

SUGAR PILLS: **RAMPAGE** PART 2

"I think she's ready to get up..."

Sophie's eyes were fixated on the growing figure in front of her. Annie's libido was unlike anything she had ever seen, which considering her own lustful surges that in itself was an incredible feat. Though it seemed like Annie was ready to finally make her newest reveal, Sophie and Sasha gleefully prepared to see just how huge the redhead had now become.

"You're lucky that you're so big, otherwise I'd keep you under me forever."

"Yea yea, you could at least thank me for a job well done..."

Annie slowly began to rise. Not wanting to keep her two massive fans waiting, she continued to flaunt her extended frame piece by piece.

"Ooooh... It feels good to stretch these bigger legs."

Sasha couldn't help but let out a faint chuckle.

"Well, we've certainly caught you up a fair bit!"

Knowing her personal height target was still behind her, Annie couldn't help but showboat her taller figure as she finally began to stretch towards the heavens.

"Ahhh! It the view must be nice for the two of you down there. I'll let you both breath it in for a little bit!"

Annie was elated. Finally, she had really done it. The two giantesses she (figuratively of course) looked up to since first hearing about them had to now look up towards her still expanding frame. At least, that's what she thought...

In a moment of pure embarrassment, Annie turned to see the wall of flesh that was Sophie's gargantuan breasts now meeting her gaze. The two round orbs were perfect, though still not the sight that she ultimately wanted to see. Feeling defeated, the blushing redhead looked up towards Sophie, still trying to contain her laughter over Annie's previous remarks.

"Sorry kiddo, you aren't caught up juuuuuust yet."

"Though, it looks like it was a great start. You definitely ARE bigger. Too bad you let Sophie in on the fun though, comparatively you're still about the same. Would've been funny to see Sasha as a "tiny" for a bit!

The joke wasn't left on Sasha, who let out her own sarcastic remark.

"I mean, I guess 'tiny' is the word we could use to describe me. Sure, let's go with that..."

Meanwhile, Annie couldn't help herself. She slowly grazed a hand across one of Sophie's luscious breasts, hoping that, if it all worked out, she would be able to feel something so large and pillow-like in her own big tits soon enough.

"Well, I guess I have no choice but to accept the challenge put in front of me..."

Annie's gaze slowly slid towards the "diminutive" Sasha. While Sasha's figure was still the curviest of the three women, her size was still drastically small. To Annie, it was like playing with a small toy, which meant now she could do anything she wanted to...

"Oh Sasha? I feel like you should return the favor for my 'good work' earlier, no?"

Catching Sasha off-guard, Annie slowly pulls Sasha's face towards her crotch. Feeling a small amount of fighting back at first, Annie can feel Sasha quickly surrender to against her far stronger opponent. Of course, to the victor goes the spoils, one for which Annie was dribbling with excitement for...

"Ahh... Ah... I... It's so warm..."

"Ke... Keep going..."

"Y... You keep going damn it!
I won't let you stop until I... I'm fucking huge!"

What was once a calm hand against her head was now an incredibly forceful push. The more Annie's libido surged out of control the more Sasha's head would be rammed into Annie's growing wet pussy. Annie was far too lost in her pleasure to even care about Sasha's wellbeing at this point, for her, sky's the limit.

Sophie could only look on with an anticipated gaze. Slowly Annie's silhouette began to match her own. The lustful moans only got Sophie more and more excited as she waited to lock eyes with her newest "opponent." Even Sophie was too busy to notice Sasha's feet easily dangling off the ground, still forced to work her magic tongue on Annie's pussy.

With a scream of primal lust, Annie took her full stride. With the now minuscule Sasha still shoved hard against her crotch, Annie's lust for the moment was sated. Without thinking, she quickly let off all the pressure keeping Sasha stuck.

"M...Mmmph?!"

With the grace of a beached whale Sasha began to descent upon the streets below. Looking up she could only see the shadow of the far larger Annie looming over her, a byproduct of Sasha's own seductive service. A few faint spatters of Annie's lust could be felt trickling from above as Sasha's figure crashed to the ground.

"U.. Ugh..."

An unfortunate police vehicle was caught in the crossfire. Attempting to keep civilians away from this apparent "danger zone," this officer of the law paid the ultimate price: to be crushed by the third largest ass on the planet.

"I... I'm not doing that a second time... Urgh..."

Meanwhile, miles above ground, Sophie had finally managed to lock eyes with her redheaded opponent. While she could read the absolute excitement across Annie's face, Sophie herself hadn't had somebody this big to play with in quite some time. This was a moment she wanted to take in, if only for a moment.

"Not so big now, are you?" Annie said wryly.

"Not anymore, but we can always change that huh..."

"You naughty goddess you..."

Quickly the two giantesses couldn't contain themselves any further. The two quickly began their work, only this time Sophie was caught off-guard by Annie's thematic aggression.

"Oooh... Playing the tough guy are ya?"

Annie couldn't help but let out a small chuckle before her small shoves turn to one massive push.

"More than you would think..."

A screenshot from a video game showing two nude female characters in a city environment. The character in the foreground has long, flowing white hair and is leaning back. The character behind her has long, straight red hair and is leaning forward, embracing the first character. They are positioned in front of a building with a sign that says "DOT". The sky is a clear, bright blue.

"Wh... Wha-"

Suddenly, Sophie was hit by Annie's massive frontal attack. Not prepared for Annie's quick hit, Sophie was immediately knocked off her feet. Grabbing onto Annie's huge form for dear life, Sophie began to brace for impact."

"Get ready there boobzilla!"

Soon, Sophie could feel the force of a massive object collide behind her. From her previous experiences, it was easy to make out the metallic surface as the skyscraper caved in underneath the massive girth of the two huge figures. Annie was clearly overjoyed by their destructive behavior, letting out laughter on the entire ride downwards.

Still inside the skyscraper, a lone businessman with aspirations of greater things walked the halls of what mere moments earlier was his office space. Had he taken even one further step into his cubicle he would have ceased to exist, obliterated by the world-changing figure now gracing his presence. He was stunned, unable to move yet thankful at least in that moment to be alive. In more ways than one, he had been a very lucky guy...

"Now then... I think it's time we finally have some fun..."

Sophie scoffs at Annie's apparent challenge.

"Give me everything you got, let's grow as big as we fucking can!"

Suddenly, Sophie could see the drastic change in Annie's eyes. The energetic, rampaging lust was soon lost beneath a calm. She had no idea what transformation just occurred, but she wasn't certain if it was something she would ultimately enjoy or not...

"Ooh... I... I can't help myself..."

Meanwhile, the dazed Sophie slowly began to regain consciousness. Having fallen out of Annie's grip prior, the still large giantess by human standards had been left high and dry. Having regained a modicum of strength, Sophie raises her head to a rather shocking sight...

"I... Really need to catch up... uuuugh..."

"Ugh... Sophie... Y... You better stop me..."

Annie began to stutter between her words. Sophie could feel Annie's quivering pussy gyrating against her own, but stuck under the wait of Annie's form was helpless to act.

"I... I can't contain myself..."

"Holy shit..."

Sophie could hardly believe what she was seeing. As if looking in the mirror she watched helpless to move as Annie's body continued to gyrate uncontrollably. As her gushing pussy continued to grind up and down Sophie's body, she could see the two luscious mounds of Annie's breasts slowly but surely expanding higher and higher. Soon they would be even bigger than Sophie's own, but they didn't seem like their growth planned to stop...

"N... Ne..."

“Yes! Yes!”

Annie couldn't even let out a finished word, for she was far too busy letting out deep, sensual moans of pleasure. As she felt her engorging frame further eclipsing Sophie, she let out one last primal scream, letting out all of her pent up sexual tension as her body continued to careen higher into the sky.

Sophie was dumbstruck by Annie's commanding presence. For somebody who had been in control for so long, this was the first time in forever that Sophie felt just as small as she had once been ages ago. Her feelings quickly changed as Annie's emerald green eyes began to stare a hole right through her...

"So... Sophie..."

Annie spoke slowly. Sophie took a deep breath before attempting to respond,

"Wh... What is is Annie?"

"You look... so... small from here..."

With a sudden surge, Sophie felt Annie's massive frame slide across her with an almost unbelievable speed. Like it was nothing Annie had found herself a brand new sexual conquest. Just like Sasha before her, Sophie was now trapped between a rock and a hard place. It was pleasure Annie or face her wrath, not that Sophie wasn't in the mood to let out a bit of sexual frustration herself...

"N.. Now this is more like it!"

Annie could feel Sophie's tight grip across her ass as it continued to swell further. Sophie's massive tongue was a perfect challenger for her ravenous pussy, still attempting to sate its endless sexual hunger. Annie had everything she felt she needed, to her, this was heaven.

"This is what you two missed out on this whole ti... time! Friendship is nice, but realize just h... how great it feels to let... yourself... loose!"

Meanwhile on the grounds below, Sasha continued to look on awestruck at the sexual adventures in front of her. While she would love to join in, there was some fear of what Annie could potentially do to her in the mood she was in. However, the redhead's words rang true in Sasha's ears, for the two had only enjoyed in each other's sexual pleasures since their ascent began, at least that's what Sasha remembers.

It was at that moment that Sasha began picking up on the noises coming towards her from below. The sounds of sirens, screaming, hundreds of footsteps all running. The slight smell of smoke that continued to persist lazily in the air. Without even noticing, the three women had caused such rampant destruction. But as Sasha looked down, she finally began to put faces to the sounds she had begun to truly hear.

Below her heavenly assets were dozens of civilians. Many of them stunned in sheer terror of the sights they were seeing. Others left awestruck by the goddesses that casually walked above them. She could see some still running like their lives depended on it, while others went as far as to bow and pray in her presence. For all these people knew, the women in front of them were truly gods. To Sasha, she had still just been a girl with a special gift, but the sights she saw below snapped something deep within. Sasha let out a lustful smirk as she looked at these civilians below, for she had just thought up something truly devious...
