

Why do I have to put on my own  
skin and go to school to work as her..

Damn it, even if it's my own skin,  
I'm a man now and I don't think I  
can hold it for any longer, my dick is so hard...

Ahhhh, I'm going to cum!

Ha.. That was really something,  
now I really love male body more  
than ever.

The baby was just born, why do I have to wear my own skin this soon, who would nurse the baby.

I didn't expect that wearing my  
own skin would be this exciting,  
and now my cock gets so hard.

But this makes it easier to  
fit into this outer one.

Slipped right in there.

So, my current cock is from  
Mingming, and then inserted  
into my own skin... Wouldn't that be...

Ah, no, it's so exciting to think about it.

♣ Ah ♣ The feeling of my own  
cock ♣ Feeling soo good ♣

I have never experienced the feeling of being pregnant, I must wear this and experience it once.

They actually made this retained  
the shape of Zhao Jie's body  
when she was pregnant.

But will this belly feel like pregnant woman's?

Wow! It's really heavy, although  
there's no other weird feeling  
besides being heavy.

I didn't expect that my breasts  
would become so sensitive after  
become pregnant

But I seem to still be able to feel  
the cock under there, could it be  
that...?

You really can pull it out!

It's so magical, it's like having sex with myself.
