**HELLO AND THANK YOU FOR SUPPORTING DKCX! WHETHER IT IS
THROUGH PATREON OR THROUGH OUR SHOPS, WE'LL ALWAYS BE
THANKFUL FOR YOUR SUPPORT!**

PLEASE DO NOT PIRATE OR RE-LINK THESE STORIES! LIKE C'MON NOW.

Alright, ready to begin are we?

This whole test is going to take a bit. If you aren't completely sure this is your last chance to back out.

I wish anybody here would tell me
WHAT the test is exactly.

The ad just said you guys wanted a model but-

Don't touch that. It's worth more than your house.

You're kidding!

Everything you needed to know was in the advertisement. We just need you to test our newest attire in front of some investors.

Now please follow me, this next part could potentially take the longest.

Inside this booth is what I need you to put on for the project.

Take your time, make sure you're comfortable.
Remember, we need you completely nude inside so
all undergarments need to come off.

No peeking then?

I'll be out here once you're ready.

Wait, is this-

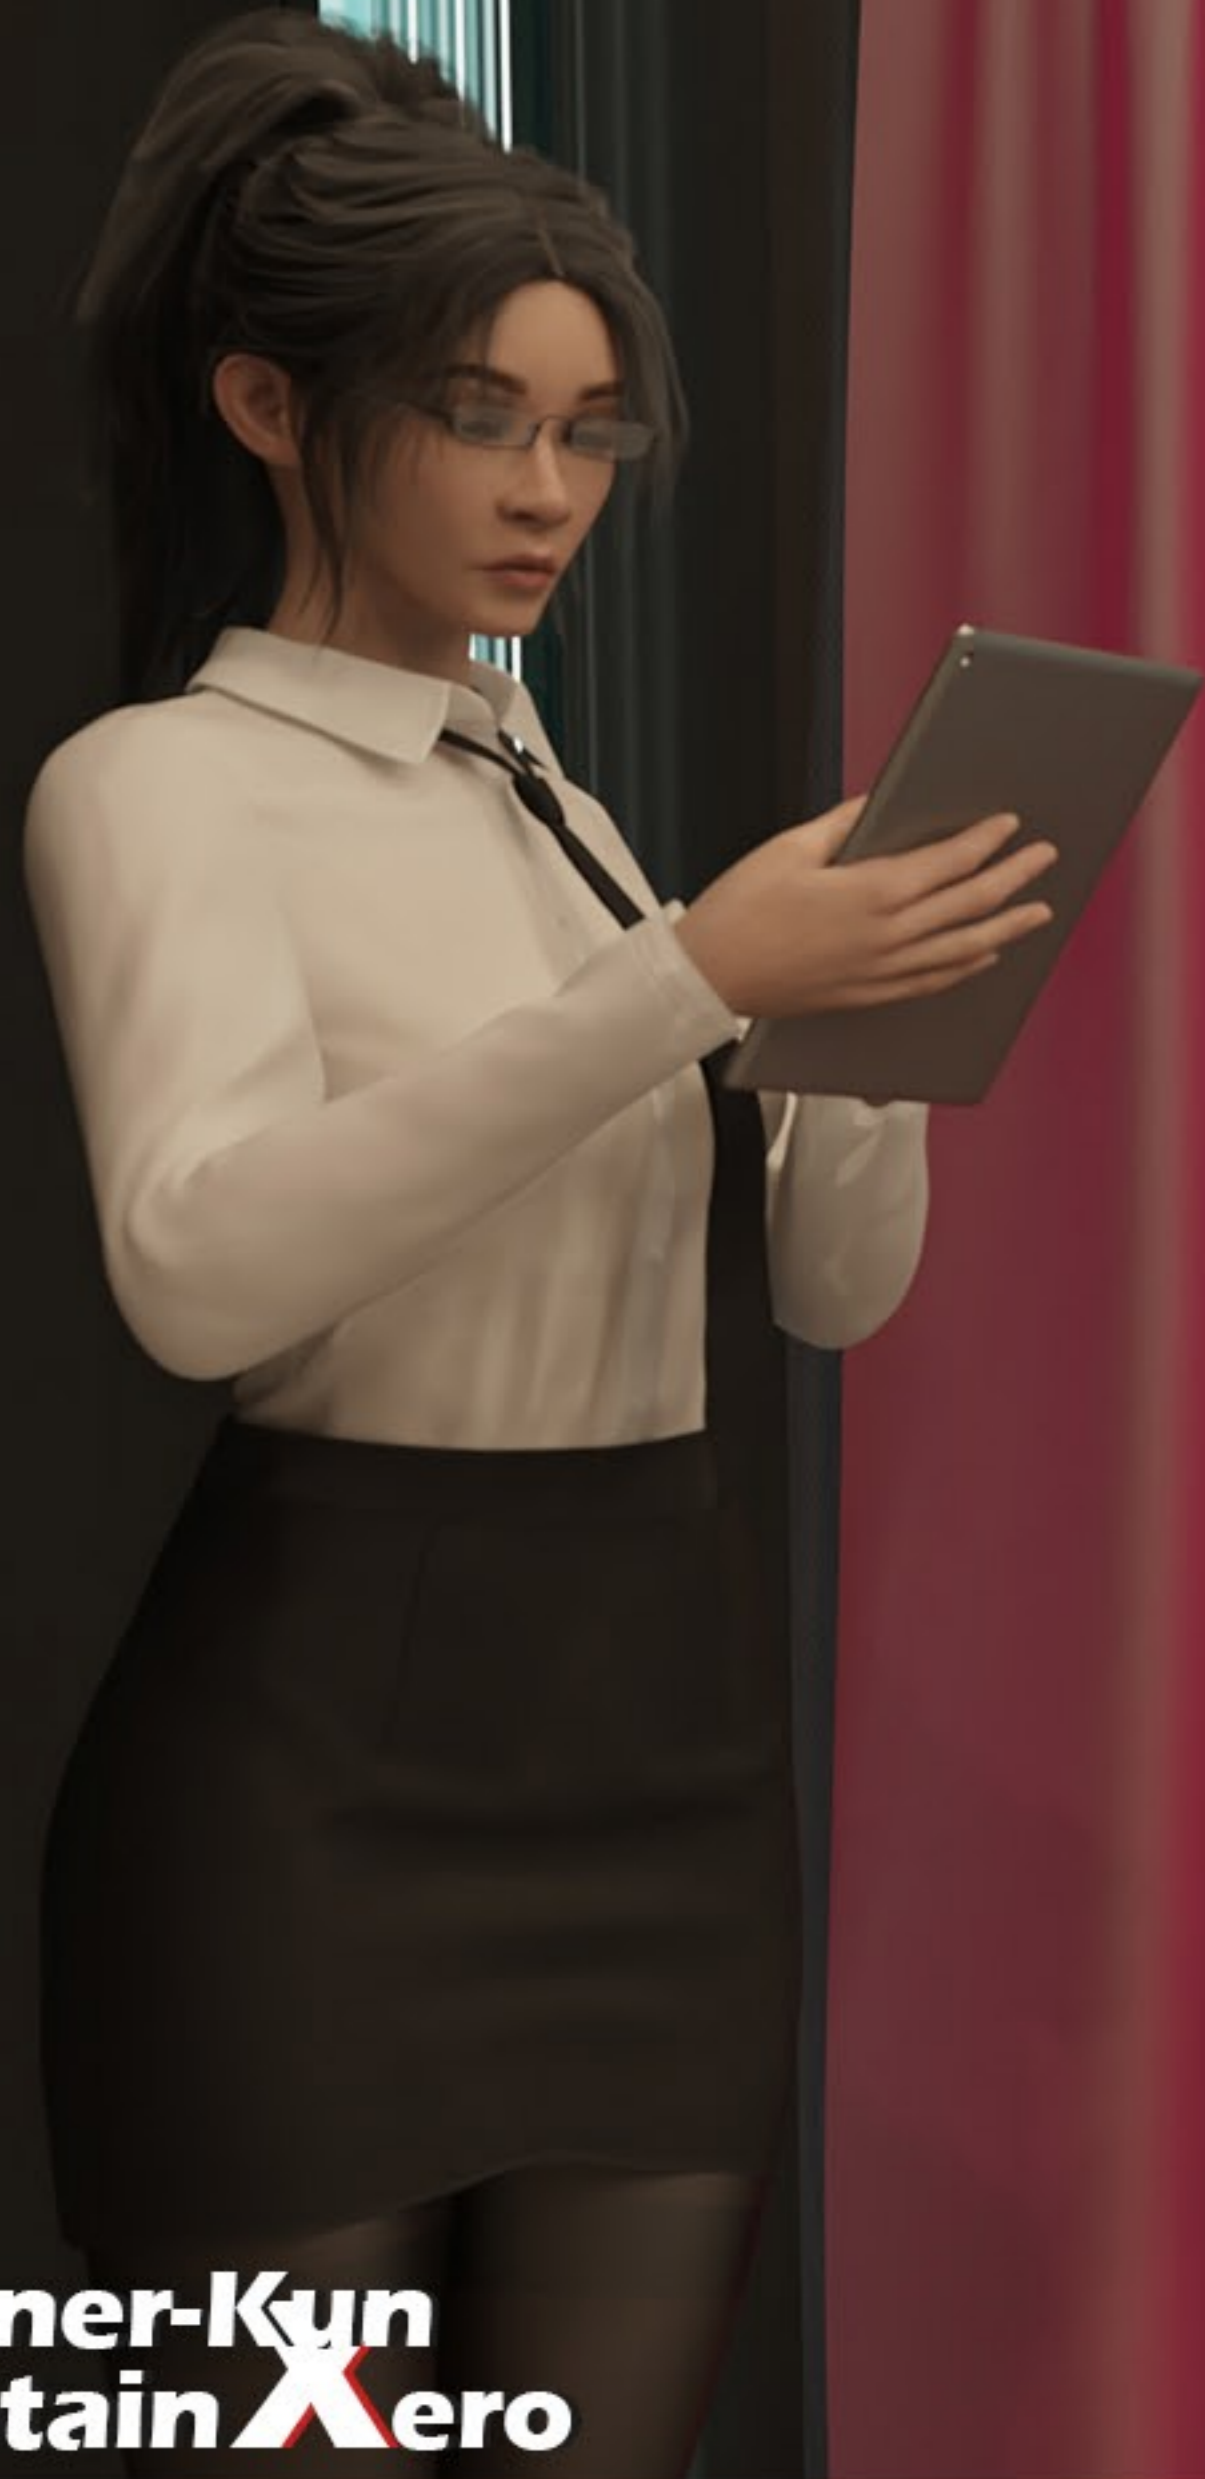

You want me to wear *that*?

Is there a problem?

A woman with long, wavy brown hair is shown from the waist up. She is wearing a light green, short-sleeved, form-fitting dress with a dark green corset-style bodice. Her hands are on her hips, and she has a slightly open-mouthed, surprised or questioning expression. The background is dark and indistinct.

**You guys are getting into fetishwear
huh? I respect that.**

God, this thing is tight!

How the hell am I supposed to take this off afterwards?

Okay, I think I'm all ready.

How do I look?

More importantly, how do you feel?

Like I'll hear this squeaking in my sleep.

Don't worry, the sound will subside as you remain in the suit.

I'll believe it when I see it.

Now, I can begin with the proper testing.

Proper how? Isn't it just a latex suit?

It is far more than that.

Dinner-Kun
Captain Xero

Huh, did it get tighter all of a sudden?

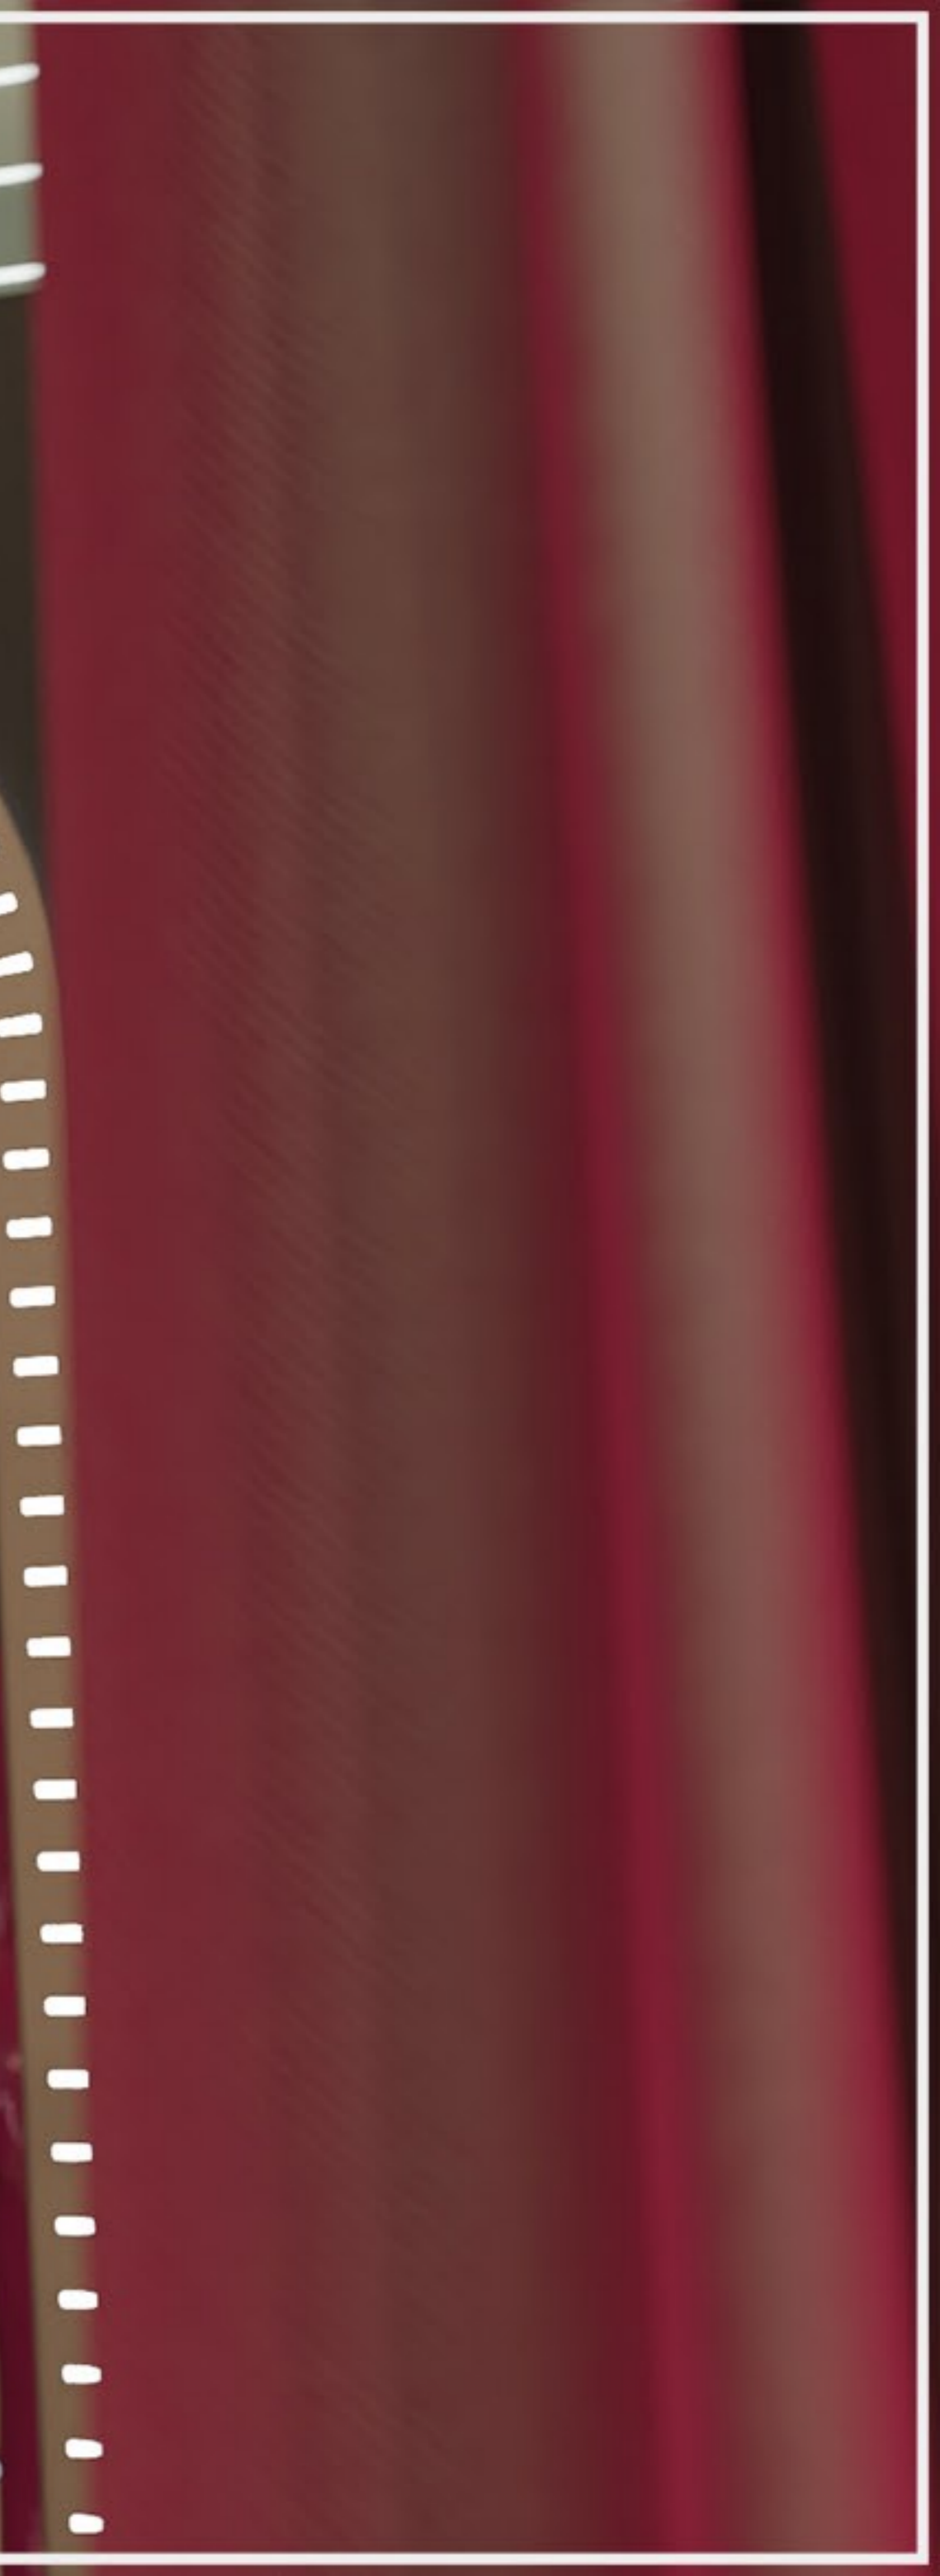

Perfect. Bonding process was successful.

The investors are ready, let's get you on stage.

You know how to handle yourself. Just go out and enjoy the moment.

Are you going to explain-

**I don't have to, it's part of the NDA you signed.
But, if you're a good girl and perform well I'll
tell you anything you want to know.**

Just go and enjoy yourself, live in the moment.

The suit will do the rest.

So, you've all been waiting here for little 'ol me right?

I hope you enjoy the show...

I hope I get to keep that!

It can't just be the suit, it feels like
that's my actual ass back there...

T-That feels real too!

Dinner-Kun
Captain Xero

It's not the suit, or at least... It's the suit making me actually bigger!

**This... this is outstanding! I feel
incredible right now!**

Is it going to stop?

Even if it could, I think I wanna see whatever the limit might be because this is just too damn cool!

This thing does muscles too?!

Hell yea! I feel like I could pick up a damn bus!

You guys gotta invest in this shit! You're all seeing this right?

I feel like a god damn monster!

Who wants to see a strength test!?

Well, it seems this was incidentally beneficial.

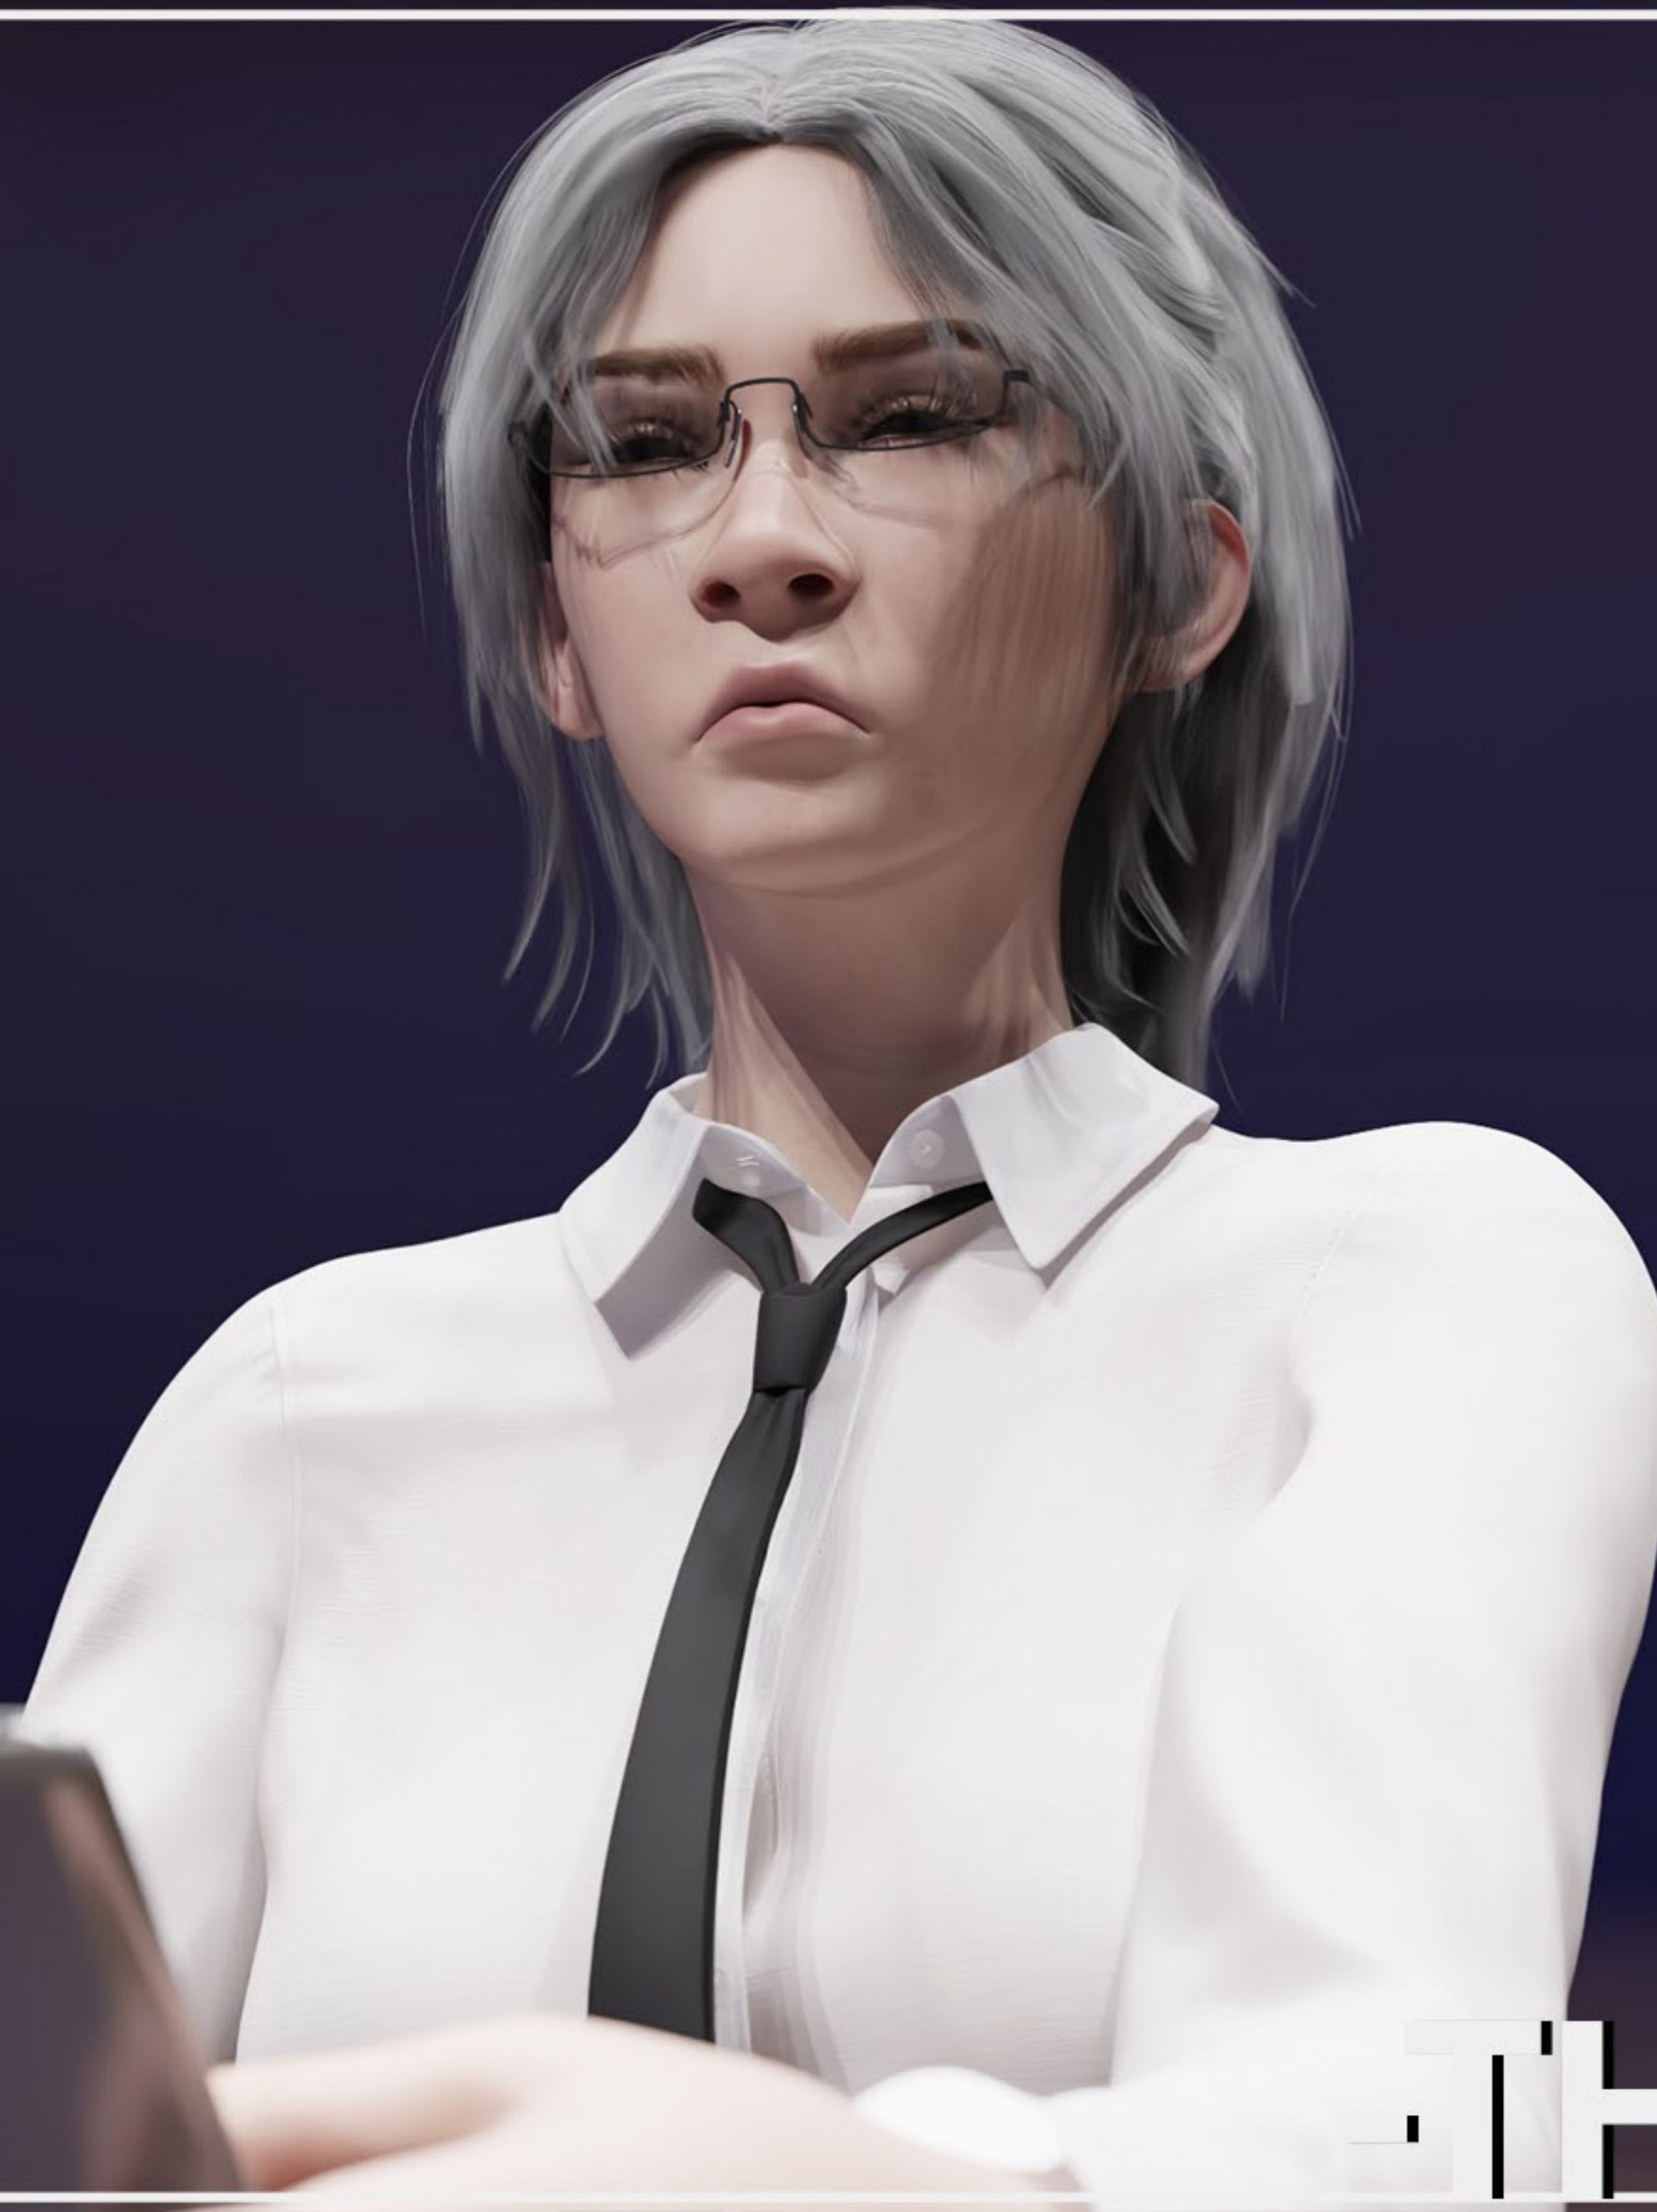

She was only supposed to grow an extra foot at best, but now we can calibrate future suits better for mass production.

I thought we caught all those potential little glitches in the genome altering synth-weave but I guess something always sneaks through the cracks.

Well, with the funding she just got us there will be plenty of time to work out the kinks.
