A short time later...

That was fun!
How'd I do?

Very well,
your speed seems equal to mine.
I calculate it at somewhere near
4,000 kilometers an hour.

Wow! Um...
is that fast?

You could circle
the Earth at it's equator in
roughly ten hours.

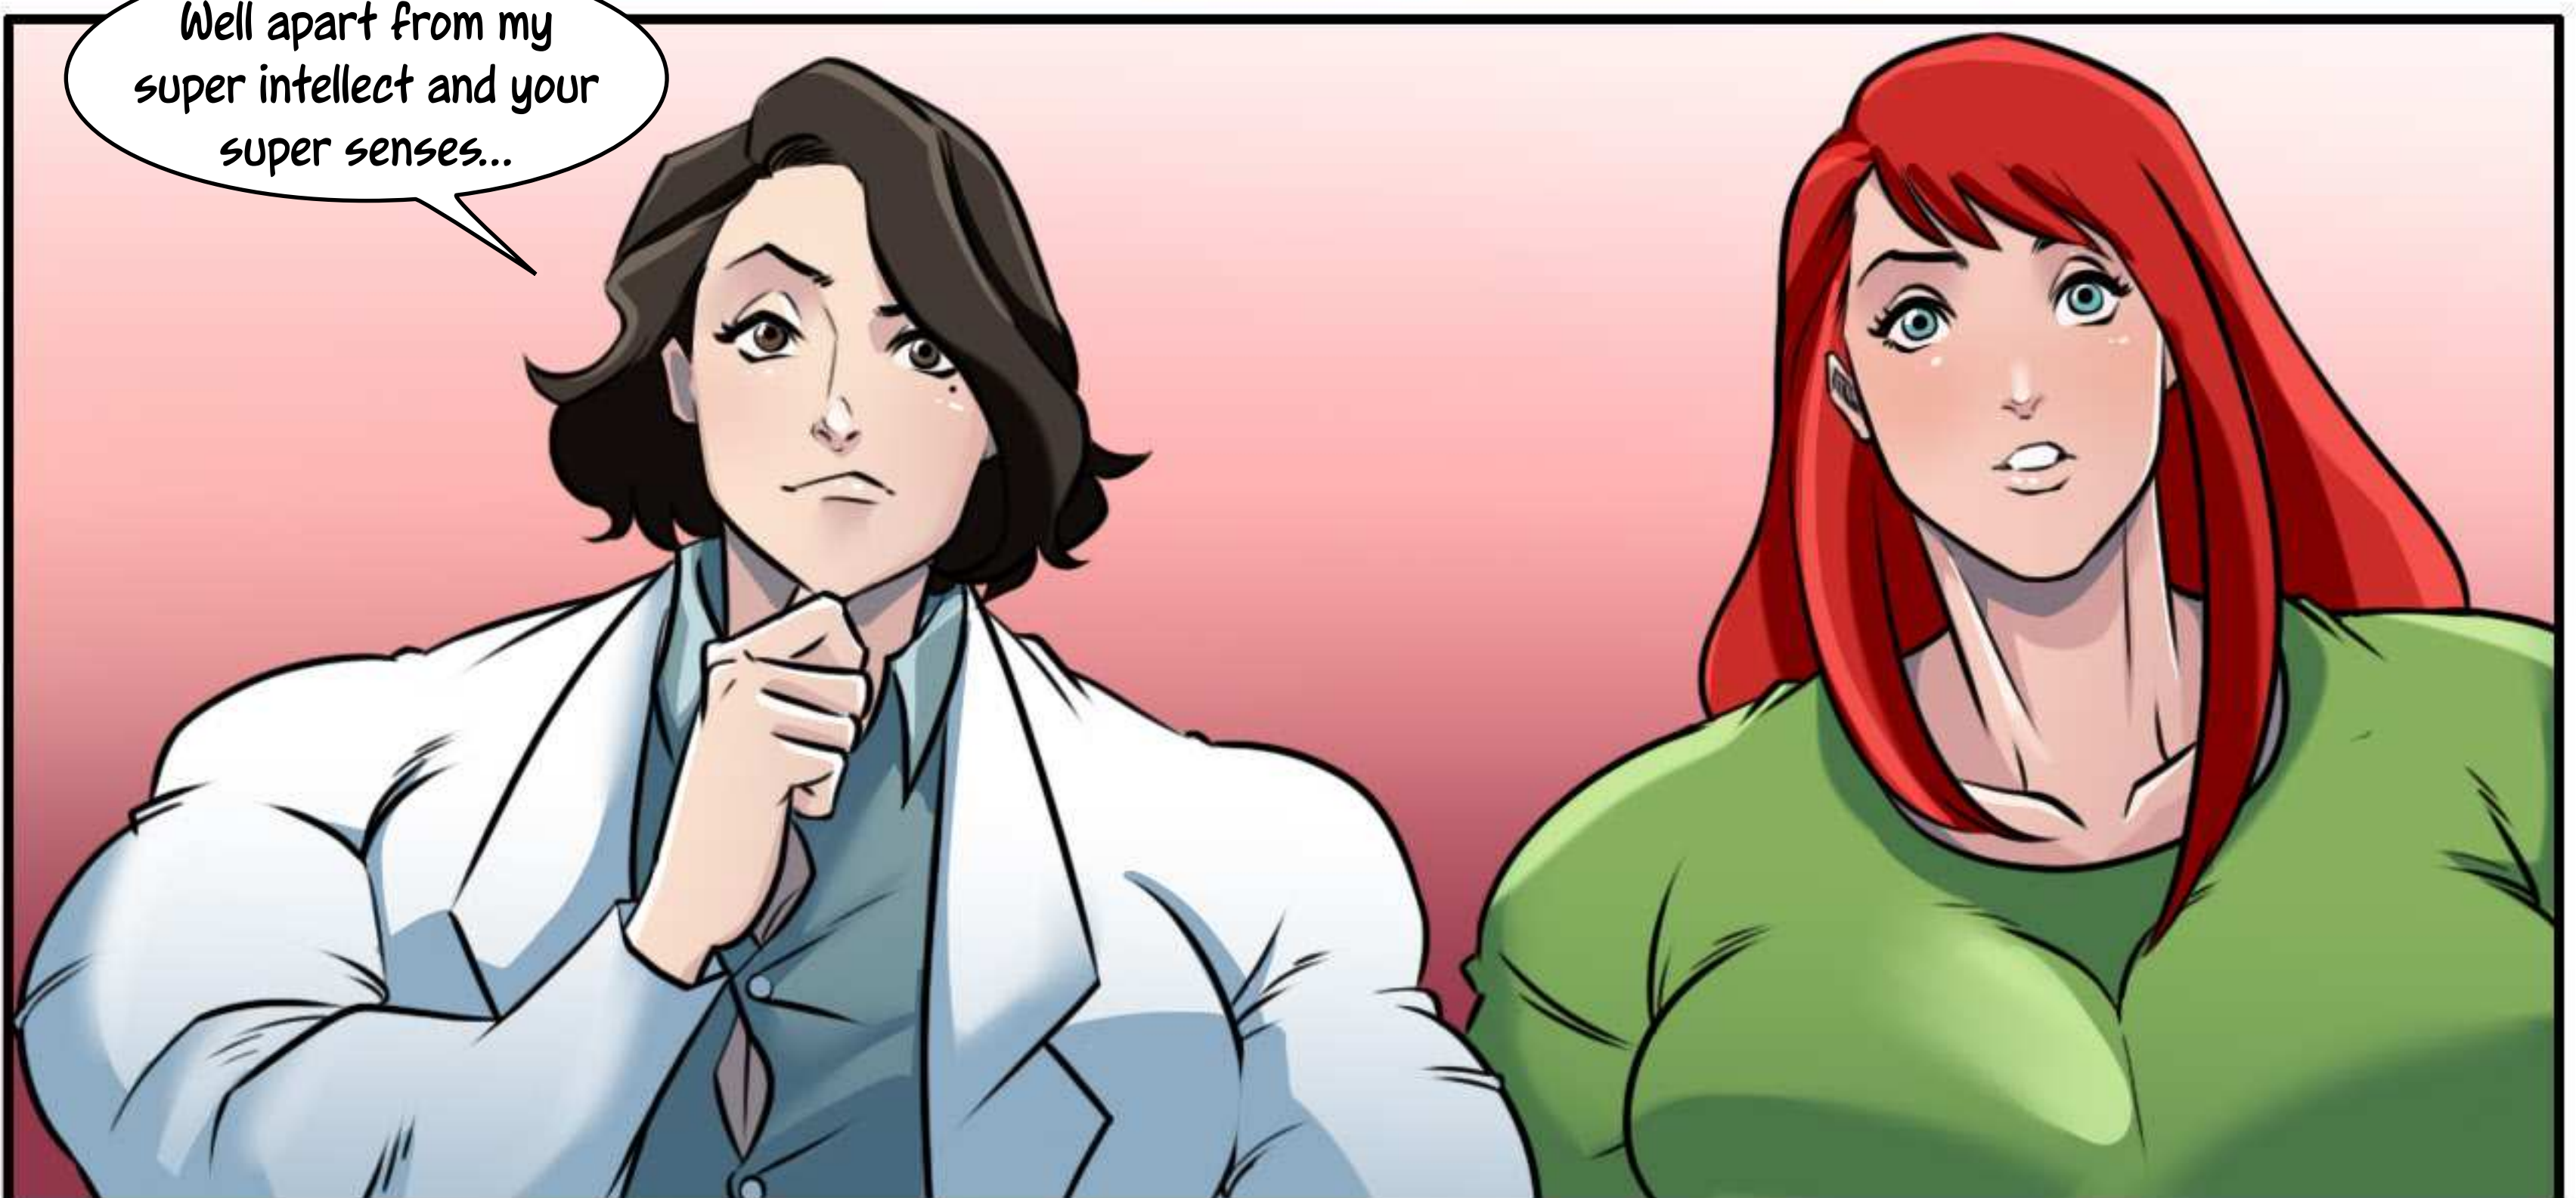

WOW!
So um... what have we
learned so far?

SQUEEK
SQUEEK
SQUEEK

TAK!
TAK!

Well apart from my
super intellect and your
super senses...

Super Speed	DM/HW

We seem to have identical and equal powers.

I theorize that the meteorite gives off some type of energy that has caused us to undergo a type of spontaneous evolution. No doubt...

But why did you get smarter and I...

AHEM!
I was about to say...
no doubt the small difference in
our abilities is due to the slight
variations in our genetic
structure.

Obviously I am
predisposed to... to um...
what was I saying?

NO!
The effects of the meteorite...
THEY'RE WEARING OFF!

Bummer...

FWOOOP!

FWOOOP!

FWOOOP!

FWOOOP!

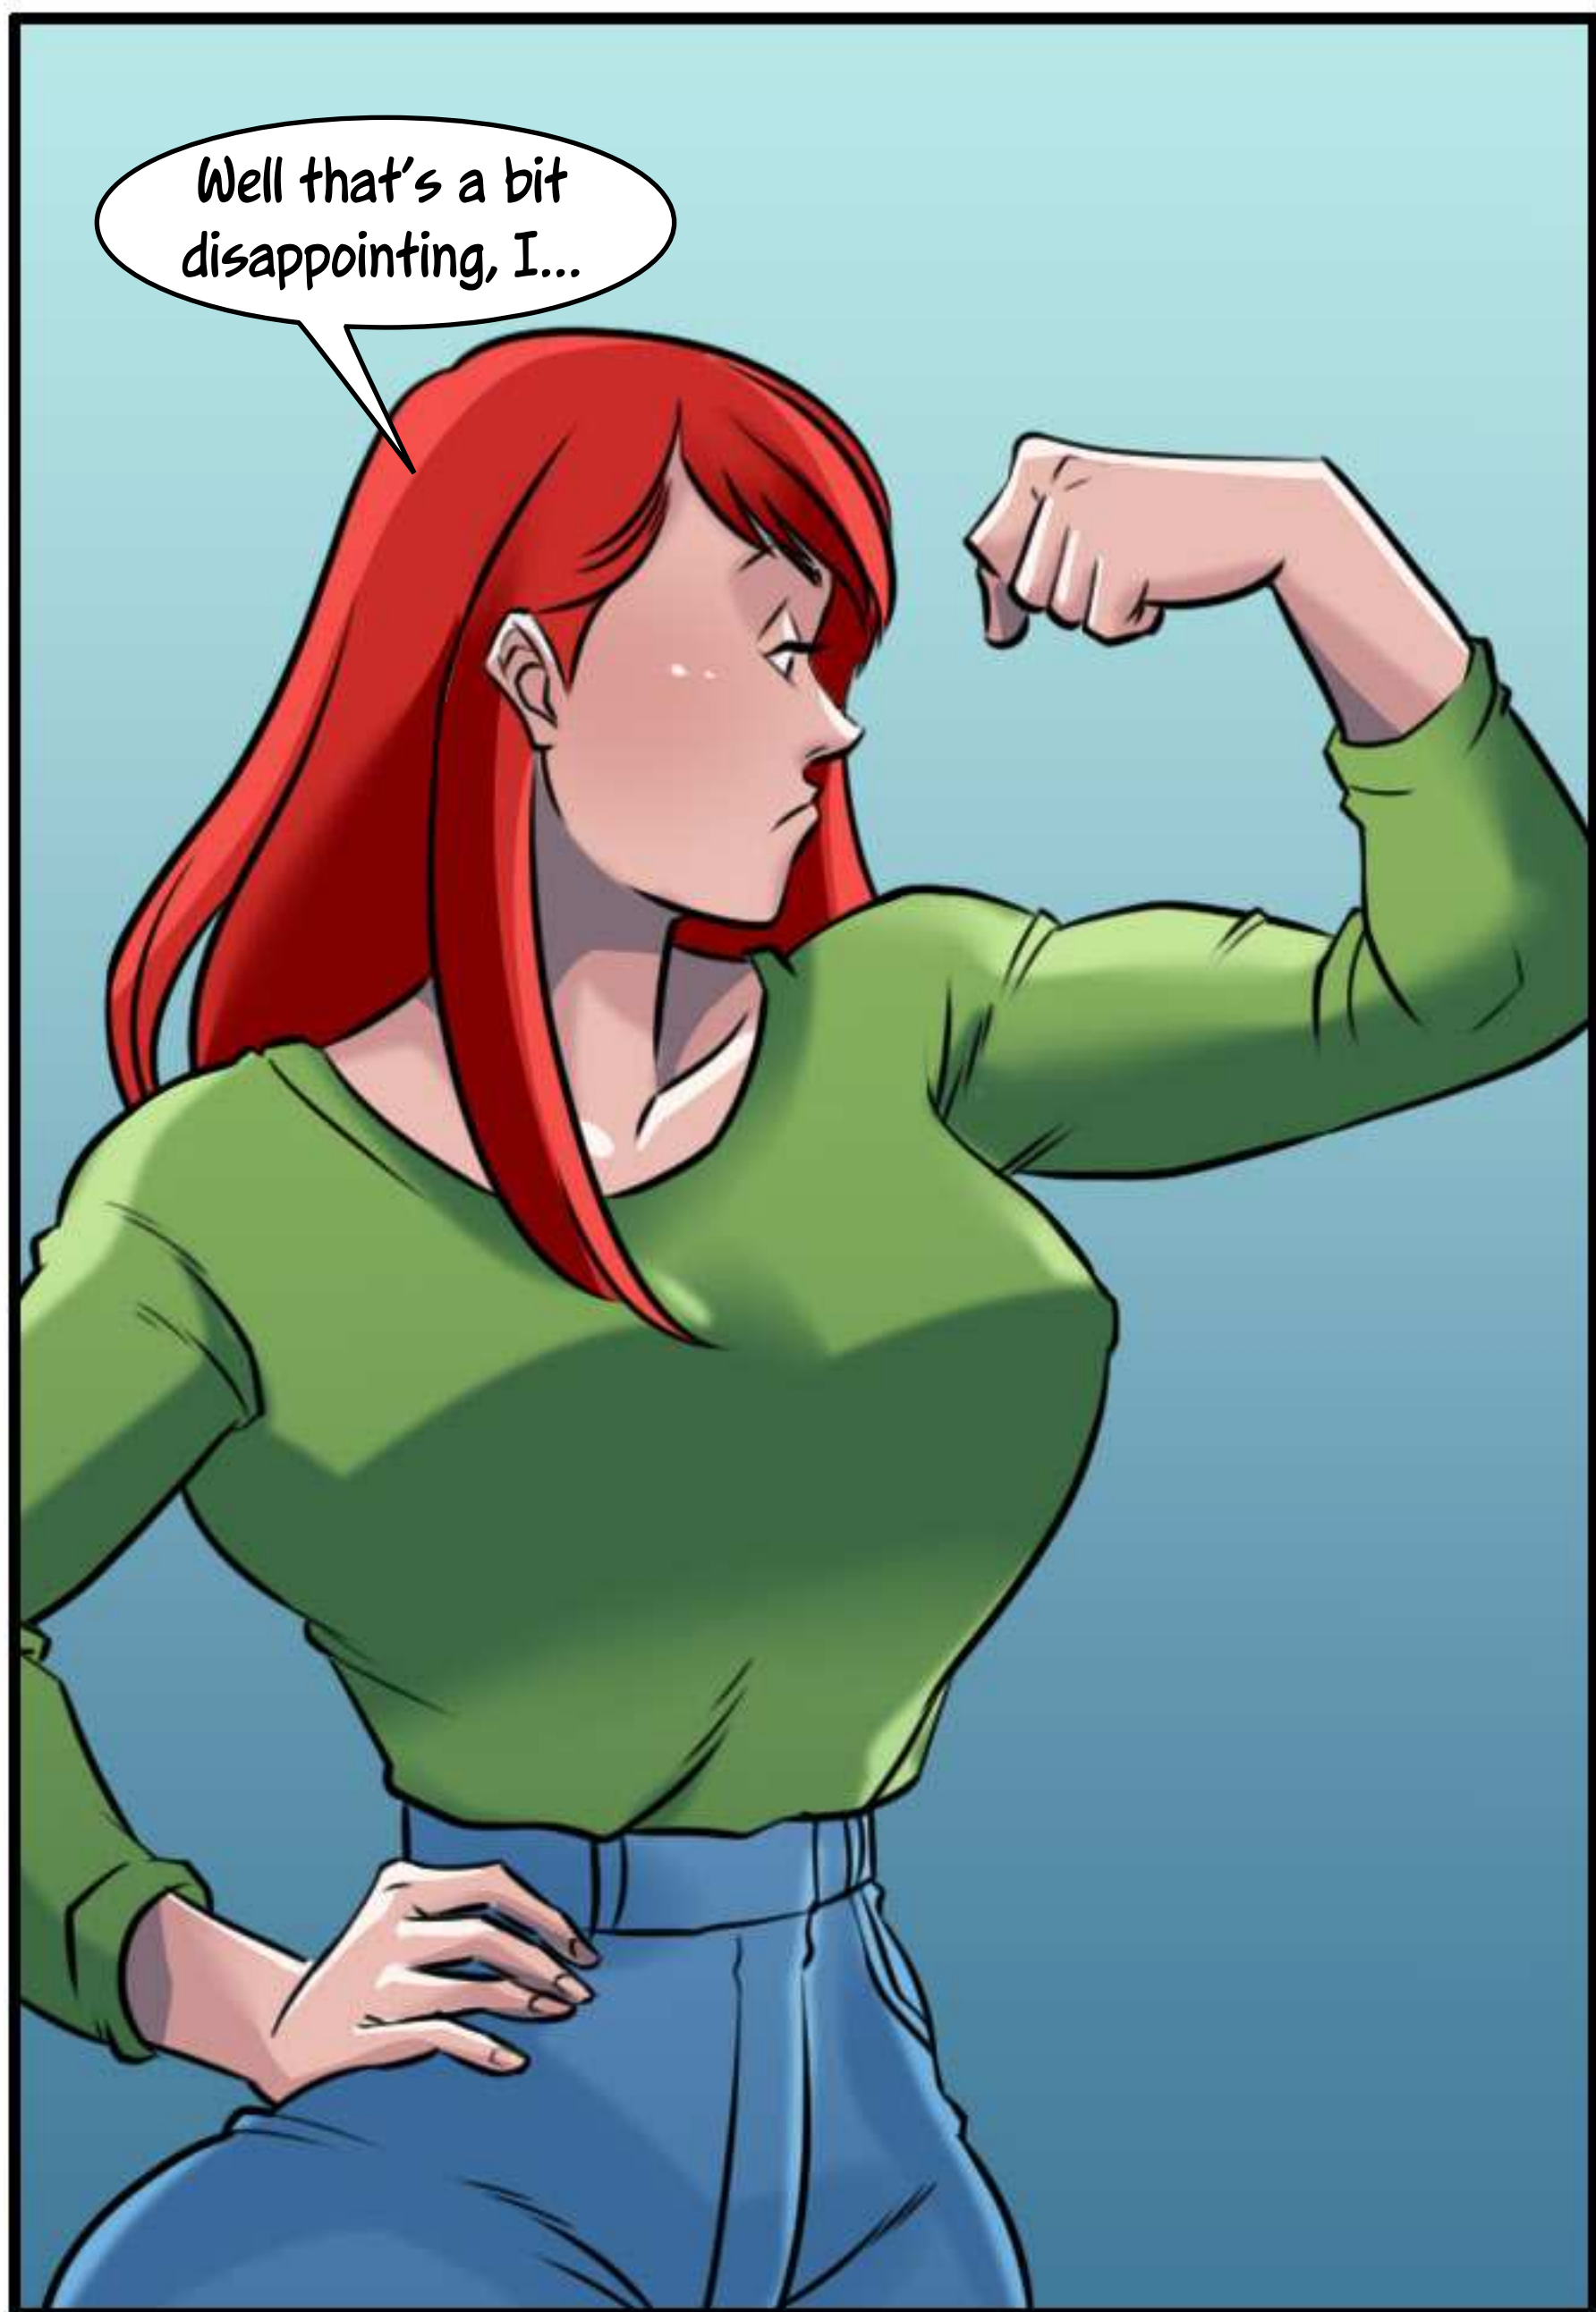

FWOOOP!

FWOOOP!

FWOOOP!

FWOOOP!

FWOOOP!

Well that's a bit
disappointing, I...

NO!
I CAN'T BE LIKE THIS!
NOT AFTER BEING WHAT
I WAS!

RUSTLE

WHERE IS IT!?!

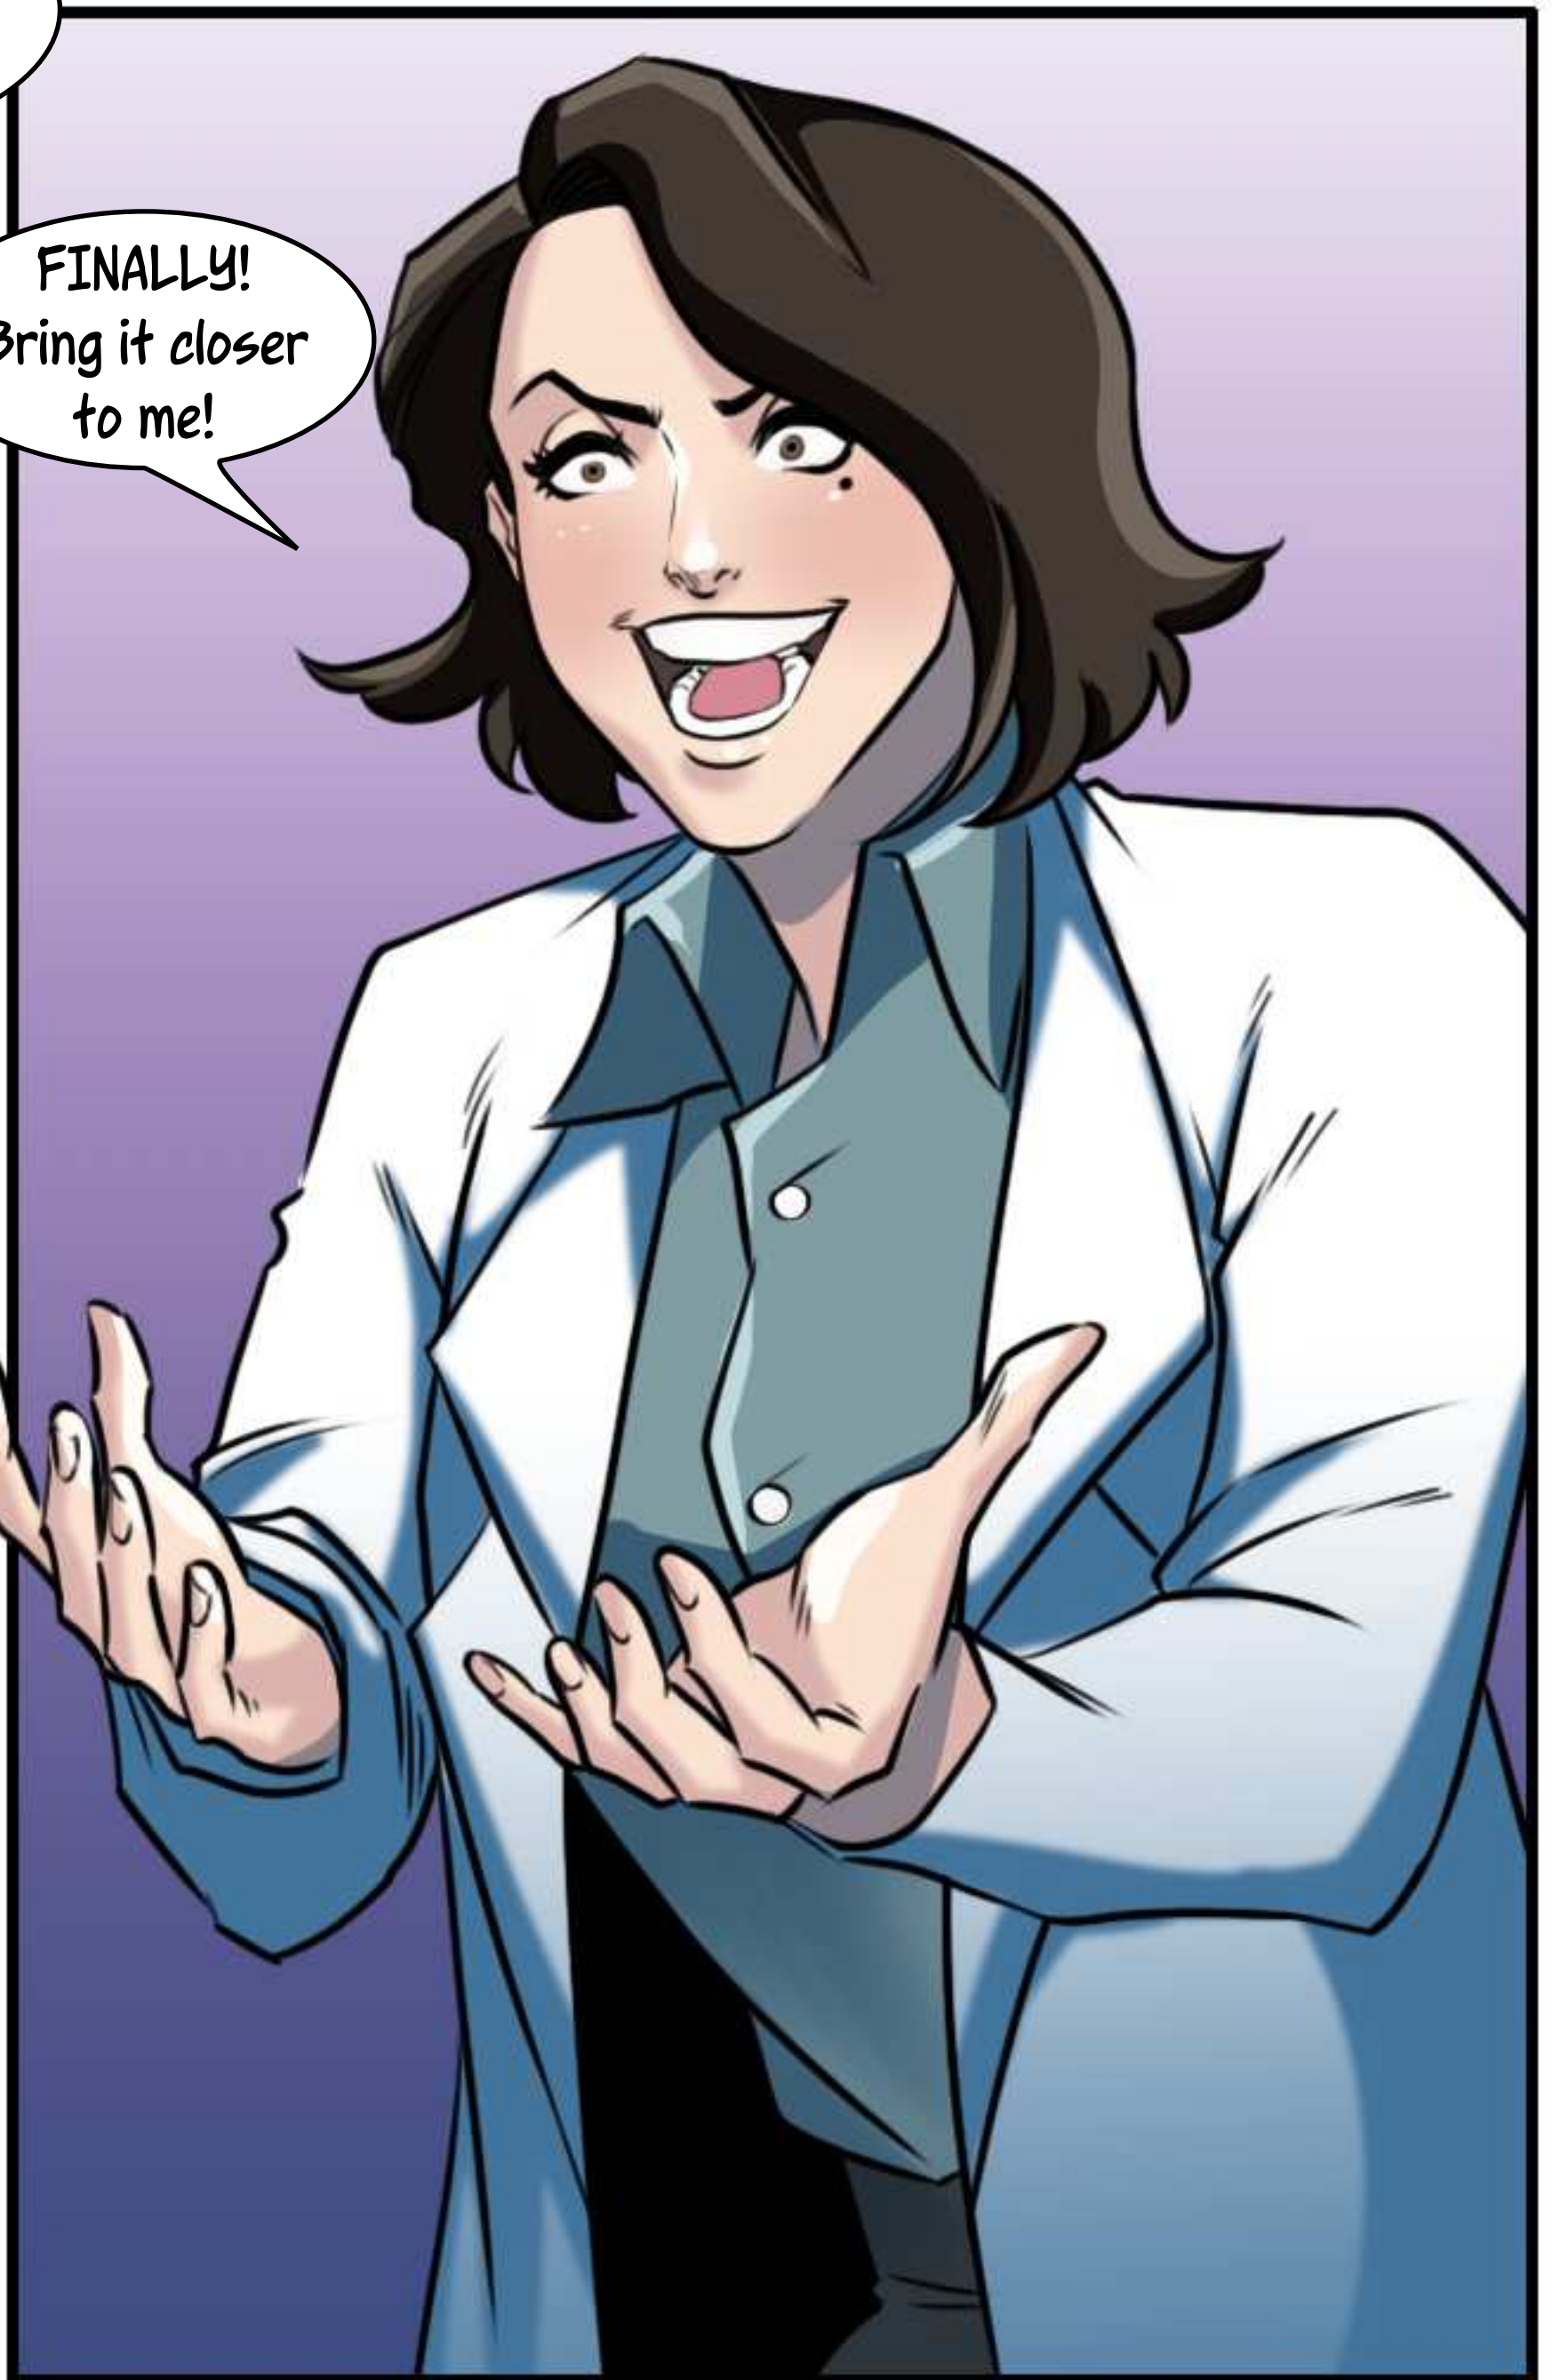

Wow, you're really stressing out. Take it easy...

CRUMPLE

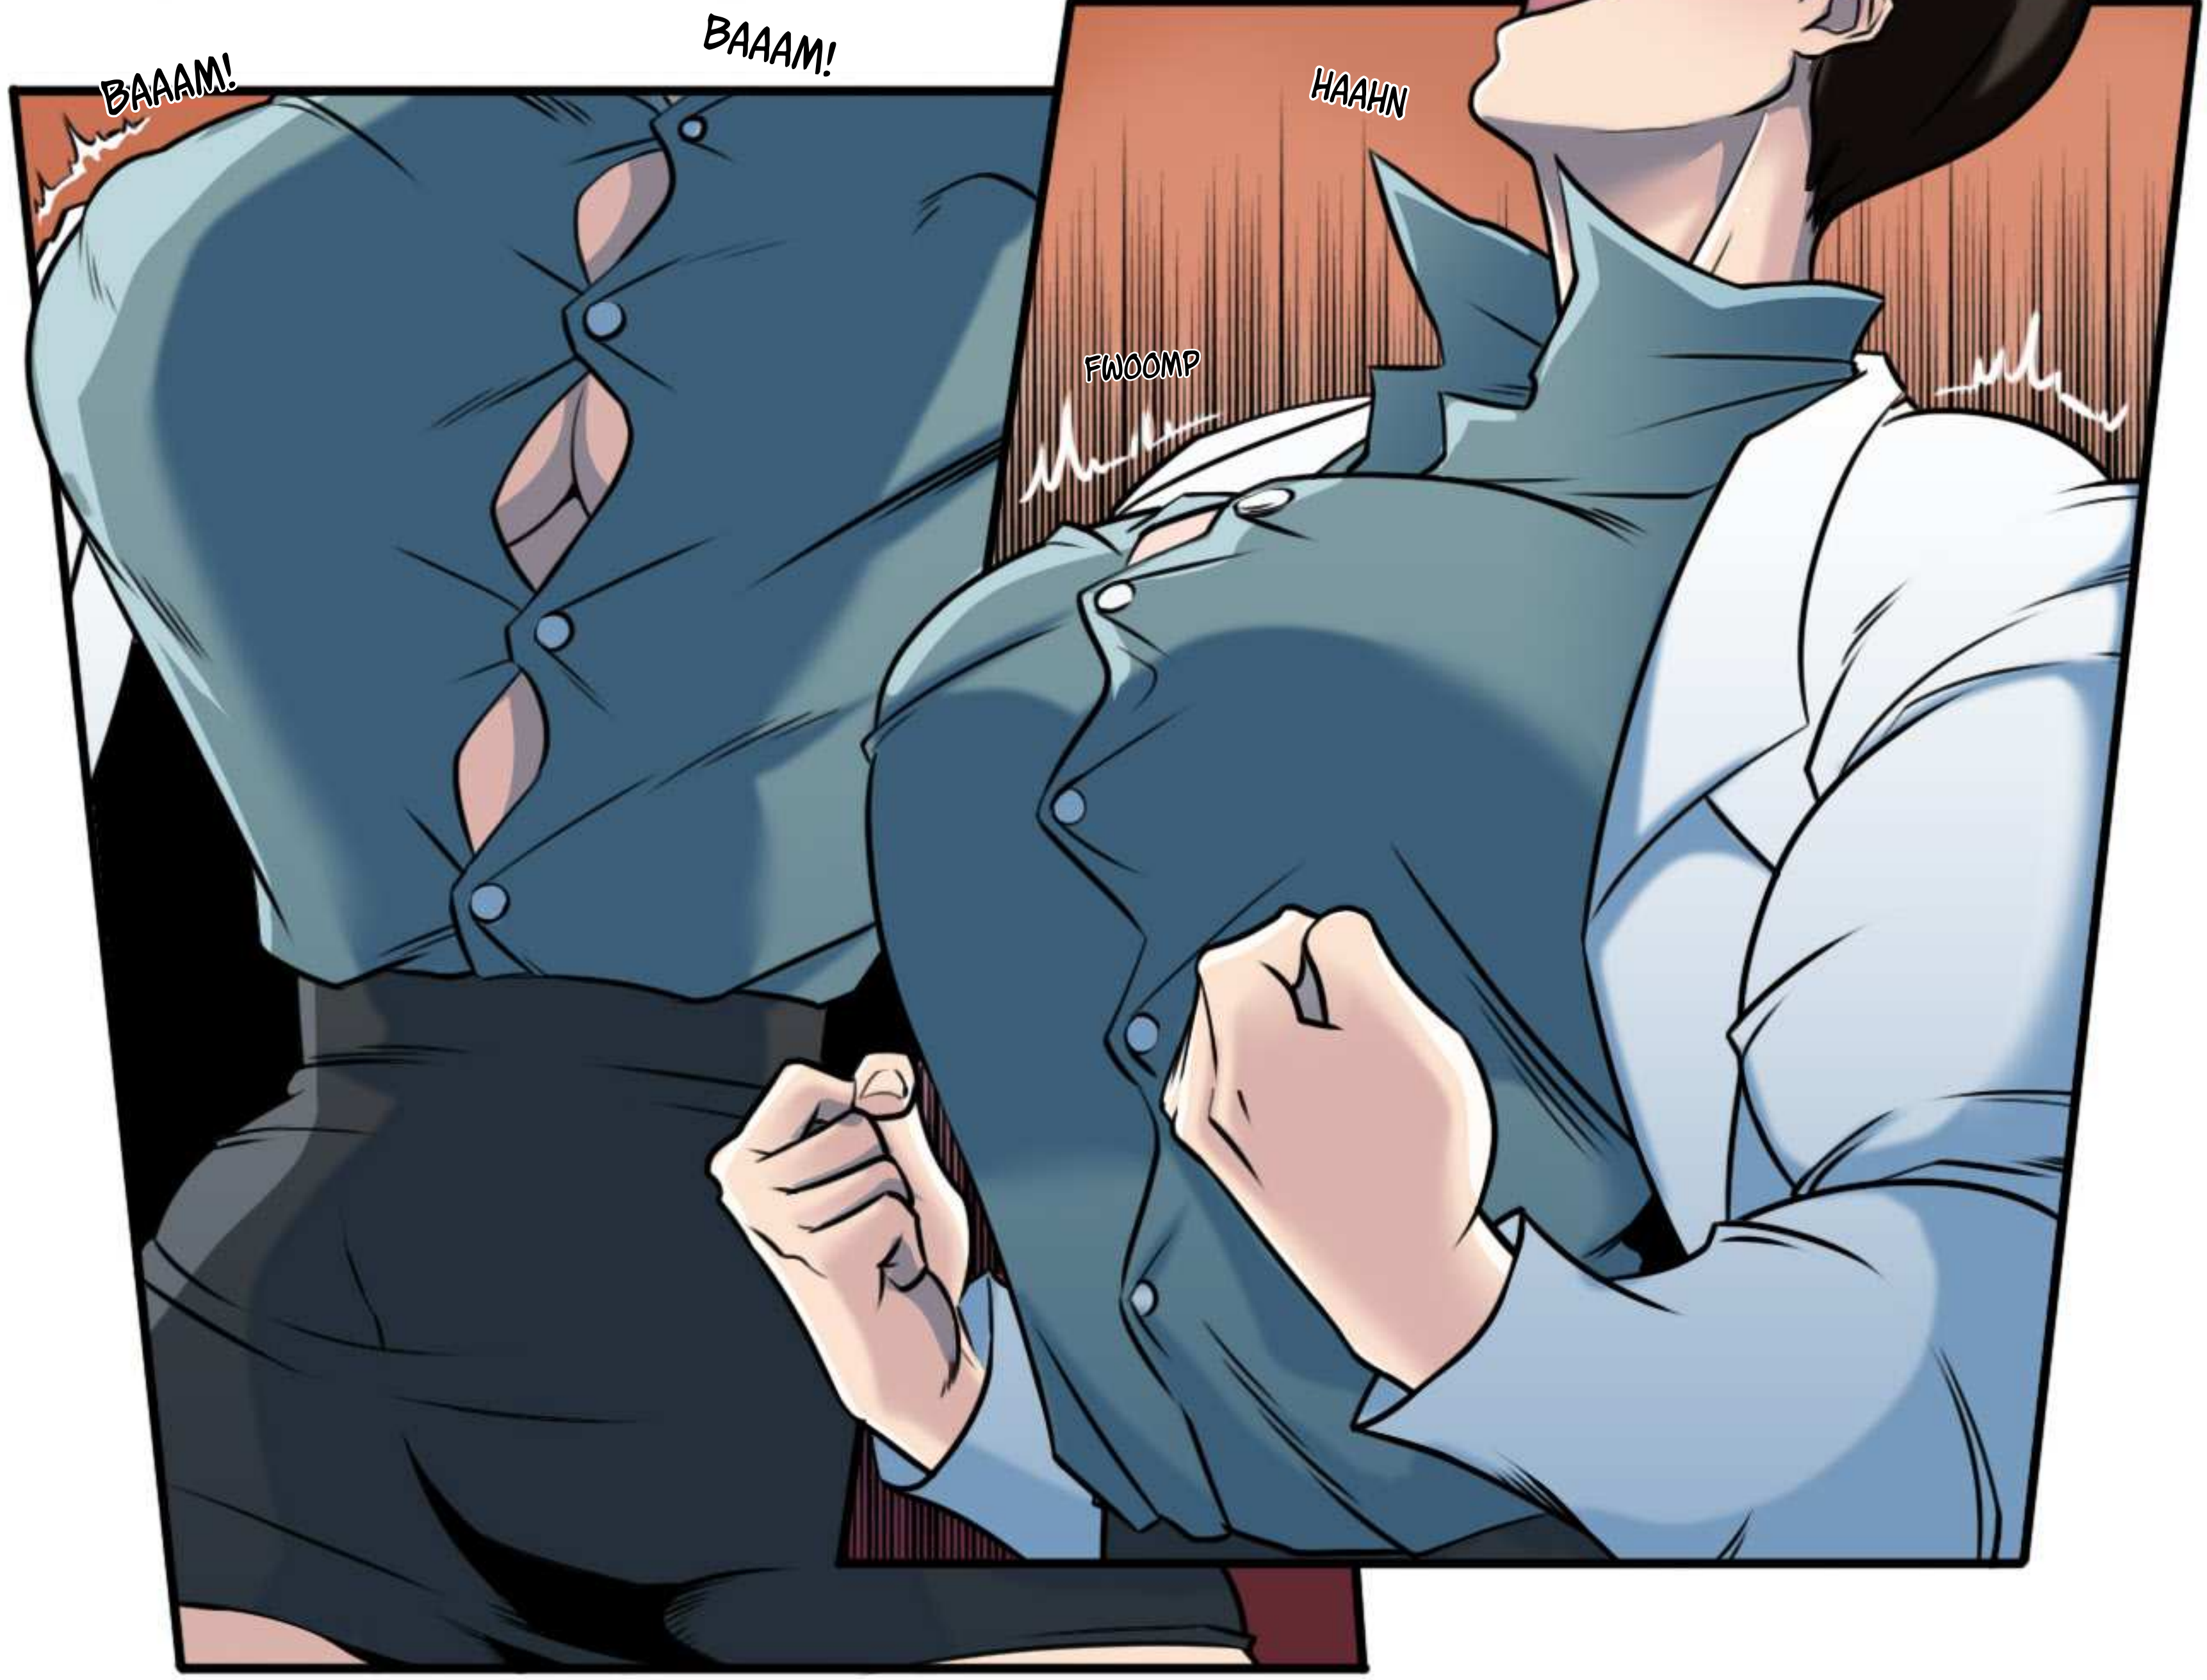

Here it is, I put it back in the bag earlier.

FWOOMP

FINALLY! Bring it closer to me!

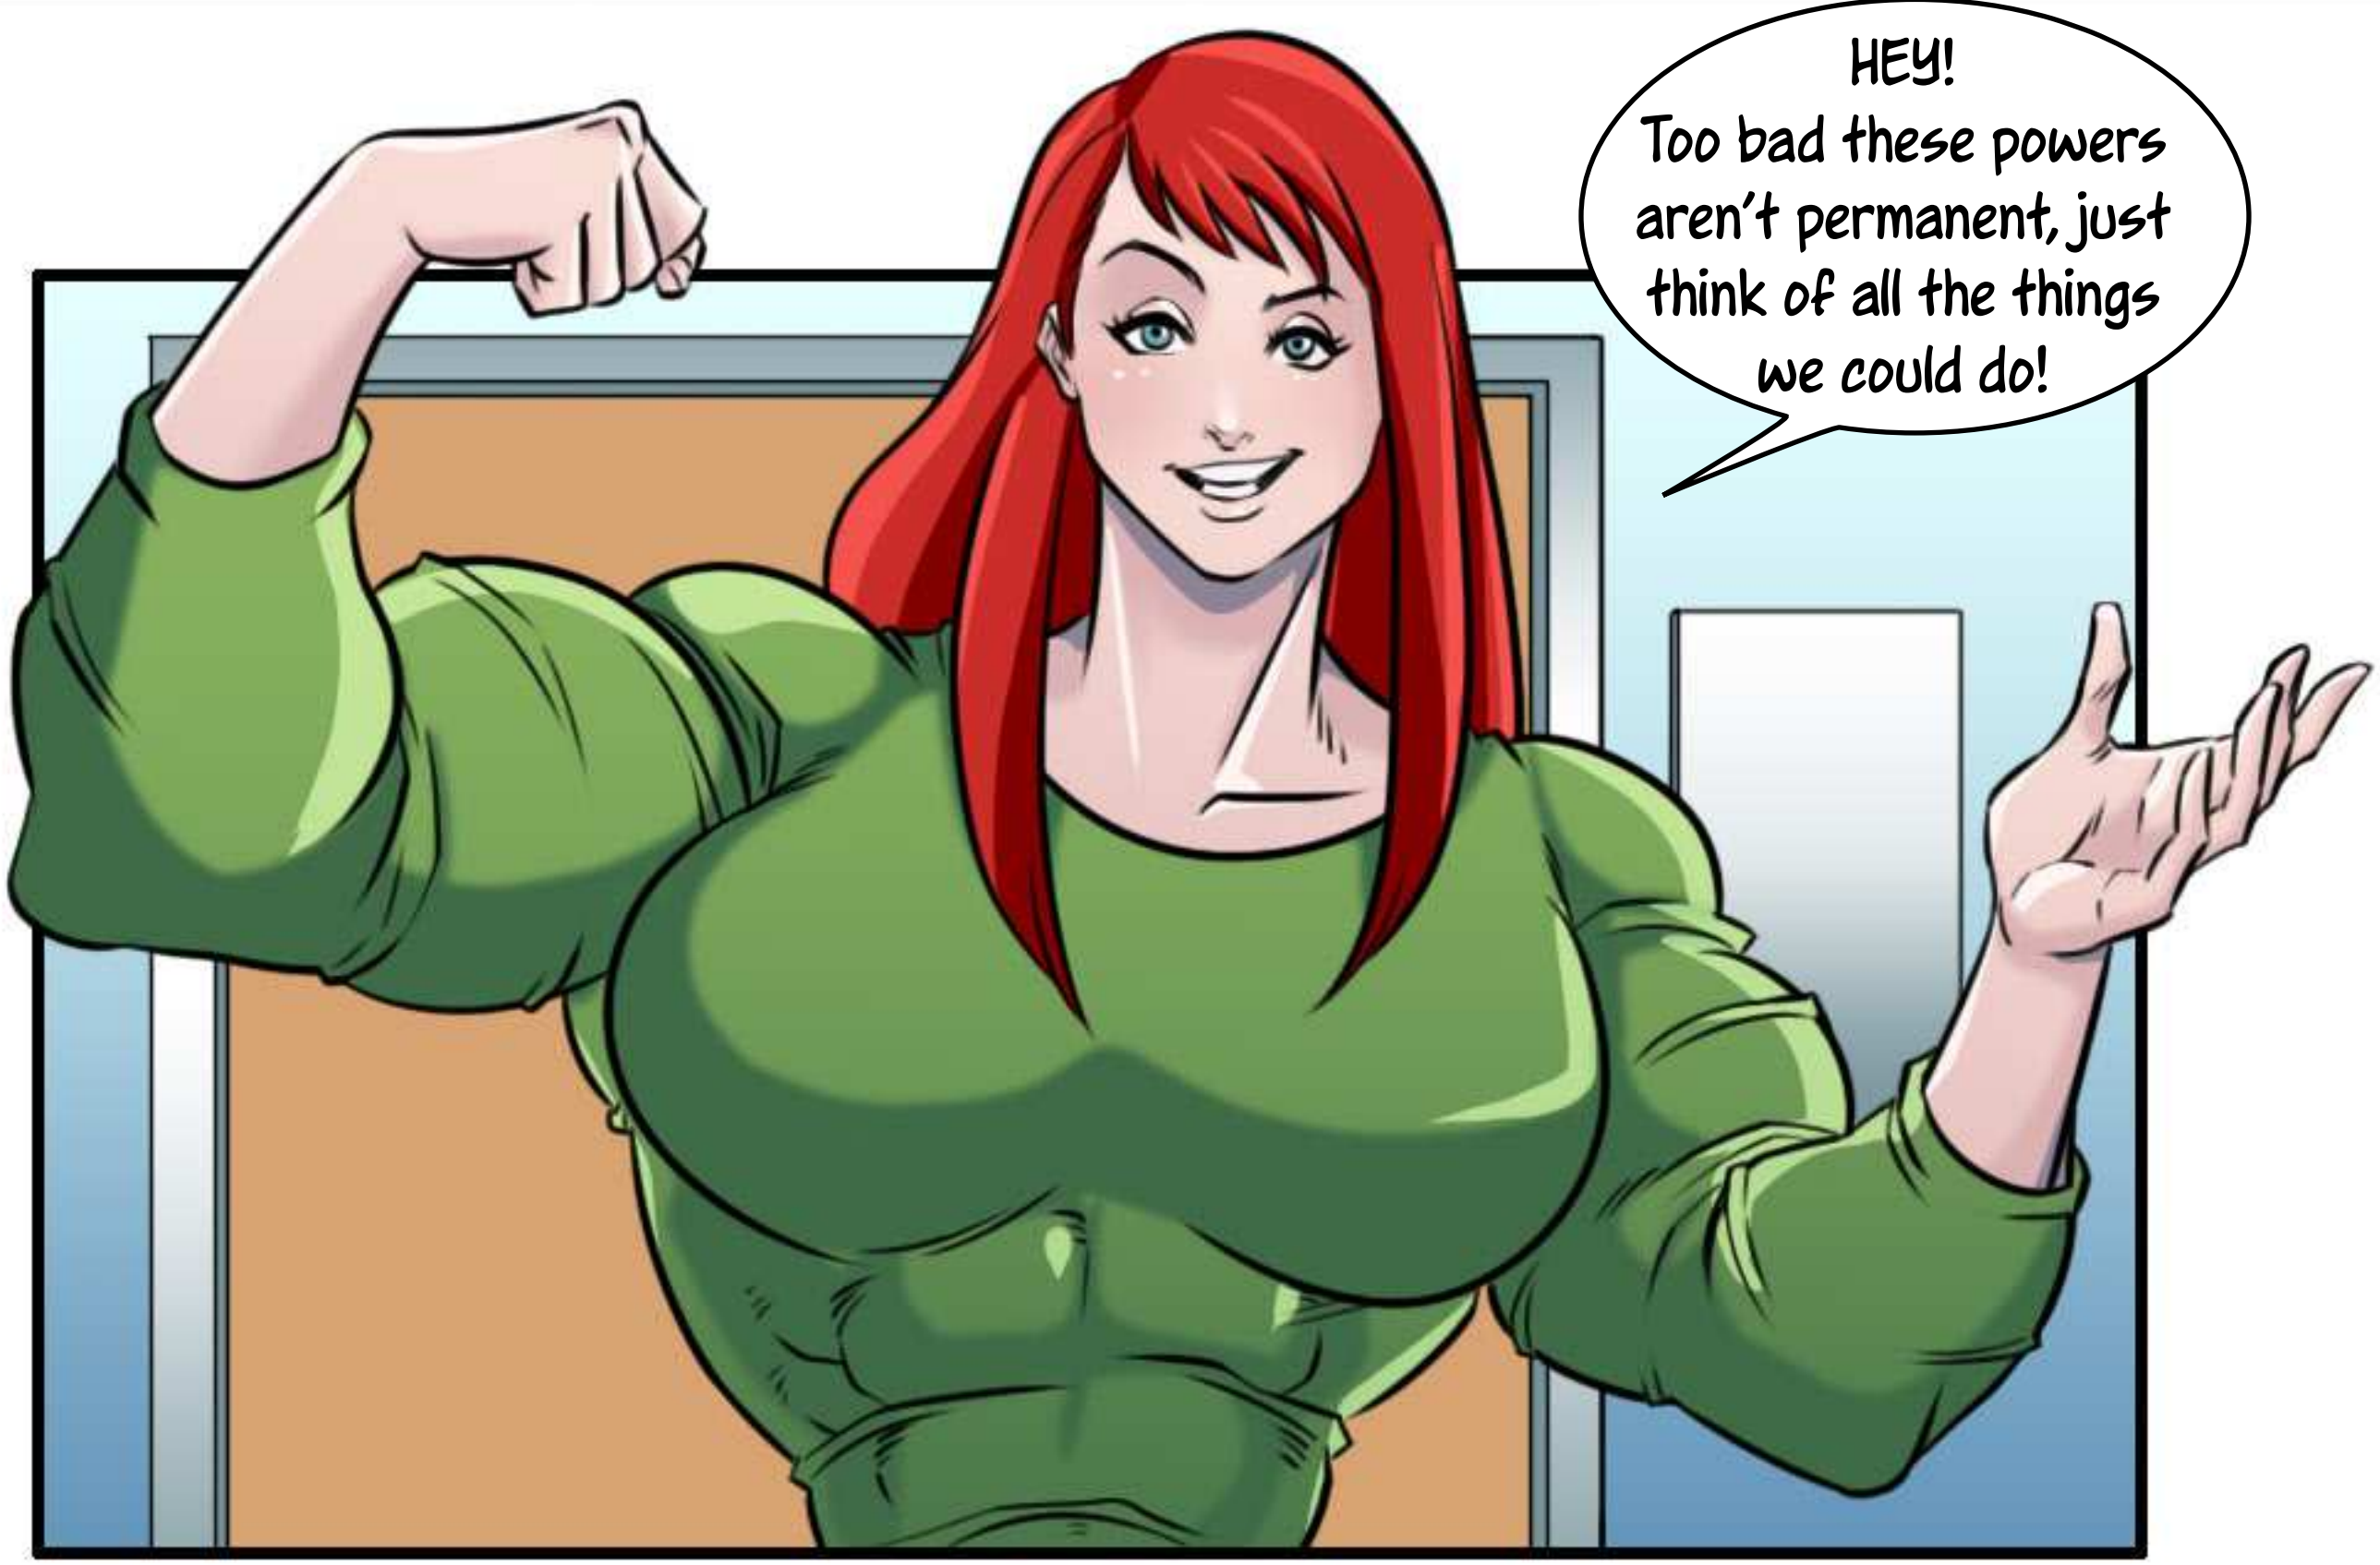

Ahhhh, much better!

RIIIPPP

Yeah, this is pretty cool.

HEY!
Too bad these powers aren't permanent, just think of all the things we could do!

You're right...
Individually we possess
incredible power,
working together...

we'd be
unstoppable! Do you
realize what that means!
**WE COULD BECOME
SUPREME RUL...**

**SUPERHEROES!
WE COULD BE
SUPERHEROES!**

Yeah and maybe
we could even join
the Ultra League of
Justice!

Huh?

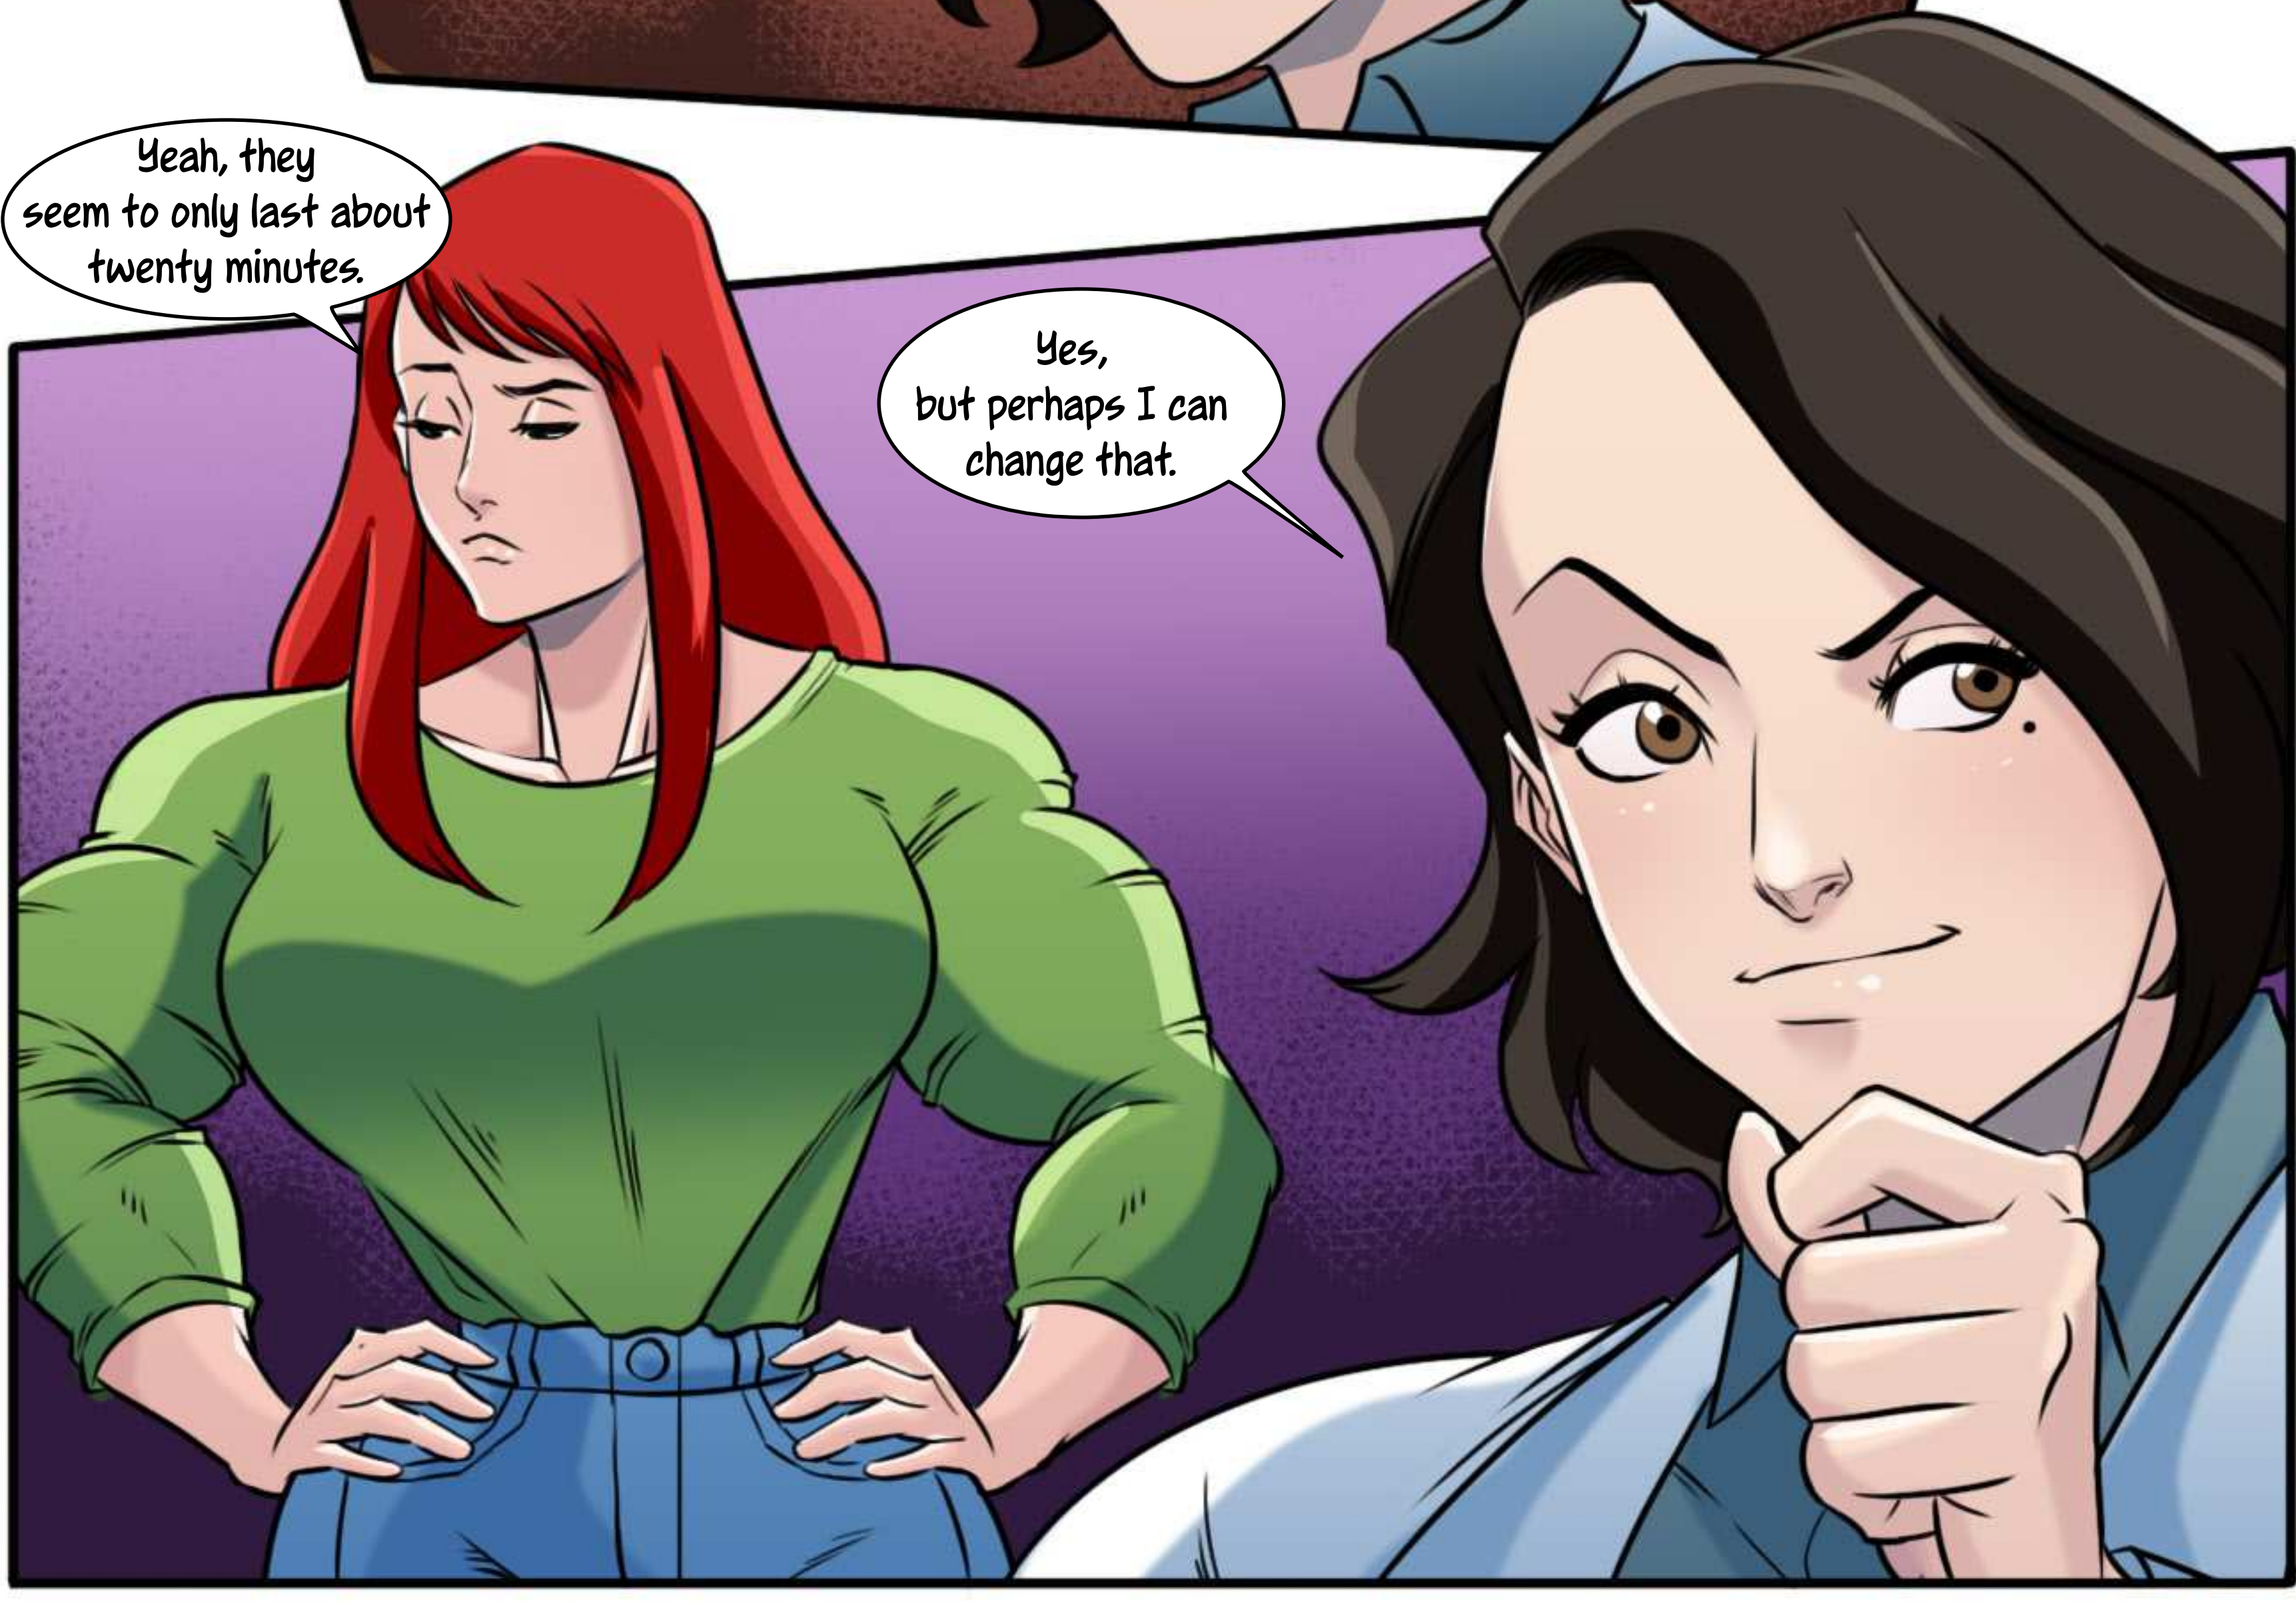

You could be Galaxy Woman and I could be um... Meteor-Girl? No. Um... Mighty Lass? No. Hmm...

Yes. Superheroes, that's exactly what I was thinking.

But you may be getting ahead of yourself, as you said these powers are not permanent.

Yeah, they seem to only last about twenty minutes.

Yes, but perhaps I can change that.

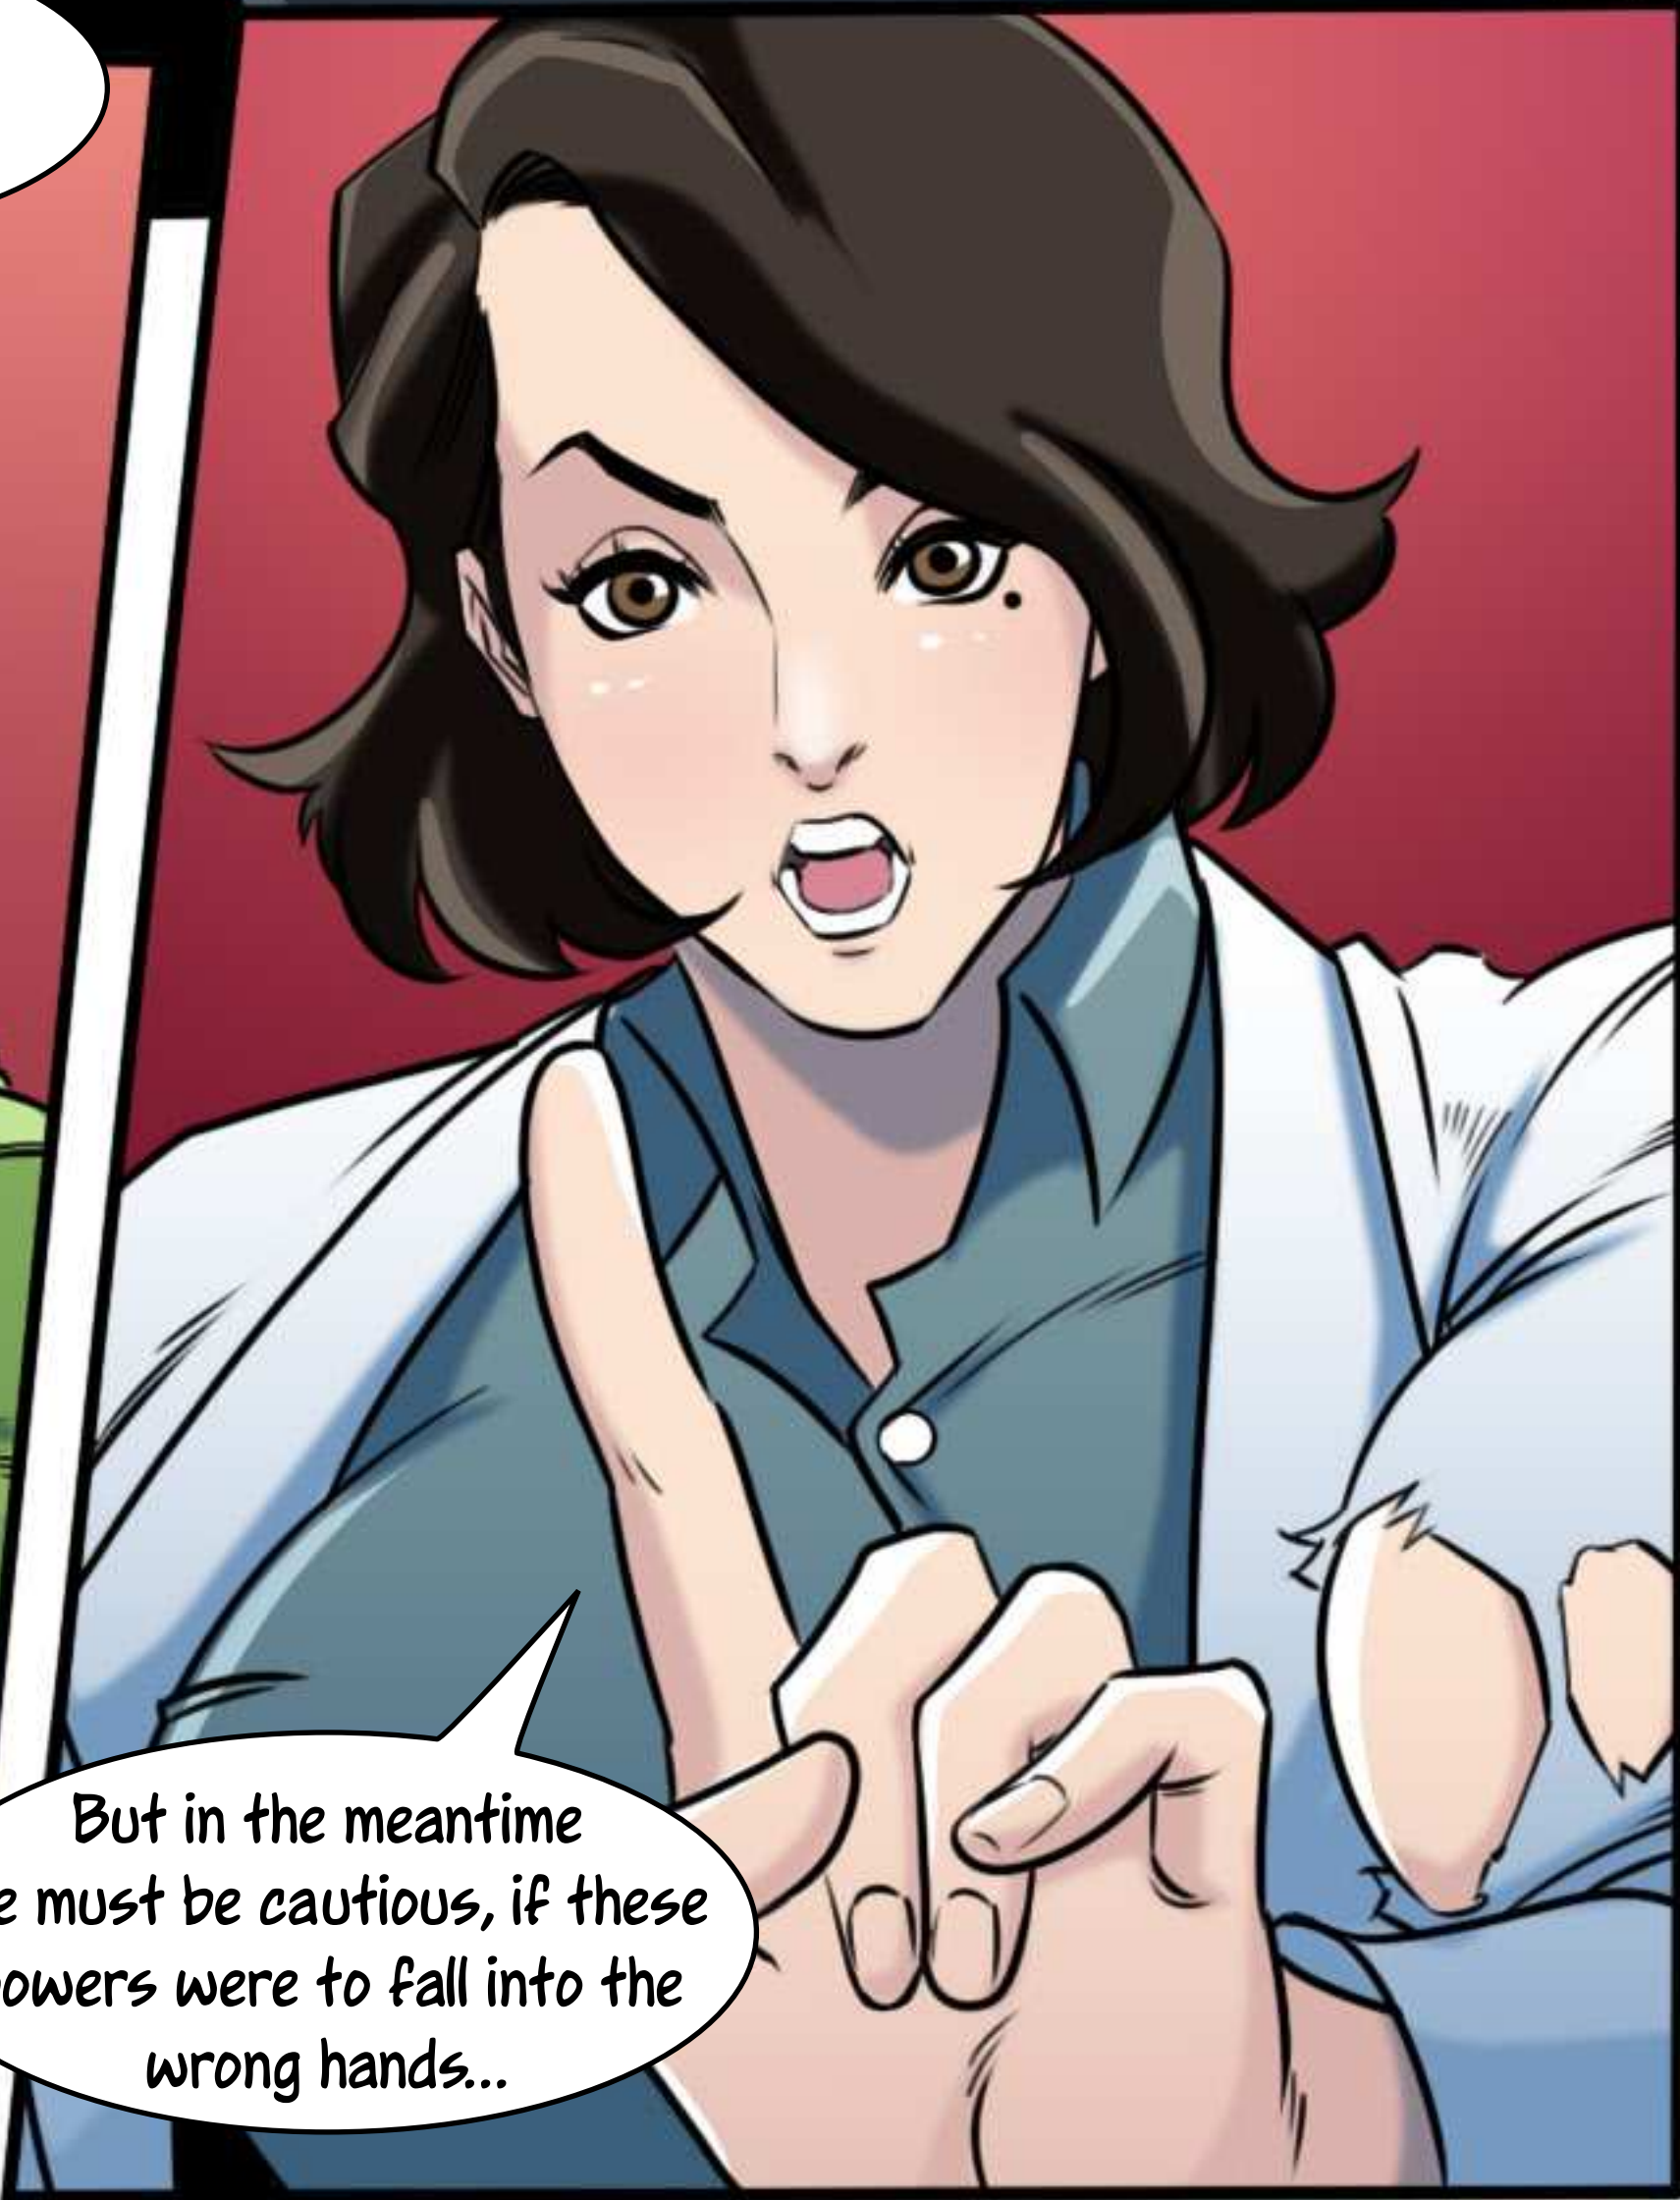

REALLY? How?

Well I do possess the greatest mind on the planet now. Given time, I'm positive I can think of a way to make the changes permanent.

COOL! That would be great!

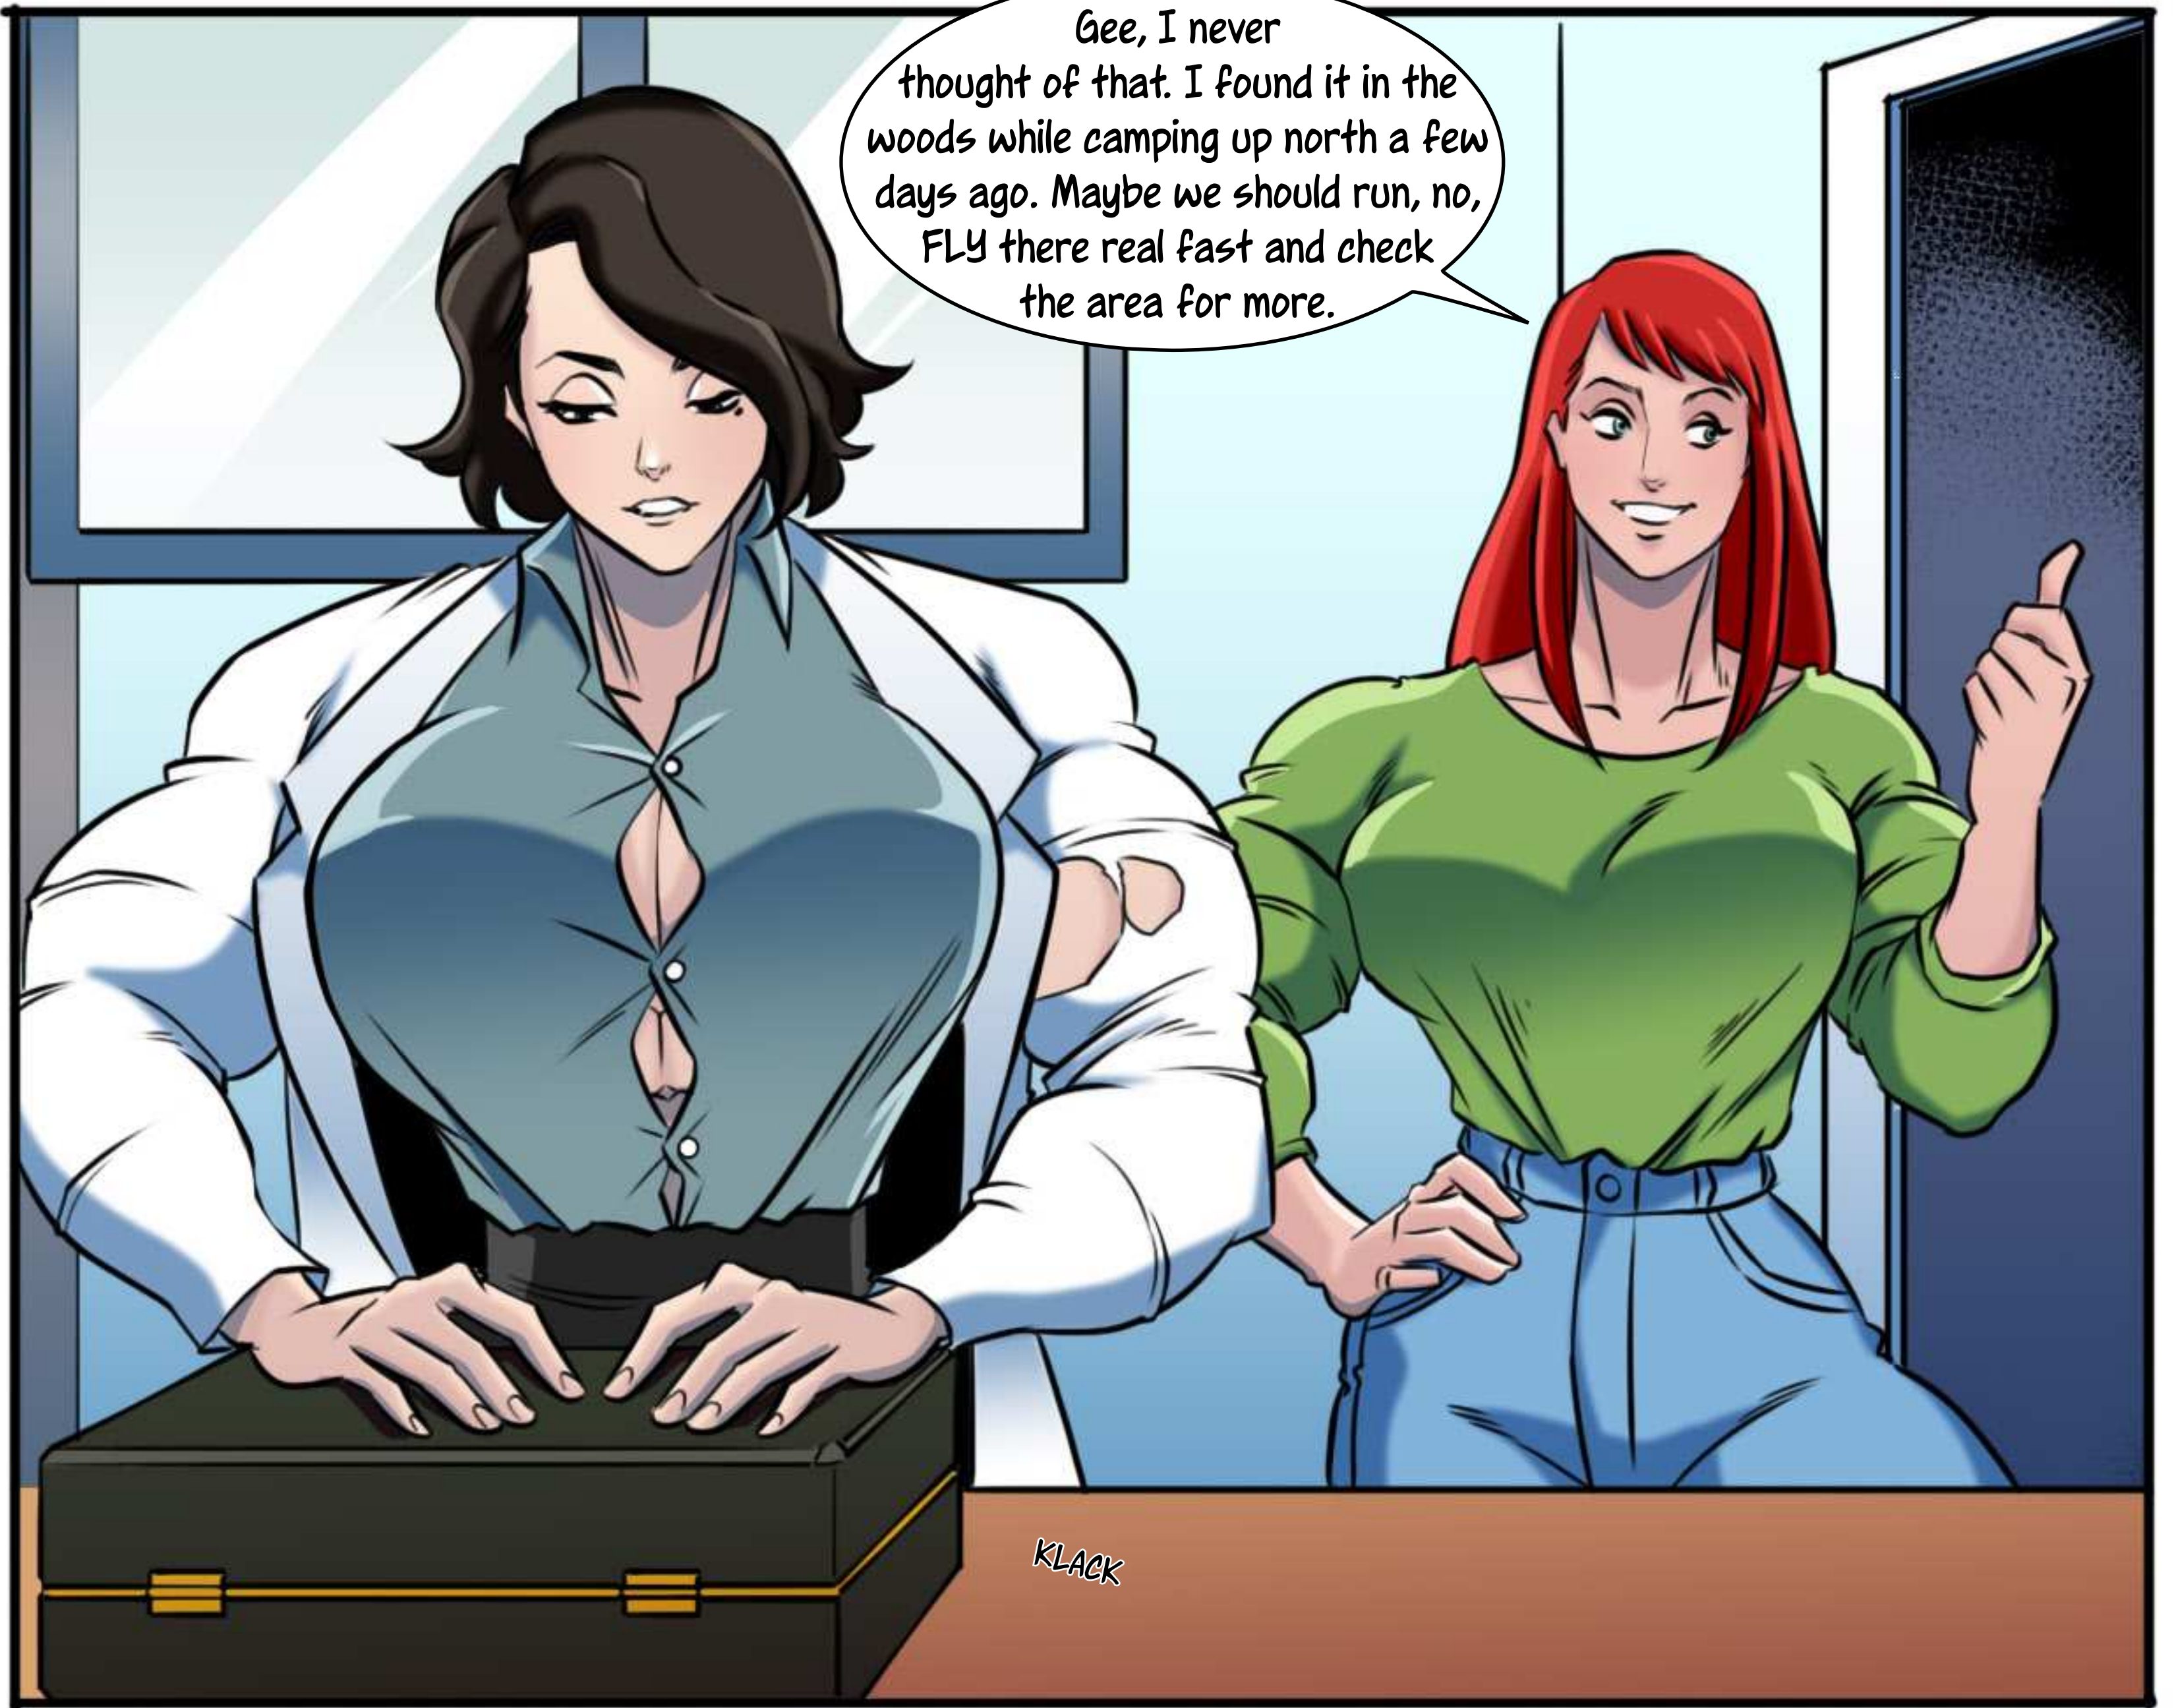

But in the meantime we must be cautious, if these powers were to fall into the wrong hands...

You're right. Ok, so we don't tell anyone about the meteorite or what's happened here today.

Yes, but there are other factors. For instance you said you found the meteorite... what if someone else, someone bad, finds another just like it?

Gee, I never thought of that. I found it in the woods while camping up north a few days ago. Maybe we should run, no, FLY there real fast and check the area for more.

KLACK

NO! We can't fly there, someone might see us and we need to keep this as secret as possible.

And besides I want to stay here and work on making the changes permanent.

FLOAT

Oh... ok, I can drive there I guess. It'll probably take me a few days to get there and back though so I better get going.

Yes, but you're a bit conspicuous right now. You may want to wait until you change back to normal first...

A few days later...

Ahhh, once again
I am the greatest being on the
planet! Though the transformations
into this form are quite enjoyable, I
yearn for the time when they'll be
a thing of the past.

And soon
they shall be... my machine
is nearly complete and
with it...

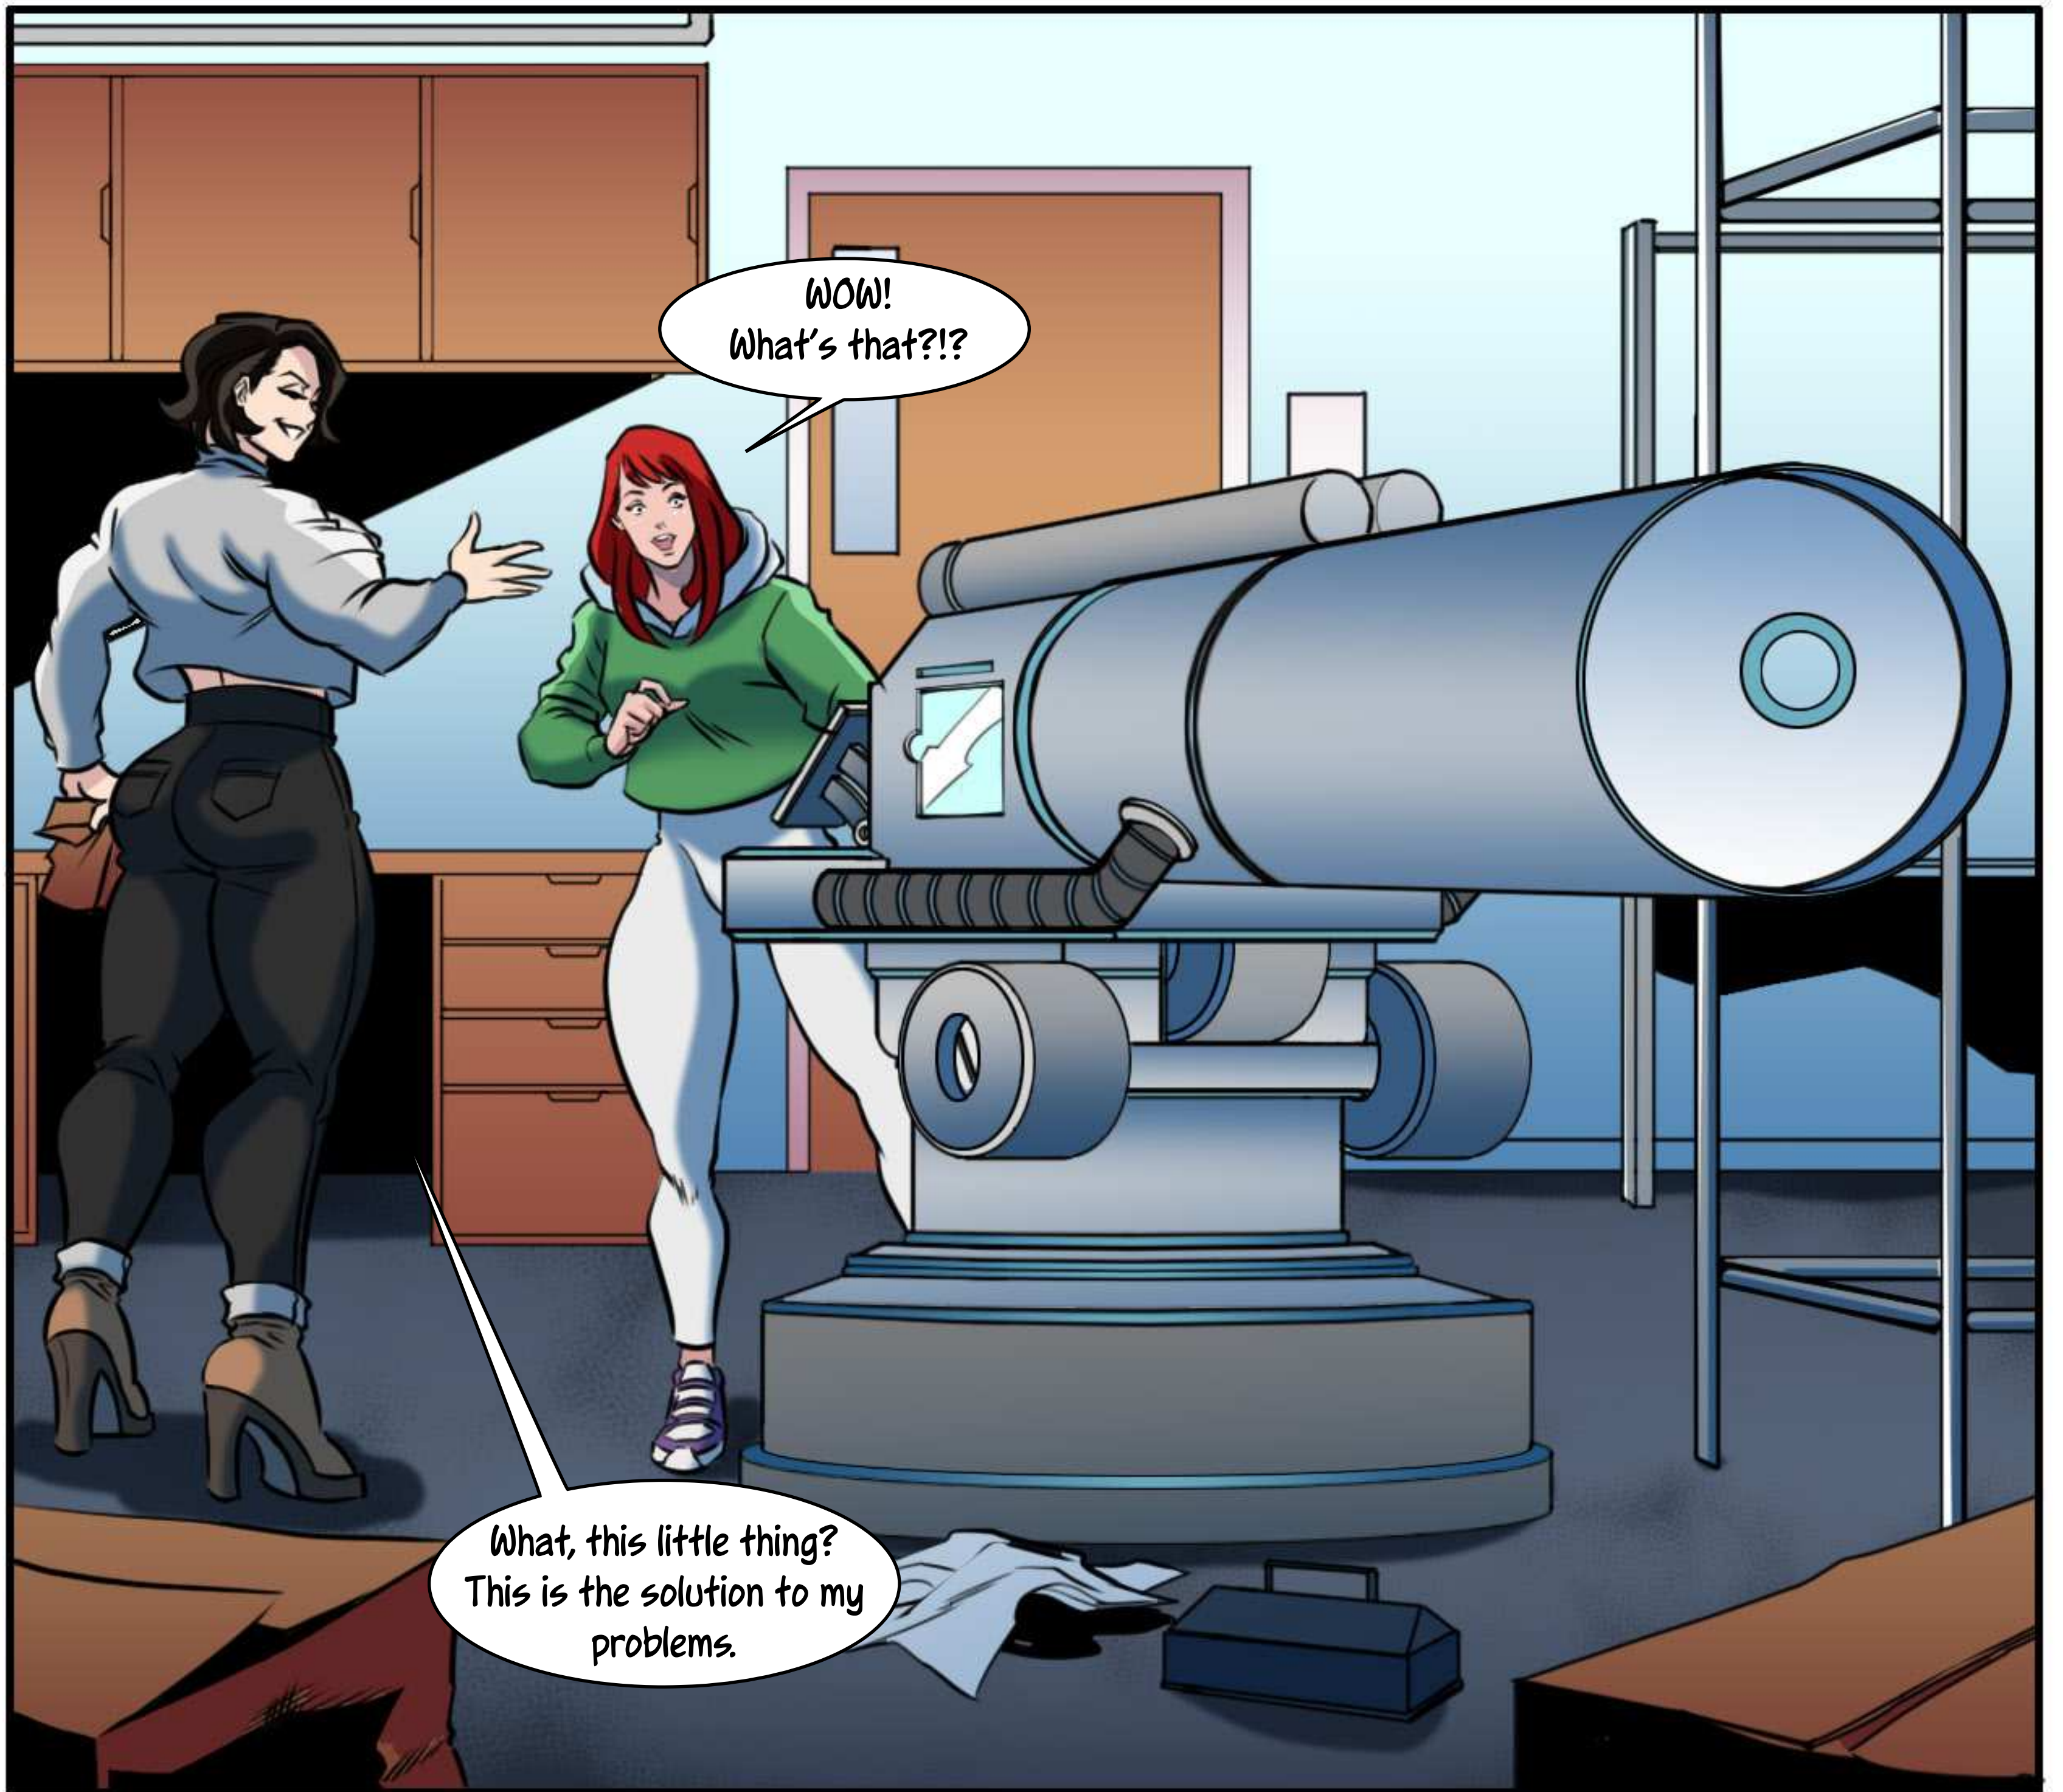

I'M BACK!
I found a few more small
meteorites and you'll never guess
what new power I...

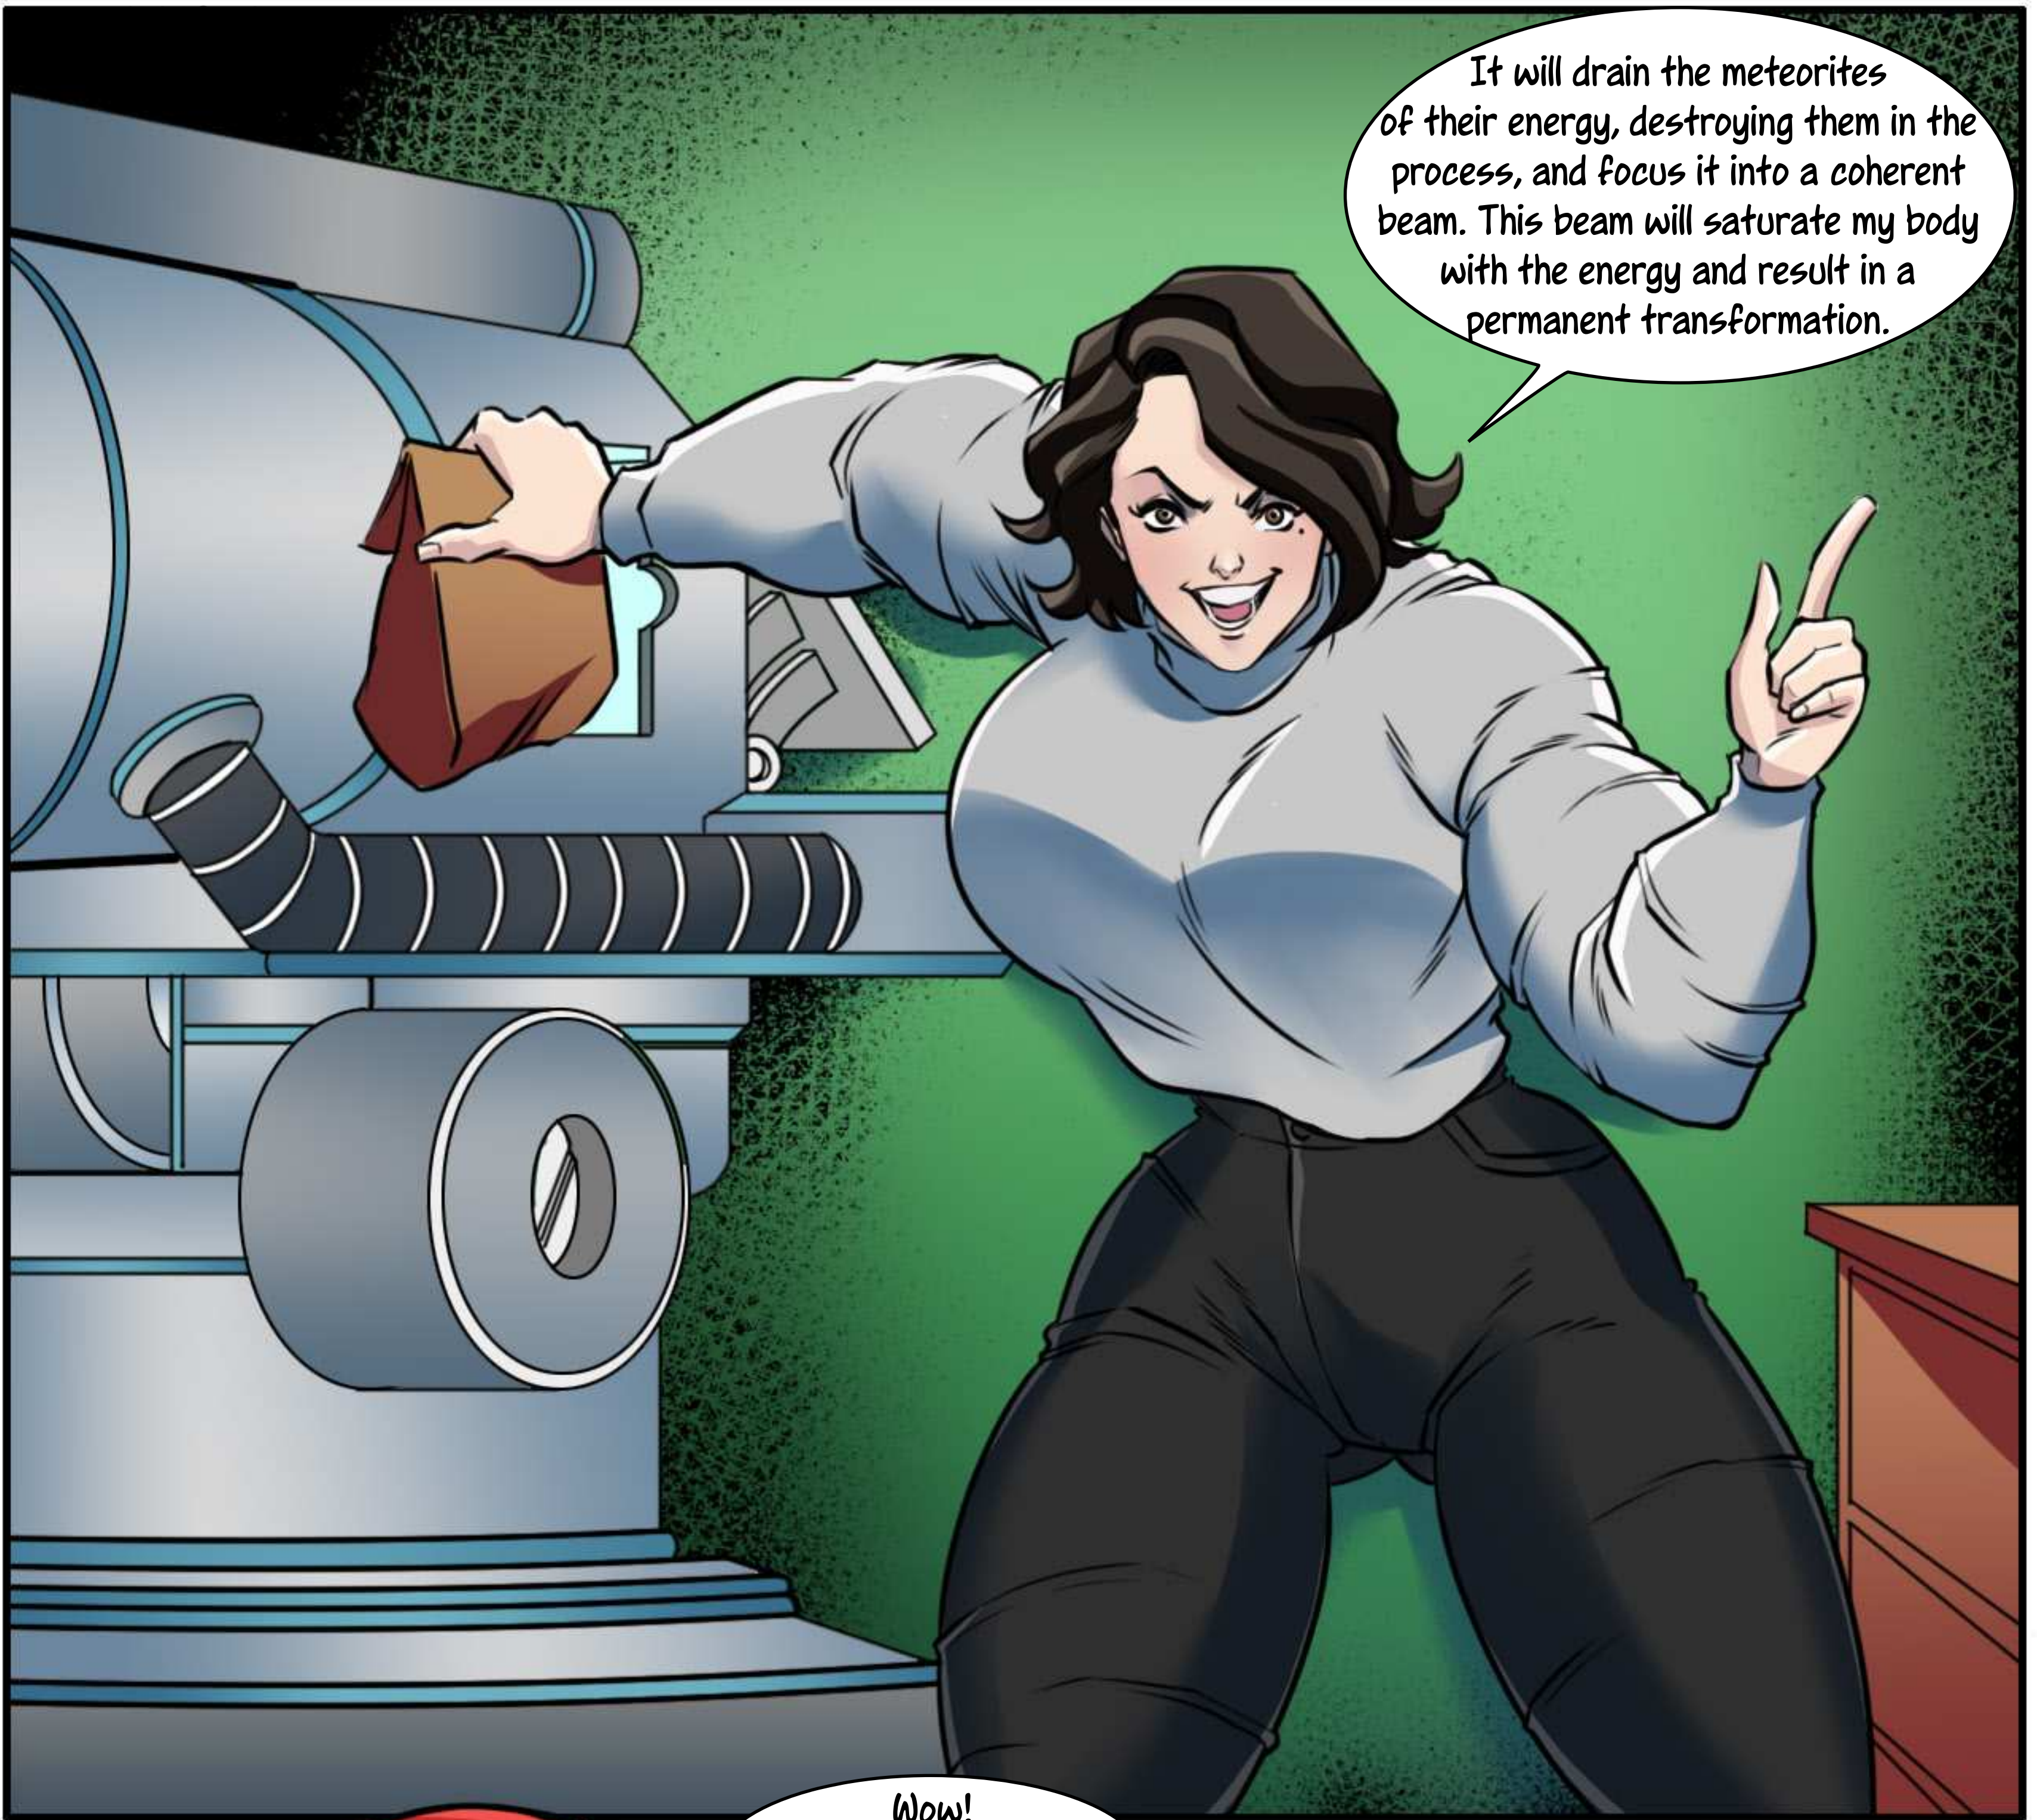

RATTLE

Excellent timing,
now give me the
meteorites.

WOW!
What's that?!?

What, this little thing?
This is the solution to my
problems.

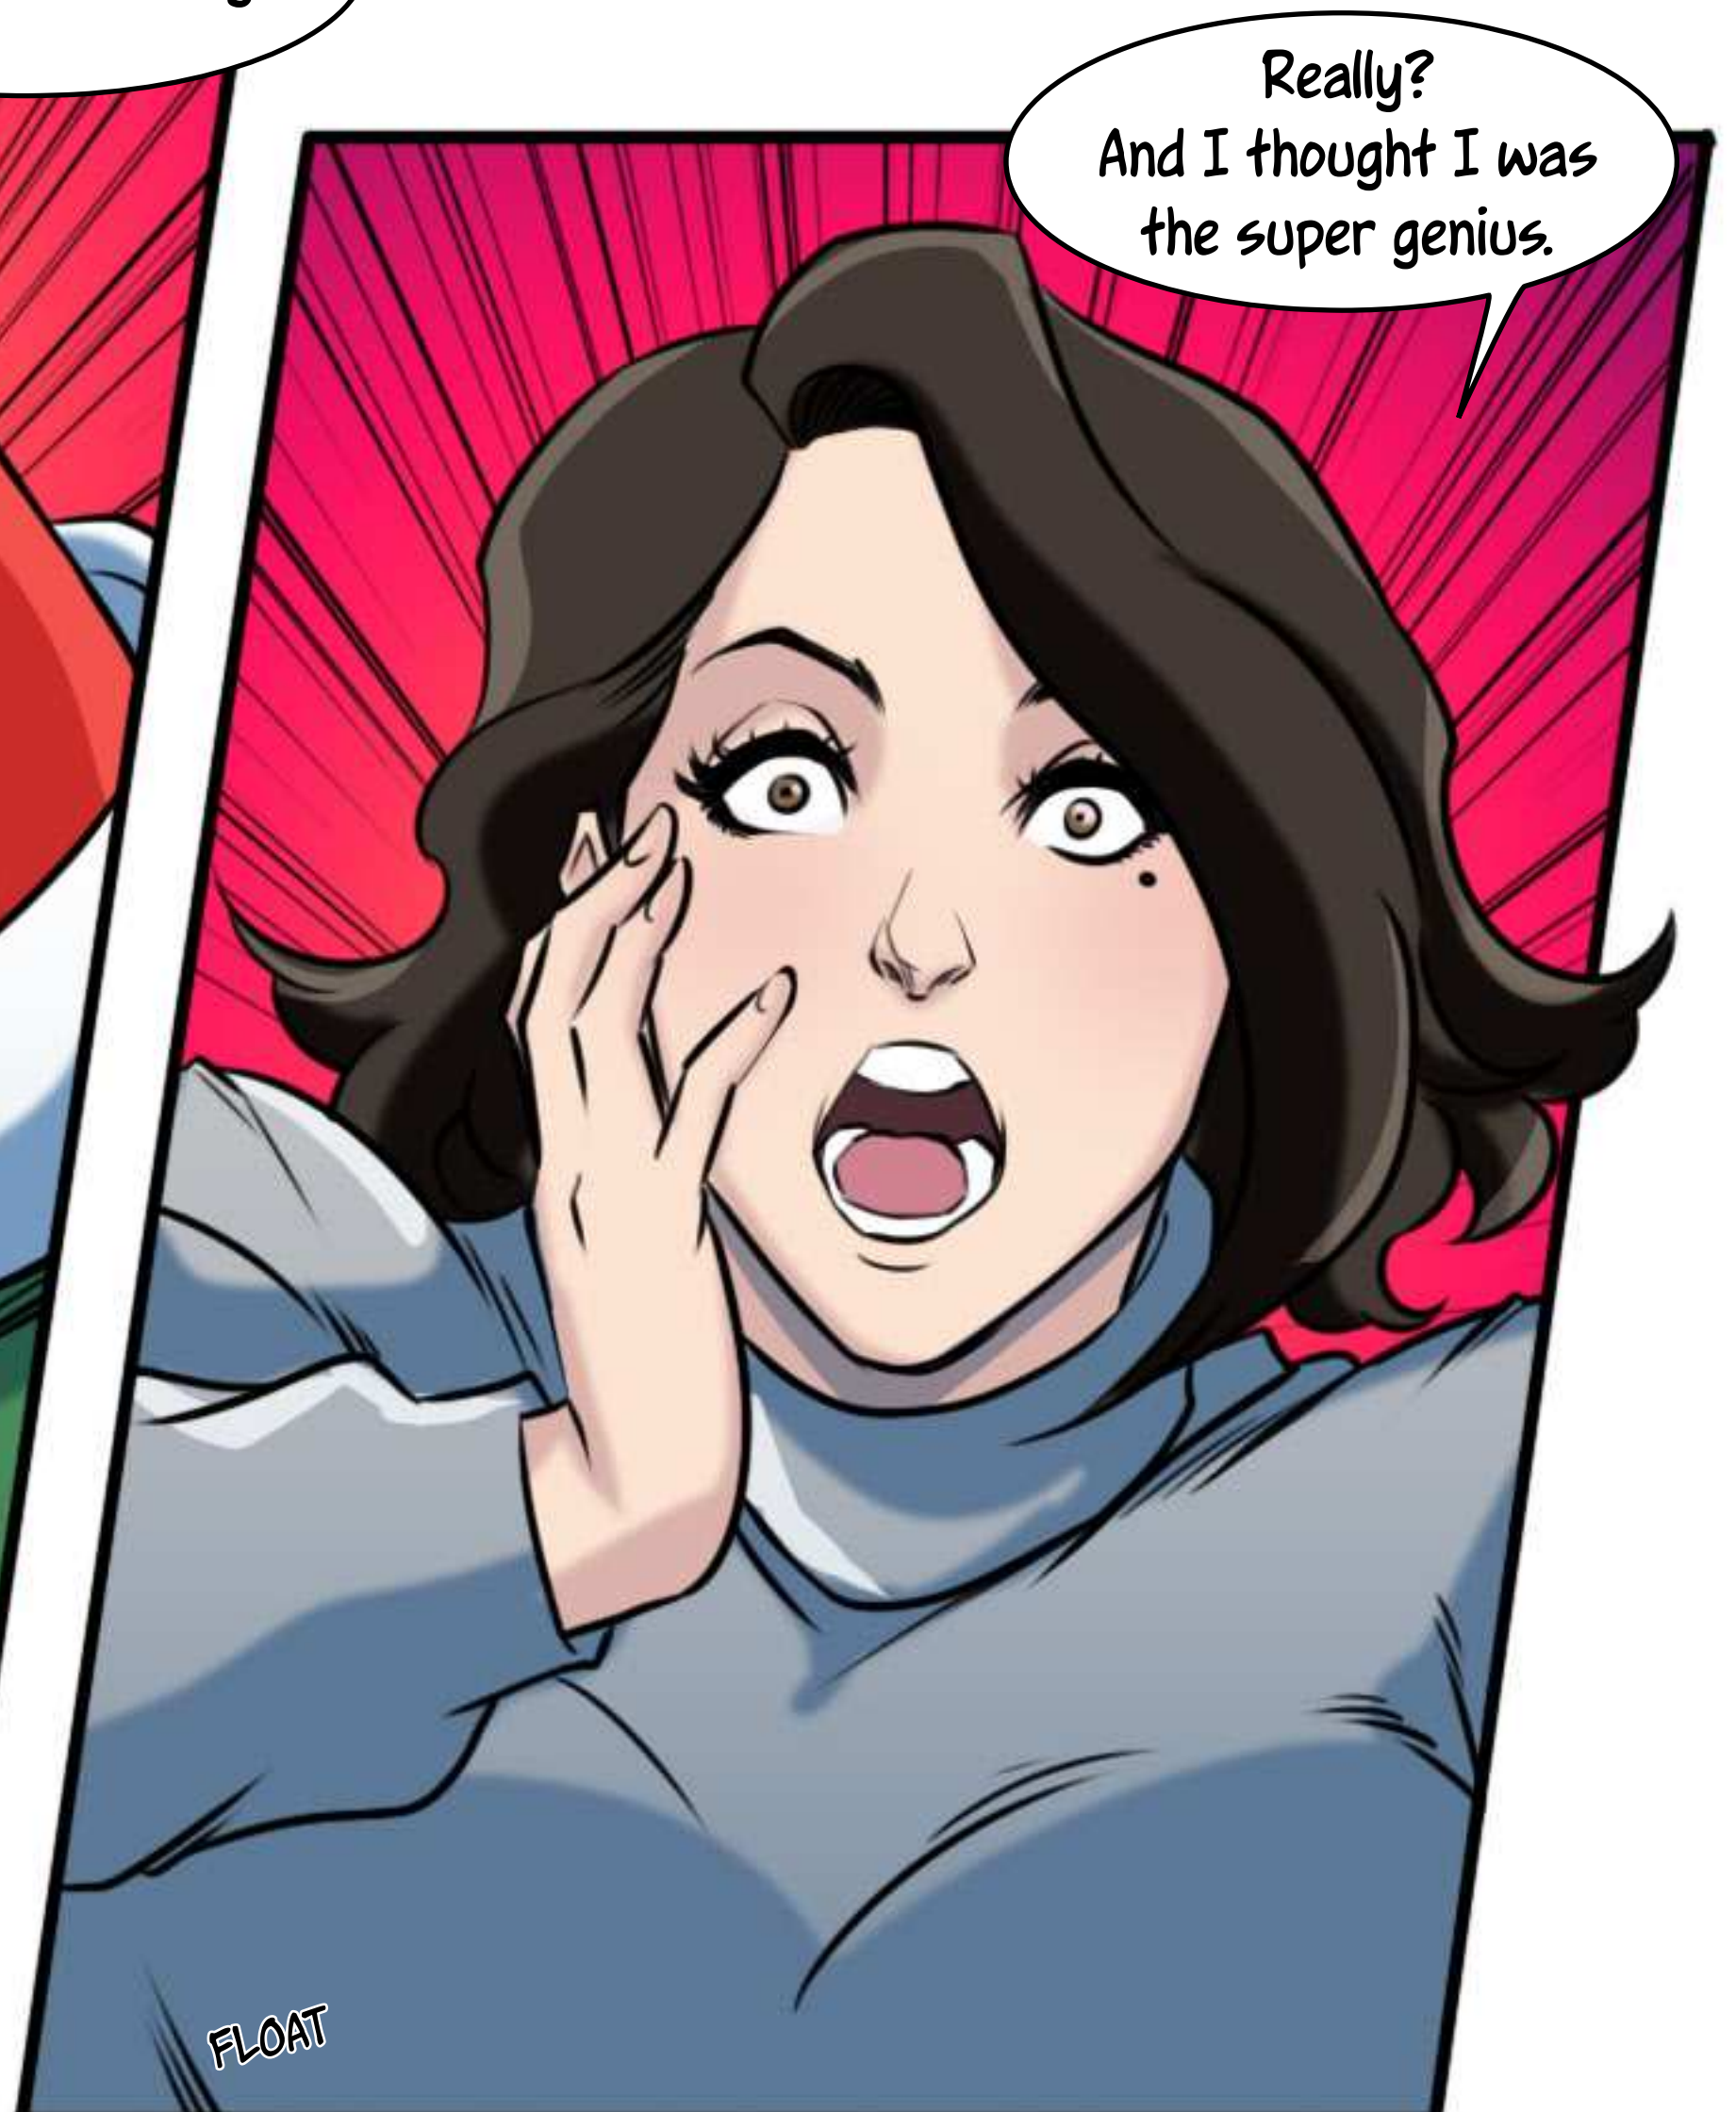

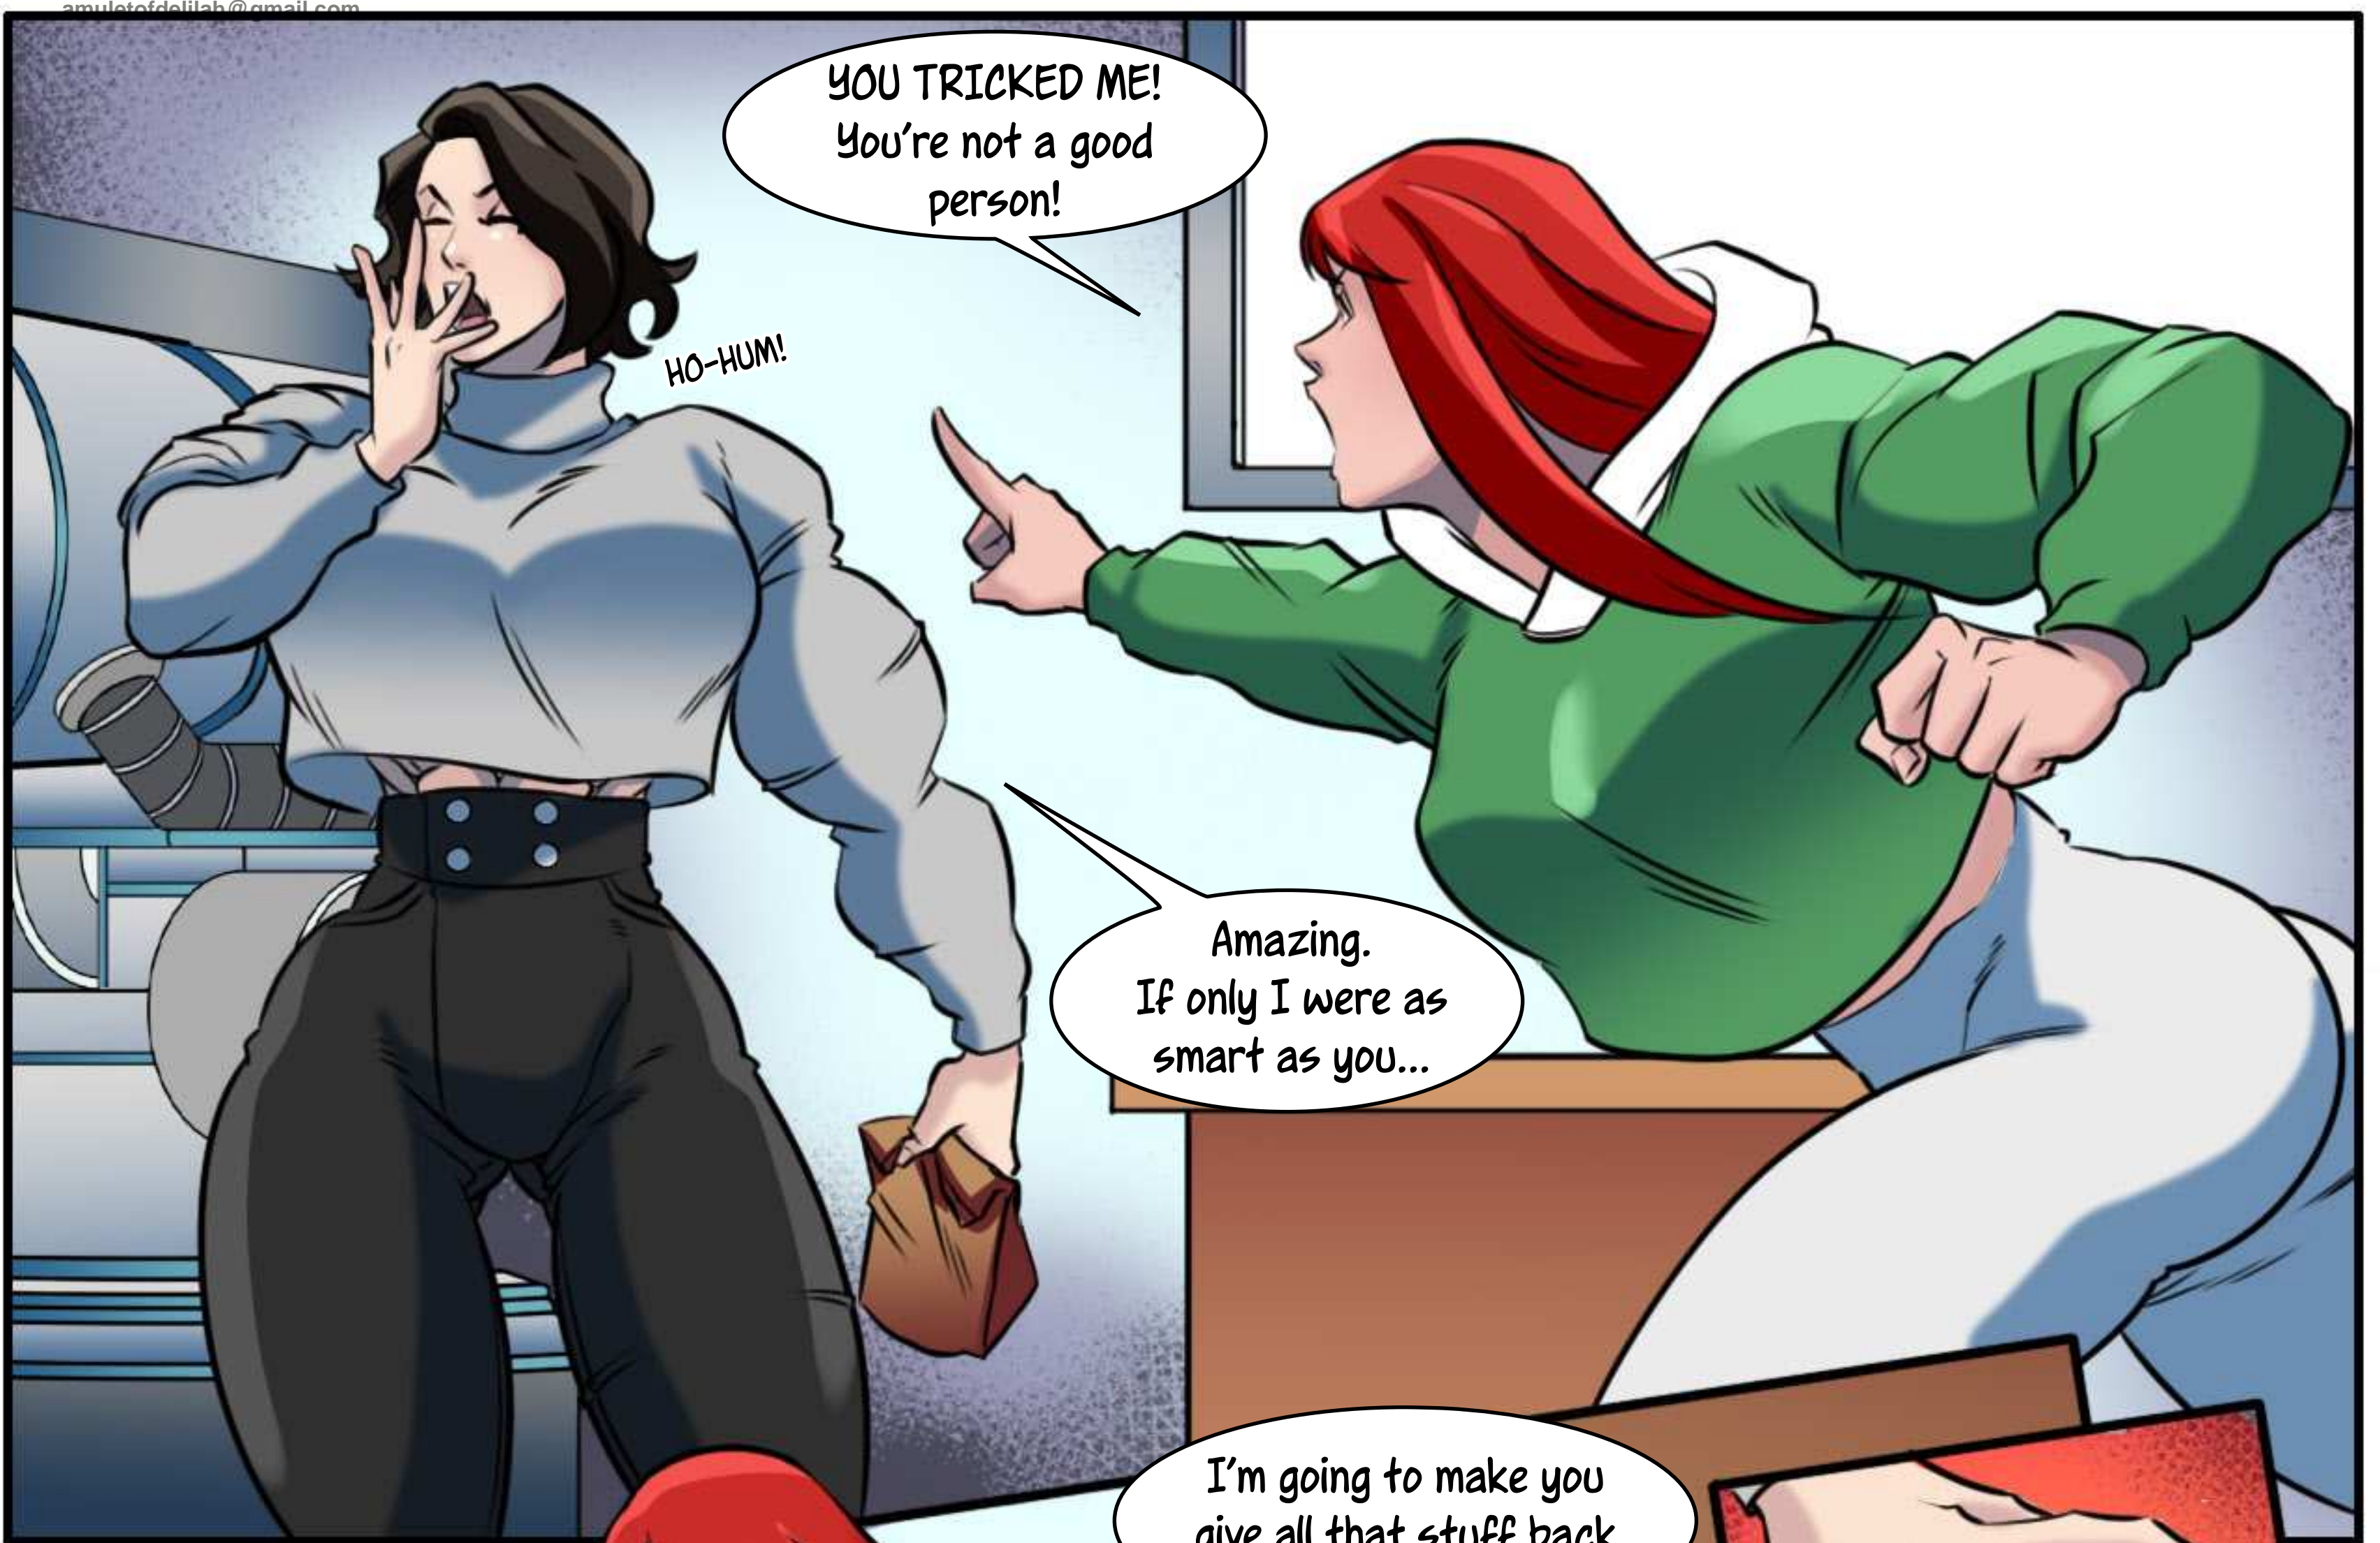

It will drain the meteorites of their energy, destroying them in the process, and focus it into a coherent beam. This beam will saturate my body with the energy and result in a permanent transformation.

Wow!
And you built this in just two days?

Much less actually, I spent most of the time learning biology and electronics and such. I've only been building the machine for about two hours and it's nearly complete.

YOU TRICKED ME!
You're not a good
person!

HO-HUM!

Amazing.
If only I were as
smart as you...

I'm going to make you
give all that stuff back
and then...

THOCK

OH REALLY?
In case you haven't noticed
I'm the only one with super powers
right now and I don't intend to let
you anywhere near those meteorites.

HA!
You're in for a
surprise, I...

Oh be quiet!

THWACK!

What a fool.

To be continued...
