Carmen told Samantha about her new toy. Samantha became very curious and visited Carmen immediately to watch her new toy. After a very warm welcome ...

Wanna try it out?

Samantha looks excited to the new toy.

You can read the answer in Samantha's eyes. Samantha nods slowly.

Carmen removes Samantha's dress and starts the preparation. Firstly, a strict posture collar. This is also to prevent the steel collar from the new toy become uncomfortable.

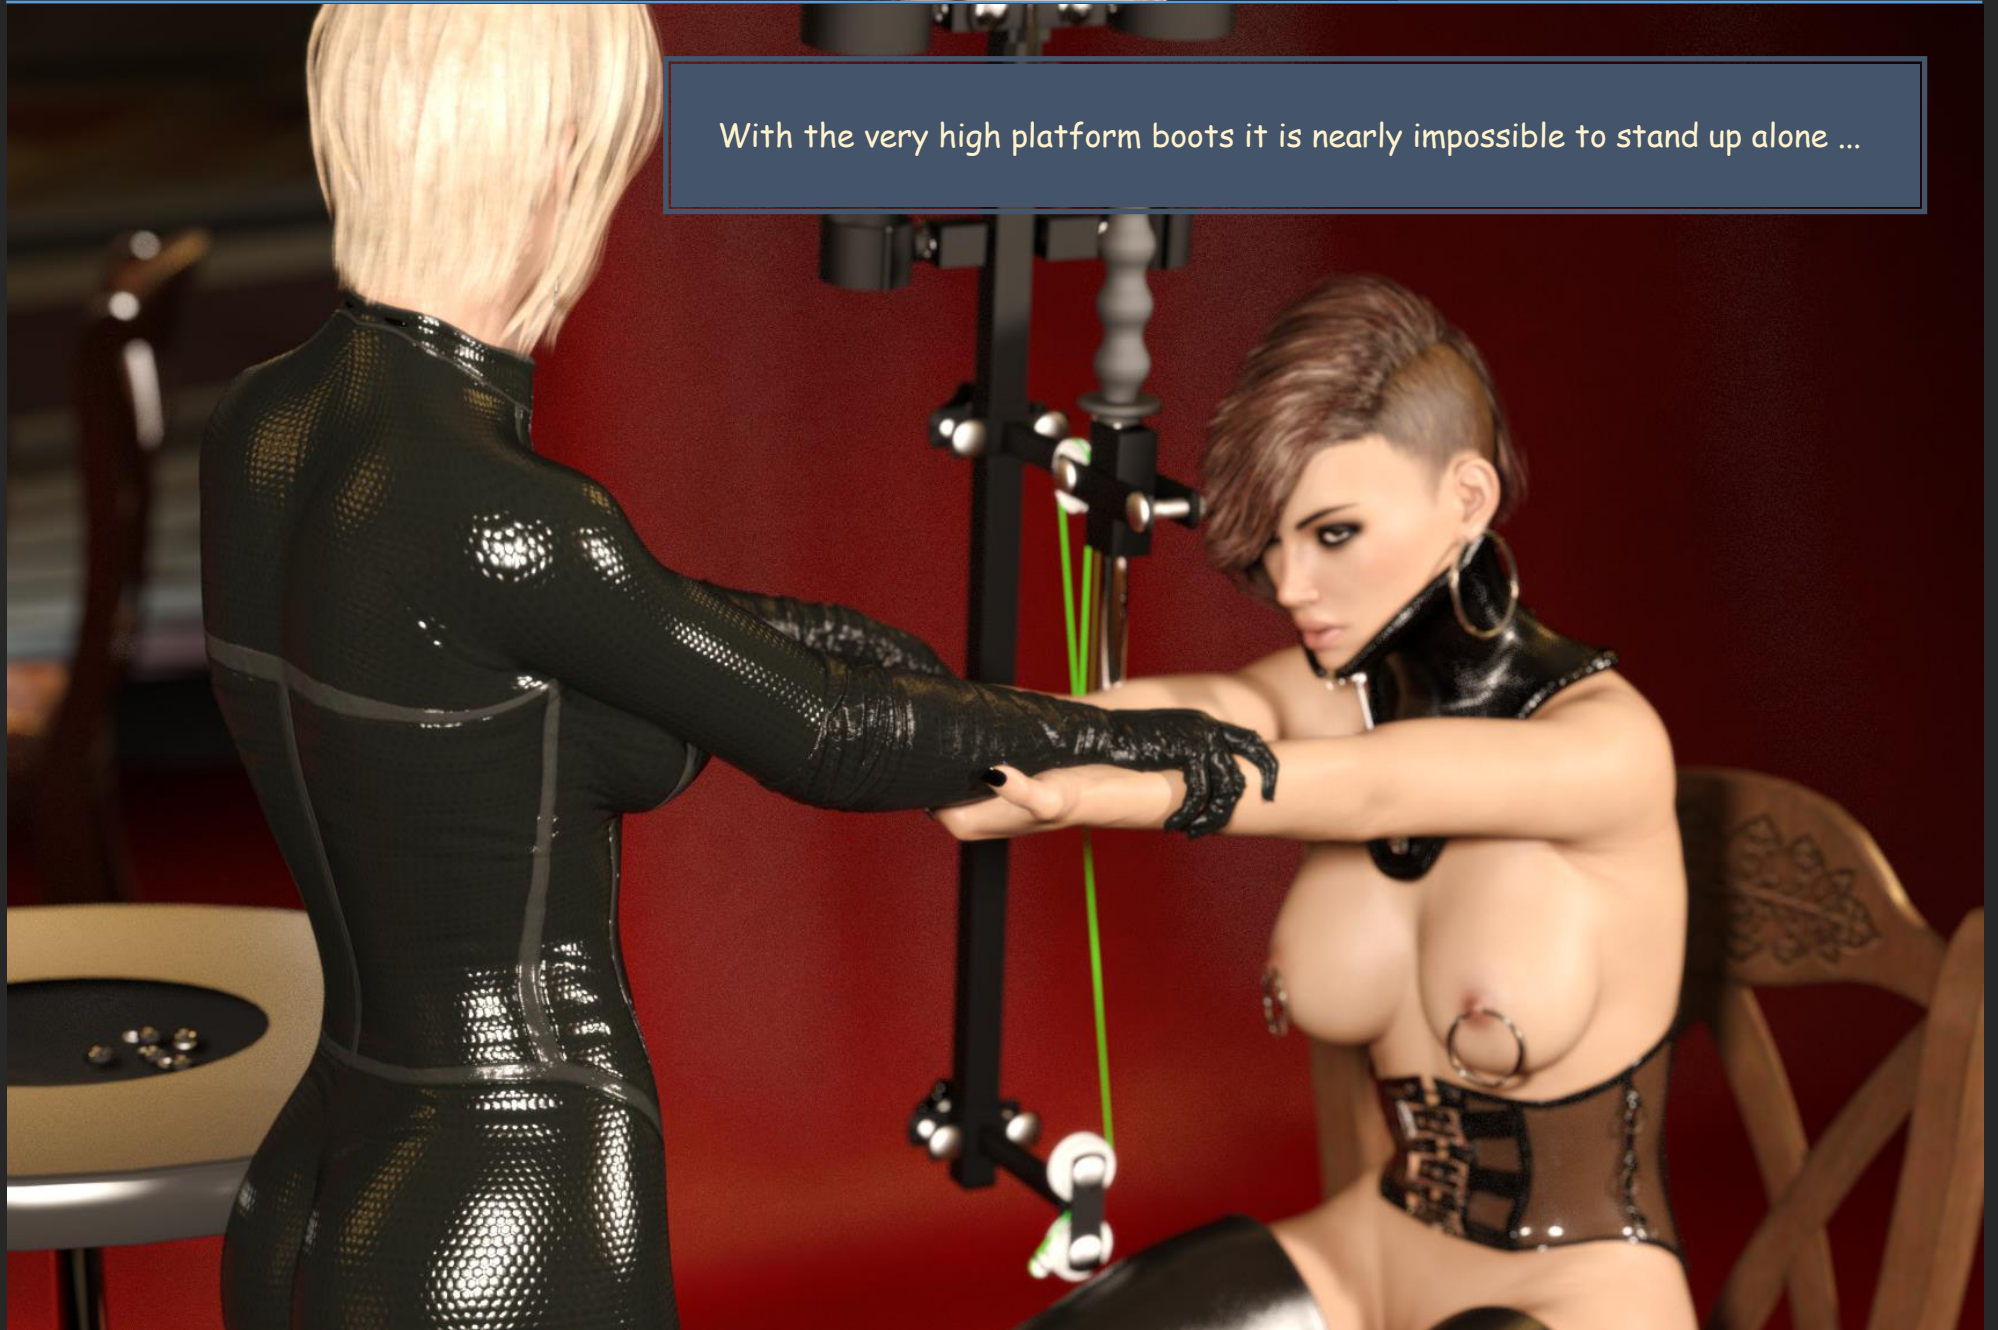

To further stabilize Samantha's body, Carmen puts a corset around her hips.

To extend the experience with the new toy for the walk, Samantha receives really high platform-over knee-boots. Carmen helps Samantha to wear these boots.

With the very high platform boots it is nearly impossible to stand up alone ...

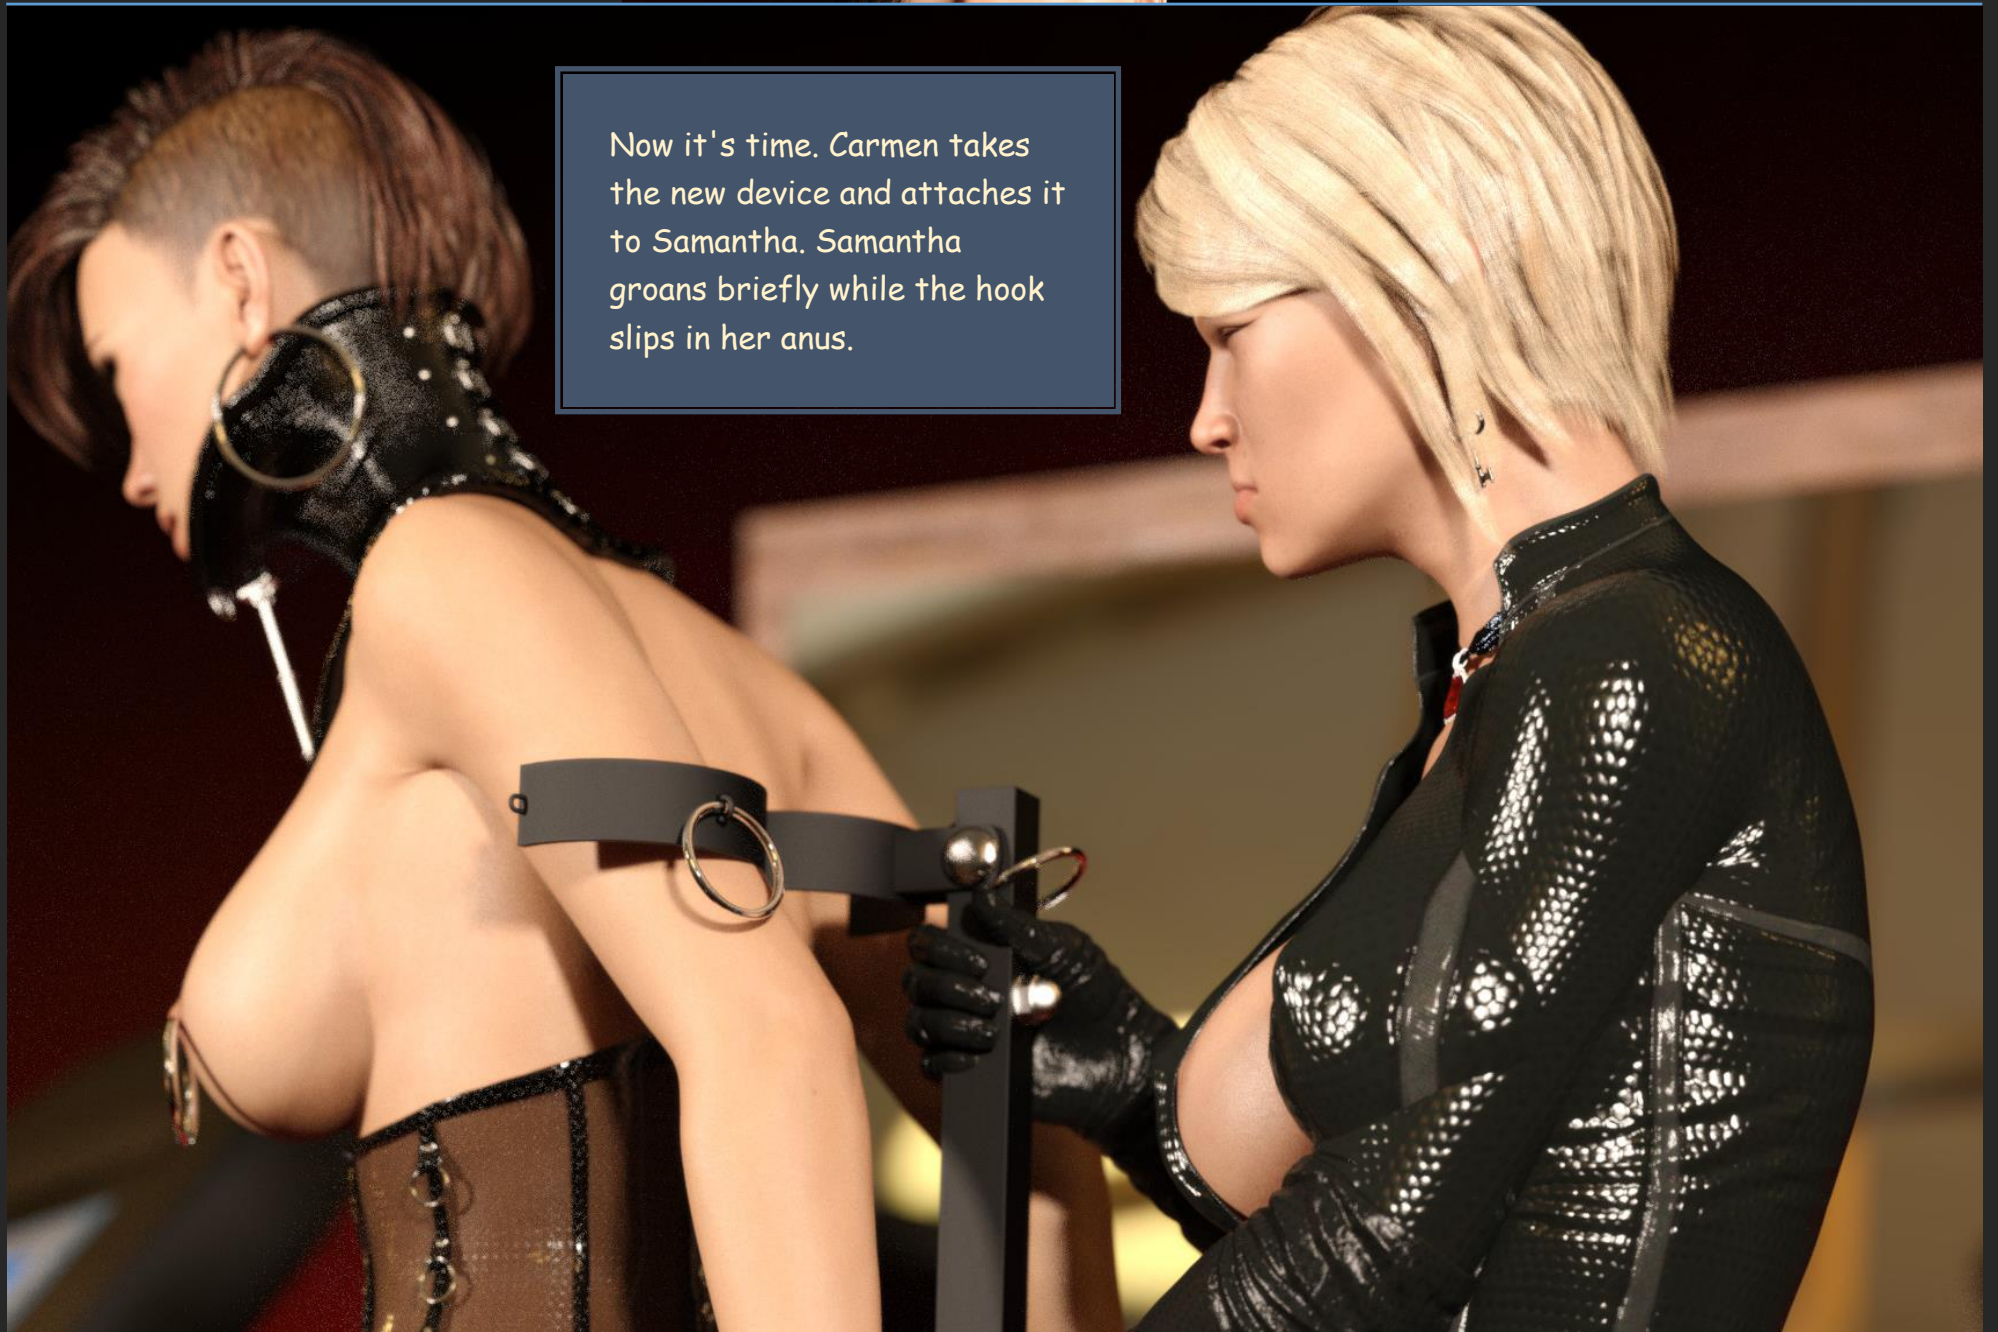

Carmen attached some cuffs on Samantha's ankles because they will be connected to the new toy.

Now it's time. Carmen takes the new device and attaches it to Samantha. Samantha groans briefly while the hook slips in her anus.

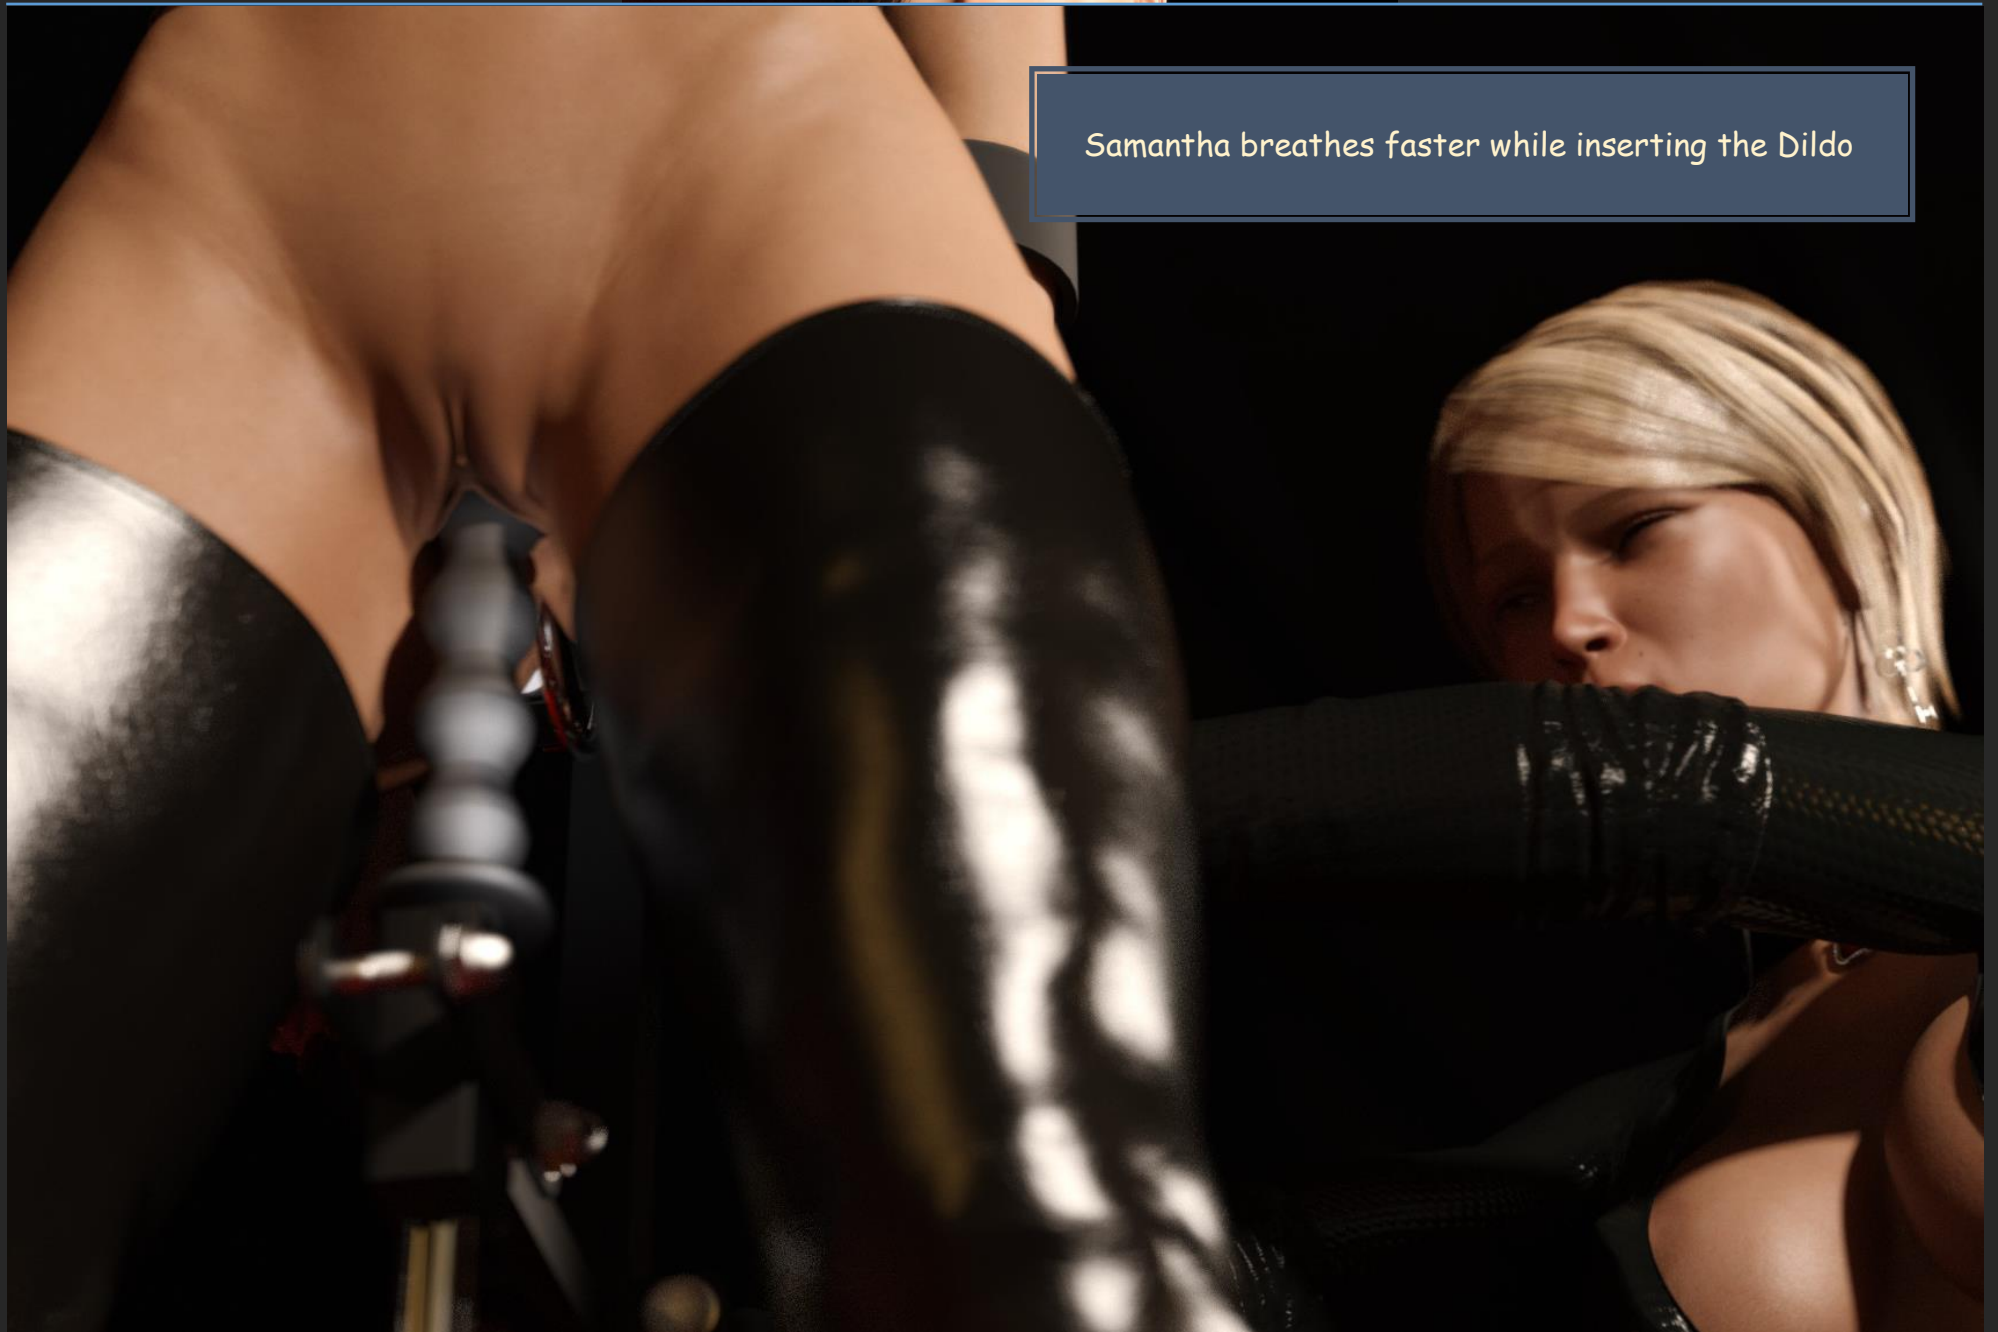

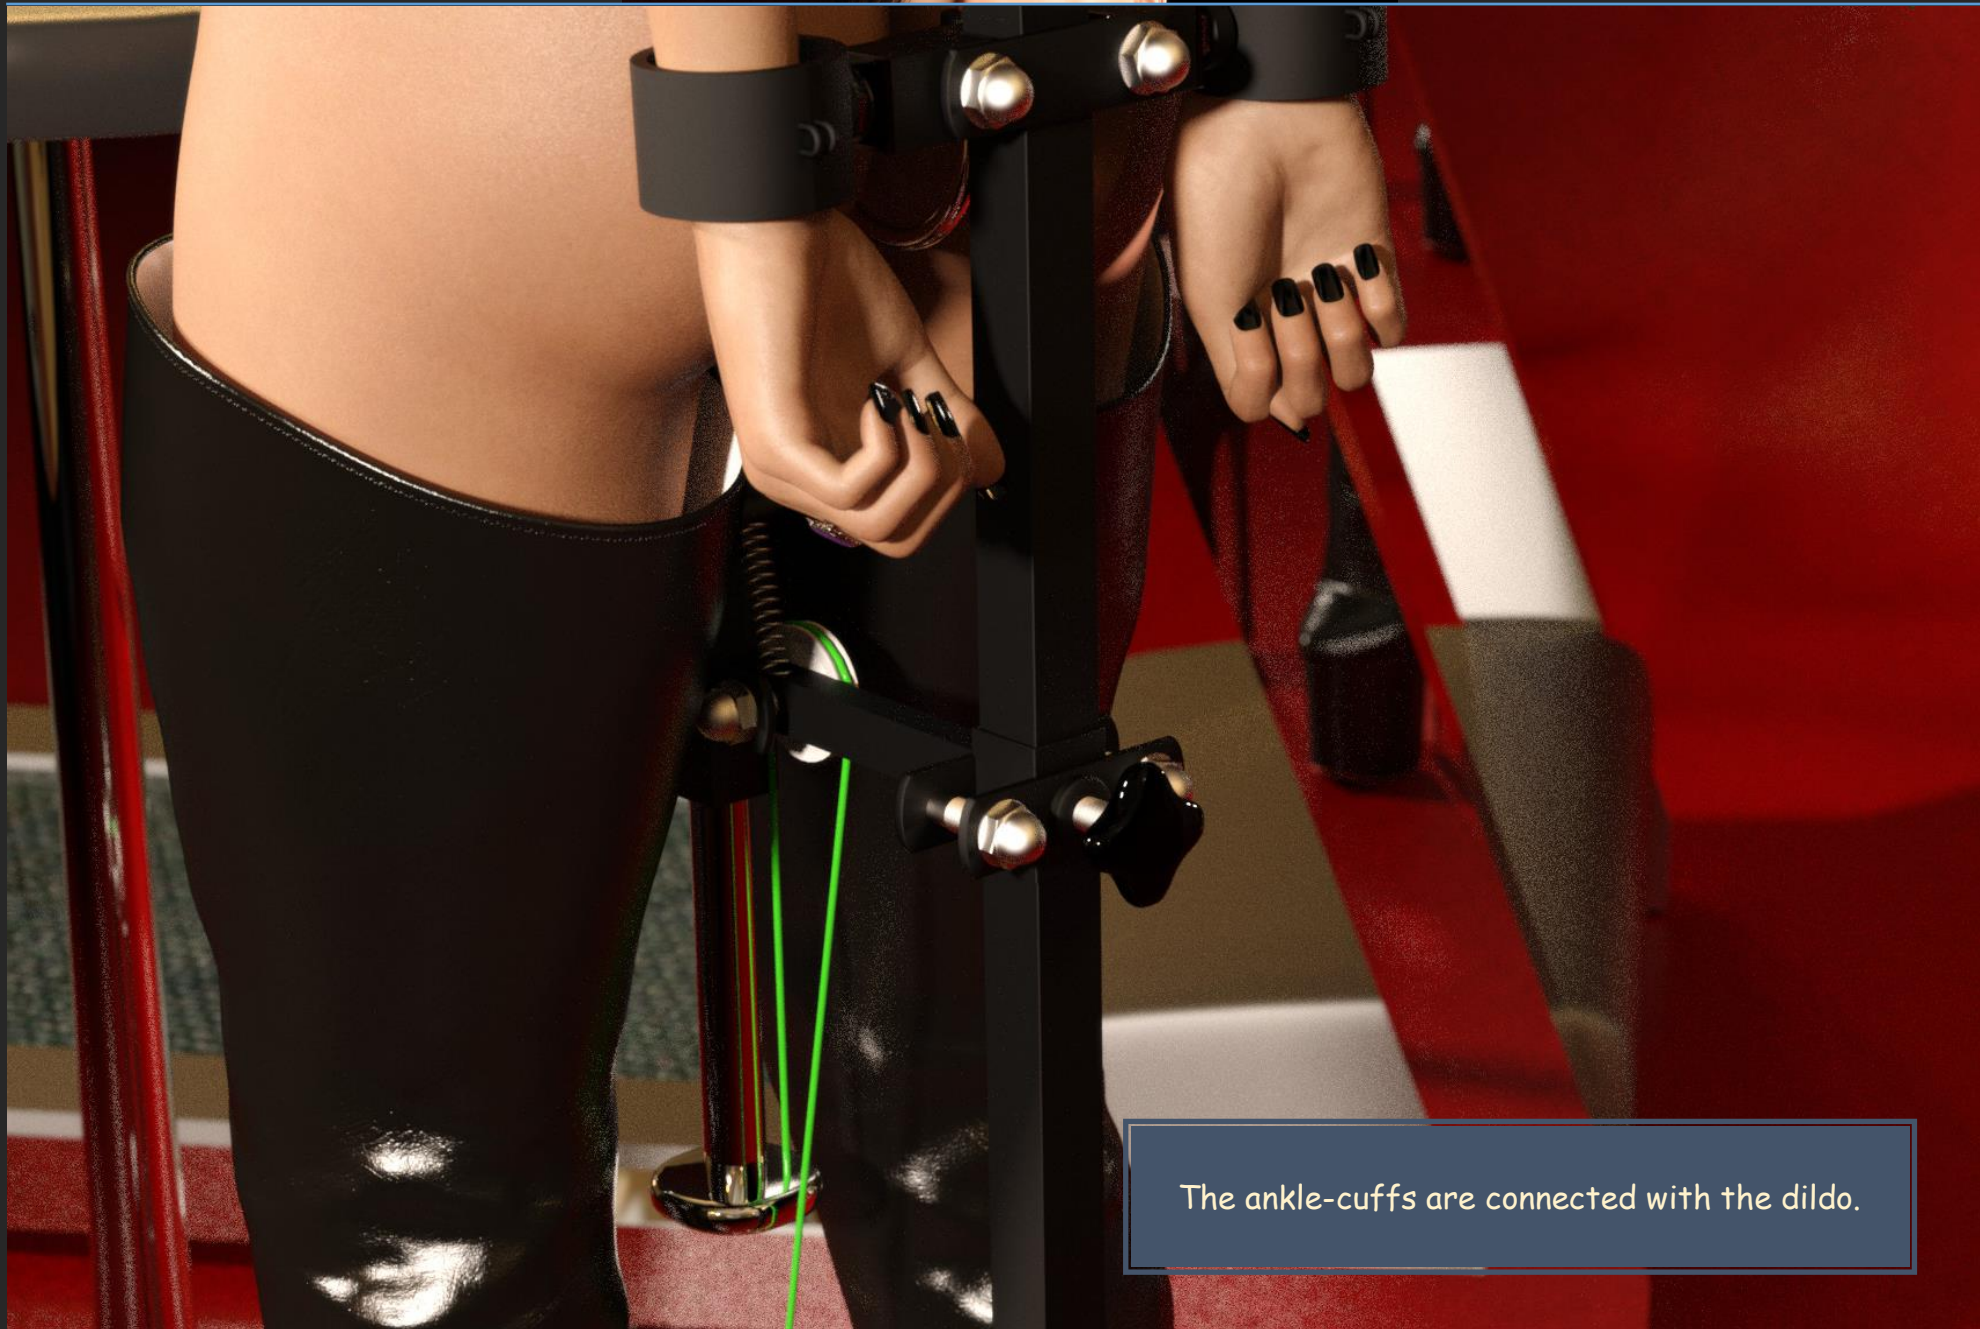

Carmen releases the lock of the dildo holder and pushes it slowly upwards.

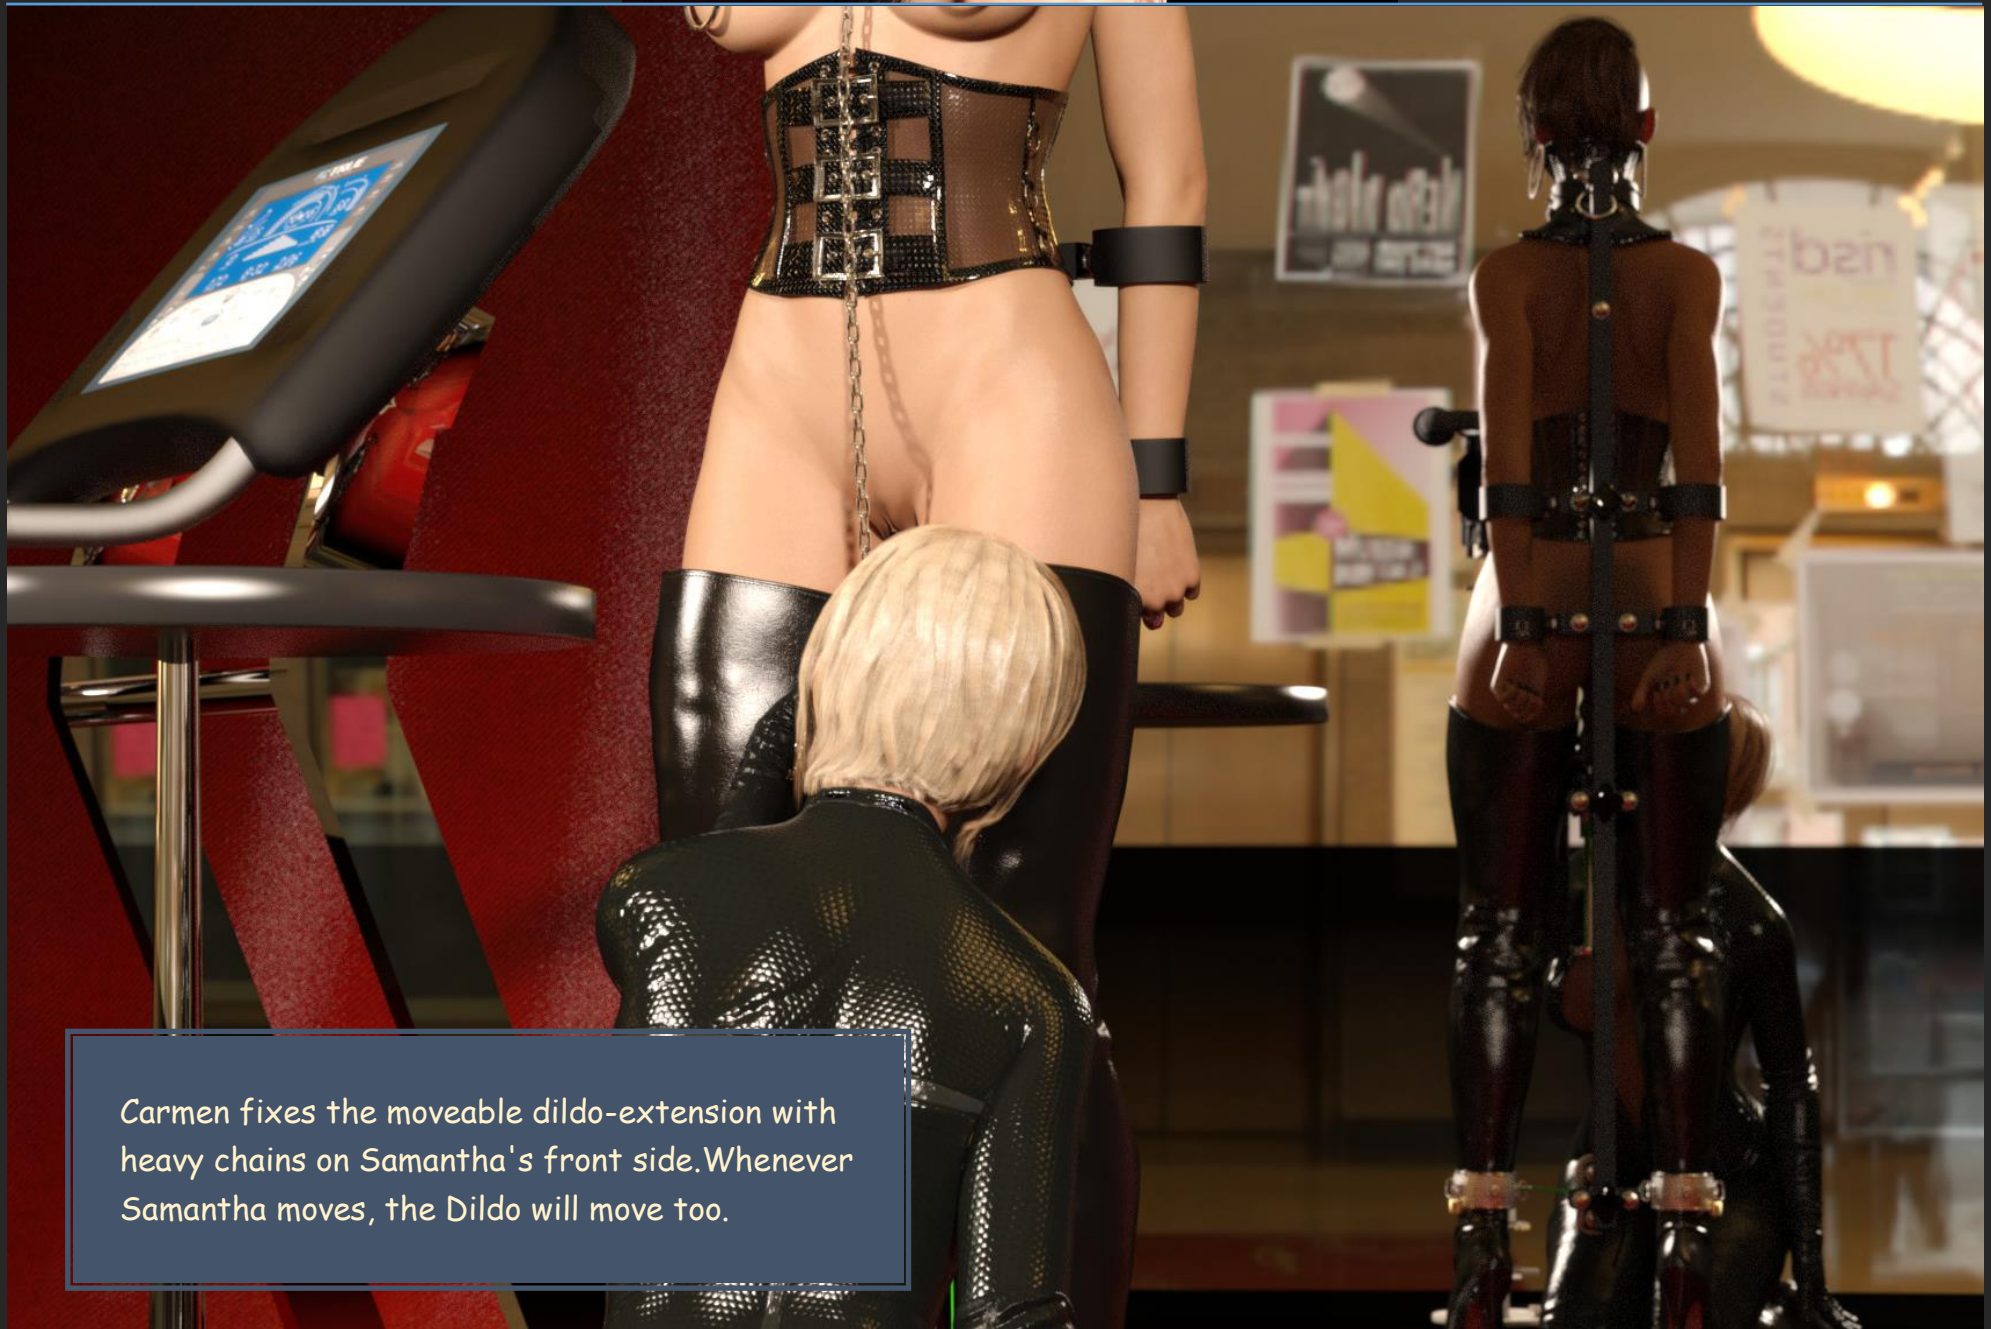

Samantha breathes faster while inserting the Dildo

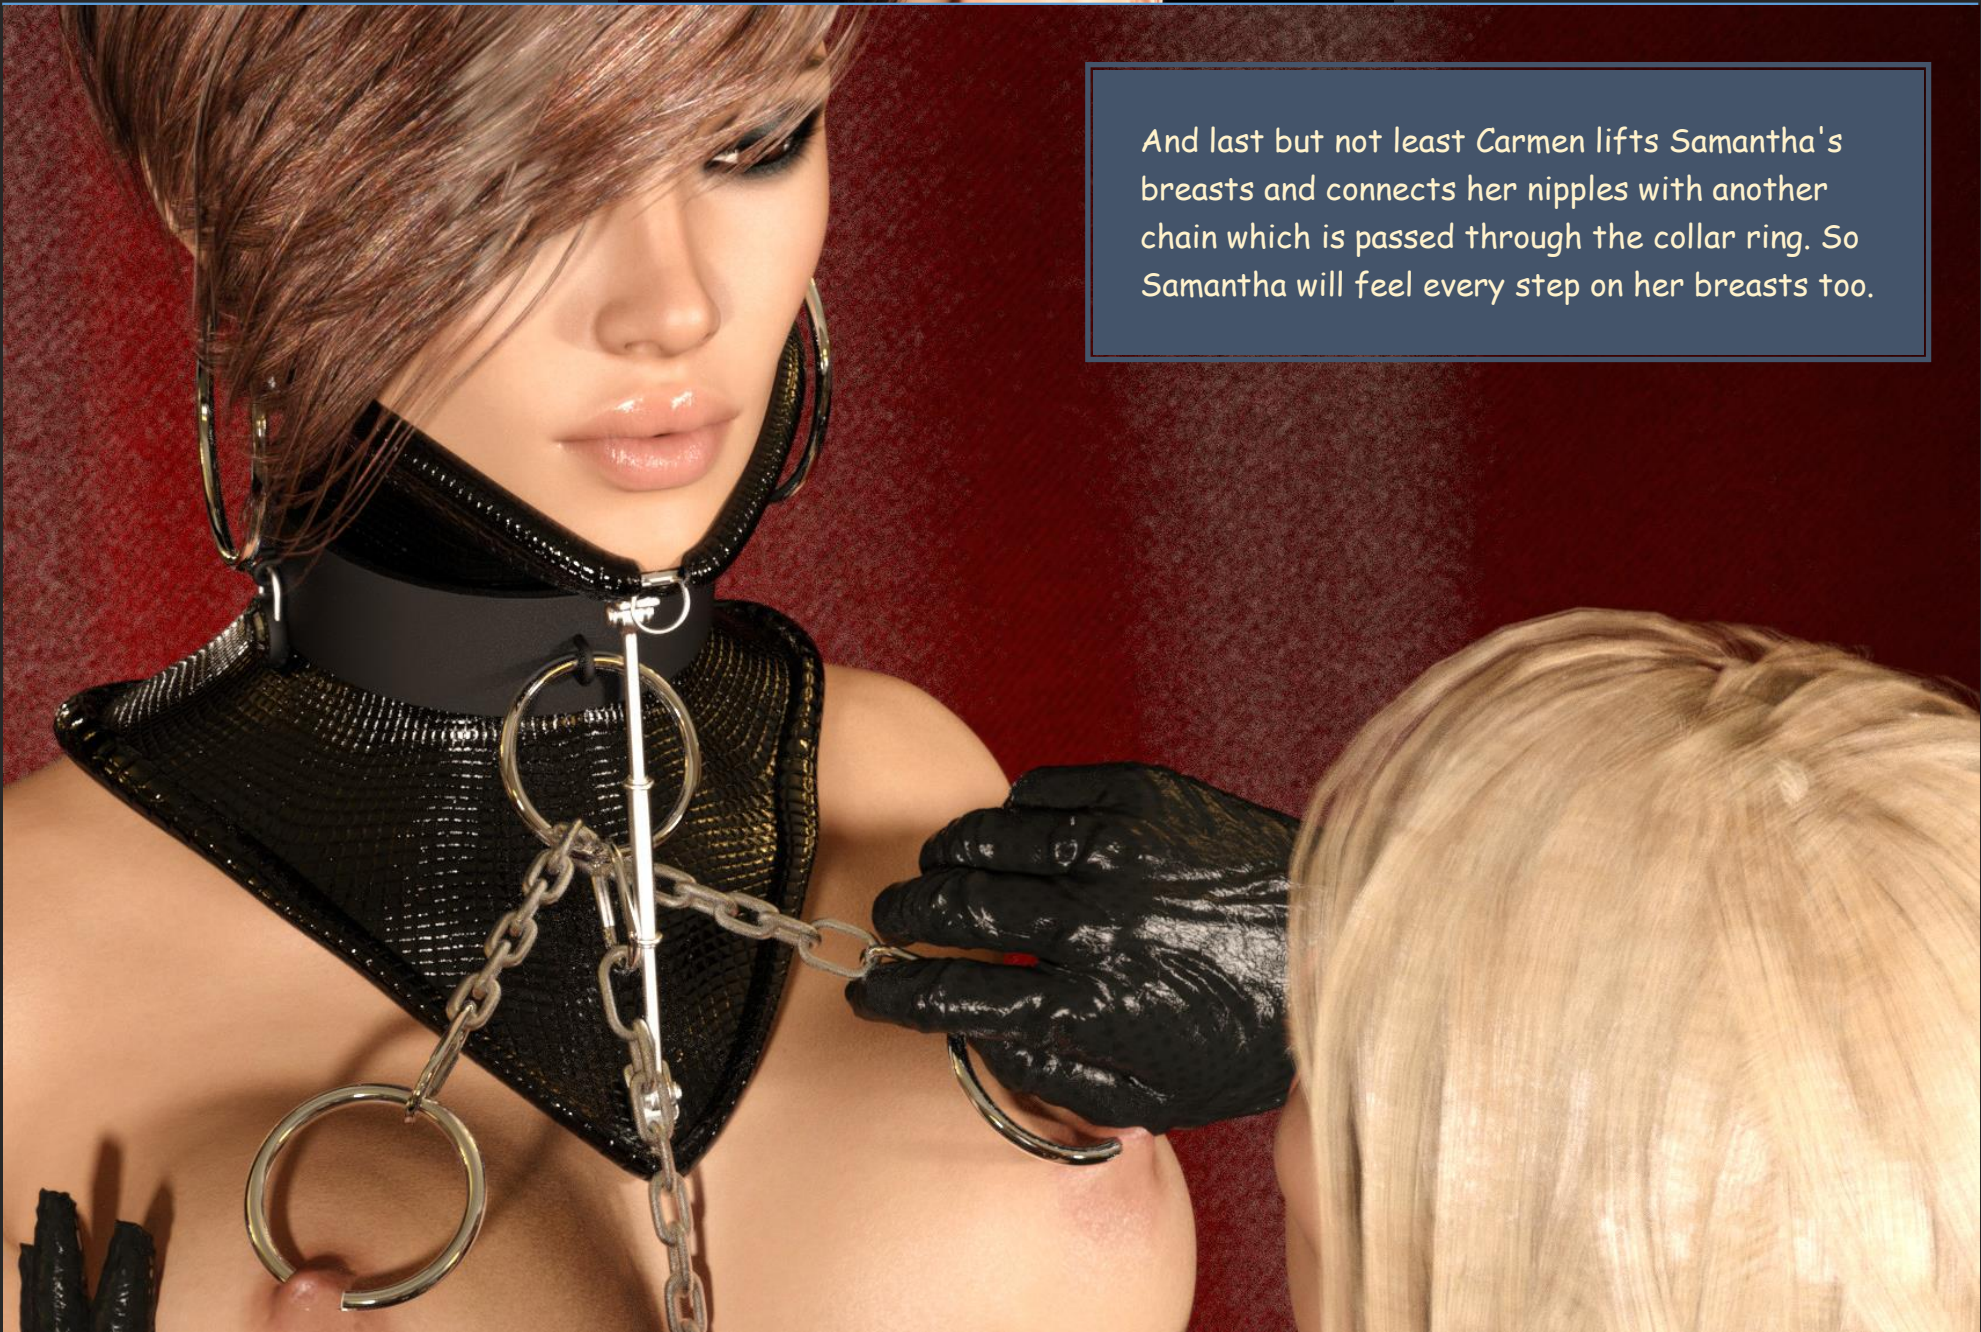

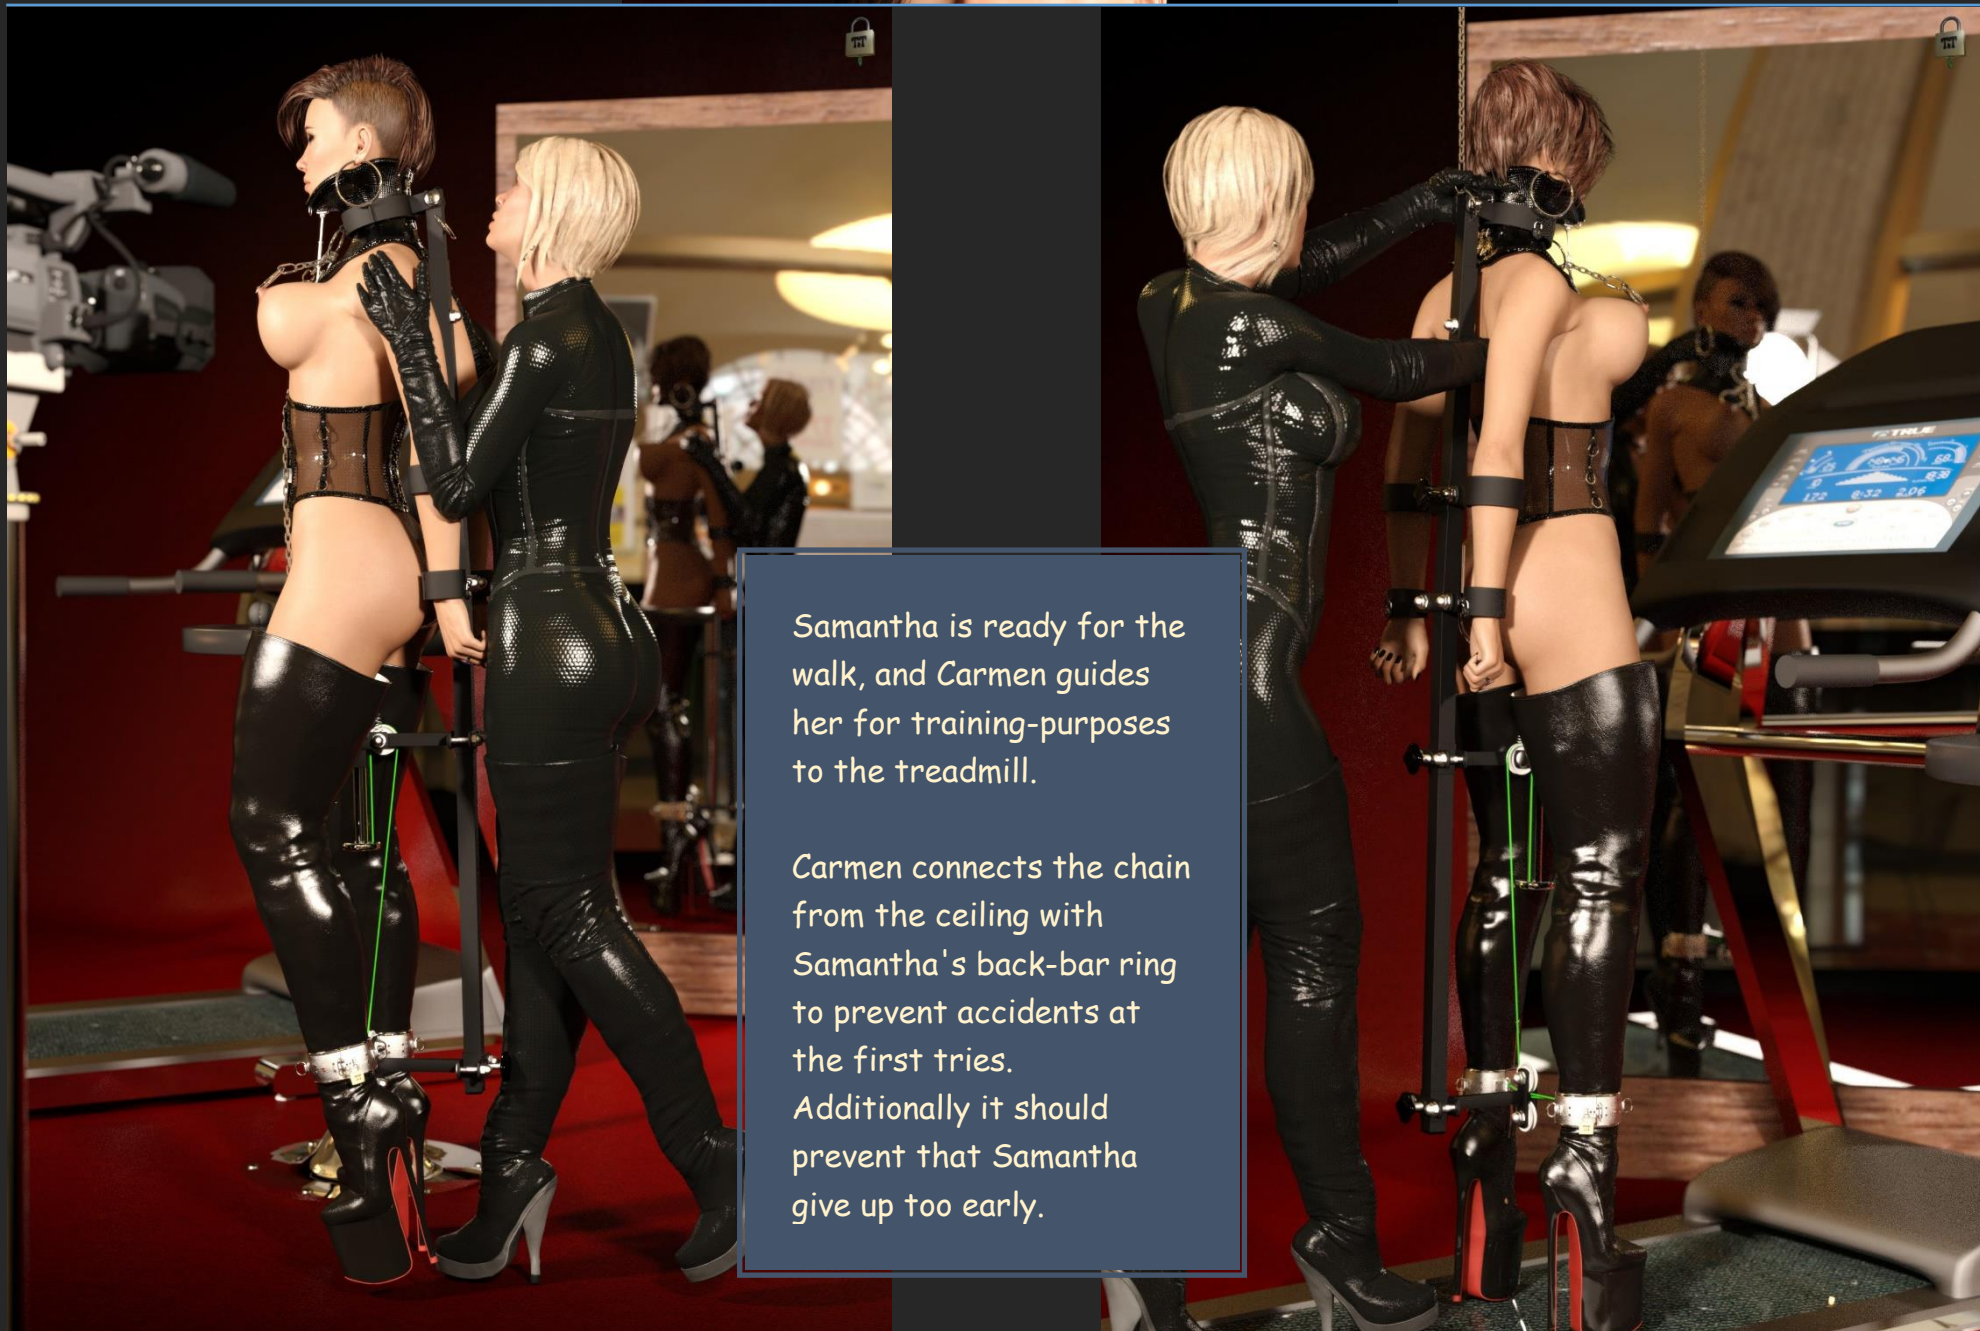

The ankle-cuffs are connected with the dildo.

Carmen fixes the moveable dildo-extension with heavy chains on Samantha's front side. Whenever Samantha moves, the Dildo will move too.

And last but not least Carmen lifts Samantha's breasts and connects her nipples with another chain which is passed through the collar ring. So Samantha will feel every step on her breasts too.

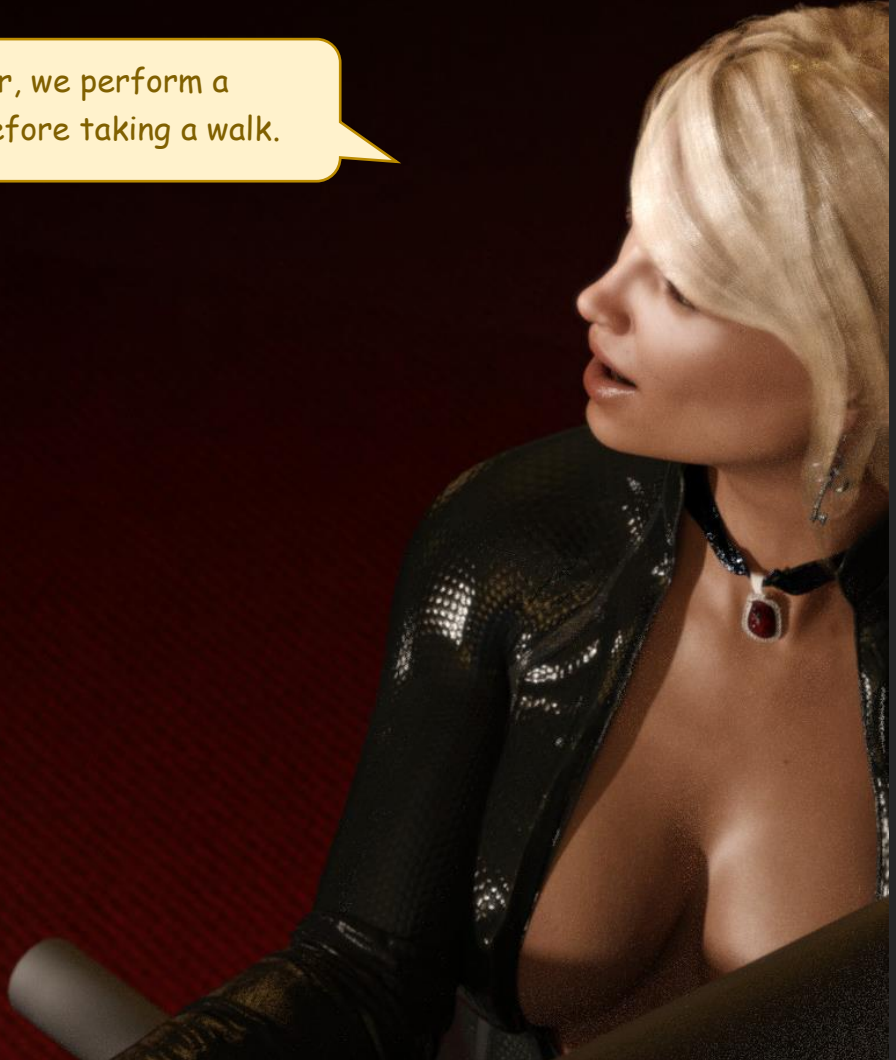

Samantha is ready for the walk, and Carmen guides her for training-purposes to the treadmill.

Carmen connects the chain from the ceiling with Samantha's back-bar ring to prevent accidents at the first tries. Additionally it should prevent that Samantha give up too early.

And now my dear, we perform a little training before taking a walk.

Carmen started the treadmill.

And now walk a bit my dear

After her first orgasm, Samantha slips out and hangs helplessly in the chain. Carmen stops the treadmill and waits until Samantha has caught herself again.

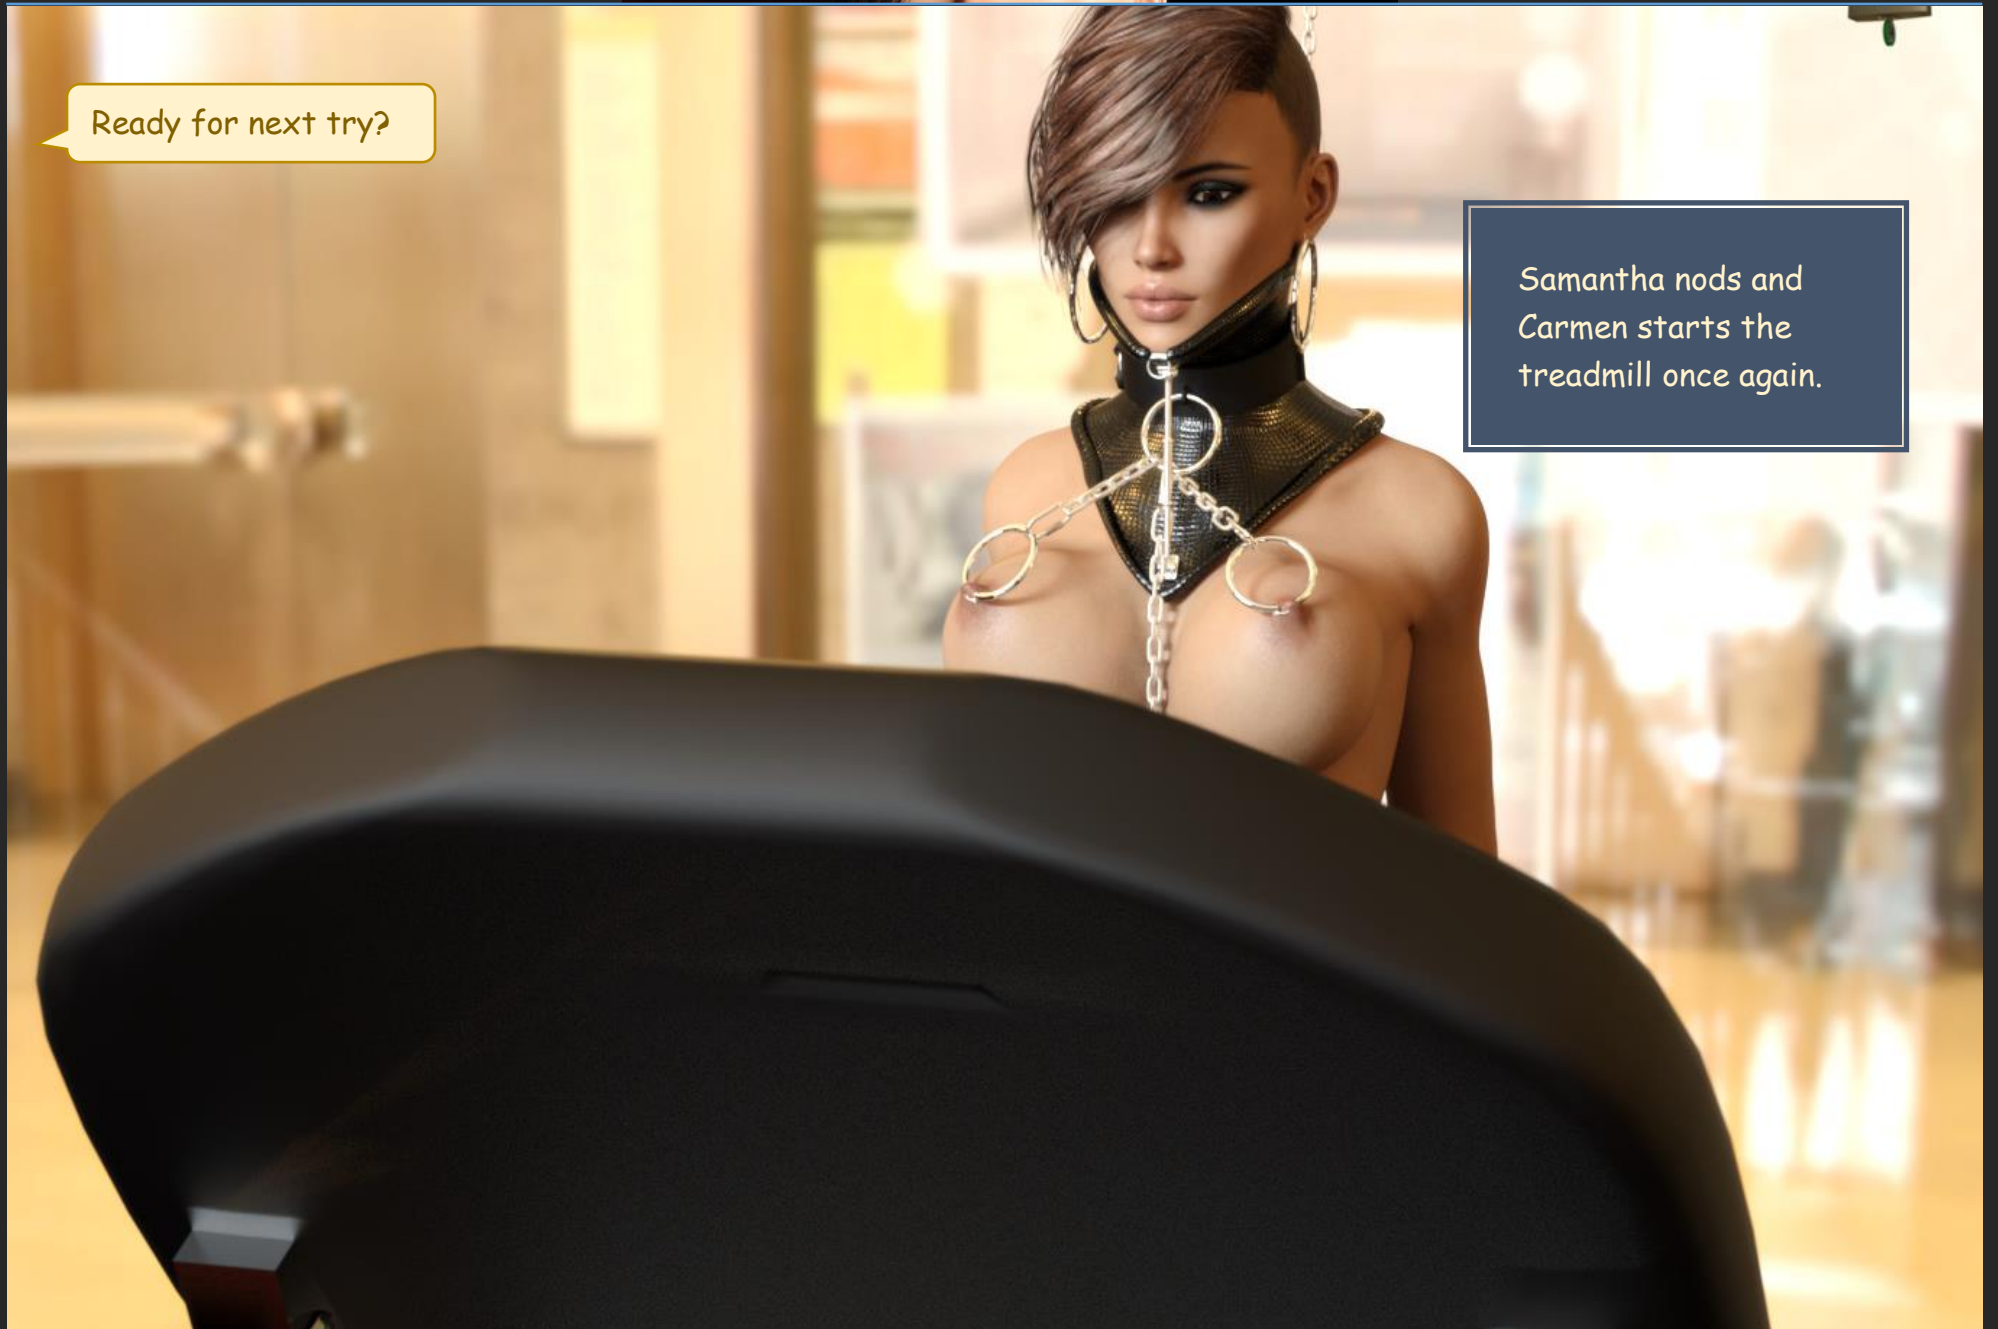

We have to practice this a few more times

Ready for next try?

Samantha nods and Carmen starts the treadmill once again.

The training seems endless for Samantha. But after all, she has learned not to overthrow during an orgasm.

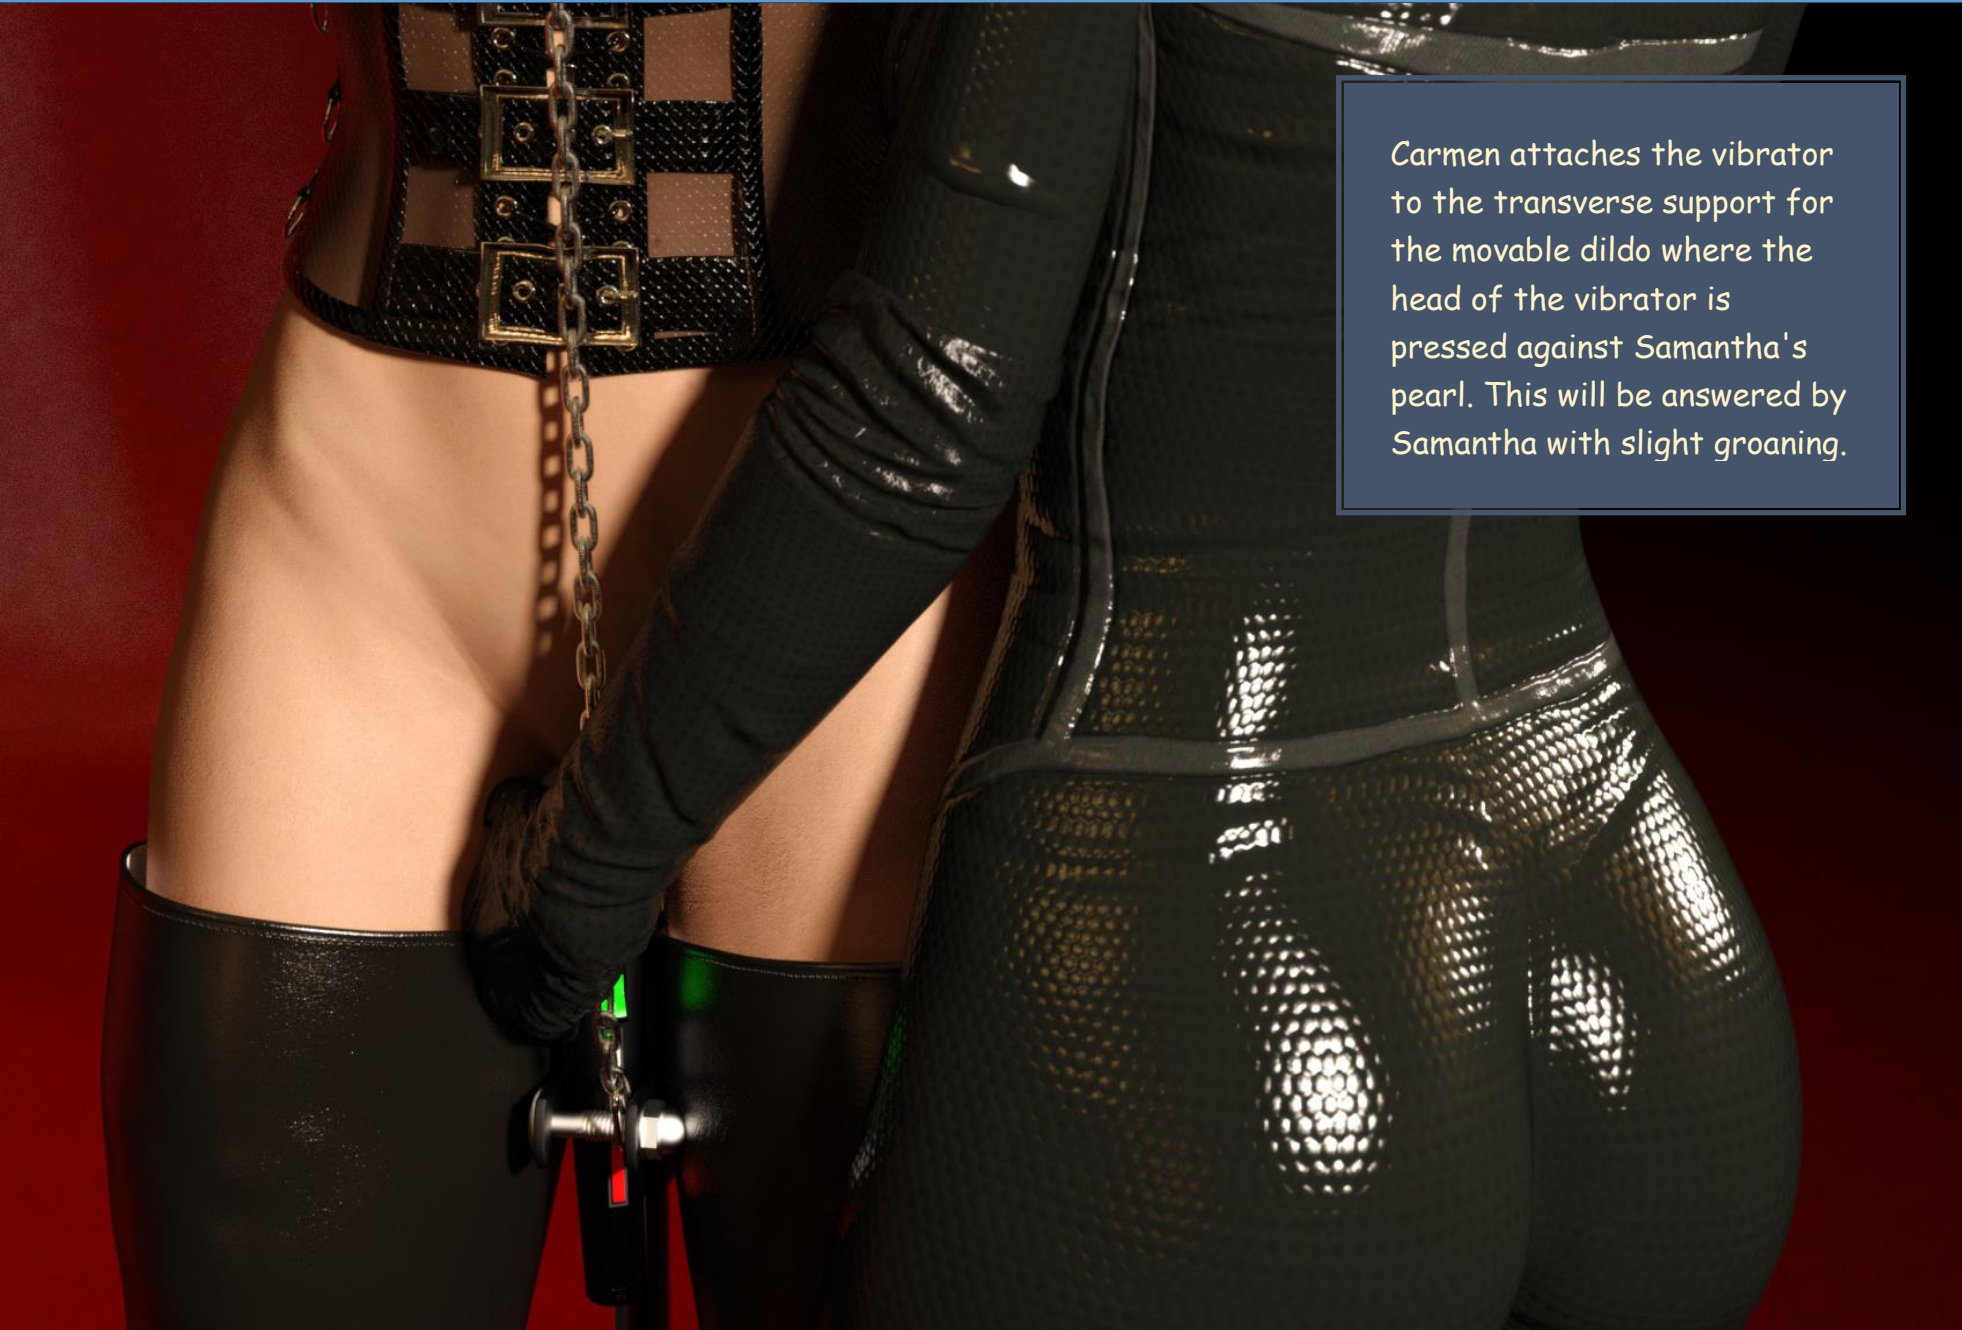

And now my dear,
you should be
prepared for the
real walk.

The real walk? I thought
this was the real walk.

Carmen smiles, takes
the vibrator from the
table and switches it
on. She strokes
Samantha's body with
the vibrator and lingers
at her nipples.

No, my dear. This was only the
training but you need some
additional accessoires for our walk.

Carmen attaches the vibrator to the transverse support for the movable dildo where the head of the vibrator is pressed against Samantha's pearl. This will be answered by Samantha with slight groaning.

For the upcoming walk, Carmen puts a sweater over Samantha's head.

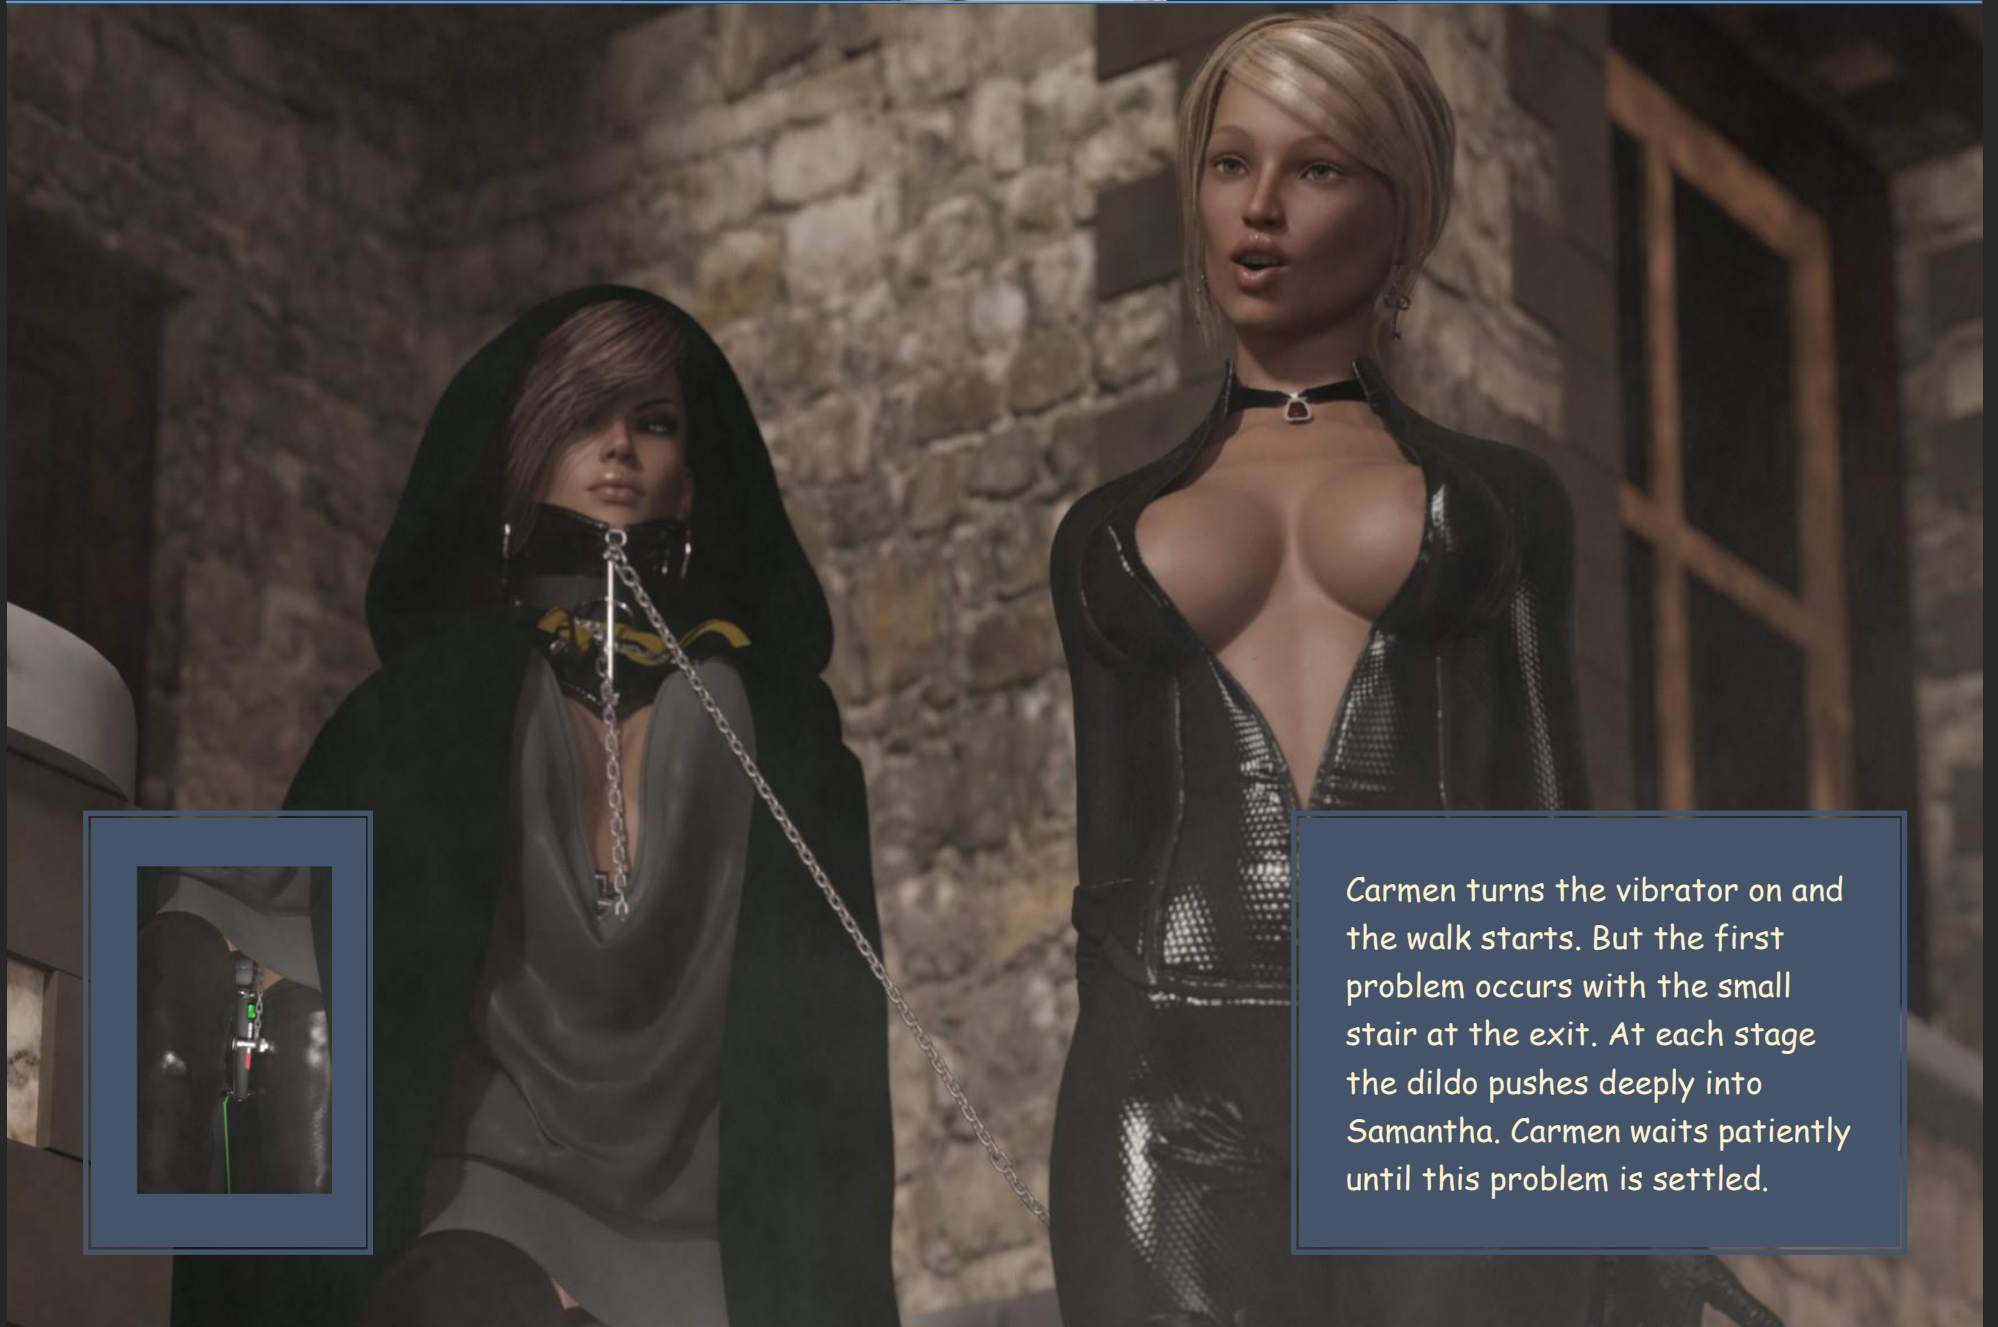

Carmen pulls the sweater over Samantha's bound body and hides in addition the vibrator and the moveable dildo underneath.

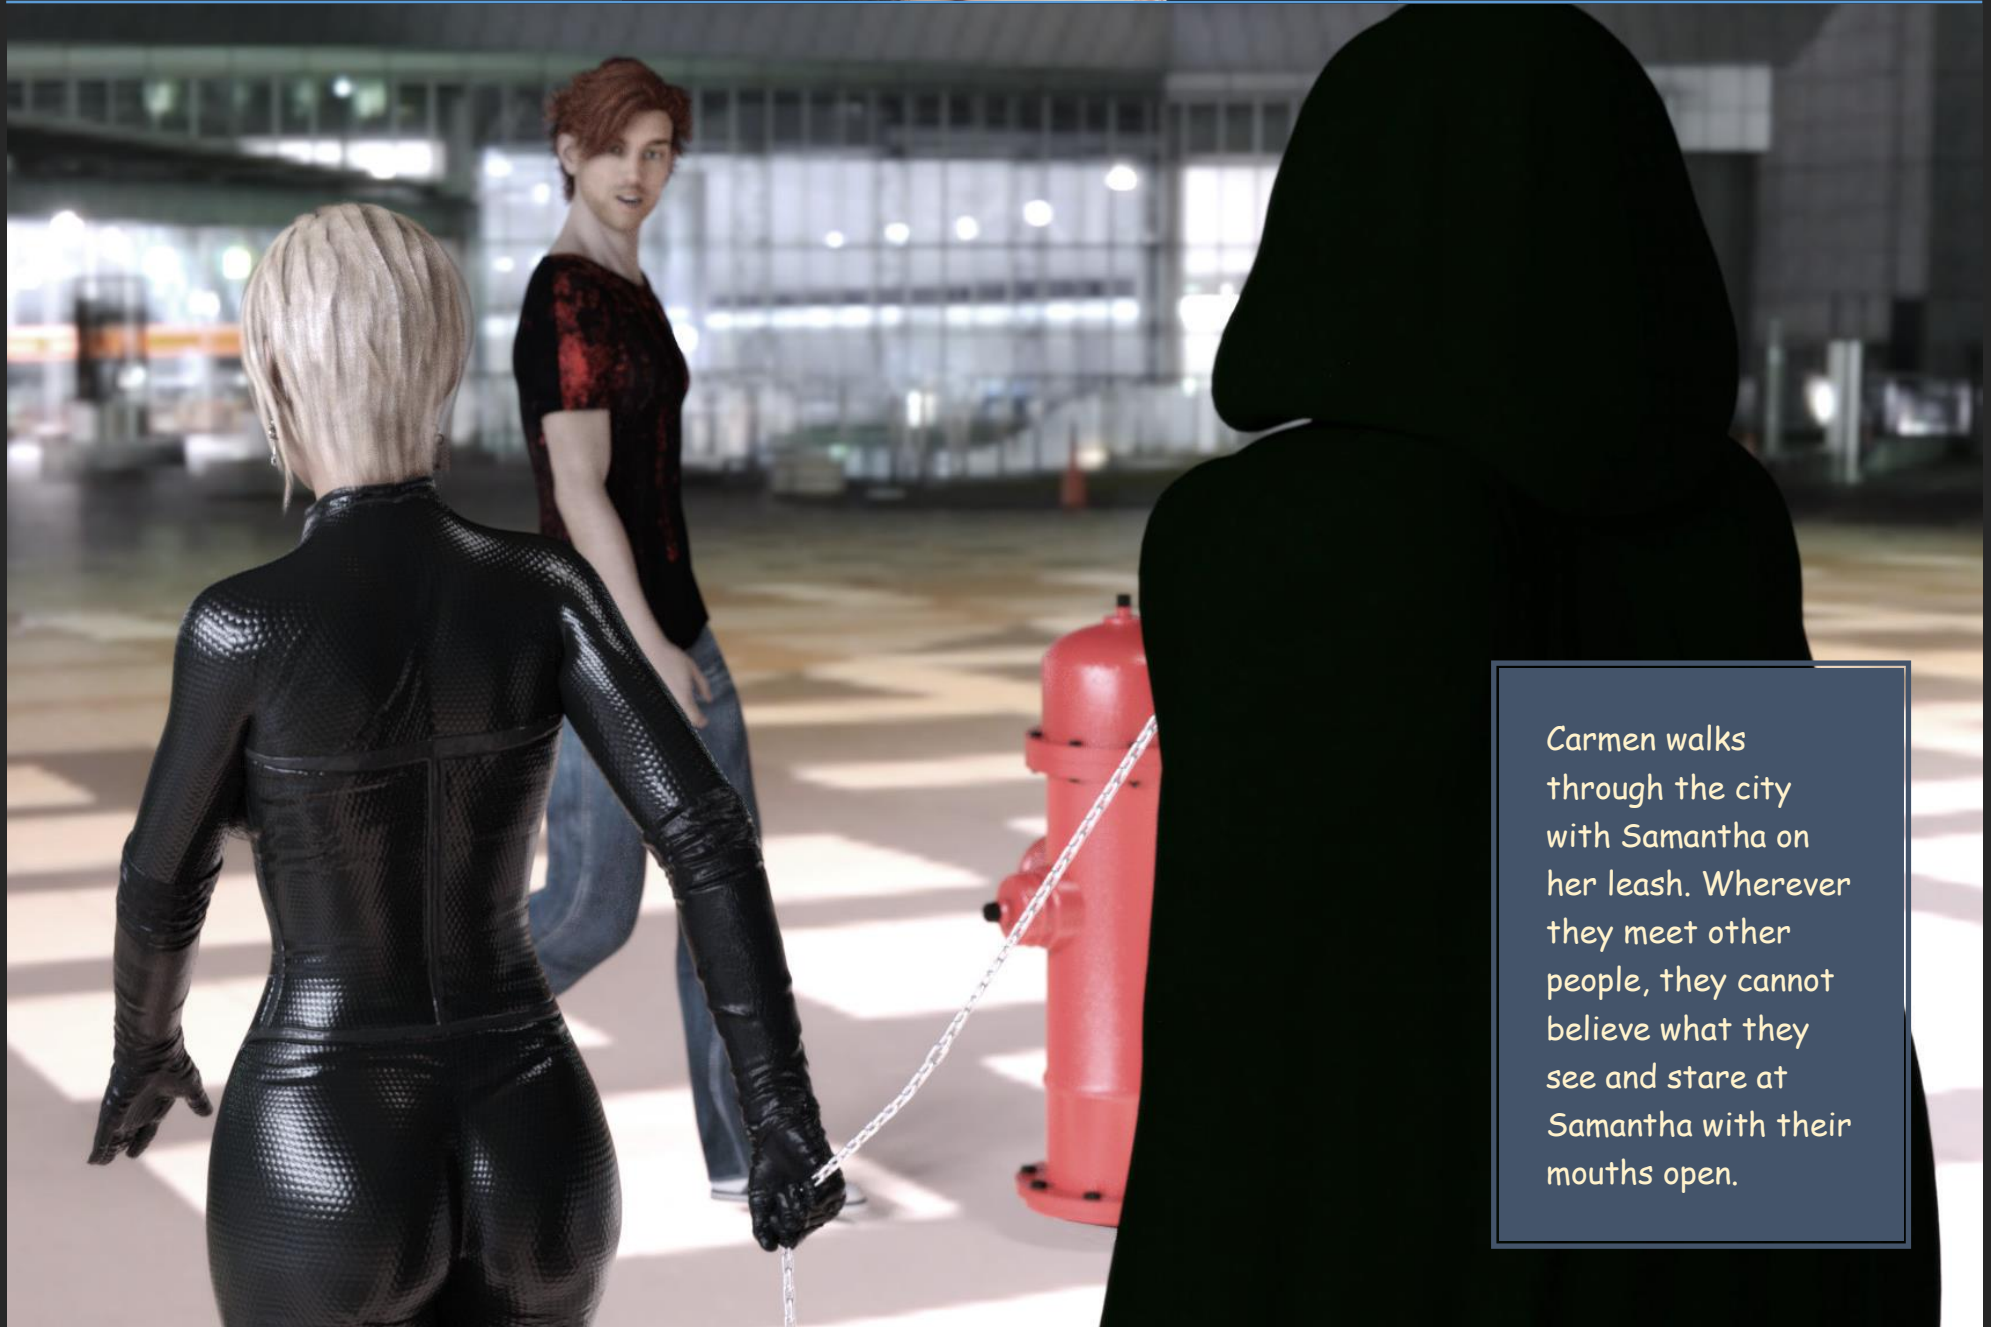

And last but not least, Carmen puts a cape with a hood around Samantha to hide the posture collar at least from the back.

Carmen turns the vibrator on and the walk starts. But the first problem occurs with the small stair at the exit. At each stage the dildo pushes deeply into Samantha. Carmen waits patiently until this problem is settled.

Carmen walks through the city with Samantha on her leash. Wherever they meet other people, they cannot believe what they see and stare at Samantha with their mouths open.

The walk is much longer than Samantha expected. Besides, Samantha cannot walk so fast. Carmen must take care that no traffic accidents happen.

The walk lasted five times longer than normal and was interrupted by numerous orgasm-related breaks. Samantha again needs a break and leans against the house wall in the red-light district.

Carmen has reached the goal of the walk with Samantha.
Together they entered a sex shop in the red-light district.

Carmen and Samantha enter the sex shop.

Hello Nick

Hello Carmen and Samantha, welcome to my cave.

PRODUCT DEMONSTRATION
of
THE WALK-PENETRATOR
by **SAMANTHA**

Carmen removes Samantha's cloak and sweater.

Hello Nick

May I introduce this is Samantha, Samantha, this is an old friend of mine, and I promised him that you will make a small product demonstration today.

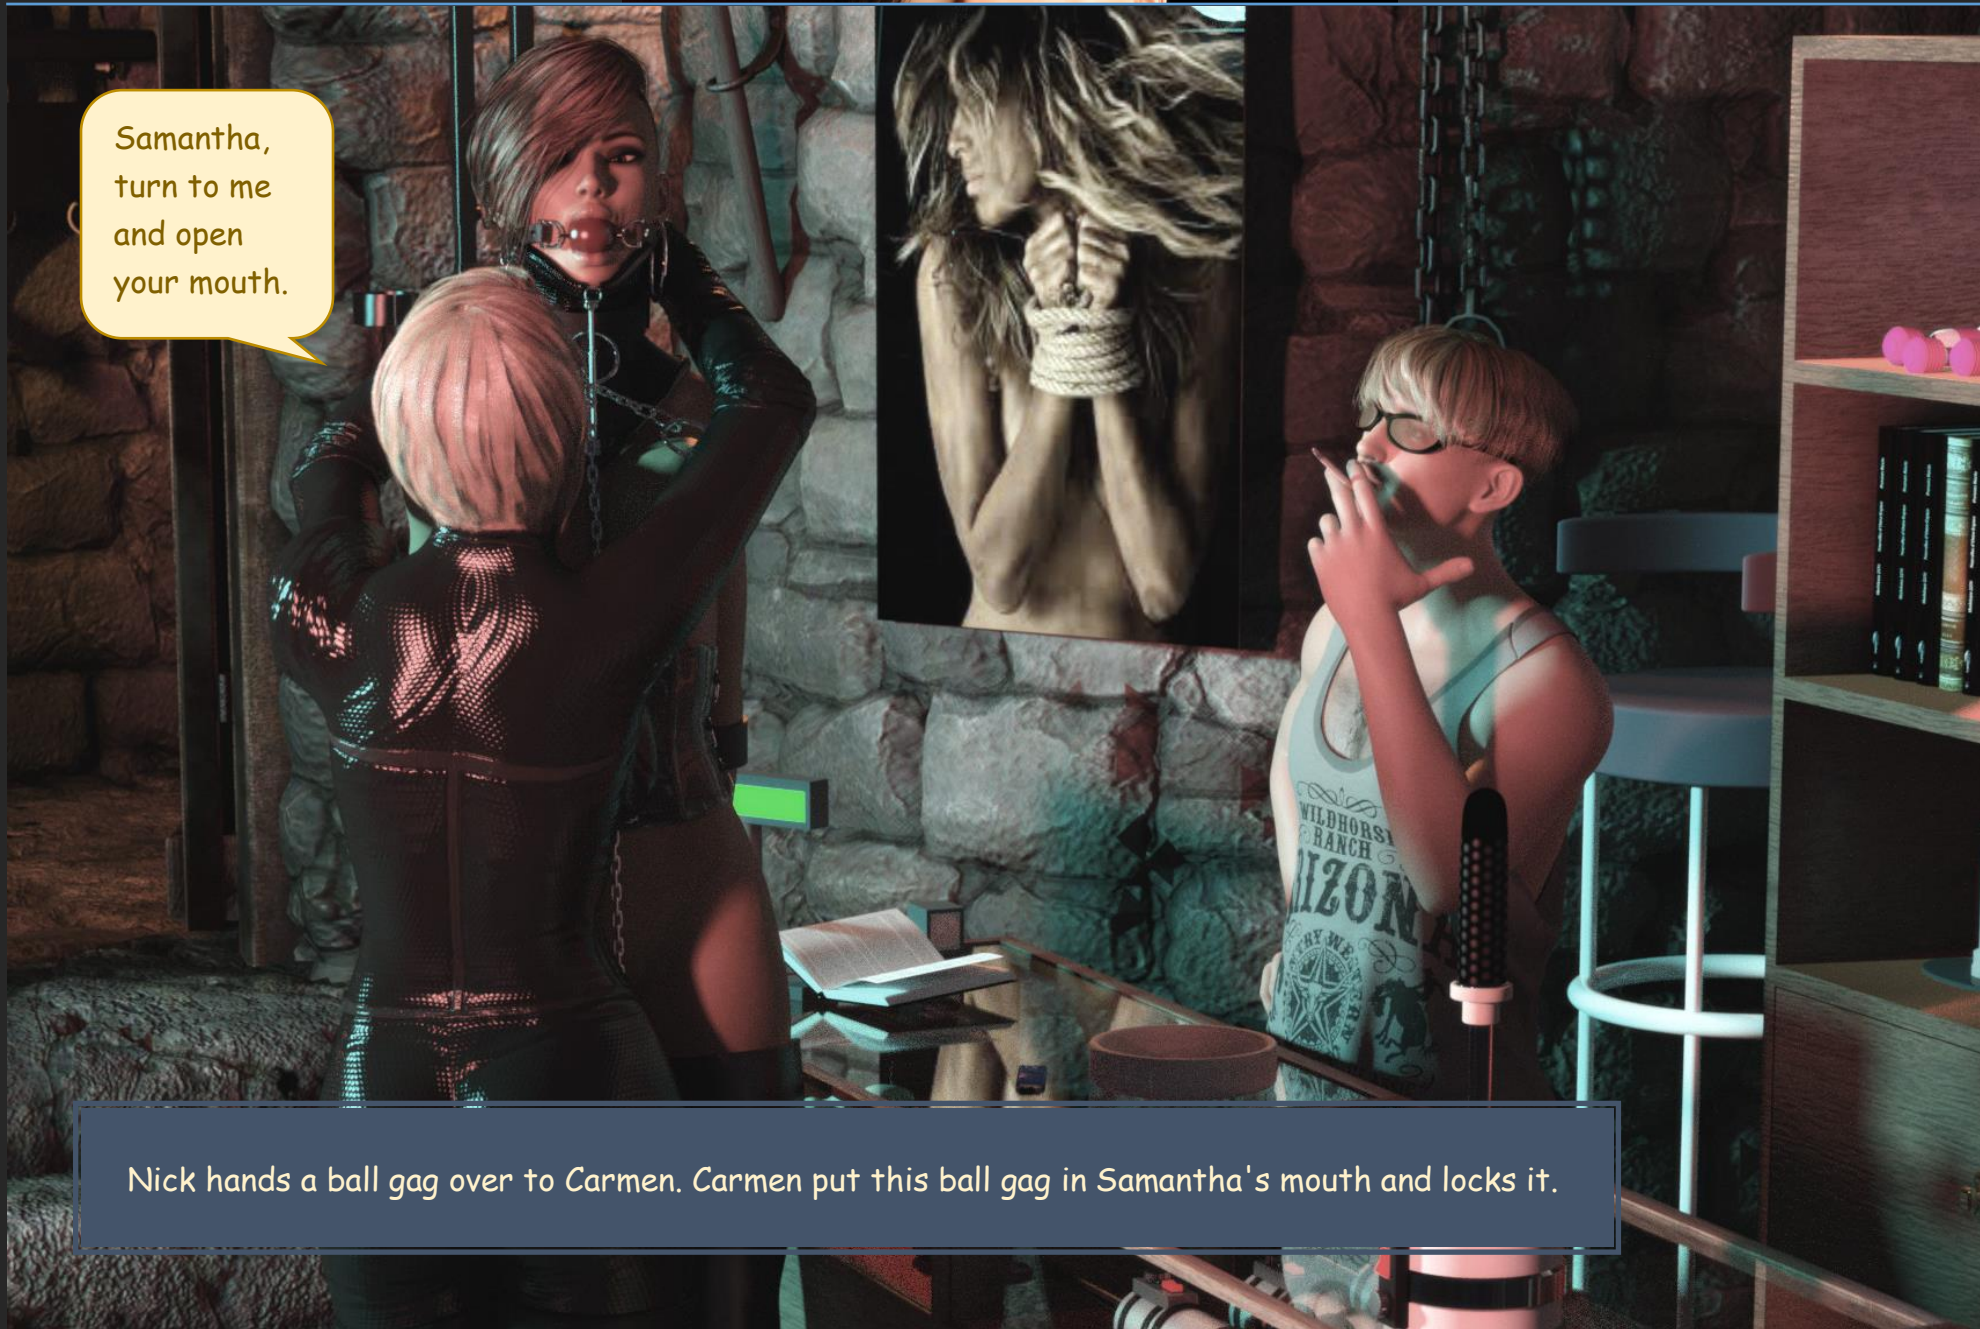

Samantha's eyes widen as she discovers the sign behind Nick.

Samantha,
turn to me
and open
your mouth.

Nick hands a ball gag over to Carmen. Carmen put this ball gag in Samantha's mouth and locks it.

Carmen guides Samantha onto Nick's treadmill. For safety, Carmen connects a chain, which is attached to the ceiling with Samantha's rear neck ring.

Samantha we have a little time until the first guests are expected. Take the time to relax a bit.

Samantha's look makes me so horny. May I use this big dong?

For sure, I've prepared in the next room more comfortable clothes for you, if you like.

Nick, it looks like you've forgotten the bra.

Oooooops ... yes ...

Never mind ...

Carmen takes a seat on the bar stool in the corner where the Big Dong is already waiting. Nick helps with positioning the Big Dong.

Carmen nods and smiles.

Carmen makes big eyes ... gulps ... nods once again slowly.

OK Nick, but do not misuse the situation

Yes for sure

Samantha will be definitely a sensation for our guests.

I just imagine that if you were sitting here restrained in the corner, this would increase the sensation much more.

Thank you Carmen, you will see that this will be great fun for you too.

May I ask a shameless question?

Nick climbs on the lower rung of the bar stool and moves Carmen's hands over her head where they are fixed with heavy chains.

Nick fixes Carmen's legs with a spreader bar which is also connected to the rear wall.

While Nick completes his preparations and Carmen will be equipped with a ball gag and a Magic Wand, the first guests arrives. They are overwhelmed by Samantha's and Carmen's sight.

More and more guests are visiting Nick's sex shop. A hard time is coming up for Samantha. The button, which activates the vibrator and the treadmill is pressed again and again.

The guests have no mercy with Samantha. The store is filling up more and more with known and new guests. Samantha's button is pressed continuously. Meanwhile, it is no longer pleasure, it is close to torture for Samantha. Sometimes she tries to lift her feet and hang on the chain for a few seconds to calm down a bit.

Carmen also receives enough attention during Samantha's performance. Due to the many people, the noise level is higher than usual, but the moans of Samantha and Carmen drowns everything.

The presentation took much longer than expected. At 3:30 am, Nick capped the power supply for the equipment and asked the guests to leave the shop. Both girls now hang completely powerless in their chains and Nick frees Carmen. After a short recreation period Carmen did the same with Samantha.

Hi folks, thank you for following our experiment. I hope you enjoyed it and you will be back next time.
