**HELLO AND THANK YOU FOR SUPPORTING DKCX! WHETHER IT IS
THROUGH PATREON OR THROUGH OUR SHOPS, WE'LL ALWAYS BE
THANKFUL FOR YOUR SUPPORT!**

PLEASE DO NOT PIRATE OR RE-LINK THESE STORIES! LIKE C'MON NOW.

Well from my initial charts, health-wise you seem as good as any regular person.

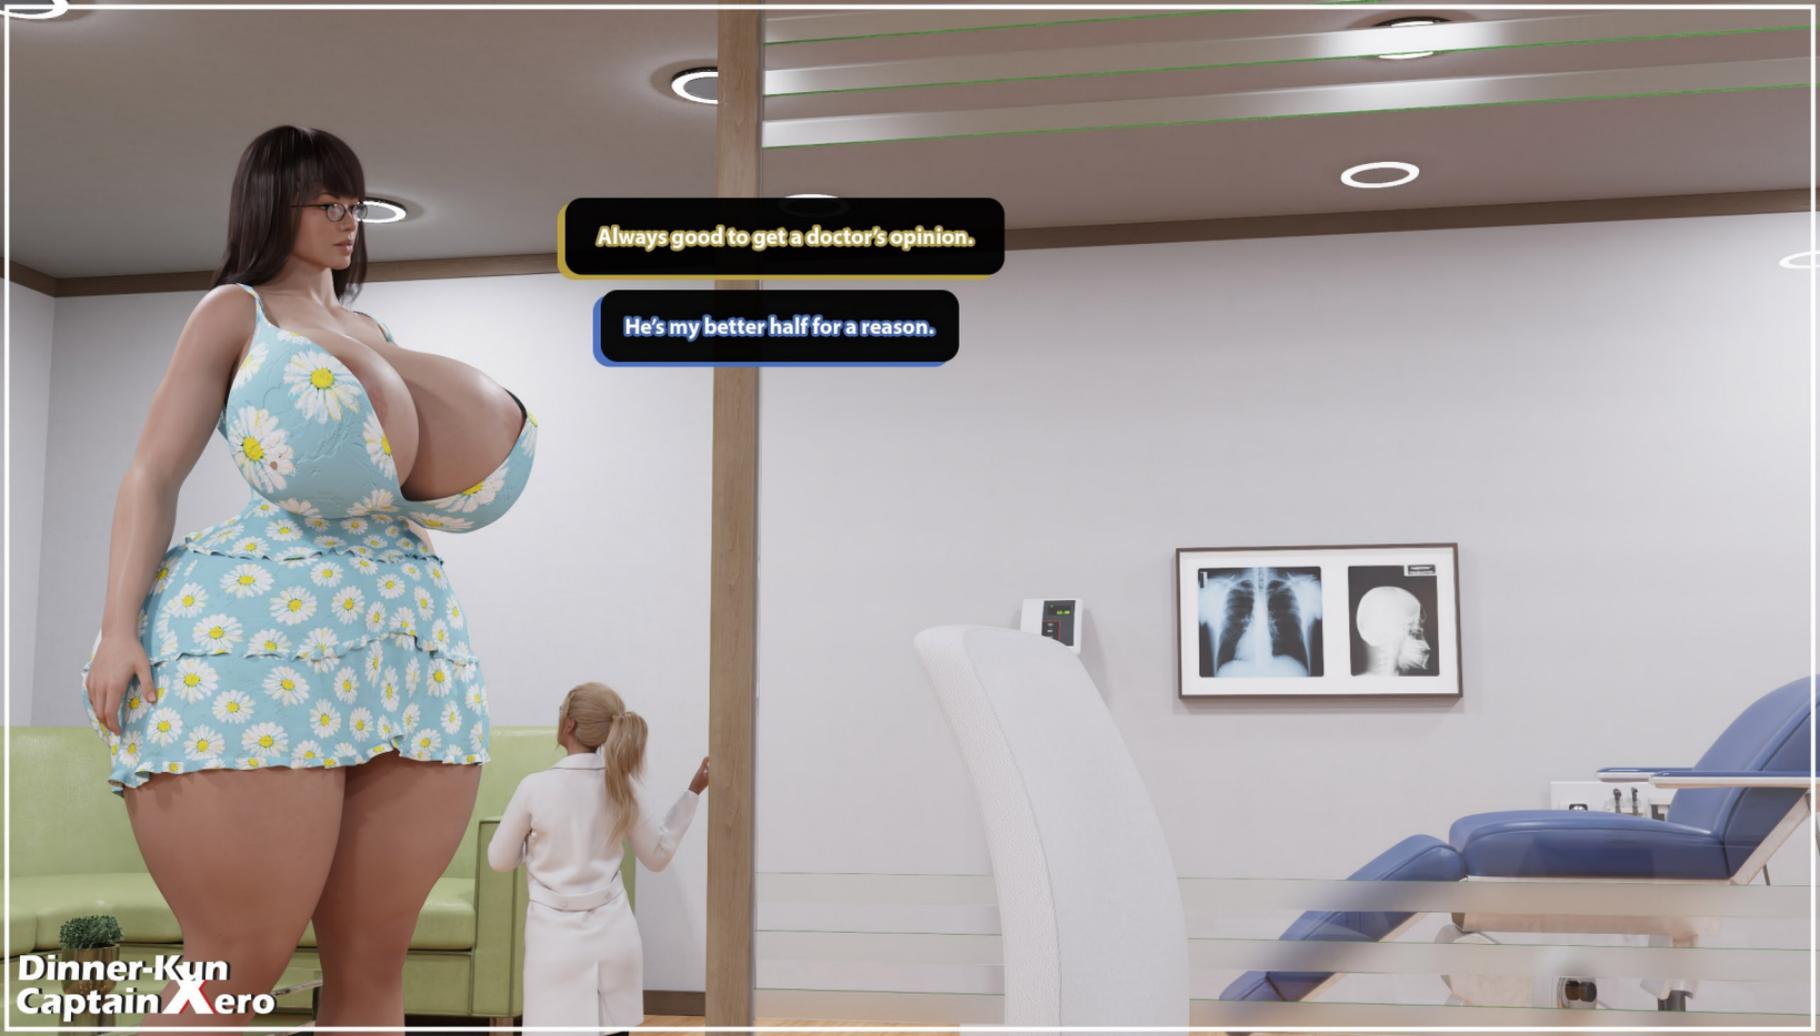

If anything, your charts exceed a lot of positive standards.

Are you saying I'm too healthy?

**There's never such a thing, but this medical
craze is changing the scales so to speak.**

**It wasn't an aspect of this I had thought
about until my boyfriend brought it up.**

A woman with dark hair and glasses, wearing a light blue dress with a white daisy pattern, stands in a doctor's office. She has a large, realistic-looking breast prosthetic on her right side. A doctor in a white lab coat is seen from behind, looking at a computer monitor. The office contains a green sofa, a white chair, and a blue examination table. Two speech bubbles are overlaid on the scene.

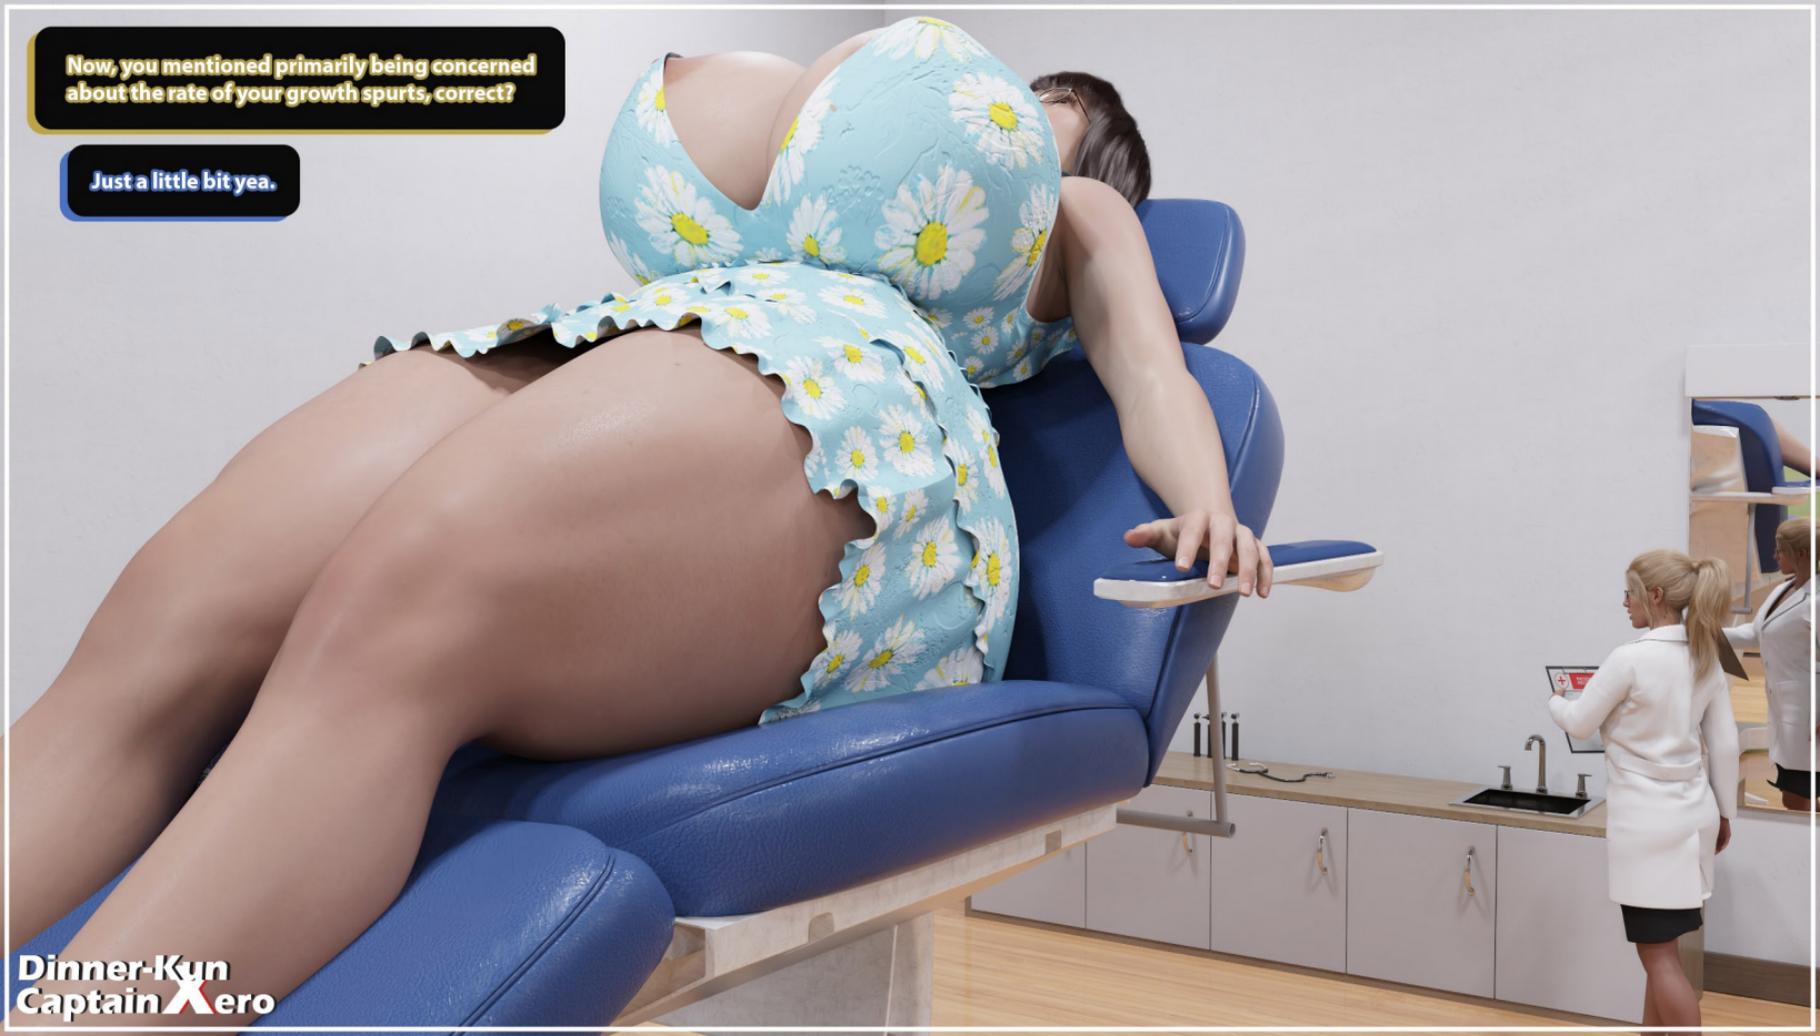

Always good to get a doctor's opinion.

He's my better half for a reason.

Now, you mentioned primarily being concerned about the rate of your growth spurts, correct?

Just a little bit yea.

Dinner-Kun

They do seem to be on the more uncommon side of what I know about size limitations.

The fact that you have a seat still in my size is comforting at the least.

**You aren't the largest woman I've had in here,
but you are getting on the higher end of it.**

From what I know, it's mostly random based on genetics just what a person's upper limit can be.

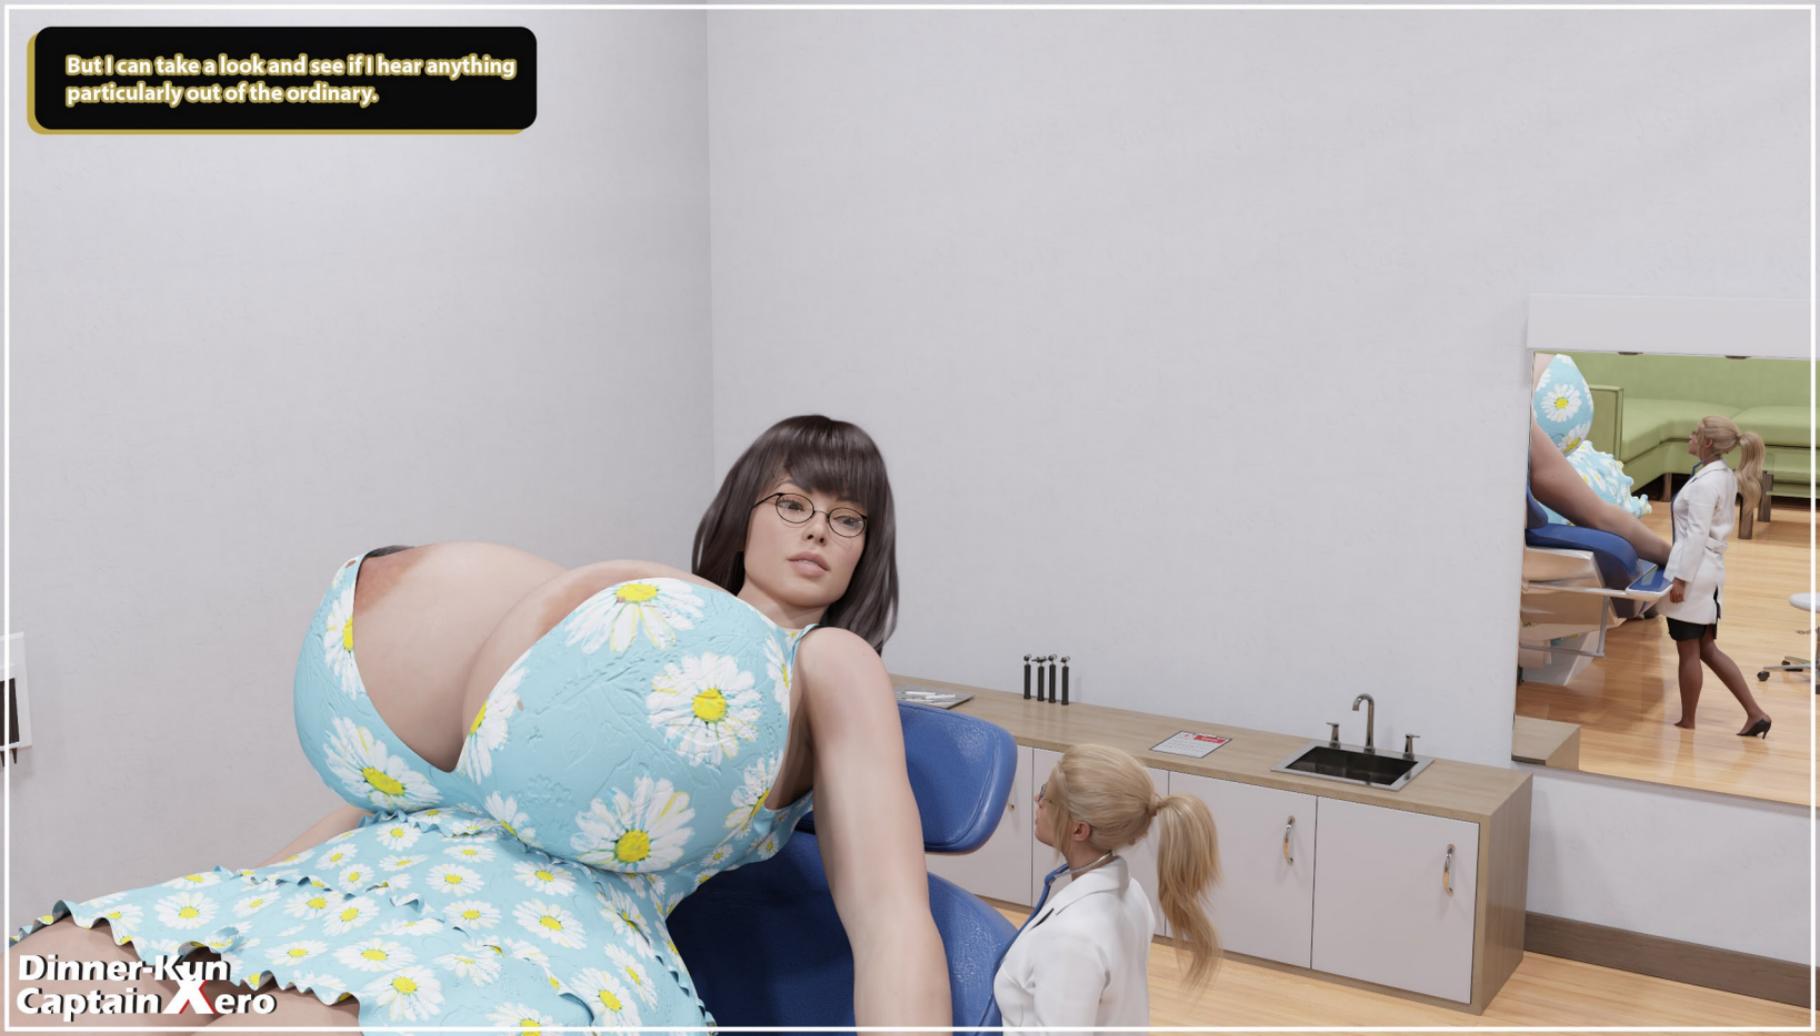

You would know reading up on the pills when you bought them of that aspect.

Uh... Yea, totally.

But I can take a look and see if I hear anything particularly out of the ordinary.

**Dinner-Kun

Perhaps your heart pumps a lot harder with this much mass involved.

Dinner Kun

This is going to be a little cold.

Dinner-Kun
Captain Xero

Oooh, that *is* cold!

Dinner-Kun
Captain Xero

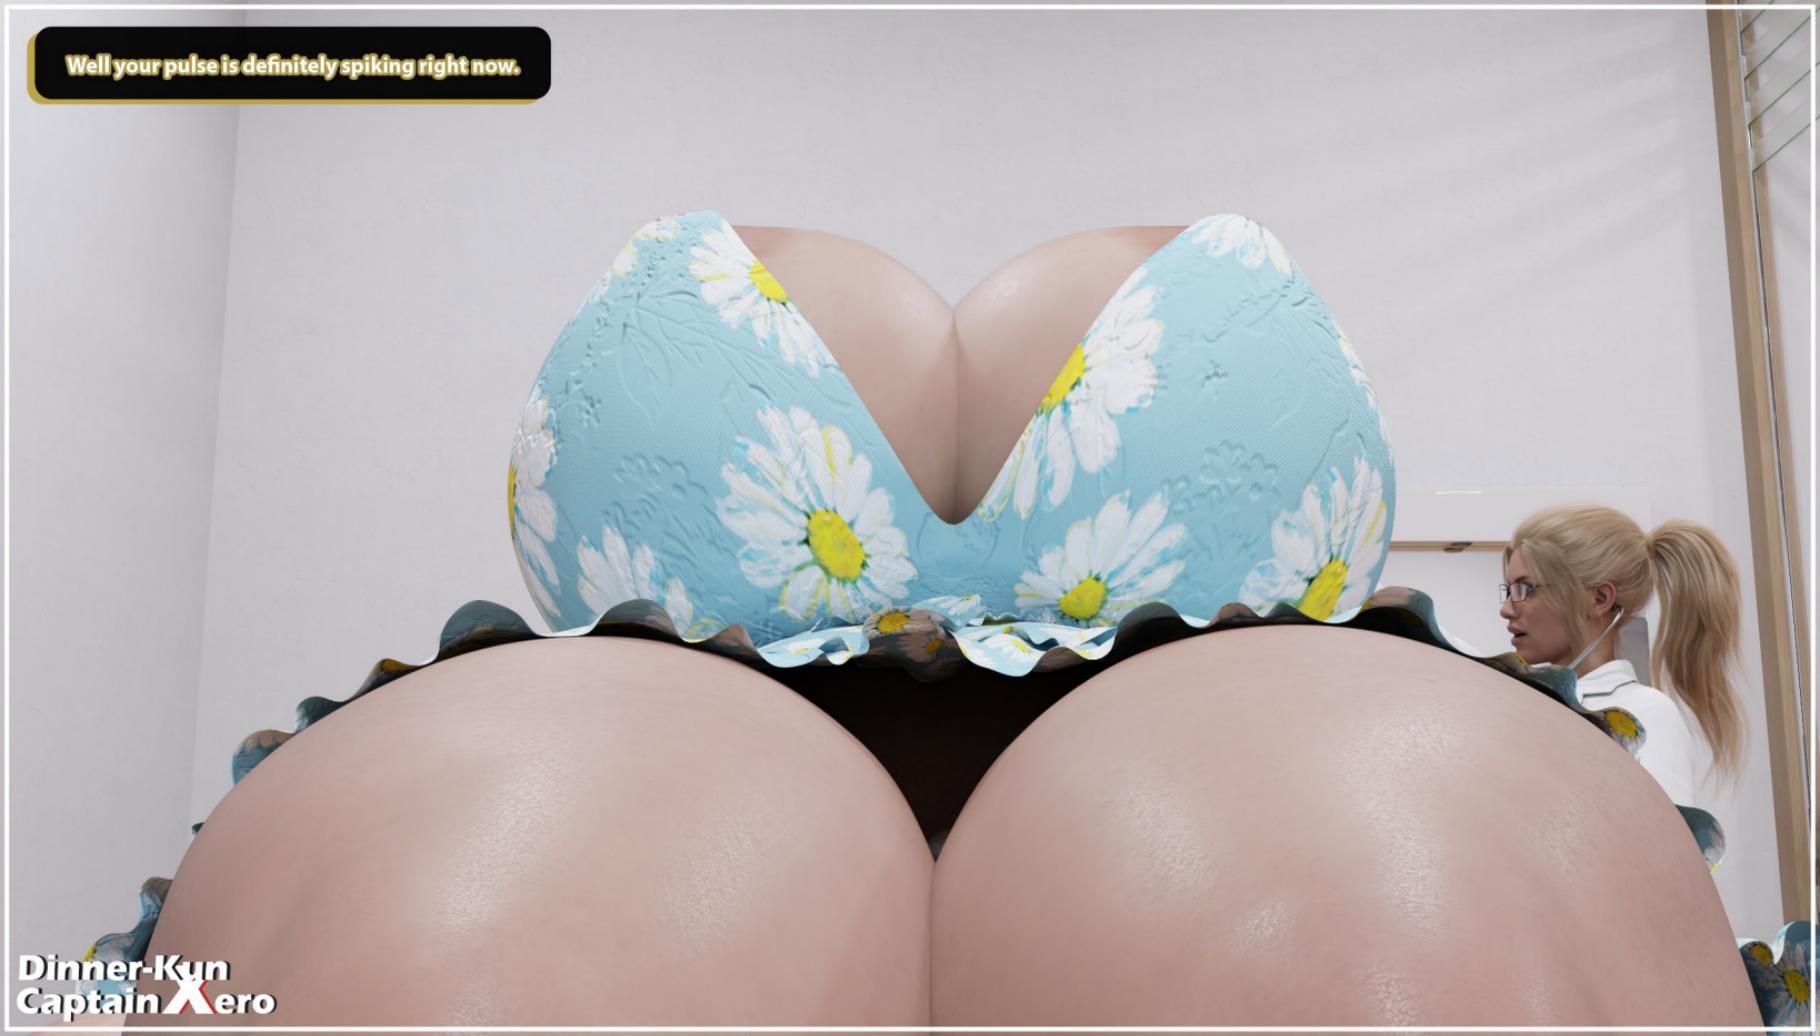

Well your pulse is definitely spiking right now.

Dinner-Kun
Captain Xero

I can see why, checking somebody mid-growth is a first for me.

Dinner-Kun
Captain Xero

How often does that happen?

At least once a day usually.

To that extent?

It depends.

Dinner-Kun
Captain Xero

Sometimes it goes on for a few minutes.

Fascinating...

And you don't feel any abnormal right now?

You get a little bit of goosebumps when it happens, but otherwise I feel perfectly fine.

Have you contacted the company about this?

They said the same as you, everything is in parameters right now.

Although they said some type of announcement regarding their products is coming.

An announcement? I haven't heard anything regarding that.

Dinner-Kun
Captain Xero

They usually tell you some info as one of the few doctors covering amazons, right?

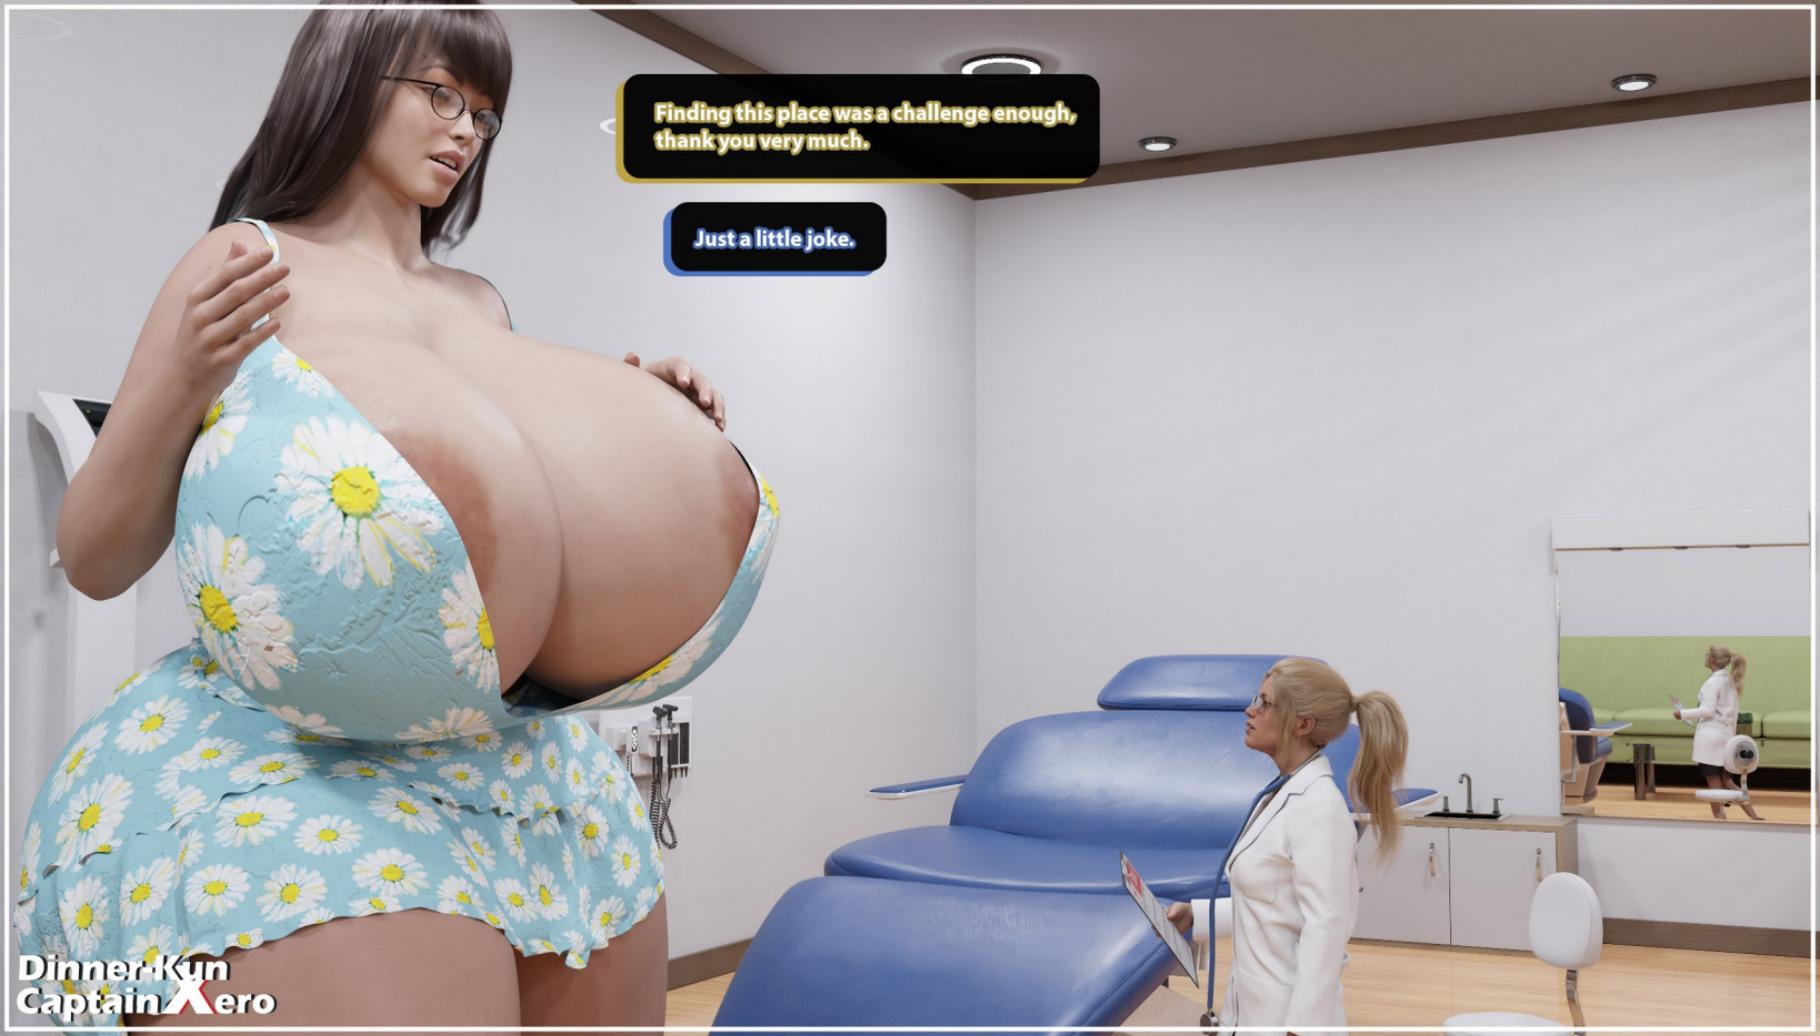

I get some insider information but it's not like I'm contracted by them. Stuff they might think will help from trial results they run.

A pregnant woman with long brown hair and glasses is shown from the side, wearing a light blue dress with a white daisy pattern. She is holding her large, protruding belly. In the background, a doctor in a white lab coat and glasses stands near a blue examination table. The room has white walls and recessed ceiling lights.

But I am my own practice, most of what I know is what I've learned from women like yourself.

You may need to learn about finding higher ceilings.

A woman with long dark hair and glasses is wearing a light blue dress with a white daisy pattern. Her belly is extremely large and protrudes far beyond the dress's waistline. She is standing in a doctor's office, looking towards a female doctor in a white lab coat who is holding a clipboard. The office contains a blue examination table, a sink, and a mirror reflecting another part of the room.

Finding this place was a challenge enough,
thank you very much.

Just a little joke.

As of now all I can say is keep track of your growth, there's nothing else I can do.

Alright, doc.

I appreciate the help.

A pregnant woman with long dark hair and glasses, wearing a blue dress with a white daisy pattern, stands in a doctor's office. She is looking down at her large belly. A doctor in a white coat and stethoscope stands in the background, looking at a clipboard. The office has blue chairs, a green chair, and framed pictures on the wall. A speech bubble above the woman contains the text "I might need help getting out your door now."

I might need help getting out your door now.

Yea, I'm sure you do.

When did you start taking the pills again?

A pregnant woman with dark hair and glasses, wearing a blue dress with a white daisy pattern, is shown from the side, gently touching her belly. She is in a hospital room with a white wall and a window with blinds. A black text box with white text is overlaid on the image.

I started with their most recent trial run.

The most recent trial?

Has this most recent run been producing bigger girls than usual?

Dinner-Kun

If this is my upper limit, then I wonder
what's happening with my friends...
