

Some months later...

It's okay mom. I can really use the fresh air. After everything... it just feels right to take a break from the city.

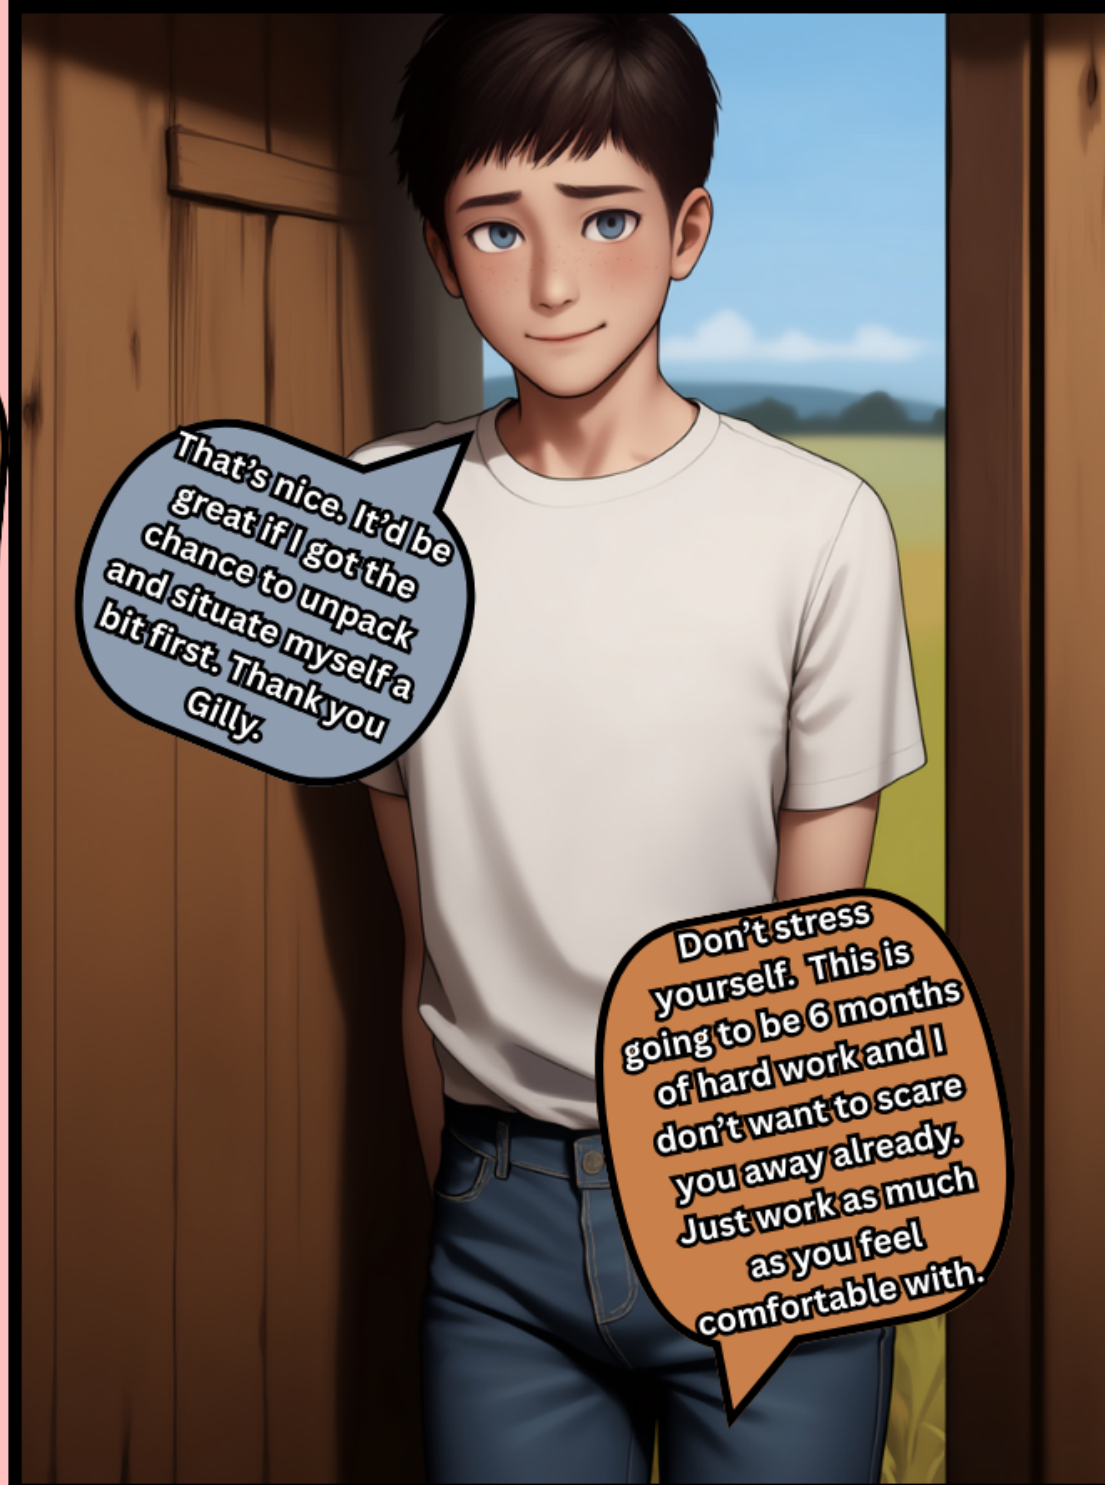

Are you sure you didn't forget anything honey? Your toothbrush, your charger, your keys? This is going to be the longest 6 months of my life...

Just follow me, I'll show you around. I'll show you the barn first and show you your own bedroom later. You won't have to work for today, but it'd great if you could help me out tomorrow.

That's nice. It'd be great if I got the chance to unpack and situate myself a bit first. Thank you Gilly.

Don't stress yourself. This is going to be 6 months of hard work and I don't want to scare you away already. Just work as much as you feel comfortable with.

Those three are some of my oldest. I've known them for years and they are easy to handle. It'd be great if you could take care of cleaning their stable tomorrow. I'll show you how.

Are they supposed to look like that...? I've only ever seen horses in books but these almost look human...

Ok... sure.

This is Becky-... sorry... I mean Baron. He is still quite new to the farm and I need to get used to his name. We don't get new stallions alot. He's very friendly, but still horny 24/7. It'd be great if you could help me with preparing tomorrow's breeding session. You can clean his hutch while he is... occupied.

Oh... well, I guess I'll need to get used to seeing stuff like this.

Oh don't worry, you will... fast. That'd be it for tommorrow. You can do more if you really want, but that'd be a big help already.

Late evening...

loud thinking
I didn't expect them to look so different from the books. Most people would pay good money to come close to a horse after the plague.
Gilly is really good looking, even though she is a good bit older than me. It's too soon still, but it doesn't hurt to imagine me with her...

Next morning...

Looks like I am done here. Guess I can bring that black mare back in here. What did Gilly say was her name again? Minnie?

Hello Minnie... wtf... I'm pretty sure horses aren't supposed to have breasts... what the fuck is going on?

Just follow me... the others are already in the breeding stable...

At least she doesn't seem to be able to understand me... what is up with the breasts though? Do the others have breasts too? They were gone before I woke up...

neighing

Noone can see me here... my god, why am I so turned on? Is this some weird kink I didn't know about?

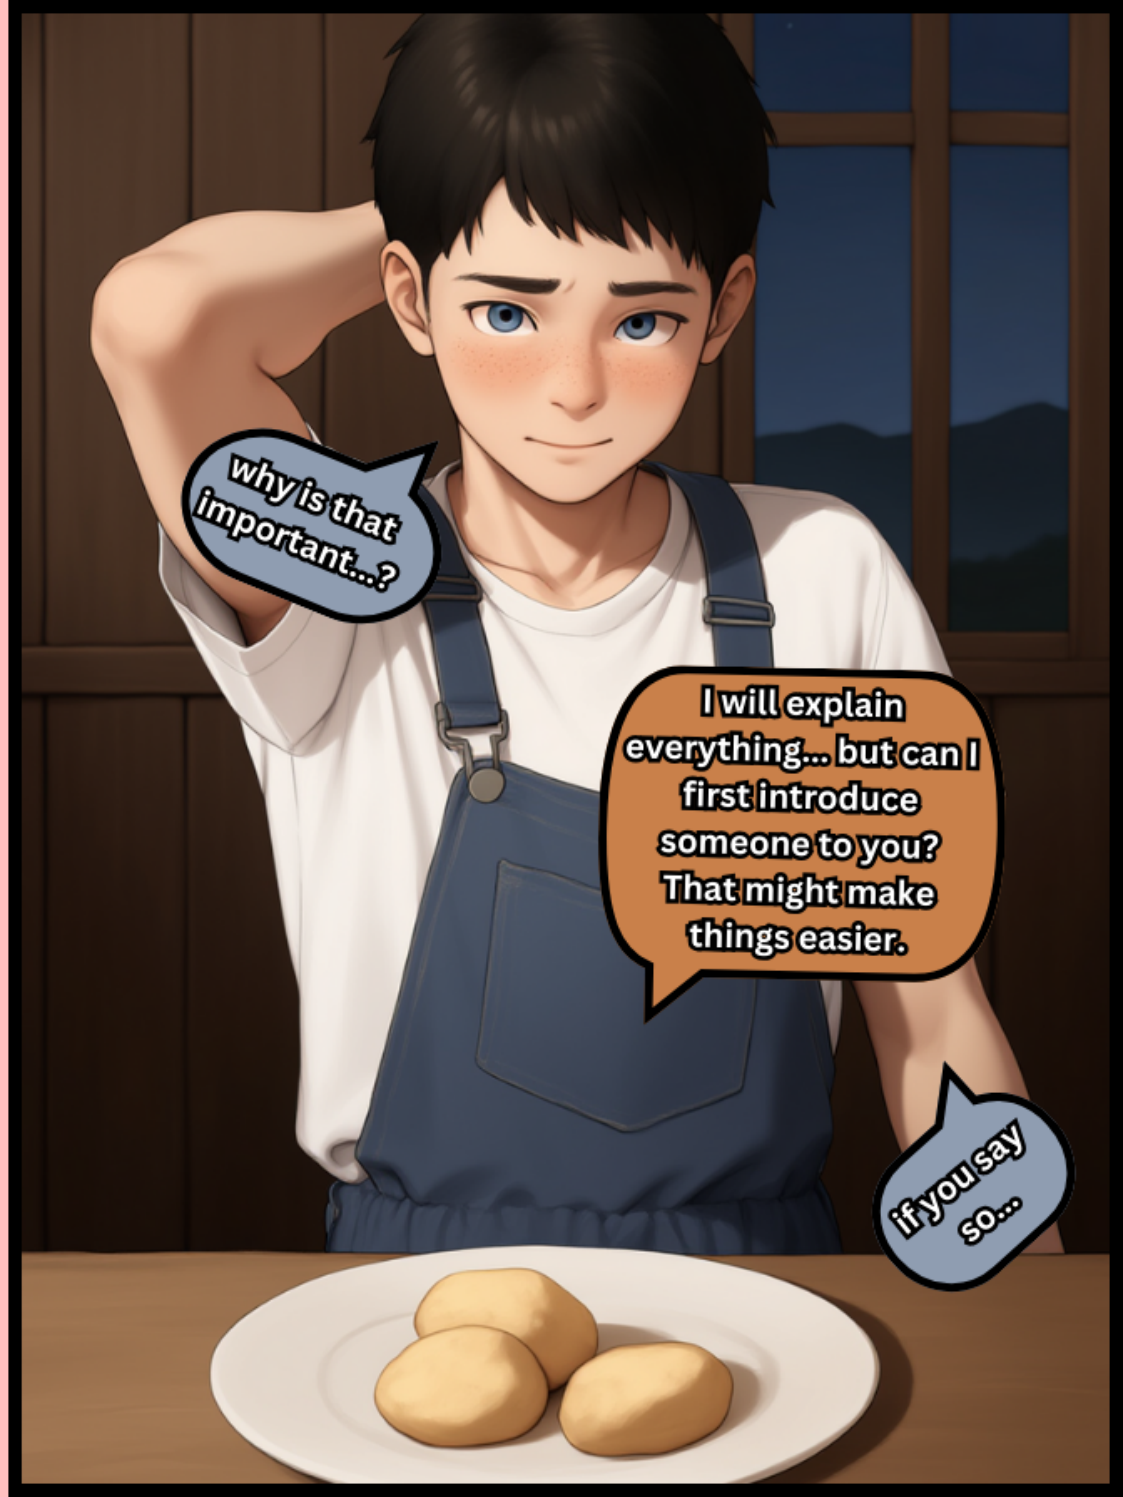

That evening...

Oh shit... I completely forgot that this isn't normal... you signed the NDA, right?

ehrr... yeah.

why is that important...?

I will explain everything... but can I first introduce someone to you? That might make things easier.

if you say so...

this section of the farm is for
“young” horses.

It's a safe environment for them,
since they may accidentally hurt
themselves if they don't yet feel
quite comfortable in their bodies.

Or... well stallions might hurt
them too...

What does
that have
to do
with...

OMG Gilly is that
you out there?!
Please... I NEED to
meet the
stallions... I tell you
I am ready... I am
burning down
there!

Follow
me...

Nikki, we have a visitor. Ronald this is Nikki and vice versa. She is our newest horse.

Please... this is crazy... I've never been this horny Gilly. This serum is crazy... The fucking hay is almost tickling me enough to get me off... I can try, you know? I can still back off from the stallion if it's too big.

What the fuck...? What do you mean... what the fuck?!

I'm sorry Nikki, but there's no way you can take a stallion for at least another month.

Hooves aren't really made for that... believe me I've tried. I kinda miss my fingers right now.

Gilly... why is this horse talking? What is happening here? What have I gotten myself into...?

Everything is fine Ronald. She asked for this. I wanted you to be able to ask her, so that you don't draw any wrong conclusions.

Why would anyone want this...?

How about you get off your high horse?

A fucking dadjoke... really?

Nice to meet you cutie.

Nikki is one of our volunteers. We offered her free treatment for her drug addiction and her trauma therapy and offered her this life as an alternative. She chose this escape from her pain like many others before.

I... I am sorry... this is just a lot to take in...

Look Ron... the two of you are pretty much the same age and I was hoping that you could spend some time with Nikki.

hihi... I like the sound of that...

I mean... I guess I could do that. I guess it gets boring in here pretty quickly.

We are going to have a lot of fun, hehe.

Thank you so much! The two of you can get to know each other a little bit better now. I'll go back inside and do the dishes.

Oh and Ron... I know she is horny as fuck, but don't get yourself talked into something you are not comfortable with.

I...-I mean... what are you even implying?

He'll be fine Gilly, hehe.

Oh god... I am
getting sucked off
by a horse...
You are so good at
this....

shlick

Good boy! Good thing I still have lips.

Fuck it! I don't get it, but this is so fucking sexy!

slurp

He is no stallion,
but at least he's
hung for a boy.
The way he looks at
me is kinda cute...

FUUUUUCK!

splurt

Get yourself over
here big boy!
Let's have some
actual fun!

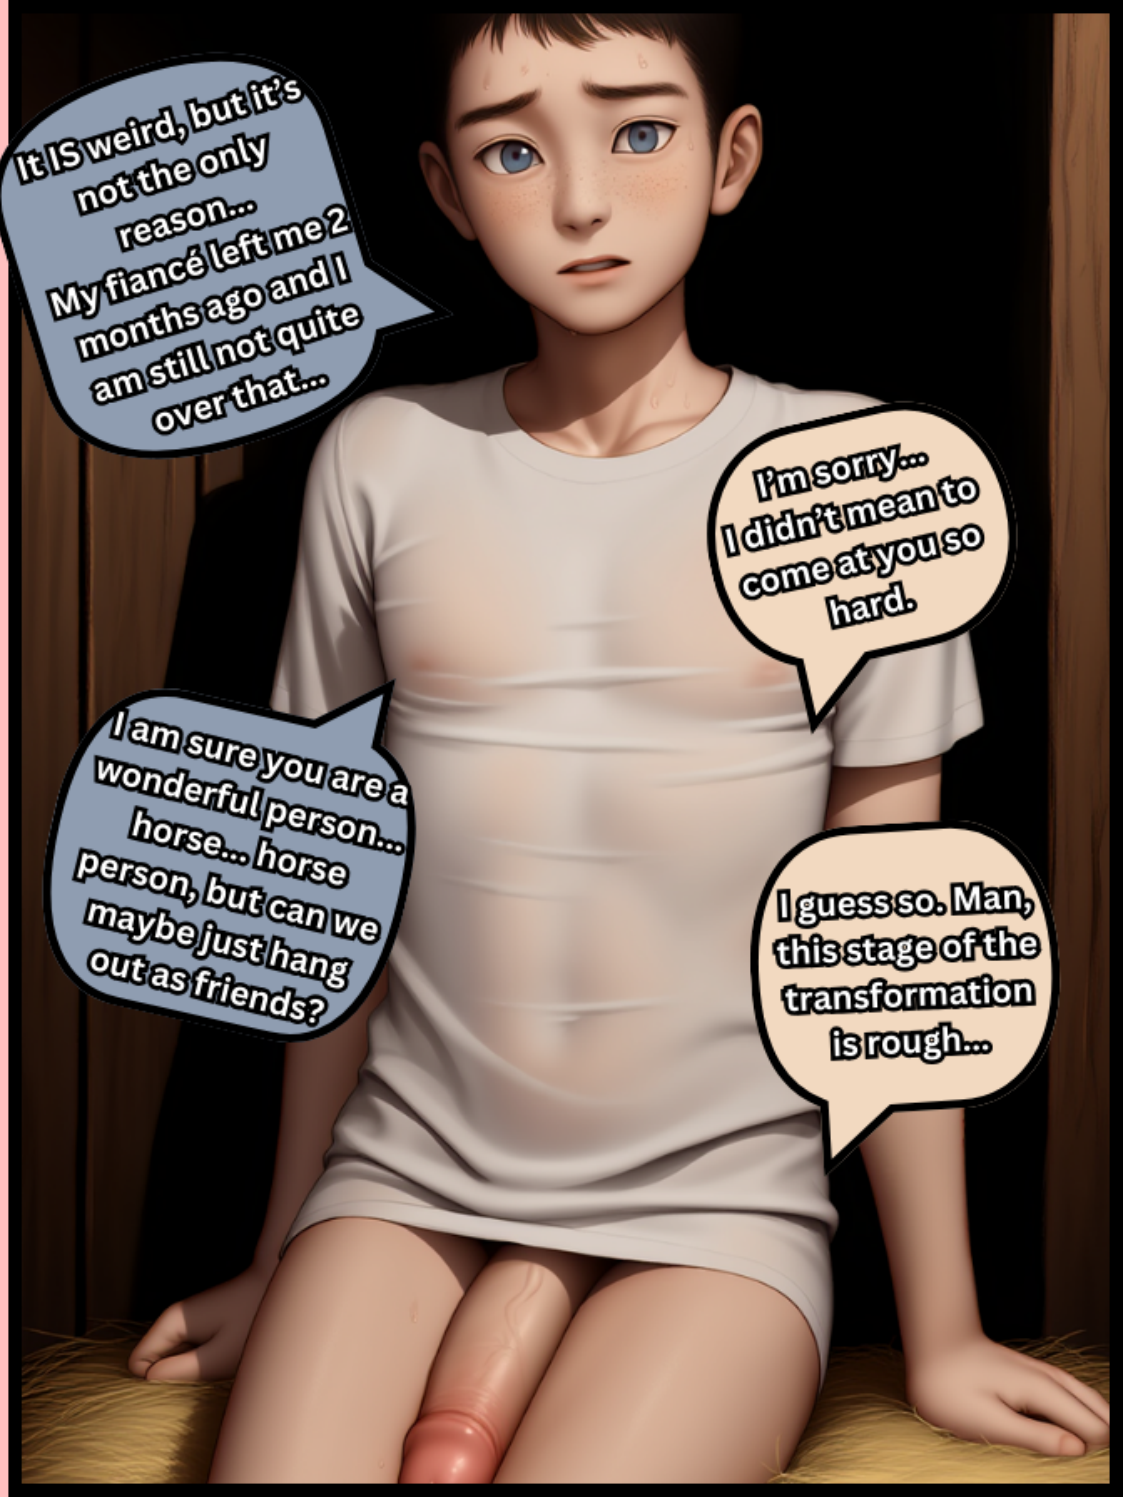

Oh god...
Look... I don't
think I am
ready for
something like
that...

Dude... seriously? I suck you off and you just leave me hanging?

I'm sorry...

That's kind of messed up. Fucking a horse is weird, but-

It IS weird, but it's not the only reason... My fiancé left me 2 months ago and I am still not quite over that...

I'm sorry... I didn't mean to come at you so hard.

I am sure you are a wonderful person... horse... horse person, but can we maybe just hang out as friends?

I guess so. Man, this stage of the transformation is rough...

The next day...

Ho do you
manage to suck so
hard at this game?
It's 3 to 1 and I'm
playing with
hooves!

chuckling

C'mon! This is
a racing game.
It's not like
you need to
push alot of
buttons...

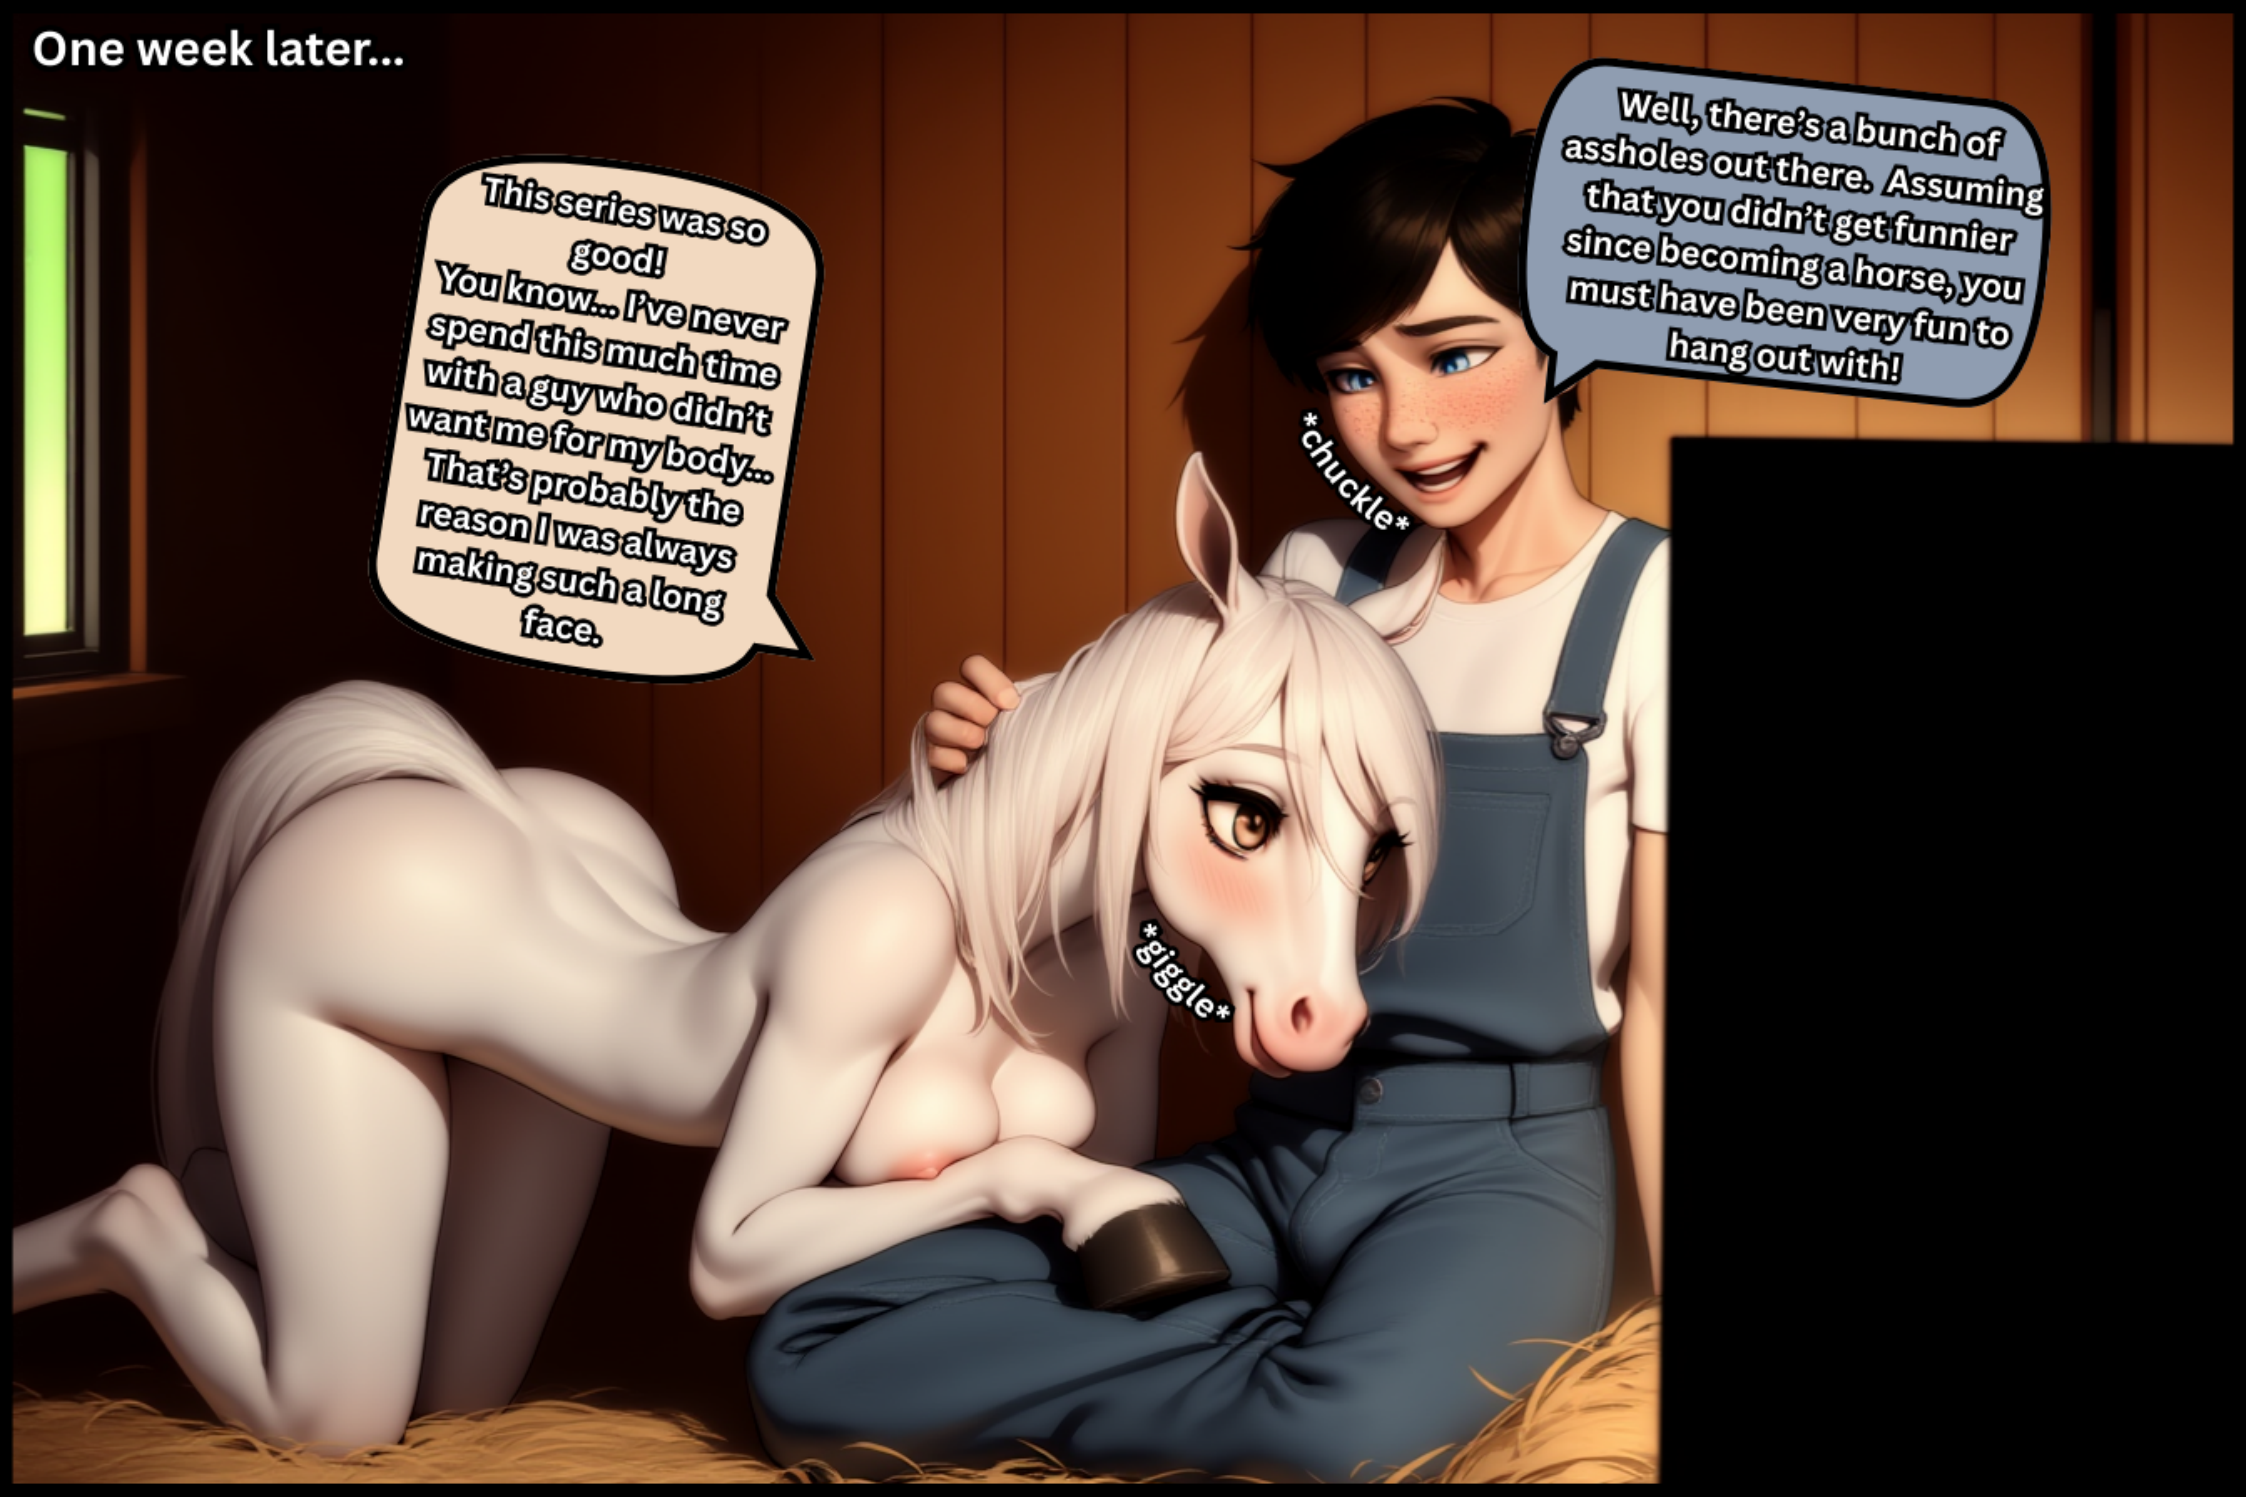

One week later...

This series was so good!
You know... I've never spend this much time with a guy who didn't want me for my body... That's probably the reason I was always making such a long face.

Well, there's a bunch of assholes out there. Assuming that you didn't get funnier since becoming a horse, you must have been very fun to hang out with!

chuckle

giggle

You are always so nice to me... I really like you...

smooch

I like you too...

One evening later...

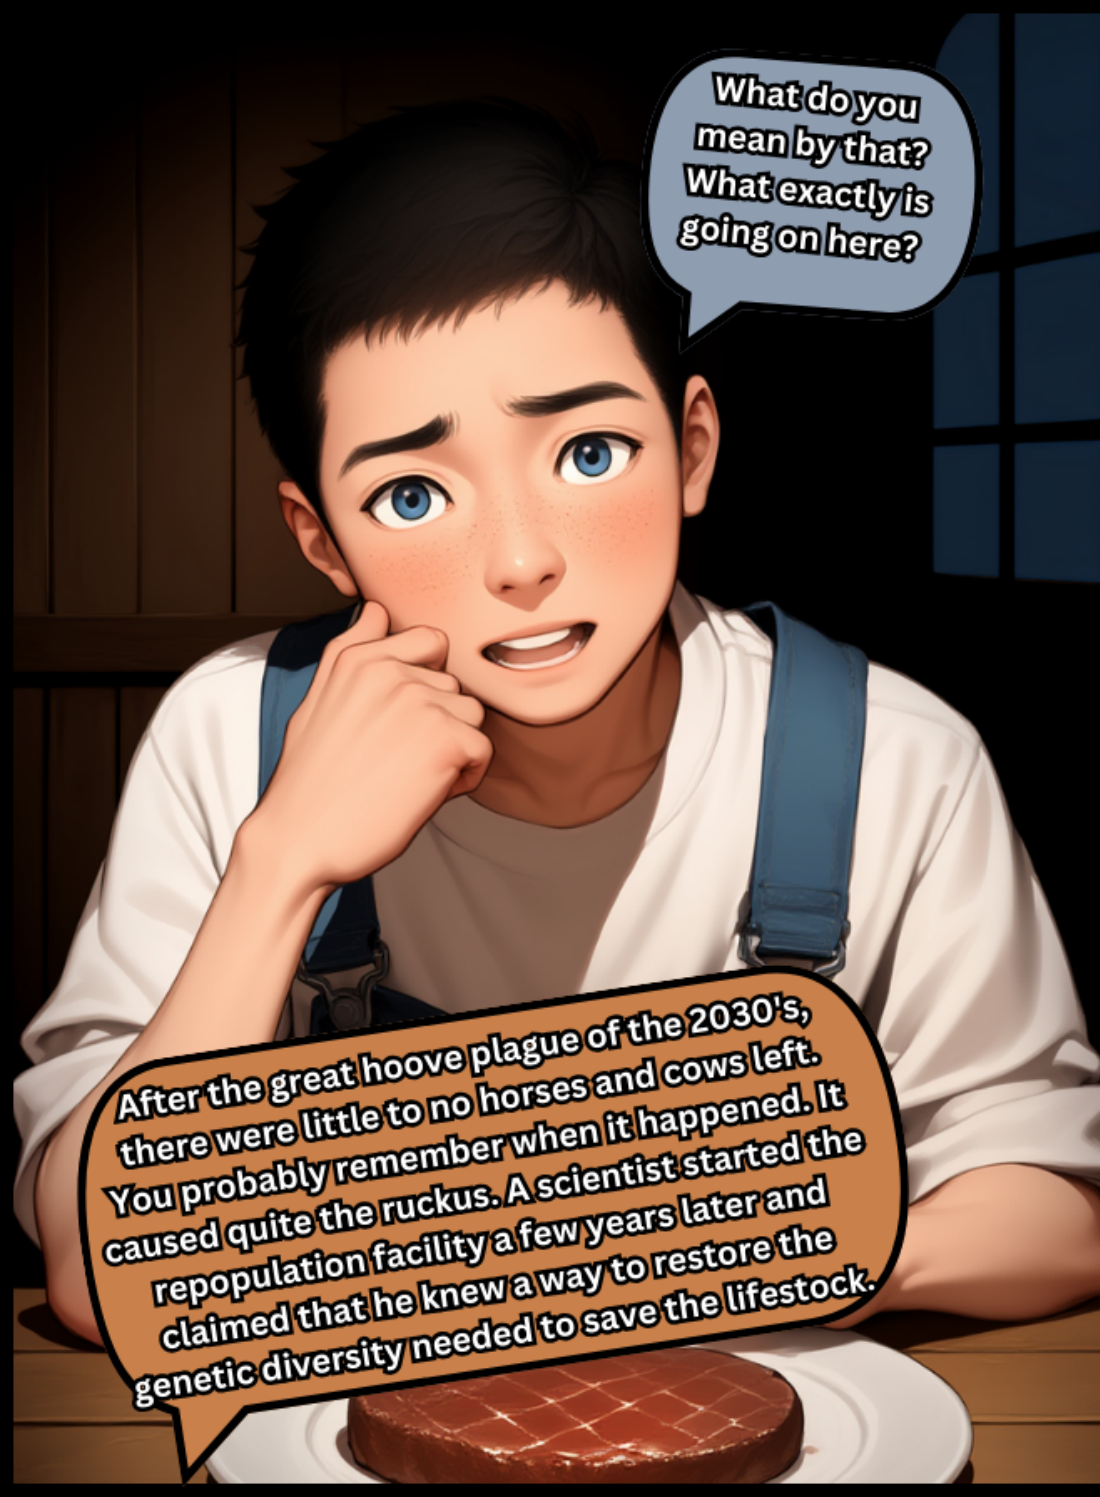

I wonder if she'd like to go on a walk with me. I can't wait to visit her again...

She's talking about you nonstop, you know? I don't know how the two of you are spending your time, but thank you Ronald... She really needed this.

Gilly... this might sound strange, but... I kind of like her... I mean... alot...

It doesn't sound strange to me at all! I still consider her a human. To be honest... I'm actually glad...

What do you mean by that?
What exactly is going on here?

After the great hoove plague of the 2030's, there were little to no horses and cows left. You probably remember when it happened. It caused quite the ruckus. A scientist started the repopulation facility a few years later and claimed that he knew a way to restore the genetic diversity needed to save the livestock.

The animals created from people wouldn't become part of the foodchain for many generations, but livestock be replenished. All of this is still a secret to society. I've been working here for 11 years now.

But why volunteer? What is going to happen to Nikki?

This farm has 57 horses. 39 of them were born human. 12 Boys and 20 girls were transformed into breeding mares. 5 Boys and 2 girls were turned into my only stallions, breeding normal horses and Hybrids alike. I knew all but the first 14 of them personally. All of them were troubled individuals who felt like there was no other out. Most of them were suicidal before coming here.

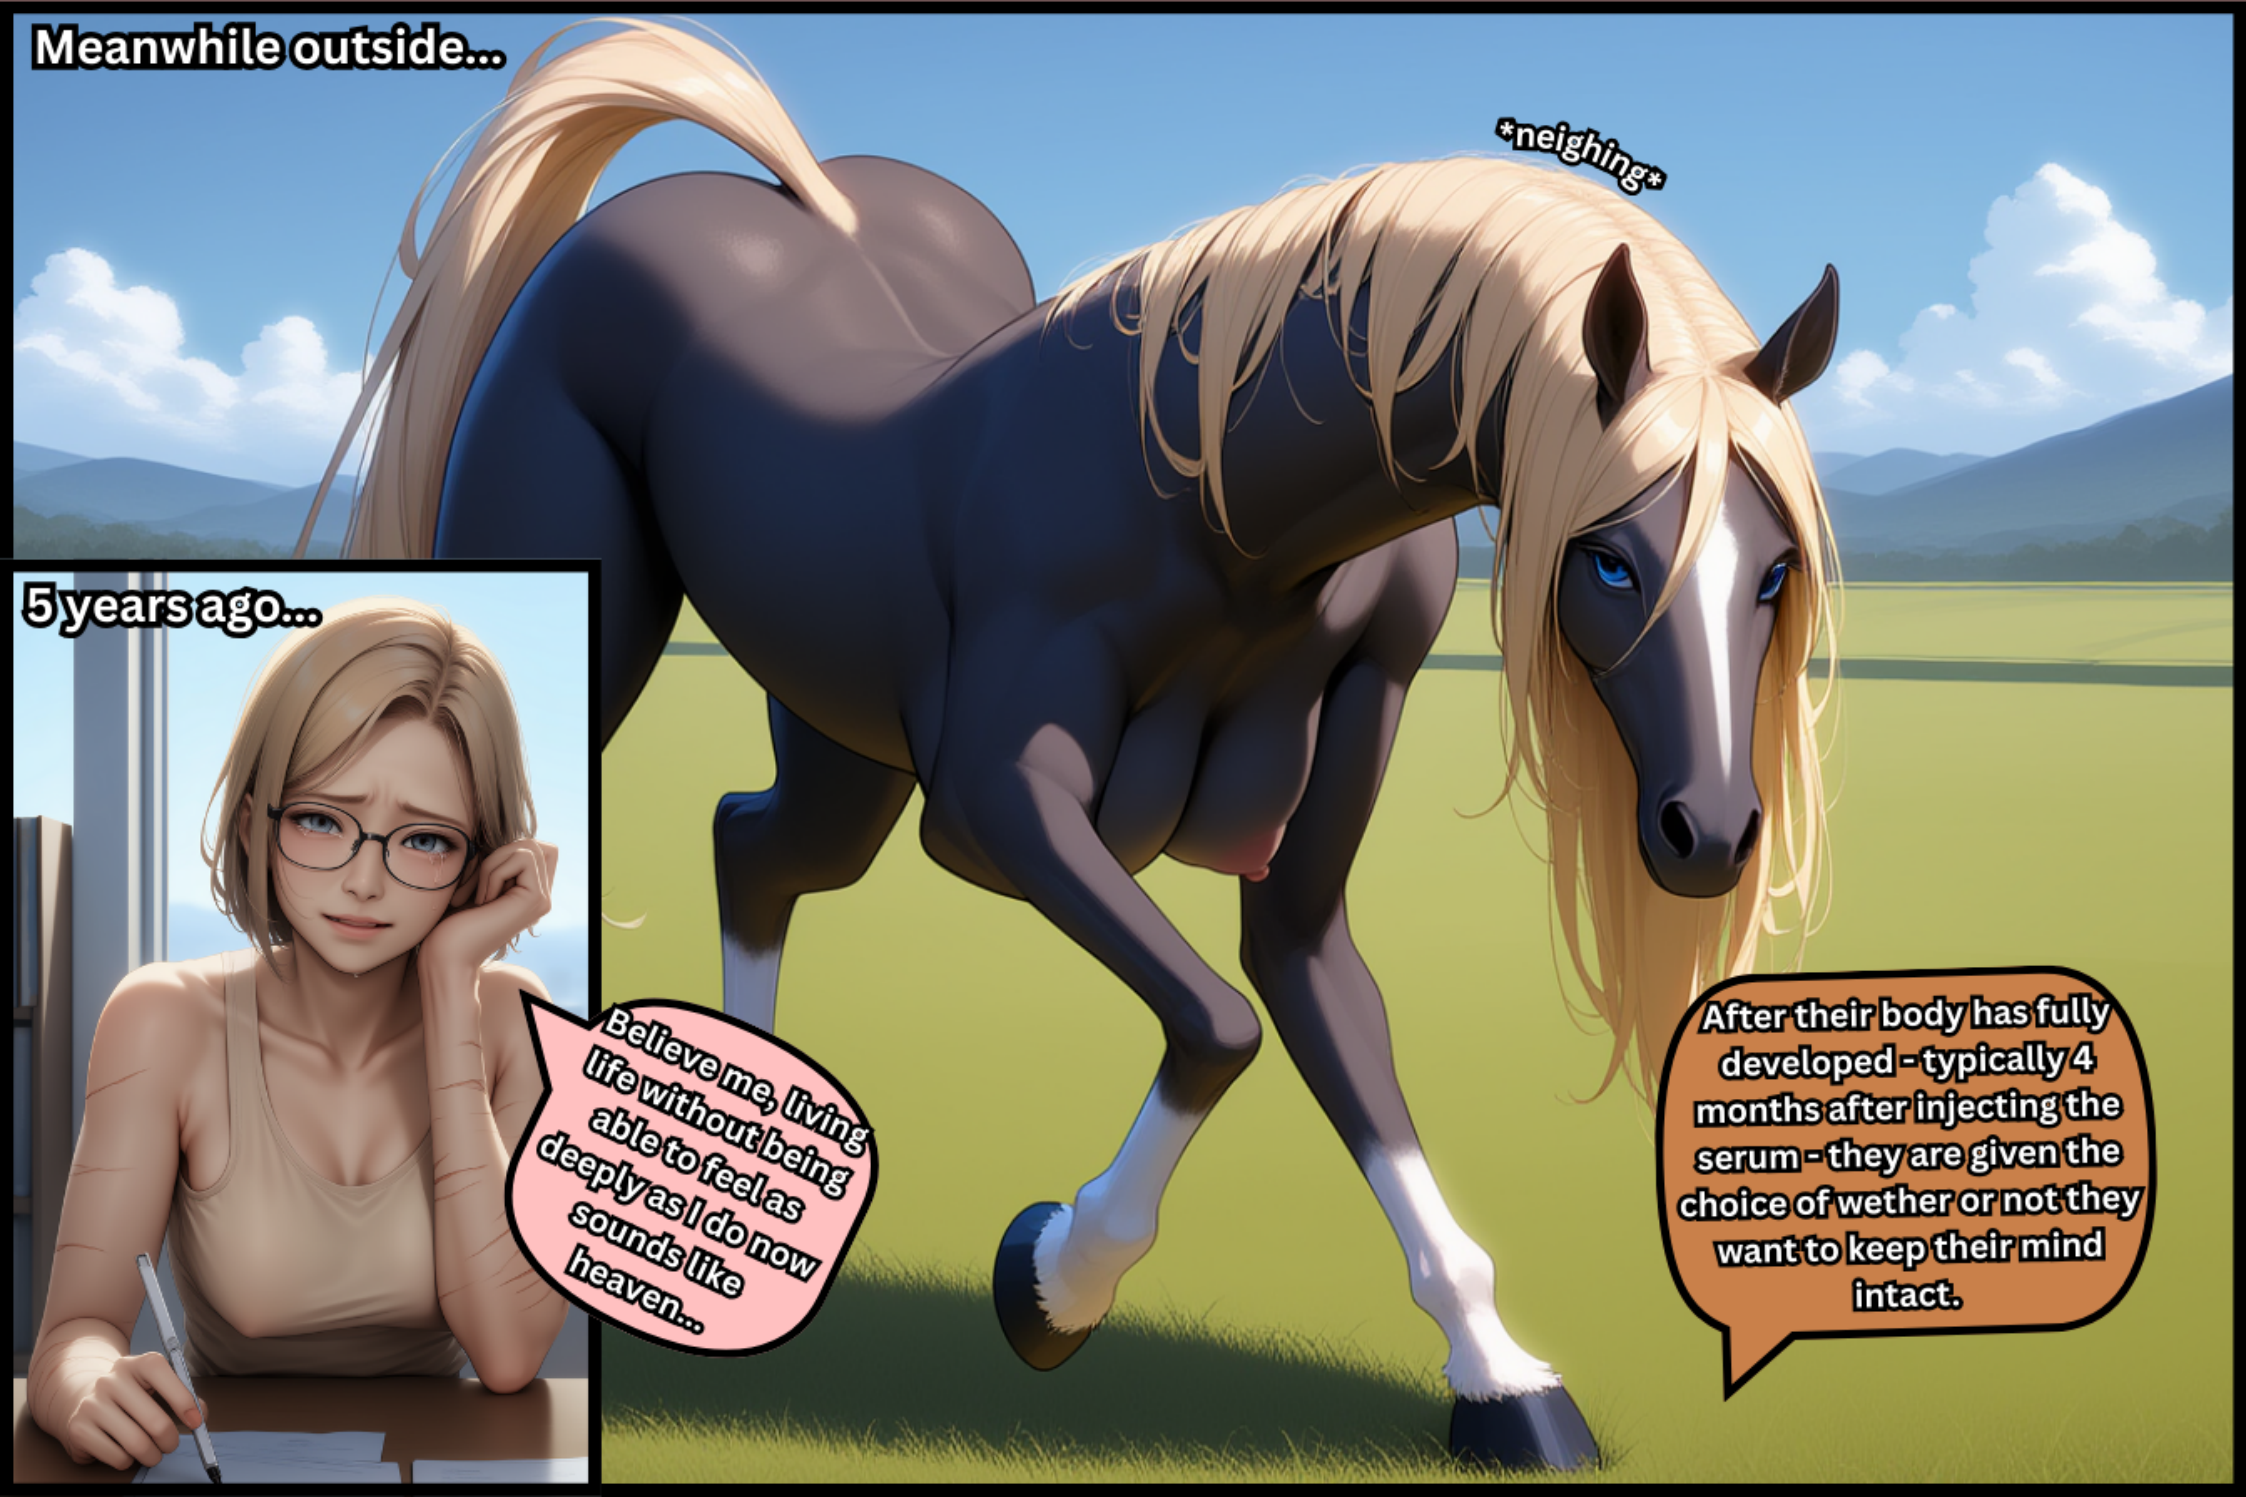

Meanwhile outside...

neighing

5 years ago...

Believe me, living life without being able to feel as deeply as I do now sounds like heaven...

After their body has fully developed - typically 4 months after injecting the serum - they are given the choice of wether or not they want to keep their mind intact.

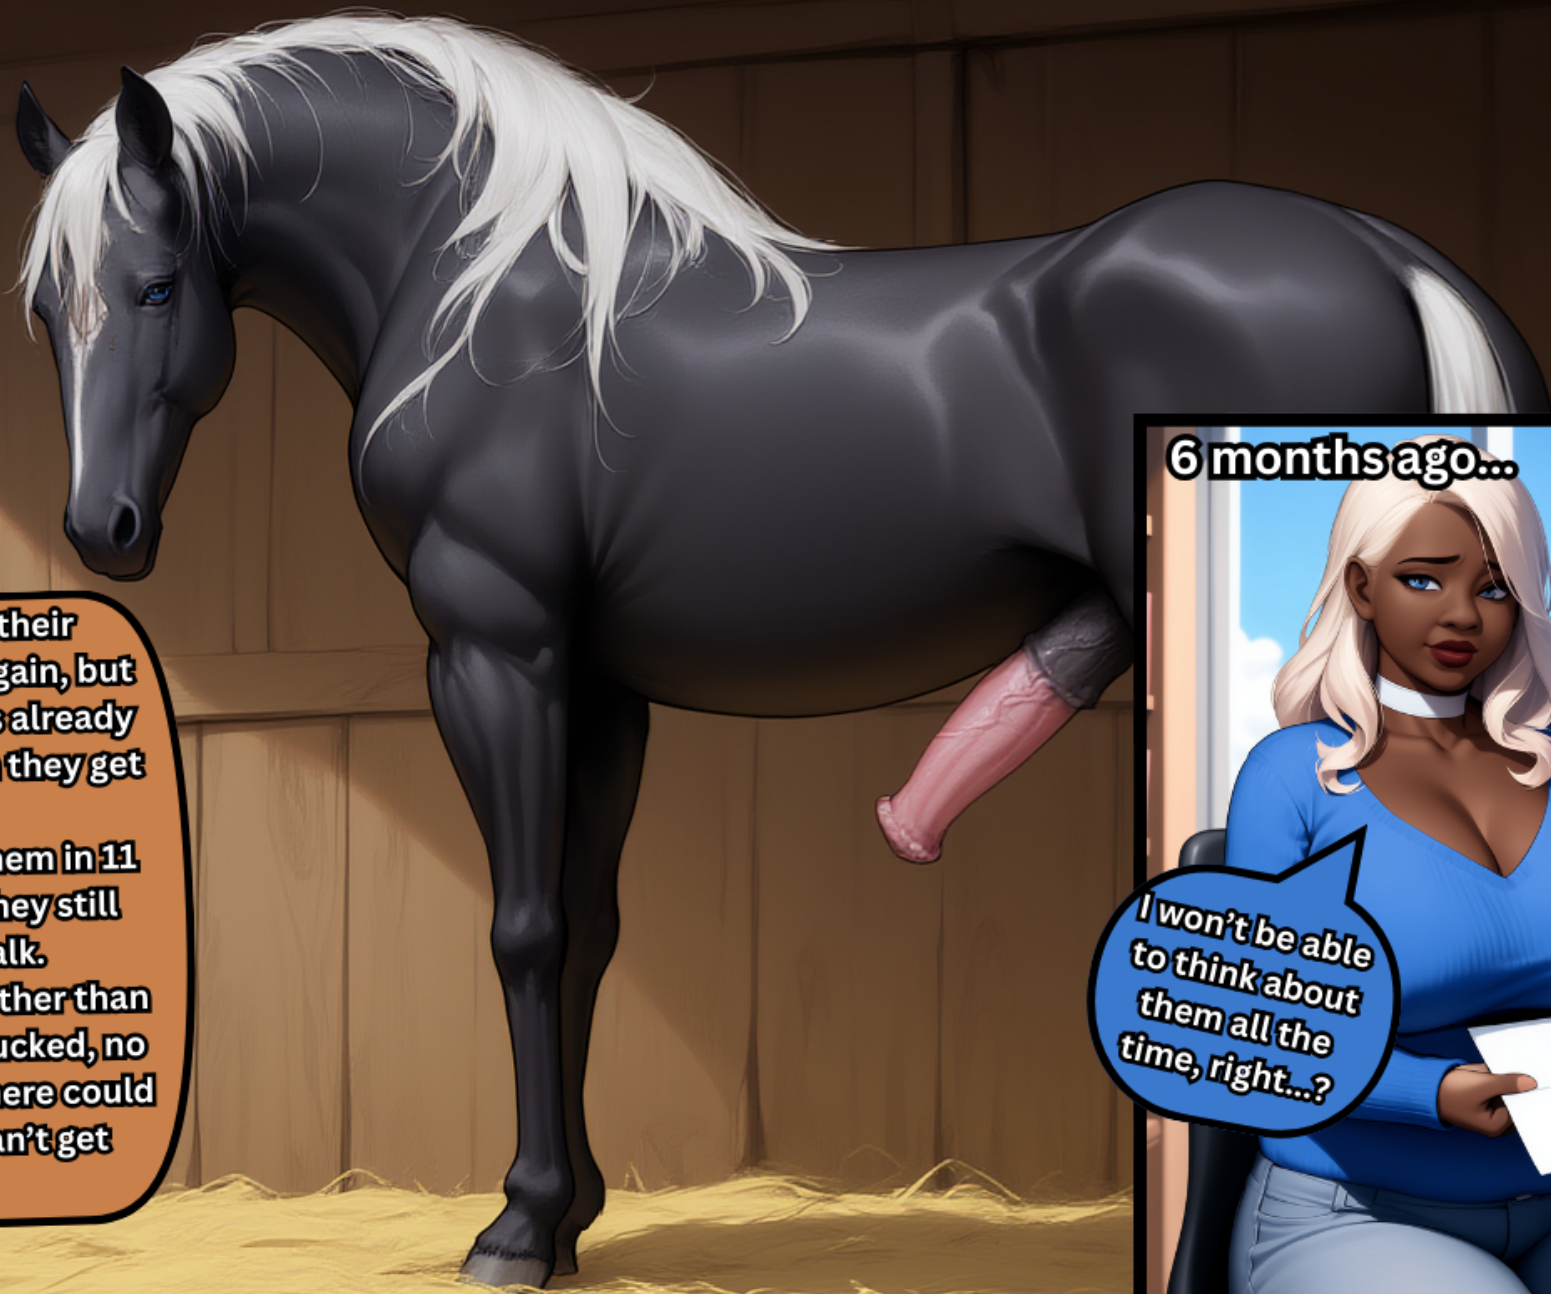

whinny

Every single time, I try to make them choose to keep their minds intact, but most just don't want to feel the pain anymore and choose differently

3 years ago...

Fuck it, let's try... It's not like I have anything left to lose...

I am trying to fight for their humanity time and time again, but pretty much everyone has already made up their minds when they get here.

I've only convinced 2 of them in 11 years and even though they still could, they barely talk.

I don't want Nikki to go further than she already has. Her life sucked, no doubt about it, but living here could be healing enough... I can't get through to her...

6 months ago...

I won't be able to think about them all the time, right...?

I want them to feel better. Actually better. Believe me, I do everything in my power for them to live beautiful lives here, but every time one of them takes the second shot, it feels like they fade away. Almost nothing of who they once were remains.

I know! Her father... well... she is suffering. She used to be an addict who sold her body in order to pay for her next fix before coming here. She suffered. A lot. I want to see HER happy. Not some horse...

Wait... Nikki is planning to... why?! she's awesome!

I'll convince her! This is terrible... she can't just give up!

One week later...

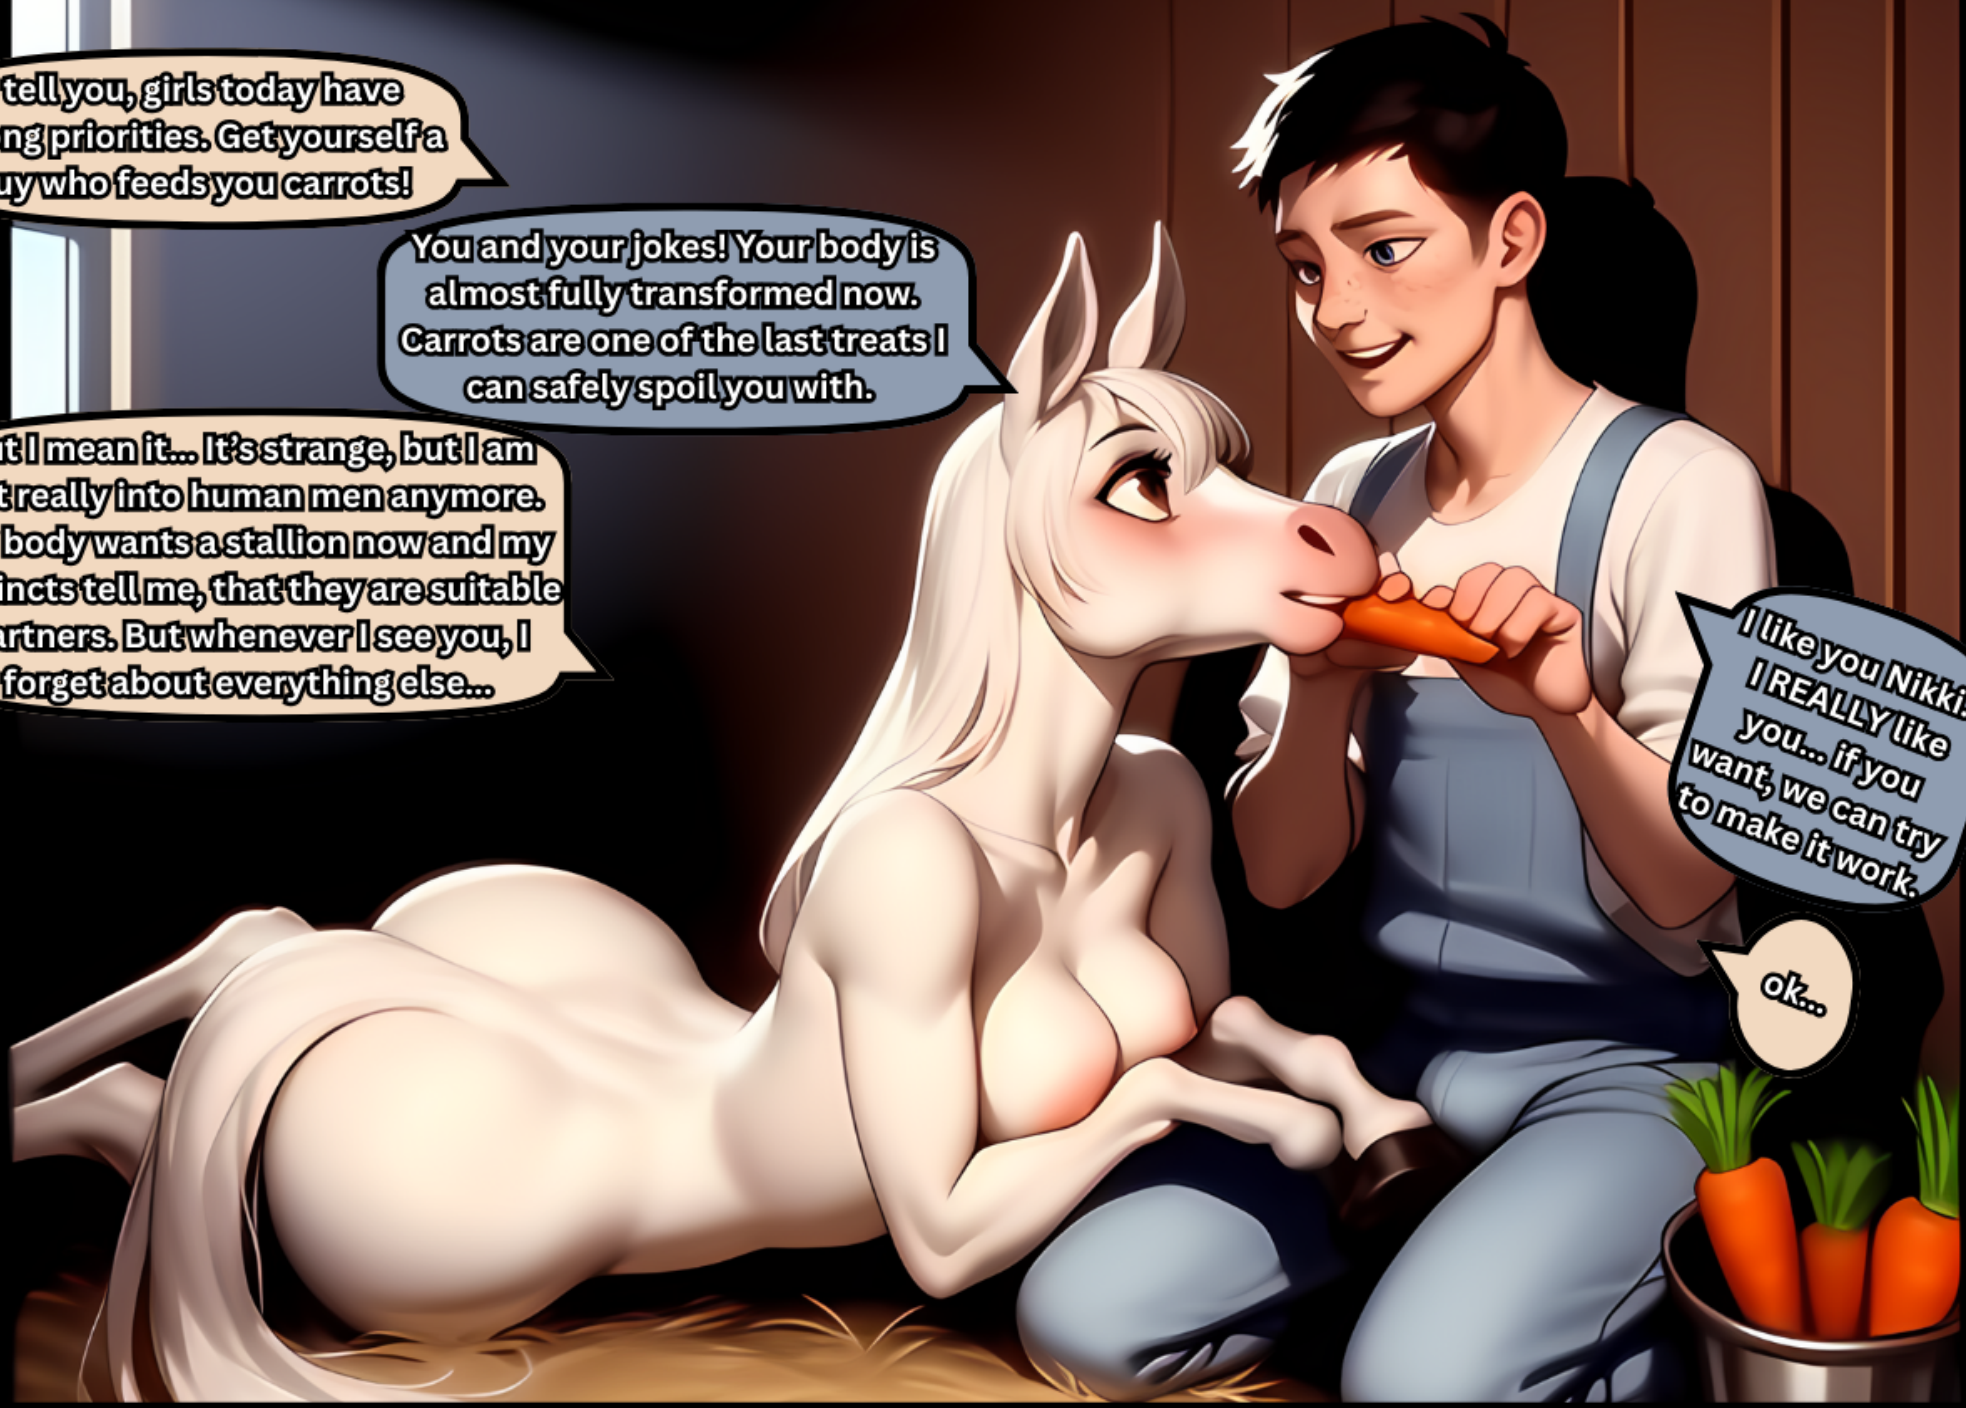

I tell you, girls today have wrong priorities. Get yourself a guy who feeds you carrots!

You and your jokes! Your body is almost fully transformed now. Carrots are one of the last treats I can safely spoil you with.

But I mean it... It's strange, but I am not really into human men anymore. My body wants a stallion now and my instincts tell me, that they are suitable partners. But whenever I see you, I forget about everything else...

I like you Nikki... I REALLY like you... if you want, we can try to make it work.

ok...

I want you
Ron... And this
time, it's not
just because
of the
hormones
going crazy...

I'm ready! I
want you
too!

The tastiest
carrot of the
evening!

shlop

I really need
to stretch
here! I can
barely reach
your clit.

Can we try
penetration
tomorrow? I
want it to
feel special.

shlick

sure.

This time I am
the one who
leaves you
hanging. I guess
we're even now
cutie.

I want our
first time to
feel special
too. Take all
the time
you need.

The next day...

Work is almost done...
I wonder what she
had in mind
yesterday... It's really
going to happen
today, huh?

Hey casanova,
leave the rest to
me.
I just visited Nikki
and let's just say,
she is very excited
to see you. We had
to get a little
creative, but I think
we got there...

ok...? Damn this
is weird... thank
you Gilly. I-... I
think I actually
am in love...

Go get
her tiger!

Oh wow!
How did
you...?

Gilly sew the
lingerie for me
and helped me
to get dressed.
Do you like it?

You look
stunning...

I'm ready for
you baby!

Are you sure I
am not too
heavy for you?

No, I am
really
enjoying
this.

It's inside... To be honest, I didn't expect it to feel this good. Are you sure you aren't a horse in disguise?

Well, maybe this is fate? You are the first who can actually fully take me. I'll gladly be your stallion.

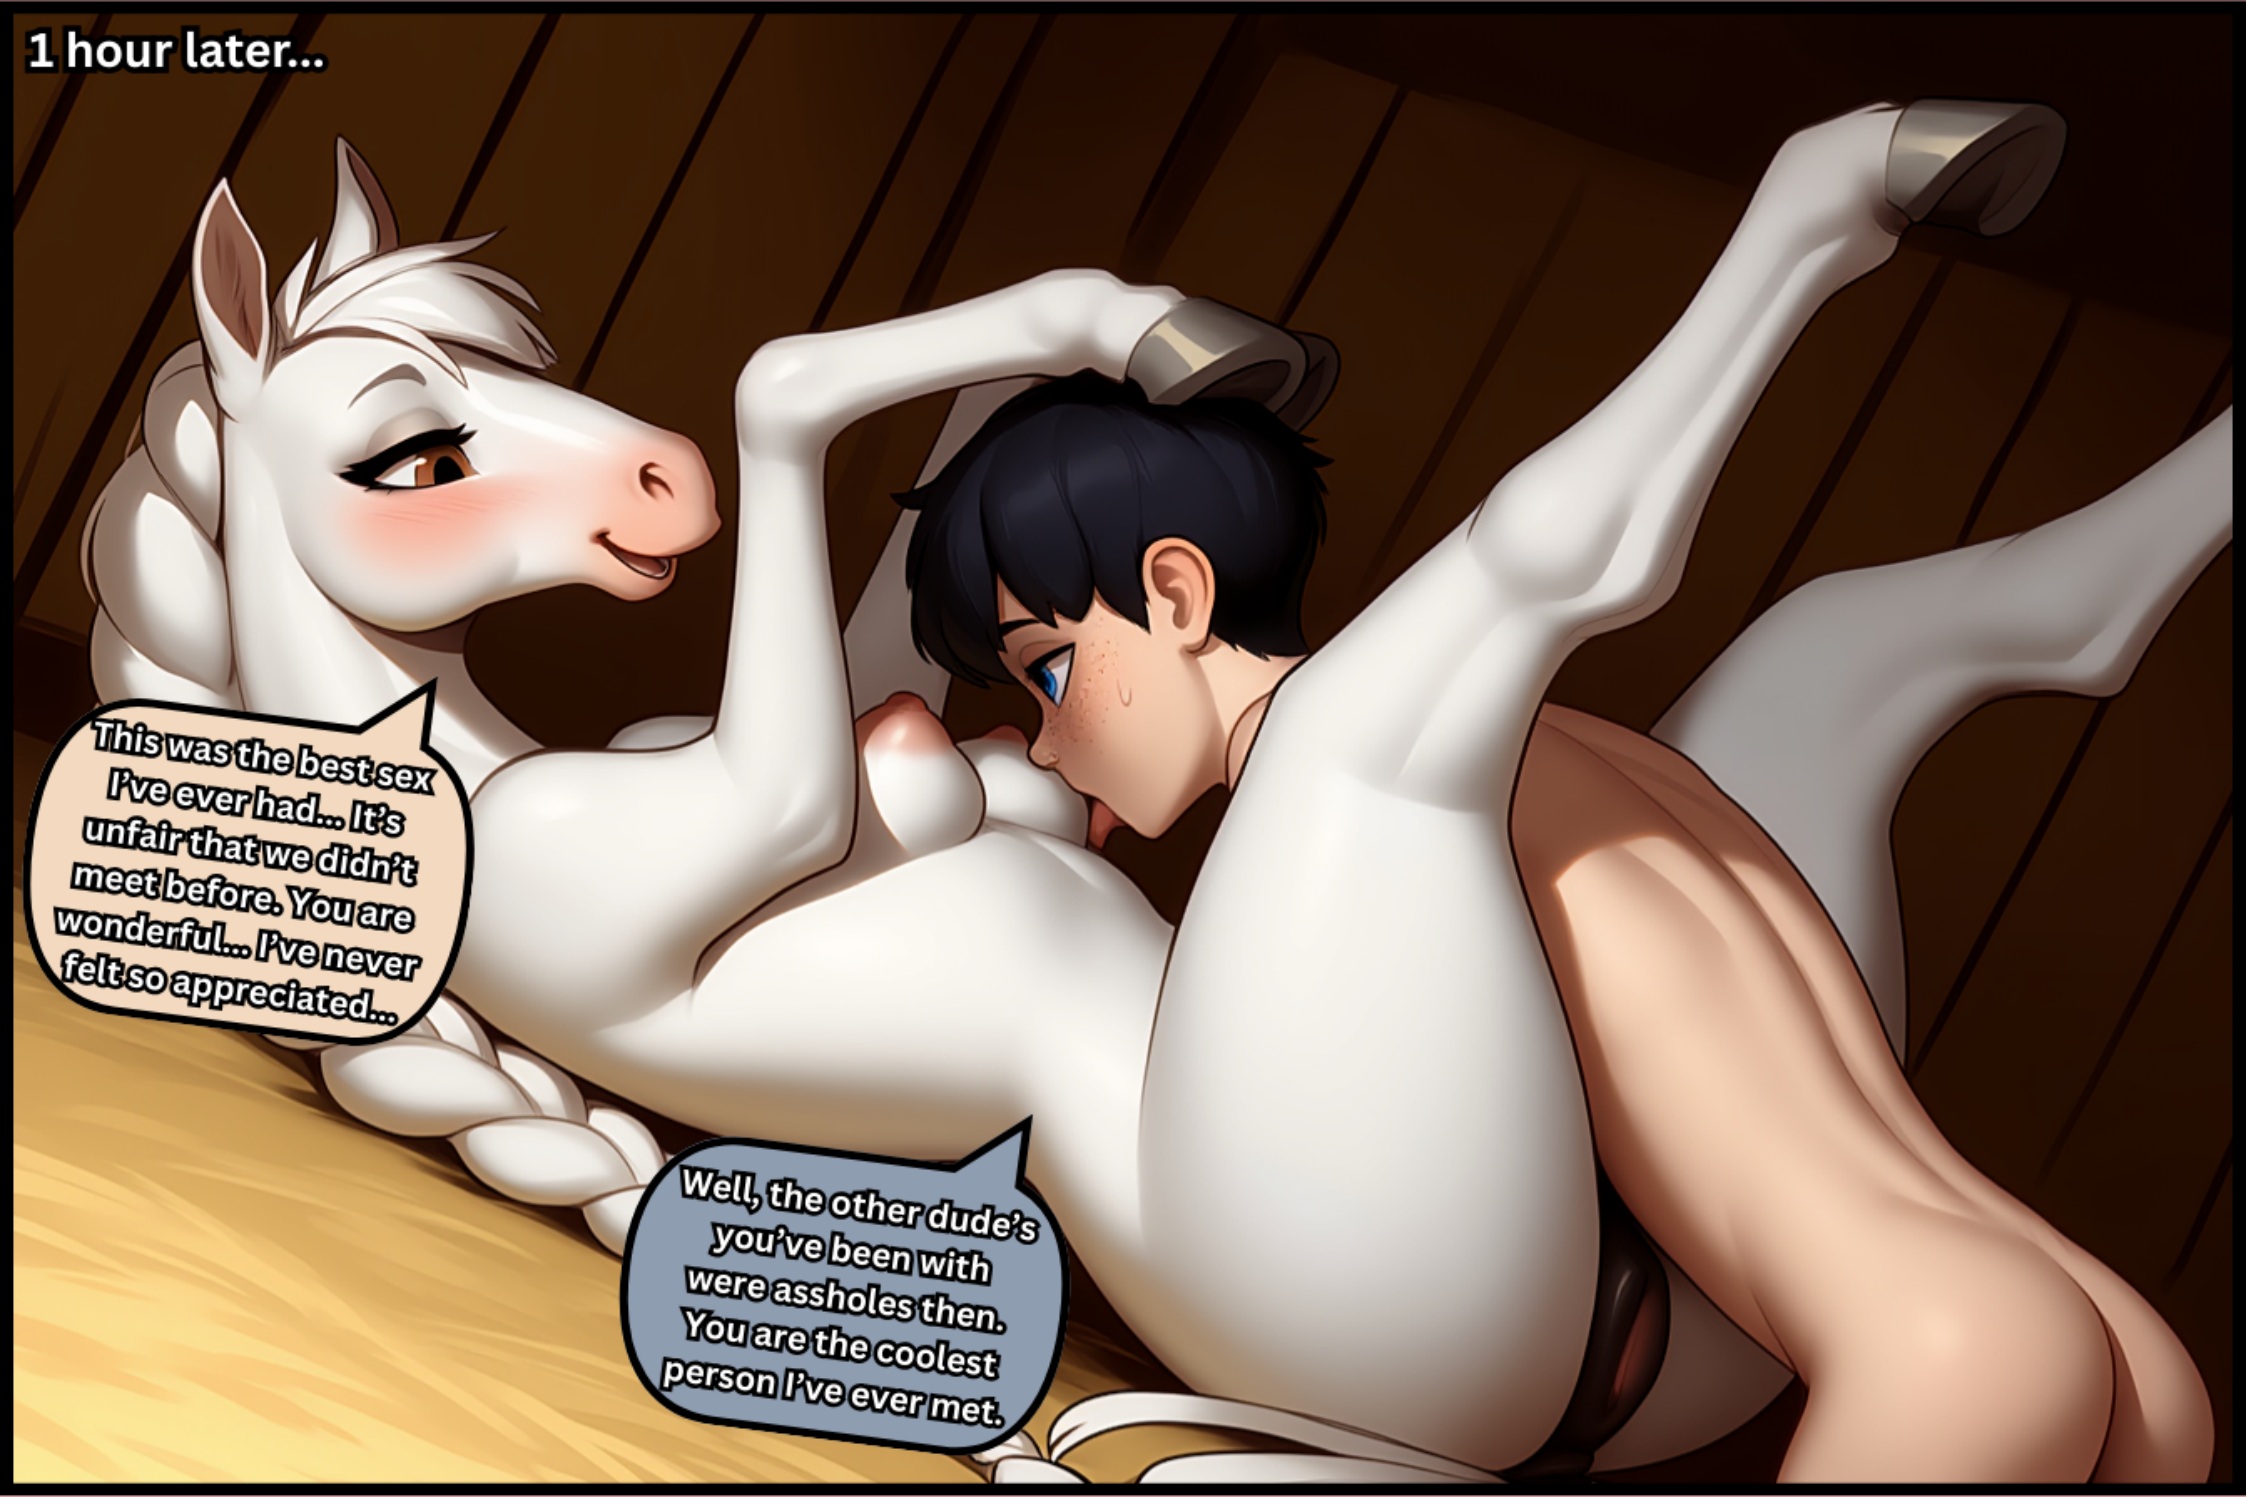

I wish I met you before all of this! **FUCK!** We could've gotten married. The children we could've had...

Let's make the best of this situation! I can introduce you to my parents if you want. I don't care what they think!

1 hour later...

This was the best sex I've ever had... It's unfair that we didn't meet before. You are wonderful... I've never felt so appreciated...

Well, the other dude's you've been with were assholes then. You are the coolest person I've ever met.

I love you...

I love you too!

The next morning...

Hey...

Sorry. I didn't want to wake you up.

You actually meant all of those things you said yesterday, right...? Spending your life with me...?

of course.

...

The worst thing is that I actually believe you... You would actually throw everything away for a dumb girl like me...

I am not throwing anything away. I want to be with you!

Ron... I am a fucking horse now...

So what? Our bodies do not define who we are...

Let's... let's talk about this later... I love you, ok?

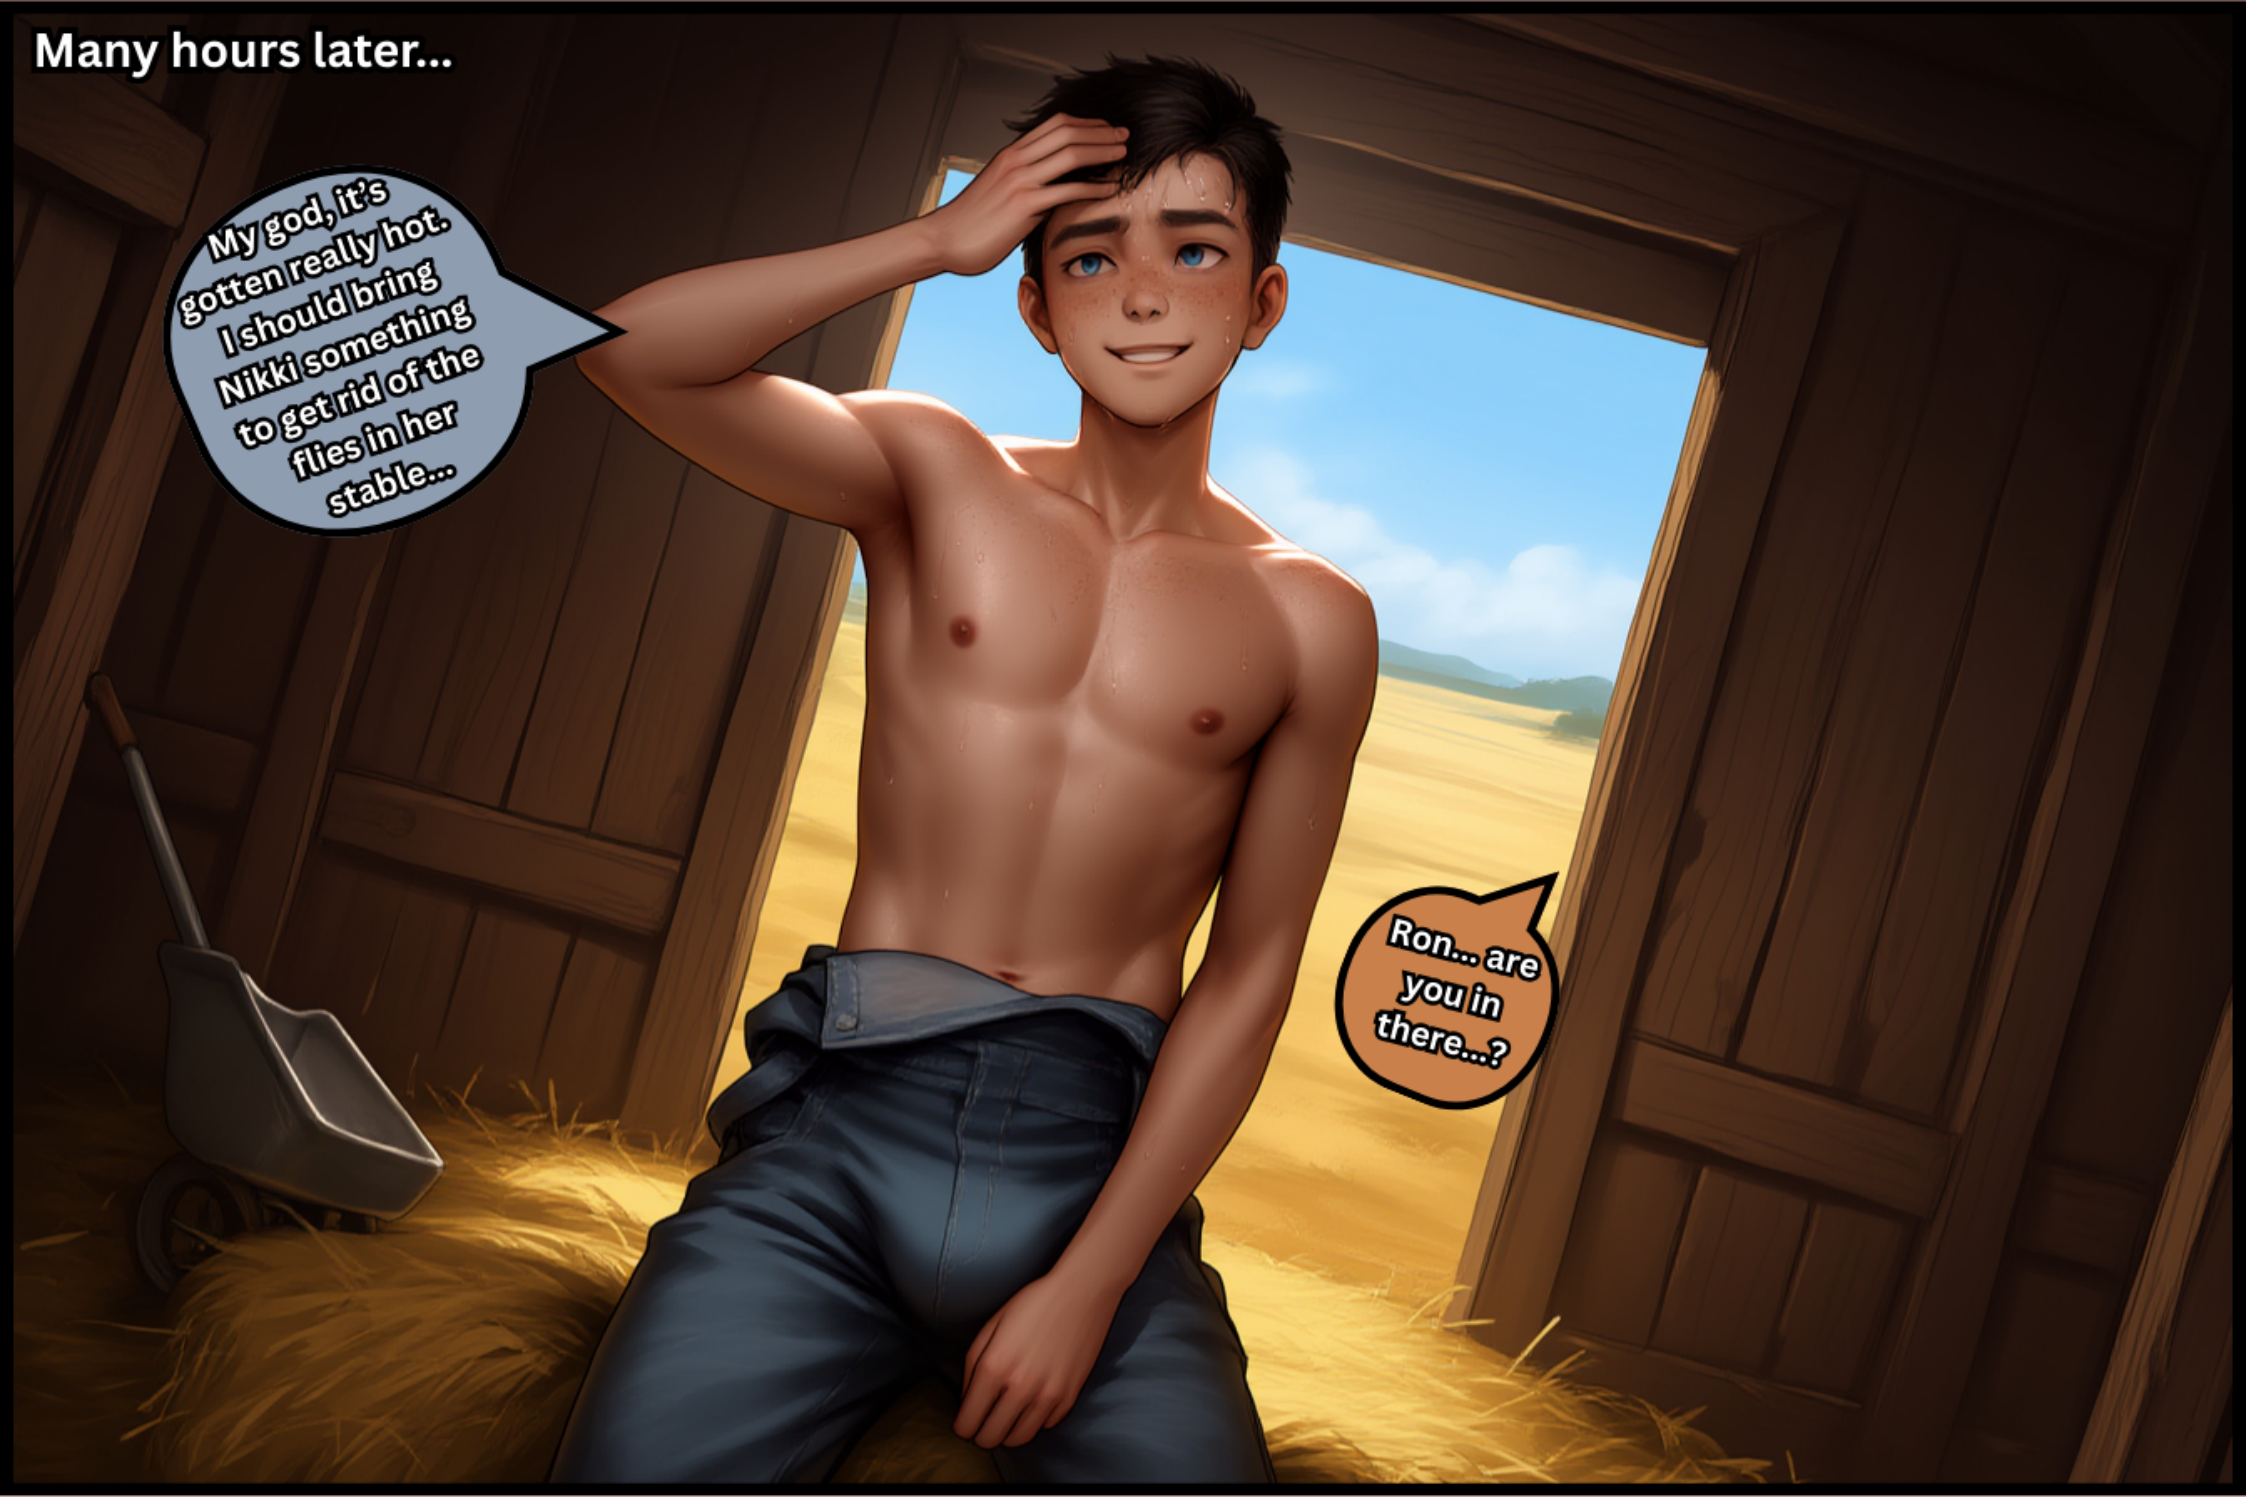

ok... I love you too.

Many hours later...

My god, it's
gotten really hot.
I should bring
Nikki something
to get rid of the
flies in her
stable...

Ron... are
you in
there...?

**A TV? You want
me to watch
something?**

**There's a video...
please, just sit
down and
watch...**

[● REC]

100%

Dear Ron,
when you left
this morning, I
got visited by
the vet and told
him about my
decision. I don't
want you to
throw your life
away, because I
made a
mistake...

WHAT?! What
decision?!
Where is she?

...just... just
watch...

09:00

[● REC]

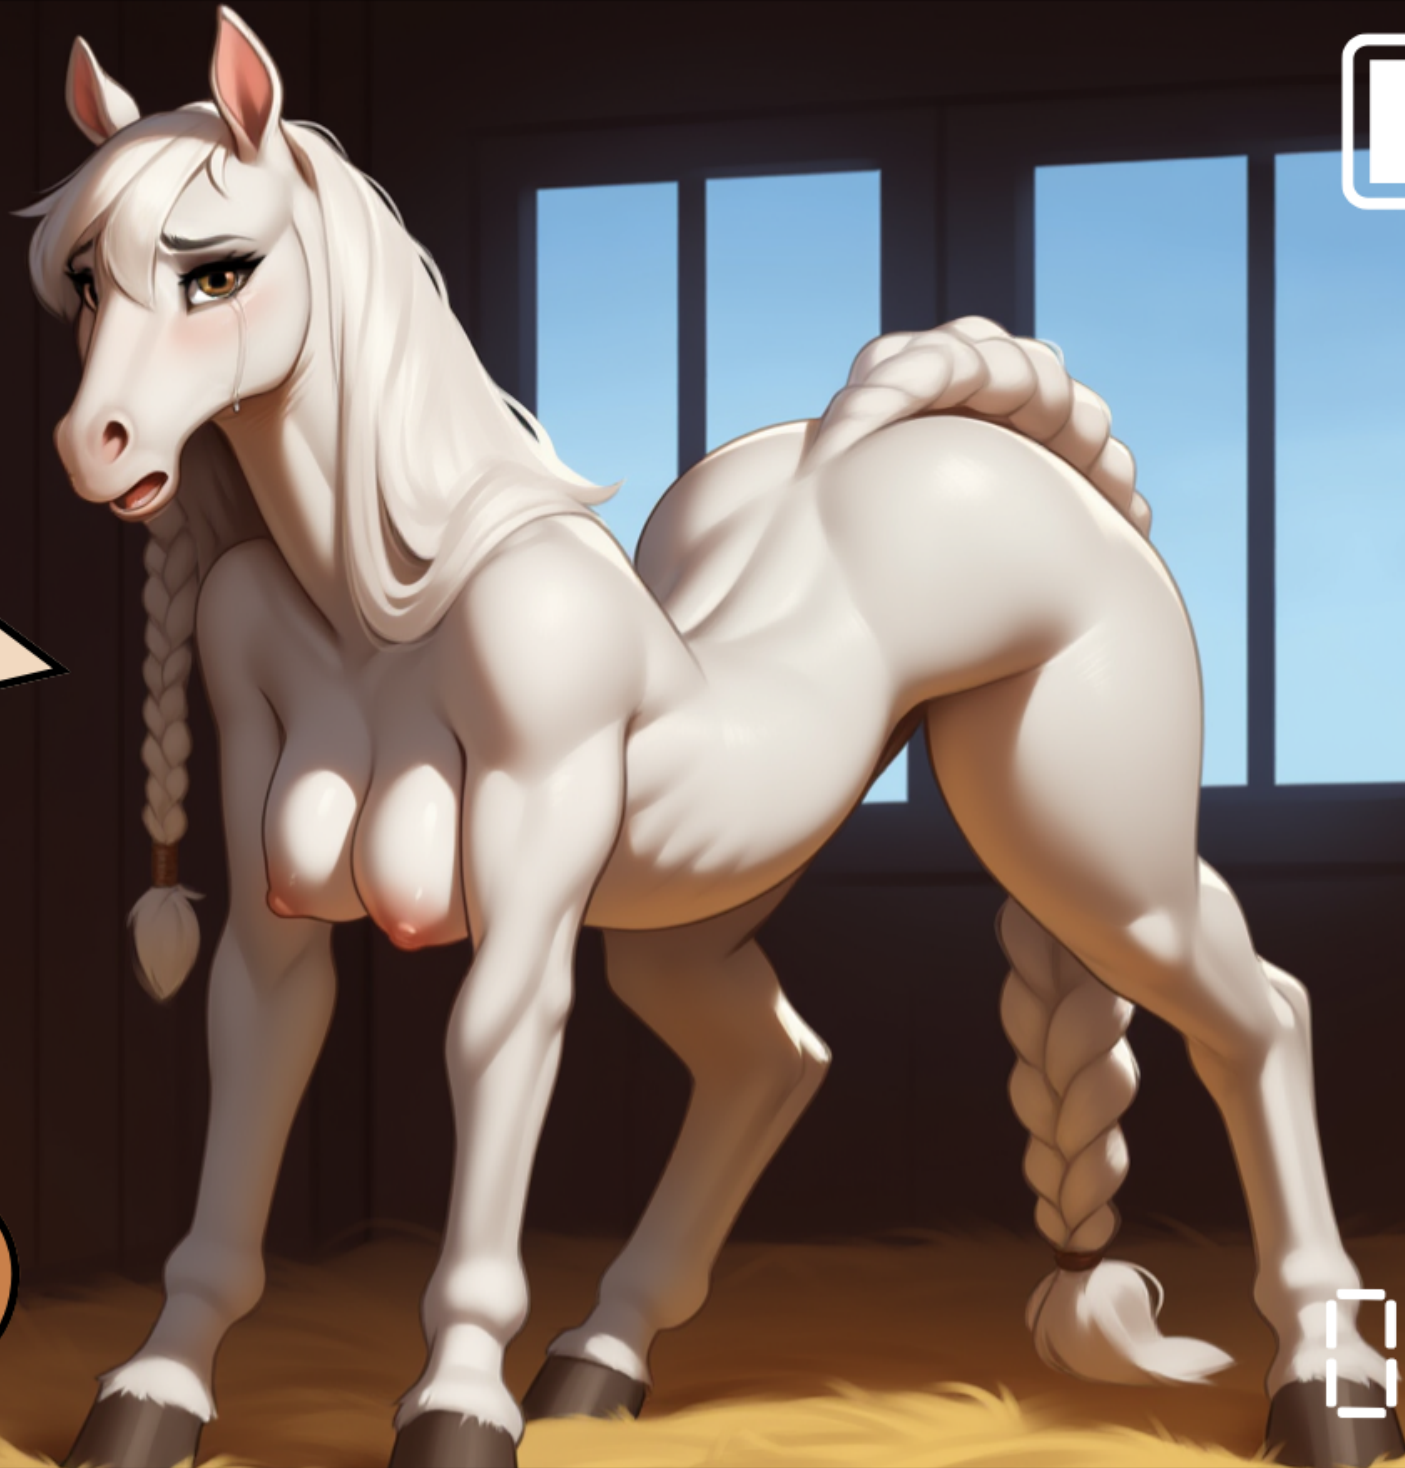

100%

When you watch
this, I will have
already lost my
humanity.
I am so sorry,
but I didn't have
the heart to tell
you in person.
Please, go
somewhere else.
Forget about
me...

...
Where...
Where is she?

You... you
shouldn't go
there...

09:00

NIKKI!

RON?!
WAIT!

neighing

NIKKI!
GET OFF OF
HER YOU
BEAST!

NIKKI!

It's too late...
She's gone boy...
She doesn't even
understand what
you're saying.

Back in the office...

When did it happen? How does it happen? Did you know...?

No I didn't.

They didn't tell me until they had administered the shot. The vet is higher up than me and didn't need to tell me. She didn't suffer. It probably felt pretty good for her actually. You get increasingly dumber until you forget who you were.

Is it... reversible?

Not as far as I know. They probably wouldn't tell me if it was.

Meanwhile in the barn...

neighing

We have to face it, Ron... She is an animal now. A broodmare. There's nothing we can do...

Days later...

Nothing... not the slightest hint of her old self... Why Nikki...?

Two weeks later...

I need to get up. There's a new girl coming today... At least Gilly can take care of... the mare...

The veterenarian's office...

Look... I killed them. By accident or not, I can't live with that... Please do it.

Alright then.

Is.. is it going to hurt? Any... side effects?

The formula is pretty much perfected. Headaches aren't uncommon.

Minutes later...

Can I help you
with anything
Ronald...?

No Dr. Shawn... I
was just passing
by...

So... that's where
he keeps the
serum....

That night...

**I got it...
A stallion
serum...**

**If we can't be
together as
humans Nikki, we
can be together
as horses...**

Look I am sorry Gilly, but... I was desperate...

After everything... Have you even thought this through? What about your family?

Well... it's too late now anyways.

I checked it three times guys. Are you sure the vial said stallion? Because there only seems to be missing a mare vial.

don't trust a label in an unlocked safe, hehe...

Wait... that's impossible! The vial clearly said stallion!

Well boy... I guess we will see soon enough.

Weeks later...

I still have my penis Gilly. Who knows, maybe I didn't make a mistake.

You have boobs, Ron...

Even more weeks later...

How are you?

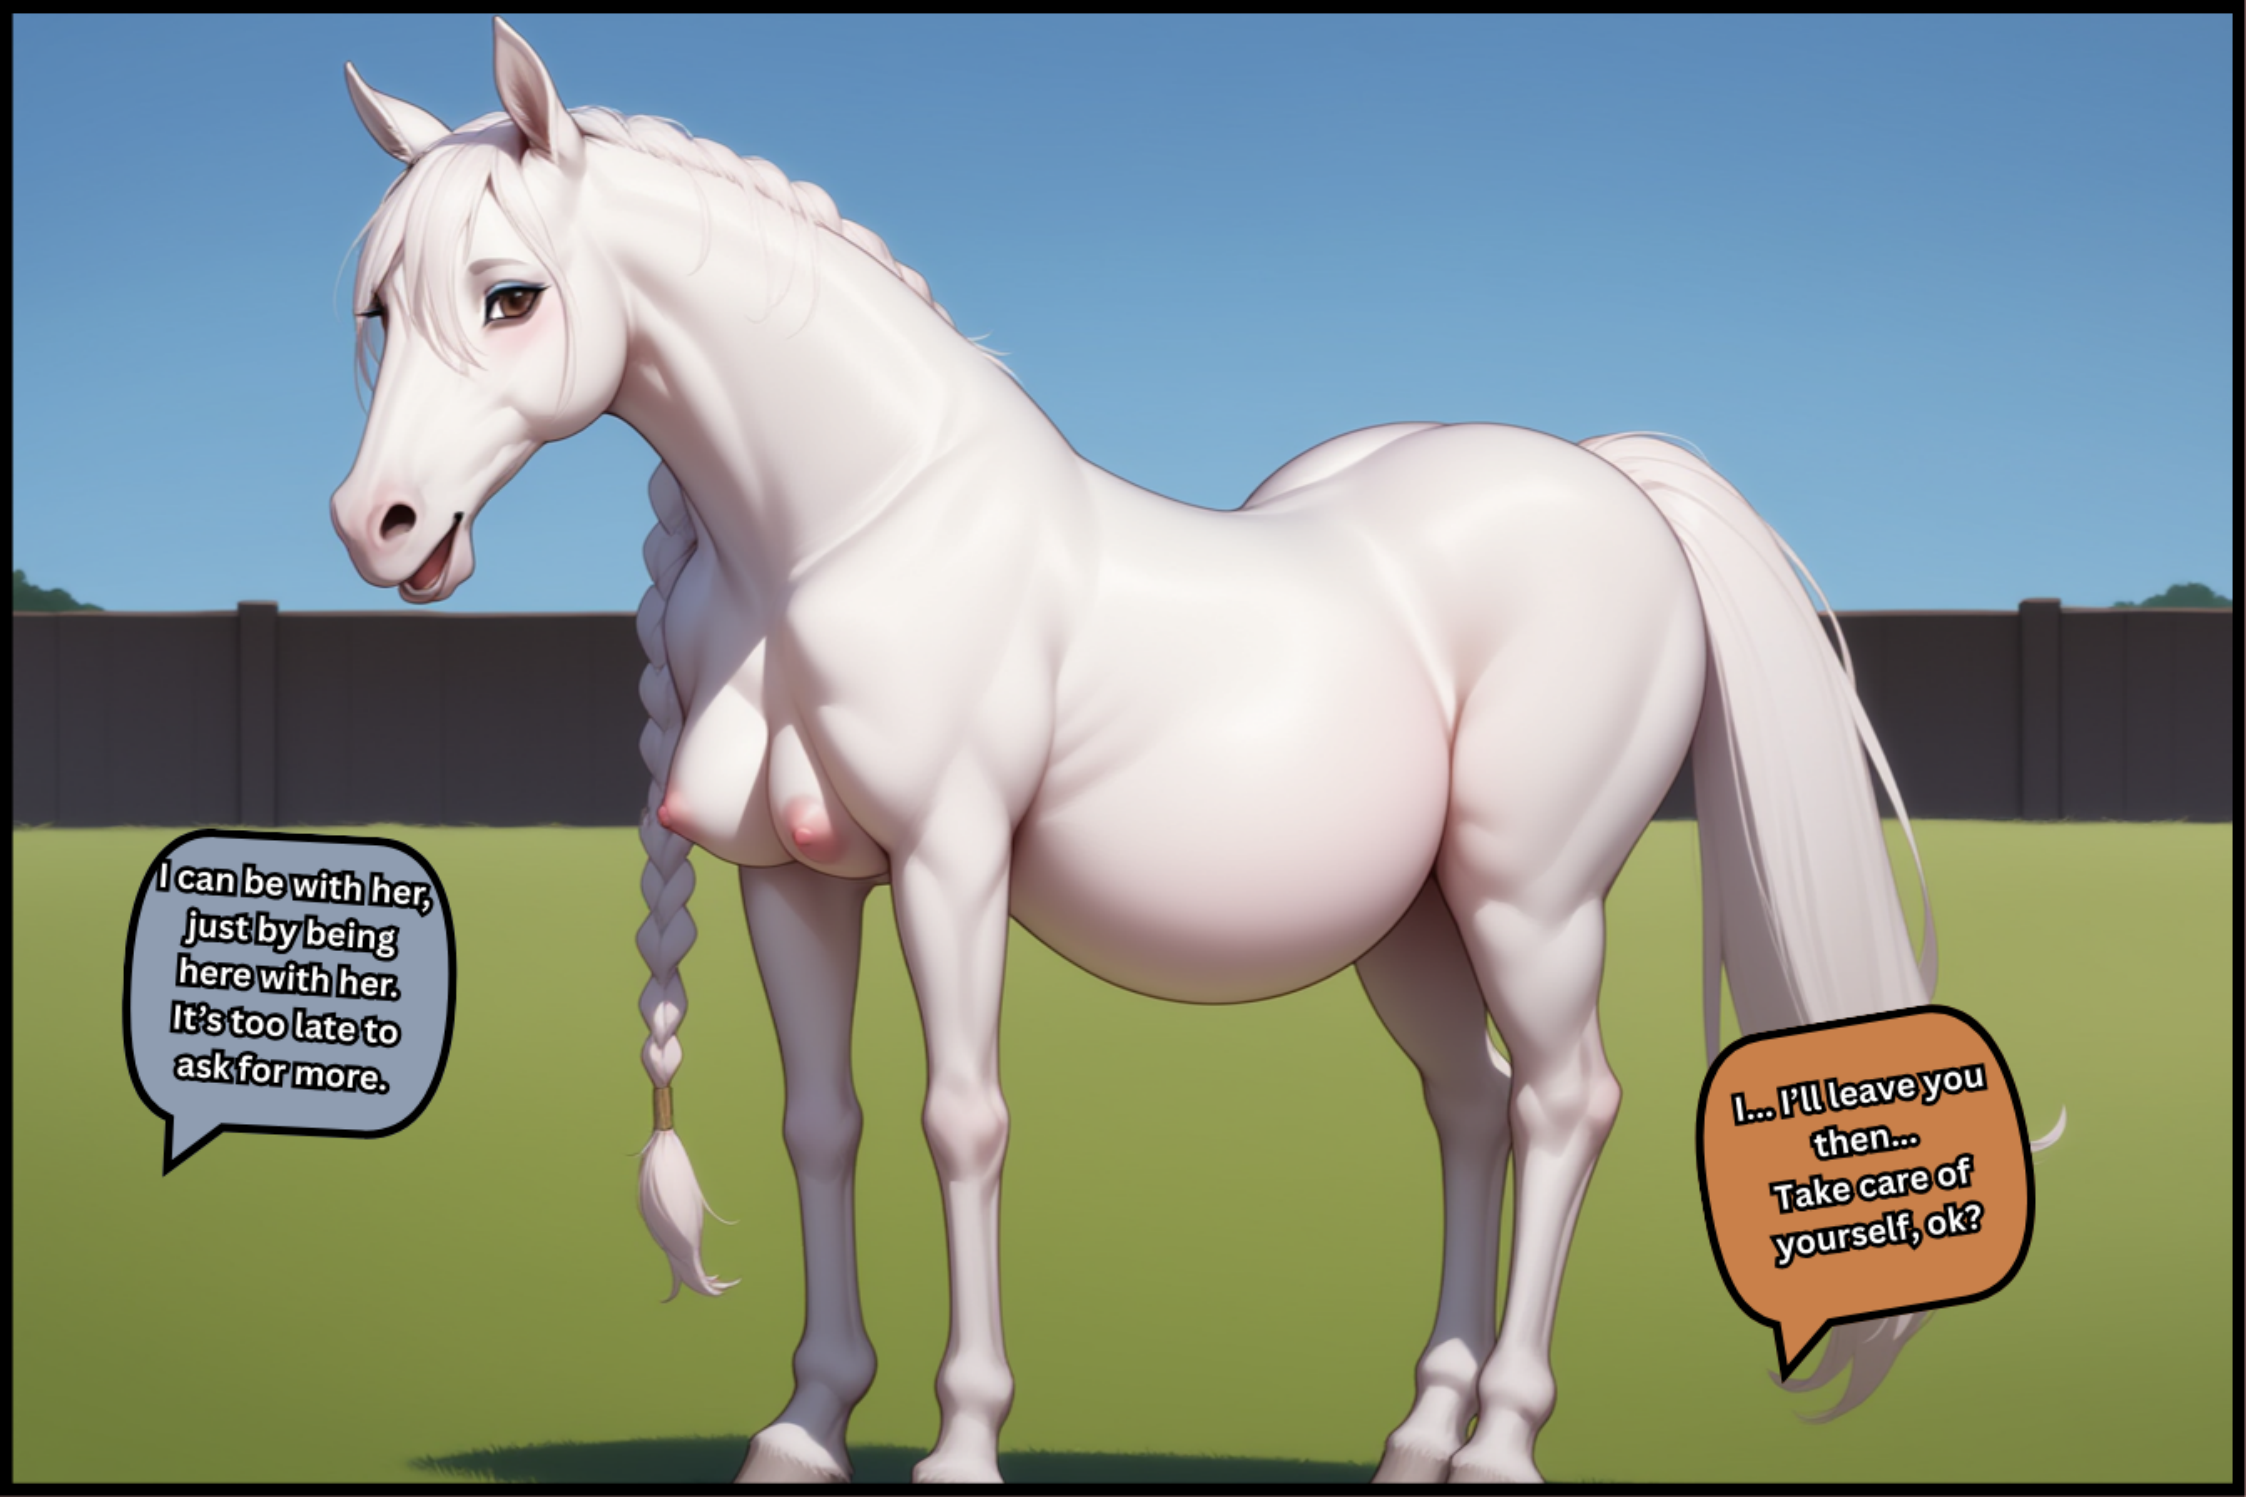

The worst thing is how horny I am... The stallions... they... smell.

Months later...

Ron... if you stay out her with the others...

I know... It's going to happen eventually anyway, right?

I can be with her,
just by being
here with her.
It's too late to
ask for more.

I... I'll leave you
then...
Take care of
yourself, ok?

He noticed me...
Come closer
boy...
I can be your
first and you can
be mine...

**OH Fuck...
For someone who
transformed at the
same time as me,
you seem to know
exactly what you're
doing...**

Holy shit... you're pushing deeper...

Didn't your transformation just end?
FUUUUCK! You're a natural!

OH GOD!
This is better than I
imagined...
FUUUUCK!

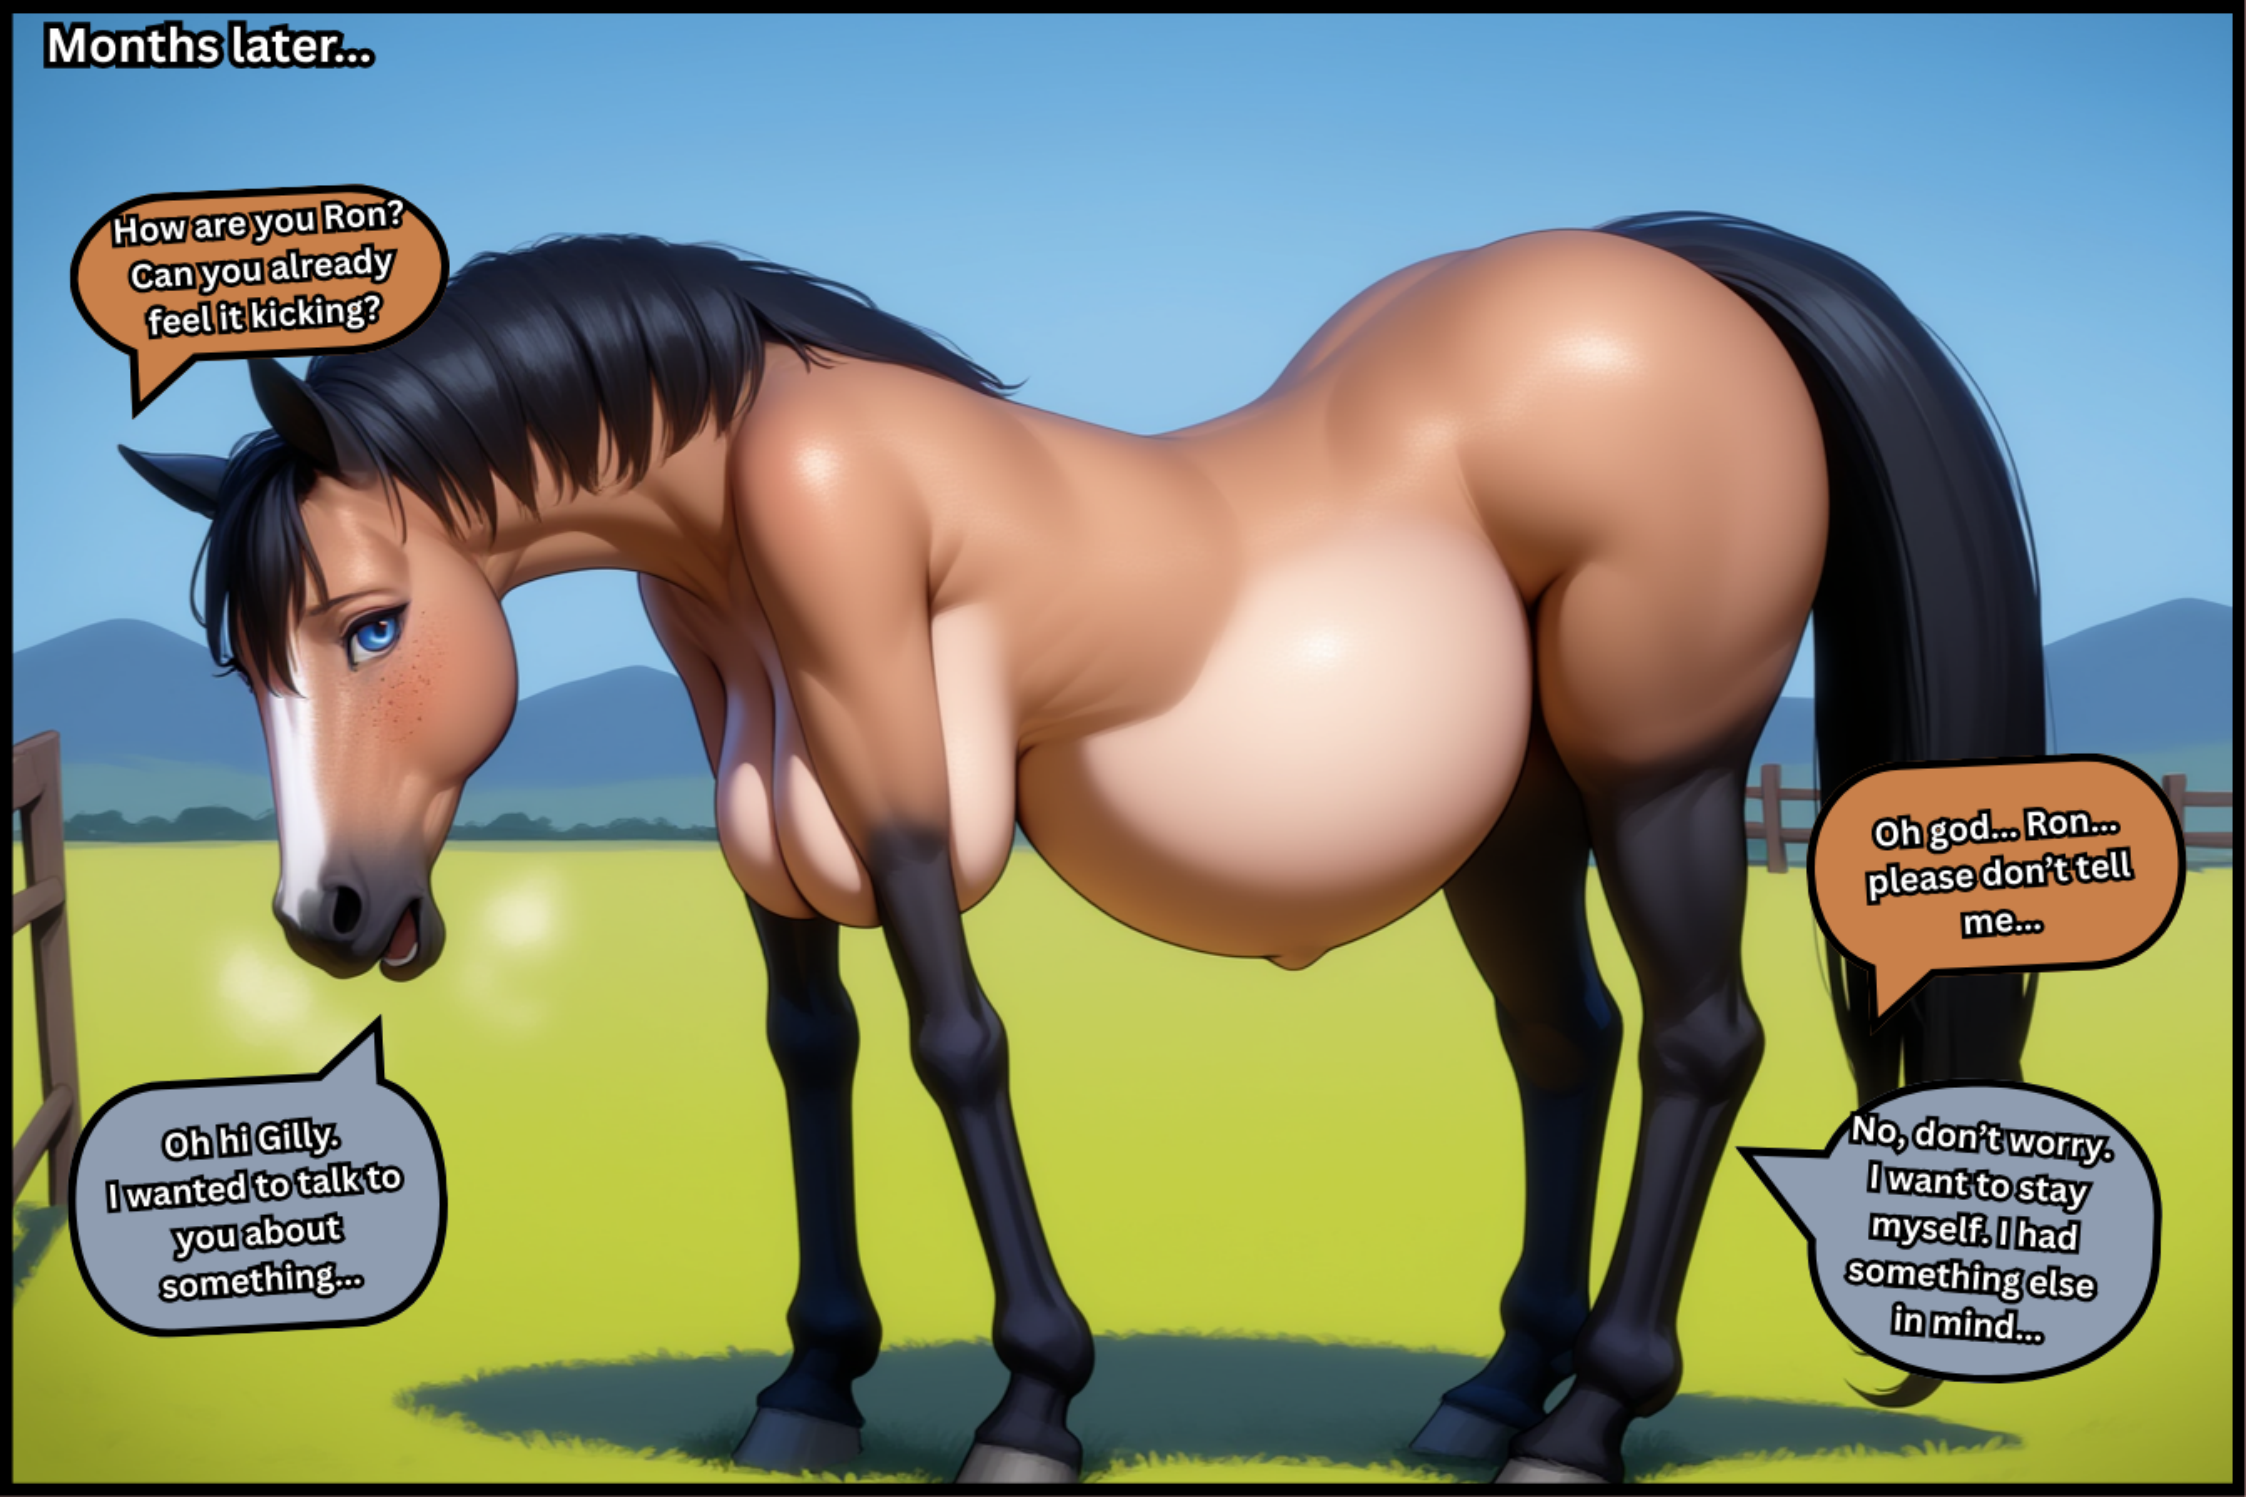

Months later...

How are you Ron?
Can you already
feel it kicking?

Oh hi Gilly.
I wanted to talk to
you about
something...

Oh god... Ron...
please don't tell
me...

No, don't worry.
I want to stay
myself. I had
something else
in mind...

years later...

Gilly... I've
made up
my mind
already!

Of course you have.
I just want you to
talk to someone who
chose differently.
Hey Ron! I brought
her over!

Oh great!

I'll leave the rest to you!
Have fun you two.

I am sure Gilly has told you about me already, but I still want to try to convince you to stay yourself.

Can't hurt, I guess...

It had taken some time for me to get used to this new life, but eventually I started to like it. Over the years, I was able to convince 1 out 3 newcomers to keep their human selves. This wasn't the life with Nikki that I had pictured, when I had injected myself with the serum, but I was able to look after her at least. She was happy.

THE END

And even though Nikki and I were not able to be together, I was a little consolidated by the fact, that our first children were getting along. My mother had trouble understanding what happened, but nowadays she visits me regularly.
