

People gasped at the sight walking down the street before them. Some were in shock while others, a few and all women, were with envy at the sight of a man, walking ahead of a group of women. Of course it wasn't a normal walk either which is why many people were shocked by sight before them. The man was a short fellow of only 5'6 ft in height, of average looking. He was dressed in a plain shirt with blue jeans and walked with a bit of a swagger and his hair was cut short and his beard was well trimmed and cared for. Not the thing many people were worried about, rather it was the women and their state of dress or lack off that shocked many of them. There were five women walking behind him or would have been in they could see where there going and if they weren't being led by leashes. It was the leashes that made some squeamish and made some women aroused because of

where they were connected to.

The first woman had a lithe body with tan skin, slender arms and legs with long black hair that was done up into a high pony tail that cascaded down her back. A leather blindfold covered her eyes, plunging her into darkness and forcing her to rely upon the man leading her. Her red lips were wrapped around a large black ballgag that stretched her jaw wide open, leaving her to drool all over her chin and chest as she walked. Her moans of pleasure were muffled by the gag but some people could hear it. Around her neck was a posture collar that forced her to look straight ahead as it pushed down upon her shoulders. Attached to the collar was a name tag bearing one letter: "M". She wore a black and shiny latex outfit that left her nipples, crotch and ass exposed, bearing all. Adorning her feet her 8-inch heels that raised her firm ass up and

accentuated the muscles in her legs. Affixed to her left thigh was a leather belt that held in place the two remotes with the first one connected to the vibrating dildo lodged inside her pussy, buzzing away on a medium setting. The other remote controlled the vibrating egg that was taped over her clitoris, sending waves of pleasure coursing through her being. The final touch was the string of 8inch anal beads filling her ass that sent waves pleasure to mix through out her body.

The next woman was a tall blonde woman with pale skin and an athletic build with wide hips and long slender legs. Unlike the first woman, her entire head was encased in a leather bondage hood that left her blind to the world and the hood accentuated the large ballgag filling her mouth and leaving her moans muffled. Her long blonde hair was done up into

pigtails that were threaded through a hole on either side of the hood. Encircling her throat was a posture collar with a name tag affixed to that bore a single letter: "L". Her arms were bound behind her back in a blue leather armbinder with its straps running over her shoulders and under her arms to keep in place which in turn accentuated her breasts. The leather armbinder was held in place against her back by a series of leather belts wrapped over her stomach, above and below her breasts. The woman's hands were trapped within the armbinder, palm to palm in a snug fit, preventing her from using her fingers in any manner. Unlike the first woman, she was naked all the way save for the thigh high, 9 inch heeled boots that raised her firm ass upward. A leather belt was wrapped each on her left thigh and right thigh which in turn held in place a series of wired remotes that connected to vibrating bullets. Two of the vibrating

bullets were taped in place next to her clitoris, buzzing away on their highest setting. Another two bullets were lodged deep in her pussy, brushing up against her inner walls of flesh.

The third woman had luscious ebony skin with long black hair that cascaded down her back like a waterfall. She wore a leather blindfold over her eyes while her mouth was kept open by a ring gag, allowing her saliva to pour down her chin and onto her chest. Like the others, she too wore a posture collar with a name tag that bore a single letter upon it: "D". Around her body she wore a leather harness that highlighted her curves, particularly her large breasts, hips and ass. The series of leather straps crisscrossed her body, leaving nothing to the imagination as it did nothing to hide any part of her body. Adorning her feet were black stilettos with

9-inch heels upon them while her ankles were cuffed with a length of chain between them controlled how far she could step. As for her arms, they were bound behind her back in a box tie armbinder that kept them pinned in place and preventing her from lifting her arms up at all. Her hands were encased in bondage mitts that forced them into fists and ensuring she could not use her hands. She wore a black lace thong that held in place a large vibrating and ribbed dildo that was currently vibrating on its highest setting, filling her much pleasure and arousal that could be hear by all as her moans echoed through the air. Her skin was covered in goosebumps as she knew people could hear her moans and see how her body was reacting to the pleasure.

The fourth woman was a slightly shorter woman with mid length black hair that

ended below her shoulders. Her entire head was encased in a red leather bondage hood that bore no eye or mouth openings, save for two holes over the nose area. Said hood hid the fact that she was gagged with a thick and long dildo gag that pushed down against her throat and forced her to control her gag reflex as she walked. Around her throat was a red posture collar with its name tag that bore the letter: "S". Further down, soft rope was wrapped around the base of each breast, leaving them swollen and accentuated ever further. She was dressed in a red latex outfit that left her breasts, pussy and ass exposed for all to see. Thigh high red leather, ballet boots with 8 inch heels adorned her legs and feet, giving her some more height and caused her hips to sway more. Large vibrating and ribbed dildos were plunged into her pussy and ass, held in place by a leather chastity belt that prevented her from reaching at them. As

for her arms, they were bound behind her back in a reverse prayer that saw her wrists cuffed to the back of the posture collar, causing her large breasts to stick out even more. A mono glove kept her hands bound in place, palm to palm behind her back.

The fifth and final woman was a short woman whose face was hidden behind a black latex bondage hood that bore holes for her to see out of and for her mouth. Though her mouth was currently hidden by a panel gag that went over her mouth, holding in place the pump gag that currently filled her mouth, leaving her cheeks puffed up to a degree. Like the others, a posture collar encircled her throat with a name tag bearing a single letter: "J". Further down, the rest of her body was encased in a black shear, latex outfit with openings for her breasts and ass. Said

openings squeezed the base of each breast and ass cheek, accentuating them to a degree that left many people drooling over her assets. Her arms were frog-tied with latex sheaths that prevented her from unfolding them and her latex gloved hands were cuffed to her posture collar. Down below, the latex suit held in place a large vibrating dildo lodged into her pussy, driving her crazy as it set on its highest setting, sending strong waves of pleasure coursing through her body. For her ass, a vibrating anal plug was snugly resting in place that sent more waves of pleasure coursing through her body. Adorning her legs were a set of black, leather high-heeled boots that made her hips sway with each step she took despite the short length of chain cuffed above her knees that controlled how big of a step she could take.

All five women were moaning in pleasure and arousal as they were walked by their Master who took great joy in tugging on their leashes. Said leashes were not clipped to their collars, no. Each leash ended in a Y-shape with the ends consisting of nipple clamps that were currently attached to the nipples of each woman. From their, the leashes were threaded up through the small ring attached to the front of the posture collars. A single tug from the leashes pulled up on their nipples and their breasts, eliciting muffled moans of pleasure and pain as they followed after him. Said clamps were alligator style clamps that bit into their erect nipples, filling some with pleasure and others with pain that turned into pleasure. The man bore a confident smile as he walked down the street with his Kittens in tow, enjoying the sound of their muffled moans and the sound of the

people's reactions to seeing this. He led his Kittens past a pair of female cops who looked in shock but he noted how flushed their cheeks were at the sight of his women.

"Want to join in, Officers?" he asked them with a wink, causing their cheeks to go crimson. "I'm sure we can find a use for your cuffs."

Both women fumbled over their words as their minds drew blanks on how to respond to the man who was walking his Kittens.
