In the background, there are various pieces of equipment, including a large orange and black device on the left and a wall of grey panels with small lights. Remarkably so. The suit adapts to your body, reshaping it, feminizing it. It's a gradual process, but within moments, you'll see the change. Your bone structure, your features, everything aligns to create the perfect female form

So... if I were to... engage in, you know, sexual activity...
