

Matt was a thief who used to steal goods from the most dangerous people in the city, but he was never caught until today while he was searching for other people to rob.

Why are those people looking at me as if they're expecting me? I'd better turn back to avoid any conflict. Are they behind me too?!?! I'm done... There's no escape.

10 MINUTES LATER

This is what you get if you steal from us again. However, that's not all. Tie him up and bring the van

TWO HOURS LATER

Why did I have to shave my beard?

This is just the beginning. I can't wait to see how you'll look in a few months!

ONE WEEK LATER

Thank you for sparing my life, and for still being alive, but these clothes are humiliating.

So, you're saying you'd prefer to die? We can't do that. The boss needs you in your final form. Starting tomorrow, you'll begin training and you'll take these pills daily.

ONE WEEK LATER

I need to find a way to escape from here. I can't just stay here until I die.

ONE MONTH LATER

I've changed so much in this past month. Even though I've thrown away the pills, I think they've been putting something in my food. I don't know how I'll be able to escape from here.

ONE MONTH LATER

Starting today, you'll begin wearing makeup and presenting yourself as a girl because the boss is coming, and he wants to see you.

ONE MONTH LATER

ONE MONTH LATER

I didn't expect you to look so good in just one month. I'm your new master, and you'll be coming home with me.

ONE MONTH LATER

Yes, master, thank you for freeing me from that prison.

From now on, you'll wear these clothes and do everything I tell you, addressing me as 'master'

6 MONTHS LATER

6 MONTHS LATER

I can't believe that doctor changed me so much. I even have a functional vagina now. Although I'm not complaining, I haven't had an orgasm in a long time.

6 MONTHS LATER

Yes, husband, but can you fuck me once more before you leave because I can't be without your cock.

From now on, you'll address me as husband and present yourself as my wife, showing those who steal from me how they can become like you.

ONE YEAR LATER

I can't even remember my life before all of this very well. All I know is that now I'm the wife of the most feared man in town, and I enjoy making him feel good.

ONE YEAR LATER

I thank him for this body.
I hope he never leaves
me, and that I'll remain
his trophy wife for the
rest of my life.
