

THE TRIP (Part 2)

- a Hud story -

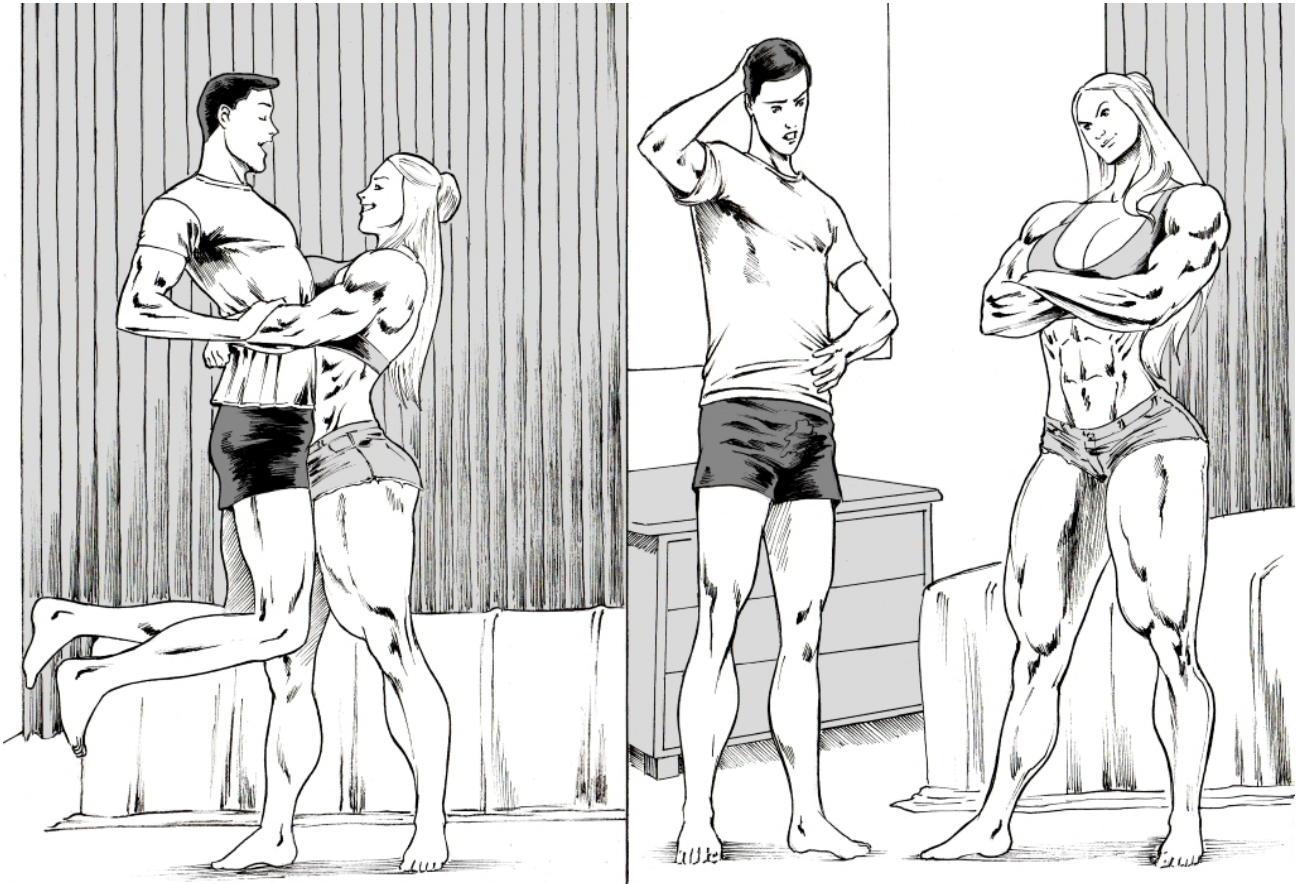

(amysconquest.com)

The saga continues...

After my total domination by LuAnn, I was in complete shock for the rest of the night. Megan sensing that I was not myself pestered me to talk about it. I avoided answering her as much as possible. Finally she said "OK you have forced me to do this!" After everything else that had gone on tonight, I became very apprehensive. What did she have in mind?

Slowly Megan came over to me and wrapped me in a bear hug and lifted me off the ground. As with every other time, I began to get aroused. She held me tight until my cock grew hard. I was close to another orgasm. Then without warning, she put me down, leaving my balls aching and my head spinning. Megan then said "That is the last one of those you get until you tell me what is bothering you."

I was relieved that I was spared any more pain or embarrassment and afraid to upset the strong woman of my dreams, I finally opened up and told her how LuAnn had ended the night by making me eat my own cum.

"Oh My God" Megan blurted out, "I know she is more experienced and kinkier than I am, but that's amazing"

I looked at her not knowing what she really meant. "Don't worry baby, I won't let her harm you" I looked at her relieved.

"But you know honey, you did make a mess on her belly and all she did was have you help clean it up for her." Megan added almost as an afterthought.

The other shoe had dropped. I could be humiliated as long as I was not physically hurt. Mental hurt was still acceptable. I didn't know what to think.

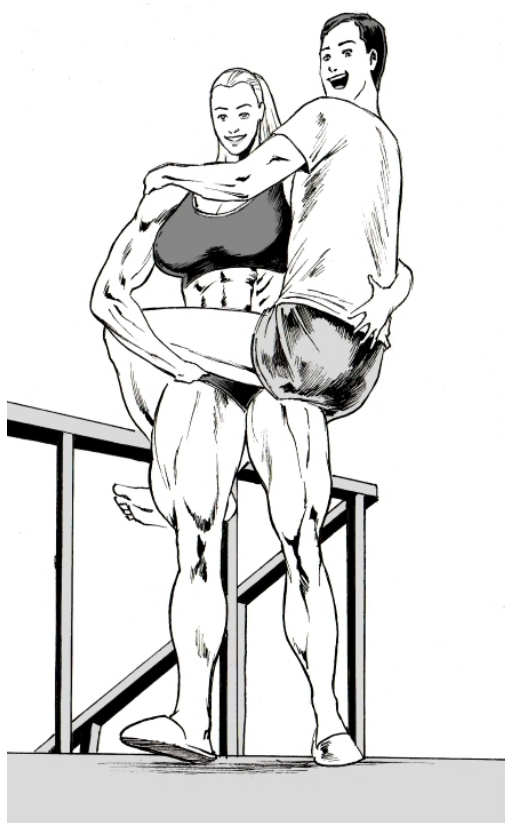

"Come on baby, you have been through enough tonight. " Megan came over and gently picked me up in a cradle and carried me off to bed. When we got to my room she rocked me in her arms squeezing tightly until I exploded with my last orgasm of the day. This time she didn't put me down immediately, but continued to rock me in her strong arms until I fell asleep.

The next morning things seemed to get back to normal. The parents came home after their fun getaway. Megan performed her regular task of picking me up and carrying me down to breakfast. It had become such a normal part of our daily existence that nobody looked up when she carried me in. When she put me down we said good morning to everyone.

Lisa looked up and said "Good morning sleepy heads. We were wondering if you were going to come down at all this morning. You must have had a busy day yesterday". If she only knew.

"How was your day?" Roger asked.

"Great dad!" Megan then began to recite everything we had done, leaving out the parts which would have embarrassed me and possibly gotten her in trouble.

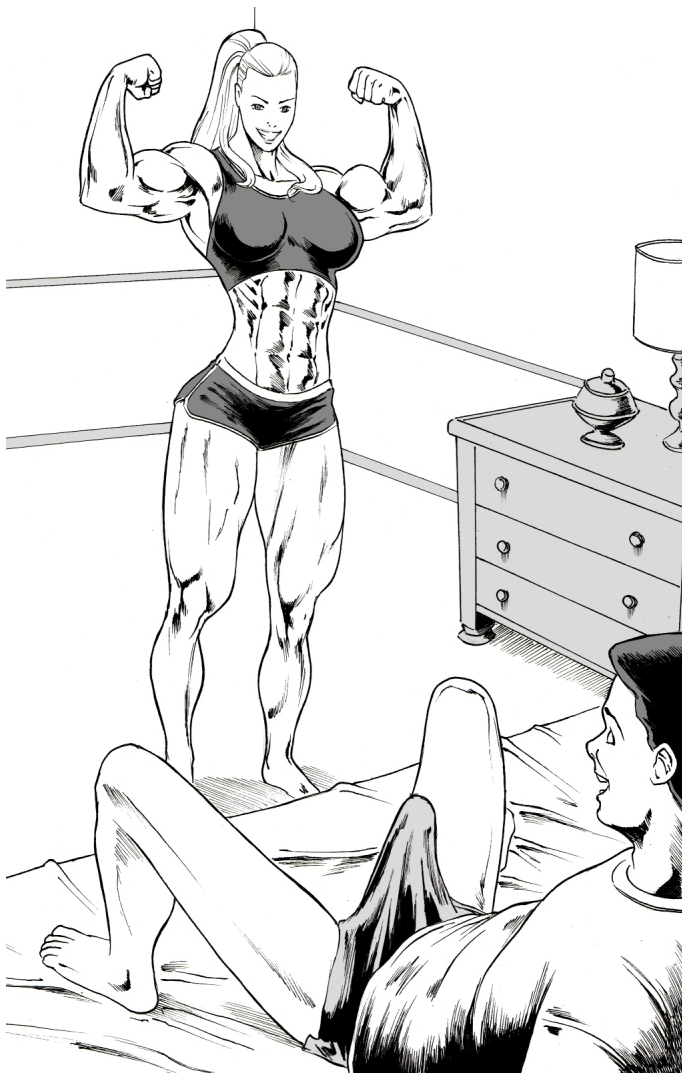

"Well by the looks of it you to had a special day I don't remember the last time you looked so good" added my mother as she looked up at me.

We ate our breakfast and Megan said "Come on Allan, we have some things to do." Our parents said they would see us later and for us to be good.

Megan was so full of energy this morning that she tried a new strength move. As soon as we were out of the kitchen she bent down a little and put me on her hip like a little child. We then proceeded to go up to her room. Megan moved as if I weighed nothing. She wasn't even breathing hard as we entered her room.

"OK mister, you have kept me from my workouts too long" Megan giggled as she threw me on the bed. Megan then began to change into her workout clothes. My excitement grew as I was about to see her challenge her incredible body.

She pulled a fluorescent white spandex workout top out of her dresser. Without a care she pulled the T-shirt she had been wearing over her head.. I marvelled at the sculpting of her back. The V of her back as it went from her broad shoulders down to her tiny waist was phenomenal.

As she raised her arms up higher I could see the muscles grow as they stretched. I wanted to reach out and caress the substantial muscle right in front of me, but the show had made me too weak to move that quickly.

As she pulled the top down Megan turned around to look at me. She winked at me as I continued to stare. I felt like I was hypnotized. Megan giggled, and said " You act like you have never seen this before." She was right as usual, but I didn't know if I would ever get over my total admiration for her stunning muscularity.

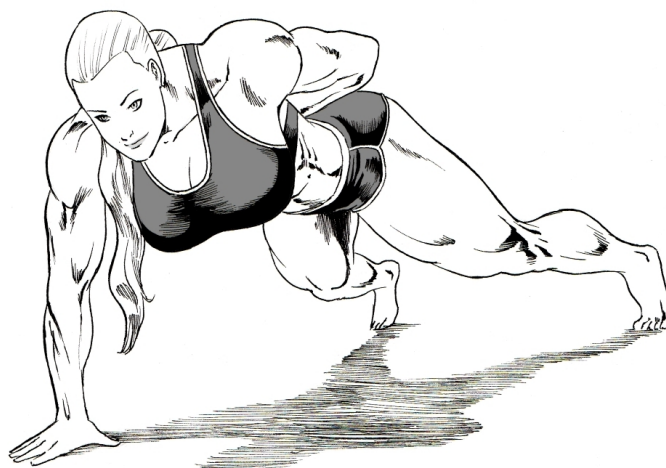

As I gazed at her pecs Megan's nipples began to grow and push against the fabric of her top. I guess I wasn't the only one getting excited. She said enough of this and pushed me back on the bed. Megan then put on a pair of blue volleyball shorts, which barely covered her round butt.

Once clothed in her tight spandex she started to loosen up and get ready.

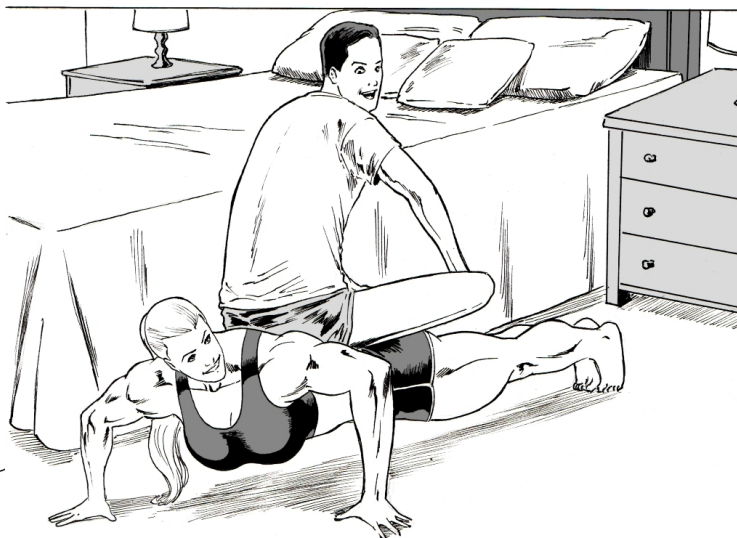

"Since I don't have any real weights here, I am going to have to improvise" she said to me as she limbered up.

I sat in awe as she bent over and stretched those magnificent legs. Every time she moved the muscles in her legs came to life. Her hamstrings stood out like cables holding up the Golden Gate Bridge. This is just a warm up? I sat there thinking. I can't wait for the main event.

Megan lay on the floor and got in a pushup position. Then without warning she started pushing up, then coming down. I lost count at 100. She looked over at me and said I'm getting bored. Then she picked one hand off the floor and started doing one arm pushups. Not the cheating ones you sometimes see in those competitions. But full nose to the floor and back up pushups. After about 25 of those she pushed up and then came down on the other hand and did 25 more.

Megan took a breath and looked over at me and said "Come here my little one". Now being so taller than her, you might think that I would be upset by that, but after having been so totally overwhelmed by her strength since I got here, to me it was the most natural and honest way to call me over. "Yes, honey what can I do for you?"

I replied. I had never called a girl honey, I hated pet names, but with her everything was different.

"Come sit on my back" Megan asked. Not questioning, for a second, I proceeded to put my butt on her back. "No I want you completely on my back". I moved up and put my butt on her shoulders and my feet on her butt and settled in. I was about to get the most magnificent ride of my life. With little effort Megan started doing pushups while I was on top of her. My ass had the incredible sensation of feeling her powerful shoulders as they pumped out repetition after repetition. The muscle in her shoulders were pulsating with life as she completed each repetition. My feet massaged her butt as she kept it firm and unmoving. I was having trouble concentrating but I think she stopped after another 100.

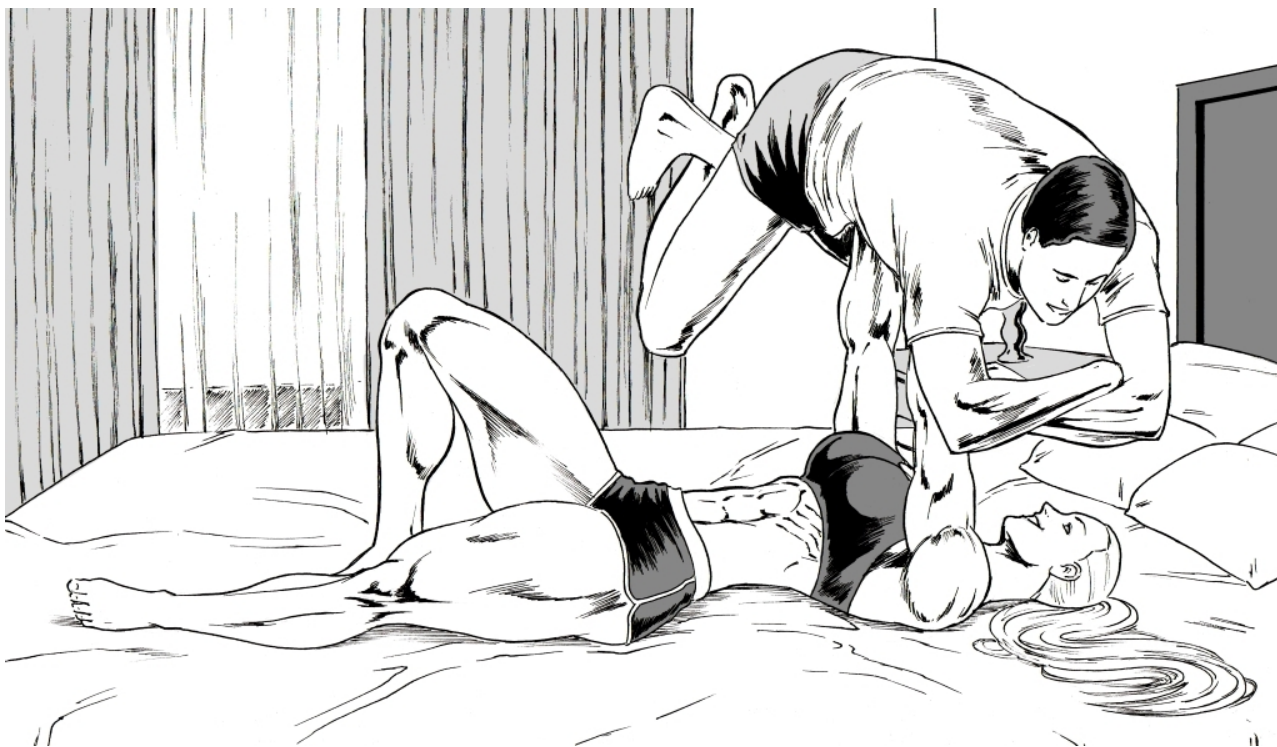

"OK, on to the next exercise" Megan spouted. I was getting tired just watching her, but she was only beginning her workout.

Next she bent over and put me across her back. I had become a human weight set. My amazing muscle goddess started doing squats with me. I think I may have distracted her with my pulsing erection that was rubbing against her tight, rippling back. "Don't fire yet" she said in a laughing tone. "I have too much more of my workout left to go."

Once she was done with that exercise without even putting me down Megan started with the calf raises. I thought that the two legged ones were amazing as I looked down to see her calves explode with energy. Then she decided to raise the bar. "Baby I haven't worked out for a week I need to push myself." She said as she turned her head back to me. I looked down to see her left foot behind her right ankle. This unbelievable muscle goddess was doing one legged calf raises, while I was on her back.

Not only did she possess unnatural strength, but grace and beauty as she balanced me on only one leg. Entranced, I watched each time she would raise her heel off the ground. Her calf mesmerized me with its power. The muscles expanded with each rep, the veins throbbed and highlighted the muscles. After her right leg tired Megan switched to her left and completed the same number of repetitions without stopping.

At this point she finally let me down as she took a water break. I don't know how much longer my cock could have held out. I was learning to last, but sometimes her strength and beauty sapped all my resolve.

After a minute or two Megan lay down on her bed and called out to me. "OK honey, I need you again" I thought to myself any time any where. "Come here and lie on my chest." I did as she requested and lay down on top of her. My still semi erect penis was right on top of her deep pecs.

"Ready for a real ride baby?" Megan asked in a teasing manner. I wondered what else she could have in store for me.

Before I could respond, Megan put a strong hand on my thigh and another under my arm. "OK be as stiff as your little man" she said through a giggle. Very soon I found out why. I was to be used as her weight as she simulated a bench press. Up I went, held by her powerful arms.

I looked down at her as she held me weightless in the air. This girl seemed to have no bounds. Up and down I went time after time. Her chest filled with power, her nipples straining against the thin fabric of her top. I was in a trance.

All of a sudden life got more complicated. After finishing an upward push, we heard someone coming through her bedroom door. I wished I could hide, but being in the air held by Megan's strong arms I was going nowhere.

In walked Lisa. "Hi kids, how is it going?" She asked. "Fine mom" Megan responded. "I hope you aren't hurting yourself" Lisa replied. "No way mom, he is too light" Megan said with a hint of impatience. "Let me make sure honey, hand him over to me. By the way I need your dirty clothes, I am going to do the wash later." Lisa said to Megan. "OK Mom, just a second" Megan said in a acquiescent tone.

I was totally confused. I knew Megan was strong, but Lisa, who was beautiful by any standard, did not look nearly as physically powerful. Soon I was to find out that looks can be deceiving.

Lisa came over and picked me out of Megan's hands and easily cradled me. "I'm sorry honey you are right, he is very light. Are you sure you can get a good workout with him?" Lisa said apologizing "Yes mom, I just do the harder sets and I do more reps." Replied Megan.

I finally got enough of my wits to speak up "How...How can you be doing this???" I sputtered.

Lisa then looked at me and said "Oh poor Allan, where do you think Megan got her strength from? Roger? Remember he is the best cook around. I am the muscles of the family" Then Lisa looked down at Megan "Well...I was the muscles of the family until my baby grew up and became stronger than I could hope to be"

Megan smiled up at her mom and said "I couldn't have done it without you"

The next thing I knew my newest nightmare took another twist. "Mom can you do me favor" Megan asked. "What do you need honey?" Lisa answered

A small smile began to creep across her lips. "Can you hug Allan? He has had a tough week and he could use some loving."

"Whatever you want dear."

All of a sudden my head was smothered by Lisa's beautiful and larger breasts. She did not possess her daughter's power, but she was significantly stronger than LuAnn, who had physically dominated me the day before.

I tried to keep my wits about me, Lisa ended that by squeezing me tightly. After being tossed aground by Megan, my cock was already at a bursting point.

Lisa looked at her daughter and said "Dear you have found a good one. He seems to enjoy being dominated and he has a huge cock."

I always wondered if I was larger than average. Being the klutz that I was, I had managed to get out of gym class since 7th junior high school, so I never had the shower encounters with the other guys. In college I was so occupied studying that I never had much time for dating. The only girl who had seen my erect cock had got off my bed and ran out of the room calling me a freak. She wouldn't even talk to me after that evening. I put that off on her lack of experience. Now I had a strong mature woman calling my cock huge. It must be true.

"Are you sure mom?" Megan queried.

"Yes Megan, he makes your father look like a little boy." Lisa replied with a bit a rasping tone creeping into her voice.

After the previous day's embarrassment and humiliation by the tiny LuAnn, the situation I found myself in today was far less threatening. I actually started to relax and take in what was going on. The strong hold Lisa had on me gave me a good chance to feel the body of the older Amazon who now controlled me. What I began to feel was amazing. Although not nearly as thick in muscularity, her chest possessed that sinewy quality of a woman who had spent many hour working on her body.

Underneath her breasts, I could feel the incredible muscle tension and strength of her pecs, as she held my 140 lb body close to her. The arms which held me close felt like bands of steel. As time went on she seemed to be getting stronger. I could feel her biceps grow as they cut into my weak legs and back.

"Mom you need to be careful, he doesn't have much control and when he blows he really blows." Megan cautioned.

"Is that right Megan?" Lisa said through a smile.

"Yes mom. All you have to do is hold him tight and maybe rock him a little and he shoots lots of times." Megan said excitedly.

A lustful look came over Lisa and she said "Hmm I haven't had a young one in a long time, and I don't think I have ever seen one this big. There is only one way to find out.. Megan dear"

"Yes mom" Megan answered

"Please come here and help me with a little matter that is in the way" Lisa said as she moved closer to Megan.

I was the center of all of this, but I had no say in what was going on. Lisa and Megan were talking as if I couldn't was their pet.

"What can I do for you mom?" Megan queried

"Honey I want you to remove his shorts and underwear. I want to see the entire package. I would put him down and do it myself, but I am having such a good time holding on to him and baby you are right he is so light in my arms, I think I could hold him for an hour or more." Lisa said as she continued to hold me tight.

I was about to be completely exposed. Megan stood up, walked over and pulled my shorts toward her and my underwear passed my knees. Lisa shifted her arms close to my butt. Megan then took them the rest of the way off. I was now completely bare and my cock, having its own mind, was hard as it had ever been. There was nothing to hide my condition. My dick was sticking straight up, actually resting against Lisa's chin.

"Mmmm...Look at that huge purple head. Look how long he is. Baby you better not let this one go" Lisa said in a now very husky voice.

"Yeah mom, I feel the same way, but Allan thinks he is too old for me." Megan said with resignation.

"Nonsense honey, you are stronger and younger, he should feel blessed that a young goddess wants someone older and weaker" Lisa countered with conviction.

"Allan, are you saying my Megan isn't good enough for you, due to her age?" Lisa asked me in a questioning voice

With that comment, Lisa held me tighter than I thought was possible for this astonishingly strong woman. Instead of pleasure, pain started to creep in as my legs and chest were constricted by the queen of the household.

"No. Ma'a.m" I managed to get out in a croaking voice

"Mom, don't hurt him." Lisa spoke out quickly has my pain became evident.

"Alright dear, you know best." Lisa replied reluctantly.

Lisa relaxed and I breathed a sigh of relief. Megan was my protector. Seeing how weak I was and how easily two smaller women had handled me, I knew where my place was.

"I was wrong and stupid Lisa, your daughter is the best thing that has ever happened to me and I would be a fool not to spend the rest of my life with her, if she will have me" I stated to the woman holding me so tightly.

"Honey that sounded like a proposal. What do you think dear" Lisa said in a pleased tone of voice.

"Mom I love him too and I would like nothing better than to protect and take care of my weak man." Lisa said with joy.

"Well young man, I think you deserve a present for everything you have been through"

With that comment Lisa brought her strength up again, but not to a painful level, but to an exquisite comforting level, where I felt safe and loved. Then she started rocking me back and forth.

I didn't think it was possible, but my cock stiffened even more at the attention I was receiving.

"Careful mom he looks ready" Megan warned

"Don't worry dear, this may be the biggest one I have ever seen, but a cock is a cock and I know how to handle them" Lisa answered assuredly.

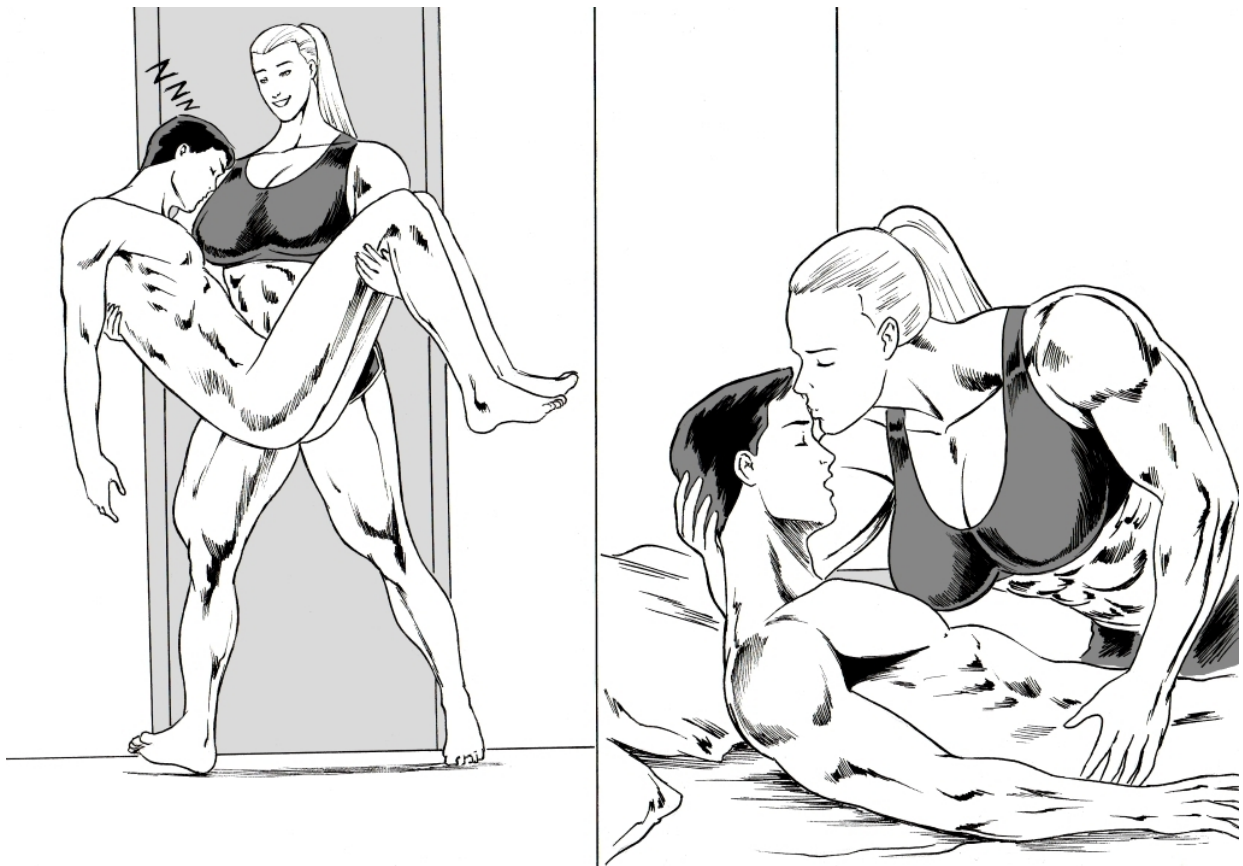

The next thing Lisa did blew my mind, again. While I was still in her arms, she brought me higher, closer to her face. At the same time she bent down taking the head of my cock in her mouth. Not content with arousing me in only one manner, she continued to rock me back and forth.

Then Lisa took a deep breath and went deeper taking the throbbing head of my cock and another few inches. Lisa kept sucking me in and lathering my cock with her experienced tongue. After all that had occurred during this morning, I had no composure left and too quickly started shooting into her awaiting mouth. This was a different release as no woman had ever sucked on my cock.. Rope after rope of cum shot into my future mother-in-law's mouth.

I watched as her cheeks started bulging, but she kept milking me with her warm mouth and tongue. Finally, after I stopped shooting, she released my cock. With a loud slap it plopped down on my stomach finished for the morning. Lisa then closed her mouth and swallowed all of my remaining cum.

"Mmm that was good. I haven't gotten a meal like that since college"

I was limp in her arms and if it wasn't for her incredible strength holding me tight, I would have slipped and fallen to the floor.

"Here you go baby, he's all yours now" Lisa said as she handed me back to Megan.

"Goody goody" Megan giggled as she held me tight and kissed me on the cheek, "But mom I think you have worn him out for a while"

"Don't worry dear, he is young and will be ready for more, before you know it" Lisa assured her daughter.

With that Megan carried me back to my room tucked me in, where I fell into a blissful sleep.
