A woman with long, wavy red hair, seen from behind, wearing a white dress. She is looking through a dark metal gate at a person with blonde hair who is behind the gate. The scene is set in a stone-walled area, possibly a prison or a castle. A wooden door with a metal band is visible on the left.

LET ME

LIVING HERE WITH  
ME!

OHHH I  
WOULD LOVE TO  
TELL YOU BUT FOR  
THE PAST WEEK YOU'VE  
BEEN HOOKED UP TO ONE  
OF MY MACHINES THAT  
HAVE BEEN INJECTING  
YOU WITH A SERUM  
THAT I HAVE  
CREATED!

I DON'T BELIEVE  
YOU  
\*SOB\*

WHAAAT ARE...  
\*SOB\*

\*SOB\*

WHAAAT  
DOES A  
\*SOBBB\*  
MONKEY HAVE TO  
DO WITH ME?

THE PLASTER IS  
PROOF ENOUGH  
FOR NOW!

WELL  
YOU'RE  
GOING TO  
FEEL A LITTLE  
DROWSY NOW,  
FOR THE  
INHIBITORS THAT  
ARE RUNNING  
THROUGH YOUR  
VEINS ARE GOING  
TO PRODUCE A  
PATTERN OF  
SLEEP FOR  
YOU!

OH THEY'RE  
PERFECTLY SAFE,  
IN FACT IT'S THEM  
THAT ARE STOPPING  
THE SERUM I PUT IN  
YOU FROM  
BEGINNING ITS  
COURSE!

YOU YOU  
INJECTED ME?

WHAT HAVE YOU  
DONE TO ME?

INHIIIIIBBBB?

YYYYOUUUUR MAAA

A woman with long blonde hair, wearing a white lab coat, stands with her back to the camera, talking to a woman who is sitting in a cell behind metal bars. The woman in the cell is wearing a white top and has a pained expression. The background is a dark stone wall.

SUPERB THE  
INHIBITORS ARE  
NEARLY ALL GONE AND  
YOUR CHANGE WILL  
BEGIN KERRY!

OWWW MY HEAD?

I DID  
WANT TO THROW  
YOU IN HERE NAKED, BUT  
NICE MR GORK WANTED YOU  
TO LOOK NICE FOR YOUR  
UNVEILING TO EROS...  
AND THAT WAS THE OUTFIT  
YOU WAS KIDNAPPED  
IN...

BUT HEY DON'T  
WORRY ABOUT THE DRY  
CLEANING BILL YOU'LL  
MORE THAN PAY ME BACK  
FOR THAT I CAN ASSURE  
YOU MY DEAR!

CHHHHHANNNGE...  
OWWW MY HEAD?

WHAAAA HAVE YO000?

IN FACT NOW  
YOU'RE IN HERE WITH  
EROS, YOU REALLY  
DON'T HAVE ANYTHING TO  
WORRY OR CONCERN  
YOU ANY MORE  
EITHER!

THAT'S IT KERRY  
GO TO SLEEP!

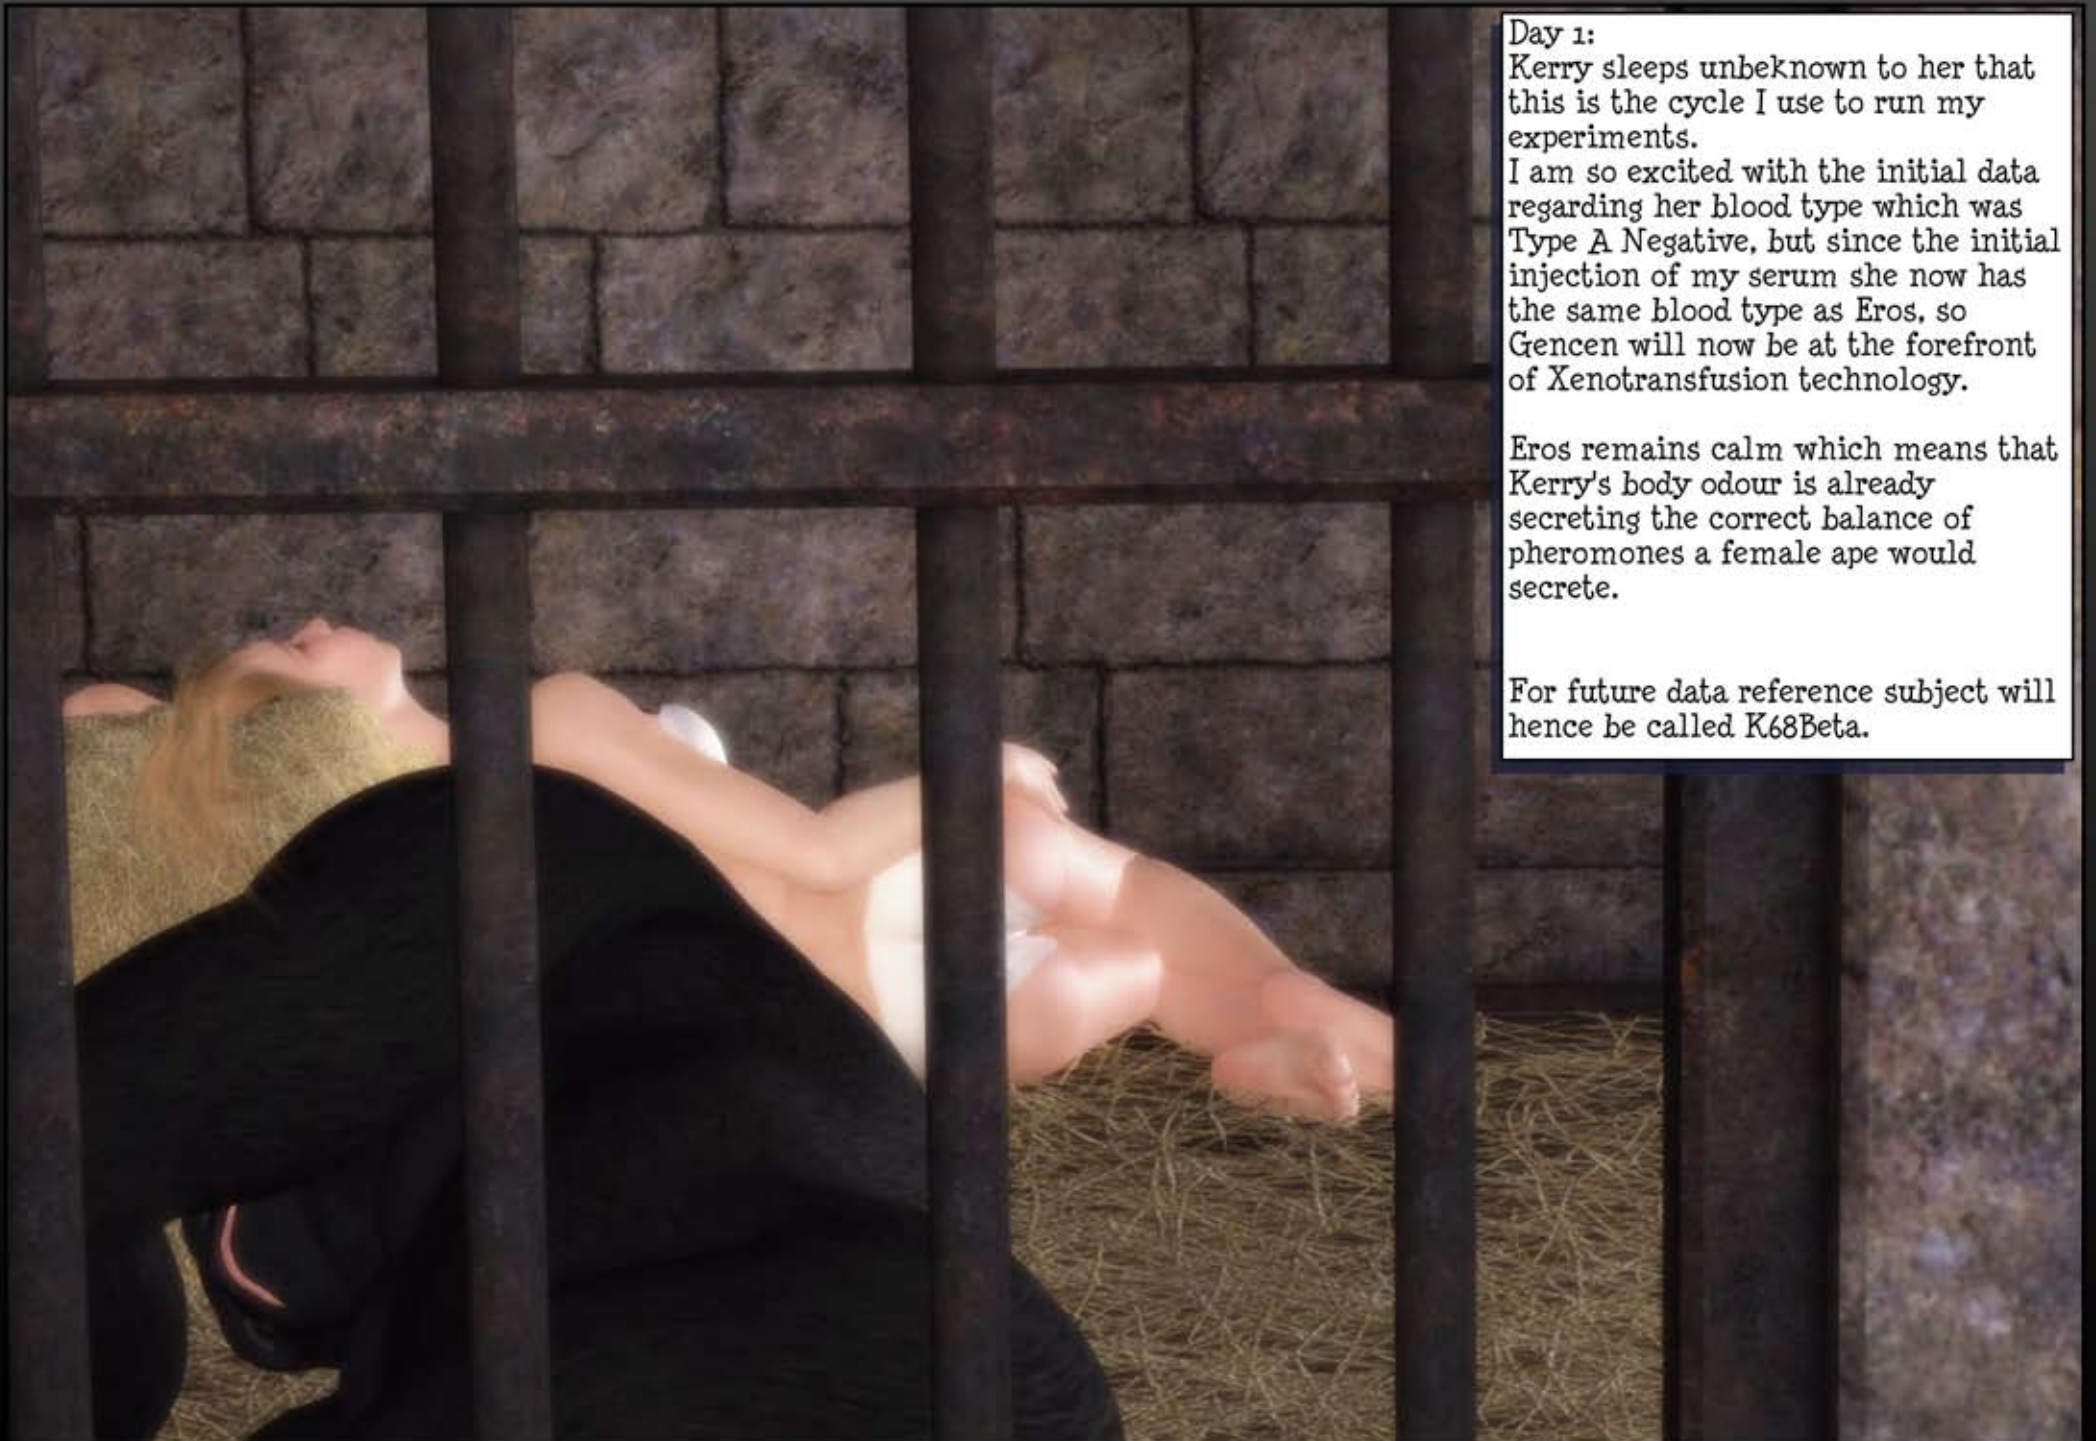

MUUUSTT  
SCHLEEEP...

BEFORE I GO I WILL  
HAVE TO TELL YOU THAT I  
WILL BE THE LAST PERSON  
YOU'LL EVER SEE AS  
KERRY PARMINTER

NOOOSCHLEEEP  
MUST ????

AND SO KERRY SLEPT,  
AND AS SHE DID GORK  
CAME INTO HER CAGE  
AND REMOVED HER  
DRESS...

Day 1:

Kerry sleeps unbeknownst to her that this is the cycle I use to run my experiments.

I am so excited with the initial data regarding her blood type which was Type A Negative, but since the initial injection of my serum she now has the same blood type as Eros, so Gencen will now be at the forefront of Xenotransfusion technology.

Eros remains calm which means that Kerry's body odour is already secreting the correct balance of pheromones a female ape would secrete.

For future data reference subject will hence be called K68Beta.

NICE  
MONKEY!

SHIT  
THAT MONKEY  
IS STILL  
HERE?

WHAT  
THE FUCK IT  
HAS MY  
DRESS?

THEY  
MUST  
HAVE TAKEN  
IT FROM ME  
WHILE I WAS  
OUT...  
OHH GOD WHAT  
ELSE COULD  
THEY HAVE  
DONE?

AND AS ANOTHER DAY  
PASSES, WITH ONLY THE  
SMELL OF THE GORILLA!  
AND ITS SNORTS TO KEEP  
HER COMPANY...

\*SOB\*

NO  
ONE IS  
GOING TO  
COME FOR  
ME

I ERGHH...

Day 2:

Subject K68Beta notes:

Still coming to terms with her imprisonment, although in a few days time I would like for her to think of it as her home.

Physical State:

No apparent changes other than her body hair seems to be growing, all previous data tends to show that changes are happening within her body, although I note a slight change to her feet

Mental State:

Subject has now become withdrawn and weepy.

Dietary State:

No food consumption or water has been taken by K68Beta

ARGHHH  
MAAAA  
SHROATT?

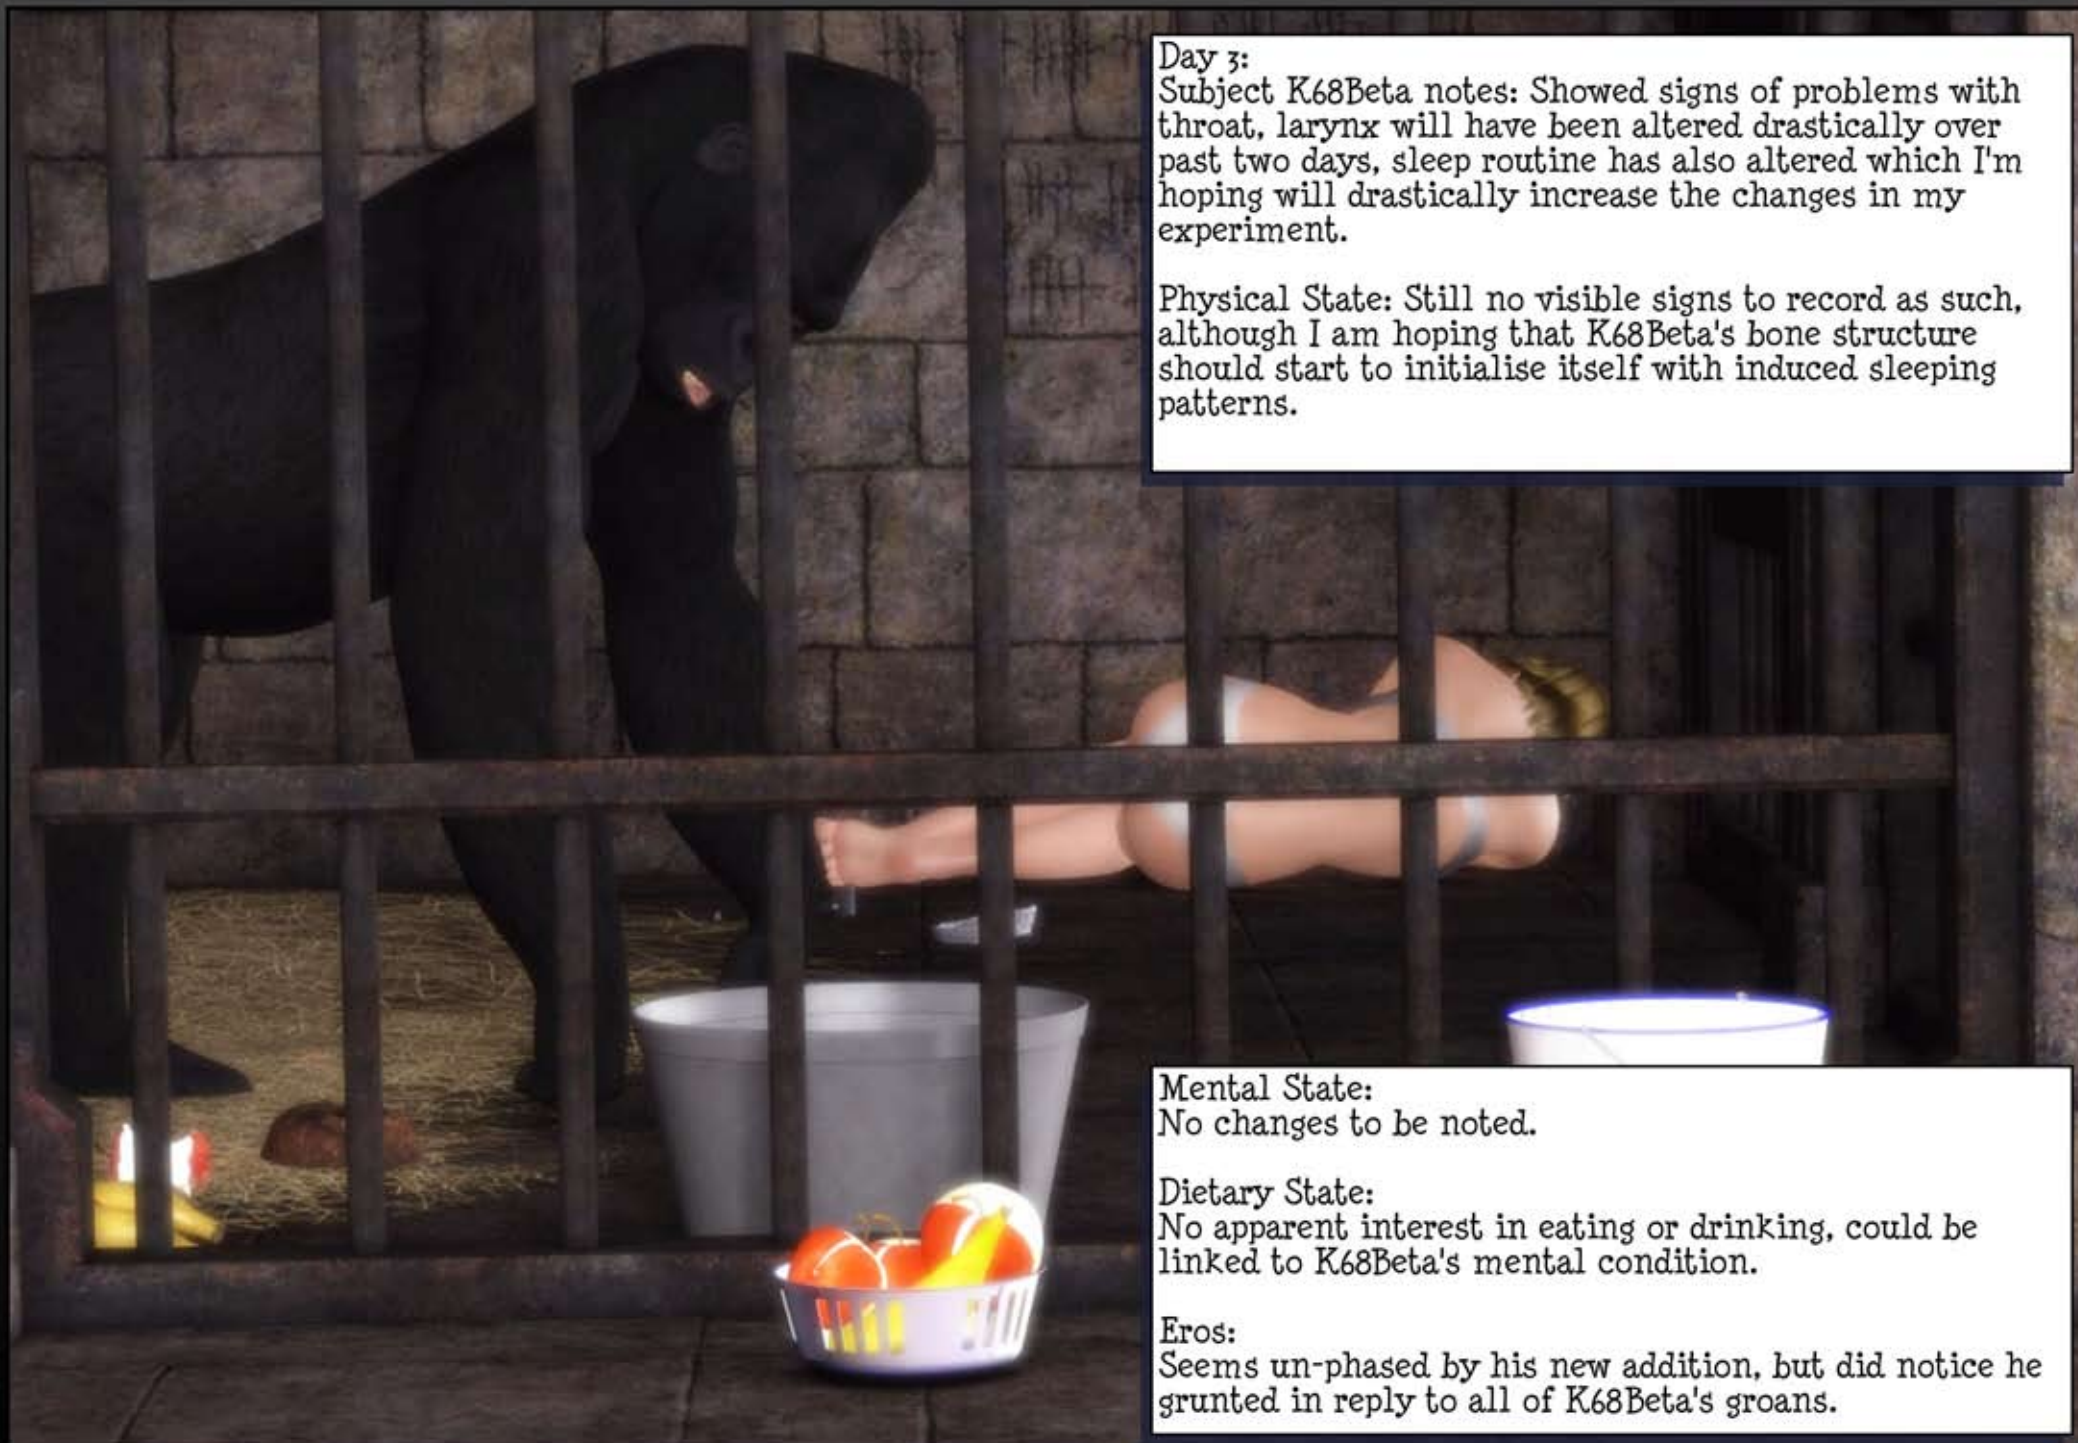

MY  
THROAT  
FEELS LIKE I  
HAVE  
SOMETHING  
STUCK IN IT  
AND MY?

OHHHH  
GOD NOOO MY  
ARMS HAVE GOT  
HAIRY?  
WHAAAAT HAS THIS  
WOMAN DONE TO  
ME?

EYAGGGGG  
SHN0000RR!

UUKKKKK?

**Day 3:**  
Subject K68Beta notes: Showed signs of problems with throat, larynx will have been altered drastically over past two days, sleep routine has also altered which I'm hoping will drastically increase the changes in my experiment.

**Physical State:** Still no visible signs to record as such, although I am hoping that K68Beta's bone structure should start to initialise itself with induced sleeping patterns.

**Mental State:**  
No changes to be noted.

**Dietary State:**  
No apparent interest in eating or drinking, could be linked to K68Beta's mental condition.

**Eros:**  
Seems un-phased by his new addition, but did notice he grunted in reply to all of K68Beta's groans.

ARGHHH  
HEAD HUUUR?

BRAAA  
FELL?

NYAAAKK  
GORRR

Day 4:

Subject K68Beta notes: What a morning for my research.

Physical State: Bone structure changes are now visible, cranium has expanded along with jaw and chest area, teeth show visible signs of change from human to mammal, however fingers seem to have stiffened, which is a slight concern.

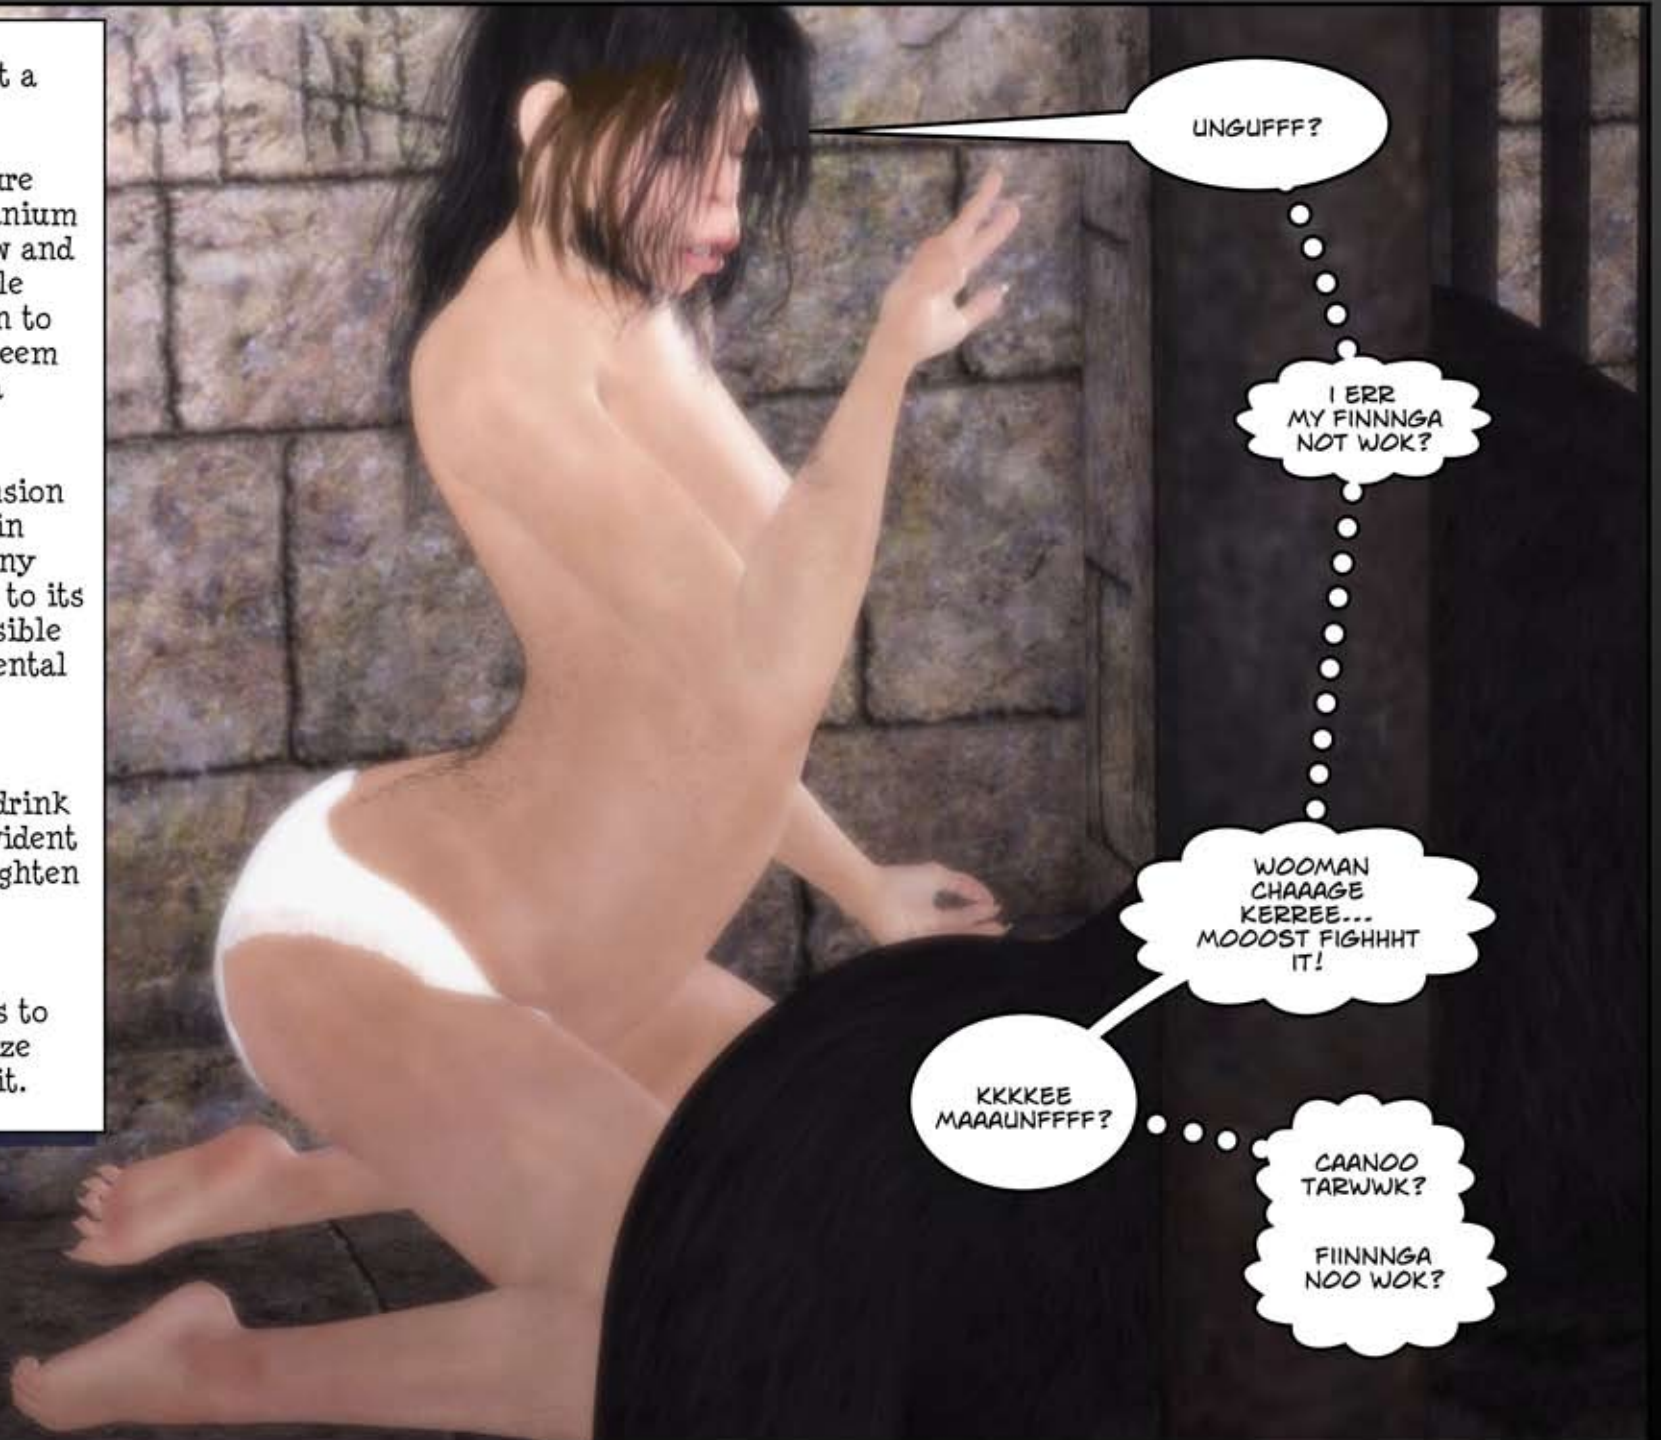

Mental State: Cranial expansion is pressing on K68Beta's brain which will cause loss of many hereditary senses, alertness to its changes are causing very visible signs of its deteriorating mental condition.

Dietary State:

Still no interest in food or drink consumption, but today's evident changes should begin to heighten its need for sustenance.

Eros:

Obvious pheromone changes to K68Beta have caused my prize asset to find an interest in it.

UNGUFFF?

I ERR  
MY FINNNGA  
NOT WOK?

WOOAN

HOWEVER UPON LIFTING

RESULTING

\*GRUNT\*

AN OFFER HER  
GRUMBLING STOMACH  
COULD NOT REFUSE...

MOONKEE HEEEP  
KEREER...  
MUSHHH FOOLD EAT!

Day 5:

Subject K68Beta notes: Wonderful developments a eureka moment I think they call it!

Physical State: With my serum rapidly stripping away every human trait of K68Beta I guess we should start referring to her as Eros's mate.

Mental State: Cranial change has advanced wonderfully, preliminary results indicate that extra bone mass is pushing the brain into a very Neanderthal like stasis and with my serum adapting to this change K68Beta will soon find it difficult to construct a thought in its head.

Dietary State:

The need to eat finally arrived for our soon to be ape, although water has still not been a required item for her.

Also she has begun excreting waste so will need to analyse this.

Eros:

Sexual characteristics of Eros's soon to be mate are taking shape well, I do expect to see him begin dominance over her.

DR LIVESY'S DATA WAS NOT FAR FROM THE TRUTH ON KERRY'S MENTAL CONDITION...

KEEEREE  
MYWASSHH  
NYYYAKK...

NYYYAKKK?

THE SERUM HAD TAKEN HOLD COMPLETELY AND HER NEW CRANIUM MASS WAS SHAPING HER BRAIN INTO THE CREATURE SHE WAS DESIGNED TO BECOME...

#### Day 6:

Subject K68Beta notes: Sexual characteristics seem to be completed K68Beta's internal organs seem to be intact.

Physical State: Muscle growth has begun and skin has now formed a heavy hairy base.

Mental State: Cranial changes have shown our former human female to now be of low intelligence and am hoping these indications point to its brain gradually being pressed into the shape of an adult primate.

#### Dietary State:

Tests on excrement show positive signs that all internal organs such as intestines stomach and bowel are now 100% ape.

Lack of urine is still a major concern but this could be down to the very evident changes in vagina and womb.

#### Eros:

has been constantly picking and nudging her and his sniffing of her newly developed vagina and back passage means he finds her attractive.

KERRY PARMINTER'S  
HUMAN TRAITS WERE  
DISSOLVING WITH EVERY  
HOUR...

HOOO  
OOOOOWWW  
OOHHHUGHHH!

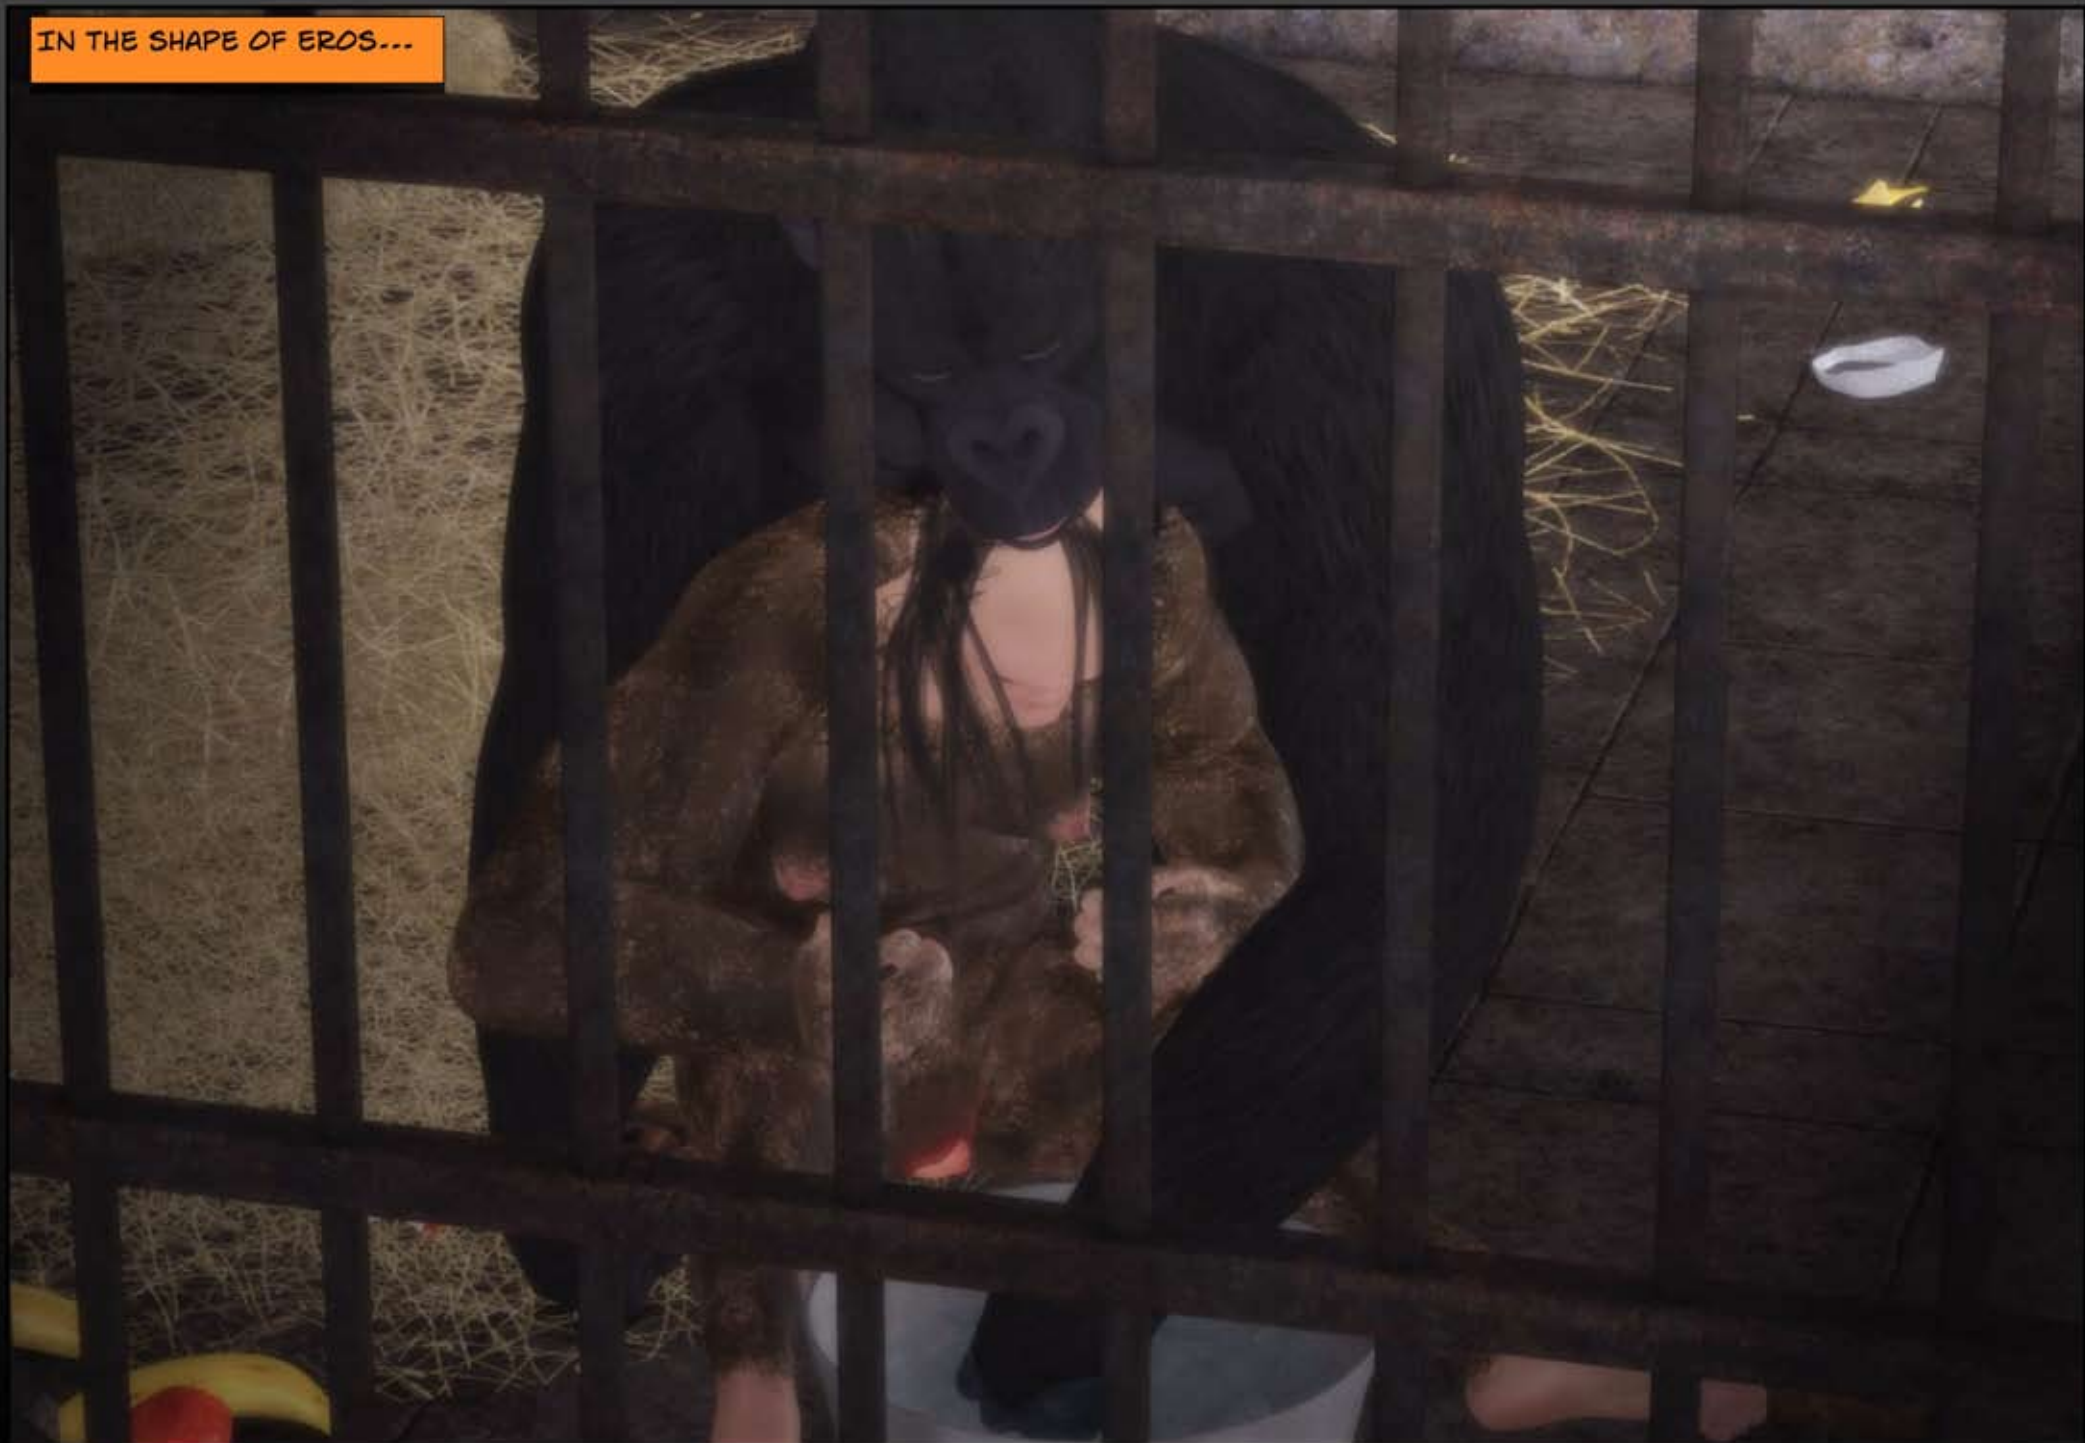

MYWASHH  
HH KEER OOO  
OOOGOW!

AND FOR THE FORMER OIL  
BARON'S DAUGHTER HER  
LAST VESTIGES OF BEING  
HUMAN WERE ABOUT TO  
DISAPPEAR...

\*GRUNT\*  
\*SCNOORT\*

AND UNFORTUNATELY FOR  
KERRY, HER NEWLY  
CRAFTED ANIMALISTIC APE  
MIND WAS ABOUT TO SEAL  
HER FATE...

IN THE SHAPE OF EROS...

OOOOS  
HAAAAA  
\*SCHNORT\*  
AGG AGGG  
AGGG!

OOOOGHHHA  
AAAAA!

schlurpp

Day 7:

Subject K68Beta notes: What a difference a day makes. K68Beta has all the traits of the ape I designed her to be.

Physical State: Muscle growth is still slow in its build. Bone structure is nearly complete, arms have grown longer and legs shorter, the back is permanently arced and all feelings to fingers and hands show normality.

Mental State: This maybe the last recorded data on this as subject is now mentally an adult primate.

Dietary State: This will be the last recording for this section as subject's diet is that of an ape and all expulsion is that of an ape too.

Eros:

My prize has been ecstatic at what he has unearthed in the former human female, he has shown complete dominance over her and follows her endlessly as she tries to get away from him. I am expecting complete surrender to him very soon.

EROS HAD INDEED BEEN PLAYFULLY FOLLOWING KERRY AROUND AND ALTHOUGH HER NATURAL APE INSTINCTS WERE ALL IN PLACE, IT NEEDED SOMETHING ICONIC TO MAKE HER ACCEPT THE ADVANCES OF THE MALE APE THAT WAS COURTING HER...

OOO  
UGHHH  
GGGAAA

AND KERRY'S DRESS WAS THAT VERY ITEM...

ALL THAT WAS LEFT OF  
KERRY WAS A RESIDUAL  
FLASH OF A MEMORY THAT  
FELT STRANGE, BUT  
ACCEPTING TO HER  
PRIMATE MIND...

\*GRUNT\*  
AGGGGAAAA!

OOOWWW  
OOOWWW  
UGGGG HHHHAAA

EROS RESPONDED  
INSTINCTIVELY AND BEGAN  
TO GROOM AND PICK AT  
HER FUR

KERRY HAD BEEN COURTED BY EROS AND COULD ONLY ACCEPT THE GESTURES OF WHAT WAS HER PRIMATE'S OPPOSITE GENDER'S REQUIREMENTS...

Day 8:

Subject K68Beta notes: I have to admit I am truly shocked to see yesterday's footage, a tear fell from my eye when I witnessed the moment of Eros and the former human woman's bond.

Physical State: Slowly gaining the appropriate weight for a female ape.

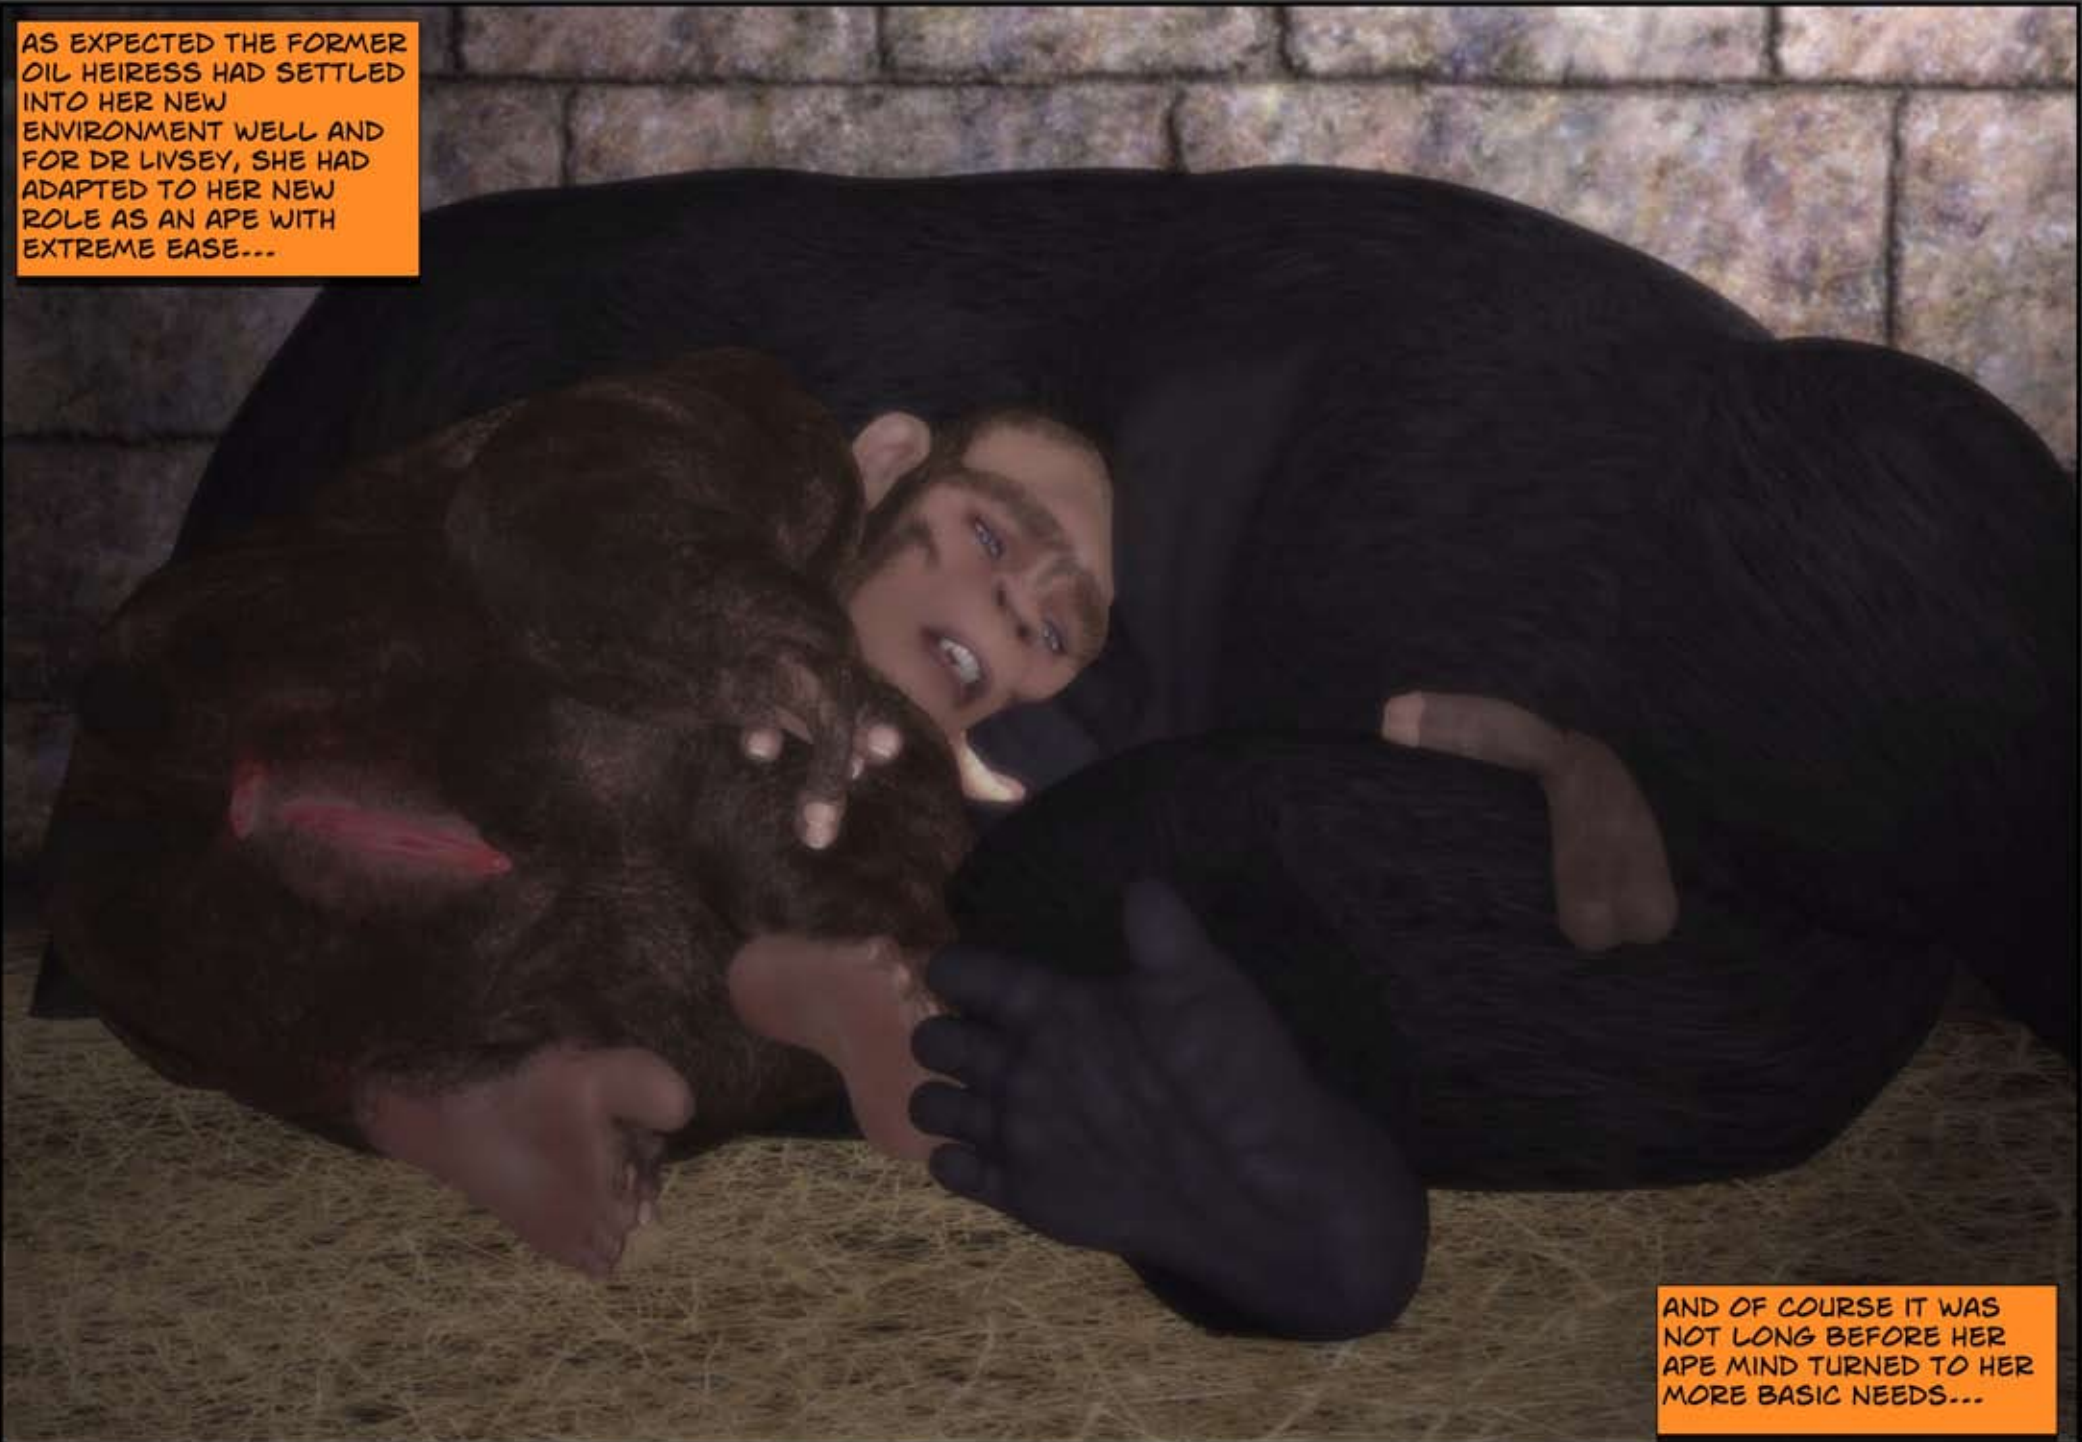

Mental State: There is no doubt that we have witnessed the human female's complete descent into a primate.

Eros:

My prize looks to have got himself a mate and I look forward to the mating process, especially as it is the female of the species that initiates this procedure.

AS EXPECTED THE FORMER OIL HEIRESS HAD SETTLED INTO HER NEW ENVIRONMENT WELL AND FOR DR LIVSEY, SHE HAD ADAPTED TO HER NEW ROLE AS AN APE WITH EXTREME EASE---

AND OF COURSE IT WAS NOT LONG BEFORE HER APE MIND TURNED TO HER MORE BASIC NEEDS---

AND THUS BEGAN...

NYAAA GHA

EROS'S MATE SEXUAL FOREPLAY...
