

They've been damaged...?
H-How?

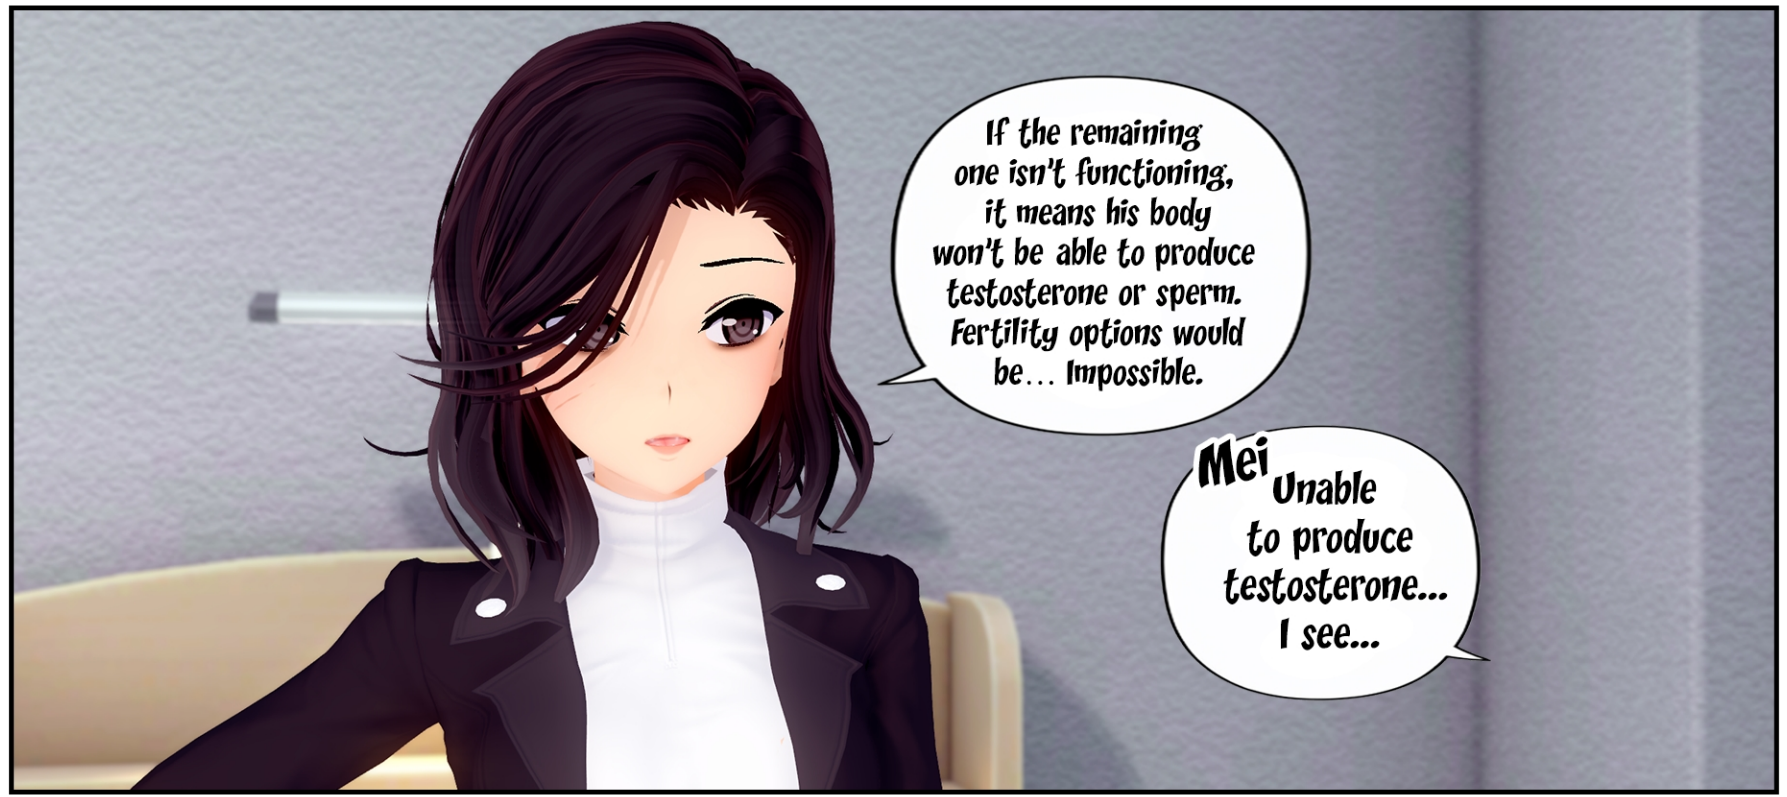

The stuff
you've been taking to
feminize your body... it's
been slowly deteriorating
your male reproductive
system over time.

From what I can tell,
one of his testicles is
beyond repair. and the
other well, the bloodwork
will confirm if it's
still functioning.

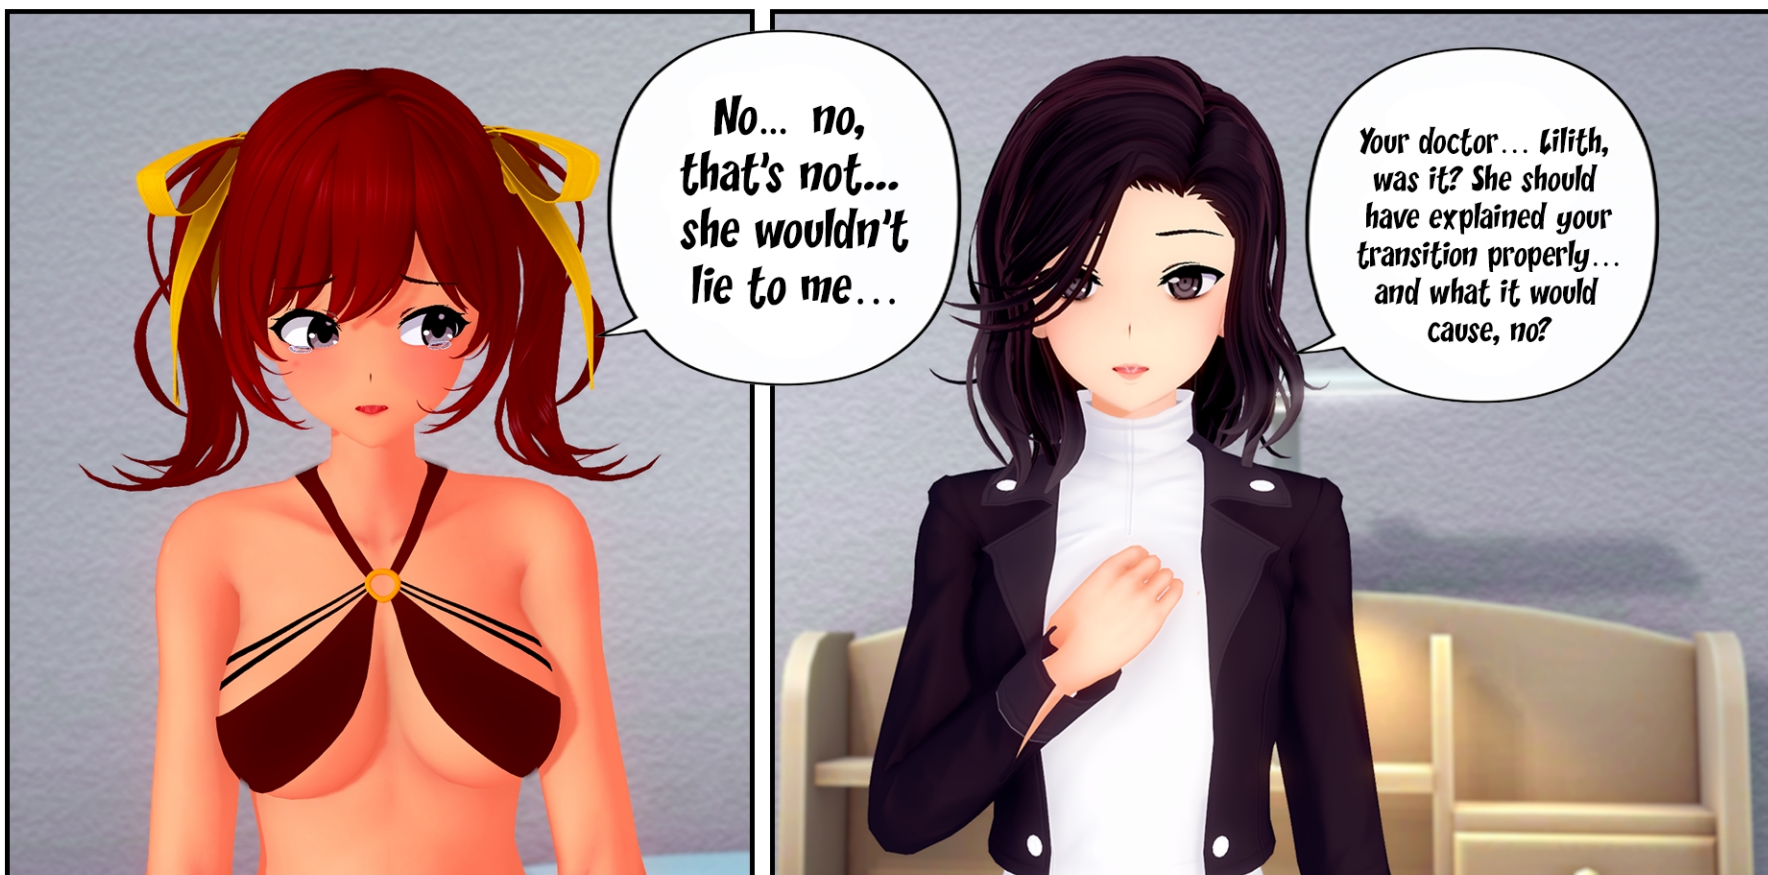

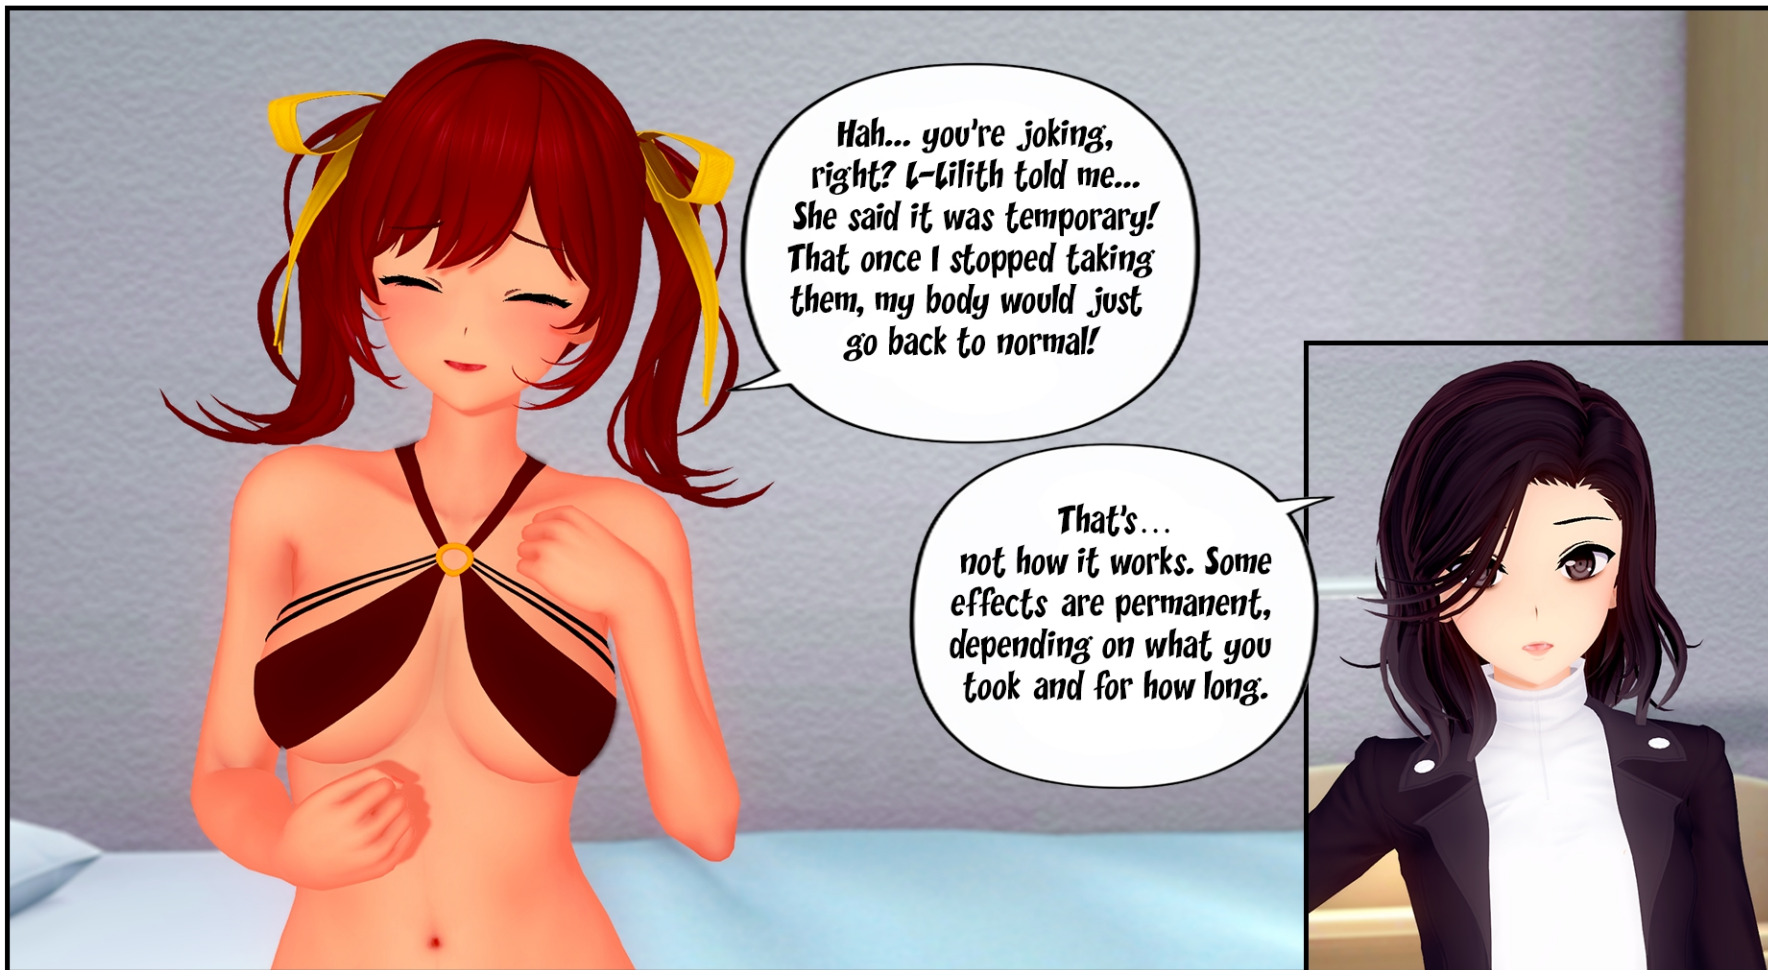

Mei
Just
that...?

Mei
If the other
one isn't working
either... what
happens then?

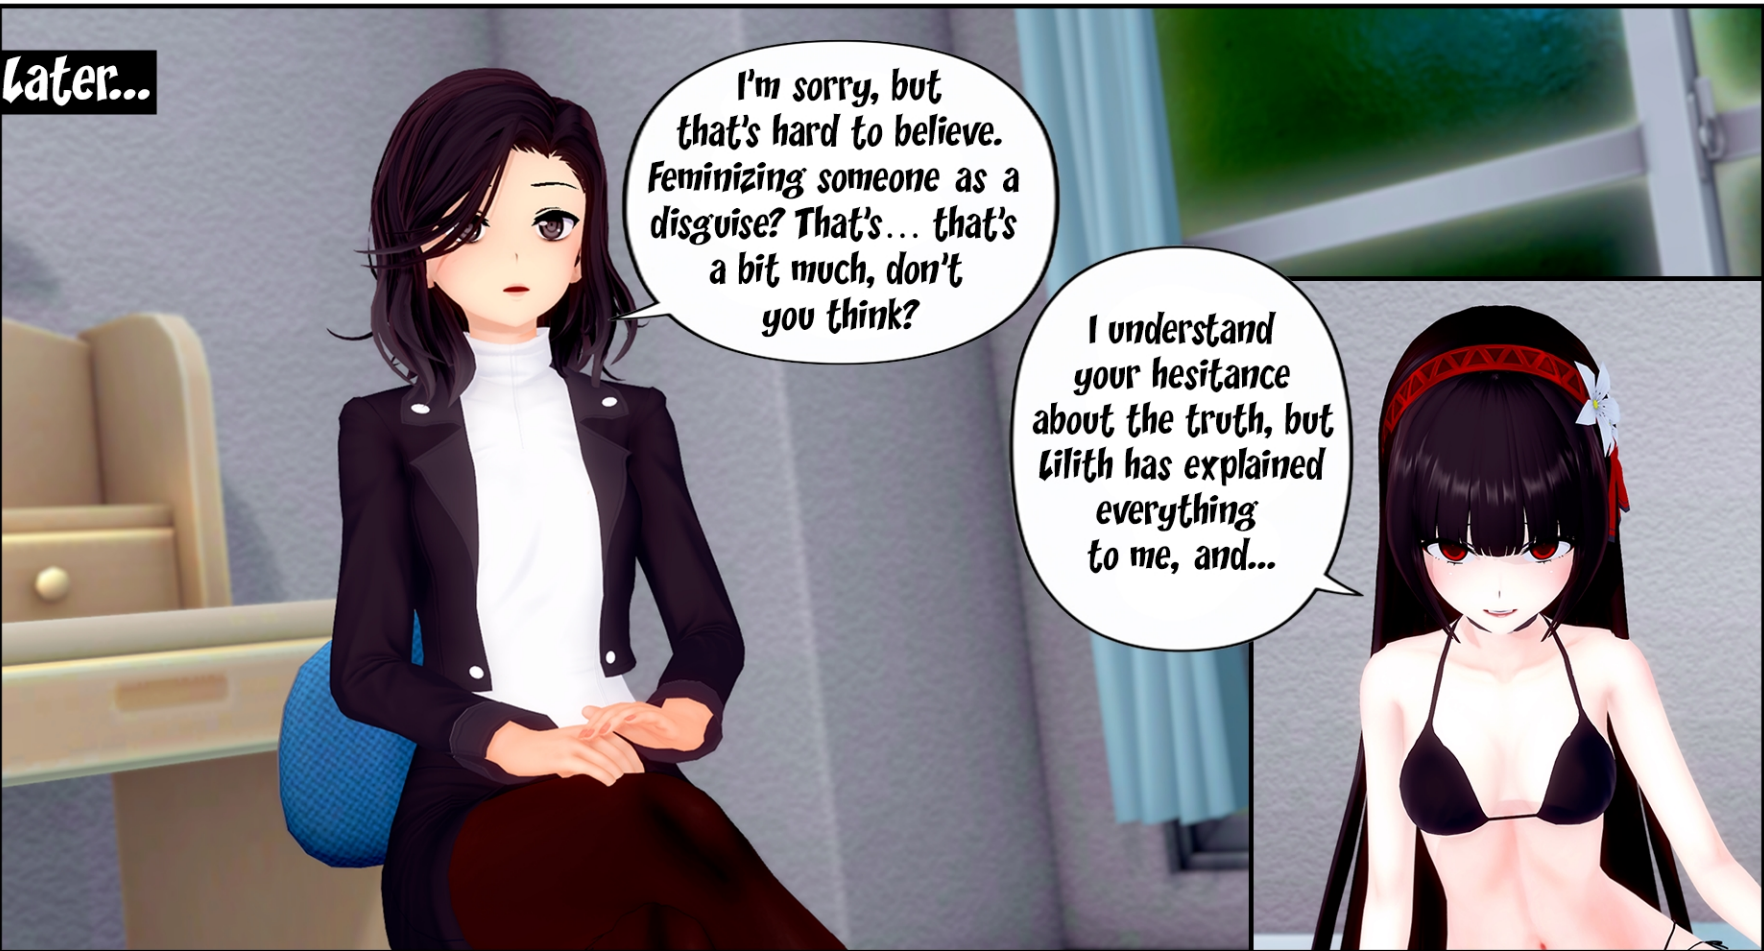

If the remaining
one isn't functioning,
it means his body
won't be able to produce
testosterone or sperm.
Fertility options would
be... Impossible.

Mei
Unable
to produce
testosterone...
I see...

Later...

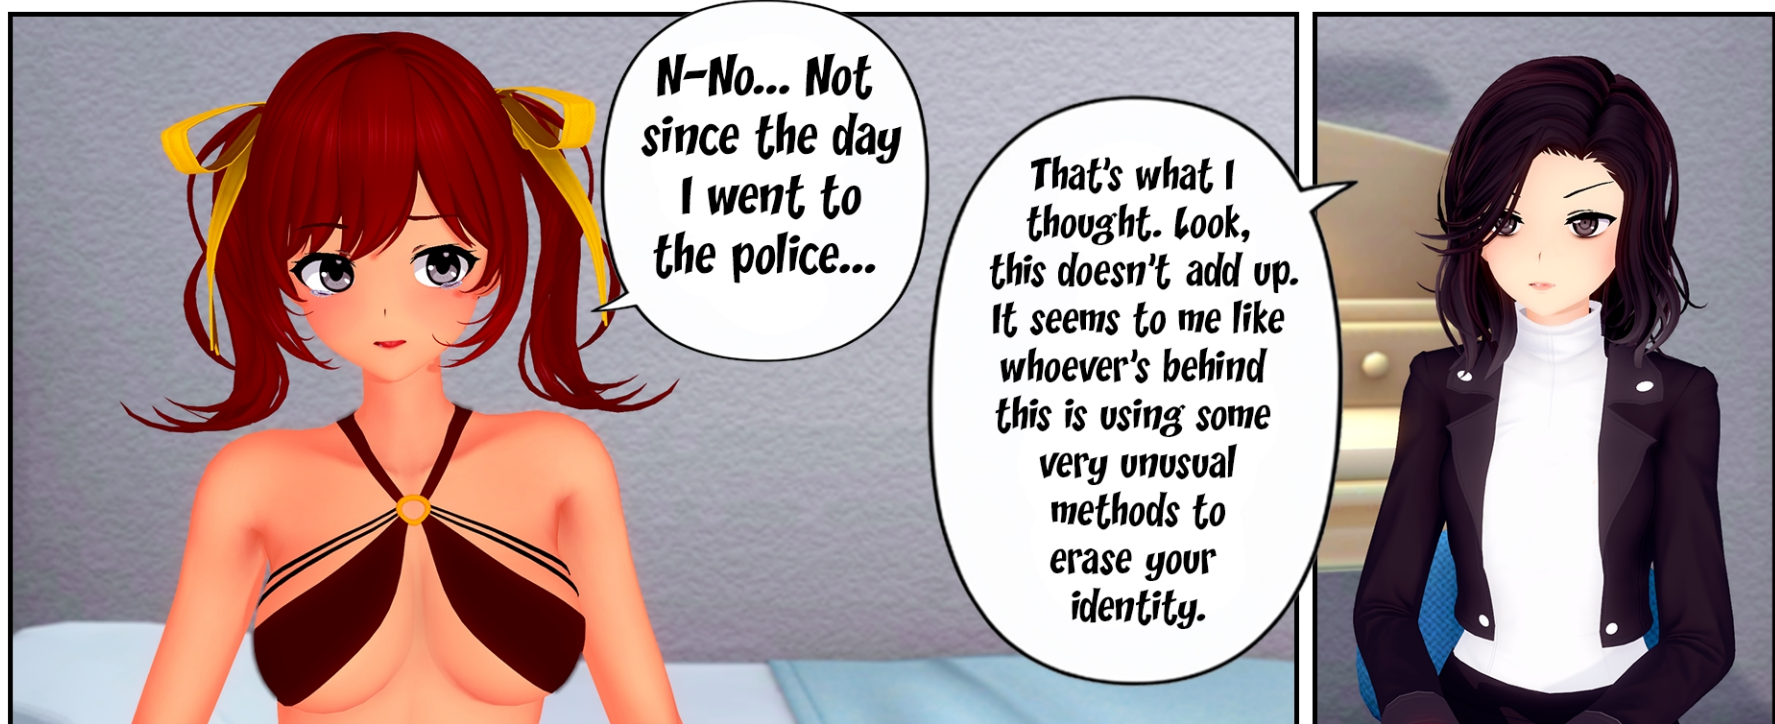

I'm sorry, but that's hard to believe. Feminizing someone as a disguise? That's... that's a bit much, don't you think?

I understand your hesitation about the truth, but Lilith has explained everything to me, and...

Wait, wait Lilith? You're telling me the same person who put Leona on these medications? And you're still trusting her?

Tell me, Leona. have you received any updates? Any proof of this witness protection claim? Official papers, contact from the authorities?

N-No... Not since the day I went to the police...

That's what I thought. Look, this doesn't add up. It seems to me like whoever's behind this is using some very unusual methods to erase your identity.

Of course... after being overworked, I get dragged into a damn conspiracy.

It looks like you've been lied to. It's possible that the person who's been pulling the strings isn't protecting you, but trapping you.

Lilith would never do that... She wouldn't...

Hmm.. The doctor brings up a good point...

Though... why would Lilith ask me to help? And why is she still dealing with everything surrounding Leona? There's a variable at play... but what?

Wait... could it be?

*Maybe...
she started
to like him?
Want him?*

*Then... if that's
the case, she'd
have to go after
the people who hired
her. It all fits...
it makes sense.*

The best course of action is to feign ignorance until Lilith eliminates all of Leona's threats, then I'll eliminate her.

Hmm.. We should probably call the police.

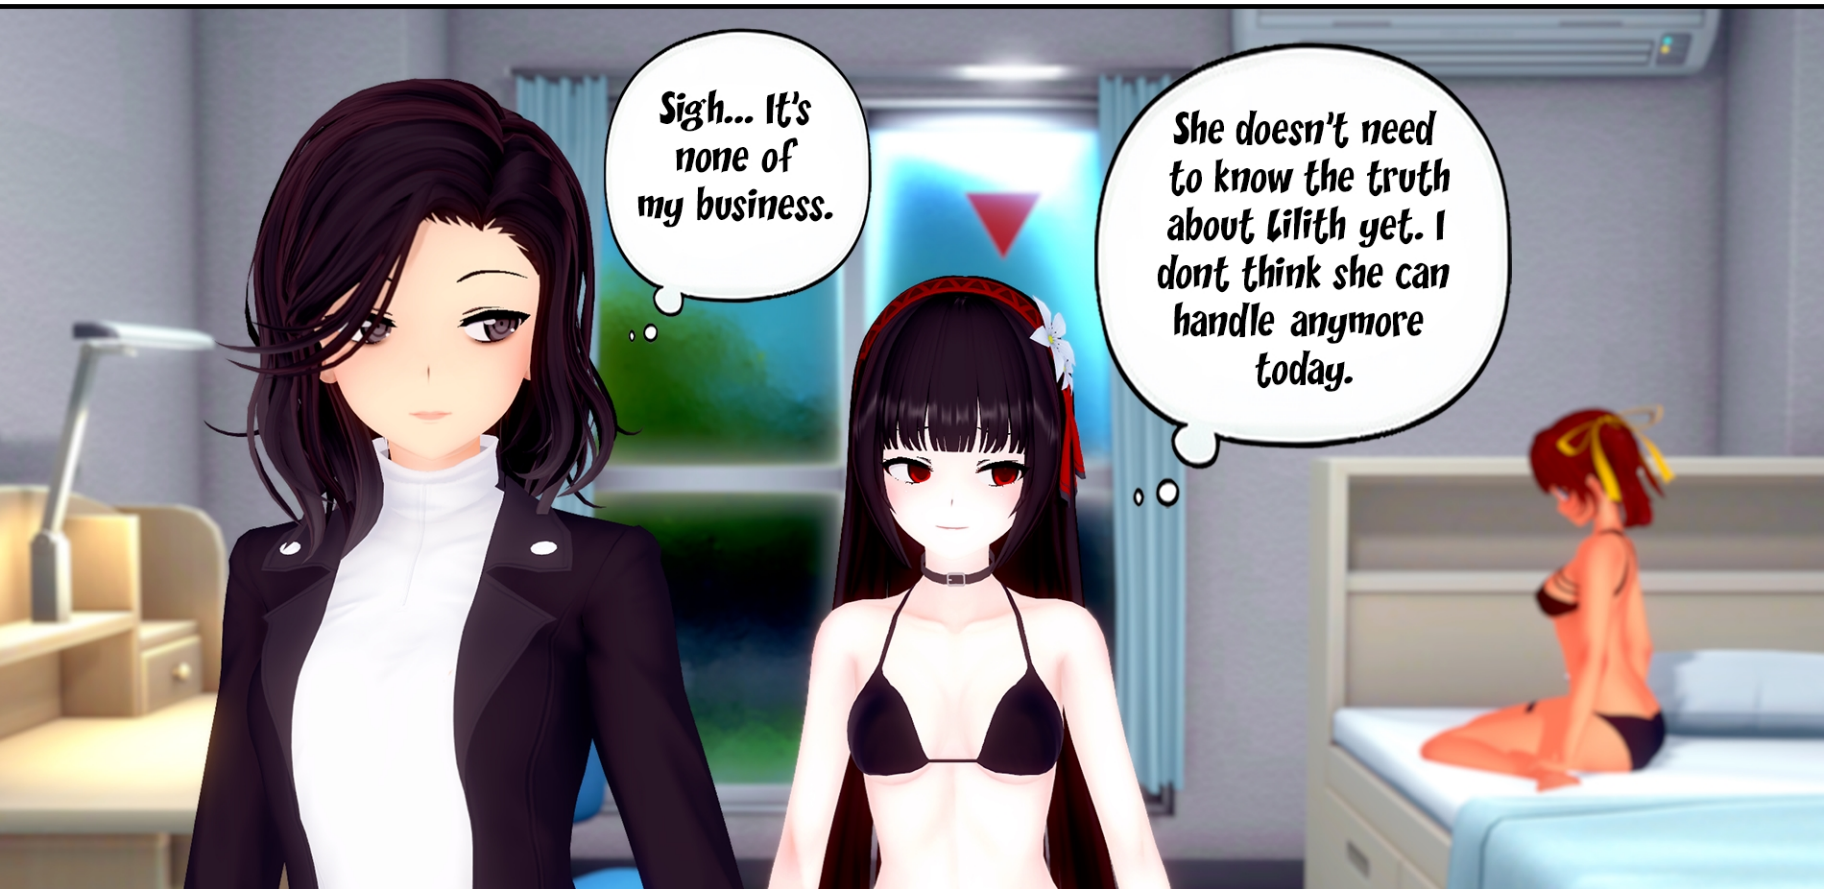

No. I've seen some documentation... Leona's Witness Protection is real.

I... I knew it Lilith wouldn't hurt me!

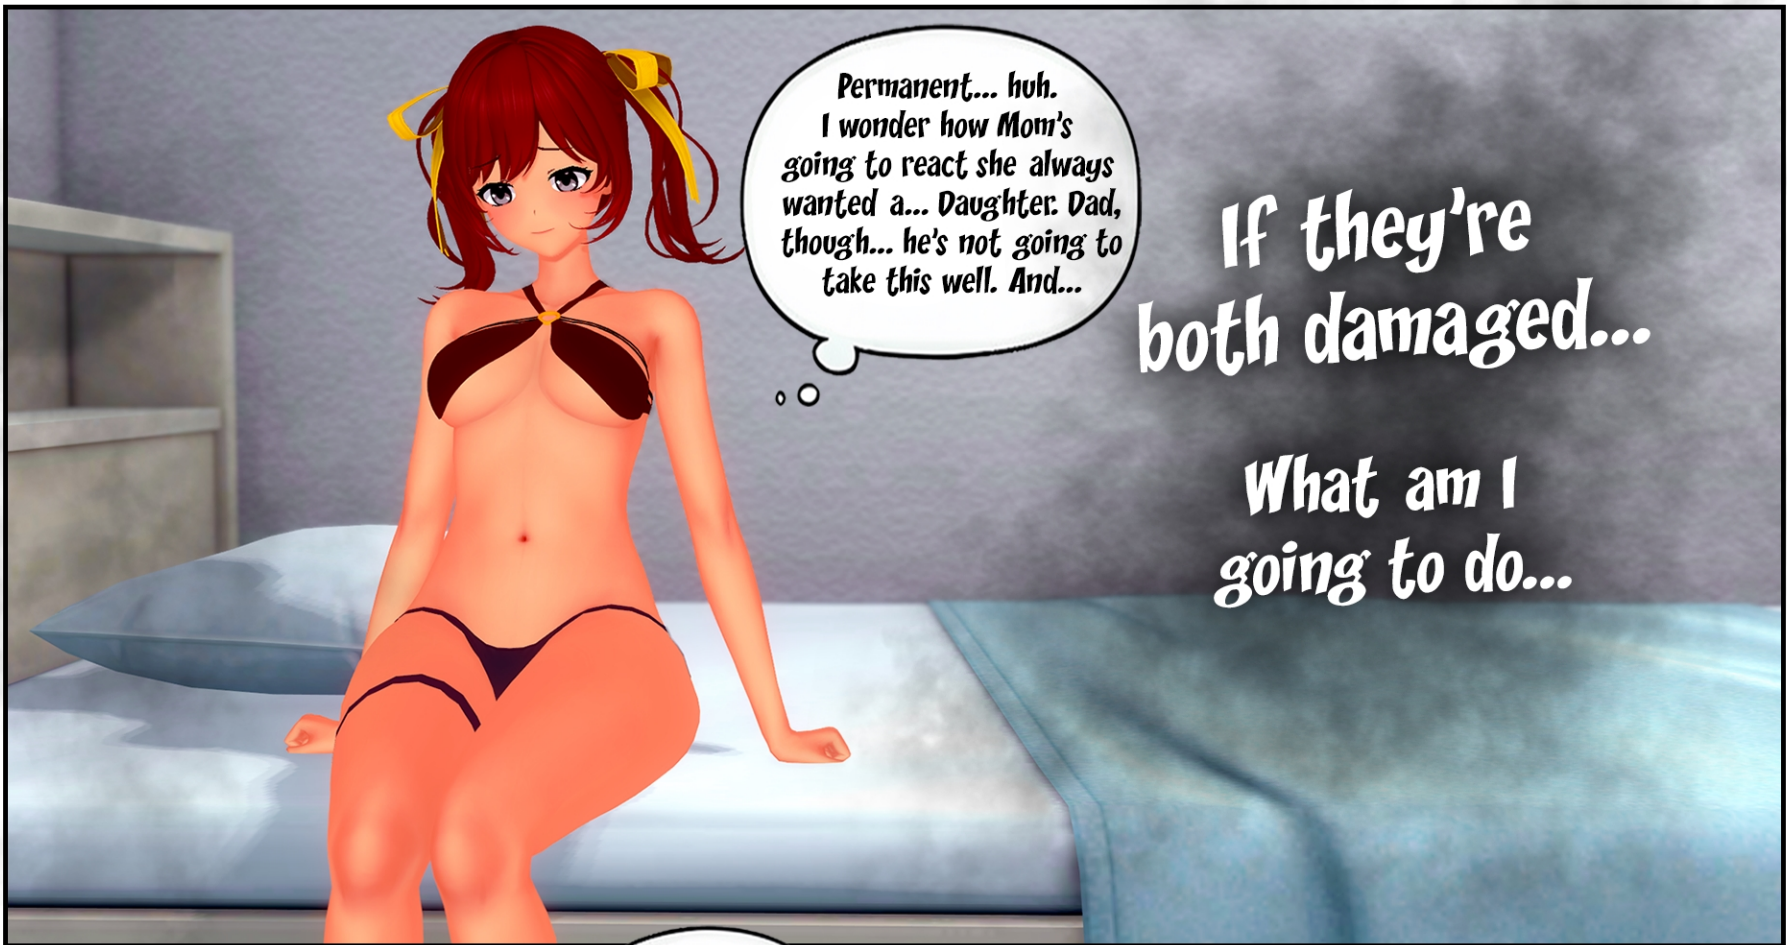

Doc could we talk in private for a moment?

Sure.

Sigh... It's none of my business.

She doesn't need to know the truth about Lilith yet. I don't think she can handle anymore today.

Permanent... huh.
I wonder how Mom's
going to react she always
wanted a... Daughter. Dad,
though... he's not going to
take this well. And...

If they're
both damaged...

What am I
going to do...

No there's
still a chance
one of them
could be fine...
maybe

Wait... My... it's
smaller. A lot smaller.
No... This... this is
how it's going to be.
Forever?

If that's so... I'd
like you to know I don't
have any treatments
for a micropenis.

Micropenis...

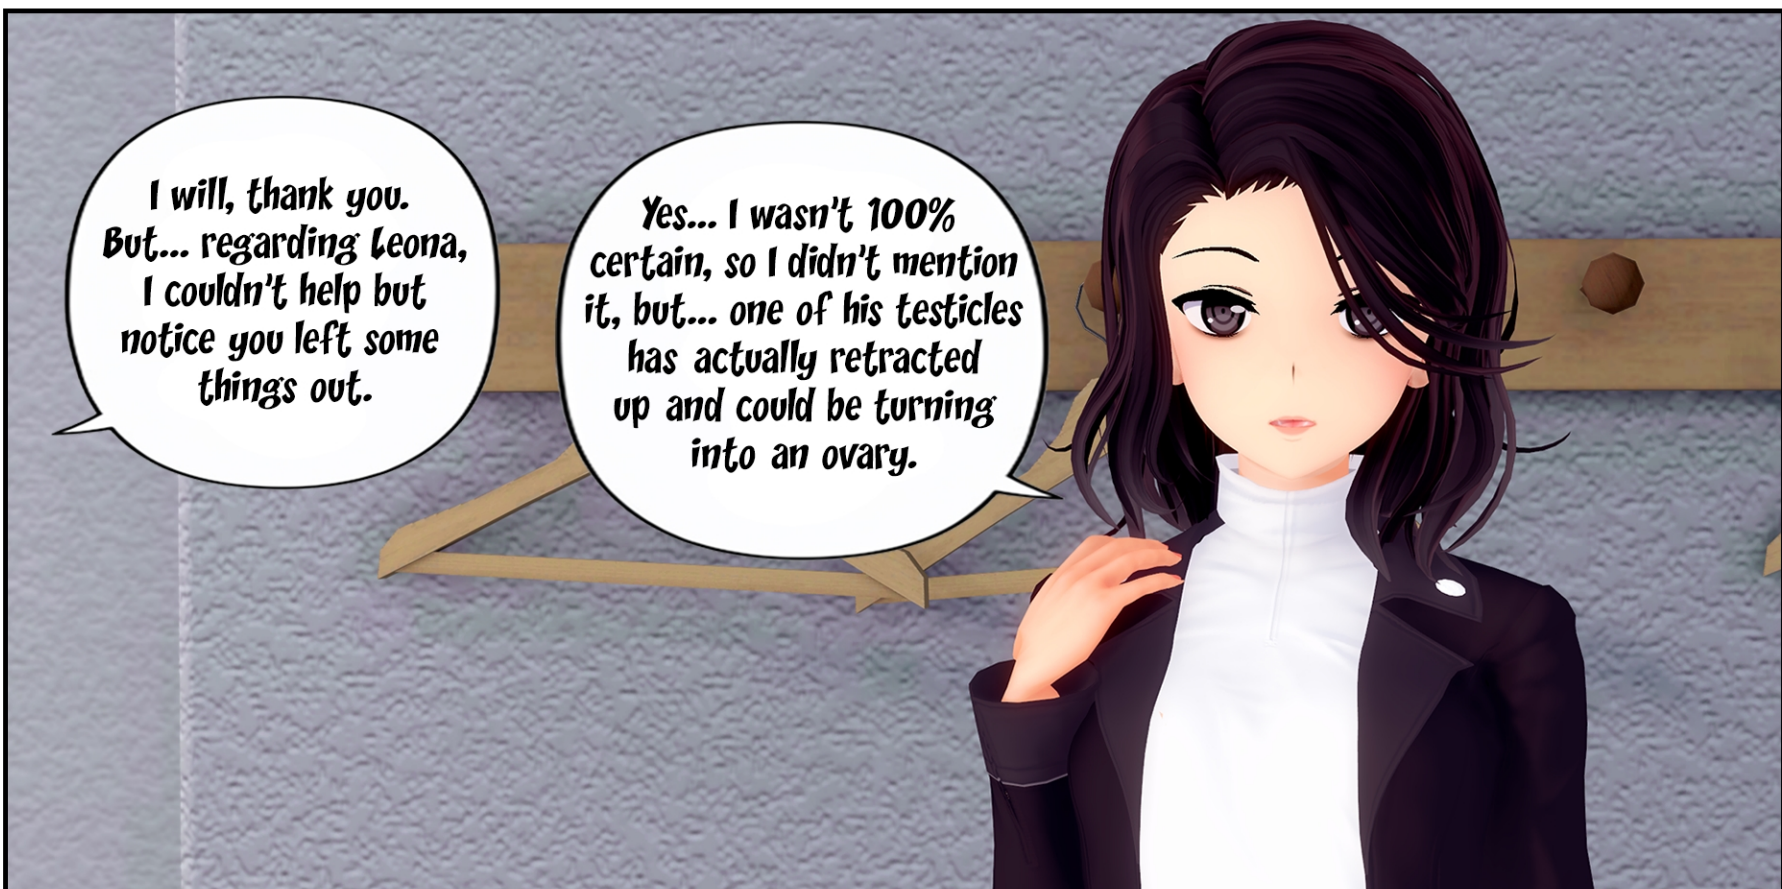

It's... micro. I'll never
be able to use it again.
It's useless now...
I'm useless...

This is a delicate situation. I need you to keep quiet about Lilith for now. I'll handle it from here.

I guessed as much, but ensure he does not take anything else from her.

I will, thank you. But... regarding Leona, I couldn't help but notice you left some things out.

Yes... I wasn't 100% certain, so I didn't mention it, but... one of his testicles has actually retracted up and could be turning into an ovary.

Ovaries...? T-That's not possible... Does that mean?

It's highly unusual, but yes... With the new ovary, he might continue to transform even without the medicine. He's now biologically half female.

**Thankfully
her life isn't
in danger.**

**Losing her
testicles and
gaining ovaries...
A definite
Improvement.**

**Is there any
way to reverse
the effects?
Could you,
I don't know,
reverse-engineer
the medicine
from her
blood?**

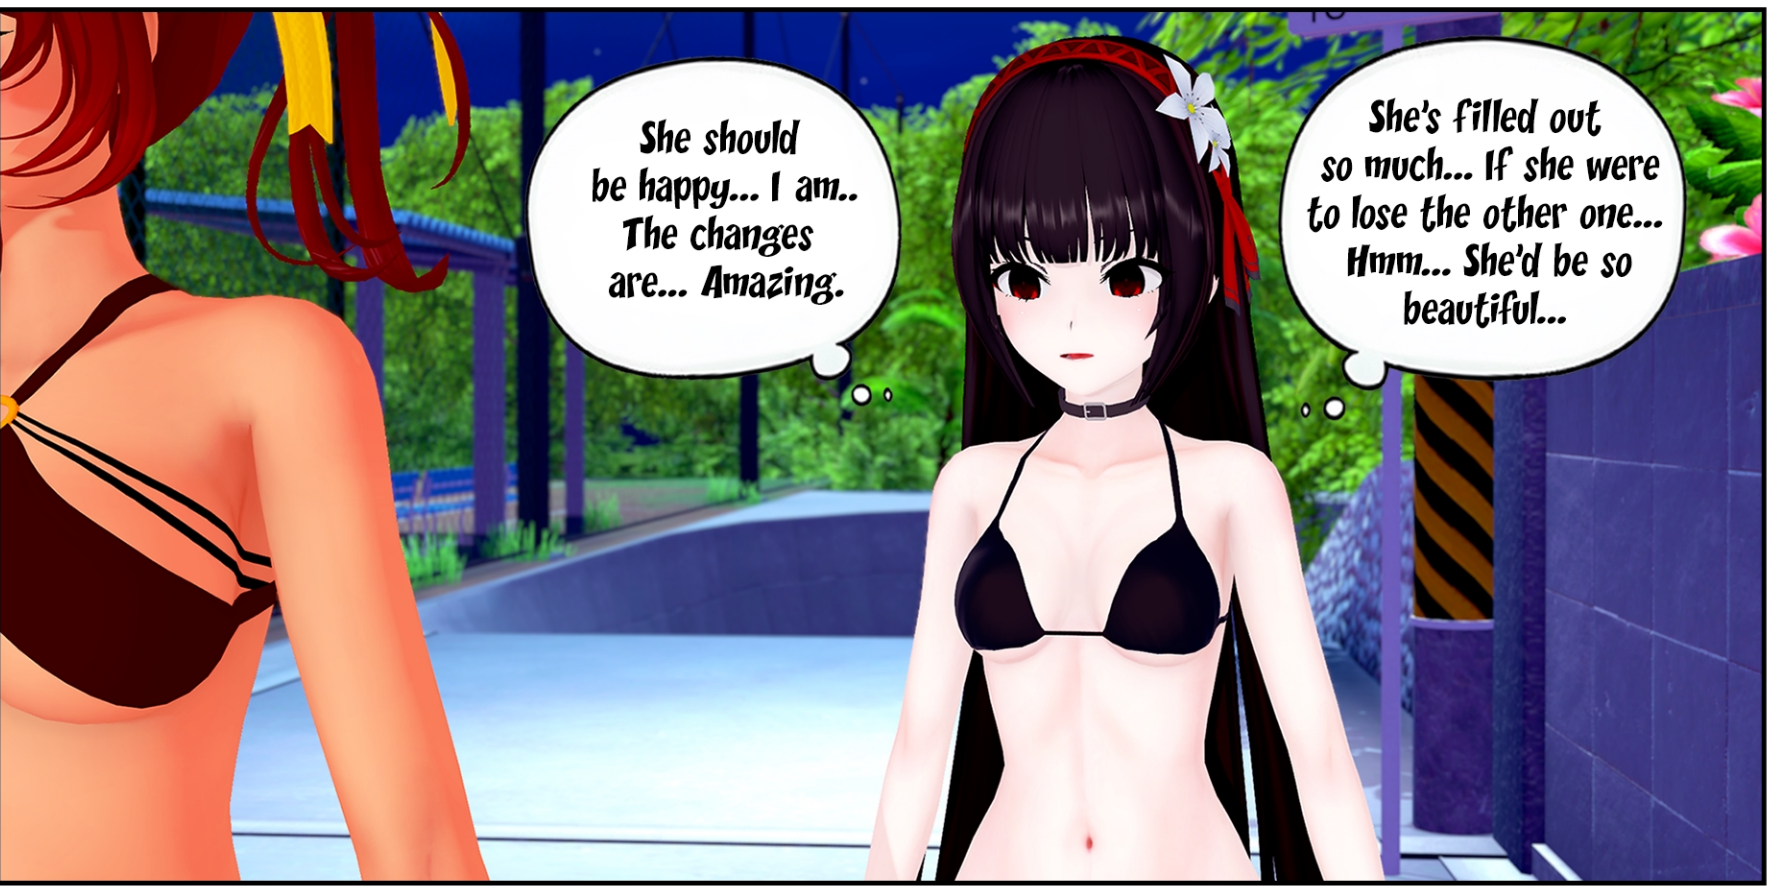

**With time
and resources,
maybe... But it
wouldn't be pure.
It could make you
half female, not
fully, because
of the impurities.**

**That's fine.
Half is all
I need...**

I'm upset for her but... It's just a testicle...

She should be happy... I am.. The changes are... Amazing.

She's filled out so much... If she were to lose the other one... Hmm... She'd be so beautiful...

Hmm... Leona~

I've never done it in public. Care to change that with me?
