

The 'Golden Illia Fruit', huh?

They're supposed to be pretty rare. Or at least, not many come back with them.

Well, I'm definitely in the right place.

The big ones are part of the same plant, but its the smaller one that I'm supposed to gather.

Rumor has it that these things are way delicious.

My slip says not to eat it, but that's probably just because they want us to bring them back...

Oh my god! Jackpot!!

Two! Surveyors have only ever come back with one! Lucky Chad strikes again!!

Heh, I'll put one away for the boss, and the other, well-

Let's see how good this thing is!
