

Thoroughly Fucked and Seeded Mother

By Klrxo

Kelby's swollen, pulsing shaft was enveloped by the warm, wet folds of his mother's vagina. Her pink, muscular walls gripped him snugly, the unique texture of rugae and ridges providing exquisite friction against his sensitive penile flesh.

It was especially pleasurable on the inward thrust when the skin of the 18-year-old's long, turgid penis was pulled taut and his glans mushroomed outward, hugging his mother's cervical ring.

Hailey's arousal coated Kelby's manhood, mixing with his leaking pre-goo to allow him to glide smoothly in and out of her slick channel.

Hailey's sexy legs were hooked over her boy's shoulders, her dainty feet with red polished toenails pointed back towards her marital headboard. The position elevated her hips, tilting her pelvis upward. This angle caused her plump, rounded ass cheeks to spread apart, exposing the tight pink pucker nestled between them.

Each powerful thrust from Kelby rocked his mother's entire body, making her oversized boobie-orbs bounce and sway between them. His swinging, cum-bloated ball sack slapped against Hailey's upturned buttocks with each forward surge, the smooth hairless skin of his boy-scrotum smacking right against her sensitive anus.

The crinkled ring of muscle flexed and winked, clenching involuntarily as Kelby's cum-filled nuts battered against it over and over.

Hailey could feel her asshole fluttering, the forbidden opening begging for attention. Her son's heavy testicles felt so good drumming on her back door, sending illicit tingles of pleasure up her spine.

The flared pinkish-purple head of Kelby's penis rubbed against all the most pleasurable spots inside his mother - stroking along her G-spot, bumping against her cervix, its flared coronal rim tugging at the nerve-dense tissue near her entrance.

His veiny girth stretched her open perfectly, stimulating the concentration of nerve endings encircling her vaginal opening. Hailey's abundant natural lubrication let her son's thick rod piston rapidly in her receptive sheath without chafing.

As mother and son, their genitals were perfectly sized and shaped for one another - like lock and key. Kelby's long, girthy shaft was the ideal size to fill his mother's deep vagina, reaching all the right places.

The fact that Kelby's sex organ had developed from the same genetic blueprint as the reproductive tract that had birthed him meant that they fit together perfectly. The pronounced ridge of his cockhead caught on the textured tissue of her G-spot with each pass, making her clench and shudder around him.

Hailey's womanly passage was warm and welcoming, drawing her son deeper with each eager thrust of his hips. Her vaginal rugae, the accordion-like folds of muscle lining her walls, rippled along Kelby's aching hardness, massaging his fleshy stalk from all sides.

Her inner muscles fluttered around him as she approached another climax, squeezing in a milking motion, her fleshy labrum suctioning to his root.

Their coupling was enhanced by the physiological arousal response - increased blood flow to their genitals, making them engorged and hypersensitive, lubricating their union, readying them for orgasm.

Kelby's teenage penis swelled even larger inside the hot, wet haven of his mother's pussy. Hailey's labia and clitoral hood became puffy and engorged, her fat clitoris protruding like the glans of a tiny penis, begging to be stimulated.

Kelby angled his body to rub his pubic bone firmly against his mother's sensitive nub with each grinding thrust.

Hailey writhed and bucked beneath him as the dual stimulation of clitoral contact and internal fullness pushed her rapidly towards another release.

The mother's enormous breasts rippled and jiggled heavily between their sweat-slicked bodies as Kelby continued to pound into her with porn star thrusts.

Each powerful snap of his hips made the fleshy orbs quiver and bounce, her soft skin shimmering with a sheen of perspiration.

Her nipples were thick and engorged, standing out nearly an inch from her wide, puffy areolas. The rosy buds were turgid with arousal, the sensitive tips just begging to be pinched and tugged.

Beneath the delicate surface, Hailey's breasts were composed of masses of pliable mammary gland tissue and fat, interlaced with fine ligaments. This anatomy gave her bust its trademark combination of enticing softness and buxom heft.

As Kelby jabbed in and out of his mother's slick cunt, her giant sweaty tits wobbled to and fro. The supple flesh undulated in mesmerizing waves with each impact of his pelvis against hers. Her stiff nipples traced erratic circles against his chest, leaving faint trails of breastmilk that had begun to leak from her motherly ducts.

The hard-fucking teen lowered his head, extending his tongue to lap at the drops of sweet milk beading on her nipples.

He captured one fat nub between his lips, suckling eagerly as more of her warm, rich nectar let down into his mouth. Hailey moaned and arched her back, thrusting more of her pillowy tit into her son's hungry mouth.

He switched to her other breast, suckling hard and drawing out her milk with the suction. Kelby kneaded the plump mound with one hand, squeezing rhythmically to help express more of her motherly essence. His other hand groped her free breast greedily, his fingers sinking into the yielding flesh.

The teenager reveled in the decadent sensations - the taste of his mother's breastmilk on his tongue, the feel of her huge soft tits

overflowing his hands, the grip of her hot pussy around his cock. He felt himself rapidly approaching the point of no return, his balls drawing up tight, ready to flood her womb with his seed.

"Fuck, Mom...I'm gonna cum soon," he grunted around a mouthful of succulent tit. "Your pussy feels too good...Can't hold back much longer!"

Hailey extended her shapely legs out in a wide V in the air, toes pointed gracefully towards opposite sides of the room. The new position opened her up completely to her son, tilting her pelvis to the perfect angle for deep penetration.

"That's it baby, really give it to Mommy now," she purred huskily, giving Kelby free reign to plunder her naked body.

He hooked his arms behind her knees and leaned forward, nearly bending her in half as he began to savagely pound his rock-hard cock into her sopping wet cunt.

Hailey's back arched sharply off the bed, her huge tits bouncing wildly as Kelby plowed into her with animalistic intensity.

"OH FUCK YES! Use me hard baby boy! Ruin Mommy's tight little fuckhole!" she wailed, digging her manicured nails into the sweat-slicked skin of his back.

She dragged her nails down either side of his spine, leaving thin red welts in their wake. The sharp sensation only spurred Kelby on more. His boner flexed powerfully at its root and he hammered into his mother's upturned pussy with brutal, pistoning thrusts. It made

his parent's headboard slam against the wall and rattle the framed wedding photos on her dresser.

Hailey's thigh and glute muscles flexed and strained under the relentless pounding, her soft flesh rippling with each mighty impact of her son's pelvis against her own. "*This was how a mother's body was made to be fucked,*" she thought.

Kelby's hands slid from her knees down to grip the backs of her thighs, his fingers sinking into the yielding skin and lush curves.

He used the leverage to yank her harder onto his hardon with every cock-thrust, skewering her on his thick shaft over and over.

The stimulation was overwhelming - the feel of her velvety walls gripping him so tightly, the obscene wet sounds of her overflowing arousal, the musky scent of their sex hanging heavy in the air.

Kelby felt his sack drawing up even tighter, his swollen balls pulsing with the need for release. The urge to fill his mother with his potent seed was nearly overpowering. He could feel her womb kissing the tip of his pecker with every plunge into her depths, as if begging to receive his essence.

As her pleasure mounted, Hailey's breathing accelerated, her giant tits heaving. Her heart rate and blood pressure increased, flooding her genitals with even more blood. This engorgement caused her vulva to swell and darken in color, her labia becoming puffy and her clitoral glans protruding from beneath its thick, fleshy prepuce.

Internally, the upper portion of Hailey's vaginal walls began to spasm uncontrollably. Her urethral sponge, an area of spongy erectile tissue surrounding her urethra, became increasingly swollen. As Kelby's barbed cock-head repeatedly stroked her front vaginal wall, it stimulated both her G-spot and Skene's glands, located on either side of the urethra.

The paraurethral ducts connecting the Skene's glands to Hailey's urethra began to fill with fluid. The clear, prostatic secretions mixed with glucose-containing liquid from her bladder, creating the ejaculate that would soon expel from her body.

"Oh god Kelby, you're going to make me squirt!" Hailey wailed, feeling the telltale pressure building. Her abdominal and pelvic floor muscles tightened and quivered as her climax neared its precipice.

With a final snap of his hips and grinding thrust against his mother's anterior wall, Kelby sent Hailey hurtling over the edge into an explosive orgasm.

Her vaginal muscles clamped down hard around his plunging cunt-fucker as a clear stream of ejaculate spurted forcefully from her urethra, drenching her son's pelvis and balls.

Hailey's body shook and convulsed beneath her boy as the gush of fluid continued to erupt from her spasming pussy in several strong pulses. The muscles of her uterus, vagina, rectum, and urethra all contracted rhythmically as the intense waves of pleasure crashed through her.

Kelby groaned at the sensation of being flooded with his mother's warm essence and the sound of her beautiful screams reverberating off of her bedroom walls. He continued to thrust in a tireless rhythm, letting her undulating walls milk his aching cock.

Hailey sobbed and whimpered incoherently, her pretty hazel eyes rolling back, as her profound orgasm went on and on, seemingly endless...

Kelby groaned as he felt his mother's vaginal muscles contracting powerfully around his thrusting penis. The bulbocavernosus and pubococcygeus muscles underneath the rugated lining of her vaginal canal flexed rhythmically, gripping his shaft like a hot-sponged fist.

With each clench of Hailey's interior muscles, her soaked pussy seemed to shrink around Kelby's girth, squeezing him tighter. The muscular undulations rippled along his whole length, from base to tip. It felt like her slick channel was getting narrower, encapsulating his erection snugly from all sides.

The increased tightness and pressure created intense friction against Kelby's sensitive penile flesh as he pumped in and out. The nerve endings lining his shaft tingled with pleasure from the snug, wet heat enveloping him. He could feel every flutter and tremor of his mother's convulsing walls through the thin skin of his cock.

The textured ridges and folds of Hailey's vagina rasped deliciously along Kelby's tender glans and frenulum with each thrust and withdrawal. The pleasure was almost unbearably intense as her

muscular mommy-sheath squeezed and massaged him, trying to coax the cum from his balls.

Hailey's strong internal muscles pulled her teen deeper on every inward stroke, her cervix kissing the leaky tip of his cock. As he withdrew, her muscles resisted, clutching at him as if reluctant to let him go. The exquisite friction of her impossibly tight wetness sliding along his aching dong made Kelby dizzy with need.

The rippling pressure of his mother's fluttering walls hugged his manhood, combining with the obscene wet sounds of his thrusts churning her overflowing juices. This brought Kelby to the very brink of orgasm.

He grit his teeth, fighting the urge to erupt, wanting to prolong their coupling and plug through her hot, MILF pussy forever. But Hailey's clenching heat felt too incredible, her slick tightness milking him relentlessly.

The teen felt the tightening in his loins signaling his impending climax. The exquisite sensations of his mother's birthing walls squeezing his sensitive cock were too much to resist any longer.

He began to thrust erratically, his hips snapping forward in short, urgent jabs as he chased his release.

Sensing her son was close, Hailey lowered her legs and locked her ankles behind his back, using her strong limbs to pull him deeper. She caged Kelby between her creamy sweat-slicked thighs, the muscles flexing as she guided his increasingly frantic thrusts.

Her calves pressed into his writhing back while her heels drummed against his spine, just above his young, bobbing ass, spurring him on.

"That's it baby, let go! Give mommy that hot cum!" Hailey panted, skillfully undulating her hips to meet Kelby's wild bucking. She used the strength in her matronly legs to control the pace and depth of his thrusts, ensuring he continued to plow her G-spot with every plunge.

Their sweat-drenched bodies moved together in a frenzied coupling, all tangled limbs and desperate rutting. Even if Hailey's husband entered the room at that moment they wouldn't have stopped.

Grunts and moans filled the room as mother and son single-mindedly sought their mutual pleasure. The creaking bedframe shook violently beneath their writhing forms, the abused springs wailing in protest. It had never sustained such a ravenous fuck.

Kelby buried his face in his mother's neck, grunting and growling as his climax rapidly approached. Hailey tilted her pelvis up sharply, changing the angle of his entry to take him as deep as possible. She wanted to feel Kelby's cock throbbing in the depths of her cunt as he pumped her full of his seed.

"Fuck, I'm gonna cum!" Kelby groaned against Hailey's damp skin. He slammed forward one last time, his mushrooming cock-head ramming against his mother's cervix, and exploded with a shout.

Hailey shrieked as she felt her son's hot cum-honey spurting forcefully into her spasming depths, triggering her own intense

orgasm. Her vaginal muscles clamped down around Kelby's throbbing shaft, the rippling walls milking him for every drop.

Mother and son shuddered and twitched through the aftermath of their mutual climax, pulses of pleasure radiating out from their joined sexes. It was as if the same electric current was shooting through their naked bodies.

Hailey's cunt squeezed in time with each spurt of Kelby's ejaculate painting her insides. Their sweaty skin stuck together as they clung to one another, gasping for breath.

Finally, Kelby collapsed onto his mother's heaving chest, completely spent. The last bit of potent cock-drool oozed from his piss-hole, glazing the plump, rounded lips guarding his mother's cervix.

Hailey stroked his damp hair and murmured words of praise as little aftershocks continued to flutter through her sensitive channel. This created a rhythmic squeeze and release around the stalk of her boy's manhood. They basked in the warm afterglow, breathless bodies tangled, savoring the forbidden intimacy of the moment.

Hailey knew their intimate interlude would have to end soon. Her three-month-old baby would be waking from his nap any minute now, hungry for mommy's titty-milk. And her two older children would be bursting through the front door within the hour. Their return from school would fill the house with chatter and demands for snacks and homework help.

Her husband Tom's arrival from the office would follow soon after. He'd kiss her cheek, loosen his tie, and ask what was for dinner,

blissfully unaware of how thoroughly his wife had just been ravished by their teenage son's cock.

Hailey would have to quickly transform herself from wanton, incestuous sex goddess back into plain, respectable mother and wife. She needed to erase all traces of the dirty, forbidden fucking she had just engaged in.

Her obscenely stretched cunt would have to shrink back to its usual tidy tightness. All that potent young cum Kelby had pumped deep inside her would have to soak into her cuntal walls and take root in her womb.

The pungent scent of sex and sweat that clung to her skin would need to be scrubbed away. Her disheveled hair smoothed back into a neat bun, her smudged makeup retouched. The rumpled, cum-stained sheets would have to be stripped from her marital bed and laundered before Tom noticed.

Most of all, Hailey would have to wipe the sated, fucked-silly expression from her face, and suppress that animalistic craving for her son's wonderful cock. She'd have to zip her nurturing, maternal persona back up over the cock-hungry slut Kelby had just finished banging.

Reluctantly, Hailey nudged her son's drowsy form. "Kelby, honey, we have to get cleaned up now. Your baby brother will need feeding soon, and the rest of the family will be home before we know it."

Kelby grumbled and burrowed deeper into his mother's pillowy breasts, clearly reluctant to unclasp from her soft curves.

Hailey giggled and stroked his hair."I know baby, I don't want this to end either. But we can't let your father or anyone else find us like this. Come on, up we go."

With a sigh, Kelby rolled off his mother's lush body. Hailey immediately missed the satisfying weight of him on top of her, missed the way his still-hard cock felt nestled inside her cum-soaked depths.

Suppressing a whimper at the loss, she swung her jelly-like legs over the side of the bed and stood on wobbly feet.

Kelby watched through hooded eyes as his mother's voluptuous ass swayed with her movement. Globbs of his thick cum leaked from her puffy, reddened labia to trickle down her inner thighs. The primal part of his brain rumbled with dark satisfaction at the way he had seeded her so thoroughly.

Deep inside Hailey's body, the millions of sperm cells Kelby had just deposited were beginning their frantic race towards her waiting ovum.

The muscular contractions of Hailey's vagina and uterus during her intense orgasm helped propel the semen upwards through her cervix, giving the tiny swimmers a boost towards their target.

Kelby's sperm instinctively navigated the folds and crevices of Hailey's vaginal tract, their long tails undulating as they doggedly pushed forward against the flow of her natural secretions. The fittest sperm pulled ahead of their brethren, showing superior

motility and strength as they fought their way towards Hailey's fallopian tubes.

As the swarm of sperm neared Hailey's ripened egg, patiently waiting in her fallopian tube, they released special enzymes to burn through the outer layer of her ovum. The first sperm to fully penetrate the egg's protective barrier would claim victory and perpetuate Kelby and Hailey's genes in a new life.

The dominant sperm burrowed its head into the gelatinous surface of the egg, its payload of paternal DNA fully merging with the maternal chromosomes contained within. This fusion of Kelby's sperm and Hailey's egg created a unique combination of genetic traits - a zygote that would grow and develop into their child, equal parts each of them.

Unaware of the microscopic miracle occurring in her reproductive tract, Hailey made her way on unsteady legs to the bathroom to clean up, her luscious bubble butt undulating deliciously. She knew she needed to flush Kelby's seed from her body to prevent an unintended pregnancy.

But deep inside, a primal part of Hailey found the idea darkly appealing - her teenage son's potent sperm taking root in her womb, their coupling yielding forbidden fruit. What would their illicit offspring look like - a perfect blend of her and Kelby's features?

The mother shook herself, dispelling the inappropriate fantasy. She had to focus on returning to her roles as dutiful mother and wife

before the rest of the family returned home, not get lost in her incestuous fantasies.
