

There you are, Leona. It's getting late let's head back.

Oh, sorry... I just got caught up in the view.

Mhm, it really is something.

Before we head back... we need to go see the doctor...

Huh? Did she mention something to you?

Later...

I've successfully reverse engineered the medicine. I'm fairly confident it will restore your size to some degree, Leona... though I'm uncertain about the extent of the side effects.

Ah, the same applies to your request as well, Mei.

Make your choice.

Mhm... What side effects...

I'll do it.

*M-Mei you cant!  
W-Why are you doing this!  
I-I dont want you  
to get hurt because  
of me!*

*You are  
mistaken,  
Leona.*

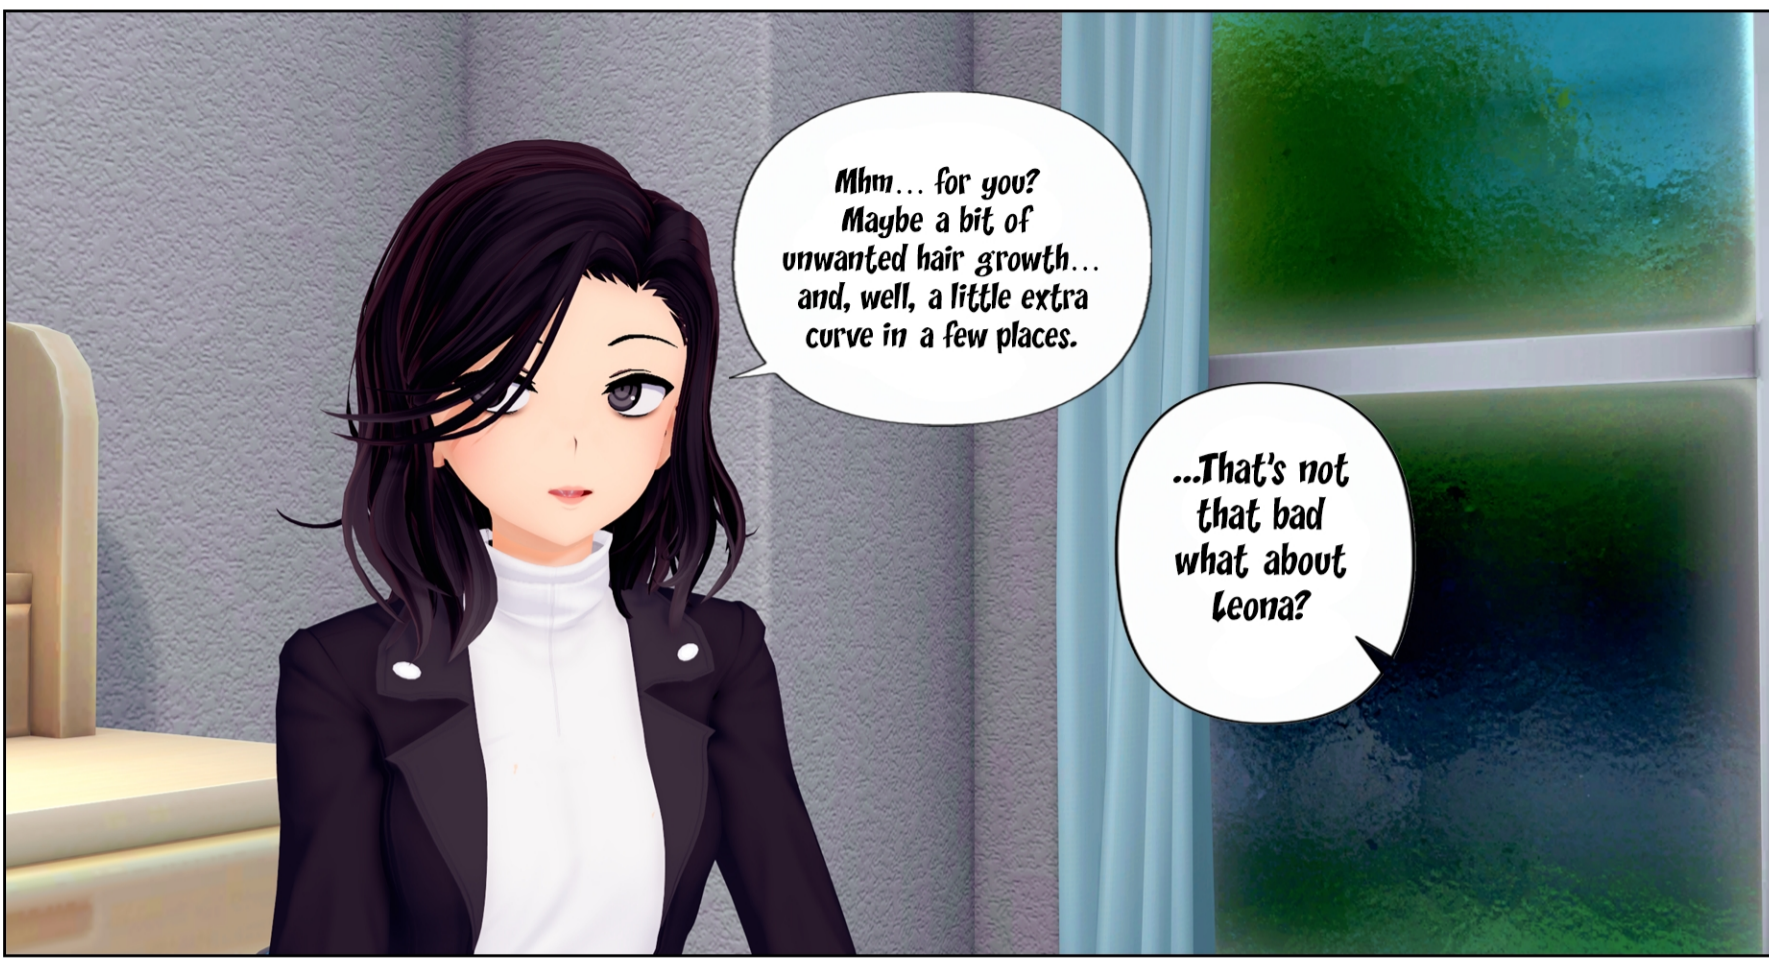

*Though it  
would've made  
me look pretty  
heroic if I'd taken  
it for you, huh?  
But... I'm taking  
it for selfish  
reasons. You  
understand?*

*M-Mei wants to  
take the medicine  
as well..?  
Why would she?*

*I'm taking it.  
Now, what are  
the side effects?  
You must have at  
least a rough idea.*

*Mhm... for you?  
Maybe a bit of  
unwanted hair growth...  
and, well, a little extra  
curve in a few places.*

*...That's not  
that bad  
what about  
leona?*

*leona, one of  
the side effects  
you might face  
is complete  
impotency.*

*You will regain some  
of what you lost, but it  
comes with significant  
sacrifices in other areas.  
Do you understand?*

*I-I, uh...*

*I'm not  
sure...*

*W-Would that be  
worth it... I-I dont  
know...*

*...To lose the ability to start a family for some growth... It's hardly worth it...*

*However... isn't there a simple solution? If she loses the ability, can't we just secure a backup?*

*Oh... I suppose you're right that could... Would be a good option.*

I will go prepare for the samples.

A moment later...

A cup...?

I dont understand...

Should you lose the ability to create sperm, we'll have to collect some now to use later. You understand, right?

Um...

...It's up to you  
Leona. If you  
really want  
your thing  
to get bigger...

This is the  
only way.  
At least with  
this you won't  
have to worry  
about being  
impotent.

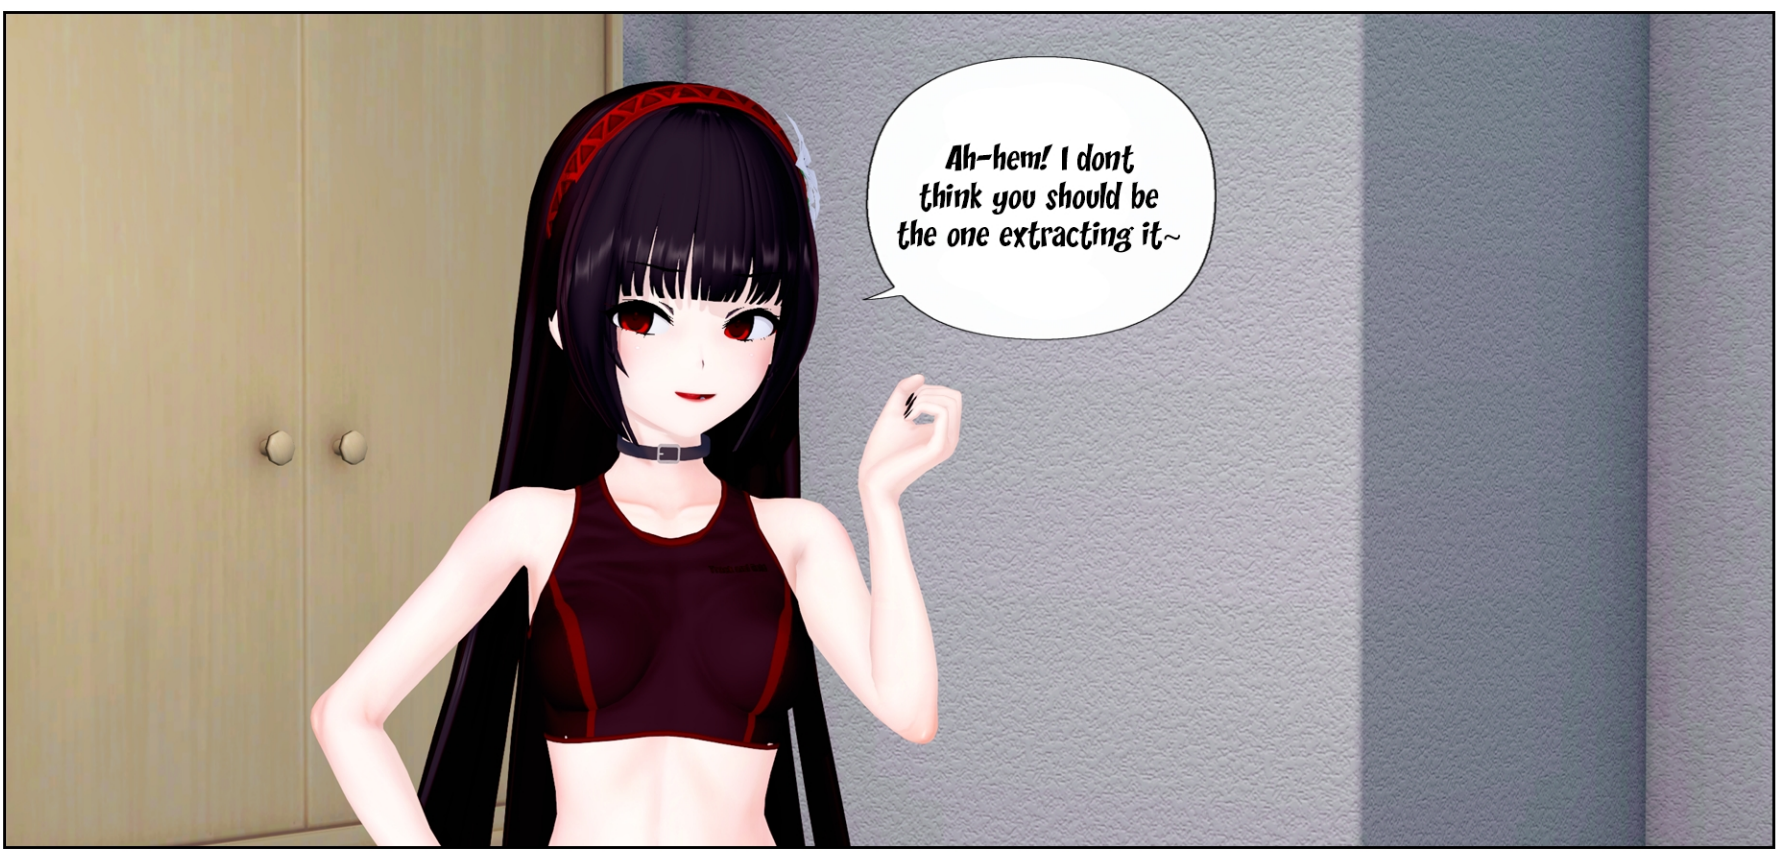

I guess she's right...  
I-It's not like  
the side effect will  
happen...

A-Alright...  
I accept.  
G-Give me  
the cup.

Though, I will miss her  
cute little toy... I'm glad  
she's getting what she wants  
for once...

Ah-hem! I don't  
think you should be  
the one extracting it~

In fact I have  
the perfect idea  
how to~

T-The cups in position... Um, Mei why are we... Uh, sitting like this?

So I can give you a nice little massage~

Grope!

Grope!

Mmm...

Ahh...

W-Why Ah...  
cant we  
just Uhn...  
T-Tou-Ngh...  
I-It...?

Where would the  
fun be in that...?  
Also I cant get any  
of my DNA close.  
We dont want to  
damage your  
sperm.

...And I'm rather  
jealous of Riku.  
I intend to have  
my way with your  
body soon  
enough...
