The Star Fire Club is the most exclusive BDSM club in the country. It's hard to become a member. All candidates for membership are subject to several exams. When they then become a member, they sign a contract that imposes various obligations on the member. If these obligations are not fulfilled, it can quickly happen that one loses the membership again.

One of these obligations for members is that there are mandatory events where they have to participate. Such a mandatory event for submissive members is today. This event is called The Torture Weekend. Because of this obligation to participate, there are an above-average number of guests in the club today. The mentioned event starts at 11 pm and before that there is a lot of hustle and bustle.

In this club it can happen again and again that the submissive ones get orders from their dominants, where they have to be naked and/or tied up the whole evening. For this reason, no guests are allowed who might interfere with these freedoms. In addition, the Master and Mistresses must agree that the management or their representatives may "invite" their submissive to performances on stage at their discretion. It goes without saying that these invitations must be followed.

At 11 pm Suzie, one of the managers, enters the stage. Suzie: "Dear friends, the time has come. The Torture Weekend begins and the exits are blocked. We have selected 7 female submissive to participate as active players at the Torture Weekend. Some people already know a name that has been chosen and these people are scattered among you. When I give the sign, they will indicate who has been selected. All 7 people, on the other hand, will receive one year of free membership and consumption. It goes without saying that the selected person has no possibility to object and has to participate at this weekend".

It's one of those situations where everyone thinks, "It's not gonna hit me." But all the more frightened are the people when they are chosen. Suzie gives the signal and at the same time 7 people put leather bags over the elected persons head. The whole thing is, of course, accompanied by correspondingly frightened and surprised exclams by the persons concerned. These load sacks have the characteristic that they can be locked in a flash. One notices a sigh of relief with the surrounding persons and nobody thinks about helping the concerned submissive. The declared dominants had nothing to fear anyway.

The victims are brought to the podium by the people, who have put the bags over the heads of the chosen girls. Suzie orders the girls to get rid of their clothes as quickly as possible. The girls know that not following this order can lead to unpleasant consequences that are even harder than what they are already facing. Curiously the other guests watch the events on the dance floor with enthusiasm.

The selected and meanwhile undressed girls have their hands fixed to their backs with an armbinder. They are then placed in a circle and connected with chains. Suzie takes the floor again: "Dear friends, soon the chosen ones will be taken to our dungeon. But before it's time, let it be possible for you to inspect the girls more closely. Feel free to test the girls and give them a few loving touches on the way before they are tortured in our dungeon."

After the girls have been long enough examined and stroked, Suzie opens the chain and connects the girls one after the other. Then Suzie leads the girls into the dungeon. The dungeon is not yet open to the general public.

Only after all the girls have been prepared the audience can follow. In the club itself it goes back to normal and the guests enjoy themselves in the meantime with the offered food and drinks. A specialty of the house is the "Love Burger". Also, they dance again with appealing music and now we dazzle into the dungeon to show you what happens to the selected girls.

Suzie leads the girls with the chain into the torture cellar below the club, where they are awaited by several selected people. This dungeon is a huge cave that has been equipped for this purpose. The girls are taken over by these persons and each is fixed on a different torture device.

After the girls have been taken to the dungeon, they will be assigned to different people and prepared for their very uncomfortable waiting position. As you can see, there are enough chains available. In front of us we see Raquel being restrained by Master Venarius on a devilish torture device.

As soon as the girls are fixed to their device, the hood is taken off. Raquel has drawn a very unfortunate lot. The chains pull her hands and feet back and a steel beam pushes into her back as a counterpart. She is also sitting on a pole that is anything but comfortable. Let's hope she doesn't have to endure this position too long. Additionally, Master Venarius decided so, she has to wear a blindfold and a ball-gag.

Samantha was luckier. She was stretched with ropes in a wooden frame. Admittedly, this position is not necessarily pleasant either, but a bit easier to bear than Raquel's. The only question is what the staff have planned with the machine behind her.

Tanja was given the honour of being taken over by Suzie herself. Tanja was hung with chains on steel girders, sitting on a wide belt which is pulled up together with her ankles. A belt around the chest as well as a chain collar, which also hang with chains on the steel girder stabilize her upper body. The hands are pulled backwards. The position is still quite comfortable, apart from the fact that Tanja is tortured by Suzie with the crop. But a look at this engine suggests that the position won't stay that way ...

Botan was tied up standing on an upright steel girder. This position wouldn't be so uncomfortable if there weren't the steel tips pointing in the direction of her crotch. So she is forced to stand on her toes all the time. If she give in, the pain in her crotch will be much higher. Botan just hopes that someone won't push her down just for fun.

Tanja hit the jackpot with Suzie. All the other girls were only tied by their tormentors on the equipment and left alone afterwards, but Suzie has set herself the task to deal intensively with Tanja. Again and again Suzie's crop wanders over the maltreated body of Tanja.

Suzie has activated the engine and increased the tension at Tanja's crotch. Slowly the position becomes uncomfortable because the hands are pulled back unyieldingly. Tanja bravely bears the torture.

For Luci, a very uncomfortable position has been chosen. But she looks worse than she really is. The chain around the neck was secured against pulling together. None of the organizers is willing to seriously endanger the girls. But the position is very exhausting, because if Luci wants to get some relief, she has to retreat with her arms, which costs a lot of strength.

Even Elli cannot complain about too much comfort. She is pulled up with the chains, but the chains on her arms cause a counter pull that is so strong that she can feel the floor straight with her fingertips. In addition, she has to struggle with the fact that her body openings are so filled that she cannot escape from them.

Even *Gwendi* is far from receiving a comfort treatment. Master Paws has made himself available for her care. *Gwendi* is forced to bend her body outwards if she do not want to come into contact with the steel tips in her back. Master Paws is in the process of applying nipple clamps to her as well.

Suzie finally let Tanja go. But before she increased the tension to the maximum possible. The pain is huge and the effort is to be seen. But Tanja bears the pain with composure and does not make a sound except breathing loudly.

After all the girls are fixed in their torture facilities, the tormentors disappear and leave the girls alone for some time. They don't know how long they have to wait and what else is waiting for them.

Suzie: "Dear friends, you were able to follow on the video wall how we prepared the girls for the upcoming hours. I am happy to inform you that the dungeon is now open for you. We will select one of the girls again and again, with whom we then carry out special actions, where you are also invited to take part. And of course, ... Touching the exhibits is explicitly allowed and desired. Have fun, see you at the Dungeon".

The dungeon fills more and more with spectators. Our tied-up girls can't complain about too little attention. In front of each of the girls a cluster of people has formed and the girls are not only stared at but also stroked, kneaded and sometimes touched more coarsely on all possible body parts. Then comes the first demonstration and Luci is the first chosen one who is freed from her unpleasant position and brought to the center of the dungeon. Also the spectators gather curiously in the middle.

Luci is tied to a wooden beam that floats over a trough filled with water. Suzie: "My dear guests, what do you think of a little bet? I bet \$200 that Luci will last longer than 4 minutes under water. Who's against?" A guest: "4 minutes, that's extremely long if you're not trained in it. I hold against it." Quickly there are some who go with Suzie as well as some who bet against it. Luci herself pursues this with fear: "Noooooooooooo, I can't do that ... " Suzie: "You won't disappoint me Luci?" Luci swallows and slowly shakes her head.

Luci takes a deep breath and her head is then lowered into the water. She is also aggravated by the fact that the spectators knead and stroke parts of her body that are not in the water.

Suzie: "Half time ... 2 minutes she still has to hold on ..."

Luci managed just over three minutes. As Suzie had lost her bet, she was quite mad and punished Luci with her crop followed by countless dives that went to the limit. Also, the breaks between the dives were very short. Luci was completely exhausted after the one-hour demonstration lesson.

After over an hour of sadistic torture by Suzie, the completely exhausted Lucy is freed from her instrument of torture and led away by 2 helpers to tie her up again in a more comfortable position.

Lucy was decoratively tied to a cross with a few chains in a relatively comfortable position, compared to before, where she can recover from the strains of the last treatment.

Samantha is chosen as the next victim. However, Samantha is not released from her current bondage, but the device standing behind her is pushed closer to her and inserted. People flock around Samantha. Taz kneels in front of Samantha looks deep in her eyes and strokes softly her cheek while this device is turned on

More and more people surround Samantha, attracted by her cries of pleasure. Samantha's mind surrenders more and more to the inevitable movements of the machine by which she is mercilessly fucked, and the mind gives way to expanding horniness. People are anything but passive and touch her or slap her on the butt. Taz never leaves her side and encourages her to let her emotions run free.

In this hour when it is Samantha's turn, she experiences one highpoint after another and her cries of lust can be heard loudly throughout the dungeon, causing more and more visitors to gather around her.

After Samantha, they devote themselves to Tanja. She is also not transferred to another position, because to free her would be too time-consuming. Instead, all visitors who have gathered around Tanja are given a magic wand to pamper Tanja with.

For over an hour Tanja is "tortured" by the bystanders with their magic wands. The mixture of pain caused by this yet unusual and extreme suspension and pleasure caused by the magic wands is indescribable for her and results in several highlights. Afterwards, Tanja is total exhausted and needs some time to recover

After Tanja's presentation hour is over, the audience turns to the next attraction. This time Gwendi is "asked" to come to the middle part of the dungeon, where an appropriate device has already been prepared for her.

With much enthusiasm and anticipation Gwendi gladly complies with this request.

With gentle pressure Gwendi is asked to lie down on the bed. First her wrists are fixed to the top of the metal bed and then the ankles on the underside of the bed so that her legs remain slightly spread. Electrodes on her body and a movable probe between her legs complete her equipment. It should be noted that Gwendi does not necessarily feel comfortable in her position. But the more, the viewers enjoy Gwendis situation.

Some watchers receive an electrical cattle prod to torture Gwendi with as well. Suzie regulates the power surges of the generator. Again and again there are electric shocks of different strengths and duration in all possible places of Gwendi's helpless body. But Suzie makes sure that it never becomes too much at once that Gwendi loses consciousness.

After Gwendi has finished her public presentation completely exhausted, she will be taken by two guards and carried to her final position where she may stay for the rest of the weekend.

The two guards put Gwendi in a small cage where she can spend the rest of the weekend. The cage itself is placed on a large wine barrel. Her freedom of movement is reduced to a minimum.

A toy mounted on the back of the cage is to make sure that she can keep herself occupied a little bit.

The next one, which has the honor of being presented, is Botan. The two guards remove the many chains that Botan has motionlessly tied to the steel beam. Worried, Botan looks at the device that has been prepared for her

After Botan was freed from the many chains by the two guards, she was stretched on the prepared frame and Botan is again displayed in a very exposed position. Helplessly she has to endure that a drill with a thick dildo-extension is pushed into her mouth as well as another one into her pussy.

The two devices are switched on and Botan is fucked over one hour on the one side by a Drilldo and on the other side orally tortured and her head shaken through. Enthusiastically, the bystanders watch the torment as well as the excitement that Botan may suffer and increase this even more by also intensively dealing with Botan's helpless body by using other toys such as pinwheel, magic wand and some others. Despite the torment, Botan experiences one orgasm after another.

After Botan has been fucked by the drilldo's for over an hour and additionally worked on by the audience, she is totally exhausted and 2 guards carry her to her waiting position where she is allowed to stay until the end of the event.

The place where Botan will spend the rest of the event doesn't look particularly comfortable, but since it won't be long now, she will probably endure this position. 2 girls are still missing with the demonstrations and everything will be prepared for the appearance of these two. Yes, this time it will be a double session.

For the last session, Elli and Raquel are brought into the center and asked to kneel on the prepared table opposite each other. Since this is a double session, both are allowed to participate in the performance for 2 hours this time. Their position is fixed by the order personnel with appropriate rods.

The preparation for the next session took more than an hour. Both girls are absolutely motionless fixed in the rods. Their lips are pressed tightly together and the other body openings are widely exposed so that the guests have unhindered access to them. In addition, a few toys have been prepared, with which the guests can work on the two girls. The preparations are complete and the game is open.

No sooner was the go-ahead given the guests rush to the devices and begin to work Raquel and Elli with them. The most popular were the vibrators and dildos, which were applied and used all over the girls' bodies. Within a short time, the two were at the highest level of arousal and they certainly enjoyed the treatment by the guests, even if now and then a rough handle or torture with the Electro-Rod or the swatter was the case.

For a long time our two girls are worked on by the guests. Not every action that the guests put is enjoyable. Some are also quite painful and often bring the girls to the limit of what is bearable. But since both are self-confessed masochists, they also arouses the torments to be endured and countless orgasms set in.

Finally our girls have survived the torture weekend. They are freed from their shackles and receive the armbinder as they did when they moved in. Only the hood is spared them and are led by Suzie on the chain in the club, where they still expect a small surprise.

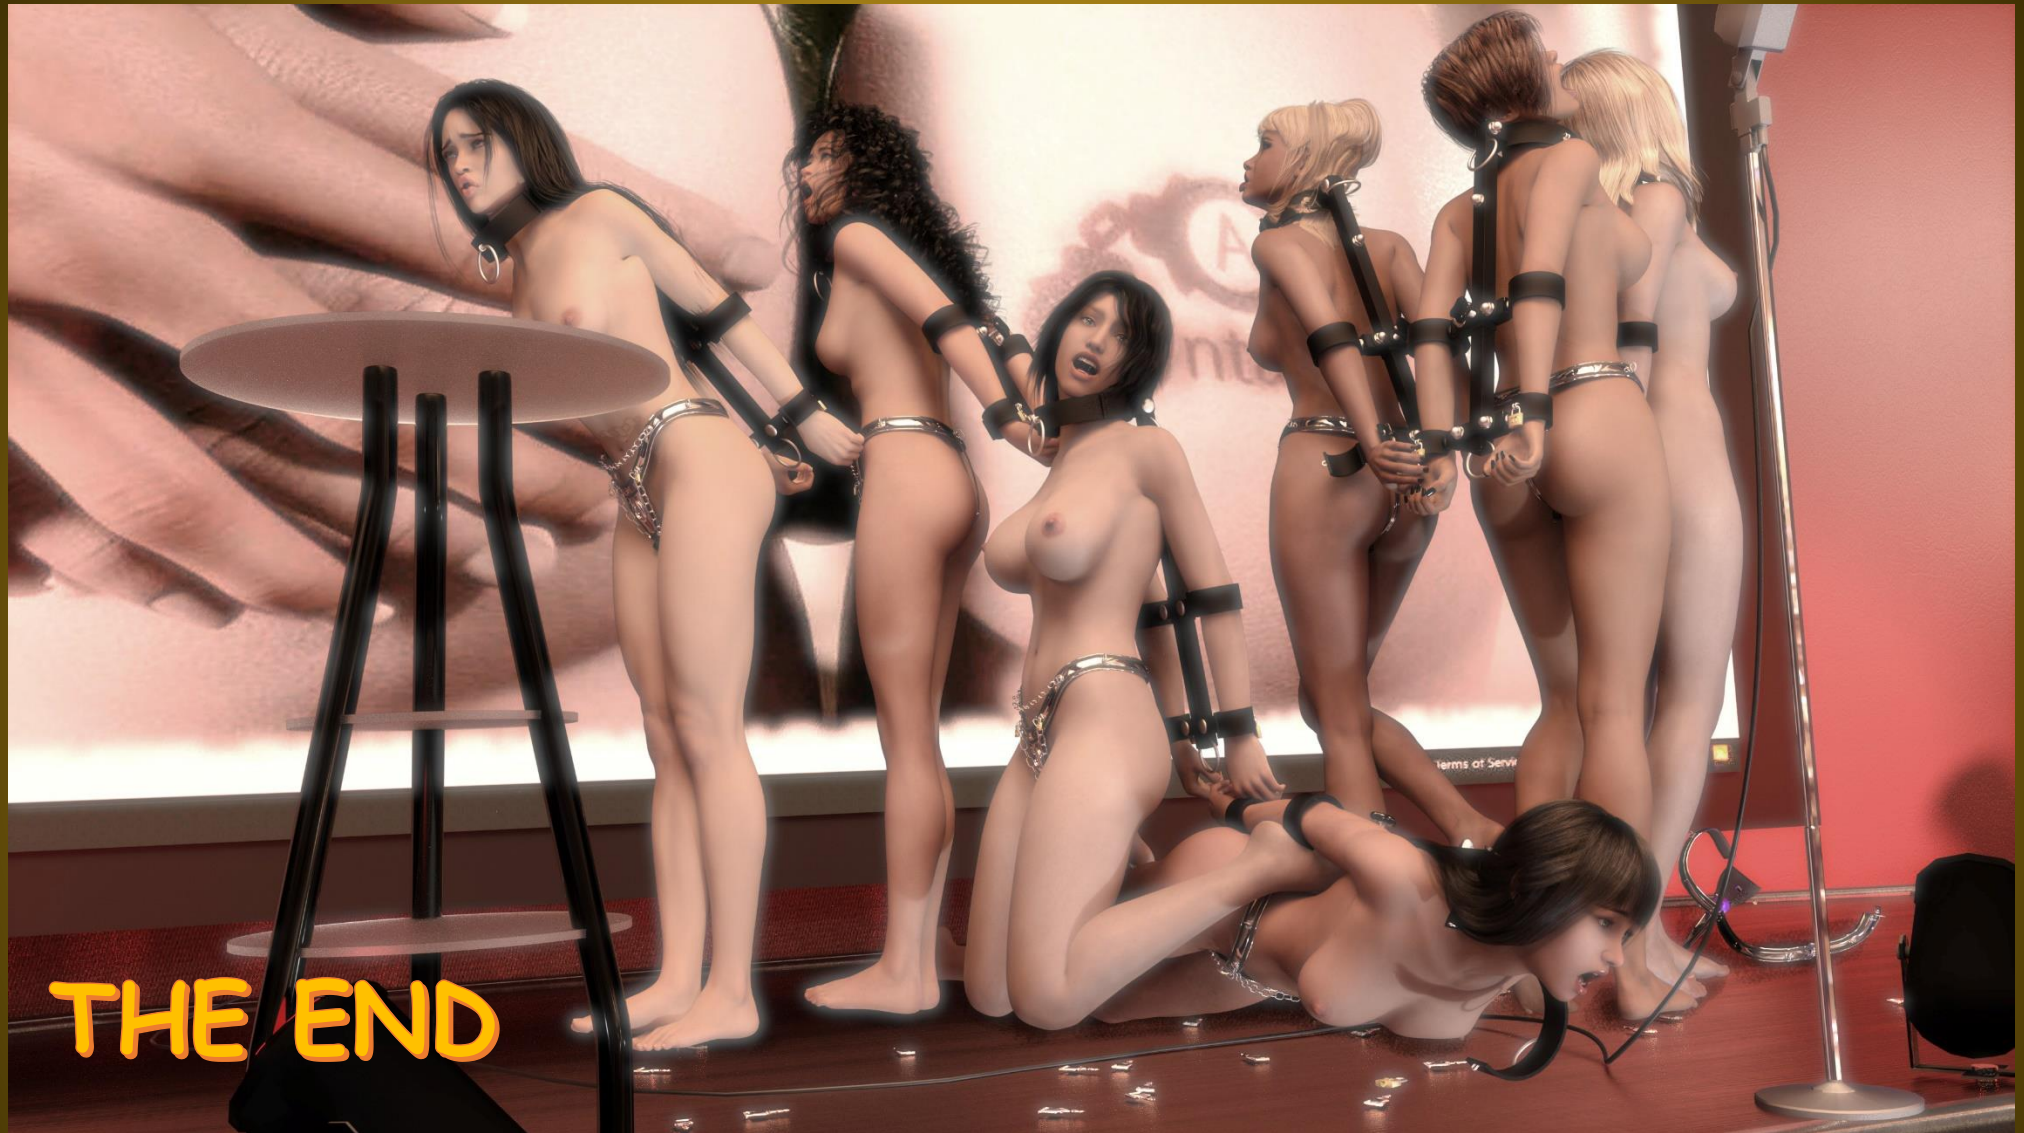

Suzie: "Dear friends, please give a thunderous applause to our 7 girls who gave a great performance in the Dungeon. We have another surprise for our girls. Tawny Tomsen donated a special version of the T&T obedience belt for each of the girls. The special thing about this belt is that it includes a vibrating anal plug, a vibrating dildo as well as a clit massage tool that can be controlled remotely through our club app. So you can use this app to stimulate our girls whenever they are on site and wearing the belt."

Suzie and Tawny put the special belts on the girls, causing them to moan as they insert the but-plug and dildo. The belts are then locked with 2 padlocks.

Suzie: "My dears, we are in fact done with our weekend event and I can tell you that you have done well and have all earned a year's free club membership as well as the Belt and also the Armbinder. But you still have one task left: Each of you is locked with 5 padlocks. That means there are 35 padlocks in total and they all have different locks. You have 35 keys at the table and your task is to free each other. Got it? Now have fun with the last task ..." After Suzie has spoken the words, she activates the vibrations from the dildo, the but-plug and the clit-massage-bud at the highest level for all the girls with her mobile-app and leaves the stage together with Tawny.

This intense penetration on the clit as well as in the cave and on the anus ensures that the girls are no longer able to think clearly and especially to organize themselves in the liberation action. If they had done that, the action would certainly have ended quickly. But so they pounce on the keys and scatter them on the floor to boot and it takes hours until all the girls are freed
