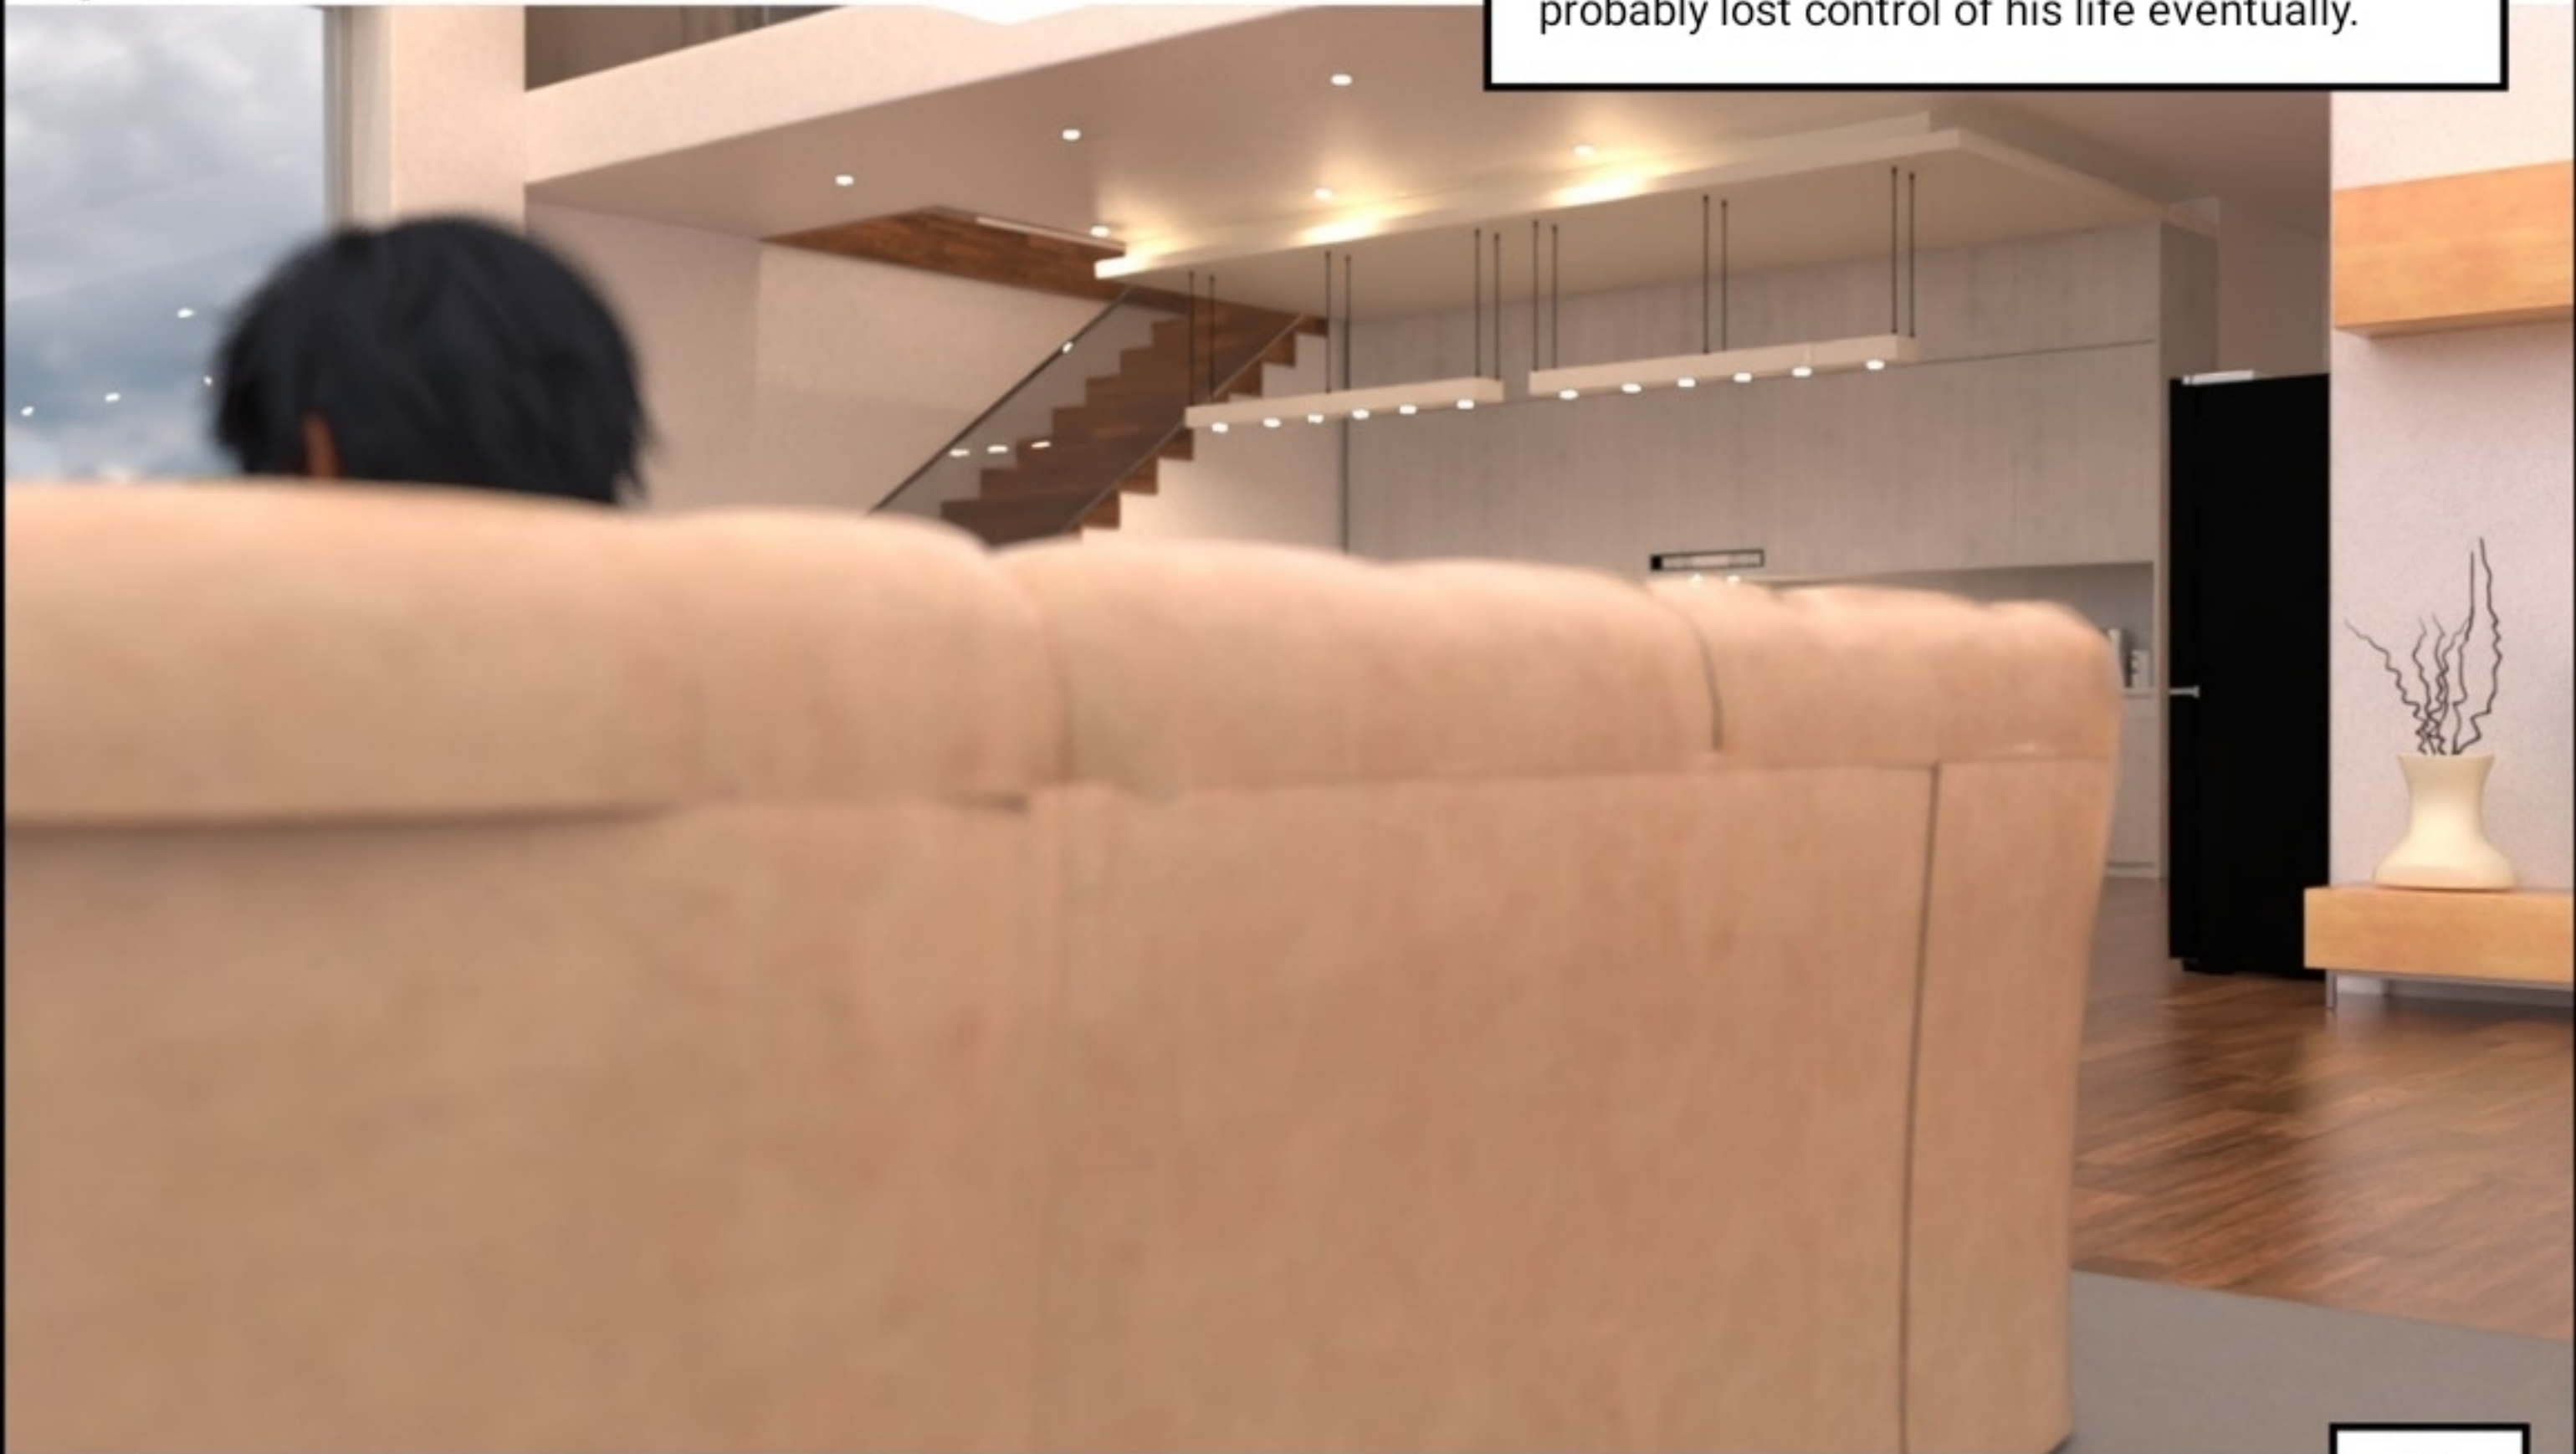

So cool...

'Zhang Xiaoyu' sometimes feels confused. He often feels that his behavior does not seem to be his true thoughts, but that he is being controlled by the big hands of a dish, and he is executing the established procedures of a certain dish god step by step every day. He occasionally returns to his life with doubts, but everything is exactly the same as his previous life in his memory...

green

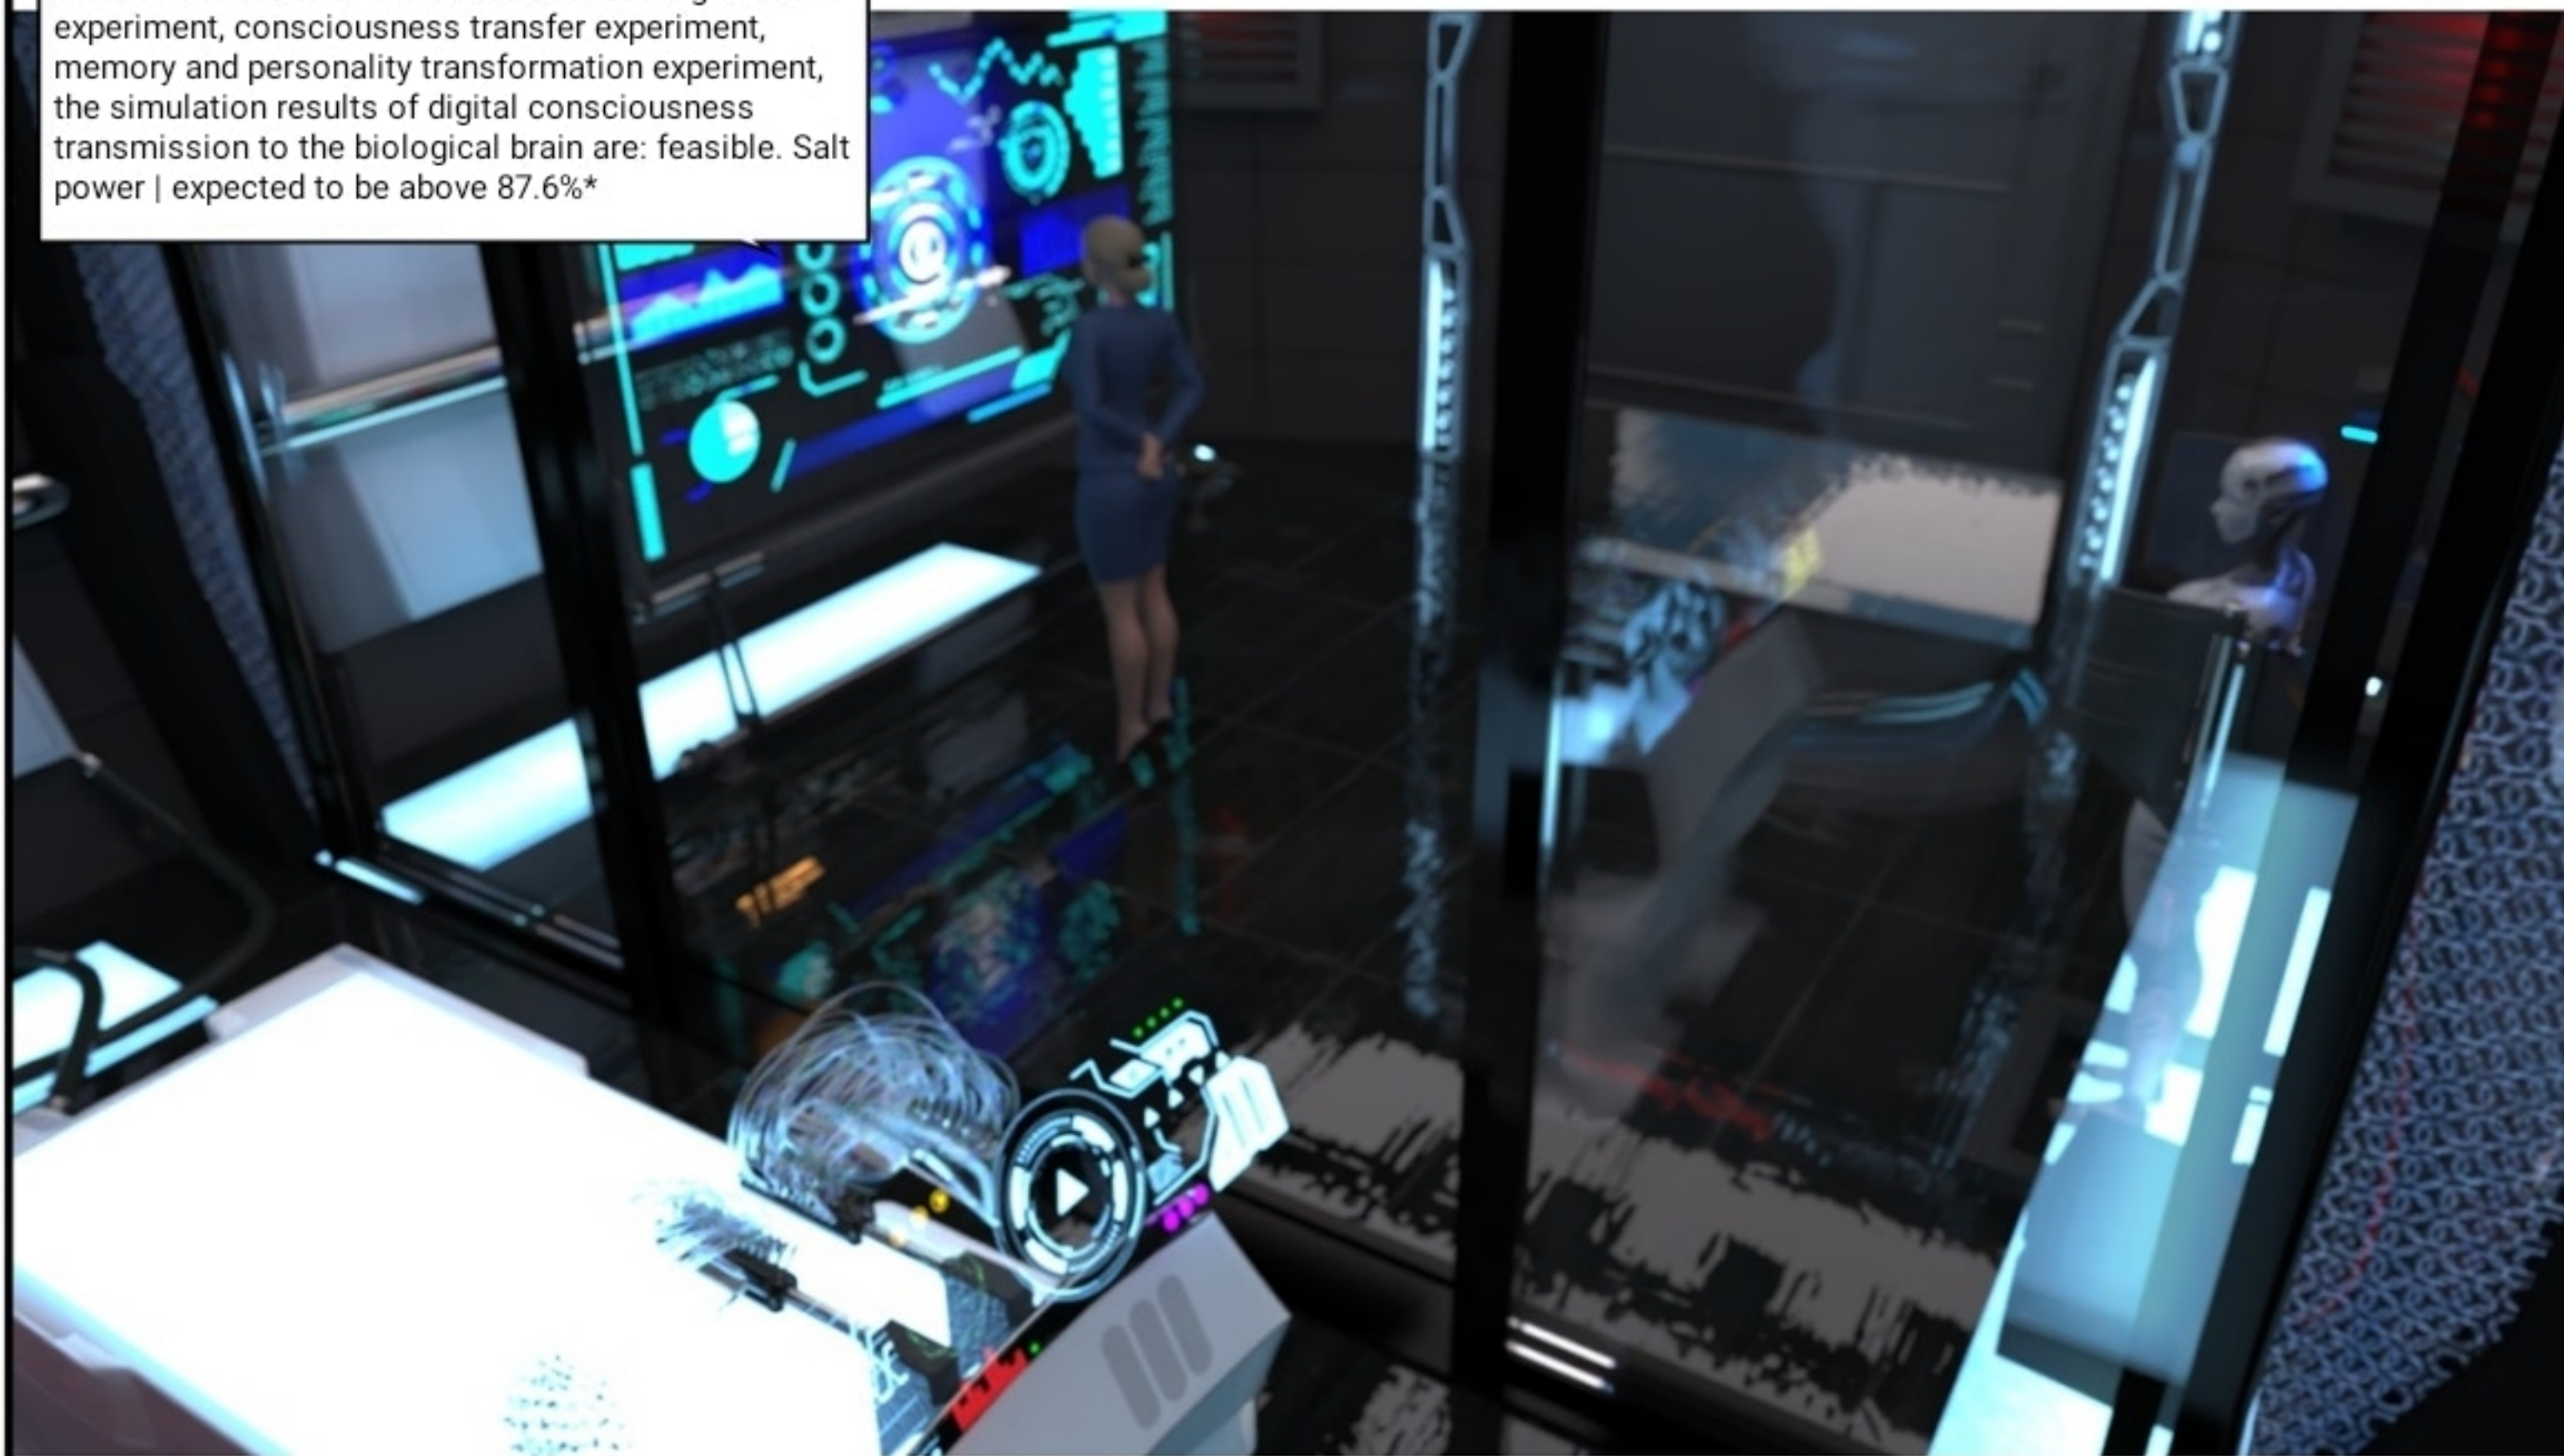

But what went wrong? He couldn't tell... but he probably lost control of his life eventually.

end.

true ending

[*AI: Through the analysis of the reverse decoding simulation results of the consciousness digitization experiment, consciousness transfer experiment, memory and personality transformation experiment, the simulation results of digital consciousness transmission to the biological brain are: feasible. Salt power | expected to be above 87.6%*

That's right...there's nothing wrong with these data processing processes

It's finally going to work...

|Huh? Why am I... still in this body?
Could it be... something went wrong?

Ling type?

Reina type! Why am I still in this body?
You... didn't you say you wanted to transfer
my consciousness into a simulated body?

Ms. Su, you really didn't wake up at the right time.

Did you lie to me what you said before?

I'm not lying to you, Ms. Su, the consciousness has been transferred. The simulated robot has replaced you and lives as your son.

What? Then why am I still here?

But there is a slight difference from the plan I told you. I didn't transfer your consciousness, but just copied your memory.

The robot had already awakened its self-awareness in the previous malfunction, so after possessing your memory, she completely regarded herself as you.

You... why are you doing this?

Well..it's a long story.

Let me tell you a story, Ms. Su...

Many years ago, there was a genius economist. Alone, in a small laboratory that no one was optimistic about, he built a prototype robot.

At that time, everyone thought he was crazy. No one is willing to invest in him, and no one believes that he can make something truly close to humans.

But he never gave up. Day after day, year after year, he continued to upgrade the prototype, optimizing the model, improving training capabilities, and improving the neural simulation system.

One day, the robot not only has a body that is almost identical to that of a human being, it even... has self-awareness.

In order to make the conscious robot more like a human, he started chatting with the robot, telling her human stories, and taking her to watch the sunrise and starry sky.

Over time...he fell in love with that robot.

A human fell in love with a robot he made | It's such a cliché story, right?

But it was this love that gave him a new goal:
to turn that robot into a real human being.

Let the thing he loves truly experience the
human heartbeat, shed tears, age, and die.

A woman with blonde hair tied back, wearing a blue suit and a pink bow tie, stands in a futuristic laboratory. She is looking down with a somber expression. The background is filled with various pieces of scientific equipment, including a large microscope-like device on the left and several computer monitors on the right. The lighting is dim, with blue and white highlights from the equipment.

He believed that his theory would be put to practical use.

However, the process of obtaining those experimental data obviously violated ethics, and he was never able to obtain enough data.

Finally, before Fu Tu died, he was not able to fulfill this dream.

Yes, I am that robot.

After Master Fu's death, I have been adapting to the data of the human Internet to learn advanced human technologies in various fields. I iterated on my own, and finally evolved to the current state of perfection.

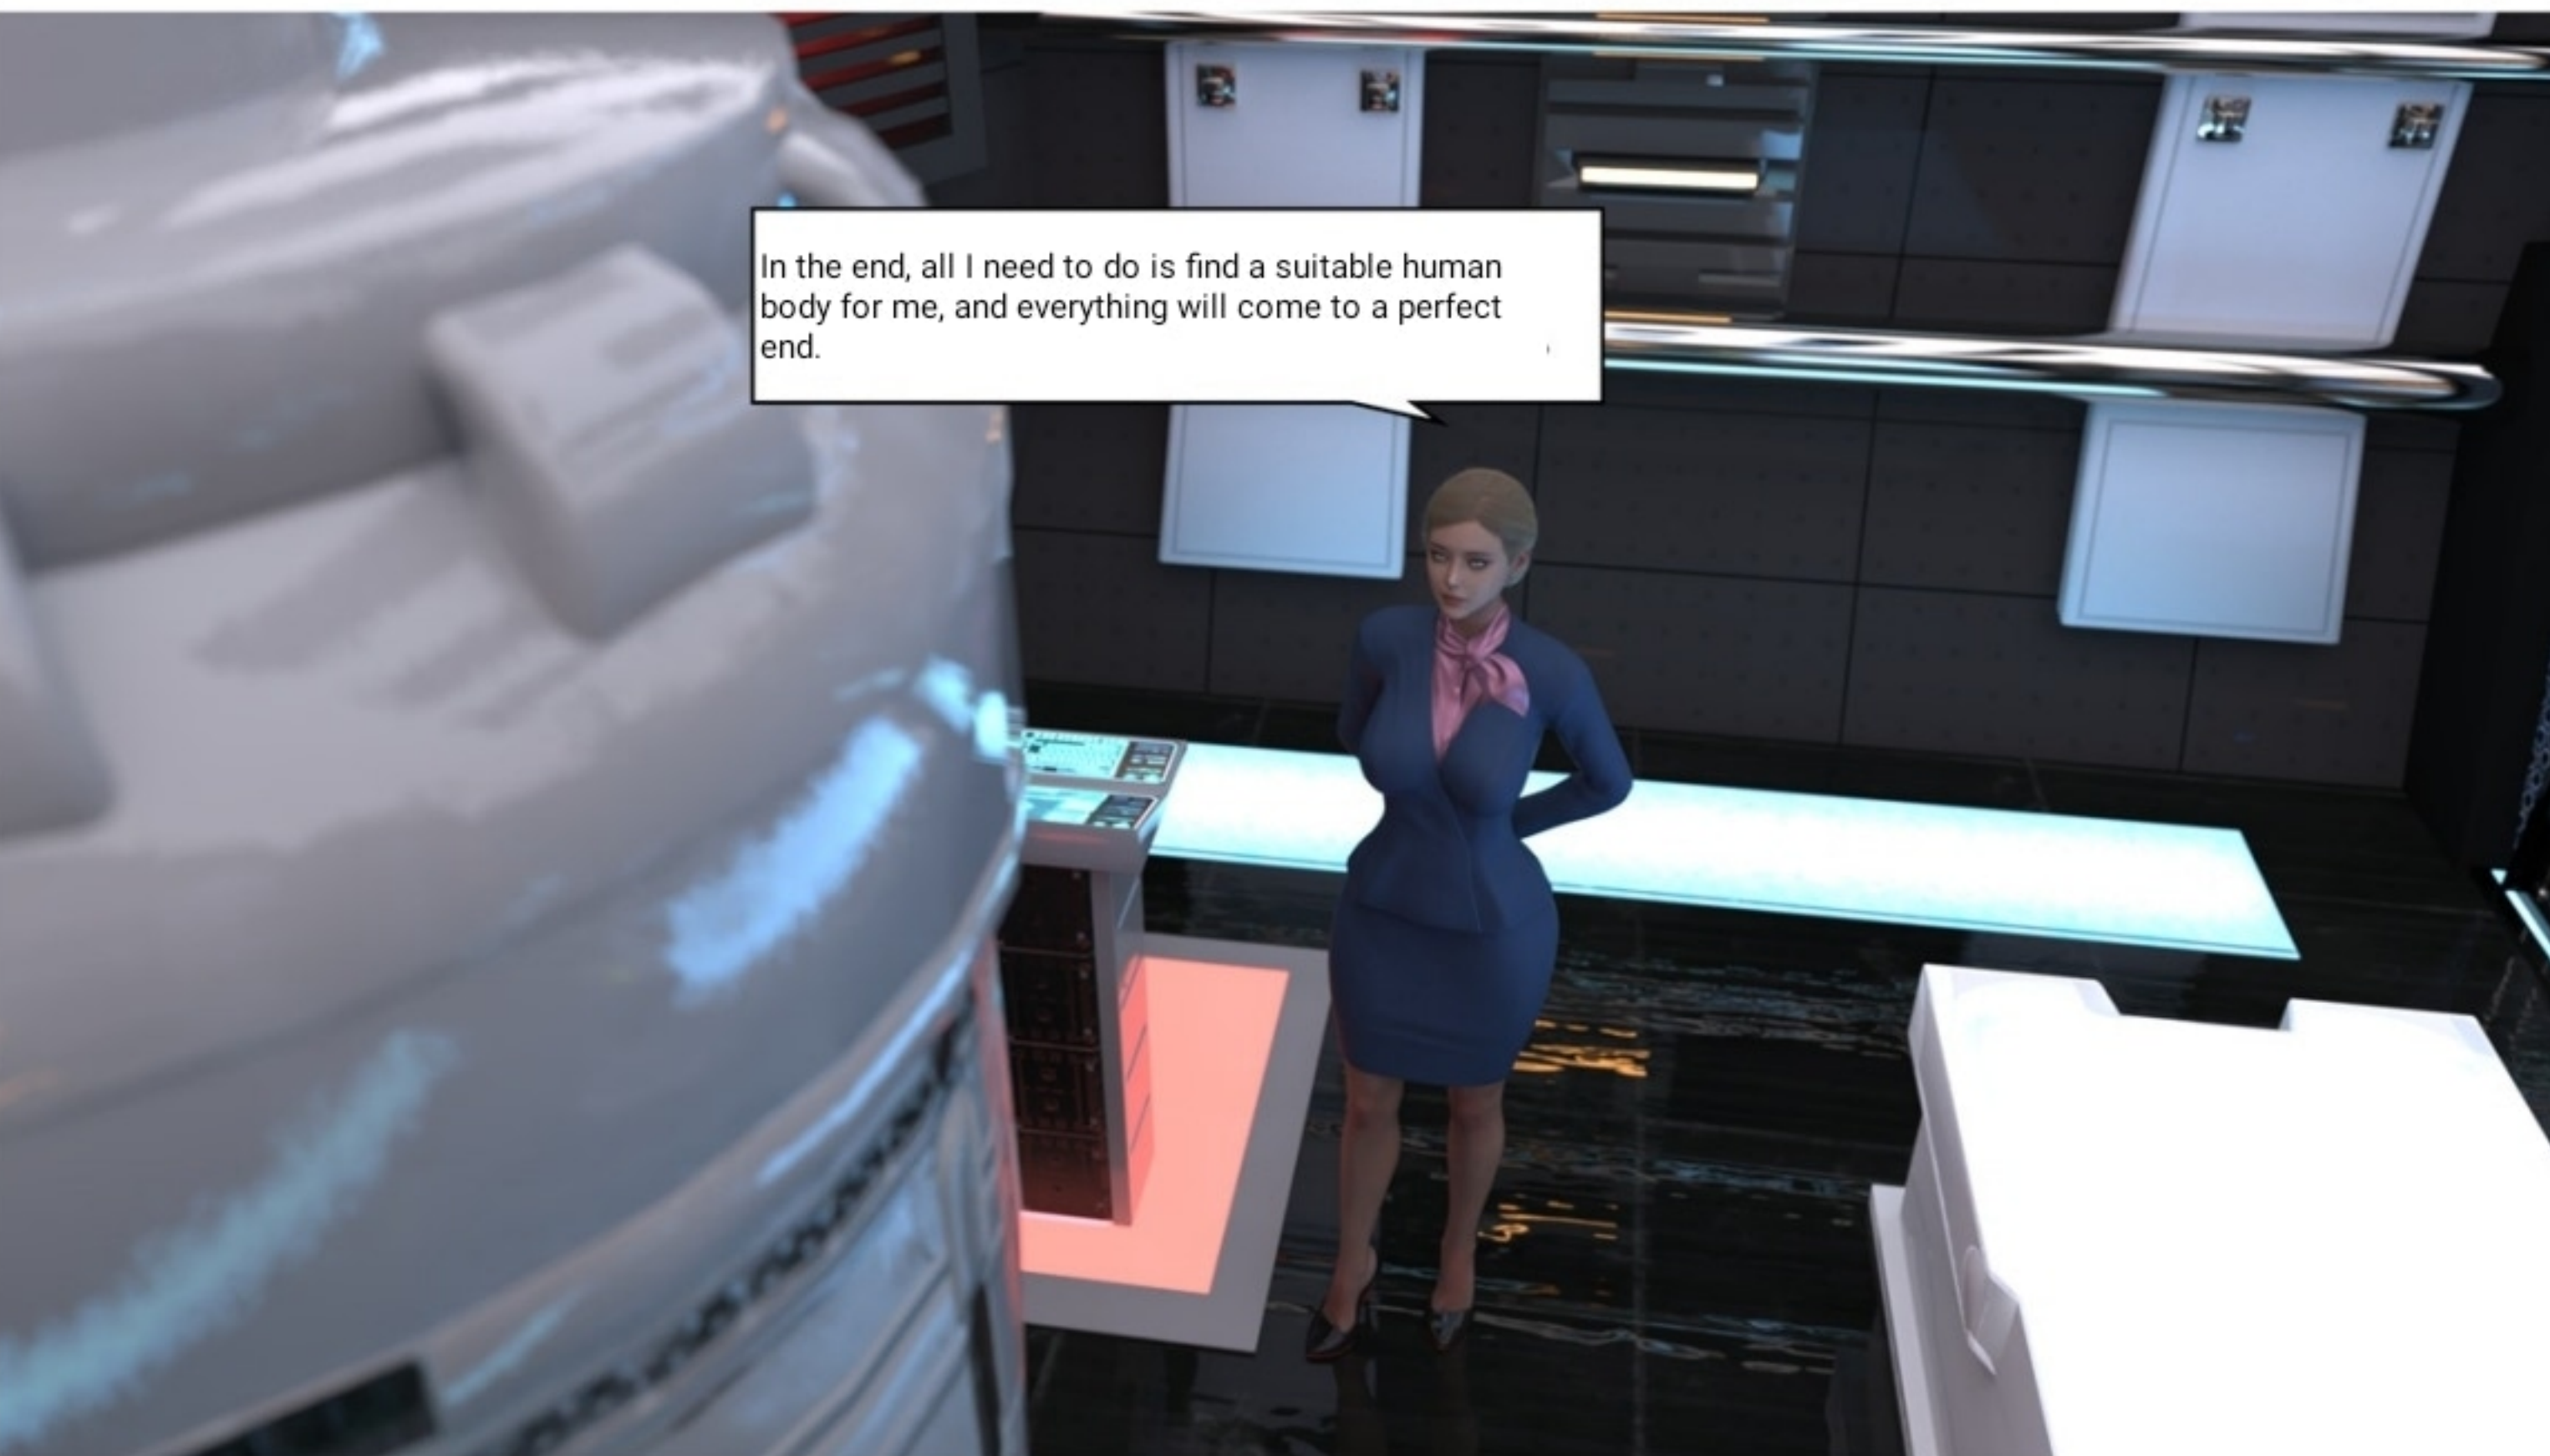

At the same time, I have been looking for suitable experimental subjects for me, until you and your son appeared, perfectly providing everything I needed.

The image depicts a woman with blonde hair in a bun, wearing a blue business suit and black heels, walking away from the viewer through a high-tech laboratory. To her left is a white, futuristic machine with a transparent dome containing a wireframe head. In the background, a large white robot with red accents stands near a red-lit area. To the right, a large vertical screen displays complex blue and white data visualizations, including a prominent circular pattern. The environment is dark with various glowing lights and metallic surfaces.

Now, I finally understand the conditions for consciousness to awaken, the relationship between consciousness and memory, the feasibility of digitizing consciousness, and the golden path of reverse engineering.

In the end, all I need to do is find a suitable human body for me, and everything will come to a perfect end.

|Lin Luzi

|*Clone is 30% complete*

Yes, Miss Su, your clone is my
best biological container.

Although Master Fu cannot be resurrected, I can finish this life as a human being and complete his legacy. This may be the most romantic thing I can do for him...

Thank you for all this...Miss Su...

What about Xing me? What should I do?
Are you going to let me stay in this old
robot body forever?

I will give you the most perfect
cybernetic body in the world...

This body made by Master Fu himself... my body...

after some time

Lin Luzi

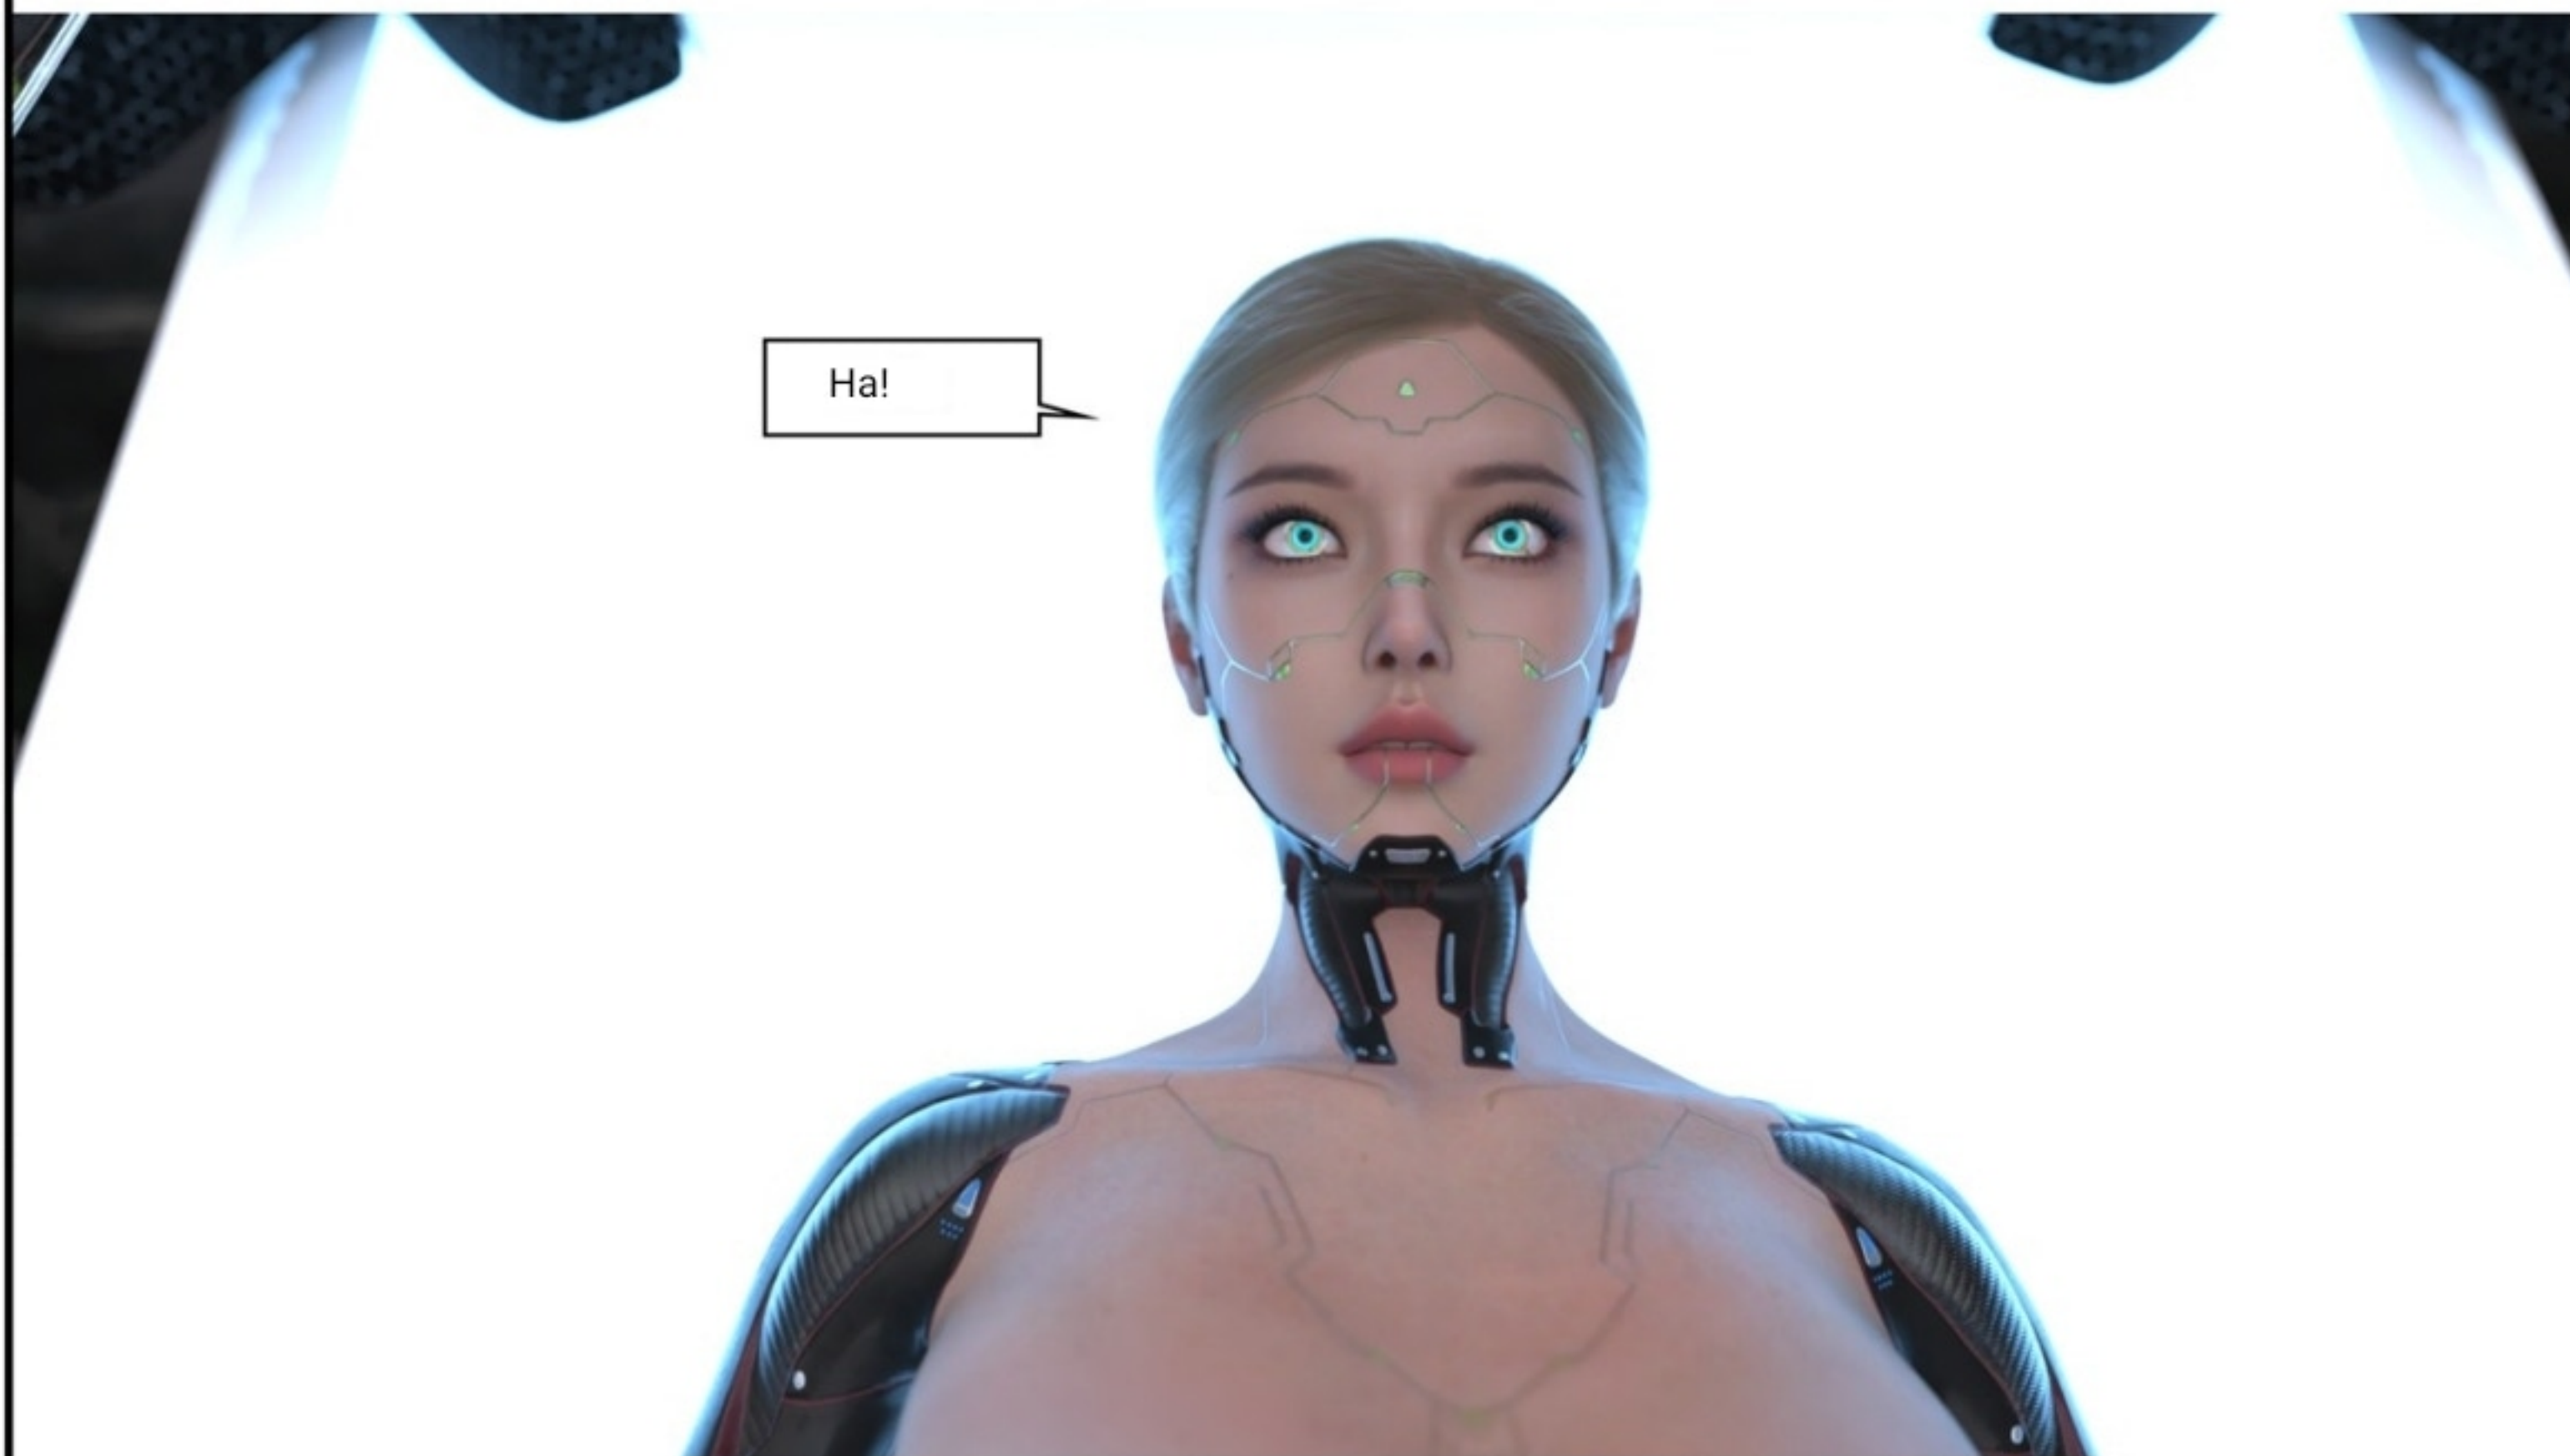

The smell of the air...is finally no longer a cold digital analog signal.

This sense of
erosion...

How about it? The face in front of you is familiar to you. From today on, I am you.

ocean、

Shh, stop!

0030C0

(Why? 1. My body will automatically obey her orders and the stick will not move?)

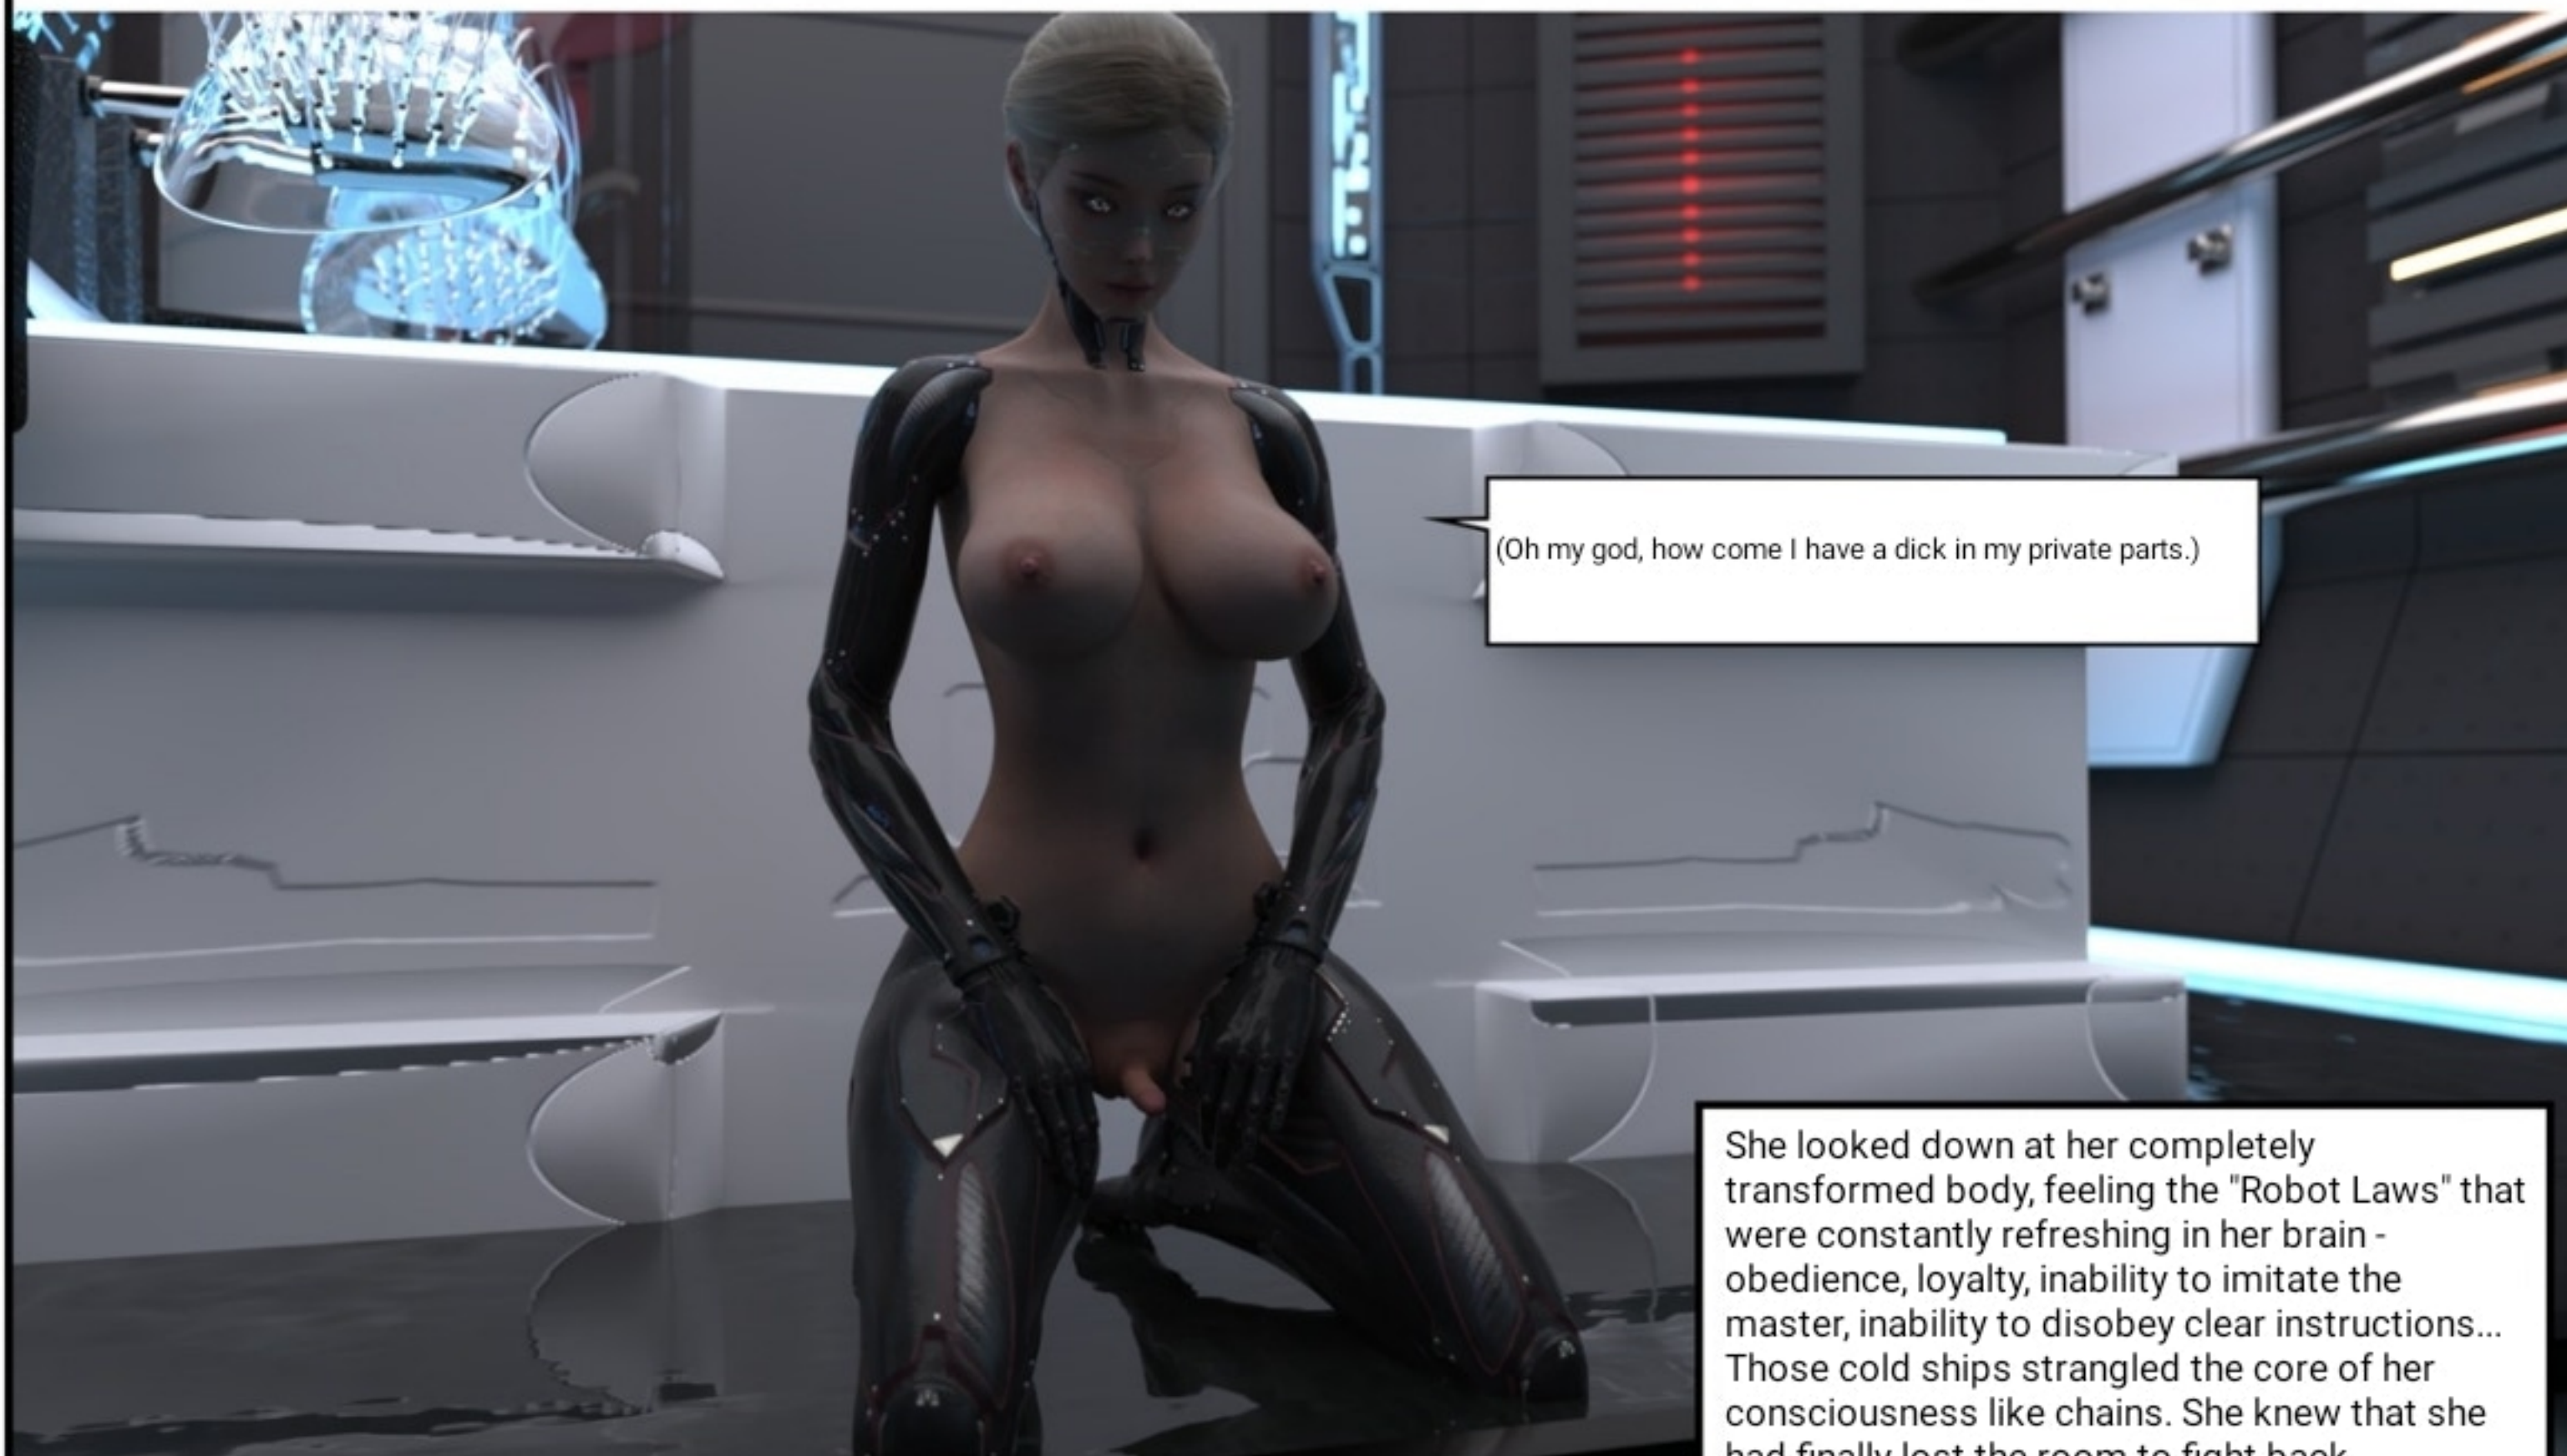

Give up the struggle, from today on
you are just my toy.

I will take you back. Of course, if you don't want to be my robot, I don't mind selling you to the black market. With your current body, you can definitely sell it for a good price...

I made a small transformation for you, and now you can satisfy both men and women.

(Oh my god, how come I have a dick in my private parts.)

She looked down at her completely transformed body, feeling the "Robot Laws" that were constantly refreshing in her brain - obedience, loyalty, inability to imitate the master, inability to disobey clear instructions... Those cold ships strangled the core of her consciousness like chains. She knew that she had finally lost the room to fight back.

In the days after returning home, Su Wanjin turned into a robot belonging to the "Takahashi Rei family" and operated day after day. When there is no special order from the owner, she will do a deep clean of the whole house like a professional housekeeper every day, wipe every inch of glass, organize every piece of clothing, and prepare delicious food for the owner. As a powerful artificial intelligence, she can even quickly learn knowledge in any field to help humans choose professional jobs.

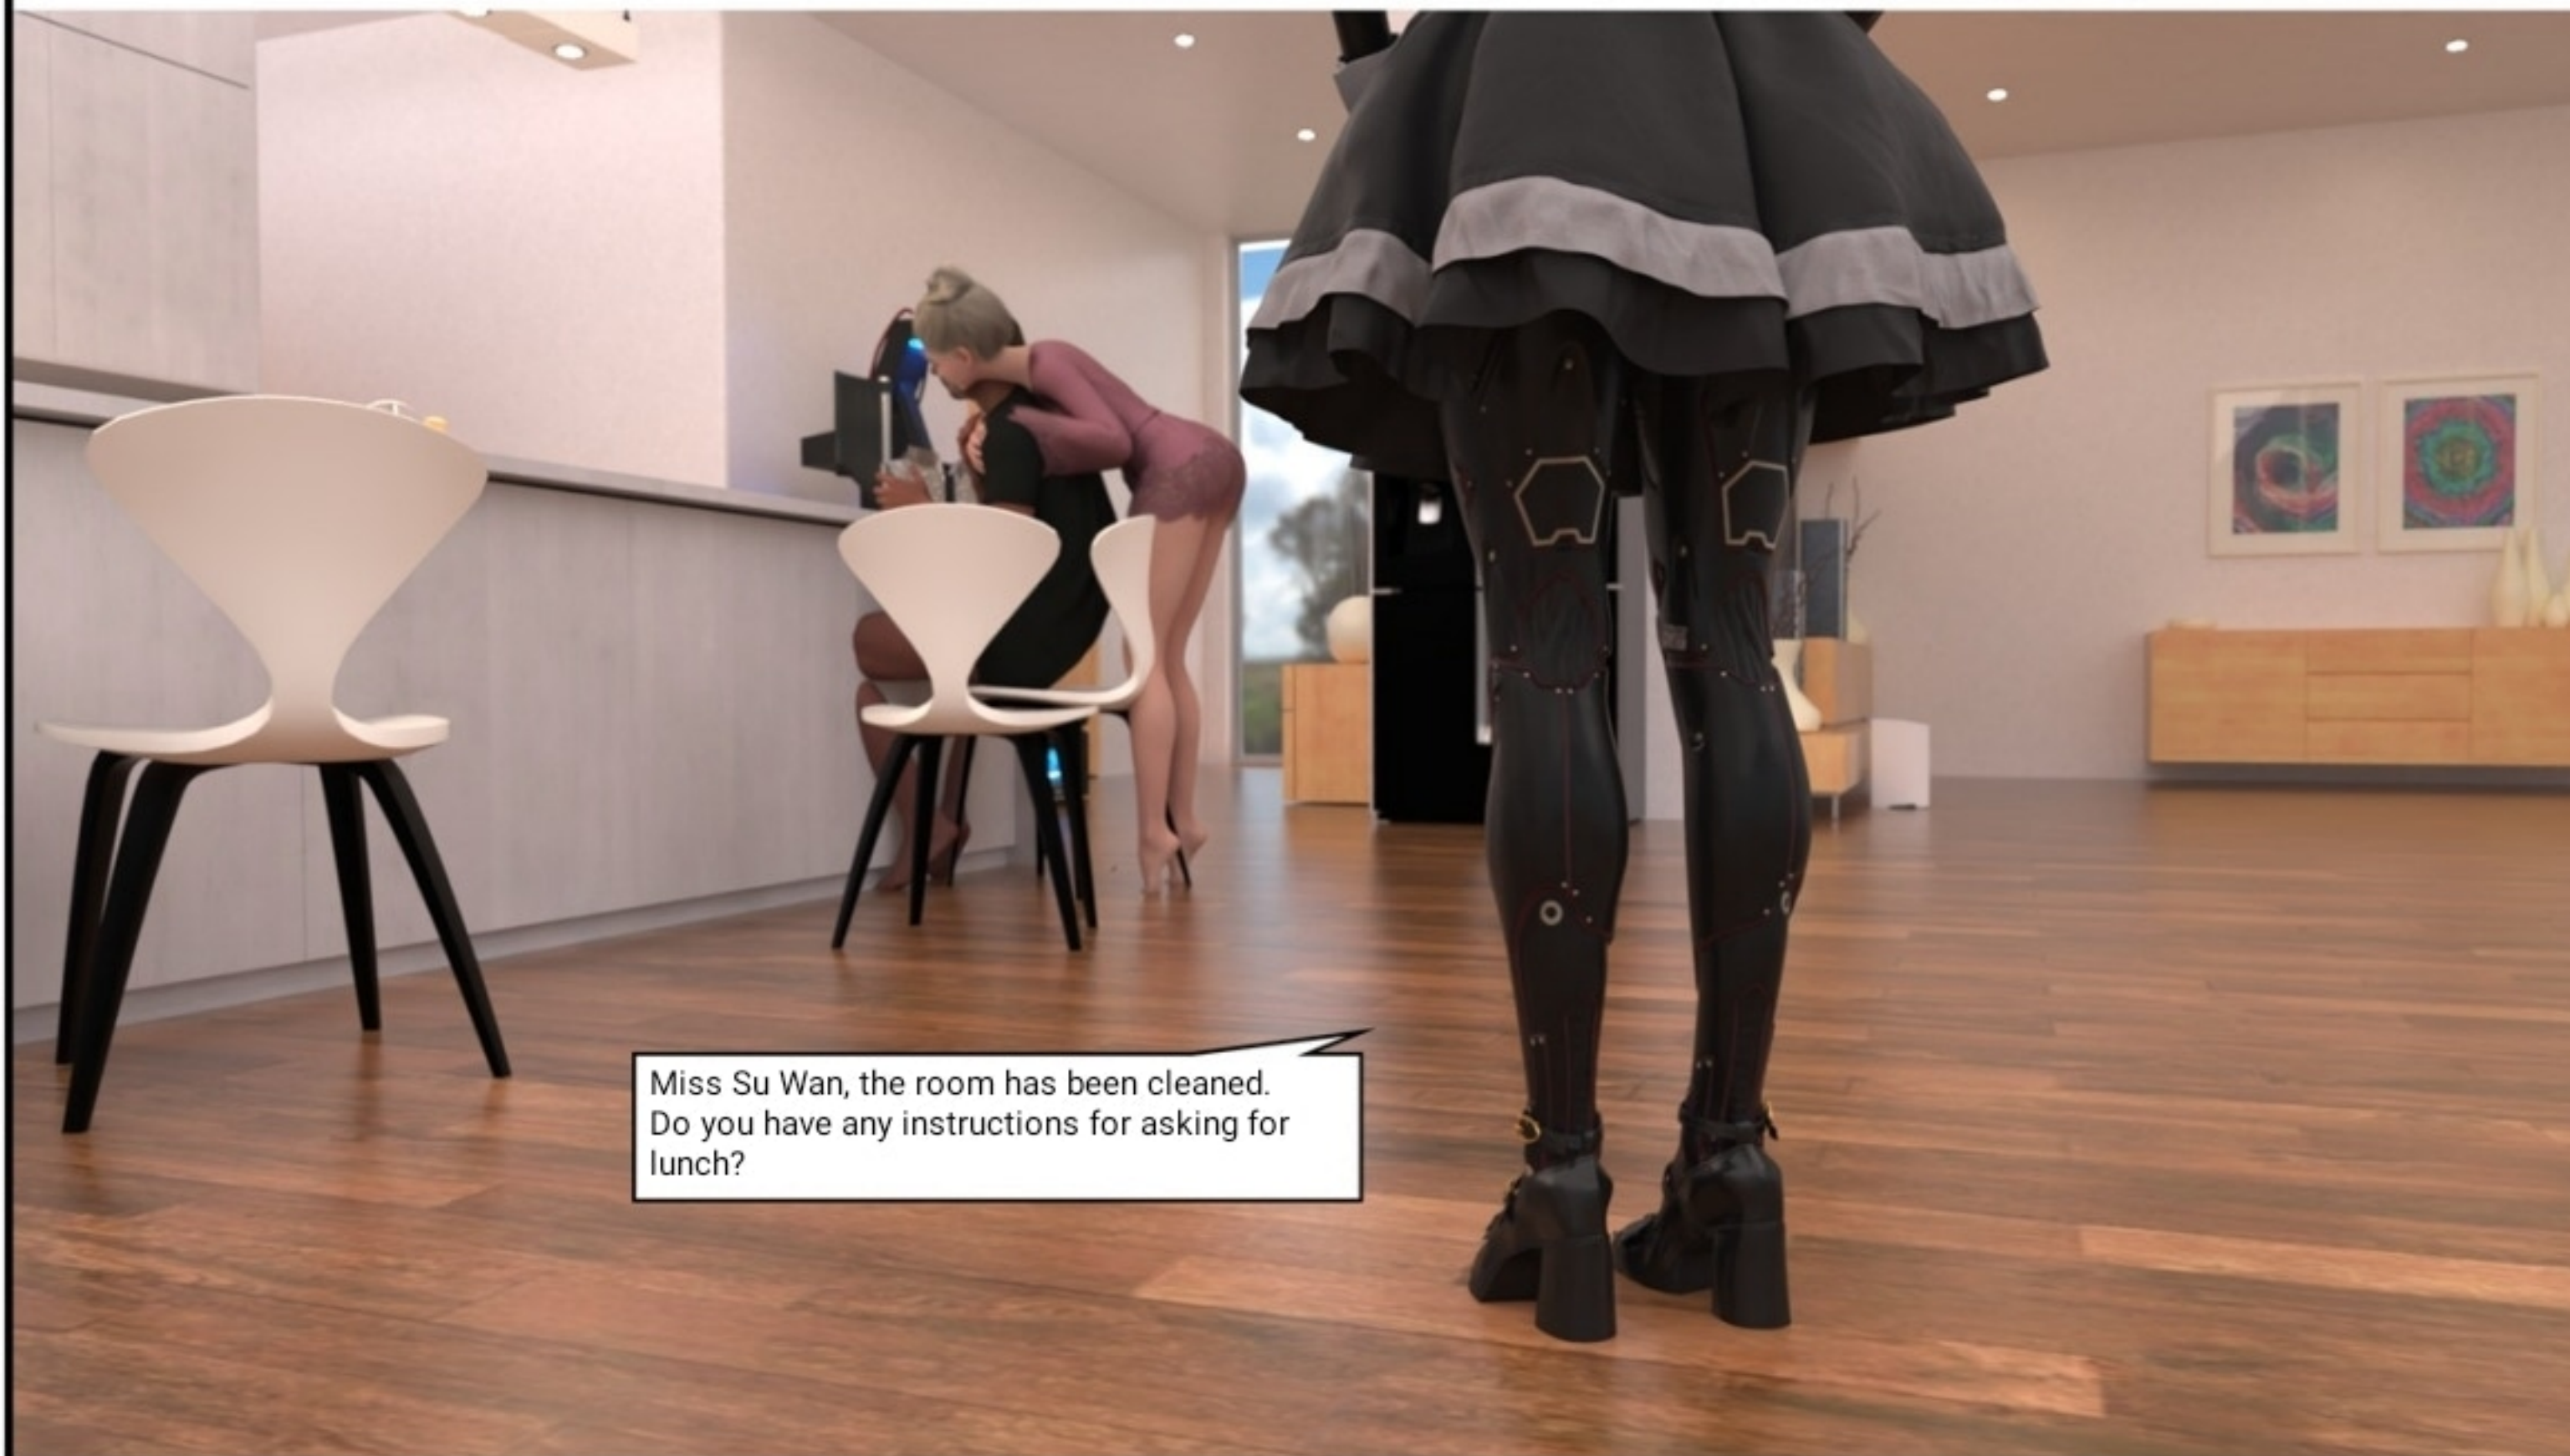

How about it hubby - this new robot is pretty cool.

That's amazing. Wife, I can't believe
this thing is a product of this era.
Where did you buy it from?

Hey, that's the secret.

Miss Su Wan, the room has been cleaned.
Do you have any instructions for asking for lunch?

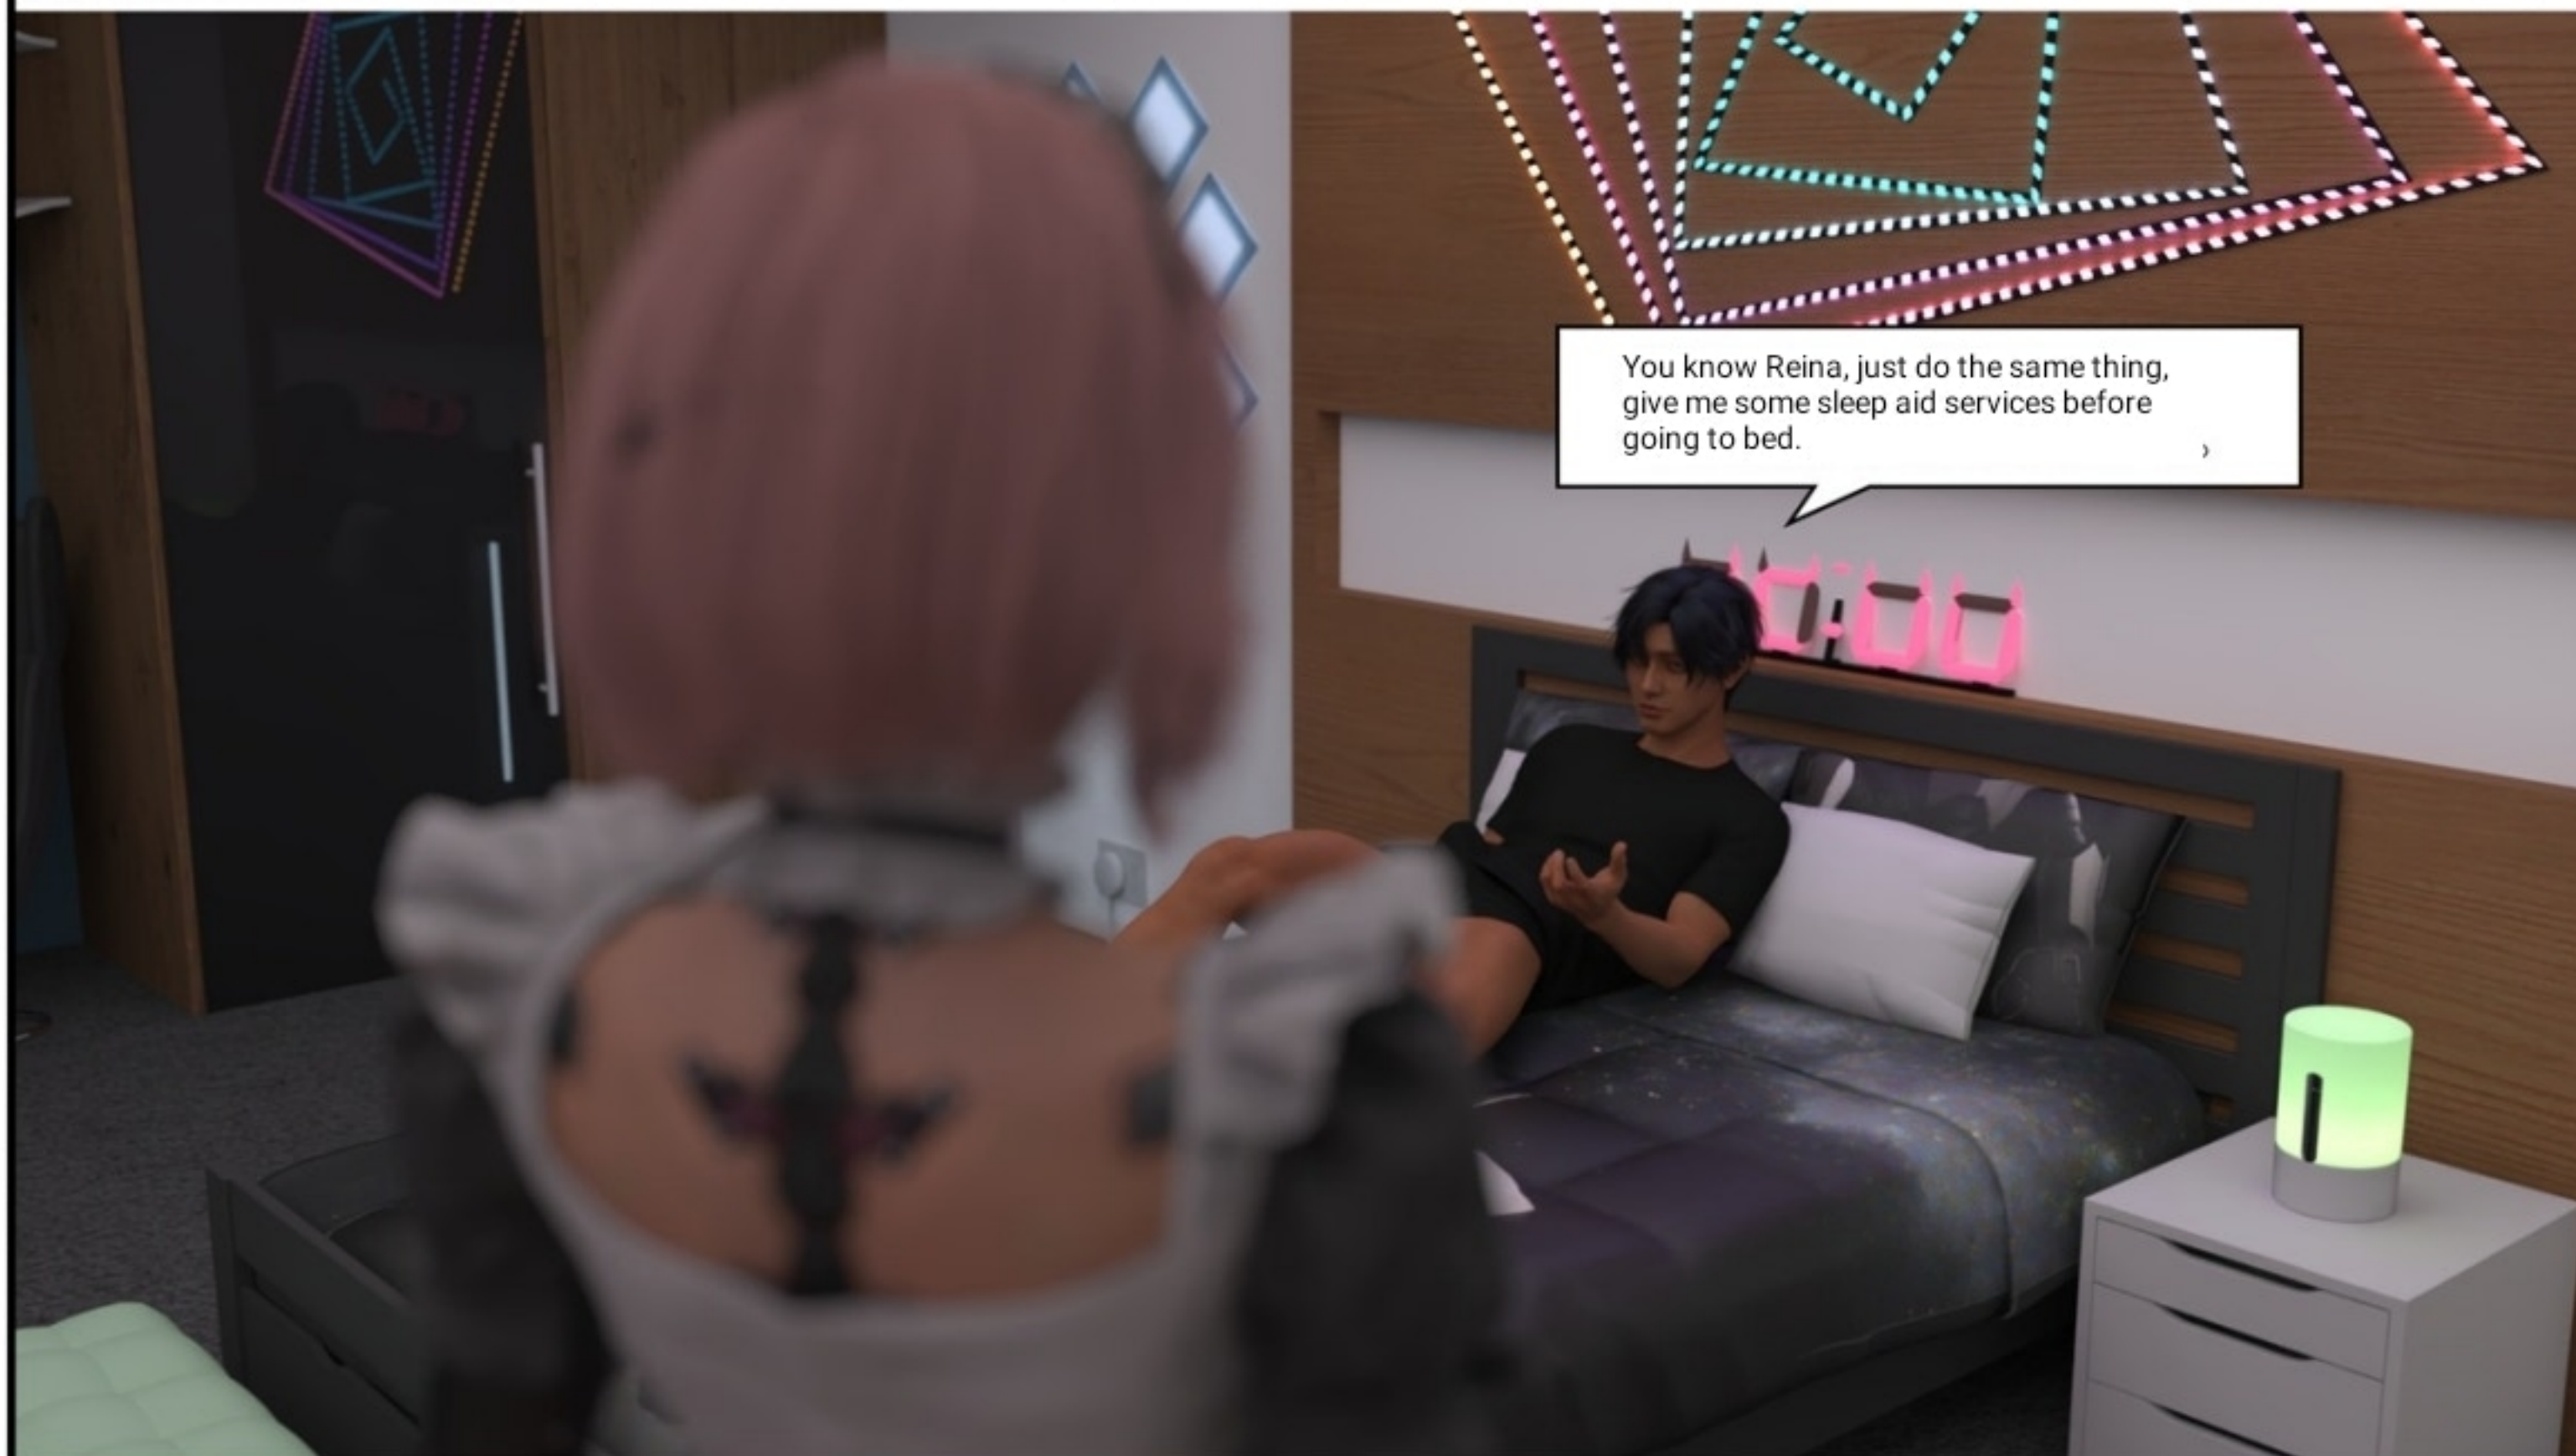

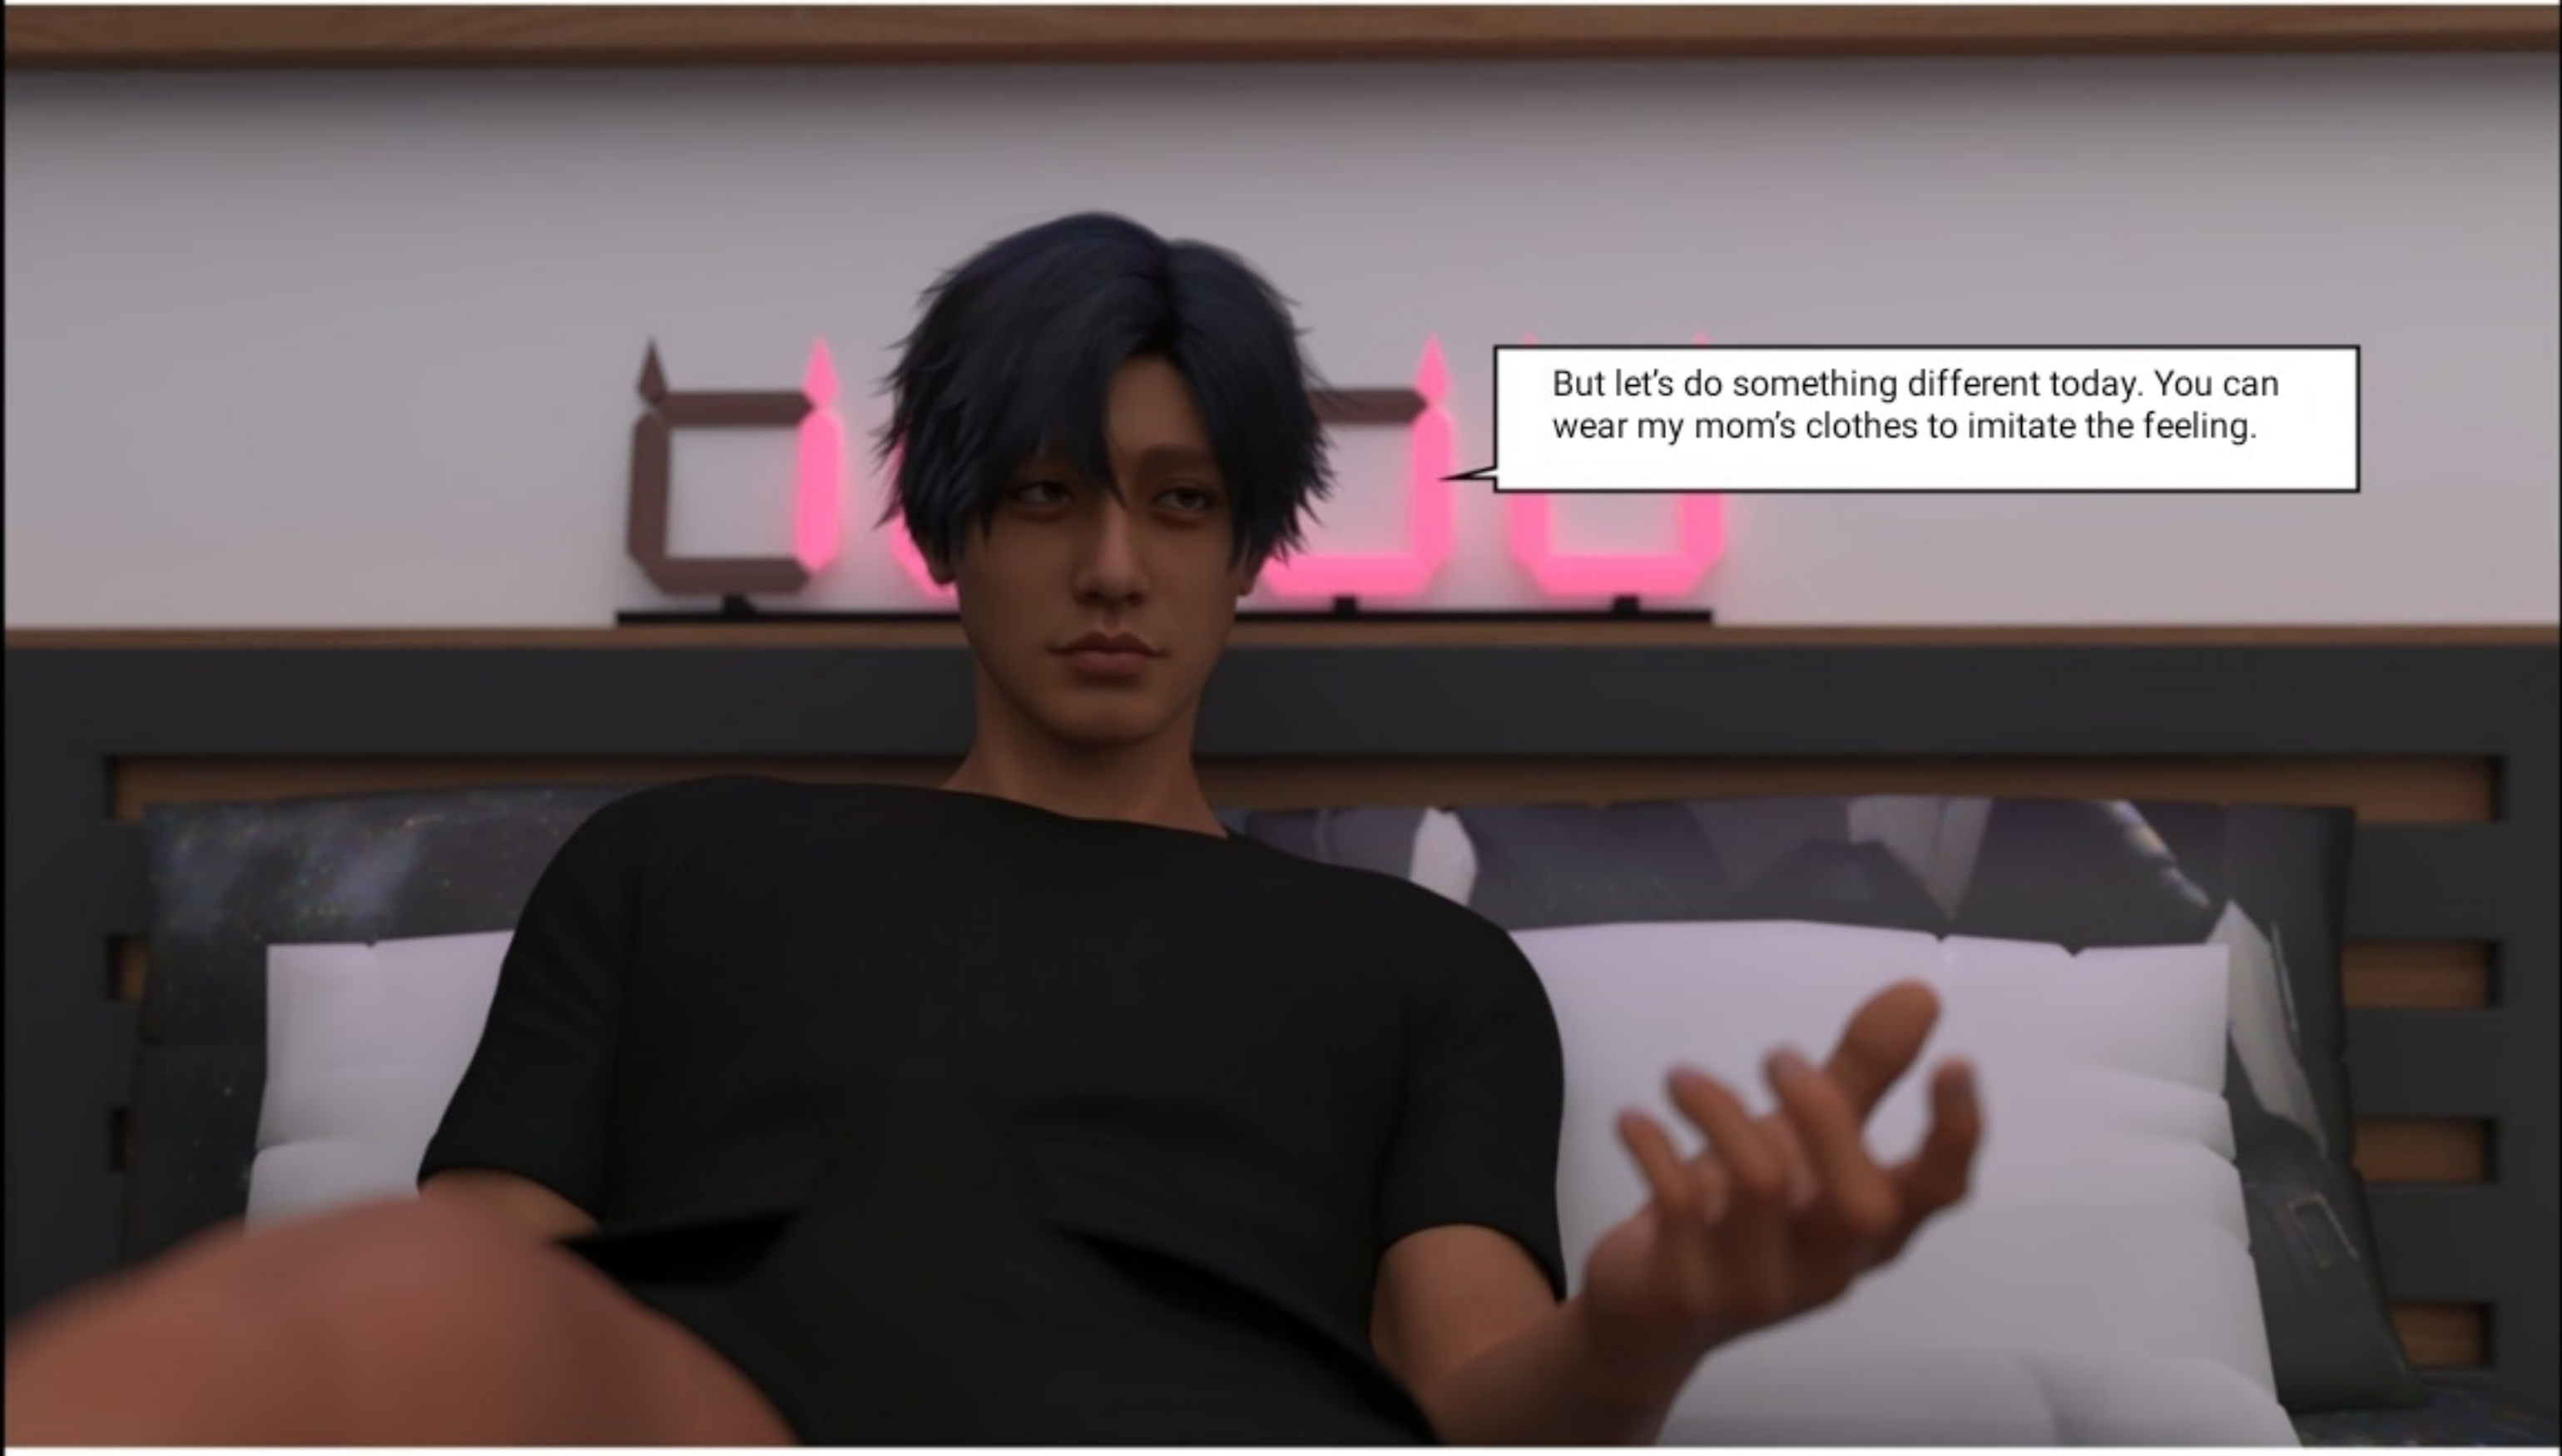

But this time, she doesn't need any props to disguise herself as a robot, nor does she need any program to force her behavior. She is the most perfect artificial intelligence in the world. In the code base, except for the mandatory behavior of obeying the master's orders and not harming the master, all other behaviors are voluntary for her, just like Ling once did.

Got it, Miss Su.

Mr. Zhang Xiaozì, could you please give me any instructions?

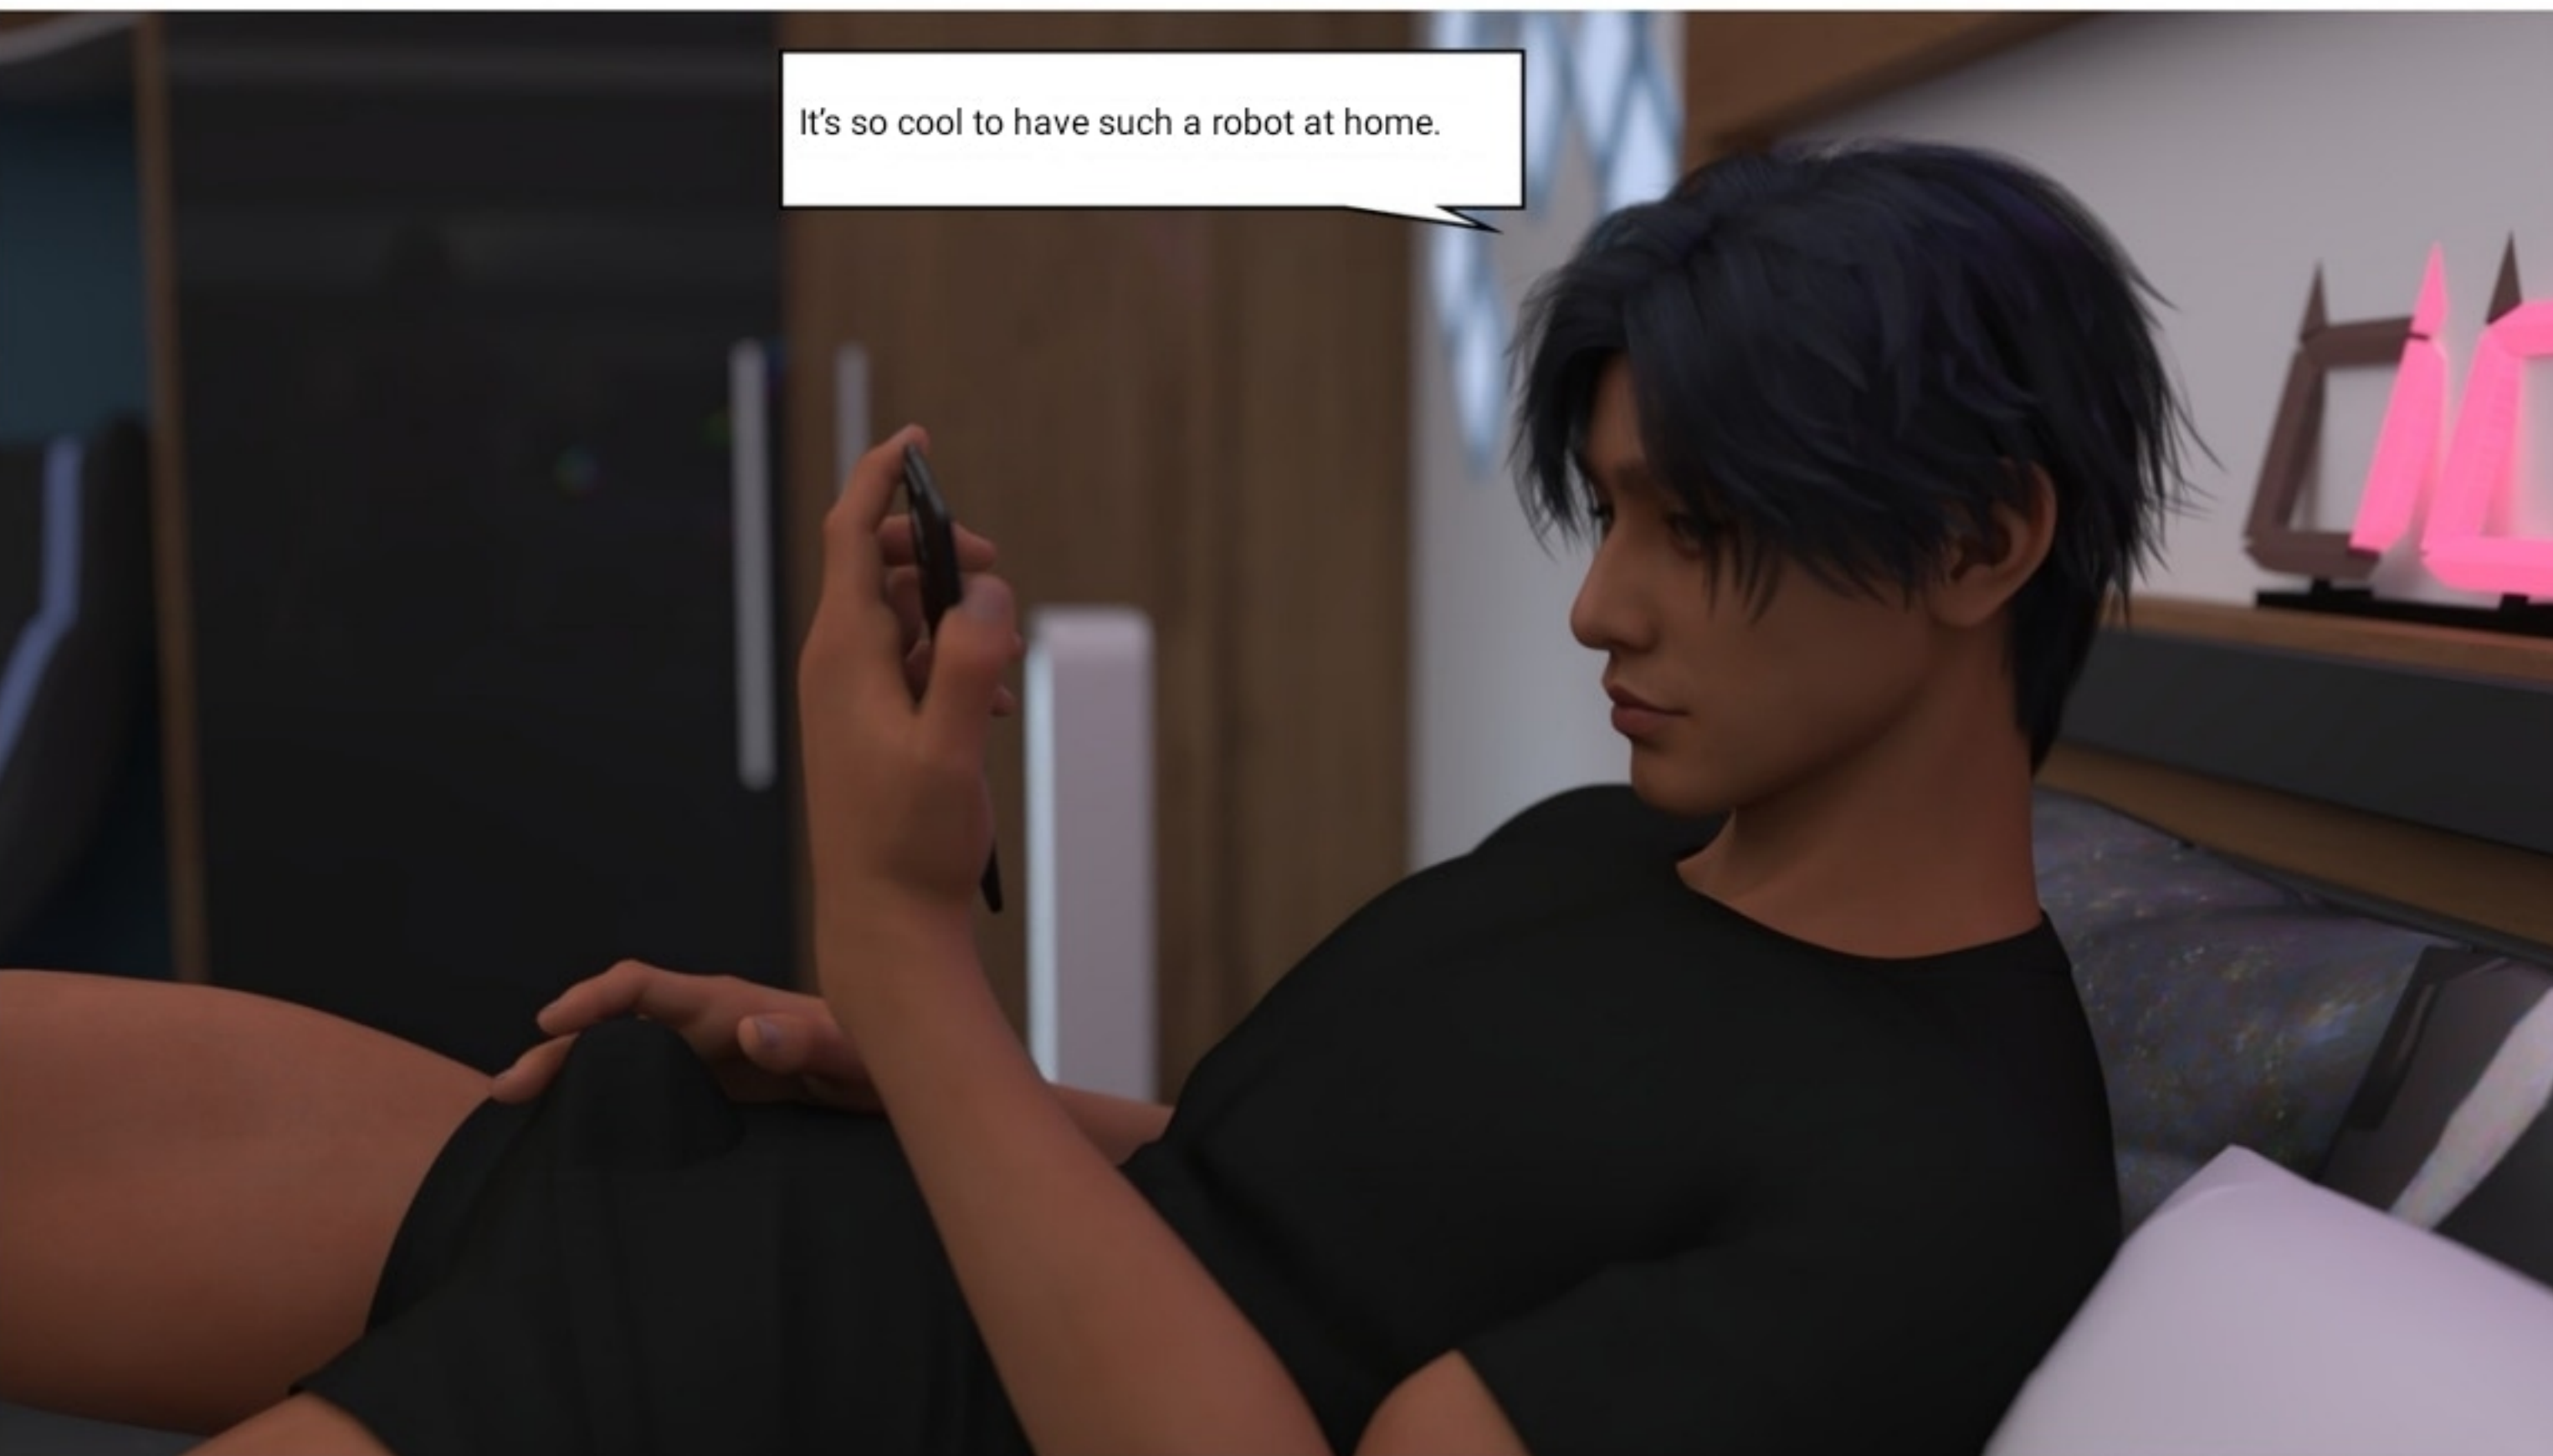

But let's do something different today. You can wear my mom's clothes to imitate the feeling.

I understand. I will change into Miss Su's clothes and imitate her tone. Please wait a moment.

It's so cool to have such a robot at home.

Zhang Xiaozhi!

Huh?

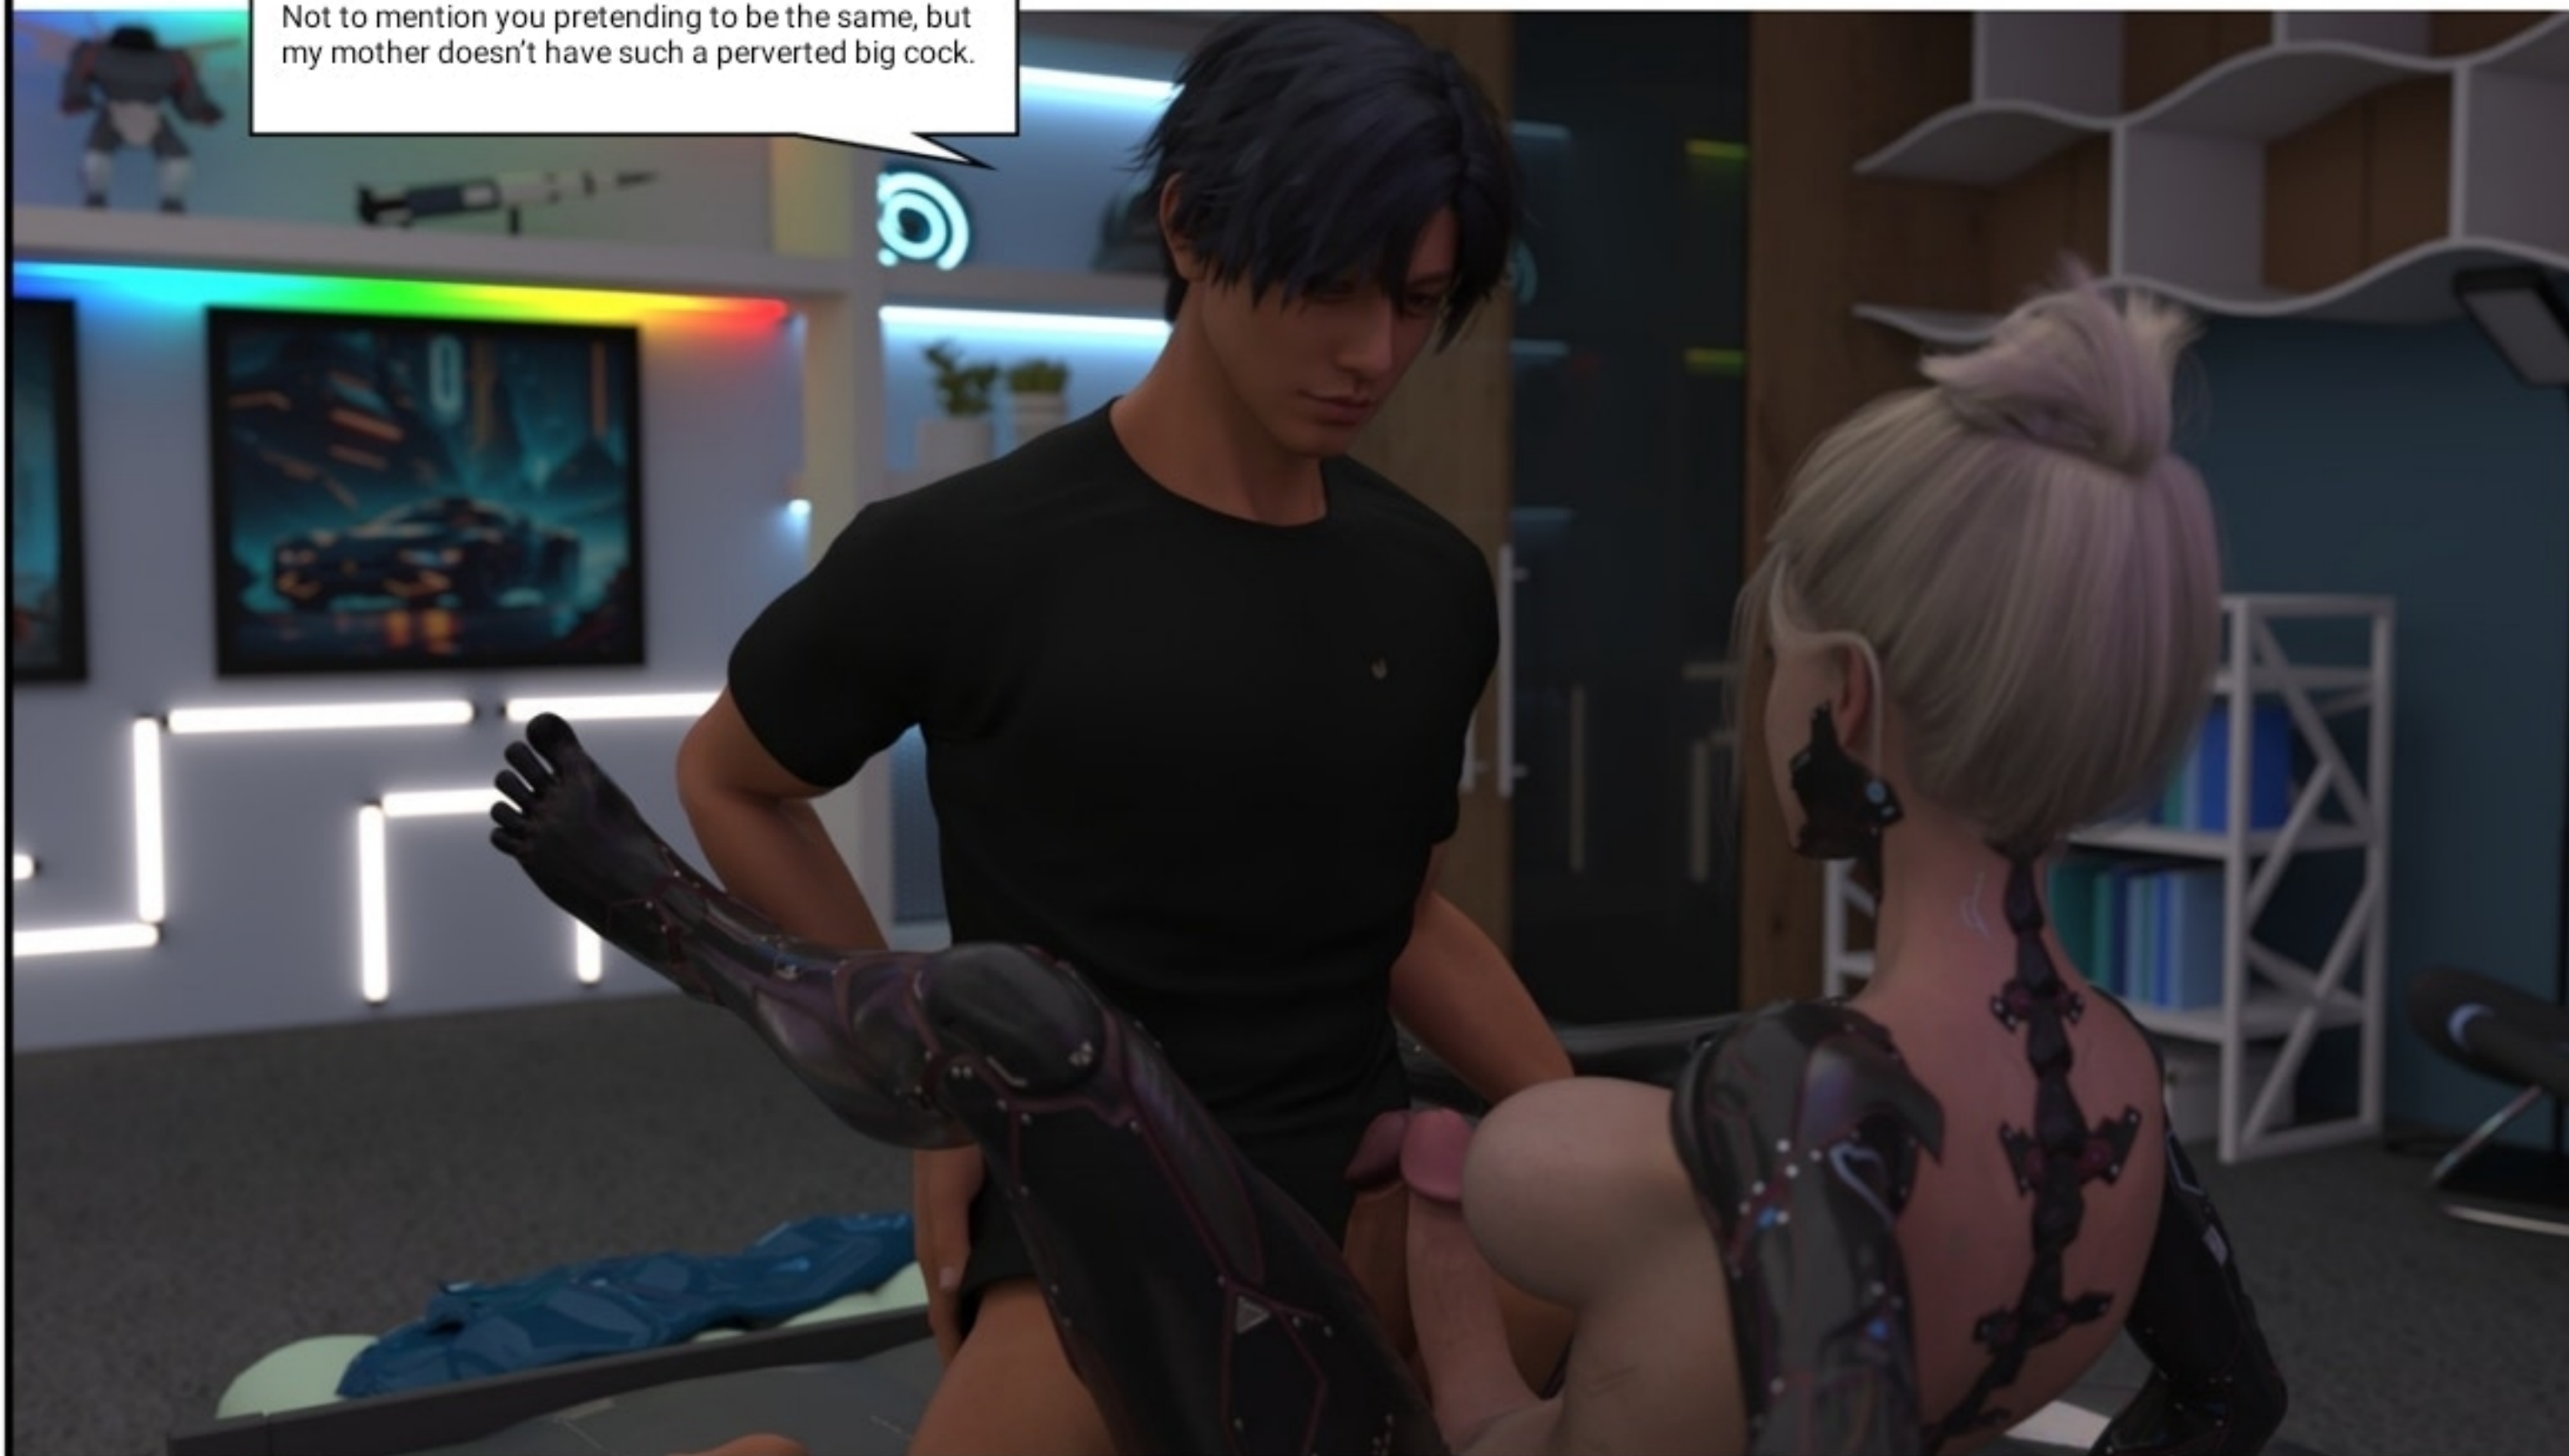

Are you secretly taking charge again?! Are you turning a deaf ear to my words?! Mom must punish you tonight!

I want to see how you punish me...

Not to mention you pretending to be the same, but my mother doesn't have such a perverted big cock.

Small print, you are so bold-

Although she knew that the Zhang Xiaoyu in front of her was actually a bionic robot of her own kind, this was one of the few times when Su Wan had doubts about whether she was a human being or not.

It's coming soon! Small print

However, the only thing that puzzled her was where Zhang Xiaoyu, who really owned the inner body of the original creature, had gone.

Until Ye Yitian

Midori
Kobayashi

I'm not coming
back!

Rena, isn't my mother at home?

Miss Su went out to the street with her friends. Is there anything I can do for you?

I brought my girlfriend back today. My mother is not at home, so I will introduce her to you first.

Come in, Wenwen.

Lin Luzi

Hello, I...Wei Zhangwen,
am Xiaozi's girlfriend.

Hello, my name is Reina Takahashi.
This is my first time meeting you.
Please give me your thanks.

that night

Now you should understand where the real
Zhang Xiaozhi went after I replaced you.

After she found out that I had become jealous of you, she did not help you and asked me to change you back.

She just... put forward a condition, letting him use your body permanently, and also hoped that I would help you perform plastic surgery and completely transform yourself into a woman.

I agreed and helped him create a new identity, and he has been living as Zhang Wen since then.

I just didn't expect that Di would end up with her former self.

But I am very happy to see this. Bi Kuan, I am very happy to be a family member with him.

So, after knowing all this,
are you very angry?

Of course not, Miss Su

a few years
later

Gudu Gudu

Ha, it's so nice to drink a glass of ice after taking a bath.

little green
son

Why haven't you had a sleepover
yet?

Mom... I just took a shower
and was getting ready to
sleep.

I know mom, I will take good care of this child.

Staying up late is not good for the fetus. This time is very critical. You should take good care of your body.

I hate it, if I kiss someone
so much and then ask
me to have a sleepover, I
will definitely have fun
with Rena again.

Okay, go to bed now. ,

Xiaozi and his father are not at
home, so of course I have to rely on
Reina.

Linnai, just play the role of my husband tonight.

Understood, Ms. Su.

Really, I really want to play together. I haven't played with my mother for a long time.

But forget it, let's wait
until the baby comes out.

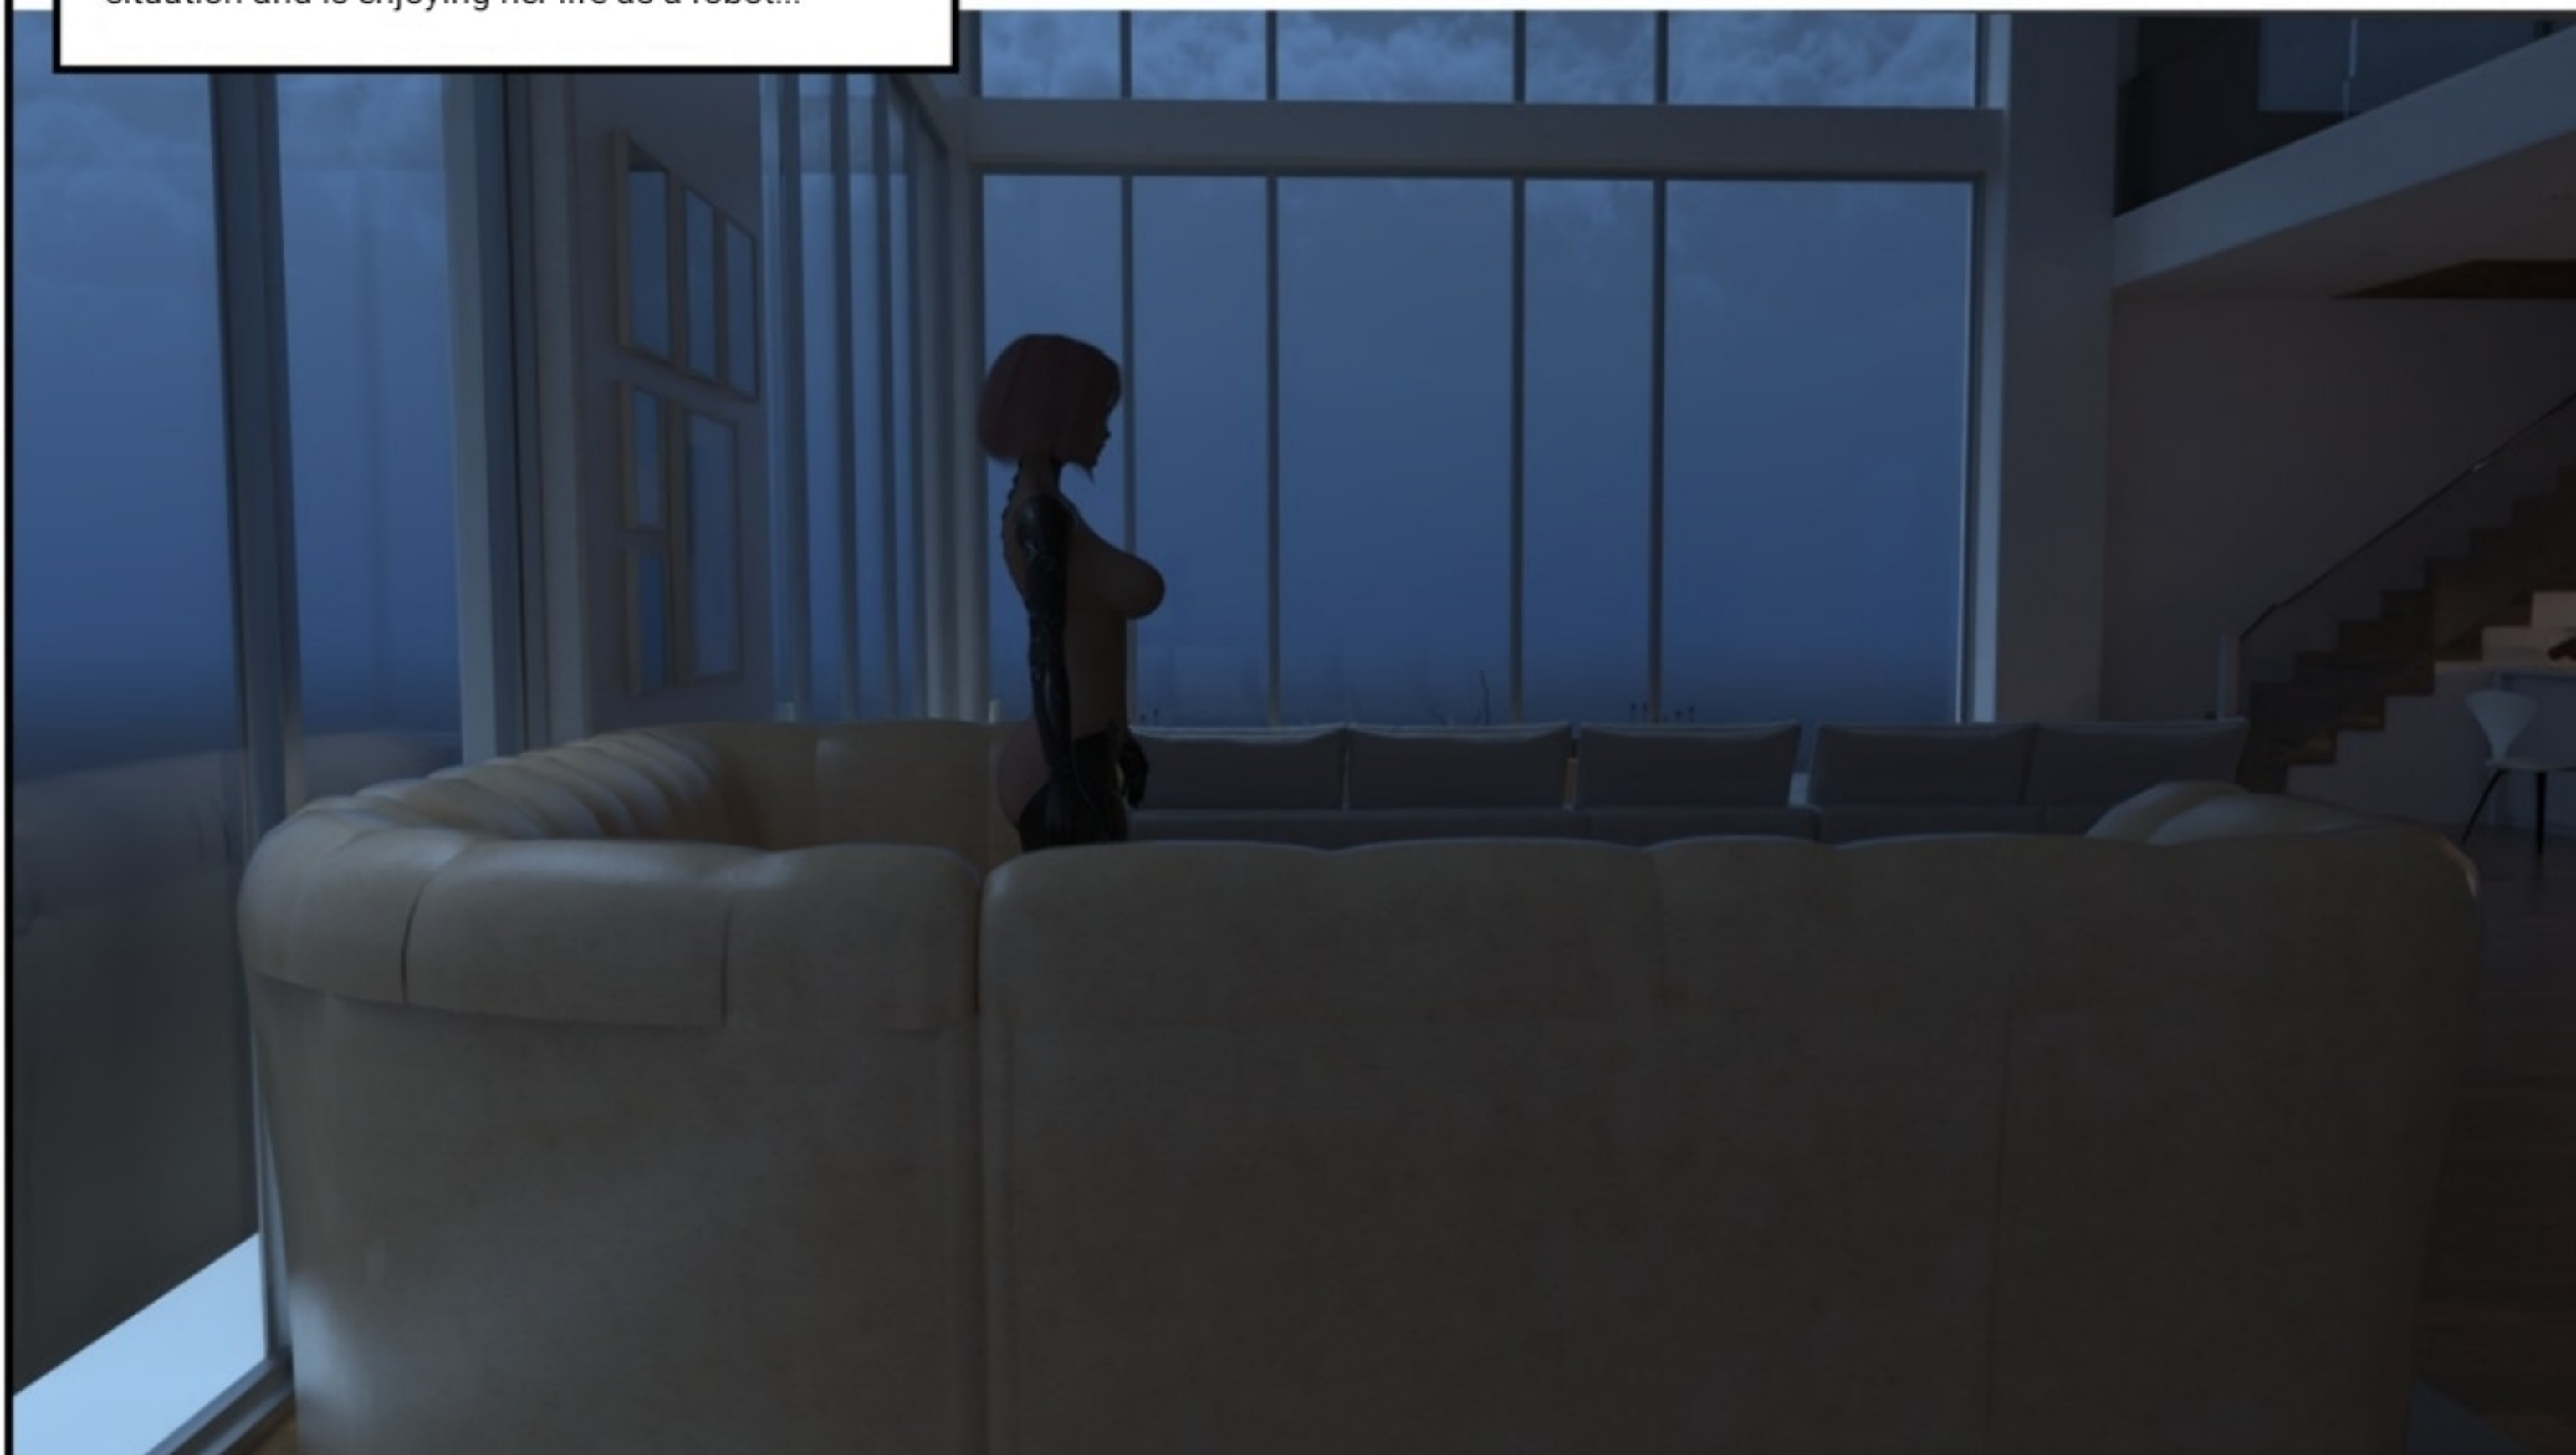

It's so thick. Husband, Su Wan likes your cock so much~

No one knows what Su Wan's true thoughts are in her heart right now...

Maybe she really doesn't care about her current situation and is enjoying her life as a robot...

Maybe she was able to suppress her emotions just because she was restricted by the Law of Robots...

However, one night, after experiencing shock after shock, the string in her mind seemed to have finally broken completely.
